it further. filed despite this urgent and

Island Condon has not been cleared for access to its restricted files.

Replying the House Committee ccusation, Condon retorted:

"This is gratifying information because I'm absolutely reliable and therefore we have nothing to worry about. The country can relax '
To an accusation that he "knowingly or unknowingly entertained and associated" with alleged Russian spies, Condon commented to a reporter:

"That's just too vague to talk about. I certainly didn't do it knowingly. At a three-hour closed session

with commission members, Hick-enlooper said the special Senate-House Atomic Energy Committee was told: The commission has an FBI

report on Condon. (An FBI report that Condon associated with alleged Soviet espionage agents was mentioned in the report of the House Un-American Affairs Committee).

The commission has not de cided whether to clear Condon for access to its files. Hickenlooper noted that as

physicist, of 25 years standing, Dr. Condon had worked on the wartime Manhattan atomic project. He said subsequently Con-don was a scientific adviser to Potash, the latest to be picked the special Senate committee up in the Justice Department's which drafted the Atomic Energy Act.

As adviser to the special Sensaid by the department to be a ate group, Hickenlooper said Condon was present at closed meetings but heard nothing more there than information "fairly widely known to physicists gen-

Hickenlooper quoted commission members as saying they would give "every consideration" to the House committee's report before taking any action which would make top atomic secrets available

#### Student Elections

votes to 186 secured by Bobby

Parks. Another "chip off the old block," Bobby Morris, son of Prin-Thave heretofore made my block," Bobby Morris, son of Principal Herman E. Morris, was elected "County Superintendent of It further.

I again request that my name not filed for a position for High School's solid block of 189 tinued, adding that much of the votes gave him a total of 245 to criticism is "emotional or political" the 191 cast for his nearest opfriends to confine their pri-ary votes to others."

ponent, Billy Brinson, who got 173 votes at Seminole High School. The reply apparently left the Judge by getting 196 votes, 177

open for McConnell to go from Seminole High School, to ad with a move to place Vanthe 186 votes for Walter Routh, herg's name before Nebraska his nearest opponent, who had a lers. McConnell is chairman 185 Junior High School bloc vote.

With The Name Of

#### YOST FLOWER GROWER

I want to thank the public for the fine courtesy shown me as a florist,

Yost Flower Grower

Rear Admiral Richard F. Whitehead, (left), receives hearty best wishes from Rear Admiral E. C. Ewen, whom he recently succeeded in command of Naval Air Reserve Training for the entire nation. Admiral Whitehead is no newcomer to Naval Reserve activities, having enlisted in the Naval Reserve prior to World War I. He served as a Reserve Officer during the first war, and shortly thereafter was commissioned in the regular Navy. During the late war, he served as Commander, Support Aircraft Air Force, Pacific Fleet, and immediately prior to assuming the Naval Air Reserve Training Command was Commander of Carrier Division 14 which operated in

#### Steel Probe

"Not unless we make a mounain out of a molehill," Fairless ranging from \$100 to \$600. replied.

Both Fairless and Arthur B. Homer, president of Bethlehem Steel Co., told the committee they do not think a third round wage increase is justified.

Fairless said further wage ther inflation and distress for many of our people." He urged labor to forego its demand saying it would bring "still higher prices for most of the products of industry."

The committee called the steel makers to find out whether the \$4.85 a-ton increase in semi-finished steel prices will mean

higher living costs.
Fairless said the increase "too small and unimportant" to be inflationary. Its influence on the general price level has been n character."

Both Fairless and Homer told of rising costs. Fairless esti-mated labor costs of his firm were up 80 per cent since 1940, while he said worker output has dropped. . Senator O'Mahoney (D-Wyo)

fine of \$10,000.

Peace officers failing to make "diligent efforts" to prevent lynchings in their jurisdiction could be punished by five years imprisonment and a \$5,000 fine.

Any person injured by a lynch mob could recover up to \$10,000 from the community in which the incident occurred, provided the community did not prove that it had made every effort to prevent the violence. In event of death, the victim's heirs would receive the money.

These committee members were reported to have voted against the bill: Representatives Hobbs of Alabama, Kefauver of Tennessee, Bryson of South Carolina, Cravens of Arkansas, Chelf of Kentucky and Gossett of Texas, Democrats, and Fellows of Maine and Gwynne of Iowa, Republicans,

The southern "rebellion" has raised Republican hopes of winning the White House in next fall's election, but same party leaders say they anticipate a hard fight to keep control of the Senate in any event.

#### WEDNESDAY, MAR. 5, 1918

Do your part for disaster te lief. Contribute to the Red Cross

During the war we heard good deal about the long suffering public and the treatment he received from clerks, waitresses and others who were continually asking, "Don't you know there is a war on?" But now we are beginning to learn that the shoe is on the other foot. The public is becoming more and more exacting, more demanding Said a waitiess in a Chicago restaurant the other day, as she hurled a piece of pineapple pie in the face of an irate customer, "I just got fed up with irritable customers".

In this country we believe in of the press until someone under takes to tell the truth or say what he thinks. Then we get tough. In Pensacola the other day someone fired a shotgun blast into the home of the editor of the Pensacola Times after an editorial appeared sharply criticizing the police force. Previously a tocl. that can happen in this country. we can sympathize with the poor editor of a country weekly in era of wonders. Czechoslovakia who hopestly believes in the democratic form of

this would be while we did live! Like so many scientists, college professors, and intellectuals, Dr. Condon simply cannot believe that anyone, even a Communist. could be so low down as to belie The names of juvenile first of the treessary publicity can and often innocence cannot be undeserved. The News in connection with youngster ridiculed or shamed No doubt Dr. Condon is a splen, what they have done unless their feels that he is branded. He may

No doubt Dr. Condon is a splendid character. But he should have a nurse with him at all times.

We are not particularly concerned over the anti-lynching bill which passed the House Judiciary Committee yesterday and may soon become law. There was only one lynching in the South last year. And though the number may increase as northern agination continues, we do not expect it will ever again become the serious problem which it once was. What is more important to the people of the South now is not the anti-lynching bill but in the struggle between the Democratic and Republicans continues for the minority vote of morthern edits. The anti-lynching bill but other legislation bound to follow as the struggle between the Democratic and Republicans continues. The anti-lynching bill but of the struggle between the Democratic and Republicans continues for the minority vote of morthern edits. The anti-lynching bill but often legislation. The anti-lynching bill but often legislation. The anti-lynching bill but often legislation. The anti-lynching bill but often legislation bound to follow as the struggle between the Democratic and Republicans continues for the minority vote of morthern edition. In adopt the prolect that they be between the Democratic and the prolect provides the prolect prolect that they have to prolect that the protection mature that the public the retined to useful life. Clearly the policy which may make a useful Texan by merely not exposing a first juvenile of the prolect to shame—Dallam workers with juveniles is that un. tinues for the minority vote of northern cities. The anti-lynching bill is likely to be followed by a federal Fair Employment Practices Act and similar laws to abolish segregation.

President Truntag la not havhis candidacy for reselection. We have no doubt he would like to get out of it, but there doesn't seem to be the slightest chance. Nobody else would take the job unless it appeared likely that the breach could be lieufed between northern and southern Democrati as well as the former Henry Wallace wing of the party so that the nominee would have some chance of winning. As it minee, and on the surface he may the backing of outhern Democratic leaders as well as the northern political machines, but is much

#### Power From The Sun

Man's dream of converting the energy of the sun into mechanical power never loses its allure. B. D. Callity of the Massachusetts Institute of Technology has suggested to the American Institute of Mining and Metallurgical Engineers that special kinds of wire might be used to absorb the heat of the sun and deliver electrical power, on the principle of the thermocouple. The idea is not new, and the thermocouple has long been in use as a device to measure heat. Simply, the idea is that if a loop is made of two different metals, properly chosen, electrical current will flow through the loop when one joint is warmer than the other.

The difficulty with trying to get mechanical work from a thermocouple is that the electrical current it produces is too small to operate anything but a sensitive meter. The idea of a thermocouple large enough to energize an ordinary home light bulb seems almost fantastic. We are reminded, however, that such commonplace electrical gadgets as the malkans and back through motor, the teletype and the incandescent lamp also were litaly and France to England. fantastic before they were perfected.

More progress has been made in schemes to use the sun's energy as direct heat. Successful plants have been made to heat water or even a house with the sun's rays, of the British and French at In most parts of this country cloudy weather is a hindrance titude toward. Germany, but I can't put my finger on it. I shall to such development. But if plants can be built to convert In this newspaper, as well as all sun energy into electrical power on a large scale, such plants could be set up in areas, such as the deserts, where | what that hardening means." clouds are rare, sending power to cloud-shadowed cities | hundreds of miles away. Small wonder the dream persists.

#### Land Of O'Higgins

Can you find O'Higgins Land on the map? If so, you probably have an atlas printed in Chile, for this is a name given by that country to the stretch of Antarctic coast given by that country to the stretch of Antarctic coast right idea but a couple of years which most maps list as Graham Land. Chile is claiming too late. The Nazi dictator was this frozen territory now, apparently because other nations are staking down Antarctic areas, not because it is regarded as of value itself.

Why O'Higgins? The name is a proof that the Irish do get around. Ambrose Higgins, born in County Meath in 1730, died as Ambrosio O'lliggins, marquis of Osorno and Spanish vicercy of Peru. His greater son, Bernardo, after whom this Antarctic region is named, was a leader in the struggle to free Chile from Spanish rule, and later became dictator.

As such he instituted too many reforms for which his country was not ready, and he was forced to retire. Unlike some Latin American dictators, he abandoned power without a fight, rather than loose a war upon his country. Now, years after his death, Chile recognizes his greatness, and freedom of speech and freedom tries to commemorate it by putting his name on the Ant- are showing their feelings by arctic map.

It is one thing to claim a territory and another to get it. Argentina and Great Britain also have ideas about this region, and will have to be consulted.

#### Unto Each Age

What an age in which to be alive! says today's citizen conduct of the city hountal and as he reads about conquests of earth, sea and air. So thought the generation of men who first pulled

had been thrown through his of themselves upright on their hind legs and found the new fice window. When things like powers this posture gave their forelegs. Centuries later the discovery of the lever and the

wheel opened such achievement as to make that seem the The knowledge added by each age is but a drop in the

pool, each bit of progress only a faltering step forward in large grouping of Western Eurothe march that as yet cannot glimpse its goal. One of the most intelligent of mankind, Dr. J. Robert

#### Jewish Attack

Arab-Jewish warfare continued elsewhere in Palestine. Arabs dynamited a highway bridge five miles west of Jerusalem, cutting all communication with Tel Aviv and Jaffa, except through Arab territory. The highway has been the scene of heavy fighting between Jews, supported by British army units, and Arab snipers dug in on hillsides. Ten Arabs were stain in vesterday's fight-

ing in the area. An armed Arab hand attacked A rugged man in his fifties, Sharon last night with Bren guns ments have been able to work Jutila spoke good English with an and mortars, killing two Jews with Communists in their counand veteran diplomat, was more the battle scene and repulsed the Arnbs.

Eye-witnesses of the Haifa hast said two army-type trucks were driven up to the Salameh building. The leading one was driven by a mon in Arab garb The driver left the truck and got into the second one, which carried four uniformed men who apparently served as an escort he escort truck drave away. "A short time later there was

a terrific boom," the Jewish sources said the Stern gang declared the attack was carried out because the Salameh building housed Arab militagy quarters. A police official said this was nonsense. He said until recently the building's root had been used by the British as the

#### COMMENTS from the

Municipal Park The final touches are being added to the fence at the Municipal Park today. The Giants have scheduled painter to complete the work on

enclarate will be painted a deep green and the remainder will receive a coat of medium gray. Hal Gruber, skipper of the 1948 the current 90-day meeting which Sanford club, revealed yesterday that the painting in the center Track officials announced today field section will remain the green color, but the section on each side boy of Phillip Morris, will be on of the green will be repainted and

will adorn the walls. "I think we have one of the calls for the initial contest at 8 finest looking Class D hall parks M. with the final race listed I have ever seen," the Sanfold skipper declared yesterday after

"This infield will be in exertlent condition by the time the season rolls around, and we will have a good fast outfield, if we can get a couple of hand come? Gruber stated.

"These Minneapolis boys has really going to have an excellent field to hold their spring workouts on," he commented. It is understood that the city

will paint the main stands and possibly the ideachers at the park, The Giants are planning to pad the iron railing in front of the stands on which the sercen is hung. This will give catchers more pro-tection and will give them more freedom of action.

It is also planned to drop a canvas material from the screen rail-ing to the ground in front of the stands so that balls will not be damaged by hitting the cement wall or the wooden portion. This will also give protection to any-one going back for a ball, Greber

Sanford is adding another first to the Florida State League, We will have something unique in baseball and entirely different from any other park in the Florida State League.

We are going to have a sign

with cleetric lights designating "E" and "H" for error or hit. This sign will be installed by the St. Johns Electric Company.

Many fans have waited deep-less hours to see if the official scorer gave John Bloke (Their Favorite Player) a hit or an error on a hot line drive which some futile attempt to field a ball. Well, fans, we are going to give that Finals in the two-day pro-amateur information to you right on the

on the new sign arrangements, however, We do not want anyone Harmon toured the 6,008-yard par 72 course yesterday in 67, one stroke better than Bothy Locke, Johannesburg, S. A., and Ben Hogan, Hershey, Pa., who had 68's.

Jimny Demaret, Olai, Calif. We realize that there will be 1,000 different opinions if there are 1,000 persons in the stands so we will do our best to follow the rule book to the letter.

Both of them came to the royal palace after it had been surrounded by armed that RICHMOND, Va., Mar. 4, (49)—
A complete substitute for Governor Tuck's "anti-Truman" election law bill was ready for Virthey would hold me responsible ginia's general assembly today. for the bloodshed which will folginia's general assembly today. The substitute --- which has the Governor's full approval --- would open the door to the appearance of President Truman's name on the November ballot.

The original legislation would have banned the names of presidential and vice presidential candidates. The new measure is a variation in a minor key of Tuck's declaration for a revolt against Mr. Truman in the wake of his civil right proposals. It will be offered to the privileges and elections committees of both House and Senate prior to a

public hearing tonight.

If the Virginia Democratic officials the South will be able convention should instruct for to put its plan into effect "quicksome other presidential candidate, Mr. Truman's name, however, would still not appear as the can-didate for the Democratic Party. This would be so even if the national convention nominated him. In the event of unfavorable action by the state convention, Mr. Truman nevertheless could get only present hope for adequate on the ballot by being offered as training in certain fields.
