

OH YEAH?

Unless the impossible happens on Thursday afternoon, when this highly successful Central Florida Baseball League closes for the season, the Cocoa Indians will have won the second-half flag, and be preparing to enter a series with Daytona for the championship of the league. They made things safe yesterday when they stopped the Reds 5 to 1, as the Islanders were whipping DeLand 6 to 2. The only thing that will save the day will be a Cocoa defeat of the Parkers Thursday while DeLand is beating Sanford. That will mean both clubs must play a single game to break the tie before the series may begin.

If the Indians do tie up with Daytona, its hard to think that they'll lose the series. The Islanders are in rather poor form at present, with their best hitters having at last succumbed to something else than country league pitching. Mobley and Hutto, for instance, who both hit like wild fire during the first half, are practically helpless against good pitching now, while O'Brien, Pert, Harris, Weaver, McGowan, and Baker are anything but dependable hitters. On the other hand, the Indians have plenty of batting talent, what with Murdoch, Joiner, Culbreth, Provost, Prine, Wall, and Brown. We look for an Indian win no matter how long or short the series.

In the Big Show, the Giants and Reds split a pair. Benton held the Giants to five hits in shutting them out 1 to 0, while the Giant hopped all over Frey, Kolp, and Carroll for 13 hits and a 9 to 4 win in the second affair. A ninth inning rally, produced three runs, and climaxed by Wright's double with two on gave the Pirates, Wood and Spencer hurried for the Pirates, while Helmsch went all the way for the Robins although he was hit on the arm and shins by four batted balls during the game. The Cards grabbed two from the Phillies. Derringer held them to six hits to win the first, 6 to 2, while Halton won out 7 to 2, although he gave up nine hits. Bolen and Elbert tried to stop the Cards in the first while Bengt gave up a dozen blows in the last game. Hefey hit a homer in the first, and Martin hit two in the second game. Roger Hornsby hit a homer with the bases full in the 11th to give the Cubs a 11 to 7 win over the Braves. Then Guy Bush pitched one-hit ball to give them an 8 to 1 win in the second game. Brandt, and Cunningham lost the first game to the Braves, while Frankhouse, Hald, and Sherdal tolled in the second contest. Bell hit a homer for the Cubs in the second game.

In the American League, The Senators got 15 hits off Connolly and Hildebrand and beat the Indians 7 to 1. Crowder allowed

FED ERRORS AID IN 5 TO 1 DEFEAT TO COCOA OUTFIT

The Yanks grabbed two close games from the Tigers, one 2 to 1 affair going 12 innings, the other a 4 to 3 verdict, in which the Yanks made only four hits off Earl Whitehill. Lou Gehrig won the second game when he hit his 43rd homer of the year with one on in the sixth. Alexander and Combs hit homers in the first game.

The Reds wound up their home game season here yesterday by losing a tough game to the Cocoa Indians by a 5-to-1 score. Buddy Lake was the victim of a mid-batting attack and an orgy of Fed errors, while Joiner of the Indians, held the Reds to five hits, and was tight in the pinches.

The Reds had the bases full on three different occasions but were unable to put the runs across. Fast fielding by the Indians saved the day on numerous occasions, while mediocre fielding by the Reds proved to be what gave Cocoa victory.

In winning, the Indians are practically assured of the second-half flag. DeLand lost to Daytona yesterday. If Winter Park beats Cocoa and DeLand beats Sanford on Thursday, the old league will be tied up again and an extra game between DeLand and Cocoa will be necessary. But, if Cocoa wins, it's all over, and the series will be staged between Cocoa and Daytona.

MCLUCAS ISSUES COMPLETED 1931 GRID SCHEDULE

Toughest Lineup Ever Arranged Faces His 40 Aspiring Gridders

Winter Garden	Here	Sept. 25
DeLand	There	Oct. 2
Orala	Here	Oct. 9
New Smyrna	There	Oct. 16
Daytona	Here	Oct. 23
Andrew Jackson	There	Oct. 30
Palatka	Here	Nov. 6
Orlando	Here	Nov. 11
Gainesville	Here	Nov. 15
Rollins Rata	Here	Nov. 20
Leesburg	There	Nov. 27

There you are, football fans. The hardest football schedule ever attempted by a local high school, the finest collection of games you've ever been privileged to see here in Sanford.

As Coach Leonard McLucas and nearly 40 of his aspiring gridders finished their first week of practice Saturday afternoon, there was every indication to believe that a majority of those games will be won, and that every team met will have to hustle for all it is worth in winning.

Coach McLucas is well pleased with his first week's work, declaring that with a few rough spots polished, and half dozen more plays learned, the boys will be able to stack up with the best of them. Blocking and tackling is as yet crudely performed, and, together with daily scrimmages, will form the major diet this week. Already the boys have been taught about 10 plays, with practically all the youths knowing six of the 10.

Scrimmages has occupied only a small portion of the past week's training period, but this week, it will be the impotent feature. Timing of plays is to be stressed, and every effort made to have each player know exactly what his duties are. Coach McLucas gives plays to the players only one time. After that, if they don't remember them, it is almost too bad.

Coach McLucas declared that he will be well pleased with his team if it wins half of the games on schedule. Of course, he privately hopes to win all of them, and you can depend on his knowing he'll win at least 80 per cent of them.

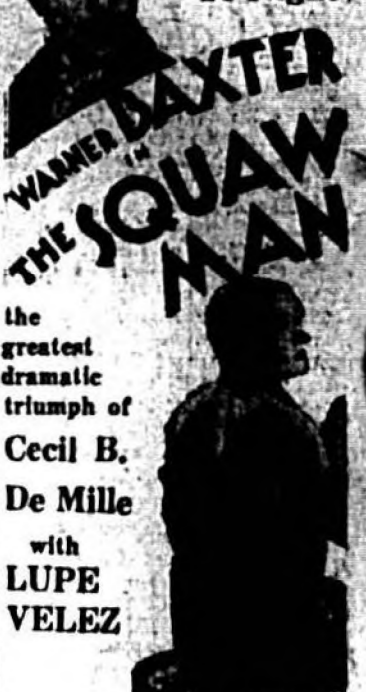

The schedule, according to past performances, lists only two easy games, the New Smyrna affair, and the Winter Garden contests. DeLand, Orala, Daytona, Andrew Jackson, Palatka, Orlando, Gainesville, Leesburg, and the Rollins Rata are always arsenic to high schools.

The two important games of course, are the Orlando and Leesburg games, for a victory over either team or both is considered proof that the season has been a success. Orlando will have one of its most powerful teams this season, while Leesburg can always be counted on to turn out a pennant-winner. One of the important points about this year's schedule is that three Big Ten teams are being tackled, Orlando, Gainesville, and Andrew Jackson. Wins over them would establish Sanford's reputation to the far corners, and you can expect good games in every case.

Comment On The "Hobo Express"

The campaign of Florida newspapers to advise northern unemployed against overflowing this state during the coming winter months is apparently having its effect. Newspapers of other states have taken up the cry and, while in some instances condemning Florida for its seemingly uncharitable attitude, are at the same time informing their jobless workmen that Florida cannot furnish employment for the whole country.

Among those which have recently come to our attention is the following editorial from the Pontiac Press, which after calling attention to Florida's efforts to keep out hitch hikers and hoboes, goes on to say:

"Dumping of unemployed upon neighboring counties or neighboring states is a poor solution of the problem. Just what Florida and other Southern states would do if the North should retaliate by similar action upon the thousands of Southerners who have come North to find work in the industrial sections and are now unemployed would prove a horse of a different color.

"We can appreciate the Florida dilemma more particularly as the State has no industry, outside of entertaining the tourist, of sufficient proportions to support a great number of its own people. Yet its example, if followed by every other state, would complicate the employment situation more hopelessly than anything of the present.

"The urge to pass the winter in a climate where there is no problem of fuel and winter clothing is strong but those without jobs will do wisely to heed the statement that no work can be expected in Florida. The best solution of unemployment for any person lies in living in his old home community, back where his friends and relatives can appreciate his needs and where their sympathy and assistance are assured in times of stress.

"In Pontiac and other industrial centers today there are many who would be better off if they had learned this lesson. They would be more assured of happiness and contentment if an 'express' here could transport them to the community of their fathers."

In criticizing Florida for "dumping" on neighboring counties and states, the Pontiac Press should remember that Florida is the jumping off place. When the hitch hikers from all the rest of the country reach this state they cannot go on through. If they are not sent back, they must remain here. That places the problem of taking care of them directly upon the people of this state.

It should also be remembered that while the rest of the United States is groaning under the burdens of three years of hard times, Florida has suffered six years since the days of its boom, six years of hurricanes, fruit fly invasions, bank failures, and general deflation. Florida is in no condition to provide a refuge for the unfortunates of other states. Florida has all it can do to take care of its own unemployed.

House Cleaning Time

Wondering who is the outstanding Democrat in Florida, and possibly how next year's political campaign is going to affect him, the Melbourne Times has an interesting editorial on the Democratic party of Florida. Every good Democrat realizes that there is much to be done in Florida Democracy before it can go to the citizens next year and ask for their support. The time is getting short.

"Before anything constructive is achieved by the Democratic party in Florida," the Times insists, "there must be a thorough house-cleaning. Parasites of all kinds must be swept away. In some instances it will even be necessary to follow the broom with insecticides and disinfectants. Windows and doors must be opened wide to let the sunshine reach dark corners, and skeletons in closets must be carted to the ash-heap.

"Nor will this strong language offend a solitary HONEST Democrat in Florida. The honest man has nothing to fear except his own lack of efficiency. The honest man holding public office is doing all he can to administer the affairs of his office as he would his own personal business. Such men and Florida has many of them—need to be shown that their work is appreciated. It is grossly unfair that they should be classed with corrupt holders of public office, and the special interests that keep corrupt men on the public payroll.

"A great opportunity confronts the Democratic party in Florida. It has a newly aroused intelligence to deal with. All strength to its ideals! All strength to its determination to come clean!"

Too Many Counties

This whole country is suffering from too much government. Federal, state, county and city governments, none of which earn a cent for themselves, have to be supported by taxes, fines and special assessments. It is said that thirty cents out of every dollar earned by direct tax payers goes to support these several governments. The total cost of governments is said to be twelve cents per day per person in these United States. The cost of government has been rising for years and depressions, similar to the present one, are the only times when any effort is made to reduce the cost. After careful investigations costing more than they save, governments finally reduce taxes about one-half of one per cent. Then they usually have to raise a little extra money by taxation or from donations to prevent a flock of the citizens from starving to death. Florida has sixty-seven counties and they all need some sort of government. This adds greatly to the cost of running the state, most of the cost being absolutely unnecessary. If Florida had about six counties it would be a much better state. Six counties properly managed would save millions.—Miami Post.

TEN YEARS AGO TODAY

A decision of whether the nation will face a general railroad strike may result from two important meetings at Chicago next week. Representatives of half a million shop men will meet Sept. 18 to determine what action will be taken in regard to the wage cut and change in working rules effective the first of last July. A countrywide ballot taken some time ago is said to have resulted overwhelmingly in favor of a strike.

The Fashion Show at the Princess Theatre, last night, put on by the up-to-date Baum's Specialty Shop, demonstrated once again that Sanford with her five-wire merchants is fast getting into the big city class commercially.
