LEGISLATURE SCHEDULED RECONVENE SECOND WEEK LITTLE BUSINESS IN ORDER

BUT BOTH HOUSES WILL SWING INTO MOTION TOMORROW FOR 2 MONTHS

THREE PLANS ON

For Reapportionment of State and One of Them Will Be Adopted It is Said

(By The Associated Press) TALLAHASSEE, Fla., April 9.—The legislature was scheduled to reconvene for the second week of its biennial session this afternoon at 4 o'clock. Little business was in order for the brief Monday afternoon session, but the two houses are expected to swing actively into motion tomorrow.

With the exception of tick eradication, amendment of the Bryan primary law and taxation, all of the major problems as outlined by the governor in his message, have been given a start with the introduction of bills dealing with them.

Three different plans of reapportionment were introduced Friday and are now in the hands of committees. Two of them provide for constitutional amendments, while the third, by Senator Anderson, would effect the readjustment under the present constitutional limitations. Senator Phillips stated that he has received assurances that the constitutional amendment regarding reapportionment voted down at the November elections will be supported if presented to the electorate again and he has introduced a measure embodying that plan. Under his plan counties of 10,500 population or less would receive one member each in the house; counties of between 10,500 and 20,000 population two members, counties of between 20,000 and 100,000 three members each, and counties of 100,000 or more four members, while the senate membership be equitably distributed with a limitation of 38 members.

A measure started in the house by Representative Vankoy of Citrus, and Senator Mitchell in the senate, would make the house apportionment on a basic population of 15,000 for one member, and an additional member would be given for every 25,000 thereafter. The state would be split into equitable senatorial districts, even to the extent of disregarding county lines. The membership would be limited to 32, the number now comprising that body.

There are pending measures for increased gasoline taxes in both houses. In the lower body Representative Matthews of Alachua, has a measure providing for a three cent tax, two to go to the county and one to the state. The same provisions are contained in a senate measure by Senator Colson. Mr. Matthews' bill also provides for a dealers' tax of \$10, the county to get five dollars and the state five.

Representative Miller, of Duval, who, when he isn't legislating, is president of the Jacksonville Automobile Club, is actively championing a straight out two cents gas tax, all of it to go to the state.

The first week's proceedings were marked by the injection of the death of Martin Tabert, of Manich, N. D., who is alleged to have been brutally beaten at a private convict camp, the victim of the county convict lease system. The debate in both houses ran rampant into fields far removed from the subject, although there was never any doubt but that a legislative probe would be made. The discussion in the house centered in the name of former Governor Sidney J. Catts, and the alleged evil county officials who, under the aegis of enticing fees, it was charged, stroked the broad statute creating vagrancy over many abuses. Measures to abolish the lease system were introduced in both houses. While in the senate, Mr. Hodges went further and advanced a measure to prohibit flogging of convicts.

There was the usual argument and harangue over the number of bills to be mailed to the constituents. The senate finally resolved to let every member, mail as many copies as

BOMB DESTROYS CANAL LOCKS IN RUHR DISTRICT

CANAL IS BLOCKED SERIOUSLY INTERFERING WITH WATERWAY TRAFFIC

(By The Associated Press) ESSEN, April 9.—The explosion of a time bomb destroyed the lock of Dortmund canal near Herne early today. The canal was blocked seriously interfering with complicated inland waterway traffic in the Ruhr.

This is the most serious case of sabotage yet reported on the Ruhr water ways. The lock destroyed is near the junction of Dortmund's canal with main canal that runs to the Rhine at Duisburg and Ruhrort where the largest inland port in the world is located. It was the intention of the dynamiters not only to block the canal but to drain the waters from the main Rhine-Herne canal which is the main waterway artery of the Ruhr. The French say this main canal has not been interfered with as the locks on both sides of the one dynamited were closed immediately after the explosion to prevent draining of the main canal.

Chapman Had Help in Prison Escape But Parties Are Unknown

(By The Associated Press) ATHENS, Ga., April 9.—Department of Justice agents were said to be convinced that the letter which a woman told them she received Saturday from Gerald Chapman, escaped convict, came from some one else. This woman said to be a nurse and has been under surveillance since Chapman escaped from the hospital here, where he was undergoing treatment for wounds received prior to his first recapture after escaping from the Atlanta federal penitentiary. The woman told officers she received the letter signed by Chapman asking her to meet him near the hospital Saturday night with money and provisions. While the officers watched her she kept the appointment but Chapman failed to appear.

Affairs of Klan Will Be Discussed Before Proceeding

(By The Associated Press) ATLANTA, Ga., April 9.—Before either Emperor Simmons or Imperial Wizard Evans can settle down to temporary management of affairs of the Klan in co-operation with J. M. George, marshal of municipal court, as provided for in the court orders last week a conference was to be held at Imperial Palace some time during the day to discuss ways and means of procedure.

where requested, the number not to exceed 25, while the house decided to provide outright, 20 copies for mailing. The trouble wasn't about the number of copies to be given so much as it centered around provision for their mailing. Both houses now have mail clerks for the purpose.

The work already laid out for the session has been apportioned to the various committees. The deliberations of the week therefore, will be scattered all over the upstairs of the capitol and not confined to the chambers.

The budget embodying the recommended appropriations of Governor Hardee, Treasurer Lunning and Comptroller Amos, for the various governmental departments and institutions was laid on the members' desks Friday. The law creating the budget plan of appropriations provides that it must be taken in hand by a joint committee which must report back within five days "or as soon thereafter as practicable." Indications are that it will be heard from during the week.

ROYAL WEDDING AT ROME TAKES PLACE IN GRAND HALL OF QUIRINAL PALACE TODAY

Princess Yolanda, Daughter of the King and Queen of Italy, Becomes Bride

(By The Associated Press) ROME, April 9.—Princess Yolanda, the eldest daughter of King Victor Emmanuel and Queen Helena, was married today to Count Calv Di Bergolon, Captain of Cavalry, who holds decoration for bravery in the world war. The civil ceremony which took place at 10:30 o'clock in the grand hall of the Quirinal palace, was followed immediately by a celebration of religious rites in the Pauline Chapel also within the palace. Because of the recent death of the princess' maternal grandmother, Queen Milena, of Montenegro, the services were conducted as simple as possible. The princess wore the traditional white gown with a train of rare old lace. The flowers in her bouquet were grown in the gardens of the place. The count was dressed in the uniform of a cavalry officer.

Hon. Forest Lake Home on Visit from Tallahassee

Hon. Forest Lake, Seminole county's representative is here today on a short visit to attend to business affairs and also the affairs of the city as he is mayor and city commissioner. Mr. Lake had but little time to discuss legislative affairs but said he was satisfied with the result of the speakership contest and he retired from the race along with several other candidates to promote harmony in the ranks and to be able to get down to real business without any delays over political log rolling. Mr. Lake is upon several important committees the most important being the Good Roads committee and he expects to do some good work during the sixty days of the session. He has some important local bills to pass and wants them framed up as soon as possible and put in shape for him to put into the legislative hopper before the big rush of the last few weeks when local and state bills are liable to be tabled for the next two years. Among the most important bills in the hands of Mr. Lake are the no fence bill, the anti-skinning bill, the lake front bulkhead bill, better protection for fish and game and several other bills for various precincts as well as some very important state legislation. Mr. Lake is an experienced legislator with many terms to his credit and he says that the members of the legislature this year are a bunch of live wires who are expecting to do more work and better work than any previous legislature in many years. Mr. Lake will return to his legislative duties this afternoon.

MOTORCADE SAID BE LOST IN EVERGLADES

LEFT FT. MYERS FRIDAY AND HAVE NOT BEEN HEARD FROM SINCE

(By The Associated Press) MIAMI, April 9.—No word as to the whereabouts of the Fort Myers motorcade of ten cars believed lost in the Everglades since Friday has been received up to noon today from the scout car of the Miami Motor Club which left here at two o'clock this morning for the Everglades. The car is carrying Secretary Maxwell, of the Motor Club and two others and is well provisioned and has first aid kit in case any of the Fort Myers party need medical attention.

CONFEDERATE VETERANS MEET AT NEW ORLEANS

THIRTY-THIRD ANNUAL REUNION WILL OPEN ON WEDNESDAY

(By The Associated Press) NEW ORLEANS, April 9.—Visitors of the thirty-third reunion of the United Confederate Veterans which opens Wednesday, continued to pour into the city today and was predicted by convention officials by tomorrow night the greatest crowd that has attended a reunion since 1893 would be there.

Henry Chappell Favors Co-operation on Large Scale

The following letter from H. H. Chappell, one of the oldest and most prominent growers shows his sentiments on the subject of the buyers getting together:

Your editorial in the Saturday's Herald on organizing the celery shippers and growers was very timely, and it does seem that something of the kind could be done. The farmers of the Sanford section are an intelligent bunch of farmers as there is in the United States. The tobacco farmers of Kentucky was organized a few years ago. The tobacco prices were raised from 5 to 30 cents in the first year. I think it would be a good idea to send to Kentucky and get a man to show us how to do it. I understand this bunch of Kentucky farmers were just a lot of ordinary farmers with a lot of common sense and an over abundance of back bone.

Shrine Black Cat Ceremonial, 13th, Will Be Humdinger

The fateful day approaches—Friday, the 13th—bringing with it the Shrine's Black Cat ceremonial, when some fifty innocent but not unsuspecting novices are to tread the burning sands, furnishing "fresh meat" for the denizens that infest the lonely desert.

From all parts of the state interest is being shown in the approaching event, when between two and three thousand Shrine members are expected to gather for the merry-making. Locally, the last details of the arrangements are being completed and everything put in shape. The Sunrise theatre, in which the sessions are to be held, will be ready for use. The camels, the black cats and other critters are "rearing to go," the various committees having in charge different phases of the ceremonial are doing business with everybody is joyful and a victim-to-be.

George A. DeCottes has sold his home on Magnolia avenue to Bond and Mr. and Mrs. DeCottes will take quarters at the Montezuma until their new home is built.

Every farmer in the county should meet with the Sanford Chamber of Commerce next Friday and discuss the new central shipping bureau that has been proposed.

Residents of Chulucota, Geneva and other sections in the north eastern portion of Seminole county appeared at the last meeting of the Chamber of Commerce opposing the present No Fence bill which provided for the segregation of cattle in that section of the county. After considerable discussion by those present it was voted to have a county-wide bill drafted permitting cattle interests three years to fence their cattle.

The Woman's Club are having their club house remodelled. The work when completed will give this organization quarters which will be modern in every respect. The plans were drawn by E. Moughton, local architect and the construction work is being done by Frank Lossage. The outside of the structure will be of Stucco and the style of architecture will give it a unique appearance.

The prizes for the Subscription bridge party to be given Wednesday afternoon at 3:00 o'clock at the Parish House will be on display in the show window of Speer & Son this afternoon.

Hardee to Pursue 1921 Policy as to Local Legislation

TALLAHASSEE, April 7.—The impression has gone out among the legislators that Governor Hardee will let county bills not properly advertised pass without his signature, as he did last session. This impression is based on the executive's digression from his message yesterday. In his message he urged that a constitutional amendment be adopted requiring that local bills be advertised thirty days. The constitution provides now that they be advertised sixty days, he said, but were not enforced.

He said the report had gone out that he planned to veto unadvertised local measures this session. He was not responsible for the report, he said, "but perhaps it was well that it circulated." He realized, he said, that the legislature could over-ride him on vetoed bills, and indicated that he was planatefemf mfy emfcmvcm planned to follow the same policy he had last session.

FELT TIRED, SO TIRED

Indiana Lady Says She Was Run-Down, Suffered With Her Back, Took Cardui, and Got Well.

Richmond, Ind.—"I thought I would write a line or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney, 31 Railroad Street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so, to please him, I did, and will say I do not regret it, for I am able to do all my work and do my shopping."

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine."

"I suffered with my back; a very weak feeling in my limbs. "I felt hardly able to drag just tired—so tired all the time."

"It was an effort for me to do anything, but Cardui helped me so I felt like if you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.

Take Cardui. NC-147

AS TO DIVISION OF LABOR

With Changing Circumstances, Generally Accepted Definition Has Undergone Many Changes.

The division of labor is one of the principles evolved from the study of political economy, or economics, and is based on the claim that industry can best be carried on when each man has a special work to do. Constant practice in doing the same thing leads to a perfection which could not otherwise be attained.

WRITER'S NAME WILL LIVE

Superficial Critics Have Misjudged the Work Given to the World by Sir Walter Raleigh.

It is something of a paradox that the last work of Sir Walter Raleigh, "The War in the Air," should have been the history of a great modern adventure, written upon a large scale.

Like all good writers, Raleigh had an intense interest in all that was about him. Whatever he read he put always to the test of life, and thus found the best, the only commentary for the books which he loved full well.

When Northlife as a Boy. When Northlife, Alfred Harris, worth by name, was a young boy the family lived at St. Johns Wood, next to a select seminary for girls of twelve to sixteen, and frequently the boys' hall would be knocked over the fence into the seminary garden, with ensuing remonstrance from the principal.

Gold Found in Nova Scotia. Consul McCunn at Yarmouth, N. S., says it is reported that rich gold-bearing quartz has been struck on property at Malaga Barrons, Queens county, in the Yarmouth consular district.

What Did He Get Then? Benny, small son of a Monticomey county family, is at the age when instruction on etiquette seems necessary. Sunday, the family was invited out for dinner. While at the table, the hostess served Benny with a second piece of cake. On his noncommittal acceptance of the favor, he was admonished by his mother: "Now, what do you say, Benny?"

New Attraction. A man who had been engaged to write a circus poster suddenly found himself at a loss for a fresh adjective. "See here," he said to his employer, "I don't know what to say about this panther. Have you a thesaurus?" The manager of the circus looked at him with suspicion.

Her Revised Grammar. Teacher was endeavoring to make clear to the youngsters the grammatical tenses. "My father had money," she pointed out. "Is in the past tense. Now, Grace, what tense would you be employing if you should say, 'My father has money?'"

A perfect husband is one who knows how to apologize gracefully when his wife is at fault. A normal man is one who observes other women's husbands and reflects that his wife did very well.

SIGHT OF MONEY WON HIM

Prospector Refused \$100,000 for Mine, but Sold for \$10,000 Actual Gold Money.

Money's an odd sort of commodity and some persons know very little of actual cash from intimate acquaintance.

Harry Veness tells of an old source of the Klondike, who had a valuable claim after several years of dangers and hardships in the North.

SPEEDED UP POSTAL SERVICE

First Exclusive Transportation of the Mails, in 1875, Was Watched With Intense Interest.

The first exclusive mail train was placed in service Sept. 18, 1875. Leaving New York, it arrived on schedule time in Chicago the following day.

Blueberry Rapture. Both these splendid varieties of berries (high and low growing), which are probably the best berry growing on this side of the world, are a true gift of God to the people of New England.

Misunderstood.

He was in his first week at college, and when he went to the stationer's to buy a fountain pen he felt distressed that the young woman who waited on him should know that in spite of his youth he was no high school boy.

Swallows Cover World.

Swallowing it has been established by experiment, migrate from England to South Africa, 3,000 miles. A man in Berkshire, in 1921, fastened a mark on a swallow and turned it loose. The bird was reported as having been caught five months later at Jansenville, South Africa.

Her Revised Grammar.

Teacher was endeavoring to make clear to the youngsters the grammatical tenses. "My father had money," she pointed out. "Is in the past tense. Now, Grace, what tense would you be employing if you should say, 'My father has money?'"

A Perfect Husband.

A perfect husband is one who knows how to apologize gracefully when his wife is at fault.

A Normal Man.

A normal man is one who observes other women's husbands and reflects that his wife did very well.

BEAUTIFYING FLORIDA

Three years ago we had the privilege of escorting the Hon. Arthur Capper, one of the best known newspaper publishers in the whole country, over a considerable portion of South Florida.

He came to Seattle and operators who realized the value of his holding had tried to buy him out for \$100,000, but it was no use, the prospector held on. Then came the wise man who made the deal, and for one-tenth of that sum, the stage-managed proposition was worked like this:

The operators cornered their man on the main street and induced him to accompany them to a dark little office of Marlon Street. There they talked Alaska and mining until they thought they had their man in the proper frame of mind. They opened up the subject of a deal and he admitted he had been offered \$100,000.

One of the best organized movements of the sort is the Orange County Highway Beautification Committee, which has charge of a definite program to beautify the road-side along the highway.

When we get down to doing that, we can spend that one dollar for each ten that California has spent, which Senator Capper advised us to do, and get the full dollar's worth of benefit.

THE COMMUNITY CHEST

The elections are over and out of the way—until the next one—but the drive for money is not. With the 21,000 Chamber of Commerce drive not yet finished, a Boy Scout drive for \$5,000 is now on, and by the close of that probably some other will be really for of drives for voluntary public welfare funds in St. Petersburg, there is no end.

All our worthy causes that need to be provided for, but why continue the method that incurs the most work, generates the most public irritation, and gets the poorest results? Why not the modern method that does so much better?

few gullible local folks to an extent that undertakings have been turned over to them to complete which have proven to be wholly beyond their capacity.

Florida welcomes ideas and does not reject advice. However, Florida today has reached a sufficient stage of development that it seems it might be well to draw the line to some extent against hasty hazy bodies who would rush in from the outside to tell us how things should be done.

We have in the state some most excellent nurseries. Connected with at least one of these is a landscape architectural department which commands no mean ability. The men connected with these operations are not native Floridians. However, though they came here from other states with the advantages of the best technical education in their lines, they have been here a sufficient period of years to be familiar with the Florida climate, and other conditions peculiar to Florida.

It looks as if we might very well profit by some of this specialized knowledge which is in our midst; that we might very well get along without the payment of ridiculously high fees to outsiders whose interest apparently is centered in those fees rather than in performance.

When we get down to doing that, we can spend that one dollar for each ten that California has spent, which Senator Capper advised us to do, and get the full dollar's worth of benefit.

those who do most of the leadership work in these drives—meet and organize and incorporate "The Community Chest of St. Petersburg." (The Times has at their disposal all the papers, forms and programs used by one of the most successful cities in the country).

The Community Chest directors study them thoroughly, and after fixing upon the amount of each, put them all into one Community Chest drive for the whole amount.

The funds all go into the Chest, and are paid to the several organizations or causes in their proportions.

It is positively understood that no appeal for any other welfare or charitable funds is to be made. One subscription for the year does it all—the citizen is protected against every unexpected demand and against all unnecessary harassments. ("One Campaign—One Appeal—Once a Year!")

The one big drive is pulled off on a thoroughly organized big scale. The appeal shows all the activities represented, and the amount sought for each. The subscriptions may be in cash—usually upon quarterly payments—weekly payments by wage-earners if desired. A permanent office is maintained for the work—which is good business efficiency and economy when the total volume of money and work is considered.

...MAGIC NAMES...

The influence of advertising is apparent in every turn of my daily life. I find I cannot disregard it. It is always with me, guiding me in my pleasures and in my duties, telling me what I should eat, wear, and use and what I should buy for my family.

I find that there is on the tip of my tongue a multitude of names that will bring from some shelf nearly everything that I can use in my daily life and in the daily life of my family.

In every instance that name means a very definite promise and assurance of something substantial and which will make me feel completely satisfied about having exchanged my money for it.

Let me say a few things which these names—these old friends of the newspaper and magazine pages—mean to me. They mean good taste. For certainly I desire to

do the thing that I believe discriminating people have judged best. They mean convenience. It is not necessary to describe the thing I want. Even the most intimate articles may be purchased without embarrassment since the advertisers have given us handy names.

They mean assurance in shopping. There is no indecision. Even before I enter the shop I know what I want to buy. And certainly they mean satisfaction. For the advertiser whose product is not good cannot continue to advertise. The fact that I have seen a name repeated over and over again assures me that it stands for a product of quality. In speaking that name to the clerk I know I am asking for the best.

I am a more judicious shopper because I buy advertised goods. I patronize the shop that sells them.

FLORIDA STATE LEAGUE OPENS AT ORLANDO

Uniforms are back from the cleaners, the spiked shoes are oiled to perfection, the last raking has been given the diamond, the die, as they often say, is cast. Tomorrow is the big day.

It will be 4:15 o'clock tomorrow afternoon when the 1923 season of the Florida State League will be opened with the initial game between the Bulldogs and the Saints, ancient rivals and the only two clubs who figured in the pennant race of last season.

Manager Burke believes his athletics are ready. He said last night daily practices have put them in shape for the long campaign. Burke said there is no reason why the club cannot get a good start in view of the spring workouts. Last year play was begun with scarcely any training. This year it is just the opposite, the Bulldogs are just as fit as the Cincinnati Reds or any other major league club which trained in Florida. Counting on this flying get-away, Burke expects to make a strong fight for the top position for the first half of the season. If this falls short there may be a change or two and he will concentrate on the second half. If both halves can be won that will be so much the better, according to the managerial philosophy.

The final practice was held yesterday and was featured by a batting spree similar to that of Friday when all of the athletes pounded the ball hard in batting practice. Their eyes are in good trim and Bradley's touted pitching staff consisting of Ollinger, Lane, Hernandez and Wilson, may run into difficulties when they face the Bulldogs.

Albert F. Lang of St. Petersburg, president of the league, will reach here today and will have a conference with his staff of umpires. He will remain for the game tomorrow as a guest of Duke Hauselt, president of the Bulldogs.

Burke's pitchers all look so good he doesn't know yet which one will start, though in all probability he will stick to his first choice, Jess Woolf. Manager Bradley may call on any one of his axes, all of whom are usually effective against the Bulldogs except Mutt Wilson, who was bumped frequently here last season.

Monday afternoon will be an informal half-holiday and there will not be many merchants heartless enough to keep their employes from attending the opening game. There will be extra attractions besides the ball game and a mammoth crowd is expected.

The lineups will besomething like this:

PALMER WINS GOLF TITLE AT TOURNEY

JACKSONVILLE, April 9.—T. W. (Tub) Palmer, of the Miami-Hialeah Golf Club won the state amateur golf championship by defeating Dick Pope of the Lake Region Golf Club, Winter Haven, 8 up and 6 to play, in the finals of the tournament of the Florida Amateur Golf Association on the course of the Timpanua Country Club.

The morning round of 18 holes, finished with Palmer six up and at the turn in the afternoon round, Pope was still six down. Palmer, who is a former state champion and a veteran tournament player, played his usual steady and consistent golf, while Pope, virtually a new comer, showed a tendency to nervousness and flubbed several shots on that account. Palmer received a set of silver cups, emblematic of the title, and Pope, as the runner-up, got a silver vase.

The card follows: Morning round: Palmer—

FOR THE MOVIE FAN

Monday and Tuesday—Mae Murray

Mae Murray in a photoplay of magnificence and splendor.

Jazzmania—a new and catchy tune on the screen.

A romance of saxophones and sax-strings.

Proves that the clarinet is mightier than the sword.

Mae Murray is an atmosphere of rhythm and royalty.

Has to do with cornets and cornets.

A brilliant photoplay of steppers and sceptres.

About a girl who put jazz into the national anthem.

How Queen Ninon substituted the one-step for the goose-step.

Mae Murray as the queen who had discord in her kingdom and harmony in her heart.

She who doesn't hesitate is lost. Mae Murray is the girl who didn't hesitate to hesitate.

And this fine picture will be seen tonight by C. Edward Betts and wife without cost, they being the honored guests of the evening.

Don't miss Jazzmania by any means it's great.

Correct this sentence: "For the eighth time the man failed to get his number and replaced the receiver gently on the hook."

The papers mention a shortage in the visible supply of calves, but fail to explain whether it's an agricultural item or a fashion note.

The jack of all trades is somewhat in excess of the jack that goes with a white collar job.

Life is harder out in the great open spaces, no doubt, but at least you don't step on chewing gum.

An educated man is one who can study the European situation and distinguish between patriotism and mulishness.

Director Leonard Encourages "Extra"

A pretty 18-year-old miss who was just one of the extras in Mae Murray's "Jazzmania," which will be at the Princess Theatre tonight and tomorrow night, came to Robert Z. Leonard, Miss Murray's director, and asked him whether there wasn't a small part—an emotional one preferred—that she could play. Mr. Leonard admired the girl's pluck, and decided he'd give her a chance. He directed the orchestra to play something especially sad, and told the girl that he wanted her to register intense grief at her lover's leaving.

The girl was so excited that she was utterly unable to act. Not a single tear could she coax forth. But Mr. Leonard was patient. "That's all right," he said. "Keep

right at it. The first fifty tears are the hardest."
"Jazzmania," written and adapted by Edmund Goulding, was produced by Tiffany Productions, Inc., of which Robert Z. Leonard is director general and M. H. Hoffman general manager. Oliver T. Marsh was photographer and Cedric Gibbons executed the sets.
In support of Miss Murray are seen Rod La Rocque, Lionel Belmore, Robert Exner, Edward Burns, Jean Hersholt and others.

Lang Names His Umpires and the Official Scorers

ORLANDO, 9.—Final instructions were given umpires in the Florida State League by Al Lang, of St. Petersburg, president of the circuit, in this city yesterday. The following are their names and scorers named by Mr. Lang:

Umpires—J. A. Lohr, Philadelphia; Warren Baxter, Atlanta; John D. Kelly, Baltimore; H. W. Kissinger, Olean, N. Y.; Wm. W. Walker, New York city; George L. Parker, Miami.
Managers—Ernie Purke, Orlando; Tommy Leach, Lakeland; Leon Ames, Daytona; Ray Thomas, Bradenton; Joe Nance, Tampa; Hugh Bradley, St. Petersburg.
Official Scorers—L. M. Bloom, Lakeland; H. Koller, St. Petersburg; Ray Farnelton, Tampa; E. A. Ross, Bradenton; Meredith Williams, Orlando; H. C. Sparkman, Daytona.

She who doesn't hesitate is lost. Queen Ninon didn't hesitate to hesitate.

FORD ANNOUNCEMENT

of Interest to
MILLIONS OF FAMILIES

"I Will build a car for the multitude"
Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks, where it will draw interest. Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He will be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

After a very critical examination of the many photographs of Shumate window displays sent us during the month of March, it was unanimously decided that the uniqueness and attractiveness of your window display, as entered in the contest by your Mr. C. A. Mathews, entitles him to the first prize of \$10.00 for the March contest and we are very much pleased to enclose herewith our check for the amount.

We desire to congratulate Mr. Mathews upon this well arranged display and we are sure it brought you splendid results. Your firm is eligible to enter the contests which occur each month and we will be very much pleased to receive photos of other Shumate window displays.

We will very much appreciate your sending us the negative of the photo you sent us and if there is any extra expense attached to sending it we shall be glad to reimburse you.

Trusting you are in the midst of a splendid business, and assuring you a four best co-operation at all times, we are

Yours very truly,

WEEKLY CITRUS REVIEW.

ORLANDO, Fla., April 9.—The weekly citrus review by F. L. Skelley, as issued from the office of the American Fruit Growers, Inc., says: The week was featured by very heavy arrivals of California navel in the markets. The prices at which California oranges have been selling have been materially below the average paid for Floridas. California shipments continue heavy. For March 29, 30, 31 and April 1 California orange shipments amounted to 807 cars as against 502 cars for the corresponding days one year ago.

Oranges: Florida valencias showed slight gain in price during the week, fancy stock reaching the high figure of \$8.03 per box delivered. The average prices paid for Florida oranges generally were very satisfactory tone.

Grapefruit: While there was some slight increase in inquiry for Florida grapefruit during the week the situation generally remained unchanged. Somewhat higher prices were paid for fancy grapefruit, the high figure of \$8.55 delivered being paid. There was an increasing demand for ordinary grapefruit but no marked change in price. For the present, at least, shipments of grapefruit of ordinary quality seem to be ample to take care of the demand.

The consuming markets have demonstrated large absorbing power for citrus fruits. Up to April 1 California had shipped approximately 1,600 cars of oranges more than for

the corresponding time in the season of 1921-1922. Florida orange shipments for the same period showed an increase of approximately 3,500 cars this season as against those of the previous season. This the markets have absorbed about 7,500 cars more of oranges to date this season than

in the previous year. During this same time they also have absorbed approximately 2,000 cars more grapefruit than during the season before.

The Herald delivered six times a week for 15c.

A Permanent Wave

Maie Murray, thirty star of "Broadway Rose" and "Jazzmania," was welcomed to Hollywood recently at a dinner in her honor held at Marcel's. After the affair was over an enthusiastic Maie Murray fan was heard to say: "I know why they hold the dinner at Marcel's. It's because of her wave of popularity."
"Jazzmania," Miss Murray's latest photograph released by Metro, is at the Princess Theatre tonight and tomorrow. It is presented and directed by Robert Z. Leonard and released by Metro Pictures Corporation. Edmund Gheebing wrote the story and scenario.
In the cast supporting Miss Murray are Rod La Roque, Robert Frazer, Jean Hersholt, Edward Burns, Lionel Belmore and others.

HIGH SCHOOL ORCHESTRA BENEFIT

On Thursday evening at the High School, the High School Orchestra will make its first public appearance, when the plays "Miss Civilization," "Box and Cox," and "La Paloma," will be given for the benefit of the orchestra.
"Miss Civilization," a one act play by Richard Harding Davis, will be repeated by request. This thrilling little play was given some time ago to a small audience, and was said by all who saw it, to be "the best of its kind ever put on at the High School. This will be followed by "Box and Cox," the funniest farce ever written. It is one big scream from beginning to end.
The Spanish class will also give "La Paloma" song in costume, in Spanish, with Spanish folk dances.
As a specialty, two of the boys will give a dramatization of "Mr. Gallagher and Mr. Sheen" in costume.
The orchestra will furnish the music. The Sanford High School is justly proud of its orchestra, which is being directed by Mr. Ball. When Governor Brough was here during the Chautauqua, he said that he had heard in all his many years of school experience. The orchestra has about 20 pieces, including drums, violins, cornets, clarinets, flutes, etc.
We still need more money to finish out the year's work, so we take this opportunity of introducing the orchestra to the public, and making enough money to carry the orchestra through the year.
Don't fail to get a ticket. Only 50 and 25 cents. Thursday evening at 8 o'clock is the date.
