MENT OF NOMINA TO PORT G.O.P.

L. Owen, Okla-
ma Solds For 18
ers, Hails Party
Work For Hoover
Home State
Go For Hoover

Alman Nominee
Called "Ameri-
cans"

YORK, July 25.—Robert L. Owen, for a Democratic member of the U. S. Senate from Oklahoma, today came out openly in support of Hoover, the Republican presidential nominee.

The renomination of the ticket was announced by a spokesman statement which he handed out personally to the Republican head of the Waldorf Hotel.

"Hoover is my opinion," he said. "He is the best man ever presented by any in America for the during my life. He is a man of Americans, a sanitarian, a diplomatic executive."

An announcement created a stir in political circles. It was made by a spokesman for the "the first Senator George H. Alexander to enter re-

nomination was a man fitted for the job," Owen said. "Hoover," he continued, "The people will honor them as they honor great Americans."

Speaking at the Oklahoma state newsmen's afternoons, he said: "The women will vote against the overwhelming, Okla-

ka Tammany Hall and all of New York pol-
itical parties."

**Reiterates
y Of Seeing 3
e Survivors**

W., July 25.—(INS)—The search was again
openly to public attention
by aviator Czachorsky's
official report to the
of examination, repeating
the three figures on the
located the Malangren
on Tuesday.

A report was made in re-
quested wirelessed to his brother Krasskin
and radioed commission
to clear up the mystery which were
two survivors—
party—were
in the day it had been located.

Chefoo Occupied In Coup By Chen Kuo

WASHINGTON, July 25.—(INS)—General Chen Kuo, former governor of Shantung, effected a coup d'etat at Chefoo on July 24 in the name of Chang Tsung Chang, American Consul-Leroy Webber cabled the State Department today. Webber's message stated that the northern flag has been hoisted; that all the shops are closed, and that the nationalist officials who recently assumed office have either been arrested or have sought asylum at the Japanese consulate.

LABOR PLANS TO TAKE NO SIDES IN ELECTION DRIVE

Non-Partisan Policy Slated
To Be Reaffirmed At Meet
In Atlantic City; Hoover
And Smith Are Both Liked

WASHINGTON, July 25.—(INS)—Organized labor does not take sides in the present presidential campaign.

Its non-partisan policy is expected to be reaffirmed at the meeting of the executive council of the American Federation of Labor in Atlantic City next week.

Labor will work with both parties to secure election of senators and representatives who are favorably to the Federation's legislative program.

While withholding comment in advance of the council meeting, Federation officials declared today that organized labor has no grudge either with Secretary of Commerce Hoover or Governor Al Smith of New York. William Green, president, and other officials, however, do not believe that the anti-injunction planks in either party platform were strong enough.

The Federation feels that one of the greatest obstacles in the path of labor today is the alleged misuse of injunctive powers by Federal and state courts. They point to the coal strike injunctions as examples.

Labor officials have consulted both Hoover and Smith about the injunction question and have requested the candidates to make their positions clear in the acceptance speeches.

Four years ago, at a council meeting in Atlantic City, the Federation decided to stray from its non-partisan policy and endorsed the LaFollette independent candidacy. Senator LaFollette polled less than 5,000,000 votes, and carried one state, Wisconsin, in the electoral college. Proposals have been made to enlist the Federation in a new third party movement which would be built up during the next four years and enter the lists with a presidential candidate in 1932. The movement would be centered around the LaFollette-Norris progressive group in the senate. A cold shoulder has been turned to this project because the present officialdom is irrevocably opposed to a separate labor party, or a party with labor as a nucleus.

Aside from anti-injunction legislation, the A. F. of L. is most keenly interested in child labor legislation and prohibition. It has stood for modification of the violent act to permit sale of beer and wine.

TWO BOATS REACH SPAIN

SANTANDER, Spain, July 25.—(INS)—The American sailing yacht Mohawk in the New York-Santander race, arrived at noon and was followed two hours and four minutes later by the yacht Atlantic. The Mohawk, one of the small class boats, sailed from New York on June 30. The Atlantic was one of the larger class boats that sailed July 7.

(Continued on page 3.)

President To Leave Brule Soon For Short Sojourn In Yellowstone Park

SENIOR, WIS., July 25.—(INS)—The magnificent scenery, invigorating air and fine fishing of Yellowstone National Park will lure President Coolidge away from the Brule River summer house between the tenth and fifteenth of August, international news service learned today.

Tentative plans have been in the making for the past few days for a departure from here between these dates for Yellowstone.

A return to Cedar Island Lodge for the remainder of the season is problematical. The Coolidges may tour the park in the usual fashion and come back to the northwoods of Wisconsin, or they may arrange for a more protracted stay and then go straight east to Plymouth, Vt., or Northampton,

HARRISON WILL DIRECT DRIVE IN SOLID SOUTH

Mississippi To Supervise
Dixie Strategy From New
York Office With An Oc-
casional Visit To Front

Democratic Success
Certain, Says Solon

Denial Made That Certain
Sections Of South Will
Repudiate Party Leader

NEW YORK, July 25.—(INS)—The Democratic national campaign in the Solid South will be waged under the personal direction of Senator Pat Harrison of Mississippi, from the national headquarters in New York.

Following announcement by Chairman John J. Raskob of the Democratic national committee that he saw no necessity for an independent southern headquarters, Harrison, a member of the national advisory committee, brought the Democratic chief renomination to a standstill.

Its non-partisan policy is expected to be reaffirmed at the meeting of the executive council of the American Federation of Labor in Atlantic City next week.

The decision to give Harrison

parties to secure election of senators and representatives who are favorably to the Federation's legislative program.

While withholding comment in advance of the council meeting, Federation officials declared today that organized labor has no grudge either with Secretary of Commerce Hoover or Governor Al Smith of New York. William Green, president, and other officials, however, do not believe that the anti-injunction planks in either party platform were strong enough.

**DuPont Relative
Sued For Slander
By Capital Minister**

WASHINGTON, July 25.—(INS)—A \$100,000 slander suit was filed today against Mrs. Margarette Du Pont Lee, of the Delaware Du Ponts.

The pastor charged Mrs. Lee last February interrupted a healing service by exclaiming audibly to a friend, "He's raving and carrying on up there." On the pulpit.

Mrs. Lee remarks, the suit states, caused Rev. Reynolds' reputation as a minister and as a citizen.

The suit also alleged that Mrs. Lee at the same service denounced Mrs. Maud B. Ford by saying:

"What do you mean by allowing that woman (pointing to Mrs. Ford) to get the rectory drunk?"

Mrs. Ford has sued Mrs. Lee for slander. Mrs. Lee is a sister of Alfred I. Du Pont and a cousin of Senator Coleman Du Pont of Delaware. She has been a financial supporter of Dr. Reynolds' church, the St. Paul's Protestant Episcopal.

**New York Police
Are Baffled Over
Jewel Transaction**

NEW YORK, July 25.—(INS)—The most puzzling jewel transaction in New York in years to day sent a private detective to Philadelphia to search for \$236,000 worth of gems that officials of the John Wanamaker stores announced have been recovered al-

ready.

The jewels are said to be the

Mr. Coolidge has during last year's tour of the park, plus the pleasure of Mrs. Coolidge and their son, John, are understood to have promised the donation to journey away from the Peacock estate on the Brule. The President fished constantly, and with great success, all of the five days he was in Yellowstone in the summer of 1927, while Mrs. Coolidge and John found pleasure in the hotel life of the park system after weeks of virtual isolation in the woods.

Also, a nasal ailment known as rose fever of the asthmatic order, troubles the executive annually and the altitude of the park figures to afford relief.

Mass., for several weeks before returning to Washington.

Herald Invites Fight Fans To Hear Title Bout Results

Sanford boxing enthusiasts who wish to follow the progress of the Tunney-Hearn heavyweight championship battle in the Yankee Stadium tomorrow night will be able to get the returns hot off The Herald's International News Service leased wire. The story of the fight, blow by blow, will come direct to The Herald office from the ringside, where news service writers will click out the progress of the fight.

The big boxing show will begin in the New York stadium at 10 P. M., Daylight Saving Time, or 9 P. M. Sanford time.

The Herald cordially invites every Sanford and Seminole County citizen interested in the heavyweight match to attend the show at The Herald office. The issuing of detailed returns on the fight is in keeping with The Herald's policy of giving the people it serves news on events of local and national interests.

Increase In Re-Discount Rate Causes War Vets To Pay An Additional Million

ROCKEFELLERS FAIL TO COMPEL STEWART TO QUIT

Chairman Of Standard Oil
Of Indiana Obtains Con-
cession Interest And De-
fuses Founders Of Concern

NEW YORK, July 25.—(INS)—Wall Street displayed only a mild interest in published newspaper stories restating that John D. Rockefeller Jr.'s effort to force

Robert W. Stewart out of his position as chairman of the board of directors of the Standard Oil Company of Indiana has failed because Stewart has obtained control of 51 per cent or more of the stock of the corporation by ownership or proxy.

Stewart is portrayed as having apparently beaten the Rockefellers in this fight and to have become the unquestioned dictator of the policies of the \$250,000,000 corporation. For half a century the Rockefellers have dominated the oil industry.

At the offices of Rockefeller it was stated this morning that Mr. Rockefeller is out of the city and could not be reached for comment on the matter. It was pointed out, however, that Rockefeller has not changed his position as regards Stewart. In a statement recently

Rockefeller denied reports that he and his family were selling out their holdings in the Standard Oil of Indiana.

Rockefeller testified several months ago that he owned or held proxies for 14.9 per cent of the stock of the Standard Oil of Indiana.

The rest of the stock is held by

more than 55,000 shareholders.

The break between Rockefellers and Stewart came as a result of the scale investigating committee and his subsequent trial for contempt and later for perjury. Rockefellers depicted the attitude of Stewart and demanded that he resign. This Stewart refused to do and the matter, according to newspaper stories, settled down to a struggle for control.

WEDNESDAY, JULY 25.

GIVE ME A LITTLE

New York Herald Tribune
Give me a little of your time,
To speak of the things you like,
To pass the twilight hour
To gaze upon the setting sun.
A momentary glory in the sun
Is all that may remain at last
Of a long day full-spent.

Lend me your lips for a short
enjoying span.
If there be truth or permanence,
I will make it true to you,
Lest if I should not be
What would my swift detection
mean to me?

Who had not some love for her,
Who had not some offer in return
A single preface of a bite to come?

On To Rome

Morris R. Daugherty, one-armed and legless aviator, who declares he is about to solo flight to Rome in the near future, arrived last Friday at Roosevelt Field, Long Island. Strangely enough this trans-Atlantic aspirant needed the assistance of two other pilots in order that he might find the field which he had been unable to locate the day before. He informed reporters that his proposed hop was to demonstrate that a cripple can fly over the treacherous ocean as easily and safely as I think any who can run can make the trip.

Therefore turn not away.
Give me that little of yourself
Which may be offered for me.
Now sign me, and leave.
Him me but once before the night
Itends upon the all-too-fleeting
day.
Give me but one brief hour of
your love.—By Carr F. Jacob.

Headline says "Smith Will Cover Nation Completely." Cover it like
the dew, as it were.

Our marches are on. —
William Harrison Dempsey to the
country notwithstanding.

Sometimes a fellow "gets on his
cay" and then someone completes
the job by knocking him off his
horse.

An exchange notes that Mr.
Work and Mrs. Hatchek have been
exchanging a few bouquets. Plain
old "hock talking" is what we call
it.

Suggested plan for the Clear-
ing House Association's platform:
Popularity fruit juice drinks in
Florida soft drink stands—Ovala
Star.

The Noddy, the popular duster has
warmed matters between Italy and
other nations but far from heat
news has been reported in the
vitality of Optimists.

The Gadsden Lure announces
that New Orleans has put the
gasoline gunners back to work.
It could not do likewise with its
machine-gun pumping gunners.

Babe Ruth announces he will re-
turn to the New York fans in time
with the knocking hours at the rate of 40 a season and
knocking down 65 grand a year.

A man purchased two dozen
eggs at a local credit grocery, sold
them to another store for cash and
used the money to buy gasoline.—
Breakfast Head—That's what
you call enterprise.

The Firestone Tire and Rubber
Company will spend four hundred
thousand dollars to build a new
Florida branch at Jacksonville. In-
siders expect this will help follow-
ers in promoting better business.

A lot of conflicting stories have
been published in connection with
the Noddy expedition and the effec-
tiveness of the new venture. It is neither new,
however, as some controversy has
developed out of practically every
attempt to explore the Arctic re-
gion.

John J. Tigert, United States
commissioner of education, is main-
taining his position in connection
with the appointment of Dr. A. A. Marqusee
to the late Dr. A. A. Marqusee,
president of the University of
Florida. Dr. Tigert is one of the
most prominent members of the
education commission and his acceptance
of the presidency of the state university
would be a decided feather in Flor-
ida's cap.

THE USE OF "LIKE" OR "AS"

KANSAS CITY STAR

So much uncertainty seems pre-
valent as to the correct use of
"like" and "as"—"as if," in
statements of comparison, that a
few words of explanation and illus-
tration may be helpful to those
who are desirous of being "correct."

If the habit of using "like" in-
correctly has been formed, it may
be found helpful to use "as if" in
its place, as it is more "correct" for
frequent practice, until the ear becomes
accustomed to the better usage that the wrong tendency
dies away. The following will
increase immediately the accuracy of
one's speech:

"She looks like a girl in the famous
high school." "They look like
children dressed like fairies."
"He dances like they had been
taught."

"He works like a Trojan."
"His work is as if he enjoyed his
task."

"It looks like rain."
In his "Is it Good English?" John O'London, commenting on
the use of "like" and "as if," says: "It
is not proper to introduce a
noun (or a pronoun) followed by a
verb, or what we may call a noun-
combination."

The mistake so often made by
Parisiens is, "They speak French as
if they were Parisians." They speak
French as if they were Parisians.

"She looks like her mother."
John does not note as his father
does.

"They act like college boys."
"They act like as if they were happy."
The children danced like fairies.

"They danced as they had been
taught."

"He works like a Trojan."
"His work is as if he enjoyed his
task."

"It looks like rain."
In his "Is it Good English?" John O'London, commenting on
the use of "like" and "as if," says: "It
is not proper to introduce a
noun (or a pronoun) followed by a
verb, or what we may call a noun-
combination."

English Aircraft Carry 500,000 Persons In 1927 Without Single Fatality

LONDON, July 25.—(INS) While more than 500,000 persons flew in British aircraft during the year 1927, not one fatal accident occurred to mar the record of the commercial air-lines, on which passengers paid for their trip, it is revealed in a report issued by the Air Ministry.

There was no serious accident of any sort in regular air transport in the last year, the third in succession to hold this record, and in its report, the Ministry stated "no fare-paying passenger was injured through a mishap in any airplane registered in the British Isles."

Civil Flying Developed

The report states that "statistics emphasize the considerable all-round development of civil flying."

The record number of 28,764 cross-Channel passengers was carried by British and foreign aircraft, and increases of 3,000 on the figure for 1926. The British share amounted to 57 per cent.

Although the number of passengers increased on all British services as compared with 1926, the numbers of flights and the weight of cargo both decreased as follows:

1926 1927

Passengers ... 16,775 18,874

Mileage Flown 840,000 769,000

No. of Flights 4,777 4,150

Cargo (tons) 879 587

Joy-riding is on the boom, the report revealed, and it was estimated that at least 500,000 persons flew during the year, for pleasure profit or speed.

Club Makes Headway

Light plane clubs are making strong headway, and progress was recorded in practically all fields of flight. In accidents to civil machines, including racing and test planes, five lives were lost.

The report reveals that in 1927 the British Government paid approximately \$1,150,000 in subsidies to the Imperial Airways.

The German government gave the Luft Hansa approximately \$5,250,000, while the United States subsidized its postal lines to the extent of \$2,000,000.

VERO BEACH—Vero-Ruskin Cross-State Highway Association formed to foster completion and maintenance of State Road No. 29 from Vero Beach to Ruskin.

1926 1927

The Romance of Paper

Very few things are in more common use today than paper. But few common commodities have a more picturesque background than has the manufacture of paper. Northward and toward the Orient and verdant landscapes of growing rice. And some of the uses made of paper are no less devoid of romantic appeal.

The present-day source of linen paper is the flax fields of Europe. But the history of flax growing antedates that of Europe, going back beyond the days of Tutankhamen, and the other Egyptian Pharaohs.

In Ireland, Italy, Russia and Belgium, where flax is now principally grown, its cultivation is by hand. The seed is sown without aid of machinery, and the fields weeded by workers bending over the plants. When the flax is cut, it is carefully strewn over the fields for the dew to wet or is put under water, where the useful fibre is loosened from the woody stem. It is all slow, painstaking work, with the methods used differing little from those practiced generations ago.

After the fibre is separated from the stem in scutching mills, it is made into threads and then into linen cloth. Also, from the rags left over in turning this cloth into tablecloth, "dress" goods, sheets, cases and other pieces, and from old linen rags, is made a high-grade linen paper.

It is well known that such paper makes the finest stationery, but it has other rather amazing uses. One of them is in an electrical device known as a condenser, a simple piece of apparatus formed of two metallic plates insulated from each other by strips of linen paper so that an electrical current is unable to flow directly from one plate to the other. Yet this simple device is very important, for example, in a telephone system, for a direct current is unable to flow through it, while an alternating current can—and telephone instruments.

Above:—A step in the process of paper making—converting separate flax fibres into continuous even sized yarns. Below:—Girl inserting round linen paper insulators in the transmitter button of telephones, at the Hawthorne Works of the Western Electric Company.

Phone ringing circuits are alternating currents, while the energy for lighting over telephone wires is direct current from storage batteries. These condensers are an application to keep the direct current out of paths meant only for the alternating current. The extent to which these appliances are used can be gained from the fact that the Western Electric Company, at its Hawthorne Works in Chicago, makes about three million telephone condensers in a year. Paper made from linen is also used as an insulator in the transmitter button of the telephone instrument.

SALE MANAGER PLEASED

Scores of people were turned away on the opening day of the bankrupt sale at the Florida Cash Store, Herman Lutz, manager of the sale said today. He said the sale was continuing a success and that he was highly pleased with the results obtained from his advertising in The Herald.

The Business Man

Time is money in business and I make sure my car is always ready for service by using Champion Spark Plugs.

Champion is the better spark plug because it has an exclusive siliconized insulator specially treated to withstand the much higher temperatures of the modern high-compression engine; also a new patented solid copper gasket-seal that remains absolutely gas-tight under high compression. Special analysis electrodes which assure a fixed spark-gap under all driving conditions.

Home Runs

Famous ball players have won more popularity

through home runs than in any other phase of America's National Sport. The dope generally favors the team having the most players to come safely in home.

Likewise ad messages in the Sanford Herald gain more reader attention because of the well-known fact that afternoon newspapers are safely delivered to or ultimately reach the home and the several members of each family.

Baseball stars and Sanford Herald ads are noted for speed and action. Score a hit by calling 148 for an adtaker.

Memorial Tower Planned For Boston Airport As Honor To Aerial Heroes

BOSTON, July 25.—(INS)—A preliminary plan for the memorial tower to be erected at the east Boston airport in honor of Boston's air heroes—both living and those who gave their lives to the cause—has been presented to Governor Alvan T. Fuller.

The memorial, to be erected in honor of Miss Amelia Earhart, first woman to span the Atlantic in an airplane, and those two famous and intrepid male birdmen, Commander Richard E. Byrd and Lieutenant Albert F. Hegenerberger, will be utilitarian as well as ornamental, and it is expected will serve as a model for aircraft building architecture.

Gov. Fuller Chairman

The task of perfecting the plans is under the direction of the Earhart Foundation committee, of which Governor Fuller is honorary chairman, and through the efforts of Crossup-Pisano post American Legion, Boston chamber of commerce and the Boston Chapter of the American Aeronautical Association.

The proposed plans of the building call for a structure four stories high, surmounted by a powerful beacon which will be visible for miles. The brick edifice will be approximately 77 feet in height from the ground to the beacon.

Memorial Room

According to the proposed plans, the ground floor is to be 15 feet high and will serve in the nature of memorial room. In it will be placed tablets commemorating the deeds of world war fliers, trans-Atlantic heroes and all who have advanced the cause of aviation.

The second floor will be fourteen feet high and the third story, ten feet in height. Both will be used as control and observation compartments.

Surrounding the ground floor is a balcony made with four lights and a short run of steps leading to the wide doors of the memorial room over which will be the dedication inscription.

For Many Years

"I don't believe the trouble in China will be over for many years," Mathewson declared. "The Nationalists, who are now in power, seem to me to be far from a stable order. Many of their leaders are actuated by nothing but looting and so long as that prevails it will be impossible to effect a permanent government."

We have others to select from, look them over before you buy.

KANSAS GATHERS RECORDBREAKING YIELD OF WHEAT

Twenty Thousand Combines Harvesters And Threshers Speed Up Work; Quantity And Quality Emphasized

KANSAS CITY, July 25.—(INS)—Over 20,000 combines harvesters and threshers manned by Kansas farmers sweltering under the hot

sun are proving for another year that the yield of the golden wheat 212,000 bushels, in large measure, upon the speed with which the machines are able to get the crop out of the fields.

The eight-day history of the organization of the combines into

village in the state, is being celebrated with great enthusiasm.

Does One Year

"Yes, I'm a 'Griffen' (meaning greenhorn in Navy parlance) in these parts," said Captain Johnson. Most of my service in the Navy has been in Asiatic waters, but it is very unusual for one to spend 35 years in the Navy without once anchoring in San Francisco harbor."

Chinese Revolutionists Are Greatest Optimists Says U.S. Naval Officer

SAN FRANCISCO, July 25.—(INS)—The Chinese revolutionists are the greatest optimists in the world.

This opinion was expressed to day by Commander W. R. Mathewson, of the U. S. S. Cincinnati, just returned from Oriental waters, as he pointed to a machine-guns bullet hole in one of smoke stacks of the giant cruiser.

"These Chinese revolutionists don't care who they fire at," commander Mathewson said. "We were cruising up the Yangtze river one morning, when we heard a few bullets whizzing over our heads."

"Looking ashore, we saw a small group of revolutionists on the beach training their machine guns on us. Several of the bullets struck

our smoke stacks and one of the missiles struck Ensign Cecil on the grain inflicting only a superficial wound."

"We opened up on them with a small three-inch piece and soon scattered them, stopping the fire."

Poor Marksmen

"A little farther up the stream another group opened fire on us but most of their shots went wild."

The Cincinnati with two other cruisers, the Marblehead and the Richmond are anchoring in San Francisco bay after a 25,000 mile cruise during which they did patrol duty at both the Nicaraguan and Chinese revolutions.

"This is the first visit of Captain C. T. Johnson, skipper of the Cincinnati, to San Francisco in his

ten years.
