

Feds Seek 2nd In Row With Edgewater Here Tonight

Krider To Start In Memorial Stadium

By KENT CHETLAIN
Three Sanford baseball representatives, will be out this evening to break the backs of their traditional rivals from Orlando with the SRS team. Four-time Memorial Stadium field at 8:30 o'clock to battle Edgewater High of Orlando.

Jimmy "Jack" Krider has been designated to make his first starting appearance of the year tonight. The lanky right-hander, who has matured, adding weight and height to his towering stature, will carry the team so ably held when "Mighty Mel" Friesch or lamed the Seabreeze invaders here last Thursday night, 3-2.

Krider's 1951 hurling record has been confined to his one four-inning stint against New Smyrna Beach in the latter city two weeks ago when the son of the former Florida State League President was tagged with a 10-0 loss.

Coach Fleming isn't relying on his calculated experiment of converting right-handed hitting outfielders, Larry Bates and Ross Hennum, into southpaws. He is planning to rely on the fact that despite the fact that neither one got a ball out of the infield against Seabreeze, it didn't prove a success. Another interesting point is that tonight's SRS foe from Orlando were defeated by Seabreeze yesterday, 6-2.

A quick glance at the averages shows Metz is the only regular over the 200 mark this year. The Lake Monroe "Locomotive" is hitting the ball at a hotly 420 hit per Huky receiver Terry Cordell is at the 286 mark and below that you would think the averages represented weights or bat sizes. Only five regular Feds have been able to break into the hitting column all year.

Sanford now has a 1-1 record, holding a win over Seabreeze, 3-2, and a loss to New Smyrna, 10-9. It is interesting to note that both games have been decided by the margin of just one run. Another interesting point is that tonight's SRS foe from Orlando were defeated by Seabreeze yesterday, 6-2.

Morris Hurts Bucs Out Of Last Place

Bill Morris twirled the last place Pirates out of the Rotary League basement with a brilliant 4-0 one-hit shutout over the Tigers at the Ninth Street Diamond yesterday afternoon.

Bill Jones slammed out a pair of doubles in two trips to the plate to pace the winners. The victory put the Pirates in third place and dropped the Tigers into the Rotary League cellar.

The second place Cubs battle the league leader Giants in this afternoon for first place. Thursday the Cubs will engage the Giants.

Knobhole Gang Waits On T-Shirt Arrival

Plans for the formation of the most elaborate Knobhole gang in the history of the City by the Sanford Cardinals, ran into red tape this week, it was reported today by General Manager Jim "Red" Smith.

All youths, 14 and under, will be admitted free to all Red Bird games this year if they are wearing a special Sanford Cardinals "T-shirt." But this T-shirt hasn't been for sale because local merchants have had trouble finding an agent for a T-shirt company, who will have a large enough supply before the season opener here next Monday night.

"We are working day and night trying to get these T-shirts for the kids," Fields declared. Purchase of just one of these inexpensive T-shirts will be the same as a season's pass for the youngsters at all the Memorial Stadium games.

Inter City Golfers Play Here Tomorrow

The Mayfair Inn Seminoles Country Club's Women's Golf Association will play host to the monthly Central Florida Inter City Golf Association tournament tomorrow. It was announced today by Mrs. Howard McCaugh, association publicity director. Over 100 women from Daytona Beach, DeLand, Leesburg, Orlando, Healdsburg, Palm Bay, Gainesville and other sections will participate.

BIG TEST FOR HIM - - By Alan Mayer

WHITEY FORD OF THE YANKEES, THE 27-YEAR OLD SOUTHPAW SHOULD BE ONE OF THE SEASON'S BIGGEST WINNERS IF HE FITS IN HIS PRE-ARMY FORM.

THIS WILL BE THE HIGHEST POINT OF HIS CAREER BUT HE HAS ALL THE POISE OF A VETERAN AND SEEMS CERTAIN TO BECOME A GOATHERY OF THE BEST YANKEE TRADITION.

Advance Season Ticket Sales Hit 130 Mark

The sale of advance season tickets to the Sanford Cardinals baseball games here this season reached the 130 mark with today's announcement that sales hit a snag over the weekend. President John D. Callahan reported, with the Florida State League opener less than a week away, season ticket sales had jumped by only two, leaving 170 still to be sold in order that the 300 goal can be reached.

Crooms To Play Tomorrow Night In New Stadium

By T. V. DAVIS
When Crooms Academy tangles with Euclid High School of DeLand here in the Memorial Stadium at 8:00 o'clock tomorrow night, Bill "The Fireman" Williams will assume a new role in starting on the mound for the Panthers.

Crooms Coach C. B. Franklin made this startling revelation today. In commenting on his selection, Coach Franklin stated, "I am designating Williams for the opener this year because he worked so well for Crooms last season, pitching relief roles in almost every game."

While Franklin named his starting lineup for tomorrow night's game, he has been mum on the topic of his other regular starters. Battling for the starting catcher assignment are Curtiss Smith and Ollie "Cotton" Boardman. At third is big Urdy Edge and Willie Demps while Robert "Hubba" Black and Earnest Thorne are vying a two-man struggle for the shortstop berth.

To add color to tomorrow night's gala event will be the presence of the Crooms Academy band, dressed in its recently purchased uniforms. Admission for the game will be 50 cents for adults and 25 cents for students.

Pirates Release 8 Players To Minors

NEW ORLEANS (AP)—The Pittsburgh Pirates, minus eight players they optioned and released, headed for Georgia today to take on the Atlanta Crackers of the Southern Association in a night exhibition. A scheduled game with the New Orleans Pelicans was rained out last night, but the Pirates put in a lot of off-diamond activity.

Optioned to New Orleans were first baseman Al Grunwald, pitcher Ed Wolfe, infielder Tommy Seneca, and outfielders Brandy Davis and Gail Henley.

Pitchers Bob Garber and George Dries were returned to the Braves' Class AA Southern Association farm club here for further seasoning and pitcher Dick Manville was released outright.

Two New Orleans players, outfielder Fred Gibson and pitcher Ed Williams, were released outright. First baseman Paul Smith, who was bought by the Pirates.

Linda Gingles Is "Fifth Man" On Mercer University Net Team

By KENT CHETLAIN
Have you ever heard of a woman being the "fifth man" on a tennis team? Well, Mercer University at Macon, Ga., boasts of just such a person. Mrs. Linda Gingles, former summer recreational director in Sanford, is the "fifth man," holding the distinction of being the only woman athlete to play on a varsity team in the school's history.

Linda, who is Mrs. Pat Gingles and mother of two children, is now enrolled at Mercer studying for her masters degree in physical education. Mrs. Gingles demonstrated her proficiency on the courts to such a degree as to battle off all comers and win fifth place on the team in a school that never had a woman competing in a major sport before.

The likable Linda, who supervises the tennis program and creation program from 1918 to 1950 and took charge at the Mayfair Inn in the winter time, admits she loves sports, but her two daughters come first.

"My father's husband, a graduate of Georgia Tech and is an architect who designed his first house while in Sanford. Mr. Gingles drew the plans for the Lake Mary home owned by Mr. and Mrs. H. E. True.

Linda began her unusual tennis career in the blue grass state winning a bit of a name in Mercer's state amateur tournaments. Upon graduation she hopes to carry on her normal household and be an athletic supervisor.

Reserve Tickets Are Put On Sale For Card Opener

Sale of reserve season tickets to the Sanford Cardinals' season's opener at the Memorial Stadium next Monday night with Orlando Senators began this morning at the Red Bird downtown ticket booth in front of Touchton's Drug Store. Adult reserve box seats are selling for 95 cents.

Persons holding 810 unreserved season tickets may pay only 25 cents for a reserve box seat at the Memorial Stadium opener Monday night. All reserve 855 season ticket holders have a box seat especially assigned for the opener and all games throughout the season. The 70-cent general admission tickets for Monday night's opener and all other games all went on sale this morning.

All advance single game ticket sales will be good for any game. No specific dates will be stamped on tickets this year as in the past. General Manager Jim "Red" Smith said, "The purchase of a 70-cent general admission ticket will be good for any game the owner wishes to attend all season."

Seminole Lose 7th Consecutive Contest

Ken McMurray put the Cardinals back in the Lions League' running again with a sterling one-hit 13-0 win over the hapless Seminoles yesterday afternoon at the Lakefront Diamond. It was the seventh straight loss for the Seminoles who have yet to crack the victory column.

All advance single game ticket sales will be good for any game. No specific dates will be stamped on tickets this year as in the past. General Manager Jim "Red" Smith said, "The purchase of a 70-cent general admission ticket will be good for any game the owner wishes to attend all season."

Now, as for that first pitch: "Well, I guess you'd have to call it a blunder," Nixon said, "the kind you just throw up there and hope it doesn't get hit out of the park. I think I'll use an underhand delivery, like Sid Hudson, from now on here, and I'll be somewhere around the vice president's knees."

Chicago Cubs Seek 4th Starting Hurler

ARDMORE, Okla., (AP)—With Bob Rush, Warren Hacker and Johnny Klinkstein established as the top three of the Chicago Cubs mound staff, a three-way battle is going on for the fourth slot.

The trio, all southpaws, consists of veteran Paul Minner, rookie Fred Baczewski, and Bob Schultz. Minner has been badly mauled in recent exhibition outings. Baczewski has been the most effective pitcher on the roster.

Schultz combined with Sheldon Jones for a four-hit 3-2 win over the St. Louis Browns yesterday. Coach Charles Root says he could become the best left-hander in the National League.

Little Solly Hennes, shortstop of the St. Louis Cardinals, can hit the long ball, too. In 1953 his 16 homers were scored on the club out of 14 Stan Musial's 21.

The SPORTS REGISTER

By KENT CHETLAIN
Sports Editor

J. C. DUNN... This is the Sanford Cardinals' new manager. The rough and ready 6-foot-2, 185-pounder has been given the St. Louis stamp of approval. The popular Winston-Salem slugger was labeled the best playing manager in the Florida State League by one source at last Sunday's FSL meeting in Daytona Beach. Dunn brings to Sanford a record of a strict disciplinarian who stands for no foul-shoes. He will play centerfield for the Cards in a strict disciplinarian who stands for no foul-shoes. He will play centerfield for the Cards in a strict disciplinarian who stands for no foul-shoes.

Who ever heard of a player taking a bucket of water from the dugout and showering some cash customer for a glib tongue, or hurling his hat clear over the grandstand for a bad call by the ump. Well, these are just a few of the daffy acts the fiery little Irishman did to write one of the most colorful eras in the memories of local fans.

The rough and tumble, muscle-packed infielder from Valdosta, Ga., who might have gnawed on coal balls and no one would have doubted it, was indeed the Doctor Jekyll and Mr. Hyde of baseball. On the diamond he was as rugged as Ty Cobb in his prime, giving no quarter and taking none. While Clary would transform into a gentle, unassuming person as soon as he hung up his uniform and don his civies.

This is what Tom Holt tells us, and Mr. Holt ought to know, for Clary lived with the Holts for a time. But brother, stick him on the ball field and you have a horse of a different color. The playing of the baseball roudy was no more erratic than his erratic career, which is still very much going right now.

The unpredictable Clary is now entering his 18th year in organized ball. Only last year he was voted the most valuable player in the Class AA Southern Association, hitting over .300 pacing Joe Engel's Chattanooga Lookouts to the SA pennant. Clary figures prominently in the Lookout plans this year from his recurring ankle injury.

Clary has seen the best and worst in baseball, traveling the broken down bus circuits to the steaks and lights in the big leagues. He even played in that baseball coincidence—the all-St. Louis World Series back in 1911.

Clary was born in Valdosta, Ga. on Sept. 11, 1917. For the tender age of 17, he began his fabulous diamond career with Americans of the Class D Georgia-Florida League in 1935. In 85 games he hit .216. After a dismal .188 average in 21 games with Americans the beginning of the next year, the hard-bitten infielder showed up in Sanford to get his baseball baptism under the inimitable "Raw Meat" Rodgers.

It was under Rodgers' fearless fielding leadership that the real Clary blossomed out on the diamond both in his playing ability and in his dominating, pugilistic spirit. Clary's batting mark zoomed to the 270 mark in 94 games at shortstop for Sanford in 1936 under the batting tutelage of old "Raw Meat." It might be mentioned that Clary's real name was full but his ruddy face and truculent demeanor were most aptly described by his nickname, "Raw Meat," which has stuck. To this day an outfielder would have to think twice before telling him Bill Rodgers was.

Even with Clary and Rodgers sparking that 1936 club, Sanford, playing as a charter member in the six team league, could finish no better than fifth, but eight games back of the winning Gainesville 5 Men.

But the 1937 season ushered in a new era. Those Sanford Cardinals battled the G-Men down the wire with their fantastic fighting spirit before winning a second only 6 1/2 games off the pace. Clary paced his average to .282 in 128 games. "Breeches" crossed the plate 122 times that season and blasted 76 more across on 142 hits, 14 doubles and 12 triples with but a single home run.

It was while playing in Sanford that Clary picked up that unusual moniker "Breeches." According to Buddy Lake, Ellis with his flare for the unexpected and unorthodox would always wear a shabby pair of baseball pants that were much too big and long for him. The heavy trousers hung down on his legs in such a rumpus fashion as to expose himself to that inevitable name—"Breeches."

We might mention here that the 1937 Sanford club had a rookie of Indian extraction who has since become one of the top minor league hitters today—Early Wynn of the Cleveland Indians' Big Three.

After the 1937 season the flamboyant "Breeches" went to Charlotte having a good year, then a bad, and so on, up and down until he landed with Washington in 1942. Clary will best be remembered in the Major League for losing to Red Chandler's bid for a no-hit game off the New York Yankees pitcher and it proved to be the only hit Chandler yielded all day off the bats of the Washington Senators.

But in Sanford, Clary will always be remembered as that furious and daffily playing shortstop who could do anything, and did... He was "Breeches."

Hal Boyle's Column
By HAL BOYLE

NEW YORK (AP)—Do you want to be the best of your kind? One sure way is to become a free loader. Millions of Americans have learned to follow this quick, easy path to a rich full life they could otherwise never afford. You, too, can become one. All it takes is a little patience, a callous on your conscience, a lot of brass and gall, and the hide of an elderly elephant.

Free loading is merely hitchhiking through life on other people's good will. It is panhandling raised to a pure art form. In the old days a free loader was a frowsy character who slid through a saloon door when the bartender's back was turned and wadded his way through the free lunch counter without buying a five-cent beer. Everybody knew who he was and nobody had any respect for him.

"Throw the bum out!" rang the

cry and out the bum was pitched. Those innocent times are gone. Today if all the free loaders at some of the better functions were flung out on the pavement the place would be left empty except for the host.

For the breed has multiplied. As a matter of fact if all the free loaders in the country got into a mass fist fight on a given day, the outnumbered free spenders would have to yelp for help to the National Guard to make it an even battle.

But this will never happen. The toptype free loader now is a fellow with social prestige who dresses well and hangs out in the most fashionable watering troughs.

To be a successful free loader you have to follow a few sure-fire rules:

1. Never put down your own money except to pay your way out of an emergency—and keep out of emergencies.
2. Choose your friends wisely. Never climb with anybody who doesn't have either a big bankroll or a big expense account.
3. Never buy what you can borrow.
4. Try to borrow money only from people who if you pay them back one week, will gladly lend you twice as much next week.
5. Always be a snob. Avoid gratitude as you would the mumps. Over-awe the chumps you sponge off of. If they don't feel you're doing them a favor to be in their company, they're the wrong kind of chumps anyway.

There are dumb free loaders and smart free loaders. A dumb free loader goes into a night club, sits down at a table with some chance acquaintances, orders some drinks and a meal, and hopes to duck out to the men's room when the waiter brings the bill.

But suppose the bill comes while the other fellows are away. The dumb free loader is stuck with an emergency. He has to pay.

A smart free loader on the other hand, shows up with his right hand bandaged.

"Burned it helping a pal put out a fire in his car," he explains. Right away he's a hero. He drinks his fill, the girls cut up his steak for him. And it makes no difference if no other man is at the table when the bill arrives. It can wait.

For some reason nobody ever expects a guy to pick up a check with a bandaged right hand.

Decontrol Of Prices Has Brought Some "Ups" And "Downs" In Costs

NEW YORK (AP)—The end of price controls has brought more "ups" than "downs," but has left unchanged many items in the average American's budget.

That's the conclusion reached in an Associated Press 23-city survey on the effects of decontrol on the cost of living.

The survey shows these increases: cigarettes up 1 or 2 cents a pack, and coffee up 2 to 5 cents a pound at all points; gasoline up in eight cities, and bread up in six cities.

According to the check, there have been no significant price changes in clothing, home fuels, restaurant meals or butter since the last controls were removed March 17.

The big item moving downward has been meat, some housewives interviewed say the drop in the price of meat has balanced the hike in coffee and cigarettes, leaving their grocery bill about where it was before decontrol.

Increases in gasoline range from three-tenths of a cent in Cleveland and Columbus, O., to about 1 cent in Seattle and San Francisco. Gasoline is up 2 cents in Los Angeles, 1½ cents in St. Louis, and one-half cent in Boston.

The price of a loaf of bread has been hiked one-half cent in Boston, and 1 cent in St. Louis, Kansas City, Los Angeles, Seattle and Pittsburgh.

Other items which now cost more than in the control period, such building materials as cement, brick, gypsum products, wall board and plumbing supplies, copper-clad stainless steel cooking utensils; lamps and light bulbs; steel drums and pails, office machinery, and some rugs and linoleum.

Increases are predicted for bed sheets in the next few weeks; for men's suits next fall, and for basic steel in the near future.

One of the big price cuts since decontrol came when Chrysler slashed its price by an average of \$100 per car. Other auto makers did not follow.

There are suggestions that some of the rises which came quickly after the death of controls will not last. The National Association of Purchasing Agents put it this way:

"Much of the new price posting may be market testing and will stand or fall by the pressures of supply and demand."

In the words of an Indianapolis department store executive, "The day price controls ended was just another day. Only a few scattered items have been affected, because the market is very competitive."

The AP survey also brought forth comments and sidelights.

A Minneapolis housewife, Mrs. C. L. Rimarek, says:

"Some things have gone down, especially beef, and some things will hold goods, since controls went off. It looks to me like prices are getting back to where they were before the Korean War."

Reports a woman in Washington, D. C.:

"I've heard all this talk about meat being cheaper and so on, but in the past month my grocery bill has run \$2 a week higher."

Several housewives interviewed in St. Louis, Boston and Los Angeles have noticed no substantial

difference in prices.

"A family which has been doing without high-priced items goes back to buying them after a slight price drop," says a Boston grocery chain spokesman. "But they are still exhausting their budget."

According to the report from Boston, housewives were not the only ones concerned with the boost in the price of coffee. After the hike went into effect, a Boston cafeteria reduced tea from 10 to 5 cents to discourage coffee sales. For the same reason, a Springfield, Mass. restaurant recently offered free tea to its patrons.

Good buys at the meat counter were reported from Dallas and New Haven. Meat prices in Dallas are lower than at any times in 10 years, with the exception of bacon. Round steak is selling at 59 cents a pound.

Grocery officials interviewed in various cities predict that prices will remain stable for some time.

"Right now the wage dollar buys more food than at any time in my memory and I've been in the business over 20 years," says Earl Huffing, vice president of the Indiana Retail Grocers and Meat Dealers Association.

In Cincinnati, Sam Becker, a clothing manufacturer who also operates two retail stores, sums up the picture in his field. "Prices are as low as they can be," he declares. "The retailer is making just enough to make a living and stay in business."

Cities covered in the AP price check included Boston; New Haven, Conn.; Albany, N. Y.; Newark, N. J.; Atlanta; Charlotte, N. C.; New Orleans; Philadelphia; Pittsburgh; Chicago; Columbus, O.; Indianapolis; Baltimore; Washington; Dallas; Kansas City; Seattle; Minneapolis; Los Angeles; San Francisco; St. Louis; Cincinnati and Cleveland.

One Escapee From Dade County Jail Taken In Lake City

LAKE CITY (AP)—Florida Highway Patrolman W. W. Slappey reported Tuesday night the capture of John F. Lamb, one of six persons who escaped from the Dade County Jail Saturday night. Slappey said he caught Lamb in a stolen car here Sunday night but that the identity of the prisoner did not become known until taken.

Lamb was armed with a revolver but didn't give any trouble, Slappey said. The patrolman quoted the youth as saying he stole the car here and was looking for a couple of buddies when picked up.

Columbia County Sheriff Inman Cox said Lamb told him he was to meet two other escapees—Charlie Guerrero and Gilbert Cerrano—and they were to drive to New York. He revealed, the sheriff said, that the trio went to Key West after they fled the skid-plate jail here Saturday night and drove to Lake City.

Lamb said they tried to arrange transportation out of the county from Key West but failed, tried to steal a boat but were "almost caught" and decided to head north. He said that on the way in Lake City they debated whether to go to New Orleans and try another escape by water to Mexico or go to New York where Guerrero and Cerrano had friends.

Lamb was identified by Dade County Sheriff Tom Kelly as one of the ringleaders in the jailbreak. He was awaiting transfer to a federal prison to start serving time for auto theft. Guerrero, Cerrano and two other escapees also were federal prisoners.

Others who escaped when the prisoners beat their way out of an elevator to freedom were Joseph Albert, 20, and William F. Chapman, 23, convicted of slaying a Miami naturopath and sentenced to 30 years each; Albert Davis, waiting to start a 10-year prison term for auto theft; and Daniel R. Sell, Milwaukee, Wis., also held in federal custody. Sell was caught by two policemen in a hallway as he dashed from the jail in downtown Miami but the other five escapees are still at large.

STETSON GRAD DIES

DELAND (AP)—William Stetson, professor emeritus of history and political science at Stetson University where he was the first to graduate, died Tuesday night.

After graduating from the university in 1896, he did graduate work at the University of Chicago and George Washington University. He joined the Stetson faculty in 1921. His widow, the former Mabel Allen, attended in 1933 the first class at Deland Academy which grew into Stetson University. Services will be held at 2 p. m. Thursday in Elizabeth Hall.

McCarthy's Program

(Continued From Page One) the legislative session opened Tuesday.

The morning was a memorial service for Rep. D. C. Jones, Collier County, who died after a heart attack about nine hours before the Legislature convened its session Tuesday.

The House Appropriations Committee at its first meeting of the session accepted an invitation to hold joint hearings with its Senate counterpart on the \$37 million dollar biennial spending bill recommended by the State Budget Commission.

They were to start off immediately with one of the toughest problems—a public hearing this afternoon on school teachers' demand for a pay raise exceeding the \$300 a year which the budget commission has recommended. The teachers want twice that much.

Senators conducted no business in their opening session. They went into a closed executive session which Secretary Robert W. Davis said produced no action on any subject.

Senate President Johns named Sen. King, Winter Haven, chairman of the Rules Committee which recommends procedure and during the final days of the session controls calendar and order of presenting bills for debate.

The House Appropriations Committee accepted an invitation from its Senate counterpart to join this week in public hearings on the 1953 budget bill.

Chairman James Moody, Hillsborough, told his House committee he had accepted the invitation of the senators to make the bill a top priority.

Dr. Wilson Swower, state health officer, appeared before the House group this morning to plead for retention of a \$340,000 item for child mental health work in the board of health budget. The House committee tentatively had cut the item completely out of its proposed bill.

The mental health clinics provide valuable service in uncovering the reasons for maladjustments and delinquency in children, Dr. Swower said. He said the clinics are much needed support from local interests, but some state assistance is necessary.

Mrs. Ann Stover, chairman of governor's advisory committee on child mental health, said she is hopeful that the legislature will support the program.

The child mental health clinics are a potent preventive force in mental health work, Mrs. Stover said.

It is foolish to spend money to build institutions to care for the mentally ill and not provide funds to prevent mental illness," she said.

Florida Man Nearing Niagara Falls At End Of Long Hike On Foot

BUFFALO, N. Y. (AP)—Just about everyone wants to visit Niagara Falls, but Dick Cook is probably the only one who has walked 11,700 miles on his way there.

He miled his 450-pound red war on into Buffalo yesterday and said he expected to hike the 10 miles to Niagara Falls by tonight. If he doesn't do too much visiting here.

"The secret of the whole thing is not to hurry," he said. "I just go around and talk for a spell. Never have a schedule."

Cook said he left his home town of Gainesville, Fla., on April 1, 1951, and has hiked 11,700 miles through 44 states at about 20 to 25 miles a day. When travel was tough or his money ran low, he worked as a cook.

He figures he's worn out 18 pairs of shoes without getting a corn or a callus.

His winter wardrobe has an enlarged mobile dog house. Cook said it's comfortable to sleep in, fair weather or foul. He carries his own food and water, and has a "hotel" after feeding them.

A representative of the University of Miami, Robert Salt, gave a short talk on the value of college and showed a movie of that university showing its advantages.

Mrs. W. B. Wray, chairman, in speaking of the success of the first portion of the two-day program, today gave credit to Principal Herman E. Morris for his efforts in arranging such a program for the students.

Chairman Wray also praised Mrs. W. R. Fort and her program committee for the wise selection of speakers which were presented yesterday and will appear tomorrow.

The general chairman mentioned the work of each individual group of teachers on specific committees which made the day so successful.

House Speaker

(Continued From Page One) got through with bickering and maneuvering.

Rep. Crews, Baker, a House member, opposed holding a speakership election today on grounds he hasn't had time to get acquainted with fellow representatives.

He added he had been threatened with an obscure committee assignment in 1953 unless he "got on the bandwagon" and helped promote an early speakership election. He didn't say who had threatened him.

Jaycees

(Continued From Page One) note fishing in Seminole County. The medal is made up with an Indian design on the front with the lettering "Seminole County Jaycee Fishing Medal, Sanford, Florida" around the head, on the back is the lettering "This Certificate is the Holder Caught a Bass, lbs., oz., or Seminole County Best Bass Fishing in the World" About the size of a 50 cent piece and gold in color, it is a very beautiful pocket coin.

The medal is the fish story of the holder and at anytime the Jaycees will verify the catch.

This is the first time in history that a community has given out a medal of this kind and actually put the weight of the fish on the medal, Mrs. Ring pointed out. At the end of each year the Jaycees will present to the person registering the largest bass a Jaycee Fishing Trophy with a replica of the medal on it.

"The Jaycees wish to thank the merchants who bought ads and Jaycee Fishing Maps who made the awarding of the Fishing Medal possible. It was their money that bought the medals and promoted this project," Mrs. Ring stated.

Violence Marks Election

DURBAN, South Africa (AP)—Campaigning for South Africa's general election went into its final week today with slogans and stone-throwing reported from at least two opposition rallies.

At hundreds of small and large meetings throughout the country, the Prime Minister, Daniel Malan's, nationalist supporters apparently were appealing to color-conscious whites to back Malan's racial segregation policies. Opposition spokesmen hammered at the theme that they could maintain racial peace better than Malan.

Scientist To Wed

Recent Discovery Extends Radar's Defensive Screen ODM Planning Controls I War Should Strike

WASHINGTON—Parliament is warning the government to make plans to remove controls on new weapons development at the same time it races toward tipping off all existing economic curbs.

The Office of Defense Mobilization is doing the spadework on the planning project and the White House is expected to announce its approval shortly.

ODM has been directing the defense program for two years. Now President Eisenhower plans to give it the full-time job of planning the kind of controls needed on new weapons development.

The agency plans to carry out the program with the help of about 50 top government and military experts. Their job is to recommend what emergency steps should be taken in these fields: economic stabilization, including wage and price controls, production, supplies of scarce materials, manpower and civilian industrial operations.

The National Security Resources Board has had this assignment, but many of its plans were based on when the Korean war started. NSRB had been planning for full mobilization but Korea created special problems for the experts on the work being done by the board was split up among several agencies.

● RADAR BLANKET It backed by enough money, scientists are prepared to overcome the main disadvantage of radar: the fact that the beam travels in a straight line and never returns to earth.

That is why the range of radar is limited to between 100 and 200 miles, and why the Air Force is recruiting 500,000 civilian spotters. Radar will not bend with the curvature of the earth, and will not detect a low flying plane that may be just over the horizon.

The scientists have found, however, that there are certain very high frequency radar waves that will bounce back from the atmosphere, and then bounce back and forth between earth and sky.

This is the way long-wave radio makes its progress around the globe, bouncing continually back and forth between the earth and the ionosphere.

What the discovery means is that radar can be made to give a complete "television" picture of everything in the air and sky for hundreds of miles around, instead of merely detecting in a limited area like a revolving spotlight.

The only trouble is that the new radar must have tremendous power and will be extremely expensive, especially if installed in quantities to give blanket warning of enemy bombers.

● TRUST DIVISION—A number of influential Republican congressmen are pressing the White House for speedy designation of a man to head the Justice department's anti-trust division.

These men want to make some changes in the anti-trust laws and they want to get them passed before the end of the session.

1—The top fine for violating the Sherman Anti-Trust Act would be raised from \$5,000 to \$50,000.

2—A uniform time limit—perhaps three or four years—would be set as the period an injured party could wait before filing suit for anti-trust damages. There is no federal limit now, but state limits apply and these vary from one to 20 years.

3—Federal courts would be given discretion to award less than triple damages, if the judge feels justice would be better served that way. Today, triple damages are mandatory.

Blues In The News

By BOB ANTHONY

A crowd of approximately 175 people gathered at the Sanford High School for the gala Easter Dance at the Sanford 1950. The room was festively decorated in green, pink and yellow and fresh flowers and palm leaves added to the beauty of the Easter setting.

Paul King, Lam and his orchestra furnished the music and many prizes were given throughout the evening.

Art Knight won the "Easter Birthday Prize" for having the birthday closest to Easter. His birthday was last night and his prize was a real live Easter bunny.

Art decided he had no plans to keep a live bunny so the bunny will be given to an orphan's home to be used as a pet for one of the children.

"Footie" and Polly Lawson both won prizes also. "Footie" won a prize for being the "most present" with the longest time in service. He has been with the Navy for seven years. His wife, Polly, won her prize during the "Turkey Tail Dance."

Max Lane, who was in charge of the program, was presented with a corsage of 100 carnations by orchestra leader Paul Kingham. The corsage was presented to Max Lane by the longest time in service. He has been with the Navy for seven years. His wife, Polly, won her prize during the "Turkey Tail Dance."

A highlight in the evening came when Sam and Jack Hughes, two young men from the Navy, presented a large gathering with local conditions of an Easter night of three songs. Sam and Jack are identical twins and Sanford residents.

Refreshments served later in the evening included cake, fruit punch and nuts. Senior hostesses last night were Mrs. R. E. Young and Mrs. S. S. Stewart. They were assisted in making the program a success by Mrs. W. A. Gable, Mrs. E. E. Roundhill, Mrs. Paul Lee, Mrs. Louise Latham and Mrs. Lowell Latham.

The special dance which was scheduled to be held at the USO tomorrow has been cancelled due to the lack of a caller but something entirely new will be held at the USO tomorrow night at 8 o'clock.

The party next to the USO building will be the "Easter Bunny" and a small admission of one cent will be charged. It will be held at the USO building at 2:00 p. m. Monday.

County Hospital

(Continued From Page One) and a previous one last month, reported that the hospital had received a new tractor for an ambulance and the Florida Equipment Co. of Jacksonville had engaged in a heated discussion on the order to buy.

Last month the Commissioner purchased a demonstrator from the Florida Georgia Tractor Co. but a few hours later rescinded the order following additional information submitted by Carlton Crenshaw of the Florida Equipment Co.

But it was finally R. R. Hasty, away and T. J. Lathrop of the State Deal Co. who walked off with the sale.

Following an appeal by Sheriff J. H. Hobbie for a public setup apart from the City system, the Commissioner approved the purchase of a Motorola transport for \$1,191.47. There will be an additional charge of \$25 to install equipment in each sheriff's office patrol car.

Previously Sanford City Manager Tom Latham had asked the county to share expenses in the police radio which is to be installed in the County Sheriff's Office. The cost of installing the County House office now used by the Sheriff's Office.

Mr. Milnes submitted a bill to the County Board for \$555.41 broken down into \$144 for a tax from \$29 to for a pasteurizer, \$107 for windows and door and \$324.41 for labor.

The letters were filed by Clerk J. P. Hendon opposing increase of County Board members.

The letters stated: "We, the undersigned citizens of Seminole County, Florida, state that we are in favor of increasing the number of the County Board members for our opinion that will tend to lower the quality of government in this county. That these officers will be able to do their duty more effectively if they are not overburdened with the duties of the County Board."

Also we oppose the present salary increase of the County Board members.

The signed letters were filed without action.

Following a request in February by the Florida Board of the Atlanta, Ga. State Board of Health, the County Board approved an application for a grade road crossing the State Road 100 and 101 in the town of Chocoma. The crossing will be constructed at the County's expense and under the roadbed will be placed in the road and bridge fund.

A check from the State Road Fund for \$10,000 and another from the State for the month of February for \$1,257.51 were placed in the road and bridge fund.

It seems too bad that talk of
peace in Korea should produce a
break in the stock market. It sort
of gives the impression that world
conflict, tensions, and war are a
profitable business. Surely this is
not the case. Nothing can be quite
so costly as the destruction of life

the mistaken impression prevails
because wars inevitably produce
inflation, and inflation puts more
money into people's pockets, and
the people forget that even though
they have more money it is not
worth as much. So the thought
grows and flourishes that wars are
profitable.

Sanford Industrial Board

Though some heat was generated at Monday night's meeting of Sanford's three industrial groups, the session as a whole was remarkable for its orderliness, constructiveness, and the friendly spirit which prevailed. It was in our opinion a demonstration of democracy at its best.

There were of course many conflicting opinions as to what ought to be done, and when strong-willed men of whom we are proud were in the room, it was not surprising that it took a while to get to a reasonable compromise which was finally reached and the whole program now seems to be founded upon a firmer foundation than ever.

It was significant that almost every speaker had only words of praise for the fine work which Ralph Cowan has done in organizing Sanford Industries, Inc. and raising the necessary funds for its operations. Anyone who has ever served on one of these fund-raising drives knows what a monumental task that is.

For weeks Mr. Cowan has put in almost his entire U. S. time in soliciting funds, meeting with committees, perfecting his organization, interviewing prospects and taking them around to inspect possible sites. Everyone at the meeting Monday night recognized the fine job that Mr. Cowan has done.

But it was the feeling of many that the Chamber of Commerce has a definite part to play in this business of locating new industries here, that it has the best facilities or any organization for developing prospects and that in its manager Forrest Breckenridge it has a civic worker whose abilities should not be neglected.

The chief question over which dispute arose was the function of the City-created Sanford Industrial Board and what to do about it. Some wanted it abolished; others thought it necessary. Apparently everyone agreed that its composition and functions should be given more thorough study.

The compromise finally worked out was probably the best which could be achieved under the circumstances. The Sanford Industrial Board will be retained and a special committee has been appointed to clarify its duties and to coordinate its activities with the Chamber of Commerce and Sanford Industries, Inc.

Thus another milestone on Sanford's highway to industrial greatness has been passed.

New Cabinet Officer

Mrs. Oveta Culp Hobby will be the first head of the newly created department of Education, Welfare and Health, as well as the first woman in President Eisenhower's cabinet. Congress has given final approval to the plan and the new department will be officially established ten days after the bill is signed.

The idea of such a department was first proposed by President Truman. At that time the plan met with bitter opposition from Congressmen who believed that the provisions of the plan dealing with public health might have been an entering wedge for "socialized medicine." The new Congress, dealing with a new administration, apparently has no such fears.

Mrs. Hobby has been sitting in on cabinet sessions since Eisenhower became President. She has been working at the State Department for her department so that it can begin to function without too much delay. The Federal Security Agency which she has headed until now will pass out of existence when the new department is created.

Few fields of national endeavor are more vital than education, health and welfare. The person responsible for administering national policy in these fields deserves cabinet status. The President's choice of Oveta Culp Hobby seems wise.

Concerning Typographical Errors

We sympathize with the editor of a small town who was taken to task because of an error in his paper. He had this to say about it: "Yes, we know there were some errors in last week's paper. We will further agree that there were some errors in the issue of the week before, but before bawling us out too unmercifully about it, we want to call your attention to these facts. . . In an ordinary newspaper column there are 10,000 letters, and there are seven possible wrong positions for each letter, making 70,000 chances to make errors and several million chances for transposition. . . There are 48 columns in this paper, so you can readily see the chances for mistakes. Did you know that in the sentence, 'To be or not to be,' by transposition alone, 2,769,022 errors can be made? Now aren't you sorry you got mad about that little mistake last week?"

Close-Mouthed

At a dinner party several of the guests were arguing whether men or women were more trustworthy. "No woman," said one man scornfully, "can keep a secret."
"I don't know about that," huffily answered a woman guest. "Why I have kept my age a secret since I was 21."
"You'll let it out someday," the man insisted.
"I hardly think so," responded the lady. "When a woman has kept a secret for 27 years, she can keep it forever."
—Tracks Magazine.

It had been a long boring evening, but the young man finally succeeded in stealing a good-night kiss from the young lady. "That's your reward for being a gentleman," the girl murmured.
"Reward?" scowled the young man. "That's just workman's compensation."

NEW TRY FOR 'OLD BALDY'?

THE WORLD TODAY

By JAMES MALLORY

WASHINGTON—Those in favor of saving the states the submerged lands off their shores say "Give it to them out to their historic boundaries." But those who want the government to keep these lands ask "What to what historic boundaries? What are they and where are they?"

It would be a smart man who could convince everyone he had the answer. Because the legislation which Congress is now bringing to pass, is so vague on that question the Supreme Court may have to solve the problem, perhaps years from now, thus pulling legal snails on all those that have gone before.

Yet the answer is worth billions of dollars because the submerged lands of California, Texas, and Louisiana are rich with oil. President Eisenhower's attorney general, Herbert Brownell, asked Congress before it approved the measure it is now considering, to draw a line, showing what the boundaries are. That might be the solution to the endless question about boundaries, he said, and if Congress didn't do it, there might be a long fight ending up in the Supreme Court. But Congress ignored him on this. Now Congress is getting ready to pass a bill which, in effect, says this:

All states will own the submerged lands seaward from their shores for three miles and any lands beyond that if they can prove they have a just claim to them. What this may mean in future revenue, for the states or the federal government, can be seen from this. The estimated oil potential off California is two billion barrels, with more than half of it within the three miles. California has far less to gain than Louisiana and Texas by fighting to claim lands beyond three miles.

The potential oil reserve off Louisiana has been estimated at four billion barrels, with only 250 million inside the three-mile limit and 3 1/2 billion beyond that point. But the estimated potential for Texas is nine billion barrels, with 400 million within the three-

mile limit, 800 million more between 3 and 10 1/2 miles, and 7,000, 000,000 beyond 10 1/2 miles.

While it was still a republic, before entering the union in 1845, Texas claimed a seaward boundary of 10 1/2 miles. But in 1917 the State Legislature gave up ownership of all submerged lands off Texas out to the edge of the continental shelf, a distance of perhaps 135 miles.

Louisiana's Legislature in 1938 decided the State's seaward boundary was 27 1/2 miles. But that was the 27 1/2 miles from the shoreline of the land mass of Louisiana or 27 1/2 miles from the state's outermost island in the Gulf of Mexico, 10 1/2 miles from shore?

The representative that Louisiana sent up here to explain his state's case in the Senate, Atty. Gen. Fred S. Loblanc, was helpless on the boundary question. He said he couldn't say what it was and that if the current legislation is approved by Congress the Supreme Court may have to decide.

Texas' former attorney general, Sen. Daniel T. Sayers, last week told the Senate that Texas' legal claim to submerged lands is really only 10 1/2 miles. That doesn't mean Congress couldn't later extend such a boundary. After listening to the states' case in the Senate, Sen. Douglas, Illinois, Democratic and an opponent of giving the submerged lands to the states, tackled Sen. Cordon, Oregon Republican, one of the supporters of the idea.

Douglas asked Cordon if he agreed with Daniel, that Texas' boundary should be only 10 1/2 miles. Cordon said he wouldn't agree with Douglas. When Douglas then pressed him to explain just what Texas' legal boundary is, Cordon said Douglas would have to get the answer from the Supreme Court.

Before this country became a nation some of the colonies claimed jurisdiction over vast tracts of the sea. Virginia claimed it for 1,000 miles out from shore. New Hampshire for 100 miles.

It was Thomas Jefferson, when he was secretary of state in 1793, who proclaimed U. S. government jurisdiction over the sea out to a three-mile limit. He did this long before oil was thought of and for dealing with other nations.

RACE DRIVER SENTENCED

BERLIN—The West Berlin newspaper Nach-Deutsche reported today that East German auto racer Siegfried Latarius has been sentenced to five and one-half years of hard labor for trying to flee the Russian zone in his racing car.

The newspaper said Latarius, 1932 East zone champion in a sports car class, was arrested by Communist police as he set out to cross into West Germany.

Official quarters disclosed last night that 2,145 refugees from the East zone poured into West Berlin yesterday—double the average daily influx.

Mr. Pro and Mr. Con will be having it around and around during the next two months with the "Furs" and "Against" running either and you like touches in a hearing house kitchen. Legisla-

For the most part, ordinary folks like you and me, who have been elevated to office, will be "used" and "discussed," pushed and pulled around, poked and poked, and wind and blow and fanned and made a fuss over by just about everybody with an axe to grind.

For the most part, these folks see send to Tallahassee are honest, conscientious people who are anxious to do a job. Old timers know their way around and have learned how to brush off the chiselers and grinders, but the newcomers find he going plenty tough and, in their effort to be "nice" to everybody and serve their constituents at the same time, they take it on the chin and become disillusioned and sometimes downright disgusted.

Looking over the list of public events we have chosen to represent us in Tallahassee this session I feel that they stack up pretty well, and we will be safe in terming it a good average legislature. Any way you look at it they've got a tough job and need us to help, not withdraw, our support from the ordinary everyday citizen.

During the past few weeks I have brushed up against the forces concerned with this and that who are marshaling behind certain legislation they can get in influence lobbyists and winning people to their side.

I patiently explain that I don't push any buttons at Tallahassee and while I'll be glad to tell their story as well as their opponent's I'm not taking sides. In short, I love everybody and while I will probably enjoy the fight I prefer to remain a spectator and confine my efforts to reporting progress, no matter which direction it takes.

Every session there is a fight to change racing dates. It is a highly controversial issue and some folks would advance the racing season and move Halabon to an earlier date. The Big Track pours plenty of revenue into state and county coffers and has a record of clean operation and public service that can't be disputed. A change might be desirable, but it is my guess that legislators will think twice before they do anything that might reduce racing revenues to the counties.

Two groups are digging in and preparing for a fight to the death on the question of fluoridation of public drinking water. Health authorities, led by the Navy Health's Oscar Ewing, seek more power and would regiment everybody from the newborn babe to the doddering aged by forcing them to fill their system with fluorine whether or no. They don't even want to give the average citizen a chance to express himself, but would pass a law forcing him to drink a poison and like it or not. A few forthright souls have had the courage to protest and, like Minute Men at Concord, are fighting to preserve America from so-called medicine and curb of power-crazy bureaucrats who seek more money and more laws to regulate and control.

Four Stephen Foster probably never realized what a home he was. He was a "Yankee" when he wrote "Way Down Upon the Swanee River." But today two forces, seeking to do him honor, are preparing to quarrel over whether we should erect a Singing Tower in his honor or an Amphitheater at the Stephen Foster Memorial Park. The Commission favors a tower, while the Florida Federation of Music Clubs wants an amphitheater, contending that it would serve more people and give an opportunity for greater public service and publicity.

All these and many more issues must be decided by legislators who will hold hearings and make a sincere attempt to determine public opinion and desire. Proposals and opponents will appear at committee hearings and have their say, folks will send telegrams, write letters and get legislators out of bed at three in the morning. To instruct them on this or that question, old timers will take a bill in their stride. Lobbyists will all carefully pressure groups will marshal their forces, the Administration will suggest and the merry-go-round will roll. Where it will stop nobody knows, but I can promise you this, whatever answers come up will not please everybody and about the only thing legislators can do is honestly and sincerely weigh all the facts and then act as their own conscience dictates.

A friend suggested to me that I run for the legislature. I told him that if it was not with him, I would rather die a natural death. A lot of guys have tough jobs, but between you and me I don't know of a tougher one for a fellow who is honest and sincere and really wants to do the best for his district, his state and his nation as a member of the legislature.

Hints To Housewives
 By CLEO ARNETT
 Cabbage is abundantly grown, nutritious, and delicious to eat raw or cooked. Cabbage is an excellent source of ascorbic acid, especially when eaten raw, and a contributor of varying amounts of other necessary minerals and vitamins. The loose green leaves are of good vitamin A value. Its calcium is in a form that is readily used by the body.
 Sauerkraut is a popular way of preparing cabbage. If sauerkraut is made, sauerkraut retains much of the crispness, green color, and nutrients of fresh cabbage. It can be served in many delicious ways. Some people prefer to serve it cooked with ham or frankfurters, or with a strip of bacon. Sour cream added to cooked sauerkraut just before serving results in a tasty combination.
 Cabbage and beet relish or cabbage and celery relish may be the flavor needed to bring a meal out of the ordinary class.
 Cabbage should be cooked until just tender to insure a delicate flavor and to preserve the color. Cook coarse, outside leaves separately from the tender, inner leaves to avoid overcooking the inner leaves. Shred or cut the cabbage into eighth and cook in boiling salted water 5 to 10 minutes for the more coarse cut pieces. The strong odor and flavor of cooked cabbage can be lessened by cooking the vegetable uncovered. Cabbage can be cooked in a pressure saucepan 1 1/2 to 2 minutes. When tender, season with butter or bacon fat and serve hot.
 For a tempting variation, drain the cooked cabbage. Make a cheese sauce by cooking together 2 tablespoons butter, 2 tablespoons flour, 1/4 teaspoon pepper, 1 cup liquid from the cabbage, and 1/4 cup grated American cheese. Pour over the hot cabbage.
 Raw cabbage can be served in many delightful ways. A wedge of crisp, clean raw cabbage gives a pleasing texture and freshness to a meal. Shred or cut cabbage just before serving to keep maximum food value.
 Topped with sour cream dressing, mayonnaise, or French dressing.

HOLLYWOOD
 By BOB THOMAS

HOLLYWOOD — Ma and Pa Kettle and their massive brood are hitting the movie trail for the last time.
 Most movie series play more final endings than Sarah Bernhardt. But this is really the last one for the sloppy Kettles and their 15 kids. So says Pa, otherwise known as Percy Kibbide.
 The Kettles have had an amazing success. The characters were pulled out of "The Egg and I" and put into a low-budget comedy. It was an instant success, and one picture led to another. Dollar for dollar, they have been the best movie investment in recent years. Made on a quick budget, they have outgrossed the majority of the high-priced epics.
 It seems that everyone likes the Kettle series except Marjorie Main and Percy Kibbide, who play the leading roles. Last year, when they made their last one, an increased film about Wakiki, they swore it would be their last. But here they are making another "Ma and Pa Kettle Hit the Road Home."
 "I don't need any more," he said in his famous twang. "The studio offered some inducements that were too appealing to pass up. For one thing, they now have a limousine to transport me to and from the studio. I don't drive, you see; I always had to take a taxi before I am allowed to quit work at 4:30."
 "Also, I only have to work five days a week; I get a day off besides Sunday. And the studio offered a nice little bonus as added inducement. So I agreed—on the stipulation that this would be absolutely the last one."
 "What is his objection to continuing with the Kettles?"
 "I had my training on the stage, where I did a variety of roles. That's the fun of being an actor: to meet the challenge of creating new characters."
 "But old Pa Kettle is always the same. He can do anything; there is no need to establish any motivation. There's no hic in doing him over and over again."
 "I have had dozens of offers to do television series, but I have turned them all down. I might do one-shot appearances, but I won't let myself get tied down to one character."
 Percy has reason to dislike being typed. Although he played a variety of roles on the stage, he has generally played a taxi driver in the movies.
 Raw cabbage can be served in many delightful ways. A wedge of crisp, clean raw cabbage gives a pleasing texture and freshness to a meal. Shred or cut cabbage just before serving to keep maximum food value.
 Topped with sour cream dressing, mayonnaise, or French dressing.

Film On Australian Tribes To Be Shown Here

or a farmer in movies. He cannot drive and has never lived on a farm. Furthermore, he has been cast as the parent of 15 progeny in the Kettle series. He is actually childless.
 Percy said that Miss Main blows hot and cold over continuing with the Kettles. But he is firm in his resolve, and no added moola will sway him.
 When radio broadcasting first started in the 1920s, stations all operated on one 300 meter wave length.
 Giant tortoises can distinguish between shades of green and blue, says the National Geographic Society.

An interesting and exclusive film on desert tribes and stone age people will be shown at the Orange Memorial Hospital for nearly three weeks, undergoing major surgery. Is home but will be unable to return to work for at least a month. Jones is in charge during his absence, with Mrs. Ben G. Wainright substituting as clerk.
 Three thousand pounds of pepper were part of the ransom of Rome when besieged by Alaric in 408.

The Rev. Bass, a native of Australia, stated nomadic tribes eat lizards, worms, snakes, dogs, and kangaroos. He asserted outstanding work is being done among the tribes to educate and Christianize them.

The First Christian Church pastor has lived among these wild people and can speak with authority on their customs. He resided in Australia when former President Herbert Hoover as an engineer was in that country in connection with gold mining in the interior.

Mr. Bass has traveled a thousand miles into the wild heart of the continent and is familiar with the lives of the aborigines as few people in this nation are. His familiarity with such oddities as boomerangs and kangaroos should prove interesting to those attending the illustrated lecture.
 Everyone is invited to be present.

PLYMOUTH ANNOUNCES
HY-DRIVE
 the newest, smoothest
NO-SHIFT DRIVING
 in the lowest-priced field!

Drive without shifting! Drive with new smoothness!
 Drive with Plymouth's sensationally new HY-DRIVE!
 Nothing new to learn—HY-DRIVE makes driving easier than ever! Plymouth's new HY-DRIVE is available now for the 1933 Plymouth of your choice—at the lowest cost of any no-shift unit in the lowest-priced field!

HY-DRIVE is easy to use! Start the engine with the lever in neutral. Simply move the lever into high, and you're in HY-DRIVE! In traffic, starting or stopping, cross-town or cross-country, HY-DRIVE lets you drive without shifting—just brake or accelerate!

HY-DRIVE starts smooth, stays smooth! From standstill to cruising, there's never a lurch or jerk as your speed increases; no lagging engine action. When your toe says "go," you're off and away with HY-DRIVE's fast, powerful response!

HY-DRIVE takes to the hills! No need for a long running start. Just feed more gas; HY-DRIVE instantly provides the extra power your car needs to take steep grades without slowing down. HY-DRIVE also gives you braking action coming down a hill.

Stay where you stop with HY-DRIVE. On an upgrade like this HY-DRIVE lets you keep your hands on the wheel, your foot on the accelerator. There's no need to use the parking brake—just speed up your engine a trifle to offset the backward pull of the slope.

Feel fresh, all day long, with HY-DRIVE! It takes so little effort to drive with HY-DRIVE. There's no "traffic fatigue" from continually working up and down through conventional gears. You drive with new ease, new sureness, and HY-DRIVE saves your energy!

HY-DRIVE gives you better control. Because HY-DRIVE applies power to the rear wheels smoothly, you get better traction on icy, wet or slippery streets. For rocking out of deep mud or snow, your low and second gears are there, with the normal clutch control.

Plymouth's new HY-DRIVE is an advanced torque converter development; a simple, self-contained unit that never needs adjustment, special care, or expensive upkeep. Your nearby Plymouth dealer invites you to drive a new Plymouth equipped with new HY-DRIVE—to see for yourself how much HY-DRIVE smoothness and ease will add to your driving pleasure. Why not see him today?

Edgewater Eagles Whitewash Seminole High, 5 To 0

Feds Held To 3 Hits As Krider Fans 9

By KENT CHETLAIN
Anemic hitting and faulty fielding combined to keep the Edgewater High baseball "express" on its route to victory No. 2 as the Edgewater Eagle "special" roared past the crippled Sanford diamond "train" 5-0, last night in Memorial Stadium.

Orlando engineer, Jack Powell, fired a three hitter at the Seminoles with his zooming southpaw offering, fanning 10 and throttling Sanford scoring threats in each of the first, second, third and fifth frames.

Jimmy "Joek" Krider, guiding the impotent Seminoles "express" displayed a roundhouse curve and good control, walking but four while whiffing nine Orlando crooks.

Krider's first inning binoz off the mitt of centerfielder Larry Simmons in short right center was the only Sanford hit out of the infield. Shortstop Du Sheffield and Keystone Russell Mann executed perfect bunts to notch the two other Fed hits.

Powell and Krider locked in a battle which the last four frames culminated in the scoreboard with goose eggs.

But in the Orlando half of the fifth the situation changed radically. Catcher Skeeter Connell beat out a hit to Mann who threw wild to first allowing Connell to reach second safely. Powell advanced Connell to third on a sacrifice bunt.

Normal Bell, who was to drive in a pair of runs in the sixth on a double to right center, pounced to Terry Coriell behind the plate. Eddie Shortstop Hill Hutsell hit a grounder to Mann who muffed permitting Connell to score the first run of the game. Simmons rebounded with a rebounding double to right center to score Hutsell from second. Johnny Rippe landed a single in the fifth, knocking Simmons in with the third unearned run of the inning.

Sanford loaded the bases on Sheffield's bunt and passes to Ribbee and Metta, but couldn't score in its half of the fifth. Metta was walked all three times he appeared in the game. Sanford plays Defend Friday night at the Memorial Stadium beginning at 8:00 p. m. in the last game at the stadium.

Milwaukee Opens City To Receive Its New "Braves"

MILWAUKEE (AP)—Milwaukee became the home of the Milwaukee Braves today with a rip-roaring celebration. The welcoming ceremonies took place in mid-morning and were to continue into the night as thousands of Milwaukeeans looked over their big league baseball team for the first time. Sporting school vocations lauded the crowds with youngsters eager to see the players about whom they've only been able to read until now.

A long car line stretched across the Union Station trainshed when Manager Charley Grimm and his squad arrived. Inside the depot automobiles awaited the players for a parade the length of Wisconsin Avenue through the city's main downtown thoroughfare, which has been renamed "Braves Drive" for this week.

Grimm personally is no stranger to Milwaukee fans. Neither are many of his players, who performed under him last season with the Milwaukee Braves of the American Association.

It was in mid-summer last year that Grimm was called up by the parent Braves from his job as Brewer manager. Last March 18 Lou Perini's plan to shift the Braves' franchise here was approved by the National League the first major league move in 50 years. The brewers went to Toledo, O.

This afternoon the Braves went to see the new \$10 million dollar stadium which will be their home the short workout was scheduled, too. Tonight an official city welcome speeches by Gov. Walter Kohler, Mayor Frank Zeldner and other dignitaries is expected to draw upwards of 15,000 to the downtown arena.

The new stadium, a double-decked concrete structure seating 30,011, is sold out for the season opener next Tuesday with the St. Louis Cardinals.

Bassett Bout To Be Televised Tonight

WASHINGTON (AP)—Dave Gallardo, who takes on the interim featherweight champion P. J. Bassett in a 10-round bout tonight says he'll win. "If Bassett is willing to fight," the winner will hold the title while Champion Sandy Sadler is sidelined.

"If he runs from me," continued Gallardo, "I'll still win."

Runner-Up Burke Will Try To Win Masters Tourney

AUGUSTA, Ga. (AP)—Take whatever score you can make in practice—without conceding any putt—added four strokes, and you'll have what you can expect to make in the Masters tournament if you're playing well.

That's how Jack Burke, the smiling, curly-haired Texan, who was runner-up to Sam Snead last year, figures the difference between the Augusta National course during the preliminaries to the 17th Masters tournament and the course that a record field will play in the main event, starting tomorrow.

Burke had just taken something of a nap in an informal match against four of the toughest customers in the pro golf business. Ben Hogan, Carey Middleoff, Jimmy Demaret and Claude Harmon—when he sat down to estimate his chances of winning.

The record for the four rounds over the 6,900 yards, par 36, 72 Augusta National course is 208 (Burt Huhnh), one of the few ex-champions who isn't here this year, set in 1939 and Harmon equaled it in 1948.

The practice scores so far make the practice look a little silly. Ben Hogan, who has been here more than a week tuning up for one of his rare shots at the tournament money, hasn't kept over 70 yet. He had an approximate 60 yesterday. And when defending champion Sammy Snead came in with about the same score, he headed immediately for the clubhouse to brush up on a couple of shots.

A lot of other scores were well under par, including 68's by Mid-chester, 69's by Lloyd Mangrum, the leading money winner of the winter tour. But nobody was taking them too seriously.

The reference will be seen on the big greens at the Augusta National. They're difficult targets at best, and when they're dried out, rolled and trimmed close, even the best putters have a hard time. That's why Burke counts on those four more strokes.

With a record field of 75 or more expected to start, Snead, Hogan and Mangrum were bracketed as winners, is after his third Masters title to equal Demaret's mark. He'd also like to make it two in a row, something no other golfer ever has done.

Hogan, retired from tournament play except for three or four major tournaments a year, won in 1951 with a 284 total and his record in the tournament is a tough customer again this year. Mangrum is a two-time runner-up for the title.

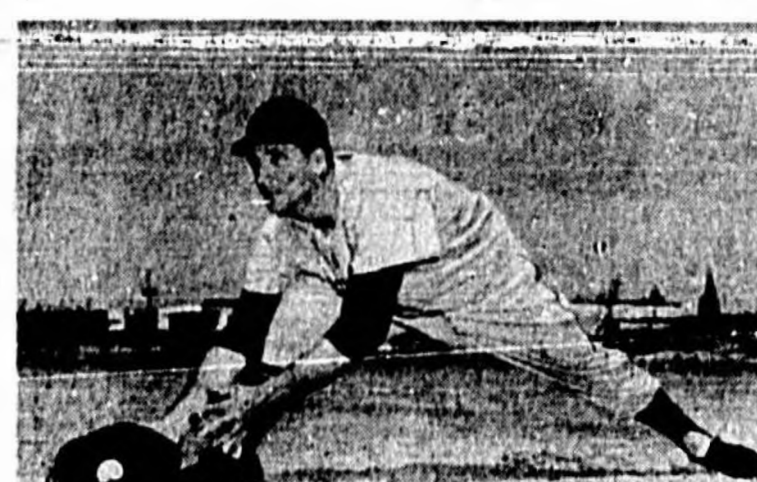

Jersey Joe To Have Last Crack At Rock

NEW YORK (AP)—Rocky Marciano is going to fight in Chicago May 15 and if Jersey Joe Walcott wants another crack at him he's got to get it better by the end of the week.

That's the word from Al Weill, Marciano's manager, who said yesterday that if Jersey Joe doesn't care in doing Rocky is willing to take on Roland La Starza or Erard Charles.

Well also declared: "The fight ain't moving out of Chicago. Rocky definitely is going to fight May 15."

"Rocky is getting 30 per cent of everything—television, movies and those new three cornered dimension pictures."

Parise Refuses To Report To Rock Hill; Imbra Quits Game

"Johnnie" Parise, 28-year-old first baseman-outfielder for the Sanford Glants in 1951 and gateway guardian for the Seminole Blues last season, has refused to report to the class B Tri-State League season. If Parise sticks by his guns and doesn't report to Rock Hill, the Cardinals will lose the \$300 sale price. The native New Yorker hit .307 last year with the Blues in 132 games, scoring 111 runs, belting across 83 more while propelling 11 homers over the fence.

Parise, a 307 hitting veteran last season, was sold to Rock Hill for \$300 two months ago by the Cards in line with their policy of disposing of veterans, paring the team for the two-veteran limit in the Florida State League.

Parise's sale was conditional, depending on his ability to stick with Rock Hill for 20 days after the season opens. Fields could give no reason for Parise's refusal to report to Rock Hill. The Italian-American native of New York may have wanted more money to play, Fields speculated.

Parise was given a \$25 a month salary increase over his reported \$400 monthly check paid last summer by the Seminole Blues. Meanwhile, it was revealed that Johnny Imbra, 302 batting keymaster for last year's Blues, who was traded to Rock Hill for rookie catcher Bill Silverthorne two months ago Imbra's decision to retire will not affect the swap and Sanford will keep Silverthorne.

Parise left Sanford last year holding one club record. His 135 games, batted in 83 more while propelling 14 homers out of the lot.

Cincinnati Cuts Its Roster Down To 21

CINCINNATI (AP)—The Cincinnati Reds trimmed their roster to 23 players today with the optioning of pitcher Maurice Fisher to Columbus of the South Atlantic League.

Yesterday pitcher Leon Foulk, a 26-year-old right-hander, was released to Tulsa of the Texas League.

Fisher, 22 and six a right-hander, is considered an excellent prospect by Manager Rogers Hornsby. He had a 14-10 record last year with Salisbury of the Interstate League and both he and Foulk have been with Cincinnati in spring training.

Every regular in the Major League has incurred at least one penalty this season.

Seminole Absorb 8th Straight Loss In Lions' League

Those hapless Seminoles dropped their eighth game in succession without a victory this season as the Lion League Glants noxed out the Tribe in a slugfest, 11-9, at the Lakeland Diamond yesterday afternoon.

Eddie Barbour was the winning flinger, but he gave up nine runs and 10 hits. Al Collins absorbed his eighth straight defeat for the doormats of the league.

Carl Yost of the Seminoles and teammate Collins shared the hitting laurels for the game, banging out three hits in as many trips.

Tomorrow the second place Red Sox battle to hold their position against the fourth place Cardinals. On Friday afternoon the front running Seminole Glants will defend their record against the Red Sox at the Lakeland diamond.

The 90-day season at the Seminole County track reaches its conclusion with Monday night's mile running. Track officials attribute this year's banner season directly to the growth of Central Florida.

Tonight the Greyhounds head into the last five days of racing at the Lakeland track. The running of the Seminole Derby at the raceway, Post time for the race slate is 8:00 p. m.

Dogs competing in tonight's featured 11th race over the three, eighth mile distance ran in the last four places in elimination races last week which qualified jockeys for the 18th Annual Central Florida Greyhound Derby to be run tomorrow night.

Runner-Up Burke Will Try To Win Masters Tourney

AUGUSTA, Ga. (AP)—Take whatever score you can make in practice—without conceding any putt—added four strokes, and you'll have what you can expect to make in the Masters tournament if you're playing well.

That's how Jack Burke, the smiling, curly-haired Texan, who was runner-up to Sam Snead last year, figures the difference between the Augusta National course during the preliminaries to the 17th Masters tournament and the course that a record field will play in the main event, starting tomorrow.

Burke had just taken something of a nap in an informal match against four of the toughest customers in the pro golf business. Ben Hogan, Carey Middleoff, Jimmy Demaret and Claude Harmon—when he sat down to estimate his chances of winning.

The record for the four rounds over the 6,900 yards, par 36, 72 Augusta National course is 208 (Burt Huhnh), one of the few ex-champions who isn't here this year, set in 1939 and Harmon equaled it in 1948.

The practice scores so far make the practice look a little silly. Ben Hogan, who has been here more than a week tuning up for one of his rare shots at the tournament money, hasn't kept over 70 yet. He had an approximate 60 yesterday. And when defending champion Sammy Snead came in with about the same score, he headed immediately for the clubhouse to brush up on a couple of shots.

A lot of other scores were well under par, including 68's by Mid-chester, 69's by Lloyd Mangrum, the leading money winner of the winter tour. But nobody was taking them too seriously.

The reference will be seen on the big greens at the Augusta National. They're difficult targets at best, and when they're dried out, rolled and trimmed close, even the best putters have a hard time. That's why Burke counts on those four more strokes.

With a record field of 75 or more expected to start, Snead, Hogan and Mangrum were bracketed as winners, is after his third Masters title to equal Demaret's mark. He'd also like to make it two in a row, something no other golfer ever has done.

Hogan, retired from tournament play except for three or four major tournaments a year, won in 1951 with a 284 total and his record in the tournament is a tough customer again this year. Mangrum is a two-time runner-up for the title.

Jersey Joe To Have Last Crack At Rock

NEW YORK (AP)—Rocky Marciano is going to fight in Chicago May 15 and if Jersey Joe Walcott wants another crack at him he's got to get it better by the end of the week.

That's the word from Al Weill, Marciano's manager, who said yesterday that if Jersey Joe doesn't care in doing Rocky is willing to take on Roland La Starza or Erard Charles.
