Add Magic to your Menus with Hellmann's Real Mayonnaise

**Salad Sorcery**  
There is just no match for the full-bodied richness, the luscious double-whipped smoothness, of Hellmann's Real Mayonnaise on salads. Try it with your favorite tomato aspic salad and see! And for fruit salads—COTTAGE CHEESE-NUT MAYONNAISE adds a wonderful flavor flourish. Just blend 1/2 cup cottage cheese with 1 cup Hellmann's Real Mayonnaise and 1/2 cup broken nut meats. So easy to make—so delicious too!

**Wonder Spread for Bread**  
It spreads so smoothly, so evenly, even on the thinnest bread! Adds such a fine festive flavor to the simplest lunch or picnic sandwiches. You just can't beat Hellmann's Real Mayonnaise—it's truly a super spread. No wonder children like it so much! And Real Mayonnaise is so rich in good food value too!

**Magic for Thrifty Baking**  
1/2 cup Real Mayonnaise will replace shortening and one egg in your pet recipe for corn muffins or shortcake. Marvelous flavor touch too!

**Sensation in Soups**  
Serve this CREAMY SOUP chilled, or hot—but be sure to serve it temptingly seasoned with Hellmann's! Set aside 1/2 cup red cherries for garnish. Put balance of can in saucepan with 1/2 c. water, 1/2 c. sugar, 1/2 tsp. salt, 1-inch stick cinnamon, small strip lemon rind. Boil quickly 8 min. Rub cooked cherries through fine sieve. Stir 2 tbs. water into 1 tbs. cornstarch and add to cherry purée. Add cherries for garnish, simmer 4 min., stirring frequently. Top with 1/2 cup Real Mayonnaise folded into 1/2 c. whipped cream. (Serves 6)

Here are more 'magic touches'!

Try them all—and see for yourself how Hellmann's Real Mayonnaise adds flavor magic to dozens of different foods. No wonder! It's so flavor-rich with good things... freshly broken eggs, added egg yolks, "Fresh-Freeze" salad oil, mild vinegar, and spices. Dress Up Lettuce Vegetables with its golden goodness. Braised carrots, or cauliflower, sautéed in Real Mayonnaise make a crusty treat. Transform Yesterday's Mashed Potatoes by whipping them again with Hellmann's, and browning them in the oven. Add Zest to Croquettes by using it as a binder. Efficient! Delicious! Perk Up Hamburgers by spreading them with Hellmann's before you broil them. A gourmet touch! Flavor-Tone Beans and Kefir! Cut them, spread with Real Mayonnaise, pop under broiler. In a few minutes they're golden brown, flatter-free!

## Maragon's Pay Revealed In Senate Probe

### Five Percenters Had Income Of \$30,000 In Five Years But Banked \$119,000.00

WASHINGTON, Aug. 26 (AP)—John Maragon today refused to answer questions at the Senate five percenters inquiry on the ground that his answer might tend to incriminate him.

The Greek-American had taken the witness chair after an account and testified that Maragon made bank deposits of \$119,000.61 during a five-year period in which he has said his income was only around \$30,000.

He would not talk, that is, when asked about his financial affairs, or answer many other questions.

But he did say "yes" when Senator Mundt (R-SD) asked: "Do you know Harry Vaughan?"

He referred to Maj. General Vaughan, President Truman's army aide.

Mundt then wanted to know whether Maragon had ever been "associated" with Vaughan in "any activities."

"I refuse to answer on grounds that were 'no implications,' that he were 'no implications,'" Maragon testified.

Mundt asked that answer left the implication that you and Vaughan have been engaged in activities that are incriminating.

Maragon conferred briefly with his attorney, who said there were "no implications," that he was just following his counsel's advice.

He would not even say when asked by Chairman Hoey (D-NC) whether he had testified before the committee behind closed doors July 28.

Maragon did testify at that time.

The committee has since released a transcript of his testimony. Among other things, Maragon swore then that he had never received any payments for negotiating business with government agencies.

Today Hoey asked him if he had not given such testimony.

Maragon said with a slight accent, "I refuse to answer on advice of counsel on the ground that my answer might tend to incriminate me."

He gave the same answer when asked if he had not testified in private session that he had no other income in 1948, 1949, and 1947 beyond certain sums which had been mentioned.

Maragon's lawyer, Myron G. Phelan, took it to say he had advised his client to refuse to answer certain questions.

Ehrlich also had a long prepared statement for the committee. (Continued on Page Eight)

## Ready For Fish Rodeo

The five Sanford boys in this fishing quintette are shown with their fishing rods on the boat as they practice for the big fishing rodeo which will be held next week at Lake Chassal. Shown left to right are Bruce Caldwell, Mack Brown, Thomas Robinson, Sam Phillips and Turner Williamson. Sponsoring the rodeo are the Sanford Sportsman Association, the Jaycees, the Sanford Merchants Association and the Sanford Recreation Department. School buses will transport a large number of children to and from Oviedo.

## Seven Men Lost In Sub Disaster In Arctic Waters

### 84 Crewmen Rescued By Ship Not Far From Murmansk

WASHINGTON, Aug. 26 (AP)—Six Navy submariners and a civilian technician lost their lives and 84 crewmen were rescued today when the submarine Cochino exploded and burned in Arctic waters.

The six Navy men were attached to the U. S. Tusk, a sister submarine which rescued the Cochino's crew. The civilian, who was not immediately identified, was the only one lost aboard the Cochino.

The sunken submarine was equipped with a snorkel—an underwater "breathing" tube which enabled it to remain submerged for long periods of time.

The explosion occurred in the Cochino's battery room and was followed by fire.

A lieutenant and five of the Tusk's enlisted men were swept from the deck by heavy seas during the rescue of the Cochino's crew, which was hampered by high seas.

The Tusk, with the rescued men aboard, is heading for the Norwegian port of Hammerfest. This is the nearest port where medical assistance can be obtained.

The Cochino and Tusk, together with the submarines Toro and Corsair, had been temporarily assigned to naval force under command of Admiral Richard L. Conolly, naval commander in chief of U. S. forces in European waters.

The submarines had been engaged in cold water training exercises in the Arctic. They left the U. S. naval submarine base at New London, Conn., on July 18.

The Cochino, like the Tusk, was a conversion of the Soviet潛艇 warship. The Toro and Corsair are (Continued on Page Eight)

## Government Report Shows Slight Drop In Cost Of Living Index

WASHINGTON, Aug. 26 (AP)—The government's living cost index took a new dip today.

It fell six-tenths of one per cent from mid-June to mid-July.

The Bureau of Labor Statistics said the mid-July living cost index was 168.5 per cent of the 1935-39 average. That average is figured at 100 on the index.

The new index is 3 per cent under a year ago but 70.9 per cent over the August, 1939, price level.

Price drops for foods, wearing apparel and house furnishings caused the living cost decline. Foods averaged 1.3 per cent lower, apparel nine-tenths of one per cent, and house furnishings three-tenths of one per cent lower.

Slight rises in costs for rents and miscellaneous goods and services, including municipal transportation fares, were recorded.

Foods alone are seven per cent under a year ago and 88.5 per cent over the level when government price controls were in effect.

Among foods, price declines were noted by the bureau for meats, poultry, fruits and vegetables, fats and oils, sugar and bakery products.

Living cost figures for mid-August—that is, those reflecting price levels of about now—won't be reported for a month. Some government economists anticipate that they may show another dip from the level when government price controls were in effect.

One factor pointing to further living cost declines is the drop in wholesale prices. All commodities are down 10.6 per cent below what they were at wholesale a year ago, by the government's measurement. These include declines of about 16 per cent in foods and farm products, and about five per cent in other commodities.

But living costs, while on a slow downward slide, will be about 25 per cent above what they were during the days of government price controls.

The labor department last night advised 23 areas—mainly in New England and the Midwest—where it claims are having a critical employment problem. This (Continued on Page Eight)

## President Told Tax Cut Wanted By Business Men

### Commerce Secretary Reports Optimism Regarding Future

WASHINGTON, Aug. 26 (AP)—Secretary of Commerce Sawyer told the White House today of strong business sentiment for a cut in federal expenditures and a reduction in taxes on business.

The report was a 6,000-word letter to Presidential Aide John R. Steelman. Steelman had asked Sawyer to make a survey for use in carrying out President Truman's program for concentrating federal spending to relieve post employment of distress proportions.

One thing Sawyer noted was that "there appeared to be no substantial sentiment for accelerating the general level of federal public works beyond that now contemplated."

Sawyer's report was one of the topics discussed at President Truman's weekly cabinet meeting this morning.

The report summarized suggestions made to Sawyer—mostly by business men, but also one by Labor leaders and local public officials—in the first half of his survey. He spent a month also covering the eastern part (Continued on Page Eight)

# 120 Mile An Hour Winds Are Expected Near Palm Beach

## Work On State Buildings Slows As Funds Run Out

### Only \$7,500,000 Is Still Unspent From Caldwell Balance

MIAMI, Aug. 26 (AP)—A joint Florida Senate House tax study committee has agreed in principle on a limited sales tax.

Rep. Grant Stockdale of Dade, a member of the committee, said the plan will go to the special session of the Legislature next month.

MIAMI, Aug. 26 (AP)—Florida's \$40,000,000 postwar state building boom is slowing to a stop.

Under the Legislature's special session, should appropriate money for construction, these probably won't be any new buildings to speak of for another two years.

Of the \$47,940,000 appropriated and \$2,500,000 borrowed for postwar and agency buildings during the Caldwell administration, only about \$7,500,000 is unspent. Even that balance is obligated and has not yet been paid.

The Legislature last spring appropriated a total of \$63,000,000. The Budget Commission, however, recommended that the Legislature appropriate only \$41,000,000 of it for the next two years.

The Legislature will act on the Caldwell bill in the next few days. It is expected that the bill will be passed by the Legislature in the next few days.

The Caldwell bill is expected to be passed by the Legislature in the next few days. It is expected that the bill will be passed by the Legislature in the next few days.

## Hurricane Do's And Don'ts

MIAMI, Aug. 26 (AP)—How do shifters weather a hurricane? Florida had lots of good advice today from news papers and radio stations.

Stay inside away from windows. The glass may break and cut you.

Don't be fooled by a lull in the storm. A calm center of hurricane may last from a few minutes to an hour. Then the fury resumes suddenly from the opposite direction.

If you must take a drink to settle your nerves, put it on a clear head may be needed.

Don't take anybody's word about what's going on. Get official advisories and warnings on the radio and newspapers. Pay no attention to rumors.

Board up all windows and put storm shutters on place. Use outside doors. Sterilize bathtub and fill it up with food. Have a flashlight and lantern ready. Stop up food that won't spoil easily.

If you have not rugged, try to get out of the house. The relief agency has emergency facilities in a station at Miami.

Be certain to open a window on the side of your house away from the wind. This keeps pressure equalized and air can get in.

Don't touch loose or dangling wires. They may fall on you and be deadly.

Watch out for spoiled food, or for drinking water. Do not touch such as storm debris, lanterns, etc.

## Religious Pouring In For Relief In Okeechobee Region As Hurricane Storm Nears

MIAMI, Aug. 26 (AP)—This bulletin on the hurricane near- ing the Florida coast was issued by the Weather Bureau at 1 P. M.

Winds are becoming dangerously strong on the southeast Florida coast. Miami has reached 45 miles an hour and there is a 15 mile gale force wind at Palm Beach. All people between Miami Beach and Vero Beach should continue all hurricane precautions and remain in shelter until the storm passes. Winds should become dangerously strong in the Lake Okeechobee area by early tonight. The heaviest of the storm is expected to be met over the Fort Lauderdale-Palm Beach area and Fort Pierce area where winds may reach over 100 miles per hour.

MIAMI, Aug. 26 (AP)—Rising winds and the risk of southeast Florida being hit by this hurricane are leading to a pouring in of religious groups for relief work.

A number of religious groups are expected to be in the area by early tonight. They will be working in the area of the storm.

Religious groups are expected to be in the area by early tonight. They will be working in the area of the storm.

## Murray Blasts Disaster Relief Steel Heads For Groups Alerted "Vicious Charge" Thruout Seminole

### CIO Leader Denies Rivalry With Lewis No Basis Of Action

NEW YORK, Aug. 26 (AP)—President Philip Murray of the CIO Steelworkers Union denied today as "vicious and insulting" the charge that John L. Lewis, leader in winning miners' personal behind the steel union's denunciation of the steel industry.

The veteran union leader, closing the case for the steel industry before a presidential fact-finding board, attacked a speech by the panel by Ender M. V. Murray, chairman of the finance committee of U. S. Steel.

Murray declared Voucher's the voice of reaction "who speak in the language of economic Reactionism."

The U. S. steel executive told the board his industry is "caught in the bitter case for years of giant labor monopolies" and has stated that Murray's denunciation "was a vicious and insulting charge of the head of the United Steelworkers."

"This attack is vicious and insulting," Murray said in a rebuttal to Murray's charge. (Continued on Page Eight)

## Shelters For Refugees Announced In Case Of Emergency

A group of voluntary organizations working from Red Cross headquarters today announced the names of the shelters for refugees in the case of an emergency.

The shelters are located in the following areas: Fort Lauderdale, Palm Beach, Vero Beach, and Ft. Pierce.

The shelters are located in the following areas: Fort Lauderdale, Palm Beach, Vero Beach, and Ft. Pierce.

## Gail Biting And Marlon Butler Chosen

Gail Biting, daughter of Mr. and Mrs. W. V. Biting, and Marlon Butler, son of Mr. and Mrs. J. Butler, were chosen as the most popular girl and boy of the playground yesterday at San Lando Springs where 54 boys and girls attended an outing in honor of members of the Recreation Department's baseball league.

The all day swim, party and picnic was sponsored by the Sanford Lions Club. Everyone enjoyed the watermelon cutting at 4:00 o'clock, and swimming, nature hiking and dancing was enjoyed throughout the day.

## THREE KILLED

OXFORD, N. C., Aug. 26 (AP)—Three persons were fatally injured last night when a twin-engine Cessna ambulance plane crashed 15 miles northwest of this central North Carolina town.

The victims were identified as Robert B. Bushey of Winston-Salem, the pilot and Mrs. Itha Correll Cole and Mrs. Peggy Chatham, 23, both of Durham.

Mrs. Cole's husband, N. Dallas Cole, identified his wife and Mrs. Chatham as nurses. They were returning from New York where they had accompanied a patient from Wake hospital in Durham.

## LEGION MEET

Lake Mary Legionnaires and other new members of Campbell-Loring Post 53 will be welcomed at a special supper at 7:00 o'clock and meeting at 8:00 o'clock at the Legion Hut, Monday night, James Q. Galloway, commander, and James Singletary, adjutant, announced today.

Plenty of National Service Insurance blanks will be available for World War II veterans to sign, said Mr. Singletary. Tickets for the supper may be obtained at the usual place.

## C Of C Plans To Mail Ballots For Annual Election

More than 800 ballots will be mailed Monday to members of the Seminole County Chamber of Commerce for election of 84 directors in the Sanford area and 34 in the county region.

These directors will meet on or about Oct. 1 to select a president, vice-president, treasurer, manager and vice-presidents to represent each district.

The ballots are devised for return, free of postage, to the Chamber of Commerce office, and may be mailed after detaching the ballot and clipping the edges together with the enclosed sticker, or instead of mailing, may be deposited in the ballot box at the office.

President John Ivey and other officers of the organization urge that all members exercise the right of ballot and vote for whom they desire as directors.

W. A. Morrison, chairman of the election committee, will notify the members of his committee who will be needed to tabulate the ballots on Wednesday, Sept. 7.

"This is one of the largest ballots that has ever been mailed out by the Seminole County Chamber of Commerce," said Edward Rippe, secretary, "and it represents the membership that paid and pledged over through the year."

### British Propose 5 Percent Cut In National Budget

LONDON, Aug. 26—(AP)—Sir Stafford Cripps told department heads of Britain's Labor government today to get ready for at least a 5 per cent slash in next year's national budget. Such a cut would bring savings of \$600,000,000.

The Chancellor of the Exchequer passed the word around barely two weeks before the scheduled start of Britain's dollar crisis huddle with U. S. officials in Washington Sept. 7.

A government informant, who told newsmen of the move, stressed that it was not brought on by American pressure. But other informed sources said Washington has been informed in advance of the decision to reduce spending at least an overall 5 per cent compared with the budget for the 1949-50 fiscal year which began April 1. The current budget totals \$12,000,000,000.

The Labor government has been under severe fire from some American political leaders and newsmen, who have accused it of inefficient administration and spending too much on social services.

Another government informant said yesterday Britain might have to revise drastically its costly cradle-to-grave national health service if the Washington dollar talks fail.

### President Told

(Continued From Page One) of the country by air. Sawyer emphasized the suggestions for government economy and lower taxes by speaking of the first as "an almost universal recommendation of business groups" and of the second as "very strong demand."

Sawyer, who is to leave Sept. 10 for the west coast to resume his survey, declared that his "most significant impression" is that "people generally have an abiding faith in the soundness of our business economy."

"Generally speaking, I find that businessmen considered the recent decline in prices, sales and production as being temporary adjustments which were inevitable as our economy moved from the inflationary postwar peaks into a better adjusted level of prosperity," Sawyer reported.

### Cost Of Living

(Continued From Page One) brought the list of which areas to \$2. All of them report 12 per cent or more of their labor supply out of jobs.

By R. J. SCOTT

### SCRAPS

1850 POPULATION 1,000,000,000. HOW MUCH HAS THE WORLD POPULATION INCREASED IN THE LAST 100 YEARS? IT HAS DOUBLED.

### Hurricane Strikes

MIAMI, Aug. 26—(AP)—The Weather Bureau issued this 12 noon advisory on the Atlantic hurricane:

Winds are slowly increasing over the Florida peninsula as the hurricane approaches the lower east coast. Velocities are 25 to 35 miles an hour and increasing with moderate to heavy rain are now being reported from Vero Beach southward to the Miami area.

Winds will continue to increase as the hurricane center moves into the coastal area, and lidos will be abnormally high especially in the Fort Lauderdale-Stuart area where winds will be onshore and strongest.

The storm is expected to pass over or very near Lake Okechobee and all precautions should be taken and continued in that area. Hurricanes warnings are displayed from Vero Beach southward to the Greater Miami area and on Lake Okechobee. Storm warnings are displayed elsewhere on the east coast from Fernandina to Key Largo on the west coast from Fort Myers to Cedar Key.

MIAMI, Aug. 26—(AP)—A tropical hurricane with winds up to 120 miles per hour passed north of picturesque Nassau, Bahamas, today and headed for South Florida's gold coast.

All South Florida was braced for the storm which twirled toward this wealthy Atlantic resort area at a 10 to 20 miles an hour pace on a west-northwest course.

If the present course is maintained, the hurricane will strike the mainland a short distance north of Miami this afternoon.

A high flow in southern wind over Florida may cause the storm to take a more northward course about the time it reaches the coast and cause it to hurtle east along the thickly populated area between Miami and Palm Beach.

The center of the second hurricane of the season passed nearly over or slightly north of the Bahamas capital shortly after 6:30 A. M. (EST). Highest winds were reported at 75 miles an hour; hurricane's top velocity in Nassau, since that British colonial caught the weakest side of the storm.

In an 8 A. M. bulletin the Miami Weather Bureau said the storm had picked up intensity during the night with highest winds estimated at between 110 and 120 miles an hour.

Because of the erratic nature of the storm, hurricane warnings covered a 142-mile stretch of the Florida East Coast from Vero Beach south to the Greater Miami area, and inland to include the Lake Okechobee region. Storm warnings flew over most of the state not included in the hurricane area.

Meanwhile, South Florida rushed preparations for the approaching storm. Merchants began boarding up storefronts at dawn. Small boats scurried up the Miami River.

The Miami Weather Bureau ordered northern storm warnings hoisted north of Melbourne to Fernandina. They already flew from Melbourne south to Key West, taking in the entire east coast.

The hurricane was still growing in size and intensity. Highest winds reported so far near the storm center were 120 miles an hour at Cat Island in the eastern Bahamas and gusts to 75 miles per hour at Nassau.

The strong side of the doughnut-shaped storm had not yet reached Nassau. Gale extended 200 miles to the north and east and 100 miles to the west of the center.

Increasing winds and abnormally high tides were predicted along the Florida east coast.

Precautions should be taken immediately for the protection of life and property in the area where hurricane warnings are displayed, Chief Storm Forecaster Grady Norton said.

The alerted Florida coast battered down. Some householders and business firms began boarding up yesterday. Boatmen moved small craft to safe anchorages.

Ships and planes at the Key West naval base were ready to flee if the storm headed that way.

Norton called the hurricane "a renegade" and "a bad actor."

He said it pursued a veering course during the past three days, first curving northward then shifting back westward. A Navy hurricane hunter plane had a difficult time finding the "eye" of the confused air currents.

Norton said earlier the blow presented the "rare phenomenon" of a hurricane still in the formative stage but with winds already blowing at hurricane force.

The Florida Keys, a necklace of islands stretching 165 miles from the mainland to Key West, were clear of the hurricane zone and storm warnings which flew southward from Key Largo were lowered at 10 A. M.

Thousands of residents and summer visitors along the palm-dotted strands of the "gold coast" took precautions against dangerous winds. There was no undue excitement. Storm shutters were going over acres of plate glass and doors were bolted against the winds.

Many who live in exposed houses near the waterfront sought refuge at hotels or Red Cross storm shelters. Hundreds of boats chugged up rivers and canals to protected moorings.

There was little fear that the area could weather the storm with no hint of a disaster, for the hurricane is moving into a section best prepared to receive them. Building codes require strong stormproof structures and the residents are hurricane-wise.

The biggest worry, as pointed out by Norton, is that newcomers may not know how to protect themselves.

Patricia Neal and Gary Cooper in a memorable love scene from "THE FOUNTAINHEAD, Warner Bros. pictorialization of famous novel, on the Ritz Theatre screen Sunday and Monday.

The biggest worry, as pointed out by Norton, is that newcomers may not know how to protect themselves.

PORT LAUDERDALE, Aug. 26—(AP)—A morning Florida East Coast Railway train northbound from Miami was so packed that passengers were standing in the aisles.

R. P. Ferguson, district passenger agent, said most of the passenger load was made up of Veterans of Foreign Wars convention delegates and their families trying to beat the hurricane up the East Coast.

MIAMI, Aug. 26—(AP)—Some people confuse the phenomena of nature with those of government. Miami Daily News today asked, "During a hurricane, do the police stop cars at state lines?"

JACKSONVILLE, Aug. 26—(AP)—The Jacksonville Naval Air Station said today it was not a refuge airport for planes fleeing the hurricane but that it had been alerted to serve as a refueling point.

The station said Navy planes from Key West and Miami were enroute north, the Key West base headed for Dallas and Miami planes headed for Atlanta.

POCKET MONEY LOS ANGELES, Aug. 26—(AP)—Carol Ann Berry, 18-year-old adopted daughter of the late Wallace Berry, will have \$600 a month pocket money.

Superior court yesterday decreed that the girl—who will receive a third of the actor's \$2,000,000 estate when she becomes 21—be allowed to withdraw a total of \$1200 a month from her guardianship fund. The actor's former wife, Mrs. Mary Ariza Fox, will administer use of \$700.

VET BILL PASSES WASHINGTON, Aug. 26—(AP)—Bill to give specially-equipped automobiles and special housing aid to more disabled veterans were headed for President Truman's desk today.

The House completed congressional action on the Senate-approved measures yesterday.

Legal Notice NOTICE TO APPEAR TO: KENNETH BRIGHT BETTS. You are hereby required to appear on September 29, 1944, in a certain divorce proceeding pending in the Circuit Court of Seminole County, in Chancery, an abbreviated title of which said in WADSWORTH ANNE PLAINFIELD, KENNETH BRIGHT BETTS, Defendant.

WITNESSEY my hand and seal at Sanford, Florida, this 24th day of August, 1944. C. F. HERRINGTON, Clerk, Circuit Court, Seminole County, Florida.

NOTICE At ten o'clock on the morning of Thursday, Sept. 1, 1944, the Seminole County Board of Public Instruction will convene in the courthouse, Sanford, Florida, called 10:00 on an Albee Building at the Seminole High School and a six room addition to the Midway school building. A certified check or \$100 bond in the sum of five per cent of the bid must accompany each bid. Plans and specifications can be obtained from Architect Eldon J. Johnson, a deposit of Ten dollars will be required. The architect for each set of plans the deposit to be returned on return of the plans, and specifications. The Board reserves the right to reject any or all bids.

Seminole County Board of Public Instruction J. S. Jordan, Chairman W. W. Lawrence, Secretary

### Story Branded As Premature On Finding Of St. Peter's Bones

VATICAN CITY, Aug. 26—(AP)—The Vatican radio has urged the faithful to await a "great revelation" by the Holy See concerning the tomb of St. Peter.

This advice it was framed, is the only authoritative Vatican comment yet made on American newspaper reports that St. Peter's bones have been found under St. Peter's basilica here.

The Vatican radio broadcast the summary of an article appearing this week in the Catholic Action newspaper Quotidiano, headed "premature news and confident awaiting."

A director of Vatican radio told the Associated Press "this represents our view."

Neither the Vatican radio nor Quotidiano ventured to predict whether the Holy See's forthcoming revelation would announce whether St. Peter's bones actually had been found.

Neither was there any hint regarding the nature of the expected revelation, presumably to be made by Pope Pius XII at some future date.

The New York Times reported recently that the bones of the apostle were understood to have been found less than 20 feet below the pavement of the basilica.

Vatican sources unofficially have labeled the report fantastic. Comment within the Vatican reportedly is divided—some believing, others disbelieving the account.

A similar division exists among Rome's newspapers which are continuing to indulge in wide speculation.

The Vatican radio and Quotidiano said: "This information does not have the character of innovation, having been published by the press of various countries in other circumstances."

"However," they added, "it is well to observe that in an important and delicate matter one should adhere to official and definite news which step by step comes to Christianity."

"And it is not without profound significance that one who divulged (such news) up to now on two solemn occasions was the Pope."

The Vatican radio and Quotidiano recalled that the Pope on May 18, 1942, spoke of archaeological work, then only recently begun in the grotto of the Vatican.

The Pontiff said the findings had demonstrated, among other things, that the basilica of St. Peter was built on the tomb of the prince of the apostles.

On Jan. 30, 1940, the Pope addressed Roman students and declared: "It was the decision of divine providence that St. Peter chose Rome as the seat of his bishopric."

"Here in the circus of Nero for which we have incontestable archaeological testimony," he said in a context of Christ, "under the central point of the gigantic cupola (of St. Peter's basilica) was and is the place of his sepulchre."

The Vatican radio and Quotidiano said "Now it is believed that with the best foundations, the size of the work and the discoveries achieved will lead to more exciting news."

"When will this be?" was asked. "Evidently the Holy See."

### State Building

(Continued From Page One) University of Florida engineering building, 25 percent finished; Florida A. & M. College for Negroes Hospital, 35 percent finished; FAMC Laundry, 25 percent; University of Florida Library addition, 60 percent; Florida State University science hall, 30 percent; FSU men's dormitory, 100 percent; dormitory, 25 percent; Forest Hill School for Delinquent Negro Girls, 50 percent; Apalachicola Correctional Institution, almost finished; general hospital, diet kitchen and utility plant, addition to Florida State Hospital, just started.

There are several other big projects which have been actually completed but are listed as technically unfinished pending final inspections and acceptance.

All in all, \$42,369,000 was put into the construction fund under the 1944 appropriation act, and \$275,000 from various donations and grants. On top of that, the Improvement Commission financed construction of \$2,500,000 worth of buildings on self-liquidating bond issues.

When the 1944 Legislature depended all continuing appropriations, it knocked out \$4,238,000 in building appropriations of the 1944 Legislature that the Cabinet had not released for expenditure up to then. That money reverted to the State general fund on June 30.

Mr. Truman in the steel dispute went into effect were: An \$800,000 gymnasium; \$275,000 for Florida A. & M. College for Negroes; \$1,000,000 University of Florida agriculture building; \$400,000 for various county armories; \$350,000 for livestock pavilions and \$200,000 for state park development.

### Five Percenter

(Continued From Page One) In this, he contended that "it appears there have been extracted from this witness possible self-incriminatory statements by means of a violation of Maragon's constitutional rights. His reference was to the July 28 session."

Ehrlich questioned, too, the right of the committee to ask Maragon about his personal affairs and to demand Maragon's personal papers. He protested that committee counsel had refused to return papers that Maragon turned over to the committee.

The accountant's story of Maragon's bank accounts came immediately before Maragon was called.

Carmine S. Bellino, accountant for the Senate investigations subcommittee, gave the testimony as part of the group's hearings on pecking of influence in government.

Bellino said that in a closed session with the committee last July 28 Maragon repeatedly had said that he had no bank accounts except here in Washington.

But later Bellino said, Maragon remembered, an account he had opened in San Antonio.

Bellino said Maragon listed his total income as only \$6,000 in 1942-43, a year, yet he said, deposits in three bank accounts added up to \$119,508.61.

Indiana's motto is "The Crossroads of America."

### Youth Center Needs Are Told Jaycees

The acute need of a youth center for a meeting place for club groups, including planned activities for your today groups 365 days of the year, today stressed in a talk to the Jaycees by Harlan Harman, chairman of the Kinship committee in charge of promoting the project.

He was introduced by Karlje Householder, who pointed out that Mr. Harman had stopped overnight in Sanford in May, 1943, and had resolved, after looking around here to come back to live. On June 1, a month later, he returned to live in Sanford and to direct programs for Station WTRR.

"Here in Sanford, ideals have been set high," said Mr. Harman, and I know of no community more beautiful or with friendlier people than here."

Stressing the need to keep teen-agers out of juke joints and beer parlors, he pointed out that the proposed youth center would provide proper recreation facilities for a year-round youth program.

Following the talk, the Jaycees voted to appoint a two man committee to co-operate with civic groups in promoting the project. The vote was made on motion of Douglas Stenstrom, President, John Benark, commander, Mr. Harman for his visit and proposal.

B. F. Ganas announced that a softball game will take place Tuesday night at 7:30 o'clock at the Lakewood Ball Park between the All Stars of Oviedo and the Jaycees.

\$7,511 Worth Of Food Furnished Children

Wholesome foods with a whole lot of vitamins were distributed to children in the schools of Seminole County during the fiscal year ending June 30, Supt. T. W. Lawton announced today.

The foods are made available by the Food Distribution Programs branch of the U. S. Department of Agriculture without cost to the State. They are distributed in Florida through the State Welfare Board.

Some of the items provided in county schools included: 1,950 cases of raisins, \$292; 829 pounds dried milk, \$354; 2,550 pounds cheese, \$1,276; 48 cases orange concentrate, \$864; 160 cases canned tomatoes, \$907; and 19,000 pounds white potatoes, \$760.

Throughout the state, the wide variety of surplus commodities distributed had a value of \$941,810.

## Arms Aid Fund May Be Use To Erect Plants

### Senate Committees Vote To Let European Nations Make Their Own Arms

WASHINGTON, Aug. 28—(AP)—Administration forces beat today an effort in the Senate to direct that President Truman have \$10 per cent of the billions of dollars Congress has appropriated to run the government. The Senate voted 48 to 20 to suspend its rules and adopt a "rider" to the armed services appropriation bill to order Mr. Truman to make the savings. That was short of the two-thirds vote required to suspend the rules. Vice President Barkley ruled that a two-thirds vote was necessary although the Senate parliamentarian had held that it could be waived by a simple majority vote. The Senate upheld Barkley's ruling by a 41 to 28 vote.

WASHINGTON, Aug. 29—(AP)—Two Senate committees voted today to let European members of the Atlantic Pact use part of President Truman's proposed \$1,450,000,000 arms aid fund to build their own arms production.

Senator Connally (D-Tex.) told reporters the combined Foreign Relations and Armed Services Committees voted 11 to 9 to permit use of the money to buy tools, equipment and raw materials to produce weapons in their own factories.

Connally said the vote came on an amendment by Chairman Truman (D-M) of the Arms Services Committee.

Senator Vandenberg (R-Mich.) had argued against the proposed

## Registration For Opening Of Schools Is On Wednesday

Registration of all school pupils, white and colored, will take place Wednesday morning through Seminole County School Board.

The registrations will be started at the various schools starting at 9:00 o'clock and continuing until all pupils are registered. It is provided to transport the pupils to all schools.

All pupils of all grades, whether they are new pupils or have been in the school before, are required to register, said Mr. Lawton.

No further attendance will be required until Tuesday, Sept. 6 when the term commences.

All principals and school lunch personnel met last Wednesday at the Jackson of the Bureau of Health Information of the State Health Department discuss sanitation and sterilization in relation to school lunch programs. He also discussed personal hygiene.

The talk was arranged by the Seminole County Health Unit, working in co-operation with the county school lunch program.

WASHINGTON, Aug. 29—(AP)—Supreme Court Justice Wiley B. Rutledge is "shining improvement" at York Village hospital, a spokesman said today.

The 55-year-old jurist is under treatment for a circulatory condition, the hospital said.

The judge's family declined to permit any further statements about his condition.

WARREN CONFIDENT  
TALLAHASSEE, Aug. 29—(AP)—Governor Warren today expressed confidence the Legislature will provide sufficient revenue to meet his appropriations.

He has called the lawmakers to a special session for Sept. 7 to make up a \$87,000,000 deficit between his record 1948,500,000 appropriations and anticipated revenue.

Warren declared he believes a sufficient tax program will be approved "without undue delay."

But declined to predict the number of days the extra session will last.

SPECIAL SESSION  
MIAMI, Aug. 29—(AP)—Deade county Senator E. B. Gaultier said today reintroduction of the Gaultier raising date bill might jeopardize the needs of the special session of the Legislature.

He said he had been informed such an attempt would be made in one form or another even if it is necessary to displace the bill.

"In my opinion," he said, "it is an outrage that the Gaultier bill should be considered for introduction at a time when there are so many vital matters that we must attend to."

LISTED AS DEAD in the daring rescue of survivors of the U. S. submarine Cochino which exploded and sank in the Arctic is Lt. William M. Shafer, Jr., Stamford, Conn. Shafer and five other crewmen aboard the Tusk were swept overboard during rescue operations in the heavy seas. (International)

## Rotary Is Told Of Delinquency By Judge Farmer

### Fault Is Placed At Door Of Society, Not Just Parents

"It is not so much delinquent parents who cause juvenile delinquency as it is delinquent society," said Judge Mattie H. Farmer, Orange county juvenile court judge, who spoke before the Rotary Club today. "All of us are to blame and all of us should do something about it."

Pointing out that Orange county is planning a fall round-up to go into the jails, the recreation centers, the schools and the homes in an effort to find out everything that is not right, and to see what can be done about it, Judge Farmer said that if members of the Rotary Club and similar organizations would look upon the children of the community as their pals, they would never have any trouble with them.

"Often we find that the only thing in the world a boy needs is a friendly pat on the back," the judge said, adding that one of the chief causes of delinquency is the belief of the child that "Nobody cares."

## New Unemployed Drop To Low Level

WASHINGTON, Aug. 29—(AP)—New application for jobless payments have dropped to the lowest level since last November.

The Bureau of Employment Security said yesterday a steady slackening "in the rate" of new industrial layoffs, is indicated in sharp drops in new unemployment claims mid-July.

Initial claims indicating new unemployment numbered 289,507 during the week ended Aug. 20, the report said. This was a drop of 31,498 from the number filed the previous week.

Also filed, however, were 7,533 claims from veterans who had been filing under the service men's readjustment benefit program. This program expired for

initial claims declined in 40 states.

Also filed, however, were 7,533 claims from veterans who had been filing under the service men's readjustment benefit program. This program expired for

WASHINGTON, Aug. 29—(AP)—Political tom-toms in Democratic and Republican camps have begun thumping out the prelude to the 1950 congressional elections.

From the GOP side Senator Wherry (R-Neb) hit the first note in a radio speech yesterday.

The Senate Republican leader accused Truman Democrats of threatening "our historic way of life through Socialism, spendthrift government and unbearable taxes."

He predicted the election of a Republican Congress next year "to stop the biggest give-away show on earth."

Senator Anderson (D-Mn) led off for the Democrats at a party rally near Hamilton, Ohio. He ridiculed GOP "welfare state" and "statism" digs at the Administration.

The President, he declared, "look forward with hope" to the election in 1950 enough Congress members to carry out every part of his legislative program.

## Truman Offers Britain Aid In Dollar Crisis

### President Tells American Legion U. S. Will Not Interfere In Internal Policies

PHILADELPHIA, Aug. 29—(AP)—President Truman assured tonight's sudden Great Britain today of continued American co-operation to ease her financial plight and restore the world trade essential to lasting peace.

Speaking to the American Legion convention after Philadelphia welcomed him with soldiers, music and cheering crowds, the President announced a set of four basic principles to guide next week's conferences on Britain's gold and dollar shortage.

Specifically disavowing criticism within this country of Britain's Socialist government, the President said the United States does not propose to interfere in another country's "internal politics."

The President, first Legionnaire elected to that office, was wearing a black Legion cap with the Missouri insignia. He stood at attention as the 70-piece U. S. Army band from Washington played "Hail to the Chief."

The band swung into "Caissons Are Rolling Along" as the President, followed by officials and dignitaries, walked past his guest of honor. Previously he stood in front of an Air Force contingent, posing for pictures with Commander Perry Brown of the legion.

President Truman outlined general principles for restoring the world trade balance and bringing prosperity to Europe in the face of Soviet Russia's hostility to democratic efforts to generate recovery.

Mr. Truman spoke to a crowd in Convention Hall estimated by legion officials at 18,000.

He went to the convention after spending the night in a hotel. He was escorted by a historic mounted guard unit.

"It is a wonderful turn out," the President said at luncheon, "and it means a historic gathering for our people."

## Mayor Carraway Reports Progress On Terminal Bonds

Mayor Andrew Carraway, who returned Thursday by plane from Washington, D. C. after a 10-day vacation, stated today that he received "unofficial encouragement" from RFC officials regarding Sanford's proposed terminal loan.

With Representative Sid Hinton, he visited RFC attorneys and officials and was advised to go ahead with the court action needed in order to validate the use of parking meter funds for collateral for the loan.

This action, first to be taken up in Circuit Court, is necessary because there is no precedent in placing parking meter funds as such collateral.

With his brother Acce, Mayor Carraway attended a dinner given by the National Committee of the Democratic Party at the Mayflower Hotel ballroom and heard President Truman and Vice-President Barkley speak.

During the trip north he visited Mr. and Mrs. A. B. Peterson at Jamestown, N. C., and at Chatham, N. C., where the Petersons are also now back in Sanford.

WASHINGTON, Aug. 29—(AP)—The ire of Democrat leaders. Anderson denied GOP charges that the Administration is leading the people toward a "welfare state," and that Americans have lost some of their liberties under President Truman.

"The citizens of these United States are not only in possession of all the liberties they have ever enjoyed," he asserted, "but I came away from the Wednesday night party of the Democratic National Committee convinced that we are on the threshold of even an expansion of the liberties we have always enjoyed."

Wherry told his radio audience that the Administration has proposed measures "which would threaten the sovereignty of our government, destroy competitive enterprise, and carry the United States deeper into the realm of Socialism."

WASHINGTON, Aug. 29—(AP)—Survivors of the submarine Cochino, which sank Friday after an explosion in Arctic waters off Norway, sailed today for New London from Tromsø, Norway.

They are aboard the submarine Tusk, the Navy's submarine base here reported.

## Restaurant Loses Front To Hurricane Winds

CAUGHT BY THE TERRIFIC hurricane winds that lashed much of the Florida coast, this roadside restaurant in Pompano suddenly finds itself an outdoor dining place when its entire storefront is carried away by the impact of the storm. Winds of 160-miles-an-hour velocity were clocked in the area. (International Sunphotors)

## McKibbin Praises Sanford's Summer Recreation Deal

### Program Carried Out By Mrs. Gingles Is Hailed As Success

Success of Sanford's recreation program this summer among both white and colored children was pointed out Thursday evening in the radio talk by City Manager Clifford McKibbin.

"Getting a late start in obtaining authorization in planning the program, Mrs. P. M. Gingles carried out a very good recreation program," he stated. "With the co-operation of The Herald, all events were adequately announced. The City Commission appropriated a relatively small amount of money for the program in June as funds had not been included in the year's budget for summer recreation."

A broad program was carried on with the assistance and sponsorship of various civic clubs. The Commission specified that the recreation programs should be planned for both white and colored children. As a result, Lewis Jones at Georgetown and Adam Hains at Goldboro have conducted well planned recreation programs for colored children including swimming parties twice a week.

"Mrs. Gingles has been assisting in this program for white children by Mr. Burnett, Tom Catalano, Tom Russ, Mrs. Martin Brothers, Mrs. Shala and Frances Moore and Ruby Stenstrom. A variety of games, hobbies and crafts have been taught and children have been encouraged to become self-sufficient."

Another snap-shot showed Colonel and Mrs. Hunt with Vaughan. White said this was taken at an anti-air raid concert in which a selection written by Hunt was given. It entitled "Nice of Uncle Sam."

## William M. Walter Died Sunday Morning

William M. Walter, 55 year old resident of Lake Monroe for the past 15 years, died at 2:28 A. M. Sunday in an Orlando hospital following an illness of more than a year.

Born Oct. 22, 1873 in South Lyon, Mich., Mr. Walter, a retired auditor, moved to Lake Monroe from Stonewall, Miss. For a number of years he operated a chicken farm at Lake Monroe.

He is survived by two sons, James Clayton Walter, Lake Monroe, and Leonard Douglas Walter of Miami; one daughter, Mrs. Richard McArthur, Ghoulston, Miss.; one brother, Arthur Walter of Wisconsin; one sister, Mrs. Lorena Lorenz of Chicago.

Funeral services will be held at Erickson Funeral Home at 3:30 P. M. tomorrow with the Rev. A. G. McInnis officiating. Interment will follow in Evergreen Cemetery.

## GI DIVIDEND NEW YORK, Aug. 29—(AP)—

Grinning ex-GI's lined up by the thousands today to claim their share of Uncle Sam's \$2,800,000,000 National Service Life Insurance dividend.

Application blanks, distributed for the first time today, flowed out at the rate of 4,500 an hour at the downtown federal building, one of the city's many distribution centers.

## SURVIVORS SAIL GROTON, Conn., Aug. 29—(AP)—

Survivors of the submarine Cochino, which sank Friday after an explosion in Arctic waters off Norway, sailed today for New London from Tromsø, Norway.

They are aboard the submarine Tusk, the Navy's submarine base here reported.

## James V. Hunt's Picture Gallery Thrown Open To Curious Newsmen

WASHINGTON, Aug. 29—(AP)—The picture gallery in James V. Hunt's office was thrown open to inspection by reporters today. It includes pictures of President Truman, 41 senators or former senators, and 30 odd House members.

At different times during the Senate "100 per cent" hearings, out-typed pictures on Hunt's walls have been mentioned. The implication has been that he used them to impress potential clients.

But White, Hunt's lawyer, invited newsmen to look the pictures over. He said, "There is no secret about any of them. We didn't steal any of them. We didn't get any of them at the point of a gun."

Hunt is the manufacturer's counsel, now ill in a hospital, whose friendship with some Washington officials has been a prime target of the Senate investigating subcommittee.

Reporters found 104 pictures in Hunt's private office. These were out-typed in adjoining rooms.

The picture of President Truman was on a table. It bears the handwritten inscription, "Best Wishes to Gen. Col. James V. Hunt, Harry Truman."

White and Hunt is 99 per cent certain he was given this picture, while he was still a colonel in the Army, by Maj. General Harry H. Vaughan, Mr. Truman's military aide.

There is a picture of Vaughan in the picture gallery. It is a photograph of James V. Hunt with all good wishes. "H. H. Vaughan."

In the reception room is a snapshot of Hunt with President Truman, General H. H. (Hap) Arnold, and Major George Howard, director of the Air Force band (now a lieutenant colonel).

White said this was taken at a White House concert in which a selection written by Hunt was given. It entitled "Nice of Uncle Sam."

Another snap-shot showed Colonel and Mrs. Hunt with Vaughan. White said this was taken at an anti-air raid concert in which a selection written by Hunt was given. It entitled "Nice of Uncle Sam."

## Hiroshima Toll Is Placed At 210,000

NEW YORK, Aug. 29—(AP)—The atomic bombing of Hiroshima on Aug. 6, 1945, took 210,000 to 240,000 lives, including those of 100,000 troops, says the mayor of the Japanese city.

Mayor Shizuo Hamai was interviewed yesterday by Norman Cousins, editor of the Saturday Review of Literature.

The mayor said he based his estimate on the number of ration cards he issued before and after the explosion. Hamai was the city's ration commissioner during the war. Hamai's figure is higher than any previously used by Japanese or American sources.

The U. S. strategic bombing survey reported on June 29, 1946, that the most plausible estimate of dead was 70,000 to 80,000 with an equal number injured. Supreme Allied Headquarters at Tokyo on Feb. 8, 1946, estimated 78,000 dead and 14,000 missing.

Hamai's figures on the soldier dead are new. He documented his estimate by enumerating the troop organizations involved.

TALMADGE VS. GEORGE  
MACON, Ga., Aug. 29—(AP)—Governor Herman Talmadge is being subjected to strong pressure to fight for the Senate seat of Walter George, the Macon Telegraph and News said in Sunday's edition.

The paper said it was reliably informed that a strong move was about to enter Talmadge in the Senate race rather than the gubernatorial campaign.

## RFC Calls Florida Disaster Area For Purpose Of Loans

### Little Damage In Seminole County Caused By Storm

Damage by the hurricane in the Sanford area was reported to be comparatively light except for loss of some young citrus seedlings, a few young vegetables and grapefruit, losses of which were estimated at 10 to 15 percent of the crop.

The main structural damage was a tool shed of American Fruit Growers Inc. on Bradford Avenue which blew over the road, completely demolishing the shed and downing a number of power line wires, blocking the road. Trunks and tools did not appear to be damaged to much extent. The shed was open to the wind but adjoining buildings with closed doors did not appear to be damaged.

Road and bridge damage throughout the county was estimated by State Geologist at about \$5,000.

No figures on wind velocity here are available, but a rainfall of 3.00 inches for the period of the storm at 7:05 p.m., according to F. J. Mougham, is weatherman.

The storm's wind and rain from Florida's coast to the north, Monday morning, played havoc with power lines and at one time about half of the installations were out of service. The weather bureau said the Florida Power and Light Co. Four additional crews were brought here to aid local crews.

The men worked Friday night and Saturday, and from day light Sunday to midnight, and were again on the job at daylight Monday morning. Mr. McKibbin, city manager, said the city had no power lines out of service. The city had no power lines out of service.

## Lake Okechobee Leaves Residents Of Glade Area From Repetition Of 1928

WASHINGTON, Aug. 29—(AP)—The Federal Emergency Management Agency today declared the hurricane-struck section of Florida a disaster area.

Senator Pepper said the agency now could accept requests for disaster loans. The RFC is considering setting up a disaster loan office in the area where the storm did the most damage but will not decide definitely until hearing from Fred Eschwald, Florida manager.

Senator Holland said the Farmers Home Administration is ready to accept applications for loans for purposes of rehabilitation, repairs and replanting.

Holland said the applications may be made through the county office of the agency or through the state supervisor at Gainesville.

By E. V. W. JONES  
BILLIE GRADY, Aug. 29—(AP)—I went with Grady Norton, chief storm investigator at Miami, on a tour of the wounded cities and towns in the hurricane damage area yesterday.

There was widespread damage. There was plenty of wreckage and some places with little more than their dignity injured by the great wind.

We found the people of the area happy that they and their families were alive and that the total wreckage was not more widespread.

The storm against which Norton had warned Florida's millions as it hammered toward the coast struck too large an area to be covered in a day.
