

Ten Fast Events On This Evening's Boxing Program

Show Will Be Put On By Boys' Club In 4th Street Arena

Ten events, advertised as fast ones, are on the card for tonight's boxing show in the Fourth Street Arena, put on by the Seminole Boys' Athletic Club. The first bout is scheduled for 8:00 o'clock. Tonight's card is as follows:

Glenn Cochran vs. Paul Moore.
Jack Emanuel vs. Billy Harrison.
Edward Crosby vs. Theodore Kicker.
Marvin Smith vs. Billy Hoelsh.
Laurence Barrineau vs. unnamed opponent.
Edward Smith vs. Stanley Richard.
Harry Lee Moore vs. Earl Peirce.
H. C. Tippins vs. Duane Tills.
Eugene Tippins vs. Clarence Barrineau.
Charles Cameron vs. Ray Edge.

Crooms-Bronson Tilt Is Won By Sanford

Crooms Academy of Sanford defeated Bronson High of DeLand on the football field by the decisive score of 14 to 0. During the first quarter the Crooms squad received 10 points for safety, and then with their linemen as a stone wall of defense Patrick climaxed a touchdown. Rosier made a 30-yard run at the start of the second half and Earl made a 15-yard gain through center, ending the third quarter.

Bronson High cheered Quarterback Peters for a 40-yard run. After losing the ball to Crooms, Rosier ran for 30 yards, and then Crooms lost to Bronson, and Peters gained 25 yards. Linemen on both teams battled for the start.

Crooms intercepted a pass in the last few seconds of play, and a perfect touchdown was the outcome.

Gators Defeated By Tulane, Score 19-7

By SAM MURRAY
NEW ORLEANS, La., Oct. 14.—Fighting back at Florida with its own game, Tulane's Green Wave bombarded the visiting Alligators from the air Saturday to avert a first quarter touchdown deficit, and drove on a 19 to 7 victory before a sunny day crowd of 10,000.

Floyd Christian, the big Florida right end, scored the Alligators' touchdown, standing in the end zone to bring in a long pass from Captain Chase which was made from Tulane's 24 yard line.

Al Hickland supplied Florida's extra point from placement and Dick Page made a perfect kick for the unit after Tulane's first touchdown.

Fast Stetson Squad Beats Oglethorpe, 7-6

ATLANTA, Oct. 14.—Stetson's eleven came from DeLand last Saturday, and defeated Oglethorpe, 7 to 6. The visitors played defensive football until the third period when they launched an offensive pegged on a combination of end sweeps to come from behind and nose out the lighter Oglethorpe team.

First downs were at premium and most of the game was played out of the danger zones. Oglethorpe held the edge in first downs, five to four.

In the see-saw battle, punt exchanges were frequent, with some lucky booting turned in by Lewton, Stetson quarterback and Leslie, Petrel halfback.

Both lines presented a solid front during most of the game. Stetson twice repelling goal line charges, and Oglethorpe repeating the performance.

Black - Draught And Good Health Year After Year

"I have never had a bad sick spell since for years I have taken Black-Draught for the least symptom of upset stomach or sluggish feeling," writes Mr. W. F. Fullum, of Gatewood, Mo. "I am a very hearty eater and sometimes I eat too much. If I feel uncomfortable, I just take a small dose of Black-Draught and soon feel all right. I feel I owe my good health to use of this reliable vegetable medicine, Black-Draught."

Where constipation is at the bottom of such troubles as Mr. Fullum mentions, take a good laxative.

Thousands of men and women have given Black-Draught credit for having helped them to avoid serious developments of constipation troubles.—(A.P.)

Myer, American, Vaughan, National, Lead Batters In Big Baseball Leagues

NEW YORK, Oct. 14.—Floyd Vaughan, of Pittsburgh, who led the batters most of the season, finished with a mark of .385, topping his nearest rival, Joe Medwick, of St. Louis, by 31 points for the undisputed batting championship of the National League. Vaughan made 192 hits in 499 trips to the plate and drove in an even 100 runs. Medwick made 224 hits in 633 times at bat and drove in 124 runs.

Billy Herman, of the champion Chicago Cubs, made most hits, 227, while his teammate, Galan, scored most runs, 133, one more than Medwick. Herman also made most two-base hits, 57. Wallis Berger, of the lowly Boston Braves, rapped out most home runs, 34, and drove in most runs, 127, though he batted only .297.

Bill Lee, of Chicago, is the leading pitcher with 20 games won and only six lost for a mark of .709. J. Dean, of St. Louis, won most games, 28, and pitched more innings than any other pitcher, 525. Dixie also was top in strikeouts with 190.

CHICAGO, Oct. 14.—The American League individual batting championship goes to Charles Myer, of Washington, who during the last four games of the 1935 season lambasted 10 hits times at bat to beat out Ed Mick, of Cleveland, point. Myer's win reads .340 and was hits in 616 times at bat.

Greenberg, Detroit runs for the top moment and tied Fox, Philadelphia, for home runs, 31, was always a home department, honor among the boys by scoring 44 runs.

Werber, of Boston, base than Lary, of according to the records.

Elden Auker, of leading pitcher in lost, with 18 wins for a percent.

Wes Ferrell, of Joe games, 25, and strikeouts, 322.

Ralph Wight Sees Banner Year For 1936 Oldsmobiles

"I've seen the 1936 Oldsmobiles. I've heard about the 1936 plans. I've been told of the great production expansion. And so I want to say that I am confident that 1936 will again see all records for production and sales of Oldsmobile broken."

This was the enthusiastic statement today of Ralph Wight, Oldsmobile dealer in Seminole County, after returning here in one of the 1936 model Oldsmobiles from a dealer meeting at Jacksonville.

"The country knows Oldsmobile as 'the car that has everything,'" he said, "and the new 1936 cars have everything plus. There is a definite advance in style leadership, keeping Oldsmobile far in front in graceful streamline design."

"The 1936 cars are big, new automobiles, beautifully designed, roomy and comfortable, and possessing all those features which have made Oldsmobile famous."

"When the cars were shown to the dealers of the area, and plans for the coming year were outlined, unanimous approval of both cars and program was expressed by the dealer organization."

Popularity of the 1936 Oldsmobiles was so great that when the factory was closed at the end of the 1935 production season there still remained on hand a large number of unfilled retail orders, Mr. Wight pointed out. This condition is unprecedented in the industry.

ROCKEFELLER IN SUNNY FLORIDA

Especially Designed Farm Building Plans Offered Our Readers

Series Will Include Latest Types Of Homes and Other Outbuildings

Our Florida Farm and Grove Section presents herewith the first of a series of specially designed farm buildings. The series will include homes of various types and styles of architecture, drawn by Henry Irven Gaines, noted architect, in addition to other farm buildings.

A description of the house in the accompanying drawing follows:

The First Floor
In designing this house the architect attempted to keep in mind the requirements of the average Florida farm family. The plan calls for a bed-room and bath on the first floor. This bed-room is accessible both from the living room and the kitchen; the thought being that the lady of the house might go quickly from the kitchen through the bed room, tidy up a bit and meet unexpected guests from the living room portion of the house.

This bed room is also situated so that the man of the house may enter from the rear without disturbing guests. The bath room is also accessible from the living room without going into the bed room. There is also an ample back porch from which much work can be done in the warm weather. The kitchen has an adjoining storage pantry with outside ventilation which will prove useful in storing vegetables and canned goods. There is also a small breakfast room adjoining the kitchen where the children may have an early breakfast before going to school.

Note also that there is a traditional front porch of sufficient size to accommodate the gatherings of friends and relatives on late afternoons and Sundays. The entrance to the second floor is from a small entrance-hall that permits access to the second floor without passing through any other portion of the house.

The Second Floor
The second floor contains two bed rooms and a bath with ample closet facilities. Note that the bath is directly over the bath below which allows economical plumbing, roughing in, and piping. Do not be perturbed by the fact that these second floor rooms are cut into the roof, because there are many economical materials on the market that will safely insulate these rooms against heat and cold.

The exterior of the house as shown is of wood siding. However, the exterior material could be brick, or stucco, just as successfully.

The ideal exposure for the house is to the north which will place the porch away from the sun, but at the same time will catch the early sun in the breakfast room where it is always desirable.

This house should be erected in Florida for approximately \$5,000.00 depending of course upon the material and finish.

Working blue prints and complete specifications may be purchased by addressing Architect care of Florida Farm and Grove Section, Box 2039, Orlando.

Sholtz Accepts Bid To Speak In Georgia

WAYCROSS, Ga., Oct. 14.—(AP)—Governor Dave Sholtz of Florida will speak in Columbus, Ga., the night of Nov. 12 at the convention of the Affiliated Democratic Women's Clubs of Georgia.

LET US FACE FACTS

The freeze of last December has brought about a decided shortage of citrus nursery stock for delivery this winter. From all indications, the increased demand is going to quickly use up the available supply of first class nursery stock. Wise growers, therefore, are placing their orders early, so as to be assured of having their trees reserved for delivery when they are ready to plant, after November 15.

Bible Verse For Today

THE MEASURE OF MERCY—Have mercy upon me, O God, according to thy loving kindness; according to the multitude of thy tender mercies blot out my transgressions.—Psalm 51:1.

The League of Nations is trying to sanctify Italy with sanctions.

As the Miami News points out, it is usually the person of small calibre who is the biggest bore.

Of course, the Italians could always depose Mussolini and say they didn't know anything about his African adventure.

The steady increase in automobile accidents indicates that the AAA didn't take any road hog out of production.

Sanford loses the services of two good laymen at one time, but one spells his name with one "n" and the other uses two.

Bruno Hauptmann says his case has been a "frame up from start to finish." They'll frame him up all right before they get through with him.

The assets of the Chase National Bank have increased \$192,000,000 since last June. Which just goes to show... but, oh, well, what's the use?

Joan Crawford has just married Franchot Tone. We hope she gets along better than she started out in this picture "I Live My Life."

If all these projects go through, Florida may wind up with more canals than highways, and the map of Florida will look like the face of a canary after it has been in a cat fight.

A Miami attorney, discussing the recent slot machine ruling, points out that the political control of slot machine racket is one of the most serious menaces to good government. Paraphrasing the old saying, "Let me write the laws of a nation and I do not care who makes the laws," he declares, "Let me control the slot machines of your town, and I do not care who makes the laws."

"You may need this," a young girl said to her boy friend as she jumped out of his car and raced toward the end of a dock. After her lifeless body had been dragged from the lake, the note was seen to read that he was in no way to blame for her death. Except for this, another "American tragedy" might have been found in the courts, this time all the more tragic because of the innocence of the defendant.

The prospects are said to be growing considerably brighter for the discovery of oil in central Florida. Representatives of eight of the largest oil companies gathered in one Florida city last week when extensive operations are being conducted in the effort to locate additional wells. In case pay all should be struck in Florida this state would have another boom, but this time more like the Oklahoma boom.

Karl Lehmann, for the past four years secretary of the Seminole County Chamber of Commerce, has resigned and will be succeeded by... Secretary of the Lake County Chamber of Commerce. Another resignation... Karl Lehmann got away from it. The salary city has grown... in the last four years and... of the expansion is due to... vigorous efforts of energetic... Lehmann. Sanford's loss will... some developments... right now, over the... Lehmann.

The Highway Toll

Did you know that there have been more Americans killed in automobile accidents during the past fifteen years than lost their lives in all six of the major wars in which the United States has participated since its founding?

Did you know that back in 1913, only 22 years ago, there were 4,225 persons killed in automobile accidents? That was when the automobile was considered a dangerous contraption for men of reckless daring, not for women and children certainly. But last year, in spite of safety glass, steel bodies, and four wheel brakes, more than 36,000 persons were killed by automobiles.

In addition during 1934, motor vehicle accidents caused 105,000 permanent disabilities, and 1,150,000 temporary disabilities. The total economic loss to the nation from these deaths and injuries, together with the property loss, is estimated at \$1,580,000,000. A continuation of the upward trend of 1934 would mean a loss of more than 40,000 lives this year.

There were less than 250,000 American soldiers killed or died of wounds in the six major wars in which the United States has participated since the American Revolution. In the last 15 years there have been nearly 389,000 men, women and children crushed beneath the modern juggernaut of highway accidents, according to the United States News.

The record of our war losses shows the number killed in action or died of wounds as follows:

Table with 2 columns: War, Number of deaths. Includes Revolutionary War (4,044), War of 1812 (1,956), War with Mexico (1,549), Civil War (Union forces) (110,070), Civil War (Confederate Forces) (74,524), War with Spain (including Philippines) (1,704), World War (60,510).

Total 244,357

Reports reveal that only one or two percent of the drivers in fatal accidents were physically defective. About 6 percent were intoxicated or "had been drinking" and about 1 percent of the drivers were asleep. Drivers around 18 or 19 years of age had the greatest number of fatal accidents per 100,000 drivers registered. About 78 percent of the motor vehicles involved in fatal accidents were passenger cars, 17 percent were trucks, the remainder other types.

Realty Pitfalls

If another long-awaited land boom develops in Florida as a result of world-wide recovery, easy money or whatnot, most Florida citizens will not make the same mistakes they did in 1925.

However, for the sake of newcomers, and as a reminder to those who may have forgotten the lessons of the past, we take pleasure in publishing, as follows, a list of rules, prepared by a New York realtors association, for the purpose of avoiding the pitfalls of real estate speculation:

"Get experience. An appraiser should have fifteen or twenty years experience in various branches of real estate before attempting to make an appraisal. Real estate can be learned in no other way than through experience.

"Be alive to opportunities. The lack of success in many men is due to their own neglect of opportunities.

"Make use of ideas as you get them. Do not linger in applying them.

"Above everything be honest. Without a reputation and strict honesty one cannot last in real estate.

"Know what you are talking about before seeing your customer. Don't guess.

"Don't waste time. A broker has only time, his brain and his reputation as assets.

"Study your leases from beginning to end. Many clauses that seem unnecessary have a purpose based on past experience.

"Keep informed. Read real estate news and discuss with real estate men the deals that have been made. Study the 'Record and Guide.'

"Always be willing to give information to other real estate men. Be open and above board with other brokers.

"Give written instructions in an organization and get written replies. There can be no question then about the facts.

"Be where business is and business will hit you.

"Remember that a combination of what you know and whom you know makes for success in real estate."

SANFORD TWENTY YEARS AGO

A congenial party of friends that motored out to Clay Springs for a swim and picnic the latter part of the week were: Mr. and Mrs. B. W. Herndon, Mrs. Henry Dickins, Mr. and Mrs. D. L. Thrasher, Dr. and Mrs. Samuel Puleston, Mr. and Mrs. R. A. Newman, Miss Sallie Williams, Miss Charlotte Hand, S. M. Lloyd, and Arthur Yorgull.

A glance at the calendar reveals the fact that autumn has officially begun and the statistics of the weather bureau lend confirmation to the calendar. There is a bite to the air these mornings that makes one think of winter garments and fuel bills. By these signs we know the season is on us.

Mrs. Claude Herndon was hostess to the neighborhood embroidery circle on Wednesday afternoon to which a few other guests were invited. The hours were spent in delightful informality with needle work and social chat. Refreshments were served to the following: Mrs. Osborne Herndon, Mrs. Morton Henson, Mrs. W. W. Abernathy, Mrs. E. D. Chilton, Mrs. George Watson, Mrs. Ed Raliff, Mrs. A. P. Connolly, Mrs. John Thomas, Mrs. H. B. Cooney, Mrs. Deane Turner, Mrs. F. E. Lawson, Mrs. Allan Jones, Mrs. T. J. Miller, Mrs. G. W. Spencer, Miss Nell Evans, and Miss Charlie Gay.

There was a large attendance at the Ceclian Music Club which met Saturday afternoon in Mrs. Munson's studio. The following new officers were elected: Mrs. Fannie Munson, president; Miss Margaret Davis, vice-president; Miss Fern Ward, secretary; and Miss Lucille Blane, corresponding secretary. Those taking part on the program were: Theodore and Adele Runge, May, Holly, Mary Elizabeth Puleston, Helen Terwilliger, Isetta Stone, Edmund Meisch, Jr., Helen Peck, Anna Mason, Fannie Reba Munson, Margaret Strong, Royal Klitworth, and Ruth Kanner. Judge Nicholson of Rochelle, Ga. is the guest of his sister, Mrs. J. D. Roberts.

CITY COMMISSION BRIEFS

Wooden billboards were again discussed at last night's meeting of the City Commission, but final decision was put off. George Barker of Orlando appeared with the request that such billboards be allowed in the city outside the fire zone, none to be erected in residential sections. He said they would be strongly constructed, capable of withstanding 300 pounds wind pressure to the square foot.

Request of the Sun Oil Company to erect an advertising sign at Eleventh Street and Park Avenue was placed on file for future consideration. G. H. ("Farmer") Brown asked for a permit to erect on Park Avenue, near the City Hall, a frame building for a barbecue stand, but he was advised that the proposed structure must conform to the building code which specifies fire-proof structures within the fire zones.

Permission to sell beer and wine at 412 Sanford Avenue was granted to Thos. Harris. Application for a license to operate a package liquor store at 512 Sanford Avenue was filed by Martin F. Corceoli and Nick Constantine but action was deferred until after Chief of Police Roy Williams had explained to the applicants that under such a license purchasers of liquor there could not drink on the premises.

A communication from the Sanford Townsend Club asking the Sanford City Commission to back the Club's petition for old age pensions, as has been done by the St. Augustine governing body, was read. Upon motion of Commissioner S. O. Shinholser, City Clerk F. S. Lamson was instructed to advise the petitioners that the communication will be considered at a later meeting.

Request that the City aid financially in the campaign against construction of the cross-state canal was again deferred by the Commission. The matter was not discussed last night.

Transfers from the contingent fund of the City were authorized to make up deficits in four departments. These deficits, at the close of the fiscal year, were reported by City Clerk Lamson to be as follows: Street Lighting Fund, \$650.85; Police Department, \$368.82, largely due, the clerk stated, to the purchase of a car for which no budget allowance had been made; Department of Parks, \$130, resulting from repairs to the zoo; Sanitation Department, \$176.28.

Fire Chief Mac Cleveland spent \$40.55 on his recent trip to Knoxville, Tenn., where he represented this city at the convention of fire fighters. An appropriation of \$36 had been made, but the Commission voted to reimburse the chief for the excess amount.

Upon the reading of a petition asking for the grading of Ninth Street between Bay and Locust Avenues, Street Superintendent James Moughton informed the

roll which was completed several weeks ago.

Request from Mrs. J. W. Shadoin for reimbursement for damage sustained in last Sunday's heavy rain was turned down by the Commission. Mrs. Shadoin reported that water backed up in the alley in the rear of her store on Sanford Avenue, just south of First Street, and damaged rugs and draperies to the extent of \$55. The City is not at fault, Street Superintendent James Moughton reported, as the building occupied by the Shadoin establishment is below the alley level, and the alley is below grade.

A galvanized iron addition cannot be built to a frame building within the fire zone limits, the City Commission ruled last night in refusing a permit for such construction on Sanford Avenue immediately north of Fourth Street. The addition must be of brick, even though the present building is of frame.

On motion of Commissioner Spear, the City Attorney will look into the matter of compensation for the family of Willis Dixon, colored, City Sanitary Department employe killed while at work Free Street, and damaged rugs in protected under the Workmen's Compensation Act.

Dr. J. N. Tolar, City physician, informed the Commission that 47 indigent persons were cared for in his office in September, and that during the month he made 12 calls at the hospital and 12 at the City Jail.

A. R. Marshall, special sanitary inspector, will henceforth be on half-time, members of the City Commission holding to the view that the employment of a full-time man in the inspection department is no longer necessary.

PREXY RETURNING HOME: WINTER PARK, Oct. 15.—Dr. Hamilton Holt, president of Rollins college, is due to return to Winter Park from his home in Connecticut Thursday.

EVIDENCE MISSING: MIAMI, Oct. 15.—(AP)—Disappearance of the embezzlement information against F. McCall, former Dade criminal court clerk, was revealed here yesterday by Special County Solicitor E. F. P. Brigham.

UNQUALIFIED EMPLOYMENT: For unqualified employment of non-union labor, any contractor who has worked for the city in the past year is liable to a fine of \$100.00. This is the penalty for violation of the city's new labor law. The law also provides for a \$100.00 fine for any contractor who employs non-union labor. The law also provides for a \$100.00 fine for any contractor who employs non-union labor.

Definite Offer Is Made To Professional Ball Club To Train In Sanford In Spring

Committee Votes As Unit In Deciding To Get Guarantee

Voting unanimously, the baseball committee representing the Chambers of Commerce and the various civic clubs in Sanford decided late yesterday to invite a professional baseball club to train in Sanford next spring. In voting the invitation the committee pledged itself to raise the required guarantee and to place the baseball park in good condition.

Negotiations with the professional club were left in the hands of J. H. Gansel of Orlando who was to wire the owner of the club late night or today, stating the guarantee figure and setting forth the charges local hotels would make for members of the team. Mr. Gansel said a reply should be received tomorrow. The committee decided not to wait for the reply before "getting busy" on the guarantee, and decided to put in some work on that feature of the situation during the day, and to meet again at 8 o'clock this afternoon in the Chamber of Commerce offices. It will not be necessary to raise any cash now, Mr. Gansel advised the committee, but some money must be on hand by Jan. 1 when improvements on the park must be undertaken. That will not be expensive, he said.

"As to the guarantee," Mr. Gansel said, "you should not worry about that, because one good exhibition game should bring

Ball Club Rather Train Here Than In A Larger City

Owner Perry of the Indianapolis baseball club (American Association) told the baseball committee at its meeting in the Chamber of Commerce offices yesterday that Sanford is a much better place for a training camp than Miami, a city many times larger. He had been to Miami, but said he would not consider that city as a spring training camp location. It is too far away, he said, and it would be impossible to get exhibition games with other teams, while Sanford is in the center of the spring training ground.

In enough money to put you in the clear."

The guarantee does not have to be paid until the close of the training season.

President Perry of the Indianapolis American Association baseball club, who accompanied Mr. Gansel to Sanford yesterday, was invited into the committee meeting, but he declined to make any statement as to what sort of a guarantee he would want to bring his team here.

Attending the committee meeting were Arthur Hranan, chairman, Maxwell Stewart, H. R. Stevens, Geo. W. McIntory, H. M. Papworth, E. D. Kirchhoff, E. H. Laney, M. L. Raborn, E. C. Bludworth, W. H. Schmidt and Mr. Gansel.

City Golf Course Will Be Repaired For Winter Play

Commission Votes To Spend \$365 On The Nine-Hole Fairway

The Sanford Municipal Golf Course will be put in shape for winter play. The City Commission so decided last night when it voted an appropriation of \$365 for the purpose. The sum will be expended on half of 18 hole course as Andrew Carraway, manager of the course advising the commission that it would be impossible to keep the entire course open this season.

Mr. Carraway got all he asked for—\$130 for fertilizer, \$100 for 2,500 pounds of rye seed, and \$135 for labor.

Last year's appropriation for the golf course was \$1,000, but City Clerk Lamson reported that only \$600 of that amount had been expended and that there is enough left over to take care of the new appropriation.

Mr. Carraway said there are now 75 members of the golf club, paying annual dues of \$10 each, but Commissioner W. A. Laffler made the observation that the time is coming when the dues will have to be increased.

In making the motion that the Commissioner S. O. Shinkler said he did go for the reason that with the opening of the Mayfair Hotel there should be more use for the municipal course this year, and Commissioner H. J. Laney said that as municipal property the course should be maintained. The vote for the appropriation was unanimous.

Rat's 'Reasoning' Exceeds That Of 5-Year-Old Child

ANN ARBOR, Mich., Oct. 15.—(AP)—Adult rats show reasoning power superior to that of five-year-old children in laboratory experiments at the University of Michigan.

By reasoning power is meant the ability to recall several separate experiences and to combine them logically to solve a problem. Whether rats can reason has been a debated question. Their possession of this quality seems to be verified at Michigan, not only by the nature of the problems solved, but by medical tests afterward identifying the brain tissues they used in the solution.

As these tissues are similar to those in human brains, the animals offer means to a better understanding of the highest function of the human mind. The work at Michigan is directed by Norman Mair, Ph.D., assistant professor of psychology.

For the problem of children and rats, imagine a building shaped like a swastika. It is playground aim. Its interior is four tunnels crossing swastika fashion, so that child, or rat, can enter at any end and emerge at any other end.

Children and rats are taught to find their way through the tunnels, until they are able to enter at any end and come out at will at any exit they choose.

Then in one tunnel entrance is placed a toy the child wants. He is shown it, taken to another entrance and told to go find the toy. He is unable to reason out what direction to take in the tunnel. At the center of the swastika, where the passages cross, he has three possible directions.

Not so the rats. Their sense of food, which they cannot trace by smell. They are shown it, then like the children placed at a different entrance. The adult rats make the correct turn the first time 90 percent of the time.

Medical treatment of certain areas of their brain takes away this power in the rats. It does not abolish their power to learn or to remember. It affects apparently only the integrative ability which psychologists think is based on a law of mass action by the brain cells.

The rats in Dr. Mair's laboratory solve problems much more

intricate than the swastika—problems which the children cannot touch at all. In these problems the rats learn four separate parts of a route to food.

The routes are interchanged, so that even a human pedestrian might have to stop and think which corner to turn. Each day the combination is changed. That is, each day a rat has to learn that his route today is different than the one he previously solved.

By pure chance the rats should solve the problem 25 percent of the time, as there are four possibilities. Due to the daily changing, they would solve less than 25 percent by chance alone. Their actual solutions are 57 percent correct.

Carter Opposed To Big Campaign Fund

TALLAHASSEE, Oct. 15.—Jerry Carter, State Railroad Commissioner and potential candidate for Governor in the 1934 Democratic primaries, said today he endorses fully the widely quoted statements by Supreme Court Justice Rivers H. Buford denouncing the practice of candidates spending large sums of money.

Carter declared if he makes the race he will spend less than the state law allows candidates for Governor to spend in primaries.

College Girl Dies From Auto Injuries

ORLANDO, Oct. 15.—(AP)—Miss Margery Lynn Anderson, 23, student of Rollins college, died Monday of injuries received in an automobile accident near Maitland on Sunday.

She and four other members of the Kappa Kappa Gamma sorority were thrown from an automobile as it skidded on a wet pavement. They were returning from a party at Daytona Beach.

Others injured were Miss Evelyn J. Smith, Silver Beach, Tenn.; Miss Helen L. Brown, Beatrice, Neb.; Miss Jane Smith, Dayton, Ohio, owner of the car, and Miss Ruth E. Scott, Greenberg, Ind. Miss Anderson was the daughter of Mr. and Mrs. Stanley H. Anderson of Pittsburgh, Pa.

Supreme Court Will Rule On Fruit Rates

WASHINGTON, Oct. 15.—(AP)—Whether the Baltimore & Ohio and other Eastern railroads must comply with an order of the Interstate Commerce Commission issued in January, 1934, making a division of joint rates on citrus fruit shipped from points in Florida to destinations in the

official classification territory (east of the Mississippi and north of the Potomac) will be passed on by the Supreme Court.

Dade County Court Judge Is Appointed

TALLAHASSEE, Oct. 15.—(AP)—Wayne Allen, assistant county solicitor in Dade county, has been appointed by Governor Sholtz as judge of the Dade county court of crimes. He succeeds Judge Ben Willard, who became judge of the county criminal court.

Fighters Fail To Get Decisions In Five Fast Bouts

Only one decision was rendered in last night's boxing show put on by the Boys' Athletic Club. That was the first event, a three-round go between Glenn Cochran and Paul Moore. Moore won.

Kent Peirce and Edward Smith fought three rounds to no decision. Charles Cameron and Ray Edge fought three rounds to a draw, as did Milton Edge and Edward Crosby. The Harry Lee Moore vs Earl Peirce bout went four rounds to a draw, and Ashford Emanuel and Joe Johnson boxed three rounds to a draw.

"You can write your own ticket as to whether it was a good show when a decision was possible in only one bout," was the comment made by Judge S. A. B. Wilkinson, club sponsor. Practice bouts are staged in the arena every Friday evening between 7 and 8 o'clock.

CRUISE CANCELLED

NEW YORK, Oct. 15.—(AP)—The North German Lloyd Line announces cancellation of the annual Mediterranean Winter cruise of the liner Columbus because of "unsettled conditions of the old world." As a substitute the line offered Americans a "cruise to South America.

Mills Charges That New Deal Is Destructive

Former Secretary Of Treasury Declares Some Of Its Laws Exceed Authority

NEW YORK, Oct. 16.—(AP)—Ogden L. Mills, former Republican Secretary of the Treasury, said today that the "New Deal" in government can only destroy security, not assure it. He told the New York Herald-Tribune's annual forum on current problems that the Federal Administration is "violating basic principles of the Constitution underlying the 'scheme of life' by which America has risen since it won its independence. Laws already enacted, he charged, usurp authority never granted the Federal Government by the Constitution.

CHICAGO, Oct. 16.—(AP)—Harper Sibley, president of the Chamber of Commerce of the United States, charged today that the Federal Government is "violating basic principles of the Constitution underlying the 'scheme of life' by which America has risen since it won its independence. Laws already enacted, he charged, usurp authority never granted the Federal Government by the Constitution.

Oviedo Men Organize Civic Club For Town

A recent meeting of the men of Oviedo and vicinity was held for the purpose of organizing some form of a Community Club for the men of that section. F. W. Talbot was elected temporary chairman and W. T. Chance was temporary secretary.

There was considerable discussion by those present of the necessity of an organization of some sort to take part in civic activities. It was unanimously voted to form such a club and the chairman appointed J. N. Thompson chairman, T. W. Lawton, Sr. and Amos Tingley members of a committee to prepare a constitution and by-laws, and also to select a name to be presented at the next meeting which will be held at the High School in Oviedo, Thursday evening at 7:30.

Whitehurst Files For Sanford Commission

Perry Whitehurst qualified yesterday as a candidate for the City Commission in Group One, bringing the number of candidates in the field to four, two in each group. This is the last day for the filing of candidates, and City Clerk F. S. Lamson will accept such filings up to 6 o'clock this afternoon, he said.

Gut Tells Rotarians That Many Animals Now Extinct Once Lived In This County

Mammoth, Mastadon, Sabre-Tooth Tigers, Camels And Other Mammals Lived Here In The Pleistocene Age, He Says

Many animals now extinct once roamed Seminole County and other contiguous areas in central Florida, H. James Gut, of the A. P. Connelly & Son Insurance Agency, told the Sanford Rotary Club at the weekly luncheon of the Club in the Mayfair Hotel. Mr. Gut has made an extensive study of paleontology and his address was on the Pleistocene Age. A number of bones and teeth of many of the prehistoric animals that once lived in this section have been found by Mr. Gut in recent years, and some specimens from his collection were exhibited at the meeting of the Rotarians. In this collection are teeth and bones of the mammoth mastadon, deer, giant beaver, bison, ground sloth and peccary.

"The Pleistocene Age was the geologic period just prior to the one that we are in at present," Mr. Gut said. "The Pleistocene Age ended approximately 10,000 years ago and began approximately 1,000,000 years ago. The Pleistocene Age is the period during which the entire northern part of this continent was covered by four major and one minor glaciers, with their subsequent inter-glacial periods. During the glacial period animals from the North were driven into Florida, and the climate of Florida at that time was somewhat the same as that in southern Canada today. All the mammals living today in Florida were also living during the Pleistocene Age, but, with the exception of one species of bear and one of deer, none of the larger mammals has survived to the present time."

Zachry Is Chosen District Governor Of Kiwanis Clubs

Sanford Man Elected At State Meeting In Ocala Tuesday

W. B. Zachry of Sanford was elected lieutenant governor of Kiwanis in Central Florida at the closing session of the annual convention of Kiwanis Clubs of the state in Ocala late yesterday. The local club put in a bid for next year's state convention, but merely went on record as wanting the meeting here some time, and centered its work on bringing to Sanford one of the important offices of the organization. Leland was chosen for next year's convention.

In addition to bringing the lieutenant-governorship of the district to Sanford, the local club also received honorable mention for its work for underprivileged children. The committee of the Sanford Kiwanis Club in charge of that work is composed of J. Dingfelder, chairman, Mayor I. L. Dumas, Sr., H. B. Smith and Capt. Farron of the Salvation Army.

James W. Norman of Gainesville, dean of the college of engineering at the University of Florida, was elected governor of Kiwanis. Other lieutenant-governors chosen are: J. Kenneth Williamson of West Palm Beach, southeastern division; Phil B. May of Jacksonville, northern division; John Marino Gov of Pensacola, western division; Jack Hovist of Fort Myers, southern division and Paul C. Albritton of Sarasota, southwestern division.

The convention condemned the sale of immature citrus fruits and urged growers, shippers and legislators to promote effective legislation to prevent its shipment. A resolution adopted yesterday recommended that Kiwanis Clubs arrange their programs in such a way as to bear both opponents and proponents of every debatable club subject. The convention urged that clubs refrain from taking sides "in order that the membership as individuals may vote intelligently."

The convention register showed the names of 470 men and 87 women.

Information Against Poll Officials Stands

TAMPA, Oct. 16.—(AP)—Motions in criminal court to quash information against seven persons accused of irregularities in the recent city primaries were overruled by Judge Pettaway Tuesday and Whitaker Brothers, attorneys for the defendants, immediately filed plans, to which defendants were argued this morning.

The defendants are Donald Tremblay, accused of falsifying registration books at precinct 10; J. L. Young, registration officer at precinct 8; John Marshall, registration officer at 16; Adolph Dick, H. Arno and Ignace Louie, accused at precinct 34, and Henry Barone, registration officer at precinct 11.

St. Lucie County Is Opposed To Canal

The Board of County Commissioners, St. Lucie county, have joined in the protest against construction of a sea-level cross state ship canal, according to a copy of a resolution received here at the office of the Central and South Florida Water Conservation Committee.

This action, it is said, brings to a total of 104 similar resolutions of protest to the President and others in high authority from boards of county commissioners, municipal governments, chambers of commerce, and civic organizations in central and south Florida.

St. Lucie county is directly and vitally interested in the safety of the underground water supply by reason of the existence there of a number of flowing wells similar to those in Seminole, Manatee, and Sarasota counties.

Rehabilitation Of Old Theatre Is In Prospect

Architects Are Now Preparing Plans; Work Expected To Be Begun In Week

Reconstruction of the Princess Theatre block on First Street west of Park Avenue and the remodeling of the theatre building is in prospect, according to information furnished City officials by J. Warren Leach & Co., of Birmingham, agents for the property.

The firm writes City Clerk F. S. Lamson that architects are now engaged in preparing plans for complete remodeling of the theatre itself, new fronts for two adjacent store buildings, and the erection of three store buildings in the block to replace ancient structures which will be razed.

The Leach concern wrote that it is hoped that construction work can be undertaken by Oct. 20 as the firm has a "definite proposition" for leasing the Princess Theatre to the Sparks interests.

Papworth Names Baseball Board For Trade Body

Twenty-three residents of the County were today named by President H. M. Papworth of the Seminole County Chamber of Commerce as a baseball committee for the County, with John H. Gansel of Orlando as an honorary member of the board.

Mr. Papworth has been attending the meeting of the baseball committee of the various civic clubs, but believes a committee from the County Chamber of Commerce can give valuable assistance, particularly in the present effort to get a professional club to train in Sanford next spring.

Personnel of the new committee is as follows:
Arthur Branan, chairman; Wm. D. Anderson, F. E. Bludworth, E. E. Chapman, M. W. Epps, W. C. Hill, Arthur G. Keene, J. D. Luff, J. H. Laney, Geo. W. McRory, Joe L. Marquette, Frank Mauch, James Moughton, Floyd A. Palmer, H. M. Papworth, H. B. Pope, M. L. Naborn, W. H. Schmidt, T. E. Simmons, H. R. Stevens, Maxwell Stewart, R. A. Williams and R. J. Wagoner, with John H. Gansel, of Orlando, as an honorary member.

Sanford Firm Must Answer Allegations

WASHINGTON, Oct. 16.—(AP)—The farm administration announced Tuesday Chase & Company, Inc., Sanford, Fla., had been ordered to show cause by Oct. 24 by allegations why it was not referred to the Justice Department.

The corporation, according to the official statement, was accused of refusal to pay its pro rata share of expenses incurred in the administration of the U. S. estate.

Mizzell Sworn In As Vehicle Commissioner

TALLAHASSEE, Oct. 16.—(AP)—B. F. Mizzell of Gainesville, was sworn in here today as state motor vehicle commissioner. He was appointed recently by Governor Sholtz to succeed George H. Wilder of Plant City, who resigned to return to private business.

Seven Mile Fence In Marion Is Permitted

OCALA, Oct. 16.—(AP)—Marion county commissioners authorized a delegation from the Piedmont to build a seven mile fence to keep their cattle out of Marion county.

A new law divides the county into sections, one in which cattle is allowed to roam and another in which it is prohibited.

Italians Give Cold Shoulder To Laval's Plans for Peace; Gains Made by Both Armies

Italy Will Continue War In Africa Even If Forced To Fight In European War

Church Leaders Greet Invaders

"Cordial Reception" Said To Indicate Church Division

ROME, Oct. 16.—(AP)—Italian government spokesmen said last night Italy would keep her course in Africa regardless of League of Nations sanctions and would fight "even a European war" if compelled.

These declarations in which the spokesmen, however, declined to predict war in Europe "come after a day in which the holy city of Aksum, called the spiritual rock of the Ethiopian empire, was occupied peacefully by the second Italian army corps under Gen. Pietro Mascagna, and in which Italian war correspondents in the Omageti Sett region of Ethiopia, near the border of the Anglo-Egyptian Sudan, reported the surrender of Ethiopian chiefs and their tribes.

Rome hailed the "cordial reception" which General Mascagna was reported officially to have received from priests of the Catholic Christian Church at Aksum as indicating a definite split between Emperor Haile Selassie and the Ethiopian church.

Official spokesmen here appeared confident the rest of the world "would eventually come to the Italian point of view" in opposition against Italy, they said, might be annoying, but Italy will not abandon its program because of them.

An official version of a broadcast from Addis Ababa, Ethiopia, and General Mascagna was widely repeated yesterday in Addis Ababa, at ceremonies in which the Abuna Theophilos, bishop-prince of the Ethiopian Catholic Christian Church, surrendered the keys of the city to Gen. Emilio D'Amico, commander of the Italian colonial forces.

The official radio broadcast said, "The Abuna (bishop-prince) informed General D'Amico that he was an honor and privilege to the Catholic Church leaders to give the holy city in Italian hands."

WPA Men On Key Stage Water Strike

KEY WEST, Oct. 16.—(AP)—Nearly 300 WPA workers struck for more money and ice water here yesterday, but agreed after consultation with officials to return to their jobs today.

Paid \$4.00 for a 32-hour work week, the strikers demanded \$12 for the same number of hours. They also protested failure of the WPA to provide ice water for the projects yesterday, although this had been done previously.

M. E. Gilford, Works Progress administrator for Key West, told a committee of the strikers he had no jurisdiction over the wage scale, but promised to do all possible to provide ice water for the scattered jobs.

Senator Hays Lewis Is Critically Ill

MARIANNA, Oct. 16.—(AP)—Attending physicians today said they had virtually abandoned hope of saving the life of State Senator H. Hays Lewis of Marianna, colorful figure in Florida politics for many years. The Senator bore came ill when he went to New York to attend the Beer-Louis prize fight. His condition became serious this week.

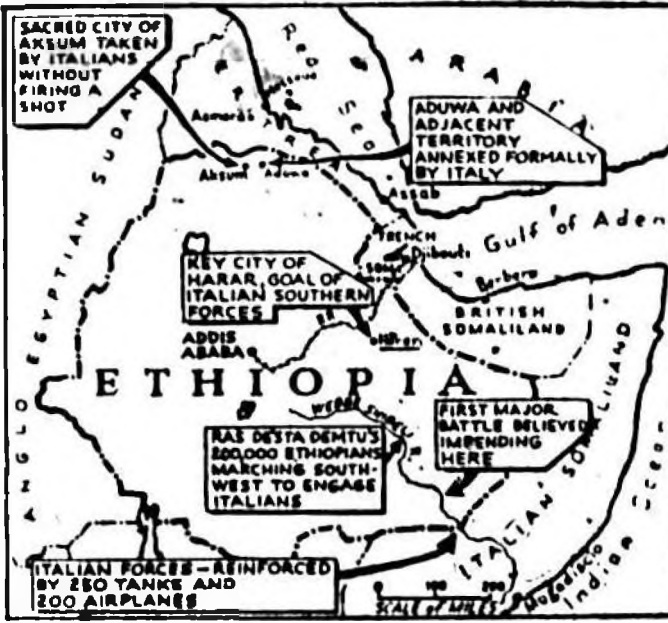

Mother Is Witness In Trial Of Zenge

CHICAGO, Oct. 16.—(AP)—Mandeville W. Zenge's mother, Alice, defending him in the mutilation slaying of Dr. Walter Bauer, testified today her son was hard hit emotionally when Bauer married Zenge's pretty sweetheart last July 14. She later collapsed in a corridor of the courthouse.

COMMISSIONER COMING

L. M. Rhodes, State Marketing Commissioner, will pay a visit to the State Farmers Wholesale Market in Sanford tomorrow afternoon at 3 o'clock. Any persons interested are invited by H. M. Papworth to meet Mr. Rhodes.

FOCAL POINTS IN ETHIOPIAN WAR

This map, based on latest dispatches from the front, tells the story of Italian advances toward the heart of Ethiopia. After taking the sacred city of Aksum, Mussolini's legions annexed the entire Adowa territory. Meanwhile, 200,000 Ethiopians rallied on the Webbe Shidell river in the south and last plans for a major battle in hopes of blocking the Italians' march northward to the key city of Harar. (Associated Press Map)

A. F. Of L. Declares Italy Is "Outlaw Nation" Because It Invaded Peaceful Land

National Convention Votes Approval Of Neutrality Policy

ATLANTIC CITY, Oct. 16.—(AP)—The American Federation of Labor declared Italy an "outlaw nation" today and urged countries of the world to deny her financial and commercial assistance in the Ethiopian conflict.

"The territory of a peaceful nation has been invaded," the statement adopted by the federation convention said "in order to carry out a policy of fascist conquest."

The statement "unanimously approved" the neutrality policy of President Roosevelt and Congress.

Sanford Girl To Help Edit College Annual

TALLAHASSEE, Oct. 16.—(AP)—Miss Dorothy Hetta, of Sanford, at the Florida State College for Women in Tallahassee, where the girls are students.

Charles Hetta and Brack Perkins, Jr., were among those students at the University of Florida, who visited in Tallahassee last week.

Miss Marjorie Tillis is among the 11 students who have been selected for the staff of the Florida State College Annual. Miss Tillis, who is from Sanford, will, together with Miss Janet Griffith of Jacksonville, assist Miss Edith Webb of Marianna, who has been made editor.

Miss Marjorie Tillis, a junior at the Florida State College for Women, was among those members of the astronomy club, who attended a lecture delivered by Dr. Harold Frederic Richards, this week.

"I hope you will recommend," the Governor said, "that the light-houses in the Caribbean area be furnished with modern barometers so they can supply weather information. I hope you also will recommend that Navy destroyers be assigned to the Caribbean for the same purpose."

Governor Sholtz, who went into the keys shortly after the storm, said at the time he did not believe anyone was "criminally negligent" in the deaths of veterans and civilians.

The investigating committee dispersed here, and members went to their homes. Chairman Melton said he would write a report within the next several days.

Fascist Force Drives Toward Interior; Selassie Warriors Evade Somaliland

Ethiopians Make 45 Mile Drive

"Never Surrender" Is Proclamation From The King Of Kings

Talk of peace in Ethiopia was heard in the capitals of Europe today, but it was a whisper as compared to the roars of war. The Fascist Legions of Il Duce were driving into the strategic interior of Haile Selassie's empire. In the south Ethiopian tribal warriors had invaded Italian Somaliland.

Premier Pierre Laval of France led the offensive for peace. In Geneva the Laval peace plan was outlined to the League of Nations as follows: Ethiopia would give all of northern Tigre province now held by the Fascists to Italy. In addition, Il Duce would have a mandate over outlying regions of Haile Selassie's empire—thus allowing Italy to build a railroad from north to south on the eastern border of Ethiopia, connecting his province of Eritrea on north and Somaliland on south.

But Laval's efforts were fruitless. The Italians, their East African armies driving south against Makale in northern Ethiopia and north toward strategically important Harar in the southern eastern sector, gave the Laval plan a cold shoulder.

Britain's minister for League of Nations Affairs, Captain Anthony Eden, worked energetically at Geneva for a "buy nothing" campaign against Italy. This next step in sanctions, following the outlawing of Italy financially and imposition of an arms embargo against it, had many other proponents, including Russia, Sweden, Belgium and other nations. No definite action of the sanctions committee was taken, however.

In Paris it was said that France and Great Britain were asking the United States what its position would be on such restriction on imports from Italy. These same authorities, it was said, were asking the same question of Germany, Japan and Brazil, which also are not members of the League.

Four thousand Ethiopian tribesmen, led by Colonel Siwanik, Dutch veteran of the Boer War, invaded Italian Somaliland and reported an advance of 45 miles. Penetration was made near Dolo. A second and larger force invaded Somaliland, 100 miles to the east, and occupied Odoor, 85 miles from the boundary. Somali tribesmen were said to be joining the invaders.

With Italian forces marching anew, Emperor Haile Selassie proclaimed to his people that Ethiopia was undefeated on any front.

Gen. William Sibert Is Dead In Kentucky

BOWLING GREEN, Ky., Oct. 16.—(AP)—Major General William I. Sibert, 78, soldier and engineer famed for his services in construction of the Panama Canal, died at his country home near here today after a long illness.
