Pinecrest Brownies Became Troop 321

Registration from National Headquarters of the Girl Scouts of America has been received by the Pinecrest Brownie Troop which will now be known as Troop 321,

The April event for the group was a trip to Radio Station WTRR where the girls were taken on a tour of the station by Myron A Reck, owner and operator. Of particular interest was the news machine which brought in the laest news for broadcasts. Song 10quests were played for members of the Brownie Troop and in turn the girls put Mr. Reck in the Mush P.t. by forming a Friend EVEREFTE A HARPER ship ring around him and singing their Brownie Songs.

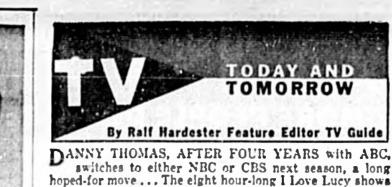

On Apr. 17, a large flag from the U. S. S. Chloris was presented to the Brownie Troop by Chief Wylie Petsch, This flag had been given to Chief Petsch by his commanding officer when he left the ship to be used for a purpose such

All these reasons are good-but there is a compelling reason as to why it must be cut, and that reason is that the states and local communities are going to lose their HILLCH identity as governmental units if t is not cut.

Our population is growing rapidly-so rapidly that local communities cannot keep up with their road and street building, utility placement, home building and other neceseary improvements. Theye's not enough tax money to go around.

Naturally, as our population grows, we want to maintain our standard of living. even increase it if possible. And this will take money-money that our local government cannot find.

Where is this money coming from? That Sunday used to be a pertinent question, but in recent Mornin Evange years it has fallen into some measure of Prayer disrepute due to the ascendency of those day i who would have us believe that thrift and "Come solvency belong to the "horse and buggy" age and have no place in modern living. A group of socialist members of Parliament in Great Britain said, back in 1949, "Don't Rev. G be so concerned about where the money is 8:45 11:00 coming from; just think of the great social 8:00

benefits that we are now providing." Regardless of all this, however, it is still a pertinent question-Where is the money coming from?

The answer is that, in spite of all the at-East tempts to hoodwink us or make us believe. to the contrary, there is only one place it can come from-from those who earned Gerald it in the first place, from the people them-Milton Inter selves.

The people live in the states, therefore Sunday Preach the money comes proportionately from each Bible state as provided by the people of that Evang state. Which means, of course, that the feil-Prayer eral budget is actually superimposed upon the budget of the various states, that both the state budget and the federal budget are CEN paid for with money furnished by the people Re back home. Certainly, government in a free Cor. nation in and of themselves have no money. Sund Mor This also means something else that is s.m. Trai easy to overlook, namely, that the federal debt is a people's debt and that the people Ever of each state owe their proportionate share Wedne of the debt, depending upon the wealth of "Col do the the state. We cannot help but wonder if some just SAN Rev. I The Sanford Herald Sunda Mornit Daily eropt Baturday, Bunday and Christmas. Published Saturday proceeding Christmas. health and eyesight.

Whether it will produce any real results can't realize where the money is coming or not, we are hearing lots of clamor for from and if they are not blinding themselves to the fact that they sent the money to the federal government in the first place, the federal government is just spending and if they really think they are getting "something for nothing" in the great splurge of government spending. Don't they know it would have been much better and much more conomical to have kept the money at home in the first place and paid for what they needed with their own money?

But the trouble is, of course, that the federal government has been taking a larger and larger shart of the people's taxes each year until now the local governments simply do not have enough money to do for themselves what needs to be done.

We've seen that story repeated over and over again-right here in our own community. Efforts to add a penny to the price of gasoline to be used in local government to furnish the necessities at home, have been defeated. The efforts to place additional tax on automobile users for street maintenance. It's the same story over and over again.

Just to show what has happened during the last fifty years or more; In 1902, the Foreign News Commentary - equal area of Soviet and Ameri- their remarkably penetrating phofederal government collected \$517 million in million.
