

An Important Position

In the recent primary the ballot was so long that a large number of voters expressed their preference as to only a portion of the positions to be filled. One position which seems to have been pretty generally ignored is that of member of the national democratic executive committee. The combined vote for all three of the candidates for this position was only 33,175, while the vote for governor reached a total of 62,154. Thus we see that 23,979 who voted for governor ignored this position of national democratic committeeman.

This is an important position and it is important that it be filled by the right man. It is a position that puts its occupant in closer touch than any other with the presidential candidate and with the president if the democrats should win.

It is obvious that Floridians should vote to place on the national committee one who is a supporter of Florida's candidate for president. Florida has declared Oscar W. Underwood to be her candidate for president and should put an Underwood man on the national democratic committee.

In the recent primary no one was elected to this position and J. T. G. Crawford and Eugene S. Matthews are candidates for it in the second primary. Mr. Matthews is the Underwood candidate and should receive the full Underwood vote. More than that he should receive the support of every man who accepts Florida's decision for Underwood as binding on the democrats of the state.

Mr. Matthews has always been a consistent democrat and he is a man of the very highest character. He is also a man of more than usual ability. No man more worthy of the confidence of the people of Florida was running in the primary for any position and we can say this without the slightest fear of contradiction: In the long list on the ballot there was not the name of a man who has more of the respect and confidence of those who know him than Eugene Matthews receives from all who know his character.

Aside from the fact that he represents the presidential choice of the democrats of Florida, Mr. Matthews is the best man for the position but the fact that Florida voted for Underwood should be sufficient of itself to decide the voters to put an Underwood man on the national committee.—Times-Union.

Where Are We At?

One of our state contemporaries defines "progressive" democratic newspapers as those "that opposed the re-election of Hon. Stephen M. Sparkman and Hon. Frank Clark and the nomination of Hon. Oscar W. Underwood for President." Of course the necessary implication is that all those that pursued the contrary course are "conservative." Now, The Times wants to know in which category it comes; in other words, where we are at. We did not oppose the re-election of Hon. Stephen M. Sparkman; on the contrary, we earnestly advocated it. The re-election of Hon. Frank Clark was none of our business so we assumed no attitude in regard to it. We opposed the nomination of Hon. Oscar W. Underwood for president. Thus we are "conservative" on the first score, neutral on the second and "progressive" on the third. It reminds us of the classification of property by the lawyers into "real, personal and mixed." Which are we?—Tampa Times.

THE STRAIGHT UNDERWOOD TICKET

Select these names and make an X mark before each.
For Member National Democratic Executive Committee:
Vote for one.
X Eugene S. Matthews.
For Delegates to the National Convention, State at Large:
Vote for four.
X Dr. E. S. Crill.
X Frank Harris.
X Edwin B. Lambright.
X B. S. Williams.
For Delegate to the National Convention, Second District:
Vote for two.
X B. C. Abernathy.
X Robert E. Davis.

Mrs. Geo. Dickinson will open a summer school in the grammar school building, June 10. Pupils received from any grade.

CLOSE THURSDAY AT NOON. CLERK'S HOLIDAY

NOWADAYS very few of us are called on to die for our country, or for any great cause. The main thing is--Do we live for it? Sometimes it's really a greater achievement to live for a thing than to die for it.

Now, you may think this talk and this patriotic anniversary of Decoration Day has nothing to do with the clothing business. But the big idea back of this celebration is the big idea that ought to be back of everything we do. The man who serves his community and his fellowmen by doing, as well

as he can, something that needs to be done, may be, in a true sense, "living" for his community and for his fellows. **ONE THING THAT NEEDS TO BE DONE IS TO MAKE GOOD CLOTHES, and to sell them fairly.**

HART SCHAFFNER & MARX

Make good clothes, as well as it can be done; and we're trying to sell them in the same way. It's a service; we want to think of it, and have you think of it, as a service; a useful work. We'll both profit by looking at it so.

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Child Is Among Ye Taking Notes and Faith, He'll Prent "Em"—So Says Saunterer.

¶ While I have always been a warm friend to the schools of our town I intend to take a deeper interest in them during the ensuing year. I believe it is the duty of every citizen to take a live interest in our schools. During the years that are past scores of diplomas have been handed out as class after class of our young people have stepped out into life's school. Would that we could in this issue of our paper place before its readers the familiar face of each and every one, but such is among the possibilities, for Grim Death, on his white horse, has thinned the ranks and as "Death loves a shining mark," many of the most promising fell before the noon-day of life, but we can assist in keeping green their memories. Our school home! What words fall upon the ear with so much music in their cadence as those which recall the scenes of school days now numbered with the memories of the past? Intervening years have not dimmed the vivid colorings with which memory has adorned those joyous days. While we all graduate in much the same manner how different has the wheel of fortune turned. Some with plaidive tongues have had to walk in lowly vales of life's weary ways, others in loftier hymns have sung of nothing but joy, as they have trodden the mountain top, but no matter how near the summit or base of the mountain of fame you meet with a graduate from our schools, you meet with one who is a credit to society. "As the twig is bent so is the tree inclined," and habits were formed under the moulding power of a moral atmosphere which seemed to permeate the schools of our little city which stays by one through life. Our school life is indeed the golden link that binds youth to age, and he is still but a child, however time may have furrowed his cheek or silvered his hair.

¶ There was something in last week's Herald about the water works and a suggestion was made to have deep wells driven and get the water from these in-

stead of from the lake. Also to have a stand pipe and have a better pressure at all times. This is something that I have advocated for Sanford for these many years, and if the city council will take up this matter calmly and dispassionately and thresh it out we will have a water supply second to none in the state. Just why the people of these various cities want lake water is beyond me. Lake water may be all right to bathe in but since every known creature bathes in the lakes around here I fail to see where the pure drinking water comes in. Our good old sulphur water has been the stand-by for years and has always proved to be the great health drink, and yet we could not get the people in the idea of aeration and thus losing the odor that seems to be objectionable to the stranger within our gates. With the proper means of aerating the sulphur water Sanford could beat the world for the water system. Let the people take up this most important matter.

¶ Some one tells me that a new tourist hotel is being planned. Fan me quick, somebody. The sudden shock will kill me dead. The very idea of such a thing and in the summer time too. But they say that a paper is actually being circulated to get the people interested in the idea and that in a few days the plan will be submitted to the public at large. I understand that my old friend Fields is at the head of the movement and if this is so the success of the project is assured. Billy Fields never goes at anything in a half hearted manner and when you find him on the job he is always boosting hammer and tongs. I shall wait the report a and if the project really means a tourist hotel I will be in favor of giving a banquet for Fields.

¶ The editorial reproduced below from the DeLand Register fitly describes a condition general throughout Florida and one which can be remedied if only the buying public will apply it. The ladies are often suggesting innovations and improvements. Let us see how heartily they will adopt this idea the consummation of which lies almost wholly with them.

"Madam, why do you postpone ordering your store supplies for Sunday until such late hours on Saturday evening?"

This question to housewives of DeLand.

"Why Mr. Editor, it is a custom here,

and do not the stores keep open for that purpose?"

They stumped us for a moment. Then we asked: "Do you know that the grocers especially are kept up until nearly midnight Saturdays filling phone orders for goods which they gladly would have filled earlier in the day and thereby been enabled to close up and go home, sleep well and arise in time to attend church Sunday morning, a thing some of them are debarred from doing under present conditions?"

And then she hedged a bit and said, "Perhaps it would be following the 'Golden Rule' if we should think of the storekeeper and his clerks and his weary horse hours of the night, because we put off or which are kept on the go far into the dering our goods until the very last moment. I shall try to remember that it would be not only humane in me but it would pay me to order earlier and get the pick of the stock and the greater satisfaction all round."

And so the incident closed, and the sermonette ends with the hope that housewives will remember that their Saturday thoughtlessness may be the cause of vacant pews in church on the Sabbath! There are lessons to learn from the week-days of life.

From the Saturday night throng with its hurry and strife.

There are weary hearts near us great truths to make plain—

I'll never order groceries late Saturday again.

¶ Last week I had some stuff about the graduates and the chance that the boys now have to make good. In this connection I want to call the attention of the boys of Sanford to the life of Hon. Park Trammell, who will today be nominated by the party for the high office of Governor of Florida. Very few of you know the early struggles of this exemplary young man and the time he had to get an education in the days when educational matters in Florida were at a very low ebb. The Trammell family was a large one, but the parents were determined that each and every one should have an education and they succeeded. Park Trammell owes his success to his parents, for they were the salt of the earth, and any one who has ever visited the Trammell home in the early days will remember the fine old southern hospitality shown the guest and the gathering of the family circle at night when each and every child was given the good advice and excerpts of father and mother. Park

PEOPLES BANK OF SANFORD

M. M. SMITH, Pres. H. R. STEVENS, V.-Pres. H. E. TOLAR, Cashier

has faithfully followed the teachings of his sainted parents and at the earliest opportunity started to school and applied himself so diligently that he graduated from the high school at an early age and afterward fitted himself for the law. He went through the various vicissitudes of the young and rising barrister, and even sank so low one time that he actually engaged in newspaper work, but the one idea to succeed was ever before him, and the opportunity came when he became a candidate for the legislature and serving his country gave him a thirst for greater deeds. The office of Attorney General was another stepping stone and his faithful service in this capacity was remembered when he stood before the people as a candidate for Governor.

Here he has made the unique record of being elected to this high office by the

votes of the real people, having no money to spend on his campaign and spending none. He was nominated in the first primary, his nearest opponent being so far behind in the race that he decided not to go into the second primary. Thus Park Trammell at the age of 36 or 37 finds himself the Governor of the state of Florida. A young man of the soil, without the benefits accorded other young men who received educations as a matter of course and spent years at finishing colleges, Trammell has at last landed in the highest position in his native state and his example can well be emulated by the other boys and young men who are working for higher aims in life. The state of Florida offers more to the young man of today than any other state in the Union. We are short on the real material. We

ON THE WATER QUESTION

The position of The Herald on the water question has met with much favor from a long suffering public and we want to hear from other people on the question. Following is an article from F. W. Mahoney of this city, who is a recognized authority on this subject: Editor Sanford Herald

With pleasure I read your article in The Herald of the 24th inst. on the Sanford Water Works. It is one of vital importance and should be continued until results for the improvement of the system are reached. The use of our artesian water aeriated has been my idea of a solution of the question with a tank. I say tank, for, by the tank, in place of standpipe, the entire body of water is held at the greatest elevation or pressure whereas, by the tank the pressure is practically the same while any water remains in tank.

We will suppose that this tank is on a steel tower 100 feet high and of, say, 50,000 gallons capacity, allowing 2' 4" as one pound pressure. This would give us 45 lbs pressure at the base of the tower. This pressure, therefore, would extend all over the system of pipe, to a greater or less degree as the elevation of the ground is lower or higher than the site of tower. This would settle at once the present aggravating condition of the unsettled water pressure and besides give us, as has been proven by several chemical analyses, water as pure as any on earth and this can be gotten at any faucet in our houses, without the expense of putting down artesian well and when the water does not flow have to pump it up, and what is worse than all, making a public highway of our neighbor's premises, by sending there for our water.

Some may ask if the lake water is not pure and good drinking water. As I am not an authority on this point will simply give you the opinion of some others. At Altamonte no lake water is used for drinking water, all deep or shallow wells Matland Hotel, with lakes convenient has deep well. Winter Park, with miles of lakes, the College, hotel and numerous residences all have deep wells. Kissimmee, Lakeland, Winter Haven, all have lakes far more convenient than ours, have deep wells as city water supply. The Florence Villa Hotel, the largest between Sanford and Tampa, with a chain of deep lakes coming within 300 feet of hotel have a deep well for drinking and cooking purposes. This should convey to you better than opinion of mine in what estimation lake water is held by others. Doubtless every one is not familiar with our present water supply. It is taken from a lake, say less than one-half mile in diameter, located five miles south of the city and at an elevation of about 15 feet above the top of the reservoir at the water works ground. The water, therefore, comes through a terra cotta pipe (15") by gravity, from lake to reservoir. The reservoir is about 50 ft. diam. by 20 ft. deep and contains when full about 300,000 gallons of water, allowing for friction and leakage in this 5 miles of earthen pipe, we will assume that 500 gallons flow into tank each minute or 30,000 per hour. Now with the above data, let us assume what the condition would be if we had a fire which would have to be fought with three streams for several hours. Each stream taking 450 gallons per hour, allowing tank to be full at time of fire (300,000), thus flow of 30,000 per hour for seven hours, making a total of 510,000. We would have just seven hours capacity and after that time only the capacity of the flow or one effective stream.

We have had under consideration before the only means of getting clear water in sufficient quantities for the present and the future city and this is placing of pumping power at the lake, thus giving you the water direct through iron pipes from lake to city, but the cost which would be approximately \$75,000.00 is too great to be considered. Summing the matter up, why not use artesian water? Jacksonville boasts of the best water in the state and it is artesian.

Yours very truly, F. W. MAHONEY.

THE MADDOCKS-FIELD PLAYERS

Mr George Steer Flinders, one of the best known producers and directors in the show world will have complete charge of the acting force of the above mentioned company.

Mr. Flinders comes direct from the Regan-Lewis Stock Co., now playing in Tampa, leaving many admirers who regret his departure.

This gentleman is not only a first class director but is one among the foremost as an actor, having appeared with such well known stars as Viola Allen, David Warfield, Blanche Bates and others.

His work as a director stands for itself. His successful productions in New York, Boston, Baltimore, Washington and Chicago make him one of the most valuable men in his line in the country.

Woodland Park Notes

People who were coming on the Nettie Thursday were badly disappointed when they were told her engines were under repairs, which were not completed until too late to make the trip. Mrs. Mettinger and Mrs. Garner drove out in the morning. A party of young people from Paola, consisting of Misses Pearson and McLain spent a pleasant afternoon bathing and otherwise enjoying themselves. Messrs. Brodie Williams and Jones came for their usual cooling plunge. A number of boys came on their wheels and brought their little brothers and one little sister as mascots, but had to make them all kinds of promises to get them to leave the park again.

Sunday the Nettie brought two big loads of people from Sanford, who nearly all came for their cool swim. They were mostly regular visitors and they brought their friends. Mr. and Mrs. Thrasher and Dr. and Mrs. Puleston came as usual in their auto. The Tipton family drove out to let the boys have a swim. Both days were ideal for bathing.

Father Bresnahan has leased the park and pool for next Thursday May 30th to give the children of the Catholic school an outing. The Nettie has been chartered for the entire day and it is expected many people will buy tickets at the reduced rate to help the good cause along. Those who took part in the picnic of Sept. 21st, given by Father Bresnahan will remember how well it was ducted and no doubt will come this time and bring their friends.

WOODSMAN

HAPPY JACK KEARNEY

With The Maddocks-Field Players Another old time favorite has been engaged for the summer circuit and it will be glad tidings to the public to learn that the original "Is Everybody Happy" comedian will appear with this company.

Mr. Kearney has made many friends throughout the south, all of whom will no doubt welcome his return.

NOTICE OF INCORPORATION NOTICE is hereby given that the undersigned will, on Wednesday, the 12th day of June, A. D. 1912, or as soon thereafter as convenient, apply to the Honorable Albert W. Gehring, Governor of the State of Florida, for Letters patent incorporating the "Wight Grocery Company" under the following proposed charter, the original of which is now on file in the office of the Secretary of State of the State of Florida, at Tallahassee.

HENRY WIGHT, S. B. WIGHT, W. H. WIGHT ARTICLES OF INCORPORATION OF THE "WIGHT GROCERY COMPANY" The undersigned, hereby associate themselves together for the purpose of forming a body politic and corporate under the laws of the State of Florida, with and under the following proposed charter.

ARTICLE I The name of the corporation shall be the "Wight Grocery Company" and its principal office and place of business shall be in the city of Sanford, Florida, with branch offices in such other places in the State of Florida, and in the several states of the United States and in foreign countries as may hereafter be established.

ARTICLE II The general nature of the business to be transacted by the corporation shall be: To buy and sell, and otherwise deal in all kinds of goods, wares, merchandise, groceries, dry goods, groceries, crockery, glassware, queensware, notions, tobacco, cigars, drugs, coffee, tea, spices, extracts, paper, stationery, confectionary, furniture, hardware, tinware, meats, flour, hay, grain and other feedstuffs, and any and all articles or commodities usually carried and handled by a general wholesale and retail mercantile business; to buy, sell and exchange poultry, eggs, fruits and vegetables, and otherwise deal in all kinds of goods and to make contracts of any and all kinds to further its purpose and business; to borrow money and to secure same by a pledge of its stock, or by note, mortgage, bonds, and other obligations, upon the property of the corporation, and generally to have and exercise all such powers as may be incident to the purpose or business of the corporation, or other business of a like nature, and to have, exercise and enjoy all the rights, powers, and privileges incident to corporations organized and existing under and by virtue of the laws of the State of Florida.

ARTICLE III The amount of capital stock of the corporation shall be Twenty Five Thousand (\$25,000) Dollars, divided into Two Hundred Fifty (250) Shares of the par value of One Hundred (\$100.00) Dollars each, which shall be payable in lawful money of the United States of America as to its property, real, personal or otherwise, at a fair and just valuation to be fixed by the board of directors.

ARTICLE IV The term for which the corporation shall exist shall be perpetual, unless sooner dissolved according to law.

ARTICLE V The business of the corporation shall be conducted by a president, vice-president, a secretary and treasurer, and a board of directors to consist of not less than three nor more than five of its stockholders. The directors shall be elected annually by the stockholders on the first Wednesday in June of each year at 10 o'clock a. m., at a meeting held for that purpose in its principal office in the city of Sanford, Florida, and its officers shall immediately thereafter be elected by the board of directors. Until then elected at the first annual meeting of stockholders, shall be qualified, the business of the corporation shall be conducted by the following officers: Henry Wight, president; S. B. Wight, vice-president, and W. H. Wight, secretary and treasurer, and Henry Wight, S. B. Wight and W. H. Wight shall constitute the board of directors.

ARTICLE VI The highest amount of indebtedness or liability to which the corporation may at any time subject itself shall not exceed the amount of its capital stock plus its surplus.

ARTICLE VII The name and residence of the incorporators and the number of shares subscribed by each are as follows: Henry Wight, Sanford, Florida, 150 Shares. S. B. Wight, Sanford, Florida, 50 Shares. W. H. Wight, Sanford, Florida, 50 Shares. State of Florida, County of Orange.

On this day personally appeared before me, an officer duly authorized to take acknowledgments of deeds, Henry Wight, S. B. Wight, and W. H. Wight, to me well known to be the persons who subscribed to the foregoing charter, and each for himself before me severally acknowledged that they did so for the uses and purposes therein expressed. In Witness Whereof, I have hereunto set my hand and seal of office at Sanford, Florida, this 11th day of May, A. D. 1912.

J. J. DICKINSON, Notary Public. My commission expires May 6th, 1914. True 73-41c

ASK FOR STYLE NO. 2924 'LORRAINE'

Some men prefer a heavy oxford for all-the-year-around wear. It is for this purpose that the "Snow" Loraine model was designed. Made of best Gun Metal Calf throughout, on lines laid down by a famous London boot-maker for an oxford. This shoe is one of the most popular in the "Snow" line. We commend it for its appearance and wearing quality.

This shoe is fitted with the famous "Snow" patented arch supporting inner sole, absolutely guaranteed to support the arch of the foot and prevent fallen arches. Never before put into a shoe at this price. An exclusive "Snow" feature. This, combined with our special flexible forepart, makes a shoe that is absolutely the acme of comfort and health in footwear.

\$4.50

We have many other exclusive "Snow" styles that await your inspection.

Office in Herald Building Telephone No. 148

FOR A TOURIST HOTEL

Sanford has never had the opportunity to own a real tourist hotel, such as will be offered if the present plans are adopted. The movement now on foot to build one of the finest tourist hotels in the south opens up such wonderful possibilities that the dream of Aladdin pales into insignificance. For years we have dreamed of a tourist hotel. For years we have built air hotels. For years we have wasted opportunities and time putting up with mediocre accommodations and year after year watching the procession file past our door to the more pretentious cities that catered to the high class tourist trade. For years we have dreamed of fortunes wrested from the soil and—

Wake up! The time is ripe for the dream of a hotel to come true. Northern capital and southern capital and eastern and western capital stand ready to invest in Sanford in the paying proposition of a tourist hotel. It spells the ultimate salvation of the city. It spells prosperity for every line of business in Sanford. It spells success for every man that has money invested in Sanford. It means more money, more homes, better homes, more improvements, a larger city, deeper water, a bulkheaded lakefront and all the good things that should have been ours years ago. We have been sleeping over our rights and now is the time to wake up and grasp the golden opportunity to build a greater city. A tourist hotel such as the one planned will solve the question. Get on the wagon.

An East Coast paper spoke recently of "the ceremonies attending the opening of the Everglades canals, when the waters of the Gulf were mingled with the waters of the Atlantic." Inasmuch as Lake Okechobee is at present about nineteen to twenty feet above sea level, it is not exactly clear how this "mingling" of the salt waters of the Gulf and the Atlantic was accomplished through a fresh water lake and canals having such an altitude. —Estero, Fla., Eagle.

Some Sanford dear females were trying to have Bob Holly, editor of the Herald join a society. "What's the name of the club?" queried Bob. "The lend-a-hand," was the reply. "Oh, well, there's nothing doing with me," was the quick reply. "I misunderstood the name. I thought it was 'lend-a-half' No, I guess I'll not join." All of which goes to show that all editors are not joiners.—Palm Beach County.

Why, Thorn, how could you? The "Lend-a-Hand" is strictly feminine and the best a man can do is "get-a-hand" or "get-the-book."

Advance in Price of Paper

This office, and we presume all other printing offices, has received notices from the wholesalers that the price on all grades of paper for printing have gone skyward. Printers as a general thing heretofore have conducted their business in the most inbusinesslike way. They charged the same price for a piece of work year in and year out, notwithstanding that they were compelled to pay perhaps 25 per cent increase on paper stock used in the work. Printers all over the country are having a general awakening, however, and the large offices particularly are installing systems, which will give them an idea of what work costs—something that has been guess work entirely with the average employing printer.—Lakeland Telegram.

Communication between Orange and Volusia counties will be greatly facilitated by the new steel bridge that is to be erected, starting from the foot of Celery avenue, Sanford, and crossing the St. Johns river into Volusia. The bridge has been provided for by the people of Orange county and number of individuals in New Smyrna and Osteen and that neighborhood. The approaches to the bridge have already been made and the plans for the structure, which will cost about \$8,500, are being prepared for submission to the United States engineering department. The new bridge will prove of great value in Orange and adjoining counties and add a link in the road chains that will some time make a tour by road through the state possible and pleasant.—Times-Union.

Libel on Florida
Secretary Powell of the Tampa Board of trade, has come back strong at a recent attack on Florida, made in Green's Fruit Grower, published at Rochester, N. Y. In a circular sent to the state press, Powell shows the attack made on Florida to take cognizance of the Green article. In his article, Green says he has never seen any good fertile soil in Florida, that it will not bear any crop unless heavily enriched, and urges investors not to buy any land without seeing it. Powell points out that Florida has 19,803,000 acres of land under cultivation, bringing the grower \$500,000 a year; \$117,623,000 value in farm lands, shipping a billion feet of lumber in 1910, with estimated valuation of real estate \$198,000,000; estimated total wealth \$600,000,000 and the total increase of population of any state south of the Mississippi and south of the Potomac River in the past decade. When it comes to having figures at his finger ends, Secretary Powell leads the game.—Produce News.

HARMON WAS RIGHT
Judson Harmon is not and cannot be a good Democrat, because he refused to support free silver in 1896. That is the substance of the indictment that Mr. Bryan has framed against him: "I affirm that Gov. Harmon has not changed in heart since that time. I affirm that his sympathies are with Wall Street today, as they were then, and that his nomination would put the control of the party in the hands of Wall Street. If Gov. Harmon denies this, let him show where he has ever publicly admitted that he and President Cleveland were wrong in assisting the Republican party in 1896. If he was right in 1896, then the nearly half million Democrats of Ohio who voted for me that year were wrong." But Mr. Harmon was right in 1896, half a million Democrats to the contrary notwithstanding. Mr. Harmon is right again when he tells the World that "the people at large have suffered more from the exactions of the tariff than any other single cause." Nearly every great abuse in national government can be traced to that single source. We commend the Harmon interview to Mr. Bryan and other so-called Democratic progressives who have been beaten on every hysterical issue that they have presented to the American people for the last sixteen years. At best and at worst the initiative and referendum and the recall are local issues. They have no place in a national campaign except as evidence of the political instability of their champions. Leave them to Mr. Roosevelt. Let the Democratic party get back to tariff reform and the cost of living, the only issues on which it has carried the country since the civil war.

CHARITY ORGANIZATION
(Continued from page 1)

by the board. The board may also appoint such other officers, and such committees as may from time to time be deemed advisable and prescribe their duties. All appointed officers shall hold office during the pleasure of the board.

Section 3. The board shall have power to fill vacancies occurring in its own body.

Section 4. There shall be a regular meeting of the board within one week following the annual meeting of the society. All other board meetings are to be held by call of the president, or by written request of five members, on at least five days' notice in writing, specifying the business to be brought forward.

At any meeting of the board five members shall constitute a quorum.

Section 6. The board shall make such by laws as it may deem necessary, governing the direction of the society, and may also alter or suspend such by laws.

CHARITY ORGANIZATION
(Continued from page 1)

ARTICLE V.—MEETINGS
The annual meeting of the society shall be held during the last week in November at such time and place as may be determined by the directors. Special meetings may be called by the board or by written request of twenty members at any time if public notice of the same is printed by a Sanford newspaper not less than one week prior to said meeting. Fifteen members shall constitute a quorum.

ARTICLE VI.—AMENDMENTS
This constitution may be amended at any regular or special meeting of the society by a two-thirds vote of all the members present, provided notice of the proposed change shall be clearly set forth in the call for such meeting and the said notice has appeared in at least two issues of the Sanford newspaper.

BY-LAWS—TREASURER
The treasurer shall have charge of the funds of the society, shall collect all income thereof, and shall render monthly reports of the condition of the society. He shall pay out money only upon the

orders of the executive committee signed by the chairman or acting chairman and attested by the secretary, which shall be his sufficient voucher. He shall be an ex-officio member of the finance committee.

GENERAL SECRETARY
The board of directors shall appoint a general secretary, who shall be the executive officer of the society. The general secretary shall attend all meetings of the society and the board, and keep minutes of the same. He shall give notice of all meetings and keep such records as shall be required. He shall notify the officers and all members of committees of their appointment. He shall keep a record of the names and addresses of all members and a detailed list of all gifts. He shall act under the orders of the board or executive committee. He shall exercise a general supervision over the work of the society. He shall be an advisory member of all committees, and shall be entitled to all the privileges of membership, except that of voting.

OTHER OFFICERS
Other officers shall have such titles and duties as may from time to time be assigned to them by the board.

STANDING COMMITTEES
Section 1. The president of the board shall appoint annually at the first meeting of the board or not later than one week thereafter, the following standing committees, of each of which he and the vice-president shall be ex-officio members:

- (a) Executive committee to consist of not less than three members.
- (b) Committee of finance to consist of not less than three members.
- (c) Committee of membership to consist of not less than three members.
- (d) Advisory committee to consist of five or more members.
- (e) Such other committees as may from time to time be created by vote of the board of directors or executive committee, which appointments shall be for the ensuing year, and until their successors shall be appointed.

Of the committee consisting of not less than five members, three shall constitute a quorum; and of those consisting of not less than three members, two shall constitute a quorum.

The president shall have power at any time to appoint additional members on any of these committees. Members of the society may be appointed on such committees other than the executive committee, whether they be members of the board or not.

Section 2. The duties of said committees shall be as follows:

- (a) The executive committee shall act for the board in the interim of its sessions and be clothed with the full authority of said board, and shall oversee and direct the work of the society. It shall keep a record of its proceedings and report at each meeting of the board.
- (b) The committee on finance shall be charged with the general supervision of the financial affairs of the association, and the work of making annual audit of the financial affairs and report to the board.
- (c) The committee on membership shall be charged with the duty of obtaining members and raising funds, and shall report monthly to the finance committee.
- (d) The advisory committee shall plan out the individual treatment of cases applying for help.
- (e) The other committees, which may be appointed by virtue of paragraph 5 of section 1 of this article shall perform such duties as shall be prescribed for them by the board of directors.

U. S. Will Hands Off
Havana, May 27.—The exchange of cablegrams between President Gomez and President Tftit led to a more definite understanding regarding the attitude of the United States toward Cuba. President Gomez's message of protest against American intervention today drew a response from the President of the United States in which assurances were given that the action of the American government merely was a measure of precaution and entirely disassociated from any question of intervention.

Flood Sufferers Want Food
New Orleans, May 27.—Stories of dire distress among 1,400 flood sufferers in the vicinity of Jenah, La., were told here today by Dr. Oscar Dowling, president of the Louisiana board of health, in a letter to Dr. Meyer Newhauser, special inspector of the board, who is in charge of the medical and sanitary work among the refugees in the Black River section. Dr. Newhauser said he had just completed a trip of twenty-five miles up Black River and that some 1,400 refugees were clamoring for food and are in need of medicines.

Miss Jessie Woodward, R. N., of Orlando has been the guest of Mrs. E. A. Irwin for the past ten days.

CURBSTONE GLEANINGS

(Continued from page 2)

are short on the political end of the job and in the crowded states to the north of us the young man has but scant chance to develop. His scope is more or less restricted where there are more applicants than jobs and Florida offers more to her sons than all the other states. Here where the start is more difficult the ending can be made more quickly and the goal reached in shorter time.

Park Trammell has followed the precepts of parents and teachers. He has led a pure and honest life looking to the higher things, followed by the prayers of his Christian parents. His life has been an open book and his success in the last campaign was founded on the fact that no man could say aught against him. I want all of my readers to remember this little digest about the next Governor. The boys should strive for an education and continue to go higher. The parents should remember that their own sons have an equal chance to make good. We need honest statesmen and your boy may some day be Governor. And remember, as in the case of Park Trammell, that the parents are largely responsible.

¶ My old friend, Thorndyke, is still playing groundhog at Palm-Beach-on-the-County and swears he will never come out until Frank Clark is defeated. While in his hole in the ground last week his thoughts turned lightly or darkly to watermelons and visions of the fields at Rocky Ford came to mind and he coughed up the following literary gem:

"Watermelons are now wearing light stripes so I suppose that is the strictly au fait (whatever that means). Still some prefer the long dark green. To serve cut crosswise the cloth, garnish with black elongated seeds. The eater grabs both hands and "goes to it" with great gusto—lets the drops drip where they will."

¶ The greatest and most notable strike-out in recent base ball history was when the Detroit of the American League refused to play because the famous Ty Cobb, the supposedly invincible, had been suspended sine die for slugging an insulting rooter in the stands. While insubordination is not to be commended, at the same time a few lessons of Cobb's assortment might teach insulting and foul mouth yaps to act more like human beings and less like hyenas. And such ex-

periences as excited Cobb's anger in New York are not confined to big leagues but may be found on almost any ball ground in city and country.

Buried in Virginia
LYNCHBURG, Va., May 23—The burial of Clarence V. T. Richeson, who was executed in Boston Monday night for the murder of Avis Linnell, took place just before sunset today on the old Richeson farm, eighteen miles from here. The interment was beside Richeson's paternal grandparents, and five miles distant from his mother's grave.

Only the family was present, brothers and near relations acting as pall-bearers and assisting in filling the grave.

The casket was brought from Amherst by a wide detour, over the roughest route in the county, and secrecy maintained as to all burial arrangements.

Douglas Richeson, of Chicago, a brother, accompanied the body here.

"Wanted-Printer"
"The Herald is badly in need of a printer and would be glad to get one right away. Must be able to do job printing. Any all-round country printer will do, provided he neither drinks nor smokes cigarettes.

"We are a printer ourselves and have filled every position from bottom to top, hence we are not unreasonable in our demands upon those employed in our office.

"We are willing and glad to do anything in our power for the good of our employes, but "boozes" and cigarettes must be cut out. We will treat the right kind of man right, but we will cut down our paper to a four-column folio, patent outside and do the work ourselves before we will be worried to death with help that can't stay sober, live without cigarettes or keep its mouth shut.

Let no real printer be led to think from the foregoing that we do not feel a deep sympathy with the fellow who is a victim of a habit. We have several had ones ourselves, but look for better metal in our office help, and, as we have to put up the "dough" every Saturday night for work in our office, we feel that we have a right to say what kind of a man we want.

"We can give a good position to a good man. No others need apply.
DeFUNIACK HERALD.

The Gate City House has brought down the high cost of living. Only \$4.00 per week for the finest table board in the city. See Packer.

The High Cost of Living

From May 1, 1911, to May 1, 1912, the price of living was advanced just about 10 per cent, according to the records of the commercial agencies, who have been keeping tab on the necessities of life. The Bradstreet's figures show a rise in price of 9.7 per cent. Eleven of the thirteen groups of necessities carefully noted by Bradstreet's moved upwards last month, and only one, fruits, receded, and only one, chemicals and drugs, stood unchanged. Breadstuffs, live stock, provisions, hides and leather, textiles, metals, coal and coke, naval stores, building materials and miscellaneous articles were all advanced. As compared with prices of May 1, 1911, 11 groups reflected advances and only two declines. The two are oils and naval stores.

This gain of ten per cent in a single year with promise of another advance of 10 per cent this year is the chief issue in 99 households out of every 100.

Teachers' June Examinations

The June examinations of teachers will be held in the public school building, Orlando, beginning June 4th, at 8 o'clock a. m. Teachers applying for certificates are required to furnish evidence of good moral character. Board can be had at \$1 per day at several of our nice boarding houses.

Crops at Sanford

Sanford, Fla., May 24.—The potato season is finished and growers are turning their attention to moving the tomato crop. The continued wet weather has severely injured tomatoes as worms and bugs have appeared and throughout almost the entire state it has been a race to see who would get the most of the crop, the grower or the worms. Car lots of mixed vegetables are still moving and prices have been fair considering the quality of stock.

The Florida Growers' Association some time ago placed a car of celery in cold storage at Sanford and then shipped it to a Chicago market. Part of the celery was bleached, part half bleached and part green and when the car arrived at Chicago it was sound and found ready sale. The association is agitating the theory of putting celery in cold storage for forty-eight hours before shipping or draw the latent heat out of it by the pre-cooling system, such as is employed in California. Next season the association intends to make arrangements for a cold storage or pre-cooling plant.

The Florida Gardens Co. has been incorporated with a capital stock of \$2,000,000. The object of this company is to form a large section of the famous Celery Delta into a cooperative plan. The first meeting of the new company was held last week and the following officers were elected: J. N. Whitner, president; J. O. Packard, secretary and treasurer; B. A. Howard, vice president; J. O. Packard, secretary and treasurer. Directors are: J. N. Whitner, S. O. Chase, H. H. Chappell, W. D. Holden, J. O. Packard, B. A. Howard, Jno. D. Goff, Albert Fisher and Frank G. Evans. The officers and directors of the new company are Sanford's prominent business men and men who are known in financial circles in the north.—Packer.

The Advertised Article

is one in which the merchant himself has implicit faith—else he would not advertise it. You are safe in patronizing the merchants whose ads appear in this paper because their goods are up-to-date and never shopworn.

Object to Half Cent

Boston, May 27.—Three of the largest labor organizations in this city have passed resolutions protesting against the introduction into the currency of the United States of a half cent piece.

The resolutions set forth that the lowering of the coinage unit tends to operate against the wage earner and makes a substantial increase of wages difficult to obtain.

The point is also made that the reduction of a half cent piece would greatly reduce if not wipe out entirely the earnings of men such as news dealers and newsboys who deal in a commodity where the price usually is fixed at the smallest unit.

LOOK OUT FOR THE CARS

DO YOU know of anyone who is old enough to read, who has not seen that sign at a railroad crossing?

If everyone has seen it at some time or other, then why doesn't the railroad let the sign rot away? Why does the railroad company continue to keep those signs at every crossing?

Maybe you think Mr. Merchant, "Most everybody knows my store, I don't have to advertise."

Your store and your goods need more advertising than the railroads need do to warn people to "Look Out for the Cars."

Nothing is ever completed in the advertising world.

The Department Stores are a very good example—they are continually advertising—and they are continually doing a good business.

If it pays to run a few ads 'round about Christmas time, it certainly will pay you to run advertisements about all the time.

It's just business, that's all, to **ADVERTISE** in THIS PAPER

REASONS FOR CELERY'S SLUMP

This Luxury Goes Out at Wrong Season of the Year

The past celery season proved a surprise to all who were interested in the business. With an extremely limited supply in the United States it seemed quite certain that the price of celery would remain high throughout the shipping season.

The growers and distributors were not alone in this opinion for the buyers from the north came to Florida and bought and contracted for a quantity of our early cuttings at from \$2.50 to \$3.25 per crate, F.O.B. Sanford.

Various answers to this question were offered. Some said that the price was started too high and that the buyers could not dispose of what they had bought and had shipped to the markets.

Others claimed that the quality of our product was what was the matter. Yet attention was called to the fact that California celery, having passed through a severe freeze, was of even poorer quality.

With due respect to all of these opinions above given, we hold that in over-production for the March and April market lies the true cause of the demoralization of the celery market.

By the time Florida comes into market with her greatest quantity of celery, however, in north the public at large has had enough celery for awhile and has taken more to Florida lettuce, beans, peas, eggplants, peppers, cucumbers, etc.

It therefore appears that as we produce celery in greatest quantity at a season of the year when it is least desired by the consuming public, it is time that we realize the fact and stop putting so much of it on the market at that time.

Let us learn to grow the other profitable crops to their greatest perfection. Let us train our labor and ourselves to the production of the onion, the potato and the strawberry, giving each the same and then we will not only make a financial success with these crops but will get

a good price for the maximum amount of celery that the markets will take.

The Sanford garden proposition is not a one-sided one, unless we, the farmers of the district, make it so. We can raise as fine potatoes and strawberries as are grown in the state, and these crops are money makers for other Florida districts.

We have raised as high as 85 barrels of potatoes per acre this year on both east side and west side farms of the Sanford District; Bermuda onions at the rate of 750 crates to the acre, and the writer has raised strawberries as early and of as fine quality as are grown in any of the berry-producing points of the state.

Let us get to work and do these things. FLA. VEG. GROWERS' ASSOC.

Leave Orders For Ice Cream Any one wishing ice cream on Sunday can have it made and delivered by leaving orders on Saturday at Maxwell's. Latest improved machinery insures the best of cream and quick delivery.

Mrs. Geo. Dickinson will open a summer school in the grammar school building, June-10. Pupils received from any grade.

NOTICE OF CONTEST For Publication DEPARTMENT OF THE INTERIOR United States Land Office Gainesville, Florida, May 1, 1912

To Arthur A. Boyd, of unknown address, Contestee. You are hereby notified that A. T. Lifford who gives Paola, Florida, as his post-office address, did on April 23, 1912, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead, Entry No. 07148, Serial No. 07118, made July 16, 1910, for SW 1/4 of NW 1/4 Sec. 4 and SE 1/4 of NE 1/4 Sec. 5, Township 20 S., Range 29 E., Tallahassee Meridian, and as grounds for his contest he alleges that said Arthur A. Boyd has never resided upon nor cultivated the said tract, but has wholly abandoned the same.

You are, therefore, further notified that the said allegations will be taken by this office as having been confirmed by you, and your said entry will be cancelled thereunder without your further right to be heard therein, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

The cucumber here was disastrous, owing to some unusual disease that caused quick decay after shipping. Thousands of hampers were worthless after reaching market and the growers would have been money in pocket had they allowed the crop to rot in the field. These disappointments are common to life and are here soon made good and forgotten when profits of other crops take their place.—Clermont Notes in Times-Union.

After many setbacks and much contention, Tampa will at last get a Carnegie library. The last obstacle appears to have been overcome and council is to purchase a desirable and attractive site for the new building. The \$50,000 of Carnegie's money will be forthcoming, under the usual conditions, as soon as the lot is ready for occupancy.

News comes that Tampa is to have still more auto-drive fire apparatus. Chief Matthews of the fire department having advertised for bids for two chemical and hose wagons, the cost not to exceed \$10,000. The fire department in Tampa already has three of these wagons, besides other motor-driven fire apparatus.

Caught a Fire Bug
Tampa, May 25.—Following a series of incendiary fires extending over a period of three weeks, George Green, a negro, was surprised with two companions while lighting a fire in a vacant house in West Tampa at midnight and shot three times in the back. His two companions escaped.

Green was hurried to the West Tampa jail, where a strong guard was placed. The frequency of fires since the receipt of the first of a series of anonymous letters addressed to the chief of police and fire chief has thoroughly aroused the community.

Florida's memorial to the men of the Confederacy, who took part in the campaign above the clouds at Lookout Mountain, Tenn., will be unveiled in Chattanooga Park next May. The movement will cost \$15,000, this amount having been appropriated by the state.

The new style of hair cut in Sanford is to have it cut baldheaded.

Election passed off very quietly today. Chas. Hand has been elected.

Base ball will now have the boards. Politics is a back number.

Mass Meeting for Charity
All citizens of Sanford interested in organized charities are invited to meet at the Star Theatre at 4:30 next Sunday afternoon to perfect the new Associated Charities of Sanford.
For the committee,
GEORGE B. WALDRON,
Chairman.

LATE PERSONALS
M. S. Nelson left this week for a short business trip to Lanark, Ill.
Miss Kathleen Massey, who has very capably filled a position as teacher in the schools at Winter Park, after spending a week with her friend, Miss Lillian Gibson, left Saturday via the Clyde Line for her home at Rock Hill, S. C. Miss Massey made many friends in Sanford and Winter Park, who regret her going and who wish for her return another year.

Dr I. M. Kennedy and W. M. Igou of Eustis were in the city Friday.
Mr. G. G. Hearn of Donaldville, Ga., left for Atlantic City Monday, after a pleasant visit to the home of R. L. Jones.
Mr. A. S. Jackson of the A. C. L. leaves for his home in Birmingham today.

Mrs. Mary E. Starling left yesterday for St. Louis after spending the winter with her son, B. J. Starling.

Mrs. B. J. Starling and daughter, Clarissa left yesterday for Nashville, Tenn., where they will spend the summer.

Has any one here seen Hillburn?
—O—

Read the article on the water works question on another page of this issue. It is written by Mr. Mahoney and speaks authoritatively on this subject of better water for Sanford.

Everybody rides free today. Everybody walks tomorrow.

If your favorite was not elected don't worry. The world will move along just the same tomorrow.

Don't believe anything you hear about honesty in politics. After the election the honest men are more than apt to become grand rascals.

Imagination.
The faculty of imagination is the great spring of human activity, and the principal source of human improvement. As it delights in presenting to the mind scenes and characters more perfect than those which we are acquainted with, it prevents us from ever being completely satisfied with our present condition, or with our past attainments, and engages us continually in the pursuit of some untried enjoyment, or of some ideal excellence. Hence the ardor of the selfish to better their fortunes, and to add to their personal accomplishments, and hence the zeal of the patriot and the philosopher to advance the virtue and the happiness of the human race. Destroy this faculty, and the condition of man will become as stationary as that of brutes.—Dugald Stewart.

Mignonette Tree.
Few mignonette lovers appear to realize that a plant of this so fragrant flower may be preserved from year to year until it becomes a little tree. You take a strong plant from seeds sown in the month of April, put in a pot all alone, and whenever and wherever it attempts to show a blossom nip it off without remorse. At the end of September or the beginning of October cut off all the bottom shoots to make it look like a tree; move it into a larger pot and put it in the greenhouse. Water it regularly and keep it moderately warm. Treat it in the same way the following year, cutting off all the lower shoots and blossoms, and you will have a mignonette tree that will last and bloom for years.

Sponges Left in Abdomen.
A suit like that brought a few weeks ago by a woman against a physician for leaving a towel in her abdomen following an operation has been brought by a Philadelphia man against two surgeons of the German Hospital staff, in that city, for \$10,000 damages for alleged neglect in leaving in his abdomen two sponges following an operation at the hospital. The man alleges that the defendants performed the operation. He went to the hospital on January 14, 1911, and was discharged as cured on March 4. He suffered much pain after that, and went to another surgeon who performed a second operation on the plaintiff, and found in the wound two sponges and other medical material.

"Love Me, Love My Dog."
The women who believe in these sentiments will be made happy by one

of the new luxurious valises in which to place the pampered pet while traveling. The valises are lined with white goat fur and are real nests of comfort. A series of holes in the side admit plenty of fresh air, while at the other side of the valise is a species of grill or wire lattice work which enables the dog to see all that is passing. Usually the valise is of leather, with its owner's name and address on an engraved brass label, and there are leather handles to enable it to be carried easily in the hand.

Must Have Three Certificates.
The Rev. Mabel R. Witham, pastor of the Church of Immortalism in the "exclusive" Back Bay quarter of Boston, has decided not to celebrate marriages unless the parties can produce three certificates. The first is to be one from a doctor stating that they have passed a medical inspection, the second must be from a banker or other responsible person to the effect that the would-be husband has demonstrated his ability to maintain a wife in decent circumstances, and the third should certify that the bride has received a proper training in domestic science and the mysteries of household management.—London Answers.

True Benevolence.
It is useless to talk of sacrificing self to others unless there is something in self that others need. It is the full and rich life, not the poor and empty one, that can fill and enrich others. True benevolence, then, must obtain that which it would give. To acquire honorably money or leisure or power, to cultivate health and happiness, to gain knowledge and wisdom, to develop interest in human affairs, to cherish just principles and generous impulses, to fill the mind with pure and noble thoughts and the heart with tender love and sympathy—these things are essential.

Padded Flowers for Sick.
More than 26,000 single carnations were disposed of in Salem by volunteer workers in the annual carnation festival held in aid of the Salem summer camp for tuberculosis patients. All day long the streets of the city were filled with the flower sellers. Fair plackets took up their stations on the principal street corners early in the morning and commuters were forced to run the gauntlet of their appeals. The standard price asked was ten cents, but "keep the change" was the order of the day with most of the buyers.

Did His Duty Nobly
When the meningitis epidemic broke out in Texas it was necessary that the serum to combat the disease be administered by one familiar with its use. Dr. Saphian—the physician chosen—was sent to the field from New York. A few days later he was in the midst of the epidemic, working twenty or more hours a day, bending all his energies to the humanitarian work he was sent to perform. When medical men work like this and take a prey to disease, exposure or attack we honor them as martyrs," says the Journal of the American Medical Association.

Passed Headache Along.
Bill, with the misery of a splitting headache showing in his eyes, was creeping along the Bowers when he met Jack. "Hello, Bill, what makes you look so sour?" was Jack's greeting. Bill explained. "Headache," said Jack. "What the deuce are you doing with a headache? No business having it. I never had such a thing in my life." "Well, you've got one now," snarled Bill as he dealt his Job's comforter a staggering crack with his stick.

Only Problem of Happiness.
"Real happiness is so simple that most people do not recognize it. They think it comes from doing something on a big scale, from a big fortune, or from some great achievement, when, in fact, it is derived from the simplest, the quietest, the most unpretentious things in the world. Our great problem is to fill each day so full of sunshine, of plain living and high thinking, that there can be no commonness or unhappiness in our lives."—Orison Sweet Marden.

Calls for Persistence.
"There are no cut-and-dried rules for making advertising successful. Each man has to work out, in a large measure, his own salvation. There is, however, one sure way to make it pay, and that is by persistence and common sense. There are no substitutes for these elements in advertising or anything else for that matter."—Jed Scarborough.

Had First to Find Himself.
Everybody who ever did anything anywhere, had to find the grindstone and run himself against it until he developed an edge that would cut something.—Herbert Kaufman.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

A solid delegation of forty delegates instructed for Woodrow Wilson was elected to the national Democratic convention Tuesday by the Texas Democratic presidential convention. The delegation is composed of eight delegates at large and thirty-two district delegates.

Seven persons were killed, three were probably fatally injured and a score or more were less seriously hurt when a tornado swept through the village of Skiatook, Oklahoma, eighteen miles northwest of Tulsa and the neighboring farming lands and oil fields Tuesday night. The property loss is estimated at \$75,000.

What promises to be one of the greatest pre-convention fights in the history of this country will take place in between Taft and Roosevelt forces in Chicago between now and the 18th of June, the date for the assembling of the national Republican convention. Several days ago it was announced that Senator Elihu Root had been selected by the national committee as the temporary chairman of the convention. Mr. Root is a Taft man, and therefore will not be satisfactory to the Roosevelt forces. In fact announcement is made in a Chicago dispatch that the Roosevelt forces will refuse to abide by the selection of Mr. Root, and that they will insist on naming a chairman in accord with the Roosevelt policies. That is certain to precipitate a big fight between the two factions.

THE LATE UNPLEASANTNESS

Second Primary Passes Off Quietly In Sanford Tuesday

The second primary passed into history last Tuesday and while there was a bit of interest created over the Sheriff's race and Clark and Hilburn the affair was rather tame compared to the first primary. The voters were out in full force and the loyal Hand supporters did not let a guilty man escape. Sanford, as usual, gave Frank Clark a fine vote and despite the activity of the Hilburn supporters put Clark over at the ratio of three to one. If the rest of the county had done as well Clarke would have carried Orange with flying colors. Hand received the finest vote in his home city that has ever been handed to any one, and though defeated he has the comforting thought that his own people stood by him loyally. Following is the tabulated vote of the two precincts:

Precincts	3	25
For Governor of State of Florida		
Trammell	265	245
Member National Democratic Executive Committee		
Crawford	121	107
Matthews	93	92
For Congress State of Florida at Large:		
L'Engle	122	152
Toomer	148	108
For State Superintendent of Public Instruction:		
Holloway	110	93
Sheats	137	149
Delegates National Convention State At Large		
Alexander	103	102
Anglo	104	87
Broward	112	88
Bryan	134	125
Crill	95	89
Harris	123	115
Lambright	96	98
Williams	97	99
For Congress, Second Congressional District:		
Clark	224	227
Hilburn	80	77
Delegate National Con. Second District		
Abernathy	143	154
Bood	65	60
Davis	115	115
Jones	113	104
For Sheriff:		
Hand	333	308
Kirkwood	13	20

REVIVAL MEETINGS IN SANFORD ALL AROUND FLORIDA

Save One Soul for Jesus.

Rev. Elieha A. Hoffman. Charlie D. Tillman.

1. Try to save one soul for Je-sus, Some poor soul by
 2. Try to bring one soul to Je-sus From the wea-ry
 3. Try to lead one soul to Je-sus, To the fount of
 4. Try to do some work for Je-sus, Try some pre-cious

sin do-ful paths of life and life's soul to win
 Sav-ior, wel-come fle-ment, ark-ness,
 He will o- Who a be- Make the sin- Waits for thee
 ten-der-ness, be- ing for-give; He will
 wel-come all who come to Him, He the sin-ner will re-ceive.

For some weeks the church going people of Sanford have been planning for a great religious awakening in the evangelistic campaign now being led by Evangelists Bass and Stapleton, and although the meetings have been in progress only a few days, they are proving to be a great power for righteousness.

and save it to our common Lord, is RELIGION and FORWARD MOVEMENT, and within itself a mighty power which attracts the people and reveals the spirit of the MAN OF GALILEE.

to some one else, and you came into possession of it through a dishonest deal, will burn you in hell if you don't take it back. Praying will never transfer ownership.

COUNTY VOTE BY PRECINCTS

County Vote in the Second

The following table gives the total vote by precincts on as many candidates as it was possible to get, and only the official count will give all of them. Just why Orange county can never get all the precincts is rather strange but the fact remains that it takes about four days to hear from all the suburbs. However the reader can find out about Hand and Kirkwood and Clark and Hilburn which is enough for one week.

Precincts	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	Totals

 Precinct 1, Orlando; 2, Maitland; 3, Sanford; 4, Paola; 5, Ovelido; 6, Geneva; 7, Chuluota; 8, Gabriella; 9, Longwood; 10, Ocoee; 11, Apopka; 12, Zellwood; 13, Bay Ridge; 14, Oakland; 15, Gotha; 16, Pine Castle; 17, Conway; 18, Christmas; 19, Winter Park; 20, Lake Mary; 21, Lockhart; 22, Winter Garden; 23, Orlando; 25, Sanford.

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Cigar shipments from Tampa the last week totaled 5,375,000. This is a splendid showing for the summer season.

It is expected that the entire road from Pablo to Atlantic Beach will be bricked in the near future. Work on this will begin at an early date.

Many improvements have recently been made at the park in Apopka and the park has now been turned over to the ladies of that town for maintenance.

The annual meeting of the Florida State Bar Association will be held in Jacksonville from the 6th to the 8th of June. One of the features of the session will be a banquet at the Hotel Burbridge.

The contracts have been let in Tallahassee for painting the Capitol buildings and sanctifying the Capitol grounds. Cement walks will be laid throughout the grounds, connecting with the paved streets. The lawn is to be regraded and replanted, and the walks set in beautiful flowers and shrubbery.

Sheats and L'Engle Win

Fuller returns from Tuesday's primary, while as yet very incomplete, confirm the fact that W. N. Sheats has defeated W. M. Holloway by a substantial majority, which is now placed at about 4,000, but may reach 5,000 by the time the entire vote is counted.

The election of Claude L'Engle as congressman at large is also a certainty, late returns indicating that his majority over Toomer is about 5,000. He himself claims a majority of 7,000 and it may reach that figure when all reports are in.

Exact figures on any of the races will not be available until the meeting of the State committee, which will take place in Jacksonville on Saturday. It will not be known until that time, either, just who were elected delegates to the Baltimore convention. In most counties there were exciting local contests which engrossed the interests of the people to such an extent that they failed to report on the State races. However, the general result so far as the principle races are concerned is not in doubt, and the majority for both Sheats and L'Engle being decisive.

Missionary Meeting

The Woman's Missionary Society of the Baptist church met last Monday night at the home of Mrs. J. K. Johnson on French avenue with a good attendance. The devotional exercises were led by the president Miss Allie Stafford, after which interesting sketches concerning Brazil and the work being accomplished by Baptist missionaries there were given by Mrs. J. W. Wildman. Dues and donations were handed in, after which delicious refreshments were served by the hostess and a social half hour enjoyed.

house, the other is where you go into the ditch. One is where you leave God and His church, and the other is where you plunge into hell, a full fledged gambler. What we need in Sanford, is for you people to go home and draw a chalk line around you and then pray God to begin on the fellow on the inside of the ring.

Watch the man or woman who drops out of a red-hot meeting; there is a reason, and that reason can be found either in their hearts, homes, business, or social life.

Some of you people are singing "Standing on the Promises," and will stand in a pair of shoes that you never intend to pay for.

I do not blame some men for staying out all night. I would too, if I had to go home and play second fiddle to a poodle dog.

The best gift that ever came from the throne of God is a Christian mother.

Why is it that you are not as pure as a sunbeam, as sweet as a dew-drop, as enchanting as the sun-kissed heights of the Alps, and as gentle as the air of the Spring morning? God made all these, and He can make you as beautiful.
