## BONUS ARMIES ARE FORMING OVER COUNTRY

**One Body Leaves From Miami While Others Depart From East And Mid-West Areas**

(AP) — The idea of going to Washington to demand in person the payment of the soldiers' bonus started less than two weeks ago by a group in Illinois, spread largely over the East and South today.

There are already 1600 veterans in Washington and, having received the word, hundreds more are either enroute or about to start. Ambitious are beginning to worry about how they will be fed.

Dallas reported veterans gathering all over Texas for the march to Washington and at Fort Worth a group climbed aboard an eastbound train.

Marchers, who left Miami yesterday, spent the night at West Palm Beach and continued northward by bus today. Veterans from Chicago and Detroit are expected to join Oklahomans at Toledo.

Two hundred advanced northward from Louisiana, 200 from Tennessee, and 200 from South Carolina.

Another large delegation is expected to leave Oklahoma City, between three and 500 started from New Jersey and a large group is being recruited to start from New York.

## Hurley And Mills Score Democratic Public Works Plan

(AP) — In a double-barreled administration attack upon the public works section of the Democratic relief measures, Secretaries Hurley and Mills told a congressional committee today that the huge expenditures proposed would give comparatively little employment.

Mills piled this objection upon the contention that the issuance of bonds to carry out such projects would "break down the sound financial policy pursued since the beginning of government." He said that of the half-billion dollars proposed by the Senate Democrats for public works, \$366,000,000 would give work to only about 64,000 men.

Hurley contended the rivers and harbors work was chiefly mechanical. Discussing different projects totaling \$154,000,000 under the bill, he said the expenditure would furnish jobs to only about 63,000 men.

Motions for new trials will be argued Monday and Judge Ingram indicated he would formally sentence the eight then. All were expected to appeal.

**Two Killed As Train Hits Gasoline Truck**

(AP) — Two men were killed, a third was seriously burned when a Florida passenger train struck a truck loaded with gasoline here today. The truck exploded. The dead are J. W. Thomas, fireman, and Cecil Allen, truck driver. Engineer James Moore was taken to a hospital in a critical condition. He and Thomas leaped from the engine.

## ILLINOIS COURTS STRIKE BLOW TO KIDNAP RACKETS

**Eight Men Convicted Of Abducting Rich, Prominent Surgeon**

(AP) — Illinois courts yesterday struck their second heavy blow in two days at the kidnapping racket.

A circuit court jury convicted eight men of abducting James W. Parker, wealthy and prominent surgeon, last March and holding him 18 days for \$50,000 ransom. Three defendants, one a woman, were acquitted but the others were given prison terms of from five to 25 years.

Tuesday a Chicago judge sentenced two men to serve life terms for the kidnapping of the wife of Dr. Max Gecht last December. The law has experienced no such setback against kidnappers since the punishment of those who aided and abetted Billy Barker several years ago.

Dr. Parker, police and prosecutors met almost uniform success throughout the case. The surgeon was returned unharmed to his family without payment of ransom.

Twelve arrests were made and 12 confessions obtained shortly afterward, and the convictions were returned at the end of the three weeks trial, within two months of Dr. Parker's release.

James W. Betton, once candidate for mayor, was convicted as the alleged head of the gang. His nephew, Cecil Minninger, an ex-convict; Claud Evans and Arlo Stoops, an insurance salesman, were convicted of the actual kidnapping. All were given terms of 25 years.

Stoops' brother, Raymond, a farmer, was given 15 years imprisonment; Dwight Barlett of East Peoria, seven years and Alver Joseph Purush and Homer Massey, once associated with Betton, five years each.

Raymond's wife, Jessie, their 17-year-old son, Dean, and Edward Woodford, a hired hand on their farm, were acquitted. The twelfth person indicted, Mrs. Minninger, turned state's evidence and was discharged during the trial.

Motions for new trials will be argued Monday and Judge Ingram indicated he would formally sentence the eight then. All were expected to appeal.

## Members Of Tariff Association To Meet

(AP) — A polite but unofficial difference of opinion appeared to develop yesterday between Great Britain and the United States concerning the disclosure of plans for an international conference to attempt to revive business.

Discussing the proposed conference in the House of Commons, Sir John Simon, foreign secretary, administered what some members interpreted as a reprimand to the United States.

The plan, he said, still was "informal and in a purely preliminary stage."

In this connection it was pointed out that British officials displayed utmost unwillingness to discuss the matter until publicity in the United States convinced them it was imperative that a statement be made here.

The suggestion was made by some members of Commons that what they called the "premature" disclosure of the scheme was not wholly unconnected with political exigencies. In the United States,

**HELEN HAYES SUED**

(AP) — Helen Hayes, stage and screen actress, was made defendant in a hundred thousand-dollar suit instituted by Cosy MacArthur, first wife of the actress' husband, Charles MacArthur, playwright. Basis for the action was not disclosed.

**WILLISTON — Perkins State Bank opened for business.**

## MAYOR WALKER CHARGED WITH LAW VIOLATION

**Seabury Reveals How "Jimmy" Broke City Charter By Owning Stock In Company**

(NEW YORK) — June 2.—(A.P.)—

Evidence which Samuel Seabury had constituted grounds for the removal of Mayor Walker was presented to the Hofstadter legislative committee yesterday.

The committee counsel charged Walker had violated the city charter by holding bonds in a company which received a city contract for \$43,558 worth of traffic lights.

"And I say it is grounds for removal and has been so held and is provided in section 1533 of the city charter," Seabury told the inquiry board.

Walker himself, in Detroit, charged Seabury with "unfairness" and said the lawyer "well knew" the bonds "came into my possession without any knowledge on my part of the company's business."

Seabury's statement to the committee was the first in which he has given any intimation he will file charges against the mayor, and the first time he has said the mayor should be ousted. It also was the first time Seabury had followed up the introduction of evidence against the mayor with a charge that a violation had been committed for which a specific penalty was provided.

The section of the city charter Seabury referred to states: "No city official who is a stockholder in or is directly or indirectly interested in any corporation having a contract with the city can, upon conviction, be forced to forfeit his office and can be punished for a misdemeanor."

Among the day's witnesses was Dr. William H. Walker, the mayor's brother, to whom William J. Scanlan, who sold equipment to the city, said he paid more than \$10,000 in the last five years by serving as a consultant on the call of Dr. Thomas J. O'Mara, one of a group of physicians designated to treat injured city employees under the workmen's compensation act.

He added, however, that none of the cases from which he derived fees was a city case.

Seabury showed him two checks received by Dr. O'Mara from the city, on Mar. 3 and 4, 1931, totaling \$100,220, and one Dr. Walker received from Dr. O'Mara on Mar. 6, 1931, for exactly half that amount.

The mayor's brother repeated, however, he had not handled any city cases. He told of financial transactions with three other physicians in the group. He said he had been an examiner for the board of education since 1926 at \$600 a year, that he received about \$600 a year for serving the board of retirement, and that he had special license from the athletic commission to examine boxers and wrestlers before matches for which he was paid about \$50 per bout.

Dr. Walker reversed himself in subsequent testimony and admitted he shared city fees for compensation cases with Dr. Harris Feinberg, one of the group.

Seabury produced a number of checks drawn by the city and endorsed by the two physicians. The mayor's brother said he and Dr. Feinberg deposited them in a joint bank account in which they shared equally.

## KIDNAPERS GIVEN LIFE

(CHICAGO) — June 2.—(A.P.)—William Thomas and John Finner were sentenced to life imprisonment yesterday for the kidnapping of Mrs. Georgia Gecht, wife of a physician, Dr. Max Gecht.

The two men pleaded guilty to the charge at the outset of their trial.

## Banking Committee Puts Its Approval On Move To Permit Money Expansion

(WASHINGTON) — June 2.—(A.P.)—

A move to permit expansion of the currency by approximately \$100,000,000 was approved yesterday by the Senate Banking Committee.

Without opposition, the group reported favorably a measure which would authorize the use of all United States bonds as a basis for currency for a five-year period.

The proposal was advanced by Senator Glass, of Virginia, a former Democratic secretary of the Treasury, as substitute for the Goldborough bill, passed by the House, which would have the federal reserve board stabilize the purchasing power of the dollar at the 1921-22 level by its open market operations.

"I distinctly disavow the belief that any of these legislative devices is necessary at this time," said Glass in newspapermen. "I simply offered the bill in question as a substitute for the Goldborough bill which I regard with the utmost aversion."

Glass said that if the bill became law the 3000 national banks could expand their circulation to the extent of \$1,000,000,000.

Chairman Norbeck, Republican, South Dakota, said he favored the Goldborough bill, but voted for the substitute. He added: "A discussion of the committee led to the view that inflation might be a very good thing but that the inflation as provided in the Goldborough bill might not be the best way."

**Democratic Drive For Campaign Sum Totals \$381,200.00**

(NEW YORK) — June 2.—(A.P.)—The Democratic "Victory" campaign committee announced Tuesday that 11 states and the District of Columbia had raised \$381,200 or nearly 80 percent of their quotas in the nationwide effort for \$1,000,000 in preparedness funds for the coming presidential election.

The report, mailed to 25,000 volunteers solicitors, showed Maryland had passed its quota by more than five percent and five others had passed 15 percent.

The five named were Delaware, 89 percent; New Hampshire, 66; West Virginia, 65; New Mexico, 52; and Arizona, 53. The District of Columbia was creditable with 40 percent of its quota.

In a group under 10 percent were named North Carolina, 33; and Wyoming, 15 percent. In New York and New Jersey were credited with 10 percent in 11 leading states, the report said. 208 persons had contributed.

It is certain that wet and moist plant advocates will make a determined bid for support at the state delegations to the Chicago convention now on guard for repeal of prohibition in various ways. Each has a member on the resolutions committee which shape the platform.

In seventeen more states, dry turned down and pro-drink resolutions.

Twenty-seven made no mention of prohibition, which presents a minor problem for both parties at their Chicago gathering.

Of the 32 Democratic state conventions so far held, 17 favored repeal of prohibition, 10 favored it, and five were split.

Eight of the 32 Republican state meetings held to date urged repeal or submission. Eleven voted dry or defeated wet proposals. Nine ignored the subject.

## G. O. P.'S PLANK ON DRY ISSUE IS IN LIMELIGHT

**Postmaster States It Will Be One Which Will Be Acceptable To Wetts And Drys**

(WASHINGTON) — June 2.—(A.P.)—

Postmaster General Brown came a prediction yesterday that the Republican platform plank on prohibition would be one "to which we can all subscribe."

The forecast was made in the midst of a round of prohibition warning to both parties from 39 dry organizations that they will not give an inch and would fight to the last any platform declaration leaning on the wet side.

President Hoover continued discussion of the question. Dr. Fred Smith, former international secretary of the Y. M. C. A., and now chairman of the citizens committee of one thousand for law enforcement, said after a call at the White House he had talked over the prohibition plank with the President.

He said he did not think either party would budge itself if it accompanied a law enforcement pledge with an expression of its submission.

Included in a list of recommendations submitted to the President by a delegation from the New York Young Republican club was one urging that a prohibition re-peal proposal be submitted to the people through state conventions.

Hoover told the dozen members of the delegation he appreciated their call, but was not sure he could accept all of their suggestions.

Postmaster General Brown told newspapermen that progress was being made on the Republican platform as a whole.

Dr. Ernest H. Theringham, chairman of the dry organization's board of strategy, has been named head of a steering committee to manage the prohibitionists' drive at the two conventions.

The report, mailed to 25,000 volunteers solicitors, showed Maryland had passed its quota by more than five percent and five others had passed 15 percent.

The five named were Delaware, 89 percent; New Hampshire, 66; West Virginia, 65; New Mexico, 52; and Arizona, 53. The District of Columbia was creditable with 40 percent of its quota.

It is certain that wet and moist plant advocates will make a determined bid for support at the state delegations to the Chicago convention now on guard for repeal of prohibition in various ways. Each has a member on the resolutions committee which shape the platform.

In seventeen more states, dry turned down and pro-drink resolutions.

## FEDS IN POSITION TO NAR LEAGUE LEAD THURSDAY

### Place Assured If Nine Whips Crackers As Indians Also Lose

By PETER SCHAUER  
With five convincing victories safely tucked away in the winning column and only one half game away from first place in the battle for the first half pennant of the Central Florida Baseball League, Manager Joe Barnes' spirited Calypoids tonight are awaiting their third game of the season with the New Smyrna Crackers, to be played at Municipal Park tomorrow afternoon at 3:30 o'clock.

Admitted as the sensations of the league, carrying the finest outfield, one of the fastest infields, the craftiest catcher, and a pair of ace hurlers, the Feds tonight also find themselves leading the league in batting again, with a mark of .207. This attainment was reached when the Feds pounded Old Hutto, last year's most valuable player and hurler, from the mound at Daytona last Sunday, and continued their attack on Tige Slope, one of the defunct Southwestern League's best hurlers until they had amassed 18 base knocks, their largest number of the year.

That the Feds are the hands-down favorites to win tomorrow's conflict is doubted by few, for the Crackers are giving the Parkers a hard battle for last place position, and are battling at the rapid clip of .207 in 12 games. The Crackers are coming to Sanford tomorrow in the hope of breaking a four-game losing streak, but, unless all signs go wrong, or the Feds have a last-minute attack of over-confidence, they must seek other fields.

However, Manager Barnes has been busy since Sunday, cautioning the players against a possible let-down which is rather due, since the outfit has cleaned up on DeLand, Cocoa, and Daytona, the toughest teams in the loop, right in a row. A let-down is due, but, with Rod Martin furnishing sensational play on top of another one, Tom Phillips and Buddy Lake hurling in mid-season form, and the wrecking crew of Barnes, Pittman, Martin, Reed, and Harrison ably assisted by those demon scratch hit batters, Chapman, Bach, and Moore, plus Phillips' great work with the stick, it's highly possible that the Crackers will be the winners.

Sanford fans will have a first opportunity of seeing Bill Leitz, this league's best left-handed hurler in action, for the burly New Orleans boy is due to hurt. With thy support at all, he and Buddy Lake should engage in a real bat-off, although Fed bats may be ringing true before the game is very old. The Crackers are notoriously weak afield, particularly at third and short, where several games have been lost because of a tendency of the inexperienced player there to "fight" the ball.

While the Feds are entertaining the Crackers, the DeLand Reds will be tough opposition at Winter Park with Buck Taylor's Parkers. There's an up-and-coming outfit, those Parkers, for the fiery Taylor is working the boys ragged, and their 18-hit foray against the Crackers last Sunday, plus some more good batting that finds the team in third place in batting although last in the standings, indicates that there is some power in that combination.

At Cocoa, what may be the league's best attraction finds the Islanders making their first bow before a Cocoa audience. Each team has won a game from the other, but the Islanders of today are a different outfit from the Islanders of 18 days ago. Lefty Lane will hurl against Early Joiner in what should be a pitcher's battle all the way.

If Daytona wins, and I think they will, the Feds tonight face the prospect of being in first place tomorrow night, provided they beat the Crackers. If not, the race will remain as is, and only six games left to go. On top of that Cocoa has a postponed game to play with New Smyrna, with every chance that they will win that game, too.

You can readily see that your moral support as well as your actual appearance at the game tomorrow is necessary if you want to see your Feds win their first pennant in long, long. Despite the fact that the Feds are due to win, you shouldn't miss seeing the Fed in action during these last few games of the first half, for they are a smooth-working and powerful bunch. Rod Martin and his mates are slow workers, the price of admission, according to Red himself!

Here's how your Feds are holding tonight. You'll notice that only one player is in the regular hitting class, Joe Barnes, the manager. They are five big or minor blots, but your Feds' just hover.

### Hardee Will Speak In Orlando Friday On His Candidacy

LIVE OAK, June 1.—Cary A. Hardee will speak in Orlando Friday night. Voicing a pre-election appeal in behalf of candidates for legislature, the former governor, who is himself a candidate for governor at the June 7 primaries, has asked that the voting citizens of Florida send representatives to the state legislature who will support a program of tax relief and reduction in governmental expenses.

Mr. Hardee has strongly urged the necessity for certain definite measures in state government and has based his candidacy for the gubernatorial nomination upon these points. In turn, he is now appealing to voters to support his policies by sending legislators to Tallahassee who will lend assistance in the following program:

1. Coordination of state departments.
2. Elimination of unnecessary governmental expense.
3. Support our common schools and institutions of learning to the limit of our financial ability.
4. Strengthen our banking laws to protect the depositor.
5. Conserve our natural resources such as fish, game and minerals.
6. Reassessment of taxes on real estate in order to more equitably distribute the tax burden.

7. Assistance in working out the tax problems of counties, municipalities and districts upon a more equitable basis.

8. Restoration of values to homes, businesses and lands.

9. Stop the reckless creation of money-spending agencies.

Mr. Hardee believes that with the support of a legislature committed to such a program, this state can go forward with a new outlook toward prosperity, unhampered by financial fitters and the accumulated debts of past administrations.

## BIG SAVING MADE BY MEMBERS OF CITRUS EXCHANGE

### Figures Based On Survey Among Growers Of Organization

TAMPA, June 2.—Savings of more than \$1,000,000.00 in packing, operating and marketing expenses were effected by the growers who compose the Florida Citrus Exchange on their ten million box output for 1930-31, in comparison with the costs for the same items in 1924-25, the last season before the present management was placed in charge, it is disclosed in a survey made by the Florida Grower, reviewed in the June number.

"Continuing reductions, extended over the six year period, have given an average lowering of 17.3 percent in the local association expense, an average cut of 15.8 percent in the sub-exchange outlay and a saving of 24 percent in the sales expenditures at Tampa headquarters and in the northern offices. More money was spent for advertising in 1930-31 than in 1924-25," the story says.

"Of 40 local associations for which figures are available on costs in 1930-31 as compared with 1924-25, all but five showed marked decreases. In the '30-31 season, the average per box expense of the 40 associations was 62 cents, while in '24-25 it had been 75.5 cents. The greatest of the reductions was from \$1.16 to 62 cents, and the smallest from 62 cents to 61 cents."

"Six out of ten sub-exchanges in continuous existence were operated at a smaller cost for the last season of the period than in the first. Disbursements of all ten averaged 2.1 cents a box in 1930-31, as against 2.5 cents for 1924-25. The biggest drop was from 5.2 cents to 2.4 cents and the smallest from 1.4 cents to 1.1 cents."

"Weighted averages applied to the statistics would make them even more impressive in respect to the amounts of money saved to the growers by the increasing efficiency reflected in lessened association and sub-exchange costs. In most of the cases, the reductions have been the greatest in the units with the heaviest volume."

"Costs of selling function exercised by the Tampa headquarters and in the offices at the north directly under its control were lowered to .0625 cents per box in 1930-31 from .1084 cents which had been expended upon them in 1924-25. Advertising outlay increased to .0487 cents in '30-31 from .0307 cents, which it had been in '24-25."

"Estimate of a minimum saving of \$1,000,000 was arrived at by applying the combined reductions in cost of a little over 16 cents a box to a turnover of approximately 10,000,000 boxes. Obviously, the sum would be materially larger if the weighted average basis had been employed in the calculations."

"In some degree," it is pointed out in conclusion, "the lower costs were made possible by the larger volume of fruit handled and by reduced price levels on supplies, but by no means would these factors account for the major portion of them. The total tonnage of the Florida Citrus Exchange in 1924-25 was, in excess, of 8,000,000 boxes."

### U. S. SAILOR KILLED

WASHINGTON, June 2.—(A.P.)—The death of one sailor and injury of 12 others in an explosion of ethyl chloride aboard the gunboat Tulsa at Amoy, China, yesterday was reported to the navy department by Admiral Taylor, commander-in-chief of the Asiatic fleet.

### COPPER TO RIVAL TEA

RIO DE JANEIRO, June 2.—(A.P.)—Brazil's coffee council has signed a contract for a propaganda campaign in Japan, Korea and Manchuria, sending 300,000 sacks of the bean there in three years in the hope of increasing the consumption of coffee in the Orient.

MADISON—Daylight Department Store reopened meat market in connection with grocery department.

## Alsop Pledges To Work In Behalf Of Public's Interest

KEY WEST, June 2.—Efforts of the Coastal Cities Co-ordination Organization, in behalf of projects of public interest in Florida, Georgia, North Carolina and South Carolina, including the drive to retain the Naval station for Key West, were discussed here last night by Mayor John T. Alsop, Jr., of Jacksonville, president of the Coastal group.

Mr. Alsop was here in connection with his candidacy for the Democratic nomination as the congressman-at-large from Florida. He conferred with his many friends here during the day and last night was one of the principal speakers at a largely attended political rally in downtown Key West.

The Coastal group, which Mr. Alsop said was formed because of the vision of Clark Howell, Atlanta editor; Stuart Craemer and Howard Coffin, is a non-partisan organization aimed to coordinate the activities of the coastal cities in the four states. Mr. Alsop said, "He told his audience of the efforts being made in behalf of the local station, and the naval and marine activities in South Carolina, bringing into his discussion at that point his stand as being opposed to a reduction in the Army and Navy—or-any-appropriations cuts which would affect the national defense."

Mr. Alsop congratulated Key West on the interest shown by the Monroe county citizens in the creation of the Atlantic Coastal Highway, reminding the crowd that he headed the motorcade to Washington in celebrating the opening of the highway several years ago, many Key West citizens being members of the motorcade.

**Forestry Work To Help Employment Is Given Approval**

BALTIMORE, Md., June 2.—Inclusion of plans for the improvement of public forest lands in any national program intended to ameliorate unemployment was urged in a resolution adopted at the concluding session of the American Forestry Association, holding its fifty-seventh annual meeting here recently.

A second resolution endorsed the action of the board of directors of the association in recommending that in any reorganization of government departments the activities con-

cerned with agriculture, grazing, forestry and wild life preservation be continued in the Department of Agriculture.

How the fish and other aquatic fauna are dependent on the forest as well as the water was shown by Mr. Henry O'Malley, chief of the United States Bureau of Fisheries. The activities of the Bureau of Fisheries, he said, as well as those of more than 45 state fisheries and 200 private commercial hatcheries, are dependent upon the maintenance of conditions which will assure the perpetuation of running streams, brimming rivers and permanent lake levels.

"An abundant water supply," Mr. O'Malley said, "inevitably falls back on the basic essential of watershed clothed with trees. The shed run of the Potomac River is correlated with rainfall in the upper waters of the Potomac system hundreds of miles back in the Appalachian Moun-

tains.

Other speakers were: Mr. W. S. Conant of the water resources committee, American Engineering Council; Mrs. John F. Bippel, president of the Federation of Women's Clubs, and Mr. Paul G. Redington, chief of the United States Biological Survey.

Mr. George D. Pratt was re-elected president of the association.

### MARRIAGE IS REVEALED

ATLANTA, June 2.—(A.P.)—Announcement was made here yesterday of the marriage in Cleveland, Tenn., last Feb. 13 of Luke Appling, a member of the Chicago baseball club of the American League, and Miss Fay Dodd, of Atlanta. Mrs. Appling is the daughter of Mr. and Mrs. Walter Dodd, of Atlanta. She will leave for Chicago today to join her husband.
