

Joe Justice Raps Homer To Decide Fed-Senator Tilt

Zedalis Bests Kettles In Hurler's Duel To Cop 4 To 3 Game A's Here Tomorrow

ORLANDO, June 10. (Special)—Joe Justice's sailing home run in the seventh frame with Craig Lybrand resting on the keystone sack proved to be the needed margin of victory for the Orlando Senators in a hard fought 4 to 3 contest in which Stan Zedalis and Carl "Goose" Kettles tangled in a nip and tuck hurler's duel.

Justice's four ply poka was the second game deciding blow of its kind that the former Rollins College star has unleashed this year against the Casey Feds.

The Orlando infield gave Big Zedalis nearly perfect support and turned in four sparkling double plays, one of which proved to be fatal for the Feds. In the ninth canto with the tying tally on the third pitch, a brilliant double play would be Fed uprising.

The Sanford aggregation outdid the locals 8 to 4, and the new Fed skipper paced the attack with three hits in five appearances at the plate.

The only Senator batter able to reach the offerings of Kettles, the Fed stellar mound ace, for more than one hit was Lybrand who blasted a single and a double in four appearances. Right fielder Ty Brazil hit one single and the bag cleaning round tripper by Justice were the only other hits by the Senators.

Jim Blalock made his first appearance in the Sanford lineup last night and played an excellent contest in the right field garden. Blalock also hit once in four trips.

COMMENTS from the SIDELINES

By ARTHUR BECKWITH, JR.

Jersey City We note that Arnold Finnefrack announced in his column in the Florida Times Union today that the Jersey City club will maintain the Spring training headquarters here in Sanford next year.

Jersey City is a farm club of the New York Giants, and is a mighty good aggregation to have in anyone's park for spring training, but the only catch is that there is not any confirmation in the City of Sanford that the team is going to be in Sanford next year.

It is true that the Giants have inspected the local facilities for the Jersey City outfit, but at 9:00 o'clock this morning there was no confirmation from official sources that negotiations have been completed.

Several central Florida towns are concerned over the change in training sites for the Jersey City club. DeLand is working for the team as well as Daytona Beach and Palatka.

Sanford has the best baseball park and the best hotel facilities in the state for a Spring training season for that matter, but that does not say that the Giants will send their team here.

We sincerely hope that Carl Stubbel and his associates see fit to send the International League club here for their Spring activity, but we are not getting too "pepped up" over the possibility until we are really sure that they have fully agreed to make this their headquarters.

Sanford certainly will welcome the Jersey City team if they come here for their pre-season activity next year. We want the New Jersey city aggregation to come here next Spring. Sanford needs the Giant farm club and the Giant farm team needs Sanford.

The Boston Red Sox led the American League in fielding in 1946 with a .877 mark, the same percentage posted by the Cleveland Indians in 1945, fielding leaders that year.

ROLLINS SIGNS GRID CONTRACT WITH FLORIDA

ORLANDO, June 10. (Special)—Rollins College and the University of Florida football aggregations are slated to meet in Gainesville on Oct. 16, 1948. It was announced here yesterday by Jack McDowell, athletic director at Rollins College.

McDowell stated that Coach Ray Wolf of the University of Florida made the initial offer of the contract over a month ago.

Ted Williams Tops Tribune Star Team

CHICAGO, June 10. (Special)—Ted Williams, lanky Boston Red Sox batting star, still was the top vote-getter as the second tabulation in the all-star baseball poll was released today.

Williams polled 948 votes from the 2,565 early ballots forwarded by a few centers. The fans' voting is being sponsored by the Chicago Tribune and 192 newspapers, radio stations and magazines.

The fans' votes will determine the starting lineups, with the exception of the pitchers—who will be selected by the rival managers for the National and American leagues in the 14th all-star encounter in Wrigley Field July 8.

The slugging Walker brothers, Dixie of the Brooklyn Dodgers, and Harry of the Philadelphia Phillies, also were among the favorites in the opening returns.

In the second-day tabulation, Lou Boudreau, Cleveland's manager and shortstop, dropped from first place to second as Luke Appling, Chicago White Sox veteran, surged ahead.

Eddie Miller of Cincinnati batted four home runs for his first four hits this season.

Dick Singletary To Play In Semi-Pro Baseball League

NORMAN PARK, Ga., June 10. (Special)—The Wrightsville club of the Ogeechee League has been bolstered by the addition of three Florida members of the Norman Junior College baseball nine.

Catcher Gilbert Coleman of Haines City, Pitcher Dick Singletary of Sanford, and Secondbase-man Bob Hall of Apopka will perform with the semi-professional team until returning here for football practice September 1.

Aurelio Ibanez, the Bears' sensational Cuban shortstop, is on loan to Statesboro's entry in the Ogeechee loop. He will join a former Norman ace moundman, James D. Hall of Norman Park, in the Statesboro lineup.

NASHVILLE IN THIRD
ATLANTA, Ga., June 10. (Special)—Nashville, currently hitting .330 as a club, held third place in the Southern Association today after Rube Walker's 11th and 12th home runs gave the Vols a 4-1 victory at Atlanta last night.

Walker, the League pacesetter in circuit blows, poled one in the fourth to tie the score, drove in the winning run with a long fly in the sixth, and then hit his second roundtripper in the eighth for good measure and a victory for Pete Maltry. George Diehl was the loser.

Babe Didrikson Is In Fourth Round

GULLANE, Scotland, June 10. (Special)—Mrs. Babe Didrikson Zaharias of Denver and Miss Ruth Woodward of Fall River, Mass., fought their way into the fourth round of the British Women's Amateur Golf Championship today as their fellow American, Miss Helen Sigel of Philadelphia, bowed out in a third round match.

Playing true to form, the highly favored Babe had little difficulty in polishing off Mrs. Val Reddan, former Irish champion, by a score of six and four.

YESTERDAY'S STARS
NEW YORK CITY, June 10. (Special)—Walker Cooper, Giants, hit two home runs to drive in five runs in their 13-10 triumph over Pittsburgh yesterday; his second homer came in the bottom of the ninth inning with two on.

New Federal Farm Program Is Suggested

Need Cited For Universal Training; Truman Urged To Sign Tax Cut Bill

By WILLIAM T. PEACOCK
WASHINGTON, June 11, (AP)—A new scheme for government planning to keep farm prices approximately steady today was offered to Congress.

Its big points:

1. A government-backed "buying pool." This would stand ready to buy non-perishable farm products at "fair" prices. The idea is that in times of surplus, when prices tend to go down, this buying pool would hold them up to the "fair" level. When supplies were scarce, the pool would sell.
2. A special tax on the first sale of commodities coming under the plan. This would provide money to take care of losses on the pool's operations.

John Brandt, of Minneapolis, president of the National Cooperative Milk Producers Federation, presented the plan to the House Agriculture Committee which is studying the question of a new, untried, federal farm program.

The House itself took up a bill to appropriate \$58,850,257 for those government agencies which have run into unexpected expense and need the money to finish out this month, last of the government's current fiscal year. A big part is for the Veterans Administration which has found many veterans benefit laws are costing more than was anticipated.

Mongolian Invasion Of China Extends Red Expansion Pattern

Less Than 5,000 Jews Have Gained Palestine Entry

Plans Underway For Mass Movement Of European Jews

By GLENN BARR
AP Foreign News Analyst

If the alarms being sounded in Nanking prove true, the worldwide struggle against the spread of Communism has extended to the great interior plateau of Asia, the roof of the world. That is an area where nearly all interests are in favor of the Red Forces; there is little the anti-Communist elements can do to oppose any advance.

The Chinese official news agency's version is that troops of the Mongolian People's Republic (outer Mongolia), supported by four planes bearing Soviet aviators, crossed the border into Sinkiang, or Chinese Turkestan, and marched some 200 miles before meeting opposition. That would be easy enough in those distant, desolate wastes.

The reason for the invasion, it is said, remains obscure. Doubtless if there is military action in progress we shall have shortly some account from the other side, some familiar story of border violation or other justification for punitive action. It is doubtful that the outside world ever will know much about what really is happening.

However, it is impossible to separate this flare-up on one of the frontiers from the worldwide pattern of Russian pressure and expansion. Outer Mongolia recently has an independent republic, having won its freedom from China late in 1945 as the result of a plebiscite which followed the Soviet model of near-unanimity. The plebiscite itself was one of the concessions the Kremlin wrung from China in the treaty signed just as Japan was collapsing and which carried so many seeds of Russian-Chinese discord.

But Mongolian independence is strictly qualified. The first major act of the infant republic was to sign, on Feb. 27, 1946, a treaty of friendship and mutual assistance with the Soviet Union.

Caldwell Says No Money For TB Sanatoria

Governor Tells Boys State People Wanted Appropriations Without Taxation

TALLAHASSEE, June 11, (AP)—Governor Caldwell said today the \$2,500,000 appropriated by the 1947 Legislature for construction of new tuberculosis sanatoria probably will not be available for expenditure.

In a letter to Chairman W. T. Edwards of the Tuberculosis Board and to its members, Caldwell said in view of the fact that the Legislature failed by about \$25,000,000 to match its appropriations with revenue, it will be impossible to make the allocation in the near future if at all.

Addressing about 350 American Legion Boys' State delegates today, Caldwell said the 1947 Legislature "failed to match its appropriations with money to meet them because the people of the state said 'appropriate, not tax.'"

He said the deficit occurred "not because the legislature was unable to add but because the people of the state had not said that if \$78,000,000 were appropriated for schools, \$78,000,000 had to be placed in the Treasury."

"If the people of Florida had said in the next legislative year and their needs must be met," the Legislature would have put money in the Treasury. Then we could have said to the University 'make your plans. There is money in the Treasury to meet your demands.'"

Caldwell told the youngsters the Legislature had made "great strides in education because the people of Florida came to the conclusion Florida's future is wrapped up in the degree of education given future citizens of the state."

"All of the troubles of the State will be solved if we have more money in the Treasury," he said.

Truman Pledges U.S. Efforts In Promotion Of Peace And Prosperity Of The World

Awaiting Rescue In Flooded Ottumwa Street

WHILE THE MAN AT THE EXTREME RIGHT (far right) waits to be rescued, others are shown clinging to a street sign in Ottumwa, Iowa, flooded street, as a result of excessive rains (background). The overflowing river has forced some 6,000 people from their homes in Ottumwa. Rescue officials said the death toll probably reached 100. (AP Photo)

President Addresses Canada Parliament; Okeys St. Lawrence Waterway Project

OTTAWA, June 11, (AP)—President Truman told a handclapping Canadian Parliament today that the United States intends to aid those nations who seek to live at peace and prosper by "expending our energies and invest our 'goodwill' in promoting world recovery."

The American Chief Executive drew round after round of applause as he drove home to the legislature of this "good neighbor" to the north his oft-repeated challenge to aggression.

"We intend to aid those who seek to live at peace, without seeking or being coerced, without intimidation or being intimidated," he declared.

The President's speech was interpreted by many as a proposed extension of the Truman Doctrine beyond the \$400,000,000 Greek-Turkish aid program and the \$350,000,000 relief measure for other devastated countries.

Mr. Truman also called for completion of the St. Lawrence Waterway Project, which has long been the subject of controversy in the United States.

According to the hope of the future was "to multiply the fruitfulness of the earth and to distribute its benefits among all mankind," the President added.

"At this crucial point in history, we of the United States are deeply conscious of our responsibilities to the world. We know that in this trying period, between a war that is over and a peace that is not yet signed, the destinies and the oppressed of the world are at stake."

Bulgaria Hit By U.S. For Arrest Of Anti-Red Chief

WASHINGTON, June 11, (AP)—The United States today denounced the Bulgarian government's arrest of the anti-Communist leader in Bulgaria.

A statement issued by the State Department said that in putting Petkov on trial, the Bulgarian government also will go "on trial in the minds of many Bulgarian and certainly in the opinion of all freedom-loving peoples outside Bulgaria."

Petkov was arrested "arbitrarily" last week on a charge of conspiring with subversive foreign and domestic elements to overthrow the existing government.

1947-48 Resident Fishing Licenses Now Available

Resident State fresh water fishing licenses for 1947-48, numbering 2,250 arrived this morning at the office of County Judge R. W. Ware and were immediately put on sale at \$2.00 each. Present licenses, according to the Game and Fresh Water Fish Commission, expire June 30, 1948.

During the past season, approximately \$5,181 was received at Judge Ware's office from sale of fishing licenses. This amount included 225 resident licenses at \$2.00 each; 100 non-resident licenses at \$7.50 each and 275 of the 10 day licenses at \$2.75 each. Resident fishing licenses issued in 1946 totaled 1,175.

In order to secure a resident license a person must be a resident of the United States who has lived in Florida for six months or more. Licenses are not transferable and should be carried on the person while fishing. No license is required for fishing with pole and line in the county of legal residence. County residents may fish with up to three poles and lines.

The day's bag limit per person is indicated on the license as eight black bass not less than 12 inches long from nose to fork of tail; 20 speckled perch; 15 jacks; 20 bluegill; 20 cracker; warmouth; perch; red breast; stump knucker; other species of bass or 25 of a mixed string.

Sales or shipment of any fresh water fish except catfish, garfish, muskie or black drum is prohibited. March is the closed season on black bass for the 14th District which includes Seminole and adjoining counties.

Committee Finds Federal Housing Agency 'Failure'

By WILLIAM F. ARBOGAST
WASHINGTON, June 11, (AP)—The House Appropriations Committee declared today the Federal Public Housing Authority has "failed miserably" to meet its purpose.

It said more than 31 percent of all public housing, intended for low income tenants, is occupied by persons who make more money than the maximum permissible or are otherwise ineligible.

"The FHIA," it said, "has taken virtually no action to rectify this situation."

The committee said a provision of the U. S. Housing Act which called for the elimination of one slum dwelling unit for every dwelling unit built by the government "has been almost completely ignored and the slums have continued to develop and grow."

The report, prepared by the committee's investigating staff, was released as the House prepared for comment on the bill.

\$1,000,000 Honolulu Fire Destroys Hangar

HONOLULU, June 11, (AP)—A roaring fire destroyed the main hangar and two smaller planes at Honolulu airport last night.

Unofficial estimates placed the loss at \$1,000,000 or more. Flaming destroyed equipment, machinery and plane parts as well as a Navy C-54 "Skymaster" and a Pacific Airlines DC-3. One firefighter was treated for minor injuries in the only reported casualty.

The fire started in a corner of the 200-yard long wooden hangar used by Pan-American, United and Trans-Pacific Airlines. It was controlled within an hour by Honolulu, Pearl Harbor and O'Hare field firemen. The cause was not immediately determined.

Senator Holland To Address Meet On Labor Day

Senator Howard L. Holland has accepted an invitation to speak at a dinner to be held at the Mayfair Inn Labor Day night following an all day celebration and regatta on Lake Monona. Ed Wendt, manager of the Seminole County Chamber of Commerce, told the board of directors at a meeting held at the tourist center last night.

Following a report by H. H. Coleman, chairman of a committee to study the regatta as proposed.

Group To Check On Sponsors Of Wallace Speech

WASHINGTON, June 11, (AP)—The House today took steps to check on the sponsors of a speech by Charles C. Wallace, former U. S. ambassador to the Soviet Union, at the American Legion in Washington, D. C., on June 12.

The House Committee on Un-American Activities today announced that it had received information that Wallace had been invited to speak at the American Legion in Washington, D. C., on June 12.

James Rivers Is Guest Speaker At Kiwanis Meeting

TOLEDO, June 11, (AP)—James Rivers, former U. S. ambassador to the Soviet Union, was the guest speaker at a meeting of the Kiwanis Club of Toledo, Ohio, today.

Rivers, who served as ambassador from 1943 to 1946, was introduced by the club's president, John W. Yelley.

Plan Outlined To Aid Small Businesses

WASHINGTON, June 11, (AP)—Small business will suffer most if business recedes, the committee for economic development said today. It urged tax reduction and the formation of private "capital banks" to strengthen little businesses.

The system of capital banks, or savings expressly to provide long-term loans and buy stock in new or small companies, would help give needed assurance to small business "that its credit sources will not dry up in emergencies," a CED statement said.

FBI Loyalty Checks Delays Foreign Aid

WASHINGTON, June 11, (AP)—Time-consuming "loyalty checks" by the FBI and other preliminaries raised the prospect today of a delay of several weeks in the start of full-scale American military-economic aid to Greece and Turkey and emergency relief to other countries.

Congress directed individual FBI investigations of all key personnel in approving the \$100,000,000 Greek-Turkey recovery program and the \$350,000,000 relief program for six European nations and China.

Automotive Industry Faces New Strikes

DETROIT, June 11, (AP)—The automotive industry, beset by a series of new labor troubles today that forced production shut-downs at plants of the Hudson Motor Car Company and the Continental Workers developed a few hours after 15,000 Hudson CIO United Auto Workers refused to cross picket lines set up by an estimated 600 Hudson office workers who are seeking wage increases.

These two newest strikes developments came within hours after a threatened crisis had been averted through a zero-hour contract agreement between the CIO United Auto Workers and the Briggs Manufacturing Co.

Red Hat Manager Bill Steinecke Will Not Return Under Old Conditions

DELAND, Fla., June 11, (AP)—A possibility that Bill Steinecke may remain manager of the Deland club in the Florida State League appeared today although he said he would not return "under the old conditions."

Speaking from his home in St. Augustine last night, Steinecke said that Jim Sweeney, a spokesman for Deland, had informed him his resignation had been refused.

The Red Hat manager said earlier he had given his resignation to Jimmie Robertson, Deland Club president, but Robertson was unavailable for comment.

Business Manager Bill Page said he had received no official notification of Steinecke's action but expressed the opinion "things will iron themselves out."

"Sweeney is a good friend of mine and I understand there may be a new deal at Deland," Steinecke said. "If Sweeney has anything to do with it, I think some deal will be worked out and I'll be back. But I won't return under the old conditions."

While the Red Hat "fired" by acting manager Gene Gioles, an outfielder, were dropping their ninth consecutive game at St. Augustine last night, Deland baseball fans, headed by Sweeney, held a special meeting to discuss the situation. Sweeney is not a club officer.

Steinecke said "It all dates back to Chuck Aleno leaving the club. Since then the club has gone from bad to worse and it might be better if I stepped out."

Aleno, former Cincinnati Reds third baseman, played for Deland until a week ago, leading the league in hitting with a .420 average. He since has accepted a contract with the Atlanta Crackers of the Southern Association on the basis of a provision in his agreement with the local club.

Steinecke also said there were "two strikes" on him in the circuit, the umpires were after him, and that some persons in the league were out to get him.

Light Co. Employees Given Pay Increase

Nearly 100 local employees of the Florida Power and Light Co. today received pay increases, averaging 13 percent, retroactive to May 3, as provided by a renewal of a labor contract with the International Brotherhood of Electrical Workers.

According to information received today by H. H. Coleman, local manager, from McGowan Smith, president of the firm.

Similar pay raises for non-supervisory employees not on the operating department covered by the contract are also being made effective back to May 3, said Mr. Coleman.

Base pay raises for both groups of employees are state-wide and total about \$700,000 per year and affect about 30 percent of the company's employees.

Temporary Capital Picked By Moslems

NEW DELHI, June 11, (AP)—The Muslim League today selected the temporary capital of the proposed state of Pakistan, the Arabian city of Karachi, which American troops are to occupy under the terms of the UN plan.

Liaquat Ali Khan, leader of the Muslim League, today announced that he would be leaving for Karachi to take up his duties as the first governor of the new state.

Khan said the first session of the Muslim Constitutional Assembly probably would be held in Karachi.

Tomorrow Will Be Final Day To Take TB X-ray Exams

Thursday will be the final day for x-ray tests by the State Mobile Unit, which will be located in Midway near State Avenue, and the stationary unit which is located in the Seminole County Health Unit headquarters on Commercial Avenue. Hours are 9:30 to 11:30 A. M. and 2:00 to 4:00 P. M.

Today the mobile unit conducted tests of negroes on Sanford and near the Lovett Grocery Store.

Dr. W. V. Blitting, president of the Seminole County Chamber of Commerce, today urged all members of the organization, physicians and friends to take advantage of this free x-ray check-up offered by the State Board of Health.

"It is imperative that we protect the health and welfare of our community by cooperating with the effort of screening the populace from tuberculosis and knowing where the sources of infection lie," Dr. Blitting said.

George Touhy, president of the Tuberculosis Association, today urged civic groups and residents to telegraph Governor Cabell to make House Bill 838 as passed by the State Senate and House a law. He warned that if the bill is vetoed new sanatoriums at Tampa and Marianna will be closed. The bill permits counties to send more patients to TB hospitals by reducing the per day cost per patient to the county from \$1.25 to 75 cents each.

Gromyko Offers New Proposal On Atomic Control

LAKE SUCCESS, June 11, (AP)—Russia today called on the United Nations to establish a world commission "for strict international control over all facilities engaged in mining of atomic raw materials and in production of atomic materials and atomic energy."

Speaking in English, Soviet Deputy Foreign Minister Andrei A. Gromyko told the 12-nation U.N. Atomic Energy Commission that such an international group, operating within the framework of the veto-conscious Security Council, would have access to "any facilities for mining, production and processing of atomic energy."

Reds Charged With Mongolian Invasion

NANKING, June 11, (AP)—A Chinese government spokesman, declaring "this is an ordinary frontier incident," charged Russia today with partial responsibility for an alleged Mongolian invasion of China's remote Sinkiang Province.

The government instructed its ambassador in Moscow to protest the incident to both the Soviet government and to the outer Mongolian minister there as the aftermath of a punitive campaign which carried a Mongol cavalry battalion 50 miles into China.

Chang Yuan-Chang, foreign office spokesman, gave no reasons why China was protesting directly to Moscow and declined comment on whether warplanes with Soviet markings had been reported by the official Central News Agency. Outer Mongolia, however, is pro-Soviet.

Flood Outlook

ST. LOUIS, June 11, (AP)—The prospect of additional rain in the Missouri River watershed worsened the outlook along the flooding river in central Missouri today, but the flood picture improved gradually in southeastern Missouri and northern Illinois as the Mississippi continued to fall in that ravaged area.

First Step Taken In Vote Fraud Inquiry

KANSAS CITY, June 11, (AP)—The government took its first step today in a federal investigation of the 1946 primary election here with U. S. District Attorney Sam M. Wess calling for a court order to inspect all records and ballots in the election.

Wess simply said he would ask for the impounding order "to be made on the safe side" but the action indicated the possibility of a federal grand jury since that is the only federal authority empowered to open ballot boxes.

EVIC MUSIC

Miss Katherine Brock is expected to arrive here Friday noon to confer with officers of the Seminole County Civic Music Association in regard to the program for the coming season, according to H. H. Coleman, president. Miss Brock introduced the program in Sanford during the 1946-47 season.

JAYCEE MEETING

A. T. Wright, superintendent of stations for the Florida Airways, Inc. will speak at the Jaycee Chamber of Commerce luncheon Thursday at the Mayfair Inn. The talk will be on "The Future of the Airway."

PRESBYTERIAN BANQUET

LAKELAND, June 11, (AP)—The Rev. W. Monte Johnson of Lakeland today assumed the post of moderator of the Florida Synod of the Presbyterian Church, succeeding the Rev. R. A. Campbell of Fort Pierce.

ARABS TO STRIKE IN PROTEST OVER INQUIRY

JERUSALEM, June 11, (AP)—Emil Klorer, Palestine Arab leader, predicted today that Arabs would effect a "100 percent stoppage of work" Monday, in a strike on the first day of the United Nations Inquiry Commission's meetings in the Holy Land.

"Our people are in despair about the future of their country," he said in an interview. "They will strike, and if necessary, they will not stop."

Arabs have feared many things from the Jews. Among them is the fact that force seems to be the only way a people can protect its rightful position.

SPINS TO DEATH

NORFOLK, Va., June 11, (AP)—Ensign Richardson A. Odum, 23, lost his life yesterday afternoon when his Helioctop plane went into a spin and crashed in the Atlantic ocean 37 miles southeast of Chesapeake.

Odum was a member of a squadron attached to the operational development force, Atlantic fleet and based at the Chesapeake Naval Auxiliary Air Station. He was the son of Clarence R. Odum, of Holly Hill, Fla.

RUC BIDS

Bids will be received Thursday on two school buses to be purchased by the County when the Seminole County Board of Public Instruction meets at 10:00 A. M. It was announced this morning by Sgt. T. W. Lawton. Bids have also been advertised for sale of shop equipment at the Lynn School in Longwood, which equipment has not been in use for several years due to lack of an instructor in shop practice.

The Legislature's Work

Although the legislative session, which has recently closed in a record-breaking session, is over, the work of the Legislature is not yet finished.

WHAT THE Legislature actually accomplished will not be clear until the Governor has had time to act upon the various bills which have been brought before him for his signature.

Recent political developments in the Republican camp make it appear that Governor Dewey has chosen to run for re-election in 1948.

Mark Ethelridge, who was elected to the United States House of Representatives in 1946, has been re-elected to the same office.

How did you like the pink paper on which the bill was printed yesterday? That color was chosen because it is so attractive.

It just means that the newspaper industry is doing its best to provide the public with the most up-to-date news.

A friend of ours comes in to remind us that Father's Day is on June 16 and that is a special occasion for every family.

Henry Wallace says the United States is the strongest nation in the world because of its democratic principles.

The National Labor Association is confronting with the general strike, which is the highest paid in the United States.

Senator Pepper calls upon the Senate for a minimum wage law of 75 cents an hour.

DERKINS ROBSON Correct Men's Wear AIR-CONDITIONED REMEMBER FATHER'S DAY... JUNE 15

Mongol Invasion

(Continued from Page One) aid with the Soviet union. Soon thereafter Moscow was sponsoring its application for membership in the United Nations, a bid which was rejected by the western powers.

Actually the Mongolian people's republic is one of the oldest examples of the puppet state, and one of the most effective. It moves at Moscow's bidding and if Russia does have designs on Sinkiang, and she has given evidence of such in the recent past, Mongolia would be the logical instrument for pushing them. The Mongolian army, a far-removed and feeble descendant of the hordes of Genghis Khan befell the Russians came in, now is trained, supplied, guided by the Red army.

A movement into Sinkiang would be a flowing back of Russian power, rather than a new expansion. Russian influence for decades has been strong in that westernmost territory of China. It is the logical of the Sino-Soviet trunk line brought it well within the Soviet economic orbit and this hold has been reinforced by the new feeder branches of the Turkish built and building as part of the Soviet Union's current five-year plan.

From 1934 to 1942 Sinkiang, which has a population of perhaps 1,000,000 and an area of about 600,000 square miles, was under virtual Soviet domination. Russian controlled agency, the Soviet export, monopolized Sinkiang's export trade. Russian troops, wearing Chinese uniforms, were reported stationed at Hami. In 1942 when Russian fortunes in World War II were low, the Chinese succeeded in organizing a Russian withdrawal and resumption of full Chinese control.

Sinkiang lies at the juncture of three tremendous land masses, Russia, China and India. Were it more developed and less average physically, Russian penetration there would doubtless cause immediate alarm throughout the western capitals should they be aware of the world's great east mountain ranges and most forbidding wastelands isolate it from the great Atlantic centers of population. Even so, with India soon to be cut loose from British protection and with China in tragic upheaval, there will be

Housing Failure

(Continued from Page One) pared to consider cuts in Housing Agency funds for the fiscal year starting July 1. Other general statements made by the committee included these:

- 1. The FHVA has failed to disclose of wartime housing and has inaugurated a "socialized scheme of disposition to mutual organizations which completely ignores any veterans' preference, unless the veteran was already in occupation."
2. Despite the housing shortage in this country, the FHVA sold in France last year 8,110 new prefabricated units.
3. Some FHVA records were in such a "catastrophic condition" that a reputable accounting firm declined to audit them.
4. The agency has followed "extravagant personnel policies resulting in overstaffing and duplication of work. The investigators recommended the closing of all regional offices."
5. The veterans' emergency housing program is "a dismal failure."
6. There has been definite indication that the agency appears partial and paternal to the United People Workers of America (UPWA), and in San Diego has employed used their positions "to intimidate local housing authorities into giving preferred treatment to UPWA strikers."
7. In the San Francisco area allegations were made that building materials were fraudulently given to private builders by FHVA employees; that political contributions were solicited and obtained by FHVA; that regional offices gave lucrative contracts for serving surplus material to individuals who had no facilities and took no responsibility.
8. In one instance, an FHVA desk made available to the committee investigator was found "crisscrossed with copies of the local Communist paper."
9. Many FHVA bulletin boards "carry propaganda urging pressure on Congress on behalf of the UPWA union and castigating Congress for its attempts to shackles labor."

Bulgarian Issue

(Continued from Page One) investigation of the situation in Hungary. It was possible that some last minute changes were made by the text of the note by Secretary of State Marshall, who went over it finally "lightly" before it was sent out.

State Department officials declined to detail the note's proposal immediately, but it was learned that the message on this country's files was sent to Soviet Lieut. General V. J. Siviridov, chairman of the Allied Control Commission in Hungary, with copies to Moscow and to London. As the document was originally prepared, it accused the Soviets of unjustified interference in the internal affairs of Hungary and of violating the Yalta agreement, proposed the three-power investigation with the threat of taking the whole case to the United Nations unless satisfactory information can be turned up absolving Russia of the American accusations.

The late President Roosevelt, Prime Minister Churchill of Britain and Generalissimo Stalin of Russia reached an agreement at a Yalta conference regarding policies to govern occupation of enemy nations. Diplomatic officials indicated today that the term "United Nations" is not actually used in the text of the note, as finally sent, but said there was no mistaking that an appeal to the United Nations is the ultimate move.

added cause for concern in the western capitals should the Red banner be carried across Sinkiang to the mountain passes.

RADIO PROGRAMS

Table listing radio programs and stations. Columns include Station WTRR, Time, and Program Name. Programs include 'The Hour of the Day', 'March of Songs', 'Headline News', 'The Morning News', 'The Evening News', 'The Sunday News', 'The Monday News', 'The Tuesday News', 'The Wednesday News', 'The Thursday News', 'The Friday News', 'The Saturday News', 'The Sunday News', 'The Monday News', 'The Tuesday News', 'The Wednesday News', 'The Thursday News', 'The Friday News', 'The Saturday News', 'The Sunday News'.

Wallace Sponsors

(Continued from Page One) H.C.N. has called committee members to a meeting Thursday to approve and sign the report. Senator Pepper (D-Ela.) scheduled to introduce Wallace, former vice president and governor of commerce, on a program arranged by the Southern Conference at the Water Gate Amphitheater on the banks of the Potomac River here Monday evening.

Advocates of the program are Zero Mostel, radio and stage comedian; Dr. Clark Forester, conference president; and Dr. Joseph L. Johnson, chairman of the Washington committee in charge of the event. The conference is charging 20 cents to \$4.00 for some 2,000 seats. A conference "book" has been sent to Wallace and Mostel will be paid for travel expenses only, and net proceeds will be used for "regular work" of the organization, chiefly in Washington.

The Water Gate, near the Lincoln Memorial, is operated by Government Services, Inc., under control of the National Capital Parks System. Government Services is a non-profit organization which also runs cafeterias in government buildings and various recreation facilities.

CHICAGO, June 11. (AP) - Temperatures fell considerably below normal over the northern great plains and upper Mississippi Valley today, with some readings below freezing. In addition, the U. S. Weather Bureau reported a new storm developing in the northern Rocky Mountain region, which it said could bring additional rain to the flooded middle Mississippi Valley by tomorrow night or Friday.

The frigid June temperatures fell as low as 28 at Bend, Ore.; 31 at Austin, Nev.; 31 at Williams and Dickinson, N. D.; and Chadron, Neb., as at Great City, S. D.; and 37 at Lewiston, Mont., and Houghton, Mich.

Jewish Refugees

(Continued from Page One) last May 15 a total of 29 Haganah ships with 31,920 passengers had been intercepted. Haganah is the Jewish underground defense organization in Palestine. The Hebrew committee has sent one ship, the Ben Hecht, which was intercepted.

Favorite debarkation points in around Marseille. Other ships have sailed from Italy and a few from Yugoslavia. The most frequently used Black Sea port is now Constantza. Ships are purchased in America and sail under the registry of some South American republic.

Jews have little trouble in leaving any European country except Russia, which officially frowns on the Zionist movement. Immigrants move across Europe on transit visas to concentration points. At these points leaders experience the greatest difficulties of the migration when as many as 1,000 persons from five or six different countries are housed and fed, then moved with the careful timing of an army's movement to a rendezvous with a vessel.

Truman's Speech

(Continued from Page One) the earth look chiefly to us for sustenance and support until they help us to help them. We are not aware that much depends upon the latent strength, the economic stability and the moral stamina of the United States. We face this challenge with determination and confidence.

"Free men everywhere know that the purpose of the United States is to restore the world's health and to re-establish conditions in which the common people of the earth can work out their salvation by their own efforts. We seek a peaceful world, a prosperous world, a free world, a world of good neighbors, living in terms of equality and mutual respect, as Canada and the United States have lived for generations.

"We intend to support those who are determined to govern themselves in their own way, and who honor the rights of others to do likewise. We intend to aid those who seek to live in peace with their neighbors, without coercion or being coerced, without intimidating or being intimidated. We intend to uphold those who respect the dignity of the individual, who guarantee him equal treatment under law, and who allow him the widest possible liberty to work out his own destiny and achieve success to the limit of his capacity.

"We intend to cooperate actively and loyally with all who honestly seek, as we do, to build a better world in which mankind can live in peace and prosperity. We count Canada in the forefront of those who share these objectives and ideals. With such friends we face the future unafraid."

Mr. Truman, who arrived in this country yesterday with Mrs. Truman and their daughter, said that Canada and the United States had set an example to the world by living together for years "in harmony for the common good." Canada and the United States have reached the point where we no longer think of each other as "foreign countries." He said, but as "peaceful and cooperative neighbors on a spacious and fruitful continent."

United Nations

(Continued from Page One) stacking of atomic materials. Gromyko said that in fulfilling its tasks of control and inspection, the proposed commission would have the right of "requesting from the government of any nation and checking of various data and reports on the activities of atomic energy facilities." He added the Soviet Union would insist that the task on prohibiting atomic weapons be considered from the viewpoint of its "necessity." He did not change his basic position for immediately outlawing the bomb and only then for a convention setting up atomic controls. In a speech given wide advance

Holland To Talk

(Continued from Page One) by the Coast Guard Auxiliary, the directors voted to underwrite the project to the extent of \$750 after it was indicated by Mr. Coleman and Al Lee, speaking for the Coast Guard, that sufficient revenues could reasonably be expected from the affair to provide the prizes and meet all expenses.

Frank Shames, vice president, presided at the meeting in the absence of W. V. Bittling who was the Mr. Coleman read the treasurer's report and George Stine reported on the American Legion's memorial project. Mr. Higgins said that the membership drive of the trade body has been even more successful than last year and that the organization now has 314 members.

He also commended the Seminoles County delegation in the State Legislature and reported that efforts to have French Avenue made a state road have been successful and that work on re-paving of this thoroughfare will begin in the near future.

Kiwanis Meet

(Continued from Page One) munity. Mr. Rivers declared that WTRR is a station of strictly modern equipment. In from 12 to 18 hours it could be changed from the present AM (amplitude modulation) to FM (frequency modulation) which is the reason the tower was built so high. Power can be increased easily by addition of but little equipment.

Records of more than 4,000 musical selections, popular and classical, sacred and folk tunes are kept on file at the station and these are added to a new tunes come out from publishers under ASCAP, BMI and other groups with which the station has contracts, he declared. Scripts are required for all programs other than those of a devotional nature, he revealed, and a written log is kept for a three year period of all announcements. The station has the right to edit scripts, he pointed out, and can reject copy if necessary.

United Press service came by leased wire from New York to the teletype machine with the latest news, also from U. P. correspondents in Florida, he said. Asked if television will come soon to Florida, he replied that he did not look for this soon due to the fact that delays are necessary about every 60 miles to build up the power.

Guests introduced by Joel Field included Dan Murray, new Celery Fed baseball manager, Lindy Lake, Lieut. A. W. Epps, Jr. and Frank Sanders of Haines City. The Rev. D. E. Charles, Presbyteran minister of Richmond, Va., was introduced by Dr. E. D. Brownlee. Dr. H. W. Rucker led the singing of Happy Birthday for Jack Russell following the birthday announcement by Raymond Kader. Lester Tharp presided at the meeting.

NO MONEY WORRIES FOR SAVERS

The problems of every day living—and life's emergencies, too—are more easily met when you have a reserve savings fund. Build real security for your family by saving a portion of every paycheck in a savings account here. Savings insured to \$5,000. Start now.

Congressional Action

(Continued from Page One) House itself was down for \$65,000. Its committee expenses and telephone bills are running ahead of estimates. The Senate went on with debate on the so-called Bulwinkle bill, concerned with railroad rate-making, which has occupied it all week.

Senator George (D-Ga.), top Democrat on the Senate's tax-writing Finance Committee, urged that President Truman sign the GOP-backed income tax reduction bill. WASHINGTON, June 11. (AP) Dr. Karl T. Compton urged Congress today to speed military instruction for the nation's youth, saying it would not be "safe" to count upon international disarmament.

Dr. Compton, chairman of President Truman's special commission on universal training, told the House Armed Services Committee that it would be "too late" to muster a big army in the event of a sudden attack in another war. "We'll need trained men and we'll need them fast," he said. Compton, a scientist and President of Massachusetts Institute of Technology, testified at the opening of hearings on the commission's recommendation for compulsory training of America's youth.

Replying to a question from Rep. Cole (R-NY), Compton insisted that the United States ought to get the training program underway through Gromyko's request for a meeting of the full commission, its first since March 19. Gromyko laid down these points: 1. The International Control Commission should be set up within the framework of the council, where the veto applies. 2. The commission shall have its own inspectorial apparatus. 3. Composition, rights and obligations of the commission, as well as provisions on basis of which it shall act, shall be determined by a special international convention signed by nations. 4. The commission shall be composed of states of the Atomic Energy Commission, shall select its personnel on an international basis, and "periodically carry out inspection of facilities for mining and production of atomic materials."

5. The commission shall check existing stockpiles, investigate and verify the accounting and study production operations. 6. The commission shall "have access to any facilities for mining production and stockpiling of materials." 7. Signatory states to the convention prohibiting atomic weapons must have a right to carry on "unrestricted scientific research" directed toward discovery of methods for use of atomic energy for peaceful purposes.

TB Sanatoria

(Continued from Page One) The State came to the conclusion it's good, bad or indifferent according to what they do or fail to do," the Governor declared. Meanwhile in St. Petersburg, Comptroller Clarence M. Gay said he was "confident" the State Cabinet would be "able to get by and do a good job" in running the state on funds available during

derway while working simultaneously in the United Nations for disarmament and universal peace. He argued that the American effort to "attain that objective would be strengthened in international council by adoption of the program. He made these other points: 1. The United States will not be "abridged" by Great Britain for two or three years if another war occurs. 2. There "certainly will be a period of extreme uncertainty" in international affairs during the next five or six years. 3. Asked whether there was any other possibility for safeguarding the country's security, he said: "We don't see any alternative."

4. Acknowledged that he had advocated universal training before being named to the President's commission, but said he had done so because he felt that "we should not let the things we fought for slip from our grasp by being unwilling to follow through." 5. Conceded that there would have to be some adjustments in educational programs but that they wouldn't be "too serious" and would be more than made up by the values received from the program.

WASHINGTON, June 11. (AP) Members of the Senate Foreign Relations Committee dashed cold water today on a proposal to record Congress as favoring a United States of Europe, despite endorsement by Secretary of State Marshall and Winston Churchill. Senator Hatch (D-NM), a close friend of President Truman, told a reporter he does not think it would be wise for Congress to act at this time on the proposal, offered by Senator Fulbright (D-Ark).

"I think the majority of the American people would like to see a United States of Europe, but the initiative must come from there, not here," the New Mexico senator said. In fact, he added, it might be "harmful" to such a move for Congress to attempt to tell Europeans what they should do. They might resent our interference, or become suspicious of our motives, and that would retard any such movement." Despite Marshall's favorable reaction, Senator George (D-Ga.) said he doubts that congressional resolution would have any effect on the European countries involved.
