Water Crisis Drains \$300,000 From Budget

By Donna Estes
Herald Staff Writer

The city of Sanford has either spent or committed more than \$300,000 in the past 52 days trying to solve the problem of EDB contamination of six of its 15 wells and to replace the water from those wells.

The money has come from the utility department's reserve for renewal and replacement fund, \$250,000 of which was set aside to build a new above-ground water storage tank in the city's south end. But that tank will now have to wait, City Manager W.E. "Pete" Knowles said today.

Included in the \$300,000 expenditure is the drilling of two new wells in a park in Hidden Lake subdivision. Contractor for the work, the Meredith Corp. of Orlando, began drilling the wells early this week and have gone beyond 80 feet in depth so far, Knowles said.

The contract between the city and Meredith calls for the wells to be a depth of at least 300 feet, he said. Knowles said the new wells are expected to be on line within six months.

Before Meredith began its work, city crews spent some 27½ man hours over the New Year's holiday weekend laying 12,200 feet of pipeline from a 12-inch and a 16-inch irrigation well to the city

Related Stories Page 3A

transmission lines to carry the additional water for treatment to the main water plant at the Mayfair Golf Course. These two privately owned wells are being used by the city on a temporary basis to make up in part for the water which cannot be used from the six contaminated wells.

While this work is on-going, Knowles said, plans are underway to add larger pumps on the city wells in the U.S. 17-92-Airport Boulevard area to increase their capacity. The city has eight wells at that site.

City water capacity including the two irrigation wells is about 5 million gallons per day and city water customers are using nearly that amount daily, he said. That means none of the wells are given periodic rests, which is the usual procedure. If capacity is expanded at the 17-92 wells, wells can be periodically rested.

Knowles said an explanation has not been found for Well 5 at the golf course remaining free of the pesticide, a suspected carcinogen, despite the contamination of the six sister wells at the field.

EDB (ethylene dibromide) was found in

three of the city's wells at the golf course on Nov. 15 after samples taken by the county were tested at the state Department of Health and Rehabilitative Services laboratory in Jacksonville.

Contamination of a fourth was found little more than a week ago and EDB was discovered in the other two in the last few days.

As contamination was found, the wells were shut down on Knowles' orders.

State officials ordered a stoppage of the use by agricultural and other interests of EDB in September. Thereafter, testing of public and private wells on or near golf courses where the chemical had been injected in the soil to combat nematodes was ordered by the state.

EDB was last used on the golf course in July, 1983.

In Seminole County, while EDB was not found at homes near the Mayfair golf course, it was found at the golf course's private well as well as the city wells. EDB has also been found in private wells near the Rolling Hills golf course, south of Longwood.

Scientists are now questioning whether the contamination came from the golf course or from earlier injections in agricultural areas some distance from the wells.

Ditches Polluted, Midway Residents Say

Sanford isn't the only area of Seminole County with a water problem. Residents of Midway, just east of Sanford, are complaining of fecal matter seeping into drainage ditches.

But none of the officials who have done preliminary investigations have determined the ditches pose a health hazard.

District manager of the state Department of Environmental Regulation, Alex Alexander said: "Our inspector Windell Coble visited Midway on Nov. 21. He conducted a visual inspection of the area, prompted by complaints we received from residents of that community. We have not conducted any laboratory test of the water in drainage ditches there, but Mr. Coble reported that he saw what might be fecal matter in some ditches."

"This is an agricultural area surrounded by irrigation ditches, which raise the ground water level there. Some outdoor toilets are in use in the area, even though they have been outlawed by

the county. The high water may be flushing some of those toilets out into the ditches.

"We hope to get together with county and health department officials to find a solution to this problem, but this is something that is just in an evaluation stage at this time."

"Some Midway residents, who are very concerned about the situation here, I know, been seeking a source of funds that would bring a better sewage system to the area. This is a low-income district that doesn't have the tax base to install the elevated septic tanks and pumps that it might take to solve the problem, if it is a problem related to sewage. But it hasn't been determined if sewage is the problem," Alexander said.

About four thousand people live in the Midway area, according to Alexander.

Director of environmental health for Seminole County, Russell Miller said: "We have done no laboratory testing in Midway on this problem. When we receive a complaint of non-compliance

with the outhouse ban we investigate that problem. We have responded to 34 complaints related to that and we have seen no indication that this drainage ditch problem is actually coming from outhouses or from septic tank failure. I could offer no opinion on a health hazard in that area, except to say that we have acted on all specific complaints we have received."

The contamination, if it exists, Miller said, could be coming from animal waste or from fertilizer.

Seminole County environmental services has taken water samples from Midway ditches, but Cindy Wright, assistant director, said results from those tests are not in. "We will not be able to determine the source of the pollution until we determine what elements the water contains," she said. "Clean up of the problem will depend on the source of the contamination, if contamination is determined. We can't work for a solution until we know what the problem really is."

Man Dies In Truck-Pole Crash

A Orlando man was killed today when the tractor-trailer truck he was driving left State Road 46 west of Sanford at about 10:30 a.m. and sheared a power pole off at ground level. According to the Florida Highway Patrol, a man, whose identification was being withheld pending notification of next of kin, was east bound on State Road 46, east of Interstate 4

and just west of County Road 15, when the rig left the road, snapped the pole, and came to rest near a vacant house where the cab of the rig burned. Fire investigators at the scene would say they had suspicions about the cause of the fire but it required further investigation. The body of the driver was found on the highway.

Land Planning Law At Issue

County Staff-Legislators To Meet

County Commissioner Bob Sturm and county staffers will meet with Seminole County legislators Jan. 17 in an attempt to stave off proposed state law superseding county comprehensive land plans throughout Florida.

"We will be saying 'Hey, guys, we are here and here's what we are doing and we can do it better than what can be done on a state level,'" Sturm said today.

He said county staff members who will accompany him to the informal meeting with the local legislative delegation are: County Administrator Duncan Rose, Assistant Administrator Jim Easton, County Attorney Nikki Clayton and possibly others. However, Sturm is to be the only elected official at the gathering, slated to be held at 3:30 p.m. at the White Marlin restaurant in the Longwood Village Shopping

Center, State Road 434 near Interstate 4.

Sturm said the restaurant was chosen for the meeting because of its convenience to the Longwood City hall where the delegation is to hold its formal meeting at 5:30 p.m.

"We will bring the delegation up to snuff on all aspects of growth management in Seminole County including our codes on land development, land use and zoning, subdivision regulations, comprehensive land use plan, traffic engineering and drainage engineering," Sturm said.

At the official delegation meeting, the only matter on the agenda at this time is a proposed local bill to permit the county's animal control department to cite and ticket owners of dogs running at large.

Sandy Goard

Voter Rolls House Cleaning Set

Seminole County stands to lose about 5,000 of its 82,000 registered voters when the purge of the voter rolls is completed later this month.

Sandy Goard, Seminole's election supervisor, said today 17,012 renewal cards were sent out by her staff to voters her office has not heard from in 2½ years. Of those, 4,322 have not been returned. Those voters' names will automatically be purged from the rolls, along with others who have moved away.

But after the purge, Seminole will still have over a thousand more voters than

2½ years ago when 76,160 were registered.

Mrs. Goard said persons who have voted during the two-year period or have contacted her office to change their addresses to another in-county residence or for a name change are automatically retained on the voter rolls, according to state law.

A number of persons have moved to other counties and their names also will be purged from Seminole's rolls.

New voter identification cards will be mailed to all voters in the latter part of January.

Unemployment Continues To Fall

WASHINGTON (UPI) — Civilian unemployment fell to 8.2 percent in December, a dramatic improvement from the 10.7 percent level at the depth of the recession a year ago and the lowest in over two years, the Labor Department said today.

Reflecting the steady 13-month

economic recovery, the department's Bureau of Labor Statistics said its monthly check of households showed an unemployment drop of 0.2 percentage points in December from the 8.4 percent of November for the lowest figure posted since October 1981.

Florida's unemployment rate fell in December to 7.4 percent, slightly below the 7.8 percent November rate and well below the 10.2 percent jobless rate recorded in January 1983, Gov. Bob Graham's office reported today.

Seminole SAT Scores Stay Among Best

Test Scores, Salaries Show Florida Education Slip

From Staff and Wire Reports

Florida's education system slipped in several key areas, including test scores and teacher salaries, in the decade from 1972 to 1982, according to U.S. Office of Education statistics.

But in at least one of the areas listed — SAT scores — Seminole County students in 1983 achieved an average score of 915, second only to the average recorded by the leading state in the nation, New Hampshire at 925. At the same time, Florida's average statewide was 889. For some years Seminole high schools' SAT scores have been well ahead of the state average.

While state Education Commissioner Ralph Turlington responded to the released national education statistics by saying the state-by-state rankings showed Florida's public education system to be "average" when compared to other states, although in several categories Florida ranked well into the bottom half, a Seminole school system spokesman said some of the figures compare "apples to oranges."

The national statistics showed that among the states showing higher graduation rates than Florida, only two had more high school graduates in 1982 than Seminole County had students.

"The entire state of South Dakota which ranked fifth in the graduation rates had a total of 11,328 high school graduates last year while Seminole County alone had over 2,000 and the state of Florida had 97,893," said Karen Coleman, coordinator of community relations and public information for the Seminole County public school system.

"I think we need to look at how many students are graduating. Sometimes statistics will place one in a position of comparing apples to oranges," Mrs. Coleman said.

The fewer number of students you have the better chance there is that a higher percentage will graduate, she said.

She said she does not quibble with the statistics showing teacher salaries in Florida ranking at 32nd in

the nation, down from 27th in the past 10 years.

"In regard to teacher pay we are in agreement with study. We must look toward more meaningful teacher salaries. Perhaps national attention will help accomplish that goal," she said.

"But we are excited by the national attention being focused on education by this study. It gives us a comparison to work with," Mrs. Coleman said.

In specific categories in the national statistics, Florida showed the following results:

- SAT scores fell from 941 in 1972 to 889 in 1982, while the state's position in relation to the other 21 states ranked by SAT scores fell from sixth in 1972 to a tie for ninth in 1982. (Florida was not listed among the 28 states concentrating on the ACT test.)

- The graduation rate fell from 72.1 percent in 1972 to 65.4 percent in 1982, while the state's relative position fell from 39th to 46th.

- The number of pupils per teacher improved from 22.7 in 1972 to 19.9 in 1982, but the state's relative

position dropped from 34th to a tie for 38th. Seminole averages 1 per 23 to 25.

- The average teacher salary increased from \$9,020 in 1972 to \$15,565 in 1982, but the state's relative position fell from 27th to 32nd.

- Federal funds as a percentage of school revenues increased from 9.7 percent in 1972 to 10.3 percent in 1982, while the state's relative position dropped from 19th to 17th.

- Expenditures per pupil increased from \$861 per pupil in 1972 to \$2,276 in 1982, while the state's relative position dropped from 28th to 27th.

- Expenditures as a percentage of per capita income increased from 19.4 percent in 1972 to 20.7 percent in 1982, but the state's relative position fell from 31st to 37th.

Gov. Bob Graham and the Cabinet have set a goal of moving Florida's education system into the nation's upper quartile. The Legislature chipped in last year with an additional \$225 million and a host of education reforms.

WORLD

IN BRIEF

Druze Bombard Army, Shattering Security Plan

BEIRUT, Lebanon (UPI) — Druze Moslem militiamen today raked Lebanese Army positions along Beirut's southern highway with artillery fire, trapping scores of motorists en route to the capital or work, military sources said.

The sources said at least six civilians were wounded and several cars set ablaze in the barrage, which came hours after Druze chieftain Walid Jumblatt refused to endorse a long-awaited security plan for Lebanon until Moslems are given greater political rights.

On Thursday, officials said the government as well as the leading Christian and Moslem militias in Lebanon had agreed on an accord to remove their forces from frontline positions.

Jumblatt, leader of the Syrian-backed Druze Moslem militias, and other opponents of Lebanese President Amin Gemayel say he has not gone far enough in assuring a political voice in the government for the Moslems, who are estimated to be Lebanon's largest religious group.

Jaruzelski, Glomp Meet

WARSAW, Poland (UPI) — Polish leader Gen. Wojciech Jaruzelski and Roman Catholic Cardinal Jozef Glomp held their longest meeting ever but apparently reached no agreement on the release of jailed Solidarity union members.

A four-sentence communique by the official Polish news agency PAP on the five-hour talks Thursday referred only to an exchange of views between the two leaders.

It was believed that Glomp, the spiritual leader of Poland's Catholics, asked Jaruzelski to release all political prisoners, especially "the Solidarity 11," a group of prominent union officials and dissidents who have been in jail for almost two years without a trial.

Authorities recently said charges against the former leaders of the union, banned since 1981 when Jaruzelski declared martial law, could be dropped if they agreed to emigrate.

The 11 branded the offer an insult and pledged not to leave Poland, family sources said.

Price Hikes Suspended

TUNIS, Tunisia (UPI) — The government today suspended its order raising the price of bread for the first time in 15 years, triggering celebrations in the North African country after more than a week of violent protests.

Thousands of motorists blasted their horns in a sign of joy after President Habib Bourguiba, in a five-minute radio and television address, announced a three-month suspension of price increases averaging more than 100 percent for bread and cereals.

It was the first public announcement by the 80-year-old president for life since rioting began Dec. 29 in the impoverished southwest, then spread north to engulf the capital Tuesday.

Government sources said at least 50 people were killed and hundreds injured in the unrest.

EPA Steps Up Probe Of EDB Pesticide

WASHINGTON (UPI) — Growing concern about the health hazard posed by the cancer-causing pesticide EDB is prompting the Environmental Protection Agency to drastically speed up action that could further restrict its use.

But while the agency announced Thursday it will soon decide whether to order an emergency suspension on EDB use as a fumigant for stored grain, EPA Administrator William Ruckelshaus tried to calm public fears about traces of the substance found in grain-based food products.

Speaking in Dallas, he said the EPA will not decide whether to ban the widely used chemical or set tolerance levels until tests and research efforts are completed, possibly later this month.

"I have no evidence that public health has been endangered. But since EDB is a potent animal carcinogen, it is possibly a human carcinogen," said Ruckelshaus.

"We should have moved faster, but we have the responsibility of balancing risks against benefits," he added. "If we thought there was a major health risk

involved, we would move faster, but we are not convinced."

In Washington, the agency said it will move forward on "three issues simultaneously" involving EDB:

—As soon as possible, decide whether to order an emergency suspension of EDB use as a fumigant for stored grain and on grain milling machinery.

—Start work on revoking a government rule issued in 1956 that prevents the EPA from setting tolerances for EDB and other such fumigants on a variety of grains.

—Accelerate research to determine residue levels for EDB in grains and food products that could serve as guidelines for individual states until the FDA exemption can be revoked.

Baking May Get Rid Of EDB In Food

RALEIGH, N.C. (UPI) — Baking renders grain-based products with certain levels of the pesticide EDB safe for consumer use, state Agriculture Department inspectors say their tests have found.

Leonard Blanton, the director of the state program testing the products, said Thursday scientists discovered levels of the pesticide EDB

similar to levels found by Florida health officials in grain products. Florida recently banned the sale of certain grain-based products with EDB contamination levels of one part per billion or more.

Blanton said he believes that ban was "very severe."

"Our feeling is that there is great safety in any product that they (consumers) have prepared," said Blanton, director of the Agriculture Department's food and drug protection division. "They (the levels of EDB) are pretty much going to be destroyed by the baking process. So we don't feel that there is great concern."

The Short And Tall Of It

When Kelth Pariani, 27, of Sanford, and his friend, Fran Mallnowski, 26, go out to walk the dog, they do it a bit differently than most folks. First of all, they don't walk, they ride. And Pariani rides a circa 1800 bicycle known as the Ordinary. It has no ordinary value, however. If you can find one, it'll run you around \$1,500. A member of the Wheelman bicycle club, Pariani says he plans to ride his Ordinary on a very extraordinary trip from Sacramento to Boston beginning April 22.

Lake Mary Sets Rules For Retirement Homes

Foresight was the key word at Thursday night's Lake Mary City Commission meeting as commissioners reviewed issues that weren't really problems, wanting to make sure things stayed that way.

First up was an amendment to the city's zoning ordinance dealing with retirement homes, setting a minimum space standard of 300-square feet per resident.

Existing municipal law makes no reference to minimum living space requirements and commissioners considered the state standard too low, "so we made up our own," Mayor Walt Sorenson said.

The city doesn't have any retirement homes, but "we wanted to be prepared in case someone tries to move one in," Sorenson said. "We had an inquiry two or three months ago from someone considering putting one in, but he moved it to Orlando instead. If it happens again, at least we'll be prepared."

Commissioners also reviewed a request from Steve Logue of Better Garbage Service (BGS), the city's primary refuse collection business, for an exclusive franchise in Lake Mary.

The Winter Springs-based BGS, in effect, already has an exclusive franchise since there are no other residential collection services operating in the city. But Logue wants to make it official so no other service will try and move into Lake Mary, Sorenson said.

The only problem is that the city's ordinance regulating garbage collection, makes no provision for awarding exclusive franchises, he said. "So we have to amend the ordinance and consider such questions as whether it would be a city-wide franchise or just commercial or just residential."

The matter is scheduled to come up for discussion again at the commission's Jan. 12 meeting.

In other action Thursday, commissioners voted to give City Attorney Robert Petree a pay raise from \$750 a month to \$1,200 monthly. Sorenson said the raise was long overdue.

"The fee has been \$750 (per month) for 7 or 8 years and the level of work he has to do far exceeds that," he said.

The commission also approved an agreement to purchase water for Seminole County for a planned 61-home subdivision (Country Downs) off S. Country Club Road.

The subdivision is 1,500 feet "from the nearest city feeder line and it would be expensive for us to run a line in there," Sorenson said. "It would be easier" for developer Bing Hacker "to get his water from the county."

Sorenson said he doesn't know how much the county will charge for the service. "Whatever it is, he (Hacker) will have to pay for it," he said.

The agreement will be forwarded to the county for its approval, and "I don't know how long that will take," Sorenson said.

—Britt Smith

Bell Hopes Statistics Can Improve Education

WASHINGTON (UPI) — Education Secretary Terrel Bell says he is hopeful his department's state-by-state statistical breakdown on public schools can give a boost to the increasing interest in upgrading education.

But the head of America's biggest teachers' union fears the study could undermine the crusade with its "fallacious" suggestion that classroom achievement may be unrelated to student expenditures.

Bell Thursday released the study that ranked states in 13 categories, including student test scores, teacher pay and per capita income.

The report showed that achievement test scores for high school seniors dropped in every state from 1972 to 1982, with only the District of Columbia showing an increase.

During the same period, it said, the high school dropout rate nationwide climbed from 22.8 percent to 27.2 percent, with only nine states increasing

its graduation rates.

Bell told a news conference that generally states that spend more, on average, for each student also report among the higher achievement test scores.

Bell said, however, "there is no finite relationship" between money and excellence. He said many factors must be considered in evaluating schools and that he would leave it to others to draw their own conclusions.

The NEA's expressed immediate concern over figures that showed some states that rank high in pupil expenditures do not hold an equally high ranking in achievement scores, and vice versa.

For instance, in 1982 New York was second in student expenditures, \$3,769, but finished only in the top 25 percent in test scores. New Hampshire placed No. 1 in achievement scores that year, but 28th in per pupil expenditures.

FLORIDA

IN BRIEF

Jackson's Campaign Boosted, Aides Say

TALLAHASSEE (UPI) — The Rev. Jesse Jackson's campaign telephones "have been ringing off the hooks" since he won the release of a U.S. naval officer who was being held captive by Syria, his supporters say.

Campaign aides also told a news conference Thursday they believe Jackson now has a chance to win Florida's winner-take-all presidential primary.

Dr. Henry J. Lyons, pastor of Bethel Metropolitan Baptist Church in St. Petersburg and chairman of Jackson's Florida campaign committee, said Florida Democrats could so divide their support among the other presidential hopefuls that Jackson could end up with the state's 84 elected delegates.

Lyons said Jackson is scheduled to make at least three trips to Florida — including one in the Tampa Bay area the weekend of the Superbowl.

DOT Needs Reorganizing

TALLAHASSEE (UPI) — A national management consultant firm says the Department of Transportation should be radically reorganized to improve its efficiency and save taxpayers' money.

The Washington-based firm of Cresap, McCormick and Paget, in a 147-page report issued Thursday, said the agency's existing organization is so unwieldy it leads to wasteful spending, stifles communication and conceals accountability.

The firm suggested restructuring the agency into three divisions — program development and support, operations and technical services — headed by an assistant secretary. The assistant secretaries would, in turn, report to the DOT secretary and a deputy secretary.

The consultants said the agency should not sever public transportation activities from highway and other operations.

Air Florida May Still Fly

MIAMI (UPI) — Air Florida could be bailed out of default by an unnamed investor who is interested in making a "significant investment" in the financially troubled carrier, a company spokeswoman said.

The airline suspended its over-the-counter stock early Thursday and announced later that a major creditor had put the company in default.

The announcement came one day after a report that said the Miami-based carrier had reached a pact with the Internal Revenue Service to pay \$7.8 million in back taxes. The report also said Air Florida expected to erase long-term debt problems within one month.

AREA DEATHS

LOUISE A. KNIGHT
Mrs. Louise A. Knight, 83, of 213 Sweetgum Way, Longwood, died Wednesday at her residence. Born June 20, 1901, in Haverhill, Mass., she moved to Longwood from Clearwater in 1971. She was a homemaker.

She is survived by a son, Robert W., Altamonte Springs.

Baldwin-Fairchild Funeral Home, Forest City, is in charge of arrangements.

BERNICE N. VANDUSEN
Mrs. Bernice N. Vandusen, 79, of Acorn Drive, Longwood, died Wednesday at Florida Hospital-Altamonte, May 6, 1904, in Hudson Falls, N.Y., she moved to Longwood from Hoosick Falls, N.Y., in 1956. She was a retired school teacher and a Unitarian. She was a member of the Retired Teachers association.

Survivors include her daughter, Mrs. A.C. Simon, Stamford, Conn.; sister, Inez Sedgwick, Englewood; two grand-

children.

Baldwin-Fairchild Funeral Home, Altamonte Springs, is in charge of arrangements.

LEON BRADLEY JR.
Master Leon Bradley Jr., six months, of 611 Park Ave., Sanford, died at his residence Wednesday. He was born June 16, 1983 in Sanford.

Survivors include his mother, Viola Mae Stafford, Sanford; father, Leon Bradley Sr., Sanford; three sisters, Frantasha Denise Stafford, Saprina Patrese Stafford and Melva Barbara Mims, all of Sanford; grandparents, Mr. and Mrs. Abner Charles Calloway, Sanford; great-grandparents, Mrs. Alice Stafford and Mr. and Mrs. Henry Bradley, Sanford.

Wilson-Eichelberger Mortuary, Sanford, is in charge of arrangements.

Funeral Notices

BRADLEY, LEON JR.
— Funeral services for Master Leon Bradley Jr., 6 months, who died Wednesday, will be at 3 p.m. Saturday at Wilson-Eichelberger

chapel, 1110 Pine Ave., Sanford, with the Rev. Henry Bradley officiating. Burial to follow in Bayland at Restlawn Cemetery. Calling hours for friends will be from noon until 7 p.m. today at the chapel, Wilson-Eichelberger Mortuary, in charge.

WILLIAMS, MR. JAMES
— Funeral services for Mr. James Williams, 63, of 719 Cypress Ave., Sanford, who died Dec. 29, will be at 11 a.m. Saturday at St. James African Methodist Episcopal Church, 819 Cypress Ave., Sanford, with the Rev. F. Bernard Lemon, pastor, in charge. Burial to follow in Restlawn Cemetery. Calling hours for friends will be from 3 p.m. Friday at the chapel, Wilson-Eichelberger Mortuary in charge.

Now We Can Be Proud Again

Americans are typically patriotic but rarely militaristic, and that is as it should be. True militarism — the warrior society — is outside the American tradition and probably incompatible with democracy to boot. But it should be just as obvious that any society which scorns those pledged to defend it is probably living on borrowed time.

So, there is good reason to be heartened by a resurgence of public support and appreciation for America's men and women in uniform. During much of the 1970s, public attitudes toward the military were marked by antipathy and sometimes outright hostility. How different things are today.

The signs of a pendulum-swing away from the anti-military attitudes of just a few years ago are everywhere. The Marines in Beirut were deluged this Christmas with an affectionate outpouring of thousands upon thousands of cards, letters and gifts from Americans they had never met. There were so many gifts that truckloads were sent on to Lebanese orphans after the Marines ran out of room to store their windfall.

The Marines, army paratroopers and rangers returning from Grenada were welcomed home enthusiastically as the heroes they were. But how different these homecomings were from the later years of the Vietnam era when veterans were ignored if not often shunned.

The Reserve Officer Training Corps (ROTC), once detested on many college campuses, is enjoying a robust renaissance. Enlistments, currently 102,000 nationwide, are almost double what they were 10 years ago. ROTC scholarships, which help students financially but also entail greater obligations to the military, have increased by 50 percent just since 1980.

Most National Guard and Reserve units across the country are at or close to full strength, and all of the services have been so successful at recruiting in recent years that enlistment standards have been steadily increased. Although it is true the recession accounted for part of these successes, there is no denying the importance of a resurgent pride in the military.

This newly re-established public support for the armed forces transcends politics, at least for the moment. Giving Castro a kick in the shins via Grenada made most Americans feel good, but the public increasingly doubts the wisdom of keeping the Marines in Lebanon. That has not, however, meant any diminution of public support for the beleaguered Marines trying against such odds to restore peace in that country.

At the individual hearts and minds level, where loyalties are shaped and traditions sustained, the resurgent pride and appreciation Americans feel for their young men and women in uniform is no less than a sign of a healthy society. After all, could there be any surer sign of a nation's decline than that few were willing to defend it, or to honor those who did?

Steel Shuts Mills

Another big cutback in steel-making capacity was recently announced by U.S. Steel. It will reduce the company's capacity by a fifth and amount to \$1.2 billion in pretax loss. This ranks with the same company's \$809 million cutback four years ago and the Bethlehem Steel Corp.'s \$930 million write-off a year ago.

The common stock of U.S. Steel went up on the news, proving that Wall Street believes the decision makes economic sense and should increase the company's profits.

But it was bad news in Gary, Ind., and the Monongahela Valley near Pittsburgh. Many of the 15,400 employees who will lose their jobs live in old steel towns already hard-hit by previous cutback and layoffs.

New steel plants, using modern methods, are springing up around the country as the furnaces of the old plants go dark. More steel is being imported from modern, low-cost plants abroad.

These trends will continue, unless the government steps in and erects trade barriers against foreign steel and products like autos, built largely of steel. We don't think that will happen, and it shouldn't happen.

We do not need a huge steel industry for national security. The Soviet Union has more steel capacity than any other country, but that doesn't make it the most powerful. Microchips are now more important to national defense than pig iron.

We have the supercomputers, and we don't need so many blast furnaces. Steelworkers whose pay and benefits at \$30 an hour have become non-competitive in the world market are now the victims of the kind of change that is the hallmark of a free economy. Government and industry can and should cushion the blow and make adjustment to change easier. But change is inevitable.

BERRY'S WORLD

"In his case, the term 'shy' is a euphemism for 'inarticulate and stupid!'"

By Donna Estes

Florida's March 13 Democratic presidential preference primary will be little more than a "beauty contest" with the victor winning not a single delegate vote to the party's August convention in San Francisco.

State party officials say that votes for actual delegates will be in a separate place on the ballot. While candidates for delegate positions will have to file qualifying documents listing campaign treasurers and depositories of campaign funds, their names may not go on the ballot anyway, says Marvin Meltzer, chairman of the Seminole County Democratic Executive Committee.

It will be up to the presidential candidates themselves to approve or disapprove of those who wish their names placed on the ballot as delegates pledged to a specific candidate.

Jan. 20 is the deadline for persons wishing to qualify for the 84 delegates and 28 alternate slots to be chosen by the election process. Meanwhile, the state Democratic party will choose the 31 other delegates and alternates from elected

officials and party officers. Florida this year will have a total of 143 delegates and alternates.

Candidates for delegate and alternate posts may pick up the qualifying forms from the local party by calling Meltzer at 834-2732. In Seminole County the delegates and alternate candidates must run within the fifth congressional district. The 5th district includes all of Seminole and parts of Orange and Lake counties. The delegate and alternate candidates may pledge themselves to support a particular candidate or run as uncommitted.

At the same time, the Republicans will choose in party caucuses the delegates to their convention. But the only presidential candidate to appear on the Republican ballot on March 13 will be Ronald Reagan.

The Democratic presidential candidates who will participate in the "beauty contest" are: Reubin Askew, Alan Cranston, John Glenn, Gary Hart, Ernest Hollings, Jesse Jackson, George McGovern and Walter Mondale.

Back in the 1970s when the state legislature passed a law setting the March

presidential preference primaries it was said that Florida would join with the states of New Hampshire and Iowa as trendsetters in selecting the top presidential candidates.

There was even some movement toward trying to schedule Florida's primary before the one in New Hampshire to steal that New England state's thunder.

And the winner of Florida's primary got the lion's share of the state's delegates to the national convention.

There was some grumbling at the time that the actual delegates were selected in district caucuses, thus unless someone had political clout it was unlikely he or she would be chosen. The winner of the primary or his supporters had a major role in the selection process.

Remember the excitement generated when George Wallace won the Florida Democratic Presidential Primary in 1972 and Jimmy Carter in 1976?

It is entirely possible that the winner this year could get no delegates at all, said Dorothy Gilsson, state elections supervisor.

SCIENCE WORLD Fear Of Flying Reinforced

By Toni Cardarella

KANSAS CITY, Mo. (UPI) — The Soviet Union's downing of a Korean jetliner infuriated political leaders around the world, but on the subconscious level the event aggravated travelers' fear of flying.

"It dredged up a personal thing in air travelers," said Mike Mora, a clinical psychologist who for 10 years has also been a flight operations manager at Kansas City International Airport.

Soviet pilots claimed they mistook the Korean airplane for a spy aircraft and shot it down Sept. 1, killing all 269 people aboard. Mora said the incident affected more than "just nations and defense strategy" and created more than a "Russian paranoia."

It generated another reason for flying anxieties among the half-billion people who travel commercial airways per year and the 300 million people who plane through American airports.

"It hit the individual," Mora said. "Each individual in the world is affected by the anxiety. Subconsciously, everybody who flies has a lot of anxieties about it. All of a sudden, 747 jets are shot out of the sky... that has an effect on the individual air traveler."

Mora, who teaches part-time at the University of Missouri-Kansas City graduate school, also worked as a psychologist for NASA's life support team of Operation SERV (Space Escape and Rescue Vehicle) project in 1967. His duties as assistant operations manager at KCI include passenger relations.

The air travel industry is one of the safest and most efficient businesses known.

In fact, studies have shown that flying is seven times safer than traveling in an automobile, said Dr. Walt Ginn, a clinical psychiatrist at the University of Kansas Medical Center and a retired commercial pilot.

Stress related to flying, however, can cause medical emergencies, passenger complaints or bad feelings about airports, Mora said.

He described these stress factors as fear of flying or falling through space, fear of dying, personal phobias, anxiety related to high speed, the current state of one's physical and mental health, the significance of a particular trip and the frantic pace of the airport environment.

"In spite of what flight instructors say, flying is an unnatural act for human beings," Mora said. Such fear "is rooted deeply in our psyche" and sometimes can only be overcome by an effort of the will, training or experience.

Ginn, a pilot for 40 years, pointed out that all anxiety and stress is not bad and it is natural for every person who walks aboard an airliner to feel some increased amount of anxiety.

"But it's not incapacitating anxiety," he said. "It's not a phobia."

To relieve the anxiety of flying, Ginn recommended wiggling your toes, listening to a tape or doing anything that would serve as a distraction.

Gardening

Colorful Covers Add Beauty To Grounds, Reduce Maintenance

By Dr. Robert J. Black
IFAB Extension Horticulturist
University of Florida

Interesting contrasts in texture and color may be brought into your landscape by the use of ground covers. Not only are these materials an asset to the beauty of your grounds but also can reduce maintenance problems.

Ground covers may be divided into two categories. Living materials would include such plants or vines, English and Algerian ivies, liriope, daylilies, confederate jasmine and honeysuckle to name just a few.

Non-living materials usually are types of gravel or rocks although in a broader sense we include such materials as leaves and pine needles.

Ground covers are an asset to easy maintenance because we often use them in areas which are difficult to maintain in lawn or other planting areas.

Such areas may be strips of ground between sidewalks and driveways or walls. Steep slopes associated with ditches and areas of dense shade where grasses will not perform adequately may be planted

with ground covers to reduce maintenance as well as making these areas more attractive.

The difficult time of ground cover culture is the first year. During this time the area must be kept reasonably free of weeds and well watered. Once the plants have become established only occasional maintenance is necessary.

Some of the most adaptable ground covers are native Florida plants — artillery plant, Carolina yellow jessamine, coontie or zamia, dichondra, several ferns, selaginella and wedelia.

If your home is in a location where salt is a problem and grass is difficult to grow, include salt-tolerant ground covers in your landscape. Some of the best are coontie, dichondra, climbing fig, fig-marigold, Algerian and English ivy, shore-juniper, lantana, lily-turf, lippia, liriope, and wedelia.

Many ground covers are excellent for shaded areas — artillery plant, bugle-weed, coontie, ferns, ivies, lily-turf, liriope, pepperomia, selaginella, wandering jew and wedelia.

Several ground covers can be

used as effectively as flowering annuals for spring, summer and fall colors and they have the advantage that most are perennials. For spring and summer flowering consider bugle-weed, catpaws, yellow jessamine, daylilies, confederate jasmine, lantana, periwinkle, purple setcreasea and wedelia. Cuphea, lantana, lippia and wedelia provide fall and winter color.

South Florida is especially rich in exotic ground covers. Some of the most popular are wedelia, zebra, blood leaf, rhoeo, ferns, kalanchoes,

bromeliads, aloes, ajuga and dwarf varieties of carissa. Bulbous plants like crinum, spider lilies, amaryllis and daylilies are also popular.

Some of the exotic ground covers can be damaged or killed by low temperatures and thus are not permanent in central or north Florida. Check with your local county extension agent for those ground covers most apt for your area.

Make your landscape more attractive by using ground covers effectively and enjoy your bonus of reduced maintenance.

Ronda West, D.F. Galloway Repeat Vows

Ronda Jan West and David Ferrell Galloway Jr. were married Dec. 17, at 1.30 p.m., at the Sanford Church of Christ. The Rev. Fred Baker performed the candlelight and double ring ceremony written by the bride and bridegroom.

Vernon Means of Mount Dora was the soloist. The bride is the daughter of Mr. and Mrs. Edward R. West, 103 Driftwood Lane, Sanford. The bridegroom's parents are Mr. and Mrs. David Galloway Sr., 614 Catalina Drive, Sanford.

Given in marriage by her parents, the bride chose for her vows a formal white satin gown fashioned with a Venetian lace yoke and mandarin collar embellished with satin rosebuds and pearls. The schiffli lace bishop sleeves terminated in wide satin cuffs. Her double full chape' train was accented with matching medallions and schiffli lace. A Juliet cap of lace and pearls secured her fingertip veil of illusion sprinkled with lace motifs. She carried a silk keepsake cascade of white silk Phalaenopsis orchids, stephanotis, lily-of-the-valley and trailing ivy showered with satin ribbons.

Sandra Stewart of Adamsville, Tenn., the bride's college roommate, was maid of honor. She wore a full length peach tiana gown with a chiffon overjacket enhanced with schiffli lace. She carried a cascade of silk variegated peach and salmon rosebuds, daisies, miniature carnations, azaleas, baby's breath and ivy.

Bridesmaids were Amy Galloway and Wendy Galloway, sisters of the bridegroom, Sanford; Cathy Covington, cousin of the bridegroom, Sanford; Andrea Dawkins, Orlando; and Dawn White, cousin of the bride, Lawrenceville, Ga. Their gowns and flowers were identical to the honor attendant's.

Daniel Galloway served his brother as best man. Groomsmen were Scott West, brother of the bride, Lake Mary; Ernie Morris, Altamonte Springs; Jimmy Covington, cousin of the bridegroom, Chickopee, Mass.; and Colin Galloway and Dale Newton, cousins of the bridegroom, Sanford.

Flower girls were Lisa and Christy Cullum, Sanford. Benjamin Galloway, brother of the

Mr. and Mrs. David Ferrell Galloway Jr.

bridegroom, was the ring bearer.

The reception was held at the Garden Club of Sanford. The wedding cake was provided by Jean and Herman Carter, aunt and uncle of the bride. Douglas and Marshall Phillips created the garden designs.

Following a wedding trip to the Blue Ridge Mountains, the newlyweds are making their home at 7204 Balboa Drive, Orlando.

The bride is a registered nurse employed by Orlando Regional Medical Center. The bridegroom is a technician for Champlon TV in Orlando.

Classmates Reunited

Burt and Hazel (Browne) Perinchieff, left, of Lake Mary meet Rosa Lee Eickhoff, wife of Trenton State College president Harold Eickhoff at the TSC reunion held at the Epcot Center, Orlando. The Perinchieffs joined more than 100 TSC alumni living in Florida for the weekend gathering.

In And Around Geneva

Party Honors Parents During Florida Visit

Vickie and Tony Getman had a nice holiday season. Vickie's mother and father, Mr. and Mrs. Jack Yerger, came from Las Vegas, Nev. to visit.

Tony and Vickie flew the Yergers to Florida as their Christmas gift. Dorothy and Jack arrived Dec. 21, so they also got to be here for Christmas. They were beginning to wonder about their trip out because they got iced down in Dallas at the airport for eight hours.

Vickie said this is her parents' 51st Christmas together.

Dorothy and Jack celebrated their 50th anniversary last August in Las Vegas and renewed their wedding vows, with Vickie as matron of honor.

The couple will be leaving for Miami on Jan. 10th to see Jack's sister, Viola Drees. They have not seen each other for 30 years.

Vickie and Tony had a New Year's Eve party at their house. They roasted a hog for about 75 people present. They did a beautiful job on the decorating and so much food. Six of their seven children and two grandchildren attended the celebration. Unable to attend was their son, Butch, who is in the service.

Speaking of New Year's Eve, Sara and Tom Watkins had a nice party. They also had a welcome home party for their son, Greg Watkins. Welcome back to Geneva, Greg.

Dottie and Jim Lee also entertained on New Year's Eve. Many friends in Geneva joined in as well as Dottie's and Jim's parents from Orlando.

Also, Jeannette and Ray Foley had friends over for to welcome in the year. They had a nice buffet of food and Dude Hale and Ray played music for everyone.

Jody and Hank Renkama also had a nice party. There was lots of food for friends and they all watched a special

Doris Phillips
Geneva
Correspondent
349-5167

movie on television. There were around 40 people present.

Bernie and Harry Southworth also had a very nice party with lots of food, friends and live music.

Birthday congratulations for this month go to Mike Brice, Mark Britton, Robert Phillips, Dennis Higdon, LeAnne Hanson, Billy Teslo, Tara Teslo and Jimmy Wallace.

The citizens' meeting at the community hall will be Jan. 9 at 8 p.m., and Ledie Mushow will be this month's guest speaker. She will be giving a talk and answering questions about taxes.

Please call me about any news items you may have. You can reach me at 349-5167 and also 322-5900.

Booklet Gives Tips On Wheelchair Etiquette

DEAR ABBY: "Four-Wheeler" asked why someone hasn't written a booklet on wheelchair etiquette. Well, someone has. The Scholtz Medical Center in Waterloo, Iowa, has prepared a pamphlet titled, "What do I do when I meet a person in a wheelchair?" It offers suggestions for non-wheelchair users who encounter wheelchair users.

Below are the 12 guidelines from that booklet:

1. Always ask the wheelchair user if he or she would like assistance before you help. Your help may not be needed or wanted.
2. Don't hang or lean on a person's wheelchair because it is part of the wheelchair user's personal body space.
3. Speak directly to the person in the wheelchair, not to someone nearby as if the wheelchair user did not exist.
4. If conversation lasts more than a few minutes, consider sitting down or kneeling to get yourself on the same level as the wheelchair user.
5. Don't demean or patronize the wheelchair user by patting him or her on the head.
6. Give clear directions, including distance, weather conditions and physical obstacles that may hinder the wheelchair user's travel.
7. Don't discourage children from asking questions about the wheelchair. Open communication helps overcome fearful or misleading attitudes.
8. When a wheelchair user "transfers" out of the wheelchair to a chair, toilet, car or bed, do not move the wheelchair out of reaching distance.
9. It is OK to use expressions like "running along" when speaking to the wheelchair user. It is likely the wheelchair user expresses things the same way.
10. Be aware of a wheelchair user's capabilities. Some users can walk with aid and use wheelchairs because they can conserve energy and move about quickly.
11. Don't classify persons who use

Dear Abby

wheelchairs as sick. Wheelchairs are used for a variety of non-contagious disabilities.

12. Don't assume that using a wheelchair is in itself a tragedy. It is a means of freedom that allows the user to move about independently.

The center will be happy to send the pamphlet free to anyone who requests it with a long, self-addressed, stamped envelope. Write the Public Relations Office, Scholtz Medical Center, Kimball and Ridgeway Avenues, Waterloo, Iowa 50702.

DEAR ABBY: Twenty years ago, I was the "other woman." I thought I was lucky when he divorced his wife and married me. I was 24 and he was 35 at the time.

Now 20 years later I'm miserable. He never changed. He just changed wives. All the heartaches he caused his first wife with his lying and cheating are now mine. His first wife didn't lose when she lost him — I lost when I got him.

Abby, please tell women to think hard and long before they get involved with a married man. I can speak only for myself, but it wasn't worth it. Too many people were hurt. First, she was hurt, and now I am hurting.

DEAR FOOLISH: Your sad story is not new. Moral: You can't build happiness on the sorrow of others.

Michael D. Williams
Williams
Earns Ph.D.

Michael D. Williams, a 1964 graduate of Seminole High School, has received a Ph.D. in economics from the University of Colorado, Boulder.

Williams received his BSA and MBA degrees from the University of Florida. He is partner in a consulting firm in Boulder and does consulting work for UC.

He is the son of Mr. and Mrs. Cleo S. Williams, Loch Arbor, Sanford, who attended the commencement exercises.

Publicity Procedure

The Herald welcomes organization and personal news. The following suggestions are recommended to expedite publication:

1. Releases should be typed (lower and upper case), double spaced, and written narrative style (third person).
2. Do not abbreviate.
3. A contact person's name and phone number is necessary.
4. Keep releases simple.
5. Organization releases (the program should lead the meeting account) must be submitted no later than two days after the event.
6. Advance notices should be submitted one week prior to publication date.
7. Photographic coverage requests should be made one week in advance.

Lake Mary's Heavy Artillery Guns Down Lions

By Sam Cook Herald Sports Editor

The proposed Lake Mary-Oviedo wrestling war lived up to its billing Thursday night. It had a little bit of everything — great wrestling, upsets and controversy.

The Lions built an early lead with its powerful light brigade, but Lake Mary came back with its heavy artillery for three pins in the last three weight classes to pull out a 33-27 victory before 300 fans at the Oviedo High School gymnasium.

The victory snapped a seven-game Oviedo victory streak and dropped coach John Horn's 3A Lions to 7-1. Lake Mary improved to 5-0. The 4A Rams tackle Colonial on the road and powerful Ocala Forest at home Saturday while the Lions join Apopka in a tri-meet at Lake Brantley.

"It was a lot closer than I thought," said a relieved Lake Mary coach Frank Schwartz after the match. "I had us winning by 12 but they (Oviedo) made some good strategy moves and their lower weights are really tough."

As expected, Oviedo capitalized in the lower weights to take a sizeable lead. Lion coach John Horn said his team needed six wins in the first seven classes to take the match. He came up one short.

Jerry Jordan (101) and Shawn Knapp (108) gave the Lions a quick 12-0 lead with a pair of pins. Jordan scored an early takedown against Craig Johnson, then pinned him in 1:03. Knapp was even quicker. The muscular Lion bearhugged Dale Reisenhuber at the outset, broke him down to the mat, then pinned him with a cradle in 37 seconds.

The Rams first break in the Lion light brigade came next. Defending state champion Jack Likens (115) used a single-leg takedown and back points in the closing seconds of the first period to build a 5-0 lead. The lead grew to 11-0 entering the third before Likens showed Jim Prior the ceiling at 5:19.

The first feature match of the night was next, but it was no contest. Lake Mary's Ivan Carbia, one of the top 108-pounders in the state, tried to wrestle up against Brian Smith at 122.

Carbia broke to an early 2-0 lead, but Smith was too powerful the rest of the match. He outscored Carbia 7-1 during the rest of the period, then added eight more points in the second period for a 15-3 victory.

Carbia, however, courageously fought off pins in the first two periods which kept the Lions from adding another team point and unmeasured momentum from pinning one of Lake Mary's studs.

The superior decision gave the Lions a 17-6 edge.

Two of the lesser knowns — Oviedo's "Dusty" Harmon and Lake Mary's Tom Olson — battled at 129. Olson broke to a quick 5-0 lead and increased it to 8-2 after two periods. Harmon cut it to 8-4 in the third, but Olson added a reversal for a 10-4 win and another break in the light brigade.

With Oviedo up 17-9 and running out of lightweights, powerful Steve Berg completely dominated Todd Beauchamp, 13-2, to give the Lions a 21-9 lead going into what both coaches thought might be the key match.

Oviedo's Mike Hilgar, who moved up a class, took on Ram veteran Bob Olson at 141. Olson took a 2-0 lead

Prep Wrestling

with a takedown, but Hilgar reversed him with 41 seconds left for a 2-2 deadlock after one. Hilgar went up 4-2 with back points, but Olson cut it to 4-3 when Hilgar locked his hands.

Knowing he couldn't manhandle Hilgar into back-point position, Olson tried to release him for a giveaway escape. The strategy backfired, nevertheless, when Hilgar alertly grabbed Olson's foot and scored a reversal for a 6-3 lead and the upset victory.

The win gave Oviedo a commanding 24-9 lead, but Lake Mary's bombers started to circle on the horizon.

Ram Mark Lindquist pulled Lake Mary to within 12 with an 8-3 decision over J.D. Buscemi.

Then came the controversy. Lake Mary's Brent Blakely, who hadn't wrestled all year because of a broken wrist, took on impressive freshman Jene Hartman at 158.

Blakely picked up Hartman and flattened him for a 2-0 first-period lead, then added a reversal and a near pin in the second for a 7-0 edge. At the end of the period, though, Blakely got too high while riding and Hartman came back with a reversal and back points for a 7-4 match going to the final two minutes.

Blakely let Hartman go for an escape and with just 22 seconds to go he was cited for stalling to pull Hartman within one. Both grapplers then wrestled toward the edge of the mat. Blakely, apparently thinking they were over the line, stopped and backed up toward the middle.

Hartman then grabbed him around the knees, but the referee stopped the action and reset both upright in the middle. Blakely then fought off Hartman trying to shoot for a 7-6 win.

"If we get a favorable call, we win the match," claimed Horn about the ref's stoppage. "There's no way the ref should have stopped it. Hartman was ready to take him down which would have won that match, 8-7."

Regardless, Lake Mary pulled to within nine, 24-15, with just four matches to go. At 170, Joe Locklin added Oviedo's final points of the night when he decisioned Walter White, 6-4.

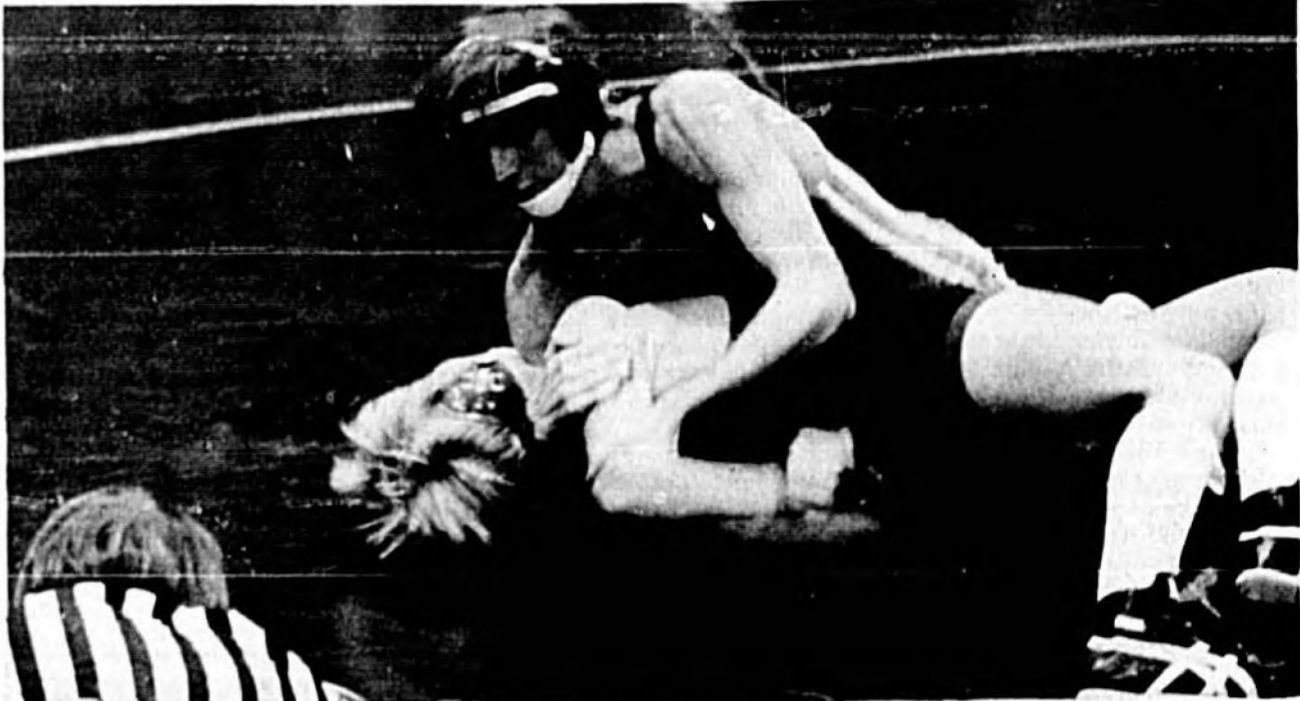

The 27-15 lead, though, was in jeopardy with Rams' Willie Green (189), Ned Kolbjornsen (223) and Robert Rawls (UNL) yet to come.

"I wasn't worried," said Schwartz. "They are our seniors and they always come through. I got them all together and told them the other thing that could be us is if one of them slammed somebody."

Green was first up and he used a dazzling array of moves to pin Matt Crocco at 5:05. "When Willie's got his head right, he's the best in the state," declared Schwartz. "He was hitting moves that college wrestlers use."

While Green took into the third period for his stick, Kolbjornsen, the Rams' leader, was much quicker. The big Swede flattened an overmatched Mark Kubus (up from the JV) in just 29 seconds, then asked the Oviedo wrestlers what they thought of that?

"They (Oviedo) roughed up one of our guys over at the Stetson tournament over break," said Kolbjornsen. "We

Above, Oviedo's Shawn Knapp (108) puts the hurt on Dale Reisenhuber before pinning him in 37 seconds. At the right, Lake Mary's defending state 3A champ Jack Likens (115) controls Jim Prior before showing him the ceiling at 5:19. The Rams rallied with three pins in the last three matches for a 33-27 victory over Oviedo.

Herald Photos by Billy Murphy

wanted this match real bad."

They got it 1:17 later. Rawls, a 300-pounder who made the final four last year, fell behind 4-1 against Brett Morton, but then added a takedown to pull within one after the first period.

Midway through the second the end came. Rawls put Morton on his back, then in an awesome show of strength spread his arms like the crucifix and pinned him at 1:17.

"When Ned (Kolbjornsen) got us the tie, I knew we

had them," said Rawls. "I wasn't worried when he (Morton) got ahead. I just straightened him out."

Rams Almost Caught Looking, Still Survive

Lake Mary's Rams almost got caught looking ahead Thursday, but they hung on to claim a narrow 2-1 victory over Daytona Beach Father Lopez in prep soccer action at Daytona Beach.

The Rams, 8-3 overall and 2-1 in the Five Star Conference, are gearing up for a big conference match against Lake Brantley Saturday and may have taken Father Lopez for granted.

"We hit a new low in quality of performance," Lake Mary coach Larry McCorkle said. "The only positive thing about it is we didn't lose."

Lake Mary took a 2-0 lead after the first half on goals by Jerry Meyers and Eric Zimmerman. Father Lopez came back with its goal in the second half and almost took advantage of Lake Mary's lackluster performance to tie the game.

"Father Lopez is the worst team we've played this season," McCorkle said. "I think we had a little bit of a letdown after playing well in the Pizza Hut Tournament and we were looking ahead to the big one against Lake Brantley."

There will be three matches at Lake Brantley High Saturday as the junior varsity kicks things off at 11 a.m. Lake Mary's Lady Rams and Lake Brantley's Lady Patriots then square off at 1 p.m. followed by the boys varsity match at 3.

"It's going to be an important game in the conference race," McCorkle said. "The way Lake Howell is playing, two losses in the conference might put us out of it."

— Chris Flister

Prep Soccer

Ivan Carbia (right) struggles to get an advantage against Oviedo's powerful Brian Smith. Smith overpowered the Rams' Carbia, who fought off pins in the first two periods, for a 15-3 victory at 122 pounds. The Rams won the match of the county's two unbeaten, 33-27.

Benton Leads Tribe Past Creek — DeLand FTs Hold Off Pats

By Chris Flister Herald Sports Writer

Mona Benton poured in 21 points and Dieder Hillery added 15 as Sanford's Lady Seminoles rolled to a 67-38 victory over Spruce Creek's Lady Hawks in Five Star Conference basketball action at Port Orange.

Seminole improved to 12-2 overall and 7-0 in the conference. The Lady Tribe remains the only unbeaten team in conference play and stays one game ahead of Lake Howell with the victory.

"We're starting to come around, but we're not close to what we're capable of," Seminole coach Ron Merthie said. "We have keep working to stay ready for the tough games ahead."

Maxine Campbell and Andell Smith chipped in with eight points each for the Lady Tribe. Annette Heath led Spruce Creek with 12 points and Kim Hill tossed in 11.

Seminole is back in action Saturday against non-conference foe Winter Park at Winter Park while the Lady Tribe gets back into conference action Monday as they host Lake Brantley's Lady Patriots.

Although Lake Brantley lost most

of its big guns from last year's team, coach Renny Betris said at the beginning of the year the Lady Patriots would not be the Five Star Conference doormat.

Thursday night, DeLand's Lady Bulldogs invaded Lake Brantley High looking for someone to beat up on after getting hammered by Sanford Seminole Wednesday night.

But, the Lady Patriots fought DeLand every inch of the way before Bridgette Gordon got hot and led the Lady Bulldogs to a 57-50 victory.

Gordon scored 21 of her game-high 36 points in the second half as DeLand improved to 12-3 overall and 5-2 in the conference. Lake Brantley fell to 4-7 overall and 2-7 in the conference.

The Lady Patriots stuck close in the first half but DeLand came away with an eight-point lead, 28-20, by halftime. Lake Brantley never let the game get out of hand in the second half and pulled to within one point on two occasions, but were unable to take the lead.

Lake Brantley actually outshot DeLand from the field, making 20 field goals compared to 19 for DeLand. But, although the Lady

Prep Basketball

Bulldogs had a horrendous night at the free throw line. It was there that they found the margin of victory. DeLand made 17 of 32 free throws compared to 10 of 13 for Lake Brantley.

Michelle Brown turned in a fine performance for the Lady Patriots as she connected for 20 points, including 10 of 12 from the free throw line. Sherry "Ice" Aspen added 12 for Lake Brantley and Kim Lubenow tossed in eight. Behind Gordon's 36 points for DeLand, Robyn Swartz chipped in with 10 points.

Lake Brantley is back in action Monday night as it travels to Sanford to try to knock Seminole out of the unbeaten ranks of the conference.

In other girls action Thursday, Tammy Johnson did it all, pouring in a game-high 22 points, pulling down 10 rebounds and handing out five assists as Lake Howell's Lady Hawks rolled to a 65-30 rout of Apopka's Lady Blue Darters at Lake Howell High.

The Lady Hawks improved to 12-4 overall and continues to keep pace in the conference with a 6-1 mark. Lake Howell is back in action Tuesday at Daytona Beach Seabreeze.

Mary Johnson added 15 points and six assists Thursday. Janene Brown tossed in 14 points and nabbed 10 rebounds and Christy Scott collected eight points. Tonya Johnson led Apopka with 14 points.

The Lady Hawks raced to a 33-16 halftime lead and came back to outscore Apopka, 32-14, in the second half. Lake Howell connected on 31 field goals for the night but had trouble at the free throw line, hitting just 3 of 13.

In junior varsity action Thursday, Lake Howell's JV upended Oviedo, 55-44.

In an Orange Belt Conference game, Oviedo tripped Bishop Moore, 44-28. No boxscore was reported.

Michelle Brown ... 20 points

— Seminole 14, Spruce Creek 13. Fouled out — none. Technicals — none.

TONIGHT

The Seminole Community College Raiders will try to rebound tonight after a 84-67 loss to Parkland (Ill.) Community College this past Wednesday. The Raiders, 10-6, travel to Leesburg tonight to take on Lake Sumter Community College, a team SCC handily beat earlier in the season.

In prep basketball action tonight, Sanford's Fighting Seminoles travel to Spruce Creek for a key Five Star Conference matchup. Spruce Creek sits atop the conference while Seminole and Mainland are a close second.

Seminole, 10-3 overall and 4-1 in the conference, will look for key inside play tonight from Willie Mitchell, William Wynn and Jimmy Gilchrist against Spruce Creek's giants, 6-10 Mark Nichols and 6-8 John Fedor. Seminole will also have its hands full with high-scoring guard Rod McCray, one of the quickest guards in the conference.

In another key Five Star matchup, Lake Mary's Rams are looking to upset Daytona Beach Mainland's Bucs in the second game of a double-header at Lake Mary High. The Rams, 5-4 overall and 3-2 in the conference, look to senior guards Fred Miller and Billy Durns for leadership and junior forward Darryl Merthie provides additional scoring punch.

Another Five Star Conference power invades Seminole County tonight as Daytona Beach Seabreeze's Sand Crabs take on Lyman's Greyhounds.

In other games, DeLand's Bulldogs travel to Altamonte Springs to take on conference foe Lake Brantley. Lake Howell's Silver Hawks host Apopka's Blue Darters and, in an Orange Belt Conference matchup, Oviedo's Lions host Bishop Moore's Hornets.

In girls action tonight, Lake Mary's Lady Rams will look for their fourth straight victory against Mainland's Lady Bucs in the first game of a double-header at Lake Mary High. Lake Mary stands at 6-4 overall and 3-3 in the conference.

Lyman's Lady Greyhounds, 6-3 overall and 3-3 in the Five Star, will look to rebound after a tough loss to Lake Mary as the Lady Greyhounds host Seabreeze in the first game of a double-header.

In soccer action tonight, Seminole hosts Spruce Creek at 4 p.m. while Lyman hosts Seabreeze and fifth-ranked Lake Howell travels to Daytona Beach Mainland (both 8 p.m. games).

HOROSCOPE

What The Day Will Bring...

YOUR BIRTHDAY JANUARY 7, 1984
Abundant opportunities lie ahead for you in the coming year, but you must take care not to go off on tangents. Before immersing yourself in ventures, carefully analyze their potential.

CAPRICORN (Dec. 22-Jan. 19) Something you wish to keep secret could be revealed to the wrong people today if you speak without thinking. Weigh every word. Major changes are in store for Capricorns in the coming year. Send for your Capricorn predictions today by mailing \$1 and your zodiac sign to Astro-Graph, Box 489, Radio City Station, New York, N.Y. 10019.

AQUARIUS (Jan. 20-Feb. 19) Unless you monitor your expenditures prudently today, there's a chance that before the day is out you'll spend far more than you intended.

PISCES (Feb. 20-March 20) Extra determination and persistence will be required today if you hope to achieve your objectives. Once you let down, you're not apt to recover.

ARIES (March 21-April 19) Beware of tendencies today to rationalize matters instead of evaluating them logically. See things for what they are, not for what you'd like them to be.

TAURUS (April 20-May 20) Today, try not to let material considerations cause friction between you and someone of whom you are fond. Pals are worth more than money.

GEMINI (May 21-June 20) In career situations today where others are involved, be sure everyone's aims are in harmony. If there are disastereous goals won't be accomplished.

CANCER (June 21-July 22) Do not assign difficult tasks today to those with poor performance records. There's no reason to think they'll do better today than in the past.

LEO (July 23-Aug. 22) To your credit, you're rational and enterprising. However, today you might be tempted to take foolish risks needlessly.

VIRGO (Aug. 23-Sept. 22) Let reason prevail in domestic situations today. If you introduce emotional elements, small issues could get blown out of proportion.

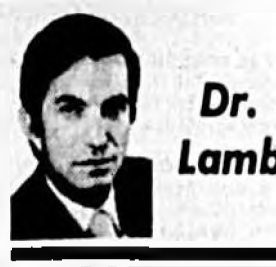

LIBRA (Sept. 23-Oct. 23) There is a likelihood of problems at work today if you fail to listen attentively to instructions. Don't daydream.

SCORPIO (Oct. 24-Nov. 22) It's best you carry a little surplus in your purse today. Unexpected expenses might pop up, and you won't want to be caught short.

SAGITTARIUS (Nov. 23-Dec. 21) In order to pacify others today you may feel impelled to change your course. You'll end up serving no one, including yourself. Be consistent.

Chemicals In Coffee Cause Several Ills

DEAR DR. LAMB — I was interested in your remarks that other substances in coffee can be harmful besides caffeine. I have noticed this myself. In fact, decaffeinated coffee often makes me more hyper than regular coffee.

Coffee is a great American tradition. In moderation, it is sometimes a great laxative. But it often leaves me so hyper that I have to use alcohol to calm down.

When I was in my early 20s I often drank 20 or more cups of coffee a day and slept like a baby. When I was 33 I developed chronic indigestion and tried to stop drinking coffee. With the help of Librax, my digestion was normal. Although I often had relapses back to coffee, I could go for two or three weeks before trouble occurred.

Colas contain far less caffeine than a normal brewed cup of coffee — usually only about one-fourth as much.

I am sending you The Health Letter 14-4, Controversial Beverages: Coffee, Tea, Colas and Chocolate, for more information. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

By the time I was 50, coffee started giving me painful pimples on my hairline — and so the cycle goes. I am very tired of it. You might warn people not to abuse coffee. It is certainly the national drug.

The effects of caffeine aren't all negative. Small amounts stimulate people and may improve their performance. Still, the amount used by people who have nervous tension or other medical symptoms seem to aggravate the problem. And the problem gets worse with the more caffeine a person consumes.

DEAR READER — Thank you for your comments. There is no way I can tell which substances in coffee are irritating you. There are many chemicals in coffee other than caffeine, including flavor oils. In your case, you may have some allergic reaction to one of these ingredients in natural coffee.

I am convinced large amounts of caffeine will significantly increase blood pressure in people who have high blood pressure. Caffeine also decreases the effectiveness of medicines used to treat high blood pressure. There is ample evidence that it can increase the frequency of irregular heartbeats.

Your letter points out an important fact: Individuals who have indigestion have poor tolerance for coffee, whether it's regular or decaffeinated. Those other substances in coffee often cause irritation to the digestive system (which is not to say that caffeine is OK).

Incidentally, I strongly disapprove of using alcohol to calm you down when you drink too much coffee. There is obviously a more sensible solution. Anyone using tranquilizers should not use caffeine, either.

Your letter also mentions that you drink cola without any ill effects. However, most caffeine

Send your questions to Dr. Lamb, P.O. Box 1551, Radio City Station, New York, N.Y. 10019.

WIN AT BRIDGE

This time he has his wife describe one of her own rare mistakes. Her start is, "I failed to defeat a game contract that I had doubled because I failed to come up with the correct play at trick two."

"I led the king of spades. Dummy played the deuce, my partner the nine and South the three."

The husband continues with, "Obviously, a spade continuation was called for. She leads her six of spades with every intention of getting in with the ace of trumps and giving her partner a spade ruff."

Expert wife says, "That's what I thought. I led a small spade. The Jack was played from dummy and held the trick. Then declarer cashed dummy's ace of hearts to jettison his ace of spades."

The husband commiserates with "You couldn't possibly have seen that."

"I certainly could have seen that I had nothing to lose by playing my queen of spades at trick two. Declarer could not get to dummy and I would set the hand by giving my partner that spade ruff."

Herald Photo by Tommy Vincent

Planning on taking up skiing this winter? If you're like most Central Floridians, you'll ski on the cheap. But if you want to go in style like Karin Nutt, above, you best be prepared to spend some big bucks. For instance, a parka and matching sweater like the ones Karin is wearing

cost \$110 and \$45 respectively. The turtleneck will run \$19.50 and the stretch ski pants, \$92. Then there's \$5 for the gloves, \$14.50 for the hat, \$25 for goggles, \$180 for ski boots, \$235 for skis, and \$35 for poles. Grand total: \$801 and you haven't even left home yet. Page 2.

Skiing

It's A Lot Of Fun, But It Can Also Be Expensive

By Susan Loden
Herald Staff Writer

Sun-splashed slopes of virgin white snow. Clean, crisp air. Majestic mountain peaks. Breathtaking views. And only the swish of your skis to break the pastoral silence.

This is skiing at its best — pure exhilaration. And a growing number of Central Floridians are getting hooked on this glamorous winter sport.

But it's not cheap. If you think you'd like to join the crowd, borrow or rent the equipment before investing \$800 to \$1,000 in gear for a sport you're not even sure you're going to enjoy.

Becky and Jim Jordan, who own a Winter Park ski shop, offer this advice to would-be skiers who have never felt the thrill of shooshing down a mountain side on a pair of skis.

"You need at least one skiing experience before you know what equipment you want, or even if you want to try it again. Some people think they want to ski, but find out it isn't for them," Jordan said.

But if you determine it is, Mrs. Jordan said the first piece of equipment you will probably want to buy is boots. However, beginners rarely even buy boots in their first year, although rented boots are less comfortable and less safe than a custom fitted pair.

The boots, which attach to bindings which hold them to the ski must be very rigid and must fit tightly to support the ankles. Mrs. Jordan said the fit should be so snug that circulation to your feet is almost cut off if you're not up and moving.

Beginner's boots are made of super stiff plastic, lined with leather and wool or rubber. For the more advanced skier, extremely rigid boots that can be adjusted for varied conditions are available. Jordan said, "A racing skier is traveling so fast he has to have the tightest fit possible, so he will feel he's one with his skis."

Beginner's boots and some basic clothing will cost about \$350, but the Jordans said you should also avoid buying clothes, if you can borrow them, before you know whether you're going to stick with the sport.

When hitting the slopes, you should be careful not to overdress. Even in extreme cold you may become

overheated once you start skiing. So, wear layers of clothes so you can shed what you don't need.

Mrs. Jordan said you'll need to start with thermal underwear, topped with a snug fitting cotton turtleneck shirt, a close knit wool sweater, a bib,

'It's nice to go with a well-meaning friend. But that's like having your husband teach you to drive the car. It's a good way to break up a happy home. You need to get good instructions and start off right if you are going to enjoy skiing.'

—Becky Jordan,
ski shop owner

want a pair that is about as long as you are tall. As you become more skilled on the ski trails, you may want longer, less flexible skis which eliminate the 10 to 15 minutes waxing time it takes to prepare waxable skis to meet varied conditions on different slopes.

The ski poles are made of lightweight, rigid fiberglass, bamboo, aluminum or steel. Poles that fit comfortably under your outstretched arm are usually the proper length.

A Syracuse University professor who writes books on skiing advises skiers to take along a backpack. William Ehling said the pack can carry discarded clothing and emergency items: a first aid kit, extra ski tips in case yours break, a screwdriver and screws for ski clamps, tape to repair damaged poles, a flashlight, rain gear, lunch and a thermos filled with a hot drink.

Mrs. Jordan recommends that the beginner also take lessons from a professional instructor. "It's nice to go with a well-meaning friend. But that's like having your husband teach you to drive the car. It's a good way to break up a happy home. You need to get good instructions and start off right if you are going to enjoy skiing."

Children start skiing as early as the age of 2. And Mrs. Jordan said you're never too old to take up the sport. You just need to be a little more cautious if you're at an age when your bones break easily.

(Next week: Where to go skiing)

GO GUIDE

"A Turn of the Century Holiday" exhibit, through Jan. 16, DeLand Museum, featuring antique toys.

General Sanford Museum and Library, Fort Mellon Park, 520 E. First St., Sanford, 2-5 p.m., Sunday, Wednesday, Thursday, and Friday.

Lorna Luft Expecting

By Cindy Adams
NEW YORK — Expectant mama Lorna Luft, expectant daddy Jake Hooker and aunt-to-be Liza Minnelli made a trip to Mount Sinai Hospital where Mrs. Hooker took a spectograph — a picture of the baby she's carrying. The whole family saw Mrs. Hooker's son, who'll be born in April and has already been named Jesse Cole... Also expecting their first child in April are Adreanne Barbeau and husband John Carpenter.

Robert Guillaume's character in ABC's "Benson" will run for governor. The voice-over for Chrysler's new Laser commercials is James Earl Jones, the larynx of Darth Vader, arch rat of "Star Wars."
 A few years ago Sidney Sheldon ("Bloodline," "Rage Of Angels") paid \$1.9 million for his Beverly Hills shack. The nice little joint comes complete with front yard,

back yard and guest house on Sunset Blvd. Sheldon just unloaded it for \$12.5 million — almost as much as he earned from his writing. Now the author has to rent a place to lay his bankbooks.

Linda Gray has been seen with McCann Erickson ad agency chairman Leo Kelmanson. Is there a romance in the works? No. More like a commercial in the works... Photographers from "Architectural Digest" were taking pictures at Lucille Ball's New York pad. They're doing a layout on that and her California house.

Eddie Albert, his missus, Margo and Eva Gabor shared an elevator after a party the other evening. On the way down, the main topic of conversation was the Albert's 38-year marriage. Between the fourth and fifth floors, Miss Gabor groaned, "My God, with all my marriages put together, I didn't make 38."

Want To Study In Greece?

The glory that is Greece lies ahead for those who reserve their spot in a summer theater workshop in Athens co-sponsored by the University of Central Florida.

The three week workshop in readers theater begins June 25 on the campus of The American College of Greece.

The program will be conducted in English. Areas to be covered include scriptmaking, direction, performance, hands-on participation and related fields. There will be a daily "Greek for tourists" language session, while afternoons, evenings and weekends are free to explore modern and ancient Greece.

For further information, contact Dr. Harry Smith at the UCF theater, 275-2862. Deadline for enrollment is April 15.

Music Awards

Michael 'Thriller' Jackson Dominates Nominees

LOS ANGELES (UPI) — Singer Michael Jackson, whose *Thriller* album sold 30 million copies and featured a half-dozen Top 10 singles, began the year with 10 nominations for American Music Awards, including a special merit trophy.

The 11th Annual American Music Awards presentations, hosted by Lionel Richie in a nationwide telecast Jan. 16 from the Shrine Auditorium, are viewed as a barometer for the music industry's coveted Grammy Awards given next month.

Winners of American Music Award trophies are selected by a poll of 20,000 record buyers. The nominations in three categories were compiled from year-end sales charts of music industry publications.

In addition to his 10 competitive nominations, Jackson will be given the Award of Merit for "outstanding contributions over a long period of time to the musical entertainment of the American public."

Previous winners were Bing Crosby,

Berry Gordy Jr., Irving Berlin, Johnny Cash, Ella Fitzgerald, Perry Como, Benny Goodman, Chuck Berry, Stevie Wonder and Kenny Rogers.

In both the pop and soul categories, Jackson was nominated for favorite male vocalist, favorite single for *Billie Jean* and best album for *Thriller*, which yielded six hit singles.

He won two nominations in the best video category for *Billie Jean* and *Beat It*.

Nominations in the pop-rock category included:

—Female vocalist: Pat Benatar; Stevie Nicks; Donna Summer and Bonnie Tyler.

—Male vocalist: David Bowie; Jackson; Billy Joel and Lionel Richie.

—Duo or group: Def Leppard; Daryl Hall & John Oates; Men at Work and The Police.

—Single: *Billie Jean*, (Jackson); *Every Breath You Take*, (The Police); *Flashdance*, (Irene Cara), and *Total Eclipse of the Heart*, (Bonnie Tyler).

—Album: *Flashdance*; *Pyromania*,

(Def Leppard); *Synchronicity*, (The Police), and *Thriller*, (Jackson).

—Video: *Beat It* and *Billie Jean*, (Jackson), and *Tell Her About It*, (Joel).

Nominations in the county category included:

—Female vocalist: Janie Fricke; Crystal Gayle; Barbara Mandrell, and Sylvia.

—Male vocalist: Willie Nelson; Charley Pride; Kenny Rogers, and Conway Twitty.

—Duo or group: Alabama; Oak Ridge Boys; Kenny Rogers & Dolly Parton, and Statler Brothers.

—Single: *Dixieland Delight*, (Alabama); *Islands in the Stream*, (Rogers & Miss Parton); *Love Song*, (Oak Ridge Boys), and *Swingin'*, (John Anderson).

—Album: *The Closer You Get*, (Alabama); *Highways & Heartaches*, (Ricky Skaggs); *Pancho & Lefty*, (Merle Haggard & Willie Nelson), and *Somebody's Gonna Love You*, (Lee Greenwood).

—Video: *Dixieland Delight*, (Alabama); *Pancho & Lefty*, (Haggard & Wilson), and *Potential New Boyfriend*, (Miss Parton).

Nominees in the soul category included:

—Female vocalist: Angela Bofill; Irene Cara; Aretha Franklin, and Donna Summer.

—Male vocalist: Jackson; Rick James; Prince, and Lionel Richie.

—Duo or group: DeBarge; The Gap Band; The Isley Brothers, and Gladys Knight & the Pips.

—Single: *All Night Long*, (Richie); *Billie Jean*, (Jackson); *Cold Blooded*, (James), and *Juicy Fruit*, (Mtume).

—Album: *Lionel Richie*, (Richie); *1999*, (Prince); *Thriller*, (Jackson), and *Visions*, (Gladys Knight & the Pips).

—Video: *Beat It*, *Billie Jean*, (Jackson), and *She Works Hard for the Money*, (Miss Summer).

Francis Albert Sinatra Is Chairman Of The Board

DEAR DICK: Frank Sinatra is known by "Chairman of the Board," "Old Blue Eyes" and other nicknames. I believe his full name is Francis Albert Sinatra. My husband thinks it is something else, but can't recall what. Can you help us? — L.B., Springfield, Mo.

Lee Solters, who has been Sinatra's publicist for years, says the singer's full and legal name is just what you thought it was — Francis Albert Sinatra.

DEAR DICK: I watch *Fantasy Island* all the time. Could you tell me what happened to Tattoo, the little guy who pulled the bell. The show is not the same without him. — N.P., Malverne, Ark.

No — it's better. Herve Villechalze, who played Tattoo, according to the story told by people on the inside, began to think he was essential to the show's success. He demanded a raise which the producers felt was exorbitant. So he was replaced by Christopher Hewitt and everybody seems pleased with the change, except you.

DEAR DICK: Please let me know if the young man who plays Andy Richards on *The Young and the Restless* is the Steven Ford who is

Ask Dick Kleiner

related to ex-president Gerald Ford. — M.G.M., Noel, Mo.

Yes, Steven Ford is the son of the former president.

DEAR DICK: What year did *Peyton Place* start, and how long did it run? Also, who played the part of Mr. Peyton? — V.O.L., Warsaw, Ind.

The TV series based on the Grace Metallous novel ran from 1964 to 1969. George Macready played Peyton, with Wilfred Hyde-White stepping in for a while when Macready became ill.

DEAR DICK: In the 1920s, there were two actors in silent movies, Wallace and Noah Beery. Is the Noah Beery of *The Rockford Files* a son or relative of the earlier Beerys? He is too

young to be the original Noah. — E.P., Amarillo, Texas.

Today's Noah Beery is the son of yesterday's Noah Beery. In fact, when he first started acting, he called himself Noah Beery Jr.

DEAR DICK: Please tell me about Daniel Hugh-Kelly of *Hardcastle & McCormick*. Is he married? Also, why are his middle and last names hyphenated? — M.L., Palos Heights, Ill.

He was born with the simple name of Daniel Hugh Kelly, in Elizabeth, N.J. But when he began acting he had a problem. There already was a Daniel Kelly in the actors' union. He tried Hugh Kelly, but didn't like being called Hugh. So he decided to hyphenate his two names, but he's still Dan Kelly to friends. He is married to a lady named Kathryn, and they live in New York.

DEAR DICK: Will you tell us if George Jefferson is married to Marla Gibbs in real life? I say no. I would like to know who he's married to. — B.S., Prichard, Ala.

George Jefferson (his real name is Sherman Hemsley) is a devout bachelor. He's not married to anyone, not even the lovely Marla.

Entertainment and Restaurant Guide

Try Dining In Sanford: You'll Like It

Sanford is fortunate in having a variety of restaurants available, most of which offer substantial fare at moderate, if not downright, reasonable prices.

Anything from "down home country cookin'" to

dishes with a touch of the international can be found in this community. Chicken and pizza are popular favorites, according to most restaurant owners interviewed, but so are steaks, seafood and other upscale dinners.

Breakfast seems to be a big deal at a small price here with many restaurants serving up platters of sausage gravy on biscuits or the more customary eggs, bacon and...

Restaurants which have been featured in this space during the past eight months exhibit a menu aimed at pleasing the local clientele. Keep it simple, as the expression goes, although simple does not mean without planning, care, thought and, of course, much hard work.

The results of the restaurant features in this space have been surprising to the dining place owners in many instances, bringing many new faces through their doors to try their tempting feasts.

A restaurant advertising on this page for 13 consecutive weeks is entitled to a feature article at least once during this period of the contract. No extra charge is made for this promotional story, which is usually handled through an interview with the owner or restaurant manager.

Multiply this by the average response to consistent advertising, and it is not difficult to understand the

excellent reception to the whole program.

Cost of the program is minimal, based on a \$4.45 per column inch rate for the weekly ad only. The feature appears Thursday in the *Herald Advertiser* and, again, on Friday in the *Evening Herald's Leisure Magazine*...in time for the weekend.

People everywhere enjoy going out and Sanford residents are no exception and, more than that, they like reading about their favorite restaurant, or one they have not visited in some time, or, perhaps, the "new eatery on the block."
