

BONUS BILL PRESENTED TO THE SENATE LAST NIGHT ---AFTER BEING BLOCKED

Williams Resisted First Attempt But Was Not Present Second Time BILL ON CALENDAR

McCUMBER HOPES TO PASS THE COMPENSATION BILL IN NEAR FUTURE

(By The Associated Press) WASHINGTON, June 9.—The soldiers' bonus bill was formally presented last night to the senate after a first effort by Chairman McCumber of the finance committee to report it at the opening of the session had been blocked by Senator Williams, Democrat, Mississippi.

Senator Williams was absent from the senate when Senator McCumber presented the measure for the second time, but came into the chamber a few minutes afterward. The presentation followed a quorum call and was without discussion. The bill automatically went to the senate calendar.

In attempting to offer the bill soon after the senate met at 11 a. m. yesterday, Senator McCumber said that "in the very near future I hope to be able to lay aside the tariff bill for a day or so for the purpose of considering and passing, if possible, the compensation bill."

"In the soldiers' compensation bill," he added, "we have nothing but an American bill. I hope we shall be able to dispose of it as an American measure in the same spirit that we voted for appropriations to carry on the war."

Senator Underwood, of Alabama, the Democratic leader, expressed the hope that when the bill was called up it would be by a vote of the Senate and that unanimous consent for its consideration would not be requested. He said if it was proposed to pass the bill at this session it might as well be considered now as in July or August.

"I should be very glad," he added, "if the bill went over until after the elections so that the American people might have an opportunity to vote their sentiments on the subject."

Senator Underwood said he felt that the bonus bill, if passed, "will not only work injury to the American people, but will in the end work an injury to the men whom it proposes to help." He estimated the bill would cost anywhere from four billion to seven billion dollars, and said it was drawn in such a way that it would have to be paid for in the future and thus would become a burden upon the ex-service men themselves.

"I realize so far as I am concerned," he continued, "that any effort on my part to prevent the passage of this bill will be practically futile. I recognize that what I say represents on the Democratic side only a few senators, and only a few senators on the Republican side."

Informal canvasses of each side have indicated that the bonus legislation has a substantial majority in the Senate but whether the amended Hoge bill will be approved is problematical. In any event a long fight on the measure is expected, and for that reason some at least of the Republican leaders are opposed to calling it up until after the tariff bill has been gotten out of the way.

Before undertaking to present the bill to the Senate, Chairman McCumber made public both its text and the accompanying report from the finance committee. The report estimated that the total cost of the legislation would be \$3,845,659,481, spread over a period of 43 years from next January 1, when the legislation would become operative. This total is \$250,000,000 less than the estimate under the House bill.

ANOTHER HIGH RECORD MADE FOR COTTON— TOUCHES 22.17 CENTS

(By The Associated Press) NEW YORK, June 9.—Another new high record for season was made today in the cotton market when October contracts touched 22.17 cents, and advance of 64 points over yesterday's closing quotation.

BRITISH TAKE BELLEEK FORT AFTER FIGHT

FREE STATE TERRITORY IS OCCUPIED BY BRITISH TROOPS

BELFAST, June 9.—Belleek and its famous fort which are in free state territory were occupied yesterday afternoon by British troops and the British ensign has displaced the Republican tri-color which had flown from the walls of the fort since it was occupied some time ago by Irish irregular forces.

The British troops moved to within two miles of Belleek on the south shore of Lough Erne and started operations. The artillery took a position overlooking the town and commanding a fine view of the fort, which is on high ground.

The official report of the military authorities on the operation is as follows:

"Orders were received to discover whether forces from the free state were still in occupation of Belleek. Strict orders were issued that free state territory was not to be entered unless fire was opened upon the troops while in Ulster. Water transport was arranged, as the stretch of road entering the town from the south is free state territory.

"The infantry divided into two columns, one column on each side of Lough Erne. Armored cars were sent ahead to reconnoiter. These were fired on from the free state while still in Ulster. The infantry then advanced under a brisk fire from the north. The artillery shelled the fort and also the ridge to the north, from which fire had been directed on the northern column, and Cliff House, the headquarters of the forces occupying Belleek.

"Our fire was very accurate, and the enemy retired. At one o'clock yesterday afternoon our advance column entered Belleek. Our casualties were one man slightly wounded. The enemy's casualties are unknown.

"The fort was taken by a platoon of the Lincolnshire regiment, which captured the tri-color flying from the main wall. The wall was badly damaged by six direct hits, out of twenty high explosive shells which were fired."

Dr. James Hague, Prominent Physician, Shot Himself Today

Lived at Mayo and Was Well Known Over the State

(By The Associated Press) MAYO, June 9.—Dr. James A. Hague, member of the State Board of Medical Examiners, and vice-president of the Mayo State bank, one of Lafayette county's most wealthy and widely known citizens, shot self to death at the home of his sister at Alto late yesterday. Sister saw him put pistol to his temple and before she could interfere he fired, killing himself instantly. He left no wife and there was no other way out. He left a wife and four children.

Informal canvasses of each side have indicated that the bonus legislation has a substantial majority in the Senate but whether the amended Hoge bill will be approved is problematical. In any event a long fight on the measure is expected, and for that reason some at least of the Republican leaders are opposed to calling it up until after the tariff bill has been gotten out of the way.

INCIDENT OF DISCUSSION ABOUT TARIFF QUESTIONS HAS BEEN CLOSED

(By The Associated Press) WASHINGTON, June 9.—The incident created by public discussion of the tariff questions by Ambassador Ruffini, of Italy, which brought about criticism in the senate, is definitely closed as far as the American government is concerned. Ruffini saw Secretary Hughes yesterday and learned today the conference has ended the matter.

FRENCH FINANCIAL MISSION TO U. S. FOR CONSULTATION

(By The Associated Press) PARIS, June 9.—The French financial mission going to the United States for consultation with the war debt funding commission, sails from here June 24th.

THREE SEPARATE REPORTS SETTING RECOMMENDATIONS FOR MUSCLE SHOALS PLANT

Made to House Today by Members of the Military House Committee

(By The Associated Press) WASHINGTON, June 9.—Three separate reports setting forth recommendations for action by congress respecting Muscle Shoals were made to the House today by members of the Military House Committee. Each report admits the task of making a final decision on the duty of the house. Acting Chairman McKenzie, of Illinois, who drafted the majority report, declares at the outset of that document that the Ford proposal was the only one found worthy of serious consideration and asks its acceptance, provided the Gorgas steam plant is not included among the projects to be disposed of. Concurrence in majority report except for reference to Gorgas plant, was voiced in the minority report presented by Wright, of Georgia, and supported by James, Republican, Michigan, and remaining Democratic members.

The third report submitted by Parker, Republican, of New Jersey, adverse to acceptance of Ford offer unless it was modified in other sections than that dealing with the Gorgas plant.

LABOR DISPUTES HOLDING BUSINESS BACK—BABSON

WELLESLEY HILLS, Mass., June 9.—Roger W. Babson, the statistician, today indicated several of the factors which are responsible for the slowness of business recovery.

"The floods still continue to trouble the Southwest," said Mr. Babson. "Nearly four million acres of land are said to be submerged. This tends to delay planting as well as to interfere with transportation and general buying. With the exception of this flood situation and the lateness of spring, the crops are coming along very well. A little scare in the case of cotton will do no harm. Scares do not affect crops but only straighten prices and make for business activity.

"The four industries which are the most active at the present time are the building industries, railroad equipment, public works, and automobile manufacturing. They are all industries of a fundamental nature. Not only in development of these industries giving temporary employment, but they provide permanent and productive capital for the country. This is especially true in the first three instances; building, railroad equipment, and public works.

"Very hopeful reports come from the Michigan district. Mines which have not been opened for a year or two are now running on full time. Thousands of men in the mining sections are now going back to work, and the whole Michigan district, looks more prosperous. Although the copper situation is still very flat, it is like a man flat on his back. There is only one way he can look and that is upward. Michigan during the next two years is apt to be a very busy state.

"The mill situation in New England is upset. Thousands of people are still out on strikes. Altho both sides

BARON KATO IS INVITED TO TAKE REINS

OF GOVERNMENT IN JAPAN AS PREMIER AND IS CONSIDERING THE OFFER

(By The Associated Press) TOKIO, June 9.—Admiral Baron Kato today was offered the premiership of Japan. He asked time to consider whether he would undertake to form his cabinet. Kato headed the Japanese delegation to the Washington arms conference.

OWNER OF CLEVELAND BALL TEAM DEAD

CHICAGO, June 9.—James C. Dunn, president and chief owner of the Cleveland American League baseball club died here this morning death occurring after a long illness, which first became acute last February.

CLEVELAND, June 9.—Manager Tris Speaker on receiving word of President Dunn's death, announced today's game here between the Cleveland and Washington clubs would not be played.

R. R. TELEGRAPHERS SAFE ---WILL NOT BE INCLUDED IN THE THIRD WAGE CUT

GUN CLUB HAD BIG TIME AT THE LOT

RALPH WIGHT TAKES THE LEAD AWAY FROM KING COLEMAN

With a score yesterday of over 95% perfect, Ralph Wight is now the leader for the season in the trapshooting of the Sanford Rod & Gun Club, succeeding J. B. Coleman, who has held the title since the opening of the season.

Yesterday was a comparatively good day at the traps. The weather was good, with the exception of the heat, and a fairly good crowd was out to participate in the contest, which was interesting from start to finish. Several changes in the standing of the regulars will be noted in the score below. Coleman was not out yesterday and has now missed several contests. It is hoped that he will be out next week to defend his reputation. Among the visitors yesterday was Robert Mann, of the Remington Company, who went in the first squad breaking 21. L. H. Gibbs, one of the best shots of last season was also out and broke 43 out of his 50. Frank Woodruff, Jr., another regular visitor took 43 of his 50 targets.

The score together with the season's average to date is as follows:

The score together with the season's average to date is as follows:

	Yest.	Season
	Score	Ave.
Wight, R. H.	125-119	.892
Coleman, J. B.		.888
Hand, W. S.	25-16	.831
Hill, W. C.	100-68	.828
Puleston, S.	125-111	.826
Whitner, Chas.	100-90	.825
Harden, J. L.		.812
Hutchinson, J. C.	50-42	.805
Stevens, R. E.	50-40	.787
Newman, R. A.	50-35	.780
Smith, H. P.	75-68	.777
Purdon, John	125-98	.763
Maines, Schelle	25-19	.740
Herndon, O. P.	150-107	.728
Maxwell, R. C.		.720
Cowan, J. H.		.700
Douglas, V. E.	25-13	.677
Mobley, E. D.		.673
Tolar, J. N.		.657
Crosby, F. L.		.653
Higgins, Ed.		.640
Stoniff, M.	25-12	.480

Note.—Only members of the club who have shot in the past 30 days are published above.

"DUSTED"

Where, oh where is King Coleman? Ralph Wight is now our young hero.

Mike Stoniff was out yesterday but failed to bring along his pot-metal shooting piece and was out of luck. Mike isn't strong for the new fashions in artillery.

Osborne Herndon (alias Wallace Reid) the "Movie King" was out yesterday and shot up most of the ammunition on the lot. Osborne shoots like the boys in the movies and we expect to see him show up some day with a pistol. Always glad to have you with us, Osborne. Keeps things movin' don'tcher know?

Chas. Whitner made a good score yesterday and is gradually going toward the top of the list.

Howard Smith is another good one. He was out yesterday making a score of over 90% and going around a couple of the boys in the list.

Walter Hand, Will Hill, Dr. Puleston and Chas. Whitner are all hard after third place with only six points difference in the scores of the whole crowd. Next shoot will determine who is entitled to it.

The secretary states that the neighboring cities have failed to take us on for a contest to date. They must be reading the Herald on Friday's.

ALTERATION SALE—STARTS June 14.—Lloyd Shoe Store. 61-8tc

According to Rumors Today of Contemplated New Slash

WAGE CUT FOLLOW

THOSE OF MAINTENANCE OF WAY EMPLOYEES AND SHOPMEN DOWN THE LINE

(By The Associated Press) CHICAGO, June 9.—Railway Telegraphers probably will not be included in the third wage cut order of the Railroad Labor Board according to rumors today of contemplated new slash from the railroad payrolls. New wage cuts to follow those for maintenance of way employees and shopmen will affect clerks, signalmen, stationery firemen, oilers, marine department employees according to reports. Telegraphers number approximately eighty-one thousand and so many local conditions on various lines have to be considered deliberation of order affecting telegraphers would necessarily consume many weeks.

CINCINNATI, June 9.—The executive committee of six railway shop crafts union in each of the country's three divisions, will convene at Chicago June 24, preparatory to canvassing the shopmen's strike vote, which is returnable June 25, it was announced today by U. M. Jewell, head of the Federated Shop Crafts.

CINCINNATI, O., June 9.—President Harding will be appealed to by a leader of 1,200,000 railway workers, part of whom have already received wage cuts from the railroad labor board due July 1, in an effort to stave off further reductions in their pay envelopes, it was decided at a conference of rail union heads last night.

Leaders of the eleven railway employees' organizations, which Tuesday decided to take a strike vote of their memberships, agreed to outline a letter to the president presenting their argument for higher wages, or at least no further reductions. A committee of union executives was appointed by B. M. Jewell, president of the railway employees' department of the American Federation of Labor, to draft the letter.

Approximately \$110,000,000 will be lopped from the pay rolls of the 400,000 shop crafts and the 500,000 maintenance of way men under orders of the board July 1. The new rates of pay will range from 54 cents an hour for mechanics' helpers to 70 cents for mechanics. The maintenance of way men will get from 23 to 35 cents an hour.

These rates were branded as "starvation" wages by the union leaders, and it is their intention in the letter to President Harding to demand whether the country's chief executive thinks these wages sufficient to maintain an American standard of living and properly sustain a family."

TO CREATE NEW OFFICE PROHIBITION

WOULD HAVE THE OFFICE OF SOLICITOR OF PROHIBITION

(By The Associated Press) WASHINGTON, June 9.—The creation of the office of solicitor of prohibition being considered by internal revenue bureau and department of justice, Prohibition Commissioner Haynes said today.

OLD CONFEDERATES WILL HAVE COTS FOR THEIR REUNION

(By The Associated Press) WASHINGTON, June 9.—The Senate adopted a resolution authorizing the War Department to lend one thousand army cots to the Confederate Veterans for use at the convention in Richmond this month.

COW MUST GIVE 350 GALLONS ANNUALLY OR TAKE THE COUNT

(By The Associated Press) GAINESVILLE, June 8.—A cow that produces less than 350 gallons of milk annually does not earn its subsistence and should be dealt with as a slacker, according to Professor J. M. Scott, of the Florida Experiment Station. Two economic factors are of concern to the owner of a dairy herd, according to Professor Scott. They were: Cost of feed consumed and value of milk produced.

Ordinarily the dairyman, who buys all his feed, will find that the cow consumes equal of 350 gallons of milk a year, Professor Scott asserts. Thus, to become profitable, the cow must produce many gallons more than that mark.

At the present the average dairy cow in this state according to Professor Scott, produces less than 300 gallons of milk annually. The low average yield is caused by the cow with no ancestry to speak of. Select breeding must be encouraged, he declares. Feeding, he says, has something to do with the milk production, but that alone can no change the individuality of the cow.

Have you lost or found anything? A Herald Want Ad will help you.

PERSONALS

Nice weather and little rain. Another Thursday afternoon off for some people.

W. S. Parker is in the city attending to business for the A. C. L. Ry.

S. B. Wright, of Jacksonville, was in the city yesterday attending to business.

C. P. Smith, of Dunedin, is spending some time here at the Montezuma Hotel.

W. T. Hedlow a prominent contractor and builder of Jacksonville is here today on business.

Big building program has started in this city and there will be something doing all the time.

W. R. Talley the well known architect of Lakeland was in the city today on business. Mr. Talley has plans for several of Sanford's new buildings.

Miss Edith Stewart, accompanied by Howard Fields, arrived in Sanford last night from Philadelphia. She will spend the summer with her parents, Mr. and Mrs. M. M. Stewart.

Sanford avenue is building up as fast as any part of this city and as soon as the street is bricked all the way to Tenth street it will be one of the main thoroughfares of Sanford and will build faster than any other part of the city.

The bids on the Meisch building were opened today and while there has been no contract let yet it is understood one of the bidders will get the contract tomorrow and all arrangements made for the commencement of the big new building on First street.

Mrs. Walter J. Morgan and son, John, are now enjoying the ocean breezes at Daytona Beach, where they will remain the balance of the summer, after enjoying visiting during the month of May. Mrs. Morgan's parents, Mr. and Mrs. J. K. Mettinger of Oak street, Riverside, Jacksonville.

The Herald has received postcards from L. P. McCuller and Sheriff Hand bearing the intelligence that they were stopping in New Orleans and were on the way to California, under and all right. They signed it "log Lou" and "Sheriff" so was supposed they know who they are up to the present time.

E. B. Brown, state sales manager of the Virginia-Carolina Chemical Co. is in the city today on business and also calling on his many friends here who are always glad to see him. Mr. Brown reports business throughout the state as being in a good condition with the farmers and fruit growers prosperous and looking for a good season ahead.

FORMER SENATOR WOULD BURN ALL SCHOOL HISTORIES

(By The Associated Press) LINCOLN, Ill., June 8.—Former United States Senator Lawrence V. Sherman told students in a commencement address at Lincoln college yesterday that all school histories ought to be burned.

"It is safer," he said, "to find the exceptions to this rule if there are any, than to oppose it. They would shed more light on a disordered world in a bonfire than in the school room. 'New ideas,' he declared, 'must be taught and practiced or civilization will be quenched in a world's dark age.'"

"The ancient and medieval history taught the pupil is a menace soiling the mind of the child. Principally it is a recital of crime by the wholesale save an individual virtue at long range. Teaching of such history causes the pupil to know more about Belshazzar's last drunk and Alexander's butcheries, which are said to have carried Greek culture through Africa, than of human justice. Julius Caesar and Attila, the Hun, are more familiar spirits than Aristotles and the apostles. Battlefields are depicted as scenes of human progress. One must conclude the best way to develop a people is to kill most of them."

"Washington and Wiltshire are derided or ignored. One is openly stigmatized as an antique and silence denotes the other as forgotten. Karl Marx in effect is preached more than Christ."

FIT MATE FOR DARING OUTLAW

Maid Marion by No Means the Least Valued Member of Robin Hood's Brave Band.

Belonging to that shadowy band of characters who hover somewhere in the borderland between fact and fiction, Maid Marion and Robin Hood, whimsical, charming, picturesque people of medieval England, deserve a chapter in the history of happy lovers.

Marion was a beautiful, graceful little maid, loving the errant Robin with all her youthful heart. She helped him in his self-appointed task of robbing the rich to aid the poor, and was a thorough little out-of-doors creature. No forest hardships were too much for her. She excelled in archery, was a fleet runner and, in fact, was splendid in every form of sport.

But Marion's family, so the story goes, objected to her union with the country-wide reprobate, and every effort was made to force her to wed a middle-aged man whom she did not love.

However, the jolly band of Robin's followers, by employing their ever-ready wits, succeeded in felling the parental plan. Robin Hood and maid Marion lived together in the woods many happy years, known always as the enemies of the rich and selfish and the friends of the poor and needy.

BRINGING BOARDERS TO TIME

Women Employ Coisip as a Medium for Getting Delinquents to Settle Their Bills.

Many and various are the schemes employed by boarding house keepers to spur collections from delinquent boarders. The latest is to take gossiping the boarders' own most popular indoor sport, and use it against them.

"Easiest thing in the world," declared an exponent of the new system. "All you have to do is spread the news. You just weave it into the conversation off-hand like that ain't it a shame poor Mr. Brown is having such hard luck and his wife so brave, too."

He owes me for three weeks now," you say. "Not that I'd press him for it. But he must be kind of hard put to be hanging up a pair 'tilow like me."

"That's enough. Whoever I tell tells it to some one else. She tells some one else. Soon it's all over the house, and in time it gets back to Brown. That usually brings him around. Few persons can stand it to be talked about."—New York Sun.

Improbable Story Beginnings. Mindmitch noticed the excellent diction of the street-car conductors in announcing the stations.

When Simulair pulled up at the garage he found the prices had not been arbitrarily raised because he was a tourist.

The midl opened the door and Cora entered with the umbrella she had borrowed the week before.

Young Ann chose left for Holly, went to take up her work she openly admitted who was one of the best of the stars and therefore never expected to reveal anything.

Her note had sent a copy of the latest issue of her favorite author to the water himself, asking that it be autographed. The simple request was complied with and the book promptly returned.—New York Sun.

ANOTHER NEW BUILDING WALTER HAND PROPERTY CONTAINS ANOTHER GARAGE

Walter Hand is building another big garage for the Wight Tire Co., just south of the one at the corner of Magnolia and Second and of the same size and kind. Mr. Hand built the one on the corner about two years ago for Wight Bros. Company but they have outgrown their quarters and the new building is necessary and the work will start at once on the new garage. It will be 60x117 and modern in every respect and will be occupied by Wight Bros., for sales room purposes and the rear for machine shops.

Webster's Lost Opportunity. Daniel Webster, expounder of the constitution, great senator and eloquent orator, had set his heart on becoming chief magistrate of the American republic. All efforts to secure the presidential nomination proved abortive. He could have had the nomination for the vice presidency in 1840 by simply indicating his willingness to accept. Disdainfully he brushed the suggestion aside. He considered himself above playing second fiddle with William Henry Harrison. Had he been equipped with more self-abnegation than haughtiness he would have accepted, and had he done so he would have become President April 8, 1841, an even month after the inauguration of Tippecanoe and Tyler, too, as a result of Harrison's death.

Animals Blush.

Poets have for ages regarded the blush as a thing of beauty in the gentle sex; but, after all, it is only a rush of blood to the face, caused by modesty or some other emotion. Animals blush, too, we are told, but through fear. Horses blush in their ears, especially the left one. When a horse is frightened his left ear will be found to be very much swollen. This is also the case with rabbits, cows and similar animals blush just above the hoof while the dog uses his tail for this purpose. When a dog is frightened his tail hangs limp, as he has lost all control over it. Even insects are said to blush. They do it in their antennae, or feelers.

When Lincoln Practiced Law.

Once in the old courthouse at Metamora, Ill., a prominent citizen of the town sought Lincoln's advice because a neighbor's pigs were in his cornfield. Then no one had fences, and pigs were privileged property. After his talking to the man's grievance, Lincoln said: "Well, you will have to civilize both the man and his pigs." Another leading resident of those early days waited until Lincoln was through speaking to inquire what he had better do about a bad debt. Lincoln asked how much money was at stake and upon finding that the sum was \$50 remarked: "Well, just throw it at him. A man can't go through court for \$50."

ing match such as our president is forced to go through with every day it is no wonder he wants a rest. All of us want a rest. We shall invite the president to come down to Sanford and play on our new links and run the Daily Herald for a while and he will be glad to get back to Washington for a real rest.

And now the bonus bill is given to the Senate and we shall await the verdict. And while waiting we would like to say that the burden of payment should not fall on the people but on the war profiteers and the corporations that made a killing while the boys fought in the trenches for \$30 a month.

FORD'S CREED FOR SUCCESS.

"1.—An absence of unreasonable fear of the future or veneration for the past. One who fears the future, who without reason fears failure, limits his activities. Failure is only the opportunity more intelligently to begin again.

"2.—A disregard of competition. Whoever does a thing best ought to be the one to do it. It is criminal because one is then trying to lower for personal gain the condition of one's fellow men, to rule by force instead of by intelligence.

"3.—The putting of service before profit. Without profit, business cannot extend. There is nothing inherently wrong about making a profit, cannot fail to return a shirdu etai un Well-conducted business enterprises cannot fail to return a profit, but profit must and inevitably will come as a reward for good service.

"4.—Manufacturing is not buying low and selling high. It is the process of buying materials fairly and, with the smallest possible addition of cost, transforming these materials into a consumable product and giving it to the consumer.

TESTING COWS FOR TUBERCULOSIS

In view of the fact that cows in Seminole county have been tested and that the cows in Sanford will now be tested for tuberculosis it is well for the owners of cattle to be alive to the situation. No tuberculosis was found in the county and none may be found in Sanford but it is well to be on the safe side.

"Milk is no doubt the most perfect of foods. It supplies abundance of protein to build up the body, carbohydrates and fats to furnish warmth and energy, and the still mysterious vitamins, so essential to life; while the ash contains in assimilable form all the minerals needed in the human system except iron, it is said.

The United States department of agriculture is making a determined fight upon bovine tuberculosis, a disease cows are subject to and which can be detected, in its earlier stages, by one process. An apparently healthy cow may be infecting its milk with germs which, taken into the stomach, pass into the blood and a case of "the white plague" is the result.

The department recently told the story of a dairyman in a Northern state among whose cows was found one which was tubercular and who was advised to kill it. Being skeptical he neglected to do so and gave the cow to a hired hand in part payment of wages.

When a herd is tested and found to be free from tuberculosis, or every cow that "reacted" to the test has been destroyed, the department puts that herd on its "accredited" list and gives the owner a certificate to that effect for use in his business.

MICKIE SAYS

EVER AD IN THIS NEWSPAPER IS A NOTICE TO THE PUBLIC THAT YOU LOOKIN' FOR MORE CUSTOMERS 'N ARE GOIN' TO DO YOU DANGONDEST TO SATISFY 'N PLEASE 'EM!

area, generally a county, is taken at a time and thoroughly cleaned of reactors. Essex county, New York, was recently cleaned up in a week and a day. In this case twenty-five veterinarians were taken in as many different automobiles from farm to farm by volunteer farmers and in two days tested 920 herds containing 5,274 cattle in all.

The work of ridding this county, Duval, of bovine tuberculosis is going ahead steadily, herds being tested once a year. This is done under the supervision of the city board of health and the state veterinarian, Dr. J. V. Knapp, of Tallahassee.

There was a time when it was very popular to write of "Who's Who?" In a measure who's who is popular yet. But the manner in which it has been commercialized by certain publications that appealed to men of large vanity bumps, and the fashion in which some very questionable public character have been tagged up by the who's who writer has thrown rather a questionable odor about that column.

WHERE'S WHERE?

Where's where is beginning to attract attention now. The locality that can get free advertising these days, has got to be something out of the ordinary. Being out of the ordinary, the attractions of these places make interesting reading and therefore profitable for publishers of popular publications.

For a long time we followed the fortunes of the great west. Then the golden gate and finally Alaska. The newspaper correspondent who could best portray the beauties and the advantages of these countries was most in demand. But the scene was shifted and now the quill is directed most largely to the portraying of the wealth of scenery, climate and soil of Florida.

People who have never been to Florida can scarcely realize the vastness of the state, territorially, much less its diversity of crops and the varieties of fruits grown within its borders. To meet a growing demand for information as to localities and opportunities, many northern news-

papers are carrying Florida news columns and railroad companies are sending out a great deal of helpful literature. On top of these are government reports that are establishing the whereabouts of Florida agriculturally and horticulturally. This wide-spread publicity that the state is now getting is bound to augment immigration to the state very materially during the next ten years.—Reporter-Star.

THE FOUR BLIND MEN OF THE FABLE

Four men went to a circus. They had never seen any animals, for they had been blind from birth. They were led to an elephant. One sightless man bumped into the huge bulk of flesh. "Ah," he said as he stroked the animal's side, "the elephant is very much like a wall."

"No," replied the second blind man as he felt of a leg, "tis a column I feel."

"That cannot be," said the third man of the party as he grappled with the elephant's trunk, "it seems to be a snake."

"Impossible," exclaimed the fourth, catching hold of the dangling tail of the elephant, "I'm sure the elephant is very much like a rope."

Thus four different men had four different points of opinion on what they felt, but could not see. Neither one could get a true conception of the real size and nature of the thing they were trying to describe.

The point I am driving at is that we have many men who suffer from a civic blindness. They have groped through the darkness of their narrow and warped souls and cannot conceive anything that is big or looms big.

Very much like the blind men of the well known fable they measure the object before them and one says, "It is very much like taxes," and another, "It is nothing like my father knew of," and another, "We can get along with it," and the other, "It seems to be a bugaboo."

Too many otherwise good citizens are blind mentally—blinded through self-interest or prejudice, if you please, because of some individual experience.

When a big project comes before the people of Lake county it is our belief that reason can make the blind see, as has been proven in every instance, for every bond issue, every worthy cause, has been carried to its fullest conception and fruition.

We still have a few whose civic blindness is beyond cure, and they

will go on through life holding on to the elephant's tail and soon be trailing far behind.—Powell's Laconics.

RADIO-TELEPHONE SALES DEPARTMENT FOR RAY BROTHERS

Ray Brothers have just completed arrangements for a Radio-Telephone Sales Department, handling the Westinghouse, A. H. Grebo and Clapp-East Regenerative Receiving sets.

They expect to have installed by the middle of the coming week one of the most powerful regenerative receivers and two stage amplifier receiving sets manufactured including a high powered Magnavox Loud Speaker, and as soon as this is set they will notify you through the Herald to visit their station and hear the free radiophone concerts sent out by the various broadcasting stations over the country.

For quick results, try a want ad.

What is as rare as a day in June in Florida?

What a calm and peaceful atmosphere after the election.

There are so many good amusements in and around Sanford that the people will not have to go away this summer.

That royal wedding in Rumania yesterday where soldiers had to guard the bride and groom all during the ceremony was not the kind of wedding that we would like. Uneasy is the head that wears the crown. We have nothing on our head—not even hair.

The Jacksonville Journal in big headlines on the front page of yesterday's edition says "Daugherty Must Go" and we suppose there is nothing for that gentleman to do now but pack his trunk and come to Florida.

The close associates of Henry Ford says he is not hankering for the job of president of the United States. As one of his close associates—there are only one thousand miles between us—we and several days ago that he would not and should not consider the presidency and we are quite sure he will take our advice. Henry gave us a car several months ago for a debt of gratitude and as long as the car lasts we are not going to see our friend and benefactor get into trouble.

Germany's war secrets are being bared to American officers who are now in Berlin searching records to make text books for the training of American soldiers. We would not care to adopt the tactics employed by the German war office in the last campaign and we fail to see just why the American army wants them. The "goose step" is a has been and was not a winner—then why adopt the failure?

There is considerable fast driving on the country roads, there is considerable disrespect of all the rules of driving cars on the roads, glaring headlights are turned on while passing cars and other breaches of law and good fellowship are being violated every day and night. It might be an added expense to put on a motor cap but it would certainly teach some of the drivers good sense and shave some of the bristles off the "road hogs" and a little teaching is certainly necessary.

The Bolsheviks are violating the terms of the Czar's got the sure any dispatches from Russia. Well, what do you expect from that rabble over there? America ought to send them another twenty million to give them strength so they can commit more outrages against humanity.

Dispatch from Washington says, "Harding Skips Out to Spend Few Hours in Absolute Rest." All of us great men do that. After a strenuous round of golf and a rag chew-

We invite you to call and inspect them.

S. ROBBINS First Street—Opposite Post Office

ACTOR IN "THE WORLD'S CHAMPION" SAW ABRAHAM LINCOLN SHOT

W. J. Ferguson, playing the role of the butler in "The World's Champion" starring Wallace Reid via Paramount at the Princess theatre tonight and tomorrow, is one of America's oldest actors. He witnessed the shooting of Abraham Lincoln in Washington in April, 1865.

Mr. Ferguson, despite his age, is vigorous as a man twenty-five years younger than himself. As a butler he has much to do and his characterization is strong and faithful. Wallace Reid, is the champion fighter, has an excellent role and Lois Wilson, who plays opposite him, heads a clever supporting cast.

You see, it is necessary to oppress the better classes in India to keep them from oppressing the lower classes.

For all our boasted inventive genius we have never coined a word satisfactorily to describe the male flapper.

Perhaps you have noticed that the chap who invests in bogus stock blames his subsequent poverty of world condition.

The metropolitan districts save more daylight than the ruralists, but they are more prodigal in the use of moonshine.

Justice may be a little blind, but it is always a good idea for the accused to wear her most becoming frock.

At present there are no cuss words in the Japanese language; but just wait until the reformers get going well over there.

All New Attorneys Must Have Certificate From Some College

This Subject Will Be Touched Upon At Meeting in Jacksonville.

(By The Associated Press) ORLANDO, June 8.—The recent action of the American Bar Association in recording itself as in favor of restricting newcomers in the legal profession to college graduates, will be touched upon at least by one speaker at the annual convention here June 14, of the Florida State Bar Association.

According to the announced program, Justice W. H. Ellis of the Florida Supreme Court, will speak on "The Washington Conference on Legal Education and Admission to the Bar." His address has been set for the morning session of the third day. Other prominent members of the bar in this state have been placed on the program to speak on subjects pertinent to the profession.

Florida's "centennial" will be recited the second day of the meeting, June 15. "Century" addresses are listed on the program for the day, and W. W. Dewhurst, of St. Augustine, will speak on "The Florida Purchase." Federal Judge William B. Sheppard, will have for his subject, "A Century with the Federal Courts in Florida," while Justice J. B. Whitfield, of the Florida Supreme Court, will recount "A Century with the Supreme Court, Justices of Florida." F. P. Flemming, of Jacksonville, has for his subject, "A Century with the Chief Executives of Florida."

The late W. A. Blount, of Pensacola a former president of the American Bar Association, will be eulogized as a lawyer and a citizen by John E. Hartridge of Jacksonville. Federal Judge H. D. Clayton, will also deliver an address on the same day.

The third day will be remarked by the closing out of the meetings business matters and the election of officers. Speakers listed for that day include W. S. Cockrell, of the University of Florida Law School, on "The Efficiency of the Law School in the Training for the Legal Profession," and L. C. Massey of Orlando, on "Statutory Infringement on Common Law Pleading."

The opening day will be devoted largely to the hearing of annual reports and the annual address of Judge C. O. Andrews, president of the association.

BIRMINGHAM VOTES AGAINST THE BILL TO BAR MASKED PARADES

(By The Associated Press) BIRMINGHAM, June 8.—By unanimous vote the city commission of Birmingham yesterday refused to adopt an ordinance proposed to the Birmingham Bar Association and backed by numerous civic and commercial bodies prohibiting masked parades. F. J. Masburn, of Atlanta, who said he was a representative of the Ku Klux Klan, made a lengthy argument against the proposed ordinance.

The commission later passed an ordinance making unlawful the abduction and whipping of private citizens and providing penalties. The chamber was packed during the discussion of interested organizations, the speakers being frequently interrupted.

INJUNCTION MODIFIED

(By The Associated Press) RICHMOND, June 9.—An injunction granted by Federal Judge Meade of West Virginia, in behalf of the Borderland Coal company and others against the United Mine Workers of America, restraining officers and members of the union from interfering with the coal companies' employes and property, was modified in an opinion handed down here yesterday by the United States circuit court of appeals and the case sent back to the West Virginia court for a trial on its merits.

LIGHTNING DAMAGES PLANE

(By The Associated Press) DETROIT, June 9.—The all metal plane in which Capt Eddie Rickenbacher was attempting a cross country flight from New York to San Francisco was slightly damaged yesterday afternoon at Packard field, near this city, when struck by a bolt of lightning 20 minutes before Rickenbacher and his party were to have taken off for Chicago.

Neither Rickenbacher nor any member of his party was injured. Three workmen were knocked unconscious and one seriously hurt.

DOCTOR FINDS FOOD CURE FOR RICKETS

(By The Associated Press) KANSAS CITY, Mo., June 9.—Discovery of a new food property which promotes bone growth and prevents rickets was announced by Dr. E. V. McCollum, of Johns Hopkins university in an address before the 37th

annual convention of the Holstein-Freisian association of America here yesterday. Frank O. Lowden, former governor of Illinois, was unanimously re-elected president of the association.

The city for the next convention will be selected by the board of directors. Richmond, Va., is a strong bidder.

WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING JUNE 6, 1922

Temperature: Temperatures were mostly moderate during the week, being below the seasonal average over the northeast.

Rain: Heavy to damaging rains occurred over much of the Section, especially in northern, north-central, and much of the extreme western counties. Rain was moderate to light in east-central and west-central coast counties. Weekly totals in inches exceeded 2, 4, 6, and 7 inches in different localities. Miami reported 6.3; Quincy, 7.0; De Funiak Springs, 7.6; Marianna, 5.9; Monticello, 4.0; Ocala 4.2; and Fort Myers, 7.2 inches.

Crops: There has been too much rain in all districts, and unfavorable reports are received from most of the Section. Cotton was damaged, and some fields were badly washed, especially in the west. Weevil is reported, but as yet not very active. Some old corn was blown down during wind squalls, and late corn suffered locally from the same cause; on low lands there is much water over northern and upper central counties; also in the west. Young corn made a ready response to the ample rains and shows much improvement. Cloudy weather unattended by rains during the current week is necessary for continued progress. Melons, tomatoes and other truck were unfavorably affected and damaged in many instances by wet weather; melon shipments were delayed. Cane on uplands is doing well, but low lands are too wet. Citrus trees improved, and much new growth and June bloom are reported from the belt. Pineapple shipments are active; the fruit is smaller than usual, owing to the dry weather of recent months. Tobacco was damaged by rain and locally by hail.

ATTENTION!

Wives, mothers and sisters of Brotherhood of Railway Trainmen are requested to meet at the Masonic Hall Sunday afternoon at two o'clock for the purpose of organizing a Ladies auxiliary. 64-2tp

WASHINGTON, June 8.—None of the men missing from the gunboat New Orleans were from Florida according to a list made public by the Navy Department.

For quick results, try a want ad.

MOVIE STARS ENTERTAIN ROTARIANS AT LOS ANGELES —WILL GIVE BIG SHOW

LOS ANGELES, June 9.—Mary Pickford, Douglas Fairbanks, Bill Hart, Pauline Frederick, Charlie Chaplin and others of the motion picture colony in Southern California have appointed themselves a committee to show members of the Rotary Clubs from all over the world what the motion picture industry really is. Hundreds of delegates from every section of the United States, Canada, Europe, Asia, Africa, South America and Australia are to attend the convention of Rotary Clubs which opened here June 5. More than 150 are coming from outside the borders of the

TRAIN SCHEDULE CORRECTED TO NOV. 16, 1921

Table with columns for Southbound, Northbound, and Trilby Branch, listing train numbers, arrival, and departure times.

United States and more than 100 of these from overseas. England, Scotland, Ireland and Wales are sending fifty. Reservations have already been made for about six thousand Rotarians and their wives.

The last day of the convention will be given over to an inspection of the motion picture studios. The Fairbanks studio will be one of those where open house will be maintained. In the afternoon a special performance will be given in the famous Hollywood Bowl where an all star cast of actors and actresses representing most of the companies in Los Angeles and vicinity will put on a special play for the benefit of the visitors.

ALTERATION SALE—STARTS June 14.—Lloyd Shoe Store. 61-8tc

TO STOP COUGHING AT NIGHT

A summer bronchial cough keeps not only the sufferer but other members of the family awake. Alfred Barker, 1061 Avondale St., E. Liverpool, O., writes: "I consider it my duty to write and tell the results of Foley's Honey and Tar, which I used for my boy who had been suffering from a bronchial cough for 7 or 8 weeks. Foley's Honey and Tar has done him wonderful good, and I shall always recommend it." It soothes and heals. Sold everywhere.—Adv.

You might get as good but you won't find any better loaf than O. K. Butter-Crust and Poinsettie Butter-Split Bread. If you haven't tried it, a treat has been missed. Try others, then eat O. K. BREAD made with milk and pure shortening. 6-6tc

Why pay more? The Berger Steel tiler, \$2.25. See us before you buy.—Elder Springs Water Co. Phone 311. 61-2tc

En route home, they will visit places of interest out west, and in Canada.

Jack Holland of the University of Florida is the guest of his fraternally mates.

Mrs. Hugh Carter Pollard of Winston-Salem, N. C., arrived here yesterday and is the guest of her parents, Capt. and Mrs. John Wimbish, at their home on Park avenue.

BIRTHDAY CELEBRATION

Wednesday afternoon the Kathleen Malory Circle and a few of Mrs. J. F. Laing's friends celebrated her birthday by surprising her with a handkerchief shower. They met at the Baptist church and went in a body to Mrs. Laing's home. The color scheme lavender and white, was beautifully carried out in the decorations.

First, a poem was read by Mrs. F. M. Carroll, Miss Carolyn Stanley sang very sweetly, Miss Mary Allen rendered an instrumental selection, and Miss Julia Laing and Mrs. Roby Laing sang a duet.

A very large birthday cake was placed on the center table in the parlor, and Mrs. Laing was asked to light the sixty candles. Delicious refreshments were served consisting of white and lavender block ice cream and pound cake.

Mrs. Laing received many beautiful gifts and one a check from her husband. After spending a very pleasant afternoon, her friends left wishing Mrs. Laing many more birthdays. Following is the poem, written by Mrs. F. M. Carroll and dedicated to Mrs. J. E. Laing:

DEDICATED TO MRS. LAING

(By Mrs. E. M. Carroll, May 6, 1922)

Today is your birthday, mother and friend—
We have come our appreciation and love to extend,
Our dreams this day have been that of you,
Wondering and planning what we might do.

To make you feel that we love you still,
We brought these tokens of esteem and good will,
Hoping you might be with us many a year
That we may be able your life to cheer.

We read in the smile on your dear face,
The love that's born on an inward grace,
We see the sign of you untold,
That comes alone from a Christian soul.

We see peace, sweet peace, written there;
The peace that roots out every care,
We know that mother has been with Him,
She seems to have forgotten the paths of sin.

Do we see lines of sorrow there?
Sorrow that mother has had to bear?
Yes! Where there's gold to be refined,
We see a life of sorrow and joy combined.

It's God's own way to test the gold,
That the beauties of our character may unfold,
Where there is no gold, there is no fire,
Send sorrow with joy then should be our desire.

Mother, O, Mother! I regret it now,
That I caused a sorrow to cloud your brow,
Forgive me, won't you, mother dear?
I'm glad today that you are here.

To help me live a better life,
And lead me from the paths of strife,
Telling me always to look to Him,
To keep away from the snares of sin.

When your work on earth is done,
And the real life is just begun,
My thoughts of you will be a beckoning hand,
Calling me to that better land.

CONNELLY-WIMBISH

A wedding which came as a surprise, though expected for some time, was that of Miss Daphne Wimbish, and Hawkins Connelly, which was solemnized at the Methodist Church, yesterday afternoon at five o'clock, in the presence of the relatives and a few close friends. Dr. S. W. Walker officiating.

The bride, who is a most attractive young woman of the brunette type, never looked lovelier, than she did in her traveling costume, of navy blue roshanara crepe, combined with grey and worn with a chic hat of grey, and other accessories of grey. Her flowers were an old fashioned bouquet of

roses, daisies and snap dragons, in a lace holder.

Immediately following the ceremony, the happy young couple left in their car for a trip to the East Coast, upon their return, they will be at home to their friends at their new bungalow recently built on Park avenue.

Mrs. Connelly, is the youngest daughter of Capt. and Mrs. John Wimbish, who came here about two years ago from Winston-Salem, N. C., and had made scores of friends here by her charming personality, and lovable disposition.

Mr. Connelly is the eldest son of Mr. and Mrs. A. P. Connelly and is a young man of sterling character, and is one of Sanford's rising young business men.

The numerous friends of this popular young couple join in wishing them every future happiness.

DANCE FO COLLEGE SET

The young men of the young social set, will give a dance at the Valdez tonight, complimenting the college girls, and their guests. Tomorrow evening, the younger set, will attend the dance at the country club, in Orlando.

PENINSULAR ELECTRIC CO. STARTS BUSINESS HERE

The Peninsular Electric Company whose advertisement appears for the first time in today's Herald, is a new Electrical Contracting Company for Sanford. Mr. E. B. Randall, Jr., who has spent most of his life in Sanford and is well known here, is Business Manager of the new company.

Sir. A. L. Campbell who has lived in Sanford for the past four years, working as Electrician for the Atlantic Coast Line Railway has left

the railroad to be Construction Manager of the new company. Mr. Campbell is a thoroughly experienced electrician having followed the business continuously since graduating from an electrical engineering school in Washington, D. C., in 1909. Besides his railroad experience he has worked in various cities in the North on all kinds of electrical construction work, and was with the Ancient City Electric Company in St. Augustine for four years, until during the war he went to New York City to accept a position with the Western Electric Company in their engineering offices, doing war work. Upon returning to Florida he came to Sanford to accept the position with the A. C. L. Railway.

A true fan is one who thoughtlessly eats his peanuts shell and all when the bases are full.
