

# Seminole Leap To 6th Place As G-Men Are Down 1 To 0

### Pete McRaney Scores On Own Single In Fluke Play And Error On Edwards

### Daugherty Hurls 6-Hit Shutout

### Sanford's Infield Makes Four Double Plays In Contest

Sanford hurled two Florida State League teams last night to place sixth in the race right behind Leesburg, as Bill Daugherty pitched a shutout game, allowing only six hits, and Pete McRaney scored on his own single in a fluke play to defeat Gainesville 1-0.

A peppery game from beginning to end, the Seminoles got into trouble several times with men on bases but the pitching of Daugherty and the fast work of the infield saved the game each time.

McRaney's home run occurred in the sixth inning with two men out and no men on. The husky left fielder walloped the ball off short center field for a blast into the bleachers. Edwards, attempting to make a play at short center field, was struck by the ball and fell down. The ball hit the ground and started rolling as McRaney rounded first and kept right on rolling until it reached the centerfield fence as McRaney

## Sanford Sheds Ball Players; Gets New Blood

### Hudson On Trading Block, Williams, Pfeil, Hindy Out

Sanford's ball club is shedding as the association released Shortstop Mutt Williams, outfielder Clarence Pfeil and pitcher Karel Hindy, and expects to sell Pitcher Fred Hudson to Ft. Lauderdale for another pitcher and a cash consideration.

Williams, who has led the club in batting and won a game Saturday on a home run, has been dissatisfied with the salary he has been getting and expressed his desire to leave. Last night the association gave him his release after deciding he would not play his best ball if he stayed.

Pfeil has been sick for the past two weeks and unable to play ball. In his absence Manager Charlie Girk had to use pitchers Sam Hardman from Rollins, Florida, and pitcher Clyde Jones, another Rollins man. Delfino is an infielder and Jones a pitcher. Jones will probably get his try-out tonight as the Seminoles started cutting out men who have been playing college and semi-pro ball.

crossed the third sack. Edwards picked up the ball and threw for home but McRaney touched the home base standing up for one score of the game.

Such fielding as the Seminoles have never exhibited before kept the visitors from scoring a number of times. In the ninth inning the local boys made four double plays, including two plays from short to second to first base, one from second to short to first and one from pitcher to first on a caught line drive.

Sacrifice hits of the Seminoles were not clocking last night as twice the G-men pitcher picked up the ball in time for a throw, to second on a force play to catch the runner.

Don Ryan of the G-men turned in a nice pitching performance to limit the locals to only eight hits and the one fluke run. Not even an earned run or run batted in was scored against him.

## British Fight On Against Mounting Attacks In Crete

Critical Stage Said Reached In Battle; Situation Termed Serious By London

Parachute Troops Continue To Drop Italian Division Of 15,000 Men Taken On Ethiopian Front

BERLIN, May 28.—(A.P.) Formal charges of terrorizing German paratroopers in Crete were made by a military spokesman at a press conference today. He said the High Command soon would make a public announcement.

British Prime Minister Churchill, flanked by British soldiers in the uniforms of New Zealand and British soldiers, said the Nazis were

A critical stage in the nine-day-old battle of Crete was reached today as British troops, now outnumbered and frayed by an incessant aerial assault, struggled against mounting odds in four sectors of the 160-mile-long island.

Health asserted that Adolf Hitler's aerial invaders had broken German resistance and had captured Crete, Crete.

British forces had captured important positions from the British in the Saloni sector on the Libyan-Egyptian frontier.

On the Ethiopian front, however, the British reported the capture of an entire Italian division—normally about 15,000 men.

World attention centered meanwhile on President Roosevelt's pledge of active American resistance against all Nazi attempts to win control of the seas.

British defenders in western Crete gave ground foot by foot in vicious combat yesterday as German reinforcements arriving by air widened a breakthrough in the section between Malemi and Canes, official sources said.

Prime Minister Churchill told the House of Commons that "the issue of magnificent resistance hangs in the balance."

Imperial reinforcements are pouring into Crete to bolster the resistance against the eight-day-old Nazi invasion. It was announced officially, and all Axis sources, including reports received by the royal navy with

## House Passes 3 Local Bills At Night Session

Passage Expected In Upper House Without Any Determent

Three bills pertaining to Sanford and Seminole County, introduced by Representatives John Leonard and E. E. Brady, were passed last night by the Florida House in local session, it was learned today from an Associated Press report.

House Bill 1648 would authorize Leonard to borrow up to \$40,000 for municipal purposes; House Bill 1649 would create a Sanford port district, and House Bill 1655 would authorize a five mill welfare tax for Seminole County.

Presumably the bills were sent to the Senate, where passage is

understood to be assured. They will become law when signed by Governor Holland.

Action on the bills had been delayed because Representative Brady felt a referendum should be attached to the bill permitting the City to borrow \$40,000 from its operating fund. It was pointed out, however, that the City's indebtedness was needed immediately for

enlargement of the airport because necessary, and that a referendum would only delay the bill's passage.

No referendum is attached to the bill, it is understood.

The bill authorizing Seminole County to levy and assess taxes not exceeding five mills for a County welfare fund is designed principally to be used in paying interest and operating expenses of the hospital.

Assistance is received from the government to build the hospital, a levy of two mills will probably be made to pay interest on the hospital bonds and operating costs of the hospital. A slightly higher levy may be made necessary in case the County is authorized and decides to build the hospital itself.

Under the terms of the bill, a maximum of five mills could be levied for a fund to be used for general welfare purposes.

Under HB 1649, establishment of the hospital is authorized.

Class Of '16 Will Have 25th Reunion

The class of '16 at the University of Florida, which numbers among its members S. A. B. Wilkinson of Sanford, will meet at Gainesville Sunday night for its 25th reunion dinner.

## Quiz Program Presented At Kiwanis Lunch

Judge Ware Conducts Question Game At Meeting Of Group

Under the direction of Judge R. W. Ware, who asked the questions, a quiz program was presented at the regular luncheon meeting of the Kiwanis Club at the Valder Hotel today.

In a short business session before the entertainment program, it was voted to appropriate \$100 to the Kiwanis Club for the purchase of a new boat.

Calling attention to civilian registration day, which will be held here next week, Mr. Hendon asked all Kiwanis members to cooperate and register on the day that shortly will be set.

P. P. Campbell was honored on his birthday. G. D. Workman announced that negotiations were under way to have a boat trip, and that it probably will be held next Thursday. B. C. Moore led the group singing. Charles Morrison sang a solo new song, "Let's Get Together."

There was some discussion of changing the meeting date of the club if the merchants close on Wednesday, but definite action was postponed until it could be determined when the stores will close during the summer.

Questions asked on the quiz program are listed below, with the answers following.

1. Who was the only man to hold the two highest offices in the United States government?

2. Who was the last native ruler of the Hawaiian Islands?

3. Locate the island of Martinique—French possession vital to American defense.

## Commencement Programs To Be Held By Three Sanford Schools

Visitor Declares Postal Colony Is Still Considered

F. G. Loderus of Bradook, Pa., a member of the Retired Postal Employees Association, was in Sanford yesterday looking over the advantages of this section for a postal colony and declared that he was "very much pleased with the city."

"Don't give up hope," Mr. Loderus declared to those interested in seeing a group of retired postal workers move here and build homes. "We are still working on the project and it is going ahead."

Mr. Loderus, who was returning home with his wife after a tour of Florida, stopped overnight at the Armitage Club on the Sanford-Orlando Highway.

There he discussed the postal colony project with E. M. Armitage, proprietor, who was encouraged with the prospect.

In Leesburg, Mr. Loderus had a conference with W. G. West, chairman of the home retirement committee, who declared that even if no more members are secured by the association, there are enough now to carry out the program.

Mr. Loderus will make a report to officials of the organization upon his return North, he told Mr. Armitage last night.

EDITOR NAMED

COLUMBIA, S. C., May 28.—(A.P.)—The board of managers of the Southern Christian Advocate announced yesterday that Dr. D. B. Peale of Columbia, dean of Columbia College, had been named acting editor of the magazine.

WASHINGTON, May 28.—(A.P.)—Under the powers of unlimited national emergency which President Roosevelt proclaimed last night, the Chief Executive may close or commander radio stations, demand preference for troops and war materials and any transportation system suspend trading on securities exchanges, and take over power-houses, dams, and conduits needed in munitions and manufacture.

Any step he may choose to take, aside from actual declaration of war, must be done by individual proclamation. Only Congress has authority to declare war, said the President.

## Farms In County Decline, Census Bulletin States

Agriculture In Seminole County is on the decline, judging from a bulletin issued today by the Census Bureau giving the results of an agricultural census in Florida.

The bulletin, the first of a series giving detailed information obtained in the 1940 census, reports on the uses of land, principal crops and classes of livestock with statistics for each county.

Farms in this county dropped from 989 in 1935 to 740 in 1940, the bulletin shows. The approximate land area of the county is given as 208,440 acres, of which 52 percent is in farms.

In addition to the slump in the number of farms, products of the farm also showed general declines in the five-year period from 1935 to 1940, in addition to declines in the period 1930-40.

Land in farms in 1940 was 75,744 acres, while in 1935 it was 72,438 acres.

Two items that did show increases are cattle and chickens. Cows kept for milk production were 470 in 1940, an increase over the 430 in 1935. Beef cattle totaled 1,336 in 1940, as contrasted with 938 in 1935. Chickens raised were 74,411 in 1940 and 55,012 in 1935.

Other bulletins will be issued later by the Census Bureau giving further information about Florida farms. Other facts about Seminole County farming reported by the first bulletin are as follows:

Sanford Boys May Take Flying Course

Sanford boys who are interested in learning to fly are eligible to enroll in a summer CAA ground school beginners class at Stetson University, R. E. Kipp, principal of the Grammar School, said today.

Prof. Robert Allen, physics instructor at Stetson, will have charge of the classes and boys over 18 and under 26 may enter.

Two or three boys may enroll from Sanford in the course, Prof. Allen told Mr. Kipp. There will be 72 hours of ground work instruction offered and 35 hours of flying. Further details may be secured from either Mr. Kipp or Prof. Allen.

## Axis Press Views Roosevelt's Speech As War Invitation

Bradshaw Named County United Service Head

Plans Taking Shape For \$2,000 Drive Starting June 3

Charles E. Bradshaw of Altamonte Springs has been named chairman of the United Service Organization in Seminole County, it was announced today, and plans are taking shape to raise \$2,000 as this section's contribution to a giant recreation program for the nation's soldiers and sailors.

Mr. Bradshaw, whose appointment was made by Governor Holland, said the drive for funds probably would be held about June 3.

The United Service Organization is a non-profit corporation approved by President Roosevelt which brings together various national agencies in a common program of service to the nation's defenders.

The agencies are: Young Men's Christian Association, National Catholic Community Service, Salvation Army, Young Women's Christian Association, Jewish Welfare Board and National Traveler's Aid Association.

The new organization, part of the national body recently organized by the six groups for planning and coordinating the volunteers and resources, will serve soldiers, sailors, nurses, defense workers and young men in camps, bases, and manufacturing areas.

The national organization has a quota of more than \$10,000,000 to raise starting June 3 and to last two weeks. From this fund, the county will be providing sites and buildings, it will establish more than 300 service clubs outside of air bases, camps, naval stations and defense production centers.

The county program of the USO will be to serve the religious and social needs in the armed forces and defense industries of the nation and to contribute to the morale of the defense forces and the communities in which they are based.

Seminole County May Get Separate Senator

Seminole County would have its own senator and separate senatorial district under the terms of a House committee proposal made yesterday to redivide the six senatorial districts to give five South Florida counties individual senatorships.

Seminole County and Brevard County form one senatorial district at present.

Palm Beach county and Broward (Fort Lauderdale), which now are together in the 35th district, each would elect separate senators.

Monroe county (Key West), which is coupled with Lee county more than 300 road miles away, would have its own senator.

Manatee county (Bradenton) also would have a separate senator who at now is in a district with other counties.

Authoritative Fascist Editor Claims This Nation Is Preparing For Aggression

America Is Said Virtually In War

WASHINGTON, May 28.—President Roosevelt will hold special press conference late today at which he is expected to clear up the question of convays, Stephen Early, presidential secretary announced today.

To the question of whether the President's plea in the "fireside chat" last night that all citizens put defense first meant that the time for debate was over, Early replied that certain free speech would continue.

Both Axis nations were grimly silent today—officially—on President Roosevelt's speech, but irraganda sources which do their bidding were allowed to hint that it may be regarded as an invitation of war.

Virginia Gayda, Fascist editor who often reflects Premier Mussolini's views, said Italy Roosevelt is "preparing for aggression" against Italy.

Other Fascist circles in Rome said the "fireside chat" virtually put the United States in war with the Axis.

By a late afternoon the German press had not disclosed its public view of the President's speech.

The twenty Aus Deutschland news commentary, which has close foreign office connections and is not for home consumption, asserted the address undoubtedly would result in "decisive reaction" from the Axis.

President Roosevelt, proclaiming an unlimited national emergency, put the U. S. last night on wartime footing, and on a world-wide broadcast warned the United States will fight, if need be, to maintain freedom of the seas.

And the United States, he added in a serious tone, will do what ever may be necessary to assure safe delivery of war supplies to England.

Delivery of this aid, he said, "can be done, must be done; will be done."

There was no answer from the President to the question often asked whether convays would be used to make aid delivery certain. But he pointed out that extended operations of the neutrality pact were helping to move war supplies safely.

Bluntly, he accused Hitler and the Axis nations of an intent to conquer the world and "strangle the United States of America."

Previously he ran over the "ancient doctrine of freedom of the seas," were included in his long awaited address delivered from the east room of the White House, before the entire diplomatic corps of the Western Hemisphere.

## Florida Senate Agrees To Debate General Appropriations Measure

TALLAHASSEE, May 28.—(A.P.)—The Senate agreed today to debate late today the general appropriations bill to which the House had added an \$8,771,000 old age pension and welfare rider.

A sharp skirmish preceded the vote, delaying final action until this afternoon. During the debate, Senators Rose of Orlando and Whitaker of Tampa argued sharply over Rose's charge that an attempt was being made to "railroad" the legislation through the Senate.

The Senate passed a general appropriations bill providing less than \$12,000,000 for operations of the State, courts and public institutions. The House passed its own bill which, with a pension rider, aggregated more than \$21,000,000.

Senator Wilson of Quincy, chairman of the appropriations committee, planned to offer the entire Senate bill as an amendment to the House bill. The result would have been that the two Houses would name a conference committee to work out the vast differences.

## City News Briefs

The Board of Deacons of the First Baptist Church will meet at the church at 8:00 P. M. tonight.

Ralph Rose Gives Quarterly Report; Announces Transfer From Sanford

Capt. Ralph R. Rose gave his quarterly report to the board of directors of the Salvation Army yesterday and announced he is to be transferred to a new post.

The medical care has been administered in co-operation with the county nurse and the school nurse. Capt. Rose reported that in the past, 105 young people's meetings have been conducted with a total attendance set at over 4,000. At the meetings, 1,050 pieces of Sunday School literature has been given out.

Capt. Rose has conducted meetings at six local institutions.

He also reported the activities of the Salvation Army in the United States, organization of six charitable institutions. Three members were appointed to represent the local Salvation Army group and Salvation Army members are H. three from other organizations.

WEDNESDAY, MAY 23, 1941

**Our Course Is Set**

Taking a thoroughly realistic view of present world conditions and the intention of the Axis powers to dominate the Western Hemisphere as well as the nations of Europe, President Roosevelt has declared a state of unlimited national emergency and has expressed in such clear and unmistakable language the foreign policy of the United States that even the Nazi propaganda ministry will have difficulty in deceiving the German people about it.

There will be no appeasement here. No official of the United States government will come flying back from Munich with peace for our times. We will accept no pledge of Hitler that he has no further territorial ambitions beyond the confines of Europe or that he will respect the rights and freedom of our South American neighbors. We will not be deceived by protestations of good will and cordiality from one who has shown only hate and brutality for all mankind.

Not only will we continue aid to Great Britain but we will increase it and protect it until every man, woman, and child in this country is doing his bit to this end, and until so many guns, tanks, and airplanes are coming off our assembly lines that the German warlords will regret they ever heard of mechanized warfare. This government will tolerate no capitalistic disputes, no strikes, no communistic agitation or Nazi activity which interferes with this purpose.

And what is infinitely more, our government will see to it that the products of our factories and our soil, so essential to the survival of democracy everywhere reach their destination. Convoys certainly are not the whole answer. Naval patrols may suffice, but make no mistake about it, whatever is necessary to meet this technical problem will be carried out. That is the policy of our government. No threats from enemy powers or guns on their battle-ships will deter us.

President Roosevelt recognizes the importance to American security of such outposts as Greenland, the Cape Verde Islands, the Azores and Dakar. There may be some people who would not regard this country as attacked until there was fighting in the streets of New York. But our government will stop Hitler before he reaches the gates of our cities, before he can establish bases from which to throttle our trade and bomb our people.

Whether this policy means peace or war is for the Germans to say. Our course is set. We have not declared war on Germany. It is up to them to fire the first shot, if they wish. We will not go around the block to avoid the issue, nor will we surrender without a fight. We will not surrender at all. The United States when much smaller and weaker than today has fought many wars. It has never surrendered yet.

The time for debate has ended. Those misguided isolationists who think that the evil forces at large in the world today can be overcome by burying our heads like ostriches in the sand have had their say and their advice has been rejected. If they are patriotic Americans they will now turn their energies to the defense of America. If they do not, they may be regarded as fifth columnists, which is merely a streamlined word for traitors.

**Blackouts**

Three cities in the United States have already practiced "blackouts" in preparation for some future time when such procedure is part of the daily life of our citizens.

The latest municipality to experiment in the business of concealing itself at night was Newark, where the results were far more encouraging than the earlier attempts made in Seattle and Pittsburgh, where co-operation was only half-hearted. However, reports indicate that in Newark as in the other two towns the public made the occasion one of celebration and great crowds filled the streets.

But even so, writes the New York Herald Tribune, "it is interesting to learn from Mr. Edward Ratner, a special observer for the Newark Defense Council who had flown over London in a similar test just before the war, that Newark's job of effacing herself was 'better by quite a bit' than London's at that time. Mr. Ratner studied Newark's test from an airliner cruising above the heart of the city. Another observer in the plane was Major Aaron H. Horland, of the 1st Army Air Corps. Said he: 'Bombardment missions would have been absolutely unable to distinguish anything of military significance from the air. Even from 1,000 feet, it would have been impossible for me to identify the city if it had not been for the lights of the suburbs.'

"So, notwithstanding the few neon signs and other lights left burning through neglect or non-co-operation, and notwithstanding the propensity of the populace in the streets to put matches to cigarettes, Newark achieved an effective demonstration which does great credit to the conscience and imagination of her residents and to the hard work and organizing ability of her Defense Council. For let no one minimize the extent of the task of preparing a city of 480,000 inhabitants, about the size of Edinburgh or Belfast, for even fifteen minutes of total darkness. Months of planning were necessary, not only to acquaint every one with the time and various purposes of the experiment and his individual duties pertaining to it, but to co-ordinate the contributions to its smooth operation of the many essential governmental and civic agencies."

**DISPELLING THE FOG**

By CHARLES MICHELSON

It has been the cry of the isolationists, and their fellow travelers, that every measure that indicated our sympathy with the anti-Nazi powers would "bring us into war."

When it became evident that the original neutrality measure was working toward our disadvantage and its repeal was recommended, we were gravely informed in the Congressional debates that repeal meant our entrance into the European conflict.

When in conformity with the repeal, the lead-lease bill was passed, we were similarly warned by the opponents of that measure that it would be construed as a warlike act and again that we were imperiled by the repeal of war.

When we passed a law of aid to Great Britain, we were again warned that it would be construed as a warlike act and again that we were imperiled by the passage of war.

**EVERY DAY IS MEMORIAL DAY IN EUROPE**

Every day is Memorial Day in Europe. We even bombed one or two French ports in the West Indies—and still there was no war.

We jumped in when a French force assailed the Dutch island of Curacao, and battled the forces held by the French, finally driving the invaders away—and still there was no war. And when Napoleon came into power we straightened out our differences with France, restored to them such of their warships as we had taken—the insurgent had been wrecked before the accord—and that was the last of the episode.

**Senate Debates Scheduled Upon Appropriations**

(Continued from page one)  
 machines. The Florida Senate yesterday adopted as its judgment an address terming West-brook Pegler "an unmitigated liar" and "an intellectual cockroach" for his syndicated newspaper column about the lynching of a negro at Quincy May 13.

Senator Amos H. Lewis, Marianna, a former circuit judge, led an smashing attack on Pegler, in which he said:

"This alley-bat news shipper, among other things, charges that North and West Florida were settled by people who were renegades of Georgia and Alabama and deserters of the cause of the Confederacy. He charges that the citizenry are illiterate and no better than the rapist. Lewis, to the applause of a packed gallery, declared his resentment at 'this vile, cheap, unjustified, scurrilous and scandalous attack upon us.'

Pegler, winner of the 1940 Pulitzer Prize for best domestic reporting, had written about

of the Confederacy. He charges that the citizenry are illiterate and no better than the rapist. Lewis, to the applause of a packed gallery, declared his resentment at 'this vile, cheap, unjustified, scurrilous and scandalous attack upon us.'

**CAPTIVA ISLAND**

From The Christian Science Monitor

I have lost my heart to the Gulf of Mexico.

I go slowly down the beach, looking for shells.

Every one is looking for shells. But I am really looking for the locket of Theodosia Burr.

Perhaps I might find it interlocked with a hermit crab; but I don't.

Now I have reached the secret place.

Where the mangroves dig down into the sand—

Sift the salty green leaves and tough stems.

The white sand is thick and soft here;

The palms and the jungle are back of me.

The Gulf is in front of me. Boiling up in jade tipped with white.

I lie pressed deep into the sand; the buzzards hover overhead. And I say softly: "Go away, buzzards! I am not for you."

The sun is hot on my eyes; I turn and look at the water—

Back from smoke, pearl, turquoise—what are you?

And the Gulf waters roll in. Steadily, monotonously, saying: "I am the Gulf of Mexico: I am a stranger; I am the Conquistador; I am something that you don't know. You, from your northern Atlantic, are in the Gulf. It is not that enough for you?"

And I say, respectfully: "Yes, it is enough."

—A. JACQUELINE SHAW

Roosevelt pulled no punches.

The "home loving" Germans are getting farther from home with each new aggressive move.

It isn't necessary to read between the lines in the President's speech to understand where America stands.

The way the government is keeping up passenger liners, it won't be long before it will be necessary to join the Navy in order to take a boat ride.

For the first time in his career, Hitler has been told in advance, without equivocation what he can expect if he tries to thwart the America's will to resist his diabolical machinations.

We thought night baseball was a fairly new innovation, but along comes a smart-alec who tells us the first night game was played way back in 1860, under electric lights at Nantuxet Beach.

Frank for lack, plans for a Kautsky formula for dealing with the Axis. We say let's make it two tanks and two planes for every one Hitler and Mussolini can muster.

A newspaper reporter in London looking the lawn over after particularly heavy rain, found the grass in front of what had been a public building: "Anyone who damages These Premises is Prosecuted."

Valera calls the proposed loan for Ulatas, still part of the United Kingdom of Great Britain an "extraneous" thing.

Hitler will do to us what he did to the Jews, and when he gets his hands on us, he will do to us what he did to the Jews.

General sales tax on all goods is proposed in the House by the Administration. The vote is 2-1.

Let us say for your life, let us say for your life, let us say for your life.

of the Confederacy. He charges that the citizenry are illiterate and no better than the rapist. Lewis, to the applause of a packed gallery, declared his resentment at 'this vile, cheap, unjustified, scurrilous and scandalous attack upon us.'

Pegler, winner of the 1940 Pulitzer Prize for best domestic reporting, had written about

the lynching of A. C. Williams, 22-year-old negro, who was arrested in connection with an alleged attempted attack on a 12-year-old white girl.

**HEADS SECRETARIES**  
 KEY WEST, May 23 —(AP)—Florida Commercial Secretaries yesterday elected R. S. Dymond of Daytona Beach president.

**THERE'S NO TRICK TO BAKING DELICIOUS ROLLS THIS EASY WAY!**

**New Fast-Acting Yeast that Keeps Without Refrigeration Makes Grand Refrigerator Rolls!**

FOUR DAYS AGO? Not really! But they're just fresh out of the oven!

"That's right—but I missed them up four days ago. We had hot chamon rolls yesterday for breakfast. These Parker House rolls are for lunch. And maybe tomorrow night I'll use the rest of the dough for clover-leaf rolls."

"This fast-acting MACA YEAST is certainly grand. It took me only a jiffy to mix the dough in the first place—and George is just plain crazy about that old-fashioned home-baked flavor! I always keep a supply of MACA right here on the shelf—see! There's no fuss or bother about refrigeration. That's why it's perfect for Florida!"

Try MACA YEAST yourself, at our expense! Take this coupon to your grocer. He'll give you, absolutely without cost, a regular size package of MACA YEAST—right with MACA YEAST recipes. Treat your family to the grand old-fashioned flavor of MACA YEAST home-made rolls! See how fast and how easy home baking becomes with this amazing new granular yeast. No refrigeration! No fuss! No bother!

Get MACA Yeast for needed extra vitamins! It's rich in iron or peanut butter and enjoy its nut-like flavor!

THIS JEWEL  
IS NOT FOR SALE!

Good name in man or woman, Mr. Shakespeare's Ingo said, is the immediate jewel of their souls

Back of every business success, back of the smallest product that contributes to that success, is an enduring good name. This is a jewel that is never for sale.

Advertising cannot make a bad name good. Nor should it try! But advertising can carry a good name to a rich and just reward. In fact, advertising is the voice of the good name. Through advertising, the good name is able to make the promises that men live by.

This newspaper is proud of the good names in its advertising columns. You will find nothing but good names here.

# Yearlings Stop Sanford Rally To Win 3 To 2 Game

### Delfino, New Third Sacker, Rings Up Only 2 Tallies On Double And Single

### Ocala Here For Double Tonight

### New Hurler, Jones, Fans 5 Men, Gives Only 10 Bingles

Limited to six hits by the Yearling pitcher, Willie Eckenroth, Sanford lost by a close score of 3-2 then it was stopped by a ninth inning rally at the Ocala park last night.

A chance for revenge will be given the Seminoles tonight as they face Ocala in a double header here tonight, giving the local fans their first look at the new third sacker, Al Delfino who last night made the two Seminoles runs and led the local's hitting with a double and a single.

Sanford handed out some hitting behind the ball pitching of the new Seminoles, Clyde Jones of Rollins, by clicking for two double plays, Joe Justice handed two more of his "touch the base runner and throw to first" plays last night, the fourth he has made in two days.

After three up and three down in the opening inning Ocala got going in the second to collect three singles and two runs. Lee struck, Leachman, singled and Lawrick, singled a fast ball

## FASHION NOTE FOR FANS...

What fan is to enjoy the best of the Florida State League? The answer is simple. It is the fan who has the most complete record book. The Florida State League Record Book is the only one of its kind in the South. It contains the names of all the players who have played in the league since its inception in 1902. It also contains the names of all the managers, umpires, and other officials who have been associated with the league. The book is a valuable reference for fans and collectors alike. It is available for purchase at a special price of \$1.00 per copy. Order today!

## TWO BIG ADDED FEATURES

The new edition of the Florida State League Record Book has two big added features. First, it contains the names of all the players who have played in the league since its inception in 1902. Second, it contains the names of all the managers, umpires, and other officials who have been associated with the league. The book is a valuable reference for fans and collectors alike. It is available for purchase at a special price of \$1.00 per copy. Order today!

## Registration Dates For Civilians In Seminole Set Monday, Tuesday To Repay Company

Civilian registration days in Seminole County have been set for Monday and Tuesday, when all men, women and children from 18 to 99 will be asked to fill out blanks placing themselves at the service of the State Defense Council, Edward J. Nelson, Jr., who has charge of the registration, said today.

## Registration Dates For Civilians In Seminole Set Monday, Tuesday To Repay Company

After seven months of hearing testimony, Supreme Court Justice William F. Collins, in New York, ordered George W. Hill, president of the American Tobacco Co., with his son and three other vice presidents to repay the corporation \$2,168,622.44 for accepting bribes and making certain mistakes in management.

## Report Of Veterans' Graves In Seminole County Is Made By WPA

War is listed. She served aboard the hospital ship General O'Reilly, and died in 1940. Purpose of the survey is given in the preface by Miss Denton, state supervisor. "We have attempted to prepare a comprehensive record of all graves of honorably discharged veterans of the United States that may be found in Florida," Mr. Denton says. "The record compiled consists of a card giving all available data and their sources, concerning the service record and burial place of each veteran whose grave can be located, and plots of cemeteries where such graves are to be found. Cards and plots are being filed in the office of the state registrar at the State Capitol, St. Augustine."

## 25 More Men Are Needed For Defense Force

Twenty-five more men are needed to complete the quota of the Seminole County Florida Defense Force. The men had filed applications at the meeting held at the Armory Monday night. Capt. E. C. Harper reported yesterday.

## City Playground Plans Are Almost Ready For June 2

With schools dismissed for the summer, plans for the new playground in Sanford are almost ready for June 2. The playground will be located on the corner of Main and Second streets. The plans for the playground were approved by the city council today.

## To Be Held At Lake Meador

The annual convention of the Seminole County Chamber of Commerce will be held at Lake Meador. The convention will be held from June 1 to June 3. The convention will feature a variety of activities, including a golf tournament and a fishing contest.

## Serious Power Emergency Is Seen In U. S.

### Diverting Electricity To Assure Continued Production Of Arms Is Studied

WASHINGTON, May 28.—The American Medical Association was fined \$250 and the Columbia Medical Society \$1500 for violation of the Sherman Anti-Trust Act today by the Justice Department.

WASHINGTON, May 29.—(AP)—Forecasting a nationwide power emergency "perhaps the most serious in history," T. R. Tate of the Federal Power Commission today revealed a study is being made of means for diverting electricity from civilian to industrial purposes to assure the uninterrupted production of defense weapons.

Secretary of the Interior Ickes advocated daylight saving time on a nationwide scale and suggested that America may have to resort to restricted use of electricity and institute gasless Sundays to meet the shortages of power and oil. He also advocated oil pipelines from the South to the East where oil shortages are feared because of the transfer of part of the American tanker fleet to the British.

Two vital points bearing closely on the war situation were cleared up yesterday by President Roosevelt at a special press conference. He will move slowly in assuming any of the vast powers reserved in him under the unlimited national emergency proclamation.

There is no reason for replying or changing the Neutrality Act. But touching on the emergency situation he inferred that development will move swiftly and forcefully to correct them.

With the world still discussing his speech Tuesday night the President sent word of the special conference and his office was jammed with reporters eager to hear him.

Answers to both leading questions came quickly and frankly. But there was much the President did not reveal for obvious reasons.

The questions dealt mainly with neutrality and emergency, and it seemed American interest was more deeply concerned with the latter, in view of how business and labor and industry and the people as a whole might fare under terms of the proclamation.

President Roosevelt emphasized that more issuance of the proclamation did not vest him with new powers. The powers are provided in prevailing statutes, but, to invoke them, he must issue specific orders or new proclamations.

At present, he said, he will move cautiously in issuing orders. None, he added, is in immediate prospect. But he said that if appeals to labor and capital are not sufficient to maintain industrial peace, there may be further positive action to keep production rolling.

He refused to apply this rubric explicitly when a correspondent asked about the threat of a new walkout by bituminous coal miners.

## Connolly Tells Incidents About His Famous Grandfather On Radio

Some of the interesting historical facts connected with the painting of the famous "Spirit of '76" by Archibald N. Willard were told by his grandson, William Connolly, on a radio broadcast in New York today.

# Fascists Join Crete Battle; Suda Bay Captured By Nazis; English Army Caught In Vise

### Nazi Chutists Drop In On Greece

German parachute troops fairly blot out the sky as they attack Corinth, Greece, from the air, according to the German-approved caption. Troops and equipment-laden chutes descended on the ground to capture the harbor.

## Stores To Begin Half Holiday Starting June 4

Stores will begin closing next Wednesday, June 4, for the week's half holiday during the three summer months.

## Closing Day Changed To Wednesday Instead Of Thursday

At a recent meeting of the merchants' group, which was attended by 21 employers or their representatives, it was decided to set Wednesday instead of the traditional Thursday as the summer closing date, since the majority of other cities in the state are following the same plan and it is felt that both employers and employees will benefit.

## Green's Fuel Adds To Sales Personnel

## Post Office To Close On Friday

Friday, Memorial Day, will be observed by the Post Office as a holiday, and all windows will be closed for the entire day.

## Germans Get Bridgehead For Landing Seaborne Troops; Debacle Predicted

War Aims Told By Anthony Eden

Official Says Reich Will Not Repeat Peace Violations

Italian troops were reported today to have entered the 10-day-old battle of Crete, landing in the eastern end of the island, while German forces captured the prize harbor of Suda Bay on the west. Thus the British, already in dire straits, are caught in a vise.

Victims of Suda Bay gave the German a bridgehead for landing seaborne troops and military equipment, it may prove the harbinger of another British debacle.

The British Foreign Secretary, Anthony Eden, in the first comprehensive statement on Britain's war aims, declared "our political and military terms of peace will be aimed to prevent a repetition of Germany's mistakes."

He said Germany had violated the peace five times in the last century and "never by its own hand, but always that role again."

Britain's third major loss in the battle for the island of Crete, the evacuation of the island, was reported today by the Admiralty.

The Washington Secretary of State today declared a far-reaching understanding to train 30,000 British troops in the United States.

According to Roosevelt's speech, the President gave the British expression to the fixed determination of the most powerful nations to meet their mutual obligations and their mutual interests.

The German High Command today charged Negroes with looting and borrowing permits in the wake of the evacuation of the island of Crete.

Activities of the local chapter of the National Association of Retired Railroad Employees were suspended for now until October 1st.

Friday, Memorial Day, will be observed by the Post Office as a holiday, and all windows will be closed for the entire day.

Postmaster R. J. Holly said today.

So services will be required of either city or rural carriers on that day. Mail will be dispatched from the office as on other days, however. Special delivery and perishable matter will be delivered as usual.
