

DOLLAR RISES TO NEW HIGH SINCE MARCH

Apparent Maintenance Of Policy Of Sound Money Is Credited With Strong Upturn

NEW YORK, Oct. 14.—(A.P.)—The dollar soared in foreign exchange dealings, and high grade bonds advanced, while stocks and staples reacted yesterday, under selling by speculators who had gambled on drastic inflation.

This was largely in response to the United States treasury's conversion offer for the fourth 1-4 percent treasury bonds, which was widely interpreted as indicating that the Washington administration was determined to pursue a sound monetary policy, and to check itself by orthodox measures of maintaining its credit, rather than yielding to the agitation of inflationists.

The dollar had one of the most sweeping upturns since the United States left the gold standard. Both sterling and the French franc fell to the lowest levels since mid-September as bear speculators ran to cover their short sales of dollars. The dollar reached a gold equivalent as measured by the French franc, of just above 60 cents, in contrast to recent low close to 64 cents. Sterling dropped to 12 1-4 cents to 14.54 cents from 23 of a cent to 5.68 cents.

At the same time, wheat tumbled abruptly in the Chicago pit, losing the full five cents a bushel permitted in a single day's trading.

Corn and oats lost two to three cents a bushel and cotton in the New York market receded 1.08 to 31.49 cents. In the bond market, the price of the fourth liberty bond, which was called for redemption at par next Apr. 15, quickly adjusted themselves to their new position as a short term issue, closing at \$101 2-32 per 100 par value, against the previous close of 108 8-32. Uncalled fourth liberty 4 1-4s in 1934, responded as expected by moving 10-32 to \$103 2-32 per \$100 par value.

With pardonable pride, 56 Sanford employees of the Atlantic Coast Line Railroad, gathered in the City Hall yesterday afternoon to attend the quarterly meeting of the Safety Committee, give their applause to the announcement that there has not been a reportable accident in the local Coast Line area during the past nine months and 13 days.

F. L. Dumas, president of the meeting which had enthusiasm and fellowship as a feature, S. E. Jones, secretary of the committee, reporting the affair, declared that every man in the room appeared ready to protect the local Coast Line district's record of safety for past seasons.

Among the speakers heard during the meeting were: Fred R. Wilson, Earl Lehmann, T. V. Dumas, S. E. Jones, R. M. Gallevay, J. L. Crozier, J. A. Turner, A. H. Lewis, T. E. Walls, J. B. Paul, J. C. Aycock, W. N. Newman, W. J. Morrison, R. Gray, and J. L. Hamrick.

MEETING IS ADJOURNED

Because City Commissioner S. B. Shubert was out of the city the four remaining members of the committee, who met at the City Hall in an adjourned session yesterday night, decided to adjourn the meeting until a still later date. The adjournment of the meeting was the chief item of the night, but the committee members voted against adjournment until all members of the group are present.

Roosevelt Stresses Constant Education In Peace Ideals As Best Surety For All Nations

WASHINGTON, Oct. 14.—(AP)—President Roosevelt said in an address to the nation last night that only through constant education and the stressing of the ideals of peace can those nations threatening the peace of the world by "imperialist" desires be brought into line with the majority against such a policy.

Addressing the third annual women's conference on current problems in New York from the White House, Roosevelt stressed the need of further reduction in the cost of local government by "good business methods and the elimination of the wrong kind of government," and the importance of teaching in almost every state could be "definitely and distinctly raised."

Noting the conference was discussing the "crisis in history," the president said there were "two problems which can be helped by public interests and public discussion"—the peace of the world and education as it has been affected by the depression.

"The danger of world peace," he said, "certainly does not come

from the United States of America. As a nation, we are overwhelmingly against engaging in war. As a nation we are seeking no additional territory at the expense of our neighbors. It is this attitude of the overwhelming majority of our people towards their neighbors—this complete lack of a national desire for territorial expansion which makes the rest of the world begin to understand that the United States is opposed to war."

The president said a "very great majority of the inhabitants of the world feel the same as we do about territorial expansion or getting rich or powerful at the expense of their neighbors" and that it was "only in the case of such people in the world as still have imperialistic desires for expansion and domination in their midst or in their hearts that threats to world peace lie."

His appeal for a better grade of teaching went not only to the New York conference, but to colleges throughout the country, federation of women's clubs and nearly 2000 schools.

REBELLION HAS SIAM IN GRIP OF TENSE FEAR OF GERMANY

Residents Of Bangkok Suspend Business As Firing Breaks Out Near Borders

BANGKOK, Siam, Oct. 14.—(AP)—Heavy fighting was reported in progress today between government and rebel troops on the outskirts of this city.

Government artillery late yesterday opened fire which continued through the night. Rebels who began their movement this day by attacking the royal army were reported as retreating after heavy casualties. Two airplanes attacking the city were shot down in the river. One fell in the city of 100,000.

Many families of the city would spread within the city. A number of houses were looted. Rebels and their families were being taken to the city.

Solution was offered by the government to have the rebels when it was found that the rebels had a strong military command by a group of royal troops, who were the most reliable in the city.

The number of families on relief rolls increased nearly 2000 last month. Mar. Eng, state director, reported to the committee that there are now 116,000 cases, with 431,058 persons represented on the state relief rolls. Eng said:

He added, however, that reductions were being made would be made for the next few months because of the cutting of lines and shipping work, water famine, and the beginning of the tourist season.

The decrease, he said, will not be sufficient to raise the average allotments per family to meet increased needs during fall and winter months.

The state council yesterday allocated \$1,020,500 to Florida's 67 counties for relief activities in October. Individual county grants were not made public.

"We realize," Eng said, "that living expenses this winter will be greater than during the summer. For the average family of four persons, \$10 a month does not go far. We hope to be able to increase the allotments to \$15 a family."

NEW TRADE BODY GROUP TO HOLD MEET MONDAY

The newly organized Commercial Committee of the Seminole County Chamber of Commerce will hold its first meeting of the organization's 1933-34 fiscal year in the City Hall on Monday afternoon at 2:00 o'clock. It was announced today by Chairman E. B. Bludworth.

Plans for the successful operation of the "Buy Now" campaign are to be discussed at a feature of the meeting. A program of committee work for the entire year also will be developed.

The new committee is composed of the following persons: E. B. Bludworth, chairman; Forrest C. Adams, vice chairman; C. E. Adams, Fred W. Bender, Otto Caldwell, Russell Chase, H. H. Coleman, W. S. Coleman, R. L. Dean, T. L. Deans, Ray Fox, W. H. Haynes, W. C. Hill, E. I. Hoy, E. B. Johnson, Howard Long, J. M. Marquette, R. A. Newman, T. E. Koumilt, R. O. Binkhous, V. A. Sims, H. M. Watson, W. Seminole High Drops 20-7 Tilt To Lake City Eleven To Fall From Top Of Loop

LAKE CITY, Oct. 14.—Columbia High returned to true football form here yesterday afternoon and defeated the Sanford Celeryfeds 20 to 7.

Sanford scored early in the fourth quarter when Coach Hooper sent in his second team. Two costly fumbles, one on Lake City's own 8-yard line, resulted in Mc-

Clelland carrying the ball over after the Celeryfeds punched the Tiger line for the necessary yardage.

Columbia resorted to straight football in scoring on Sanford in the first quarter. Dorsey Hill went off tackle or the Tiger's first marker, after being assisted materially by Boyetta, Williamson and Stevens in clipping yardage off the visitors.

Lake City's second touchdown came in the third quarter when Stevens found a big hole in the Sanford line and crossed the Sanford goal line from Sanford's two-yard stripe.

The prettiest play of the game took place in the third quarter when Boyetta intercepted a Sanford pass and ran 50 yards before he was downed on Sanford's 19-yard line. From there Stevens scored on an off-kick play.

Coach McLucas will take his graders to Daytona Beach next Friday afternoon for their third game in Northeastern Conference circles. Hopes are high that a victory will result so that the team may return to the near top position in Conference standings.

The defeat yesterday means one thing that is sure, Coach McLucas said this morning, the boys will have their hands full during training next week. As usual, blocking and tackling will occupy the limelight, plus another drill in defensive tactics.

MARKET TRENDS

NEW YORK, Oct. 14.—(AP)—Financial markets yesterday had their first opportunity to express reactions to the Government's Fourth Liberty Loan refunding offer and whatever implications it may have as to monetary plans or policy. That expression, it developed, was a slump in speculative values, a strengthening in high grade bonds and a sharp advance by the dollar, trends that conformed closely to the accepted pattern for markets which had lost some of their inflationary props.

Stocks and commodities weakened. The former behaved indecisively until afternoon when a pronounced downturn developed coincident with a 5-cent break in wheat, proportionate declines in other grain and a steady climb by the dollar. Share trading was of moderate proportions—1,264,406 shares—and selling took the greatest toll among alcohols, metals and a few specialties which have been speculative favorites for several months. Losses of many leaders held in a one to two point range; some dropped as much as half a dozen points, and several were off 3 or thereabouts.

NEW YORK, Oct. 14.—(AP)—Cotton was lower yesterday under Southern selling and liquidation which appeared to be influenced by the weakness of cotton markets. December contracts sold off to 9.18 or 24 points net lower and closed at 9.18 with the general market closing easy at net declines of 21 to 23 points.

The opening was barely steady at an advance of 2 points to a decline of 2 points. Some buying was reported on a fairly steady showing of Liverpool, but it was supplied by Southern selling and liquidation became more active following the weakness in grain and stocks. The lowest prices of the day were reached in the late trading with October selling at 9.08 and May at 9.54 and closing quotations were at the lows except for rallies of 3 to 44 points on the winter and early spring months.

NEW YORK, Oct. 14.—(AP)—All classes of domestic bonds responded cheerfully yesterday to

Roosevelt Stresses Education As Way Of Insuring Peace

(Continued From Page One) organizations interested in education.

He said he wanted to enlist the support of all these interests "in the fight we are making on the depression."

"When this fight is won," he asserted, "your problems will be solved."

In reducing the cost of local government, he said, "we must at the same time have the definite objective in every state and in every school district of restoring the useful functions of education at least to their pre-depression level."

"We have today for example," he added, "a large surplus of so-called qualified teachers—men and women who even if we had full prosperity would and probably should be unable to find work in the field of education."

Even today we are turning out too many new teachers each year. "It goes without saying that we

should have enough teachers and not a large excess supply. It goes also without saying that the quality of our teaching in almost every state of which I have knowledge can be definitely and distinctly raised."

"The main point is that we need to make infinitely better the average education, which the average child now receives, and that, through this education, we will still into the coming generation a realization of the part that the coming generation must play in working out what you have called 'this crisis in history.'

"The crisis can be met but not in a day or a year and education is a vital factor in the meeting of it."

PLAN TO LOOSE BANK DEPOSITS IS ANNOUNCED

Government To Loan Up To Billion Dollars On Assets Of Closed Institutions At Once

WASHINGTON, Oct. 16.—(A.P.)—President Roosevelt announced last night the creation of a deposit liquidation board to bring immediate relief to depositors in closed national and state banks by lending approximately \$1,000,000,000 on the assets of those institutions.

Funds will be furnished by the Reconstruction Corporation in which a special division will be established, headed by C. B. Merriam, a corporation director, to make the advances.

The statement by the president said the object of establishing this deposit liquidation board is to bring about the distribution of frozen bank assets in first, to place money in the hands of depositors with the least possible delay, and second, to bring about more orderly liquidation of assets of closed banks, thus preventing dumping of assets at particularly anxious prices.

Under the plan, the special division will make loans on the assets of closed banks up to a maximum of 50 percent of their deposits, including distribution hereafter.

BUCK PASSERS ARE ASSAILED BY ROOSEVELT

Scores Those Wishing To Toss All Relief Problems Into Lap Of The Government

WASHINGTON, Oct. 16.—(A.P.)—President Roosevelt last night assailed "buck passers" who leave it all to the government in providing relief for the needy and appealed to all to give to local organizations carrying on welfare services.

Opening the four weeks' charitable drive of the 1933 Mobilization for Human Needs in an address from the White House, Mr. Roosevelt re-emphasized his position that local and state responsibility comes first in the relief program and said:

"These people have a wholly wrong slant on the fundamental basis of our American civilization. They deny the civic responsibility of the individual, and would seek to toss every problem into the lap of the government. They are buck passers."
