FTU Gets \$72,000 Police Study Grant

By TOM ALEXANDER

Florida Technological University became the first four-year school in Central Florida to receive a crime bill allotment, it was announced yesterday.

Chris Schmidt, spokesman for FTU, told The Herald that the college had received a federal grant of \$71,900 to assist and setup a law enforcement education program.

The program, similar to a police science program presently in operation at Seminole Junior College, will be available to all law enforcement officers throughout the Central Florida area to aid in furthering their knowledge in combating crime.

Schmidt said that funds would be available for the upcoming fall quarter which starts the second week of October. Eligible law enforcement officers and anyone who promises to enter the law enforcement field can receive loans up to \$1,800 per academic year.

The program will deal in advanced police science and criminology.

Favors Lakefront Site For Hq. Insurance Firm Eyes Sanford

By BILL SCOTT

Lakefront city-owned property fronting on French Avenue mentioned as the site for the Sanford Zoo was abandoned this morning during a special City Commission meeting after it was revealed that an Atlanta-based insurance firm is interested in putting a regional headquarters building on five of the 10 acres.

On a motion by Commissioner Earl Higginbotham, a decision was made to eliminate the formerly designated industrial site from further consideration as a potential zoo site.

The commission action followed a report from Mayor Lee P. Moore, who conferred with Atlanta insurance officials Thursday along with John Krider, Seminole Chamber of Commerce manager, and Don Rathel, Sanford Industrial Commission director, concerning the location of the insurance firm first at temporary quarters in Building 289 at the Sanford Airport and then in newly constructed facilities adjacent to The Sanford Herald.

More seemed optimistic that the unnamed firm would eventually locate a facility here to employ from 174 to 200, with a yearly payroll of \$800,000.

"There's no question in my mind that Sanford is first in consideration by the company of a Florida location," Moore said.

The mayor said insurance officials were shown three sites and were only interested in the Lakefront property and would make a formal presentation to the firm's Boston home office in October.

Krider stated a survey team from the firm will be here in a week or so to look into airport temporary quarters, said postponing action on the relocation could kill the zoo removal but no one wanted to disturb the present situation with the insurance people.

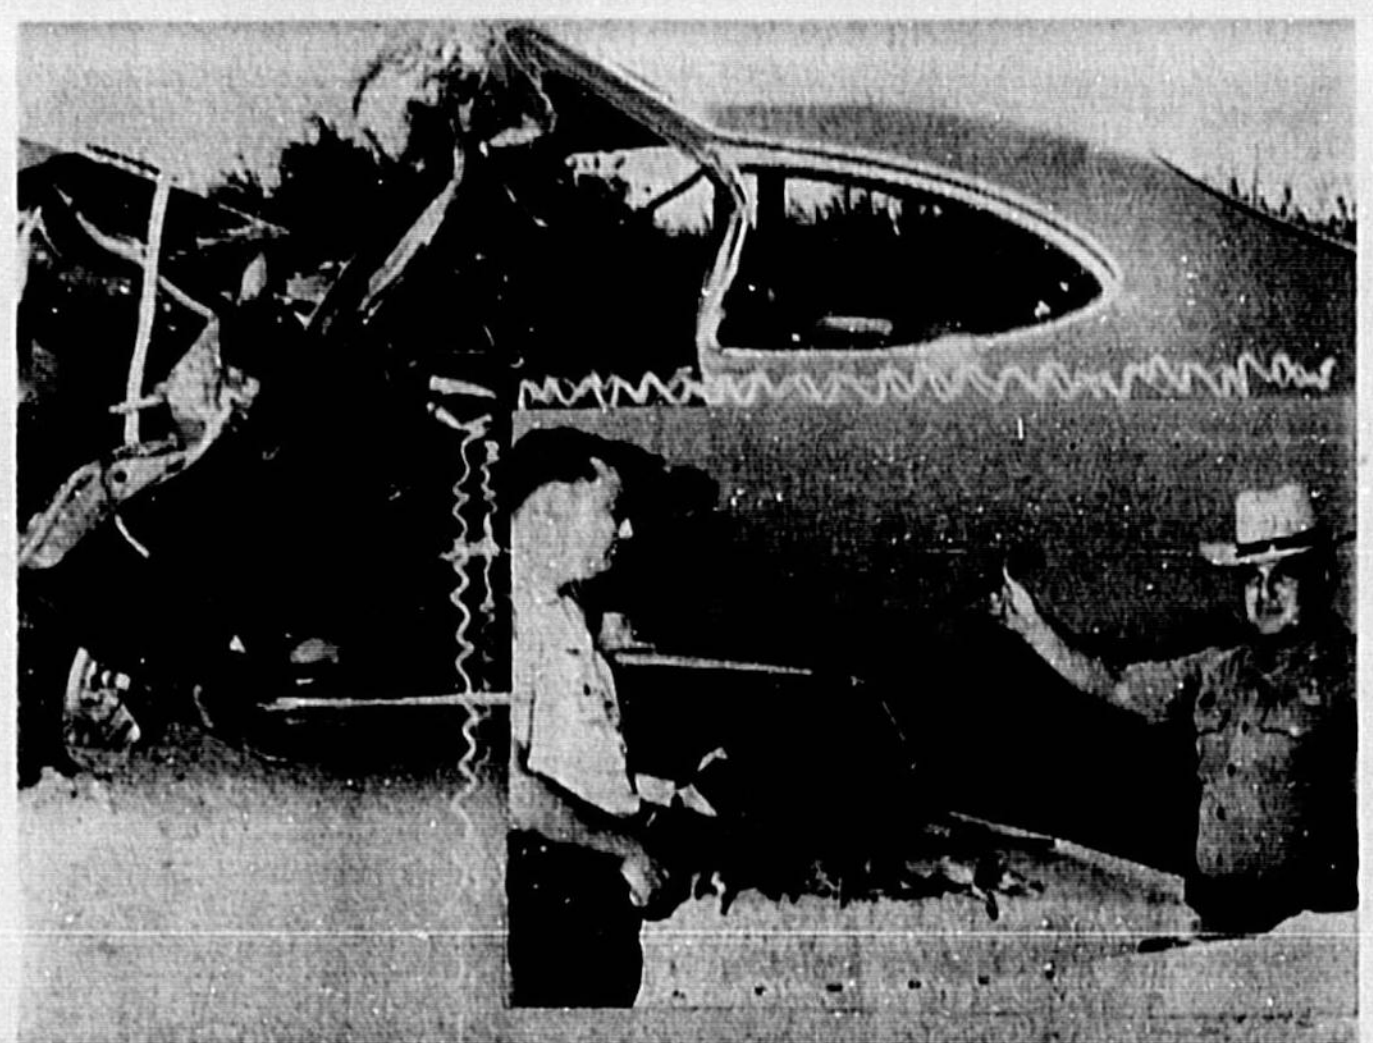

Irene Loney, zoo committee member, told the commission it was a matter of integrity and questioned for what the zoo committee was being used. "All we want is land for the zoo and we want it right now," she said.

More agreed with Krider, "I don't think we should jeopardize getting a good industry and payroll by trying to pin them down to any time limits," he added. The mayor said from \$4,000 to \$5,000 in yearly taxes could come into city coffers.

A. B. Peterson Jr., zoo committee vice chairman, said postponing action on the relocation would be a mistake and not tell them where they should put the zoo.

Irene Loney, zoo committee member, told the commission it was a matter of integrity and questioned for what the zoo committee was being used. "All we want is land for the zoo and we want it right now," she said.

More agreed with Krider, "I don't think we should jeopardize getting a good industry and payroll by trying to pin them down to any time limits," he added. The mayor said from \$4,000 to \$5,000 in yearly taxes could come into city coffers.

THIS WAS ONE AUTOMOBILE.

A LONGWOOD COUPLE was injured in a head-on collision of two automobiles on a lane near the Lake Mary-Interstate 4 interchange last evening. Mike Rouch and his wife Barbara were reported in "fair-to-good" condition this morning at Winter Park Memorial Hospital. Game Warden W. F. Rushing and Trooper Jerry Hawthorne (inset) confiscated two rifles, a sawed-off shotgun and a number of out-of-season doves found in their automobile (above). Carlos A. McWhorter, R. R. 1, Sanford, was driver of the other vehicle. (Staff Photos)

Mix Suit Extension Is Sought

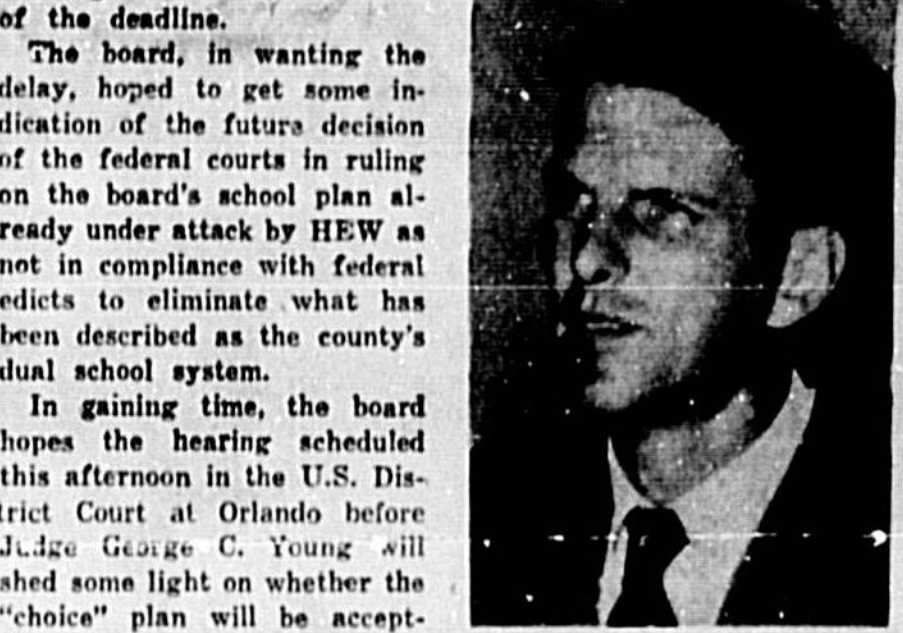

Seminole County School Board, faced with a notice from the U.S. Department of Health, Education and Welfare (HEW) to file within 90 days an answer to 30 allegations made by the governmental agency pertaining to the freedom of choice school desegregation plan submitted by the educators for the 1968-70 school year, voted during yesterday's meeting to seek an extension of the deadline.

The board, in wanting the delay, hoped to get some indication of the future decision of the federal courts in ruling on the board's school plan already under attack by HEW as not in compliance with federal edicts to eliminate what has been described as the county's dual school system.

In gaining time, the board hopes the hearing scheduled this afternoon in the U.S. District Court at Orlando before Judge George C. Young will shed some light on whether the "choice" plan will be acceptable in establishing a unitary school system for black and white students.

In two actions, relative to the HEW allegations, the educators voted to seek the time extension and to ask for the hearing in Washington, D.C.

The action today by Judge Young could affect the outcome of the Washington hearing, since the board has asked to intervene in the conspiracy action brought by 81 plaintiffs against Mrs. Jean Bryant and

ROBERT EK, formerly with Atlantic National Bank of Jacksonville, has been named assistant cashier of Sanford Atlantic National Bank. A native of Jacksonville, he received his BS degree at Florida State University, where he was a three-year basketball letterman, and his MBA degree at the University of Georgia.

Will Teach At Lyman High Schools Retain Hagman

Employment of Dexter Hagman, former president of the Florida Education Association, was approved 5-2 by the Seminole County School Board Thursday. He will serve as a social studies teacher at Lyman High School.

Hagman had been the center of controversy during the teacher walkout two years ago. Recommendation to employ Hagman by Lyman principal Carlton Henley failed to obtain the backing of Mrs. Jean Bryant and Allan F. Keeth.

Keeth reported that since no one else bothered to check Hagman's background at his former teaching post in Broward County he (Keeth) telephoned there and was informed Hagman is a superior teacher.

Mrs. Bryant said she objected to the man because he was rude and crude during the teacher walkout in 1967.

In another matter, Andrew Bracken, administrative aide, revealed that 18,000 of the school's system expected 19,000 pupils already have been assigned to schools of the basis of the freedom of choice plan.

record as wanting teachers, principals and non-instructional workers to bring their problems before the board.

It was brought out by Pat Bule, board member, that teachers are fearful to come before the board with schedules, and he felt they should be notified that the board is always willing to hear their problems.

Concerning the remedial reading program, no understaffed because of a change in the federal requirements governing funds, it was brought out by John Ansel, superintendent, that Jerome Ullman, psychologist, and a teacher have been added to the program.

'A THING OF BEAUTY IS A JOY FOREVER'

WINNERS of the title of "Miss Labor Day Regatta" — 1967, Debbie Dalton (left) and 1968, Donna Allen — will be on hand to crown the 1969 queen following the pageant spectacle at the Civic Center Monday at the close of the day-long program on the lakefront. CRAPE MYRTLES are one of nature's most colorful summer flowering shrubs. During the heat of the summer when other plants show signs of wilting and fading in the hot sun, Crape Myrtles spring forth with mounds of lively colors. Being very versatile, Crape Myrtles are commonly found as small trees, thick hedges and can even be used in tubs and planter boxes to brighten up a patio area.

Knew About S & L Measure

Senator Raps Fellow Solons

TALLAHASSEE, Fla. (AP) — Some senators knew exactly what they were doing when they unanimously passed a bill that could cost the state \$15 million, Sen. William Harrow, D-Texas, said Thursday. Harrow is chairman of the Commerce and Licensed Business Committee, which studied the bill. Sen. Frederick Karl, D-Daytona Beach, the bill's key sponsor, and other legislators said they had no idea the state would lose revenue because of passage of the law. "Of course I knew it might result in less revenue for the state," Harrow said. "Nobody in

their right mind can say the federal bank and state banks ought to be exempt and the savings and loan associations pay. That violates every concept of uniformity." Federal and state banks were exempted from state taxes by a U.S. Supreme Court decision. The law passed by the 1969 Legislature provided equal treatment for savings and loan associations, which studied the bill. Sen. Frederick Karl, D-Daytona Beach, the bill's key sponsor, and other legislators said they had no idea the state would lose revenue because of passage of the law. "Of course I knew it might result in less revenue for the state," Harrow said. "Nobody in

Through Agri-Research

Farming Tied To Moon Shot

By FRANK J. JASA, County Agricultural Agent. In a recent issue of the Institute of Food & Agricultural Sciences newsletter, *Frascops*, there was a column written by Dr. Ernest Smardon, Chairman of the Engineering Department, which I would like to pass along. Very recently, we have seen

in agriculture have had more to do with successful space activity and many other advances in technology than we realize. I don't think we should jump on the space bandwagon and claim that we played a major role in the recent moon exploration project. But I do want to comment relating agriculture to the advances that

have been made in technology. Agriculturalists have been leaders in technology for many years. The results of agricultural research have led to an increased agricultural production capability so that our basic food needs have always been more than adequately met. A major portion of the human resources of this country has been freed from the need to help produce food. Man could concentrate his energy and talent in other directions.

Labels In Garments Tell Host Of Things

By LOUISE LONG, County Home Agent. What does a label on a garment tell you? The manufacturer has put them there for your benefit. The information they contain is vital to the life and care of your garment. It should tell you: (1) name of the fiber or fibers used in the fabric, (2) how to care for the fabric, and (3) how to care for the fabric.

placed so that one-third is below the soil level. A good soil mixture is required for a successful rockery. A mixture of one part soil, one part peat or leaf mold, and one part sand is satisfactory. If the soil is very sandy, add only peat moss or leaf mold. One must also remember that most of the plants used will require sunlight—do not use a shaded area for this type of garden if flowering plants are used. Rock gardens require much work in maintenance and plant replacement. Some of the plants that are well adapted to a rock garden include Agave, Aloe spp., Amaryllis, Bromeliads, Cacti, Caladiums, Portulaca and Dwarf annuals (cinneas, marigolds, etc.).

OFFICE or STORE SPACE FOR RENT. Exceptionally well located for store or offices. 1200 Sq. Ft. next to our attractive new Sanford Flower Shop at 205 Commercial Ave. Will remodel to suit tenant. FOR INFORMATION CALL FRANK DONAHUE AT 322-1822 OR 322-1823.

STRANGE SURRENDERINGS for a sound stage, but that's what is housed in this revolutionary air-supported dome. The inflated building was set up near the Neuschwanstein Castle in West Germany for interior shots of a new movie being filmed on location in the Bavarian Alps.

Charges Refuted

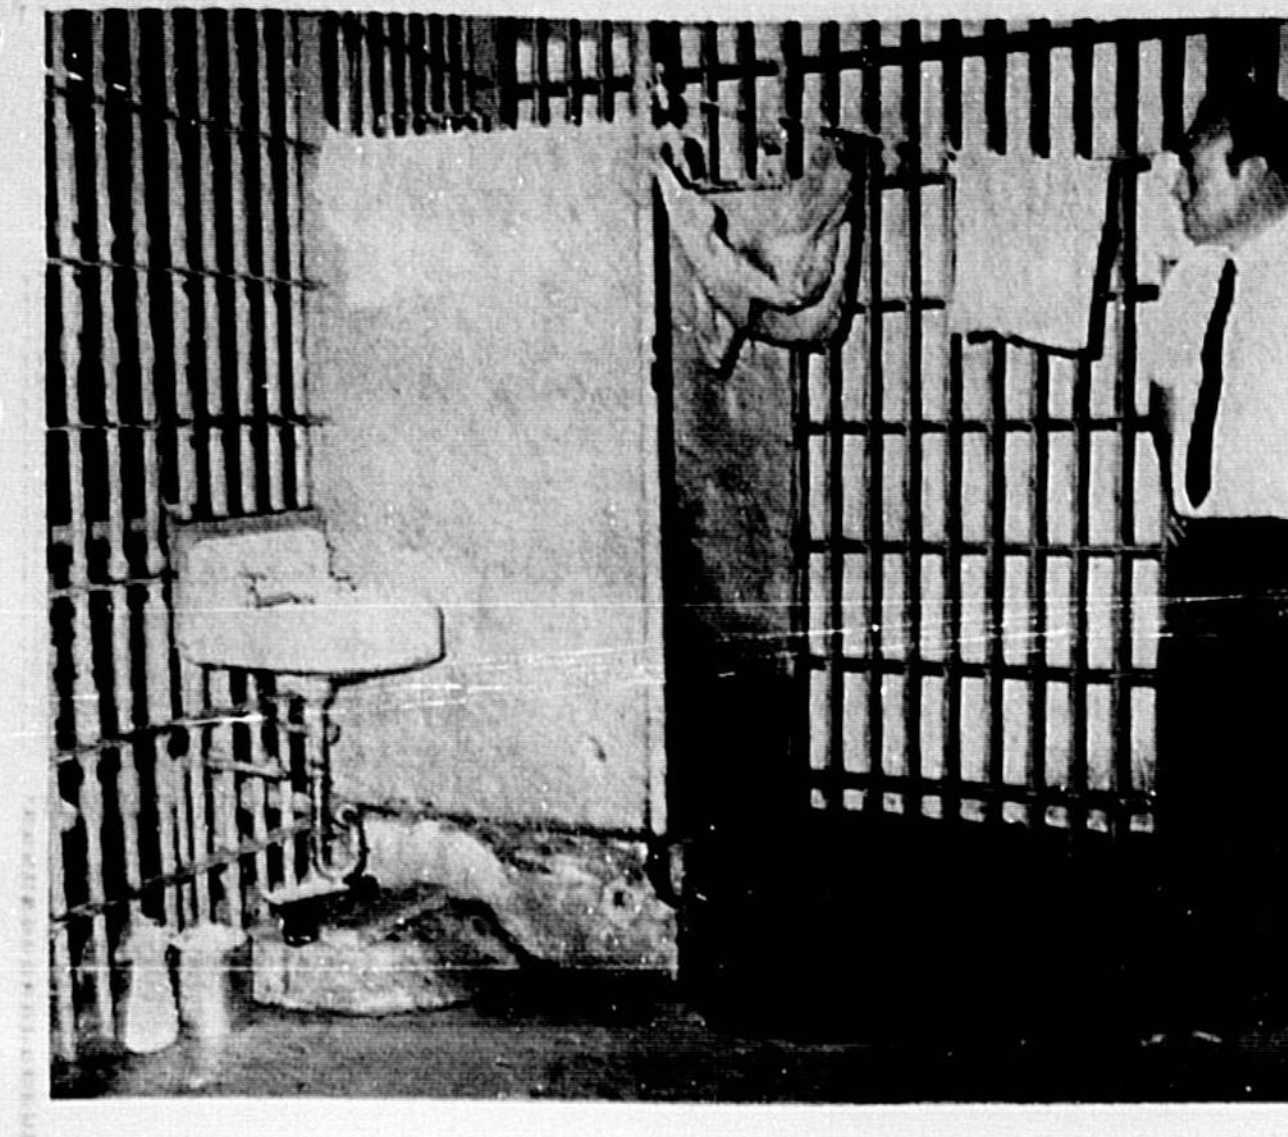

MIAMI (AP) — Cuba formally denied Thursday that two of its diplomats barred from the United States had been seen at their status at the United Nations for espionage activities, Radio Havana said. The broadcast, mentioned in Miami, said the denial was made in a note sent by Foreign Minister Raul Roa to U.N. Secretary-General U Thant. "Cuba has the right and the duty to watch the activities of her enemies, the actions of Yankee imperialism and its organs and agents subversive to our country," Roa was quoted as writing. "But it is completely false that Cuba used her mission at the U.N. for such objectives."

Mayor Struggling For Reelection

Lindsay Politically Dead?

By LOUISE COOK, Associated Press Writer. NEW YORK (AP) — Only a year ago Mayor John V. Lindsay was being mentioned as a possible Republican vice presidential candidate. Today he is fighting for his political life, rejected by voters of his own party and struggling for reelection as an independent. His critics say he is a poor administrator and has done too much for minorities at the expense of others. Many look on him as a mayor of Manhattan and say he ignores the four other boroughs in the June primary, he won only in Manhattan. His boosters claim he was principally responsible for keeping New York City cool while other major cities had riots in 1967 and 1968, that he has made the streets safer by hiring more police and modernizing equipment, that he streamlined city government, that he is the only one who can pull together the city's diverse ethnic groups. His opponents in a confusing race, where party labels appear to mean little and predictions are difficult to make, are John J. Marchi, 48, a little known Republican state senator from Staten Island who narrowly defeated Lindsay in the primary. He is the son of Italian immigrant parents. He also has the Conservative party nomination. City Controller Mario A. Proaccacia, 56, a Democrat who has geared his campaign to "safety in the streets" and defeated four other contenders, including former Mayor Robert F. Wagner, in the Democratic primary. He has rejected the conservative label, describing himself as an "moderate progressive." But many liberal Democrats say they cannot vote for him.

Inspection Schedule

Schedule of motor vehicle inspections for the year which began June - and ends May 31. Red Decals Punched In: June, July, Aug, Sept, Oct, Nov. Must Be Inspected In: June or July, Aug or Sept, Oct or Nov, Dec or Jan, Feb or March, April or May.

Holiday Death Toll Estimated To Be 20

By THE ASSOCIATED PRESS. "The Highway Patrol will combat alcohol this weekend by putting every available trooper on the highways to enforce the law. The AAA will combat complacency with hourly 'bring 'em back alive' radio bulletins." The AAA, which made the estimate on the number of motorists, said traffic probably will increase as much as 50 per cent on major highways. Florida's Turnpike officials expect more than 50,000 paying customers today alone. Hendry said, "The majority of the cars on the highways this weekend will be making holiday trips of 25 miles or more. But motorists should not feel endangered because more cars than usual are on the roads." The leading enemies of traffic safety are alcohol and complacency in familiar surroundings, said James Hendry, Florida AAA chairman. The fatality toll for holiday weekends, Hendry said, is usually comparable to that for normal two-day weekends despite the extra day in the Highway Patrol's countdown. In Chicago, the National Safety Council estimated that the traffic death toll throughout the nation will be between 625 and 725 during the period from 6 p.m. today to midnight Monday. Kirkman announced his safe Christmas Accord and Mrs. Doyle Hendry fourth, Mrs. Mabel Andrews and Arthur Winesley fifth. The next four winners were: first, Mrs. Donald Johnston and Mrs. D. B. Chandler; second, Mr. and Mrs. Frank Matheson; and third, Mrs. George Crooke and Mrs. Loris Weeks; fourth, Mrs. Betty Curtis and Fred Oldham.

DeBary Club Gives Scores

The DeBary Bridge Club met yesterday with nine tables in play, directed by Miss Ethyl Johnson. The winners, north-south, were: first, Mrs. Ruth Blatt and Mrs. W. O. Bennett; second, Mrs. Frank Austin and Carlton Smith; third, Mrs. Chris Accordi and Mrs. Doyle Hendry; fourth, Mrs. Mabel Andrews and Arthur Winesley; fifth, Mrs. Donald Johnston and Mrs. D. B. Chandler; second, Mr. and Mrs. Frank Matheson; and third, Mrs. George Crooke and Mrs. Loris Weeks; fourth, Mrs. Betty Curtis and Fred Oldham.

Gridders Tested

By BRUCE MARQUART, Associated Press Writer. ALBANY, N.Y. (AP) — Football practice is over and the team members are in the locker room making sheets of paper. The players are: a. Studying game plan. b. Ordering lunch. c. Signing a petition to support a player who is being forced to sell his interest in a popular tavern. The correct answer does not appear above, at least not as far as Ithaca College is concerned. The football players at this 1,000-enrollment liberal arts college in central New York are taking the Personality Factor Test to help coaches determine what kind of athletes they are. Three of these questions are: 1. Most of the people I know would rate me as an amusing talker. 2. I enjoy doing daring, fool-hardy things just for fun. 3. I like a job that offers change, variety and travel even if it involves danger. In an informal survey taken Thursday at the Albany Times-Union, the first person to answer "urgency" gave "yes" to the three questions was a society writer. Shey determining questions, he is five feet tall and weighs 87 pounds. Indicate that a person will

Community Fights For Clean Air

By JAMES PHILLIPS, Associated Press Writer. ESCANABA, Mich. (AP) — The air in this northern Michigan community carries the fragrance of balsam fir. Escanaba boasts that it is the cleanest air in the nation, and a group of residents is fighting to keep it that way. The group fears that a proposed kraft paper mill is about to smelt up the whole town. The Delta County Citizens Committee to Save Our Air has been formed to fight the mill project. The mill, planned by Consolidated Paper Co., will produce sulfate pulp from wood chips. A sulfate pulp mill, says John T. Walbridge, a director of the Citizens Committee, suits its rotten eggs, rotten cabbage, stunks and who the hell knows? Given the right, or wrong, weather conditions, Walbridge adds, you can smell a sulfate pulp mill 60 miles away. Officials of Consolidated Paper say odor control devices will be incorporated into the plant and that under normal conditions the smell will be confined to the mill area. Still, plant manager Oliver Christensen concedes, "There has never been a kraft mill built that didn't create an odor." The present pristine quality of Escanaba air was vouchsafed by Thomas J. Henderson, president of Atmospherics, Inc. of Fresno, Calif., after a nationwide survey for the Atmospherics Science Research Center of the State University of New York. "This," said Henderson, "is the cleanest place we've found." Determined to keep it that way, the Citizens Committee asked the paper company to agree to shut the mill down whenever a selected group of smelters decided the stench was at nuisance level. The company declined.

School Bells May Not Ring For Many

Midwest Teachers Threaten To Strike

By THE ASSOCIATED PRESS
School bells may not be ringing on time for thousands of children this fall as teachers in several communities threaten strikes or other job action.

Much of the trouble is in the Midwest.

Chicago's 19,000 teachers vote Tuesday on whether to strike at the opening of classes Wednesday. The maintenance workers in the 600-school system already voted to walk out.

At issue is whether the city will honor pay raises promised to settle a two-day strike last May. The school board, pleading a lack of funds, adopted a supplementary budget last week providing money for half the promised increases.

The executive director of the Illinois Federation of Teachers, Oscar Weil, said Thursday as many as 15 school districts in the state could be struck when classes open next week.

He said 600 elementary school teachers in Joliet vote Sept. 2 on a contract and five Chicago suburbs are still negotiating new contracts. Almost 35,000 students would be affected in Joliet and the five suburbs.

One Illinois city already was hit by a strike. Teachers in Granite City walked out Wednesday, which was to have been opening day for 15,000 students. The dispute is over salaries.

In La Salle, Ill., the Tuesday opening of school was delayed by a strike by 80 of 110 teachers at LaSalle-Peru Town High School. Agreement was reached Wednesday and schools were to open today. An issue was the expiration date of the teachers' contract.

A union representing 106 of 200 teachers at two campuses of Waukegan Town High School rejected Thursday the board of education's latest wage offer. School is scheduled to open next Wednesday.

Indiana has two school strikes under way. Although classes don't start officially in most schools until Sept. 2, the walk-out has affected preschool workshops.

In Hammond, the 4,300-member Teachers Association went on strike and set up pickets Thursday because the school board refused to establish a group contract.

Aug. 15 in a salary dispute, delaying the opening of school football practice. Coaches were later allowed to start practice, with the understanding that they were on strike.

The 200 teachers of the Lake Central School Corp. in the Schererville-St. John area south of Gary set up picket lines Thursday because the school board refused to establish a group contract.

Nixon School Policy Will Undergo Tests

By WILLIAM BARTON
Associated Press Writer
WASHINGTON (AP)—Nixon administration school desegregation policy—seen by critics as contradictory and confusing—comes to the test next week.

As pupils in 17 Southern and Border states return to fall classes, a controversy swirls on the direction of civil rights enforcement 15 years after the Supreme Court declared unconstitutional the "separate but equal" concept.

"Paseyfooting" is the tag put on the Nixon policy by Clarence Mitchell Jr., Washington representative for the National Association for the Advancement of Colored People.

"Retrospective," said some dissident lawyers in the Justice Department's civil rights division.

"Politics," declared congressional liberals, by this time next week, government officials say almost twice the number of Negro youngsters will be attending previously all-white southern schools as in any previous year.

Figures alone are impressive. The Department of Health, Education and Welfare says that of 4.7 million segregated districts, a total of 2,994 will open next week with completely unitary schools, unidentified by race.

Of the remainder, 269 are under court orders to desegregate and 1,167 are functioning under voluntary plans submitted to HEW for achieving total integration.

Baby Lost By Mrs. Kennedy

HYANNIS, Mass. (AP)—Sen. Edward M. Kennedy's wife Joan has lost the baby she was expecting in February.

A spokesman at Cape Cod Hospital said today she was in good condition, resting comfortably and probably would remain in the hospital for a couple of days.

The spokesman said Mrs. Kennedy had undergone minor surgery which is usually routine in miscarriages.

Mrs. Kennedy, who will be 33 next Tuesday, was taken to the hospital shortly before 8 p.m. Thursday by her sisters-in-law Ethel Kennedy and Mrs. Stephen Smith.

The senator, who was on an overnight camping trip to Nantucket Island off the Massachusetts coast, flew to Hyannis when notified of his wife's miscarriage. He stayed at her bedside for some time.

The Kennedys have three children—Kara, 9, Edward M. Jr., 7, and Patrick Joseph, 1.

Mrs. Kennedy had miscarriages in May 1963 and May 1964.

Her latest pregnancy was made known almost a month ago, the night Sen. Kennedy went on national television to comment on his conduct after the auto accident which took the life of Mary Jo Kopechne. An inquest into the accident is scheduled to open next Wednesday.

Mrs. Kennedy originally had planned to accompany her husband and the others on their coming trip Thursday, a family friend reported, but fell ill and decided to stay home.

Others making the trip with the senator included his cousin Joseph Gortman, Rep. John Cuijver of Iowa, a former classmate at Harvard; Mrs. Cuijver; the senator's two older children; and John F. Kennedy Jr., son of the late president.

THE CAT, but who was the cat? The camera catches a very well-satisfied Mai Van Ho, chief North Vietnamese delegate to the Paris talks, during a press conference.

Aho-Hughes Nuptial Vows Spoken

Miss Connie June Aho and Michael Lloyd Hughes were united in Holy Matrimony, Sunday, Aug. 16, 1966, at 2 p.m., in St. Mark's Lutheran Church, Waukegan, Ill., with Rev. Norman H. Herbert officiating at the ceremony.

MR. AND MRS. MICHAEL LLOYD HUGHES

The bride is the daughter of Mr. and Mrs. Taisto A. Aho and the bridegroom's parents are Judge and Mrs. John L. Hughes, all of Waukegan. The bridegroom's maternal grandparents are Mr. and Mrs. George A. Stine of Sanford who flew to Waukegan for the wedding.

The bride chose for her gown a silk organza gown fashioned along the Victorian silhouette with Venice lace and pink ribbon inserts at the high neckline and long, cuffed sleeves. The same lace and ribbon trim were repeated on the skirt and detachable train which flowed into a chapel sweep from the waistline.

Her three-tiered veil of silk illusion, secured by a pin and white flower profile headpiece, cascaded to a Cathedral length, framing the train. Mrs. Jack Hoogstraen of Waukegan, attended her sister as matron of honor and Stephen Heatt, also of Waukegan, served the bridegroom as best man.

Immediately following the ceremony the parents of the bride entertained at a reception at the Brass Loch Country Club.

Following a wedding trip to Rome, St. Louis, the newlyweds are residing in Waukegan where both will be teaching school in North Chicago for the coming year.

Petitions Don't Tell Real Reasons Behind Divorces

by SUSAN MYLES
Flint, Mich. Journal
FLINT, Mich. (AP) — "What are the real reasons for divorces?" was the question put to four Genesee County circuit judges and the county friend of the court, Robert W. Standa, in a study conducted last year. They feel they know, but not from the records listed in divorce petitions.

"The real reasons never come out in a courtroom," said Judge Stewart A. Newhall, who thinks the present divorce laws are "awful." The courts are really being placed in a bind.

Here are some of the real reasons as seen by these officials: The excitement of a new love interest.

The monotony of looking after a family that grew too fast or was started when the parents were very young.

Money when it's spent faster than it's earned.

Estrangement that sometimes come when a wife goes to work, meets new people and finds new interests.

The problems arising when husband and wife have different social or educational backgrounds.

Prosperity which leads some men to feel there will be no strain in using new trappings when divorce cases decided by the children of their first marriages.

Judge Newhall would like to see divorce cases decided by family courts where all of a family's troubles could be dealt with at once.

Herman-Heard Engagement Told

Mrs. Henry Grady Herman, 407 W. 18th St., Sanford, is announcing the engagement and approaching marriage of her daughter, Anna Lea, to Jacob Foreman Heard, III, son of Mr. and Mrs. J. H. Heard, Jr., of Macon, Ga.

MISS ANNA LEA HERMAN

Sandra Lou Hardy Bride Of John M. Brockman

Miss Sandra Lou Hardy became the bride of John Michael Brockman July 26, at 1:30 p.m., in the chapel of the Wesley Foundation at Kent State University, First United Methodist Church, Kent, Ohio. Officiating minister in the candlelight, double ring ceremony was Dr. Carl T. Pierson, pastor.

The bride is the daughter of Mr. and Mrs. Harold Wesley Hardy, Kent, Ohio and the groom is the son of Mr. and Mrs. Alex Clyde Brockman, 2999 Sanford Ave., Sanford, Fla.

Decorations included a single tall four-point arrangement of white gladioli and white daisies on a round white marble table in the center of a rounded altar in the circular chapel.

Camouflage Trick

You can cover and fill in a chip in your refrigerator by dabbing the chipped spot with colorless nail polish and finely ground zinc white, available in hardware stores.

Make Grease Go

A few articles of clothing bleached badly to a pall of warm water helps to clean grease and snot from kitchen walls. Apply with a sponge to cloth.

Sandals Are "In"

"Elevated" sandals are "in" so give yourself a lift and leg some.

Combs and hairbrushes

should be washed as often as your hair. An easy solution in which to wash them is about a tablespoon of baking soda and a good dash of liquid ammonia. No scrubbing, just soak and time well.

Cleveland-Cox Bridal Party Entertained

Miss Virginia Cleveland, her fiancé, Charles Cox, and members of the wedding party were entertained at a buffet dinner following the wedding rehearsal Aug. 22. Hostess for the dinner was Mrs. James C. Cox, mother of the bride.

Following the ceremony

a reception was held in Fellowship Hall of the Church. A color theme of yellow and white was used in decorations. Yellow and white daisies and greenery surrounded the three tiered wedding cake which was decorated in the chosen colors and featured a pair of golden slippers and two tiny white bells at the feet of a miniature bride and groom standing beneath a white arch.

Following the reception the bride's parents, Mr. and Mrs. H. W. Hardy, entertained 30 guests with a buffet dinner at their home, 210 Berkeley Drive, Falls Church, Va., 22046.

DRIVE CAREFULLY— Give the kids a brake!

SCHOOL'S OPEN - SO SLOW DOWN! PROTECT OUR CHILDREN'S LIVES

On the first days of school you can expect to see our youngsters running across streets without looking, forgetting to obey the traffic signs and signals. That's why we must be a little extra careful, slowing down near schools, watching all traffic signals and obeying school safety patrolmen. Our kids' safety is our responsibility. School starts September 2nd, so please drive carefully.

A GIANT LEAP FOR MANKIND

and YOU can share in a tribute to man's first step on the moon...

The Florida Apollo Memorial Commission, established by the State Cabinet, needs your ideas and suggestions for the creation of a suitable memorial to the Apollo Moon project.

To make this memorial a reality to be viewed and honored for generations to come the Commission also needs your generous contributions of \$1.00 or more.

To be a shareholder in this program and have your name recorded for posterity in honor of the Apollo Program, and it's anniversary, send your coupon below and mail it to:

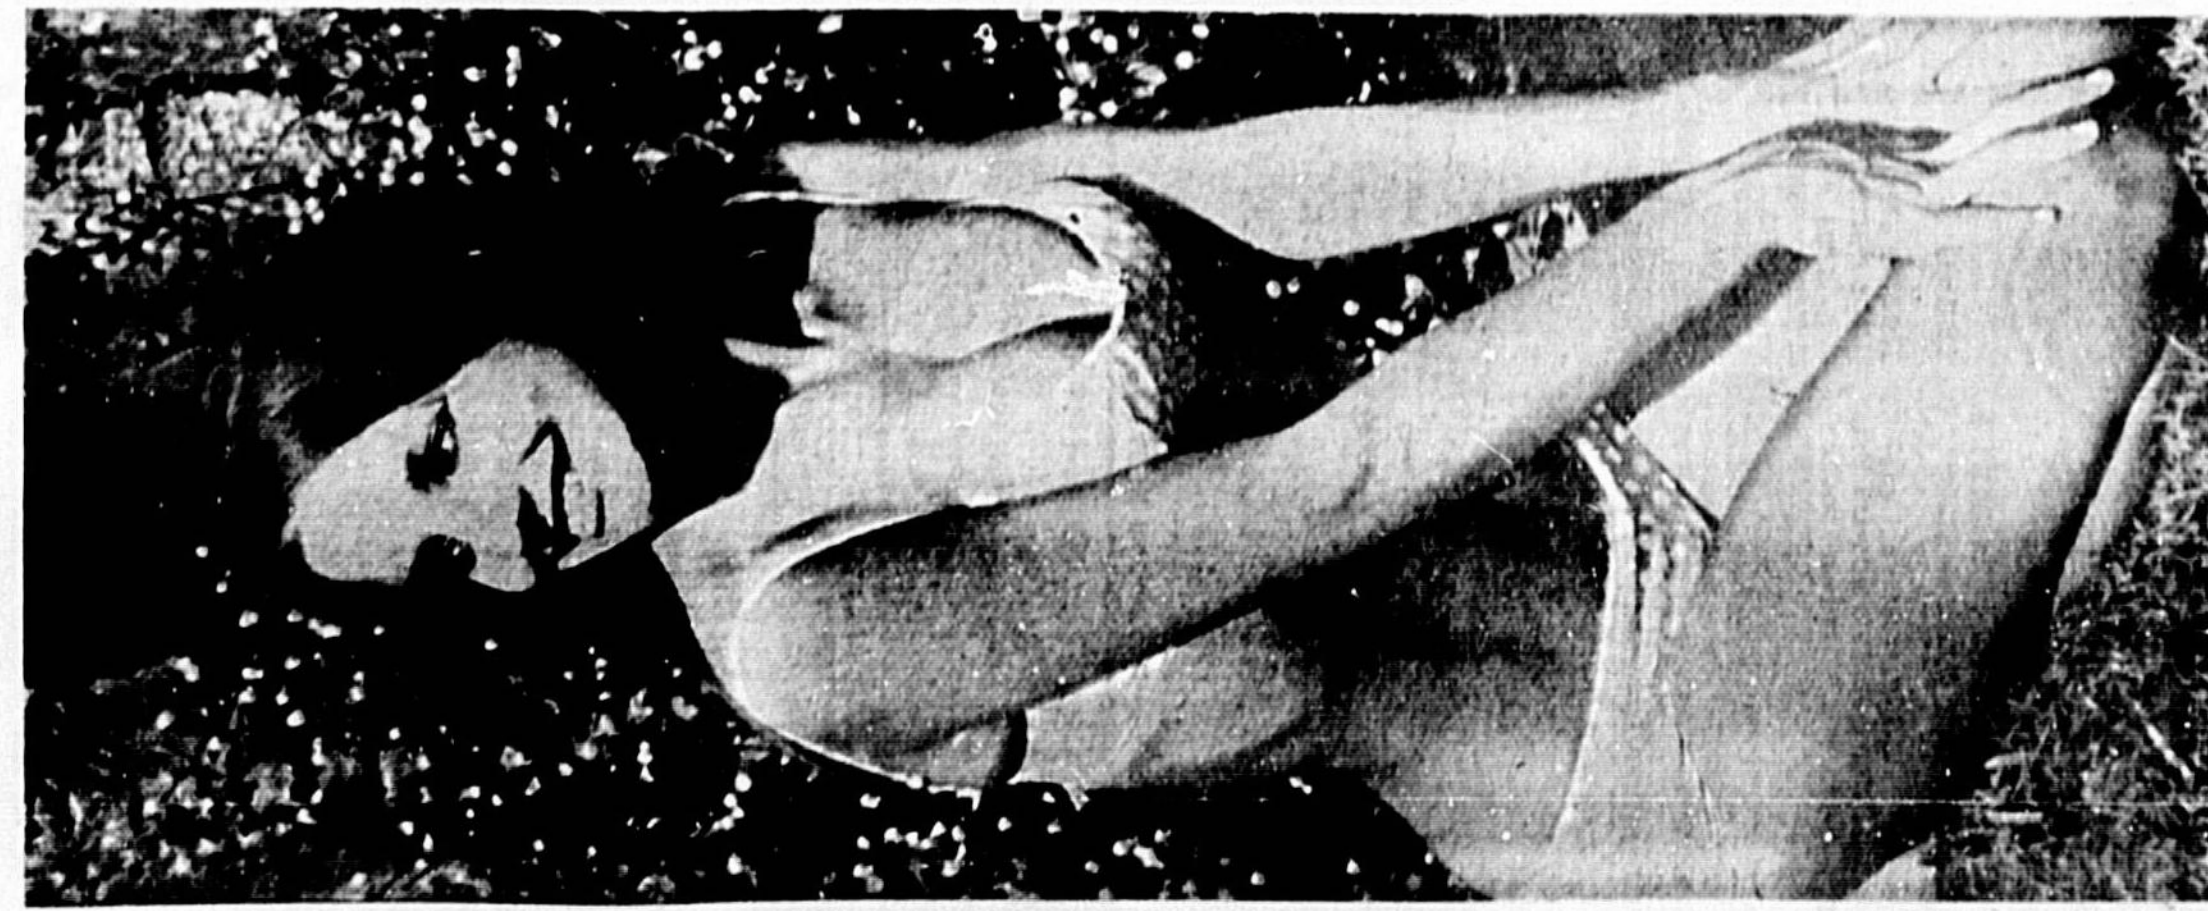

Florida Apollo Memorial Commission
 Fred O. (Bud) Dickson, Jr., President
 Tallahassee, Florida 32304

Enclosed is my contribution in the amount of \$..... to be used in building the memorial for the Apollo walk on the moon.
 Also enclosed is my suggestion as what form the memorial should take. Please record my name in Exhibit #1 below.

Name: _____
 Street: _____
 City: _____
 State: _____
 Zip: _____

MAIL THIS COUPON TO:
 Florida Apollo Memorial Commission

Oviedo Hopefuls Are Unopposed

By LIZ MATHIEUX
Oviedoans will go to the polls tomorrow to give votes of confidence to two of the councilmen and the mayor of the city. None of the three are opposed in the election. In statements to The Herald, Mayor C. D. Thompson, completing his first term in office and preparing to begin his second two-year term, said, "I plan to continue to do my best for the best little city in the world."
Thompson and his wife, Norma, are parents of four sons, Britt 21, Bruce 19, Gary 14 and Gregory 11.
The chief executive is a real estate broker. Edward Kasell, completing his first term on Council, is married to the former Gwyneth Holland and has two children, Toby 8 and Deana Jean 5. He is the owner-operator of Oviedo TV Repair Store. Active in the Baptist Church, Kasell stated he is "for everything that is to the best interest of our community." The councilman is currently president of the Oviedo Lions and active with the Scouting program.
Councilman Ray Beasley, meanwhile, said, "Oviedo is now experiencing growing pains and this creates many problems. It is very important that we do our very best to solve these problems to the best of our ability."

Judge Clears School Officials Conspiracy Suit Is Dismissed

By BILL SCOTT
"If this suit is allowed to proceed, civil rights for all of us are going to be diminished in the name of civil rights."
With these words Judge George C. Young Friday dismissed a conspiracy suit against two Seminole County School Board members after an hour hearing in Orlando's U.S. District Court.
Filed by William Rowland against Ray Slaton and Mrs. Jean Bryant, board members, for 611 plaintiffs who alleged that a conspiracy existed between the pair, the suit had sought damages after the adoption of the freedom of choice school plan by the board.
In making his ruling, Judge Young stated the suit was based on section 1985 of the U.S. Code of Laws adopted during the Civil War and did not apply in the case against elected officials.
Young said, "Congress did not contemplate action against a school board when it adopted this law," and indicated the statute was applicable only in instances where persons were employed such as a policeman or an employee of a state or city, and not an elected body.
The judge stated, "If section 1985 is used to get damages, then all people are in danger of losing civil rights and even congressmen and judges would be subject to court action if they voted their convictions."
School Board attorney Douglas Steinstrom represented Mrs. Bryant and Slaton and argued that an allegation is not show a conspiracy existed and

SEPTMBER + 2 = SCHOOL
IT'S BACK-TO-SCHOOL TOMORROW
REMINDER TO ALL... children, parents and especially motorists... that school opens tomorrow. Tuesday, as mermaid illustrates under water at Weeki Wachee. And she doesn't mean "school of fish."

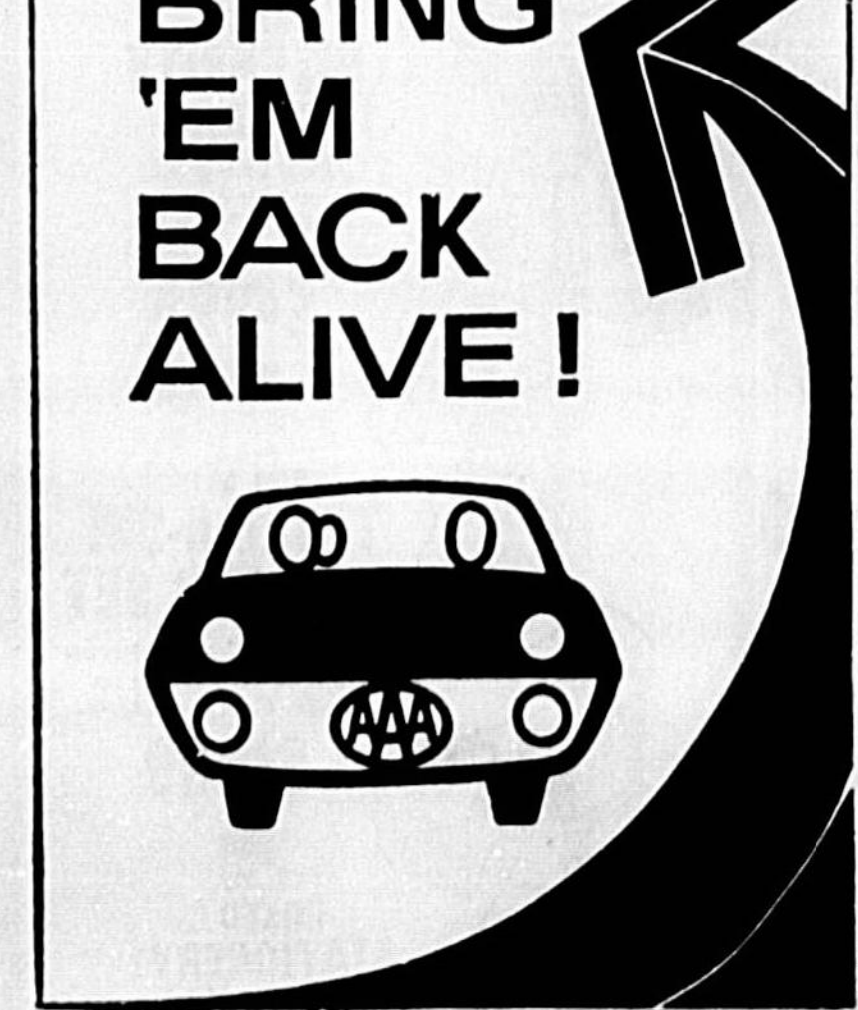

School Parents Hit Bus Service

A committee of five was appointed during a Sunday meeting of from 50 to 60 Midway parents of Seminole school children to meet with the School Board in a Tuesday morning conference dealing with lack of transportation of Midway-Canaan students to Sanford Junior High and Seminole High schools.
Rev. Amos Jones told The Herald today that the group will consider some course of action to deal with a situation created by the board's decision not to bus children past an existing facility to another school as outlined in the county's freedom of choice school plan.
Jones said a school boycott was "a good possibility" unless some agreement was reached that would allow school children in the area located on SR 46 east to be bused to Sanford Junior High and Seminole High for those students who choose to attend these formerly all white facilities.
Jones stated a temporary car pool was organized for the school day Tuesday but other means to transport the students on a permanent basis must be found.
The Seminole Community Action head said the Sunday session was a "strategic" meeting and many possibilities for action were discussed.

Editorial Farewell, Welcome

The calendar, of course, tells us otherwise. Three weeks of summer remain. But somehow, Labor Day has come to mark the end — and the beginning.
The fresh morning of June is long gone, the bright sarnath and lush flowering of July recedes ever deeper into memory. And now August of the drowsy heat, the yellows and browns of the coming season stealing relentlessly into the landscape's fading, dusty green, is past as well.
Chances are the first strangely, crisply cool night will already come, an unexpected but suddenly welcome tonic for summer-tranquilized sensibilities. The frost is not yet on the pumpkin, but we know it soon will be.
At no other time of year is there quite this sense of pause, of time out from the relentless march of hours, days and seasons.
Labor Day has another, official raison d'etre, of course. We salute with good reason the nation's workers. But over so many years this has become more pretext than purpose.
The real meaning of Labor Day to a working nation is he pause that represents, despite what the calendar may say, the ending of one year and the beginning of another. It is a time curiously out of time, a time for saying farewell to the year that has faded with summer and for looking forward to autumn and the quickening tempo of another.

BRING 'EM BACK ALIVE!

'Francelia' Developing

MIAMI (AP) — Hurricane Francelia developed a well-formed center during the night and began growing today as it moved across the warm waters of the northwestern Caribbean.
The National Hurricane Center said the storm, still relatively small but potentially dangerous, probably would pass near the tiny Swan Islands, 300 miles east of Belize, British Honduras, early tonight.
Francelia's development had caused concern among forecasters, who warned its future course was unpredictable.
"We can't say what course Francelia will take or what its intensity will become," said Dr. Robert Simpson, director of the National Hurricane Center. "If it weakens, steering currents should take it westward. If it becomes stronger, it probably would take a more northerly course."
The storm had lost some of its strength and temporarily stalled after striking Jamaica and moving into the western Caribbean, long the sprawling ground for major tropical storms. It regrouped its wind system late Sunday, however, and began growing again.
"Francelia is like a powder keg with a damp fuse," Dr. Simpson said. "The fuse may blow up in our face."
Early today the storm's center was about 675 miles south of Miami and 220 miles east-northeast of Jamaica, and was moving westward at about 10 m.p.h. Top winds were estimated at 15 m.p.h., minimal for a hurricane.
Francelia is the sixth major storm of the current Atlantic hurricane season.

8 Injured In Mishaps

Eight persons were treated for injuries, none believed serious, in an epidemic of traffic accidents occurring during the three-day Labor Day holiday.
Two Marines homeward bound from Camp Lejeune, N.C., were taken to Orlando Naval Center hospital for treatment of minor injuries after their car traveling west on I-4 about a mile from SR 434 entrance ran off the road and overturned.
William D. Boykin, of Lakeland, and Charles W. Craft, of Kissimmee, received cuts and bruises in the mishap.
A passenger in a car driven by Ernest C. Walker, 22, Apopka, Sunday on SR 436 east of railroad tracks at Forest City was treated for injuries received when the car went out of control and plunged 100 feet down an embankment. T. L. West, of Apopka, was treated for cuts under the eye at Florida Sanitarium and Hospital.
Mrs. Sonnel Newton, of Longwood, was charged with failure to have his vehicle under control after a Friday afternoon mishap on Highway 17-92 near Dynatronics when her car struck a vehicle driven by Eugene Guerra, of Orlando, and containing his wife, Mrs. Guerra was removed to Seminole Memorial Hospital for treatment of injuries.
In another mishap, an unidentified woman was removed to
