

## Braves Tally In Ninth To Win Thriller From Cincinnati, 2-1

BOSTON, May 20.—(AP)—Johnny Cooney's third hit in the ninth inning gave the Boston Braves 2 to 1 victory over Cincinnati yesterday after Al Jaworski and Johnny Vender Moer stared a tight seven-innings pitching duel.

There was no score until the seventh inning, when doubles by Ernie Lombardi and Frank DeMaris brought in the first Braves.

Jaworski had pitched eight scoreless innings and had allowed only five hits when the Cincinnati Reds came to bat in the ninth. With one out, successive singles by Frank McCormick, George Krey and George Walker tied the score, and Johnny Salter took over the Boston pitching, retiring the side.

With Elmer Riddle pitching for Cincinnati in the ninth, Ernie Lombardi and Al Robarge were on base when DeMaris sacrificed Jaworski to second and Cliff Ross was given an intentional walk.

An error by Eddie Joost filled the bases. Clyde Klutts, pinch-hitting for Sam, forced Robarge at the plate on a grounder to McCormick.

Cooney, with two out, got his third hit of the game—a single to center, to score the winning run.

### LEAVING IT TO FANS

## Students Will Get "Break" On Football Slates

ATLANTA, May 20.—(AP)—Charge it up to war and the OPA—but the biggies of southern collegiate football may play next Fall in comparative solitude; a sport by the students, for the students, and far from the maddening crowd.

Many head coaches will be playing in populous cities like Atlanta, Birmingham, New Orleans, Nashville, Louisville and Knoxville. But just as many are scheduled for little campus towns 50 or 100 miles from the nearest large city, so coaches are uncertain about shifting games to bigger centers.

The University of Alabama, for instance, plans to play two of its most important games at Tuscaloosa, 60 miles from Birmingham. The first will match the Crimson Tide with Mississippi State, winner over Penn in their last two encounters and official defending champion of the Southeastern conference. The second brings South Carolina's strong team to the campus Nov. 7 for a game with Georgia.

Georgia, 1942 Orange bowl champion, is to play Tulane at Athens Oct. 17 and conclude its season Nov. 28 with the traditional wind-up against Georgia Tech. One source at the university predicted neither game would draw well, but said both were expected to be played as scheduled.

Mississippi State is to play Duquesne at Starkville Nov. 14, and the University of Mississippi Nov. 15. Coach Allyn McKeen said no coach was anticipated in either contest.

"We feel we owe it to the students and local townspople," he said. "We'll play at Starkville even if no one comes but the students."

The Dodgers showed little respect for big Bill Lee, who had won five games and lost three in making his great come back this Spring. They tapped him for nine hits, including a home run and triple by Joe Medwick, each good for two runs.

### Dodgers Barge To 8th Straight Win

BROOKLYN, May 20.—(AP)—The Brooklyn Dodgers barged to their eighth straight victory yesterday with an easy 6 to 1 triumph over the Chicago Cubs.

The veteran Curt Davis pitched six-hit ball and for the second successive game the only run scored against Brooklyn's home-plate one by Phil Cavarretta in the eighth inning. It was Davis' fifth win against one defeat.

The Dodgers showed little respect for big Bill Lee, who had won five games and lost three in making his great come back this Spring. They tapped him for nine hits, including a home run and triple by Joe Medwick, each good for two runs.

### Night Baseball For Jacksonville Is Out

JACKSONVILLE, May 20.—(AP)—Jacksonville's dimout was pronounced unsatisfactory yesterday by the Army and Brig. Kenneth T. Blood recommended that night baseball be abandoned.

Blood, who tested the dimout Middle night from two miles off Atlantic Beach, reported his cautions taken here left much to be desired in the control of lighting to eliminate the danger to shipping along the coastline.

He described the ball park lights as "distinctly undesirable" and recommended that the Jacksonville Tars of the South Atlantic League "be requested to make arrangements for other than night games requiring illumination."

We don't know what steps to take just now," said Crowther H. Boyd, business manager of the Tars, local Sally League team.

US FROM THE RANKS

BOSTON, May 20. (AP)—Johnny Pesky, the Red Sox' star rookie shortstop, was clubhouse boy for the Portland Beavers from 1932 to 1937.

CHICAGO, May 20. (AP)—Ted Lyons has never used a shoe plate in the two decades he has been pitching for the Chicago White Sox.

Fires, storms and insects each year destroy seven billion board feet of standing timber in the United States.

### From where I sit...

by Joe Marsh

WHENEVER I hear about anybody having a big family I think of Dad Hoskins because it's something like what I understand the beer industry is doing to regulate itself.

They weren't a bad bunch of kids, by and large—but it seemed either the other of them would always be having a fuss with the neighbors, or would break a window playing baseball, or some other kid trick. Kept Dad and Me mighty busy all the time.

One day Dad got a bright idea. He called the whole family together for a special meeting at the dinner table.

He told them he was tired of checking up on them all the time. He said he thought they were old enough now to check up on themselves. The older children would watch the younger ones. They would have meetings every so often and hand out rewards or punishments.

Well, it was a crazy idea but the kids liked it and they started behaving better than they ever had before. The idea worked and Dad finally did get a little time for himself.

From where I sit, that's a fine thing for the brewers to do... particularly when you realize that after all they're not responsible for retailing conditions.

Joe Marsh

## Defense Shop News

ALEX R. JOHNSON

Plans have been received for a high speed, new patrol boat to be built by the Rock Island Arsenal classes. This will be a 30 foot boat and as soon as completed will be taken over by the navy. At this time the boat has been laid down and materials are expected to start arriving within the next few days and then actual construction will start.

This class is one of the most important in our defense efforts and it is hoped that all who are able will take advantage of this opportunity to learn a profitable as well as patriotic trade. Plans are going forward now for those trainees, who are now ready to take this test.

er either the pre-employment or supplementary class, please contact the office.

There is room in three of the welding classes for limited number of additional trainees. The classes which have openings are the 9:00 A. M. to 12:00 Noon, 12:00 Noon to 6 P. M. and the 12:00 A. M. to 6:00 P. M. A great deal of praise must be given to those trainees who work at their regular jobs during the day and then enter the 12 A. M. to 6:00 A. M. class. Word has just been received from the State Office that trainees in the welding classes will be immediately employed by one ship building company. Plans are going forward now for those trainees, who are now ready to take this test.

## Red Armies Continue To Smash Forward In Bitter Kharkov Fight

Both Sides Claim Advantage As Nazi Counter-Attacks Are Said Crushed

(UPI, Associated Press) Russian armies crushed desperate German counter-attacks today and smashed forward on Kharkov over fields littered with Nazi dead and the wreckage over 600 enemy tanks.

The Germans acknowledged violent battles are raging with the Red army pressing toward Belgorod, 50 miles north of Kharkov. The heaviest fighting apparently is raging 20 miles southeast of the Soviet goal with both sides claiming a slight advantage.

Rumanian reports admitted the Russians are "still fighting sharply" and continue in the eastern Crimea as Russian resistance continues on the Kerch peninsula in the face of violent Nazi attacks.

"Our troops fighting toward Kharkov waged fierce battles, repulsed enemy panzer attacks and advanced," the high command announced. "In the region of Izium and Barvenkovo, our troops repelled several enemy attacks."

Earlier unconfirmed Soviet reports from the Ukraine said an increasingly powerful Red army offensive was wiping out or turning back in shattered confusion seemingly endless columns of German tanks and big fleets of enemy planes.

The late communiqué said fighting still raged on the Kerch peninsula, where the Soviet radio said the Red army had been reinforced in preparation for "sharp and heavy battles" about to begin in defense of the Crimea short cut to the Caucasus.

Twenty-seven German planes were reported destroyed over the Russian front Tuesday, while the loss of 12 by the Red air force was acknowledged officially. Three German transports aggregating 26,000 tons were sent to the bottom of the Barents Sea Monday, the communiqué said.

**County Camp And Hospital Group Will Be Formed**

(UPI, Associated Press) Members of the Seminole County Chapter of the American Red Cross will meet with representatives of men's and women's organizations, including civic, fraternal and church groups, and interested individuals in the Red Cross headquarters building on East First Street on Friday night at 8:00 o'clock for the purpose of forming a Seminole County Camp and Hospital committee as part of the East Central area of Florida. It was stated this morning by Mrs. F. E. Rounilat, local Red Cross chairman.

Mrs. J. G. Patterson is chairman of the Camp and Hospital committee which is working in cooperation with every organization in the state. The Office of Civilian Defense of which Mrs. Diane Karr is chairman of the Women's Division of the local council, it was stated.

The sound will be sponsored by the Red Cross. It was explained, but will be handled directly through the field directors at local posts, thereby eliminating the possibility of duplication and maintaining the identity of each organization participating.

**Cross-State Pipeline Plan Is Being Pushed**

(UPI, Associated Press) A Texas oil man declared yesterday that pipelines capable of carrying much oil to relieve the petroleum shortage on the Atlantic seaboard could be laid across the Florida peninsula in 90 days.

E. R. Germany, Dallas, told House Rivers and Harbors Committee that 8, 10 and 12-inch pipes can bring enough oil available to meet the needs of the Florida market.

"It would take my crew and put them in 90 days and have them off the coast," he said.

**NO CANADA CANADA**

OTTAWA, May 21, (UPI)—McGill University students here are continuing their strike against the Canadian government.

## Rationing Of 15 Major Items Is Expected Within One Year

(UPI, Associated Press) Shortages of certain goods available for civilian consumers are expected to result in rationing of 15 major items within a year, well informed officials said today.

To administer these programs,

the office of price control, now

being used for preliminary budget

preparations, would make

Price Administrator Leon Hen-

derson's agency the third largest

in the Government, outranked

only by Army and Navy.

The first item dropped, however,

that some of the most general

categories likely to be affected

would include many types and

sub-classifications of goods, bring

ing the war home to civilians with compelling force.

## County Defense Councils Will Not Form Bomb Squads

No bomb squads will be organized here by the Defense Council Coordinator A. B. Peterson announced today following a formal protest received from Major Gen. Albert L. Blanding, commanding director of the State Defense Council Action Division.

The handling of unexploded and delayed-action bombs has now been placed exclusively in the hands of the Army. General Blanding, relaying the information and local volunteers of this responsibility.

Literature of the Office of Civilian Defense, previously distributed, carries provisions for bomb squads, but this item has been struck from organizational charts and will be discarded in future programs. The area around an unexploded bomb will be cleared of personnel and guarded by local volunteers, but the War Department will handle removal, Mr. Peterson said.

## Official Says Subs Cannot Be Eliminated

(UPI, Associated Press) Chairman Land of the Maritime Commission today expressed the opinion that while conditions under which the Navy is battling submarines "are constantly improving," the complete elimination of the menace is not to be expected. "You can't cure the submarine menace," he told a newspaper reporter investigating the possible use of inland waterways for transporting petroleum. "You can ameliorate it."

He said the commission believed any development of barges on inland waterways should be undertaken by other government agencies already having the authority to do the work.

## Mistrial Is Declared As Juror Makes Date

WHITE PLAINS, N. Y., May 21.—Mrs. Dorothy Gould, being sued for divorce on adultery charges, obtained a mistrial yesterday after she told the Judge the jury foreman had a "soft spot" for her attorney, who by prearrangement was in the back seat of the car.

Supreme Court Justice Graham Witschi declared the trial and told Judge Harry Silver of Mount Vernon that:

"The punishment remains for further consideration."

## Gestapo Chief Takes Netherlands Position

LONDON, May 21, (UPI)—Herrich Hinsche, head of the German-drawn Gestapo, has been made the supreme chief of police in the Nazi-occupied Netherlands.

A German newspaper reported today in a dispatch to London:

"A special meeting of the San-

ford Board of School Trustees

was held yesterday evening at

the school building in the Court

House.

The demands were made by

Senators Myer Wheeler and Clark after Shirley told the Sen-

ate the Justice Department

had been unable to find any

available space for the new

high school in the Brook-

lyn house of Horace.

**City News Briefs**

## Russian Planes Blast an Invading Nazi Tank Column

This photo, radioed from Moscow, shows planes of the Red Army scoring three direct hits on Nazi tanks during an attack on the Crimean front. Smoke may be seen rising from the burning tanks in the center. Moscow claimed that Germany's resistance had been definitely broken after Hitler's forces had taken the city of Sevastopol.

## Australia Will Be Used As Huge Base For Allies

Nation Will Draft 35,000 For Civil Construction Work

Saturday Will Be "Poppy Day", Hill Proclaims

May 21, 1942 (UPI)—Australian authorities

today directed the Selective Service System to instruct draft boards to consult with local Employment Service offices before drafting individuals for "utilized in a military" work.

The direction includes an eight-point program to promote the "full utilization of manpower of the nation,"

the proclamation reads.

## Braves Cling To 2nd Place In National

Edge Pirates In 10th As Waner Draws Walk Forcing In Winning Marker

BOSTON, May 21. (AP)—The Boston Braves clung to second place in the National League standing yesterday by defeating the Pittsburgh Pirates, 4-3, when Paul Waner drew a base on balls from Ken Heintzelman with the backs loaded in the tenth inning, forcing home the winning tally.

Credit for the win went to Johnny Peaky, the 21-year-old Portland, Ore., prodigy who threatens to become the season's outstanding rookie.

Peaky, born Pavlovitch, apparently has made the wide jump from sandlots to a major league shortstop berth in three seasons.

Despite his tender years and lack of experience, he not only has established himself as a reliable shortstop, but also has proved to be an able bench-manager without misgivings but also has managed to set many of that once-harassed pilot's juggling stars again afame with his enthusiasm and amazing speed.

Cronin frankly admits the Soxers have the tightest infield in many years with Peaky at short instead of himself and he also gives the younger credit for improvement that amazed baseball authorities have noted in his habitually erratic pitching staff.

"Peaky can go farther to his right than any shortstop now in the major," Cronin boasts. "He is getting most of those drives that had been going between third and short and starting double plays on them. That's the fielding that gives pitchers a mighty lift. Why, we had 27 twin killings in our first 30 games. It used to be 10 to 12 July 1 to get that many."

The youngsters who broke into pro ball with the Rocky Mount club in the Class B Piedmont League only two years ago, is five-feet-nine and weighs 165. Although built for speed, he is a sharp line-driver and now is being taught the art of drag bunting by Cronin, who has hopes of freezing his batting average around the .335 mark.

"I John Peaky, roll bunts down the first and third base lines and keep on driving hard straightaway, he'll get a lot of extra singles," Cronin predicts. "He gets that important extra step as a leftfield batter and he's like a streak of lightning."

Although Peaky appears to have an unusual amount of self-confidence and poise for one of such limited experience, he is far from being the cocky type.

"I am not too sure of convincing myself I am in the majors," he admits. "Why only two seasons ago I was worrying about making the team with Rocky Mount."

MacDill Field soldier spent his Thanksgiving on a visit to Camp Blanding's Station Hospital who cannot swim a stroke.

## Celebrate "National Cotton Week" with AMERICAN COTTONS

This year, more than ever before, you'll want to be patriotic and right in practical, attractive, washable cottons. Cool cotton is first for a "just out of the sandbox freshness" . . . versatile cotton is first for an "alert adaptability" in your active 1942 lives . . . and The Outlet is first for the widest selections of wearable, washable styles in town!

**Printed Sheer afternoon Dress \$2.98**

High round neck, short sleeves, lace and embroidery trim. White and Red. Sizes 12 to 14.

**Printed Sheer daytime Dress \$3.98**

Pretty Blue and White print with dainty feminine white lace collar and cuffs. Sizes 38 to 42.

**2-Piece Seersucker Town Dress \$4.98**

Fitted blouse with collar and white piping cuffs, two pearl buttons. Skirt on both has front pleats. Sizes 12 to 20.

**SEAMFAST RAYON TAFFETA and SATIN SLIPS \$1.19 To \$2.29**

Fashioned from a lovely, long-wearing fabric, full cut and true to size for perfect fit and wear. Styled by Goody Undies. All sizes.

**THE OUTLET**  
Men's, Women's and Children's Shoes  
and Wearing Apparel  
Sanford Avenue at Fourth Street Phone 550

**CHECK UP NOW!**

In your home . . . in your business . . . on your farm—be sure that all your electrical equipment is in good operating condition. Call your repair dealer now.

*Saves WEAR!*

There is a deep-sea diver at Camp Blanding's Station Hospital who cannot swim a stroke.

## Writer Predicts Many Managers To Get Old Heave-Ho

By DILLON GRAHAM  
Wide World Sports Editor  
NEW YORK, May 21 (UPI)—The average businessman just can't keep from talking back to an umpire. And so with tighter rules in effect this season, there's likely to be a all time high total of players ejected from ball games.

The reason is that the National League now prohibits managers from protesting balls-and-strike decisions. The pitcher or the catcher may still offer their frank advice and somewhat partial opinion of an umpire's ruling but the kibbers can't enter the debate.

And that's tough on the batters. For some of them have been so used to cash out in the plate and light into the manager that they're bound to do it again. A lot of them likely to be sent to the showers sooner or later before they can remember the new rule and restrain themselves.

Whenever rules are made some people tend to try to find ways to evade them. Like the Lip Dancers of the Dodgers. Though he could not afford the fresh suit he gave up his uniform to his catcher, within easy earshot of the umpire. He did once, but the manager got him to take off his shirt.

Home owners and business leaders of the Beatles and Jimmy Dukes of the White Sox have been perhaps the most outspoken of the players. And they have been ordered off the field more often than most other managers.

At this writing Erisch is again out front. Frankie held himself under control until the last day of April. Then early in May he got around again. This with Erisch in the hundred-odd days of Jimmy Wilt's of the Cuban.

The problem is one of ships, planes, trucks, men and implements of war from American farms, shops and factories.

Danger, real and potential, lies along almost every mile of the supply routes.

Ships face the attack of submarines and surface vessels. These attacks will gain in intensity as Asia gains control of the Victoria Islands, island of Madagascar, and east Africa.

If Japan moves more strongly into the Indian Ocean on the route to the Red Sea.

Overland truck trains may be bombed; Port Lamy, in French Equatorial Africa, already has been attacked from the air.

Along these far-flung supply lines, carrying the components of victory, may yet come some of the bitterest fighting of the war.

## United Nations Forces In Middle East Get Tons Of War Materials

By CLAYTON J. LEWIN  
Wide World Features Writer

A land sea and air bridge equivalent to half the distance around the world is pouring millions of tons of war materials into the strategic Middle East for the United Nations' impending battle against the Axis.

America's contribution to the effort started shortly after President Roosevelt, on Dec. 27, 1940, declared war on Nazi Germany.

The reason is that the National League now prohibits managers from protesting balls-and-strike decisions. The pitcher or the catcher may still offer their frank advice and somewhat partial opinion of an umpire's ruling but the kibbers can't enter the debate.

And that's tough on the batters. For some of them have been so used to cash out in the plate and light into the manager that they're bound to do it again. A lot of them likely to be sent to the showers sooner or later before they can remember the new rule and restrain themselves.

Overland truck trains may be bombed; Port Lamy, in French Equatorial Africa, already has been attacked from the air.

Along these far-flung supply lines, carrying the components of victory, may yet come some of the bitterest fighting of the war.

**PASSPORT TO WAR**

DENVER, May 21 (UPI)—A Aug. rationing time off may become a passport to war, which young Americans will have to have admit them to certain places.

The ration books states the age of the person to whom issued August. Hanrahan, engineer of safety, was told police if the sign of a young lady at a bar is doubtful an officer should ask her to produce her ration card to prove that she is not a minor and therefore eligible to buy a drink.

**WHERE IS IT?**

NEW YORK, May 21 (UPI)—The Germans don't know where Shanghai is either.

In briefly noting the explosion of Brig. Gen. Jimmy Doolittle last night the German radio reported: "... Doolittle had carried out the air attack against Japan from the air base Shanghai which was not otherwise described by Roosevelt..."

It is expected to start a new class in automobile mechanics next week. Anyone interested in this type of training should file their names with the office at once.

Commodore Perry introduced rail transportation in Japan when he set up a model line in 1858 on the beach of Yokohama.

## D. S. Senators Urge Speed In Aiding Chinese

Predict Japs Will Attack Russia Or Alaska If China Is Put Out Of War

Helps Paratroopers

## Allies Smash Jap Cruiser, 2 Other Ships

United Nations Subs Are Successful In Southwest Pacific; 14 Nip Planes Hit

By Associated Press  
Allied submarines sank a 7,100-ton Japanese cruiser and two merchant ships in the southwest Pacific. General MacArthur's headquarters announced today. Allied fighters destroyed or damaged 14 more planes in attacks on Jap bases in New Guinea and Timor.

The ships were identified as:

A cruiser of the 7,100-ton Kako class mounting six eight-inch guns, four 4.1-inch anti-aircraft guns, 10 machine-guns and 12 21-inch torpedo tubes.

A 9,000-ton cargo ship.

A 9,000-ton cargo ship.

Besides the Kako, the class of that name comprises the cruisers Horata, Kinugasa and Aoba. Each had a normal complement of 604 and carries two catapult aircraft.

The sinkings were the first naval action announced since the battle of the Coral Sea, in which at least 21 Japanese warships and auxiliaries were sunk.

Lae recently had been reinforced with aircraft, presumably for an attempt to knock out Port Moresby. Allied strong points on the southeastern shore of the island.

With perhaps 25,000 men in the Foothills expedition, the Japanese were believed now to have 150,000 troops in action or dependent for action in the Chekiang, Fukien and Kiangsi provinces.

It seemed obvious if that venture is successful it will be followed by an attack on Russia by the large army Japan maintains on the border in Manchukuo.

With perhaps 25,000 men in the Foothills expedition, the Japanese were believed now to have 150,000 troops in action or dependent for action in the Chekiang, Fukien and Kiangsi provinces.

The Foothills expedition created a second highly active front in the Chekiang-Fukien seaboard area and constituted a new threat to the rear of Chinese forces which only a few hours earlier claimed to have curbed the enemy on the 100-mile Chekiang front throwing him back at least one section.

About 1,000 miles to the west, on the third vital front in Yunnan, provinces adjoining Burma, the Chinese forces there had recaptured the city of Kunming.

At Langfang, a railway junction 100 miles and beyond large quantities of Japanese war supplies.

There was no change in positions along the Burma Road west to the Salween River, the Chinese reported, and the Yunnan front, under monsoon rains, was becoming stabilized.

Over Yunnan's tangled battlelines and the complex of fronts developing in eastern China along the east China Sea and Formosa Strait Japanese aviation was engaged in a mighty contributory effort aimed at reduction of airfields and centers of communications giving coherence to the Chinese war effort.

Answers to war questions provided to defense officials by the OEM Information Office revealed that today women had better hang on to their hair and steel order. According to the OEM, "With hair and bobby pins are covered by the iron and steel order. Believe it or not, enough steel goes into them to make 160,000 machine-guns."

Other questions and answers are:

Q.—Is there a price ceiling on canned milk? A.—No. On fresh milk.

Q.—Is there any shortage of glass? A.—Not a shortage, but we're going to have thinner and lighter containers because so much glass is being used to replace tin cans.

Q.—How much gas is used a fighter plane uses? A.—Seventy gallons per hour.

Q.—It is true that they've stopped making hairpins? A.—Both hair and bobby pins are covered by the iron and steel order. Believe it or not, enough steel goes into them to make 160,000 machine-guns.

Q.—What does a boarding-house keeper do with her boarders? A.—She keeps them as long as the boarders eat 12 meals a week at her establishment. When he leaves, she tears out stamps to equal his sugar consumption and takes them to her local board.

Q.—Does the new rent ceiling apply to hotel rooms? A.—Very definitely.

Q.—Wouldn't it solve the transportation problem if people rode to work together? A.—You're right. It's estimated that if workers in defense plants would ride to work together, it would solve their transportation difficulties for years to come.

Q.—Is there a rent ceiling on office spaces? A.—No. Only on housing accommodations.

Q.—Have they stopped making common wire clothes hangers, not for wooden ones with a steel wire hook?

Q.—How much gas is used a fighter plane uses? A.—Seventy gallons per hour.

Q.—It is true that they've stopped making hairpins? A.—Both hair and bobby pins are covered by the iron and steel order. Believe it or not, enough steel goes into them to make 160,000 machine-guns.

Q.—What does a boarding-house keeper do with her boarders? A.—She keeps them as long as the boarders eat 12 meals a week at her establishment. When he leaves, she tears out stamps to equal his sugar consumption and takes them to her local board.

Q.—Does the new rent ceiling apply to hotel rooms? A.—Very definitely.

Q.—Wouldn't it solve the transportation problem if people rode to work together? A.—You're right. It's estimated that if workers in defense plants would ride to work together, it would solve their transportation difficulties for years to come.

Q.—Is there a rent ceiling on office spaces? A.—No. Only on housing accommodations.

Q.—Have they stopped making common wire clothes hangers, not for wooden ones with a steel wire hook?

Answers to war questions provided to defense officials by the OEM Information Office revealed that today women had better hang on to their hair and steel order. According to the OEM, "With hair and bobby pins are covered by the iron and steel order. Believe it or not, enough steel goes into them to make 160,000 machine-guns."

Other questions and answers are:

Q.—Is there a price ceiling on canned milk? A.—No. On fresh milk.

Q.—Is there any shortage of glass? A.—Not a shortage, but we're going to have thinner and lighter containers because so much glass is being used to replace tin cans.
