

Atomic Science Is Proving Important Aid To Farmers

By DON McHUGH
AP Newsfeatures
BELTSVILLE, Md.—The atom is at work here—not to produce another instrument of terror, but to help put better food on your table at a lower cost to you.
Government scientists at the Beltsville Agricultural Research Center have been accumulating a wealth of farm knowledge through the use of radioactive materials.
One highly important phase of their experiments is on the use of fertilizers, top item on the soil expense list of most American farmers. They use nine million tons per year of phosphate fertilizers, alone.
Consequently, anything the scientists can learn about more effective use of fertilizers means a better crop at a lower cost.
This is how they proceed in their studies:
A small piece of highly radioactive phosphorus is shipped to the Beltsville Research Center from the atom plant at Oak Ridge, Tenn.
From this a quantity of radioactive phosphate fertilizer is made. The fertilizer is placed in the soil, and the crop under investigation is grown.
Sample plants are taken at different stages of growth. The phosphate is extracted from the sample and placed in a lead chamber.
In the lead chamber a Geiger counter measures its radioactivity. The scientists previously determined the Geiger count of the radioactive fertilizer.
By comparing the Geiger count of the fertilizer with the Geiger count of the phosphate taken from the plant sample they can determine how much of the phosphate used by the plant came from the soil and how much came from the fertilizer.
For example, if the count on the plant sample measures only half of the count of the fertilizer, the conclusion is that the plant got half of its phosphorus from the soil and half from the fertilizer.

Conscience Hurts 35 Years For Theft

CLEVELAND, June 28—(AP)—“When I was a boy about 35 years ago, I stole things from your boxcars,” a man wrote George Durban, president of the Wheeling & Lake Erie Railway.
“Since Jesus saved me, I have wanted to make restitution, but never knew how much to send,” the letter continued. “At a revival meeting I asked the Lord what the sum was, and the still small voice of God answered \$70.”
A personal check for \$70 was with the letter. The money will go into the railroad's general operating fund.

RALLY BANNED
PARIS, June 28—(AP)—The French cabinet meeting under President Vincent Auriol today forbade a Communist “grand peace rally” set for July 15 in Paris.
The Communist Daily L'Humanite said 100,000 delegates had been selected from all over France to attend. The Communists must now decide whether to attempt their demonstration despite the ban.

"INSURANCE" From Unhappiness For WOMEN OVER 40
If there is anyone who can give you the best insurance policy, it is the woman who has been through the experience of being a widow. She knows what it is like to have a husband die and leave her with a young family to support. She knows what it is like to have a husband die and leave her with a young family to support. She knows what it is like to have a husband die and leave her with a young family to support.

WRONG KIND
HONG KONG, June 28—(AP)—Kwok Tun, wash woman for Hong Kong's Chinese Y. M. C. A., was jailed today for using the wrong kind of soap.
She was carrying three bars when police arrested her on the street. That was all right except for what was in the soap—tubes of glycerine, a short fuse and other materials government analysts said were for “construction of a bomb.”
Analysts said the bomb wouldn't work.
The court said three weeks in jail.

Iran Is Asked Not To Cut Off Supply Of Oil

Ambassador Declares Settlement Hope Is Dim As No Com- promise Is Near

By ROBERT H. HEWETT
TEHRAN, Iran, June 29—(AP)—U. S. Ambassador Henry E. Grady appealed anew to Premier Mohammed Mossadegh today for concessions that would insure the flow of oil to the West from the world's largest refinery at Abadan. Grady talked for 90 minutes with Mossadegh, then told newsmen that chances for easing Iran's oil crisis "don't look too bright" despite Mossadegh's promise to suspend anti-sabotage legislation proposed by the British. But British officials, with the refinery under the guns of one of their cruisers, appeared more hopeful. Grady said he would propose to the British that they keep their technicians on the job at Abadan. A British embassy spokesman said employees of the Anglo-Iranian Oil Company, which operates virtually all of Iran's oil, would not be withdrawn so long as the refinery stays open. Withdrawal of the technicians would close the refinery. Grady called suspension of the anti-sabotage bill a goodwill gesture. It followed on the heels of Mossadegh's letter yesterday to President Truman. Grady said Mr. Truman had informed the premier he would reply to the letter within a few days. The U. S. Ambassador made clear that the premier would not begin an inch on the nationalization program. At Khorrasmshahr, near Abadan, Iran's National Oil Commission took over AIOC's general executive offices. Grady said Mossadegh refused to make even a temporary concession in the dispute with the AIOC over oil tanker receipts. AIOC ordered the tankers to unload their cargoes and pull away from the docks. The receipts indicate payment to the Iranian National Oil Company. Previously AIOC had hinted that the technicians will be withdrawn from the refinery when all the storage tanks fill up. There are tanks available to handle another eight full days of oil.

Report Shows Florida Ranked 37th In Traffic Deaths During 1950

TALLAHASSEE, June 29—(AP)—Florida ranked 37th among the states in traffic deaths and injuries in 1950. The report was given Floridians today by the National Safety Council at a special meeting in the State Capitol. "Under normal economy this is the most serious but under our defense emergency it is intolerable," council representative James T. Hill told safety leaders attending the session. There were 873 traffic deaths during the year, 30,656 injuries and 1,008,850 accidents causing property damage. The Council estimated the dollar loss in the accidents at \$164,150,000. The economic loss per death act at \$185,000. There were 585 deaths in 1949, 715 in 1948 and 708 in 1947. The Florida Citizens Safety Council (Continued on Page Two)

Two Are Killed, U. S. Must Keep Twelve Injured In Train Wreck

SHILLYVILLE, Ill., June 29—(AP)—The Chicago and Eastern Illinois passenger train, the Meadowlark, hit a truck wash-out near here last night and smashed down a 30-foot creek embankment. Two crewmen were killed and a dozen passengers injured. The diesel locomotive plowed down the steep grade approach, struck a trestle and plunged into swollen brush near the creek. The train tumbled behind it with three of them reported to have turned over four times on the way down. The fireman and mail clerk of the train were killed. Fireman C. L. Mills, 54, of Salem, Ill., was killed by the locomotive. The engineer, J. R. Beach of (Continued on Page Two)

Mrs. B. C. Steele Sanford Resident Since 1918, Died

Mrs. Boston Steele, 76, died in the local hospital at 5:15 P. M. yesterday after a brief illness. Born in Virginia, Mrs. Steele was married to Mr. Steele on Dec. 24, 1893 in Graham, Va. They came to Sanford in March, 1914 from Manassas, Va. and have resided on Beech Hill Avenue for many years. Mrs. Steele was a member of the Episcopal Baptist Church and the T. E. Club. Besides the husband she is survived by five sons, Herman F. Steele of Lakeland, I. Burns, George H. Hen C. and Robert F. Steele, all of Sanford, two daughters, Mrs. Margaret Todd of Manassas, and Miss Elsie Shoemaker of Falls Church, Va.; four grand children, Mrs. Blake Sawyer, Benny Austin and Walter Steele of Sanford; and Albert Steele of Louisville, Ky.; two great grand children, Diana and Mark Steele of Louisville. Funeral services will be conducted at 3:00 P. M. Sunday at the Mission Funeral Home with Rev. W. P. Bessie, Jr. and Rev. J. E. McKinley officiating. Burial will follow in Evergreen Cemetery.

Uncertainty Over Price Control Confuses Texas Beef Industry

(EDITOR'S NOTE: This is another story in an Associated Press survey of the cattle production and price control situation in the southwest and mid-west cattle region.)
By DON WHITEHEAD
FORT WORTH, June 29—(AP)—Uncertainty in Washington over future price controls has brought a fog of confusion to Texas' billion dollar cattle industry—the source of most of America's steak dinners. Cattlemen, buyers, feeders, commission men, stockyard men, slaughterers and bankers—they're all trying to figure out what price controls and rollbacks may do to the business. They are as nervous about beef controls as a young bridegroom standing at the church door. They don't know exactly what the future holds. Cattlemen do know they don't want controls. They say it loudly and violently. Some cattlemen contend price controls will ruin the business and cause even a greater shortage of beef for the housewife in the future. Right now cattlemen are watching the progress of the Senate Banking Committee bill which would ban any further price rollbacks, including those planned on beef. The committee took the cattlemen's view that further rollbacks would hurt and not help beef production. The Office of Price Stabilization says even under the rollbacks the cattlemen still could make a reasonable profit that would encourage beef production. The OPR has rolled back beef prices 10 per cent and plans two others of 4½ per cent each on Aug. 1 and Oct. 1, unless Congress halts it. The Texas cattle industry is made up of growers operating on all scales from huge to little. More little growers are coming into the business each year. OPR says they can do all right under the rollbacks and clear a profit of \$12.43 on a 100 pound animal. Here's some typical reaction from men in the business: Tom Lane, cattle buyer and rancher: "We've always worked out our own salvation without any government help and all we ask is to be let alone." "They keep us upset in Washington by the indecision. If they'd (Continued on Page Two)

Senate Passes Bill To Extend Price Control

Tumultuous Marathon Session Frays Sen- atorial Tempers; Rollback Killed

WASHINGTON, June 29—(AP)—The House tentatively wrote into an emergency price control bill today a ban against price rollbacks of any kind during July. It then headed toward a final vote on the emergency measure, which would continue the present Defense Production Act until the end of July while Congress works out a new law. The temporary measure also keeps in operation for another month the federal rent control program and the program for controlling imports of fats and oils. The bill also contains a provision as an amendment sponsored by Chairman Clegg (D-N.C.) of the Agriculture Committee, who told the House "the status quo" should be maintained during the one-month extension of the present law. (Continued on Page Two)

U. S. Must Keep Up Foreign Aid, Marshall Warns

WASHINGTON, June 29—(AP)—The House passed today an emergency measure extending the end of July and halving price and rent controls until price rollbacks during that month. (Continued on Page Two)

Multi-Billion Dollar Program Essential To Peace Of World

By BARNEY L. LIVINGSTONE
WASHINGTON, June 29—(AP)—Secretary of Defense Marshall said today the United States must expect to maintain for "at least" three more years a multi-billion dollar level of spending for foreign military aid. Continued American assistance in organizing the defenses of the free world "is a project of self interest for this country, the highest and most pressing urgency," Marshall said. He testified before the House Foreign Affairs Committee on the Administration program for \$8,500,000,000 of U. S. economic and military aid abroad during the fiscal year starting Sunday. This program earmarks \$6,800,000,000 in foreign military aid, the bulk of it for Western Europe. While acknowledging the extent of future military aid spending, Marshall said in prepared testimony he saw no prospect of any reduction in foreign needs before 1955. "All things being equal, and I realize that things will not remain equal," he said, "I feel that the same requirements for program will be at least the same funds for our military assistance level in fiscal year 1957 and fiscal year 1954 as is being requested for this year." "Therefore, most of the European countries should be in full production, their initial armament will under way, with general financial capabilities to maintain such a level of defense, so that their requirements for military and items from the U. S. can be substantially reduced." Secretary of State Acheson yesterday told the committee yesterday that he foresaw "two or three years" more of economic assistance—as apart from arms spending—acquire the prospective end of the Economic Cooperation Administration (ECA) in another year. Acheson urged continuation of the machinery of ECA, whether under that name or some other, to continue the job. Marshall told the committee that economic assistance was "essential" to the military defense of the free nations. He cited its "general purposes" as: 1. To support rearmament programs among nations unable to finance them without impoverishing their people. (Continued on Page Two)

Ridgway Is Instructed On Negotiation Of Cease-Fire With Red Leaders In Korea

8 Die In Crash Of Navy Flying Boat During Takeoff

One Survivor Suffers Broken Leg As PRM Dives Into Ocean

KEY WEST, June 29—(AP)—Eight Navy men were killed and one escaped with a broken leg today in the crash of a patrol bomber. One of the men was also taken from the water by rescue craft but died of injuries after reaching the naval hospital. The plane, a PRM, fell to the Florida Straits off the tip of the island. It was based at the Key West Naval Air Station. Eyewitnesses reported the twin-engine plane with the men on board was taking off when the accident occurred. Rescue operations began immediately. Crash boats sped to the scene and quickly returned to the base with the survivors and dying men. A salvage barge and Navy divers followed close behind the first rescue craft. The tail of the crashed plane protruded above the water. Naval headquarters issued this report: A Navy crew airplane, assigned to an air development squadron (IX), of the Naval Air Station, Key West, crashed during takeoff in the swampland area at 8:40 A. M. today. Three officers and six enlisted men were aboard. Two Navy and Coast Guard boats raced to the scene and brought two men back to the airplane base hospital. One was fatally injured and died after arrival at the base hospital. The other was suffering from minor skull and head injuries. A few minutes later the body of a crew member was recovered from the wreckage. The identity of the crew member will be made public after notification of next of kin. Witnesses said the two engine aircraft cartwheeled before it sank upside down in the water. The wreckage, which was visible above the surface. Navy divers were rushed to the scene to track and locate and bring back to the base. The wreckage was apparently still in the up-turned state. A Navy floating crane was on the scene less than an hour after the crash.

Issue Of Old Style Money Orders To End

The Post Office announced today that the issuance of the old domestic money orders will be discontinued as of the close of business on June 30, 1951. Under no circumstances will the old style paper money orders be issued after June 30, 1951, nor will the new punched card money orders be issued before July 1, 1951. Money orders will be issued in the same manner as in the past, except that they will not be drawn on a particular post office. They may be cashed at any post office or bank and will be collectible through any Federal Reserve Bank, Postmaster Joel S. Field said. Inasmuch as a money order is not drawn on a certain post office and, therefore, is payable at any post office or bank, a fee will not be collected incident to the payment of an order.

Tampa Suffers From Million Dollar Fire

TAMPA, June 29—(AP)—The city's largest fire in 1951, estimated at \$1,000,000, broke out today and destroyed the downtown block bounded by Franklin and Tampa and Madison and Twiggs streets. Police estimated that 20,000 people watched the four-hour blaze from the sidewalks and from windows of adjoining buildings. One spectator, being from the window of the First National Bank, building from a window-washer's harness. (Continued on Page Two)

Suspected House Breaker Wounded While In Flight

Odham Awarded Life Membership By Local Jaycees

A "man of New York" reported in the act of fleeing from a home on Redick Drive last night, was shot and critically wounded by Patrolman Herman Hansen, who apprehending on foot had ordered him to stop. Police Chief Fay G. Williams issued the morning. The man, a 35-year-old Englishman, was shot after he was shot last night by the police. He was taken to the hospital and was reported to be operated upon this afternoon. He was held in the hospital for observation and will be released later. (Continued on Page Two)

Stemper Turns Over Gavel To Incoming President Kiefer

J. R. Stemper, former mayor and president of the local Jaycee Club, today turned over the gavel to the incoming president, J. R. Kiefer. Stemper, who served as president for the past year, presided over the annual meeting of the club today. Kiefer, who was elected to the position, will serve as president for the next year. (Continued on Page Two)

Crewless Tanks And Flying Robots Perform Experiments For U. S. Army

By REILAN MOORE
FORT MONMOUTH, N. J., June 29—(AP)—One of these days on some fighting front, a light tank may go out on a scouting mission. At first sight, it either found or lost the tank would look like any other. It would be prowling around trying to draw fire from an enemy outpost, or exploring a road for mines. It might even lumber up the side of a hill to take a look at the terrain beyond. Tanks are doing that sort of thing every day now in Korea. But this would be a somewhat unusual tank, having no crew whatever. It would be controlled by radio. It would "see" by television. Back Rogers stuff. Push button nonsense? Maybe. The Army doesn't know. But within the next few months, it is going to find out. At Fort Monmouth, the Army Signal Corps is already working on projects that sound much more fantastic than scouting by television. When you start talking with Brig. General Harry Reich, commander of the post, you are guided by mistle and robot duels in the black upper atmosphere, this crewless tank with television eyes, seems as simple as now and arrow warfare. Some of the military possibilities of television are already apparent. As a training instrument, for (Continued on Page Three)

ROTC TRAINING FORT BENNING, Ga., June 29—(AP)—Included among the 1,200 college students who began ROTC summer training here June 18, was William B. Trinson, Jr., Edward N. Fielding, Jr., and Elsworth C. Harper, Jr., all are ROTC students at the University of Florida, and all are residents of the Sanford, Fla. area.

WEEKLY QUITS LAKE CITY, June 29—(AP)—Hiring production costs have forced suspension of the Columbia County Ledger. The weekly newspaper will publish its final issue today, it was announced by R. H. Granger, chairman of the board. The paper said it could no longer stand the burden of mounting newspaper and other costs. Suspension of the Ledger leaves Lake City with one newspaper, the Lake City Reporter, weekly published by John H. Perry.

THURSDAY JUNE 28, 1951

TODAY'S BIBLE VERSE

Do not let anyone lose faith in you through faith we understand.—Heb. 11:3.

Biggest news story so far this year would be the signing of an armistice in the Korean war.

The Times-Union and the Daytona Beach News Journal announce a five cents a week increase in their subscription rates.

With the oil wells of Iran drying up and threatening to bring down the price of oil.

The Florida Taxpayers Association of all people, has come out in favor of the proposed program for providing school teachers a pay boost out of present tax levies.

The U. S. soldier is no longer a GI and must not be called a GI, says the Army information service.

What does a gambler make on slot machines? Well, if he is the one who plays them, he doesn't make anything.

On this score, the OPS argues cattle prices have risen more than five times as much as wages of the factory worker.

But cattlemen may beef prices have risen no more than other commodities are out of line with production costs.

Cancer Mortality

Encouraging indications of a decline in cancer mortality are reported by the Metropolitan Life Insurance Company.

Favorable developments in the cancer picture are most evident, the company points out, when the recent trend of mortality is studied according to whether the primary site of the disease is accessible or inaccessible to diagnosis.

For the accessible sites as a group, both men and women in the insurance experience recorded declines in the death rate from 1946-47 to 1949-50.

In the case of the inaccessible sites as a whole, the death rate among women declined 1.1 percent, but, on the other hand, that among men showed an increase of 4 percent.

Considerable increases in death rates were recorded for cancer of the lungs and other respiratory areas.

Greatly intensified efforts have been put forth on all fronts since the end of the war to fight cancer.

The Tie That Binds

The necktie is here to stay and we might as well make the best of it.

Perhaps we could better adjust to the discomfort of the custom of decorating one's neck if we identify the factors which make ties uncomfortable.

The most subtle of the discomforts engendered in the necktie custom is that it compels men to make decisions.

The most notable of the evils of the draping of cloth around a collar is known as the "glit-tie."

Picturesque Legend

It is unfortunate that some legends are not true. Cleveland's public square, in the heart of the downtown district.

Actually the report was more romance. There were no mysterious tunnels, only underground chambers containing water pipes and electrical conduits.

The denial did not get around in time. A national magazine sent a corps of men equipped with long ropes and miners' lanterns.

Presumably this failure and all future denials will be unavailing. The tale of underground tunnels in the core of the city's business district is likely to become part of Cleveland's tradition.

Beef Industry

(Continued From Page One)
make up their minds and then go ahead—we'd do all right. We hear there'll be rollbacks. Then we hear there won't be any rollbacks.

W. L. Pier, manager of the Fort Worth stockyard:
In all this confusion, a lot of people are saying just "Wait and See." They don't know what to do until they can see which way this thing is going.

Most cattlemen will agree that beef prices aren't rolled back, they will affect other prices and wreck the control program.

They also argue the beef rollback already in effect is like cutting the wages of a man from \$1.00 an hour to 90 cents an hour.

But cattlemen may beef prices have risen no more than other commodities are out of line with production costs.

Two Killed

(Continued From Page One)
Villa Grove, Ill., reported the train, on a night run from Chicago to express in Southern Illinois.

Some of the 75 passengers were trapped inside the cars as they tumbled and rolled over their sides.

Woods, who recently completed boot training at the Great Lakes Naval Station, was on his way to visit his parents, Mr. and Mrs. Earl Woods, of Flora, Ill.

The conductor, Tom Oakes, and a passenger walked a mile and a half to the little town of Mode for help.

Heavy rains, causing four inches in two days sent small streams in the area out of their banks, flooding highways and making the wreck scene difficult to reach.

The headmaster was en route from Chicago to the small town of Cypress in extreme southern Illinois.

Traffic Deaths

(Continued From Page One)
which it won in 1949.
The Safety Council recommended that the State add extra employees to its Drivers' Licensing Division.

Florida was 14th in the country in safety publicity efforts, coming up 100th place in 1949.

The Council urged "serious thought" on the question of developing a model set of traffic ordinances for adoption by all the municipalities of the state.

Florida's school traffic safety program was 28th in the nation and was described by the Council as "about average."

(Continued From Page One)
ing themselves.
2. To permit production of munitions, especially in Europe, to relieve the United States of "a continuing grant aid program."

3. To finance civil facilities, such as airfields and harbors, necessary to military plans.

4. To strengthen the living standards of underdeveloped areas where "a large part of the world's natural resources are found and (where) the Communists are trying to exploit the impoverished situation to their advantage."

Marshall said the Defense Department was "keenly aware of course, but so do we, I make this comment because we should not build up in any one country a false sense of security in the belief that present efforts are adequate."

Iran Crisis

(Continued From Page One)
production. If production is cut, the refinery can operate for another month, a British Embassy spokesman said.

Secretary Herbert Morrison said there is still hope Iran will negotiate a settlement. He advised AIOC employees to stick together until normal operations can be resumed at the refinery.

It is impossible to predict what will happen next in the strained Nationalist atmosphere, but it appeared likely that suspension of the anti-sabotage bill would ease the threat to British AIOC workers and give three or four weeks time for cooler heads to try and work out a compromise.

Cease-Fire

(Continued From Page One)
an appalling situation.
He said it may be that relief from pressure in Korea, if the fighting is stopped there, may make it possible for the Communists to exert pressure elsewhere in the world.

Regardless of a cease-fire in Korea, the tensions in the world add up to a dark picture, Lovett said.

Lovett was uncertain whether Ridgway had actually received his instructions.

Lovett said the instructions gave Ridgway, the U. N. commander for Korea, authority to go ahead on certain lines.

Sanford Giants Lose To Azaleas, To Seek Revenge Here Tonight

One of Sanford's big right-handers, Bill Ward or Suede Swiderski, will take the mound against Bill Steinecke's stubborn Palatka Azaleas here tonight as the Giants will be seeking revenge for last night's loss. Ed Jackson, former Sanford outfield star in 1950, is scheduled to take over a spot in the outer garden.

PALATKA, June 29—(AP)—The Sanford Giants committed five errors last night in permitting the Palatka Azaleas to eke out a 4 to 3 victory in spite of being out-hit 8 to 7.

The winning tally came across for the Azaleas in the sixth inning when Merrill Smith barreled into Don Bailey knocking the ball from his hands. Smith had reached second on a double and gone to third on one of the numerous Sanford miscues.

Palatka took a quick lead in the first frame pushing across three runs on a pair of walks and two hits. The Giants evened the score with one marker in the third and two more in the fifth.

Tim Dolan and Manager Richie Klaus were the big guns in the Sanford attack with two hits each. The Giants play Palatka here tonight at 8:00 P. M.

Three Champions To Make Comeback Trys At Volusia

Three famous former greyhound champions—Never Out, Run Joe and Eager Baby—are scheduled to make comeback attempts at the Volusia County Kennel Club in the near future.

The once renowned trio, all from the Volunteer State Kennels, is being brought back to racing actively for sentimental reasons. Their handler says the "old-timers" are near good running form and they feel the proud but aging dogs, all of whom took high honors at the Volusia track in other years, will be able to break into the feature races despite the fact that they are each over four years old.

Never Out and Eager Baby have already been impressive in unofficial schooling races. Run Joe hasn't done any running yet since he was recently shipped in from the farm.

ORLANDO, June 28—(AP)—Mike Dzingelowski set the DeLand Red Hats down with just six hits last night as Orlando won an 8-1 decision and narrowed DeLand's league lead to 4 1/2 games.

The Senators pounded John Janacek for nine hits but a total collapse of the Red Hat defense proved to be Janacek's undoing. The Hatters chipped in six errors, however, the Senators won the game off Janacek in the third on singles by Ernie Ogavetz and Dave Drapp and three tags on balls issued by Janacek, which allowed two runs to score.

A four-run uprising on just two hits and three errors in the seventh inning wrapped it up.

G-Men 9; Indians 5

ORLANDO, June 28—(AP)—Bob Wood powered a grand slam home run, first of the season by a G-Man, her last night to give Gainesville a 9-5 victory over the Cocoa Indians.

Wood, husky centerfielder who came here as a free agent, drove the 350-foot, four-run blast over the left center field in the eighth frame.

The poke broke up a 5-5 tie set in the same inning when Andy Caldwell, Cocoa catcher, hit a one-run homer. The pitching win went to Ray Britt, who permitted nine hits while his mates were collect-

Mike Goliat Goes To Minor League For Not Hustling

BROOKLYN, June 29—(AP)—The Philadelphia Phillies are here to meet the Brooklyn Dodgers today, with mixed feelings about the shunting of Mike Goliat to the minors.

Eddie Sawyer, manager of last year's National League champions, said in Philadelphia yesterday he sent Goliat to the Phils' Baltimore farm club in the International League to discipline the second baseman. Goliat is subject to a 24-hour recall.

The mild mannered Sawyer rarely criticizes a player in public. But he made no bones of his exasperation with the behavior of some players on his team. He said:

"There will be more cases just like Goliat's. This isn't a mere threat. Any player who thinks he can rest on last year's laurels or thinks he can fool me that he's putting out when he isn't, is only fooling himself.

"I wouldn't sell that kind of player. I'll send him back to the minors and let him stay there until he realizes that we're in this game to win."

"I want only players who know how to get in shape and stay in shape. That goes for every player on the team."

Goliat, battling a creek 225, had played only occasionally in recent weeks. His position has been taken over by 23-year-old Tommy Brown, acquired from Brooklyn.

Philips, trying to hoist themselves out of the second division, took a 3-2 ten inning struggle from the Boston Braves.

Earlier in the season, Sawyer said, the Phils' ace hurler, Robin Roberts, wasn't learning down on important pitches. So the skipper, who used to be a schoolmaster, talked turkey.

Robbie is in good standing again.

Little Rock Fails To Clinch All-Star Tilt On Two Losses

By ASSOCIATED PRESS
Jim Atchley, threatened last month with banishment to the Nashville bullpen, climaxed a comeback last night with a glittering, two-hit shutout of the Little Rock Travelers.

The lanky right-hander faced only 29 batters in handing the Vols a 3-0 victory for a double triumph over the front-running Travs, Young Allian Worthington stopped the leaders, 4-1, on five hits in the opener for his fifth victory.

Atchley Duke Dolittle doubled off Atchley and Trav struck Duke Dave Jaska singled. Nobody else reached base off the sidarmer from Michigan, who posted his seventh success against four losses.

In the only other Southern Association game, Memphis reached the .500 mark with an 8-1 decision over the sinking Chattanooga Lookouts. Birmingham at New Orleans and Atlanta at Mobile were rained out. They'll make up the postponements with doubleheaders tonight.

Partly veteran Frank Biscan halted Chattanooga on seven widely scattered blows in recording his sixth victory for Memphis.

Nashville's Worthington, a Birmingham youngster who jumped to the Southern Association from the University of Alabama, hurled like a champion in the clutch during his seven-inning victory over Little Rock. He walked six and struck out four.

Home runs by Babe Barna and Hama Ray provided the Vol victory margin.

Buster Boguskie and Bob Ludwig slammed three hits each for the Vols in the nightcap.

The double setback postponed Little Rock's all-star game clincher. The Travs have only to win once before July to insure the host's role for the mid-season spectacle July 11.

FORFEIT
BATAVIA, N. Y., June 29—(AP)—Batavia's Pony League baseball team forfeited to Ocean last night, but not because Batavia refused to play.

Umpire Bob Burns banished Batavia's player manager, Ed Kobeki, in the fourth inning. That left Batavia unable to field a complete team, so Burns declared the game forfeited.

DeLand Pitching Dominates FSL Averages In 1st Half Of Season

SILVER SPRINGS, June 27—(Special)—With Manager Frank Radler leading the way in more than sensational fashion, it was only natural that DeLand hurling would dominate the Class D. Florida State League pitching averages for the "first half" of the 1951 season thru games of Thursday night, June 21.

Official figures released at league headquarters here today give the Ad Hat hurling corps a fine 3.24 earned run average during 69 games, followed by the second place Orlando Senator staff with 3.47.

Walt Jasinski, DeLand right-hander, had the lowest earned run average of the season among the "regulars", a sparkling 1.55. He was followed by team-mate George Fultz with a 1.69. Radler was close behind with a 2.17, while John Janacek was in 10th spot with a 2.56. All are right-handers.

Walt Jasinski had won six of seven decisions, Radler had won eight of ten, Janacek had won 13 of 18, while Fultz was undefeated in five starts. Three shut-outs were credited to each of the first three, too.

Don Urquhart, Gainesville, led in innings pitched with 161 in 29 games. Naturally, he had faced the most men—702 gross and 607 net—and with Bill Phillips of Orlando and Walley Gaddis of Daytona had started and finished the most games, 12 each.

Urquhart was high man among the winners, too, having turned in 14 wins against five losses, being trailed only by Janacek with his 13 and Jim Coppock of Daytona with 11 out of 19 decisions.

Cocca's Lowell Gray had allowed the most runs, 106; the most

DeLand Pitching Dominates FSL Averages In 1st Half Of Season

hits, 169; had pitched the most "gopher" balls, 11 and with team-mate Jim Vickery had lost the most games, 12 each.

Jerry Schultz of Sanford had walked the most men 107 in 95 innings thru 16 games, while Cocca had fanned the most, 112 in 137 innings thru 23 games. Lefty Al Lappe of Daytona had hit the most batsmen, 9, while old Walley Gaddis of Daytona was touched for the most sacrifice hits, 15, and the veteran Cecil Hutson had appeared in the most games, 33.

The "first half" produced 19 extra inning games, the longest being DeLand's opening day 15 inning 2 to 1 decision over Fortuna, and Sanford's 7 to 6 over the Islanders in 15 torrid innings. Both games were played in Daytona.

Twenty-nine shut-outs also went into the records, DeLand producing 10 of them while being shut-out only once. The worst shut-out defeat was Leeburg's fate at the hands of Orlando whose Senators won, 16 to 0 on April 16.

The season's first no-hitter or one-hitter failed to make an appearance but eight two-hitters were recorded. Cocca being held to two hits three times. Leeburg lost two, while Palatka lost two and one with 2 hits

STOCK CAR RACES

Stock cars will race again Saturday night at 8:30 at the Memorial Stadium at Daytona Beach.

Last week there was keen competition among drivers when Joe Riddle, in Car No. 13, held the lead to win the feature race. Larry Flynn in his No. 95 came in second, while Rowland Flowers and Carl Aleck took third and fourth spots respectively.

Dick Joslin and Bob Millikan, both top notch drivers, had trouble with their cars and were forced out of the race.

This week a large field of cars will be on hand to compete for prize money. By popular demand, a system of inverted starting in handicapping the cars will be used, making for better racing and closer competition. Races will get underway at 8:30.

Patience Will Reward You!

Let us say, just for the sake of emphasizing a truth, that we are talking about you.

All your life, since you were old enough to see and understand, you have known that Cadillac represents unquestioned supremacy in the motor car world.

And you have said that—"when the time arrived"—you would own a Cadillac.

Now, "the time has arrived." You have reached the point in your endeavors where you feel you are entitled to a Cadillac—and all the things it represents.

But you hear that some delay in delivery has become unavoidable.

"Maybe," you think, "there is a substitute. Perhaps some other car, which I can get more quickly, would do."

For the sake of your own welfare, please listen to this: There is only one car which is recognized and which every highway and every "Standard of the World."

There is only one car which is held in the highest respect by every law-abiding citizen.

There is only one car which is the highest and the ideal motor car to own.

And there is only one car which is recognized, named and described as "Cadillac."

So stand firm in your conviction. Be patient. The patient will bring you the greatest reward in the motor car world. It will bring you a Cadillac.

See your Cadillac dealer today—and get your name on his order list.

CONGREGATIONAL CHURCH
Park Avenue and Third Street
Minister, J. Bernard Rott
Sunday School 10:00 A.M.
Morning Worship 11:00 A.M.
Sermon: "America the Beautiful."
Freedom.

"When my eyes shall be turned to behold for the last time the sun in heaven, may I not see him shining on the broken and dishonored fragments of a once glorious Union; on states dismembered, discordant, belligerent; on a land rent with civil feuds, or drenched, it may be, in fraternal blood! Let their last feeble and lingering glance rather behold the gorgeous ensign of the republic, now known and honored throughout the earth, still full high advanced, its arms and trophies streaming in their original luster, not a stripe erased or polluted, nor a single star obscured, bearing for its motto not only the words of devotion and folly, "Liberty and Union, now and forever," but everywhere spread all over in characters of living light, blazing on all its ample folds, as they float over the sea and over the land, and in every wind under the whole heavens, that other sentiment, dear to every true American heart—Liberty and Union and forever, one and inseparable!"

FIRST CHRISTIAN CHURCH
1607 Sanford Avenue
J. Randall Farris, Minister
"Fifty Years of Preaching" is the subject the Minister will use this morning. At this time the Minister will have finished three years with this Church and fifty years of preaching. This is his fiftieth anniversary—in he is retiring and moving to Winter Park. The Minister wishes to thank the people of Sanford for their kindness to him while living here.

MORNING DEVOTIONS
Rev. S. L. Whitley, pastor of the Central Baptist Church, will be in charge of Morning Devotions during this week. The Program is a presentation of Radio Station WTRR, in cooperation with the Seminole County Ministerial Association. It is heard daily at 8:30 A.M., and on Saturdays at 7:15 P.M.

Sunday School 9:45 A.M.
Morning Service 11:00 A.M.
Wednesday Service 8:00 P.M.
Reading Room 3:00 to 5:00 P.M.
Tuesdays and Fridays
Christ Jesus' teachings contain the spiritual heaven which, when scientifically understood and utilized, will destroy all kinds of error and will reveal the allness of God and His good creation. This is the topic of the services in all Christian Science churches next Sunday when the Lesson-Sermon subject is "Christian Science."
The Golden Text is from Habakkuk (2:14): "The earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."

Selections from the Bible (King James Version) include this parable given to his disciples by Jesus (Matt. 13: 33): "The kingdom of heaven is like unto leaven, which a woman took, and hid in three measures of meal, till the whole was leavened."
Included among comparative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is: "Ages pass, but this heaven of Truth is ever at work. It must destroy the entire mass of error, and so be eternally glorified in man's spiritual freedom" (p. 118).

FIRST BAPTIST CHURCH
Park Avenue at Sixth Street
W. P. Brooks, Jr., Pastor
John L. Miller, Minister of Education
"We've Saved A Place For You" Bring your family to Sunday School.
We provide a place for every member of the family.
Morning Worship 11:00 A.M.
Sermon by John L. Miller.
Training Union 6:45 P.M.
Unions for all age groups. Story Hour for children under 9 years of age.
Evening Worship 8:00 P.M.
Sermon by John L. Miller.
Wednesday Evening Service 8:00 P.M.
Worship in Air-Cooled Comfort.

CHRIST CHURCH, LONGWOOD (Episcopal)
Rev. H. L. Zimmerman, R. D., Vicar
Sixth Sunday after Trinity 1:00 P.M. Evening Prayer and sermon.
All are welcome.

A small head of green cabbage may be cut in wedges and cooked in a little milk in a covered heavy saucepan just until tender. Season with salt, freshly-ground pepper, and a little Worcestershire sauce, and serve in sauce dishes with the pan liquid.

AIR CONDITIONED FOR YOUR SHOPPING COMFORT

finer performance
engineered in!

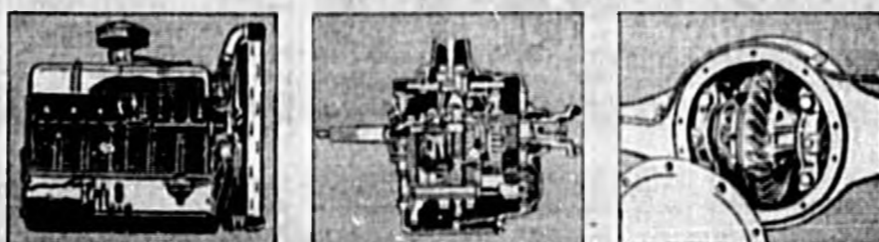

(Continuation of standard equipment and trim illustrated is dependent on availability of material.)

... to do more work for your money!

TWO GREAT ENGINES. Choose the 92-hp. Thriftmaster for economy, or the 103-hp. engine for extra power. VALVE-IN-HEAD DESIGN. 39 years' experience with valve-in-head design and billions of miles of use.

CAM-GROUND CAST ALLOY IRON PISTONS—for lighter fit and thousands of extra miles of low-cost performance.

CONTROLLED UNIFORM COOLING. Every cylinder and valve seat cooled for uniform engine temperature.

SYNCHRO-MESH TRANSMISSION. Quiet, safe, positive shifting. No clashing of gears. Extra ruggedness, too.

HYPOID REAR AXLE. Means greater axle strength, longer more dependable life, and lower maintenance cost to you.

It is no wonder Chevrolet is America's most popular truck. For no other truck in its field can equal Chevrolet's power, eager response and easy handling, and finer performance with outstanding economy.

No other truck offers such an outstanding combination of features which assure finer on-the-job performance. Such features as valve-in-head engine design, cam-ground cast alloy iron pistons, controlled uniform cooling, synchro-mesh transmission and many others mean lower costs and finer performance to you.

Chevrolet's nation-wide reputation for finer performance with economy, has made Chevrolet America's outstanding favorite and your best buy. See the 1951 Chevrolet Advance-Design Truck soon.

First in demand. First in value. First in sales.
