New Millions Are Asked For U.S. Armament

Roosevelt Calls Present Army And Navy "Inadequate For National Security"

Naval Building Nearly Billion

Money Is Also Asked For Improvement Of Army's Equipment

WASHINGTON, Jan. 28.—(AP)—President Roosevelt today asked Congress to authorize millions of new expenditures on the Navy's fighting forces and the Army's land defenses to bolster armaments which he termed "inadequate for purposes of national security."

Outstanding among the President's requests for armed "protection" based "not on aggression but on defense" was a 20 per cent increase in the Navy building program. Navy officials estimated the cost would be \$800,000,000.

The President also recommended an expenditure of \$17,330,000 for the betterment of the Army, including \$3,000,000 for anti-aircraft armaments. The program he outlined calls for building two additional battleships and two additional cruisers during the calendar year of 1938.

James G. Sharon Offers Candidacy For Legislature

Entrance In Group 1 Is First Here For Primary In May

Judge James G. Sharon, former Seminole County judge today announced his candidacy as a Seminole County representative to the State Legislature in Group No. 1.

Up to the present time there have been no others to announce their candidacy for this post, subject to the primary election to be held in May.

Judge Sharon is widely known in Seminole County and for a number of years has been active in civic affairs. He was appointed to the office of County Judge in January, 1924 and served in that capacity until Jan. of 1937.

Before filling the office of Seminole County Judge, Judge Sharon, a Sanford resident since April, 1927, was connected with various lines of business and offices including a period between 1907 until 1914 when he was in the mercantile business with his brother at Quincy.

After successfully operating his business through the panic which occurred during that time he secured employment in the offices of the state comptroller and remained there for the ensuing four years when he moved to Atlanta to accept a position with the Federal Reserve Bank.

During this time Judge Sharon had been studying law at night and after living in Atlanta one year he successfully passed his bar examinations and has been practicing since.

They should be supplied with written credentials signed by the club president and treasurer, and should be vested with power to pledge their respective clubs to pay as much as possible within these months to defray expenses of the district delegate to Washington.

Whether or not the district organization will be convened in this district not having a regular meeting between now and Feb. 6 should have a special session to elect its own delegate and alternate to the district convention, Sparling said.

They should be supplied with written credentials signed by the club president and treasurer, and should be vested with power to pledge their respective clubs to pay as much as possible within these months to defray expenses of the district delegate to Washington.

Sanford Townsend Club 1 to night will entertain all tourists in the Sanford area at a tureen supper to be served at 7 o'clock in the club rooms on the lower floor of the Welaka Building, First Street.

Mercury Drops To 33 During Cold Wave

Although the mercury has not dropped below 33 degrees in Sanford during the current cold wave, according to the official weather report, truck farmers and citrus growers are awaiting with anxiety the possible result of the continued low temperatures on their crops.

Many orange groves have put out some new blossoms and fruits were expressed less, the citrus crop for the coming year will be affected if the cold continues.

However, those close to the industry apparently feel that the predicted rise in temperatures will remove possible danger to crops in this vicinity.

Smugos pots were kept burning throughout most of the night in some of the groves and flower farms of the county.

JACKSONVILLE, Fla., Jan. 28.—The State Board of Health today said Dr. A. J. Legge, director of its tuberculosis division, would give tests to school children in Nassau county beginning next week. Tests will be made in the schools and will consist

Famous Race Driver Dies In Speed Test

MELVIN, Jan. 28.—(AP)—Bert Rosemeyer, famous German racing driver and 1937 winner of the Vanderbilt cup in the United States, was killed today in an automobile race on the Frankfurt-On-Main-Darmstadt Road. The front of Rosemeyer's auto-union car was torn off while the racer was doing 273 miles per hour.

The car skidded 80 yards, somersaulted twice and was catapulted 200 yards through the air. Rosemeyer was flung out in midair and smashed into an embankment. He died instantly. He had been competing in speed tests for new records. His widow, Elli Belbin, noted filer, did not witness the accident.

Twelve Die In Cold Weather Over Country

Niagara River Bridge Collapses, Millions Of Damage Done, Truce Farmers Hit

By Associated Press

Collapse of the 1,200-foot "Honeymoon Bridge" in the Niagara River gorge, damage to young truck crops in the south-east and 12 deaths were charged against the week's cold wave.

South Georgia truck farmers said the young growth was damaged about 20 percent by the freeze and the maturing season for the crop was set back about two weeks.

Florida and Mississippi growers similarly reported slight crop injury from cold. Part of the southeastern looked for a break in the frigid weather tomorrow. The Niagara Falls bridge gave way late yesterday under the pounding of ice floes and fell 200 feet. Traffic had been kept away.

Another gale was blown over there in the 1350 windstorm. Niagara River ice menaced other property both above and below the falls.

The Ontario Hydro-Electric Commission officials estimated generating plant damaged to the extent of a million dollars.

The Lewiston, N. Y. Steamship dock was damaged and cottages and bouthouses carried away in several communities. Arkansas, where rampaging rivers have spilled over the lowlands around Calion and McNeil forcing families and livestock to higher ground, suffered the latest disaster.

Twenty-eight persons were discovered drowned on the banks of a flooded creek near Paragould, Ark. Virtually the entire crew aboard was chilled stiff this morning. Snow fell in parts of the east and midwest.

CITRUS WARNED

LAKELAND, Jan. 28.—(AP)—The government's frost warning bureau here said today that temperatures tonight and tomorrow morning would not be low enough to injure mature citrus crop or unopened citrus bloom but would endanger tender truck crops and opened fruit bloom.

Predicting frost in north and central Florida, the forecasters advised growers to protect their trees and tender crops. They said the coldest weather would be felt in south Florida about 7:30 A. M. and in north Florida about 4:00 A. M. and in south Florida about 7:30 A. M.

Temperatures will climb tomorrow, they said, and there will be no danger for crops anywhere in the state Sunday morning.

New Disney Film, "Snow White", Will Be Shown At Ritz

Men, women, and children of Sanford will have an opportunity to see a picture next Tuesday, Wednesday, and Thursday at the Ritz Theatre they have waited over three years to see. It is Walt Disney's already famous "Snow White and the Seven Dwarfs."

"Snow White" is the first feature length cartoon ever produced. It is done in Technicolor and a recent discovery caused the producers to give a third dimensional aspect, or depth, to the cartoon.

The picture was first conceived over three years ago but due to the enormous amount of technical work involved, it was not finished until about a month ago.

The cartoon was made from the classic fairy story of the same name. Life magazine recently carried several pages in color of scenes from "Snow White." News Week, Time, Literary Digest, the New York Times, and numerous others say it is one of the greatest technical achievements to come out of the film colony.

"Snow White" will appear here three days because of the fact that wherever it has been shown the demand for seats has been so overwhelming large that many had to be turned away. Sanford is the first city in Central Florida to obtain a showing of this picture.

Bentley Backs Effort To Ban War Profits

Extensive Programs Presented At Inter-City Rotary Meet With DeLand Club

Outlining the ideals of the Rooney Club and its accomplishments since its founding about three decades ago, Edward Rogers, of Lakeland, past district governor of Florida Rotary, suggested that the Rotary International should ban the movement to take the profits out of war at the intercity meeting of the Sanford and DeLand clubs in the College Arms Hotel in DeLand last night.

The banquet followed a series of golf matches between the teams composed of members of the two clubs, the last of which was played in DeLand yesterday afternoon. The Sandus Club won all four of the matches and the Rev. Paul Redgrave, captain of the team, was awarded an attractive trophy for the success of the local golfer. Each member of the Sandus team was also awarded a golf ball by the DeLand Rotarians.

Ned Stewart, president of the DeLand Rotarians, was master of ceremonies at the meeting, and George Rollins, chairman of the program committee for the evening, introduced the guest speaker who declared that Rotary had experienced the hardest years of the depression with

FRED SNITE BROADCASTS FROM 'IRON LUNG'

Speaking from his "iron lung" in which he lives at the family's winter home at Miami Beach, Fla., Fred B. Snite, Jr., infantile paralysis victim, broadcast a radio appeal for support of the foundation combating the disease. This picture was during the international broadcast. With him are a nurse and his father, Fred B. Snite, Sr.

Lewis Proposes National Guard Work Be Curbed

CIO Leader Would Enact Law Prohibiting Strike Duty Call

WASHINGTON, Jan. 28.—(AP)—

The United Mine Workers convention shotted approval of John Lewis' proposal to keep the National Guard out of the labor disputes. Lewis said he would ask Congress to enact legislation to withdraw federal funds from any state guard called out for use in a strike.

Mr. Telford, who has been engaged in the mercantile business for a number of years, was born in Bolton, S. C. on Jan. 5, 1854. He came to Sanford 16 years ago from Martin, Ga. and during the past few years has been retired from active business.

He has served as an elder in several Presbyterian Churches during the past 40 years and at the time of his death, he was an elder of the local Church.

He is survived by one daughter, Mrs. H. M. Goodwin of Sanford and one sister, Mrs. T. B. Ray of Commerce, Ga.

Funeral services will be conducted at the Presbyterian Church Sunday afternoon at 3:00 o'clock with Dr. E. D. Brownlee, pastor of the church officiating, assisted by Rev. W. P. Brooks, pastor of the First Baptist Church. Interment will be made in the Evergreen Cemetery.

Active pallbearers are: John O. Andes, Victor M. Greene, J. K. Smith, Ted Runge, J. N. Tenney, and H. J. Lehman.

The following elders of the Presbyterian Church will serve as honorary pallbearers: P. B. Smith, C. C. Dubose, A. K. Rooster, V. T. Williams, H. McLaurin, W. L. Henley, D. L. Thrasher, R. H. Muirhead, G. U. Stuntz, H. H. McClellan, and S. E. Andrews.

Other honorary pallbearers are: J. N. Miz, F. P. Foster, Jackson Lodge, W. R. Dupree, Edward Montforton, F. P. Stoket, J. M. Wilson, W. A. Zachary and Fred Russell.

Three Plead Guilty Before Judge Ware

Three guilty pleas were heard by County Judge R. W. Ware during the past week, records in the county clerk's office revealed today.

Norman J. Gage, pleaded guilty to charges of vagrancy and was fined \$5 and costs or sentenced to serve 60 days in jail.

Boles Sherman pleaded guilty to charges of assault and battery, and was sentenced to pay a fine of \$10 and costs or serve 60 days in jail.

James Lockett, charged with assault and battery, was fined \$25 and costs or sentenced to serve four months in the county jail. Willie Smith, charged with operating a motor vehicle without a license was sentenced to pay a fine of \$15 or serve five months in the county jail after he pleaded guilty.

CITY NEWS BRIEFS

Senate Candidate Speaks In Sanford On Campaign Issue

Finley Moore Makes First Talk Here In Race For U.S. Senate

LeRoy Long of Chuluota and Violet Mitchell of Fort Christensen were married in the office of County Judge R. W. Ware yesterday.

Students of Seminole County Students of Seminole County today so that they might attend the Seminole County Fair on Children's Day.

Superintendent of Schools T. W. Lawton, yesterday attended a meeting of the Board of Trustees of Polkina College of which he is a member.

A farewell dinner party will be held in honor of Captain and Mrs. Fred S. Ferens who are leaving Sanford for Orangeburg, S. C. on Feb. 2, tonight at 6:30 p.m. in the Valder Hotel.

The convention also approved a financial report for the past two years which showed the union's war chest had increased from \$2,266,021 to \$2,534,668 despite "especially large" expenses.

MIAMI, Jan. 28.—(AP)—Charles P. Howard, president of the International Typographical Union, said yesterday he would favor withdrawing that powerful unit from the American Federation of Labor if the AFL claimed complete control over the national unions affiliated with it.

Mr. Howard, who is secretary of the Committee for Industrial Organization, said the ITU, which claims 80,000 members, had not paid a special assessment of one cent a month per man levied by the AFL on all its affiliates for Children's Day.

The AFL executive council is meeting in closed session here and Howard said he was on hand to represent the printers' union in "any fundamental problems" that might arise.

However, William Green, AFL president, said the council planned no action on the matter. The situation would be raised only at the next general convention, he indicated, when a move could be made to bar the ITU if it were not in good standing.

"These three are Mr. F. M. Floyd, who is 84 years of age, Mrs. Virginia Chastain, 82 years of age, and Mr. J. L. Floyd, 80 years of age. Their ages total—add 'em up—246 years.

Mr. Moore said he was born in a little town in North Carolina 42 years ago but that for 18 years he has been a citizen of Florida.

The combined ages of two brothers and a sister of one well-known Thomas county family totals 216 years. Not many families can point to such a record of such long life.

These three are Mr. F. M. Floyd, who is 84 years of age, Mrs. Virginia Chastain, 82 years of age, and Mr. J. L. Floyd, 80 years of age. Their ages total—add 'em up—246 years.

At 1:47 P. M. the Department was called to extinguish a grass fire at Melville and Vine Avenues; at 6:00 o'clock, the Fire Chief was called to inspect a fire at 1910 S. Sanford Avenue; at 9:17 P. M. the Fire Department were called to handle a flaming oil stove at 1932 Lake Avenue and shortly afterward, the Department was called to Canaan City where flying sparks had ignited a roof. The fire was extinguished before any amount of damage was done.

This will be one of the largest groups to visit Seminole County in recent months. The luncheon stop-over in Sanford by the group, which will include some of Indiana's most prominent farmers, citizens, was made possible by activities of the local trade body.

Grand Jury Of Fall Session Is Dismissed

Hits Lotteries For Huge Toll

Suggests That Next Grand Jury Continue Racket Drive

After an active session directed chiefly against the operations of "Bolita Barons" in this county, the Seminole County Grand Jury for the Fall Term was dismissed by Circuit Judge Millard H. Smith following its final presentation this morning, and the jury for the Spring Term beginning Tuesday, Feb. 1, was drawn at 1:00 P. M. by the Circuit Judge.

Before dismissal, the Grand Jurors were highly commended by the Circuit Judge for their activities during the past Court term, stressing the high type of citizenship exemplified in efforts of the body.

Before the final presentation was made this morning, the Jurors found a no true bill against three negroes, Louis Holt, David Robinson, and Mildred Davis, held in connection with the alleged murder of John Carter, negro, in Chuluota last summer.

The final presentation of the Grand Jurors to the Circuit Judge is as follows:

"**39-TIM. IGNORABLY MURDER.** MILLARD H. SMITH, JUDGE: "We, the Grand Jury of Seminole County, Florida, for the fall term, do respectfully report that we have as charged thoroughly inquired into and investigated carefully all matters which were brought to our attention from all sources and have returned TRUE BILLS in such matters as we think the evidence warrants TRUE BILLS to be found and in such matters where in we thought the evidence insufficient we have returned NO BILLS."

(Continued on page eight)

Plans Made For Entertainment Of Indiana Farmers

Arrangements were being completed today by Seminole County Chamber of Commerce officials for a party of 200 Indiana farmers who will make a 10-day tour of Florida beginning February 20. The tour is being handled by the Indiana Farmer's Guide which has a membership of 150,000, and Tracy Tours, Inc., one of the country's leading travel service organizations.

Rail Rates Jump As Line Traffic Volume Declines

Operating Costs To Go Up Because Of 1938 Wage Rates

CLARINDA, Iowa, Jan. 28.—"Experience in recent months has again demonstrated the influence of reduced railroad traffic volume toward higher railroad rates," declared Z. G. Hopkins, representing the Western Railways Committee on Public Relations, in an address yesterday evening. "With railroad traffic volume through out 1938 at the relative levels of the past three or four months," Mr. Hopkins continued, "the country's railroads would finish the year with gross revenues at least \$350,000,000 less than were shown in 1936, the best year since 1930 from the standpoint of railroad results."

"The present emergency is made more acute through the fact that railroad expenses and taxes, by reason of causes that railroad management can't escape, have been rising as traffic declined and are now very much greater than they were in 1936. Operating expenses last year were about \$196,000 more than in 1936. Relatively greater increase is foreseeable this year, for the reason that increases in wage rates of employees, which were not in effect until in the latter part of 1937, will affect us throughout 1938."

The present emergency has demonstrated, too, the disadvantage to the public of regulatory policies that protect other carriers against natural and fair competition by railroads. Such policies have had, and now are having important influence toward so reducing railroad traffic volume as to create necessity for higher rates. They limit railroad opportunity to add to their gross revenues, in times of urgent need, by extracting a larger share in the country's competitive traffic volume.

"So long as waterway transportation is free from regulation, general to that to which railroads are subjected, and so long as long and short haul rate regulation, which it is admittedly impracticable to apply to waterway and highway carriers, is enforced against railroads, the latter can not hope to enjoy equality of competitive opportunities with those rivals. The advantage waterway and highway transportation is permitted to enjoy as a result of railroad regulation that protects either waterway or highway carriers against fair and equal competition by the railroads is an influence toward reduced railroad traffic volume, and thus toward levels of railroad rates higher than would be required under other circumstances."

HEAVYWEIGHT CONTENDER

THE POWER PLANT.

Handy arms and hard hands are part of the equipment of this British Tommy Farr, now training for a fight with Champion Louis at New York, Aug. 26. He weighs 208 pounds—without the trunks—and expects to weigh just that for the fight. He says he does the 100-yard dash in 18. He licked Max Baer a few weeks back.

MIGHTEST MAN O'WAR. "Most modern warship in the world" is France's proud designation of the Dunkerque, shown here off Brest during a review of the French fleet by Minister of Marine Gasnier-Duparc.

Knighthood in Flowers

AMOROUS CHARLIE—"Sir Charles to you, Berger"—was dubbed "America's Knight of Romance" by the Bearcat Club of Detroit who sent this shield of flowers by wire all the way to Hollywood in a "romantic contest" knighting ceremony with an invitation to the club's annual art ball. The shield bears the McCarthy coat-of-arms—top hat, throbbed heart and escutcheon rampant on a field of blossoms. The floral corsages in the border represent Charlie's weapons of romantic conquest. Here is "Sir" McCarthy and Edgar Bergen with Miss Grey who made the presentation.

MEET YOUR FRIENDS THERE

Mid-West Is Again Confronted With Drouth Possibility

CHICAGO, Jan. 28.—(AP)—Sub-normal precipitation and a dearth of moisture in the soil conditions comparable to the winters preceding the 1934-36 drouths confronted farmers today in major portions of a dozen midwestern states.

There is urgent need for moisture in virtually all agricultural areas west of the Mississippi river and some parts of Illinois.

Already, because of a deficiency of rainfall, farmers in western Oklahoma, Kansas and eastern New Mexico are beginning to despair of producing a wheat crop, condition of the crop in some sections was reported

very poor by the department of agriculture. Dust storms, which have become an annual plague in that area, damaged thousands of acres of wheat within the last week, although government officials attempting to reclaim the "dust bowl" said conditions are not as bad as in previous years.

Elsewhere in the hard winter wheat area, moisture will be needed soon if the present good condition of the crop is to be maintained.

Thousands of farmers have a daily chore of hauling water for their livestock, using tank trucks and trucks carrying large barrels. Some have been driving as far as 75 miles to get to water supplies, since their wells, ponds and streams dried up. Rainfall deficiency, mounting annually during the last six years, was counted at more than 60 inches in some areas.

SANFORD MARKET REPORT

Daily report of sales of fruits and vegetables by local grocers, state farmers' wholesale market, truckers, cariot assemblers and other dealers for 24 hours ending at 6:00 A. M. today, as reported by J. D. Michael, manager.

ORANGES: Fla. std. lbs. comb. 10c; US 1, \$1.40, per box 3.25; 5 lb. bags, comb. 60¢-65¢; US 25, 50-55¢.

GRAPES: Fla. std. lbs. comb. 10c; US 1, \$1.10; 25, 50¢.

TANGERINES: Fla. 10c; bus. 25¢.

APPLES: Supplies moderate demand, bushels, New York, Imperiale, Red Delicious, Yellow Delicious, etc., equal, 11.15-11.25.

BLACK BEETS: No supplies. SIMPLY, 10c; 5 lb. bags, 25¢.

BEANS: Green, bush, few males, bus. bush. 12.50-13.00.

BEEF: Supplies moderate, demand, moderate, market steady, Fla. per doz. bus. 25-30¢; red, 30-35¢.

CHICKEN: Fla. screeves, steady.

CAHAWA: Supplies light, demand moderate, market steady.

CAJUN: Fla. Copenhagen hams, good quality, medium heads & gizzards, \$22.50-\$23.00. Some poor.

CAJUNS: Supplies light, demand moderate, market steady, Fla. per doz. bus. 25-30¢; red, 30-35¢.

In Sanford

Look around in your own neighborhood. There are no backyard fences. Each lawn merges into the one next door. The view is better, the neighborhood neater—and everyone in Sanford benefits.

This is typical of the spirit of friendship and co-operation between Sanford people who live together as neighbors.

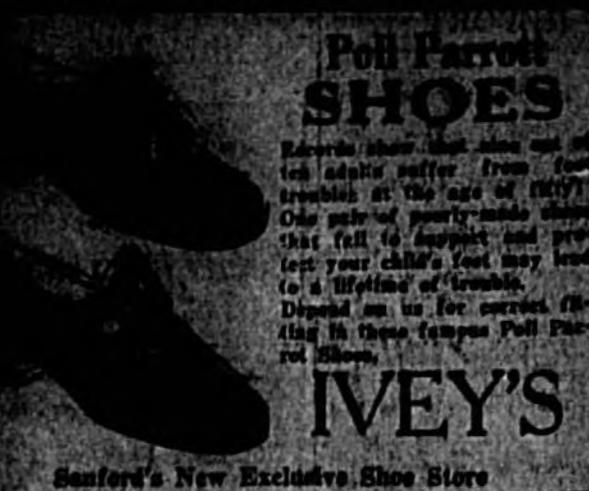

In the same way, business neighbors here work together for the benefit of all when "fences" are removed—when they understand each other's problems.

Take this Sanford organization, for example. We're just "run-of-the-mine" citizens, and we are proud of the fact that we provide good electric service at reasonable cost to Sanford people.

As your business neighbor, we welcome your suggestions. We're always eager to know how we can give you even better service for your utility dollar.

An Appeal To Price.....

Sanford's future lies in the willingness of the public and the business and professional men to work in harmony towards establishing a civic pride which will not permit large-scale purchasing in neighboring towns by Sanford residents.

There can be no denying that this too prevalent tendency among our citizens to go elsewhere to buy standard commodities when these commodities are right here on our own shelves, and at the same price, is a factor operating against the financial welfare of us all.

There are probably some things that can be bought in Orlando that can't be bought here, but, by and large, Sanford offers just as good shopping opportunities as our neighbor on the south, and the oft-heard excuse that "I can't buy so-and-so in Sanford," is no valid reason for a house-wife stocking up on a month's supply of staples in Orlando, when the expressed intent of her shopping expedition was to buy an unusual type of hat or a jar of caviar.

There is a condition of human frailty existing among a portion of our people who, somehow, believe that the label "bought in Orlando" is a mark of distinction and one of which to be proud. But the label, if anything, means that the person boasting it was in most cases either forgetful or contemptuous of the obligation he owes the city from which he gets his living.

We, the merchants of Sanford, earnestly appeal to the home-town pride of our people and urge them to BUY locally whenever possible, to the end that each individual in Sanford will benefit thereby.

Deer Taxes Have Been Adopted By Numerous States

Once Opposed By Tax
Experts, Scheme Is
Becoming Popular

CHICAGO, Jan. 28.—(AP)—Sales taxes, opposed by many experts but adopted upon a variety of depression difficulties by many state governments, were in effect in 22 states, and 11 more of the states whose legislatures are now in session are considering them, reports the Federation of Tax Administrators through the Public Administration Hearing House here.

Eleven of the nine states which have regular legislative sessions this year are still without sales taxes, according to this authority. Massachusetts and New Jersey, of this number are reported as having them. New Jersey is one of six states that have had no taxes and have either repealed them or had them invalid.

Kentucky, one of the states the legislature of which is now at work, is also in this group. Other states, with recently convened legislatures which are without sales taxes are New York, which has voted its tax to June, Rhode Island, South Carolina, Virginia, Mississippi and Louisiana are the only states with sales taxes repealed or invalidated, included in the group of nine which have Georgia, Maryland, New York, Pennsylvania, Idaho, Kentucky, Maine, New Jersey, Oregon, and Vermont.

Nine states this year are putting constitutional amendments on the ballot, and only one of these states has all the bills, without consideration of ability to pay, and cannot be graduated according to means of the income tax.

States which now have sales taxes are Arizona, New Mexico, North Dakota, South Dakota, Missouri, Louisiana, Illinois, Mississippi, Alabama, North Carolina, West Virginia, Indiana, California, Washington, Utah, Wyoming, Colorado, Kansas, Iowa, Arkansas, Michigan, Oklahoma, and Ohio.

Not all of these are quickly recognizable by the retail customer. In Indiana, for instance, the tax takes the form of a gross income as well as business receipts. In other states the sales tax is a tax on voters to decide whether the

WHEN DEER ARE NOT DEAR

In Pisgah National Park in North Carolina, deer have multiplied so rapidly that it has become a problem for the government. Recently an open season was declared during designated periods for 2,000 hunters who were allowed one deer each. Here are some of the large number of fawns feeding at a special trough of "baby food."

known as a gross receipts tax, an state shall give greater support to public schools. Illinois is putting before its citizens a proposal to repeal a law imposing double liability upon bank stock owners. Maine's referendum is a proposal to lengthen the residency requirement for voters.

In Michigan it is salary increases for elective state executive officials which are being asked of the electorate, by way of a constitutional amendment. Oklahoma has several issues—provision for retirement allowance for state and school employees and proposals to alter membership of house and senate and to fix an annual salary for members of the legislature.

South Dakota voters will decide whether the state shall get new apportionment for state legislature, while Wyoming ballottasters will write yes or no on the question of paying interest on public money at the rate paid on private deposits. In New Jersey, the Constitutional issue is whether horse-racing and pari-mutual betting shall be legalized, and voters

will be given an opportunity to decide if the legislature re-adopts a resolution to put this matter to the electorate.

Last year was a lean one for direct state legislation by the people, the Association found. Voters of only eight states were asked to submit their wishes on a total of 52 measures in contrast to 1938, when they passed on 180.

"See... it's signed by young Washington"

As early as 1760, the neighbors of young George Washington entrusted the surveying of their fields and forests to the master of Mount Vernon. They could count upon his unswerving honesty. His name upon a map made it an authoritative document.

A good name is no less important today. As you read the advertisements in this newspaper, you see the names of manufacturers and merchants who have built their business success upon honest products.

The very fact that they advertise speaks for their integrity. The store that stays in business has not only to get customers but to keep them, year after year. Your good-will is worth too much to be endangered by inferior, unsatisfactory goods.

Read the advertisements regularly. They will save you minutes and money. They serve as maps of good merchandise—signed with names which, like the name of Washington, have been tested by many and found completely trustworthy.

Cards Are Stacked Against Farmers In The Dust Bowl

Insufficient Rains In Middle West Results In Very Dry Soil

WASHINGTON, Jan. 28.—(AP)—Midwest farmers in the grain belt as well as the Dust Bowl—face the 1938 crop growing season with the weather cards stacked against them.

The soil, particularly the sand soil, in large areas of the middle west is unusually dry this winter, due largely to insufficient rains in the last four months of 1937. And the rainfall for the entire year was inadequate to restore the seriously depleted soil moisture.

J. H. Kinner, crop-weather expert of the United States weather bureau, says the present dryness does not necessarily mean dryness next spring or drought next summer. But he points out that "it seems likely crops this year must depend largely on spring and early summer rains."

Moisture has been scanty, Kinner says, in the western plains where rainfall has been deficient for a long time. South Dakota had only 84 percent normal precipita-

Women Don't Respect Our Customs

CORN-growing Iowa, Missouri and Illinois, as well as Minnesota, were short on fall rains, the Iowa precipitation being only 50 percent of normal. Another adverse factor cited by Kinner is that winter precipitation in the middle west, notably in the Great Plains, seldom is sufficient to restore normal moisture to a dry subsoil.

Measure 1, below normal in most of the dust bowl which government agencies may constitute a \$20,000,000 acre expense in parts of Oklahoma, Colorado, Kansas, New Mexico and Texas. While Texas had 111 percent normal precipitation, in the last four months of 1937, the rainfall for the entire year was only 87 percent.

On the other hand, precipitation was unusually abundant nearly everywhere east of the Mississippi river. The Pacific coast states also had much more normal rainfall.

W. H. REITZ

Hundreds Die In Explosion In Gun Plant

One Of Italy's Largest
Munitions Factories Demolished
In Disastrous Blast

400 Persons Are
Believed Killed

Town Of 10,000 Population Suffers Destructive Damage

TETSENGI, Italy, Jan. 29.—(AP)—From 300 to 400 persons are believed to have been killed and injured today in a series of explosions which blasted one of Italy's greatest munitions factories.

Frantically working rescue crews have been able to drag but nine bodies from the wreckage. Firemen believed many more would be found when they are able to penetrate the smouldering ruins. The explosion is blamed officially on the carelessness of a worker who broke a compressed-air tube.

A communiqué announcing the disaster gave no casualty figures. Tetsegni, a town of 10,000 people, 38 miles southeast of Rome, suffered widespread damage. Many roofs were shaken down and virtually all windows in the town blown out.

King Vittorio Emanuele and Queen Elena hurried from Rome to the scene of the tragedy. Premier Benito Mussolini is expected to take personal charge.

Ross O'Connor, president of the national foundation for infantile paralysis which is fostered by Mr. Roosevelt to combat the disease, said he expected hundreds of thousands of dollars to be contributed from subscriptions of dancers at 15,000 "birthday balls" in every state.

The President's greetings and thanks go to the nation in a radio program beginning at 11:30 P. M. E. S. T. All networks will participate.

President Roosevelt has come through another hard year at the White House in excellent physical condition. Take that on the word of his personal physician.

For the President it has been a year of unusual strain. He fought and lost the fight to enlarge the Supreme Court and watched the fanfare over the discovery that a former Klansman had accepted an appointment to the court.

Yet, says Dr. Ross T. McIntire,

White House physician, Mr. Roosevelt enters his 57th year in full vigor.

Lesson For Executives

No Proration Of Celery For Coming Week

Control Committee Decides Market Outlook Has Improved During Past Week

A motion recommending to the Secretary of Agriculture that no proration period be declared to restrict the shipment of Florida celery for the week beginning Jan. 31 was adopted by a 13 to 3 vote at a meeting of the Control Committee of the celery marketing agreement last night.

Included in the motion, however, was a clause requiring shippers to continue to ask for weekly allotments and requesting that the estimators continue their estimates of the celery available for shipment.

The minority favored a 100 percent prorate, limiting shipments to the amounts submitted in the allotment applications, rather than allowing shipments to continue unrestricted throughout the week.

Yesterday the approval of the Secretary of Agriculture was received for the establishment of a series of weekly prorations beginning Jan. 31 and continuing through May 30.

The message from Washington AAA headquarters was as follows:

"The Secretary of Agriculture has established a series of 17 weekly regulation periods for the Florida celery industry during which shipments may be regulated pursuant to the Florida Celery Marketing Agreement."

The Board estimated that approximately 55 cars of celery will be available for shipment from the State during the coming week. 855 cars from Seminole County district and ap-

(Continued on Page Three)

Nation Observes 56th Birthday Of F. D. Roosevelt

15,000 Birthday Balls To Raise Funds For Infantile Paralysis

WASHINGTON, Jan. 29.—(AP)—A quiet dinner at the White House with his family and old friends, followed by a message to hundreds of thousands celebrating elsewhere, will be President Roosevelt's party tonight in the nationwide observance of his fifty-sixth birthday anniversary.

Ross O'Connor, president of the national foundation for infantile paralysis which is fostered by Mr. Roosevelt to combat the disease, said he expected hundreds of thousands of dollars to be contributed from subscriptions of dancers at 15,000 "birthday balls" in every state.

The President's greetings and thanks go to the nation in a radio program beginning at 11:30 P. M. E. S. T. All networks will participate.

President Roosevelt has come through another hard year at the White House in excellent physical condition. Take that on the word of his personal physician.

For the President it has been a year of unusual strain. He fought and lost the fight to enlarge the Supreme Court and watched the fanfare over the discovery that a former Klansman had accepted an appointment to the court.

Yet, says Dr. Ross T. McIntire,

White House physician, Mr. Roosevelt enters his 57th year in full vigor.

Lesson For Executives

In that Dr. McIntire finds a lesson for all busy executives.

"Any normal executive can and should exercise regularly and moderately," he says, "and he should get away from routine as much as possible."

True, the routine of the last 12 months did have its effect on the President. A couple of months ago an infected tooth spread poison through his bloodstream and he suffered a heavy cold. But the tooth was pulled and, despite the challenge of the recession and a delicate international situation, he apparently has come back to health.

Rev. John Everington Will Preach Here

The Rev. John Everington has been secured with his beautiful colored pictures of Jerusalem and Environ for the Sunday night service at the Presbyterian Church, Dr. J. D. Brownie, pastor, said today.

Those who were fortunate enough to attend the intercity meeting in DeLand Thursday will get credit for their attendance going to the Valdes Hotel Monday at 12:00 o'clock. Dr. A. W. Epps, secretary of the Club, said today.

Dr. J. Hartman Griffin, pastor of the First Baptist Church of Winter Haven, Fla., for the past twenty years, will conduct a series of revival services at the First Baptist church here for ten days beginning on March 20 and continuing through March 30th.

Capt. and Mrs. Fred Feren will preside farewell services at the Salvation Army Citadel Sunday. Mrs. Feren will preach in the morning on "Candles of the Lord" and Capt. Feren has chosen as a subject for his remarks at the evening service, "The King of Reconciliation."

No Roosevelt Ball will be held in Sanford tonight on the eve of the President's birthday as in 1930 other cities over the nation for the benefit of the National Foundation for Infantile Paralysis, Lloyd F. Eppes, Seminole County chairman, said today. The entire amount of individual contributions collected in this county will be sent to the National Foundation, Mr. Eppes said, rather than reserving a large part of the proceeds for a ball.

They will make the scope of Biblical history more real and interesting and may throw much light on some sections.

The public is cordially invited to attend. The service is open to all.

Mr. Eppes, pastor of the First Baptist Church, said today.

1937 Income Rises Over Those Of 1936

NEW YORK, Jan. 29.—(AP)—Income received by individuals in the United States last year rose to \$67,531,000,000 from \$62,304,000,000 in 1936, a gain of 8.5 percent, the National Statistical Conference reported today.

The board, a private research organization interested mainly by corporations, pointed out that the gain is not so great in terms of actual goods and services as in dollars because the cost of living increased 4.2 percent. There was also an increase in the number of persons employed.

They will make the scope of Biblical history more real and interesting and may throw much light on some sections.

The public is cordially invited to attend. The service is open to all.

Mr. Eppes, pastor of the First Baptist Church, said today.

They will make the scope of Biblical history more real and interesting and may throw much light on some sections.

The public is cordially invited to attend. The service is open to all.
