

Filibuster Fight

'Breathing Spell' Seen

WASHINGTON (UPI) — Democratic Leader Mike Mansfield hoped today that a weekend "breathing spell" might clear the outlook for ending the Senate's anti-filibuster rule fight.

The Senate, apparently moving into the final stages of the prolonged battle, was in recess until Monday.

Senate liberals lost by a 53 to 42 vote Thursday in the first test on the short-cut route they have been using to amend the existing gag

rule. Their defeat, for all practical purposes, spiked chances of a rule change this year.

But Sen. Clinton P. Anderson, (D-N.M.), author of a pending amendment to let three-fifths instead of two-thirds of those voting halt a filibuster, said the struggle might go on until next Friday. Most members looked for its final collapse earlier than that.

Anderson's motion to call up his three-fifths rule

amendment is the pending business. It also is subject to a tabling motion, could be withdrawn or sent to committee. Southerners will filibuster against its adoption.

On Thursday's vote, first roll-call of the year, the Senate tabled the liberals' claim that at a season's start a majority of members should be able to kill a filibuster. The present gag rule requires the votes of two-thirds of those present.

Southern Democrats were joined by small state senators plus a scattering of other members voting to table the matter. The break down was 32 Democrats and 21 Republicans for tabling and 31 Democrats and 11 Republicans against.

The liberals bypassed the normal process of clearing rule amendments through the rules committee. They contended that at the opening of a new Congress a majority should be able to amend the rules.

ALTAMONTE GARDEN CLUB members meeting Monday to make further plans for next Thursday's Smorgasbord Dinner at the Community House were, front from left, Mrs. Robert Bradford and Mrs. Jefferson Hodges; back, Don Harris, Mr. Hodges and O. J. Baumgartner. (Herald Photo)

Teacher Defends 'Objectionable' Book

WRENSHALL, Minn. (UPI) — A discharged high school English teacher, now making his living as a hod carrier, said Thursday he still feels the novel "1984" is unobjectionable.

Richard Wyman, 39, was fired by the Wrenshall school board last March because he included the George Orwell novel on the reading list for senior English students preparing for college. The school board called the book "obscene and immoral." The controversy erupted after a girl student showed the novel to her parents.

Since last autumn, Wyman, a father of 13, has been carrying bricks at the same school, where a Duluth construction company is erecting an addition to the building.

Even that job has been interrupted temporarily because of the cold weather and Wyman picked up his first unemployment compensation check Thursday in Duluth.

"It's a new experience for me," he said, "I've never been unemployed before."

Wyman, who holds a master's degree in education and has 10 years teaching experience, said he has applied to more than 100 area high schools but his applications have been rejected each time.

"I don't feel that the school administration is black-balling me," the now bearded ex-teacher said, "but then I guess they aren't giving me the best of recommendations either."

A copy of the controversial book still rests in the Wrenshall school library but no student is required to read it and its contents are not made the subject of term papers as in Wyman's classes.

Supt. E. C. Hedegard said the school administration has not changed its opinion of the work.

"Some parents object to the book and we're not going to force anyone to read it. They can if they want to," he said, "but it's not mandatory."

Wyman said he has not changed his mind about the book, either, he said he would include it in a "recommended" reading list for seniors if he lands another teaching post.

"The book is not a great literary work, but it has some value for college bound students. What good is it to study English writing if you don't include English authors?"

FIRST PLACE WINNER in the American Legion Oratorical Contest sponsored at Lyman High this year by Memorial Post 256 of Casselberry was Ann O'Donnell, second from left. Others in the photo are Larry Maplesdon, contest chairman at left; Stanley Houston, Lyman speech instructor; Eileen Kler, second place winner; Billy Johnston, third place winner and Harold Kryder, Post 256 commander. Christ Church Committee To Be Installed

By Donna Estes

The new Vestry Committee of Christ Episcopal Church, Longwood, will be formally installed at the 10 a.m. Eucharist this Sunday.

Members of the committee were elected by their fellow parishioners at the annual meeting of Christ Church on Jan. 20 and their election has been approved by the Rt. Rev. Henry I. Louttit, Bishop of South Florida.

Installed will be Herman Schimming, senior warden; Eugene B. Taylor, junior warden; Frederick Wyman, treasurer; Thomas Kuhn, secretary and A. P. Bowersox, Robert Hammond, Charles Pasternack and Joel White.

The first regular business meeting of the newly elected committee will be held immediately following the installation service.

Also elected at the annual Parish meeting were Thomas Kuhn to serve as a delegate to the Diocesan Convention in Miami Beach in May and Raymond Ball to serve as alternate delegate.

Forest City Baptist Church Opens Crusade At Banquet

By Shirley Wentworth

Twenty-five Sunday School teachers of the Forest City Baptist Church attended a "Blast Off Banquet" last Saturday evening to open the SS-200 Crusade being conducted to increase enrollment and enlargement of the Sunday School department.

The "Space Age" is being used as theme for the three-month crusade and each room has a large poster displayed to record progress. As the attendance grows a rocket will climb higher and higher into outer space among the indicated planets.

The crusade is being conducted under supervision of Sterling Copeland, educational and promotional director of the church. Upon its conclusion early in May another banquet will take place with both the teachers and class members attending. The class bringing in the largest increase in enrollment will be honored at this time.

Those serving at Saturday's banquet included Sally Correll, Frances Nalley and Betty and Marsha Winne of the Young Women's Auxiliary and Mary Ann Brown and Sandra Winne, members of the Girl's Auxiliary who took over the nursery.

Attending, in addition to Copeland, were Rev. and Mrs. Richard Brown, Mr. and Mrs. Richard White, Mr. and Mrs. Charles Jackson, Mr. and Mrs. Clinton Crawley, Mr. and Mrs. Don Westmoreland, Mrs. William Brannon, Mrs. Martin Dunn, Mr. and Mrs. Walter Hoberg, Mr. and Mrs. D. K. Winne, Mr. and Mrs. L. H. Morene and daughter, Andrea, Mr. and Mrs. Eldred Whilden, Mr. and Mrs. Ralph Green and Mr. and Mrs. Sherman Hart.

Church Sets Service Series

A series of "New Life Meetings" will be conducted at Grace Methodist Church, Onora Road at Woodland Avenue in Sanford, Feb. 17 through Feb. 21.

Guest minister will be Rev. Gerald McCray, a former missionary to Alaska and present minister of the Bowling Green Methodist Church.

Invitation has been extended to the public to attend each 7:30 p.m. meeting.

Church Holds Daily Services

Daily evangelistic services are being conducted at 7:30 p.m. at the Fern Park Church of the Nazarene by Rev. Arthur E. Kelly, visiting minister from South Carolina.

The church is located at 304 O'Brien Rd. in Fern Park. Host minister is Rev. J. Dennis Peacock.

The special services are scheduled to continue through Feb. 10. Beginning next Monday, Ralph and Joan Dunmire, singer-musicians, will be present for each program.

Open House Set At 'Idyllwilde'

Open house will be held Saturday and Sunday in Idyllwilde, of Loch Arbor, where three Shoemaker built homes will be on display.

Shown will be the 'Colonial II,' a colonial type home; the 'Futura,' a modern home of the future and 'Contemperra,' a home of contemporary design.

Although most homes in Idyllwilde are custom-built, these model homes have been erected to show the type of work done by Shoemaker construction.

On Saturday the homes will be open all day and on Sunday from noon until dark.

A door prize of a GE Westport stereo will be given away. The winner will be announced at a later date.

Apportion Plan Called 'Unconstitutional'

'Discriminatory', Suit Filed

By LARRY VERSHEL
The Navy has officially asked the city to approve the Pipeline Co. bid to transport jet fuel. . . A letter is in the mail and will be read at the City Commission meeting a week from today.
That's some post office we have. High winds last night blew open the door and knocked parts of the ceiling loose.
Someone knocked over a hydrant Saturday at Ninth and Bay. The city lost a quarter million gallons of water. . .
Nobody asked me, but how come no one checked that natural gas pipeline to the Hunt Co. site and how it got approved? . . . More on this later.
Still no word on when those legislative hearings will take place this week. Spoke to Mack Cleveland Jr. and Mack says they will wait until the federal court makes a decision on reapportionment. . . May want the new representative to sit in. . . "You mean Gordon," says I. . . "Ha, ha" . . . says Mack.
By the way can't think of a better man than Gordon Frederick for that House seat. . . Can you all?
And anyway, I'd like to see that legislative tag put back on.
LEGISLATIVE RAMBLES . . . Mack and Joe Davis voted against killing a House member for Seminole and so did Bernard Parrish. . . Mack voted against the statute. . . Says the people should decide. . . The way we see it, Seminole will have two House representatives and one Senator this session and lose one in 1965. . . Qualification deadline will be in about a week. . . first primary Feb. 28 and second March 12. . . Nobody asked me, but the courts will probably junk the legislative compromise. . . That's all it is. . . and what it does. . . extends Metro from Miami to Tallahassee.
Speaking of the legislature. . . Did you know that a quarter horse ran at the Seminole Park Raceway Saturday night by the name of "Joe Davis"? . . . It came in second and paid \$5.00.
Work has started on the new McCroly's building at the Eastern Shopping Center by SR 436 and Hwy. 17-92.
Rain will hold up work on Seminole Blvd.
Thus far, the city has collected \$459,000 in taxes. . . County well over \$1,000,000. . .
Don't forget deadline hearing for license tags. . . It's empty now by John Galloway's office.
Public hearing on the Econlockhatchee at 10 a.m. tomorrow at the Orange County courthouse.
Police Benevolent Assn. elected Dick Cosgrave president the other day; Arnold Williams, vice president, and Estelle Jennings, secretary-treasurer.
Hundreds of boy scouts will be at Ft. Mellon Park this weekend as Boy Scout week kicks off. . . A full day's campout activities slated.
High winds blew the aerial down out by Fire Station No. 2.
Okay, who was the wise kid that painted "Seminole" across the back of the Ft. Mellon Park pool? It was just painted last week.
Moveland Manager Hugh Prince tells us that 28 persons signed up to donate blood to the Seminole County Blood Bank, through his special shows a week ago. Pledgers received a month's free pass to the Drive-In. Good work, Hugh, the Blood Bank is very much in need of help.

MIAMI (UPI) — Miami attorney Peter Sobel asked a special Federal Court today to declare the newly-adopted 43-Senator, 112-Representative Legislative Reapportionment plan unconstitutional and enjoin the state from holding elections under it.
Moments after the petition was filed, the three-judge court said it would hear arguments on the reapportionment hassle at 9:30 a.m. Thursday.
Sobel, one of the two lawyers who filed the original suits that resulted in Florida's legislative apportionment being declared unconstitutional, also refiled a motion today asking the court to reapportion the legislature by judicial decree.
Sobel's petition called the 43-112 plan passed by a special session of the legislature last Friday, both as a statute and as a state constitutional amendment to be voted on by the people in 1964, "invidiously discriminatory" against him and other residents of large population areas.
"This plan is no appreciable improvement over the present legislative apportionment, which has been declared unconstitutional by this court, and is substantially less representative than apportionment by the proposed constitutional amendment overwhelmingly defeated by the people at the last general election," the petition said.
Under the new apportionment statute, which contains a "grandfather" clause to hold over two Senators and 13 House members.
At the same time former State House Representative Gordon Frederick said he would probably run for the vacant House seat (Cleveland's) if the court rules favorably on the plan.
Cleveland served 33 sessions including eight special of the legislature. He is a member of the finance and taxation and rules committee and is considered one of the most powerful members in the House.
Frederick, before he declined to seek re-election last year, served during seven sessions.
Earlier Frederick had said he would run again if Seminole got a Senator because of his experience to add political newcomer S. J. Davis who was elected to the House last year.
The first primary probably will be set for Feb. 26 with a run-off and general election to follow. After the election dates are set, Secretary of State Tom Adams will set the deadline for candidates to qualify for the 37 new seats.
The new seats, all for fast-growing urban areas, will tend to cripple the influence of the small county majority bloc that has controlled the Legislature since Florida became a state.
It also may put a few more Republicans in the House — but not enough to give this party any kind of a voice in proceedings. The Republican stronghold of Pinellas—which now has an all-GOP delegation of three House members and one Senator — picks up three additional Representatives and if past trends are followed, they'll also be Republicans.
The difference in small county domination will be more noticeable in the House where populous areas pick up 20 new seats.

representatives until after the 1964 general election. Sobel claimed that 14.2 per cent of the people can elect a majority of the Senate and 22.9 per cent can elect a majority of the House of Representatives.
After the holdover legislators are dropped in 1964, Sobel said, then 15.2 per cent of the people can elect a majority of the Senate and 28.5 percent a majority of the House.
MACK CLEVELAND JR. (left) and GORDON FREDERICK (right) are the two main figures in the reapportionment suit. Mack is the plaintiff and Frederick is the defendant.

Cleveland Throws Hat In Senate Ring..? If'

State Representative Mack Cleveland Jr. today threw his hat in the ring for the state Senate if the Federal court okays the newly adopted 43-Senator, 112 Representative reapportionment plan.

Under the plan, Seminole will gain a Senator for this session of the legislature and in 1965 would lose one House member.

At the same time former State House Representative Gordon Frederick said he would probably run for the vacant House seat (Cleveland's) if the court rules favorably on the plan.
Cleveland served 33 sessions including eight special of the legislature. He is a member of the finance and taxation and rules committee and is considered one of the most powerful members in the House.
Frederick, before he declined to seek re-election last year, served during seven sessions.
Earlier Frederick had said he would run again if Seminole got a Senator because of his experience to add political newcomer S. J. Davis who was elected to the House last year.

Mothers March Takes \$1,200

Over \$1,200 was collected for the successful Mother's March of Dimes held Thursday, Mrs. Robert Zittrower, chairman, reported today.
"The deepest appreciation of the National Foundation goes to the Marching Mothers and to the public in supporting the Foundation's expanded efforts to continue the quest for the conquering of polio, birth defects and arthritis.
The 23 captains and hundreds of workers were assisted by volunteers from Boy Scout Troop 604, Mrs. Zittrower said.

\$800,000 Program School Plans On Schedule

Planning is progressing along a satisfactory schedule in Seminole County's \$800,000 school building program for the 1963-64 school year, it was reported today by School Supt. R. T. Milwee.
Walter Teague, administrative assistant, said a letter of approval for two projects under the federal impact law was received from U. S.

Post Office Patronage A Headache - Herlong

"Post Office patronage results in a headache."
This was the comment of Congressman A. S. Herlong Jr. this morning when The Herald telephoned him at Washington to ask the status of appointment of a permanent postmaster for Sanford.
"I'd rather not handle postoffice patronage, either the appointment of postmasters or rural carriers," the Congressman stated.
He explained that the final "results only bring on a headache; it makes your friends angry because there are not enough jobs to go around."
He continued that "those who do not get the job of postmaster become angry and the one who does get the job becomes an ingrate."
Congressman Herlong remarked facetiously: "If (appointments) should become a part of losing an election rather than winning one. Of course, I'm only kidding."

In a serious vein, Herlong said he is awaiting the recommendation of the Seminole County Democratic Executive Committee for appointment.
He added he had submitted the eligibility list of three names to Warren Goodrich, Bradenton, Democratic state chairman, asking that he forward it through channels to the local committee.
Robert Billhimer, Seminole chairman, said he has not received the list from Goodrich.
Three local men passed U. S. Civil Service examinations for the \$7,395 postmaster post here. They are Julian Whigham, Stephen Ballint and Guy Allen, the acting postmaster and a Republican.
The procedure is for the local committee to recommend a candidate to Herlong, who, in turn, will submit it to President Kennedy, who, in turn, will name the successful candidate as Sanford's postmaster, subject to confirmation by the U. S. Senate.

Millionaire's Wife Missing Over Ocala

OCALA (UPI) — Mrs. Patricia Widener, wife of millionaire sportsman Peter A. B. Widener III, was missing today aboard a private aircraft which disappeared seconds before a scheduled landing in driving rain here Sunday night.
The plane, a twin-engine Aero Commander owned by the Wideners, was last seen as it approached the Ocala Airport about 9:30 p. m. Sunday night after a flight from West Palm Beach.
Widener, waiting to meet his wife, said the plane was about 200 feet over the landing strip when it veered sharply and disappeared in dense clouds to the west.
An airport spokesman said the plane piloted by Robert G. Stahl of Ocala, was in touch with the FAA tower at Gainesville, Fla., by radio and last reported its position as less than 350 feet over the strip on a landing approach.
The plane did not contact the tower after pulling off course.
An air-ground search was launched today when a check of Central Florida airports failed to locate the plane.

SANFORD POLICE DEPARTMENT contributed \$33 from their Police Benevolent Fund to the Sarepta Rest Home today. From left are Sgt. W. H. Cosgrave, President of the PBA; Mrs. Tammar Braden, Sarepta Administrator and Chief Roy Williams. (Herald Photo)

Cuba Buildup Worries U. S.

WASHINGTON (UPI) — Congressional concern about the Soviet buildup in Cuba increased today and the administration prepared to crack down harder on foreign ship pens engaged in Cuban trade.
Sen. Kenneth B. Keating, R-N.Y., who has warned repeatedly of the Russian arms buildup, said "sooner or later we will have to decide to put an end to it or see the Communists take over South America."
Sen. John C. Stennis, D-Miss., whose preparedness subcommittee is investigating the Cuban situation, said the United States might have to demand that Russia remove its present forces just as it demanded removal of offensive missiles and bombers.
The administration was expected to issue an order today or Tuesday barring U. S. government cargoes to shipwrecked whose vessels have traded with Cuba since Jan. 1. Shippers could escape the ban by removing their vessels from trade with Cuba.
In Miami, similar preparations were under way for a return trip by a 20-car train which ran there Sunday in the first trip since the strike began.

FEC Continues Freight Loads

JACKSONVILLE (UPI) — Supervisory personnel of the strike-bound Florida East Coast Railway began loading another freight train at the Bowden Yard near here today for the 350-mile trip over rusted rails to Miami.
The train, tentatively scheduled to leave this afternoon, will be the second moved by the FEC since 1,200 members of 11 non-operating unions went on strike in a pay dispute 13 days ago.
In Miami, similar preparations were under way for a return trip by a 20-car train which ran there Sunday in the first trip since the strike began.

Human Bones Discovered Here Were Negro Male

Dragging operations will be resumed this week in an effort to recover the skeletal remains of a Negro man in a small canal off South Highway 17-92, Sheriff J. L. Hobby reported this morning.
The search will be continued with calm waters, the Sheriff said, following receipt this morning of the result of a pathological study made of human leg and foot bones found in Army-type boots last Jan. 19.
The leg and foot bones and the boots were forwarded to Tallahassee for study.
The report received today by Sheriff Hobby said the bones were those of a Negro male, about five feet six or seven inches tall, and that the bones had been in the water between three months and two years. The study further revealed the man was a victim of malnutrition, causing the belief he apparently had become ill and fallen into the canal and drowned.
Sheriff Hobby said the dragging operations will be resumed because the study also revealed the legs had not been covered from the body but had become disjointed with decomposition.
The discovery was made Jan. 19 by four boys playing along the canal. They fished a boot from the water and found bones. Dragging operations by sheriff's deputies that day brought up the mate of the boot containing leg and foot bones.

Weather 'Delays' County Fair Judging

The adverse weather conditions of the past two days have forced delay of the judging of livestock at the annual Seminole County Fair which opened today at the American Legion Fairgrounds, Association President John McCloskey said at noon today.
A good display of entries in all categories is on hand for this year's exhibition, officials indicated.
Page Shows on the midway are announcing the showing in Seminole County of a new motorcycle act never before seen in the state, and officials of the midway said their show would be the biggest ever seen here.
The Fairgrounds will open at 3 p.m. Tuesday and Wednesday; 5 p.m. Thursday and Friday and 1 p.m. on Saturday.
"We have all the judging of

Heart Fund Drive Support Urged

"Cardiovascular diseases, (disease of the heart and circulatory system) are our number one health enemy, causing widespread pain and suffering and imposing serious economic and production hardships on local industry through the loss of skilled executives," Mayor Tom McDonald declared today.

"Besides the millions of adults, there are half a million children who suffer from this most vicious enemy, which each year causes more deaths than all other diseases and accidents combined," the Mayor added.

"The Heart Fund constitutes the nation's Number One defense against heart disease by making possible the research, education and community service programs of the American Heart Association, its affiliates and chapters—the nation's only independent voluntary agency dedicated exclusively to combating this leading health enemy," he said.

"Informed medical opinion holds the view that only through medical re-

search can science discover the still unknown causes and develop improved methods of diagnosing, treating, controlling and possibly preventing these diseases.

"I, therefore, proclaim the month of February to be observed as Heart Month in this community and urge all citizens, schools, churches, business establishments and scientific, social, civic and fraternal organizations to give this drive their fullest cooperation and utmost support," the Mayor said.

"We're all very nervous," said one girl.

Other coeds had a grudging admiration for Chilly Billy. As one said:

"He must be a superman to face the elements in only striped pants. If he did it in the middle of summer you could understand it, but in the snow . . . brrrr."

A police spokesman said an all-out search was underway.

"It's not very nice to have a chap like that wandering round a girls' college," he said.

Cold Continues In East; West Gets Heat Wave

By United Press International

A thawing warm air flow swept eastward from the Pacific Coast today nudging temperatures upward over the western two-thirds of the nation.

A cold wave moved into New England on the heels of a storm that dumped up to eight inches of fresh snow in some sections of Maine.

Temperatures rose an average of 20 degrees in the frozen Midwest, while sunbathers lolled in record 90-degree heat in Southern California.

Readings in the low teens forced New York City's transit authority to keep its subway trains in tunnels and run long trains to prevent freeze-ups prior to the morning rush.

Southern California, in the throes of a crop-damaging deep freeze two weeks ago and a drought-breaking deluge of rain last week, had Sunday readings 30 degrees above the February average high.

Montabello, Calif., had the nation's high temperature, 98, and Los Angeles set a new mark of 91 degrees for the date. Beaches and swimming pools were crowded, pressing lifeguards into unexpected winter duty.

Zero and below temperatures were confined primarily to the northeastern portion of the nation. Caribou, Maine, shivered in 18 below.

New England braced for below zero temperatures to night and hazardous driving warnings were issued for much of the six-state area where roads were coated with frozen slush and ice. At least 34 deaths were attributed to the cold in the area.

Thunderstorms ahead of the advancing cold in Dixie, dropped nearly an inch of rain at Birmingham, Ala., Raleigh, N. C., and New Orleans, La. Portland, Ore., and Portland, Maine, also reported heavy rains.

FEBRUARY IS HEART MONTH declares Mayor Tom McDonald as he meets with Seminoles-DeBary Heart Council President Ed Simons to sign the proclamation to that effect, today. Simons pointed out that 10 million Americans, including 600,000 children suffered from some form of disease of the heart and circulatory system. (Herald Photo)

Girls Worried About Chilly; But, Admire Him

CAMBRIDGE, England — (UPI)—The 300 coeds at Girton College are nervous about the prowler they call Chilly Billy but they admire his hardiness.

A police guard was placed around the campus Sunday night following Chilly Billy's latest appearance in sub-freezing weather in his usual costume—striped underwear.

Chilly Billy made his first appearance a month ago and has turned up several times since. But he frightened a coed this weekend and she called police.

When the police arrived with dogs all they found were Chilly Billy's foot prints in the snow.

"We're all very nervous," said one girl.

Other coeds had a grudging admiration for Chilly Billy. As one said:

"He must be a superman to face the elements in only striped pants. If he did it in the middle of summer you could understand it, but in the snow . . . brrrr."

A police spokesman said an all-out search was underway.

"It's not very nice to have a chap like that wandering round a girls' college," he said.

The Sanford Herald Page 2—Mon, Feb. 4, '63

Reds Blame U. S. For Nuclear Ban Stalemate

MOSCOW (UPI)—The Soviet Union sought today to blame the United States for the continued nuclear test ban stalemate.

The Russians appeared to be trying to discredit the Western position in the eyes of neutral nations before the 17-nation disarmament negotiations resume in Geneva Feb. 12.

The official Communist Party newspaper Pravda said Sunday the Soviet delegation broke off negotiations in New York because the West had "no intention" of ending atomic tests.

The newspaper said that in light of the Kremlin's "good will" offer to accept up to three on-site inspections, "the reluctance of the United States and Great Britain to end nuclear tests had become obvious."

It said the Soviet Union thus was "forced" to break off the New York talks and throw the question back to the big disarmament conference.

It portrayed the Soviet acceptance of the principle of on-site inspections as an attempt to meet the United States "half way."

There was no hint in Pravda that the Soviet Union would be willing to expand the number of on-site inspections to meet the West's minimal requirements.

There was no indication that the gap between the two positions could be narrowed quickly at Geneva.

Science Meet 'Underway'

GENEVA (UPI)—Delegates from 103 nations gathered here today for the largest conference ever held in ways to boost scientific and technical aid to underdeveloped countries.

The two-week conference is sponsored by the United Nations. Experts in fields ranging from soil conservation to civil aviation were on hand.

A UN spokesman said the main object is to give the countries a chance to exchange information in a form that will make it readily available to underdeveloped countries.

The information exchanged by the 1,500 delegates should enable planners to make better use of technical and financial aid in the future.

15,000 NEW PHONE BOOKS, containing 12 more pages, and an expanded list of direct dialing cities hit the Sanford postoffice Thursday to be mailed out to subscribers this week. Here Southern Bell's local manager Robert Shedden, (right) takes a quick look at one of the new green books, as Assistant Postmaster Clyde Peirce (left) rolls in another load of mailbags containing the new books. (Herald Photo)

Allies Move To Pressure France

LONDON (UPI) — Diplomats and statements started reweaving Allied strategy throughout Western Europe today under pressure of a

Hearings Set On Education

WASHINGTON (UPI) — The administration sent Secretary Anthony J. Celebrezze to Capitol Hill today to launch the campaign for President Kennedy's aid-to-education program.

Celebrezze, who heads the Department of Health, Education and Welfare, was scheduled to testify before the House Education and Labor Committee at the opening of hearings on Kennedy's proposals.

The cabinet officer was expected to urge the lawmakers to keep the President's program in one package as he proposed, combining 21 new and old school aid plans, but Congress appeared likely to balk at this.

virtual French rebellion against U. S. leadership.

Prime Minister Macmillan summoned his cabinet to report on his trip to Rome where he received strong Italian support for Britain's bid to get into the Common Market.

While in Rome Sunday night Macmillan termed France's blackball of Britain's entry "folly as well as ingratitude."

In Bonn, U. S. Ambassador Walter C. Dowling sounded

cut Chancellor Konrad Adenauer on how West Germany, as a key member of the Common Market six, intends to maintain Britain's ties with Europe.

Alfred Mueller-Armack, No. 2 man in the West German Economics Ministry, was angered at the French veto against British membership he resigned his job over the weekend. So far Adenauer has expressed friendship for Britain but has not condemned France's action.

Forty politicians from Italy, West Germany, Belgium, The Netherlands and Luxembourg—all the Common Market members but France—held an emergency secret meeting in The Hague over the weekend.

Dutch government sources reported they decided French President Charles de Gaulle poses "a more deadly threat to Western Europe and the free world than Russian communism."

The French feared—De Gaulle's bid to dominate

Western Europe would "kill the growth of the Dutch economy" by cutting contacts with the United States and Britain.

Much of this sentiment was likely to erupt in public today during the meeting in Strasbourg, France, of members of parliaments of the six Common Market nations.

More than 4,155,591 acres of timberland were burned by the 1947-52 forest fires reported in 1960.

Vocational Aid Boosted

The Florida State Employment Service jumped in full force today behind an increased and expanded program of technical and vocational schooling being studied by the Seminole County School Board, on the urging of the Juvenile Council.

"There are over 1400 jobs going begging in Florida today because we do not have available trained personnel to fill them," Joe Foy, manager of the Florida State Employment Service, said today.

"Yet we have thousands of people unemployed in Florida. During the month of December, 1962, Florida paid out \$2,432,455 in unemployment compensation payments to Florida jobless," Foy said.

"This topside picture of jobs begging for men while men beg for jobs, suggests that something must be done to bring the two together," he said.

"That 'something' must be a new kind of schooling for today's needs," Foy emphasized. "Existing Florida businesses and industries today find it increasingly difficult to expand because the demand for trained personnel in many occupations is greater than the supply," Foy pointed out.

"We must establish a program that will have a major purpose in training and education of existing personnel to upgrade their skills and talents and to prepare our youth for those occupations which are and will be needed to maintain and expand our existing business and industries," Foy urged.

Here is a partial list of things which Foy recommended that the community should do:

1. Establishment of a Seminole County area vocational-technical school or an expansion of vocational school.
2. Adding vocational and technical subjects in high school.
3. Supporting technical phases of college programs.
4. Encouraging larger firms to establish or expand in-plant training facilities.
5. Providing facilities to re-train adult workers in needed skills.
6. Providing adequate guidance facilities to assure that

youth will prepare for occupations in which they will be needed and for which they have potential.

6. Planning to provide manpower for new or expanded industries for the next 10 years.

Here are some of the semi-skilled and skilled occupations all over Florida which show a constant shortage of good, reliable, trained workers:

Secretaries and stenographers (with good grooming and proficiency); All types of clerical machine operators with good experience;

Telephone operators with good typing skills;

Qualified special machine operators and sewing machine operators in the garment industry;

Repairmen for all kinds of electrical and mechanical equipment;

Domestic workers to live in or out;

Machinists, tool and die-makers, sheetmetal workers with air conditioning installation experience, cabinet makers and helix welders;

Qualified auto and truck mechanics with tools;

Good hotel and restaurant workers, as well as good waitresses, counter girls, and specialty cooks;

Accounting clerks, coopers, job shop machinists.

In the college-trained or specialty-school trained professional and semi-professional fields there is a continual shortage in the following occupations:

Registered nurses and supervisors of nurses, ASCP medical technologists, registered physical therapists, case workers, electronics engineers, electronics technicians, accountants, chemists, electrical engineers, instrumentation engineers and planners, sales engineers, lab technicians, operating room technicians, x-ray technicians, physician's assistants, sanitary technicians, data processors, psychologists, statisticians, psychologists, dietitians, traffic engineers, psychiatric social workers, teachers, high school grammar school and college or university industrial engineers, safety engineers, mechanical engineers. Aircraft mechanics are

needed in certain parts of the state, for the growing private propeller driven aircraft industry.

LONDON'S FIRE The Great Fire of London started early on the morning of Sept. 2, 1666, in Pudding Lane at the home of John Farynor, the King's baker, according to the Encyclopaedia Britannica.

LOANS MADE TO RESIDENTS OF ALL NEARBY TOWNS

ROBERT CARNIE — Progress always brings some disadvantages to someone, but the defense of our country is vitally important.

BETTY SPENCER — It seems to me we haven't been taking a firm stand on anything lately. The Herald editorial was terrific. It ought to make people stop and think.

EDDIE LACTARA — They ought to let it go through. It will have an adverse affect on future industry. We've got to get going.

MRS. FLOYD ROBERTS — I think it's a disgrace that they turned down a new industry like that. They act like they don't want any progress in this town!

★ ★ ★ ★ ★ ★ ★ ★ ★ ★

What About The Pipeline?

Inquiring Photographer

The Herald's Inquiring Reporter got lots of answers but few quotes, when asking the man in the street, "What

do you think of the A.C.I. Pipeline-Navy-City Commission question?"

Everybody had an opinion—but they don't want anybody to know it.

Several railroad men who were interviewed expressed vehement opinions against the pipeline in no uncertain terms, but refused to give their names.

On the other hand, many other shoppers, clerks, mer-

chants and citizens said they admired the Herald's front page editorial stand in Wednesday's paper, but again the old familiar backwater . . . "Don't put my name in the paper!"

One man, who refused to have his name mentioned, asked, "Why give the railroads any more privileges than the Navy? The Navy is just as important to this community as the railroad."

Resuscitation Program Planned By Brownie Troop

Parents of girls of Brownie Troop 299 are invited to join the troop in witnessing a demonstration of mouth-to-mouth resuscitation with "Resuscitation Annie", demonstrated by Mrs. Jack Horner, Tuesday at 4 p. m. at the Grace Methodist Church.

The program is part of the observation of Red Cross month. In past weeks, the girls of the troop have observed community interest by

visiting the city water works, and recently concentrated on certain homemaking skills. The proper use and care of the flag was demonstrated to the troop by Marine Cpl. Tom Wires and Pvt. Gene Marlineau at another meeting held at the Pioneers School.

Leader of the troop is Mrs. Marilyn Bailey and assistants are Mrs. Jane Pruden and Mrs. Inez Sessions.

WENDELL AGEE — The pipeline people made plans according to the promises given them. We should stick by that. It will scare future business and industry away if they can't depend on our word.

Two Sailors Die In Crash

MILTON (UPI)—Two teenage sailors died Friday in a violent crash at more than 100 miles an hour that ripped their car apart and scattered wreckage 147 feet.

The driver, Seaman Jimmy A. Pearson, 19, of Burwell, Neb., was thrown from the car into a creek and apparently killed instantly. Apprentice Seaman Kenneth P. Kramer, 18, of Franklin, La., was also thrown from the car. He died at the Whiting Field Hospital about an hour after the crash.

Tangle Seen

WASHINGTON (UPI)—The Senate, parliamentary shears in hand, hoped today to cut through a tangle of its own making and agree to a showdown Thursday in the anti-filibuster rule fight.

Bobwhite quail are found in small coveys.

Nine Die On State Roads

MIAMI (UPI) — At least nine people died in Florida weekend traffic accidents, including a one-year-old Jacksonville girl who was struck down by a car driven by her father.

A 60-year-old Haines City man, Dooley Cook, was killed

late Sunday when he attempted to pass a car and plowed into an oncoming auto on U.S. Highway 92 near Haines City.

The Jacksonville girl killed Saturday was identified as Hortense Jones.

A 20-year-old service man

was killed Sunday in a crash on state road 70 near Fort Pierce. He was Charles D. Bittner of Ft. Campbell, Ky.

And Nathaniel Ware died at the age of 23 Saturday in a three-car wreck at Fort Lauderdale. Rufus A. Griffith, 35, of West Palm Beach, died

on State Road 7 in a Saturday wreck.

Friday's victims were:

Business Briefs

Marvin J. Rohlf, Sanford, Modern Woodmen district manager for the local area, has received notice that he attained membership in the organization's Century Club for 1962. He is one of 40 agents in the United States who qualified for the production club, with his rankings being based on total volume of new business and premium income.

Roble E. Cary, 59, who drowned when his car plunged into a canal beside State Road 60.

Pauline Tanda, an 81-year-old St. Petersburg resident, died in a wreck near her home.

Sixteen-year-old James DeShaw of Orlando.

BACKACHE & NERVE TENSION SECONDARY TO KIDNEY IRRITATION

After 21, common kidney or bladder irritation affects twice as many women as men and may make you tense and nervous from loss of sleep, burning or itching urination both day and night. Secondary, you may lose sleep and suffer from backache, backache and feel old. Urine, discolored, in such irritations. CURE IT usually brings fast, relaxing comfort by cutting irritating toxins in strong acid urine and by analgesic pain relief. Get CURE IT at drugstore. Feel better fast.

Commies Free American

VIENNA (UPI) — Communist Czechoslovakia has freed an American held for four months on spy charges, the U.S. embassy in Prague said today.

The Czech government announced last Saturday it had

released Robert Roy Budway, a Young Men's Christian Association worker from Washington, D. C. But the embassy was unable to confirm the announcement at that time.

"Budway has been released and has already left the

country," an embassy spokesman told United Press International in a telephone call from Vienna to Prague.

"That is all I can tell you at this time," he said. "Any more information will have to come from the State Department in Washington."

JUDY TURNER

MEET JUDY TURNER. She's the one who wrote the new column in the Herald which appeared last Friday under the title of "Table-Hopping." Due to an oversight, Judy's by-line did not appear with the column (and that's about as "oversight" as you can get).

But it's all about what's going on around the county, especially on the weekends — by way of entertainment — dining out, dancing, fun and frolic all up and down Highway 17-92 in the area beginning to be known as "The Strip."

Included also are the local bistros and the ones along the river front that beckon to the sun-loving public.

Judy is a recent addition to the Herald staff, works out of the advertising department. She is a graduate of Michigan State University with a degree in Journalism, so you can see why her first column for the Herald has that touch of authenticity.

Neat, trim and pretty, Judy likes to make her own clothes. "When I have time." Swimming is also one of her favorite pastimes, as well as "just loafing."

Welcome, Judy, to the hallowed halls of the fourth estate.

Look for her column on Fridays, as she gives you the low-down on what's way out, so you can go—'Table Hopping' with Judy."

"A RARE PERSON, who makes difficult things appear simple," is the way her nominator described Mrs. Mary Joyce Roberts, Lake Mary first grade teacher who was awarded the "Young Teacher of the Year," at the Jaycees DSA Banquet last Saturday.

And this is quite a compliment, for it is realized by any thinking person, that nothing worthwhile is easy, and the things that they give Mrs. Roberts credit for doing are not easy.

Perhaps the finest things that she said about her was that she has the ability and talent to lead children to learn and in her five years of teaching in Seminole County has earned the respect of her other faculty members, principals and parents, as well as the love of "her" children.

Mrs. Roberts attended McMurry State College in Abilene, Texas, on a scholarship, majoring in education with minors in English and Art. She is married and has a son, David, ten years old.

YOUNG FARMER OF THE YEAR, Robert Hattaway, of Altamonte Springs.

MRS. ROBERTS

MARGARET TOEVS

ROBERT HATTAWAY

RICHARD DOAN

High School, Hattaway is married and has two children. The tremendous expansion of the nursery business which he has accomplished earned him the title of Young Farmer of the Year for 1962, from the Sanford-Seminole Jaycees.

RICHARD DOAN, who was awarded the Young Farmer of the Year plaque, won it not so much for his Navy duties, at which he is very proficient, but for his untiring and unselfish work with the youngsters of the community in baseball and basketball.

As proof of his leadership and ability to train and work with young boys, Doan's First Federal Little League team

Church Calendar MONDAY

Catholic Woman's Club of All Souls Church will hold its annual covered dish supper in the Parish Social Hall starting at 7:30 p.m. All parish members are invited. Bring your own plate and utensils.

TUESDAY
First session of the study course sponsored by the WCSB of First Methodist Church "Today's Children for Tomorrow's World" at 10 a.m. in McKinley Hall.

last year swept the boards to take the championship of the city.

He is now busy coaching the Strickland-Harrison Biddy Basketball team which holds a tie place in the cellar, but are battling hard to overcome their lack of experience and know-how.

Doan is married and the father of four children. He is stationed with VAIL-3.

ANOTHER YOUNG PERSON in the news is 16 year old Miss Margaret Toevs, (pronounced Tave), teenage artist, whose paintings are now hanging in the Florida State Bank.

Attractive Margaret, daughter of Mr. and Mrs. W. F. Toevs, started studying art under Polly Brubaker, Navy wife, who lived here for several years. Later when Polly moved away, Margaret studied with Greichen Crowell and then with Beth Gregory, with a little bit of time in a ninth grade art class, under the direction of Joe Mathieux.

One of the nicest things about Margaret's interest in painting is the fact that her parents have been so encouraging and have done everything they can to further her talent and provide her with all the paints, canvasses, brushes, materials and equipment that she needs to express her creativity.

Two of Margaret's other interests are horses and a fascinating old antique parlor organ that the family has acquired.

Because of the love of horses, the big old organ, and the vast accumulation of paintings, canvasses and art supplies that the Toevs have accumulated they are on the lookout for a bigger place in the country where they can "spread out" and enjoy their bobbies.

Mrs. Toevs has led a colorful life, too, having been an airplane mechanic for five years during World War II and now serving as a private nurse.

She says she likes to tinker with machinery and if she had room would be able to indulge in her old occupation. Some of the local weekend aviators roundabout have engaged her services at times when they needed a good airplane mechanic, and she says, "It's fun."

One of the paintings which Margaret has hanging in the bank is one which won a blue ribbon at the last art show. It is a softly but richly colored arrangement of sea shells, fish net, corals, highlighted by a green bottle.

Two others are flower pictures. One a magnificent magnolia on a dark background and a delicate little flower print on a light background.

Margaret is working on several other paintings to be entered in the annual art show on Feb. 24. She received some recognition recently when the photo shown on the front page of the Herald's Christmas edition showed city workmen hanging one of the huge Christmas cards. The scene was that of a shepherd holding a lamb ... the picture was Margaret's creation.

She has also done art work and poster work with the girl scout troop of which she was a member for seven years.

Miss Washburn, D. G. Ayers Married At Naval Air Chapel

MR. AND MRS. DEMPSEY G. AYERS (Jameson Photo)

Miss Carolyn Washburn, daughter of Mrs. Nan Washburn and the late Lt. Col. Harold C. Washburn, of Sanford and Dempsey G. Ayers were married Jan. 21 at 3:30 p.m. in the chapel at the Sanford Naval Air Station.

Also visiting friends and relatives in the area were Mrs. Vines's mother, Mrs. Ella Glenn, of Elmore, Ala.; Mr. and Mrs. Leslie Glenn and children, Peggy, Wayne and Earl. All are former residents of Oviedo, who live in Elmore, Dr. Earl Glenn graduated from the Oviedo High School, in 1948 and is now practicing medicine in Alabama.

The bride was given in marriage by her uncle, E. B. Paxton, of Schenectady, N. Y.

The groom is serving in the U. S. Navy and is stationed at the Sanford Naval Air Station.

Following the ceremony, a reception was held for the wedding party and close relatives and friends at the home of the bride's mother on the Vihlen Road.

The couple will reside at 102 Elm Ave., while the groom is stationed in Sanford.

Relatives Of Mrs. Vines Visit In Oviedo

By Linda Smithson
Mr. and Mrs. John L. Gay have returned to their home in Lakeland, after attending the funeral of their sister-in-law, Mrs. Paul L. Vines, in Orlando. While here they were the guests of the P. M. Smithson family, in Oviedo. Mrs. Gay and Mrs. Smithson are sisters of Mr. Vines.

Also visiting friends and relatives in the area were Mrs. Vines's mother, Mrs. Ella Glenn, of Elmore, Ala.; Mr. and Mrs. Leslie Glenn and children, Peggy, Wayne and Earl. All are former residents of Oviedo, who live in Elmore, Dr. Earl Glenn graduated from the Oviedo High School, in 1948 and is now practicing medicine in Alabama.

Oviedo Personals

Mrs. Edith Carter of Flagler Beach was the weekend guest of Mrs. B. G. Smith. Rev. and Mrs. Miriam of Orlando were Sunday callers at the Lynn Neely home.

Mr. and Mrs. Charles Moon, of Atlanta, Ga. returned to their home after spending two days with Mrs. G. S. Moon, in her attractive new home on Clark Street.

Personals

Recent guests of Mrs. F. E. Bols, at her home, 1101 Park Ave. were Mr. and Mrs. Frank Knight, of Winchester, Mass. They were former neighbors of Mrs. Bols and are vacationing in Florida.

Recent guests of Mr. and Mrs. O. T. Pearson were their son and grandson, Donald K. Pearson and Donald Jr., from Illinois.

Harold E. (Buddy) Long Jr. left Wednesday for Miami where he took his physical examination for the U. S. Air Force. Having passed his physical, he flew Thursday night to Lackland Air Force Base where he will take his basic training.

New Officers Preside At Meeting

NEW OFFICERS of the Past Noble Grands Club were in charge of the January meeting at the home of Mrs. D. C. Howard. Left to right are Mrs. Howard, treasurer, May Rubow, secretary; Mrs. R. H. Beckham, vice president and Mrs. Henry Jameson, president. (Herald Photo)

Miss Rushlow Weds F. J. Pizzo

Miss Janet Ann Rushlow, daughter of Mr. and Mrs. Edmund Charles Rushlow, Altamonte Springs, became the bride of Frank Joseph Pizzo, son of Mrs. Irene Pizzo and the late Mr. Neil Pizzo of Long Island, N. Y., Feb. 2.

The Rev. Father Hubert J. Reason officiated at the 10 a.m. nuptial mass in St. Mary Magdalen Church, Altamonte Springs. Kathleen Bauman was the maid of honor; Vince Placenta was best man, and the ushers were Barry Harper and Bob Yoursore.

The bride chose for her wedding a gown of silk tulle.

"LET'S TALK DRY CLEANING"

By - WOODROW CASH
The average person buys clothes more for style and appearance than anything else (we won't get into the argument about whether women buy clothes to please men or to impress other women!) But there are factors in cut and construction which have a lot to do with the lasting attractiveness of your clothes.

Take, for example, "bias-cut" clothes. This is a familiar term in the clothing industry for a garment in which different pieces are cut and the direction of the yarn is at an angle where the pieces are joined, rather than running parallel.

Inferior bias-cut garments will tend to wear less well than more conventionally constructed fabrics. Since the pieces are woven in different directions at the point of joining, they may shrink unevenly or in different directions when cleaned. The better the garment, the more it will resist such pulling and shrinking.

Better dry cleaning techniques and equipment mean more thorough cleaning without injury to your valuable clothing. For the finest cleaning service it's ...

Garden Gate

BULB GARDENING
By Missa Circle
The person who described bulb growing or the culturing of bulbs, tubers and tuberous rooted plants, as "lazy man's gardening" may have been amusing and clever, but the remark is certainly guilty of oversimplification in this major field to the extreme.

Just as there are rather easy kinds of orchids, like the Phaius, which can be grown in a pot of compost under a tree in the back yard of Central Florida flower fanciers, there are others which require a special greenhouse with air conditioning, temperature and humidity controls and all the rest. The same with bulbs and tubers. One can spend a lifetime experimenting and enjoying many dozens of different, beautiful species and genera.

Some of these have been vastly improved by the hybridizer's hand, as the gladiolus, the amaryllis, the begonia, the dahlia, the achimenes, gloxinia, cannas, calceolarias, etc.
Others are still enjoyed in the forms they were found in the wilds of the several continents, as the zephyranthes, tuberosa, isomene, eucharis, watsonias, snowflake, blood lily, and agapanthus to mention a few which are important to sub-tropical gardens.

Some of these are yielding to the breeder's arts and giving us new and better adapted varieties and forms which will be popular in time to come. There are unlimited fields for the experimenter hybridizing possibilities to provide our gardens of the deep South with more beautiful and easier things to grow.

Beauty Project Now Underway

By Mona Grinstead
The North Orlando Garden Club has announced that residents of the village can begin work on their landscaping ideas for the spring if they wish to participate in the club's second annual beautification project.

Last year the club sponsored April as Beautification Month with judging of lawns and prizes awarded the first of May. This year judging will not be done until the first of June, however, club members urge all residents to start work now to help beautify the community.

BLOOD PRESSURE READING is taken through a special double stethoscope as Nurse Becky Brandon assists Jill West to take a test on Johnnie Gore in University of Florida Nursing School Laboratories. (Herald Photo)

Class Tours Nursing School

Nine members of the Biology II class at Seminole High School, accompanied by their teacher, Don Reynolds and faculty member, Mrs. Lois Higginbotham journeyed to Gainesville recently to tour the College of Nursing at J. Hillis Miller Memorial Hospital at the University of Florida.

All of the girls are interested in further academic studies in the fields of nursing of medical technology, and were shown the training and teaching facilities of the College of Nursing at the state university.

Graduate nurse instructor, Miss Susan Sexton, assisted by senior student nurses Miss Becky Brandon and Miss Mona Wise conducted the lecture tour of the nursing hospital, which include clinical training rooms, the children's ward, maternity ward, patient facilities, the Eye Bank, central reception room, medical students facilities, library and laboratories.

One of the most unusual aspects of the hospital were the dozens of study cubicles assigned to medical stu-

dents, each one just big enough to accommodate one student at one desk.

Following lunch in the hospital cafeteria, some of the students were asked to act the part of casual spectators and hospital visitors in a movie sequence which was being shot in the main lobby of the nursing school, where art exhibits were on display.

The three nurses outlined for the Seminole High School girls, the step by step procedure and courses of study which are undertaken at the University Hospital nursing school.

The students and teachers were accompanied by Herald reporter Dotie Higginbotham.

Students who took the uni-

versity tour included Carolyn Turner, Linda Mills, Linda Williams, Louise Higginbotham, Johnetta Gore, Peggy Powell, Roberta Rankin, Sandi Wright, Jill West and Jackie Lovelace.

Symptoms of Distress Arising from **STOMACH ULCERS DUE TO EXCESS ACID QUICK RELIEF OR NO COST**

Scout Hike, Cookout Held

Three patrols of Troop 302 of the Pinecrest Girl Scouts, including the Green Leaves, White Unicorns and Green Oaks went on a hike and held a cookout at the home of their leader, Mrs. Donald Jackson in Lake Mary recently.

Each patrol built a fire and the girls roasted hot dogs on palmetto sticks. Besides the 18 girls present, scout leaders, Mrs. Alex Blunden, Mrs. Phil Noqueria also attended.

Power Stressed
GAINESVILLE (UPI) —U. S. Air Force Secretary Eugene M. Zuckert says the United States must have the power to stop aggression at any level and win a war at any level.

VICTORY ODDITY
Only major victory that the American forces won on land during the War of 1812 was fought two weeks after the peace treaty was signed.
