On Wednesday, state legislators from the fifth district met in Tallahassee after agricultural interests, which had formerly supported Kelly, made it known they were seeking a new candidate for Congress.

Kelly is up for re-election this year. He has not as yet announced whether he plans to seek a fourth two-year term in the Congress. At this point only Seminole County Republican Executive Committee Chairman Bill McCollum has announced his intent to challenge Kelly for the GOP nomination for the seat in the September primary this year. The general election will take place in November.

State Sen. Vince Fechtel, R-Leesburg, said Thursday he is considering becoming a candidate for the Kelly seat. Diseased Boy Has Birthday

DURHAM, N.C. (UPI) - Ricky celebrates his third birthday Saturday, but doctors say there is little chance he will soon leave the Duke Medical Center isolation room where he has spent most of his life. He suffers from severe combined immune deficiency, a rare hereditary condition that stripped "him of the body's natural defenses from disease. In his three years, he has undergone five operations of the sort that has allowed his 7-year-old brother, who had

the same condition, to live a normal life. "From a clinical and physical standpoint, Ricky's condition is excellent," said Dr. Rebecca Buckley, a pediatrics professor at Duke. "But in spite of five transplants, his immune function is still insufficient for us even to consider letting him out of his sterile en vironment yet.'

Doctors say Ricky's condition is similar to that of David, an 8-year-old Texas child who has been able to graduate from a sterile plastic bubble to a type of space suit that still protects him from disease.

Considerable effort was required to reach the tree, usually, by leaping from log to log. The path that now leads to the tree was constructed by the Works Progress Administration.

In 1929 President Calvin Coolidge visited the tree, made a dedication speech and a bronze descriptive plaque was placed at the trunk of the tree. The plaque, along with portions of an iron fence were removed by vandals in 1945 and never recovered. In 1951, Senator M.O. Overstreet donated the tree and surrounding land to Seminole County.

Wednesday's dedication ceremonies are open to the public and interested residents are invited to attend.

Other pertinent data: Age: 3500 yrs. Foliage: Green Needlelike or Fern-like leaves. Diameter: 17½ Ft. Circumference: 47 Ft. Cones: Spherical, 1" diameter. Height: 138 Ft. Wood: Tan Color, Very durable. Board Ft.: Approx. 50,000. Cable: For conducting lightning. Flowers: Purple, Blossoms in early spring. Fence: Donated by Florida Federation of Garden Clubs.

The estimated age of the tree was determined by using an instrument known as an "increment borer". This instrument drills a small hole through the center of the tree, removing a core so that the rings of the tree can be counted. This method can be extremely accurate provided no deformities in the tree are encountered. The trunk of the tree is known to be sound, with the exception of about 20 feet from the top which is hollow. It is reported that the tree once stood 165 feet tall before it was damaged by a hurricane in

JEFFREY HART **Russia's** Implacable Hostility

In order to survive indefinitely, the Soviet Union must dominate its global environment. That brute fact provides the basis for implacable Soviet hostility toward every state outside its control.

And that is the reason "detente" will always be cosmetic — as, indeed, Soviet spokesmen constantly stated throughout the heyday of "detente."

And that is the reason it is an illusion to talk about Soviet "hawks" and "doves." Any such difference of opinion can only concern tactics. At the root of the whole matter is a fundamental fact, a fact so large that it seldom comes into focus in the West, but a fact that must occupy every Soviet strategist's waking moments. The Soviet system has failed. It annot compete in any but the military sense of the world arena. It produces nothing of importance that anyone wants to buy. Even

system inevitably will come under increasing pressure from the more dynamic systems around it. The Soviet consumers cannot be totally isolated from all sources of information, and they will want more goods. Present Soviet military power is largely quantitative. The neutron bomb, the cruise missile and other present or unforesceable new gadgets will exert qualitative pressure on the Soviet military machine. Soviet industry will become, at an accelerating pace, more and more primitive.

Recall that the static Maoist system in China was breached by a combination of newclass technocrats and nervous generals. Similar pressure is bound to be exerted on the creaking Soviet system.

The Soviet leaders therefore have two options, one theoretical and one actual. They , could recognize the complete failure of their system and junk the whole thing: dismantle the pentral planning structure, de-control both farming and industry, invite outside investment capital into the country, and move into the 20th century.

That will not happen, for reasons both moral and practical. Many Russians, not all freedoms of the advanced nations are

FLORIDA **IN BRIEF**

Skipper Of Ill-Fated Ship Decides To Tell His Story

TAMPA, Fla. (UPI) - The skipper of the ill-fated Coast Guard buoy tender Blackthorn has decided to testify before a Marine Board of Investigation looking into why the ship collided with the tanker Capricorn Jan. 28 in Tampa Bay.

That collision resulted in the largest peacetime accident in the Coast Guard's history when 23 of the Blackthorn's crewmembers died. Board Chairman Rear Adm. Norman Venzke said

Thursday he plans to call Ensign John R. "Randy" Ryan, the officer of the deck, and then the skipper, Lt Condr George Jim Sepel, whenever questioning of executive officer Lt. David B. Crawford ends.

Florida ERA Hopes Bleak

TALLAHASSEE, Fla. (UPI) - Miami Beach Sen. Jack Gordon had to give a bleak report when briefing President Carter this week on the outlook for ratification of the Equal Rights Amendment in Florida.

Gordon told Carter during a meeting of ERA drive leaders from several states he probably won't seek a vote on the amendment in the Senate during the upcoming session because the measure would be certain to go down to defeat as it has on four previous occasions.

"It won't come up unless we have the votes and right now we don't," he said in an interview with UPI Thursday. "Our thrust in Florida must be on electing new senators and representatives."

Rental Conversion Defended

TALLAHASSEE, Fla. (UPI) - A state official says Florida should not prohibit or severely restrict conversion of rental apartments to condominiums, even though it is causing economic and emotional traumas among senior citizens in South Florida.

Instead, State Land Sales and Condominium Director James Roth recommends the state pass laws to protect the rights of tenants during and after conversion and provides incentives to encourage construction of more apartments.

released Thursday. The economic and emotional trauma is intensified, Roth said, because tenants who don't want to buy are forced to because they can't find rental housing into which to move.

Oysters May Get Protection

TALLAHASSEE, Fla. (UPI) - The Legislature may be asked to close parts of Apalachicola Bay and prohibit septic tanks in Franklin and Wakulla counties to protect the famous Florida Panhandle oysters, according to Natural Resources Director Elton Gissendanner

Bad publicity about pollution and a few cases of illness in people who ate oysters from the two counties have cut sales so sharply that Gov. Bob Graham asked that they be declared disaster areas.

Representatives of the agencies decided at a threehour meeting called by Gissendanner Thursday to ask the governor and Cabinet to create and appoint the membership of a Taskforce on Shellfish Sanitation.

WASHINGTON (UPI) - Two FBI undercover agents spent 2½ years running a pornography business - and it enabled them to penetrate the highest levels of the underworld in the bureau's latest sweeping "sting" operation.

So convincing was the FBI's supposed porno mail order business that when hundreds of agents finally closed in to make 45 arrests Thursday, the nation's reputed top porno dealer dropped dead of a heart attack in apparent shock. Qualifying Race

Ricky Knotts, 28, of Paw Paw, Mich., died instantly from massive head injuries received in a crash against the inside retaining wall of the first turn during the second 125-mile qualifying race.

Knotts was pronounced dead on arrival at the Al Monaco Care Center by Dr. Cal Herron.

Knotts was competing in his first major event but had been racing 14 years, according to his father and crew chief, Richard (Dick) Knotts, Mr. Knotts said his son had been racing 14 years, since he was 14. He said he ran mostly in the midwest, on tracks in Michigan, Indiana, Wisconsin and Missouri.

Knotts ran the ASA circuit last year.

It was a battle down to the last foot in the first 125 mile qualifying as Neil Bonnett held off a strong challenge from cher for out number two. Sanford Coach Bobby Lun-Cale Yarborough. In a race that saw many lead changes between some of the nations top drivers, it was pure skill that put Bonnett where he was at the finish.

Buddy Baker led most of the laps during the wreck marred all-out dash for qualifying in Sunday's race. Baker who will sit on the pole for the Daytona 500 with a speed of 194.099 managed a 3rd place finish with Darrell Waltrip and Bobby Allison rounding out the top five.

In lap 26 the Waylon Jennings sponsored Oldsmobile driven by Gary Baker spun coming out of the fourth turn. Gary Baker was nipped by Jody Ridley then hit by John Utsman, Kyle Petty and Buck Simmons as well as putting out Don Whittington and Phil Finney.

Hike Marks Scouts' Birthday

This month marks the 70th anniversary of the Boy Scouts and the 50th for Cub Scouts. To celebrate this special occasion 170 scouts from the Seminole district took part in a Heritage Hike to learn more about the early history of Seminole County.

. 6

Hike chairman Dick Mamelee said numerous troops made the 8.5-mile trek and had a great time despite chilly weather. Leaving from Sanford Plaza, the boys stopped at four historic stations along the way. At Fort Reed they were given copies of an 1845 map and followed the old trail north to Lake Monroe. A knife and ax

display was on hand for the scouts at Speer Grove Park, and at Ft. Mellon Park an adult leader told the boys about the battle in which Captain Mellon was killed.

They also toured the Sanford Library-Museum when " they reached the lakefront. Canoeing, rope-making and a trip through Heart Park helped use up any energy left over from the hike.

The day was finished with a tour of the Sanford Fire Department, where emergency equipment was demonstrated and explained. "It was a tremendous success," said Mamelee, "and the boys had a great time."

'Danger' Kéy Element To Draw **Big Air Show Crowds** By DIANE PETRYK

Herald Staff Writer

Between 30,000 and 35,000 people are expected to attend the Central Florida Air Show at the Sanford Airport next month, and according to show publicist Larry Stanton, it's the element of danger that brings them out.

Stanton, who has performed on skydiving teams at many air shows, said only a very small percentage of the audience actually comes to see someone get hurt. "But a large percentage come to the show because there is a chance of that happening. They don't necessarily want to come in contact with it or see it before their eyes," he said, "but the element of danger is a drawing card definitely."

If all the danger could ever be taken away from a sporting event — such as the Daytona 500 stock car race — he said, "then I guarantee attendance would drop in half." Although there may be no increase in danger, Stanton said he expects attendance at this year's air show to in-

crease over the last show by 25 percent. Performing this year will be the U.S. Navy "Blue Angels" aircraft demonstration team, the U.S. Army "Golden Knights" parachute team, a Marine Corps "Harrier" hover-jet, the Eagles Aerobatic Flight Team and individual stunt pilots and jumpers. Two complete shows will be held, March 22 and 23.

Stanton explained that many individual's efforts go into making an air show and each person's reason for participating is "a shade different" he said.

He explained that if a jumper knows what he is doing he will be safe. Parachute failure is rare, he said. "But parachute failure is possible. That X-factor creates

a danger factor," he said. In addition to specialty acts, the air show will feature displays of aircraft from all the military services and

model airplane demonstrations. Gates open at 9 a.m. each day. The show begins at 1:30

p.m. and ends at 4 p.m. The air show is designed to provide exciting entertainment in a family environment and generate funds for many Central Florida charities, Stanton said.

The funds will be administered by the Sanford Rotary Club, sponsor of the show. Tickets are \$4 for adults and \$2 for children under 12. Advance tickets are \$3 for adults and children accompanied by parents admitted free. Advance ticket information can

be obtained by calling Tom McDonald at 322-4664.

departure to the central computer. Instead of recording a date of discharge, the machine entered a date of death.

And the Medicare machines have been unsatisfied ever since, without the name of an heir to Ms. Newson's estate. The letters keep coming. Orlando Regional Medical Center Medicare Clerk Lori Swank said as far as the hospital is concerned, Ms. Newson is very much alive.

"I remember talking to her" she said, adding records report only the date of discharge. The hospital never reported a date of death, she explained. All of this is not that reassuring to Ms. Newson, who only wants some way to convince the Baltimore computer she is alive and well, telling it to cease sending out envelopes addressed to "The estate of Mildred Newson."

Mildred Newson (left) has been receiving letters since September from Medicare asking for the names of the executors of her estate or her next of kin, so the federal insurance program can send out any benefits checks she may be owed. The Sanford woman, however, assures us she's alive.

zadeh warned Saturday that "nothing is mere announcement of the commission's definite yet" on arrangements leading to findings will not mean the "automatic" eventual release of the American hostages release of the American hostages, now in and acknowledged he is not sure how their 105th day of captivity at the hands of militants holding them will react to the U.N. militants. An acceptance of the findings by commission which will seek their liberation. "The formation of a commission is a first step," Ghotbzadeh told a news conference in Paris. "Things will stay as they are until the Kurt Waldheim's office said the commission commission finishes its work."

"There will be other steps, I hope," he said. But he added that the Iranian government does not see itself as "negotiating the question of the hostages with any govern- out with Iranian authorities but the panel's ment" and declared "no mediation will be accepted by us."

He told reporters Friday there would be no Waldheim. "automatic" release until all parties involved The sticking point obviously was when the were satisfied with the panels findings on release of the hostages would actually come. "crimes" of the Shah and said Saturday Iran Under Ghotbzadeh's formula, the panel could would not even begin considering their complete its work in eight to 10 days, then it freedom until the panel is formed.

But White House Press Secretary Jody prove the verdict. Powell said President Carter was "more optimistic now than he was several weeks Secretary of State Angostino Casaroli, ago" about a solution to the crisis. Carter also Ghotbzadeh said: "The hostages will not be canceled a planned weekend trip to Camp released until the inquiry commission has David, apparently to keep a close watch on announced its findings."
