By HOWARD W. BLAKESLEE  
Associated Press Science Editor  
CHICAGO, Nov. 29.—(AP)—When there's a thunder storm during the ragweed season asthmatics flood the doctor's office with calls for help.

This choking cough is usually attributed to allergy, but Dr. Max Samter, assistant professor of medicine, University of Illinois College of Medicine, believes he has a different explanation.

He says even asthmatics who remain free from coughing in an air-conditioned room are apt to have attacks during thunder storms. More attacks are likely to precede than to follow the storm.

These storm attacks, he says, occur regardless of the pollen count, which seem to bring attacks of coughing to some asthmatics sufferers.

Forty selected asthmatic adults were studied for several years at the Illinois College of Medicine. Most of these patients improved with anti-allergic treatment, but frequently attacks of asthma were brought on by non-allergic factors.

Dr. Samter and his associates have concluded that in most cases asthma starts as allergy but afterward in adults, attacks are often due to non-allergic causes.

In these cases, he explains, the attack is brought on by an alteration of the autonomic nervous system. These are the nerves which are not under a person's voluntary control. These are the nerves that alternately contract and relax the bronchial passages, as they work like bellows in breathing.

In asthma these passages contract, and then fail to relax. The mucous-secreting glands in the airways secrete too much. The capillaries, the hair-like blood vessels, leak plasma fluids into lungs to aggravate the suffering.

These studies set up a new target for asthma remedies. Recent findings of the group suggest that the pituitary and adrenal glands might exert control over the bronchial tree, either indirectly or through the autonomic nervous system.

The secretion of the hormones of these glands are often stimulated by the same factors, for instance excitement, which cause the attacks of asthma, and one of the theories to be explored is that asthma can be due to a lack of hormone balance.

The China Mail quoted Nationalists as saying Chiang had urged Li to resign if he persists in staying outside of China.

The newspaper said Chiang was reconciled to the fact his split with Li was irreparable. And that he wanted Li to renounce the office of president so he may resume power.

The letter, said the mail, also stressed that Li should not go abroad as acting president but as an ordinary citizen.

At the present time, with 350,000 of the National Guard in at the peak of its peace time strength, thought it has an "authentic strength of 618,000 men. These are broken down into 25 infantry divisions, 12 armored divisions, 118 fighter wings, 31 regimental combat teams, 43 anti-aircraft units and various field artillery, coast artillery, engineer, medical corps and cavalry units.

Capt. Dunn paid tribute to the achievements of the Guard in both the first and second World Wars and said their work compared favorably with the best regular army troops.

President George Touhy presided over the meeting. Visitors were introduced by Dr. A. W. Epps Jr., as R. A. Bell of Green Cove Springs, Arthur Brown of New York, Charles Martin of Lakewood, N. J., Art Rogers and Gene Blavia of Deland, C. T. McClung of Orlando, and Volie Williams, Jr. of Sanford.

### Actor David Warfield Has 83rd Birthday

NEW YORK, Nov. 28.—(AP)—David Warfield, who has lived most of his life in show business, was in the spotlight today as he celebrated his 83rd birthday.

"Don't remind me—it's just another day—and no celebration," he told an interviewer yesterday. "What really matters, he said, is how you live every day, every week, every month of the year."

Warfield, one of the legitimate theatre's greatest characters of past years, sat with twinkling blue eyes as he talked of his experiences in the theatre—starting in 1917, he remarked jokingly that "I moved in when I was two years old."

Results Of Worry

"Psychosomatic illness, one of a thousand different ailments this human flesh is heir to, is as common as the other 999 out together," says Dr. John A. Schindler in the Reader's Digest for December.

Psychosomatic illness is produced not by bacteria or a virus or a new growth, but by the worries and troubles of daily living. And it is not a disease in which the patient "just thinks he is sick."

Most disagreeable emotions produce muscle tightness, Dr. Schindler says. If you are angry, embarrassed or worried, you are tightening up muscles without knowing it.

About a third of all skin disease treated by dermatologists are produced by blood vessels in the skin reacting to anxiety or worry.

To avoid psychosomatic illness, cultivate cheerfulness in your attitude toward life and your fellow men, Dr. Schindler urges.

THE WORLD TODAY

The Anglican Archbishop of York (England), Dr. Cyril F. Garbett, advocates that America and Britain take the lead in calling on the nation of the world to pledge immediate and collective vengeance against any country using the atomic bomb.

Even more challenging is Dr. Garbett's idea that the western democracies should agree they never will use the atomic bomb against an enemy unless it has been used against them first.

So which will you have—an atomic bomb, an ordinary high explosive bomb, or a high explosive shell from a big gun?

for a month with high explosives than it is to wipe it out with one atomic bomb.

That's not an argument for the forgoing atomic bomb. Outlaw it by all means. But at the same time outlaw all other weapons. Outlaw war altogether.

Have you seen any of European cities which were destroyed by bombing during the last war? Well I've toured through a lot of them which were virtually reduced to rubble. Untold numbers of people were killed or injured in these bombardments.

All that was done with high explosive, either by bombing or gunfire. No atomic bombs were used. Instead of quick destruction and death, there was the agony of day and night bombing for a long period.

The same thing, on a smaller scale, was true in World War I. Most of the devastation then was by gun fire, but there was no more life of the bombarded cities than there was in the last war.

Let's have peace-not regulated by the use of atomic weapons. Let's have peace-not regulated by the use of atomic weapons.

Mouse Runs Up Clock, Clock Runs Down

PETERHAM, Mass., Nov. 30.—"Hickory, dickory, dock. The mouse ran up the clock. The clock said—"

And that's just what happened—or didn't happen. The big clock in the Peterham Unitarian Church steeple didn't strike one, in fact, it didn't strike at all.

Janitor Kenneth Clark wondered why the clock had stopped announcing the hours, although the hands were indicating the correct time.

His inspection showed the mouse had stopped the striking bolts as bad as another. The purpose of war is to knock out your enemy in the quickest way possible under the current international laws governing conflict with arms.

### Presbyterian Church To Have Music Hour

The First Presbyterian church at 7:30 P. M. on Dec. 11 will be the scene of an all-music hour of worship signaling the opening of that church's special observance of the Christmas season, the Rev. A. G. Melton, pastor of the church announced.

The church choir of 20 voices and the Youth choir will present the program under the direction of Mrs. George Tooley, Minister of Music. This will be the first time that these talented groups have appeared together in a period of worship, although each takes a definite part in the regular services, the Presbyterian preacher said.

Various highlights of the Christmas story will be the pupils under which the appropriate music will be presented and will include "The Prophets," "Crib Things," "The Birth of Jesus," "The Shepherds," "The Angels," "The Manger Bed," "The Gift of the Shepherds" and "The Christmas Carol." Mrs. C. C. Henderson, flower chairman for the church, has said that a talented committee has been designated to decorate the sanctuary in a manner that will complement the candlelight services.

# Feds, Hounds Clash Here In Charity Grid Tilt Thursday

### Lightweight Celery Fed Squad To Unveil New Aerial Attack: Game Time Is 7:30

By OLAF ZEVADESKI  
 Sanford football fans will have a chance tomorrow night to "pre-view" next seasons Celery Fed grid strength when Coach Fred Dana's sophomores and freshmen meet the Lyman hounds in the annual Kiwanis Charity tilt. This crop of promising young gridlers will compose nearly the whole of varsity Coach Carl Ketter's football squad next year, and though they are very lightweight, they are fast and eager to play.

The recent season will be the last for such top players as, Charlie Anderson, David Russi, Don Smith, Charlie Lanning, Bob Harris, "Peanut" Galloway, E. H. Smith, Edson Myers, George Swann and Charles Thomas who either graduate this spring or have used up their eligible playing years.

The Kiwanis club sponsors their annual game as the easiest and most entertaining way to raise money for its charitable projects. All of the money raised in this manner goes into a fund to buy clothes for a needy child, or toward dental work for some boy or girl whose parents are unable to afford the money themselves. The Kiwanis has recently footing the bills for a youngster's leg operation which might enable him to walk and run again.

The Florida Power and Light Company has donated the lights for the game and the opposing teams plus the land and cheer leaders have all given their cheer for the night, free of charge in order that all administrative money can be used for underprivileged children.

The Grayhound gridmen will be headed by Coaches Hugh Carlton and Jim Payne, both familiar names to most Sanford citizens. Carlton, a former Sanford resident went to Seminole High School and played for the Celery Fed before entering the Lyman school in both football and baseball.

Jim Payne comes from Longwood, but baseball fans will remember him for the 7 inning, nine ball game he pitched against Gainesville while with the local club in 1946.

Team rosters are:  
 Sanford—Eads: Gordon, Gano, Hardin, Tackles: Booth, Graham, Brodie. Guards: Cordell, Lee, Center: Wheelock. Backs: Stenstrom, Justice, Harrison, Lockett, Taylor, Hutchinson, Oglesby, Jackson, Longwood: Ends: Jackson, Snyder, Hurlbert, Trebles, Tackles: Cartier, Ansley, Thomas. Guards: Shennard, Rosh, Miller. Centers: Winkle, Greer. Back: McLearn. Righter: Walker, Helms, Young, Newman, King.

## 'Ears' Whitworth Takes Spread T, Scouting Ability To Oklahoma

STILLWATER, Okla., Nov. 30—(AP)—J. B. (Ears) Whitworth, a veteran of Southeastern coaching ranks, eyed the Southwest today for his football future. The affable Arkansan, line coach at the University of Georgia since 1939, was appointed head coach at Oklahoma A. and M. College yesterday.

He succeeds Jim Lookabaugh, who resigned after 11 seasons as headman of the once-potent Cowboys.

Terms of Whitworth's contract were not announced by Oklahoma A. and M. officials. In Atlanta, Whitworth confirmed he had agreed to a three-year contract. The salary was reported unofficially at \$12,500.

Whitworth is due to arrive here Friday to sign the contract. He will take over immediately. Athletic director Henry P. Ha said the new Aggie coach will have full say in the selection of his assistants.

He will take over an important role in modern football, as practiced by

## Dottley Leads Total Offense In South East

ATLANTA, Nov. 30—(AP)—Mississippi's powerhouse fullback John Dottley has pushed himself and his team to the top of the Southeastern Conference in total offensive figures.

The only possible threat to Dottley's standing is Auburn's Travis Tidwell who plays against Alabama Saturday in the final conference game.

The Mississippi team, with an average total offense of 586.4 yards, can hardly be topped by either Auburn or Alabama which are well down in the pack on total offensive yardage.

Dottley gained 1312 yards this season, all of it rushing. Second to him in total offensive power is Tulane's Eddie Price. Tidwell and a total offensive figure of 1073, and only a really good day against Alabama could put him in the lead.

Tidwell's Auburn however has the league's passing title. The Phoenicians averaged 138.8 yards per game in the air. Tulane is second in the air with an average of 103.5. A bad day against Alabama might bring the Auburn average down and give Tulane the nod in the final figures.

Kentucky, which features the best conference passer in Vito (Haber) Parilli, ranks fourth among the teams in passing. Mississippi is second and Vanderbilt third.

The two surprise teams in the Conference—Kentucky and Louisiana State—are one and two in team defense. Kentucky is well out front. Coach Fred Bryant's team has given up an average of only 152.8 yards per game this year. In second spot, LSU has yielded 215.3 yards per game.

The game will begin at 1:30 P. M. with Copeland displaying the correct technique and will be followed by a singles match between Miss Fry and Miss Hart. A mixed doubles match will conclude the afternoon program.

## South's Ace Grid Stars Named To Blue-Gray Roster

MONTGOMERY, Ala., Nov. 30—(AP)—A complete 24-man roster has been announced by Southern coaches for the annual Blue-Gray All Star football game here Dec. 11.

The addition of four players yesterday rounded out the Gray squad which will be under the direction of head Coach Blair Cherry of Texas and his assistants, Rube McGray of William and Mary and Raymond "Bear" Wolf of Florida.

The northern squad, coached by head Coach Ray Eloit of Illinois and assistants Rip Eagle of Brown and George Munger of Pennsylvania is expected to be completed later in the week.

The roster lists Southern roster:  
 Ends—Dick Sheffield, Tulane; Rebel Steiner, Alabama; John Poulos, Clemson; Ray Stone, Texas; Cliff Coggins, Mississippi Southern.  
 Tackles—Holand Dale, Mississippi; Lou Creekmore, William and Mary; Jim Champion, Mississippi State; Max Brown, Texas; Jimmy Crawford, Mississippi; George Hughes, William and Mary; Roger McAuley, Texas Christian.  
 Centers—Jimmy Kynes, Florida; Gene Moore, Clemson.  
 Backs—Randall Clay, Texas; Bill Cadenhead, Alabama; Travis Tidwell, Auburn; Eddie Price, Tulane; Charlie Busainger, Florida; Jack Cloud, William and Mary; Buddy Lex, William and Mary; Jack Archer, Texas Christian; Truett Smith, Mississippi State-Winning.  
 Archer and McAuley replaced Baylor's Adrian Burk and Truck Stone when Coach Bob Woodruff of Baylor accepted an invitation to coach in the Miami all-star game.

## Eddie Copeland, Doris Hart To Hold Stetson Net Clinic

DELAND, Nov. 30—(Special)—Eddie Copeland of Daytona Beach, who ranks 18th nationally in professional tennis circles, has been chosen to conduct a tennis clinic Saturday afternoon on Cummings Courts of John H. Stetson University, according to Miss Sara S. Jernigan, head of the department of physical education for women.

Copeland will team up with either Shirley Fry or Doris Hart, both nationally-ranked women players, to play the other expert, and Robert Kurland of Nutley, N. J., who ranks third nationally in junior boys circles.

Tennis instructors and public school students in the Deland area have been invited to attend the clinic and exhibition as guests of the University. A small fee will be charged others. Stetson students will participate as part of the student activities program.

Copeland was tennis coach at Rollins for the past four years. He now is in business in Dayton

## Gator Cagers, Irish Voted Top Team In Nation, Oklahoma Is 2nd

### Five Veterans Return To Florida Squad; FSC Rated Strong

GAINESVILLE, Fla., Nov. 30—(SPECIAL)—Florida's basketball team opened their 1949-50 cage season Thursday night when Coach Sam McAllister's hoopers invade Lakeland for their opening season clash against Florida Southern.

The Gators will field a squad made up predominantly of sophomore talent, though there are five letter winners returning to this year's team.

Veteran Saurian cagers include Hans Tenzler, lanky senior from Jacksonville; Julian Miller, senior guard hailing from Pensacola; Henry Cornell of Lake City; Ted Jaycox of Ocala; and Bill Godwin, Delray Beach.

McAllister's quintet will depend a great deal on sophomores Frank Harry, Pompano Beach; Lou Garcia, Tampa; Bob Petersen, Dick Weller, Harold Schulman, and Frank Guthrie of Miami; Harold Bert, Havana; Harry Moore, Plant City; and Steve Powell, Ft. Lauderdale.

The Gators turned in an '11-15 record last season, but McAllister stated his squad should show improvement if sophomore talent comes through in good fashion.

Tenzler and Miller were two of the leading scorers in the Southeastern Conference last season, Tenzler racking up 306 counters, while Miller poured 303 tallies through the net. Harry Hamilton, leading scorer on last year's squad, is not back in school this season. Bill Atkinson, last year's captain, graduated in June.

After the Southern encounter, the Gators come home Saturday night to open their home state with a SEC game against Mississippi State.

## College Of Pacific Can't Find Bowl Opponent; Villanova, Baylor Refuse

NEW YORK, Nov. 30—(AP)—Four more of the smaller bowls have completed their lineups. This leaves only three announced post-season college football shows still shopping for talent.

At the same time two efforts to land unbeaten, untied College of the Pacific in a bowl attraction met failure.

The four bowls to finish their programs were the Raisin at Fresno, Calif., the Salad at Phoenix, Ariz., the Little Rose at Pasadena, Calif., and the Texas Rose at Tyler, Tex.

Texas Tech accepted an invitation to meet San Jose State in the Fifth Annual Raisin Bowl, Dec. 31. This brought a rebuke from the Sun Bowl at El Paso, Tex., which announced it would no longer be obligated to invite the leader conference champion.

The Sun Bowl has signed Georgetown and Texas Western in its place.

Arizona State accepted a bid to meet Xavier University of Cincinnati in the Salad Bowl Jan. 2.

The Fort Lewis Aggies of Colorado were picked to play Tyler, Tex., in the Texas Rose Bowl. Santa Ana, Calif., Junior College will meet Little Rock, Ark., Junior College in the Little Rose Bowl game Dec. 10.

Bowls still looking for teams are the Gold Dust Bowl at Vallejo, Calif., the Sunshine Bowl at Jacksonville, Fla., and the Harbor Bowl at San Diego, Calif.

Meanwhile, two proposed post-season games for College of the Pacific blew up.

The great club at San Francisco wanted to match College of the Pacific and Villanova in the Press Bowl at San Francisco Jan. 2. Villanova turned down the bid.

Then it was announced the Pacific boys and Baylor had agreed to meet at Sacramento Jan. 2. Baylor said it isn't so.

The other bowl news of the day concerned an early quotation of odds on the big games. They were:  
 Rose—California 6 points over Ohio State.  
 Sugar—Oklahoma 7 points over Louisiana State.  
 Cotton—Rice 7 1/2 points over North Carolina.  
 Orange—Kentucky, 2 1/2 points over Santa Clara.

## Leon Hart Honored With Heisman Trophy

NEW YORK, Nov. 30—(AP)—Leon Hart, Notre Dame's giant end, is leaving little room for argument that he is the outstanding college football player of the 1949 season.

The six-foot-four, 265-pound wingman was an overwhelming winner today of the Heisman Trophy.

The trophy is awarded yearly to the performer selected as the best player in the country by a panel of sports writers and broadcasters.

The Turtle Creek, Pa., lad was an overwhelming choice for this year's Heisman award. He scored a total of 995 points, compared with 372 for the runner-up, North Carolina's All-America halfback Charlie (Choo Choo) Justley.

Papyrus, from which ancient Egyptians obtained paper, is a strong, reddish sedge found growing in the Nile valley.

a total of 995 points, compared with 372 for the runner-up, North Carolina's All-America halfback Charlie (Choo Choo) Justley.

## Boxing Champ Ike Williams Suspended

WASHINGTON, Nov. 30—(AP)—World's lightweight boxing champion Ike Williams of Trenton, N. J., was suspended today by the National Boxing Association.

The suspension was at the request of the California State Athletic Commission. The State Commission said it would not recognize Williams until he honors a contract for a contest with Bernard Doppen or reimburses the Los Angeles Olympic Club for \$20,000 spent on the proposed contest.

The suspension means Williams will not be able to box under NBA auspices. The NBA covers all fights in the United States except New York.

## Parade To Welcome Golfer Middlecoff

ORMOND BEACH, Nov. 30—(Special)—A motorcade with band playing, pretty girls, town officials and staff members of the Ormond Beach Hotel and Country Club will greet Cary Middlecoff, National Open Champion, on his arrival at Daytona Beach on December 2nd.

Middlecoff is scheduled to give exhibition golf match at the Ormond Beach Hotel and Country Club and course, December 1st, officially opening the resort for the 1949-50 season. Middlecoff, 34, will play against Frank Sneyd and Wilford Wehrle. Sneyd has been named as opponent and will be travelling prospect for Ormond.

## Florida To Hold Bait Casting Contest

GAINESVILLE, Nov. 30—(Special)—An all-campus skish tournament, the first ever held on the campus of the University of Florida, will be conducted in the Florida Gymnasium at 7:30 P. M. December 1st.

Skish is to fishermen what skeet shooting is to hunters, and the sport has been gaining supporters at the University of Florida in recent months.

Entries thus far in the tournament are from the University of Florida, the Casting Club, the University Sportsman's Club, and from non-credit bait casting activity classes conducted by the College of Physical Education, Health and Athletics.

## Florida Alumni Quiet On Coaching Uproar

OCALA, Nov. 30—(AP)—Deciding to follow a hands-off policy, members of the Marion County Alumni Association yesterday voted to rescind a resolution drawn up on Monday that requested the retention of Coach Ray (Bear) Wolf in some capacity at the University of Florida.

Yesterday's meeting was called after several local members registered protests over the Monday resolution that was prepared by a handful of the Association's membership who were acting in good faith and felt they were expressing the sentiments of the entire membership.

## REBELS CHANGE NEW YORK, Nov. 30—(AP)—It looks like the All-American Football Conference will be an eight-team league in 1950. Commissioner D. G. Fleming of the A-A-C announced yesterday that Richmond (Va.) Rebels of the American Football League are seeking membership in the conference. He said he had received

**7th Day Adventist Church Has Drive For Mission Funds**

Members of the Seventh Day Adventist Church of Sanford recently started their annual "Harvest in gathering" work in concert with the denomination's world-wide missions appeal for public contributions to relieve need and suffering at home and abroad.

In this great undertaking they contribute heavily of their own means and accept gifts from the general public. One half of the proceeds are used in the homeland, the other half abroad. With a very small local membership, Sanford church members are expected to contribute more than \$800 through this agency within the next few weeks, with more than 50 percent coming from their own pockets.

Their Sanford church members carry on a growing missions work in Sanford and environs. Through the Church Society and Singing Band, visits are made to local prisons, the hospital, the home for the aged and other places at regular times, endeavoring to carry cheer, hope and help to the lonely, needy and suffering. Through these agencies the church has given to needy persons in and about Sanford this year more than 100 articles of clothing; \$50 in cash; 50 liberal baskets of food and 11 medical treatments of various kinds. It has thus contributed to and helped more than 73 persons in more than 120 hours of Christian help work, the total cash value of which is more than \$125.

World membership of the Seventh Day Adventists is more than 670,000, of whom 235,460 are in the United States and Canada. The Church is established in 228 of the 282 countries listed in the "World Almanac" and the "Statesman's Yearbook."

In addition to churches, the denomination maintains schools, such as the Forest Lake Academy near Forest City in Seminole County, hospitals and sanitariums such as the Florida Sanitarium at Orlando, treatment rooms, publishing houses, book companies. They now have 661 such institutions around the world.

Tithes and offerings of members last year amounted to \$136 per capita and more than \$2,500,000 in North America. In the past war years Durans Societies have sent nearly 3,000,000 pounds of clothing to the needy in more than 40 countries. Church publications are printed in more than 800 languages, and dialects, and go to almost every known part of the earth.

### All Labor Banned To Business Men In Czechoslovakia

#### Communist Labor Leaders Call General Strike Of Italians

LONDON, Nov. 29.—The anti-Communist free world labor conference today invited 1,500,000 West European Catholic Union Workers to join the new international. The vote, 48-3, came only one day after the Communist leaders called a general strike to rally the Catholic workers on the side of the Communists.

By ASSOCIATED PRESS  
Prague's municipal ruling council announced today that no new labor would be allowed to private enterprise.

It also decreed that workers now engaged in heavy industries and mining are to be virtually frozen in their jobs. The measures, published in the newspaper Mlada Fronta had two apparent motives:

1. To supply needed manpower and increase production in essential industries.

2. To hasten the liquidation of remaining private enterprise, the "remnants of capitalism."

The council also ordered that manpower be shifted from administrative and other white collar jobs to the mines, factories, agriculture and forestry.

The Prague Central National Committee said that no worker now engaged in mining or the steel, heavy machinery, automobile and airplane industries might henceforth quit his job, even with the approval of his factory director.

Meanwhile in Rome, Communist labor union leaders called on 8,000,000 Italian workers to go out on a 24-hour general strike tomorrow in angry protest against the slaying of two peasants in a clash with police.

The executive committee of the Communist-led General Confederation of Labor (CGIL) ordered the strike to begin at 8 A.M. Thursday.

Interior Minister Mario Scelba, two-fold chief of Italy's riot-trained police, said the government will not accept a general strike. The anti-Communist Free Labor Confederation (FLC) said its 1,000,000 members not to support the walkout.

Communist union leaders called the demonstration to protest against the police clash with peasants "squatters" trying to take over farmland near Bari yesterday. A government communique said the pair were killed when police "involuntarily fired a volley from a sub-machinegun" at an angry mob.

In Hong Kong, it was reported Communist troops had entered Chungking, the Chinese capital as Nationalist warships and planes went into action against Red coastal positions 100 miles south of Shanghai.

A dispatch from Chungking to a Chinese newspaper here said 20,000 Red troops crossed the Yangtze at 1 A.M. Tuesday, local time, and entered the outskirts of the third Nationalist capital brought under Communist guns this year. A second Red force occupied Kiangshen, three miles west of Chungking across the confluence of the Yangtze and Kiang River.

Nationalist navy headquarters said planes and warships had been pounding Red troop and shipping concentrations south of Shanghai for three days. The air-sea attack is an effort to forestall an expected invasion of the Chusan Islands, off Hangchow. The planes, the Navy said, attacked by day and destroyers swept the Communist areas at night.

These developments came as growing dissatisfaction with the Reds was reported North China where the Communists have ruled for a year.

Sofia, Bulgaria, former Communist Vice-Premier Traicho Kostov and 10 others were indicted by Bulgaria's Communist-dominated government on charges of treason, spying and economic sabotage.

They were accused of having worked with Yugoslav agents and American and British intelligence services.

Kostov's trial on such charges has been expected. Similar trials in other countries in the West, where have been named as "traitors" in support of Premier Marshal Tito of Yugoslavia.

Hungary's Communist government accused Communist foreign minister, Laslo Rajk, convicted of espionage charges.

The Communist Party (CP) today announced that it had won a major victory in the election for the House of Representatives.

cluding:

1. The British government has promised to keep the United States informed of developments on possible recognition of the Chinese Communist regime but has not said that it has any plans for recognition. Acheson said he therefore supposes there is no plan in existence.

2. Most of the 30 nations which the United States asked to protest to the Communists against their detention of Ward are taking that action. Acheson made clear that even though Ward is no longer in jail the United States still hopes the protests will be made.

3. Acheson ruled out any steps by this government on the question of possibly recognizing the new government of President Arnolfo Arias in Panama until the situation has been clarified. He called the recent government upsets in Panama a "deplorable disruption" of democratic procedure.

4. Negotiations with eight Atlantic alliance countries in Western Europe for agreements under which they will receive \$1,000,000 worth of American arms and military aid are in the "final stages." Arrangements for sending arms to Europe "will likely be expedited" as a result of plans for the integrated defense of the North Atlantic area now being worked out at Paris.

5. The United States will "abide faithfully" by a recommendation which the United Nations general assembly adopted Nov. 18 calling for the member nations to embargo arms shipments to Albania and Bulgaria because of their aid in Greek Communist guerrillas. The American position on the Chinese Nationalist blockade of Communist-held Shanghai was discussed by Acheson in a carefully worded statement. Later he supplemented the statement somewhat in response to questions.

development, for the development may be long delayed otherwise and government participation is justified by sound national interest reasons.

He said the jet plane, in its present stage of development, shows little likelihood of replacing current type planes because it is unable to operate with greater speed. He added that the jet engine is more important in its promise for tomorrow than in its contribution it can make today.

W. A. Patterson, president of United Air Lines, told the group that "at long last, the airlines today are able to talk about the year-round dependability of their operations. It is a new era in fast-moving business. It is to make long-range predictions—but I am sure that the gentlemen at this table will agree with me when I say that all-weather flying is not too far away."

Ralph R. Damon, president of TWA, said 1950 will see the greatest trans-Atlantic airlift in the history of the world.

He said the holy year, currency devaluation and the welcome awaiting Americans overseas will combine to set travel records.

arrive at the home of the young parents this morning just at the moment when the child, Angie, was receiving a call from his mother.

"I don't know where I am," he said. "I feel terrible. I have a terrible headache," the youth moaned over the phone.

De Blasy spoke to his next door neighbor, where he was. He said he had slept during the night in a corner.

Finally, Mrs. Angle, his mother, persuaded him to a drug store for a check-up. He was at a drug store on South Division Road outside the city limits.

De Blasy notified police headquarters and then dashed to the scene and sped south on the highway. He shot himself seconds before his arrival.

Angie, 23, neither seen nor heard from since he was shot.

Police said they intended to check the bullet which was found in the room where Angie was shot. The shooting of Lawrence last night could be a part of a series of marriages. Friends said that both were under police guard and had heard a gunshot from the room where Angie was shot.

De Blasy was arrested in that room.

### Ralph Jordan Of Georgia To Fill Line Coach Spot

ATHENS, Ga., Nov. 30.—(AP)—Ralph (Sug) Jordan, former Auburn football and basketball star, and until last night Georgia basketball coach, has been moved up as line coach to replace J. B. (Kara) Whitworth.

Whitworth accepted an appointment last night as the new head football coach at Oklahoma A. and M.

The University of Georgia's head football coach and athletic director, Wallace Butts, named Jordan last night as he outlined several changes in the coaching set-up at Georgia.

Butts said that Quinton Lumpkin would either remain as freshman coach or move into Jordan's old football spot as assistant line coach.

Jordan would have to give up his basketball coaching job, Butts said.

To fill Jordan's basketball coaching job, Butts added, he would probably hire someone to double as both basketball and baseball coach. At least one more addition to the coaching staff will also have to be made since no one has been hired at Georgia since Elmer Lampe went to Dartmouth for basketball coach and J. Sikes departed for Kansas as football coach.

Charlie Trippi has acted as baseball coach for the past two seasons.

Butts also said that Jordan's elevation would make it necessary to get a capable scout. He claimed Jordan was "one of the best" but that his new job would keep him with the team.

Butts praised Jordan as long deserving the promotion and as one of his "finest assistants since coming to Athens."

Jordan coached at Auburn before World War II and after the war he was for a time with the professional Miami Seabawks. He came to Athens in October, 1946.

### Hollywood

HOLLYWOOD, Nov. 30.—(AP)—Today I am turning this space over to Bob Euston, just returned from the AP Paris Bureau. He has an unusual tale to tell:

Coming home after seven years overseas for the Associated Press, I received my biggest shock in finding my 15-year-old niece a glamorous full-grown movie star.

The last time I saw Joan, she was climbing trees in my brother's backyard at Scarborough. She was around little brown-eyed girl of eight whose greatest delight was being washed in a spring.

The big change has come in the last year, says my brother, Dale Euston. The family name was swapped for Joan's grandmother's maiden name of Evans. "This recalls the same initials and rhythm," Joan's mother points out.

Joan Euston's hair was dark and thick. Joan Evans' hair is reddish and at present cut very short and Parisienne.

"This new fringe of red hair highlights for the camera," her hair dresser at Samuel Goldwyn studio explained. "It's a change ordered by Mr. Goldwyn himself—to make Joan look older."

This recalls my first conversation with Goldwyn. Introduced to the great producer as recently returned from Paris, I expected questions dealing with DeLiaise, Communism or at least the Marshall Plan. Goldwyn fooled me.

By sticking in pears, cottage cheese, lettuce leaves and tea, Joan has lost her baby fat and become beautifully slim. Her mother believes Joan's personality has changed, too.

"She was always high-tempered, bossy and opinionated," says her mother, Katherine Albert. "She learned that aging costs money on a set, so she keeps her opinions to herself and listens to the director."

During the first year Joan also received her first kiss from Erley Granger in "Roseanna McCoy."

Was honored when a McCoy family in Los Angeles named a daughter Joan Roseanna.

Was voted Miss Hayride of 1949 by Phi Alpha Fraternity and "The Girl We'd Most Like to Have Visit Us On A Football Weekend" by Alumni Hall at Notre Dame.

Had her lips named among "The Most Kissable in Hollywood" by a makeup man.

Traveled 8,500 miles for personal appearances.

Answered by five radio shows and four magazine covers.

Was the subject of 23 magazine articles and receives 300 fan letters.

You'd think that a 15-year-old girl would react on such publicity and fame. She is not only beautiful but also a very intelligent young woman. She has been named "The Most Beautiful Girl in the World" by a magazine. She has been named "The Most Beautiful Girl in the World" by a magazine. In television an actress with blond hair is called a "blond head." That's because this tint tends to cause flares in the camera.

### Alex Groza Boosts Cage Scoring To 24 Points A Game

NEW YORK, Nov. 30.—(AP)—The National Basketball Association today offered two interesting features:

1. Alex Groza's ability to score points.

2. Denver's inability to win games.

Groza, center of the Indianapolis Olympians in the pro circuit, had been figured to retain little of his 20.8 scoring average attained last season at Kentucky, which placed him sixth among the nation's leading college scorers.

But the six-foot seven-inch center, huffed the skeptic.

Today he ranks first in the 17-team league in scoring with 33.3 points. That's 71 points better than Minneapolis' George Mikan, who is second with 31.2.

Furthermore, his average has jumped to 24 points per game. Last night, Groza led the Olympians to a 92 to 76 victory over the Tri-City Black Hawks, snatching the basket for 28 points at Indianapolis.

The triumph gave Indianapolis an even split in 16 NBA games this season and left it three games behind the western division pacemaker, Anderson.

The Nuggets' plight is pathetic. They've dropped 16 games in 17 starts, including their first 15 in succession.

They possess only 59 percentage points in the standings and are a hopeless 10½ games behind Anderson.

Philadelphia smashed Denver's winning streak last night, edging the Nuggets, 57 to 56. Leo Mogus' free toss with 30

arms aid to Europe have cost during the past year, he declared, as pointed out that military expenditures for the year have amounted to more than 15 billion dollars.

"I do not think we will have war," he asserted, and added that what concerned him the most was loss of foreign trade of this country.

He revealed that he would announce his candidacy for re-election by next February.

Turning to state and local issues, he pointed out that Florida's only way to contribute 15 cents on every dollar in the \$208,000,000 flood control project in 1950.

The government of the United States has been Florida's friend, he declared.

Referring to recent channel improvements in the St. Johns River, he said that he had also been advocating a channel to the Indian River. Defending the cost of the Florida flood control program, he pointed out that floods during a two-year period cost growers and cattle raisers of Florida more than \$200,000,000.

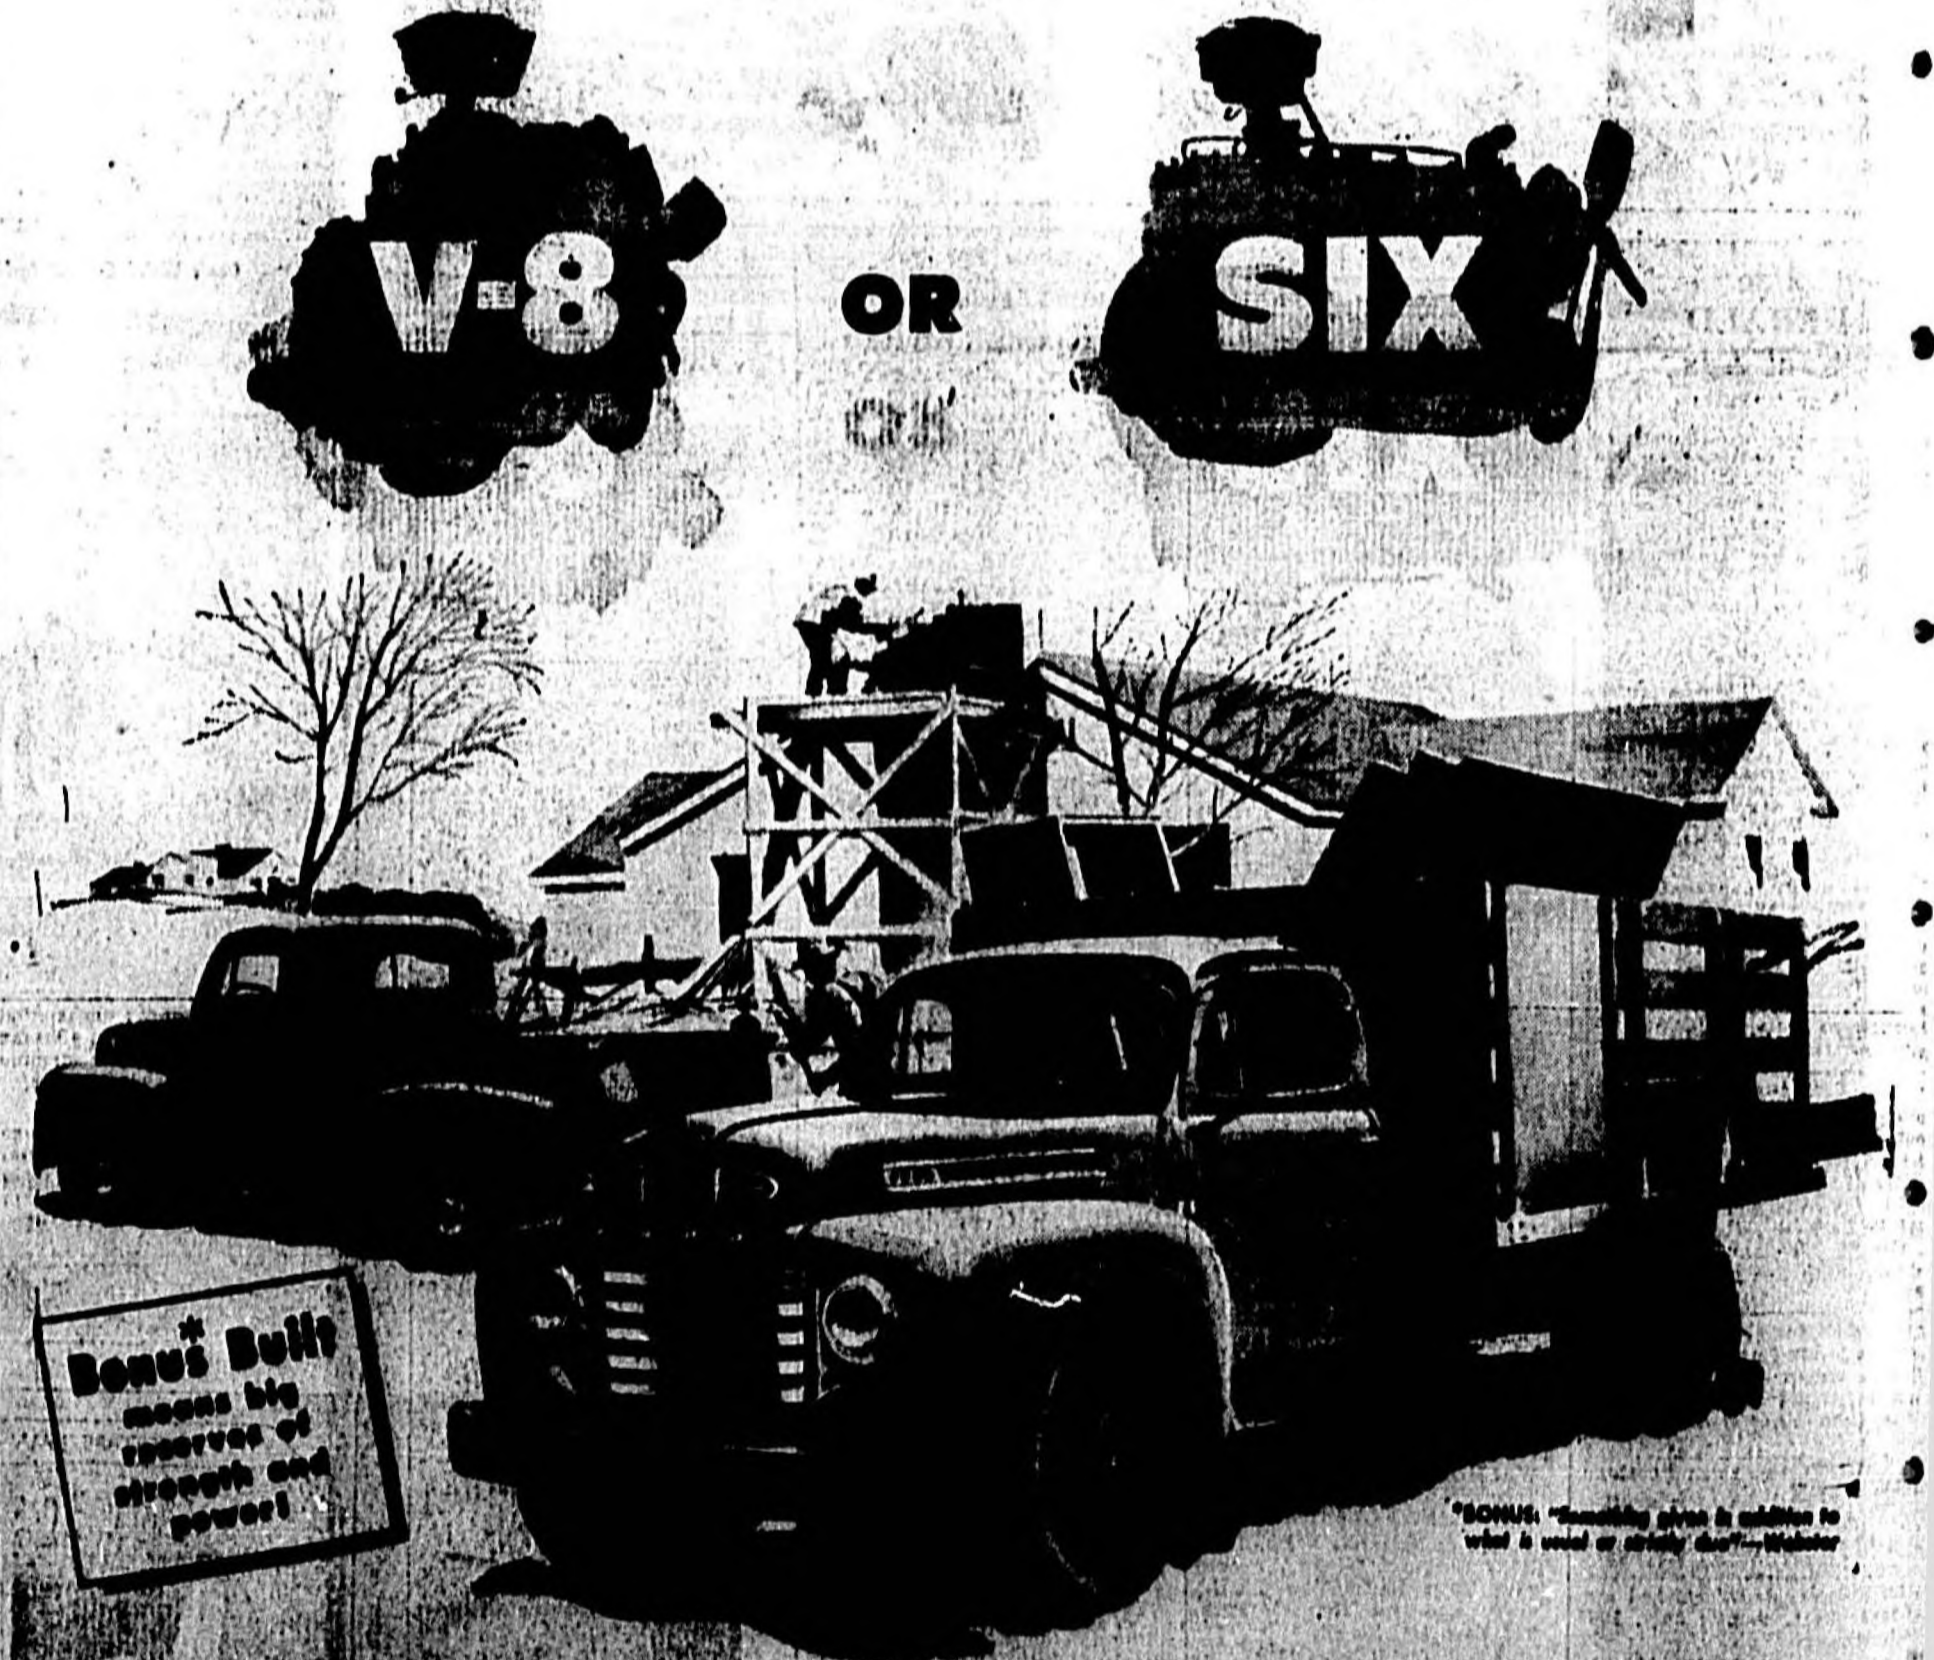

Speaking of "prosperity week" and the growth of Florida since 1940, he pointed out a population gain of 31.4 percent during that period, as compared with the national average of 12.9 percent.

Bank deposits in nine years have risen in Florida from \$454,400,000 to \$1,853,875,000, he stated, and income received by Florida residents from all sources had risen from \$219,000,000 to \$2,762,400,000.

Per capita income received by Floridians from all sources rose from \$48 to \$1,137, he stated.
