

FIRE FIGHTING APPARATUS WILL REDUCE THE RATES OF INSURANCE IN SANFORD

New Pumping Truck Will Give Plenty of Water at All Times AVOIDS DISASTER

THAT WOULD FOLLOW THE BURSTING OF WATER MAINS IN BIG FIRE

The City Commission received bids on October 7th from the American LaFrance Fire Engine Co., White Motor Co., and the Bryan-Wheeler Co., on a triple combination motor fire apparatus, and after careful consideration the bid from the American LaFrance Fire Engine Company was accepted for a triple combination pumper, Model No. 75, having a capacity of 750 gallons of water per minute, a 35-gallon chemical tank, with a body carrying capacity of 1,000 feet of standard fire hose. This piece of apparatus is very much needed from the fact that Sanford has a four story building, the Valdez Hotel, and our present water supply would be ineffective, but with this pumper water can be taken from the present mains at domestic pressure and this pumper will supply two heavy streams with sufficient force to throw water over our tallest buildings.

By the addition of this pumper the city can have an unlimited supply of water from Lako Monroe and other sources of water supply that may be available.

The Southeastern Underwriters' Association agreed to give us a reduction in insurance of 5% per hundred on all insurance policies now in force or hereafter written after this pumping apparatus is installed. This saving alone to policy holders will amount to over \$4,000 per year on the present amount of insurance in force in Sanford, not counting corporation insurance which is carried by themselves.

This piece of apparatus will cost the city \$12,500.00 with payments distributed over a period of five years, one-fifth to be paid per annum, interest at 6 per cent, which is below the rate of interest bonds would sell at this time.

This engine is the very latest creation in fire fighting equipment, and it goes without saying that Sanford will be placed in the class of the most progressive cities with reference to having an up-to-date fire department. The City Commission should be congratulated in showing their interest in city affairs by being on the alert to purchase this fire equipment, thus saving the taxpayers on their insurance rates, and at the same time protecting the city against conflagration, which is sure to occur should one of our wooden buildings in the congested district become uncontrollable during a fire.

ATTEMPT TO KILL HIGH PRIESTESS OF THE KU KLUX

FIVE SHOTS FIRED INTO THE ROOM OF MRS. TYLER

ATLANTA, Oct. 12.—Five shots were fired here last night at Mrs. Elizabeth Tyler, a member of the propagation department of the Ku Klux Klan, according to reports to police. The bullets smashed her bedroom window but she was unharmed. Police and a number of members of the Klan rushed to the home, which is situated on Howell Mill road, some distance from the center of the city.

A few minutes after police received notice of the shooting, a man called the Atlanta Constitution, on the telephone and said:

"I just want to say that we got Mrs. Tyler tonight and we will get Simmons tomorrow."

Efforts to learn the man's name were fruitless as he mumbled something and said, "Good night." The shooting was not generally known at the time of the call.

Mrs. Tyler, who lives with her grown daughter, had been entertaining several women friends earlier in the evening, and was said to have gone to her bedroom when the firing started. After the shooting stopped Mrs. Tyler managed to call the police and members of the order for help. Investigation was begun, but it was reported there was nothing to indicate who did the shooting.

The only persons in the Tyler home at the time were four women—Mrs. Tyler, her daughter, who is ill, and two friends, who were spending the night. Mrs. Tyler was so badly frightened that she was almost hysterical for some time after the affair. Since the public agitation regarding the Klan, a guard has been stationed at Mrs. Tyler's home during the night but within the last week his services had been dispensed with, it was said by Klansmen.

BASEBALL—Today's Game

N. Y. GIANTS - - 2 N. Y. YANKS - - 1

NEW YORK, Oct. 12.—Clear, cold weather was indicated for this afternoon's world series game. Heavy rain for a time threatened to cause the postponement but it had ceased before any fans were on their way to the Polo Grounds. Huggins said Carl Mays would pitch today for the Yankees to be followed tomorrow by Hoyt. Douglas was likely the choice of McGraw. Douglas, however, has a bad cold and if it should keep him from pitching McGraw said he would select Slim Sallee or Pat Shea. Shea in his few weeks of active duty with the Giants during the season won five games and was beaten only twice. McGraw said he would like to give him a chance in the series. Advantage in the box now lies with the Giants. Douglas and Barnes have shown they can halt the rush of Yankee bats. Douglas is hooked to pitch today and Nehf tomorrow. Nehf lost two games to the Yankees largely because his team mates made only one run in eighteen innings they labored with him. This would leave for possible ninth game assignment should it go the limit, to Barnes. On the other hand Huggins has trotted out only two successful pitchers, Hoyt and Mays and the Giants vow they no longer dread the underhand shoots of Mays, having beaten him on his second start.

In today's game New York Nationals (Giants) are the home team and go to bat last. The line up follows: Yankees—Fenster, K.; Peckenpaugh, ss.; Miller, cf.; R. Meusel, rf.; Pipp, 1b.; Ward, 2b.; McNally, 3b.; Schang, c.; Mays, p. Giants—Burns, cf.; Bancroft, ss.; Frisch, 3b.; Young, rf.; Kelly, 1b.; E. Meusel, lf.; Rawlings, 2b.; Snyder, c.; Douglas, p.

REAL DOPE ON WORLD'S SERIES

The Clearwater Sun of the 8th says: "The Giants won yesterday, just as we had hoped out, basing our prognostications upon the hypothesis that the game is fixed to go near the limit, which is nine games. We are betting heavily on the Giants to win today—two cigars and a bottle of pop. That will make the score two to two. Then the Yankees will take the fifth game and likely the sixth game, giving them four to two. The Giants will then win the seventh game and the eighth game, again evening the score and setting the stage for the big killing on the ninth game. The owners of the two teams will then count their coin and divide up on the previously agreed basis. The above information is given to baseball fans free of charge, for what it is worth."

(By The Associated Press) WASHINGTON, Oct. 12.—The formulation of policies to be pursued by the American delegation at the conference on limitation of armaments and Far Eastern and Pacific questions, was begun today when four delegates selected by Harding held first meeting at the state department.

WASHINGTON, Oct. 12.—The American delegation to the armament conference will begin its duties here today by a general survey of the international situation into which it is to embark.

At a meeting which will bring the four delegates together for the first time since their selection by President Harding, data gathered from diplomatic, military and naval sources is to be laid on the table and a preliminary effort made to predicate upon it the broad principles of this government's position in the armament negotiations.

It is expected to be one of many consultations of the delegation in preparation for the opening of the conference next month. President Harding will take an active role in the preparatory stage and probably will participate directly in some of the meetings of the delegates. Military and naval experts also are to be questioned about the data they submit and a sweeping effort made to provide the American representatives beforehand with a comprehensive understanding of the task confronting them.

**NEW RETAIL
MERCHANTS
COMMITTEE**

At a recent meeting of the Board of Governors it was decided to continue the good work accomplished by the Trade Extension Committee and the suggestion was made that a permanent committee, consisting of the retail members of the Chamber, be organized to handle not only the work previously assigned to the Trade Extension Committee, but any question, affecting the retail interests of the city.

The Retail Merchants Committee of the Sanford Chamber of Commerce will continue the Trade Extension and will work to bring a greater volume of business to Sanford from the immediate trade territory which now goes elsewhere. This will be accomplished through the inauguration of Dollar Days, Buy-at-Home Campaigns, Special Sale Days, Gala Days, and besides these recognized features will inaugurate original ideas for attracting those in adjacent communities to Sanford.

It is also the intention of this committee to bring to Sanford prominent business lecturers who have made an exhaustive study of the retail business. It will be recalled that last year the lecture, "Getting the Most Out of Retailing" was brought to Sanford under the auspices of the Chamber of Commerce, and proved of great interest to the retailers here.

A. E. Yowell will continue as chairman of the Retail Merchants Committee, which consists of all the retailers in Sanford who are members of the Chamber of Commerce.

**Opening Dinner Dance
At The Valdez Hotel,
Next Friday Night**

There is always something new under the sun and Sanford can be depended upon to have the many new things in the way of amusements and the best things in life. Dinner dances have become very popular in the larger cities but have never been attempted in Sanford on a large scale. It remained for the Valdez Hotel to put on the real dinner dances in this city and next Friday night the first one will be given. The dinner dance will be from 8 to 12 and you will have to reserve your table early as there will be a big rush for tables for the opening dance. \$2.00 per cover is the price which is very reasonable for the kind of dinners served by this famous hotel and the dance will really be worth the price of the cover. Excellent food and excellent music at the Valdez Dinner Dance next Friday night.

**Langley Supt. of
New Division Estab-
lished at Lakeland**

Gives Lakeland Two Division Heads
Instead of One

Effective the first of November another division of the Atlantic Coast Line Railway will be established in Lakeland.

On the date F. D. Langley, who has been train master at Sanford for some time, will open his office in the Coast Lines station building here in the quarters at present occupied by the roadway department which department will move to the wooden structure on Missouri avenue formerly used for office purposes.

The new division has been established because of the growth of the Coast Line's mileage in Florida and the ever-increasing business enjoyed by that railway. After November 1st the main line from Sanford to Jacksonville will be operated as a separate division while the South end from Sanford to Port Tampa with the branch line from Haines City to Moore Haven and the Coast Line's Tampa Southern branch to Bradentown will all be under Superintendent Langley.

Superintendent J. F. Council will continue in charge of the West Coast division, covering all the territory between Fort Myers to the South to High Springs to the north, including several branch lines. Mr. Council will, of course, continue his headquarters in Lakeland but the division here will house two superintendents instead of one.

The establishment of the main line southern division will bring to Lakeland at least a dozen families who will become permanent residents. They will be seeking housing accommodations within the next few days, since the new division will be in operation in three weeks. There will be five train dispatchers, one chief clerk and four clerks, in addition to the superintendent and trainmaster.—Lakeland Telegram.

**DRY WEATHER
INJURES ORANGES
AND GRAPEFRUIT**

CROP TAKES A TUMBLE AND
ESTIMATES COME
DOWN

(By The Associated Press)
GAINESVILLE, Oct. 11.—With Citrus fruits ripening rapidly and the movement to market under way in South Florida, condition of the crop has taken a tumble as a result of continued dry weather in September, says the monthly review of the Federal Bureau of Crop Estimated here here on crop conditions in Florida the first of October.

The condition of oranges was lower than it has been at that time in three years, being 81 per cent of normal as compared with 85 per cent of a month ago and 91 per cent last year. Grapefruit showed a condition of 80 per cent as compared with 85 a month ago and 79 per cent last year. The condition of limes showed very little change with the bulk of the crop harvested.

Indications are that a larger than usual percentage of the Florida citrus crops will be lost this year from splitting and dropping, says the bureau.

Harvesting is well advanced, corn, cotton, peas and hay crops under weather conditions which have been almost ideal. Yields of corn and hay are showing up better than expected. Sweet potatoes, sugar cane, sorghum for syrup and other late summer crops have deteriorated sharply in condition on account of dry weather over most of the state.

Condition of rice, tobacco at time of harvest are below usual and production of tobacco will run under last year. Rice production will show an increase because of extensive planting in several localities.

The quality of the state's limited production of oats was little lower than usual and yields are reported to have been the lightest in some years.

A preliminary inquiry on velvet beans indicates that yields expected to run about 76 per cent of normal with only sixty per cent of the usual acreage for harvest.

Pastures ranged from poor to fair over the state with improvement expected since the recent rains.

**New Crate Company
Incorporated Here, to
Make Folding Crates**

Among the many industries to be started in Sanford in the past few days is the Universal Folding Crate Company, articles of incorporation of which appeared in Friday's Daily Herald. The Universal Folding Crate was fully explained in a previous article in the Herald and means just what the name implies—a folding crate that can be shipped knocked down, taking up but small space in the cars and being made so solid and substantial that it has made a great hit among the growers of every state where it has been introduced.

The officers of the new company are as follows:

Phillip Simmons, president; D. C. Marlowe, vice-president, and John E. Wade, secretary and treasurer and the place of manufacture will be in this city. The company is incorporated in the sum of \$25,000 and have the right to manufacture the various folding and collapsible crates and packages of the Universal Folding Crate Co., of New Orleans which is the parent company.

The new company being composed of local capitalists means that another industry has been added to Sanford and one that will advertise this city in all the places where the crates are used and Sanford is fast becoming the recognized center for the manufacture of crates and fruit and vegetable containers of all kinds.

Harry Heeren has offered to donate a silver cup to the winner of the canoe race in the big American Legion armistice day festivities. There will be canoe races and yacht races and all kinds of races and the lake front will be a scene of excitement all afternoon. Mr. Heeren is an enthusiastic yachtsman and wants to see more boats on the lake at Sanford. The House of Heeren in Pittsburg is one of the largest wholesale jewelry houses in Pittsburg and Harry will give the boys a cup of which they can well feel proud.

**LIST ALL VACANT
ROOMS WITH THE
C. OF COMMERCE**

The Chamber of Commerce intends to keep on file a list of all available rooms, apartments and houses, furnished or unfurnished, that any individual may have for rent. A particular request is made of those having available rooms, which can be rented during the coming season, to list them promptly with the Chamber of Commerce.

The number of inquiries received by the Secretary's office so far this season is greatly in excess of those received for a corresponding period last year, and once the season is well under way it is not difficult to imagine the large number of people who will be making inquiries as to the possibilities for securing accommodations in Sanford this winter.

Despite the extensive building program which has been carried on during the past summer, accommodations for tourists are woefully inadequate. It is absolutely necessary that every citizen who is interested in the growth of Sanford should make particular effort to provide accommodations for those visitors who are contemplating a trip here this winter.

It would be very discouraging to the officials of the Chamber of Commerce and to the public spirited men who comprise this organization to know that any one was forced to leave the city due to inability to secure housing accommodations.

Among these tourists will be investors in larger numbers than ever before visiting Florida. Sanford, as a result of the publicity now being carried on by the Chamber of Commerce, will be investigated by a great many who, through this publicity have become cognizant of the great possibilities Sanford offers for investment.

Listing of available rooms can be made by calling the office of the Chamber of Commerce, Phone 25-W, or by letter. Please give the following information:

Name of individual renting.
Location.

Accommodations offered, furnished or unfurnished.

Weekly and monthly charges.

Whether accommodations are suitable for light housekeeping.

Whether board is furnished and the price for same.

In the event that these rooms are subsequently taken, it is requested that the secretary's office be notified so that they may be taken from the list of offerings.

The Chamber of Commerce hopes that the citizens of Sanford will be public spirited enough to make every sacrifice necessary to assist the organization in its plans for providing for the great number of people who will be with us this winter.

**WILLIAMS DIED TODAY,
MAN SHOT BY MARTIN
IN PERFORMANCE OF DUTY**

PALATKA, Oct. 11.—Arthur Williams, a tramp, who was shot by Special Agent J. L. Martin, of the A. C. L. R. R., near here Friday while he was aboard an Atlantic Coast Line train as an unauthorized passenger, died yesterday as the result of his wounds.

A negro riding on the train was also wounded at the time and Officer Martin had to be taken to the Sanford hospital with a badly shattered wrist. Martin is said to have grappled with the man while the train was in motion in an effort to remove them. Williams is said to have fired on him at close quarters and the special agent returned the fire, shooting Williams through the left wrist and abdomen.

In the absence of any information concerning his relatives, the expenses of Williams' funeral here will be borne by the local post of the American Legion, Williams having said he served with a Pennsylvania regiment during the war. He gave his home as Philadelphia.

Said the fellow who did not like to work and he really thought the world should pay him without working

HE OBTAINED THE LIVING

But such a life—it was his theory about how to get a living without working. The world owes each one a living but it is up to every one to collect it. The best way to get the best living is to have your money where you can get it when you want it—in the bank

The ONLY DECENT LIVING

Is obtained by saving your money while you are making it and put it in the bank where it draws 4 per cent interest.

**RAINS IMPROVE CROP
CONDITIONS IN FLORIDA
CORN IS HARVESTED.**

GAINESVILLE, Oct. 11.—Rains, followed by clear, cool weather, have improved crop conditions greatly over most of the State, according to the weekly crop review issued by the Federal Bureau of Agriculture for the week ending Saturday. The bulk of the corn crop has been harvested with the yields generally satisfactory and the quality good.

Picking of cotton is well advanced, although there is some delay on account of rains.

Preparations of ground and the planting of oats are going forward, following the rains. Good yields of rice are reported in South Florida. Planting of fall Irish potatoes is about complete and the condition of late sweet potatoes is improving.

The harvesting of hay continues and some excellent yields are reported. The week's rains will improve the condition of pasture.

The movement of the citrus crop is on the increase, with the fruit getting its full benefit from the rains over most of the belt.

Condition of live stock is generally good. Much fine stock is being finished off for exhibition at county and state fairs.

Trucking conditions are reported as greatly improved.

Are you taking the Daily Herald? If not, why not?

Wish the World's Series was over. It is holding our paper back every night and we hate to be late.

A Florida paper says that running a business without advertising is like winking at a girl in the dark.

Audrey Munson, the actress, says she will "quit her profession if she can't pose nude."

The Tampa Times says the health officer is checking the dairies. The health officers inspecting the dairies is one of the biggest jokes ever perpetrated on the people of Florida.

We hope the Giants win two straights and cut the film right there. The ball games hold the Daily Herald every night and there is an awful howl going up from the subscribers.

Wish we could attend that meeting of the South Florida Press Association at Lakeland Friday and Saturday and see the ladies pin the prize on "Thorn" for being the ugliest man in the world.

Who is Governor Hardee, anyway that he should stand in the way of progress, says a speaker in Miami. Well, all we can say is that he is Governor Hardee and he seems to be GOVERNOR, ALL RIGHT.

On the other hand there would be an awful howl from the ball fans if the games were not given every night. And by the way the Daily Herald is giving the games just as much prominence as any big city daily.

Those so-called "Farm Loans" are wonderful. They wanted to loan Sanford farmers at one time \$100 an acre on \$1,000 land. If they make all their loans on that basis some of the lands would be worth as much as fifty cents an acre.

The weather is cooler, trade is picking up, the merchants should get busy and advertise. Special sales are now the order of the day in every city in the land and Sanford should be bringing the people here to trade.

The St. Johns river traffic has more than doubled and we want to call the attention of our senators and representatives to this fact and we also want to call their attention to the fact that no money is being spent at the present time on the St. Johns river from Palatka to Lake Harney.

NEW YORK WORLD IS AFRAID TO PRINT THE TRUTH

Some time ago the New York World through Roland Thomas, worried the editor of the Herald to death with wires every hour asking about the whipping of a certain man here by masked men.

KRAFT MACARONI and CHEESE. Empty the contents of 1 can of Kraft Macaroni and Cheese in suttered baking dish. Sprinkle with cracker crumbs, dot with butter and bake 20 to 30 minutes.

Deane Turner WELAKA BLOCK. Phone 497-494

breach of the peace and it could be laid at the door of the Klan the New York World proceeded to fasten it there. They wanted an article from Sanford derogatory to the Klan, of course, and when they obtained the true facts in the case of this man who had committed enough offenses to put him in jail and yet he could not be put there, the World did not like the facts. They sent a special representative here who spent a day or more investigating and he said the report of the Herald was true in every particular.

The New York World should print the truth whether it suits their particular policy or not. They asked us for a report and we sent them the truth. Since we are not a member of the Klan and hold no brief for the Klan we do not know whether the whipping was done by the Klan or not but we do know that the whipping was needed and it was a step in the right direction and wherever the law cannot touch certain offenders here in the South they will be touched by others whether they be members of the Klan or not.

If the New York World wanted the truth and nothing but the truth why don't they publish the truth as it is given to them and not throw out all reports that smack of a dirty well performed by the Klan. Roland Thomas needs to come South and investigate the doings of the Klan for himself. He needs to come South and find out some things that would give him a better insight into the workings of the "invisible control" that does not rest in the Klan or any other organization but rests in the hands of the real Anglo-Saxons who intend to keep it regardless of the New York World or any other Northern newspapers who know so little about the South that they only print the news that coincides with their policy.

LITTLE WORK HERE

For some reason or other the people of other states have the idea that because the Floridians are not starving to death that this state is so prosperous and well fed that there are jobs here for the millions who are out of employment in other states. This is far from the truth. Florida is prosperous but Florida has plenty of help in almost every business line. There might be a job here and there in the fruit packing industry but otherwise—nit—and the sooner the idle in the northern states learn this truth the sooner they will cease to stend rides in freight trains coming to Florida with the idea that as soon as they shake the cinders out of their hair they will be approached by a hundred employers offering them wonderful jobs at wonderful wages. Florida has no jobs and this news should be sent out broadcast everywhere. Otherwise the state will be overrun with a bunch of idlers who in time will become either a charge on some county or who will start thieving for a living.

"That Florida today is the most prosperous section of the United States seems to be generally understood. It has suffered little so far from unemployment. Its business has kept up well. Its building boom is something wonderful.

"Yet its very prosperity is not without its dangers, the character of which can be seen any day on the streets of any city or large town. Thousands of people are drifting down from the north looking for something to do. Some of them want jobs. Some want to go into business. They open stores, real estate offices, or anything that promises enough to keep them through the winter. They constitute a menace to local labor and to local business. They are bound to experience bitter disappointment.

"No one state could possibly have enough work or enough "easy" business to afford a remedy for the stagnation and unemployment of the whole nation. Less than one per cent of the population and wealth of America is in Florida. No matter how favorable local conditions may be, the unrestrained rush from the stagnant areas would quickly swamp our prosperity and bring Florida down to the general level.

"Boosters should be careful of their language. The natural advantages of the state can hardly be exaggerated, but to emphasize the statement that there is no idleness here is an invitation to the jobless to come. And Florida is not prepared to take care of them.

are all needed as much as ever. They can benefit themselves while benefitting the state. But it is not at all to our discredit, and no reflection upon our property, to let it be known that this state is not prepared to serve as a haven of refuge for the millions unable to support themselves at home."

WICKED TRANSPORTATION RATES.

Senator Capper, of Kansas, has been talking in his usual vigorous style regarding the wickedness of existing transportation rates of merchandise. Here are some samples of his remarks:

"It seems a most short-sighted policy for the roads to continue to stand pat on high rates and loss business, while taxing the men who are the biggest shippers in the country out of the market.

"It is possible to ship eggs 18,000 miles by water, from San Francisco to Shanghai and from Shanghai to New York, and save 75 cents a hundred pounds over the rail rate across this continent.

"As a member of the Joint Commission of Agricultural Inquiry, I have heard hours of such testimony as these reports from counties in your state, Ohio:

"A local factory ordered lumber posts, but found the freight charge was more than the lumber cost, so cancelled the order.

"A car of coal shipped from Eastern Ohio to Columbus cost \$3.50 a ton. The freight came to \$3.98 a ton.

"A farmer bought a car of waste lime for \$10 for use on his land. The freight on a 20-mile haul was \$75.

"A carload of lumber from the South cost less than \$400. The freight was \$487.

"A car of hay was shipped from Ohio to Pittsburg for \$172. Freight and war tax was \$221.10.

"Sheep shipped from one Ohio county to Cleveland left the farmer in debt for freight and commission.

"A large share of Minnesota's corn and oats will go to waste this year unless freight rates are cut, says Thomas E. Cashman, of the Minnesota Farm Bureau Federation.

"For more than a year, as a direct result of high freight rates, there has been and still is such immense and widespread spoilage of crops as no country at any time has ever seen before. Even corn, heretofore considered the most profitable of grain crops, cannot be shipped at a profit from many localities. When freight rates absorb the value of a crop, it doesn't pay to garner it. Thousands upon thousands of bushels of potatoes and apples are being fed to hogs in the United States while people hunger for them in our cities."

EAT MORE ORANGES.

The people of Florida should be by all odds the greatest consumers of citrus fruits in the entire country. They certainly have better opportunities for securing the best of the fruit than any other people, and if they do not enjoy it to the fullest extent it is their own fault. A very generous consumption of citrus fruits is conducive of superior health conditions. There is one item in this connection that should be carefully guarded by everybody, and especially by dealers, and it is this: Keep the prices within the bounds of reason and common sense.

Any person, be he a grower of citrus fruits, a local dealer in them, or a shipper, who will deliberately practice the selling of those fruits at exorbitant prices is deserving of severe censure. For the good name of the State, for the good-will that we should bear toward our friends and neighbors and visitors, we should insist on prices of oranges for home consumption that are fairly reasonable.

Another thing: Why should we not be able to find in our markets, offered for sale to our own residents, as good fruit as can be raised here? Let culls and inferior fruit be on sale, in order that there may be low priced fruit, but also let all dealers keep a liberal supply of the higher grades of fruit, and do not soar to the skies with prices on that grade.

Fortunate will it be if we can so treat our winter visitors in this matter of prices on oranges, and the qualities that we offer them, as to enable them to speak in commendable terms of us and our fruit, when they return to their northern homes.

Let us not treat them in such a manner as to cause them to give us a black eye. To do so is very shortsighted policy.

When everlasting peace is established among nations, the big dog will say to the little dog, "It's your bone; you saw it first."

ASSOCIATED PRESS SERVICE—HAS NEVER HAD AN EQUAL

POLO GROUNDS, Oct. 11.—This dispatch and the play by play story of the world series baseball are being transmitted instantaneously over 34,000 miles of telegraph, directed by a reporter to a single sending operator. The report is traveling at the rate of 180,000 miles a second, and is being copied throughout the country from Bangor, Maine, to Seattle, Wash., and Galveston, Texas, north to Ottawa, Canada, and south to Havana, Cuba. This is the greatest teingle and unbroken telegraph circuit ever operated in the world. Baseball fans in hundreds of newspaper offices and hundreds of thousands are watching the bulletins.

Herald's Great Service.

The service over the leased wire of the Associated Press, travels at the rate of 186,000 miles per second. There is a reporter watching the game from the Associated Press box, near the side lines of the Polo Grounds, where the great world series is being played off. As this reporter speaks the plays they are ticked off by an operator of many years' experience to the hundreds of offices on a 34,000-mile circuit wire simultaneously.

In other words, it takes but little more than one-one hundred and eighty-six thousandths part of a second for the play to be transmitted from New York to Sanford, and given to the thousands of fans at the Star Theatre and to the Daily Herald. That veteran of the wire, LaVerne Hurt, gets all of it just as played, and puts it on paper for the Daily Herald. Some stunt.

ASK FOR YOUR RECEIPT.

Subscribers to the Daily Herald should ask for a receipt when the carrier boys collect from you. It is the only protection you have in case the carrier changes or there happens to be a mistake in the account. Each carrier boy is supplied with receipt books, and is commanded to give a receipt by the Herald. See that you get your receipt at the end of each week if you are paying that way. 168-3tp.

PROMINENT OSCEOLA MAN DIES SUDDENLY.

KISSIMMEE, Oct. 12.—J. K. Hillard, one of the best known men of Osceola county and a former county commissioner, died Monday noon at 1:45 o'clock of acute hemorrhagic pancreatitis. He was stricken with acute indigestion last Monday after a day spent plowing and a heavy night meal. Though sixty-nine years old he was hale and hearty, managed his own farm, and famous Hilliard Island grove, and was one of the best loved men in this section. Always keenly interested in whatever was for the public good, he was an ardent advocate of up-to-date cultural methods and spraying, and bore a reputation for honesty and square dealing which few men acquire. He was a member of the Citrus Exchange and has been an interested booster of the recently formed Osceola Growers' Co-operative Association.

Mr. Hillard was born in Georgia and went to Texas in early life. Thirty-seven years ago he came to Kissimmee and cleared the land which has since been his famous grove, one of the best in the state. He has never been attended by a doctor until this illness.

TROMBLEY CONVICTED OF MURDER OF PANZIK.

WAUCHULA, Oct. 12.—Henri Trombley was convicted in circuit court here last night of murder in the second degree, for killing John Panzik on June 28.

He went there to drive out stock and Trombley shot him just below the neck with a .38 caliber revolver, killing him instantly. The defense claimed self-defense. Panzik was a Pole, coming from Austria. The murderer is a French-Canadian.

"DE CENSOS, SHE EES CRAZE"

Jean Baptiste Tells the World Why the Population of Quebec Seems Immobille.

The old inhabitant of Quebec, who will be depressingly amazed to discover that the census man gives that province a bare 2,345,078 of a population, will trot out his decennial explanation in extenuation:

INDIANS IN THE WORLD WAR

Ten Thousand Fullblooded Redskins Lie With American Dead in France.

How many people in this country were aware before they read a recent cable from London that 10,000 full-blooded Indians lie with the American dead in France? Honor of a conspicuous sort has been done to almost every class and group and race that contributed in any way to the allied victory before the world was reminded of the singular part played in the war by those Americans who may properly be called 100 per cent. The United States and all its people owe a debt to Dr. Joseph K. Dixon, of this city, and to the founder of the Wannamaker historical expeditions for the part they played in bringing recognition formally to the American Indian. Hing, Foch and Pershing found these tribesmen deserving of a place with the noblest soldiers of all time. They were cool, dispassionate fighters, invariably brave and marvelous as marksmen. Most of them were volunteers. The Indian in France may yet live in a great American epic. He never knew complete freedom, yet he went out to fight for it until he died.—Philadelphia Evening Ledger.

Recovering Art Treasures.

Czecho-Slovakia is the latest of the states to begin the recovery of art and historical objects awarded under the treaty of St. Germain and now in the palaces and museums of Vienna. A commission has just been appointed for that purpose.

These comprise, among other things, the almost priceless documents, historical memoirs, maps and other material which Thaulav von Rosenthal removed from Prague by order of the Empress Maria Theresa. Then there are the valuable documents originally contained in the Royal Aulic chancery of Bohemia and the Aulic Chamber of Accounts of Bohemia, as well as the works of art formerly in the royal chateau of Prague and other castles of the Hapsburgs located in what is now Czecho-Slovakia and which were removed to Vienna during the reigns of Emperors Matthias, Ferdinand II, Charles VI (about 1788-1837) and Francis Joseph I.

"St. Napoleon."

Saint Napoleon sounds somewhat strange to ears of English-speaking persons, but it is nevertheless a fact. At the height of his fame, Bonaparte discovered that it would be well for him, and the Napoleonic dynasty which he hoped to found, that a name-patron should and prominence in French history. With obliging zeal his ecclesiastical supporters managed to trace an obscure faithful one Napoleon, who had been martyred in Alexandria. Upon his memory the name of the saint, St. Napoleon, was received a pastoral letter from their cardinal chief; and Plus VII called St. Napoleon into being. His day was the emperor's birthday, August 15, and upon it the dual event was celebrated.

Wearing Out Clubs.
