

CHAMBER COMMERCE BODY INTERESTED IN WATERWAYS VIA ST. JOHNS-OCKLAWAHA

Planning For Determined Effort Toward Construction

MEETING IS CALLED

NEEDS OF THE INTERIOR SECTION AND BUSINESS INTERESTS WERE DISCUSSED

JACKSONVILLE, Feb. 10.—Planning to begin a determined effort toward the construction of the proposed across-state canal, the Jacksonville Chamber of Commerce will call a meeting here to be held next week of representatives of many towns and cities interested in the project. At this time, it is expected, an association will be formed and work in this direction will be planned.

This meeting will be called as the result of the meeting yesterday of the chamber of commerce river and harbor committee, when nearly a hundred business men were present. Needs of the interior section of the state and of the entire business interests of Florida for such a canal were strongly brought out in a number of speeches.

Civil and commercial organizations of all places on the route of the proposed canal will be asked to send representatives to this meeting. These towns include Dunnellon, Fort Ingalls, Tavares, Eustis, Palatka, Acala, Sanford, Leesburg, Green Cove Springs and others.

Montgomery Corse, chairman of the river and harbor committee, in outlining the needs of such a canal stressed the importance of organized concerted action without loss of time. Other speakers included City Commissioners St. Elmo (Chick) Acosta and W. A. Evans, both of whom strongly urged an immediate meeting to perfect a canal organization.

The proposed canal would take the route from Jacksonville to the St. Johns, the Ocklawaha and the Withlacoochee rivers, passing through the heart of the state and tapping a rich agricultural section. A waterway deep and wide enough at all points to accommodate large seagoing ships will be advocated and it is believed that the entire state will back the project.

Another meeting of the river and harbor committee will be held within a few days when the report of the canal and waterways committee, of which George W. Parkhill is chairman, will be received. This report, it is expected, will deal extensively with details for the proposed waterway.

Congress is Flooded With Pleas to Take Tax Off Soft Drinks

WASHINGTON, Feb. 10.—Ground hog promises of a pleasant spring and goose bone predictions of a rather torrid summer have started a flood of petitions to congress to repeal the wartime tax on the poor man's drink. One day, back in 1919, when the temperature was hitting it up around the 100 mark the house voted to remove the one cent tax on soda water and ice cream, but nothing ever happened after that. The measure was sent to the senate and apparently put in cold storage.

Some of the petitions set forth that inasmuch as the only thing man may drink now is soft and lacking in strength, he ought to be permitted to drink it without being taxed.

12-Year-Old Prodigy

PITTSBURGH, Feb. 10.—Wynonne Weber, twelve years old, has record for public schools of Pittsburgh. Wynonne graduated from the public schools yesterday, speaking four languages, teachers' physical culture and leads the high school classes in dancing.

European nations are rapidly getting on their feet and devising plans to step on one another's feet.

Archbishop Daugherty to Succeed Farley as American Cardinal

(By The Associated Press) ROME, Feb. 10.—The appointment of Archbishop Daugherty, of Philadelphia as Cardinal in succession of the late Cardinal Farley, of New York is almost certain according to Vatican circles.

HARDING IS BACK AT WORK AFTER FROLIC

ARRIVES IN ST. AUGUSTINE WHERE HE ANSWERS BIG MAIL

(By The Associated Press) ST. AUGUSTINE, Fla., Feb. 10.—Back at work after three weeks' vacation President-elect Harding today waded into a vast accumulation of correspondence and other miscellaneous business that must be cleared away before he can give serious thought to final decisions on personnel of his cabinet and other major problems. Stack of telegrams and letters probably will occupy all the working time of remainder of the week. Cabinet appointments, which Harding's close friends believe definitely determined and Charles E. Hughes, Secretary of State; Harry M. Daugherty, Attorney General; Will Hays, Postmaster General and Henry Wallace, Iowa, Secretary Agriculture. Still realized, however, may be slip between February 1st and March 1st.

AMERICA WANTED A NAVAL BASE IN KAMTCHATKA

LONDON, Feb. 10.—The Russian soviet government were told by an American millionaire that the United States wanted Kamtchatka as an Asiatic base in case of a war between the United States and Japan, according to an utterance made recently in a speech by Nikolai Lenin, the Bolshevik premier.

Asserting that the proposed treaty conceding Kamtchatka is part of a scheme to utilize the Bourgeois capital to accelerate the country's industrial development, Lenin is quoted as having said:

"An American multi-millionaire who has been here, spoke very frankly about the motives of the treaty, namely, that America desires to have a base in Asia in case of war with Japan. This millionaire said that if we would see Kamtchatka to America he would promise us such enthusiasm on the part of the population of the United States that the American government will immediately recognize the soviet government of Russia."

LIEUT. RUPP FOUND DEAD IN QUARTERS

(By The Associated Press) NEWPORT NEWS, Va., Feb. 10.—Lieut. D. A. Rupp, of York, Pa., was found dead in his quarters at Langley Field late last night it was announced today. The wife of Rupp was recently mysteriously assaulted at their home at the flying station and Rupp later declared he was responsible for the attack. He was recently ordered transferred to Honolulu.

CROWNED KING BY YE MYSTIC CREWE

TAMPA, Feb. 9.—King Gasparilla XIII, and his queen were crowned by Ye Mystic Krewe of Gasparilla, at the annual ball of the Krewe Tuesday night at the Tampa Bay casino, and will reign for one year. The event, always the biggest social affair of the year here, winds up the Gasparilla fiesta. L. Walthugh Lee and Miss Mildred Taliaferro are, respectively, the new king and queen. Among those attending from out of town were Gov. and Mrs. Cary A. Hardee.

Try a Herald Want Ad.—It pays.

EX-SERVICE MEN NOT CRIMINALS SAYS SEC. BAKER

LAW BREAKERS POSE AS SOLDIERS TO GET LENIENCY FROM COURTS

(By The Associated Press) WASHINGTON, Feb. 10.—Appeal to newspapers to guard against designating as ex-service men burglars and other criminals without proper investigation was issued today by Secretary Baker. He declared the expression was increasingly common and that in many cases investigation would prove the person referred to never was identified with armed forces. Baker said it was popular with criminals to plead that they served in the army or navy in the hope of gaining sympathy.

Make Syrup from Sweet Potatoes

WASHINGTON, Feb. 10.—A sweet potato syrup plant is to be established by the government at Fitzgerald, Ga. Under a laboratory process worked out and patented for the public by Dr. H. C. Gore, bureau of chemistry, the commercial possibilities in manufacture of fine, brown, "highly palatable" syrup from a heretofore waste product are to be expected, according to announcement tonight by the agricultural department.

"Many persons think it equal to first-class cane syrup," the statement said of the sweet potato product.

RAILROAD LABOR BOARD DENIED THE REQUEST NATIONAL WAGE AGREEMENT

(By The Associated Press) CHICAGO, Feb. 10.—Railway Labor Board today denied request of American Association Railway Executives for immediate abrogation of national wage agreement with brotherhoods and establishment of new basic rate for unskilled labor predicated on local conditions. Board will continue its hearings on the question.

KEEP SEA POWER INTACT IS PROGRAM OF COMMITTEE; WE WILL NOT CURTAIL NAVY

Will Disarm as Much as Other Great Powers Are Willing to Do

WASHINGTON, Feb. 10.—An American navy "at least equal to that of any other power" is advocated in a report of the senate naval committee filed today in the senate.

The committee replying to the Borah resolution said: "It is not practical and is not a sound policy to suspend naval construction for a period of six months nor at all." It urged completion of the great 1915 naval program, except that two huge naval aircraft carriers be built in place of twelve destroyers and six submarines which have been authorized but not yet contracted for.

Capital ships remain the principal units of seapower, the committee said, adding that submarines an aircraft were as yet only auxiliary forces. The committee report, to which Senator King, Democrat, Utah, plans to file a minority report tomorrow, expressed a desire that an agreement for limitation of naval armament might be reached among the nations but said that until some such arrangement were made the United States should continue its building program.

TEX RICKARD HAS CONTROL OF THE BIG MATCH

(By The Associated Press) NEW YORK, Feb. 10.—Tex Rickard announced today he had arranged for immediate transfer to him of the interests of Charles Cochran and William Brady in proposed Dempsey-Carpentier match.

IRISH REPUBLICAN ARMY MARCHES ON SKIBBEREEN

(By The Associated Press) LONDON, Feb. 10.—An Irish Republican army, several hundred strong is marching on Skibbereen, County of Cork, according to reports from many sources says Skibbereen dispatch.

TYPHUS FEVER COMES TO U. S. FROM SHIPS

FOREIGN IMMIGRATION BRINGS ANOTHER MENACE TO AMERICA

(By The Associated Press) NEW YORK, Feb. 10.—Twenty cases typhus found among steerage passengers arriving today on steamship, San Giusto, from Trieste and Naples. Three passengers died of disease during the voyage. Vessel ordered placed indefinitely at quarantine and typhus victims reeved to Swineburne Island.

NEW YORK, Feb. 10.—The discovery of eleven new cases of typhus among persons arriving here several days ago aboard the steamship President Wilson, led officials today to plan drastic measures against future immigration from plague-infected European countries.

CANNOT BOSS WOMEN VOTERS

ATLANTA, Feb. 10.—A woman's war on "boss rule" and "reactionary elements" in both the chief political parties was declared today by speakers at the third regional conference of the National League of Women Voters.

In a plea for the education of women voters, Mrs. George Gelhorn of St. Louis, vice-chairman of the National League, declared the organization's work means that women are not going into the big political parties "as machine-made rubber stamps, but with ideals, help and inspiration."

Diamond Workers Idle.

AMSTERDAM, Feb. 10.—Nearly 70,000 of the 180,000 members of the Diamond Workers' Union are idle here and the bottom seems to have fallen out of the world's diamond market.

Fate of Transport Hung By Bolts Germans Had Sawed

NEW YORK, Feb. 9.—A German war plot that failed was revealed here today. Four defective bolts, taken from the machinery of the transport Mount Vernon, told the tale. They were discovered by the engineering forces of Commander R. D. Gattwood, director of the shipping board's division of construction and repair, and placed on exhibition at his office. Here is the story: After the Mount Vernon—formerly the Kronprinz Essen Ceelle, the famous "gold ship" that raced into Bar Harbor in the early days of the war—had been seized as a troop ship, her German crew cut two-thirds of the way cut through the four six-inch bolts that connected the engines with the main crankshaft. The skillfully-made cuts remained hidden by the fittings of the engines and were only discovered recently when the engines were taken apart.

It is to be presumed that in certain American detention camps there were trained German engineers who waited eagerly for reports which did not come of "something happening" to the converted troop ship. For it is believed that the bolts were left barely holding, with the hope that the craft would just creep out into U-boat lanes and then fall prey to the undersea craft when a sudden strain on the engines came with an order for full speed ahead.

But the breakdown never came. Luck or toughness of steel permitted the liner to make a dozen round trips through submarine-infested seas carrying on each voyage from 3000 to 4000 men. Just to round things out, she encircled the globe to bring troops home from Russia. The Mount Vernon had several narrow escapes. Once she was torpedoed and thirty-five of her crew killed, but made her way to a French port.

The safer the world is made for democracy, the more uncomfortable it seems to be for plutocracy.

SEMINOLE COUNTY GAME PROTECTIVE ASSOCIATION MET MONDAY NIGHT, 7th

"Worth \$1,000" Now Sued for Amount

NORFOLK, Feb. 10.—When ex-Private Samuel Berman, a salesman, several weeks ago paid a \$10 fine for publicly thrashing Capt. B. B. Fink, Jr., also a salesman, for alleged mistreatment while both were stationed at Camp Lee during the World War, he announced that "it was worth \$1000." Today Captain Fink took him at his word, but for good measure instituted civil suit to recover \$10,000.

EXPLOSION AND FIRE AT AUGUSTA

WRECKS THE SOUTHERN RAILWAY DEPOT AND CAUSES MUCH DAMAGE

(By The Associated Press) AUGUSTA, Ga., Feb. 10.—Officials of the Southern Railway investigating the explosion and fire which late yesterday partially wrecked the freight depot here announced today that all employees are accounted for. The charred bodies of three negroes found in the ruins were identified. Three firemen injured will recover. It is not clear what caused the explosion preceding the fire.

WILL NOT ALLOW TENT SHOWS WITHIN FIRE LIMITS

The mayor and fire commissioner have published a notice that on and after February 9th no more tent shows will be allowed to exhibit in the fire limits of Lakeland. This means that other arrangements will have to be made for a place for the strolling gentry organizations, and that the minstrel tonight at the old established show grounds at Main and New York will be the last one to be held there. The fire limits takes in the heart of the business district and portions of the residence section.—Lakeland Star.

GENERAL ELECTRIC COMPANY CUTS WAGES

LYNN, Mass., Feb. 10.—A reduction, averaging 40 per cent in the pay of 10,000 employees at the plant of the General Electric Company here was announced yesterday. The cut will not apply to clerical employes at present, it is said.

SAVANNAH TO BUY MILK FOR NEEDY CHILDREN

SAVANNAH, Feb. 10.—The board of aldermen of Savannah will appropriate \$1000 from the city treasurer tonight for the purpose of buying milk and food for the children of Savannah, who are in real need.

MILK INSPECTION BOARD HEALTH SHOWS RESULTS

Jacksonville, Fla., Jan. 29, 1921. Dr. J. N. Tolar, Sanford, Fla. Dear Doctor: The following is the report on the samples of milk received Jan. 27th: Laboratory 2360-61.—Vaughn: Butter fat 3.8 per cent; total count 44,500 bacteria per c. c. Laboratory 2362-63.—H. H. Chapel: Butter fat 3.4 per cent; total count, 8,900 per c. c. Laboratory 2364-65.—G. W. Spencer: Butter fat, 3 per cent; total count 1,800,000. Laboratory 2366-67.—C. E. Henry: Butter fat 5.6 per cent; total count 1,550,000. Laboratory 2368-69.—Sloane: Butter fat 4.4 per cent; total count, 3,400,000. Laboratory 2370-71.—Garrison: Butter fat 5 per cent; total count, 850,000. Laboratory.—Pinehurst: Butter fat 5 per cent; total count 320,000. Yours very truly, B. L. ARMS, Director, Bureau of Diagnosis Laboratories.

Meeting Was Short But Organization Was Perfected

OFFICERS ELECTED

OBJECT OF ASSOCIATION IS THE PROTECTION OF FISH AND GAME IN SEMINOLE

On Monday night a meeting, which should be of utmost importance to all real sportsmen, was held at the court house. This was the second meeting of this kind held recently, relative to the forming of the Seminole County Game Protective Association and was very well attended.

The meeting was presided over by Judge E. F. Householder, as chairman, who asked for and received nominations for the following officers for the first year, same being elected: President, R. A. Newman; vice-president, V. H. Douglas; Secretary and treasurer, F. E. Giles; directors, D. L. Thrasher, Dr. S. Ruston, E. F. Householder, A. B. Wallace and S. E. Satcher.

The object of the association, as the name implies, is the protection of our game, which is very much needed if we are to have any hunting during the years to come. We intend to do this by hiring a game warden at a salary, cutting down the length of the open season, lowering the bag limit, by adequate game laws and several other ways now under discussion. We expect too, to have the co-operation of every real, red-blooded man in the county in this work and in that way it is bound to be a success. This will eliminate the "pot hunter," the "game hog," the people who make a practice of hunting out of season and all who make it a business to violate our game laws.

As soon as the by-laws can be perfected, another meeting will be called to which the public will be invited and the association will get started on this very much-needed work.

CUT EXPENSE AND TAX CUT AS NEEDLESS

GOOD DOES NOT FAVOR SALES TAX ON NECESSITIES

WASHINGTON, Feb. 10.—Warning the house that the mounting wave of high taxation would not roll back without a sharp and sweeping reduction in government expenditures, Chairman Good of the appropriations committee, declared yesterday the time had come to call a halt.

Figures almost too big for comprehension by the average man were hurled over the heads of members as Mr. Good, in dramatic fashion, told of the vast sums expended, and the growing appeals for more. There was a shout of approval when he insisted that the appropriation bill must be passed before the change of administrations March 4, so that the framers of a new tariff law may know the amount of cloth out of which they must patch the nation's coat.

Laying down the definite policy that expenses must be cut before there is talk of lower taxes, Mr. Good insisted that appropriations for the year beginning next July 1, should be kept within three and a half billion dollars virtually the sum recommended in the big supply measures for that period. Mr. Good's plea for government economy was made in presenting the first deficiency bill for the present year, carrying a total of \$208,000,000 Democratic members of the committee declared there would be other deficiency sums, and Representative Byrnes, Democrat, South Carolina, declared direct appropriations this year already had passed the five billion dollar mark. This stupendous sum could best be understood, Mr. Byrnes added, by the fact that in order to meet it the government must levy an average tax of \$50 on every man, woman and child in America.

The five-cent cigar has re-appeared. But men are not smoking it yet. Times haven't got that bad.

SEMINOLE COUNTY EXHIBIT AT SUB-TROPICAL EXPOSITION SHOULD BE OF THE BEST

Bring Your Exhibits to
Miller's Store in
This City

WANT EVERYTHING
IN THE WAY OF FRUITS AND
VEGETABLES AND CO-OPERATION
OF EVERY CITIZEN

This is the time to get ready for the big Sub-Tropical Fair that starts at Orlando on February 15th. Frank L. Miller has again kindly consented to act as the official manager of the Seminole county exhibit and will have the active co-operation of County Agent C. M. Berry and Mrs. Berry will have charge of the women's exhibits of fancy work and products of the households and there will be others actively engaged in getting up exhibits for fields and gardens and schools, etc.

Mr. Miller, as president of the Seminole County Fair Association, has been at the head of the fair exhibits here for many years and while he says that this will be his last one for it takes up so much of his time he can always be counted upon to do his part in this great work and the people should appreciate his interest in the work by giving him their hearty support. He wants to make a big exhibit of celery and as the committee has some money to pay for celery it would be fine if Mr. Miller could get at least five crates of good bleached celery every day of the fair to give away as has been done in the past and this is the biggest advertisement that Seminole county can have. If five growers each day can send in one crate each or will let Mr. Miller know about it he will send for it, our exhibit would be in position to give plenty of fine celery hearts away to the thousands who through the fair grounds every day. This would only take 25 crates and would not fall heavy on any one grower.

All of the exhibits for the fair that are not perishable should be sent to the store of T. J. Miller & Son by February 12th. Please remember this and the celery should be sent in each morning in order that it can be sent to Orlando in fresh condition each morning.

If everyone will help in this matter Seminole county can make a fine showing and since we have decided to take part let our part be the biggest part in the fair. It is the finest kind of advertising and needs the work of everybody in the county to make it a big success.

YOUR DOLLAR BUYS MORE FOOD NOW

WASHINGTON, Jan. 20. — Your dollar is getting to be worth more—especially your food dollar—according to official figures of the labor department.

The clothing dollar, the traveling dollar, amusement dollar, and other dollars have been getting more valuable, too, but the food dollar leads the others with an advance of 25 per cent since June.

The department figures show the food dollar worth exactly 56.1 cents as compared with 1913. Turning it around you pay now only \$1.78 for the food which in 1913 cost you \$1. Along last June it took \$2.19 to buy that amount of food. The food dollar then was worth only 45.7 cents as compared with 1913.

Then there are different kinds of food dollars. The sirloin steak dollar is now worth approximately 64 cents compared with the 1913 sirloin steak dollar. In July it was worth only 53 cents.

The history of some of the other varieties of food dollars in the past five and six months following:

Summer value	Present value
Egg dollar	.64
Butter dollar	.67
Milk dollar	.64
Bread dollar	.47
Rice dollar	.46
Sugar dollar	.20
Coffee dollar	.60

DeSoto farmers are preparing to plant watermelons and are treating the seed with corrosive sublimate for anthracnose. Some are already planting melons. No little interest is being shown in improving pastures and livestock.

RIVERS AND HARBORS BILL TO THE SENATE

CARRIES AN APPROPRIATION OF
\$15,250,000 OUT OF WHICH
SANFORD GETS LITTLE

WASHINGTON, Feb. 2.—The rivers and harbors bill, carrying a lump sum appropriation of \$15,250,000 was passed yesterday by the house and sent to the senate. A motion to recommit the measure was voted down 205 to 120.

The emergency tariff bill, rieling and staggering in the face of the senate's vote today on cloture, yesterday was loaded down with more amendments and hours of debate.

Yesterday was "amendment" day in the senate. Vice-President Marshall ruled that all amendments had to be presented and read before the cloture vote. Among the amendments offered yesterday was one by Senator Trammell, Democrat, Florida, who proposed that oranges and grapefruit be added to the tariff list.

The tariff bill, awaiting action in the senate, has begun to resemble a wooden ship adrift in the barnacle-infested sea. Every day sees encumbrances added to it both by its opponents and its friends, and the latter yesterday began to see visions of it sinking beneath the waves of the weight imposed. The latest acquisitions to the bill in the form of amendments appeared yesterday in proposals to place an import duty on sunflower seed and on nails. Senator Spencer, Republican, Missouri, sponsored the sunflower seed tariff and Senator Moses, Republican, New Hampshire, presented the amendment which would protect America's nail industry. Neither senator made any statement in presenting his amendment.

The bill, as it left the house, provided for duties on about a score of products. Even senate clerks were unable today to estimate the number of commodities that would be subject to an additional tariff levy should all the amendments offered since the measure reached that body be adopted.

The bill, in the meantime, faced another round of debate yesterday, some senators said probably its last full day for today the senate will be called upon to vote on the petition for cloture or limitation of debate, presented yesterday by Chairman Penrose, of the finance committee, after unanimous consent for a vote on the bill February 15 had met with rejection.

The close down partly on debate in order to proceed to a vote on the bill, will require a vote of two-thirds of the body and neither Republicans nor Democrats saw a possibility of its proponents to muster that many.

LONGWOOD NOTES

Ex-Mayor Train was transacting business in Sanford Saturday.

Miss Nancy Hartley of Orlando spent the week-end with her parents, Mr. and Mrs. L. J. Hartley.

Mrs. Caldwell and Miss Dorothy Duffield of Orlando were the guests of Mr. and Mrs. Stuart and family.

T. J. Williamson was a visitor in Sanford Saturday.

Mrs. Fuller was shopping in Orlando last Thursday.

Miss Olive Dinkel returned Saturday from Jacksonville, where she was the guest of her sister, Mrs. H. R. Chapman at her home on 1428 Hubbard street.

Miss Eva Stuart of Tampa arrived Wednesday to spend her vacation with her parents, Mr. and Mrs. Stuart.

Friends of W. J. Corn will regret to learn that he had the misfortune of losing his left eye.

J. S. Dinkel and B. J. Overstreet are having Delco lights put in their homes this week.

The Longwood Library is being painted. Mr. Erskine is doing the work.

Mrs. Florence Hudson was in town Tuesday. Mrs. Hudson has several music pupils here and will come up every week.

A. Y. Fuller is shipping his oranges this week. The Citrus Exchange is handling them.

The friends and relatives were shocked at the sudden death of Mrs. G. A. Bistline, who passed away at the home of her son, J. A. Bistline, Saturday at 12:00 o'clock. Mr. and Mrs. Bistline had only been down here a few weeks. Mrs. Bistline had not been well for a couple of weeks but was not considered dangerously ill. The cause of her death was heart trouble. Her husband and son accompanied the remains back to their home in Pennsylvania.

Mr. and Mrs. W. L. Harvey and children of Sanford motored out to Longwood Tuesday afternoon.

The ladies of the Civic League held their regular monthly meeting Tuesday afternoon.

BURLESON LEAVES CABINET MOST GENERALLY DENOUNCED MAN IN WILSON'S CABINET

Says He Has Made More
Enemies Than Any
Other Member

WASHINGTON, Feb. 2.—Postmaster General Albert Sidney Burleson, who describes himself as "the most generally denounced man in President Wilson's cabinet," broke eight years of silence to talk of his enemies in a public interview.

In a copyrighted article in the Baltimore Sun, a staunch supporter of the administration Mr. Burleson has the following to say:

"I believe I have made more enemies and have been more generally denounced than any other member of the cabinet. It has not, however, robbed me of my serenity of mind, nor spoiled either my disposition nor my appetite. I know who my enemies are, how I made them and why, and the reasons are satisfactory to me. I am not carrying about inside of me a load of hate. I don't feel like a martyr, and, on the whole, I am not sure that the knowledge of who my enemies are and why I made them is not one of the finest of things I will take down to Texas with me when I leave."

Mr. Burleson grouped his principal enemies into four classes: Railroad presidents, union labor, express companies and certain newspapers and magazines.

The postmaster general said he antagonized the express companies by raising the weight on short hauls and increasing it on long hauls. At the present time, he said, 2,000,000 parcels are being carried annually and the government is making money on the service.

Mr. Burleson said he incurred the ire of the railroad presidents when he changed the method of paying railroads on postal carriage from weight to space. He said he thus saved the government \$10,000,000 a year.

As for newspapers and magazines the postmaster general said he brought their hatred down on his head by raising second class mail matter.

"Perhaps next to the newspapers, I made more powerful enemies when I took over organized labor than any other way," continued Mr. Burleson. "It was in 1916 that I made my first recommendation against permitting the postal clerks to affiliate with the American Federation of Labor. I believe it to be a menace to the government to permit government employees to affiliate with any outside organization to which they would be bound by ties of greater loyalty and self-interest, and which used as weapons the strikes and boycott. I am not unfriendly to organized labor. I believe strikes in many instances are justified, but I most emphatically believe that the government is menaced if strikes are to be permitted against the government."

Not a Single One of Florida's Doctors Prescribes Liquor

WASHINGTON, Feb. 1.—According to a statement given out yesterday by Wayne B. Wheeler, general counsel of the Anti-Saloon League, there are 1206 doctors in Florida and not one of them holds a permit to prescribe liquor.

"The remarkable decrease in the number of physicians who prescribe whiskey is causing great satisfaction at dry headquarters in Washington," says Mr. Wheeler, and he adds: "No doctor can prescribe whiskey without a permit."

In the United States there are 152,627 physicians and 119,248 of these do not hold permits, Mr. Wheeler said.

The sentry challenged the car three times, it is said, and upon its falling to halt as ordered, he fired. The shot shattered the rear glass and penetrated the officer's head. Death was almost instantaneous.

Sentry Had a Right to Fire

NORFOLK, Va., Feb. 1.—That the sentry who killed Lieut. John C. Taylor was justified in firing at the officer's automobile is the belief of naval operating base today.

The sentry challenged the car three times, it is said, and upon its falling to halt as ordered, he fired. The shot shattered the rear glass and penetrated the officer's head. Death was almost instantaneous.

APPEALING TO FLORIDA PEOPLE

JACKSONVILLE, Feb. 1.—In order to secure a gift of \$100,000 offered by Charles H. Morse, of Chicago, and Winter Park, towards a million-dollar endowment fund, the trustees of Rollins College, at Winter Park, are appealing to the people of Florida for \$400,000, over half of which has already been raised.

UPSALA AND GRAPEVILLE

Rev. Albertson of DeLand will be with us for the regular service next Sunday, preaching as usual in the morning at Lake Mary and at Upsala at 3:30.

Dr. Edward and Rev. Albertson were both in attendance at the session called by Dr. Brownlee in Sanford last week.

We are all sorry Mrs. Magnussen is ill. She has been having dizzy spells for a month and Dr. Puleston was called out Tuesday.

Mr. and Mrs. Lyons of Sanford were callers Sunday at the home of Mr. and Mrs. Mealer.

Mrs. A. L. Campbell and children attended service in town Sunday, bringing home Mr. and Mrs. Ballinger who were in also for the morning.

Volie Williams has been adding to his young orange grove, making him in all some ten acres.

All hope the railroad depression will not last long. Some of the Upsala men are in the lay-off, sorry to hear.

Mr. and Mrs. C. F. Reed of Sanford have moved out and are keeping Mrs. J. A. Vaughan company.

There are one or two empty houses we expect to see occupied now we have our good road.

Mr. Swan, who lives alone near Twin Lakes, happened to a bad fall from a ladder which confined him to his bed a few days and none of his neighbors knew about it.

We were fortunate to have an extra service by Rev. Albertson Sunday. He found he was free and paid us a visit, being entertained at the home of Mr. and Mrs. Bertelson.

The young folks of the High who attended the lecture by Dr. Conwell were very much pleased by it.

Mr. and Mrs. Ried of Boston, Ga., are visiting at the home of their daughter, Mrs. Andrew Bertelson.

Mrs. W. A. Tyrer was a guest Sunday at the home of Mr. and Mrs. T. O. Tyrer, where they had cream and cake in honor of Miss Eunice's twentieth birthday.

Fred Krell attended the banquet of the Presbyterian Brotherhood in Sanford Monday evening.

Mr. and Mrs. Edgar Tree and baby were callers Tuesday at the home of Mr. and Mrs. Tyrer.

Friends of Teen Arrents will be sorry to hear he is very ill at his home at Aucilla, Fla., with typhoid pneumonia. His brothers, Dunnie of Sanford and George of Winter Park, are with him.

Mrs. Benton and daughters, Helen and Alice, and son, George, Jr., of Midland spent Sunday at the home of Mr. and Mrs. Westerdick. We hear the son expects to leave for Cornell, N. Y., on Tuesday. Mr. and Mrs. Barney Beck and children were also present.

Mr. and Mrs. Larson were callers Sunday at the home of Mr. and Mrs. J. E. Lundquist, coming down from Piedmont to inform them of the death of their old friend, Mrs. Jackson of that place. The funeral was held Monday. She had been an invalid for years with rheumatism.

New Sweet Potato Brand is Evolved at Grand Island

GRAND ISLAND, Fla., Feb. 1.—Ninety days from the planting of the slips, J. P. Crumley, a farmer of this vicinity was eating a new brand of sweet potatoes that promises great things in Florida. Two years ago Mr. Crumley planted a number of varieties of sweet potatoes in a small patch, and from the seed of the product he has evolved a sweet potato that is prolific, grows to a large size, and is most delicious cooked in any manner. It is firm, exceedingly sweet, and in his first crop of 40 bushels there were no blemishes. Samples left with E. F. DeBuck, the agricultural agent weigh in excess of six pounds each, as firm as lead.

Mr. DeBuck is so interested in the potato that he is to make a record of its inception and carry on experiments this season along with Mr. Crumley and furnish the data to the state and government. Mr. Crumley has named his sweet the New Gem and hopes to have 50,000 or more slips for distribution this year.

MIXED CARS OF VEGETABLES.

Two cars of mixed vegetables were shipped from Plant City Friday. In addition to these, express shipments have amounted to 200 packages since Thursday. Lettuce, English peas and cabbage were the principle vegetables shipped.—Plant City Courier.

HONOR ROLL OF CITY SCHOOLS

First Grade
Margaret Buchan, Marjorie Turner, Lois Shelly, Mary Maxwell, May Hickson, Mary Hurt, Louise Hickson, Robert Miltzer, Tony George, Billy Gillon, J. B. Coleman, Jr., Lawrence Reel, Edwin Shinholser, Jim Roberts, Lawrence Lundquist, Albert Rivers, Britt Willetts, Bertha Willetts, Viola Stilles, Elizabeth Wethvin, Katherine Fugue, Rose Pitt, Pearl Tyner, Georgia Powell, Hazel Tew.

Second Grade
Robert Adams, Emmet Fox, Frank Langley, William Morrison, Lib Morse, Oke Nordgren, Olaf Nordgren, Kelly Pope, H. C. Eighth Grade
Mary Crawford, Elma Tolar, Naomi Fellows, Olive Newman, Marie Fucilo, John Brumley, Era McAlexander, Mary Elizabeth Puleston, Velma Shipp, Lillian Glidewell, Thelma Spurling, Albert Connelly, Irma Smith, George Mobley, Lewis Shipp, Helen Kennedy, Louise Powell, Tillie Benjamin, George Wilson, Anna Kanner, John Schirard, Bertha Ferguson.

EAST SANFORD

Rev. Dr. Walker has promised to be at the Morris Station church to preach Sunday afternoon, February 6.

Mrs. Hal Colbert and children of Marquette avenue are in Tampa visiting her parents and will remain for the South Florida Fair and Gasparilla.

Miss Stanley Walker is in Orlando this week visiting relatives and friends.

Mr. and Mrs. James English of Tampa were guests at the McDougal home on Celery avenue last week.

Morgan McClelland has written from Camp Jackson, S. C., that he has enlisted in the U. S. army and is in camp there.

Mr. and Mrs. I. D. Hart and daughter, Miss Ruby, are driving a new Buick Six and purchased in Orlando this week.

Mrs. E. M. Galloway is grieving the death of her beautiful shepherd dog. Someone ran him down with a car almost at her door.

Several members of the Steele family, the R. C. Long family and the Britt family, Nick Zernovau and Jack Ellsworth were listening to the "Acts of Diamonds" lecture and have since been looking diligently to see if they have overlooked any diamonds in their doorways.

R. L. Grier is very ill and has not known Mrs. Grier or the children for twelve days to date (Wednesday). A brother in Charlotte, N. C., has been sent for. Mrs. Grier and children have the sympathy of everyone.

The Lord helps those who help themselves, they say—but the judge gets in the last word.

ORGANIZED GOOD BAND LAST NIGHT

MANY OLD AND NEW PLAYERS HERE WHO WILL GIVE SANFORD REAL BAND

(From Saturday's Daily)
Sanford musicians met at the court house last night and decided to form a band or rather to reorganize the old Sanford band which in its day was one of the best musical organizations in the country. This city can support a first-class band and now that the boys have shown a disposition to get together again and show the public what we have here in the way of musicians it is hoped that the city will help to support a real band. The following were elected as officers:

W. L. Harvey, leader; G. C. Fellows, manager and assistant leader, and the following well-known band men were present or signed up as members: Messrs. Latspaugh, Thornton, Joe Reinsteint, Haskins, Gormley, Surcey of Longwood, Lyon, Aspenwall, Dickson of Oviedo, Stumon, Musson, Mr. and Mrs. Robert Herron, Max Stewart, Felix Frank, C. Bercliff, Bradford.

The boys also talked over many things for the benefit of the band and of the city generally and decided it would be a good thing to move the present bandstand from Central Park to a position in the business section of the city as it is now too close to the hospital and too far from the main thoroughfares of the city.

They have ordered all the latest numbers in music and since most of them are seasoned players and will not require much practice we can look for some good concerts before long.

Now let everybody get busy and help along the band—one of the greatest assets to this or any other city.

Entomologists Are Preparing to Save Citrus Industry

WASHINGTON, Feb. 7.—Aleuracanthus Woglumi is threatening an invasion of American citrus orchards. So say government entomology sharks, who are preparing battle plans for growers to meet the invader. Sometimes they refer to the enemy as the black fly, a new citrus pest seeking to emigrate from India's groves to the land of the free and already having advance guards in Cuba, Panam and Costa Rica.

If aleurac—and the rest of it—is established in the United States, the department of agriculture said in its bulletin today, "It is possible it will add a heavy burden to the citrus grower."

CANNOT EXIST

WASHINGTON, Feb. 7.—Reduction of freight rates asked today of Interstate Commerce Commission by six of the largest cattlemen's associations of the west. Spokesman told commission that the market prices of sheep, cattle and wool had fallen so low that western cattle raisers, and farmers, were no longer able to sell product for enough to pay freight rates.

Love is not only blind but it still clings to the idea that two can live as cheaply as one.

CITY RECORDS IN FINE SHAPE, SAYS ACCOUNTANT

INCOMPARABLY BETTER SHAPE AND MAKE A FINE RECORD FOR PUBLIC.

The following statement about the city records is interesting:
Hon. H. R. Stevens, Mayor, City of Sanford, Sanford, Florida.

Dear Sir:
In accordance with instructions, we have audited the City's books for the period beginning January 6th, 1920, and ending December 31st, 1920, and hand you herewith our report.

We are glad to report that the records, as a whole, have been well kept during the past year; this fact, coupled with the adoption of the numerous suggestions and changes made by us has resulted in the entire records of the City being now in a shape incomparably better than at any time in the past and afford a reliable guide to those in charge of its affairs. In order to enable ourselves to make this statement we made an examination which may, in some details, have appeared unnecessarily minute. While we were at times questioned as to the necessity for this detail, cordial co-operation was in all cases given us and we are strongly of the opinion that no unnecessary work was done and that the accompany report fully justifies the care which was taken.

Yours faithfully,
MUCKLOW & FORD,
Certified Public Accountants.
By WALTER MUCKLOW.

BANDIT DASHES INTO BOX OFFICE AND TAKES \$700

MIAMI POLICEMAN KNOCKS DOWN BOLD HOLD-UP MAN, SECURES LOOT.

MIAMI, Fla., Feb. 8.—Walter L. Lynch, alias James L. Bulwer, who claims Jacksonville as his last place of residence, was captured Sunday night following one of the boldest hold-ups ever staged here, when he broke into the box office of a local theatre, seized \$700 in bills from the woman cashier and dashed away. He was stopped by a former policeman, who knocked him to the sidewalk with a blow of his fist. Lynch's head struck the sidewalk, fracturing his skull.

He was sent to the county jail and medical attention summoned. Four stitches were required to sew up the wound.

Screams from the cashier attracted the attention of passersby, who picked up the money, which had fallen out of the bandit's hands to the sidewalk. All was recovered. The theatre is in the down town business district.

President Building Trades Council Was Convicted

(By The Associated Press)
NEW YORK, Feb. 8.—Robert Brindall, president building trades council, convicted of extortion from builders and sentenced today to serve from five to ten years in state prison.

CIGARETTE

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

FLORIDA INVENTIVE GENIUS WINS

THE CRANKLESS ENGINE WILL BE ONE OF FLORIDA'S ASSETS

A few years ago the people of the United States were startled by the announcement of a Floridian that he had invented a process to manufacture artificial ice. Sometime later Dr. John Gorrie convinced a party of his scientific friends that he could make good his claim and soon the world knew that ice could be manufactured at the will of man by the process worked out by Dr. Gorrie. Today a monument commemorating the wonderful work of this man greets the visitors to the city of Apalachicola, Florida, and his name is known in scientific circles throughout the world for his beneficent invention for mankind.

With all the modern means of manufacturing steam and internal combustion engines it was thought that the perfection of the airplane had reached the limit of inventive genius in this line, until it was announced a few months ago that internal combustion as well as steam engines without a crankshaft had been invented by another Floridian.

In ancient times the old grindstone was turned by a crook in a shaft projecting from the center of a huge disk of stone and this crooked piece of iron which furnished the power for the grindstone became known as a crank.

Later inventors continued the hook of this crank, giving two bearings to the shaft of iron and then called it a crankshaft. This change in the mechanical construction was made possible by the extension of the metal shaft to the crank or "crooks" in the shaft in as many cylinders as the engine might contain.

While the crank shaft enabled mechanical minds to perfect wonderful power in all types of engines, it remained for J. E. Emley, of Fernandina, Florida, to produce an engine of greater efficiency than any so far announced without the aid of the "crankshaft" and to eliminate the friction that has been closely allied with the crankshaft engine.

Mr. Emley's invention is known as the Crankless Engine and the principle of this engine develops the known mechanical principles along new ideas and this engine has proven to possess greater efficiency than any other power-producing machine known to mechanical science.

Without examination of a model of this engine persons of mechanical mind cannot realize what this engine means. For the purpose of informing those who might be interested as to principles of this engine and the plans of its manufacture, Mr. Lee W. Wicker, formerly an automobile manufacturer of North Carolina, but now vice president of the Crankless Engine Company, will be in St. Cloud Friday and Saturday to explain the working of this new power generator.

The Crankless Engine Company is at present erecting a large factory in Jacksonville for the manufacture of both steam and internal combustion engines of the crankless type.—St. Cloud Tribune.

GUARDS HELD FOR KILLING PRISONER

ST. AUGUSTINE, Feb. 7.—Frank Quigley and Raymond Pacetti, convict guards, are being held here today on charges of murder as the result of killing William Murphy, of Wilmington, Del., who was serving a thirty-year sentence. It was said Murphy was being beaten by the guards because of slowness in performing a task when he turned upon them with a rake and a shot was fired which ended his life.

CIGAR STRIKE CALLED OFF IN TAMPA

THIRTEEN THOUSAND CIGAR-MAKERS EFFECTED FOR TEN MONTHS

(By The Associated Press)
TAMPA, Feb. 5.—Officials representing thirteen thousand striking cigar-makers here announced today the strike was called off by referendum vote. Strike has been in progress for nearly ten months, hinging principally around the open shop. Union officials said referendum ordered because of increasing difficulties of obtaining funds to support strikers.

NEW TIRE COMPANY STARTS HERE

The Frank Akers Tire Co., a new business concern in Sanford, will be ready for business tomorrow at 105 Palmetto avenue. A complete line of high grade tires, tubes and accessories will be handled and a big opening sale of tires and tubes will be inaugurated tomorrow morning. Mr. Akers has had wide experience in this line, understands the business thoroughly and cordially invites a call.

WOMAN'S CLUB

Club Calendar
Tuesday, Feb. 8.—Social Department Bridge-Luncheon—Mrs. H. B. Lewis, hostess.

Wednesday, Feb. 9.—Literature-Music. Sponge Industry—Mrs. W. A. Whitcomb. Vocal Solo—Miss Manon Phillips. Valuable Trees of Florida—Mrs. Henry Wight. Piano Solo—Mrs. Schelle Maines.

CARD OF THANKS

The Women's Club desires to express their appreciation and thanks to all those who contributed in any degree to the success of the Flower Shop. To each member of the cast and choruses and to all of the little folks who participated. To Mrs. Craig Harris, whose splendid co-operation as accompanist, made possible the complete success of the play, to Rev. Father Peck for the generous use of the Parrish House, to Mr. Ogilvie and the Board of Education for the High School Auditorium and to the Sanford Herald for the courtesy of its columns. To any and all of these we extend cordial thanks.

BUSINESS MEETING

The monthly business meeting of the club was held Wednesday afternoon with a good attendance. Mrs. W. L. Morgan, presiding. Reports of the officers and chairmen were most encouraging, the treasurer's and finance committees being exceptionally good for the month. Among other items the treasurer reported \$57.87 collected and transmitted to the European Relief Fund, and a balance of \$1181.13 in the building fund.

Sixty-nine dollars and thirty-five cents from the rummage sale and \$120.08 net proceeds from the play was included in the report of the finance committee.

The chairman of the house committee announced that hereafter the rental of the club house for entertainment would be \$5 for each affair. The revision committee placed upon its first reading, the changes recommended in the rules and by-laws, to be voted upon at the annual meeting in March. The resignation of Mrs. Geo. Fox as second vice-president was accepted with regret.

Nominations for first, second and third vice-chairman, recording secretary and treasurer, were made and the ballots placed in the hands of Mrs. A. P. Connelly, chairman of the election committee.

A request from Mrs. Berry, chairman of the Women's Club committee, for jellies, preserves, marmalades and candies and the announcement that all contributions be sent to T. J. Miller's furniture store, concluded the business of the meeting.

Alabama Congressman Died in Bartow, Fla., Suddenly Last Night

(By The Associated Press)
MOBILE, Feb. 8.—Fred L. Blackmon, of Anniston, representative in congress and recently re-elected for his seventh term, died at midnight last night at Bartow, Florida.

Buena Vista was a pretty little village a couple of years ago. Now it has been swallowed up by Miami, which is spreading north so rapidly that every town along the coast to Palm Beach is afraid of losing its identity in the next few years.

THE CITY MANAGER PLAN OF GOVERNMENT WORKS TO ADVANTAGE OF CAPITAL

Statement of City Manager of Tallahassee Shows Great Results

ECONOMY KEYNOTE

AND CHANGES FROM A LOSING PROPOSITION TO A WINNING ONE

The city of Tallahassee will this month celebrate its first anniversary of city-manager government, an event which marks it as the oldest city of Florida enjoying this distinction. City-manager form of government was placed into effect in the Capital City, February 20, 1920.

Since that time other cities of the state have followed its course and the matter is today being agitated in numerous others, all of whom are pointing to Tallahassee's record in this respect as a strong argument in favor of the plan. Among these are Jacksonville and Fernandina the city of Tampa recently having adopted this form of government.

Some of the economies effected through the city-manager plan are city by Tallahassee's mayor and Guyte P. McCord and City Manager J. W. Greer, as follows:

Tallahassee owns its water works, gas and electric light plants. At the time this city adopted the city-manager form of government, according to Mayor McCord, its public utilities were losing approximately \$1500 per month, and the city had gone into debt to the extent of \$12,000, with no way to pay its debts. The first month under the city-manager government, it changed from a losing proposition and made \$900 clear.

This, he says, has increased in varying amounts ever since, having touched as high as \$3600 in some months.

The city has owned its gas plant for about 20 years, the mayor said, and the plant was already worn out when it was purchased. This plant had never made money for the city except under the city-manager government. It has cleared in the 11 months since this form of government was put into motion, between \$800 and \$1000 and it is declared that the gas supply has been larger than before.

The city will have a new gas plant in operation in about 60 days, purchased out of bonds authorized under the old form of government. The plants have made this amount, according to the city officials notwithstanding the fact that fuel is the city's largest item of expense and the fact that the city has had to pay from 80 to 100 per cent more for fuel than it was paying at the time the city-manager form of government went into effect.

At the time the city-manager government went in, the city owed in notes to local banks between \$9000 and \$10,000, together with floating debts aggregating approximately \$2000, the mayor said. The city has paid that indebtedness and has sufficient funds with which to complete its fiscal year (March 1) without borrowing. This profit showing is made without any increase in gas or electric rates. Water rates have been slightly raised. "This is the first time the city has not had to borrow money to get through the year within a number of

years," Mayor McCord declared, "and the city is on a cash basis—pays its bills promptly, takes advantage of all discounts for cash and does not owe a dollar, except bonded indebtedness which was authorized under the old form of government."

Another interesting achievement under the city-manager form is that property values have been equalized for the first time on the city tax roll, with the result that such economies have been effected under the new government, as a reduction of 3 mills in city taxes and fully 75 per cent of the city's taxpayers pay less in taxes than formerly.

A large part of the economies have been brought about, Mr. McCord says, by having the city's business attended to by a business manager, thoroughly trained in municipal operation. The city manager is city purchasing agent, thereby eliminating useless and unnecessary purchases, and buying only at the lowest market prices. "City-manager government," he explains, "can not be a success without the right kind of commission, and most of all, without the proper and thoroughly trained man for the job. It is preferable," he added, "to employ someone who has had actual experience in managing a city and the adoption of this form of government takes the city's business to a large extent out of politics."

Tentative Grades for Rough Celery

U. S. No. 1
U. S. No. 1 celery shall consist of sound stalks which are of similar variety characteristics; mature, crisp and well trimmed; and are not wilted, pithy, or showing seed stones; which are free from soft rot; and practical free from freezing injury and damage caused by blight or other diseases, insects, or mechanical or other means.

Each stalk shall be 1 3/4 inches or more in diameter.
In order to allow for variations incident to commercial grades and handling, 5 per cent by count of any lot may be below the prescribed diameter, and in addition, 5 per cent by count may be below the remaining requirements of this grade.

U. S. No. 2
U. S. No. 2 celery shall consist of stalks which may not meet the requirements of U. S. No. 1.

Size
In addition to the statement of grade, any lot of celery may be classified according to the number of dozen stalks in the container ordinarily used or as "small," "medium," or "large," but if so classified, the stalks in the container shall not vary more than one-half inch in diameter and if the general size terms are used, the stalk in such lots shall conform to the following diameter requirements for the particular size term designated:
Small, 1 3/4 to 2 1/2 inches. Medium, 2 1/4 to 2 3/4 inches. Large, 2 3/4 inches or larger.

Color
Any lot of celery shall be considered as blanched if the green color in the stems of the heart is absent and in addition the outer stem of each stalk shows not more than 25 per cent green color.

SLEDGE AND AXE USED BY YEGGS FOUND IN CREEK

INDICATES THAT BANDITS MAY HAVE WENT TO TAMPA FROM LARGO.

CLEARWATER, Feb. 7.—Finding of a sledge hammer and a hand-axe in Allen's creek on the Largo-Haines-Safety Harbor-Tampa road Friday are the only new clues—or possible clues—to the bandits who robbed the Pinellas County Bank and the American Railway Express Company's office at Largo.

Another development was the release Friday afternoon of Ira J. Money from the county jail. Money is the only person who has been taken into custody in connection with the bank robbery. He is the 18-year-old Gainesville youth who was found locked up in the safe deposit vault, where, he claims, the robbers thrust him after holding him up in the street just about 4 o'clock Friday morning. The authorities are convinced that Money's rather hazy story after his arrest were due more to excitement and fright than anything else.

The sledge hammer was found in Allen's creek where the Haine's road crosses it, by Bert Nelson. It had evidently been thrown into the creek at high tide, and was found at a time when the tide was low. He brought it to Clearwater and turned it over to Chief of Police Joe Russell. It is of medium weight and new and bears signs of having been used with considerable violence. The theory is that the robbers used it in forcing the combination of the main door of the bank vault.

Later in the day officers went to Allen's creek to see if they could make other discoveries. They found the hand-axe under water. It also is new and shows some signs of use. There was a price tag on the ax showing that it cost \$2.25.

Chief Russell turned the two tools over to the American Banking Association's detective, sent here to work on the case. Efforts are being made to discover where the tools were purchased. The kind of tools in stock (Clearwater, no store here has been found) checked up at the bank disclosed that the loot secured by the band of robbers was greater than at first supposed, the addition being mainly of values placed on securities and other valuables secured from safe deposit boxes which the robbers broke into. The total loss is estimated by the bank officials as about \$40,000, divided as follows:

Bank's loss, \$13,000 in cash, \$17,000 in bonds and war savings stamps; individuals' losses from safety deposit boxes, about \$10,000 in securities and jewelry. Most of the loot taken from the safe deposit boxes was bonds. The greater part of the paper secured by the bandits was negotiable. The bank's losses are entirely covered by insurance.

The American Railway Express Company lost about \$400.

CHULUOTA

A couple of strangers were seen passing there yesterday. Most of the inhabitants of this rushing town were visitors in Sanford this week.

Some of our strong young men are trying out their axes now, cutting cabbage-buds on the river and Black Hammock.

Roland Dann, the hustling blacksmith, was seen out for a flivver drive the other night.

O. G. Wolcott, of Oviedo, and Lake Charm, is improving the Inn with a new coat of paint.

Geo. Jacobs, W. I. Higgins and Mr. Small completed a flivver house for the former this week.

Billy Jacobs, the hustling live stockman, is out after swine some days, but Noah has 'em all skinned when it comes to showing us what will grow in this sand.

D. D. Daniel, the pioneer merchant, is putting the ties and buds to the cars these days.

APOPKA LADY IS BURNED TO DEATH

Mrs. J. A. Hotz was burned to death in Apopka yesterday, her dress catching fire from where she was burning trash. Otto Anderson, of this city, is the grandson of Mrs. Hotz and attended the funeral at Apopka today.

The mocking birds are at it again. The little fetches are singing the moon into its bed at dawn and rousing the sun to play!

Speaking of the ultra-violet ray as dangerous; it cannot compare for fatal effects with the glancing ray from two violet-eyes we know.

TRAMMELL WANTS INFORMATION FOR AGRICULTURISTS

WASHINGTON, Feb. 5.—Senator Park Trammell of Florida has introduced in the senate an amendment raising the amount provided for the collecting, publishing and distributing of information on the market supply and demand, commercial movement, location, disposition, quality, condition and market prices of fruits, vegetables and other agricultural products and livestock, from \$390,000 to \$750,000.

This is a matter in which Senator Trammell feels a peculiar interest as it is one which for years has received his attention. While governor of Florida Senator Trammell in his message to the legislature urged the importance of a state marketing bureau for the dissemination of information to the growers of the state similar to that provided for in the bill sought to be amended. This \$750,000, Senator Trammell said, is the amount that the department of agriculture has asked for, while the house reduced it to \$390,000.

JACKSONVILLE MAN IS KILLED BY DEPUTIES

JACKSONVILLE, Feb. 7.—Joseph M. Howard, twenty-three, was shot and instantly killed here today by deputy sheriffs. The officers, W. E. Edge and S. W. McDowell, claim self-defense. They had placed Howard's brother under arrest, charged with disorderly conduct, when Joseph Howard is said to have opened fire on the officers, who immediately returned the shots.

The curl of the former kaiser's mustache is still there; but those who have seen it say it is no longer a contemptuous curl.

THE AMERICAN PRESS ASSOCIATION

Orange blossom time.

And it will soon be the prettiest time of the year.

The tourists who leave for the North at the first breath of spring miss the best part of the season.

The South Florida Fair is said to be the best that has ever been held in Tampa. Seminole county was not there with an exhibit.

However, Seminole county will be at the Sub-Tropical Fair at Orlando. We can not take them all in and it costs money to make exhibits. We realize, of course, that it is the best kind of advertising but there is a limit to our money.

The biggest firms in the country have decided to advertise more this year than ever before and if the big ones decide this momentous question the smaller ones should not hesitate.

Rockefeller at Ormond says he is not afraid to tackle President-elect Harding is a game of golf. Gee, we hate to see that. It means that if John D. was to stub his toe the price of oil would jump.

We wish the business men of Sanford would rise earlier. The city looks like a graveyard until after 9 in the morning. With the closing at six in the evening and the opening at ten the stores might just as well get in the bank class and be done with it.

The White Way on First street will not light the stores at night as they should be lighted. If a merchant thinks he is saving money by having his windows dark he is sadly mistaken. Every real store in Sanford should have good window displays all the time and have the windows lighted every night until 9 o'clock at least.

This old world is the survival of the fittest and some of these days there is going to be some of the fittest drop into Sanford and make the fur fly and then the ones who have been laying down on the job will discover that they have been wastig good time while being penny wise and pound foolish. The wise merchant is advertising. The merchant who does not advertise is inviting competition.

Sanford needs a downtown ticket office. The station is at least a mile from the city proper and a city ticket office would be of the greatest benefit to the traveling public. Orlando, with the station only three blocks from the main thoroughfare has a downtown ticket office and has maintained one for many years. It may be that it is on account of Orlando having two railroad lines. If that is all that keeps Sanford from having this convenience we will make haste and get another line in here.

The Kissimmee Valley Gazette's 11 1/2-lb. bass was beaten by J. H. Woodward of the Thomas Hardware Company, who had a 12 1/2-lb. big-mouth bass, caught by him in Lake Butler, on display in the store window Friday.—Tampa Tribune.

And both of them were beaten by Charles Whitner, of Sanford, who caught a bass in the Eeolockhatchee creek, near here, that weighed 14 1/2 pounds six hours after being caught. The other parts of Florida will have to come again. Up to date Seminole county has them on the bass.

The mid-winter edition of the Florida Grower is a peach with 74 pages and a finely illustrated cover. The edition covers all of South Florida and then some, showing wonderful pictures of the beauty spots and the crops and the fish and the hunting of this state are given fine publicity. After looking at the girl on the cover as she lolls on the beach we see why Edgar Wright spends so much of his leisure time fishing and swimming on the gulf coast. If you catch them down there like that, Edgar, we will accept your invitation to go tarpon fishing some time later on. The Florida Grower is doing the greatest work in the publicity line of any magazine in the south and has probably brought more people to the state of Florida than any other one agency.

There is a lot of talk on the streets about the appearance of the city, especially in the business portion of the city. We are all to blame for the appearance of the sidewalks in front of our places of business but the streets are up to the city and they are not kept as clean as they should be, especially now that the city is filled with visitors and there is apt to be more trash thrown around than in the summer time. At any rate we pass this along to the city officials and ask them to get busy at once and keep the streets in the business portion and the residence portion cleaner and cleaner until Sanford shall be the spotless town. It goes a long way with the visitors for the first impressions are the lasting ones.

Our dissertation about the advisability of buying the Southern Utilities Company plant here some time in the near future has brought a great response from unexpected quarters. Tax papers who are paying the bulk of the taxes and who have never said much on this subject have voluntarily told the Herald editor that they would never vote bonds again for anything except the purchase of plants for the city for electricity, gas and water, but that they were in favor of this move as soon as prices on this kind of material dropped. This will be a live question some of these days and it is high time that the tax payers were considering it. Nothing will lower our taxes like the ownership of the public utilities.

We have finally come to the conclusion that all this talk about flour dropping five dollars a barrel and the price of wheat being so low that the farmers can not buy flivvers is pure bunk. We are certain there has been no reduction in this great staple, as bread now sells for 15 cents the nineteen ounce loaf. This is as high, if not higher, than it has ever been since we have lived in Haines City.—Haines City Herald.

Trouble is, when you buy at retail you can never tell what the producer got for a commodity. Even before the retailer gets hold of the flour or the cloth or the shoes, several intermediate factors have had a hand in the transaction.—Lakeland Star.

The safest place for one's valuables is the bank. A hundred private places are robbed to one bank. The bank's funds are as a rule insured, and all losses are made good by the insurance companies. In these days, when so many robberies are taking place, why would it not be a good idea for an alarm system to be arranged so that when a bank or a place of business is robbed, a general alarm could be sent in, like the alarm for a fire, and then the whole of a small town would be on the guard for people in black Fords or yellow Buicks, or green Cadillacs? If the officers knew which direction a gang of robbers went, they could soon apprehend them by use of the telephone or telegraph or motorcycles.—DeLand News.

A CLEANER STATION.

There is considerable adverse criticism on the union station and surroundings and especially on the land east of the station that belongs to the A. C. L. Ry., and that has never been put in decent shape although many promises have been made. At almost every other point along the line the station and grounds are kept in good shape either by the railroad or by the civic societies and to a stranger getting off here for a few minutes and looking around the station and down Ninth street the outlook is hardly attractive enough to make him think twice about Sanford. At the station the passengers cannot see the real city of Sanford and if they judge it by the appearances of the station and surroundings they will have a mighty poor opinion of the city. The station building is one of the finest in the state but that does not cover up the bad spots in connection with the building.

PROTECTING THE GAME

The meeting of the Seminole County Game Protective Association the other night was not announced in the Herald and but few of the out-of-town people knew about the meeting but it was well attended and showed the sentiment of the people here in regard to the protection of the fish and game in this county. The Rod and Gun Club is all right but unless the Seminole County Game Protective Association has a large following there will be no fish and game for the Rod and Gun Club to go after and they can shoot clay pigeons for amusement. This protective association should have been formed years ago for we have sat down here and let the pot hunters and out-of-season hunters gradually get into the young game in the summer time until the scarcity this season calls for drastic action.

Every other county in the state will have a protective association of this kind and there will be a concerted action all along the line to take up

this important matter before the next session of the legislature and to frame an adequate law that will protect the game for the legitimate sportsman and eliminate the man who takes game out of season.

The Seminole County Game Protective Association is a step in the right direction and should be supported by at least 1000 good sports who realize the value of drastic laws for game protection even if it shuts off all hunting for a period of years. The Herald will have ample notice of the next meeting and Seminole would like to hear from other counties along this line. If any of them are interested drop a line to Frank Giles, Secretary, Sanford, Florida.

DID NOT RAISE TAXES

In our statement about the remarkable showing made by the commissioner-manager form of government for Sanford in Saturday's daily we said the taxes had been raised that year by the new city government that made a difference in the totals. This was an error and it has been called to our attention that the taxes were not raised in the year, 1920 consequently the totals show that the expense under the old form was \$68,918.48 and the total income was \$52,764.25 showing a deficit of \$16,154.22. Under the old form the city has paid off the old deficit and has a sum over the expenses of \$2,845.27.

We stated in Saturday's issue that this was a good showing even with the taxes raised but since the taxes were not raised and the statement shows the new government to have paid off the old debts and had a good sum over and above all expenses the showing is all the more remarkable. And in congratulating the city commissioner on their good work the Herald would like to add that in another year we should be able to take steps to either purchase the plants of the Southern Utilities Co., and give the citizens the benefit of cheaper rates on gas, water, electricity and ice or if this is not done the commissioners should endeavor to lower taxes if possible. While Sanford taxes are as low as any other progressive city it would be the finest advertising in the world to show the investor that Sanford had even a lower rate than many cities. In other words, with prices falling and everything coming down in the next twelve months it should not take as much money to operate the city government and taxes could be lowered. We all recognize the fact that improvements and high taxes go hand in hand and no one wishes to retard progress by lowering taxes but if the commission by practicing the same economy and business methods could reduce taxes especially on residences in which the owners live it would stimulate building as nothing else would do and there would be twice as many home owners as there are now.

THE EAST COAST CANAL.

The houseboat on which President-elect Harding attempted to make a trip on the East Coast canal was twice stuck in the mud, and it is possible that the last leg of the trip will have to be made by rail. The East Coast canal is owned by private individuals, who built it for a consideration of state lands—a few million acres. This is one of the very few—if not the only—privately owned water way for public use in the United States. For several years an attempt has been made to have the government take over the canal, dredge it out to a safe depth and keep it open for navigation. The East Coast Canal and Transportation Company, which dug the canal, did a great work, a work which can be appreciated only by one who has made the trip by motor boat from Daytona to Jacksonville and deserve great credit for opening up this waterway, and connecting the St. Johns with the Indian river—but the time has passed when such means of transportation should be privately owned.

The passage of the president-elect through this canal, and his unfortunate experience of being stuck in the mud twice, may eventually prove a great thing for the eventual owning of the canal by the government.

The News hopes some time to see the Indian river and the St. Johns connected by a short canal south of Sanford, which would give a grand waterway from Jacksonville via Palatka, DeLand and Sanford to the East Coast and thence back by New Smyrna, Port Orange, Daytona, and St. Augustine to Jacksonville.—DeLand News.

Great minds run in the same channel, Chris, old chap. In Saturday's Herald the same date as the above in the News we had an editorial of the same kind. We knew DeLand could be counted on in getting the St. Johns river before the people and the Sanford Chamber of Commerce will take steps at once to get the co-operation of the river cities and towns and the lower east coast.

THE NEED FOR WIDER ROADS.

Time changes opinions even though they are expert's opinion and what is good today is obsolete tomorrow and this rule especially applies to road building. A few years ago all of us thought that a nine foot brick road was all right. We wanted a wider road but we could save money by the nine foot road and make more miles of it and yet the time has come when we will have to change our opinion again and say that wider roads will have to be built even if a limited number of miles are built each year. The narrow roads are dead on tires and a trip to Orlando or any other nearby city especially on Sunday when the whole world is taking an outing will convince any one that the narrow road is a thing of the past. For twenty-five miles it is a succession of getting on the road and getting off the road to allow cars to pass until it is about as comfortable to take the right hand side with two wheels on the brick and two on the side of the road and keep it up all the way. This getting on and off the brick is not only bad on the tires but spoils the joys of the otherwise pleasant ride and at times it is very difficult and very dangerous. Other counties are seeing the light as the following from the Orlando Reporter-Star would indicate: "A casual inspection of the Winter Garden-Oakland road, the Orlando-Winter Park, as well as the Apopka road will show that because of the excessive travel over these trunk lines of Orange county's road system they are deteriorating."

"The Winter Park road, which is of grouted brick, is about the best piece of road work in the country, and under normal conditions would outlast any stretch of road in this section. However, there is a limit to all endurance and the constant running off and running back on the roadbed has worn the curb, as well as the earth adjacent to it, until it has allowed the bed proper to sag and spread, causing long cracks in the brickwork. Without this running on and off, this excessive wear would not have been and the road would have no doubt lasted a generation or more, with little repair work. Therefore, the most economical method to be used in putting this particular road in its normal condition is to remove the cause which is bringing about the damage, and the most simple way to accomplish this is the widening of the road to such a width that two cars can pass without getting off the brick.

"And what is true of the Winter Park road is relatively true of other roads."

OUR CITY GOVERNMENT.

In this issue is a statement of the year 1919 for the city of Sanford, showing the revenue account and from the year 1920 showing the revenue account with a comparison of finances in a year of the old form of government and the new city manager plan. The totals show that the expense under the old form was \$68,918.48 and the total income was \$52,764.25 showing a deficit of \$16,154.22. Under the new form the city seems to have paid off the old deficit and has a sum over the expenses of \$2,845.27.

The statement of course will be made by those who oppose the present form that the new government raised the taxes. They undoubtedly did, and so did other cities that were in debt but it seems better to raise the taxes and place the city on a cash basis and one that is paying expenses than to keep the taxes where they were, go in the hole and charge it up to the tax payers when it comes to paying the interest on vouchers, etc. It is reasonable sure and certain that

IN THE CIRCUIT COURT, THE JUDICIAL CIRCUIT, SEMINOLE COUNTY, FLORIDA.—IN CHANCERY.

James W. Jones, Plaintiff,
 vs.
 Lizzie Jones, Defendant.

DIVORCE.
 It appears from the Affidavit of James W. Jones herein filed, that he is the complainant in the above entitled cause; that the residence of Lizzie Jones, the defendant, is unknown to the plaintiff; that there is no one in the State of Florida the service of subpoena upon whom would bind defendant; that the plaintiff believes that the defendant is over the age of twenty-one (21) years.

You are therefore ordered to appear in this bill of complaint on Monday, April 19, 1921, the same being a rule day of this court. It is further ordered that this notice be published for eight successive weeks in the Sanford Herald, a newspaper published in Seminole County, Florida.

WITNESSES, E. A. DOUGLASS, Clerk of the Circuit Court, and the seal thereof, this 8th day of February, A. D. 1921.

(SEAL) E. A. DOUGLASS, Clerk.
 By V. E. DOUGLASS, D. C.
 Solicitor for Complainant. 26-51c

NOTICE TO DRAINAGE CONTRACTORS.

Sealed bids will be received by the Board of County Commissioners of Seminole County, Florida, at the office of said Board at the Court House in Sanford, Florida, on or before 10 o'clock a. m. on the 21st day of March, A. D. 1921, for the cleaning out of ditches and canals in Florida Groves and Black Hammock Drainage District Ditches.

under the present form of government and by practicing economy in one or two quarters that the taxes can be lowered next year or later. It also stands to reason that Sanford will eventually have to own her own utility plants if the city would make any money. It also stands to reason that in order to get the real advantage of the city manager form that the city manager should have charge of the utility plants and the city get this revenue that now goes to the Southern Utilities Co. It also stands to reason that Sanford will never get her rightful dues until the city can own these plants. But without this ownership and with all the big expenses of running this city the statement in today's Herald shows beyond any doubt that the city manager-commissioner idea is the right idea and will prove out in the end to the satisfaction of even those who were honestly opposed to it.

ALWAYS SOMEBODY TO KEEP US MOVING

With Tom Watson after the Catholics, Henry Ford after the Jews and the devil and Billy Sunday after the rest of us, the average American citizen gets little time these days for the undisturbed pursuit of happiness.—Dublin Courier-Herald.

The Sanford Herald is doing its part toward making Sanford a bigger and better town.—Lakeland Star.

HAPPINESS THROUGH WEALTH

WEALTH is not a domineering sovereign despotically distributing his fortune where favor prompts.

Wealth is not a mocker taunting the poor with the beauty and the luxury of his possessions.

Wealth is not a grasping usurer snatching his goods from the outstretched hand of the yearner.

Wealth is not a hateful cynic tempting Youth from the paths of righteousness.

Wealth is not a cruel taskmaster brow-beating slaves as they fall panting on the path of progress pleading for a moment's respite.

Wealth is not a mystic spectre guiding the old to halls of poverty there to echo the death-rattle in their scrawny throats with scornful laughter.

Wealth is a magnetic leader urging all to achievement by promises of rich reward.

Wealth is a divine inspiration awakening appreciation of the beauties of the world and the joy of living.

Wealth is the sage judge whose values spur desire to acquirement and bless longing with attainment.

Wealth is the maternal tester arousing youth to the appreciation of justice and the practice of nobility.

Wealth is the kind mentor ceaselessly encouraging the highest development of mental and character possibilities through endeavor.

Wealth is the Comrade of Opportunity, the Sister of Success and the Mother of Happiness.

THE PLEASURE OF WEALTH

The pleasures of wealth are many. Some delight the body, some enrich the mind and some bless the soul.

The first pleasure of wealth is SATISFACTION.

To one of courage and action the mere triumph of accomplishment enters the mind like the sweet, sudden fragrance of a flower. Only those who have conquered doubt, competition, exercised energy and completed achievement know the ecstatic pleasure of an aim attained.

The victories of Pershing, the music of Beethoven, the plays of Shakespeare, the inventions of Edison, gave to these favorites of the gods the greatest pleasure when alone and silent, far from the noisy chamber of public accord, came the realization of a purpose achieved.

And so it is with the man or woman, who murmurs lowly, "I have wealth."

The next pleasure of wealth is the Possession of Beauty.

Every one has an ideal. It may be a beautiful home, pictures, music, animals, or the desire to create beauty.

To secure these, wealth is necessary. And when wealth comes, the long desired articles and aims may be purchased.

Then is one's soul and mind filled with the joy of possessing. Of surrounding himself, or herself, with all the beauty which they have long yearned for and may now have as their own.

But the greatest pleasure of wealth is the Joy of Giving.

The pallid face of a street urchin; the silent sorrow of the blind; the eager youth crippled by Hun bullets; the tragedy of the unloved old; the pathetic struggle of the incompetent; all of these awaken a yearning to ease the pain, to allay the worried, to help.

Then there are those one loves best, the wife who has always been a partner in trouble and money-worries, whom you have seen watch luxurious cars go by, whose face has brightened at sight of dress or gem, only to sadly smile when possession was impossible; there are the children to whom one would give their youthful desire and prepare for life; but most of all is mother, the mother who has nursed you through mumps and measles, stood by you in scrap, and sacrificed and worried and loved, and the father who has toiled to have his earnings taken up by you, for your needs and desires. To them wealth permits you to give the things they want most; to lavish on them all their hearts desires.

Such are the PLEASURES OF WEALTH.

THE PROFITS OF WEALTH

The wealth which you acquire is profitable, not only to yourself, but to the others, to the world and to the race.

The presence of gold, of silver, of coal, of oil and the other mineral resources does no one good when they remain in the earth. Their good is realized when they are circulated among men and Nations.

Suppose no more oil were taken from the earth, what would happen?

Starvation would stalk abroad. It would enter the homes, about every factory and manufacturer, business would be paralyzed; navigation would be impossible—in short, progress would stop and civilization would pause. Man would be reduced to his status in the pre-historic ages, totally subject to chance and the elements.

When you give your dollars to free these mineral resources you are helping the race; you are advancing progress, you are being a brother to men. Here lie your profits and theirs.

The possession of wealth assures your financial independence. This is invaluable to the business man or woman and to those who have not the talent or training to make a good livelihood. It insures them the respect and consideration of their associates. It aids them to bring through deals and accomplishments of results which otherwise would be impossible.

To the city in which you live your wealth is a factor in its development. You can help it to meet the problems which visit every community.

In famine, fire, catastrophe, deluge, pestilence, you can aid materially in relieving the suffering. The social problems are largely solved through an expenditure of funds. You may help out on the funds.

The wealth which you have acquired and are enjoying will benefit the nation. In times of stress you will ever be ready to give it the desired assistance.

It was the American financier who won the world war no less than the doughboy. If red-blooded Americans had not wrestled with this new land, wrung from her rich mineral resources and filled her soil, realizing dollars on all her vast natural riches, what would the Liberty Loans have accomplished?

It was the dollars we converted into guns and ammunition, into food and clothing; it was the knowledge that "we were with them" that spurred our doughboy, the greatest soldier the world has ever known, to conquer the most despicable nation and the most barbarous race that ever saw light. Every narrow, struggling line that pressed out over No Man's Land through shrapnel and gas was cemented with American wealth.

HOW TO SECURE WEALTH

You may secure wealth. You may enjoy all its pleasures, you may lawfully accept its profits, and you may dispense pleasures and profits to your generation and to posterity.

Imagination must be developed. You must be able to visualize possibilities. You must be able to plan, to think. Foresight must be carefully fostered.

Judgment must ever be attended upon imagination. You must weigh possibilities, without prejudice. Meet men on their common ground and infuse into your judgment confidence, trust and justice.

Energy must always be kept screwed to the sticking place. Then you'll not fail. Procrastination, the arch thief of wealth, will flee.

Courage is the stimulant which will vitalize these requisites to fortune building. Without courage no great feat was ever accomplished, no great discovery was ever made. America would still be unknown were it not for Courage.

Constructiveness is the only method to gain wealth today. There was a time when industry was the key to fortune. That day is past. The paths of industry are clogged with workers today. But the demand for the products of earth is increasing constantly. To make money you must get back to earth.

Invention makes money but few have the ability. Genius in art makes money but this is given only to a few and the path is hard and long. Coal, copper, silver, gold, all the mineral resources of earth have been bought up. Fortune builders of the past generation have a monopoly on these products.

There is one of earth's products left—OIL.

Get into the OIL INDUSTRY. It is the newest, most profitable game known. There is a chance for YOU.

YOU WILL GAIN WEALTH

If you have good will toward your fellow man, good luck will come to you.

If you desire money not for joys of personal possession, but for the good that you can do.

If you can live in luxury, yet remain a brother to your poorer friend.

If you can conquer work, yet love it too.

If you, though independent, can appreciate the comradeship of man.

If you can give to others and count the pleasure in the giving, not in the cost of the gift.

If you count your gain, not by the dollars it has won for you, but by the benefits you may share with your country.

If you can satisfy all your desires and yet be master of your soul.

If you can prosper and not patronize.

If you can lose it all and smile with hope to gain again.

Sometimes in the silent stretches of the night, thoughts of work and wealth come to me—do they come to you?

I am jotting down some of these night-ideas of mine. Perhaps they coincide with yours. Perhaps you will find in them the same seeds from which your thoughts have come, seed which you have developed through careful nourishing into their full flower. Perhaps you are even now reaping their harvest.

It isn't that I believe these night-thoughts of mine have any intrinsic value. But they are the Thoughts of a Man. Because man had the power of thought, the race has progressed. Because man possessed the ability of action, we may know contentment.

And so I am putting these thoughts on paper before you because you and I are just comrades after all. Perhaps we would not recognize each other if we met on the street. Custom demands introductions still. But if there was a fire, or a flood, a child hurt or a woman crying for help, if we saw an old well come in on our land we would ACT TOGETHER.

On this page there is an advertisement of an investment opportunity. I wish that we might act together in this matter. I believe that we would succeed. I consider it a square-deal business proposition, with a minimum of hazard and promise of big gains.

I have made some money in the oil business but while I was making it I tried to help others tow their ships into port. I may not be considered an up-to-date financier, but I don't believe that all's fair in business, as they say it is in love and war.

Success is only achieved when both you and the other fellow are satisfied. I believe.

If after reading the advertisement below, you think you and I can work together and be successful, let me hear from you.

Yours for new Prosperity,

(Signed) PORTER OAKES

Copyright 1921, Porter Oakes.

YOUR OPPORTUNITY FOR FORTUNE

We offer you an investment in the Dispatch Petroleum Company, a small capitalized, well-managed, big-dividend paying organization, with its dividend guarantee backed by two producing oil wells—Well No. 3, ready to complete, in the proven Northwest Burk-Waggoner Field—Well No. 4, drilling around 500 ft. in the Breckenridge, Texas, Wonder Field's gusher district.

GO IN WITH US IN THIS QUEST FOR CERTAIN WEALTH--DIVIDENDS GUARANTEED

A Dividend-Paying Investment With Big Possibilities for Quick Profits

Read this opportunity message to you. The Dispatch Petroleum Company is a \$200,000 Texas organization. The president and manager of the company is Porter Oakes, well known as a successful operator and closely identified with oil, banking and business interests in the Southwest. That is sufficient guarantee of its success. The name of Oakes has long been connected with the oil industry in Texas, Oklahoma and Louisiana. He has named for the Dispatch company and advisory board made up of a coterie of men widely recognized as successful oil men and bankers, including R. M. Waggoner, pioneer of the Burk-Waggoner field, and others equally well known. Operations and management of every department of the company is in the hands of the best available talent. The organization has one big purpose—to make money for its shareholders in any and every legitimate phase of the oil business.

The Dispatch Petroleum Company has already paid large dividends and expects to continue to pay them. The capitalization is small. The company now has production. Oil is going into the pipe lines from two wells, several months old. Another well, the company's No. 3, in block 98, N. W. 1/4, Burk-Waggoner field, is ready to complete. It is expected to substantially increase the dividend fund. The No. 4 well in the Breckenridge field is drilling.

The Dispatch also has a proven shallow lease of 130 acres in the Brownwood field, owned and operated in conjunction with the McAdoo interests, with wells now putting oil in the pipe-lines and 40 more wells on the drilling program; now under way.

In addition to these holdings, the company owns valuable leases in the Kemp-Munger-Allen field, in Young County where new gushers are being reported almost daily, in Archer county, Lampasas county, Wichita county, the Northwest Burk-Waggoner field, and in Reeves county, near that section where the wonder well of the world was reported a few days ago—with several hundred barrels of oil flowing from a well only 96 feet deep. The Dispatch holdings are checker-boarded in the proven and speculative fields of Texas.

You are offered this chance to buy a limited number of shares in the Dispatch Petroleum Company at their par value, \$10 per share, because the company wishes to cash in on a limited block of its treasury stock and increase its holdings and rush its operation in the Breckenridge wonder-field. You can share in these fortune-promising operations—you can become a pro-rata partner in this enterprise—you can be a share-holder in all of the Dispatch properties—oil wells—the Brownwood-McAdoo, et al., holdings—, etc., if you send in your check before the unsold shares are gone. We are making this call for a limited amount of additional capital to put into Breckenridge. Our immediate need is your immediate opportunity if your subscription reaches us before the available shares are subscribed.

Our Dividend Record

On Oct. 9th, 1920, a TEN p. c. Cash Dividend was Paid
On Nov. 20, 1920, a FIVE p. c. Cash Dividend was Paid
On Dec. 22, 1920, a FIVE p. c. Cash Dividend was Paid
In Feb., 1921, Dispatch will Declare its next Dividend.

The Dispatch Management has demonstrated its ability to make money for its shareholders by paying THREE LARGE MONTHLY DIVIDENDS. 20 per cent in dividends have been paid in the past ninety days, and the next one is to be declared next month. The combination of PROVEN properties, reliable management, SMALL CAPITALIZATION, and hard work has shown results.

With our present production and holdings we have been able to show substantial earnings for our shareholders. Judge for yourself what our dividends will be when our Breckenridge well is completed.

GOING AFTER BRECKENRIDGE GUSHER

On a forty-acre lease in the proven Breckenridge field, Stephens County, Texas, the Dispatch No. 4 well is now drilling at about 500 feet. The drillers feel certain to get a tremendous gusher. They believe it is strong enough to take part of their pay in stock. We feel certain that it will be a giant producer too, because the noted Roxana Ball gusher, about a half a mile south of us, is one of the most consistent producers in the field—the Fensland producer is east and slightly north of us—and the big Guaranty gusher, which came in December 31, 1920, and is reported a 3,000 barrel gusher, is south and east of us, about 3,000 feet. This well is on the Sloan tract. The Dispatch No. 4, its neighbor, is in Block 11, Roberts subdivision, Yeaman Survey, Sloan tract in the new gusher district, north of Breckenridge townsite.

Everybody knows of the Stocker No. 2 Well in the Breckenridge district, which earned over a million dollars a month after it came in. The story of the Con-

zales gusher which spatted oil against the windows of the Chamber of Commerce building in Breckenridge has been widely published. The Swenson Ranch Wells, the Cooper Henderson gushers, Farmer Higginbotham, with his nine oil wells and his nine fair daughters, All these and the countless other wells have testified that Breckenridge is the fortune telling marvel of the world today. We are in the very midst of this field. How can we miss? Just a few days ago the Y. M. C. A. Syndicate in the Breckenridge field reported a dividend paid of 132 per cent just 25 days after the completion of the well. They can reasonably expect 100 per cent per month for many months to come. That is the way fortunes are made in the Breckenridge field. That is the way we expect to make them.

All our present efforts are being directed to the drilling of the Dispatch No. 4 Breckenridge well. Go with us to Breckenridge—and Fortune.

Here's Your Chance—A Few Dollars May Make You a Fortune—Act Now

The Bass Petroleum Company is reported recently to have paid \$1,500,000 for a single well in the Breckenridge field. A tool dresser's \$300 interest in the Gonzales well there was considered worth \$30,000. Had you invested \$300.00 in Fowler Farm it would have brought you \$45,000. Last year the same amount in Burk-Waggoner would have returned you \$9,999.00. Profit from experience—Dispatch offers you positively the same chance today, in addition to our producing wells and extremely valuable leases. Furthermore, you get in a SMALL CAPITALIZED company with square and capable management and some of the best oil men in Texas on the advisory board.

This wonderful chance—this unparalleled opportunity, is before you today. Why wait until too late? While you wait things are happening.

Hesitation, unwillingness to accept this offer, may mean the difference between poverty and wealth for you. We expect this stock to soon be so valuable that \$100 interest will be worth the price of a fine motor car or a comfortable bungalow.

Do not remain shackled to that fatal decision that has had you in its power so long. BREAK LOOSE! Free yourself! Give yourself a fighting chance to strike it rich—have something big.

In the Dispatch Petroleum Company you have such a chance—probably your life's opportunity to make a fortune—and very cheap too. A fortune—consider what that means. Money is power! Money makes dreams come true; dreams of possession, luxuries, pleasure, happiness. Through labor money comes very slowly and with much difficulty. But through OIL money comes QUICKLY and with ease.

We urge you not to miss our next dividend. The coupon below is your passport to Fortune. Fill it out NOW—today, for all you can carry. Remember the more you take the larger your DIVIDEND will be. Use the coupon and mail it TODAY and go with us to Breckenridge—and FORTUNE.

FORMER PRESIDENT JACKSONVILLE CHAMBER OF COMMERCE, WILL BE SANFORD'S GUEST THURSDAY

F. C. Groover, Will Address C. of C. Thursday, Feb. 10th

The Chamber of Commerce has arranged to have Mr. F. C. Groover address the members at the first monthly banquet which will be held in the Valdez Hotel at 7:30 p. m., Thursday, February 10th.

Mr. Groover needs no introduction in Sanford. His reputation as a Florida booster is state-wide. During his term as president of the Jacksonville Chamber of Commerce he made an enviable record of attainments for that organization.

Mr. Groover is president of the Jacksonville Rotary Club and a leader in all civic and agricultural movements. He is a most interesting speaker and the local chamber feels particularly elated over the prospect of having Mr. Groover the guest of honor on this occasion.

President Ball requests a full attendance of the membership to assist him in welcoming Mr. Groover and extending the hospitality of Sanford.

Tickets for the dinner are \$1.25. Remittance should be made promptly to the secretary in order to insure reservation.

A touring party under the supervision of the Colpitts-Beekman Company of Boston, Mass., will stop over in Sanford en route to points further south.

This party, consisting of twenty people, will be taken around the city by a committee of the Chamber of Commerce and given an opportunity of observing the intensely developed agricultural section of Sanford.

Ge, They Must Be Bad Down in Orlando

"Keep on guard," were the succinct words of E. D. Vestel, chief of police, yesterday when he consented to be interviewed on the best ways to balk the robbers, yeggas, crooks and stick-up bandits who are picking Florida.

"Yes, keep on guard," said the chief yesterday, "and use your judgment."

He then laid down a few safeguards as follows:
1. Don't leave any money lying around. Keep it out of sight. If you conduct a business don't keep your cash in a weak little drawer. Place it in the bank as soon as possible. Don't count money before strangers or even before your friends, because strangers are apt to come in and see the cash. Keep the doors to your safe locked during rush hours. Keep your money out of sight by all means, and if a stranger comes in and wants a large bill changed send him to a bank. Play safe on money and above all things keep it from view.

2. Don't wear jewelry. Keep your jewels also out of sight in your home. Don't leave your diamonds or pearl necklaces lying on the bureau or mantle.

3. Keep out of crowds. If you get in crowds keep your coat buttoned and watch your hip pockets. Keep your valuables in a nitside pocket. Crowds are the pickpockets' haven. They thrive in crowds. Ladies should watch their purses.

4. Lock your automobile, and if you can't lock it, disconnect a wire.

5. Don't be friendly with strangers. They may be "wire tappers."

6. When you leave your residence, day or night, lock the windows and doors.

7. When buying a ticket at the depot, or when purchasing goods, don't flash a roll of bills.

8. Take it upon yourself to be your own policeman. Be on guard continually, because Florida is full of every known variety of thief, crook, bandit, and robber, and they will stop at nothing.

9. Be on your guard for suspicious characters, especially smooth looking idlers and bums. Don't feed a tramp.

10. In case of trouble call telephone number 1073, police headquarters; 1008 the chief of police, and 900, the chief's residence.—Orlando Sentinel.

American Legion to Take Action on K. of C. Gift

(By The Associated Press)
WASHINGTON, Feb. 7.—National executive committee of the American Legion, which began three days' session here today, expected to take final action on offer of Knights of Columbus of gift of \$5,000,000 to be used in erecting in Washington a war memorial building.

There was no talk of intervention in Cuba while it was possible to get a drink at home.

Nightriders Ordering Connecticut Farmers to Join Organization

BRIDGEPORT, Conn., Feb. 5.—"Either join the tenants organization or leave your farm in ten days" was the decision made last night and presented to two dozen farm renters in this vicinity by a masked band of night riders who said they represented the union.

According to reports to Chief of Police Glover, made by the farmers who were visited the night riders were mounted "on fiery steeds" which were covered with white cloth. The procession as it moved through the farm districts was described as "weird and spectacular."

Members of the band called upon land owners and demanded that only "union farmers" be employed or given shelter.

Choose New Name for Vegetable Organization

At a meeting of the management of the Manatee County Vegetable Association, it was decided to change the name of the progressive, co-operative marketing concern to the "Manatee Farmers' Exchange."

This change was made necessary to avoid confusion in the names of the association and that of the Manatee Growers' Association, there being no connection whatever between the two concerns.

H. L. Robinson, who is manager of the Manatee Farmers' Exchange, has been in the vegetable business for a great many years, and has always believed in the co-operative, non-profit marketing principles, so that the grower gets every cent of returns from his products, except the actual cost of marketing.

The Manatee Farmers' Exchange is also affiliated with the Florida Citrus Exchange for Marketing purposes and this gives them the advantage of all the marketing facilities, in the way of information and other advantages of this great co-operative non-profit marketing system.

Of course when a man wants to sell his crop outright, the Manatee Farmers' Exchange will make a purchase, but they believe in the co-operative marketing system and advise this means of disposing of the crop.

They use the building on the Seaboard tracks, next to the depot, formerly used by the Citrus Exchange, and Mr. Robinson will be glad to explain complete details at all times and furnish free market information to all vegetable growers.—Bradenton Herald.

Knott Lands Again

JACKSONVILLE, Feb. 7.—W. V. Knott of Terra Cela, former state comptroller and candidate for governor eight years ago against S. J. Catts, has been named by Governor Cary Hardee as superintendent of the State Hospital for the Insane at Chattahoochee. He succeeds Dr. H. Mason Smith, who goes to the St. Elizabeth Hospital at Washington.

FOR HEADACHE, LIVER TROUBLE

Black-Draught Is The Best Medicine This Lady Ever Used. Says It Is Only Medicine She Gives Her Children.

Cherry Village, Ark.—In telling of her experience with Theodor's Black-Draught, Mrs. Lottie Ellis, R. F. D. No. 1, this place, said: "I used Black-Draught as a laxative, also for headache, torpid liver and indigestion. It is the best liver medicine I have ever used and is the only medicine I give my children."

"I feel like it has saved me a lot in doctors' bills, for when the children complain of feeling bad or have a cold, I just give them a good dose of Black-Draught and they soon get all right. It certainly cleans the liver and clears up the skin and they are soon out well again. I wouldn't be without it for anything."

Seventy years of successful use has made Theodor's Black-Draught a standard household remedy. Every member of every family needs, at times, the benefit that Black-Draught gives in helping to cleanse the system and to prevent or relieve the troubles that come from constipation, indigestion, and a lazy liver.

To keep well, your stomach, liver and bowels must be in good working order. To help keep them that way, take occasional doses of Theodor's Black-Draught. Thousands of homes are never without it.

For sale by all druggists. The genuine has the name, Theodor's, on the label. Insist on getting what you ask for.

R. R. QUESTION LEFT TO BOARDS SAYS WILSON

WILL NOT TAKE ANY PART IN DISCUSSING REDUCED WAGES

WASHINGTON, Feb. 7.—President Wilson yesterday refused the request of railroad labor union representatives that he investigate railroad executives claims before the railroad labor board that the carriers' must adjust wages or face bankruptcy. He also declined to submit the matter to congress.

The president set forth his position on the appeals made to him in a telegram addressed jointly to two of the railway labor board unions and the Association of Railway Executives, who also had sent a communication to the white house.

Confidence was expressed by the president that all questions dealing with railroad labor and management might be left safely to the two bodies entrusted under the transportation act with such matters—the Railroad Labor Board and the Interstate Commerce Commission.

He accordingly informed the labor and carrier representatives that he was submitting copies of telegrams received from them to these two bodies as "the only action deemed necessary."

The president's telegram read as follows: "I have carefully considered the several telegrams addressed to me dealing with the labor question and railroad management now under consideration by the Railroad Labor Board in Chicago."

"The transportation act approved Feb. 28, 1920, to a greater extent than any previous legislation, places all questions dealing with finances and railroad management and necessary rates under the jurisdiction of the Interstate Commerce Commission; hence all questions involving the expense of operation, the necessities of the railroads, and the amount of money necessary to secure the successful operation thereof, are now under the jurisdiction of the commission."

"At the same time the act places all questions of dispute between carriers and their employees and subordinate officials under the jurisdiction of the Railroad Labor Board, now sitting in three members constituting the labor Chicago. This board is composed of group, representing the employees and subordinate officials of the carriers; three members constituting the management group, representing the carriers; and three members constituting the public group, representing the public. So far as I am advised, the board may be relied on to give careful and intelligent consideration of all questions within its jurisdiction. To seek to influence either of these bodies upon anything which has been placed within their jurisdiction by congress, would be unwise and open to grave objection."

"It would be manifestly unwise for me, therefore, to take any action which would interfere with the orderly procedure of the Interstate Commerce Commission or of the Railroad Labor Board; and all the matters mentioned in your telegram are within the jurisdiction of one or the other of these bodies; and in their action I think we may repose entire confidence."

"In view of the foregoing, it does not seem wise to comply with your suggestion that the matter be submitted to the congress, and the only action deemed necessary is to submit copies of the telegrams received from you and from the representatives of the railroad executives in the Interstate Commerce Commission, and to the Railroad Labor Board, for such action as these bodies may deem wise in the premises; this will be done."

Allen Turned Loose; Not Hames' Assailant

DELAND, Feb. 5.—George W. Allen of Minneapolis, who spent three weeks in Daytona and was then arrested and charged with complicity in the murder of Grady Hames of Daytona Beach, and who was held on Wednesday without bail, was today released from jail on his own recognizance by order of Court Commissioner Grant Bly, acting for Judge James W. Perkins, who is ill in Johns-Hopkins hospital, Baltimore.

Arthur Hames, father of the dead man, and who was taken from his home at Daytona Beach and beaten during which assault his son was killed, arrived from Atlanta, and immediately stated, upon seeing Allen, that he was not among the men who assaulted him.

The killing of young Hames occurred the night of Dec. 28. At the preliminary hearing in Allen's case Lena Hames, sister of the murdered man, identified Allen as a member of the gang.

FLORIDA SOLONS LOSE CHANCE TO DISTRICT STATE

WASHINGTON, Feb. 5.—The entire question of dividing the state of Florida into new congressional districts will be withdrawn from the state legislature as a result of pour parlers among Republican leaders in congress. The Florida solons who have been burning the midnight oil fixing up various redistricting schemes will have their labor for nothing.

The Republican congressional leaders have decided that the bill which has passed the house fixing a new unit of apportionment shall not be reported out of the census committee of the senate to which it was referred after passing the house. This means that it will die in a pigeon hole when the session expires March 4. The legislatures cannot act in the matter of redistricting their respective states, until they know what the unit of apportionment is to be.

The decision to kill the pending bill came after the Republican members of congress from Kentucky and Missouri had made a convincing showing that their political interests would be greatly imperilled, if not doomed, should the bill now on its way through congress be allowed to pass. In both states there would be a probability that Democratic construction to state redistricting bills might make such bills fall and bring about a situation where all of the members of congress from both states would have to be elected at large. It was pointed out that a Republican who would have to run at large for congress in Kentucky or Missouri two years hence probably would stand no more show of being elected than a snowflake has of prolonged existence in the nether region.

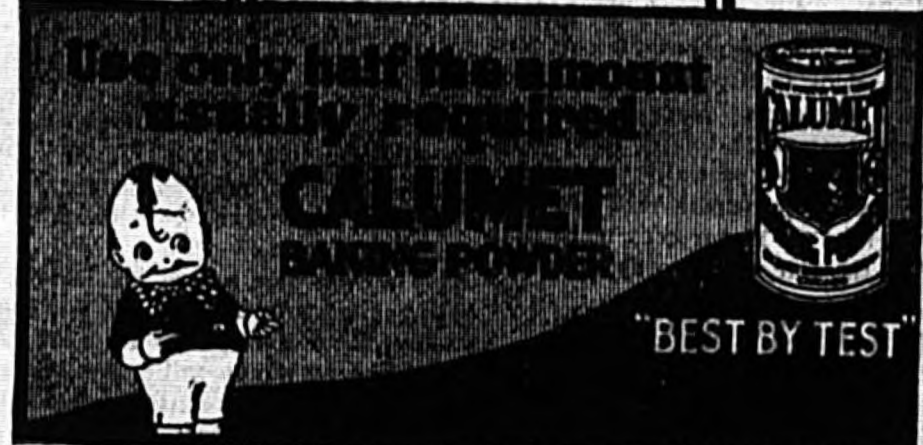

The situation that has developed when it takes up the subject again, makes it uncertain that congress will fix the house membership at 435. The prevailing belief is that the next bill will make a house so large that Kentucky and Missouri will not lose any members.

the peninsula, catering to the two cities of Daytona Beach and Seabreeze, the organization's plans to include the increasing of capital stock from \$25,000 to \$50,000, the building of a new banking house, and the addition of a dozen or more most prominent Daytona Beach and Seabreeze residents as stockholders.

YOU don't use as much of Calumet as you do of most other Baking Powders. It has more than ordinary leavening strength. You save about half.

You don't pay a big price for Calumet. It's sold at a moderate price—that represents another saving.

You don't feel uncertain as to results. Baking never fails—because Calumet never falls below the proven standard of "Best by Test."

It possesses the highest quality ever put into a Baking Powder. Contains only such ingredients as have been officially endorsed by United States Food Authorities.

For weeks, for months, it keeps as fresh and full of strength as the day it left the Calumet Factories, the World's Largest, most Sanitary and Modern Baking Powder plants.

It is important that you use only straight wheat flour (not self-rising flour) and pure baking powder if you wish to obtain the gluten demanded by sound health.

Calumet Gold Cake Recipe
Yolks of 8 eggs, 1 1/4 cups of granulated sugar, 1/2 cup of water, 1/2 cup of butter, 2 1/2 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1 tablespoon of vanilla. Then mix in the regular way.

New Banking Firm at Daytona Beach; Enlarge Capital Stock

DAYTONA BEACH, Fla., Feb. 8.—Announcement has been made of the organization of the East Coast Bank & Trust Company, in this city, which will succeed the East Coast State Bank, the only banking institution on the peninsula, catering to the two cities of Daytona Beach and Seabreeze, the organization's plans to include the increasing of capital stock from \$25,000 to \$50,000, the building of a new banking house, and the addition of a dozen or more most prominent Daytona Beach and Seabreeze residents as stockholders.

If torches can't settle the Irish question, perhaps dynamite.

THE MAN WHO KNEW AND WHAT CAME OF IT

We knew a man with an automobile, who said he was a careful driver

AND HE WAS!

He said he would never injure anyone

AND HE DIDN'T!

He said: "If anything happens, it will be the other fellow's fault"

AND IT WAS!

That didn't prevent the other fellow from demanding money

AND HE DID!

Our man said: "It's not my fault; I'll not pay anything"

AND HE DIDN'T!

The other chap said: "I'LL SUE YOU!"

AND HE DID!

Our friend's lawyer said: "We can beat him in court!"

AND THEY DID!

Whereupon our friend said: "Ha, Ha, I win!"

AND THEN

He paid his lawyer a fee of \$100.00, plus expenses, and ran his car the rest of the year at his own risk.

FOOLISH—WASN'T HE?

There was a cheaper way out, and we had told him about it, but he thought he knew better.

Let us tell you how little it will cost for COMPLETE PROTECTION, we to furnish the lawyer, investigate all claims, defend all suits, and pay all losses within the limit of our policy.

TEACHERS PAY MUST GO HIGHER

SO DECLARE P. P. CLAXTON OF U. S. DEPARTMENT OF EDUCATION

WASHINGTON, Feb. 10.—Public school teachers of the United States should receive at least \$1,800,000,000 in salaries this year, P. P. Claxton, commissioner of education, said here yesterday. Last year teachers drew a total of approximately \$700,000,000.

Salaries of elementary school teachers now are about 30 per cent higher than four years ago, according to Claxton's reports, showing that the campaign to get them more pay has been partially successful. High school principals now are paid an average of 18 per cent more than before the war, the records show.

LAKE MONROE

Springtime is here, and with it the happy song of the birds. The planters are busy plowing and getting the soil in readiness for pepper, egg plants and other early crops. Many have pepper plants large enough to set out, but are a little afraid to set them in the field so early.

Dwelling houses are what we need in our town. Substantial people are being turned away every day for the lack of a house. Phillip Yager, one of our enterprising young business men is planning to build several cottages upon the five acres he bought in Monroe. If we only had a hotel or a large rooming house many tourists would stop with us and enjoy the fine country surrounding, the splendid vegetables that are grown in such abundance here, and Lake Monroe would afford them the finest fishing in the state of Florida.

W. F. Pittman and family have returned to their old home at Tennessee where they will reside in the future.

Guy Buchanan and wife, of St. Louis, while touring the state, stopped over with his brother, S. H. Buchanan and spent the week end.

L. Mancel is ill at his home here. Mr. Mancel was stricken while at work in the fields and continues very sick.

Sneak thieves entered the garage of

Henry Shoulet, on First street, and lifted his spot light and battery from the machine. Mr. Shoulet thinks there were several in the party.

Mr. and Mrs. Charles Bell and son, Ernest, are attending the fair at Tampa this week.

H. Jordan and wife, of Alabama, have moved here to reside. Mr. Jordan works on the railroad.

W. J. Jewell and family, formerly of Virginia, have moved to Monroe. Mr. Jewell is a machinist at Sanford.

T. J. Walker and family of Georgia. A farewell party was given Miss Ruth Pittman a few days before her departure for her future home in Tennessee. Many little friends assembled to enjoy the social. Delightful refreshments were served.

Mr. Blizard has returned from the East Coast where he went on business. He is now confined to his home by illness.

Mr. and Mrs. Jacob Emboden, of Virginia, have moved to Monroe to make their home.

Mr. and Mrs. Albert Hawkins and family spent a pleasant day at Daytona Beach this week.

UPSALA AND GRAPEVILLE

Archlo Swanson and John Lundquist, Jr., spent Sunday at the home of Walfred and Carl Pierson.

Mrs. Mealer and Mrs. Niel Swanson were callers Thursday, at the home of Mrs. Alfred Ericson.

Mrs. Niel Swanson spent Friday at the home of Mrs. Emil Magnuson, where Mrs. Ballinger also called.

Mr. and Mrs. J. E. Lundquist and Captain Munson were dinner guests Sunday at the home of Mr. and Mrs. E. W. Lundquist, who, after service, took them for an auto ride.

Mr. and Mrs. Alfred Ericson and Mr. and Mrs. Jesse Lee were Thursday night callers at the home of Mr. and Mrs. Niel Swanson.

Mrs. Geo. Benton and daughters, Alice and Helen, of Maitland visited Saturday at the home of her niece, Mrs. Barney Beck.

Mr. and Mrs. John Borell and Mrs. Ericson called to see their sister, Mrs. Magnuson, Sunday after service, as

she is not so well but is better now. Rev. Albertson gave us a good sermon on the Christian way of rendering good for evil instead of the savage of blow for blow. He also sang for us, at our request, the beautiful song "A Clear Heart."

Captain George Munson spent a few days here with his sister, Mrs. J. E. Lundquist and brother, Emil Magnuson, leaving for his home in Savannah on Tuesday. We understand that since the war his boat run has been between New York and Boston.

Mrs. Jones of Jacksonville, a home missionary, is the guest of her friend, Mrs. Westerdyck, for a few days.

Barney Beck has the contract for strawing the roads on towards Sanford avenue.

Mr. Tyner's family attended the revival services in town Sunday evening, taking back with them Mr. and Mrs. W. A. Tyner who were visitors at their home.

Mr. and Mrs. Jesse Lee treated Mrs. Borell, Mrs. Ballinger and Miss Margaret Ericson to a pleasant ride to Soldier Creek where they attended an open-air service led by Rev. Albertson near the crate mill, Sunday, morning.

The blue birds and mockers are happy over the beautiful spring days which are bringing out the peach and orange blooms very fast. Hopes no hard frost comes now.

There was a largely attended party held Monday evening at the home of Mr. and Mrs. Andrew Bertelson in honor of the birthday of the hostess and all report a fine time. A few of the ladies also met there in the afternoon and as usual cake and coffee were served, so the other was a surprise. Besides the Upsala folks they were pleased to have present Mr. and Mrs. Reid of Boston, Ga., and Captain Munson.

Mr. and Mrs. Mealer invited Mr. and Mrs. Niel Swanson as their auto guests in a visit to the home of Mrs. McDougall on Celery avenue last Sunday.

T. J. Miller & Son are having the balcony torn down in the Imperial building and will fix up this first floor for their furniture store as they expect to move from their present quarters about the first of May.

J. S. Thornton, representing the S. P. Richards Co., of Atlanta, was in the city today calling on the local trade. Jimmy is one of the most popular men on the road.

WILLIAMS-RICHARDS

The following invitation which has been received here will be of interest to the many friends of Mrs. Williams and her daughter:

"Mrs. Elizabeth M. Williams requests the honor of your presence at the marriage of her daughter, Mabel Adele to Joseph William Richards on the evening of Sunday, the sixth of February at 4 o'clock at the home of the bride."

Mrs. Richards is a former Sanford girl, having lived with her mother on Lake Oconor. The family have recently moved to West Palm Beach.

In Court of County Judge, State of Florida, Seminole County.

IN RE ESTATE OF: Andrew Charles Rotundo, Lewis Frank Rotundo, Marie Catherine Rotundo, Michael Bernard Rotundo, John Felix Rotundo and Clarence Augusta Rotundo, Minors.

Notice is hereby given to all whom it may concern, that Carmel Rotundo, as Guardian of Andrew Charles, Lewis Frank, Marie Catharine, Michael Bernard, John Felix and Clarence Augusta Rotundo, minors, will, on the 12th day of March, 1921, apply to the Honorable E. F. Housholder, County Judge in and for said County, at his office in Sanford, in said County, at 2 o'clock p. m., or as soon thereafter as the matter can be heard, for authority to sell, at public or private sale, the undivided interest of said minors in and to the following described real estate, in said County, to-wit:

Lots 4 and 5 in Block 18, all of Block 15 and all of Block 21, Chapman and Tucker's Addition to Sanford, Florida, which application will be based upon the petition for sale now on file in said Court.

Dated February 3rd, A. D. 1921. CARMEL ROTUNDO, Guardian.

NOTICE OF SHERIFF'S SALE

Notice is hereby given that under and by virtue of a writ of execution issued out of the office of the Clerk of the Circuit Court in and for Seminole County, Florida, wherein A. M. Thrasher, was plaintiff, (A. M. Thrasher having assigned said judgment to Geo. W. Cook), and C. M. Hand, as Sheriff and Ex-Officio Administrator of the Estate of Green Hart, Deceased, and Amanda Hart, daughter and sole heir at law of Green Hart, Deceased, are defend-

RESULTS is WHAT COUNTS

Celery in 4-One Crates is Selling for Top Prices in All Markets

WOODLAND & COMPANY
General Commission Merchants

217 Charles Street, Baltimore, Md.

Jan. 31, 1921.

F. F. Dutton, Inc.,
Sanford, Fla.

Dear Sirs:

We wired you this A. M. to ship us one car of celery, same as car received today in the 4-One Box. We wish to advise that this is the package that the trade wants here and in the future always give us celery in this package if possible, as we will never have any trouble in disposing of same. We secured the top market here today on this celery and can make money right along and can handle more celery if you continue giving us this kind of celery in the 4-One Box.

Yours very truly,

WOODLAND & COMPANY.

217 South Charles Street, Baltimore, Md.

Baltimore, Md., Jan. 31, 1921.

4-One Box Makers of New York,
105 Hudson Street, New York, N. Y.

Gentlemen:

In reply to your inquiry as to condition of Car No. FGE-28694 celery arriving Saturday, January 29th, 1921, from F. F. Dutton, Inc., Sanford, Fla.

We wish to advise you that in our experience in handling celery, we have never received a car in better package or condition than this 4-One Box. This box enabled us to get the top of the market, as a rule we will always find from ten to twenty-five crates of celery broken up, in this car there was not one package broken. We will in the future, always demand when buying celery, shipments in the 4-One-Box.

Trusting this will answer your inquiry, we are,

Yours very truly,

WOODLAND & COMPANY,
By E. K. Woodland.

Report of Incorporation Committee Shows Fine Progress

SITE PURCHASED
ON LAKE FRONT THAT EXTENDS TO UNION AVENUE, MAKING THREE ACRES

(From Tuesday's Daily)
One of the most enthusiastic meetings of the year was that of the Sanford Rod & Gun Club which was held last night in the Court House. Fully fifty men were present at the meeting and listened to the report of the incorporation committee, the building committee and those who have been soliciting stock subscriptions. Many items concerning the proposed club were discussed and the building committee will soon have something definite to report. An architect has been employed and will be on the ground this week to go into the matter with the members of the building committee.

Papers conveying the beautiful site recently purchased on Lake Monroe to the club will soon be ready and the deal will be closed for the site within a few days. The club has funds with which to pay cash for this fine site, which comprises over three acres of land facing Lake Monroe and extending from Union avenue to the lake, and within six city blocks of the business section of Sanford. Stock is still being sold in the club, no member being allowed to buy more than \$100 worth. Several new subscribers were reported at the meeting last night and the total is now very near to the 100 mark.

The great need of the club just now is more members. In order to build a club house that will be a credit to the city at least 100 more members at \$100 each are needed and every member is pledged to secure at least one new member before the next meeting of the club which will be held in the court house on Monday evening, February 14th at 8 p. m.

This will be an open meeting and every man who is interested in Sanford is invited to attend. Sanford certainly needs a building which will accommodate conventions, and furnish a place to entertain our visitors as well as our own people.

Methodists Drive For Educational Fund May 29-June 5

TOTAL OF \$34,000,000 IS NOW TO BE RAISED IN THAT PERIOD

MEMPHIS, Feb. 4.—The date for the \$33,000,000 campaign to be conducted by the Methodist Episcopal church, South, for the building of its educational institutions and advancement of Christian education, was fixed for May 29th to June 5th, at a meeting here today of members of educational commission and representatives of the thirty-seven church conferences.

Plans discussed at today's session of the conference, which began yesterday, contemplates a canvass of every member of the Methodist church in the South through an organization similar to that which conducted the campaign in an effort to get \$52,000,000 for foreign missions. It was said today that the churches of Virginia had started the contributions with \$500,000.

A. C. Marts of Nashville, associate director of the Christian educational movement, outlined in detail tentative points for the campaign.

Bishop Darlington and Dr. J. H. Reynolds, director-general of the movement, attended the session.

In addition to raising the proposed \$33,000,000 fund it is planned to make available \$1,000,000 to aid worthy students.

Joseph C. Whitney Died Yesterday

BALTIMORE, Feb. 8.—Joseph C. Whitney, former president of the Merchants and Miners Transportation Co., died here yesterday of pneumonia. He was 64 years old.

Don't forget that the Herald Printing Company is headquarters for all kinds of stationery, office supplies, printing, engraving and any and every kind of printing that you want. The best of everything in these lines at reasonable prices. Satisfaction guaranteed in every department of printing.

Sen. Fletcher Seeking Confirmation of All Florida Appointees

(By The Associated Press)
WASHINGTON, Feb. 8.—Democratic senators expect to be bled to force the confirmation of all ex-service men whose names are pending before the senate for postmasterships. Senator Fletcher is taking the lead in this matter. Florida names pending are as follows:
Greenville, George W. Laney; Hawthorne, Clyde C. Sherouse; Millville, Daniel H. Laird; Tarpon Springs, John T. Cowsart.

Irish General Killed in Ambush

DUBLIN, Feb. 8.—Michael Collins, adjutant general of the Irish army, was killed in an ambush at Burgatia last week, in which it was previously reported he had been wounded, according to the police authorities here. Collins, the police declare, was shot dead while giving instructions to his men in carrying out the ambush attack.

A LIVING ILLUSTRATION OF THE VALUE OF AN IDEA.

"Parson" Jones, Porgy Key lime grower, with an income of \$15,000 or \$20,000 a year, who is to visit President-elect Harding at Miami, is a living illustration of the value of an idea. He is also a living exception to the rule—if indeed it is a rule—that those who settle beside opalescent waters and under cerulean skies where the climate is benign increases in indolence, not in industry or in wealth. Thirdly the case of "Parson" Jones shows that the real negro—not a quadroon or an octoroon—may become, upon a large scale, a self-made man.

Numerous Kentuckians who have dropped anchor in the vicinity of Key Largo at the southern end of Biscayne bay have known or heard of "Parson" Jones. Some of them fishers for snappers, grunt and "such small gear" where the gray roots of the mangroves rise at the water's edge, knew Porgy—or Porgee—Key years ago when "Parson" Jones lived there in Robinson Crusoe style with means of support so nearly invisible that he seemed the beach comber par excellence. Sand Key crawfish were to be had for the spearing in the shallows. Fish of other kinds, including no doubt that for which the key was and line. In a few spots upon the islet named, were caught easily with hook there was soil enough to grow a patch of bananas.

Here was a place where a man with a peck of meal was independent; a place in which a man—any man of any color—might dream away the days, loaf away the years, waste a life in sloth, brother of the iridescent, jelly fish and the "Portuguese man-of-war," which sails with a fair wind, neighbor of the king crab, the pelican, the water turkey, upon the northern reaches of the scarlet flamingo's northward flights and not too far from Miami to take in a harvest of tips from well-to-do sojourners in exchange of simple services. Here an American negro hit upon the idea of blasting holes in coral, or coquina, filling them with rich soil and growing lime trees in a climate peculiarly suitable for their development. Here the man with the idea developed an income two or three times as large as a United States senator's pay, larger than that of a cabinet officer or the chief justice of the United States supreme court. While his limes, and his worldly goods grew, he lived an idyllic life upon his own desert islet. A Crusoe became a wealthy Southern planter, "where the silver king swims in his place of coral . . . and the Seminole paddles his lazy canoe."

"In the annals of the Afro-American," "Parson" Jones should have due recognition. The contrast between "Parson" Jones before and after dynamiting the surface of Porgy Key to make it into an island of potted lime trees should be of interest to innumerable young negroes in the South, where million of acres of fertile land lie fallow, and where a living from agriculture may be had by easier methods than blasting holes in stone to plant trees.—Louisville Courier-Journal.

BERLIN, Feb. 8.—German government has accepted invitation to participate in Allied conference on reparations in London, March 1st.

GENUINE BULL DURHAM TOBACCO

FOREIGN POWER WANTED U. S. TO FORGO COLLECT'N

ONE DEBTOR DID ASK UNITED STATES TO MAKE FREE GIFT OF LOANS

WASHINGTON, Feb. 8.—Declaration by Secretary of the Treasury Houston that an unnamed Allied government had proposed to the United States cancellation of its war obligations to this country; a wrangle over status of war loans to Russia and Russia embassy financing, and a decision to divide the investigations as to foreign loans with the foreign relations committee, marked today's session of the senate judiciary committee. The proposal of Senator Reed, Democrat, Missouri, to prohibit additional foreign loans was under consideration.

Secretary Houston said merely that "one government" had proposed cancellation by the United States of loans to it. He preferred "not to say" what government, and the question was not further pressed by Senator Reed.

Most of the session was taken up with discussion of Mr. Houston's assertion that he did not propose to make further loans to foreign governments. The secretary contended, however, that it would be "unfortunate" if the United States failed to live up to "solemn commitments" and make additional payments, if requested, in the case of balances, estimated at \$76,000,000, standing to the credit of Allied nations. He added that no such requests had been made or indicated, however.

Dr. Edwin Sparks Delivers Second Lecture on Americanization

The Americanization Class had the pleasure of hearing again Dr. Edwin Earle Sparks, president emeritus of the Pennsylvania State College. Dr. Sparks has given to this class three lectures which were not only instructive but intensely interesting as well. His masterly lectures on the different phases of American History and Government shows him to be not only a lecturer of unusual ability but also a master of the different periods of American History. He has been most successful in dealing with the special phrase of the subject called for in the Americanization work; Sanford is indeed fortunate to have had such a man of learning and ability to give this course in the Club.

Dr. Sparks is one of the best known men of the lecture platform today and he is not only a speaker of ability but also well known as an author.

No Idlers Wanted At Newport News

NEWPORT NEWS, Va., Feb. 8.—Mayor P. W. Hiden yesterday informed idle seamen at the sport that all who refuse work at the Clarmont yards when offered work on laid up ships would be considered as vagrants the moment they apply for help. The mayor told the men that he was not fighting their union, but that the city and its institutions is not in a position to support them in idleness. Forty of the men agreed to work to go, and others declared they could not accept the jobs, as it would be a violation of their union rules.

Arrangements have been made whereby charitable institutions will be furnished with names and descriptions of all who refuse work in order that they may be checked up. The police justice has been giving all vagrants the choice of leaving the city or going to jail. Thus far all have taken a sudden preference for other localities.

INDEPENDENTS' DAY BEFORE LABOR BOARD

BITTER STATEMENTS OF THE SPEAKERS BRING A PROTEST

CHICAGO, Feb. 8.—Numerous arguments between witnesses and the chair enlivened the session yesterday of the United States Railway Labor Board hearing the employees' appeal for continuation of national agreements. Attempts to bring in jurisdictional controversies and charges of conspiracy against independent labor organizations were continually ruled out by the chairman, Judge R. M. Barton. After a lively session in which three independents finished their evidence, the first day of employees' testimony adjourned to take up the remaining independent organizations today.

Declaring that his organization had been denied a part in formulating the national agreements, P. F. Richardson, president of the American Federation of Railroad Workers, charged violation of the transportation act and sought relief from "these tyrannical conditions." Charges of conspiracy and discrimination were hurled against those instrumental in fixing rules governing certain employees of the Pennsylvania Lines, by John G. R. Austen, president of the Order of Railroad Telegraphers. Dispatchers, Agents and Signalmen.

An attempt to read an American Federation of Labor bulletin denouncing Mr. Richardson and his organization was stopped by the chair, who reiterated the board's declaration that it was not interested in a fight between organizations for jurisdiction.

"I merely wanted to clear up the record on the statement of brotherhood officers that they represent all employees," Mrs. Richardson said.

"By admitting you as a party to this hearing, you both get a hearing and then surely we will have heard all employees," Chairman Barton replied.

Mr. Richardson accepted the chair's dictum but insisted that "many railroads have deprived the federation of due representation notwithstanding the law." A schedule put in effect in 1910 was annulled by "certain acts of the Federal administration and resulted in dissatisfaction among members" of his organization. Mr. Austen told the board. He declared he had been conspired against by representatives of opposing organizations because he was not a "regular" and his denunciation became so strong that G. W. W. Hangor, public representative on the board, jumped to his feet in protest, and the chair ruled Mr. Austen's remarks out of order.

ANENT A SUBJECT OLD TO MANKIND.

"Let's get a law passed that every blue-eyed, fair headed baby doll must wear glasses, and get the druggists to give a pair free with every bottle of peroxide. Civilization must be saved. The blonde must be tamed."

The Tampa Tribune, in an editorial on the age-long question—blondes or brunettes?—winds up with this call to the legislators asking in no uncertain terms that the sunshine-kissed of earth be forced to bear with all sorts of limitations and makes no reference to the history-proved type of vampire. How unfair! Think, oh, legislators, of a maiden with eyes as beautiful as dew-kissed violets sparkling in the radiant light of morning being forced to wear blinkers, just because nature lined her glorious orbs with pieces of sky. Must exquisite beauty be forced to bear with burdens imposed by unsentimental law-makers who in the cold halls for legislation are called upon to extinguish the warmest fires of romance!

Our contemporary bases its remarks on a recent report of the American Association of Optometrists who decided that the ultra-violet rays in the sunlight cause perfectly tame women to embrace more or less wildness, and for this reason it is suggested that tinted glasses be used to head off this tendency. He seems to be laboring under the impression that an ultra-violet ray, whatever that is, cannot penetrate the mysterious orbs of a brunette—but if that is what causes 'em to go wild, then we suggest to The Tribune scribe that the pages of history be perused very carefully. Waifs and brunettes have a monopoly on tearing down kingdoms, and even if this were not true, considering smoked glasses an' everything, the song writer proved that he was worldly-wise when he announced that "you can make tame women wild, but you can't make wild women tame."—Jacksonville Metropolis.

Diplomat: A representative of a state, or a man who tells his wife what he thinks of her new hat.

When all the world is honest, the invitation that requests your presence will spell it "presents."

L. R. PHILLIPS, City Auditor and Clerk.

DRUMMOND BUYS HANDSOME BUNGALOW

Chas. P. Drummond of this city has just purchased one of the most attractive bungalows in Sanford located on the corner of Magnolia and Eleventh streets. The bungalow which was erected by Geo. W. Knight & Co. and completed only a short time ago is probably one of the best-planned houses in this section, both as to exterior design and interior arrangement. It is up-to-date in every respect, having hot and cold water wall fixtures, laundry trays on the rear porch, numerous electric plugs for decorative lamps, pans or irons, handsome lighting fixtures and even a Dutch kitchenette in the kitchen.

We understand that all of Knight's bungalows are similarly equipped. This section of the city is destined to be one of the very finest residential sections because of its location with relation to the rest of this city, and judging from the way in which this section has been improved and from all present indications property values are sure to materially advance.

WILL OPEN DANCING SCHOOL

At the request of numerous friends, Mr. and Mrs. R. S. Holly have decided to open a dancing school in Sanford and will be at the Women's Club Tuesday, Thursday and Friday nights. The rates are very reasonable and this is the opportunity for those who would like to learn all the new dances to learn them at home and be able to dance. Mr. and Mrs. Holly are both well informed in all the new dance steps and will hold weekly dances in connection with the school thus giving the public the chance to dancing after the first few lessons.

Moscow characterizes reports of Lenin's death as "fantastic rumors." The exaggeration is a matter of regret.

C. OF C. WILL HAVE BANQUET, GOOD SPEAKER

F. C. GROOVER, FORMER PRINCE, JACKSONVILLE C. OF C. TO ADDRESS MEMBERS

(From Tuesday's Daily)
The Chamber of Commerce will hold their first monthly banquet at the Hotel Valdes Thursday night at 8:00 o'clock. The tickets are now on sale at the Chamber of Commerce, Ball Hardware Company, Perkins & Britt and other stores and are selling at \$1.25. There should be a big crowd out Thursday night to greet this great Floridian who has done so much for Jacksonville and the State of Florida for he has a message for the boosters of Sanford and Seminole county.

These meetings will be held once each month and prominent speakers will be present to give the members of the Chamber of Commerce new ideas and new perspective. It is hoped at least two hundred tickets can be sold to this banquet and much good will be accomplished by the big get-together meeting of all the people who are anxious to make Sanford grow.

Moonshiners Turn State's Evidence?

SAVANNAH, Ga., Feb. 8.—The fact that nine men now in the local jail, following their conviction in the federal court on the charge of moonshining, have been subpoenaed to appear today and give testimony before the federal grand jury has aroused much interest in liquor and law circles in Savannah. It is believed they have turned state's evidence, as it is known they were in conference with the district attorney.

CHARGES FEDERAL BUREAU CONCERNED SOLDIERS RELIEF ARE PACKING COMMITTEE

American Legion Says Frame Up Against Them

RELIEF WORK LAGS

BUREAUS LICKED LEGION AT CLEVELAND AS THE CONSEQUENCE

(By The Associated Press)
WASHINGTON, Feb. 9.—Charges are made that government bureaus concerned with soldiers relief are packing committees of the American Legion with bureau employees who are members of the Legion, today before Legion's executive committee by Abel Davis, Chicago, chairman of the hospitalization committee. "As a result of work of the Legion in soldier relief matters being greatly handicapped," said Davis, who added that at Cleveland convention, "bureaus licked us to frazzle in all matters relating to veterans' relief and Legion wondered how it was done."

WASHINGTON, Feb. 9.—Regret that the American government saw fit to apologize to the British government for the attempt of Americans to capture Grover C. Bergdoll, wealthy America draft-dodger, was expressed in a resolution adopted today by the executive committee of the American Legion in session here.

The resolution, offered by Thomas W. Miller of Delaware, an orderer sent to members of congress, approved the proposed congressional investigation of the circumstances, surrounding Bergdoll's escape from custody.

Efforts to put the legion on record as opposing the Non-partisan League were made by members from Oklahoma and other states where the league is active, but after considerable debate various resolutions were voted down and tabled. The committee then voted unanimously to uphold F. W. Galbraith, national commander, in his stand in advising state commanders of Kansas, Nebraska and Oklahoma that the legion itself should take no active part against the league as an organization.

Correspondence with respect to the Non-partisan League question which began with an appeal from the Salina (Kas.) Post, for support from the national committee in a fight against the league, was read. Other similar appeals had followed from western to southwestern posts, and all were shown to have been given the same answer by the commander.

HYMAN BOOSTS HERALD AT LAST NIGHT'S REVIVAL

(From Wednesday's Daily)
The Sanford Herald has no better friend in Sanford than Dr. George Hyman, pastor of the Baptist Temple, and his support is constant and most consistent twelve months in the year. The Herald has given space to every church in the city at any time they asked for it and gives notice of their meetings and Sunday services every week in the regular space allotted to them and also gives them all the space they want for any particular services. Dr. Owens, who is holding a series of special meetings at the Baptist Temple has some of the finest gems of thought and in order to have them available to the people of Sanford they are being published each day in the Herald. In appreciation of this service Dr. Hyman asked all the members of his congregation last night to subscribe for the Daily Herald for the next two weeks if they were not already getting it and to read these gems of thought that Dr. Owens intersperses in his talks each night at the Baptist Temple.

The Herald appreciates this support of the pastor and of the members of the Baptist church. It is so seldom that the home paper is really appreciated by those who are in a position to speak out in public and give the paper credit. Some times the booster feels that it is his turn to be boosted but his turn generally comes too late and flowers on the grave can only be enjoyed by the mourners.

"Austria at End of Rope," says a headline. And when you get right down to brass tacks, it is where she belongs, politically at least. The country that started that war ought to be at the end of a rope.

Orlando Favors Big Bond Issue

ORLANDO, Feb. 9.—The people of Orange county at a big mass meeting yesterday afternoon held at the court house, unanimously stormed their approval of a resolution presented by H. H. Dickson, which provides for the appointment of a committee of five citizens, representing different sections of the county, to prepare with the county commissioners an estimate of the cost of highway improvements, to embrace widening of many of the highways, the construction of the Orlando Ocean Boulevard and enlarging the court house. The proposed bond issue for \$2,500,000 was heartily endorsed by the crowd present and work will be pushed on estimates so as to get it before the people at an early date so voting may be intelligently done.

OVIEDO NOTES

Mrs. W. E. Argo and daughter spent Saturday in Orlando. Mrs. C. L. West and two children and Mrs. Mary West returned Tuesday from an auto trip to Tampa, St. Petersburg, Tarpon Springs, Clearwater and intermediate points. They report a most delightful trip with fine weather every day and a splendid fair at Tampa. Although they found the west coast towns very much crowded with visitors, they had nothing but praise for these places.

Mrs. L. R. Mitchell spent Saturday in Orlando. Clarence Guttridge of Haines City is spending several days this week in Oviedo, the guest of Revidy Wright.

The general quietude that usually pervades the little town of Oviedo was very much disturbed Monday morning by the news spread abroad that the general merchandise store of C. L. West had been entered Sunday night and robbed of about \$200 worth of goods. Although the robbers were evidently amateurs, they were certainly bold enough in their work. By the use of a screw driver they entered the front door some time near 12:00 o'clock. They left a new Ford car standing in front of the store, turned on the electric lights and proceeded to help themselves to such things as they most desired. Among the missing articles were two guns, several Ingersoll watches, shirts, socks, a pair of No. 6 shoes and a little change that was left in the cash drawer. The attempts to enter the safe were futile but the lock on the safe was damaged. Someone who passed the store a little after 2:00 o'clock, noticed it was lighted up and saw the car in front but thought it was Mr. West so made no investigation.

Mr. and Mrs. Wade and mother of Wildwood were visitors to Oviedo Tuesday.

Miss Ella Belle Jones left Monday for a week's visit to Winter Park, where she is the guest of her cousin, Mrs. Oakerlund.

John Robinson was a business visitor to Sanford Tuesday. Reudy Wright spent Sunday at Haines City.

Mr. and Mrs. O. P. Swope and baby, Oliver, Dr. Abbott and Mr. and Mrs. Hull of Iowa spent Sunday at DeLeon Springs.

Mrs. W. E. Young, Dick Walpole, Mrs. S. W. Swope, Miss Elizabeth Young and Clemmons Hall motored to Mt. Verde Tuesday.

Rev. L. E. Wright and Miss Virginia Wright spent Saturday in Orlando.

Edward McCall and aunt, Mrs. L. M. Clough of Lakeland spent the week-end in Oviedo last week the guests of Mr. and Mrs. H. B. McCall.

Mrs. W. E. Argo spent Tuesday in Orlando.

Mrs. H. B. McCall and Miss Ethel Taylor visited Sanford Monday afternoon.

Mr. and Mrs. G. S. Brown of Bertha were visitors to Oviedo Friday. Programs are being distributed and tickets sold for the Oviedo Chautauqua, February 19th, 21st and 22d.

"SUNSHINE CITY" CHURCH IS SET AFIRE BY RAYS OF A "MIDWINTER" SUN

ST. PETERSBURG, Feb. 9.—The daily advance of the point of sunset toward a northwesterly point of the compass today was responsible for a fire in the First Methodist Episcopal church here.

A scrap of oil-soaked waste, left hanging on the church wall by painters some five months ago, was ignited by the rays of the declining sun, Fire Chief McNulty said.

LLOYD GEORGE PLEADS FOR COALITION

WANTS GOVERNMENT TO HANG TOGETHER AND PUT DOWN REBELLION

(By The Associated Press)
LONDON, Feb. 9.—"We are engaged in a terrible task," said Premier Lloyd George in a speech today to the Welsh National Liberal Council, in which in impassioned words he defended the coalition government and pleaded ardently for a continuation of political unity. "It is something more important than defending myself and my administration."

He asked whether anyone could say that the need for unity had passed, and exclaimed, "I wish to God everybody could, because it worries me; it fills me sometimes with dread!"

"If someone could tell me that the danger is past, someone with authority, someone with vision, someone whose word we could take, I should be so glad that I would sign my resignation tomorrow."

A world reeling under the most terrible blow ever dealt, was the way he described the situation of today; gigantic events were in the making, and old factional fights among the various parties should not be resurrected until the peril is over.

The premier's speech was in answer to recent vigorous attacks against the coalition and the breaking away of some of the important coalitionists who have decided that the time has come to stand for their own parties.

Alluding to Ireland, he said the coalitionists had given Ireland a greater measure of home rule than either Gladstone or Asquith had proposed.

"But," he added, "they say they won't take it. They must have an Irish republic, an Irish army, an Irish navy. They won't get it, and if they don't get it, we are told, they will kill our policemen, our soldiers—not in open fighting, but hiding in homes, walking as respectable tenant farmers or swaggering along the road until they come to a hiding place, where they find rifles, passing perps the very policemen they are about to murder, as though they were innocent men."

"Are we to allow that sort of thing to be done without protecting the people we are sending there? (Cries of "No!") There is no issue between us and our political opponents on home rule. We have gone one better than the Gladstone home rule."

"There is an issue about setting up an independent country by our very gates—by the places where submarines used to lurk and sink our ships and endanger our commerce and the life of the nation. There is an issue as to whether the policemen and soldiers who are there upholding the honor of our flag are to be shot down by men who lurk in houses. I know of no other issue."

GENERAL SMUTZ IS ELECTED TO ASSEMBLY

THUS ASSURING SUCCESS OF SOUTH AFRICA UNION PARTY

(By The Associated Press)
PRETORIA, South Africa, Feb. 9.—General Smutz, prime minister of the Union of South Africa, elected to the house assembly yesterday. Returns received thus far indicate South African party under Smutz leadership was won a great victory.

Catch Runaway Girls in Jacksonville

JACKSONVILLE, Feb. 9.—Margaret Bragunier, sixteen, and Elizabeth Shorey, fifteen, runaway girls from a Washington, D. C., training school, were apprehended here yesterday on the authority of a telegram from the Washington authorities, and are being held pending the arrival of their parents.

Margaret is the daughter of the fire chief of Cherryvale, Va., while Elizabeth is the daughter of Franklin Shorey, a Washington college professor.

The girls ran away from the McKinley Manual Training School in the national capitol and boarded a Merchants' and Miners' steamer at Baltimore last Friday. They went ashore when the steamer touched at Savannah. Overstaying their shore leave, the ship sailed without them and they came on to Jacksonville by rail.

After all, the Germans can just as well offer to pay the expenses of the American army of occupation as to pay the former kaiser's imperial salary.

PARIS SINGER DONATES PROPY BOARD HEALTH

Paris Singer, head of the Singer enterprises, which include the Everglades Club, has presented to the Florida State Board of Health a complete laboratory equipment. The equipment will be used in the laboratory building now in course of construction for the State Board of Health on Third avenue, near the Florida East Coast Railroad passenger station. "It will make a magnificent addition to the facilities of the laboratory," Joe L. Earman, president of the State Board of Health, said yesterday when he made acknowledgment of Mr. Singer's generous gift.

During the late war Mr. Singer purposed to establish at Palm Beach a convalescent hospital for disabled officers of the United States Army. Before the project was fully completed the armistice was signed and feeling now that he could make no better disposition of the equipment he had assembled for that purpose than to turn it over to the State Board of Health, and recognizing its service to be performed by a laboratory at West Palm Beach, Mr. Singer communicated his desire to President Earman last week in a letter which Mr. Earman forwarded to Maj. Ralph N. Green, state health officer.

Major Green promptly came here to accept the gift and did so accept it. Next Thursday Dr. B. L. Arms, director of the bureau of diagnostic laboratories, will arrive to dismantle the laboratory and remove it from Palm Beach. The equipment will be stored until such time as it can be installed in the new building on Third avenue.

The equipment, Dr. Green states, is of the latest type, up-to-date in every respect, and worth upwards of \$3000. It includes a very valuable polariscope which will be of great service to the board in its research work. The State Board of Health is naturally more grateful for this splendid gift, and at its next session on February 8th, will express its appreciation in formal resolutions, copy of which will be presented to Mr. Singer.—Palm Beach Post.

County boards of trade are being organized all over the state. The more the better the counties will be.

In response to the inquiry of many telephone subscribers: "What can I do to help my service?" this advertisement is published.

"What Can I Do to Help My Service?"

Hundreds of telephone subscribers have recently visited our central offices and observed for themselves the conditions and environments that surround telephone operating.

In almost every instance the visit has been the occasion of surprise that such intricate work is so well done.

Invariably the visitors have asked:

"What can I do to help the operators in their effort to improve my service?"

In answer to this inquiry and in appreciation of this spirit of helpfulness, we shall publish a series of advertisements telling a few of the simple ways in which you and other telephone users can help the service.

HUGE WAGES PAID TO THE R. R. WORKERS

SCALE THE ATLANTA, BIRMINGHAM & ATLANTIC HAS PROTESTED

ATLANTA, Feb. 9.—The Atlanta, Birmingham & Atlantic Railway Company has been protesting the wage scale under which it with other roads has been operating, and asked for a readjustment, which the men have refused to accept. Col. B. L. Bugg, the president of the company, has been asked the question how much wages the men have been getting and what the proposed cut would amount to. In reply he has presented the following list, from figures that were taken from the December, 1920, payroll, showing the amounts earned by different classes of employees, and has had a computation made showing the amount they would have earned under the proposed scale when applied to the same service performed in December.

A negro porter on a passenger train running out of Fitzgerald was paid \$197.43. Under the new scale he would have earned \$150.28.

A negro coal heaver working on a coal chute was paid \$148.01. Under the new scale he would have earned \$100.35.

A passenger engineer running between Fitzgerald and Atlanta was paid \$332.88. Under the new scale he would have been paid \$274.44.

An engineer handling a fast freight train between Fitzgerald and Atlanta was paid \$344.89, while under the new scale he would have earned \$293.74.

A negro fireman on a passenger train running out of Brunswick was paid \$254.72. Under the new scale he would have earned \$178.80.

An agent at a local station in south Georgia having a population of 951 in the entire militia district was paid \$125.28. Under the new scale he would have earned \$88.36. The total cash receipts at this station were \$98.54, from which it will be seen that the agent was paid \$26.74 more than the money he collected.

A call boy was paid \$135.50. Under the new scale he would have earned \$92.53.

An engineer working in a terminal yard in south Georgia, home every night was paid \$267.95. Under the new scale he would have earned \$209.85.

A passenger train conductor was paid \$286.64. Under the new scale he would have earned \$232.22.

A negro fireman working in a yard was paid \$222.36. Under the new scale he would have earned \$145.85.

An agent at a local station with a population of 204 where the total receipts amounted to \$149.99 was paid \$133.40. Under the new scale he would have earned \$94.98.

An engineer who during the month worked in both passenger and freight service was paid \$370.10. Under the new scale he would have earned \$303.23.

An electrician was paid \$255.96. Under the new scale he would have earned \$180.60.

A negro laborer working in the shops was paid \$146.62. Under the new scale he would have earned \$103.90.

A car inspector was paid \$224. Under the new scale he would have earned \$158.90.

A machinist was paid \$233.75. Under the new scale he would have earned \$186.31.

A negro coach cleaner at Atlanta was paid \$147.25. Under the new scale he would have earned \$100.38.

Negro brakeman Gets \$228.04. A negro brakeman on a freight train was paid \$228.04. Under the new scale he would have earned \$146.64.

A telegraph operator, whose duties also required some clerical work, was paid \$222.37. Under the new scale he would have earned \$172.99.

A negro section hand was paid \$98.80. Under the new scale he would have earned \$62.88. Section laborers are furnished houses free in addition to their wages.

A local freight train engineer in south Georgia was paid \$368.16. Under the new scale he would have earned \$308.34.

A switchman in a terminal yard was paid \$218.90. Under the new scale he would have earned \$160.22.

Colonel Bugg stated that the instances above given are not extraordinary and are fairly representative.

POPULATION OF OKLAHOMA

WASHINGTON, Feb. 9.—Negro population of Tulsa, Okla., 8424, increase 330 per cent. Whites, 63,430, increase 296 per cent.

If Mr. Harding was really "searching for solitude" he picked the wrong state to come to in his search.

FIFTIETH ANNIVERSARY OF GOODRICH

Goodrich is what it is today because during the fifty years of its growth it has adhered to high ideals. The progress of the company from the beginning has been markedly influenced by the loyal belief of every member of the organization in its plans, policies, purposes and products.

GOODRICH AND THE RUBBER INDUSTRY

WHEN Goodrich started business fifty years ago the whole rubber industry was represented by a few scattered plants. The two-story building in Akron, on the site of the present Goodrich factories, was part of the nucleus of the industry itself as it now exists. At that time few persons ever dreamed what the industry could become. Scarcely any of the fields in which rubber products play so important a part had come into being. Electricity was undeveloped. Transportation was in its infancy. The automobile and motor truck were unborn. The combination of circumstances which brought about the greatest industrial era of the world was virtually unseen.

Yet the history of the company shows that even in those early days Dr. Goodrich and his associates were actuated by a broad view of the future and its potentialities. Radiating from that small factory and small organization of half a cen-

tury ago, Goodrich has built a city. Not alone the huge city of brick and stone and steel which houses the great plant in Akron—but a city which comprises the entire Goodrich organization everywhere in the world.

It requires people to make a city, and the spirit of those people is the soul of that city. The personnel of Goodrich is one that has a family feeling—a pride in its work—a determination to maintain the integrity of its creed and which extends that integrity to the service of the product itself.

Wherever a Goodrich product is used, it carries with it the good faith and good will of the organization. The opening of the second half century of the organization finds it just as earnestly building its city in the esteem and regard of the public, as it worked on that far day in 1870 when it was entering a field almost untried and approaching an era of development passing the imagination of that time.

THE B. F. GOODRICH COMPANY · AKRON, OHIO

CARELESSNESS IN HANDLING GASOLENE

RESPONSIBLE FOR MANY EXPLOSIONS SAYS FEDERAL INVESTIGATORS

(By The Associated Press)
WASHINGTON, D. C., Feb. 8.—Federal investigation of gasoline vapor explosion at Memphis January 24 which cost the lives of eleven persons is another example of failure of the workmen to heed the prescribed precautions in handling explosive material the Bureau of Mines announced. A negro opened a tank car of gasoline without relieving the pressure in the tank, the statement said. Gas and liquid gasoline boiled out of the car, mixed with the air to form an explosive gas and a few moments later was ignited by nearby open fires.

Who says 1921 isn't going to be a prosperous year? It begins with a payday and ends with one, and has five months with five paydays apiece.

Dynamite Negro Houses in South Jacksonville Today

JACKSONVILLE, Feb. 9.—Two negro houses were partially wrecked in South Jacksonville, at an early hour this morning by an explosion of the structures. There was no loss of life. Will Bell, negro, however, had a miraculous escape from death, as the whole rear end of his house was demolished. Apparently two sticks of dynamite were placed under the house as there were two separate explosions. The force of the charge tore off a corner of an adjoining house. Bell was alone in the house at the time of the explosion.

Recently all negro houses located in that section of South Jacksonville were placarded with anonymous notices warning occupants to vacate the premises at once. Practically all negroes heeded the warning and it was stated this morning that Bell recently moved into the house as a caretaker, the structure formerly being used as a negro boarding establishment.

WOULD ASK SEC. COLBY ABOUT MATTER

OF AGREEMENT BETWEEN AMBASSADORS MORRIS AND SHIDEHARA

(By The Associated Press)
WASHINGTON, Feb. 8.—Senate foreign relations committee today directed Chairman Lodge to ask Secretary Colby, if not incompatible with public interest, to submit to committee copy of agreement between Ambassadors Morris and Shidehara in regard to new treaty dealing with situation arising from adoption of California alien land bill.

NEW SMYRNA, Feb. 9.—Abandoning preparations for returning to St. Augustine by rail, Mr. Harding decided to continue vacation a little longer when Victoria was floated to-day from sand bar which held her since Monday. Yacht expected to be above Ormond by tonight.

Packers File New Selling Plan

WASHINGTON, Feb. 8.—Attorneys for Armour & Co. and Swift & Co., yesterday filed with the district supreme court a new plan for selling their stockyard interests. Previous plans proposing the sale of the yards to F. H. Prince & Co., of Boston, had been disapproved by the court.

The court was asked to appoint sales agents who, under supervision of trustees, shall sell the yards, giving preference to buyers in this order: Live stock producers, stockholders in the yards and other than the defendants; common carriers serving the yards, local citizens or municipalities.

The packers asked the court to fix the minimum prices of the various yards. Figures proposed in the disapproved plans with the exception of the St. Louis yards have been refused. A separate plan was presented for the sale of the yard at Jersey City to local interests. The yard was offered to the Pennsylvania which declined to buy.

MRS. PIKE DENIES ASK RESIGNATION CHAIRMAN WHITE

LETTER SHE WROTE HIM WAS OBTAINED THROUGH A MISUNDERSTANDING

(From Saturday's Daily)
CLEVELAND, Feb. 9.—Mrs. A. B. Pyke, Democratic national committee woman from Ohio, in a statement today declared her signature to letter sent George White, chairman of national committee, virtually demanding his resignation, was obtained by National Committeeman Love of Texas, through misunderstanding. She telegraphed White last night she was a firm supporter of his and requested that her signature on round robin, made public in Washington, be disregarded.

The admonition to take no anxious thought for the morrow is obeyed by millionaires and by poor men who are in jail.

JAPAN WILL CURTAIL NAVAL ARMAMENT STATED BY FORMER OPPOSITION LEADER

Resolution Would Ask Japan to Communicate With Other Powers

(By The Associated Press)
TOKIO, Feb. 8.—Yukio Ozaki, former leader of the opposition party, told the Associated Press correspondent today he would introduce independently before the Diet a resolution proposing the curtailment of naval armament, and the resolution would ask Japan to communicate with the United States and England and decide the best way to restrict naval programs in conjunction with those nations.

Mis-trial Declared in Case of Guardsman Tried for Lynching

HAMILTON, Ala., Feb. 8.—A mis-trial was declared at 10:00 o'clock today in the case of Sergt. Robert J. Lancaster, Alabama National guardsman, indicted in connection with the lynching of William Baird, a miner, near Jasper, on January 13th. The jury had been out thirty-eight hours. The foreman reported to the court that further deliberations were useless, whereupon Judge Sowell discharged the jury.

VARIOUS GERMAN STATES URGED TO REFUSE ACCEDE TO DEMAND OF ALLIES

Premiers of Different States Would Fight Against Demands

(By The Associated Press)
MUNICH, Feb. 8.—Premiers of various German states agreed to urge the Berlin government to refuse compliance with the Allied demands formulated by the Supreme Council in Paris two weeks ago.

Greek Troops Ready For Great Offensive in Asia-Minor

(By The Associated Press)
ROME, Feb. 8.—Seventy thousand Greek troops are being organized for a great offensive in Asia-Minor, according to Smyrna reports. Turkish Nationalists are preparing to meet the offensive.

HOME RULE MAY BRING IRISH PEACE

ULSTER'S ACCEPTANCE OF THE LAW MIGHT PACIFY SINN FEIN

DUBLIN, Feb. 8.—Acceptance of the Home Rule law by the Ulster faction would mean fiscal authority and release of political prisoners for the Sinn Feiners, it was learned here today, from an authentic source. Negotiations to this end are now proceeding, it was learned, between Mr. Lloyd George, the prime minister, and Sir Edward Carson, Ulster leader in the British parliament on the Ulster committee. It is generally understood that the attempts made by Sir Hamar Greenwood, chief secretary for Ireland, to secure the nomination of candidates for the proposed Southern parliament have thus far signally failed. As supporting their belief, and also the reports that the government has renewed its peace efforts, it is being pointed out that Sir Hamar, usually easily approachable by the press, has, during the past three weeks, resolutely refused to give interviews. Whether the Sinn Fein would accept the partition act, even with a grant of the control of finances, amnesty and other concessions, is a question on which the opinion of students of the situation is widely divergent. Representatives of the Sinn Fein, when approached as to this, however, refused to treat the scheme seriously, saying that until some concrete bona fide proposal should actually be made, they would not waste their time in speculation. Prominent nationalists when their views were sought in this connection said they had no doubt the concession of fiscal autonomy would go far toward satisfying the Irish people's demands for independence and if offered in a generous spirit would greatly weaken the spirit of the Sinn Fein determination to refuse it.

Be "Pachent" Says This Carolinian To Pressing Creditor

RALEIGH, N. C., Feb. 8.—On account of the low prices that have been paid for tobacco and cotton this season, many Southern farmers have experienced great difficulty in meeting their obligations. As reflecting the plight of one planter, former Governor Richard I. Manning, of South Carolina, at a meeting of tobacco and cotton growers here recently, read the following letter which he said was sent to a South Carolina fertilizer company: "I received your letter about what I owe you. Now, be pachent, I ain't forgot yoo, and as soon as folks pay me I'll pay you, but if this was judgment day and you no more prepared to meet your God than I am to meet your account, then, you sho' going to hell." Post Cards at the Herald office, 1c.

Platform Principles of the Florida No-Fence League

"It is the intention of the Florida No-Fence League to press forward for the enactment of a bill by the next legislature to prohibit the running at large of live stock, to become operative January 1, 1923, by a referendum vote of the people, and containing a provision that any county, or part of county, which does not want to be included within the operation of the law may by a local option vote, exempt itself, making provision at the time of exemption for the protecting of adjoining or surrounding counties or parts of counties from depredation by its open range stock." FLORIDA NO-FENCE LEAGUE.

PERSONAL NOTES

(From Saturday's Daily)
Dr. E. D. Brownlee left Thursday evening for Calhoun, Ga., called by the illness of his mother.
Mr. Charles Fedder returned Friday from a business trip to Palmetto, Florida.
Mrs. Rodney Brandon and children have moved into an apartment in the Welaka.
Mr. and Mrs. Howard Griggs, of Tampa spent a few days here the guest of their mother, Mrs. Frank Griggs.
Mrs. Frank Griggs and little daughter Mary left this morning to spend a few days in Tampa the guest of her son, Howard Griggs.
W. R. Frier, mayor of Douglass, Ga., is here, the guest of J. C. Dean, of the Union Pharmacy. Mr. Frier, aside from his duties as mayor, manages to publish a first class newspaper.
Mrs. W. B. Zachary, of Magnolia avenue has as her guest, Mrs. Harold Vile and her pretty little daughter, Miss Dorothy, of Savannah, Ga. Mrs. Vile will remain in Sanford several weeks.
Mrs. E. McConnell had as her guest Mrs. R. J. McKinzie, of Jacksonville, Fla., president of Div. 384 of the G. J. A. to the B. of L. E. and Mrs. S. W. Tucker of Brooklyn, N. Y., organizing division 567.
W. H. Talbert is meeting his many Sanford friends here while making headquarters at the Sanford Shoe & Clothing Co. He represents the Storrs-Schaffer Tailoring Company of Cincinnati.
C. Sanderson, freight traffic agent of the N. C. & St. L. Railway, and B. L. Abberger, commercial agent for the Central of Georgia, were in the city today calling on the shippers of fruits and vegetables.
Albert Dorner sends us a card from Palm Beach and says he is on his way to Cuba and will return home by the west coast to see the celery in the Manatee district. Dreyer, Jacobs and Stojkoff are with him and they are enjoying the trip.
Mrs. H. H. Witherington returned home to Apopka today after visiting her daughters, Mrs. Berry and Mrs. Waters, for several days. Bill Witherington came over from Apopka for her and Mrs. Berry accompanied her home for a stay over Sunday. Bill says that the biggest buck ever killed on the Welaka was shot yesterday by local hunters.
(From Monday's Daily)
Mr. and Mrs. Raymond Key return today from Jacksonville.
Mr. and Mrs. Ralph K. Gore and two children spent Sunday in Orlando, visiting friends.
Dr. and Mrs. James Vansant of Kentucky are the house-guests of Mr. and Mrs. Forrest Lake.
Mrs. J. G. Ball, Hodgson Ball and Robert Dean motored to Tampa Saturday to spend the week-end.
Mr. and Mrs. H. A. Neal are spending the afternoon at Mt. Dora where Mr. Neal went to transact business.
Miss Morrie Frances Ball and Master Billy Ball are the guests of Mr. and Mrs. W. J. Steed in Kissimmee.
Mrs. Addie F. Homrighous has returned from a week spent with Mr. and Mrs. A. B. Commons at Stone Island.
Mr. and Mrs. G. C. Chamberlain and Mr. and Mrs. W. E. Watson were the guests of Mrs. R. S. Keelor at Ferosa, Sunday.
Mr. and Mrs. Albert Vinson, Mrs. Julius Schultz, Judge E. F. Householder and Master Carlyle Householder motored to Daytona Sunday.
Mr. J. B. Coleman is no longer representing Stringfellow-Padgett but is now with Lewis-Chitty Company, with headquarters still in Sanford.
Mr. and Mrs. A. B. Conover of Chicago are again visitors to Sanford, being the guests of Mr. and Mrs. F. F. Dutton at their home at Lake Onoro.
Friends of Mrs. Anna Walker will be pleased to learn of her rapid recovery at the Fernald-Laughton hospital under the care of Drs. Marshall and Langley.
Mr. and Mrs. John Smith had as their dinner guests last evening, Mr.

and Mrs. Charles Britt, Mr. and Mrs. Archie Betts and Mr. and Mrs. Clarence Mahoney.
Mr. and Mrs. Charles Tyler and their house-guests, Mr. and Mrs. D. Leach of Detroit, Mich., and Mrs. J. W. Bastin of Syracuse, N. Y., have returned from an extended trip down the east coast.
Dr. and Mrs. Kelley of Port Jervis arrived in the city today, driving through from Jacksonville after shipping their car that far. They will be here for several weeks much to the delight of their many friends.
Mr. A. L. Crandal of Crandal & McKensie Company of Pittsburgh is the house-guest of Mr. and Mrs. J. S. Wilson. This is the third winter Mr. Crandal has been a guest in Sanford and he is planning to build a winter home here.
W. C. Spencer, representing the Miller Machine Company, was in the city today calling on the local printing trade. Mr. Spencer travels over the entire South and says that Sanford looks mighty good to him from every standpoint.
Lee W. Wicker of Jacksonville is among the visitors to the city today. Mr. Wicker is sales manager of the crankless engine and is looking over the territory. There are many stockholders here of the crankless engine that is among the latest inventions in the world of science.
J. D. Ball took Mr. and Mrs. R. J. Holly and Mr. and Mrs. Henry McLaulin to Orlando yesterday in his car to hear the Highlander Band. They stopped at the home of Howard Lyman at Altamonte on the return trip and carried away a carload of fine oranges and grapefruit. Mr. and Mrs. Lyman took them to the Lyman grove several miles west of Altamonte where one of the finest crops of oranges in the county can be seen and it is one of the finest sights in this part of the state. The crop will be picked this week and will bring a good price. The Lyman Twins have made good in the orange business and are a living example of what pluck and perseverance and business methods will do in Florida.
(From Tuesday's Daily)
Miss Virginia DeCoursey is at home from Stetson for a few days.
Mrs. B. W. Herndon, Miss Norma Herndon and Mrs. Hal Wight are spending a few days in Tampa.
Mr. and Mrs. G. I. Loucks have as their guest Miss Isabel Overbargh of Sangerties, N. Y.
Mrs. W. R. Williams comes today from Chattanooga to be the guest of Mr. and Mrs. W. J. Thigpen.
Mr. and Mrs. W. E. Watson have as their house-guests Mr. and Mrs. Thomas Clark of Philadelphia.
Mr. and Mrs. H. A. Neel, of the Herald, and Mr. and Mrs. Roy Dolson, of Mattoon, Ill., who are here for a few weeks, were business visitors to Mt. Dora yesterday.
When the White Way is installed the business men should light up their show windows and make the city look like it was alive. There is nothing that sets off a city like plenty of light.
Mr. and Mrs. H. L. Gibson, Mr. and Mrs. F. B. Langley and son, Frank, Mrs. Claude Herndon and Claude, Jr., formed a congenial party motoring to Tampa yesterday, taking in the Gas-

perilla Carnival. They report a fine trip.
Mrs. H. B. Connelly of the Quality Shop, left yesterday for Atlanta, Baltimore and New York to look over the spring stocks of millinery and purchase the many new styles for the Sanford trade. She will be absent about ten days and during her absence the shop will be in charge of Miss Virginia Smith.
Superintendent T. L. Dumas and Tranmaster F. B. Langley made a trip to Mt. Dora, Eustis, Tavares and other points in Lake county today on business. They made the trip by auto on account of the railroad rates being so high, it is presumed.
What Mrs. Brenninger, of New York, Says About Rat Poison
"Tried preparations that kill rats, but RAT-SNAP is the only one that prevents disagreeable odors after killing. Also like RAT-SNAP because it comes in handy cakes, no mixing with other food. You don't have to dirty your hands, it's the best for household use." Try RAT-SNAP. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.
Population of the State of Alabama
(By The Associated Press)
WASHINGTON, Feb. 8.—White population of Alabama in 1920 was 1,447,932 and negro population 900,652 census bureau announced. White population increased nearly 18 per cent while negroes decreased 8 per cent.
Mr. J. A. White Says "If You Have An Automobile, Keep Rat-Snap"
"If I knew about RAT-SNAP last winter, would have saved \$120. My car was in the garage for a few weeks during bad weather; when I went to take it out, found that rats had eaten great holes in two new tires. Got them later with RAT-SNAP." Three sizes 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.
Negro Population of Savannah, Ga.
(By The Associated Press)
WASHINGTON, Feb. 8.—Negro population of Savannah, Ga., 39,195, increase 17.99 per cent. White population 44,016.

MONTHLY BUSINESS MEETING

(From Saturday's Daily)
The Deacons of the Presbyterian church were most charmingly entertained by Mr. and Mrs. C. L. Goodhue Thursday evening.

A business meeting preceded a most elaborate and sumptuous supper which was served in the dining room at a late hour.

Those present were: Dr. Brownlee, Mr. Henry, Mr. Kent Rossitter, Mr. Frazier, Mr. Stevens, Mr. Thrasher, Mr. DuBose and Mr. Goodhue.

ENTRE NOUS

The Entre Nous Bridge Club met with Mrs. Dean Turner Friday evening at her home on Myrtle avenue.

The evening was a delightfully informal one as all the members are neighbors, Mrs. Chase winning the club prize.

After the game a delicious salad course was served.

The members present were: Mrs. George Fox, Mrs. E. D. Mobley, Mrs. R. J. Holly, Mrs. Harry Wilson, Miss Martha Fox, Mrs. S. O. Chase, Mrs. J. G. Ball, Mrs. B. F. Whitner and Mrs. Turner.

BRIDGE FOR MRS. BRANDON

A most delightful party was the one given by Mrs. Ed Lane Friday afternoon, honoring her cousin, Mrs. Rodney Brandon, who is spending the winter in Sanford.

An abundance of red roses, suggestive of the Valentine season, tastefully decorated the rooms of the lower floor.

The prizes were lovely, Mrs. Brandon was presented with a beautiful basket of roses, Mrs. W. C. Hill, for making high score, was given a beautiful candlestick, and Mrs. Puleston won the cut prize, cards in an ivory case.

After the game, the Valentine idea was further suggested in the dainty refreshments, which consisted of a salad course with little valentine baskets for honors.

Those present were: Mrs. A. P. Connelly, Mrs. E. F. Roumillat, Mrs. W. C. Hill, Mrs. D. L. Thrasher, Mrs. R. A. Newman, Miss Lee, Mrs. Archie Betts, Mrs. S. Puleston, Mrs. R. J. Holly, Mrs. S. M. Loyd, Mrs. Charles Feeder, Mrs. Rodney Brandon, Mrs. Braxton Perkins, Mrs. Pearson, Mrs. George Spear, Mrs. M. S. Wiggins, Mrs. W. M. Leffer, Mrs. W. J. Thigpen, Miss Wilkey, Mrs. Hal Wright, Mrs. John Smith, Mrs. Fred Williams, Mrs. A. B. Wallace, Mrs. Claude Howard, Mrs. J. B. Lawson, Mrs. W. L. Morgan, Mrs. E. F. Householder, Mrs. Marlow, Mrs. Henry Purden, Mrs. George Fox and Mrs. R. R. Deas.

D. A. U.

The D. A. U. Bridge Club met with Miss Mabel Bowler Thursday afternoon at her home on Magnolia avenue.

Mrs. George DeCotts and Mrs. Bennett were the only substitutes, Mrs. Bennett winning the club prize.

A delicious salad course was served after the game.

SANFORD WOMAN'S CLUB TO HAVE BRIDGE LUNCHEON

On next Tuesday, the social department of the Woman's Club in Sanford will entertain with a large and very brilliant bridge-luncheon, invitations for which have been received by friends in Orlando, and to which a good number of Orlandettes will motor over. The Woman's Club is famed for its splendid entertainments, and as this is to be the largest affair of the season, it will bring out all social Sanford as well as many from adjacent towns.—Orlando Reporter-Star.

BRIDGE

Mrs. George Knight entertained Saturday afternoon with a most delightful bridge at her home on Magnolia avenue, having her two houseguests, Mrs. Hartdegen and Mrs. Knight, who are the mothers of Mr. and Mrs. Knight.

The rooms of the attractive home were tastefully decorated in red roses and ferns.

The prizes were lovely, Mrs. Dean Turner for high score won a Picard china dish, Mrs. Roy Bower for next high score, won three Madras handkerchiefs and for consolation, Mrs. S. M. Loyd won playing cards.

Mrs. Knight was most ably assisted by Mrs. E. F. Householder in serving dainty and delicious refreshments which consisted of a salad and an ice course.

CHILE BEAN BANQUET

The newly organized Chile Bean Club enjoyed one of the most delightful affairs of the season Saturday

evening when the young men of the organization entertained at dinner in honor of the fairer members.

The table was tastefully arranged with the club flowers, roses and violets, and thanks to Mrs. Campbell a most delicious dinner of seven courses was served.

The unavoidable absence of one member made the party number thirteen but in spite of this unlucky handicap the evening was voted a success by all.

Those present were: Messrs. J. T. Brady, Jr., P. B. Dooley, G. C. Barber, M. D. Tarbell, Jr., S. P. Dutton, H. C. DuBose, Jr., the Misses Frances Dutton, Sarah Warren Easterby, Anna DuBose, Mae Holly, Marion Dietrich, Mrs. Sandy Anderson and Mrs. Howard Smith.

This crowd of young people promise that Sanford shall hear more of the Chile Beans and that their part of the city shall never be called dead.

(From Tuesday's Daily)

LITERATURE AND MUSIC DEPARTMENT OF WOMAN'S CLUB

Mrs. Henry Wright will give a talk on decorative plants suitable for Florida, at the meeting of the Literature and Music Department Wednesday.

It is requested that members of the department bring pencils and notebooks.

DINNER

The Business and Professional Women's Club of Sanford met Monday evening at the Montezuma for a business meeting and dinner.

Business over the meeting moved to the dining room where covers were laid for thirty-five.

The guests of honor for the evening were Mrs. Adelle Homrighaus of Chicago, Mrs. Edwin S. Sparks of Pennsylvania and Mrs. Blackman.

The table was tastefully decorated with baskets of red roses and a most delicious and splendidly served six-course dinner was enjoyed.

At the conclusion of the dinner it was the pleasure of the club to listen to Mrs. Hemrighaus give some of her most interesting experiences as a business woman. Also Mrs. Sparks and Mrs. Blackman gave charming little talks of greeting to a new club.

The club wishes to express its appreciation to Mrs. Murrell for the splendid management of the dinner.

MONDAY AFTERNOON BRIDGE CLUB

The Monday Afternoon Bridge Club were delightfully entertained Monday by Mrs. W. C. Hill.

The rooms were tastefully decorated in cut flowers.

The substitutes were Mrs. E. F. Householder, Mrs. Reginald Holly and Miss Lee.

The prize for high score, a silver lemon dish, was won by Miss Lee.

A delicious salad course was served at the conclusion of the game.

EVERY WEEK BRIDGE CLUB

The Every Week Bridge Club met with Miss Wilkey Monday afternoon.

The prize for high score, a box of stationery, was won by Mrs. S. E. Barrett.

Substitutes for the afternoon were Mrs. James Vansant and Miss Irving.

After the game a salad and an ice course were served.

THIMBLE PARTY

Ladies of Circle Number Three of the Methodist Church were entertained yesterday at a thimble party at the home of their captain, Mrs. B. A. Kelley.

The afternoon was spent in taking carpet rags for hand crocheted rugs which are to be the feature of the bazaar they plan to hold later in the year.

Tea and wafers were served at the close of the afternoon.

The following ladies were present: Mrs. Jerre Griffith, Mrs. P. M. Elder, Mrs. R. L. Shiholser, Mrs. J. M. Moyo, Mrs. G. W. Bailey, Mrs. R. E. Griffin, Mrs. LaGette, Mrs. E. K. Perryman, Mrs. T. W. Williams, Mrs. J. D. Roberts, Mrs. R. E. Eldredge, Mrs. Will Hoolehan, Mrs. J. B. Parker, Mrs. Dooer, Mrs. Packard, Mrs. Walter Wells and Miss June Wadell.

JUNIOR CHRISTIAN ENDEAVOR SOCIAL

The Junior Christian Endeavor gave a social Friday night. Everybody came dressed up as grown ups. They served hot chocolate and cakes. Everybody had a good time. All of our socials are different.—Contributed.

DEPORTATION UNDESIRABLES TO BE STRICT

HUNGARIAN GOVERNMENT SAYS THEY HAVE TOO MUCH LIBERTY.

(By The Associated Press)
WASHINGTON, D. C., Feb. 8.—Representations have been made to the State Department by the Hungarian government concerning the deportation of undesirable aliens from the United States. Hungary says deported aliens have been at such liberty aboard the vessels as to permit them to organize propaganda against European governments. They ask that aliens deported be segregated aboard vessels.

ROLLINS COLLEGE AGAIN DEFEATED IN BASKETBALL

GREENVILLE, S. C., Feb. 5.—Rollins College, of Winter Park, Fla., lost a close game to the Presbyterian College of South Carolina, at Clinton on Wednesday night, by a score of 20 to 24.

Rollins started off fast and led by 14 to 7, when accidents crippled the team and broke up its team play. The game was close throughout, the Presbyterians overtaking Rollins and winning the game.

RADICALS AT WORK IN MEXICO AGAIN

MEXICO CITY, Feb. 8.—Police authorities and government secret service agents were engaged today in collecting evidence which might lead to the arrest of men who bombed the residence of the archbishop of Mexico and the building occupied by Juergens & Company, in this city yesterday. Four men are under arrest, but it is known several others were implicated in the two crimes. The residence of the archbishop was badly damaged, but the Juergens building was virtually destroyed by the force of the explosion of the infernal machine placed in front of it.

Asks Removal of 8,000 Teachers

WASHINGTON, Feb. 8.—There are 8,000 disloyal teachers in educational institutions in the United States who must be removed, Henry J. Ryan, of Boston, chairman of the American committee of the American Legion, declared yesterday at a meeting here of the Legion's legislative committee. He estimated 2,000 of these were radicals. Efforts against the "stret corner radical is useless," he said, "while school and university students are being taught disloyalty by instructors."

Former Palatka Man Scoffs at War Talk

(By The Associated Press)
SAN FRANCISCO, Feb. 5.—Japan desires more than anything else to maintain good relations with America, according to the Kokosui news agency of Japan, according to a news dispatch received here. James Kennedy, who for a number of years was a citizen of Palatka, Fla., and who has just completed a tour of the United States after 15 years in Japan, said that everywhere he went he was asked if there was to be trouble between the two countries, according to the report.

He said that if the question did not have its serious side the query would be childishly ludicrous. He added that Japan desires friendly relations between America and herself.

"The vast majority of people there are bitterly opposed to war. War between Japan and America spurs bankruptcy for Japan."

When Your Farm Stock is Sick, Look For Rats

Disease among farm animals don't just happen. Rats are carriers of dangerous plagues—hog cholera, foot and mouth disease and that terrible of all scourges—Bubonic plague. Farmers should throw around premises RAT-SNAP. It's sure and safe. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.

Plenty of Shipping With the South Latin-American Trade

WASHINGTON, Feb. 4.—Chairman Benson of the shipping board does not expect to see any immediate increase in the volume of freight to Latin-American countries, he told the committee on transportation and communication dealing with Latin-American problems, today at its initial meeting. The committee, which grew out of the second Pan-American Finance Conference, received reports from five sub-committees and adopted resolutions designed to improve trade conditions with South America.

Admiral Benson, as chairman of the ocean transportation sub-committee, declared that judging from observation of freight movements he had made as chairman of the United States Shipping Board, there were enough vessels running to Latin-American countries now to care for a "table business." He added that perhaps there was a surplus of available tonnage space due to a general depression of business and high freight rates in the United States.

Chairman Benson also discussed with the committee the policy of the shipping board as to trade routes and that in the Latin-American service the board has seventy-five vessels of 550,000 tons.

Senator Fletcher of Florida, chairman of the radio and cable communications sub-committee, introduced a resolution, which was adopted, providing that congress be urged to pass the pending bill authorizing the navy department to accept press messages, at a fair rate, to and from South America.

CONTINUE TO TRADE IS THE SENSIBLE SOLUTION.

When the pickle botler said to the milk operator, "Your price is bound to come down, therefore I am going to quit using condensed milk until it does," at that very moment an idea was put into operation which has done more to hold off normally than any other step that could possibly have been taken. The milk operator immediately said: "Well, I think the price of pickles is exorbitant and I will quit buying them until there is a general reduction."

The milkman was then forced to cut down on his output and strike a percent of his workmen from the payroll, which naturally transferred them to the ranks of the unemployed. It was only a short while before the pickler was forced to follow suit.

Then the popcorn man found hope in what the milkman had to say about the price of pickles, and was overjoyed when he heard the pickler make the prediction that the price of milk would be reduced shortly, and he decided to use neither milk nor pickles until the prices descended to a pre-war basis.

The milkman and the pickler had both been in the habit of buying popcorn for their kids, but with business hitting some and missing a great deal they came to the conclusion that the wise policy was to quit buying popcorn until their businesses became normal again, or at least until the price of popcorn was less.

"That is the status of 'hard times' in a nutshell. The illustration can be applied to cover practically the whole nation, and while this innocent appearing boycott continues there can be no sensible plan of readjustment worked out. Examples are generally unsatisfactory in the business world. Co-operation is far more effective; and if the milkman and the pickle man had agreed to make earnest efforts to reduce their prices, at the same time continuing to trade with each other, and if the popcorn man had been taken into the plan, the only sensible initial step would have been taken.

In other words, this idea of "waiting to buy" is not the proper course to follow. "Buy now" and at the same time do all in your power to encourage a return to normal times, whatever they are, and let this thought be extended to all classes and a long move has been made in the right direction.—Jacksonville Metropolitan.

"I Lost My Best Customers Through Rats," Writes J. Adams.

"Used to have the busiest Restaurant in town until news spread that the kitchen was infested with rats; lost a lot of my best customers until I tried RAT-SNAP. Haven't a pest in the place now. Restaurants should use RAT-SNAP." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.

Wrecking Steamer Gets Schooner

NORFOLK, Va., Feb. 8.—The American schooner George W. Truitt, Jr., which was reported ashore off Cape Lookout, was pulled off by the wrecking steamer Clermont yesterday. She stranded Sunday morning. The George W. Truitt, Jr., was bound from Jacksonville for Baltimore with a cargo of lumber and went ashore at Cape Lookout Saturday night. The condition of the vessel has not been reported.

THE FIVE-DAY WEEK

When the "five-day week" came into prominence last year, it was rightly regarded as an industrial menace. It was urged, for the most part, by organized workmen in occupations where greater production was needed. In such occupations it would naturally have resulted in diminished production, with consequent increase in the price of all goods produced in those industries or depending on them. The demand meant less work for the same money, and at least when coupled with the six-hour day demand, it meant less work than society has a right to expect of any able-bodied worker, and less than any self-respecting worker ought to feel like doing.

All that foolishness vanished with the industrial slump. In its place has come a five-day week of a quite different character. It results from a temporary diminished demand for goods and labor. It is now a question of adopting labor to a program of lessened production with the least possible injustice or discomfort to labor itself.

The old method of dull times was simply to keep enough men to do the work required and arbitrarily discharge the rest. It was hard on the men who lost their jobs, hard on their families and hard on their communities. The new method is far more humane and more logical. If an industrial plant finds that it can not afford to continue employing more than five-sixths or four-fifths of its productive power, it divides all the labor among all the employees, merely shortening their week's work to give whatever output is desired.

This has been done in many cases, most notably by the Pennsylvania Railroad. The proposition is usually submitted to the employees. It is to be said to their credit that in no case have they failed to give their approval and co-operation. The men who are sure of their jobs prove willing to share their working time with those who would otherwise lose theirs.

The arrangement reflects credit alike on employers and employees. Its beneficial effects may last long after the occasion for it has disappeared. It may be the beginning of a new and better system of co-operation.—Gainesville Sun.

NEW DEAL FOR CONSTANTINE, GREEK KING

CONFERENCES IN EFFORT TO SOLVE MINISTERIAL CRISIS

ATHENS, Feb. 5.—Conferences with political leaders held today by Constantine in an effort to solve the ministerial crisis culminated last night in resignation of Dhallis cabinet. Believed War Minister Gounaris or Finance Minister Kalogeropoulos would be asked to head new ministry.

SHERIFF FORGOT TO HANG NEGRO AND NOW HE CAN'T ACCORDING TO THE LAW

Sheriff Was Too Busy and Forgot About the Date PRISONER IS HAPPY

AND CHANCES ARE GOOD THAT SENTENCE WILL BE COMMUTED

(By The Associated Press)
BATON ROUGE, La., Feb. 9.—Lonnie Eaton, negro, whom the sheriff forgot to hang, may be legally dead, Attorney-General Coco admitted he did not know but reports from Ouachita Parish prison where Lonnie had been eating his three squares daily ever since his execution was misled by Sheriff Grant February 4th, do not indicate his appetite suffered on account of his possible demise. Grant wrote the governor yesterday that in the press of civil and criminal matters he forgot to hang the negro. He did not know what to do about it and asked for instructions. Governor has turned matter over to attorney-general, who is raking the law books for precedents. Coco said today an application for commutation in the negro's death sentence was before the pardon board with many recommendations for commutation and that as a member of the board he favored it.

McAdoo Leaves Mexico for Home; Denies Negotiations

(By The Associated Press)
MEXICO CITY, Feb. 9.—William McAdoo left here last night on return to United States. Said trip to Mexico was one of pleasure and denied that he entered into negotiations with the Mexican government for administration or supervision of rehabilitation of railroad system.

EAST SANFORD

Rev. E. D. Brownlee will be at the Moors Station church to preach Sunday the 13th if at home from his visit to Georgia.

Miss Maude Gregson is a guest at the A. B. Cameron home again, en route from Miami to her home in Detroit, Mich.

M. I. Grier of Charlotte, N. C., and B. M. Grier of Elerton, N. C., were here a portion of last week, called by the illness of their brother, R. L. Grier.

Curry (Shine) Hasty is at home on a furlough from Camp Jackson, S. C. Mr. and Mrs. D. L. Long have as their guests Mr. Long's sister and husband, Mr. and Mrs. Baker of Columbus, O.

Mrs. Don McDonald is at Dr. Masters' sanitarium at Port Orange for a time.

Needham Purvis of Tampa has been a recent visitor at the home of his brother, Ashley.

Mr. and Mrs. A. B. Commons of Stone Island and Mrs. Addie F. Homrighous of Chicago, Ill., were callers at the Ellsworth home Sunday.

Mr. Eddy of Eureka Hammock has been at the Fernald-Laughton hospital for treatment for lung trouble during the past week.

Mr. and Mrs. Ed J. Cameron have both been very ill with grippe and whatever it is that has been going about. Mr. Cameron's mother and Dr. Puleston have been in attendance.

Part of the land F. O. Belder will sell as an allotment on Sanford avenue is the place owned and occupied by Mrs. Blanche Mendal and Mrs. Lizzie Hunter of Pittsburgh, Pa., a few years ago.

The marriage of Miss Barnett Eugenie Brantley and Ernest Mansfield Massey has been announced to take place at the M. E. Parsonage Tuesday at 2:30 p. m., February 15th. The Rev. Dr. Walker will perform the ceremony. The family of the bride and a few friends will be in attendance, the bride is the eldest daughter of Mr. and Mrs. T. L. Brantley of Moores Station, formerly of Montgomery, Ala. Mr. and Mrs. Massey will reside in Montgomery. They have the best wishes of a large circle of friends.

C. E. Chorpeling will pay a reward for the return of his heavy, dark green, wool sweater lost off his truck last Wednesday between the Clyde Line dock and the Standard Oil plant.

Nick Zernovean and Ashley Purvis are having the Colt acetylene gas lighting plants put in their homes this week by a New York City company.

Witness Goes to Jail For Safe Keeping

BIRMINGHAM, Ala., Feb. 9.—Leslie R. West, principal witness against Sgt. Robert J. Lancaster, Fourth Alabama National guardsman in whose trial a jury at Hamilton Monday failed to agree, arrived here yesterday and was placed in the Jefferson county jail for safekeeping, according to the warden's docket. The special assistant attorney-general in charge of the inquiry into the lynching of William Baird, miner at Jasper, on the night of January 13 expected to announce soon further development in the case.

LABOR BOARD TO HEAR EMPLOYEES REPLY OWNERS

CHICAGO, Feb. 9.—The Railroad Labor Board hearing the controversy between the railroads and their employees over the national agreements recessed yesterday until Thursday. At that time, it is expected, representatives of the employees will appear with a reply to the request for immediate abrogation of the agreements, made by W. W. Atterbury, chairman of the labor committee of the American Association of Railway Executives. Representatives of seven independent employees' organizations completed their testimony yesterday. They asked for certain rules benefiting their right to negotiate agreements with the roads for members of their organizations. It was their contention that heretofore the brotherhoods had undertaken to represent all employees.

With the completion of the independent's testimony, the board was prepared to hear the general presentation of evidence by the brotherhoods. B. M. Jewell, chairman of the employees' committee, was in New York, however, and the committee said it was not ready to proceed until his return. It was reported that the employees would ask a months' recess to prepare rebuttal to the four weeks of evidence presented by the railroads, but the board declared it had no such request.

LONGWOOD NOTES

T. G. Roebuck and Miss Georgia Hall were shopping in Sanford Friday.

Mr. Willard McWorkman of Indianapolis arrived Saturday and will spend some time with his nephew, J. E. Phipps, on Crank Hill.

Howard Stuart of New Kensington, Pa., is the guest of Mr. and Mrs. Geo. Stuart.

Clark Roberson of Orlando was a visitor in town Friday.

A. Y. Fuller was transacting business in Orlando Saturday.

Jas. Saverity and Walter Stuart of Ohio, who have been stopping at the Ohio bungalow of D. W. Short's for some time; left Sunday to take in the fair at Tampa before returning home.

W. H. Martin and Mr. Moore of Orlando were visitors in the city Friday.

Miss Ellen Fuller spent the weekend with her parents, Mr. and Mrs. A. Y. Fuller.

Ralph Reary of Orlando was transacting business in town Monday.

Miss Eva Stuart returned to Tampa Sunday, after spending several days at home.

J. S. Dinkel motored to Apopka on Thursday.

Dr. Tupper of Orlando will give another lecture at the Library February 15th, in behalf of the Near East relief.

J. A. Bistline and father returned Sunday, having accompanied the remains of Mrs. G. A. Bistline to their old home in Pennsylvania.

Mr. and Mrs. S. A. Huston, Mrs. Chris Mathews, Miss Mildred Huston and Miss Dickson of Sanford were calling on friends Sunday.

T. P. Lewis was transacting business in Sanford Monday.

Friends of Mr. Hutchinson will regret to hear that he was taken to the hospital Monday. It has not been learned yet the cause of his illness.

Mrs. B. J. Overstreet and children were in Sanford Tuesday. Little B. J. is having trouble with his foot and Dr. Puleston is treating him.

J. E. Phipps was transacting business in Sanford Tuesday.

If necessity is the mother of invention, laziness must be the stepfather.

BURGLARS TOOK CLOTHES THEN RETURN THEM

(From Wednesday's Daily)
 Palmetto avenue seems to be afflicted with a very peculiar brand of burglars for they take clothes out of peoples' rooms and after keeping them several days return same intact with the exception of taking the small change.

Joseph Kennedy of Chicago, who is spending the winter here, has rooms at the home of W. M. Lovell and one night last week had his pants stolen from him (two pairs) and with his pants went all that they contained, being some valuable coins, medals, etc. and some money. Like all the rest of us, Mr. Kennedy is lucky to have two pairs of trousers at one time, but having his two pair stolen forced him to go down town and buy another pair. Meantime, after two days, he stepped into his room one evening and found the stolen pants lying on a chair and upon going over the pockets found that only some of the small change had been taken out of the pockets and everything else was left in the trousers.

This is not a regular thief for he would have left nothing and Mr. Kennedy, while very grateful to the light-fingered one for returning his property almost intact, is puzzled to think that such a rare occurrence should happen just now while the crime wave is on.

Packers' New Plans Suggest Another Way Disposing of Interests

WASHINGTON, Feb. 9.—Attorneys for Armour & Co. and Swift & Co. yesterday filed with the District Supreme Court a new plan for selling their stockyard interests. Previous plans proposing the sale of the yards to F. H. Price & Co. of Boston had been disapproved by the court.

The court was asked to appoint sales agents who, under supervision of trustees, shall sell the yards, giving preference to buyers in this order: Livestock producers, stockholders in the yards other than the defendants; common carriers serving the yards, local citizens or municipalities.

A separate plan was presented for the sale of the yard at Jersey City to local interests. The yard was offered to the Pennsylvania Railroad, which declined to buy.

The packers asked the court to fix the minimum prices of the various yards. Figures proposed in the disapproval plans with the exception of the St. Louis yards have been refused.

LYNCH WILL MEET JABEZ WHITE TONIGHT IN EIGHT-ROUND BOUT

ST. LOUIS, Feb. 9.—Joe Lynch will make his first ring appearance since winning bantam-weight title from Herman, when Jabez meets White in eight-round, no-decision bout here tonight.

The person who is chronically hard up generally finds that pawns play an important part in his game of life.

CHULUOTA

Business quiet, but still going. Most of the groves have been put in fine shape and the farmers are turning up the soil preparing to plant something to satisfy the cravings of nature.

W. J. Higgins has had a brand-new haircut in order to keep up with the times.

Mr. Snyder and friends were seen out for a drive yesterday in the former's brand new Ford limousine.

John Long has had a brand new front spring inserted in his flivver.

A robbery is reported from Ovelido Sunday night in West's store. Quite a haul was made.

Some strangers are seen around this village occasionally. Keep your eyes on Chuluota. We are coming. Higgins is going to put up another garage in town this week.

Uncle Noah is stirring the soil near Gore Lake these days. Just come out and see the results after a few weeks.

Fred Bass is making his home in Orlando just now.

W. F. Graves and family were guests here Sunday.

Several of the Chuluoitanes were attendants at Ft. Christmas church last Sunday.

Mr. Carl Barber of Christmas has had a brand new smear of cream paint stuck over his house by Higgins, the wood-butcher, recently. Ben Redditt says it is O. K.

Claude Barton is showing most of us timid ones how to do things these days. If you don't think so just go down and visit his place for while.

Several of the residents of Chuluota and Ft. Christmas are going to have more light on their subjects by either having new acetylene gas plants installed or their old ones put in shining trim by an expert.

Uncle Gabe Long, the faithful mail-carrier from Chuluota to Ft. Christmas, is still on the route as regularly as Tom Blake's clock—it run when it was shaken. But if one could make that trip over that road in a car without being shook up or shocked he ought to be entitled to a statue in the hall of fame without waiting to be dead ten years to get it.

Let us all have a good-roads free working day in our county once in a while as folks used to do in days gone by. My, one would be surprised how many miles of good roads can be built in a year this way. Nuff ced.

ARMY BILL APPROPRIATION PASSES HOUSE

CARRIES \$29 MILLION FOR AN ARMY OF 150,000 MEN

(By The Associated Press)
WASHINGTON, Feb. 8.—Army appropriation bill carrying approximately \$29,000,000 and providing for a force of only 150,000 men in 1922, passed today by house and sent to the senate.

BOSTON, Feb. 9.—Urgent call from an unidentified steamer in mid-Atlantic forwarded here today by a freighter, the West Imboden, bound from Rotterdam for Galveston. Calls were heard last night.
