Many Cities, Counties, And States Have Already Cut Deeply

By M. V. CASEY Real Estate Editor NEW YORK, Nov. 30.—The demands for lower taxes made by Anton L. Trunk, president of the Real Estate Board, of New York, and by Peter Grimm, chairman of the Citizens' Budget Committee, starting last spring, have echoed through the country, bringing out in many places similar demands for lower taxes and lower assessments.

It was estimated recently that more than 15,000 holders of property in this city have protested the levy which the city has placed on their holdings. The tax department never before witnessed an attempt to protest against the values which it has placed on property.

WET EFFORTS GAIN IMPETUS AFTER REBUFF

(Continued From Page One) of the prohibition question and for submission of the proposed new amendment to state conventions, Garner asked: "In view of the declarations by the parties and the results of the recent election, how could I do otherwise than to ask for outright repeal at once and ratification by conventions? It is our duty to keep good faith."

Amnesty Granted To Numerous Political Prisoners In Cuba

HAVANA, Nov. 30.—(AP)—Gambling on the government's increasing belief that its opposition is ready for peace, President Machado yesterday took long strides back along the road to political normalcy.

MACHADO TAKES STEPS TO BRING BACK NORMALCY

(Continued From Page One) The president, harassed by revolution, revolutionary plotting and terrorism the last three years of his tenure of office and wisely labeled "dictator" by those who oppose his so-called iron-handed repressive measures, Monday announced the approximate release of "more than 80 political prisoners" held at his disposition.

Speculation suggested such radical political changes as the long heralded constitutional cabinet to give the opposition its voice in governing, and general amnesty for all now imprisoned on political charges—there was no limit to excited imagination.

THE HUB of the home! Electric Range, Refrigerator, Water Heater, Vacuum Cleaner, Washing Machine, Electric Stove. AS the spokes of the wheel radiate from the hub, so the various activities of the home radiate from the kitchen. Cooking, refrigerating, eating, bathing, washing, ironing, cleaning, entertaining are directly dependent upon the equipment in your kitchen. In no other room of your home can modern equipment save so much in health, energy, time and money. Modern equipment is electric equipment. The electric range, refrigerator, water heater, washing machine, iron, vacuum cleaner, and many other electrical appliances, each have their individual parts in saving labor, hastening the MODERN HOME IS THE ELECTRIC HOME.

and by cultivating around the bushes you will cut these feeding roots off. The bushes will then tend to stop bearing roses until new roots are grown or they may even stop bearing altogether and die from starvation and have to be replaced by new bushes.

Steamed bone meal decays very rapidly and so supplies feed to the plants in a short time, but steamed bone meal is likely to burn the roots unless it is left in the soil three or four weeks before the planting is done. It will be well to remember this. On the other hand raw bone meal will not burn, but it decays very slowly and takes about six months to disintegrate and become available to the plant. The top of the ground in a rose garden should be well sprinkled with raw bone meal every six months and of course afford a continuous supply of food.

Select a place for your rose garden that is shaded somewhat from the boiling sun of our summer afternoon, a place that will not become infested with ants from trees or shrubbery.

## GROUP MEDICAL AID IS URGED BY BODY OF DOCTORS

Committee Makes Report After 5 Years Making Research

NEW YORK, Nov. 30.—(AP)—After five years of research, the committee on costs of medical care yesterday recommended a plan whereby organized groups of physicians, dentists, nurses and pharmacists would provide community medical care on a group payment basis.

The committee termed the suggestion a "basic change in the system of providing medical care for the people of the United States."

Under such a plan, the report said, "all needed medical care of the kind customarily purchased individually could be provided, excluding capital charges, for from \$20 to \$40 each a year, which equals 40 to 80 cents a week."

The committee recommended that the cost of this community health service be paid on a group payment basis through the use of taxation, or through the use of both of these methods.

The report was presented to the national conference on the costs of medical care by Dr. C. E. A. Winslow, vice chairman of the committee and professor of public health at Yale University. On the committee were 24 doctors of medicine, 11 persons engaged in other forms of medical and public health work, and 13 economists or representatives of the public.

In the report the "community medical center" was termed the "key" of the plan.

"These centers," the report said, "would provide complete medical services for weekly or monthly fees, with, when necessary, some supplementary support from tax funds."

"Professional procedure would be under the control of the physicians, dentists and other practitioners, and financial responsibility would rest with a board representing the public."

The committee found that only 14 percent of the money spent by the public for medical care goes to the prevention of illness, and 2.7 percent for dental care, and 17.4 percent for eye care.

In terms of dollars, the report said the per capita expense in the United States for medicines is \$5.49, and for public health work, \$1.

## SHINHOLSER IS OUTLINE GIVEN BY ROOSEVELT OF HIS PLANS

Candidate For Civic Office

(Continued From Page One) City may again, after values to the investor and under which our homes may again be an asset instead of a liability.

Mr. Shinholser came to Sanford in 1928 to enter business as a building contractor. A native of Georgia, he was educated in that state and has attended Georgia School of Technology in Atlanta and the Massachusetts Institute of Technology at Cambridge.

His business interests expanded until in 1917 he became a crane manufacturer along with his building endeavors. In 1920 he began to devote his time exclusively to crane manufacturing and today his plant is one of the larger industrial places in the county.

Mr. Shinholser has held many positions of honor in the social, civic, and religious life of this city. He is a former president of the Sanford Chamber of Commerce. He is a charter member and past president of the Sanford Rotary Club. He has served on the City School board for the past 16 years, and was a member of the governing board of the Sanford Public Library before it was acquired by the City. He was a Boy Scout Commissioner for Seminole County during 1928.

Mr. Shinholser is now a director of the Seminole County Chamber of Commerce. He is concluding his first year as president of the Standard Container Manufacturers Association of Florida, Georgia and Alabama. He is a steward of the First Methodist Church and has held this position for over 20 years. He is chairman of the Unemployment Relief Committee for the county; vice-president of the Sanford-Atlantic National Bank, and vice-president of the Sanford Building and Loan Association. He lives on Oak Avenue with his wife and four children.

## Dry Leaders Begin Outfitting Campaign

WASHINGTON, Nov. 30.—(AP)—Leaders of outstanding organizations favoring retention of prohibition met today to outline their battle strategy against repeal or modification. A complete program not only to combat those favoring a change in the dry laws but to vigorously renew a national educational campaign against drinking were ready for consideration.

## OUTLINE GIVEN BY ROOSEVELT OF HIS PLANS

(Continued From Page One) The whole Congress, Democrats and Republicans alike.

"The constitution, however, clearly contemplated that the presidency might, without overstepping its proper functions, provide a degree of leadership for the various points of view represented in the Congress. This leadership it shall be my primary purpose to provide."

About the make-up of his official family, the governor wrote: "Those whom I shall call to join me in bearing the responsibilities of this administration will, as a matter of course, be devoted to the spirit the Democratic platform and the principles of action which I have set forth. The wealth of competence and liberalism which the Democratic cause this year has enlisted affords a bright prospect for the future of the public service."

The governor recalled that during the campaign he set forth his ideas of needed legislation. These he related as:

Immediate relief of unemployment, debt relief for the farmer and a national agricultural program, rehabilitation and consolidation of the railways, electric power rates at a fair cost; restoration of normal foreign trade through tariff adjustments.

Concluding the article, Governor Roosevelt said: "As president of the United States I shall do my utmost to restore the balance of our economic interests and to simplify and vitalize our political institutions, so that as changes come they may be effected without injury to the proper rights of any individual and without conflict with the spirit of American institutions. With your help, I can do it."

## E. D. Brownlee Will Begin Lecture Series

Rev. E. D. Brownlee of the First Presbyterian Church of Sanford, today announced that he will begin tonight at 7:30 o'clock at the Church a series of lectures on the Epistle to the Colossians. His subject for the first lecture will be "Our Two Environments." Other lectures will be held each Wednesday night until further notice.

The lecture deals with some of the most important modern problems. Rev. Brownlee said, adding that "his general theme might be stated as the Cosmic Christ for His Work, and His relation to us and our reactions to Him and His program."

BROOKSVILLE — Bookshop moved to new location opposite high school.

WILLISTON—Hotel Williston being enlarged.
