Taft, Who Expressed Earlier Opposition, Has No Objection At Today's Hearing

WASHINGTON & - The Senate Labor Committee today recom-Labor Committee today recommended Senate confirmation of Martin P Durkin as secretary of labor, without a word of protest from Sen Taft (R Oblo), who had termed the selection "incredible." Taft raised no objection of any kind at a half hour public hearing, held informally by the committee to clear the decks for Durkin's inauguration day installation in office Taft himself smilingly gave reporters the first word of the unanimous approval.

This approval came at a three-

From every standpoint, the brilliant new 1953 Dual-

Streak Pontlac represents a remarkable value. Its

longer 122-inch wheelbase means a safer road-

hugging ride. The 1953 Pontiac is newly styled from

bumper to bumper, with bigger, roomier bodies.

Pontiac's over-all performance is more spectacular than ever-with remarkable new steering and parking

ease. And this great new 1953 Dual-Streak Pontiac is

still priced only a few dollars more than the lowest.

We feel sure you'll agree that for performance,

economy and deep-down value, the 1953 Pontiac is

TODAY'S HIBLE VERSE that are at case, give ear unto my speech. — Isalah 32:9.

Florida senators would like to install a loud speaking system in the legislative chambers so as to make more audible their statesmanlike utterances, but when they discovered it would cost them \$7,000, their entinusiasm turned to ice. The

Senator Wayne Morse has lost his seat on a couple of choice Republican committees because, it is said, he was so hostile to Eisenhower's election in the recent campaign. If he keeps on trying to masquerade in the clothes of a Republican while acting like a New to see him lose his pants.

A flu epidemic pays its respects Marriage Rates to the University of Florida and is students are confined to the infirmary and some 300 more are being treated daily for what is now popularly called a virus infection. According to Dr. Sanford Ayres, "Conditions have reached epidemic proportions and are stretching university medical facilities to a maximum". Makeshift quarters for the hospitalized group have been installed in infirmary hallways. They have fairly adequate facilities at the University for ordinary emergencies. We wonder what would happen here if we ever had an epidemic of serious proportions.

The Saturday Evening Post issue of Jan. 3 tells of a recent trek deross the Everglades in a couple of Glades buggies by Verne O. Williams and three or four others. They had their troubles, with plenty of sawgrass, impenetrable swamps and bogs, not to mention alligators and cotton mouth moccasins, and they had enough experiences to write an interesting story for America's most popular magazine. But their trek was as nothing compared with that made by S. O. Chase, J. E. Ingraham and several others back in the early '90s. Those were days when the Glades had never days when the Glades had never before been seen by white men, when canals and drainage had never been thought of, nor had Glades' buggies. They made it, but they just did, and only after weeks of struggle. There is a saga for you that is worth telling.

Most people do not know what you are talking about when you mention primary roads, secondary roads, and the seventh cent gas tax. And so we asked I

Sanford Industries, Inc.

The formation of a corporation in Sanford for the purpose of promoting and helping to finance new industries in this vicinity is a long delayed step in the development of our city from a purely agricultural community to a well balanced economy. If properly supported it can go a long way toward helping to overcome the handlcap under which we have so long labored.

In the relocation of industries which has occurred since the war, most progressive cities have been offering very attractive inducements for businessmen to come in and establish their factories. There have been tax concessions, buildings furnished rent free for a number of years, and in some cases new buildings constructed and financed by local people. These considerations weigh strongly in the minds of those studying a factory site.

And in this respect Sanford has been at a tremendous disadvantage during the past few years. We have one of the best locations in the state of Florida in many respects, but we have not been able to offer these special inducements to counter similar offers made by other cities. Generally speaking, we have not even been able to provide suitable buildings.

Sanford Industries, Inc. will help to overcome this Annuciated Press which is entitled exclusively to the use for republication of all the local news printed in this newspaper as well as all the supply temporary working capital where is it needed. It should be able to promote new industries here and to proings for suitable use, to construct new ones if necessary, and It should be able to promote new industries here and to provide those special inducements necessary to get them to lo-

New Line, Old Pattern

The Tass report on the nine doctors arrested in the so called plot against the lives of top-Soviet leaders emphasized the fact that several of the arrested men were Jews. Thus the pattern of anti-Semitism behind the Iron Curtain, first proposal was not buried but it was indicated by the purge trials in Czechoslovakia where several defendants were charged with "Zionism," becomes plainer. Stalin is following in the footsteps of his most hated enemies of the past, the Czara and Adolph Hitler.

If the plot did exist and the men arrested are guilty as charged there would still be no reason for mentioning their religious affiliations except to stir up public resentmen against the Jews.

Anti-Semitism may arise from many causes but it is primarily a reflection of insecurity in the make-up of the Dealer, we wouldn't be surprised individual or nation which turns to it. If things were proceeding well behind the Iron Curtain there would be no need to seek scapegoats. For years the Kremlin has preached hatred of the democracies to divert attention from its own inadequacies and failures. But the democracies are far away as "one of the great American sec- and it is easier to arouse men to hate something or someone close at hand.

Tass Is the official Soviet news bureau and as it is the rean trap and when we observe the low esteem to which American diplomacy has sunk all over the world, we have no doubt that Soviet Russia will agree fully with the Journal's appraisal of our retiring of the Community of the Jews.

Voice of the Communist high command. Its story on the plot used the Communist high command. Its story on the plot and the plot used the phrase "international Jewish bourgeois nationalist organization." This has a familiar ring. "Between April 1940 and April 1952, while the general population increased substantially, the number of single women at ages 14 and over decreased from 14 million to less than 11 million."

The decline in the number of marriages since 1951 was generally greatest in the Northeast and the Midwest, and rather small in the South. However, in at least eight states more marriages occurred in 1952 than in the preceding year -Tennessee, Mississippi, Oklahoma, Texas, Idaho, Wyoming, New Mexico, and California.

The cities with 100,000 or more population, as a group, showed a somewhat greater decrease in marriages since

1951 than did the country as a whole. "It is expected that the marriage rate in our country will drop to a somewhat lower level in the next few years as the number of eligible persons is reduced to smaller proportions," the Metropolitan predicts. "No real rise in the marriage rate may be anticipated before the early 1960's, when the large crop of war and postwar bables begin to enter the marriageable ages in large numbers."

any boy can be president some day—he did.

He had no ladder, like a university degree or wealthy background. He came out of a farmhouse and walked steadily until he reached the White House by way of store-keeping and precinct politics. If at times he seemed too cocky, too belligerent, it may have been in part due to a defensive reaction against the snobblam implicit in the crack flung at him so many times: "That little haberdsher."

Not long ago he said he has accomplished two things: He put the country in a position of economic prosperity and kept it out of a third world war that would mean the descruction of civilization. It is the greatest prosperity in his lory. To the Republicans he leaves the lob of retaining it. If some day it crashes, they may get the blame or history may decide he used defective cement or the wrong kind.

While he leaves the Republicans with the Korean War which, although less than global has managed to be insoluble, it is true that by one bold stroke after another, and often against intense opposition, he has blocked communism, if only temporarily. In a rudder-less world this country has confronted with the responsibility of assuming leadership or retiring stature.

Farewell Message

"Good night—and God bless you all,"

As he did so, Mrs. Truman and Margaret appeared on either side of him for the TV cameras.

Truman's last address from the chastely decorated oyal office he will vacate Tuesday came only a few hours after he handed a firm plecs of advice to his successor:

Truman acknowledged with a grin that some of the questions he's been asked have made him wince. He accepted a reporter's suggestion that he's been known to make blunders at news confer-ences. Maybe, he said, succeed-ing presidents can figure out im-provements to the existing system

"I hope they will never cut the direct line of communication between themselves and the people."

To the 257 correspondents who squeezed into the conference room for this last chance to quiz him. Truman made il plain his statement was prompted by unconfirmed reports that Eisenhower might give up or at least modify the rough and tumble news conferences that have been a feature of the Rhosevelt and Truman administrations.

Truman's final meeting with reporters dug up one anticipated Raws story: The President is about to lasue an executive order reserving for the national defense, and specifically fin the Navy, the rich oil lands off the shores of Texas, Louisians and California.

This is a legacy Eisenhower won't welcome. He has promised a support legislation giving that oil to the states. The new President can revoke Truman's order that there's bound to be a fuss. The undersea oil nuestion is one of the bottost political potatoes around.

Several members of the power-ful House and Benate Appropria-tions committees immediately questioned why the safety edura-tion work couldn't be done by the highway patrol or by civic groups without tapping state funds. Members of the House Appropriations Committee agreed that they won't hear budget pleas during the Legislature from any agency or institution head they hear during the budget commission sessions unless they ask for additional facts.

Chairman James Moody, Plant City, said he will name four sub-committees to study every budget request and report back to the full committee before the House group sends its version of the blennial appropriations bill to the floor for action.

He said Chairman George Day. ton, Dade City, of the Senate Com-mittee has agreed to name similar sub-committees, each with the same agency assignments as its House counterpart. In that way, the House and Senate sub-committees can work together and hold joint hearings.

In most past sessions the Budget Commission has worked alone, heard all agency requests and made its recommendations to the

By KENT CHETLAIN
With the growing eminence of Seminole High School's cage machine there appears a discernable groundswell of interest in the game, the likes of which has not been observed here since the early 1930's. Climaxing this revitalized attitude toward the invitalized attitude toward the in-door struggle of backboards and nets will be tonight's big clash between the East Florida Conference's leading Celery Feds and the New Smyrna Beach Barracudas at the hilltop gymnasium in President John Krider said today the SHS auditorium beginning at that he is calling a directors' meet-
