**Blues In The News**  
By BOB ANTHONY

After what looked like a hopeless basketball season, the NAAS basketball team has come to life by winning three games in a row, and will enter the Orlando Invitational Tournament tonight with renewed strength. The games of the NAAS squad have definitely been overshadowed here aboard the station by the string of victories racked up by the powerful VJ-32 basketball team; but, with a new coach, "Barney" Ramsey, the station team romped to their third straight victory Monday night by downing the Tavares All-Stars by a score of 46-39.

Evidence of the new potentiality of the NAAS club was given Saturday night when they emerged the victors over a mighty Stetson University JV team by a slim two-point margin. Entering the game as underdogs, the athletes of NAAS strived hard all the way to earn the victory in the closely fought battle 75-73. Key players on the NAAS squad include Ramsey, coaching coach Barney Ramsey, Lee Yelvington, Owen Seymour, Bob Webb, W. J. Nelson and J. B. Ross. In their first game in the Orlando Invitational Tournament, the NAAS team will play the National Guard team of Orlando. The game will get under way tonight at 6:30 p.m. in the Orlando Armory.

Today could well be called "going home day" for many men aboard the station who were called to active duty with FASRON 821 as members of the Naval Reserve. Most of the men have been stationed here since the base was recommissioned on May 1, 1951 and will return to their homes in various parts of the United States.

**Nugent Of VMI Is Appointed As New FSU Grid Mentor**

TALLAHASSEE — Tom Nugent, head football coach at Virginia Military Institute the past four years, will become head coach at Florida State University here Feb. 1.

FSU President Doak S. Campbell announced the hiring of Nugent at the same \$8,000 a year salary that was paid to Dr. Don Vetter who gave up the coaching job to become a professor in the physical education department.

Nugent, 39, is the originator of the "I" formation and has come up with such gridiron innovations as the double quarterback and the "typewriter huddle."

The Nugent-coached 1951 VMI team shared the Southern Conference championship with Maryland.

Nugent was a three-year football letterman at Roca College, New York, and later did graduate work there while coaching the freshman football team.

Before World War II he coached at Essex Training School, Lawrence, Mass. He served in the Air Force during the war and coached the Rosecrans, Mo., Air Base football team.

Released from service in 1946, he became coach of the Williamsburg, Va., high school team where he won the state championship. He moved to Hopewell, Va., for two seasons as high school coach before going to VMI.

**THE OLD HOME TOWN** By STANLEY

**Hal Boyle's Column**  
By HAL BOYLE

NEW YORK — The cold fear of a new revolution spreads in chill waves through government offices in the nation's capital.

There's panic brewing on the Potomac. The big question there—already being echoed in business offices across the land—is: "Will Ike's boys kill the coffee break and the two-hour lunch?"

These threats to the present widely popular pauses in the day's occupation have been posed by tax of President Eisenhower's clean sweeping freshmen broomholders.

Secretary of the Interior Douglas McKay has laid down the ominous edict to his departmental employees: "A day's work for a day's pay." Already puzzled bureaucrats are asking themselves: "What does this mean?"

Atty Gen Herbert Brownell Jr. has gone even farther. In his already famous "Order No. 1" he declared that Justice Department employees would work from 9:15:30 p. m. and that "The hours of duty must be strictly observed."

Brownell attacked tardiness in the over-long lunch period, and said violators will be disciplined. Other Cabinet officials are reported planning similar rules.

The Brownell order certainly dooms the two-hour lunch. But the Philadelphia lawyers among the minor bureaucrats are hopefully studying one sentence: "Unavoidable or necessary absence from duty not in excess of 30 minutes" may be excused by the supervisor.

"Is this a loophole?" they are asking, "which will still let a man have a 15-minute morning and afternoon break for coffee?"

This clause may have to be referred to the Supreme Court itself for decision. It is obviously far too important a matter for one man to decide.

It vitally affects more people

than any problem yet dealt with by the new administration. Every statehouse, county courthouse and city hall employ in America is concerned.

If the federal bureaucrats lose their coffee breaks, we probably will, too, in time," they worry.

Every office and factory worker also has a stake in the answer. For if the coffee break is abolished for tillers in the government vineyard, it is likely to disappear in the business world as well. Don't business people always boast they work harder and longer than government people?

The issue is non-partisan. Republicans and Democrats are likely to agree that "some institutions, like matrimony, and the coffee break, have become cherished parts of the American way. Let that new broom sweep away something else."

The government goal to abolish the two-hour lunch, of course, will have no effect on the business world. The problem of the business world is to cut down on the three-hour martini, four-hour lunch.

## British Bomber Sets Record On Australian Hop

### Jet Aircraft Lands Just 22 Hours After Leaving London

DARWIN, Australia (AP)—Britain's Canberra jet bomber, already the conqueror of Atlantic speed records, raked up a new official England-to-Australia mark today.

The record was set in a hop down at this North Australian port at 4:07 p. m. (1:37 a. m. EST), just 22 hours and 1 minute after leaving London.

Its actual flying time for the 8,800-mile trip—officially so far—was 19 hours and 1 minute.

This more than halved the previous official record listed with the British Air Ministry of 45 hours 25 minutes, clocked by a four-engine Lancaster bomber in August, 1941.

It also bested the 10 hours 12 minutes flying time in which an other Canberra jet made the trip last March 16, but that flight was not clocked officially as the en route stopped over in Singapore for 48 hours.

A two-man Royal Air Force crew on today's flight was Flight Lt Leslie Morris Whittington, 22, and a veteran test pilot, and his navigator, Flight Lt. John Anthony Brown, 20.

They left London yesterday at 8:56 a. m. British time (3:36 a. m. Tuesday, EST) and stopped en route three times for fuel—at Fayid, in the Suez Canal zone; at Karachi, capital of Pakistan, and in Singapore. In all they spent only three hours on the ground, the longest stay an hour and 10 minutes in Karachi.

On route they also collected other official records, eclipsing the old London-to-Karachi mark. Their time of 18 hours 53 minutes bested a previous record of 15 hours 10 minutes for the 3,921-mile run set in May, 1949, by the Sea Fury.

The British Ministry of Supply, in announcing the trip yesterday, stressed that the record was only a secondary milestone.

The plane, they explained, is designed for secret experiments with the Commonweath Guided Missile and Rocket Testing Ranges at Woomera, in the heart of the Australian desert.

Another Canberra—the craft is the world's first twin-jet bomber—conquered the Atlantic last Aug. 26. That day the bomber made the first double crossing between Australia and Europe, from Ireland to Newfoundland and back, and set a new east-to-west mark in the process.

The pilot refused to disclose the top speed of today's flight but said they were making the trip at over 40,000 feet and using oxygen to breathe all the way.

## Seminole Called Good Examples Of Way To Treat Aged

By CHUBB MACGILL.

GAINESVILLE (AP)—Florida could learn a good lesson from its Seminoles in caring for the needs of its aged, said President William Sanger of the Medical College of Virginia.

Addressing the third annual Southern Conference on Gerontology which closed at the University of Florida Tuesday, Sanger pointed out that primitive people give their elders the greatest respect and attention in tribal affairs.

That gives the old folks a sense of status which they need badly and of which modern civilization has virtually robbed them, he declared.

The need of the elderly to feel they still are necessary to the community gives experts in the field of caring for the aged one of their greatest problems.

The conference, planned to guide the University of Florida in deciding how much attention should be given to geriatrics (medical care of the aged), the curriculum of its proposed medical school came up with one major piece of advice:

Don't regard treatment of the aged as a separate medical specialty.

That would not only have the effect of making old folks regard themselves as a segregated group but would lower the quality of the medical care they get, the conference concluded.

With several speakers emphasizing that the aging process actually starts as soon as a baby is born, the conference recommended letting the battle against infirmities of old age take in the whole life span of a patient.

As the conference closed, the University of Florida announced it has entered an agreement with the University of Chicago to conduct a lengthy research project on aging and retirement.

Students of workers who have retired to Florida will be conducted by the University of Florida. Work already is under way at an experimental trailer park near Melbourne and at a big trailer park at Bradenton.

The University of Chicago will study those who are in relative health in a few years and offer them guidance in planning their new lives of leisure. The effectiveness of this guidance will be studied by Florida experts as the workers come here to spend their last years.

A year is 365,242 days long although for convenience in time-keeping we have 365-day years added by 366-day leap years.

State Social Welfare Commission, Room 200, 1000 N. Orange Ave., Orlando, Fla. 32801.

JO GRAID GREENSON, of Detroit, Mich., pictured in Paris after his arrest by French police for allegedly presenting himself as King Farouk of Egypt in a well-known nightclub. Police say Greenson was surrounded by beautiful dancers and drinking refreshments at the time of his arrest.

## Briton Hanged For Murder Shot Fired By Another Person

LONDON (AP)—A 19-year-old Briton was hanged today for a murder shot he did not fire—despite a dramatic 11th-hour appeal for his life to Queen Elizabeth II.

The youth, Derek Bentley, took part in a holdup in which a policeman was killed. A companion, who actually fired the fatal shot, escaped with an indeterminate prison sentence because he was only 16 years old.

Bentley was hanged at grim Wandsworth Prison in the suburb of London while a hooping, shouting crowd demonstrated outside the walls.

He went to the gallows despite an appeal by his friends to the Queen that she override her Cabinet advisers and stay the execution. Earlier, Home Secretary Sir David Maxwell Fyfe had rejected clemency pleas signed by more than 200 members of Parliament.

A crowd of approximately 500 persons milling outside the prison hooped and shouted as the main gate swung open at 9:10 a. m. (4:10 a. m. EST) for the notice of execution to be posted.

A glass shielding the prison gate bulletin board was smashed in the crush. Police reinforcements were called to handle the crowd and protect members of the prison staff trying to post the execution notice.

"They're murdering an innocent boy," shrieked one woman as the crowd flung coins at the uniformed prison officials.

The fatal shooting occurred when Bentley, dull-witted son of an electrician in suburban Croydon, was arrested on a rooftop with a 16-year-old friend, Christopher Craig. Craig cut loose with a gun, killing one policeman, while another officer was holding Bentley.

Bentley did not carry a gun in the robbery attempt but under British law responsibility is shared by all who participate in such a crime. The jury which convicted Bentley, however, recommended mercy in his case.

## Premier And Critic Decide To Make Up

TEHRAN, Iran (AP)—Premier Mohammed Mossadeq and his outspoken critic, Iranian religious and political leader Ayatollah Khomeini, publicly buried the hatchet last night.

In a joint communique issued after a three-hour reconciliation meeting, the aged pair told their countrymen to pay no attention to "rumors" of differences between them.

The announcement indicated anew that Khomeini, speaker of the Majlis lower house of Parliament, had backed down from his attack against a recent Majlis vote extending for a year the premier's powers to govern the country by decree.

## Community Vote Is Split Even On Issue

PORTSMOUTH, O. (AP)—Some of the residents of Basswood community wanted to incorporate the area, booming because of the influx of workers for a nearby Atomic Energy Commission plant.

So voters cast ballots on the issue yesterday, with 289 voting for incorporation and 289 voting against it. One ballot—the deciding vote—was found unmarked in the ballot box.

Citizens will have to petition the township trustees again if they want to hold another election.

## Legal Notice

THE STATE OF FLORIDA TO HARRIS COLLIE PATTERSON, Respondent: A sworn complaint having been filed in and for Seminole County, Florida, by DOROTHY A. PATTERSON for divorce, the above title of which is DOROTHY A. PATTERSON vs. HARRIS COLLIE PATTERSON. Defendant, these presents are to command you to appear and file your written defense, here, in on or before the 6th day of February, A. D. 1953, at 10 o'clock a. m. in Courtroom No. 1, entered herein as follows:

This Sanford Herald is designated as the newspaper of general circulation in which this citation shall be published each week for four consecutive weeks.

Witness my hand and official seal of the Clerk of the Circuit Court on this the 6th day of January, 1953.

M. C. B. BRIDGEMAN  
Clerk of the Circuit Court  
Seminole County, Florida.

## Sanford Museum

(Continued From Page One) attempting to influence legislation. Additional members may be proposed in writing by a member or members of the corporation, which need approval of at least two-thirds of the membership to accept.

The affairs of the corporation, the charter states, shall be managed by a board of managers, consisting of not less than five members of the organization. The managers shall be elected by members of the corporation at the annual meeting, which shall be held the third Tuesday of January each year. Each manager shall hold office for one year or until a successor is elected, and any vacancy may be filled by the other managers pending an election. Officers will be appointed by the board of managers, with each officer holding office one year, or until a successor is named.

Last year a Seminole County Historical Society was formed here with Mrs. F. E. Roumillat as permanent chairman and Randall Chase as vice-chairman for the purpose of promoting interest in a memorial to General Sanford and for preserving historical papers and documents.

Other officers of the Historical Society are Mrs. C. H. Dawson, secretary; Dr. J. B. Root, treasurer; and Mrs. Fred Williams, Mrs. C. Stuart Brown and John Melech.

An advisory committee, elected by the members of the board of directors, includes Mrs. Miriam Russell, Mrs. Roy Tillis, Mrs. A. R. Key, Volle Williams Jr., and Roland Dean.

Plans for the museum, drawn by Elton J. Moughton, Jr., provide for a colonial type building of fireproof masonry construction with the colonial theme also being stressed in the columns and portico, which will resemble those of the original homestead of General Sanford in Derby, Conn.

The library of General Sanford contains more than 2,000 volumes, some of which date back to the 17th and 18th century. They include some works of history, memoirs of royalty, biography and many other subjects.

Proposed as a gift to the City from his daughter, Mrs. Carolina Bent, it also includes valuable pieces of sculpture, paintings and antique furniture. Among the sculpture is a bust of General Sanford by Henry Leys, Belgian artist, and the paintings include 14 oil portraits of the general, his wife, mother, son and grandsons.

Sanford received his name 75 years ago from General Henry Shelton Sanford, who before coming here was minister resident to Belgium, having assumed that office on Mar. 29, 1861. He was born June 16, 1821 at Woodbury, Conn., and in childhood was tutored and later studied at Cheshire Academy. Due to asthma, he was forced to leave Washington College, known as Trinity, after two years of study.

A career that included wide travels resulted from this, as it was upon the advice of physicians that he went west and for awhile lived among the Indians in order to regain his health.

Becoming interested in Florida in 1871, General Sanford took a trip up the St. Johns River, and was so pleased with this section that he purchased 12,515 acres of land on the shore of Lake Monroe, a tract then known as the Levi grant, from General Finney, late of Olathe.

Another Sanford pioneer, Judge Wolford Tucker, had arrived here the year before, and the two men formed an acquaintance which resulted in a business partnership.

Recognizing the advantages afforded by the St. Johns River for easy transportation, and the beautiful site on the south shore of Lake Monroe, they decided to lay out a town immediately west of Mellenville, site of Fort Mellon. A tract then known as the Levi grant, had been built during the Indian Wars 40 years before.

## Mangrum Thinks He Can Win Tournament

TUCSON, Ariz. (AP)—Lloyd Mangrum can see no reason why he shouldn't win the \$10,000 open golf tournament that starts tomorrow and believes he will take the first prize money of \$2,000.

The winner of the Phoenix Open Monday says he likes the flat, par 70 El Rio Golf and Country Club layout and knows it as well as any course in the country.

In addition, his boss, George Meade of the Tam-O-Shanter Club in Chicago, has promised him a bonus if he wins the Tucson event.

Mangrum has won three of the five tournaments on the winter circuit. Many of the big-name players pick him to make it four out of six by winning here.

## Atomic Energy

(Continued From Page One) remains so.

In the latest account of its stewardship of the entire atomic program—in which Congress so far has invested or appropriated approximately 7½ billion dollars—the AEC said:

"Production of fissionable materials for atomic bombs and for the operation of various atomic research furnaces 'continued to increase in 1952'; and production of atomic weapons 'continued at the rate authorized by the President for calendar year 1952'."

Four different industrial groups have told the commission they see attractive possibilities for tapping industrial power from the atom on an economic basis "in a few years."

And the AEC itself feels that the development of atomic reactors for the output of power for industrial use and for the propulsion of aircraft, submarines and large naval vessels "made longer forward strides (in the last six months) than in any other half-year of the decade."

Work toward developing atom-powered aircraft has progressed to the point where some kind of tests—presumably land-based ones—are in sight for small atomic reactors, or furnaces, designed to serve as power plants.

Assembly is virtually complete on a land-based version of the world's first known power plant for a submarine. The AEC didn't say so, but presumably this means that a "dry run" test is not far away.

Belgium, having assumed that office on Mar. 29, 1961. He was born June 16, 1821 at Woodbury, Conn., and in childhood was tutored and later studied at Cheshire Academy. Due to asthma, he was forced to leave Washington College, known as Trinity, after two years of study.

A career that included wide travels resulted from this, as it was upon the advice of physicians that he went west and for awhile lived among the Indians in order to regain his health.

Becoming interested in Florida in 1871, General Sanford took a trip up the St. Johns River, and was so pleased with this section that he purchased 12,515 acres of land on the shore of Lake Monroe, a tract then known as the Levi grant, from General Finney, late of Olathe.

Another Sanford pioneer, Judge Wolford Tucker, had arrived here the year before, and the two men formed an acquaintance which resulted in a business partnership.

Recognizing the advantages afforded by the St. Johns River for easy transportation, and the beautiful site on the south shore of Lake Monroe, they decided to lay out a town immediately west of Mellenville, site of Fort Mellon. A tract then known as the Levi grant, had been built during the Indian Wars 40 years before.

TAMPA, Fla.—Echoes from the Spanish Main are again creeping into Tampa as the city prepares for its annual Gasparilla Florida Festival. The celebration opens Feb. 9 with the Invasion parade and continues through Feb. 14, when gas some charming help at the ship's wheel; (2) Crowds jam Tampa streets to see the triumphal parade; (3) Pirates unearth a well-hidden treasure chest; and (4) The Jose Gaspar sails into Tampa's Hillsborough River with pirates poised for the capture of the city.

## Doubt Is Dispelled Russia Has A-Bomb

WASHINGTON (AP)—Does Soviet Russia really have the atom bomb? Yes, say three members of the Senate-Atomic Energy Committee who entered the controversy touched off by former President

Truman's expressed doubts. The legislators, Sen. Hickenlooper (R-Iowa), Rep. Durham (D-N.C.) and Rep. Cole (R-N.Y.), said in a joint statement yesterday that the evidence was carefully sifted several years ago and "it simply did not admit of doubt."

In Kansas City, Truman declared he had said "time and time again" he had doubts about the

Russians achieving a workable A-bomb. If people disagreed, continued the former president, "that is their right."

Hickenlooper noted Truman while president had announced three separate atomic explosions in Russia

Time zones in the United States were first adopted by the railroads.

## Legal Notice

IN COUNTY COURT, SEMINOLE COUNTY, FLORIDA. STATE OF FLORIDA vs. ROBERT Z. JOHNSON, deceased. NOTICE OF FINAL REPORT AND APPLICATION FOR DISCHARGE. All persons are hereby notified that the undersigned as Administrator of said estate, have completed the administration thereof and have filed in said court their final report and application for discharge. Objections thereto, if any, should be filed with the court within 10 days after the date of publication showing this notice has been published once a week for four consecutive weeks. The matter of approval of said report and the granting of discharge of said estate will come before the court on the 14th day of February, 1953.

WILLIAM H. THIGPEN, Administrator of said estate.

WILLIAM H. THIGPEN, and WILLIAM H. THIGPEN, Attorneys for Estate. First publication on Jan. 14, 1953.

NOTICE TO CREDITORS In the Court of the County Judge, Seminole County, Florida, in Probate.

Notice is hereby given that the estate of Hilda May Thigpen, deceased, is being administered by William H. Thigpen, Administrator of said estate.

You and each of you are hereby notified and required to present any claims and demands which you or your estate may have against the estate of Hilda May Thigpen, deceased, to the County Judge of Seminole County, Florida, at his office in the court house of said County at Sanford, Florida, within eight calendar months from the time of the first publication of this notice. Each claim so demanded shall be in writing and shall state the name of the claimant and the office address of the claimant, his agent, or his attorney, and any such claim or demand not so filed shall be void.

Witness my hand and the Seal of Hilda May Thigpen, deceased, on Jan. 14, 1953.

First publication Jan. 14, 1953.

# Leesburg Edges SHS, 57-55; Fed JVs Win 6th In Row

## Oviedo Ekes By Lyman, 41-37, For 6th Straight Win In CFC.

Yellow Jackets Come From Behind; Joe Moss Hits For 21 Krider Scores 20

**By RENT CHETLAIN**  
LEESBURG (Special)—A confident Scott-constructed basketball machine romped off to a whopping 17-13 first period lead and moved it up 30-25 by intermission but suddenly wavered, giving to 41-40, but they pulled edge and then fought hard in the last period only to fall, 57-55, here last night.

Those incomparable Seminole Jayvees crushed the Leesburg JVs to extend the Fed winning streak to six straight wins with but a single setback this season. Giant Joe Moss poured in 21 markers from the court, underlaid and at the side board on tip ins.

The Leesburg victory over the Scottmen gave the Seminole a dismal record of 0-4 record in non-conference games, but they still own a nifty 3-1 mark in East Florida Conference.

Lanky Jimmy Krider was the outstanding player. He scored 20 points on 12 baskets, 11 of which were in the second half. He also had 11 rebounds and 11 assists.

Joe Moss, who last week set a new record for a Seminole player by scoring 25 points in a game, was the leading scorer for the Yellow Jackets with 22 points.

Leesburg ran up his 11 point total in the initial half to pace the team. The Yellow Jackets scored 17 points in the first half and 40 in the second half.

John Scott, who scored 11 points, was the leading scorer for the Yellow Jackets. He had 11 rebounds and 11 assists.

The Scottmen faltered in the closing minutes after a quick exchange of baskets when Marshall was fouled on a lay-up that was true and the subsequent free throw gave the Lake Counties a 2-point spread that they maintained.

### Final Period Rally Staves Off First Lion Setback In CFC This Season

OVIDIO (Special)—Bolstered by the return of Jimmy Newman and Jimmy Carter, a pesky Lyman High quintet all but upset the high school team.

Walter Duda, Charlie Shaw flying Oviedo Lion cage machine as the locals staged a 14-point rally in the closing stages of the hotly fought contest to win 41-37, in the Community gym here last night.

Oviedo's highly-touted Johnny "Swish" Jones was stymied by the close guarding tactics of Newman and Carter as the leading Seminole County scorer was held to a mere eight points, his poorest showing of the year.

It gave Jones the county lead with 151 points, but out down the left one-handed scoring average. Meanwhile Newman paced the Greyhound losing attack for the second straight game netting 10 points, while his teammate Charlie Shaw led the way with 11 markers.

Oviedo's losing was evenly spread among Warren "Mac" McCall, Walter Duda, and Fred Wheaton, who all hit for nine total.

The favored Lions, who now have a six-game victory streak running and a 6-0 CFC leading record, closed the game with an 11-5 first period lead. Lyman whittled it down to 23-18 by the half and tied things up going into the final stanza, 27-27.

Wheaton and McCall worked together with McCall spearheading the rebounding game for the winners.

The Oviedo girls made it a lean seven by sucking the Lyman counterattacks, 30-30, Stanley Jones, no relation to Johnny Jones, hit for an amazing 30 markers for the winning girls.

### Lake Mary Cagers Stop Slavia Five By Score Of 19-7

LAKE MARY (Special)—The Lake Mary Junior High boys went out over a stubborn Slavia five, 19-7, here yesterday. The game was a fast moving one with both teams executing sterling zone defenses.

Little 4-foot-9 inch Chucky Wiedeholt rang in 13 points for the winners, while Ferdinand Duda hit for seven for the losers.

After trailing 4-2 at the close of the initial period, Wiedeholt promptly flipped in three field goals to give Lake Mary to a 8-5 halftime margin. Lake Mary pulled away in the third quarter and twice took the ball in the final period.

### Sports Roundup

NEW YORK (Special)—The cloud is not much bigger than a skillet at the moment, but we have a deep down feeling after reading the latest news from Australia that it's touch and go whether the next Olympic Games will be held at Melbourne. This country could get the meet.

There plainly has been a great change since we were in Melbourne just over three weeks ago and had an extended talk with Arthur W. Coles, the big shot industrialist who had been cozened into taking on the enormous task of organizing the 1956 carnival.

Coles, retired and wealthy, accepted the job only because he felt he was needed and that he would be given pretty much of a free hand in unloading what was fast developing into an unorganized mess.

Coles was happy that the men who had been in the center of the old Carlton football ground. The job of razing the old stands of ready had begun.

DIMES SUIT Miami model Val Phillips, who donned a bathing suit covered with dimes the other day to remind everybody to give to Florida's 1953 March of Dimes. She hopes that folks throughout Florida will turn on their porch lights at 7 P. M. on Thursday, Jan. 29 to give to the March of Dimes through the "Mothers' March on Dimes," the statewide, 1-hour collection plan in which thousands of women are taking part.

### 10 College Cage Coaches Agree New Free Throw Rule Is Failure

By RHP WATSON  
NEW YORK (Special)—Coaches of the nation's 10 best college basketball teams were pretty much agreed today that the new free throw rules have increased scoring without decreasing the number of personal fouls, but they didn't agree at all on the rules' effect on style of play.

All of the coaches except Ken Lauffer, coach of fourth-ranked Louisiana State, agreed with Lauffer about foul shooting, saying the rules "place a premium on speed of shooting and have developed a sort of carelessness."

Lauffer suggested a change, even though the rules have helped his team because "we don't have a good free throw team and make more second shots than first."

Ray Meyer of the Ford No. 10 team also said he "would do without" the one and one rule.

"I still think when a boy goes up to the line it's his job to make the free throw the first time," he added.

Branch McCracken, whose Indiana team is rated second in the nation and leads the Big Ten race with an 8-0 mark, agreed the rule was unsatisfactory.

Thirteen players, nine of them pitchers, were listed among the satisfied yesterday.

Ted Gray of Detroit, Clyde King, Johnny Schmitz and Ivan Johnson, all of one team, Bob Schultz, Rich Kelly and Tom Simpson of the Chicago Cubs, Marlin Stuart, St. Louis Browns and Pittsburgh's Jim Waughr were the hurlers to join the fold.

The others were shortstop Chico Carrasquel of the Chicago White Sox, Andy Seminick of Cincinnati, Johnny Bucha of Detroit and Del Wilber of the Boston Red Sox. The latter three are catchers.

Meanwhile, at Pittsburgh, Ralph Kiner, the Pirates' home run slugger, was sharply critical of the club's insistence that he take the maximum 25 per cent pay slash.

### Acquisition Of Ferris Fain Is Boost To Chisox Pennant Dreams

By CHARLES CHAMBERLAIN  
CHICAGO (Special)—Landing reliable Ferris Fain from the Philadelphia Athletics has pumped the Chicago White Sox full of 1953 pennant dreams.

General Manager Frank Lane today over his successful year-long attempt to reel in the 30-year-old first baseman who led American League batters with 341 in 1951 and 327 last season.

To get consistent hitting Fain, the latest bit of trade bait that has been dangling for two years, the White Sox gave up their only proven long ball hitter, first sacker Eddie Robinson.

That others were involved in the off-season's biggest baseball deal is somewhat inconsequential. The A's also donated Bob Wilson, rookie second baseman who batted .269 for Indianapolis in the American Association in 1952. The Sox gave up outfielder Ed Metzger and infielder Joe Mauer, both of whom were unsuccessful in previous flings with Chicago.

The relinquishing of Robinson, 32-year-old power swinger, who batted .266 last season, was viewed as some misgiving among White Sox fans who have thought all along that Lane was shopping for another long-ball hitter.

Robbie in the last two years has driven in twice as many as Fain, 221 to 111.

This fact gave rise to some speculation that perhaps Lane eventually would trade Fain, possibly to the New York Yankees for outfielder Hank Bauer and first baseman Jack Collins.

"We're not a far club for the Yankees," snapped Lane. "I expect Fain to be our first baseman for the next five or six years. We are designing it around the spaciousness of Fain for him a year ago and kept it up. Only in the last week did we offer Robinson in any such deal."

Lane said Fain will fit in perfectly. "With the definite program we've been planning at Comiskey Park for years in getting a pennant winner."

"We're not a farm club for the speed, defensive ability and hitting ability," he added. "We are designing it around the spaciousness of Fain for him a year ago and kept it up. Only in the last week did we offer Robinson in any such deal."

Lane said Fain will fit in perfectly. "With the definite program we've been planning at Comiskey Park for years in getting a pennant winner."

## Furore Builds Up Over Staged Raid For Invited Brass

### General Collins Will Be Asked To Give Explanation Of Operation In Korea

WASHINGTON (AP)—Rep. Short (R-Mo.) said today Gen. J. Lawton Collins, Army chief of staff, will be asked to explain to Congress the details of the controversial "Operation Smack" in Korea.

A congressional uproar developed in the wake of reports that American troops were hurled in a futile and presumably costly attack against a Korean hill yesterday before invited generals and war correspondents.

A bill was introduced in the House by Rep. Short (R-Mo.) calling for a full-scale investigation to determine whether American boys were used as expendable cannon fodder for publicity purposes.

Short told the House today that the Army Services Committee, which he heads, had gotten into touch with Gen. Collins now in Japan and Korea on an inspection trip, and asked him to explain on his return just what happened.

"It is inconceivable to me that military leaders would willingly sacrifice human lives," Short told the members.

In any event, he said, the House would get "the true story when General Collins returns."

Collins is expected back Saturday night.

The invited spectators at the combat raid were supplied in advance with timetables for the action, but dispatches from Korea today said it was customary to have such operational plans for any battle action. These reports said officers frequently were on hand to learn combat lessons.

Hoffman's resolution asked the secretary of defense to explain "whether this raid was actually for justifiable military purposes or whether it was staged for some as yet unknown purpose."

The resolution probably will be referred to a House committee which may summon Wilson for an explanation.

Pentagon officials said they have requested a full report from the field. Hoffman said he has no objection to "Operation Smack."

Another Republican House member, Bray of Indiana, said yesterday he had demanded an explanation from the Defense Department. Bray, an Army reserve colonel with four years' service in the Pacific, said he was "mad as hell" if he never heard anything like it.

"A spokesman for the division (Continued On Page 8)

## Drive For Funds For Industries Reaches \$25,000

### Cowan Asks Business Men To Volunteer Their Assistance

The drive to raise funds for Sanford Industries, Inc., which is being organized by Ralph Cowan and the Sanford Industrial Committee under the sponsorship of the City Commission has reached the half-way mark of the minimum goal of \$50,000, Mr. Cowan announced at noon today.

With \$25,000 in pledges already realized, Mr. Cowan expressed confidence that the goal would be reached before the end of the week and urged all those who had not been contacted and who are really interested in the industrial growth of Sanford to give their faith by sending their checks voluntarily.

Volunteers who are aiding in contacting the various 3,000 business and professional men in the city are Fred R. Wilson, Lester Thorne, Judge R. W. Ware, Judge Douglas Stenstrom, John Williams, Ben Katz, W. A. Stempier and Bradley O'Neil.

"But the field is so great," Mr. Cowan said, "that these men cannot possibly contact everyone by themselves and we are therefore asking every business man and other person interested in permanent year-around payrolls in Sanford to send in his check without waiting to be contacted."

Those who have rendered their interest in this corporation and the amount of their pledges are as follows:

Handall Chase	1,500
W. J. D. Brown	1,000

## Sanford Man Honored

### Lt. Col. J. Ross Adams Jr., formerly Commanding Officer of the 142nd Fighter Squadron, Delaware Air National Guard, received five Korea war combat medals at a formal awards formation held by the 14th Fighter Bomber Group, California Air National Guard, Jan. 25, at Van Nuys, Calif.

## Wave Of Murders And Robberies In Baltimore Raises Citizens' Wrath

### Murder Charge Is Made Against Miss Carol Vining

BALTIMORE (AP)—A wave of murders and robberies in the country's sixth largest city has touched off an angry reaction that spread today from the homes of wealthy citizens to the halls of the State Legislature.

The granddaughter of an early Maryland governor and her 35-year-old companion died under mysterious blue-tinged conditions.

A gentle, widely admired librarian was senselessly slashed to death in a 75-cent tobacconery. These recent crimes and dozens of other burglaries, robberies and half assaults have alarmed the city's law-abiding citizens.

"Send half of the criminals to the pen for 20 years and hang the other half," wrote one indignant citizen to a member of the state lawmaking body.

Baltimore women going out these evenings to social contributions for the Mothers' March on Police are accompanied by police officers, farmers and volunteers from the civil defense minute men.

Yesterday, five civic leaders of Baltimore in Page Six.

# Sweeping Overhaul Is Urged For Government Activities Scattered All Over World

## Appointee Will Sell His Stock To Obtain Okay

### Secretary Of Army Designate Agrees To Divest All Ties

WASHINGTON (AP)—Robert T. Stevens said today he would divest himself of all financial ties with the defense industry if he is appointed secretary of the Army.

"If the committee feels I should dispose of my stock," he said, "I am prepared to do so."

Stevens, who earlier had asked for more time to decide the question, said he would not "take quick action" on the issue.

Stevens went before the committee after President Eisenhower made a personal visit in the night for speedy confirmation of his selection for secretary of the armed services.

Eisenhower decided to send for nominations to the Senate and to attend celebrations marking the centennial of the University of Florida.

WITH INFLUENZA EPIDEMIC spreading rapidly, Senator Johnston is urged to reduce minimum of 100,000 employees.

## Senator Johnston Declares Minimum Of 100,000 Employees Could Be Relieved

WASHINGTON (AP)—Sen. John D. Johnston (D-S.C.) urged a sweeping overhaul today of the government's activities abroad, saying at least 100,000 employees overseas could be discharged.

He recommended not only an immediate reduction in "the variety, scope and size of our foreign programs and activities" but major changes in the organization and management of government operations around the world.

His proposals were set out in a report submitted to Vice President Nixon, the Senate president. They were based on a survey Johnston made last fall as chairman of the Senate Civil Service Committee of federal pay and personnel practices in the Near East, Africa and Europe.

Johnston said:

"While great progress has been made in the execution of our many tremendous projects abroad, the very foundation of our foreign policy is being damaged by an underflow that is steadily increasing its pressure.

"This underflow derives its strength from streams of inefficient, overlapping authority, duplication of effort, wasteful practices, overstaffing and irresponsible and uncoordinated supervision and direction.

Johnston also said "We are losing the respect and good will" of the people in Western Europe, the Far East, the Near East, Africa and Europe.

He said "our wasteful practices, the large number and high cost of U. S. employees abroad and the extent of the government's operations tend to breed distrust, suspicion, contempt and prejudice."

Johnston, who has opposed many foreign aid appropriations, said billions of dollars could be saved if his recommendations were adopted. He said more than 100,000 employees overseas could be discharged.

## Mothers March On Polio To Be Held In Sanford Tonight

Between the hour of 7:00 and 8:00 o'clock tonight several hundred women in Sanford and the surrounding area will conduct the "Mothers March on Polio" in conjunction with the national drive for funds with which to fight infantile paralysis.

The mothers taking part in the march will call at homes where porch lights are turned on, signifying that the occupant wants to make a contribution. Another feature of the program is the distribution of door-to-door cards at apartment houses which will give a welcome sign to the officers.

Several organizations in Sanford have been recruited to take part in the march, according to Mrs. Wight Kirtley, representing the Beta Sigma Phi Sorority and Mrs. W. C. Messinger, representing the Pilot Club. Members of the Filideis Class of the First Baptist Church and other interested volunteers will also assist in the drive.

Tomorrow morning at Seminole High School auditorium the students will play the three volleyball games. It was reported by Homer Harris, who explained that the program will be designed as a "March of Dimes" benefit. The school is aiming at raising \$100, said Mr. Harris. Another feature of the program is a talent show put on by the faculty members and musical selections by O. B. Schirrad on the Vibra-Harp. The public is extended a cordial invitation to attend the program.

Mrs. Kirtley also announced that a benefit card party will be held on Feb. 8 at the Mayfair Inn under sponsorship of the Itern Circle of the Sanford Garden Club with all funds to go to the polio drive. Admission will be \$1.

In other towns of the county, particularly Oviedo under the direction of Mrs. Merritt Staley and the Women's Club of Casselberry, have done outstanding work in connection with the March of Dimes program, said John Beale, county chairman of the March of Dimes.

All volunteers will report to the Sanford Herald Office tonight following the march where Mrs. Beale and Mr. Beale will accept contributions and take telephone messages for contributions to be picked up.

## Jaycees Receive \$136.10 In Circus Benefit Donations

Final arrangements for the Junior Chamber of Commerce Circus, which opened this afternoon at the Melloni's fair grounds, were discussed at District Executive Jerry Hammer's meeting in the Jaycee Club today.

Mr. Hammer stressed the importance of a well organized and smooth functioning leadership program in handling an event of this size and the effectiveness of the club.

"Most of the Jaycee clubs that have undertaken this leadership program," Mr. Hammer began, "have increased their membership by 100 percent or more."

Turning to the Seminole County situation, he inquired as to how the proposed formation of the Oviedo club was progressing. Douglas Stenstrom, president, replied that the initial inquiry found that Oviedo was too small and the interest was lagging because Oviedo is a little agricultural town where most of the young men work in the day and vacation in the summer time.

Hammer suggested that the Seminole club should hold a joint meeting with some of the young men in Oviedo.

Mr. Stenstrom gratefully accepted the suggestion and said the Sanford club would try to work something out.

It was announced that Dick Chamber had accepted the chairmanship of the Jaycee Boy Scout program and that William Herlihy was the new Junior Chamber Club chairman.

John Kander, chairman of the Jaycee Fishing Man committee, announced the committee had finished the map and passed out some of the new brochures.

Cliff Able, chairman of the Jaycee circus, said that all the Junior Chamber ticket collectors at this evening's circus performance would distribute the map to the spectators.

## Suspect Is Captured In Lightning Action

OKLAHOMA CITY (AP)—Detective L. L. Pilon took the description of a fugitive over the telephone yesterday, looked out the window and did a double take.

"Read that description again," he told Capt. Mark Bain, who was relaying information passed along by Pensacola, Fla., authorities.

"A man just walked by the lookout our man."

The report confirmed his suspicion and Pilon stepped outside his home and arrested the man.

Officers said he identified himself as Honor Robinson, 33, wanted in Pensacola on two charges of assault with intent to kill.

Twenty minutes after the pickup order was received from Pensacola, Robinson had waived extradition.

## Eisenhower Hopes To Attend U. Of F. Centennial, He Tells Hillis Miller

WASHINGTON (AP)—President Eisenhower today hopes to be able to attend celebrations marking the centennial of the University of Florida.

However, the university's president, Dr. J. Hillis Miller, said today that he would have to put a question mark after the invitation. He has been invited to attend the centennials of William and Mary College and Dartmouth College. So he would like to go but he would like to be sure he has time to be able to make it.

A formal invitation to the president of a formal ceremony was introduced to Eisenhower by the White House today by Dr. Miller.

## Like Parley With Security Group Closely Veiled

WASHINGTON (AP)—The Senate today approved a bill to authorize a two-hour conference between the National Security Council and other military and intelligence officials. The White House clamped on a tight lid of secrecy on the nature of the talks.

Whether the officials will attend or not, the White House press secretary said today that the agenda of the talks would be kept secret.

"It was a very good meeting," Harold Stassen, director of the Mutual Security Agency, said.

Asked if the President had decided that he would attend the talks, the press secretary replied: "No, that's not our own idea. That's the idea that should be with the National Security Council."

The press secretary also reported: "I can't tell you a thing about the meeting. All I can say is that the committee is to be in every Wednesday afternoon with the President."

Secretary of Defense Charles E. Wilson brushed by reporters in Washington today.

## Peacock Is Named To Head Scout Drive

W. J. Peacock, cashier of the Florida State Bank, has been named county chairman of the Boy Scout drive during National Boy Scout Week from Feb. 7 to 14, John Pearson, chairman of the Seminole County Boy Scouts, announced today.

Boy Wright, taller at the Sanford Atlantic National Bank, will serve as county chairman, and W. A. Fagan, principal of the Oviedo School, will be the chairman for Oviedo. Mr. Pearson added. Additional chairmen will be selected for other Seminole County towns.

A request for all churches, schools and civic organizations to lend their support to the drive and to appoint captains and teams to aid in the solicitation was also made by Mr. Pearson who said, "Character building and good citizenship are the two foundations of the Boy Scouts of America."

## Episcopal Parish House Is Robbed

Approximately \$15, of which \$11 were in bills and the remainder in silver currency, was stolen last night when the Episcopal Parish House office was broken into and several steel cabinets forced open, it was revealed today by Police Chief Roy Williams.

Pollomon W. R. Cosgrove and O. E. Rostowall answered Mr. Kirkhoff's call early this morning when the latter discovered the broken cabinets.

According to the police report, the person or persons who perpetrated the burglary, must have entered the church office through the west alley window or door. A green and cream colored ballroom lined boy's bicycle with red trimmings and white wall tires was discovered in the alley and police took the bike back to headquarters.

As yet, no one has been arrested, Chief Williams said.

## INCOME TAXES

Lawrence W. Tomlinson, Director of Internal Revenue for the District of Florida, announced today that an Internal Revenue Agent will be at the Chamber of Commerce office between the hours of 8:30 a.m. and 5:30 p.m. on Feb. 12 and 13, for the purpose of giving advice on income tax returns. While most taxpayers will be able to prepare their own returns, according to the announcement, this service will be rendered where needed at no charge to the taxpayers.

## Parked Car Sleepers Found To Be Armed

ARK. BAY, Miss. (AP)—Police arrested three men as they slept in their parked car and found that they were armed and wanted by authorities in half a dozen states.

Chief of Police Otto Fournier said today the men were picked up on a complaint from a thoroughfare in Brandon, Miss. that a revolver had been stolen there.

The revolver was recovered, Fournier said, together with two shotguns and ammunition.

He identified the men as: Allen S. Hinton, 29, of Jackson, Miss.; Fred H. Hannon, 25, of Houston, Tex.; and James E. Roper, 35, who gave his address as Tule, Miss.

Fournier said the car the men were sleeping in was stolen in New York and that they were wanted in connection with burglaries in Chicago, Mason and Savannah, Ga. and at unannounced times in Alabama.

## CABBAGE CROP LARGER GAINESVILLE

GAINESVILLE (AP)—The winter cabbage crop is an estimated 15 percent larger than last year and retail supplies will be plentiful in the Southeast in February, Director H. H. Clayton of the Florida Agricultural Extension Service said today.

Florida is expected to grow 180,000 tons of this year's 357,000-ton crop.
