NO. 213

Budget Group Votes To Cut Temporarily State Appropriations

Commission To Withhold 25 Per Cent Of Funds To Stay Out Of The Red

TALLAHASSEE, June 16—(AP)—Appropriations for road and bridge construction and maintenance work in 17 Florida counties were received today by the State Road Department.

TALLAHASSEE, June 16—(AP)—The Florida Budget Commission voted today to withhold 25 percent of the funds appropriated for every State agency or institution for the next three months in an effort to keep the State out of the red.

The action was taken by a vote of 4-2 on a motion by Comptroller C. M. Gay. Governor Warren gave a strong hint that he would wield a seldom used executive power to make the cut himself if it didn't go along.

Attorney General Richard Ervin and School Supt. Thomas D. Bailey voted against the move.

They said they preferred a 10 percent cut for the next two months in hopes that the Legislature in special session will levy taxes to pay its appropriations in full. It adjourned its regular session after falling nearly \$30,000,000 a year to provide revenue to cover expenditures it authorized.

The issue was whether the Cabinet should tell agencies and institutions to budget on the funds available, or to spend at the full rate until all money was gone and then to stop.

The members threatened it out in open session today, after spending many hours behind locked doors in a session of a secret committee.

Comptroller Gay presented a forecast of figures which showed by spending at the full rate of appropriations, the State could get by for the next two years. He said temporary deficits in three months next winter and five months in 1950-51.

By spending at the full rate of appropriations, he said the State would go into the red next September and run up a steadily growing deficit of \$87,000,000 by the end of two years if it were possible to get that much in debt.

The 25 percent cut affects every agency of government—even those which get their money from ample special funds that cannot be diluted into the distressed general fund.

Attorney General Ervin said he felt that a "grandstand play" in an effort to "create a psychosis."

However, Commissioner of Agriculture Nathan Mayo and State Road Chairman Alfred McKibbin said they would cooperate. Both of their agencies are financed by special funds.

Ervin argued that a 25 percent cut in funds of all agencies for the next three months would mean less of about \$4,000,000 in federal matching money for the welfare program.

Gay replied that if they spent what they had and the Legislature didn't levy new taxes, it would mean the loss of even greater federal funds in the future.

The Governor read into the record a telegram he sent to the State Welfare Board, threatening to ask him to convene his board at once to make the cut in funds for aged, blind and dependent children.

There is a hard and cruel cut for these helpless people, but it is forced by the failure of the 1949 Legislature to provide but 78 cents of each dollar it appropriated. Aid is essentially any program which will provide the money to pay the welfare program.

Hot Weather Is Blamed For 30 Deaths In East

New Hampshire And Maine Halt Fire-making In Woods

BY ASSOCIATED PRESS
Deaths of 30 New Englanders were attributed today to five days of hot and humid weather in the East.

The forest fire peril increased in New England with the continued drought. Smoking and fire-making in the Maine woodlands was forbidden by order of Governor Frederick G. Payne. There were 15 small, controlled fires in the state.

New Hampshire, where eight additional deaths boosted the sectional total to 30, followed Maine's action in banning smoking and fire-making.

The U. S. Weather Bureau in Chicago said there was no sign of rain to break the dry spell. A high pressure area off the coast prevented landward conditions from changing.

Some rain appeared in sight today for areas in the hot and humid northeastern states where serious drought conditions threaten severe crop and forest fire damage.

Skies were cloudy in the East coast states but no heavy rainfalls were reported. However, scattered showers were expected to move into New York state from the West late today and to cover the state by tomorrow, bringing relief to the hot, sticky weather.

Lower temperatures were reported tomorrow. The mercury hit 93 at Rochester and 90 at Buffalo yesterday.

Several forest fires were reported yesterday in the Adirondacks, raising the total to 32 since Saturday. All of the new fires were under control. Conditions in the Hudson valley were reported "rapidly becoming critical."

There also was a possibility of showers late today in New Jersey, which had very little rain in the last 25 days.

Hilary Simpkins, a farmer at Florence, N. J., seeded a cloud with dry ice from an airplane. He said rain fell for five minutes—a mile south of his farm.

A rain belt today extended from southern lower Michigan, eastern Indiana and western Ohio southward into the Tennessee valley. It was a local thunderstorm in the Dakotas and Minnesota. The U. S. Weather Bureau said winds reached a velocity of 90 miles per hour during a squall at Aberdeen, S. D., yesterday.

Generally, temperatures were near normal over most of the country except for cooler along the Canadian border, from North Dakota westward. Yesterday the mercury hit 111 at Yuma, Ariz., and 110 at Phoenix.

Escaped Convict Is Captured By Williams

Jackson Bennett, a negro who was arrested here a week ago by Police Chief Roy G. Williams and Capt. Roy Tillis on a charge of drunkenness and disorderly conduct, had a suspicious look, following a lunch, Chief Williams sent fingerprints of the negro to the FBI in Washington, D. C.

Cliff M. Ables Is Installed As Lions Club Head

Organization Holds Night For Ladies At Country Club

Cliff M. Ables, past manager of the Seminole County Motors Co., was installed last night as president of the Sanford Lions Club.

John W. Davia, president of the club, presided at the installation ceremony held at the Country Club. About 50 members, their wives and guests were present.

Other officers installed were Edward S. McCall, vice-president; Harry Robson, second vice-president; Clarence Welsh, third vice-president; Jack K. Morrison, secretary; W. O. Livingston, treasurer; Marcel Faile, tail twister and J. Hamilton Bibeau, retiring president.

John W. Davia and Ted Williams were installed as directors for two year terms and A. Lincoln, Al Lyon and John Weisch as one year directors.

Two new members, Robert E. Adams of Holly Motor Co. and B. E. Vaughn, acting trainmaster of the ACL Railroad, were inducted as members by "Nehi" Thompson of Ocala, district governor elected in 25-0.

Buttons for 100 percent attendance during the year were awarded to Lions Cliff Ables, J. Hamilton Bibeau, John Ivey, W. O. Livingston, Harry Robson, Jack Morrison, Al Lyon, W. H. Connolly, E. R. McCall and Henry Witte.

Retiring King Lion Bibeau opened the meeting, reviewed outstanding projects of the year, commending committee chairman for their work and introduced District Governor Bressler-Pettis.

Dr. Bressler-Pettis was cited as the outstanding Lion district due to his 100 percent report over a period of 11 months to Lions International, a report made in co-operation with the prompt reports of 20 or more club secretaries in his district. Out of 114 possible delegates to the recent State Lion convention at Daytona Beach, 111 attended.

These facts were summarized by District Governor-elect Thompson, which he said made a high standard which he would strive to better. He urged members to eliminate from their vocabularies the words "cant" and "sorry" and composed individual contributions to the club in the form of a cake. "If some ingredients are left out, the cake is spoiled," he declared.

Dr. Bressler-Pettis in his talk pointed out the part played by Lions in the betterment of their community, and of the benefit derived by members in doing this work.

Mrs. Henry Witte received from King Lion Bibeau an impromptu appointment as assistant tail twister and aided in auctioning off overseas type Lion Caps.

Miss Anita Alkew, accompanied by Mrs. Clarence Welsh, presided the group with several songs.

Mrs. Craig, Mother Of Local Woman, Dies

Mrs. M. L. Craig, 85, died in the local hospital at 7:30 P. M. Tuesday following a heart attack. She had been in the hospital since last Saturday.

Prosecutor Of Judith Coplon Goes On Stand

John W. Davia Testifies He Regards Character Of Alger Hiss As Very Good

WASHINGTON, June 16—(AP)—Detailed questioning of one of Judith Coplon's prosecutors indicated today that her appearance on the witness stand to deny she engaged in espionage may be delayed until tomorrow.

Miss Coplon will take the stand as her own star witness as soon as Defense Attorney Archibald Palmer finishes questioning prosecutor Raymond P. Wherry.

During a brief morning recess in the trial Palmer told reporters that he might keep Wherry on the witness stand all day. Yesterday he had indicated the defendant would be called this afternoon.

Palmer called the prosecutor an "important" defense witness. He tried without success to obtain the FBI report covering the investigation which led to Miss Coplon's arrest.

The report was brought into court by FBI Inspector Howard Fletcher, but when Palmer demanded that it be put in evidence Federal Judge Albert L. Reeves ruled against him.

Palmer argued that he wanted the report to contradict testimony of witnesses and showed that Wherry and Miss Kelley, another prosecutor were "trying to keep it secret."

"We have a right to be confronted by a witness," Palmer shouted. "So far we have been confronted by a spook—a confidential informant."

Kelley said the report was "wholly incompetent." Judge Reeves upheld him, while Alton Hickenloper (R-Iowa) questioned whether the Atomic Atomic Laboratory actually has located the container which held the uranium 235 lost from the last February. He said there still is a "substantial mystery" about the whole affair.

Hickenloper told the Senate House Atomic Committee that lab officials have come forward with an ordinary fruit jar, saying it was the container. But all prior reports, the Senator declared, were that the uranium 235 was kept in a brown bottle.

Dr. Walter H. Zinn, director of the lab at Chicago, said there was no doubt about it—that "completely and absolutely" the jar had contained the missing uranium 235. He said the FBI concurs in that opinion.

Earlier Paul Hoffman, the head man in the European recovery program, testified the jar was "contaminated by the 235 U."

Rotary To Provide Fellowships For Outstanding Youth

NEW YORK, June 16—(AP)—Rotary International, whose 45th and biggest convention draws to a close tonight, has voted to spend \$750,000 during the next three years for better understanding among the world's peoples. The fund represents a \$300,000 increase in the previous three year sum set aside for the Rotary Foundation's program.

The money will be used to provide fellowships to outstanding students all over the world, to send speakers to various nations to explain the workings of the United Nations, and to provide relief for Rotarian families in war devastated areas.

Bill To Revamp Government Is Stamped Okay

Truman Given Power To Streamline Executive Branch By Senate And House

WASHINGTON, June 16—(AP)—Congress completed action today on a bill giving President Truman broad powers to streamline the executive branch of the government.

The Senate, by a voice vote with no opposition, approved a compromise version of the bill which was worked out by a Senate-House Committee yesterday. The House passed it a few minutes earlier.

Senate action sent the measure on its way to the White House after a month of bitter wrangling. Just before Congress acted President Truman said that he would go ahead with reorganization plans as soon as Congress finished with the legislation.

The writer Congress acts, he said, the more projects he will be able to send to the Capitol this session. Senate Democratic Leader Lucas had predicted earlier that the bill would be approved by both houses and sent to the President today.

Meanwhile the Senate wrote another Taft-Hartley law feature into the Truman labor bill—a requirement for non-Communist oaths. It was approved on a voice vote.

Senator Hickenloper (R-Iowa) questioned whether the Atomic Atomic Laboratory actually has located the container which held the uranium 235 lost from the last February. He said there still is a "substantial mystery" about the whole affair.

Hickenloper told the Senate House Atomic Committee that lab officials have come forward with an ordinary fruit jar, saying it was the container. But all prior reports, the Senator declared, were that the uranium 235 was kept in a brown bottle.

Dr. Walter H. Zinn, director of the lab at Chicago, said there was no doubt about it—that "completely and absolutely" the jar had contained the missing uranium 235. He said the FBI concurs in that opinion.

Earlier Paul Hoffman, the head man in the European recovery program, testified the jar was "contaminated by the 235 U."

No Effort Spared To Give City Good Water

No effort is spared to insure the purity and safety of Sanford's water supply, E. H. Johnson, City sanitary officer, pointed out today. Samples of the water were taken before and after chlorinating at the municipal plant, at ends of lines and in the heart of the city in order that all the distribution system may be covered.

Mount Dorans Find Sanford Is A Convenient Shopping Center

Mount Dorans residents like to shop in Sanford and find in local stores a convenient trading center where they can buy at the lowest possible prices those articles of merchandise which they cannot find at home. This was revealed to a Herald reporter in a series of interviews with prominent citizens of the neighboring Lake county community.

Only 25 miles west of Sanford on Highway No. 48, Mount Dorans is a flourishing little city 164 miles above level and boasts one of the highest and most healthful locations in Florida.

Located on the shores of Lake Dorans in what is known as the Golden Triangle, formed by three creeks and near by communities, Mount Dorans, Duxie and Tavaras, Mount Dorans is a famous winter vacation resort and has attracted many retired business and professional men and their families, who have built beautiful homes.

President Requests Congress To Act On Brannan Farm Plan

McKibbin Tells Kiwanis Club Of Budget Outlook

Little Hope Is Seen For Expense Cut, City Manager Says

With wages and cost of materials high, there is not much hope for a decrease in the city budget concerned with personnel and operating purchases, City Manager Clifford McKibbin told Kiwanis yesterday at the Towns Center. He was introduced by Major Andrew Cartaway in a program directed by Harold Kastner.

Three former members of the Seminole High School Glee Club, Nolle Klapp, Harold Kastner, Jr. and Clarence Grantham, entertained with some lively negro spiritual songs. Mrs. Ollie Reese White, Glee Club director, accompanied.

In presenting his outline of the City program, Mr. McKibbin revealed that the budget had not been prepared for presentation yet. "We have, however, certain indications of what to expect in the way of costs," he declared.

"Salaries increase generally and the persistent high prices have resulted in the Commission granting raises to policemen, firemen and some other city departments, more may have to be granted if we are to retain competent help," he told the Kiwanians.

"The degree of necessity for construction of new streets, sewers, street lighting facilities and other items of capital expenditure must be determined by the City Commission," he asserted, and this determination will increase or decrease the budget as compared to last year."

With a present population of 16,000 as compared with 10,011 in 1940, a 60 percent increase, costs of government have risen 70 percent and it can be seen that inflation has not been the only factor in rising costs of local City government.

Population growth, said Mr. McKibbin, definitely increases the total cost of municipal services including garbage and trash collection and police and fire protection. Each new family with an automobile increases the maintenance on city streets and increases the demands for more hard surfaced streets.

From January through May permits were issued for 30 single family residences, two duplexes, eight commercial buildings, four garages and one public building, he revealed. However, since most homes are assessed under \$5,000, under homestead exemption provisions they will bring in no operating tax money.

"Each new small home means demands for services with no tax income to pay for those services," he declared.

"In addition, with our operating tax millage near the maximum allowable and uncomfortably high for the business man, our other sources of municipal income must be heavily drawn upon to furnish these essential services, and work on new or replacement streets, falling sewer lines and other badly needed civic improvements must be deferred," he said.

"The Florida League of Municipalities of which Sanford is a member," he pointed out, "has recognized this as an ailment common to all Florida cities and has sponsored bills in the State Legislature to restore to the cities, certain taxing powers preempted by the State."

"We can hope for early recognition of the problems of the municipalities by every member of the Florida Legislature," he continued. "And if a portion of some locally collected state tax is allocated to cities, we will be able to furnish adequate municipal services, repair and replace some of our worn-out public improvements and begin to think of our sanitary sewage problem and others of large magnitude that now seem so far from solution."

60,000 Atlantic, Gulf Seamen Get Wage Increases

Violence Flares At Strike-Bound Dryden Rubber Plant

BY ASSOCIATED PRESS
More than 60,000 seamen were awarded wage increases today in contracts by two CIO Maritime unions and Atlantic and Gulf coast shipowners.

The contract settlement, reached in New York, must be ratified by union rank and file. Involved are 60,000 members of the National Maritime Union and about 1,400 members of the American Radio Association. The gold contract expired last midnight.

The new agreements provided for a \$7.50 monthly increase as a clothing allowance.

At South Bend, Ind., the 58-day-old strike at the Bendix Aviation Corporation continued. The CIO-UAW denied a reported agreement to end the walkout.

On the west coast CIO workers continued a strike against commodity distribution houses in the San Francisco area. The strike is for higher wages. The union estimated the walkout would involve at least 6,000 men for some 200 firms.

In Chicago two non-striking rubber workers were knocked unconscious in an outbreak of violence at the strike-bound Dryden Rubber Company. The strike was called by the CIO United Rubber, Cork and Linoleum Workers.

At Bluefield, W. Va., Southern coal operators continued negotiations with the United Mine Workers in an effort to reach a new contract. The present agreement expires in two weeks.

A proposal by Southern coal producers to turn bargaining authority for the entire coal industry over to a single coordinating body has resulted in plans for a "state inquiry."

The Senate Banking Committee yesterday approved a resolution by Senator Robertson (D-Cat.) asking that the state agencies be investigated. Robertson's resolution said some coal operators are fearful a "razz" among operators would lead to the same type of unscrupulous control now exercised over the miners. The inquiry will start Monday.

Rep. Smith Replies To Seminole Bar

Replying to the recent resolution of the Seminole County Bar Association regarding the appointment of an assistant state attorney for the Ninth Judicial Circuit embracing the counties of Seminole and Brevard, Rep. M. B. (Fleming) today submitted the following letter to the Sanford Herald for publication:

"Sanford, Florida, June 15, 1949
Seminole County Bar Association
Sanford, Florida
Gentlemen:

"As one of the representatives of Seminole County it was not my prerogative to recommend anyone for appointment to the office of Assistant State Attorney of Florida.

"I was not consulted concerning the appointment.

"Yours very truly,
"M. B. Smith"

THE WEATHER

Scattered thunder showers this afternoon and widely scattered thunder showers Friday afternoon. Otherwise clear to partly cloudy through Friday. Moderate westerly winds becoming variable Friday.

WASHINGTON, June 16—(AP)—President Truman said today he wants the Brannan farm plan reauthorized at this session. He predicted Congress will do it.

The president added at a news conference that all of it may not get through this session, but he contended that some of it already has gone through.

He disagreed with some press reports from Democratic Party's Des Moines conference early this week that the plan would be defeated until next year for campaign purposes.

Mr. Truman said some news reports had given the impression that delay was in the cards, but the conference took no such stand.

He said that is not the objective of all that farm legislation in part of the Democratic platform and he is trying to get that through.

Mr. Truman made his comments on farm legislation as he participated in a bill that farm legislation will be passed by both the Administration measure and the support built up in Congress behind Aiken Law due to go into effect Jan. 1.

The new proposal would continue the 100 per cent parity price supports on major farm products for another year. The Aiken Law sets up a flexible system of supports at 60 to 80 per cent of parity.

Parity is a price calculated to be fair alike to producer and consumer.

And the President said he does not regard present unemployment as critical.

The president added that the Administration's viewpoint on unemployment will be expressed in an economic message now being prepared for Congress. This report probably will go to the Capital in three or four weeks.

Mr. Truman presumably referred to his regular State of the Union report.

The latest of Census Bureau report shows 12,600,000 persons are now out of work and looking for jobs.

The question of unemployment was raised by a reporter who asked about Mr. Truman's conference yesterday with Walter F. Reuther, president of the CIO United Automobile Workers.

Mr. Truman attributed the further over age investigations to just what he said it is—just what he said it is—just what he said it is—just what he said it is.

When the subject was raised, Mr. Truman said he had read the history of the Aiken and Sedition Laws in the 1930s.

Asked how the lesson of the days that might be applied today, he urged the reading of the history in the Jefferson administration.

He said the hysteria in those days did not mean that the country didn't go to hell at all, and it's not going to now.

When a reporter said the first thing Jefferson did was to release 13 newspaper publishers, Mr. Truman laughed and said Jefferson probably made a mistake. He added that Jefferson also released a (Continued on Page Two)

Waitkus Reported "A Bit Improved"

CHICAGO, June 15—(AP)—Eddie Waitkus, popular Philadelphia Phillies first baseman who was shot by a 19 year old girl admirer, was reported "a bit improved" today.

The bubbly smug assailant who was secretly in love with him was summoned into felony court on a charge of assault with intent to murder the star player, who was shot near the heart by a 22 caliber rifle bullet.

Hospital authorities, who termed his condition "fair to poor" yesterday, said this morning that he was better.

Established in 1888... Published daily except Sundays and holidays... 111 Magnolia Avenue... Sanford, Florida... Telephone 2-1234... Subscription rates: 3 months \$3.00, 6 months \$5.50, 1 year \$10.00.

THURSDAY, JUNE 16, 1949

SIXTH YEARS TODAY

Often it takes that very distress to open our eyes and set us on the right way road. Very few indeed can stand all sunshine and roses. Thou hast engaged me when I was in distress.—Ps. 41.

Warren Will Miss Black-eyed Peas: Barbara Likes To Cook Cherry Jubilee—screams a headline. Well, we don't know about that cherry jubilee. It sounds pretty good to us. But if the Governor wanted black-eyed peas, he should marry a black-eyed girl.

State officials insist that the State treasury will be in the red by \$4,664,986 by September if the Legislature doesn't provide additional revenue before that time. It needs it. . . if State officials don't spend money on unnecessary items.

Ku Klux Klanmen seem to be resuming their activities in various places throughout the South. In Alabama the other night a white veteran of World War two was taken out by a masked group and flogged. Some cities have enacted ordinances against such activities though the Legislature failed to do anything about it. Does Sanford have such an ordinance?

Oscar Hammerstein, who wrote the words to "O! Man River" does not like the idea of their being changed by the Communist Paul Robeson. In Moscow Robeson was reported to have told a Russian audience that certain lines should be changed to read "the great fight to the death for peace and freedom." Hammerstein suggests that Robeson write his own songs after this and leave his alone.

Drew Pearson, in our opinion, tore his pants when he decided to sue Westbrook Pegler for libel. He is afraid now, not of what Pegler said, but that he will prove it. Asking for an apology in return for withdrawal of the suit, Pearson had to take this, "He is willing to withdraw his present suit if I would apologize and say publicly that he is neither a liar nor a blackguard. I reiterate that he is both . . ." Guess that settles it.

Senator Brewster of Maine has introduced a bill to combat the "growing Democratic depression." Depressions are like hurricanes. There is nothing anybody can do about it when they come, but the people of Florida always refer to them as "Puerto Rican hurricanes", and the people of New England and California always call them "Florida hurricanes." We remember one which hit New England after blowing across Florida, and we called it the "New England hurricane."

Governor Warren is bent upon calling the legislators back into special session, he "hints", as the prospect of dwindling cash reserves unnerves him. Such special sessions should be discouraged unless you really want to pay more taxes. The only conceivable purpose for calling the Legislature together again would be to saddle more taxes on the backs of the already over-burdened people. The State will take in as much under present taxes as it took in for the last two years. Let it cut out unnecessary expenditures and it will have all it needs for schools, welfare and highways.

What does an A. B. degree mean? Well, the Population Reference Bureau (we never knew there was such a bureau before) says it may mean "Abolished Bachelor," since the census shows those with college degrees are falling to themselves while the ones with the scale you go in the field of education the poor children have. The average woman has 1.26 children. The average non-college woman has 2.0 children. And the average for men is 2.1 children.

On Passing In School

Teachers of British and Continental schools, after a year or two of teaching in American schools under the teacher exchange system, usually say in one way or another that they prefer teaching under the more strict disciplinary systems of European schools. The idea is that good discipline is necessary to good work, and there is something in it. There is room for difference of opinion, however, as to what constitutes good discipline.

A Welsh teacher who had just finished teaching for a year in an Ohio school had a further remark to make on the passing of students from grade to grade, which also has something to do with the relationship between discipline and learning. In the schools of Wales only about two-thirds of the students pass each year, he said, and standards of attainment, required for passing, are higher.

In America a teacher who passed only two-thirds of his pupils probably would have an uncomfortable session with the superintendent, who would have an equally unhappy time with the board of education. In general the American teacher is expected to pass most students, on the theory that the children should remain in their proper age groups as far as possible.

This idea also has merit, but the matter is open to question. Standards of learning in the schools today are attacked frequently by educators themselves, and by others. Perhaps it might be well to set higher requirements for passing, making the step from one grade to the next something to be worked for with interest and industry instead of something taken for granted by the average student.

Restoring Whaling Days

Would you like to be transported back to a whaling port in the days of the clipper ships? Mystic, Conn., is trying to realize this ambition. Its Marine Historical Association is reconstructing a seaport street as it looked in 1850. So far the counting house, fire house, spar shed, paint shop and shipsmith shop have been restored. Next on the list is a sailors' chapel. To lend further realism, the street lighting will be not by electricity, but by lamps burning whale oil.

Reconstructing the past seems to be growing in popularity, and is a pastime to be encouraged. Williamsburg, Va., is of course the grand example, but there are reconstructions of tough towns in Western mining days. Long Island, N. Y., is creating an eighteenth century garden, and Plymouth, Mass., is planning, outside of the town, a reconstruction of the village as it looked shortly after 1620. The contribution made by Henry Ford at Dearborn, Mich., is not to be overlooked.

There was a richness to the old days, with all their defects, which should not be forgotten. Mystic is the latest to pursue a laudable enterprise.

Languages Of India

Unity of thought and purpose among the different groups composing the nation of India as it is today depends to a large extent upon their ability to agree on a common language, say some observers there.

Higher education in India, as sponsored by the British, has been carried on in the English language, with a resulting broadening of the separation of interests between the educated and the uneducated. Those trained to assist in governing their people had little in common with the rank and file.

Not only do the different provinces use radically different languages, but several dialects are used within each province. Both the present government and the people it represents are devoting serious study to the question of a common language. Much time is likely to pass before a workable solution is found to the problem.

The diverse inhabitants of such a large area as the United States may give part of the credit for their governmental unity to the fact that a common language exists. Thus differences may be clearly stated, debated, and resolved. Many of India's problems must wait for solution until the greater one of a common language is solved.

Truman's Conference

(Continued From Page One) federal judge. The President said hysteria happens after every great war. He recalled that the Ku Klux Klan wanted to clean up the country after the First World War and mentioned the activities of the steppe regions.

KKK in Indiana. Asked if the executive branch of the government was effected by hysteria, the President said it was not but added he will clear them out if he finds any.

In Russia, much attention now is being given to the planting of trees for tree shelter-belts in the steppe regions.

COWAN'S Men's Department

Mt. Dora Shoppers

(Continued From Page One) ring offered by the Central Florida Quick Freeze and Locker Plant. A companion, Mr. W. T. Koch, said that she likes to shop in Sanford stores.

Many inquiries about Sanford are received at the Mt. Dora Chamber of Commerce, declared Mrs. Elizabeth Bless, secretary. She assumed this position on Jan. 1 when the former secretary, Bill Wells, assumed new duties in Leesburg.

The population of Mt. Dora, she estimated, is between 3,000 and 3,500 and has increased about 250 in the past year and a half. Between Jan. 1 and May 1 13 new homes were built at a total cost of more than \$70,000.

The Chamber of Commerce occupies a store room in the central business district, a neat and well furnished, and remains open the year around. Across the street is the building occupied by the Citrus Culture Corp., distributors of fertilizer and caretakers of many citrus groves, which is managed by J. E. Fortner, mayor of Mount Dora. The Western Auto Supply Co. is preparing to open a new store in the building.

Mayor Fortner expressed much interest in news of Sanford and inquired about how much it cost to install the night lighting equipment in the Sanford Baseball park, a Mount Dora is considering a similar project.

He revealed that Mount Dora had recently paved several miles of city streets and will continue to resurface its streets.

The engineering firm of Smith and Gillespie, who designed the proposed river terminal facilities for Sanford, recently submitted data to Mount Dora for a complete sewerage system, as the town has outgrown its present 25 year old system. When completed, it will cost more than a million dollars, Mayor Fortner estimated.

City Clerk William Stewart revealed that the first phase of this program will cost about \$400,000 and added that financing will be by means of revenue certificates.

No shortage of water has been experienced, said Mr. Stewart, even during the current dry spell. Two wells, more than 400 feet deep, supply the water. He revealed that the Fire Department is provided with two trucks, one of which is equipped with a fog sprayer. One man is kept on duty, and is assisted in fighting fires by many volunteers. They were kept busy on May 28 protecting homes when an unoccupied crate mill owned by P. B. Goeths was burned.

During July Mt. Dora, in common with several other Lake County communities, will co-operate with a county health department unit in a campaign to fog-spray the city, street by street, each week during the month and until the experimental period is ended to rid the city of mosquitoes, flies and gnats. DDT concentrate will be used. Spraying will begin at sundown and last until 1:00 A. M.

New interest in tennis has been aroused by the arrival of Dr. Hugo Curry of Boston, who started in the game in many European countries. He is credited with putting the court in Donnelly Park in good condition, and so much interest has been aroused among the youngsters as a result that there is talk of building a new tennis court.

Plans are pending to build a dock extending 90 feet on Lake Dora for use for a youth swimming program. The lake was recently rid of water hyacinths, Mayor Fortner pointed out by a group of local men co-operating in the project with the Chamber of Commerce. They rigged up a boat and sprayed the offending growth with 24-D solution. But few spots of hyacinths remain, and these will be kept under constant check, he said.

During February the biggest event was the regatta and power boat races sponsored by the American Power Boat Association, and with more than 125 boats competing. About 10,000 spectators were reported to have visited Mount Dora to see the events on Lake Dora.

An active social spot in town is the Mount Dora Yacht Club, overlooking the lake, which served during the war as USO headquarters for service men. Don Conkling is commodore. Mr. Conkling is a soil chemist for the Citrus Culture Corporation, has an extensive library of information on culture, and maintains a neat experimental laboratory for testing citrus soil.

He estimated that during the past four years from three to four thousand acres of new citrus groves have been planted within a 16-mile radius of Mount Dora. These new express shipping houses have been built in the area, one at Eustis, he said.

During the recent dry period, he said, groves that have been irrigated have been kept in good condition. On groves not so watered, there has been quite a bit of shedding of leaves, and second and even third bloom has appeared.

Indicating the growth of the community is the fact that enrollment in schools is increasing. This necessitated remodeling a school auditorium into classrooms, but it is hoped that a new hall may be built soon. On June 7, Mount Dora High School graduated 27 students. One of them, Lois Driver, a beauty contest winner, is scheduled to appear on the cover of the Ladies Home Journal this summer.

Among new business projects is a men's wear store opened by C. M. Jones and Sons and a sandwich shop managed by Mr. and Mrs. Carl Spang.

House-painting in the hot rays of the sun should be avoided. If a house faces East, the painter would be wise to start early on the west side, doing the East at a later hour.

Congress Action

(Continued From Page One) gram, said he thinks it may have to be labeled a "bad risk" unless western Europe quickly breaks down its trade barriers.

The Economic Cooperation Administrator gave his views yesterday to the Senate appropriations committee.

He said the big and expensive program of U. S. aid cannot possibly succeed unless Europe speeds up economic cooperation, and added that by next spring he will be able to report whether the program has been a "good or a bad risk."

The committee asked him to return this afternoon to continue his testimony on recovery spending.

"The real answer to whether Europe is coming through," Hoffman expanded to reporters, "lies in whether she will go a long way to reduce trade barriers in the coming year."

Budget Slashed

(Continued From Page One) save the old folks, the blind people and dependent children from further suffering. I cannot believe the Legislature will force these pitiful people to suffer for two years."

And part of the State advertising commission's campaign to attract summer tourists to Florida is going to be cancelled because of a shortage of funds.

The Commission agreed, at Governor Warren's suggestion, to cancel all advertising schedules it can for the next few months until the legislature in special session has had a chance to provide money to meet its appropriations.

Meanwhile Governor Warren during his brief tenure.

In action by another state agency, John E. Montgomery, Miami Beach publisher, was elected vice-chairman of the State Advertising Commission to succeed Allen Morris, who resigned.

Governor Warren said the Tallahassee political columnist's resignation was "accepted reluctantly" and that he had "rendered a real and valuable service."

Warren's closest friends and counselors, to be the newest member of the State Improvement commission.

The Tallahassee man was appointed to the board as successor to Dodge Taylor of Howey-in-the-Hills, who resigned to take over chairmanship of the state citrus commission.

Mary Ann Whelchel Given Lovely Party

THURSDAY
Seminole Chapter No. 2, O. E. will meet in the Masonic Hall at 8:00 P. M.
Piano recital No. 2 in honor of Fannie Stambidge Munson will be presented by pupils of the Fannie R. Munson piano school at the studio at 608 Myrtle Avenue at 8:15 o'clock. Assisting on the program will be Eoghan Kelly, trombonist. The public is cordially invited to attend.

Miss Mary Ann Whelchel, bride-elect of this month, was honored on Tuesday afternoon with a desert bridge given by Miss Audrey Bach and Mrs. M. L. Raborn, Jr. at the home of Mrs. M. L. Raborn at 312 Holy Avenue. The hostesses were assisted in entertaining by Mrs. J. N. Robson, Jr. and Mrs. Raborn. The honor guest was attractive in a cotton dress of green and lavender plaid with white accessories.
A pink and white color scheme was used throughout in party appointments. Pastel flowers were placed in lovely arrangements about the rooms and pink and white bridal tulle were distributed.

FRIDAY
Registration for the Vacation School will be held at the First Baptist Church from 10:30 A. M. to 11:00 A. M. The school will open on June 29.

Prior to the games of bridge refreshments consisting of tea, cream, decorated petit fours and salad were served and late in the afternoon Coca Cola was enjoyed. Those winning prizes for bridge were Miss Elizabeth Fite, Miss Jean Sayer, Miss Charlotte True, Mrs. A. G. Clark and Nancy Williams.

SUNDAY
The Fifth Congressional District Towns and Council will convene at the Tourist Center at 1:30 P. M. Wayne B. Albers will attend the meeting and report to the group. All members are asked to attend and bring their friends.

Those enjoying the afternoon with Miss Whelchel were her mother, Mrs. Hugh C. Whelchel, Mrs. J. N. Robson, Jr., Mrs. M. L. Raborn, Mrs. Philip R. Bach, Mrs. James Alford of Tallahassee and the Misses Betty Jo Brock, Shirley Smith, Elizabeth Fite, Jean Sayer, Charlotte True, Catherine Clark and Nancy Williams.

WMU Circle No. 4 Has Short Meeting

Members of Circle No. 4 of the W. M. U. of the First Baptist Church met last Monday afternoon in the Men's Bible Class room preceding the program meeting. Mrs. R. F. Cooper presided over the meeting and talks were made by various officers.
The group joined other circles following a one hour business session. Members of the circle present were Mrs. S. A. B. Wilkin, Mrs. E. M. Carroll, Mrs. H. VanStone, Mrs. A. C. Williams,

Mr. and Mrs. F. A. Dyson have as their guest Mrs. Dyson's sister, Mrs. A. F. Russell of St. Stephens, S. C.

Mrs. Lauren Johnson, Mrs. Mildred Babcock and Miss Kathleen Babcock are spending this week at Camp Wingmann in Avon Park.

Mrs. W. E. Kirchhoff, Jr., Mrs. Ava Wright Davis, Mrs. F. A. Dyson, Mrs. A. F. Russell of St. Stephens, S. C. and Miss Elizabeth Dyson spent yesterday at Camp Wingmann in Avon Park.

Personals

Mr. and Mrs. H. L. Eubanks and daughter Rochelle left today for Hayesville in the mountains of North Carolina to spend a two weeks' vacation.

Mr. and Mrs. J. D. Woodruff and son Jack Woodruff arrived yesterday from Englishtown, N. J. They were accompanied by Mrs. F. L. Woodruff who has been spending several months in Englishtown with relatives.

Mr. and Mrs. Al F. Hunt returned yesterday from Valdosta, Ga. where they attended the wedding of Mrs. Hunt's niece, Miss Marian Bassford, to Dr. Joseph Hendrix of Atlanta on Tuesday.

Mr. and Mrs. J. D. Woodruff and son Jack Woodruff arrived yesterday from Englishtown, N. J. They were accompanied by Mrs. F. L. Woodruff who has been spending several months in Englishtown with relatives.

Mr. and Mrs. J. D. Woodruff and son Jack Woodruff arrived yesterday from Englishtown, N. J. They were accompanied by Mrs. F. L. Woodruff who has been spending several months in Englishtown with relatives.

Mr. and Mrs. J. D. Woodruff and son Jack Woodruff arrived yesterday from Englishtown, N. J. They were accompanied by Mrs. F. L. Woodruff who has been spending several months in Englishtown with relatives.

Miss Audrey Melba Bach whose engagement to George Andrew Speer is being announced today by her parents, Miss Bach graduated this month from John B. Stetson University in Deland where she was outstanding in all phases of school activities. Mr. Speer is a student in law at the DeLand University.

Miss Whelchel Given Tea At Hill Home

In a series of lovely parties being given for Miss Mary Ann Whelchel, bride-elect, Mrs. W. C. Hill, Mrs. W. A. Adams and Mrs. Wallace W. Bell entertained yesterday afternoon with a tea at the Hill home on Magnolia Avenue.

Pink was the outstanding color in the attractive decorations which included pink gladioluses in the hall and pink roses and blue hydrangeas in effective arrangements in the living room.
Punch was served on the side porch which was decorated with yellow geranium and lilybush with greenery. The table was covered with a pineapple linen cloth and presiding over the punch bowl were Mrs. Lloyd F. Boyle and Mrs. Hamilton Babcock. Rhasta daisies centered the dining table which was overlaid with a Madeira linen. Mrs. Lee Draper of Lake Wales, Mrs. Roby Laing, Mrs. Boyle, Mrs. James P. Ridge, Mrs. Tom Bolt, Mrs. Roy Williams, Mrs. Edmund Melch, Mrs. Phil Bach, Mrs. L. A. Howard, Mrs. John Pierce and Mrs. C. P. Velle, both of Daytona Beach. Also Mrs. Babcock, Mrs. Bruce Bolt, Mrs. Herbert Moreland, Mrs. Mason Wharton of Orlando, Mrs. M. L. Raborn, Jr., Mrs. David Thrasher, Mrs. Robert Callahan, Mrs. Lee Moore, Mrs. Donald Jones, Mrs. James Alford of Tallahassee, Mrs. Crapp, Mrs. Lee Draper of Lake Wales, Mrs. Roby Laing, Mrs. Boyle, Mrs. James P. Ridge, Mrs. Tom Bolt, Mrs. Roy Williams, Mrs. Edmund Melch, Mrs. Phil Bach, Mrs. L. A. Howard, Mrs. John Pierce and Mrs. C. P. Velle, both of Daytona Beach. Also Mrs. Babcock, Mrs. Bruce Bolt, Mrs. Herbert Moreland, Mrs. Mason Wharton of Orlando, Mrs. M. L. Raborn, Jr., Mrs. David Thrasher, Mrs. Robert Callahan, Mrs. Lee Moore, Mrs. Donald Jones, Mrs. James Alford of Tallahassee, Mrs. Crapp, Mrs. Lee Draper of Lake Wales, Mrs. Roby Laing, Mrs. Boyle, Mrs. James P. Ridge, Mrs. Tom Bolt, Mrs. Roy Williams, Mrs. Edmund Melch, Mrs. Phil Bach, Mrs. L. A. Howard, Mrs. John Pierce and Mrs. C. P. Velle, both of Daytona Beach.

Mrs. Kastner Honors Miss Carol Skinner

Mrs. Harold Kastner entertained yesterday afternoon with a beach party for Miss Carol Skinner, who graduated last Friday from the local high school. The group gathered at the Kastner home in Mayfair and left Sanford for Daytona Beach about 2:00 o'clock.

Swimming was enjoyed during the afternoon and a fried chicken supper was served about 6:00 o'clock. Mrs. A. L. Skinner, mother of the honor guest, assisted Mrs. Kastner.
Those enjoying the afternoon with Miss Skinner were the Misses Peggy Pippin, Shirley Moreland, Betty Rene Hall, Mary Helen Fite, Phyllis Bach, Barbara Ann Edmonfield, Betty Duncan, Olive Ann Adams, Embley Melch, Nizie Kirchhoff, Mary Anne Galloway, Lee Harden, Bill Ludwig, Clarence Lila Leffler and Beatrix Rucker.
Also Harold Kastner, Jr., Brien Gramham, Carl Williams, George Chapman, Alvin Kilpatrick, John Alexander, Bobby Jones, Mike Brown, Jimmy Ludwig, Floyd Cooper, Glenn McCall and Dan Batten.

Miss Audrey Bach To Marry George Speer

Mr. and Mrs. Philip Robert Bach announced today the engagement to their daughter, Audrey Melba, to George Andrew Speer, son of Mrs. W. A. Adams and Mrs. Wallace W. Bell entertained yesterday afternoon with a tea at the Hill home on Magnolia Avenue.

Miss Bach attended the local schools and graduated from Seminole High School. She attended Florida State University in Tallahassee and graduated cum laude from John B. Stetson University in Deland. At Stetson she was editor of the student magazine "The Stetson Quarterly" and a member of Pi Beta Phi social fraternity.

Mr. Speer also attended the Sanford schools, graduating in 1947 from Seminole High School. He served in the United States Navy for two and one half years. Upon his discharge he entered Stetson University where he was pledged to Sigma Nu social fraternity. At present he is attending the College of Law at Stetson. Plans for the wedding are to be announced at a later date.

Mrs. Kastner Honors Miss Carol Skinner

Mrs. Harold Kastner entertained yesterday afternoon with a beach party for Miss Carol Skinner, who graduated last Friday from the local high school. The group gathered at the Kastner home in Mayfair and left Sanford for Daytona Beach about 2:00 o'clock.

Swimming was enjoyed during the afternoon and a fried chicken supper was served about 6:00 o'clock. Mrs. A. L. Skinner, mother of the honor guest, assisted Mrs. Kastner.
Those enjoying the afternoon with Miss Skinner were the Misses Peggy Pippin, Shirley Moreland, Betty Rene Hall, Mary Helen Fite, Phyllis Bach, Barbara Ann Edmonfield, Betty Duncan, Olive Ann Adams, Embley Melch, Nizie Kirchhoff, Mary Anne Galloway, Lee Harden, Bill Ludwig, Clarence Lila Leffler and Beatrix Rucker.
Also Harold Kastner, Jr., Brien Gramham, Carl Williams, George Chapman, Alvin Kilpatrick, John Alexander, Bobby Jones, Mike Brown, Jimmy Ludwig, Floyd Cooper, Glenn McCall and Dan Batten.

Make a quick chicken paprika dish by adding about a half cup of diced onion and a tablespoon of paprika to a large frying chicken when you are browning it; then add a cup of stock, cover the pan, and cook until tender. Just before serving mix a cup of sour cream into the gravy, correct the seasoning, heat thoroughly, and serve over poppy seed noodles.

The development is particularly evident in the metal, machine, instrument and conveyance group of industries where 793 companies have announced their intention of building new plants or expanding existing factories. Thirty-four of these firms are from the United States, Todd says.

Be sure to dry fish filets after you have washed them, using a paper or some other soft towel. To give the filets a delicious crisp crust, dip them in slightly beaten egg and cracker crumbs before frying, or in milk and corn meal. Lemon wedges are a "must" when it comes to serving the filets.

For a quick four-o'clock pick-up on a warm day mix equal amounts of chilled prune juice and milk. Add a scoop of vanilla ice cream to each glass, if desired, and serve with long spoons and straws.

A new jewelry gimmick is scatter pin combinations which match wedding bands.

Snap and water will not hurt the wiring or affect the operation of an automatic blanket. You should make sure it is clean and safeguarded from moths before storing it.

Giants Meet G's Here Tonite

Sanford Takes 7-5 Tilt From Gainesville As Lake Wins 8th Game Of Year

GAINESVILLE, June 16.—(Special)—Joe Malinowski, Sanford second baseman, singled in the 12th inning last night in Gainesville to chase two mates across the plate to give the third place Sanford Giants a 7 to 5 victory over the Gainesville G-Men.

Tonight the Giants play hosts to the G-Men in Sanford's Municipal Park, and Manager Hal Gruber indicated last night that he would send Lethander Jack Deal to the hill tonight to face Manager Spec Doster's crew.

The Daytona Beach Islets edged the St. Augustine Saints last night to tie the G-Men for first place in the FBL standings. Lou Bevil chalked up the victory for the Daytonians as Siva Karpinski received credit for the loss.

Buddy Lake twirled the final four innings of the tilt last night and was named the winner of the tilt. Myrtle Hoag, who went to the mound in the tenth for the G's, was the loser. Larry Barry started for the Giants and was relieved by Lake.

Lou Bevil batted as well as pitched in Daytona's 1-4 to their victory. His homer in the eighth featured a five run rally by the islanders. Red Dulaney also homered for the victors.

The other games in the Florida State League were rained out. DeLand, although idle, moved into the first division on the strength of the St. Augustine loss.

Cardinals And Tribe Tie For Sally Loop Lead

By ASSOCIATED PRESS
More than a month of hard ball playing has finally paid off for the Columbus Cardinals. They have pulled even with the Savannah Indians in the South Atlantic League pennant race.

The Cards last night posted the cellar-dwelling Reds of Columbus, 5 to 1, while Charleston's Rebels shutout the Indians, 4 to 0. The Macon Peaches shutout the Tigers of Augusta, 10 to 0, in the opener of a doubleheader, and came back to take the finale, 6 to 4. The Jacksonville Tars edged the Spinners of Greenville, 1 to 1.

Besides the tie for the top spot, the standings came in for some thorough scrambling. Macon went into the third slot by virtue of its double victory, and the Spinners dropped down to fourth. The two losses for Augusta dropped the Tigers from fifth to seventh place. The Tars and the Rebels both moved up a peg.

Ivan Johannes yielded four Card tallies in the first frame, but after that he held them pretty well. He gave up one more run in the fifth as Columbus got to him for eight safeties. Mike Clark went the route for the Cards and set the Reds down on five hits. Two of them came in the ninth when the Reds tallied their only marker.

The victory at Savannah was the Rebels' third straight. Avon Driggers hurled a four-hitter at the Tribe. The Reds knocked Sandy Silversmith from the mound in the fourth with a two run rally after they scored one time each in the first and second. Harry Desert came in and gave up three hits through the eighth, and Bill LaFrance held the Indians hitless from there on out.

Huntley Predicts Excellent Year For Volusia Oval

With more than 5,000 persons jamming the gates and with another 1,000 being turned away, the Volusia County Kennel Club at Daytona Beach got away with a flying start for its 20 night greyhound race meeting last week.

A total of 5,258 went through the turnstiles against 3696 on opening night last summer.

Following the opening night both the mutual play and the attendance soared over the previous year.

On Thursday the second night of the meeting the attendance was 1,549 against 1211 the previous year, while on the third night the attendance soared to 2,118 against 1384 in 1943.

Last Saturday 2970 filed into the park against 2301 and on Monday night the attendance was 2112 against 1411 last year.

The mutual play on opening night was \$74,227 against \$53,080 in 1943. Since opening night it has averaged about \$10,000 more each night than last year.

William L. Huntley, president of the club, predicted before the season opened that all records this year would be broken and that the mutual play would probably average \$10,000. The majority of patrons come from Georgia, Alabama, Tennessee, South Carolina and Kentucky, a survey of automobile licenses reveals.

Cataldo's Hitting Streak Ends At 27

GAINESVILLE, June 16.—(Special)—Tom Cataldo, Sanford Giants centerfielder, had his consecutive game hitting streak snapped at a Florida State League record-breaking 27 games last night.

Cataldo went hitless in six appearances as the Giants took a 12-inning 7-5 decision from the G-Men.

Four Gainesville pitchers worked in the game which saw Cataldo ground out twice, hit a fly ball to center field, hit into a force play and fan twice.

3 Sanfordites Get Nice Bass Catch

Raymond Kader, Joe Davis and Wesley Cunningham made a nice catch of fish in Lake Harney early yesterday morning and later proudly entered the Kader Jewelry store with a string of 13 fish which they estimated, weighed 40 pounds.

Wesley Cunningham, home from service in the Merchant Marine for a week or two, revealed that he is having a fine time during his vacation.

State High School Baseball Tournament Trail Ends Tonight

By ASSOCIATED PRESS
Florida's high school athletic program winds up the school year tonight with championship games in the state baseball tournaments.

Orlando and Jacksonville Jackson will meet for the Class A crown at Lakeland.

Winter Haven and Sebring will decide the Class B title at Avon Park.

In winning Wednesday's semifinal game, Orlando slugged two Miami High pitchers for 11 hits and took a 6-3 decision. Buster Reed turned in his second six-hit pitching job in as many days.

Jacksonville Jackson had to go 10 innings to beat Clearwater, 6-2. The Jax team used three hits and four walks to secure four times in the 10th. Ossie McDuffie pitched

FIL Fires Two And Suspends One Ump

WEST PALM BEACH, June 16.—(Special)—The Florida International League came up today with new umpires and player deals in preparation for the drive down the home stretch.

With the season almost half over, League President Phil O'Connell announced Umpires Sam Sincere and Bill Boroway had been released outright and John Ruskin suspended.

G. W. Canis and W. E. Williams were signed to replace them and Al Matuliones will report Saturday to fill the third vacancy.

The Miami Sun Sox sent M. E. Nee to Lakeland's Pilots in exchange for Pitcher Earle Gray. Nee, a big right hander, had a 6-2 record with Miami this year and performed for the same club in 1947 and 1948.

Lakeland also traded Armando Gallert, Cuban shortstop, to Miami Beach for Sindo Valle and Jim Long, both infielders.

The pilots bought Woody Bottoms from Sparta of the Georgia State League and sent Luke Hamilton, veteran pitcher, to Leesburg in the Florida State League. Bottoms was with St. Petersburg in 1947.

Lakeland Business Manager Jimmy Hamilton said, the Pilots probably would send infielder Tony Ortiz to Leesburg in another deal giving Lakeland first call on any five Leesburg players.

Meanwhile, a state law went into effect permitting Sunday night games. The league has had many Sunday night games in the past two seasons, particularly at Miami Beach and Fort Lauderdale, but now they are legal.

Winter Haven made the Class B final game on a total of three hits in two games. The Blue Devils got only one Wednesday night but edged defending champion Avon Park, 2-0. Homer Devane pitched his second win of the meet, giving Avon only three singles. Both Winter Haven runs were unearned.

Seven-hit ball for the winners.

Winter Haven made the Class B final game on a total of three hits in two games. The Blue Devils got only one Wednesday night but edged defending champion Avon Park, 2-0. Homer Devane pitched his second win of the meet, giving Avon only three singles. Both Winter Haven runs were unearned.

Swelling Jellies! The new directors who will serve this year are: Dr. Harry Gibbons, Tulsa, Okla.; W. D. Shultz, Cincinnati, O.; Harold Kessinger, Ridgewood, N. Y.; William C. Rastetter, Jr., Fort Wayne, Ind.; Thomas C. MacNabb, St. John, New Brunswick, Canada; John W. Schaefer, Birmingham, England; Messersmith B. Billimoria, Bombay, India; Conrad Bonneville, Portland, Ore.; Norway; Aalfos Oosthuis, Rosario, Argentina; Constantino Le Rouvillain, Paris, France; and Curt E. Wild, St. Gallen, Switzerland.

The convention's entertainment plans will be discussed tonight by a host of stars. Among the scheduled speakers are: George Swain, New York; Alvin Young, New York; and many others.

Sports Roundup
By HUGH FULLERTON, Jr.

BOXING
Detroit—The Middleweight title fight between Marcel Cerdan and Jake La Motta was postponed 24

hours because of rain.
Harrisburg, Pa.—Leon L. Raina, chairman of the Pennsylvania State Athletic Commission for 40 years and active in boxing for 40 years, retired because of ill health.
HARBALL
Pittsburgh—The Pirates bought

Outfielder Ed Bauer from St. Louis, then traded him and cash to Boston Braves for Catcher Phil Masi; Cincinnati swapped outfielders Hank Sauer and Frankie Baumholtz to the Cubs for Harry Lowrey and Harry Walker in the major deals before the trading deadline at midnight last night.

RACING
New York—The daily double of Cantrun (\$24.00) and Maid of Oz (\$23.80) paid \$1,107.80 at Aqueduct, largest DD payoff of the New York turf season to date.
New York—Colonel Mike (44-20) won the \$20,000 added Shelton Stakes at Aqueduct.
Stanton, Del.—Qua Show (44-40) won the \$10,000 Christmas Stakes at Delaware Park.
GENERAL
Portland, Ore.—The Pacific Coast Conference fined member schools \$21,105 for violations of its purity code; University of Washington drew stiffest penalty, \$5,500.
