

Young Britons Wear Clothes Of Bygone Era

LONDON (AP)—Just before he sailed for Japan last year, Alan Marsh, teenage London seaman, saw something in a London tailor's shop window that changed his whole outlook on life.

It was an Edwardian suit, complete with velvet-collared jacket and calf-clinging drape pants—the kind London dandies wore 50 years ago in the reign of King Edward VII.

Marsh had to make a trip to Japan and back as a seaman before he could raise the \$24 in American money it cost him to buy the costume and become a "teddy boy."

Thousands of young Britons like Marsh, from 15 to the early 20's are buying such suits these days in the fantastic craze that's sweeping England. They've made a new look from the "old look" of Edward's time. Some claim it's the uniform of juvenile delinquency and call the teddy boy "crowds" mere hordes of violence and crime.

Others disagree. As young Marsh said, "When I bought my teddy boy suit I also bought advertisement—white shirts and a narrow, 'slim Jim' tie."

"All you need now is a D. A.," the tailor told him.

D. A. is Edwardian slang for a haircut with upswept curls, a pompadour top and a close resemblance at the back to the rear end of a duck. The haircut costs some teddy boys six dollars for really fancy D. A.'s that rival the coiffure of their girl friends.

Critics say teddy boys must be tempted to steal in order to keep themselves in this sort of fancy which they carry really afford. They also recall pitched battles in which teddy boys have wielded knives, razors and lead bullets.

The boys themselves indignantly deny such tactics. As young Marsh says, speaking in the strange language that has evolved with the strange costume:

"It's no single getting your rig ruffed by some geezer in lunatic. (Meaning there's nothing funny about getting a costly Edwardian costume damaged in a fight.)

He added, "I fight if I have to, but my fists are good enough for me. Anyway, I don't go looking for trouble."

What's this way because we think it smart and not because we are mentally defective. Most of us earn good wages and can afford to buy our clothing. We don't need to steal.

"What's the use of learning to dance properly when the dance halls are so crowded there's no room to do anything else but creep around?"

"Our slang isn't worse than other slang and we think a lot of it is elegant."

As for trading in gangs, Edwardians say this is nothing new. It's just that we're more noticeable now we are in the latest fashion.

Many police officers and social workers side with the teddy boys. They insist that by and large, they are decent living youngsters, perhaps a bit too much addicted to jazz and girls, but no worse than others of their age.

Public concern over the Edwardians was first aroused after a gang fight at Clapham Common in London park where they parade every evening with their girl friends. The fight ended in a fatal stabbing.

The Edwardian style was resurrected four years ago by London's leading tailors in Savile Row. It caught on to some extent among the wealthy, but they abandoned thefad when they found it taken over and adapted by youngsters in East London's slums and elsewhere on the wrong side of the tracks.

Like a political party, there are signs the Edwardians have a left, a center and a right wing.

The rightists are going in for extreme exaggerations of the Edwardian style, notably with knee-length jackets and gaudy vests.

The main body of centrists are resisting any degeneration of the traditional style.

The leftists are going in for extreme exaggerations of the Edwardian style, notably with knee-length jackets and gaudy vests.

For More Fun In A Boat Use Common Sense Afloat

KNOW YOUR BOAT
Every boat has its limitations. Learn what you can expect from your boat.

HEAD INTO THE WAVES
If waves are high, head your boat at an angle towards the waves at slow speed.

BALANCE YOUR LOAD
Distribute weight evenly in the boat. Distribute side to side and from bow to stern.

USE THE RIGHT MOTOR
Too much power can damage your boat—may even swamp it. Look for OMC recommended horsepower plots.

WATCH THE WEATHER
Head for shore before a storm breaks. If caught out, seat passengers on floor.

DON'T OVERLOAD
Seats do not indicate capacity. Two or three adults may be a full load under many conditions.

AVOID SHARP TURNS
Fast, sharp turns are hard on equipment—and sometimes on people. Take it easy.

KEEP LOW
And step in the center when boarding the boat or changing seats.

Follow the eight simple rules shown here for more safety and fun afloat this season, says the Outboard Boating Club of America, national organization of outboard boat and motor owners. Boating is the safest of outdoor sports, says OBC, if you'll use common sense and courtesy.

Failure Of Bomb To Kill Hitler Resulted In Definite Effects On Germany, World

BERLIN (AP)—Ten years ago today a Prussian nobleman, crippled by war wounds and disfigured by Nazism, placed a briefcase against a pillar in Adolf Hitler's Hakenkreuz military headquarters.

Count Claus von Stauffenberg had worked hard to reach a position of confidence that made his "briefcase" visit possible.

No one noticed, when he left the headquarters in East Prussia, that he had left anything behind.

As he reached the outer barriers of the tightly guarded area, a giant explosion rocked the building and sent a wall of the Hitler hideout belching smoke, dust and flame.

The deadly bomb contained in the briefcase had gone off right on time.

But Hitler was only wounded in the left arm. He lived to compel Germany to struggle on another year with a war that already was lost.

Had the July 20 plot succeeded a government headed by honorable anti-Nazi military men would have taken over Germany and sued for peace with the Allied nations were still outside its border. A million lives would have been spared and the Soviet Union might not now be planted solidly in central Europe.

Despite this, in Germany today there is still argument whether the men who planned and executed the attempted assassination were heroes or traitors. Aside from the physical danger involved in bucking the dictatorship, a moral principal was involved. All of them had at one time sworn the traditional military oath of fealty. In the secret councils they decided, however, that the Fuehrer had prostituted the oath by exacting it personally rather than directing it toward the interest of the fatherland.

The West German government has taken its stand definitely on the side of the band of patriots who thought of their nation first and their personal lives and liberty second.

But die-hard Nazis had sticklers for sworn oaths, regardless of the implications, still regard the attempted putsch as treasonable. History as it is being taught in the German schools does not pin down the decision either way. However, the textbooks cautiously point out that the 10 months of war that followed smashed the nation for many years to come.

The misgivings of the plot were senior officers trained for years to know when a battle is won or lost. Top man was Col. Gen. Ludwig Beck, former chief of staff. With him was Col. Gen. Fritz Oster, his own companion. Adm. Wilhelm Canaris, head of Hitler's military secret service, was executive officer. Another high official connected with the group was Field Marshal Erwin von Witzleben.

Their plan had one gigantic flaw: no one was assigned to seize Radio Berlin. Propaganda Minister Joseph Goebbels capitalized on this weakness immediately. He quickly took to the air and told the German people the Fuehrer was alive and well and presented Hitler's voice in a recording. This turned the tide in a revolt that conceivably might have succeeded even without Hitler's immediate death.

Beck took the Prussian officer's traditional way out. His pistol beat approaching SS guards by a matter of hours. Three of his closest associates in the old Wehrmacht were hauled into the courtyard, lined up against a wall and summarily shot without trial.

The headquarters now is a retirement center. A bronze statue in the center honors the conspirators as men who fought for liberty.

But many moved from various parts of Germany moved there several thousand suspects, again without trial.

The total had been estimated at slightly less than 1,000.

Flood Strikes Mountain Town

RICHWOOD, W. Va. (AP)—This mountain town of 5,300 was in a state of emergency today after a devastating flash flood which left at least one dead and caused damage estimated at two-million dollars.

The rushing waters of the Cherry River, which ran as deep as 12 feet in the streets of Richwood after a downpour the night before, were gone by yesterday afternoon.

The flood drove 200 families from their homes in Richwood alone, the American Red Cross reported. National Guard authorities said 22 homes here were destroyed.

Scores of others were damaged. Two Coast Guard helicopters resumed food drops to cut-off outlying sections today after an overnight halt.

The property loss estimate, first figured at about \$250,000, was mounting. After contacting business men and property owners, editor James F. Comstock of the weekly Nicholas News Leader here said the loss would run to two million dollars.

The first fatality was Thomas Martin, 72, who was stricken by a heart attack as a National Guardsman and policeman helped him from his flooded Richwood home. His son, Donald, remained on duty through last night with the National Guard.

In the good old summertime there's no better place to snap pictures than at lakeside or seaside—especially when a pretty girl is the subject. For a different kind of snapshot, a low camera angle makes an unusual picture. A camera like the Kodak Duaflex with its fine viewfinder makes it easy to take such pictures.

NANCY KEFAUVER, who learned about campaigning when her husband, Sen. Estes Kefauver (D-Tenn.), sought the Democratic nomination for President in 1952, again hits the political trail for him in his bid for reelection. She is shown conferring with secretary Don Vaughn before making a speech for Estes at Clinton Tenn. Nancy took over her husband's tough five-rally-a-day schedule when he was unable to get away from his duties in Washington. (International Soundphoto)

COAST GUARD RESCUERS lift aboard their craft Harry Heidick, skipper of the ill-fated North V, a 43-foot fishing boat which capsized in Delaware Bay. Del. Two women were drowned and a man is still unaccounted for. Six survivors, including the skipper, were taken to a hospital for treatment of shock and exposure after having spent more than six hours in the water. (International Soundphoto)

Coconut Cookies Always Welcomed By The Kiddies

These cookies are less sweet than some. They're excellent to serve to children with milk or have on hand when friends drop by for afternoon tea. Made as they are, with coconut and corn, soya shred cereal, they have fine flavor, firm, chewy texture, and are good-sized—about 3 inches in diameter.

COCONUT CHEWS
2 1/2 cups sifted flour
1 1/2 teaspoons baking soda
1 teaspoon salt
1 cup granulated sugar
1 cup brown sugar
1 cup melted butter or margarine
1 teaspoon vanilla
2 eggs
2 cups corn soya shreds
1/2 cup shredded coconut

Mix together flour, soda and salt. Blend sugars, melted butter and vanilla. Add eggs, one at a time, beating well after each addition. Stir in corn soya and coconut. Add sifted dry ingredients, and mix well. Drop by teaspoonfuls onto greased baking sheets. Bake in moderate oven (375° F.) about 10 minutes or until lightly browned.

Yield: 5 dozen cookies, about 3 inches in diameter.

Shortening may be substituted for up to half the amount of butter, if desired.

ARMORED CAR DISAPPEARS
PHILADELPHIA (AP)—Police "lost" a Philadelphia Transportation Co. armored car reportedly carrying \$300,000 yesterday and there was some mad scribbling about the city for a brief spell before it was found again—safe in a company garage.

The car was involved in an accident with another vehicle and several persons suffering minor injuries were taken to nearby hospitals by police cars.

Before leaving the scene, the officers radioed for added help to guard the contents of the armored car. Meanwhile, a company tow truck arrived and towed the disabled car to a garage.

THREE-PIECE "THURSDAY TO MONDAY COSTUME"—is fashioned of lacquer red wool—designed for spring. A waist-length jacket buttons over the basic sheath dress, cut with a low V back but sleeved to wrap-length. Completing the costume is a full length coat lined like the jacket, with paisley cotton. The coat has a sailor collar and paisley scarf.

Eisenhower Denies Accusation He Is Trying To Eliminate TVA

Strolling In Sanford

Barry Crim Friday evening at 7 o'clock will give a teaching demonstration on his group leadership training program at the City Hall. All interested may attend.

Glenn Gilbray who was honored on his seventh birthday yesterday at the residence of his grandparents, Mr. and Mrs. H. Massey, 21 Chapman Ave., is looking forward to his best present. His father who has been overseas with the U. S. Air Force for 18 months, will be home in three weeks.

Local band members at the University of Miami Summer Music Camp, Leslie Smith, Larry Rayton, Robert Newton, Hal Reilly Jr. and Joe Fisher, are "doing fine," according to Ernest Cowley, bandmaster at Seminole High School, who also is attending the camp as a teacher. "Joe Fisher and Bob Reilly are playing to parts in the 'white band' he said. "The white band is the top band and it is quite a honor to be playing in it. A smaller group of the better players from the white band will form a 21-piece television band to present a TV program on WTVT Sunday at 1:30 p.m. Joe Fisher is among the 21. There are approximately 160 members in camp. Leslie Smith plays solo cornet with the orange band. The camp ends July 29 with an award banquet. According to the program, Cowley was one of the conductors of the orange band at a concert last Sunday. Henry Fillmore, famous composer, was conductor of the white band during the playing of two of his numbers.

Slaying Lead Fizzles Out

INDIANAPOLIS, Ind. (AP)—Police were left without a good lead today after they ruled out a taxi-driver's search for the killer of 18-year-old Dorothy Poore.

Good Use Made Of FHA Services Local Agent Says

Farm families in Seminole County have made good use of Farmers Home Administration credit and services this past year and have stepped up the efficiency of their farming operations, Curtis J. Green, the agency's county supervisor at Sanford, said today.

Work Is Started On Foundation Of Storage Tank

The foundation of the elevated water storage tank to be constructed on Mellottville Ave. at the site of the old baseball park began today, according to Warren Knowles, City manager. Knowles said the project which is contract No. 2 of the water and sewer program, will take about 45 days.

Contract No. 1 is held by the Whitmore Tank Co. A 200,000-gal storage facility will be built at the cost of \$40,000 as soon as the Peninsula Construction Co. completes work on the foundation. The Peninsula project is at a cost of \$3,900.

Work will be started by E. H. Holcombe, Clearwater contractor on contract No. 3 tomorrow. Scheduled to be finished within 60 work days, the job will entail the laying of 21,000 feet of cast iron water main. Materials have been arriving for the past week, Knowles said.

Hubbard Construction Co. of Orlando is viewing contract No. 4 for final signing. Work on the \$240,000 job should be underway within about three weeks, the City Manager opined.

Contracts No. 5 and 6, which have been submitted to McPoland Brothers of Wetumpka, Ala., will be underway within a week, according to the contract terms.

Work is progressing very well on city Mgr. Knowles said, on the \$142,000 project No. 7, which involves a large interceptor line which is presently being laid a foot below the street.

Contract No. 8 has not been pending further study, Knowles concluded in his survey of the construction projects.

Young Girl Found Tied, Unconscious After Attack Try

HOLLYWOOD (AP)—A 14-year-old girl found only in a brassiere was found bound and unconscious in front of the Baptist Church last night, the victim of attempted rape.

Shirley Amos Hall of Broward County who investigated said he did not think there was any connection between the attempted attack and the kidnapping of Judith Ann Roberts, 7, in Miami on July 7.

"They aren't the same type of crime," he said. "The man who tried to assault the girl here was not a sadist."

Hall said the 14-year-old girl was not raped and wasn't harmed except for the raw in her mouth and around her throat.

He quoted her as saying she was coming home from a girl friend's house about 8:20 p. m. (EST) when she noticed a man in a black car following her.

In front of the church, she said, the man got out of the car and threatened her with a gun. He forced her to the rear of the church, ripped off her pedal pushers and blouse, tied her hands and feet and gagged her.

Hall said that after the man left the girl said she crawled around the front of the church and then lost consciousness.

Children playing nearby heard her screaming and notified authorities. Medical Examiner A. E. Cronkite examined the girl at Hollywood Memorial Hospital.

HITS ARMISTICE TAPEI, Formosa (AP)—Chinese Nationalist Foreign Minister George Yeh declared today that with the Indochina armistice the Communists have "achieved another milestone in their plan of world conquest."

The pattern is set for history to repeat itself," he said. Newspapers on this island ruled by Chiang Kai-shek accused the West of aggression and conceded to the Communists a great diplomatic victory.

Says Program Of Legislation In Good Shape

WASHINGTON (AP)—President Eisenhower said today anybody who accuses him of trying to destroy the Tennessee Valley Authority is in error—to put it as mildly as possible.

The administration's attitude toward TVA has come under hot debate in the Senate, revolving about an Eisenhower-endorsed proposal for a new private power source in the Tennessee Valley.

The President spoke out on the controversy at a news conference largely devoted to the Indochina settlement reached in Geneva. In the course of this discussion he said he does not believe the Communists are willing to risk an all-out war with the free world.

As for his legislative program in general, Eisenhower said he thinks it is coming along in good shape, although Congress is not giving him everything he asked for.

He spoke without rancor of yesterday's House vote turning down his four-year public housing program and said simply he would make recommendations to the next Congress aimed at meeting the housing needs which will exist at that time.

The House rejected 234-154 Eisenhower's program to build 1,000,000 public housing units in four years. The President said, however, his housing program as a whole has met with considerable success, and does include some public housing features.

On the TVA controversy, Eisenhower said the question is a national one and not simply a regional one. He described himself as not bound by his state, but that private power should be fed into the TVA system as he directed in a recent order.

His order stirred up lengthy Senate debate which has delayed action on his atomic energy program as a whole.

The President said he's always willing to amend a course if it is shown to him.

But in the TVA dispute, he said it is a question of building steam plants to produce electricity. He said the problem is that the federal government is going to undertake the building of the plants, why not do it in such places as the Missouri Valley before doing it in the central plains, in the Tennessee Valley region.

He emphasized he was simply trying to find out the facts, to determine the best policy, and he added with vigor that anybody who gets up and says there is any attempt to destroy TVA is, to put it as mildly as possible, in error.

The President began his news conference with a prepared statement saying he was glad agreement to stop the bloodshed in Indochina had been reached, although the agreement contains features which we do not like.

Eisenhower said "any renewal of Communist aggression would be viewed by us as a matter of grave concern."

And he said this country will actively pursue "the rapid organization of a collective defense in Southeast Asia in order to prevent further direct or indirect Communist aggression in that general area."

A reporter asked what significance the President attached to the fact that, for just about the first time in 20 years, there isn't a war going on somewhere in the world.

Thoughtfully, Eisenhower said he never has felt that except for satellite excursions, the Communist world wants war with the West at this time.

He went on to say he does not believe the Kremlin intends to make a deliberate challenge to a world-wide challenge to a war of exhaustion.

An increasing number of states, alarmed at the rising accident rate, are stepping up their traffic enforcement campaigns," Hays said. Among the techniques being used are radar speed detection devices, unmarked police cars, helicopters and motorcycle police.

"A motorist traveling in an unfamiliar state can easily violate a traffic law under ordinary circumstances," Hays added. "But when a state is cracking down on all violators, the chances become much greater of an out-of-state motorist running afoul of the law."

The best rule to follow when driving through a strange state, the AAA official said, is to study the traffic laws, and make every effort to observe them, driving cautiously and alertly.

Among the states now intensifying their traffic enforcement campaigns are North Carolina, Pennsylvania, Oklahoma and Washington.

Governor Receives Threats

MONTGOMERY, Ala. (AP)—The threat of reprisal that brought fear to Phenix City citizens through years of racket rule has now struck straight at Alabama's capital and even reached the governor's mansion.

Six highway patrolmen, working in pairs for eight-hour shifts, have been assigned to plain clothes duty at the governor's mansion after the life of Gov. Persons was threatened.

Another patrolman has been posted at his office during daytime. The governor brushed aside questions with a flat "no comment" yesterday, but a reliable official confirmed that Persons had received threats through telephonic calls at his home and office.

Other state officials reportedly marked for death by Phenix City mobsters are Public Safety Director L. B. Sullivan, incoming Attorney General M. M. Jones and Donald Gallion, special counselor for Gov. Persons in the A. L. Patterson murder investigation.

Sullivan confirmed reports that an automobile had tried to run him off U. S. highway 80 when he was returning to Montgomery from Phenix City a week or 10 days ago. He said the car swerved off a side road and sped away before he could get a look at the occupants.

Gallion, a Montgomery attorney, said his wife was followed when driving home from Phenix City last week and an unidentified caller warned her over the telephone. "If we can't deal with your husband we'll deal with you."

By THE ASSOCIATED PRESS. Showers exact a crop-damaging rain wave in parts of the nation's parched corn belt today.

A wide strip of torrid weather continued across the South and West today, and the number of heat deaths in the nation since the origin of the general heat wave July 7 rose to 204.

Cooler air from Canada soured the central plains, the Tennessee Valley and the Great Lakes region. The temperature at Memphis, Tenn., fell from 98 degrees at 2 p. m. to 74 at 8 a. m.

Showers swept from Chicago southward across Illinois, where drought and heat had damaged young corn seriously and killed thousands of chickens and pigs.

A farmer was crushed to death at Fort Wayne, Ind., last night when a rainstorm flattened his barn. Two persons were killed by trees falling on automobiles.

Two persons were killed by lightning in southeastern Ohio and a third was injured and killed in the rain-swept Scioto River as heavy rains doused thousands of that state.

Hurricane force winds lashed Florida and Maine today. The wind tore off roofs, uprooted trees and snapped power lines.

Thunderstorms were quite general from eastern Iowa to eastern Virginia.

The temperature touched 100 degrees in Kansas City, as the number of heat deaths in that state swelled to 107. Twenty of the deaths occurred on Monday and Tuesday.

Close Observance Of Laws On Trip Advised By AAA

JACKSONVILLE — Vacationing Florida motorists may save themselves unnecessary difficulty by making a special effort to observe the traffic laws of the states through which they travel.

This note of caution was sounded today by Walter M. Hays, manager of the North Florida Division of the American Automobile Association.

"An increasing number of states, alarmed at the rising accident rate, are stepping up their traffic enforcement campaigns," Hays said. Among the techniques being used are radar speed detection devices, unmarked police cars, helicopters and motorcycle police.

"A motorist traveling in an unfamiliar state can easily violate a traffic law under ordinary circumstances," Hays added. "But when a state is cracking down on all violators, the chances become much greater of an out-of-state motorist running afoul of the law."

The best rule to follow when driving through a strange state, the AAA official said, is to study the traffic laws, and make every effort to observe them, driving cautiously and alertly.

Among the states now intensifying their traffic enforcement campaigns are North Carolina, Pennsylvania, Oklahoma and Washington.

ELECTED LAKELAND (AP)—J. Clary of Lakeland was elected president of the Florida Chapter of Associated Public Safety Communications Officers here yesterday.

13 Million Fall To Reds

Armistice Brings End To Conflict

Nation Delays Truce Action

GENEVA (AP)—France made peace with her Communist enemies in Indochina just before dawn today and a new Iron Curtain clanked down on 13 million persons in north Viet Nam.

Gen. Georges Deleite of France and Gen. Tu Quang Bui of the Viet Minh rebels signed armistice agreements covering Viet Nam and Laos just 3 hours and 50 minutes after the Tuesday midnight deadline French Premier Pierre Mendes-France had set for peace or his resignation.

Truce for the third Indochina state, Cambodia, was scheduled to be signed later today.

The simple signing ceremony, under a blaze of spotlights, took place in the former home of the League of Nations, called a halt to an eight-year war in which 92,000 soldiers of the French Union expeditionary corps died or disappeared.

It also laid a Korean-like partition across the 42-mile waist of Viet Nam, Indochina's largest, richest and most populous state, about at the 17th Parallel of latitude.

Communist leader Ho Chi Minh will take over the destinies of the results north of the line. The 10 million Vietnamese below the partition will live under the pro-Western regime of chief of state Bao Dai.

All Vietnamese elections, not earlier than one year from today and not later than two years, are supposed to reunite the divided country. But Western officials here generally conceded the temporary partition line probably will become a political and ideological frontier like those which split Germany and Korea.

Officials said the texts of the agreements would not be published for several days, but their contents already were generally known.

Civilians on either side of the partition line will have one year to move to the other side if they desire.

The French have the next 500 days to move out of the big northern cities of Hanoi and Haiphong. Until that day next May they will maintain an enclave in the Red River Delta around those two major cities.

Cambodia and Laos will remain under their French-supported royal governments. Vietnam troops will be withdrawn from those two major states.

The Holloman Center provides the testing ground for the 60th Test Squadron, provides the men whose routine duty is to shoot 4000 rockets 90 miles toward the sky.

Holloman, an abandoned air base, time 1929, now is a massive science fiction layout of radar towers, blockhouses and instrument centers and airstrips.

Admiral Byrd Plans Return To Antarctic

CLEVELAND (AP)—Admiral Byrd, now 65, said today he is planning to return to the Antarctic as soon as he can get together an expedition.

He told the Post and Egg National Board at a breakfast meeting that further exploration of the South Pole region is important from both the military and economic standpoint.

"If the Panama Canal were knocked out by an atom bomb, we would have to get our ships from the Atlantic to the Pacific through the Strait of Magellan or between Antarctica and South America via Drake Passage," he said.

It would be essential, therefore, for this nation to have control of that part of Antarctica that is nearest to Cape Horn and of the islands between the cape and Antarctica.

From the economic standpoint, the retired U. S. Navy officer said, "in the foreseeable future we will be greatly in need of these resources: coal, uranium, oil, and other minerals that lie untouched at the bottom of the world."

Byrd, the first American to explore the South Pole, first flew there Nov. 29, 1929, and made other trips there in 1933 and 1947.

DIES LAKE CITY—Clarence Epperson, former Levy County state representative, died today.

"OPERATION KINDER LIFT" gets under way in West Berlin as the first of 1,260 refugees and orphans prepare to take off on a U. S. Air Force plane for a vacation with American and German foster parents. U. S. hand to see them off in West Berlin. (Associated Press)

Fantastic Is Routine Biz At Air Center

ALAMOGORDO, N. M. (AP)—The fantastic has become routine in little more than five years at Holloman Air Development Center.

Any week and every week rockets can be shot 80 miles up into space, carrying incredibly complex electronic instruments to ask questions and give answers on what's up there.

For instance, one mission of the last 200 test rockets rocketed whizzed upwards from the White Sands desert floor was checking wind velocity and direction in the upper atmosphere.

The rocket itself hurtles upward at supersonic speed, not very much less than a mile a second or 3,600 miles an hour.

The wind check instrument and tiny vane mounted in a pointed nose, which is fired out as the rocket ascends, are recorded by electronic means.

All the rocket checks on temperature, radiation, light and chemical changes have a military purpose. Missiles are being developed that fly or will fly in these altitudes.

Instruments to guide these missiles must be perfected. How upper atmosphere conditions affect the guiding gear must be learned.

The Air Force Cambridge Research Center at Cambridge, Mass., assigns rocket missions to test instruments and instruments.

They set fire to the brush that winds in 1947, now is a massive science fiction layout of radar towers, blockhouses and instrument centers and airstrips.

Solon Predicts Pension Action

OCALA (AP)—State Sen. H. C. Pearce of Palatka told the Florida House of Representatives today that he feels the 1955 legislature will put through an adequate retirement and program for them.

Pearce introduced as one of the pension bills, the Florida Pension Bill, which would provide for the retirement of the State Police, the State Highway Patrol, and the State Auditor.

"I believe that the pension bill will be passed," he said. "It is a very important bill and it will be a good beginning."

He said that the pension bill will be passed, and that it will be a good beginning for the pension system in this state.

He said that the pension bill will be passed, and that it will be a good beginning for the pension system in this state.

Sixteen People Contract Polio

DE LUNIAK SPRINGS (AP)—Sixteen persons, including four out of town children, have been stricken with polio in the past year, according to health officials here.

The health department said yesterday the children apparently came in contact with other young persons with the disease at nearby Polio Day while on a July 4 visit with their grandparents.

Escaped Con Smoked Out

JACKSONVILLE BEACH (AP)—They actually smoked out the open one of two escaped convicts here yesterday.

The two had been a work crew, ran between several hours and hid in dense underbrush at the rear of the buildings.

Guards could not see them because the houses were in line of fire but in the search came upon one Robert Heath, who surrendered.

The other one, Boatright, serving 20 years from Duval County for robbery couldn't be found so firemen were summoned. They set fire to the brush that winds in 1947, now is a massive science fiction layout of radar towers, blockhouses and instrument centers and airstrips.

They were George and Mike Brown of Madison, and a small son and daughter of Mr. and Mrs. Mitchell Huddleston of Miami.

President Comments On Treaty Pact Regarded As Red Victory

WASHINGTON (AP)—President Eisenhower, commenting on the Indochina cease-fire agreement, said today he does not believe the Communists want war at this time.

Eisenhower said in a formal statement at his news conference that the agreement "contains features which we do not like but a great deal depends on how they work in practice."

He said the United States is working actively with other free nations to organize rapidly a "collective defense in Southeast Asia in order to prevent further direct or indirect Communist aggression in that general area."

Although the President said he didn't wish to discuss Indochina beyond the formal statement, because of the delicacy of the situation, he did say later on that if there is one good to come out of the settlement it is this:

It may get the free world to look facts in the face and determine what sacrifices it would be willing to make in the cause of preserving freedom.

By JOHN M. HIGHTOWER. WASHINGTON (AP)—The negotiated end of the war in Indochina is generally regarded here as a victory for the Communists and a defeat for the free world.

It halts a direct billion-dollar-a-year drain of money and arms on the United States.

But it also creates an urgent need to shore up non-Communist areas of Southeast Asia which will almost certainly impose new burdens on this country and its allies, and absorb some of all of the Indochina savings.

U. S. government officials have been talking with French leaders for several months about the issue of Red areas all arms and equipment which French and native anti-Communist forces have been equipped with. It is understood the French have given assurances this will be done.

It was learned, meanwhile, that the American and Allied governments are planning shortly to issue declarations of intent to form eventually a collective defense for Southeast Asia and warning the Communists not to undertake any new aggressive moves in that area. Such action has been discussed with a number of friendly governments and reports today were that it had been tentatively agreed upon.

The United States and Britain, however, are still divided over the timing of actual formation. Authority estimates it will be many months before the united defense system can be set up. The United States would have preferred quicker action but Britain is anxious to hold the cooperation of heads to the full extent possible and consequently has been moving cautiously.

American officials studying the Indochina settlement agreed today that the impact of the pact will reach far beyond Southeast Asia and probably will be felt throughout the whole range of relations between Communist and non-Communist blocs.

They were George and Mike Brown of Madison, and a small son and daughter of Mr. and Mrs. Mitchell Huddleston of Miami.

MYSTERY SURROUNDING the theft of a "prisoners' miniature painting from the De Young Museum in San Francisco was cleared up when Edward Galloway (right), a young truck driver, returned it to the police. Said to be the work of Finnish master Peter Paul Rubens, the miniature of Archbishop Albert of Austria (left) was ripped from the wall of the gallery. Suspicion centered on Galloway, who was in the museum at the time. Police may be contacted when questioned. (International)

Services Held For Mrs. Potter

Friends of Mrs. J. H. Standifer of Sanford will regret to learn of the death of her mother, Mrs. Zora Potter, who died at the home of another daughter, Mrs. C. E. Riley last Friday in Chattanooga, Tenn.

Mrs. Potter was 85 years old at the time of her death. She is survived by six children, 14 grandchildren and 14 great grandchildren. She was a member of the First Methodist Church of Chattanooga.

Funeral services were held last Sunday afternoon and burial was made in White Oak Cemetery in Chattanooga.

Highway Program

President Eisenhower, in a message to the conference of Governors, called for the expenditure of billions more than we are now spending for highway improvement. He said that improvements are necessary to meet the defense needs for possible atomic warfare and the well-being of a population of 200,000 by 1970.

The President said that our transportation system is the best in the world in many respects, but added that that is far from enough in an era when "defensive and productive strength require the absolute best." He described our system of highways as inadequate locally and obsolete nationally. He cited the fact that many of our highways "happened" accidentally rather than as the result of planning.

Expenditures for highways, the President said, will pay off in economic growth. He mentioned some of the penalties, such as death from traffic accidents, delays due to traffic jams, crowding of courts, production nullified by delays in delivery of goods produced, that result from inadequate highways.

The President's message was wise and far-sighted. He understands that federal, state and local cooperation will be necessary to achieve the goals he envisions. It is to be hoped that authorities on all levels of government will understand and act on the program he proposed.

TODAY'S BIBLE VERSE

The ark rested . . . upon the mountains of Ararat. Gen. 8:4 Abraham was raised in Ur a city in Sumer, the oldest civilization in the world. The history is divided ancient and modern by the cataclysm of a very great flood. Abraham brought this history to the west.

JAMES MARLOW

Says Reds Won Indochina Victory

WASHINGTON (AP) — The Communists have won a clear-cut victory in Indochina. It can't be minimized. The French let them have half of Viet Nam. Now the United States faces one of the most important decisions in its history. It is this: Will this country, to keep the rest of Indochina and Southeast Asia out of Communist hands, be willing to fight if the Communists move any further? Or will the United States just sit back and express pious hopes that the Southeast Asians won't submit to communism?
There is talk — until it becomes a reality it will remain talk — that this country will try to form a Southeast Asia Treaty Organization

Discipline And Dignity

The Army has decided to relieve of duty a lieutenant and a sergeant who made 225 trainees at Fort Dix stand at attention for more than an hour in a 90 degree sun. In taking the action officials said that further disciplinary action may be taken against the lieutenant and the sergeant and that the Army does not condone mass disciplinary measures of any type.

Without discipline an army would be a mob, a number of individuals going off in any number of directions at one time. If a soldier is to be effective and remain alive in combat he must be taught the value of instant and unquestioning obedience. But there are limits which no officer or non-commissioned officer should exceed in the name of discipline.

The promptness with which the army acted to relieve the officer and the non-commissioned officer who resorted to harsh methods is reassuring. Our soldiers must be hard, tough and well disciplined. But their rights and their dignity as individuals must be respected.

Fighting Marines

The Marines are older than the United States, having come into being in 1775. Yet till now they have had no official seal. One has just been designed and accepted in a ceremony in which President Eisenhower took part.

The well deserved popularity of the Marines caused a curious incident in World War I. When our soldiers were beginning to fight, the rules of censorship had not been thoroughly worked out. At Belleau Wood the Fourth Marine brigade won great glory, as did its companion, the Third or Regular Army brigade. The censor knew the rule against helping the enemy by naming a specific outfit. He had the bright idea that Marines was a general enough term to make it proper to use, so the communique went out, "The battle was fought by Marines and other units."

He did not know the value of the specific term. He might just as well have said, "The battle was fought by Marines et al." Immediately the impression went abroad that the Marines were doing all the fighting. Naturally Gen. Pershing, our commander in France, was not pleased to have all the glory go to a branch of the navy, and none to the army. He relieved the censor from further duty forthwith.

However, the Marines have had so much glory that they can afford to share some on occasions.

GOOD INSURANCE

My New York

By MEL HEIMER

En Route, I. A. to N. Y. — It seems hard to believe — all right, it seems downright disgraceful — that a man who has been to the West Coast as often as you, hasn't been to the remarkable city of San Francisco, set on its seven hills, before. However, it is true and now you have the remnants of a West Coast trip to the city of the Golden Gate, and you try to see what you can see.

You are met at the airport by Larry Murphy, IWA's man of all work, and he drives you to your quarters at the Union League and Press club on Post street — and as you drive, you cotton to the city through the streets, and you try to see what you can see. You are dropped by parachute, you would know exactly where you were. Boston is like that, too, and a handful of others. Cities with characters of their own.

The genial Murphy gives you two hours to yourself, to wander through the streets, and you try to make the most of them. You walk as far as you can in the sun, breezy late afternoon, marveling at the brightness and clarity of the town as compared with Los Angeles, sleepy and lethargic, just 500 miles to the South. Then you take a Powell street cable car up the hill to California street and head for the Mark. This is the saloon atop the Mark Hopkins hotel on Nob Hill and the one place you have been instructed you must visit or you really won't have been in San Francisco.

You can see why they instructed you. Sitting at the circular bar with your beer, you look out on a sweeping panorama — the huge bay and the harbor, supposedly one of the seven most beautiful in the world, the bridges, the compact city, the lonely pile of bricks that is Alcatraz, from which they say no one has escaped successfully since two men broke out but presumably were lost in the strong bay currents; the haziness of Oakland across the bay and so on.

In the bar itself, things are different from Los Angeles. The men wear ties and jackets, not sport shirts. The women aren't tanned Amazons, drinking straight whiskey; they are chic and a little giggly and they drink a woman's drink, the foul Alexander. It's silly to generalize, of course — but somehow, just sitting on top of this hotel, you get the feeling that up this way more things are gotten done more people are wide-awake alive, than in L. A.

Then you are back at the club which the French let the Communists take over millions of Indo-Chinese. The United States wouldn't approve, but it didn't do anything to stop it.

Both the Truman administration, for years, and the Eisenhower administration, for the past 18 months, had time to look at the Indochina war and see what was happening; that the French were losing. Both insisted the French would win.

Neither administration made an effort, so far as is publicly known, to form a Southeast Asia alliance to rescue the French if they got into crisis.

When the crisis did come, Secretary of State Dulles rushed to Europe to get "united action." The British balked, at least then. The United States stood back. The French, left alone, sought an armistice.

HAL BOYLE

Boyle's Assertion Taken To Task

Editor's Note: Last week Hal Boyle, a city fellow who thinks poison ivy is just a nickname for a girl gossip, with a piece claiming that a New York apartment is the coolest and safest place to spend the summer. Today we present a grass roots rebuttal by a nature-loving fellow newspaperman of the Adrian, Mich., Telegram.

By W. S. STEWART
ADRIAN, Mich. (AP)—Dear Hal: The best place to spend the summer is in the country. Let a friend of mine explain why.
"We have the finest air conditioning anywhere. There's no service charge, installation fee or scraping for payments. You don't have to remember to turn it on or off. It runs all the time and never adds a cent to the electric bills. The soft breeze which ripples gently across the pine-encircled lake dances sweetly through the open door with Mother Nature paying the entire shot."
"Neighbors don't bother us. Our 'bullfrogs' echoing dale in the wild-wood' is completely our own. Not even moon-eyed lovers dare in winking trail to steal a few moments alone."
"The boring neighbors don't drop

over any more. We have an unwritten understanding about our lot lines—dating from the day his cat slapped a curious paw into the hip of our sleeping dog."
"Our days aren't spent looking at four walls. There's too much open space in northern Michigan's water wonderland — too many beauties of the loam—to waste the hours getting into each other's way."
"We take hikes; we sail the rolling waters. We stroll slowly through the still pools, hauling in many tasty samples for the frying pan."
"And we swim. Oh, how we swim. A cool deep dive into the crystal clear freshness of sweet spring water is much more to us than a hasty wash in a tub of lukewarm chlorine-reeking H2O."
"We sleep the nights of pure physical exhaustion. No neighbors come stumbling home minutes before dawn offering a harmonious rendition of 'Let Me Call—'. The clack of coats, roar of V8 horses and scream of burning rubber don't disturb our reveries."
"Famished from the fun of outdoors, we eat unbelievable quantities of picnic lunches and nibbles. But the wife finds it's not the same old trine grind. Our

every-man-for-himself rule gets the family meals cooked and the dishes cleaned without padlocking her to a stove.
"Now, the nights—those pure delights of peace.
"The moon sifting softly through the tittering pines soon bathes the scene in golden charm like a giant candle. Flickering fires around the shore fade away as if ashamed of their own effort in the face of her glory. A bass breaks the stillness with a somersault high above the water. Another bullet its way across the waves in answer. Somewhere a loon makes his presence known. The night lives on.

Pollen Allergy Treated

By HERMAN N. BUNDISIN, M.D.
THIS hormone can be used to treat disease of the whole body or of one local area with equally good results. One of the systemic diseases treated successfully by cortisone, ACTH or hydrocortisone is arthritis.
These hormones have also been used locally on skin diseases, in the form of an ointment. They have helped to relieve itching of the rectum, and some severe eye diseases. However, one of their greatest uses has been in alleviating the severe symptoms of certain allergies.
A Medical Headache
One of the great problems that faces the physician is the treatment of persons who are allergic or sensitive to pollen. Many people with a pollen allergy have severe bronchial asthma accompanying it. These hormones, given systemically, will help both these diseases.
However, treatment of this kind cannot be prolonged over too long a period, because of possible side effects and because it becomes quite expensive for the patient.
Allergy and Asthma
Recently, these drugs were used locally for treating pollen allergy which was accompanied by asthma. The drugs were given in the form of an aerosol, mixed with oxygen to form a fine spray, that works locally in the nose and bronchial tubes. Patients treated in this way usually tolerate the preparation well and show great improvement. Relief has lasted for days, even months in many people who received this treatment. Of course, it must be used only as the physician directs.
QUESTION AND ANSWER
Mr. A.: Will United windshield glass impair vision at night?
Answer: Yes, in many instances, it will, and might prove quite dangerous to certain persons who have difficulty with their vision.

Social Events

Personals

Mr. and Mrs. Fred Kirshner have returned from a vacation in the woods near Wainville, N. C. which was cool according to the Kirshners.

Friends of Mrs. Herby Stinson the former Carolyn Patrick, will be glad to learn that she is doing nicely after having undergone surgery yesterday at the Orange Memorial Hospital in Orlando.

Friends of Mr. and Mrs. Hill Duncan will be interested to know that they and their small daughter, Deborah Ann, are now residing in Bartow where Mr. Duncan has been made assistant manager of the McCroly store there.

Bill Stephens of Pensacola is the guest of Miss Ann Raborn at the home of her parents, Mr. and Mrs. M. L. Raborn Sr.

Mr. and Mrs. M. L. Raborn Jr. and two children, have returned from a vacation spent in various points in South Carolina and Tennessee. They were accompanied by Miss Ann Raborn.

Paul G. Brown has left for Chambersburg, Pa. where he will spend several weeks on business.

Friends of Mrs. Gabe Michas will be glad to learn that she is improving nicely after undergoing surgery at the Fernald Laughlin Memorial Hospital and is now able to receive visitors.

Fish Fry Honoring Mr. & Mrs. N. Fox Enjoyed By Group

The teachers and officers of the nine year Junior Department of the First Baptist Sunday School enjoyed a fish fry last Friday evening at the home of Mr. and Mrs. J. F. Harrison on Palmer Ave. The occasion honored Mr. and Mrs. Nelson Fox who will soon be leaving Sanford.

The fish were cooked over the outdoor fireplace and served with hush puppies, grits, baked beans, cole slaw, potato chips, doughnuts, coffee and iced tea.

Enjoying the social event were Mr. and Mrs. Nelson Fox Mr. and Mrs. Bill Dowley, Mr. and Mrs. Don Flann, Mr. and Mrs. J. V. Jones, Mr. and Mrs. J. A. Hunt, Mr. and Mrs. Robert Valentine, Mr. and Mrs. John L. Miller, Mr. and Mrs. J. F. Harrison, Miss

Refreshing and Pretty — Lime Party Loaf

Fancy enough for a party, but at a "budget-happy" cost is this LIME PARTY LOAF. It is called PARTY LOAF because it is so pretty, so festive and so delicious, but don't let that fool you into thinking it takes a long time to fix, because this dessert doesn't.

There is very little measuring, only a few low cost ingredients, no peeling or chopping, and only a tiny bit of stirring. Your refrigerator does most of the work. Wonderful flavor and simple garnishes make this dessert outstanding.

INGREDIENTS:
1 cup uncooked white rice
1 cup water
1 teaspoon salt
2 cups milk
2 packages lime flavored gelatin
1 cup hot water
2 cups cold water
1 cup whipping cream, chilled

METHOD: Put rice, water and salt into a 2-quart, or larger saucepan. Bring to a vigorous boil. Turn the heat as low as possible. Cover and cook over the low heat 14 minutes. Re-

CALENDAR OF EVENTS

WEDNESDAY

The Prayer Meeting Service at the First Baptist Church will begin at 8 p.m.

The First Baptist Training Union Executive Committee will have its monthly meeting at 7 p.m. in the Chapel.

The Central Baptist Church has the following activities: 7 p.m. Young People's Choir; 8 p.m. Prayer Meeting; 9 p.m. Adult Choir meeting.

The F. L. T. Club will meet in the I. O. O. F. Hall at 8 p.m.

THURSDAY

The monthly meeting of the Central Baptist W.M.U. and the Brotherhood will have a joint supper at the church at 6:30 p.m.

The Music Reading Class will meet at the First Baptist church at 8:45 p.m.

The Junior R. A.'s will meet at the First Baptist Church at 7 p.m.

The First Baptist Adult Club will hold rehearsal at 7:30 p.m.

FRIDAY

Last day for registration to attend Girl Scout Day Camp at Silver Lake. Registration fee of \$1.50 and name should be sent or turned in to Mrs. O. E. Clausen, 2901 Washington Ave.

The Episcopate Bridge Club will meet at the Club with seating to begin at 8 o'clock.

The visitation program for Central Baptist Church for today will begin at the church at 2:30 p.m.

The First Baptist Youth Choir will hold rehearsal at 7:30 p.m.

SATURDAY

The First Baptist Junior Choir will hold rehearsal at 10 a.m.

TUESDAY

The Unity Truth Class will meet at the Valley Hotel at 7:45 p.m. with Carolyn Parsons as teacher. The public is invited.

Joyce Jones, the Misses Carol and Phyllis Valentine, Alan, Robin and Marilyn Hunt, Jackie and David Miller and Eddie Vickery.

Next time you are broiling bacon to serve with breakfast pancakes, broil some bananas at the same time. Just cut the bananas into halves, brush with melted butter or margarine and sprinkle lightly with salt. Broil the bananas on one side first, then when you turn them add the bacon slices. The pancakes, bacon and broiled bananas make a delicious taste combination.

Money Sickness May Be Answer To Many Problems

By CYNTHIA LOWRY

Dr. William Kaufman of Boston tossed a brand new malady into our laps the other day.

It's hard to say this early whether I'm glad or sorry we have a new one to add to our armory of excuses to stay home from the office once in a while.

Dr. Kaufman's lady has been named "money-sickness", and he avers it is one of the most common psychosomatic ailments of our time. And a very sneaky one, with symptoms which can range from the stomach ache to heart palpitations, from backache to headache.

It is also interestingly non-selective about its victims, striking with equal violence people whose money instincts range from miser to free-spender.

In other words, anyone who really wants to enough can come down with an acute case of money-sickness. And personally, I am inclined to believe that money-sickness, now that it is recognized, can be one of the most useful diseases the medical profession ever gave title to.

In the future, I propose to call every stray collection of symptoms I can blow up money-sickness, even though I may suspect that unhappy forehead was achieved at last night's cocktail party, that creek in the back is the result of too much unaccustomed gardening, and the skipping heart-beat merely an overdose of Gary Cooper.

As I see it, the next time I'm feeling poorly, I shall just call up my boss and instead of trying to make a simple head cold sound like incipient pneumonia, I'll just tell him I'm suffering from one of the most common psychosomatic illnesses of our time and that if he sees his way clear to provide me with a remedy—say \$100 a week more—I'll be back like a flash. However, if this doesn't work, I'll be ready to laugh the whole thing off as a joke and blame my deflection on the tubercle salad of the previous evening.

Money-sickness may be a boon to the housewife as well as the working girl's friend. If a woman has tried and failed with every known device devised up by the sisterhood to pry a fur coat or a new evening gown out of the old man, she now has a new chance. She can trot out some symptoms and put a price tag on a cure.

Money-sickness is such a vague disease, Dr. Kaufman points to some pains to explain that the victims apparently are infected in early childhood, being subjected traumatically to the dreadful disappointment of being deprived of unlimited spending money. This could—and almost always does—happen to anyone. And one of the nice things about this is that there's not much you can do about such a childhood injury except blame parents. And nowadays parents who won't mind a bit being used as an excuse to wrangle a hunk of solid cash out of the old man.

Perhaps, as we learn more about money-sickness, it will even take the place of mental cruelty as grounds for divorce. That will be a boon to the Hollywood crowd, because a psychosomatic illness, or so it seems to me, seems like such a delightfully civilized reason for a trip to Nevada and it would be so easy to remain great friends afterwards. After all, a girl can't help it if her mother and father refused to increase her allowance every time she asked, can she?

Dr. Kaufman didn't indicate in the article I read about this enchanting disease what one could do to clear up the problem. Maybe there's no cure. But wouldn't it be wonderful if the only possible panacea was an overdose of money?

An inspirational devotional, "Who Owns the World", was offered by Mrs. Irving L. Pryor and the members followed by recitation of the mesner. A social hour was enjoyed with stunts and games being played. Prizes were awarded to Mrs. S. E. Harbour, Mrs. F. W. Keppson, and Mrs. Fox.

Refreshments were later served by the hostesses to those attending the session. They were Mrs. Nelson H. Fox, Mrs. C. W. Eggle, Mrs. E. C. Campbell, Mrs. Eugene Pennington, Mrs. W. Lawford, Mrs. Frank L. Woodruff Jr., Mrs. R. H. Harrison, and Mrs. W. T. Gardner.

Also Mrs. Joe Koke, Mrs. F. W. Kempson, Mrs. C. W. Hamill, Mrs. John Toney, Mrs. S. C. Booth, Mrs. S. E. Harbour, Mrs. J. J. Carter, Mrs. Irving L. Pryor, Mrs. W. L. Crabtree, Mrs. James B. Gut, a guest, Mrs. Clyde Pierce, and Mrs. Curtis Green.

The meeting for August will be held with Mrs. S. E. Harbour at her home on Princeton Ave. Aug. 17 at 8 p.m. The co-hostesses will be announced later.

The announcer for the program will be Patricia Harrington, also a high school student.

Student Program

An 11-year-old out-of-town girl, Patricia Cogdell, will render a vocal solo entitled "Aided" tomorrow evening at 7 o'clock on the Student Program to be presented over radio station WTRR.

Henry Russel, a junior high school boy, will play on his guitar "Always Get A Souvenir". Deborah Bailey will sing a solo and the high school girl is to be accompanied at the piano by her mother, Mrs. Lula Bailey.

Storage Is Needed At Working Center

At the cleaning center storage is essential for feeding, washing or soaking before cooking fruits and vegetables not requiring refrigeration, saucepans, teapots, coffee pots, kettles, strainers, paring knives, double boilers, cleaning materials and kitchen linens; and often china, silverware, and glassware.

The sink, of course, is located here and some of the storage units needed at this center may be incorporated in a cabinet, sink ventilated drawers or bins for fruits and vegetables; ventilated bread and cake drawer; cabinet with adjustable shelves for tall articles; towel rack and towel-drying unit; base cabinet with drawer for kitchen linens; wash cabinet, equipped with cup rack and plate rack; tarnish-proof drawer or cabinet for silverware; vertical storage for trays and brood platters; rack on sink cabinet for cleaning materials; kettle, saucepans and lids; ladle, thermometers, spatulas, pancake turner, stirring spoons, potato masher or ricer, strainer, dish and trays; and for canned food and foods used first with boiling water—tea, coffee, uncooked rice and macaroni—storage drawers in range for utensils; cabinet with hooks for hanging utensils and tools; or built-in drawers or swing-out shelves; rack for vertical files for lists, vertical storage rack for serving trays and platters; shelf space for food; and plate rack for serving dishes.

In addition to work surface, range, says Mrs. Wilson Home Demonstration agent.

Sports Selections

By PETE OSBORNE
An insignificantly small Associated Press item which failed to make mention in more than one of the large dailies in the state today, may cost Sanford a fortune in publicity, promotions and baseball interest. The release bore a Baltimore dateline and read, in part: "Arthur Ehlers, general manager of the Baltimore Orioles, left for Tarpon Springs today to survey the town as a possible training site for the American League baseball team next year."

A chamber of commerce spokesman from the Florida town with a permanent population of some 4,000 told Ehlers' suitable accommodations could be arranged where they do not now exist. "The baseball park bleachers and clubhouse would be enlarged if the Orioles decide to train at Tarpon Springs, Ehlers was told. "He said he would have further discussions with town officials about facilities."

Short and sweet like a lime there was no mention of Ehlers considering Sanford or Ft. Pierce the two towns to which he had previously narrowed his selection. Ehlers was originally supposed to announce his choice about a week ago, picking either our town or the East Coast community of Ft. Pierce. His decision was delayed to give himself ample time to make a wise choice. There should be no doubt that he was impressed with the facilities which Sanford offers, but at the same time there were undoubtedly a few problems to combat. In an effort to prove to the general manager that Sanford would back his club, interest-wise, telegrams were dispatched to indicate interest. The bulletin came as a surprise to local officials, but was pointed out by one gentleman in the know, Ehlers' trip to the Tampa Bay town may be just an appeasement to someone there. Incidentally, Don Rider had a neat one over the past weekend relative to the situation. Seems Rider found an item in Benny Kahan's column in the Daytona Beach News-Journal. Kahan was quoting a columnist in a Ft. Lauderdale paper who had said, in effect, that the town could place the entire population of Sanford within its rest rooms. He felt that Ehlers should consider those factors, but for the gentleman's enlightenment, he should be made to understand that major league baseball teams do not train in rest rooms. Or better still, if his theory is indicative of the entire city, maybe they need all of those rest rooms. Rest rooms, like anything else depend entirely upon the law of supply and demand.

Ed Stanky Makes Amends For Rukus

ST. LOUIS—Eddie Stanky, under suspension and a fine for his antics in a forfeited game Sunday, has bounced back with a public apology and a promise to reform. Warren Giles, National League president, handed a five-day suspension and \$50 fine to the St. Louis Cardinal manager yesterday after a hearing here. A free-for-all and stalling in Sunday's game led Umpire Babe Pinella to give the Philadelphia Phils a \$50 forfeit victory in the second half of the twin bill.

Stanky told newsmen later he realized he has embarrassed and hurt St. Louis fans, baseball nationally, the Cardinals and his own reputation. A lot of people say, "Eddie Stanky won't do it," the Herald pilot said of his promise. "However, I consider this challenge the biggest of my baseball career. I will win." Giles also punished St. Louis catcher Sal Yvars and Philadelphia first baseman Earl Torgerson. Their boxing in the top of the fifth inning of the game led to the forfeit. Yvars drew a three-day suspension and Torgerson two days. All the suspensions started last night. Philadelphia manager Terry Moore, in the middle of the home plate battle, drew no penalty after telling Giles he was trying to restore peace when Stanky tackled him about the neck. Giles also upheld the forfeit ruling, based on stalling by Stanky and Cardinal players.

BETTE FORD, 23, former Broadway model and actress turned rodeo rider, is shown having trouble with a non-cooperative bull in Juarez, Mexico. She is under the horns of the animal after being knocked down and trampled. The man at left is holding on to the bull's tail in an effort to pull him away. Bette narrowly escaped being gored and has now decided to go in for a little more training. (International)

Maureen Connolly Hospitalized With Broken Leg After Mishap

SAN DIEGO, Calif. (AP)—Tennis champion Maureen Connolly, seriously injured when thrown against a moving cement truck while riding her horse, rested in a hospital here today. "Little Mo's" injuries—a broken and severely cut right leg—will prevent her from defending her U. S. singles title at Forest Hills, N. Y., Aug. 28. Dr. Bruce Kimball, who operated on her leg shortly after the accident yesterday, said the fibula or small bone below the knee was fractured and that some muscles were torn but not severed. She was in surgery more than three hours. Her leg was put in a cast and Dr. Kimball said she would be hospitalized at least a week. He said, however, that the injury would not permanently cripple her. He ordered her not to touch a tennis racket for a month, and perhaps longer. The 19-year-old tennis queen was riding her thoroughbred Colonel Merry Boy yesterday, accompanied by two girl companions, when the accident occurred near Mission Valley polo grounds. Before entering surgery, "Little Mo" said: "We were riding along Frair's Road. We stopped our horses as the truck approached. "Colonel Merry Boy shied and whirled into the truck. My leg was caught between my horse and the truck."

British Champ In Two Classes Will Fight Here

CHICAGO (AP)—Yolande Pompey, considered by many experts as probably the best all-around fighter in the British Empire, makes his first United States appearance tonight against busy Moses Ward of Detroit. Pompey, a 25-year-old West Indian from Trinidad, is a 5-2 favorite to beat his free swinging opponent in the battle to be televised nationally at 9 p. m. EST (CBS). Pompey owns both the Empire middleweight and light heavyweight championships, although he has fought only 30 professional fights, losing one and scoring 20 knockouts.

The Trinidad hopeful is ranked fifth among the light heavyweight challengers but is expected to concentrate on the middleweight bracket in this country, if successful against Ward. The Detroitier is a rugged swinger with a windmill-type attack and has 11 knockouts to his credit in winning 18 of 25 bouts.

Victor Constance, a staminate of Pompey, will meet Chicago's Johnny Brown in a 10-rounder on the card. Both are welterweights. The U.S. debut of these two British Empire fighters marks the start of an International Boxing Club campaign to import foreign boxers for the national television audience.

CHIES AFTER KO DETROIT—Allie Gronik, 149½ Detroit, broke down and cried after knocking out Pat Lowry, 147½, Toledo, at 1:48 of the first round of their scheduled 10-round bout at the Motor City Speedway last night. Gronik said he felt bad about knocking out Lowry particularly since Lowry had scored two recent wins in welterweight bouts. Gronik, the Michigan welterweight champ, dropped Lowry twice for counts of nine with a right to the jaw. The third time he knocked Lowry half out of the ring and Referee Bob Watson did not even bother to count. American League umpire John Flaherty served with the Marine Corps in the South Pacific during World War II and won a battle field commission.

FSL 2nd Division Teams Wallop Top Notchers

By THE ASSOCIATED PRESS
Once in a great while in baseball all the second division teams will knock off the first division teams. It happened that way in the Florida State League last night. Daytona Beach bumped first place Orlando 3-1. Cocoa beat Deland, tied for second place, 6-2. Jacksonville Beach nudged the other second-placer, Lakeland, 10-9. Jim Davis, new pitcher for Daytona Beach, made his second successful start, scattering nine Orlando hits. The blow that won for Daytona Beach was a seventh inning single by Glen Prescott, scoring Joe Corso, who had tripled. Cocoa's Clyde Stevens scattered nine Deland hits and helped out at the plate too. He had three hits in three times at bat, driving in two runs and scoring one. Cocoa got only seven hits off Gene Wolf but he was wild and walked eight. The Jacksonville Beach Sea Birds scored six times in the first inning and carried a 10-1 lead into the eighth. Then they had all they could do to stop Lakeland short of a tie, the Pilots scoring three in the eighth and five in the ninth.

All-Star Gridders Start Training Soon For Tilt With Pros

CHICAGO (AP)—The College All-Star football squad, its roster completed last night, begins training Friday for the Aug. 13 charity game with the pro-champion Detroit Lions. A total of 51 stars from colleges throughout the country will report to Head Coach Jim Tatum of Maryland at Purdue University. They will have three full weeks to gear themselves for the annual Soldier Field battle with the Lions, a veteran-packed club that has won the National Football League title two years in a row. The Lions beat a similar group of All-Stars 24-10 in last year's classic. This gave the pros their 11th victory in the series, which this year observes its 20th anniversary. The collegians have won six games and two ended in ties. The pros undoubtedly will be favored to repeat as victors in the coming game — their experience, individually and as a unit, figuring to give the college boys too much to cope with.

However, the All-Stars will have the advantage of playing under the limited substitution rule — which means the Lions will have to play both ways, offensively and defensively, a practice they normally shun. The colleges, after a post-World War II fling with the so-called "two platoon" football practiced by the pros, have reverted to the old two-way game. This issue came some 10 years ago with Buddy Parker, the Lions' coach, counting out strongly against subjecting his boys to the rigors of playing both offense and defense when they aren't used to it.

He was overruled after a conference between NFL Commissioner Bert Bell and AFL Commissioner Earl W. Ward, Sports Editor of the Chicago Tribune, which sponsors the annual grid show.

District 6 Tilt Scheduled Today

CLEARWATER—Clearwater Post 7 American Legion Junior baseball team scored its 20th straight victory today in a post-war no-hitter here yesterday in a 3-2 win over the Lakeland Post team. The win gave Clearwater a 1-0 edge in the three-game series between the eastern and western division champions for the District 7 title. The two teams will meet again Thursday night in Sanford for the third game, if necessary, will be played in Tampa Saturday. The District 7 winner will meet a District 6 representative in the opening tilt of the area tournament today in Weekahatchee at 2:30 p. m. The District 6 play-offs are being held today in Sanford, pitting Post 53 against a Leansburg team for the right to advance to the area tourney.

Coach Augie Galan of the Philadelphia Athletics played 154 games in 1935 for the Chicago Cubs without hitting into a double play. This is a major league record.

SIXTH RACE—3:10 MILE
Speed Zone, Happy Yet, Thrif, Roaming, Crispau, Sugar, Star, Lot of Luck, Good House, Road Line.

SEVENTH RACE—3:10 MILE
Rose Bird, W. White, Tiger, Money, Stretch, Billy, Blue, Rebel, Deal, Trans-Pony, Ivy Hill, Loyal Pilot.

Sports Roundup

NEW YORK (AP)—At the rate Birdie Tebbetts is going, there should be little difficulty in electing him *Manager of the Year* for 1954. With the National League race entering its second half, the freshman pilot of the Cincinnati Redlegs has turned in a job little short of sensational. A year ago at this time, the Redlegs with almost exactly the same talent, were floundering in the second division under that hard taskmaster Rogers Hornsby. They never attained the 500 mark under the Rajah, and they were destined to wind up a bedraggled sixth, 37 games off the top. Today the slugging Westerners, goaded and smartly directed by their new manager, are battling loath and nail for third place behind the Giants and Brooklyn and, on their current form, must be conceded at least an outside chance of pulling one of the biggest upsets of recent baseball history. Few experts gave the club a hope of finishing any higher than it did last season. Third place would represent a genuine triumph for the popular Birdie. Probably the only one not greatly surprised by the way the Redlegs are staying in there and slugging with the leaders, despite their uncertain pitching, is Tebbetts himself. The stocky catcher who took over after a single year of minor league managerial experience at Indianapolis never ceased to swear stoutly in the spring that he was going to climb over some club. "And I don't give a x x x which ones they are."

Orioles Consider Tarpon Springs

TARPON SPRINGS (AP)—The Baltimore Orioles have proposed to let Tarpon Springs officials know tomorrow whether the American League baseball team will come here for spring training next year. City commissioners and Chamber of Commerce told Arthur Ehlers, general manager of the Orioles, last night they would spend \$20,000 to provide a field with suitable grandstand and clubhouse. The St. Louis Cardinals this season are operating 22 minor league clubs. They claim more such farm teams than any other major league organization.

Cardinals Meet Indians Tonight

Unless in their last two starts after posting a surprising 5-0 win over the Pittsburgh Air Force Base loop leaders two weeks ago, the Sanford Cardinals will attempt to regain their victory stride tonight when they entertain the Sanford Navy Indians in a Central Florida League encounter at Memorial Stadium. Game time is 8 p. m. Mel Fleischer, who spun a neat one-hitter to post the 3-0 win over Pinesdale's Hi-Flyers—the only defeat they have suffered, has been named by Manager Buddy Lake as the starting moundman in tonight's bout with the Navy. When he was asked why he had reached into the minors for Tebbetts and given him a two-year contract as a starter, General Manager Gabe Paul replied that he had chosen his man "because of his intelligence." This was an unusual answer and it created some comment at the time, but it looks now as though Gabe had something.

Annual State Open To Start Tomorrow

TAMPA (AP)—A pro-amateur tournament here today may help determine the favorites for the annual State Open Golf Tournament which opens tomorrow. About 50 professionals and 100 amateurs were lined up for today's 18-hole event. The list was expected to top 200 for the four-day, 72 hole medal play open. Among those entered are Burl Biletski of Tampa, winner in 1943 and 1953; Lloyd Watkins of Miami, 1951 champion and runner-up last year; Joe Lopez, Key West, third in 1953; Skip Alexander, St. Petersburg, one of the country's top ranking pros; and Don Bisplinghoff, state amateur titleholder from Orlando. The tournament is being played over the 6,061-yard Tampa Golf and Country Club course where par is 72.

I Live in This Vicinity
I Shop in

Sanford

Because every time I visit the Sanford stores I am delighted to find all the newest and finest things that I see advertised in national magazines. I am pleased to know that I can get these famous products right here in my home town where parking is no problem, where shopping is easy and where service is friendly and helpful. To me "shopping in Sanford" is just another happy phase of our casual, leisurely life.

LISTEN TO WTRR TONIGHT

Strolling In Sanford

Regular league play is set for tonight at Fort Mellon Park with a two game bill on top. VCA will play Robson Sporting Goods in the first game at 7:30 p. m. and when mair will tackle with EASTON at 9 o'clock. The public is invited. There is no admission charge.

All boys and girls having bicycles or who can borrow wheels are entitled to participate in the cycle hikes next week, according to John Angel, director of the summer recreation program. There will be two hikes, he said one on Monday for youngsters of grammar school and junior high school age and the other on Thursday for youths of high school age. The younger group is to meet at Seminole High School at 1 p. m. for a trip to Lake Wales. The hike is to be ended about 6 p. m. All are asked by Angel to wear light clothing and take a lunch. The older group is to meet at the high school at 11 a. m. for the same trip.

A demonstrational meeting of the Barry Crim Gas Club will be held tomorrow night in the Commissioner's Room in City Hall and according to Chamber of Commerce Manager Forrest Breckenridge, interested individuals or group representatives are invited to attend without obligation. The meeting will begin at 7 p. m. Crim, a veteran of over 15 years in the field of adult education, is offering his training course as an incentive to community interest in a program designed to give adequate training in public speaking, parliamentary procedure and group dynamics. Crim says, "The 'what' goes on in groups, Breckenridge emphasized that members of local, civic, veterans, church and other community organizations are particularly invited to attend. Crim will offer his course for five weeks, tentatively set for Friday nights, at a cost of \$10.00. Crim's course will be limited to 25 in attendance over a period of several courses a year to build up the fund and provide a continual training place for local civic leaders. Enrollment which will be limited to 25 is presently over half completed, Breckenridge said.

County Judge Donald Stenstrom will be out of town until Monday attending a meeting of the Florida County Judges Association in St. Petersburg. Offices of the County will be closed on Monday, July 26, for the transaction of business and license sale.

Jaycees Begin Own Blood Bank

In place of their regular weekly luncheon meeting today the Seminole County Junior Chamber of Commerce members volunteered blood toward the formation of a bank supply in the event of an emergency. The blood will be available for use by any Jaycee or will be on deposit in the event of a disaster.

Those contributing included John Keeline, Dan Capobianco, Jack Barrough, Lloyd Evans, Gordon Frederick, Mark Mayk, F. C. Harper Jr., M. L. Raborn Jr., C. Z. McKee Jr., Robert Cochran, George A. Spear, Don Ritter, W. E. Knowles, Mack Cleveland Jr., Herbert Roller, Charles Fells, Bu Moughton, and Manderell Vail.

Problem Drivers To Get 'Works'

NEW YORK (AP)—From now on the city's problem drivers are going to get "the works" the scenic title way. Chief Magistrate John M. Murtigh said yesterday that all persistent traffic violators will be given a choice—six sessions of a night driving school and a sentence there—or a heavy sentence on the spot. Murtigh said the new school scheduled to open Oct. 1, will give the drivers "everything" including psychiatric examinations, driving lessons and safety lectures.

U. S. Officials Believe Reds To Fight Union Concern In Capital Pact May Throw Europeans Off Guard, Help Commies

WASHINGTON (AP)—Top U. S. officials believe the Kremlin will follow up the Indochina peace agreement with reinforced drive to break the Western powers' anti-Communist alliance.

They expect an early and vigorous renewal of Soviet proposals made at Berlin early this year for an all-European defense treaty to which Russia would join. That plan was offered as a contribution to the European Defense Community treaty which the United States strongly urges as a means of permitting West German rearmament with French approval.

And there is considerable concern here that the Indochina agreement may throw European powers off guard and thus make Soviet political and propaganda aimed at a key point of the Western defense system more attractive.

Washington would like to see Western unity tightened and strengthened in the wake of the Geneva settlement. In fact, President Eisenhower and Secretary of State Dulles give every evidence of regarding it as essential to the security of the non-Communist world. It is held against the Indochina settlement that the Communists will be able to exploit it to their advantage.

Tampa Brothers Face 11 Counts Of Bribing Cop

CLEARWATER (AP)—Two Tampa brothers accused of bribing a police officer to obtain a license were charged with 11 counts of bribery.

There was little comment in Congress as a disposition picture of the settlement anything but a gain for the Reds.

Split Presbytery Into Three Parts

JACKSONVILLE (AP)—The Florida Synod of the Presbyterian Church now has five presbyteries in place of three.

Woman Prominent In Florida Dies

JACKSONVILLE (AP)—Both Rich 67, one of the organizers of the National Federation of Business and Professional Women's Clubs and one of the first newspaper women in the South, died yesterday.

KPs At Air Base Getting Vacation

ENID, Okla. (AP)—A popular bunch of civilians arrived at Vance Air Force Base yesterday.

JAPS PAROLED

TOKYO (AP)—Sixteen Japanese taken as World War II criminals by Allied military courts were paroled today after serving one third of their terms.

Sheriff Answers Charge

In an attempt to counter charges leveled against his administration by County Clerk O. P. Herndon, Sheriff J. L. Hobbs this morning told the press office had turned over more money to the County during the first six months of the current year than in a like period of 1953.

The controversy between the two public officials arose at Tuesday's meeting of the County Board of Commissioners when Herndon told the board for the first time since 1945 it will be necessary to levy added millage against the taxpayers for the fine and forfeiture fund.

There is no fear here of a Communist removal of open military aggression in Indochina. The fear is rather that the Reds will use political and economic pressures and subversive tactics to undermine the South Viet Nam, Cambodia and Laos, and eventually take them over.

These loans are repaid primarily with income from rents. Since the inflated loans themselves must be repaid, the net effect is to drain the pockets of the people who now occupy those apartments.

Cool Fronts Bring Relief

By THE ASSOCIATED PRESS Two separate cool fronts advanced across the northern half of the nation Thursday, bringing the July heat wave mostly to the southern Plains States.

The cool belt, Chicago had a high reading of 79 on Wednesday, compared with 94 the previous day. The high at St. Louis was 86, down 19 degrees.

Number Of Cases Of Polio In State Reaches 512 Total

JACKSONVILLE (AP)—Florida had 512 cases of poliomyelitis through July 16, the State Board of Health reported yesterday.

New Miss U. S. A. From Dixie

LONG BEACH, Calif. (AP)—Miss South Carolina, a Dixie crowd which she had designed herself and a bathing suit which contentedly gave her. That was all she needed.

Senate Debates All Night

Senator Advises Cutting Housing Profits, Rents

WASHINGTON (AP)—Sen. Maybank (D-S.C.) said today federal housing officials should act at once to "cut back on wasteful profits and reduce the inflated rents of tenants who are paying for them."

The committee headed by Sen. Caperton (R-Ind.) subpoenaed several more builders to testify to the cause of the housing shortage.

Some officials told a reporter the meeting probably will be held in some place in the Asia area and that the level of representation, including the number of members of the cabinet, is yet to be determined.

The United States originally proposed that 10 nations make up the Southeast Asia Treaty Organization. They were the United States, Britain, France, Australia, New Zealand, Thailand, the Philippines and the Indochinese states of Viet Nam, Laos and Cambodia.

Ballistics Tests Go Before Inquest

ORLANDO (AP)—Results of ballistics tests of a bullet and a 22 caliber rifle will be placed before a coroner's inquest on the death of a 19-year-old boy.

The bullet entered the back of the head, ranged upward and lodged in the front of the skull, McLeod said. A 22-caliber rifle was being tested by the physical lab.

Girl Is Helped From Lake Mary

A young girl was saved from Lake Mary yesterday afternoon when she was stranded in the water. A boat was sent out to rescue her and she was helped to shore.
