

Manhole Covers Blown Into Air By Minor Explosion

BALTIMORE, Oct. 19.—(AP)—A street light blew its top, manhole covers leaped six feet into the air and a jet of flame shot from a roadside pole. All this happened in one block of north Baltimore last night as residents got an uncheduled display of fireworks followed by a 45-minute blackout.

The pyrotechnics were touched off, apparently, by a short circuit in a mass of underground power lines. A series of about a dozen explosions followed, winding up in a power failure for much of the northern part of town.

While waiting for a streetcar, Charles E. King, Jr., was startled to see a spurt of flame erupt from a metal power pole and shoot halfway across the street. Later it was found that the pole, a cast iron tube feeding cables to a pair of switch boxes on the top, had a large hole burned through its inch-thick casing about two feet from the ground.

A moment later, King saw the first manhole cover—a 90-pounder—teased six feet in the air. Flames and smoke poured from the hole. King then noticed a car parked over a second manhole cover. He called for help and pushed the car away. Just as the car cleared the manhole, cover No. 2 zoomed into the air, right past King.

The next piece of equipment to go skyward was the top part of an electric street lamp. Witnesses estimated it flew about 100 feet into the air. Then went manhole cover No. 3, a smaller one, which got up to 12 feet.

Although the intense heat prevented firemen from going underground to locate the cause of the trouble, gas and electric company officials had a tentative culprit—a cast iron manhole cover. Engineers said frequently chewed underground power lines and a gnawing rodent may have caused the short circuit which set off the spectacular display.

Air Force Chief
Washington, Oct. 19.—(AP)—The chief of the Air Force, General Curtis E. LeMay, said today that he has considered the question of the capabilities of our strategic bombers and I have arrived at the clear conclusion that they can do their job. As the professional military head of the United States Air Force, he said, he is not a politician and he does not declare to the masses of ground troops of world-wide fame.

LeMay said he did not want any statement "fortified" into any direction that strategic bombardment can win war alone. "All the fighting that has come to light in the armed services," LeMay said, "has shaken the military establishment and the public mind. It is time to get back to work."

Citrus Code
Washington, Oct. 19.—(AP)—The old State laws would not take effect and it would be very difficult to have federal standards set up. "The defense dwelled chiefly on the point about danger of chaos in the industry if unregulated shipments got moving."

Smathers Seen As Pepper's Opponent

MIAMI, Oct. 19.—(AP)—The Miami Herald said today Rep. George Smathers (D-Fla.) is telling friends and acquaintances he has made up his mind to run against Senator Claude Pepper in 1950.

The Herald said Bert L. Acker, Dade Republican and twice GOP candidate for governor, is one in whom Smathers has confided. "Smathers and Acker met on the street in Miami Tuesday," the Herald said.

"What are you going to run for next year?" the congressman asked the Republican. "It might be the Senate," said Acker. "Then you'll be running against me," said Smathers.

(Acker would be opposed to Smathers in the general election if both enter and win the May party primary contests for nomination.) The Herald said Smathers left for Fort Myers and points north forming new World Labor Federation. He was ready to announce his candidacy.

Lewis Raps Green
Washington, Oct. 19.—(AP)—When you adjust it satisfactorily and return to your own country, I may write you again. "At the moment I am too busy to continue a fruitless discussion."

Green is leading a delegation of top A.P.L. leaders to Europe in the next several weeks. They expect to go to London to take part in the annual meeting of the International C.I.O. is also sending a delegation.

Service Unity Is Supported By Eisenhower

War General Urges Public For Time; General Collins Is Also On Stand

WASHINGTON, Oct. 20—(AP)—General Dwight D. Eisenhower incidentally told Congress today he believes Armed Services unification will work "from this moment on" and "the unified America can lick the world."

He called on the quivering Armed Services and Congress to give unification a chance and not to "panic" at the first setback.

The commander of Allied forces in the victorious European war—now the President of Columbia University—stepped into the bitter inter-service row with this observation:

"We are expecting perfection too quickly."

He appeared before the House Armed Services Committee to speak off the cuff on unification differences, and at the invitation of Chairman Vinson (D-Ga.) to "give us the benefit of your advice."

"We are in hot water in the Pentagon, and we are in hot water up here," Vinson told him.

Eisenhower's advice shimmered down pretty much to the view that things will work out all right if everyone will just take it easy and not get excited. In unification as in war, he said, haste must be expected.

From General J. Lawton Collins, the army's present top leader, the committee had just gotten assurance that the Army is not plotting to deny the famed Marine Corps its "right to fight."

Collins, Army Chief of Staff, declared: "We have no slightest purpose to impose the Army's will upon a sister service."

Eisenhower, at the outset, told the committee he saw "little use in trying to pick pieces of the (combined force) puzzle."

Nehru Receives Columbia Degree

Nehru is shown receiving the degree from the university's president, Dr. P. H. Redburn, (right). The ceremony was held in the university's auditorium. Nehru is the first Indian to receive a degree from Columbia. He is the leader of the Indian National Congress and is now prime minister of India.

Gay Announces 16 Branch Offices For Sales Taxes

TALLAHASSEE, Oct. 20—(AP)—Comptroller C. M. Gay said today he will establish 16 branch offices throughout the state to help merchants collect Florida's new sales tax.

They will be at Pensacola, Marianna, Panama City, Jacksonville, Gainesville, Daytona Beach, Orlando, Lakeland, Tampa, Clearwater, Fort Myers, Sarasota, Fort Pierce, West Palm Beach and Miami.

Merchants Have Till Dec. 20 To Remit First Collections

At present, the Comptroller has branches only in Miami, Jacksonville and Tampa.

All sales tax payments will be made directly to the Comptroller's office in Tallahassee, Gay said. Personnel in the branch offices will devote their time mainly to helping merchants make out their returns, giving information on the sales tax law and carrying out general enforcement.

Judge Blames Juvenile Crime On Split Homes

Broken homes are the greatest factor toward the increase of juvenile delinquency, Judge Judge Mattie Farmer of Orlando told members of the Business and Professional Women's Club Wednesday night at the Mayfair Inn.

Parental neglect, bad housing and lack of proper education are other contributing factors to the breakdown in morals in youth, she stated.

"In a recent meeting of the council of juvenile courts in Miami," she declared, "it was pointed out that Florida is becoming a second Reno. Orange county has found that the big problem is not that of delinquency but of dependency. Mothers, with insufficient income to provide for their families and cases where both parents work and leave children unsupervised."

"Supervision of recreation, a feeling of security, educational and spiritual knowledge not furnished in the schools and home life all contribute toward wholesome children," she said.

Dr. Christie Talks On Root Ills At Farm Vet Meeting

Means of combating root diseases of plants were outlined last night by Dr. J. R. Christie of the Florida Experiment Station to members of the Future Farmers of the Future Farmers at the Seminole County Agricultural Hall.

Dr. Christie, who is director of the Florida Experiment Station, said that root diseases are the most important and most common of which fungi and weed seed are the most important.

Means of combating root diseases of plants were outlined last night by Dr. J. R. Christie of the Florida Experiment Station to members of the Future Farmers of the Future Farmers at the Seminole County Agricultural Hall.

Yugoslavia Wins Security Council Seat

U.N. Assembly Votes By Slim Margin To Install Tito Regime Over Soviet Protest

NEW YORK, Oct. 20—(AP)—Yugoslavia won a seat in the United Nations Security Council today over the Soviet-sponsored Czechoslovakia. The action by the 49-nation General Assembly was a rebuff to the Communists.

The vote on the second ballot, was Yugoslavia 39 and Czechoslovakia 19. Thirty-nine votes were required for election. Yugoslavia was supported by the minimum number of votes needed.

The voting was by secret ballot. The United States supported Yugoslavia for the Council seat now held by the Soviet Union. The seating changes Dec. 31.

On the first ballot, Tito's regime got 37, Czechoslovakia 20, Afghanistan 1, Philippines 1.

Russia's Andrei Y. Vishinsky took the floor immediately after the results were announced.

Vishinsky charged the election of Yugoslavia was a violation of the U. N. Charter because it failed, he said, to take into account provisions regarding geographic distribution of Council seats.

The West previously had contended that Yugoslavia was just as qualified to represent Eastern Europe as Czechoslovakia.

Vishinsky declared Yugoslavia's candidacy was advanced by the United States and Britain through "insidious and false promises."

After Navy Finished Its Case

CHIEF OF NAVAL OPERATIONS Adm. Louis B. Denhart (right) exchanges a friendly salute with Lt. James C. Ladd (left) of the Marine Corps. Gen. A. A. Vandenberg, chief of the House Armed Services Committee, is seen in the background. The House has just finished its case against Ladd for a charge of espionage. Ladd is being held in custody.

Ex-Convict Shot, 1,500,000 Workers Captured After Three Day Search

LAKELAND, Oct. 20—(AP)—A negro ex-convict, Jesse Donaldson, 48, was in a Broward hospital to night in a critical condition with two revolver shots through his back following his capture late yesterday.

Donaldson was wanted for the shooting Sunday of Patrolman J. M. Brammer. Brammer, investigating a disturbance in the negro section, was shot in the face with a shotgun. He is recovering but lost the right eye.

Chief Roy Hutchinson, of the Lakeland police, said Donaldson was wounded in the shoulder and left knee. He has bullet wounds in his back and in the hands of his hands and wrists.

The fugitive was arrested about 6:30 P. M. in a search which covered more than 20 miles on foot today, through some of the roughest country in the state.

The chief and Donaldson rest (Continued On Page Eight)

Minimum Wage Boosted From 40 Cents An Hour, To 75c

WASHINGTON, Oct. 20—(AP)—The Labor Department estimated today that 1,000,000 workers will get pay rates of five to 10 cents an hour when the new minimum wage law goes into effect.

Legislation boosting the wage floor from 40 cents hourly to 75 cents for workers in interstate commerce now is in President Truman's hands. It will become effective 90 days after his expected approval of the measure.

Congressional hearings brought out that the new standard is expected to increase employees' annual wage bill by about \$400,000,000.

The estimate on the number of workers whose pay will have to be raised to match the new minimum wage came from William R. McComb, administrator of the wage and hour division of the labor (Continued On Page Eight)

D. T. Correll Jr. Dies In North Carolina

D. T. Correll Jr., of Knoxville, Tenn., brother of Ralph Austin Smith, died early Thursday at Durham, N. C. Funeral services will be held Friday afternoon at 2 o'clock at the Floral Funeral Home, Spartanburg, S. C. Mr. and Mrs. Smith have left for that city to attend the funeral.

Mr. Correll was born in Spartanburg, June 8, 1903. He was a member of the University of Alabama and of the Lambda Chi Alpha Fraternity and of the Episcopal Church. Survivors include the wife, Mrs. V. J. Waddell, of Bethesda, Md., and two nephews, Ralph A. Smith, Jr., and Walter Mendel Smith.

Jesse Lodge Tosses Hat Into City Race

Jesse C. Lodge, co-owner and operator of Lodge's Grocery Store and son of former City Commissioner W. J. Lodge, qualified late yesterday afternoon to run for the City Commission post created by the expiration of the term of James C. Hays.

This will result in three names on the ballot on Nov. 8. Mr. Caraway, Frank Miller and Mr. Lodge. Yesterday was the deadline for registration of candidates.

Mr. Lodge was born in Pelham, Ga., and came with his parents to Sanford when he was four and a half years old. He attended local schools. He is a member of the Elks, a veteran of World War II and a member of the VFW, belongs to the First Baptist Church and is an active member of the Lions Club. Mr. and Mrs. Lodge and three children live at 908 Elm Avenue.

HERALD VISITED

Twenty-two pupils of the English class of Minnie G. Francis of the Midway negro school yesterday visited The Herald, including the printing department as part of their educational program. They represented both the seventh and eighth grades.

CIGARETTE TAX

ATLANTA, Oct. 20—(AP)—The state revenue department is going into court demanding convictions in its campaign against non-tax cigarettes.

A LaGrange grocer already has been fined \$100 for possessing 15 cartons of untaxed cigarettes, announced J. C. Lockmore, head of the cigarette division of the Revenue Department.

MOTHER STABBED

OAKLAND, Calif., Oct. 20—(AP)—Deputy District Attorney P. K. Emerson said today a 16-year-old high school girl confessed stabbing her mother to death during an argument over boy friends.

Mrs. Celeste Morrow, 41, wife of a steamship engineer, was found lying on a day bed in their home at 2035 Ben Lorono, Oakland police said a bloody butcher knife was found near the body.

President Truman Pledges Increase In Taxes Next Year

GOP Hits Truman Administration On Spending Policies

WASHINGTON, Oct. 21—(AP)—President Truman made it clear today he will ask for an increase in taxes at the next session of Congress.

He told a news conference, under questioning that if anybody can tell him any way to avoid tax increases to meet the deficit, he'd like to be told.

Congress went home last night but will come back in January.

Mr. Truman last January asked for \$4,000,000,000 more taxes, but did not get them. He dropped the demand during the summer because of the business turn-down that had set in.

The statement of new plans to seek a tax increase at the next session grew out of news conference questioning about the \$5,000,000,000 deficit which Mr. Truman said he had no plans to meet.

He blamed the deficit on the Republican-controlled 80th Congress which he said passed a rich man's tax reduction bill.

Told that Dr. Edwin G. Nourse, resigning chairman of the economic advisers' council, had said he was unhappy over deficit financing, the President said he was just as unhappy as who isn't.

The President said he doesn't believe in deficit financing. But he contended that there is a "flat charge" of \$5,000,000,000 against the government and he has no recourse but to meet it the best way he can.

Then someone asked if he had any remedy which would involve a request for a revision of the 1949 structure.

He said it may require a raise in taxes and then went on to say he doesn't know of any other way (Continued On Page Eight)

Chairmen Named For Christmas Seal Campaign

Names of the chairmen who will head committees to direct the 1949 Christmas Seal Sale in each municipality of Seminole County were announced today by John Senkark, Seal Sale chairman. The Seal Sale will be conducted by the Seminole County Tuberculosis and Health Association to raise funds for its 1950 program.

Local committees under each chairman, Mr. Senkark said, will work in cooperation with the county committee. They counted on raising sufficient money to finance the association's program during the coming year. The 1949 Seal Sale begins Nov. 21 and will continue until Christmas.

The regional chairman are Mrs. T. V. Motts, Lake Monticello; Mrs. M. G. Hodges, Plover; Mrs. George Bridge, Longwood; Mrs. W. E. Naxell, Forest City; Mrs. J. V. Yarbrough, Geneva; and Chulabeta; and John Miller, Shalva.

"In accepting responsibility for directing the Seal Sale in their communities, these men and women are making a valuable service to all the people of their community," said Mr. Senkark. "For they are helping, in a very direct way, the fight against tuberculosis in this area."

"We want to make the 1949 Seal Sale in Seminole County the best ever conducted here. Success of the county's Seal Sale will depend in the final analysis, on its success in each municipality. And on the success of the county Seal Sale will depend the tuberculosis control work of the T. B. & Health Association during the coming year."

"Although no age group is safe (Continued On Page Eight)

Demands For Meat Raises Prices As North Gets Cooler Weather

Cooler weather this week in many parts of the country stimulated demand for meat and other foods and helped push prices to their highest level.

The lower temperatures also speeded the end of several produce crops like tomatoes which had continued to come from truck gardens near the big marketing centers long after their season normally would have closed. As a result, several produce items rose in price.

Chickens, beef cuts generally a few cents a pound higher, reflecting a smaller supply of good feedlot cattle. Choice to prime live steers were bringing their highest prices of the year at midweek in the big Chicago livestock market. And meat buyers said best quality beef probably would remain firm priced at retail for some weeks, then start downward around the end of the year.

Pork prices, which stopped declining last week, held mostly steady despite earlier predictions of a continued downturn.

Smoked hams, ham hocks and bacon were marked up slightly as demand improved, and lamb was up two to six cents a pound in many places as supplies continued scarce.

Large top grade eggs held about steady, but the more abundant medium sizes were off as much as six cents a dozen at many markets. Snap beans, cucumbers, lettuce, tomatoes, melons and sweet potatoes all were higher this week in many produce markets. Only carrots, coming in bigger volume from New Mexico and California, and the autumn vegetables like squash and pumpkin were on the downward.

Market spokesmen said substantial shipments of apples, which were in over-ripe condition as a result of the recent warm weather have been cleaned out of most stores and the current stocks are in excellent quality at no higher prices. They're selling well, too, since the weather turned more brisk in the big consuming areas, they sources said.

Some coffee beans projected re (Continued On Page Four)

Sale Of R.D. Keene Citrus Holdings Is Announced

ORLANDO, Oct. 20—(AP)—Sale of the R. D. Keene citrus holdings in Orange and Lake counties in Lykes Brothers of Tampa as announced here late last night.

The deal, rumored for several days, was confirmed in a statement issued by Lykes Brothers, Viorhis and Wells, attorneys for Keene. The statement said:

"R. D. Keene announced today that he and other members of his family have entered into an agreement to sell some of their individually owned groves in Orange and Lake counties, Fla., and that he and other members of his family in R. D. Keene, Inc., and Keene Groves Company have entered into an agreement to sell all of the capital stock of said corporations to Lykes Brothers, Inc. of Tampa Fla."

Keene was unavailable for comment and Raymer McGuire, member of the legal firm which issued the statement, declined to elaborate.

The sale involves more than a million dollars of citrus property and is one of the largest here in recent years.

Keene also owns citrus groves were not mentioned in the parties in Ocala county but statement. He also operates a citrus fresh fruit packing house in Winter Garden.

Earlier today, Paseo Packing Company officials at Dade City confirmed that the financially overburdened Lykes family had been elected to Paseo's board of directors.

No Cause For Pessimism Seen On Farm Prices By Cornell Dean

GAINESVILLE, Oct. 20—(AP)—The present agricultural outlook is unpredictable, but a severe drop in prices is unlikely soon and consumer demands for Florida products should continue at a high level.

That's what W. J. Myers, dean of the College of Agriculture at Cornell University said here today. He spoke before the annual extension conference.

"At the end of the war every thoughtful person realized that sooner or later we would have a decline in price, industrial production, and employment until stability was regained at a somewhat lower level," Myers said.

History indicated the likelihood of a violent drop—every previous war has been followed by such a decline but thus far the decline has been moderate, probably because of certain favorable factors and government programs to cushion declining demand," he continued.

"We have had no buyers' strikes; retail sales show only a slight decline, but consumers are buying more carefully and have stopped buying at any price."

There is no real justification for pessimism, he said. "We are in the fortunate position of having a high level of production and a high level of demand."

SCHOOL BOY DIES

CONCORD, N. H., Oct. 20—(AP)—A 12-year-old St. Paul's school student was found hanging in a closet of his dormitory early this morning.

The youth was identified by school officials as Samuel C. Collier, Jr., of Del Ray Beach, Fla., a first-year student at the school.

He was a nephew of the late Barron Collier, wealthy advertising executive and one-time largest land owner in Florida.

County Solicitor Raymond Perkins, investigating the case, said a farewell note found on the boy indicated he had been dependent upon personal and substantial difficulties.

APPARENTLY DEEP in royal thought, young Prince Charles enjoys the crisp Autumnal weather as he is wheeled about Green Park in London. The young Prince, son of Princess Elizabeth and the Duke of Edinburgh, will be a year-old on November 14. (Exclusive from International)

OF WRECKAGE lie strewn about this gaping crater on a West Islip farm, marking the spot where a Navy experimental plane crashed in its test flight. Senior test engineer William Batchelder, 41, was instantly and pilot, Martin Hiteley, 35, badly hurt. (International)

WINNER of the coveted, though untitled, title of "Pucker Girl" of the year, alluring and curvaceous Virginia Wilson displays her grade A pucker for the benefit of New York cameramen. Twenty-two beauties were in the contest. (International)

GRITTING HIS TEETH, Fireman Hugh Early (left) is aided from the scene of a two-alarm New York factory fire, his right hand severely slashed by glass. A fellow fireman holds on to tourniquet fashioned out of Early's smoke mask in an attempt to halt the intense bleeding. (International)

PRESIDENT OF THE CIO Steelworkers Union, Philip Murray (second from left) waves his hand in greeting as he arrives to address a group of pickets in Bethlehem, Pa. The number of strikers was swelled by more than 10,000 when nine aluminum plants were struck and the workers, members of the Steelworkers Union, walked out. (International)

SEARCHER OF MISSING Jean Spangler, beautiful movie and television actress, Mrs. Florence Spangler is comforted by another daughter, Mrs. Shreekrugant, in their Los Angeles home. Believing that the elusive 27-year-old divorcee might be another Black Dahlia victim, she has instituted a wide search for the missing girl. (International)

ARRIVING in New York from Italy, Mrs. Giustina Lomoriello, 41, Brooklyn, N. Y., is embraced by her daughter, Anna, and a son (background), aboard the liner Saturnia, Mrs. Lomoriello, mother of seven children, lost her citizenship by voting in the 1940 Italian elections. Her three-year exile in Italy ended when a Congressional bill restored her citizenship. (International)

WORLD-FAMED CONDUCTOR and composer Arturo Toscanini (center), 82, passes through customs aboard the S.S. Atlantic following the vessel's arrival in New York from Italy. The noted maestro has returned to the United States to resume his radio work. (International)

A CRUSADER for world government, Lord Boyd Orr (above) of Britain, the former Sir John Boyd Orr, has been awarded the Nobel Peace Prize for 1949. It was announced by the Nobel committee of the Norwegian Parliament. The 60-year-old nutrition expert was the group's unanimous choice. (International)

Adm. William F. Halsey Adm. Thomas C. Kinkaid

MYERS, Fla.—Friday, October 21, marks the 70th anniversary of Thomas Edison's invention of the electric light. Florida has a definite connection with this great invention for it was at Ft. Myers that Edison maintained a laboratory where he carried on important experiments which led to the perfection of the incandescent lamp which served 200,000 American homes. In Edison's laboratory, the inventor, electrician, chemist, physicist, inventor, and a life-long student of the modern electric age, first produced the first modern electric lamp. It was the 114th year since the birth of the inventor of the electric light. The Edison Electric Light Company, which has been a part of the General Electric Company since 1892, is celebrating the anniversary of the invention of the electric light. (International)

ARGENTINE AMBASSADOR to Argentina, Juan Jose Basso (above) has been nominated by President Truman to be ambassador of the U.S. to Argentina. He will succeed the late Ambassador, Juan Jose Basso, who died in 1948. (International)

THURSDAY, OCT. 20, 1949
TODAY'S BIBLE VERSE

When we see the other side of the mystery of eternity we will have a true understanding of the meaning of life.

In Detroit a ditch-digger was digging a ditch. Suddenly the sides of the ditch caved in on him and he was completely buried up to his chin.

Alarmists are not alone in saying the United States is in danger. From without a force which would completely submerge man's dearest rights under a ruthless and comprehensive state, challenges at its very roots our basic concepts of the sovereignty of the people and opposes with every strategy the democratic way of life.

How much does it cost this country to enjoy the luxury of labor strikes? In the three big strikes of coal, steel and aluminum now idling more than a million men, it is costing something like \$67,000,000 a week.

Give your boy a rifle and teach him how to shoot, says the National Rifle Association, if you would have him avoid shooting accidents. That advice will not fit well with those parents who have a horrid gun who seem to think that the only way to keep their child from shooting himself or someone else is to spank him whenever he goes near a gun.

Prime Minister Jawaharlal Nehru is convinced that capitalism and Communism cannot continue to exist side by side. That might seem to indicate that eventually the two theories would clash in a war of annihilation, and that perhaps both might be destroyed as the result.

President John Ivey has been named as the Chamber of Commerce's candidate for the past year... The Chamber of Commerce has carried all over the State. The Chamber of Commerce has carried all over the State.

Death In The Ring

There occurred recently in Detroit the eighth recorded death in professional boxing for 1949. The victim died from the effect of a blow to the head received in the course of a scheduled match.

Why should these men have died? There are occasional fatalities in many competitive sports. Promoters and enthusiasts advance arguments in justification of the risks in some, on the ground that gains to society are worth the risks.

If it were entirely free from dangers to the participants, there are some who nevertheless would ask whether professional boxing is useful to society today.

Malignant Dispute

The dispute between the Navy and the Air Force, which Admiral Arthur W. Radford says has reached "malignant proportions", unfortunately cannot be settled by giving each side what it wants.

Whatever the merits in the present quarrel, and they are hard for a layman to determine, the two branches of the armed forces seem alike in one thing.

The problem of this kind of competition is one reason why the unification of the armed services was directed by Congress. A disinterested arbiter is needed to weigh the respective claims of the quarrelling warriors.

Take Your Choice

"God offers to every mind his choice between truth and repose; take which you please - you can never have both"

To me it is a strange and dismal thing that in a world of such need, such opportunity and such variety as ours, the search for an illusory peace of mind should be so zealously pursued and defended, while truth goes unlovingly.

India's greatest burden is stark hunger, due to poverty. The same can be said of her sister state of Bengal with its population of 100,000,000.

But a querulous search of a premature, permanent "peace" seems to me a thing disguised wish to die. As I have said elsewhere, in paraphrase of Freud, man is a creature dominated by an instinct in the direction of death.

For most people in this rugged world, the problems of reality are sufficient in power and prevalence to preclude all complacency. But for many others it is not the problems of reality or the problems of other people which most painfully disturb peace of mind; it is lovelessness.

Their cry for peace is a cry for unearned love, in the face of the wisdom of Jesus and Lao Tse and many others who taught that we get love only by giving it.

On the other hand, peace or something near it is often achieved by those who do not seek it, who, seeking truth, forgot themselves.

By Dr. Karl Menninger, Noted psychiatrist and author of "Love Against Hate"

Jewish War Vets Meet In Miami At Annual Convention

MIAMI BEACH, Oct. 20—(AP)—Approximately 1,000 Jewish war veterans were here today for their 64th annual national convention.

More are expected today in time for reunions, business meetings and the annual parade down Lincoln Road tonight.

At the executive board meeting, National Commander Meyer Dorfman of St. Paul, Minn., said: "We are on record in our adherence to every form of political totalitarianism, whatever its philosophy and no matter who its sponsors may be."

"This convention has the solemn responsibility to vote these policies and programs that will constitute yet another step forward in our usefulness to our fellow Americans, our fellow veterans and our fellow Jews."

He also called for "every man to aid to the Jewish people of Israel" and said the human needs of her inhabitants have the concern of every right-thinking person, whatever his religious belief or racial conviction.

Rep. George Smathers (D-Fla.) will be honored at a luncheon today for his work "on behalf of national defense and inter-faith cooperation."

Senator Claude Pepper (D-Fla.) has been announced as the speaker for the evening when the new national convention will be held.

Think The War Is Over

Mrs. Jessie C. Gresham of New York, J.V.V.A. national secretary-treasurer, described the organization's work for veterans in hospitals.

The homes are little mud huts, which are fearfully dirty. Cowdung, gathered by the women with their hands, is plastered on the outside walls of the huts to dry for fuel.

But almost always the story is the same. They are hungry. Doctors? They are mostly quacks, or quack doctors, who work their "cures" through incantations and other weird practices.

But almost always the story is the same. They are hungry. Doctors? They are mostly quacks, or quack doctors, who work their "cures" through incantations and other weird practices.

'BOMBERS MOON'

THE WORLD TODAY

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

When Indian Prime Minister Jawaharlal Nehru was asked by a small New York school girl what his country's worst problem is, he replied without hesitation: "Poverty. We must have food for our people."

India's greatest burden is stark hunger, due to poverty. The same can be said of her sister state of Bengal with its population of 100,000,000.

But a querulous search of a premature, permanent "peace" seems to me a thing disguised wish to die. As I have said elsewhere, in paraphrase of Freud, man is a creature dominated by an instinct in the direction of death.

For most people in this rugged world, the problems of reality are sufficient in power and prevalence to preclude all complacency. But for many others it is not the problems of reality or the problems of other people which most painfully disturb peace of mind; it is lovelessness.

Their cry for peace is a cry for unearned love, in the face of the wisdom of Jesus and Lao Tse and many others who taught that we get love only by giving it.

On the other hand, peace or something near it is often achieved by those who do not seek it, who, seeking truth, forgot themselves.

So there you have the sorry story of the farming population. Naturally conditions in the cities are better, though there is much poverty and consequent under-nourishment among them.

An Nehru says, this poverty is his greatest problem, just as it is the greatest problem of India's sister state of Pakistan.

What are his chances of success in this great undertaking? As the signs read he will go far. I have spent a good deal of time traveling about the peninsula during the past 33 years, and India is on the move.

Without doubt India is emerging into the broad highway of a new and better life, and she is taking her leadership from Nehru.

The ancient Romans enforced conservation in the cutting of the cedars of Lebanon.

Dr. Henry McLaulin, Optometrist, 117 Magnolia Ave. Phone 813

Churches Urged To Help Improve Public Schools

COLUMBUS, O., Oct. 20—(AP)—Protestant churches were urged yesterday to do everything possible to support and improve the quality of public schools, including aid in obtaining more adequate financial support.

The delegates urged Protestant churches to encourage young people to enter the teaching profession "as a Christian vocation."

They recommended churches be discouraged from establishing private and parochial schools on the elementary and secondary levels on any significant scale.

And they affirmed the right of local communities to maintain week-day religious instruction during the school day, but not by using public school resources.

Other recommendations made by the conference's health, economic conditions, community, family living and institutional and foster care groups, included:

More student work projects in industry, work camps, industrial institutes for churchmen and programs developing understanding of the relations between Christianity and economic problems on the part of seminary students.

Expansion of social service agencies as "an effective means to bring the church face to face with economic problems."

Diverse cases to be handled by counseling experts rather than by "quasi-criminal procedures."

The United Council of Church Women given special attention to voluntary services to mentally defective, spastic and blind children.

And the inter-agency committee on child welfare explore the possibility of a study of church "sponsored" nursery schools.

Judge Farmer (Continued From Page One) on observance of National Business Women's Week. A donation for the Girls State float in the Christmas parade in Orlando was approved.

Atlantic Gales Battering Ships Appear Abating

NEW YORK, Oct. 20—(AP)—Two gales pounded shipping on the North Atlantic for the fourth straight day today, and storm-damaged cripples began limping to port.

The three worst-battered ships were the French freighter Casn, the tanker John H. Marion and the Greek freighter Mathosa.

The 7,176-ton Casn neared Philadelphia under tow by the tug Marion Moran after three days following without engine power following a propeller accident.

The damaged tanker Marion, with one seaman dead, was heading for Baltimore under escort of the S. S. Pueblo. The Marion resorted herself 250 miles east of Nantucket this morning, making 10 knots and in no danger.

Canadian authorities were sending help, the Coast Guard said.

The Weather Bureau said the Nova Scotia storm, which moved north from the Delaware capes, apparently was slackening. There still were 60-mile-an-hour winds in its center about 200 miles southeast of Nova Scotia, however.

The other storm, much bigger, centers south of Iceland and extends 900 miles south across the main shipping lanes to England. It too, has winds up to 60 m. p. h., the bureau said, and apparently is at its peak.

Since Sunday the two gales have disrupted shipping schedules, with even the super-liners running a day late.

COTTON GIN FIRE BREWTON, Ala., Oct. 20—(AP)—A Brewton cotton gin was destroyed and three other buildings were damaged by fire today. Loss was estimated at more than \$100,000.

The Brewton fire department, aided by the Flomaton volunteer department, brought the blaze under control after a brief but furious battle.

Home Department Hears Glee Club

A portion of the Seminole High School Glee Club was featured on the program of the American Home Department which met Tuesday evening at the Woman's Club building at 8:00 P. M. Members were seated at small tables which were attractively decorated with mimosas and multi-colored candles.

The girls' triple trio sang "Smoke Ties in Your Eyes" and "When Day is Done". Composing the trio were the Misses Joyce Batts, Carolyn Patrick, Nell Buehler, Mary Ann Bohlander, Peggy Wilson, Donna Lou Harper, Jean Galloway and Betty Lou Partin.

The boy's double quartette rendered "King Jesus is a-Litening" and "Softly and Tenderly." Those in the quartette are Bobby Matra, Sonny West, Edmond Meyers, David Heister, Clarence Chase, Billy Tison, Donald Hoare and Hobby Lawley. The entire group sang "Good News." Accompanist was Miss Shirley Middleton.

Following the musical program Miss Ottilie Reese White, director of the Glee Club, talked on music appreciation. Mrs. D. H. Watkins presided over the meeting and welcomed new members, Mrs. Lynn Gowan and Mrs. Roy F. Symes, Jr. Reports were heard from various officers.

Mrs. E. J. Moughtin, Jr. was elected as finance chairman following the resignation of Mrs. Jack Rutigan and Mrs. W. M. Phillips announced that a drama, sponsored by the fund department, will be presented at the next general luncheon of the entire club on Nov. 2. Mrs. Roy Green asked for contributions for the Thrift Shop.

Refreshments were served at the conclusion of the meeting under the direction of Mrs. Bill Kirk, chairman. Mrs. George H. Williams, Jr., Mrs. Buford Brown, Mrs. John Carlton, Mrs. Irving Rosenberg and Mrs. William Walters.

Mrs. Gingles Speaks At Club Meeting

Mrs. P. M. Gingles, director of Sanford recreational activities, served as guest speaker for the first monthly luncheon and business meeting of the Civic Department of the Sanford Woman's Club held yesterday at 12:30 P. M. at the club house. Mrs. Gingles had as her subject "Recreation" and told of the recreation activities during the past summer for children and adults. She also described plans for tourist recreation and stated that the municipal swimming pool will be completed in December. She told of plans for a children's playground.

Gray, Mrs. Azzarello Hold Class Meeting

Mr. and Mrs. H. B. Gray and Mrs. J. N. Azzarello entertained on Tuesday night for members of the R. W. Ware Bible Class at the Gray home at 1803 Sanford Avenue. P. H. Wyatt, newly elected president, presided over the meeting and other officers recently elected for the ensuing year include Mrs. Azzarello, vice-president; R. U. Hutchinson, secretary; and Mr. Gray, treasurer.

Mrs. R. U. Hutchinson gave the devotional after which reports were heard from various committees. Plans were made for the annual Thanksgiving barbecue to be held at the Hutchinson home on Nov. 16. Games were enjoyed under the supervision of Mrs. Gretchen Crowell after which refreshments were served.

Those attending were Mr. and Mrs. Hutchinson, Mr. and Mrs. C. E. Chorpensing, Mr. and Mrs. L. I. Hughey, Mr. and Mrs. P. H. Wyatt, Mr. and Mrs. C. W. Bellamy, Mrs. Crowell, Mrs. J. H. Findell, Mrs. J. R. Hoochan, Mrs. L. M. Swain, W. C. Coleman, Mrs. W. W. Tyre, Miss Norine Norwood, R. W. Ware and Jo Ann Hughey.

Personals

Miss Esther Christmas and Mrs. Hyrd Goode plan to leave Thursday for Florence, S. C. to spend the week-end visiting relatives.

Guild Of Organists Meets In Sanford

The Central Florida Chapter of the American Guild of Organists held its first Fall meeting at the First Presbyterian Church in Sanford on Oct. 18. A supper was served to 15 members and guests after which Mrs. R. H. Walther, the new dean, outlined the year's program, the outstanding feature being plans for a recital to be given by the well-known organist, Virgil Fox on Feb. 15, 1950. The recital will be given at Knowles Memorial Chapel, Rollins College, Winter Park.

Following the business meeting, Rev. J. E. McKinley, pastor of the First Methodist Church, talked on the "three requisites of a good organist" and Rev. A. G. McKinley, of the Presbyterian Church, spoke on "the proper use of the organ in the church as an aid to worship".

At the conclusion of the program Mrs. Paul Penrod of Orlando and Guild member, played two organ numbers. Two movements of Wolstenholme's Sonata (in the style of Handel) and 2. a Bach Fugue. Those from Sanford attending were Rev. and Mrs. McKinley, Rev. and Mrs. McKinley, Mrs. E. D. Browning, Mrs. F. S. Vernay, Mrs. Walther, Mrs. George Tubby and Mrs. J. L. McKean.

Teen Talk

By VIVIAN BROWN

Room scouts report that boys are getting too used to the Dutch treat system. Most of them do not even like to invest in a coke for their best girl. Take heed, gals. If he wants a date, let him pay the tariff. Unless, of course, you know him well . . . but a new boy, no. You'll spoil it for the other gals, too. If you do. Start the semester off right.

It used to be that if a boy had a dollar allowance, he expected to spend half of it on the girl. Now if he looks for a girl who has her own dollar.

Leprechaun Collare. That favorite of teen-agers, hair-dresser Victor Vito, has come up with a brand new hairdo, now being worn on Fifth Avenue by stylish school girls. It is close cropped and has such a playful look he has named it "Leprechaun." The kids love it because it requires no permanent, can be worn without a hat, pins, combs, to keep it smooth. It is short all over, about an inch and a half in back and has thin hair bangs. When you wash it, add Vico's "Victor" brush, the bangs fall up so that when it dries it will dovetail together. You'll look fun-like in this new young hair-do.

Bad for Bookworms. One of the most delightful ideas for teenagers is "My Private Life" (Lantern Press) a "diary type" record book by Polly Webster. It would encourage teenagers and young adults to record by personal story of the joys and triumphs of the happy teen years. It is a diary, and yet it is not a diary, perfect camouflage for friends and girl friends, you need not be accused of keeping one, but would like to record fun and finances. There are pages for current plans, log dates and times, and graphs, and collages, word pictures and snapshots. Friends, records of beauty and health, personality tests. There are places to list favorite radio and movie stars, talk about boy friends and girl friends, pen pals, memory bits such as birthday and anniversary. It is indeed a compact little package, a gift that will please any young girl, written by a mother for her own teen-ager. It is delightfully illustrated by Martha Wheeler.

Yugoslavia cannot and will not be considered a member of the eastern bloc, Vishinsky said. He described the election as "an attempt to turn the Security Council into an obedient tool of the Anglo-American bloc."

Britain had announced in advance that she would support Czechoslovakia, but there was no indication how she actually voted on the secret ballot. The voting began after Russia's Andrei Y. Vishinsky made a last-minute appeal to the Assembly to defeat Yugoslavia. His remarks, however, were ruled out of order by Assembly President Carlos P. Romulo.

The delegates voted by secret ballot. Czechoslovakia received 20 votes, Afghanistan one. India and Ecuador were elected to the other council seats to be vacated Dec. 31.

Yugoslavia and Czechoslovakia were contesting for the seat now held by the Soviet Ukraine.

Ballots were being distributed in the Assembly when Vishinsky demanded the floor. He strode to the rostrum to make a technical argument that the seat belongs to Czechoslovakia by choice of the Soviet bloc.

Assembly President Carlos P. Romulo quickly made his ruling that Vishinsky was out of order. No campaigning for candidates is permitted from the floor before the voting.

Vishinsky's charge was attempts are being made to distort the Soviet position in this matter in a slanderous manner. Romulo rapped his gavel hard, but Vishinsky kept right on talking, increasing the pitch of his voice. Vishinsky ignored the chairman, kept right on talking and finished his statement in about two minutes.

ONE OF BRITAIN'S most eligible bachelors, the Marquess of Mollay-Thavon, 30-year-old cousin of King George, is shown with his fiancée, Mrs. Rosamund Dalgleish (Princess Simpson), 26, a New York Park Avenue divorcee. The wedding is scheduled for November. This exclusive photo was made by Datan, famous British court photographer. (International)

Don't garnish too many dishes at one meal if the main course is heavily garnished, for in excess it's not necessary to add extra to the vegetables or salad.

When you are preparing liver and bacon, fry the bacon first and drain it on brown paper or a paper towel or napkin. Then when the liver has been put in the pan, and the slices have been turned over, put the bacon on top of the slices, so it will leave fat as the liver finishes cooking.

For a company vegetable dish, couple green bean pods with halves of mushrooms or cauliflower or cauliflower, and cook until browned slightly.

Celery Men Gunning For Grid Win Over Palatka In First Home Tilt

By OLAF ZEWADSKI

The Seminole High School Celery Feds will play hosts to the Palatka High School football squad Friday night at 8:00 o'clock and both teams are expected to win this conference tilt.

The Celery Feds, after a close fought non-conference game at Oklawaha last week, expect to improve their East Florida standing of one win and one loss. However, Palatka is expected to improve its record by winning its first home game.

Coach Carl Kettles sent his squad through a three hour practice session yesterday and showed the Celery Feds an impressive string of plays in action which have recently come up from the "B" squad.

Cohen has shifted some of his players to different spots in his line-up Friday night.

Landing has been changed from guard to quarterback, Buddy Hays shifted from left halfback to left half and Harper from center to right half.

The passing offense has been handled by halfback Frank Stenstrom, who hit his receivers for several nice gains yesterday.

Stenstrom, a light-weight soph-

Chuck Hunsinger To Play Against Georgia Tech

Choo-Choo Justice Is Big Worry For L.S.U. In Game Saturday

By ASSOCIATED PRESS

Chuck Hunsinger, Florida's offensive mainstay, figures to be in there against Georgia Tech Saturday night, but he has a few problems.

Coach Bobby Dodd of Tech, Florida's homecoming opponent, certainly wasn't chuckling with pleasure when he heard that the No. 1 star is running again.

Dodd figures Hunsinger is quite a figure to be figured on. So the Yellow Jacket mentor is worried about the "Choo-Choo" justice.

"We figure Florida is a two touchdown better team with Hunsinger in shape to go," Dodd replied.

"Even without Hunsinger, who may not be in the conference, the factors scared the daylight out of Vandy last week. Now with him ready for us we are expecting just that much harder a game."

Hunsinger, a halfback who has to show his heels to the other 21 players on a field, was back in practice sessions yesterday. But the Gator ground game took things out of easy. He was all pulled up to protect a shoulder and just played around with the second string.

Syracuse University's new head football coach, Floyd Schwartzwalder, was a paratrooper during the war and won the Silver Star.

Hunters Advised To Note Changes In Regulations

Hunters are advised by County Judge Douglas Stenstrom that changes have been made in regulations and to mark their calendars accordingly.

The season for marsh hen is now open and will close Nov. 30 with hunting permitted each day from one hour before sunrise to sunset except on Nov. 29 and 30 when hunting is to be stopped one hour before sunset.

The season on deer, he stated, opens Nov. 22 and closes Jan. 5 with hunting permitted on the first six days of the season, but closed on Mondays, Tuesdays and Fridays thereafter. The season for squirrel, quail and turkey also opens Nov. 22 and closes Feb. 1, with hunting permitted during the first six days, but closed on Mondays, Tuesdays and Fridays thereafter.

The season for coon, geese and ducks will open Nov. 29, and will close Jan. 7, with hunting permitted each day from half an hour before sunrise to one hour before sunset, except the first day when hunting begins at noon.

On Dec. 17 the season for doves will open and they may be hunted except on Monday, Tuesday and Friday, and only between noon and sunset. The season closes Jan. 15.

Will Life Trap Shoot Won By Young Girl

ST. PETERSBURG, Oct. 20—(AP)—Miss Joann Pfeuffer, the 16-year-old champion of champion today became first high overall champion with a score of 139 out of a possible 150 birds at the first annual Florida Wild Life trap and skeet shoot. She won her title recently.

George Silverman of St. Petersburg won the Florida handicap skeet shoot with a perfect score of 60 birds.

In the 10 yard event L. G. De Lavigne of Tampa won with 40 out of 50 birds. Al Pfeuffer of Miami and George Scott of St. Petersburg followed in that order.

George Brasco of Orlando, Scott and Ray Hense of St. Petersburg were tied for lead in the handicap trap shoot.

Business sessions were scheduled for Friday and Saturday.

Today and Thursday were given over to registration, sports, entertainment and a directors meeting. A wildlife queen will be selected Friday and crowned Saturday.

The University of Texas has had seven undefeated football seasons: 1903, 1905, 1906, 1914, 1918, 1920 and 1923.

In 1879, the Navy football team wore tightly-laced canvas jackets, supposedly the first field uniforms.

The University of Florida football team has 29 lettermen.

San Francisco Grid Team Plays Yanks In Game Of Week

NEW YORK, Oct. 20—(AP)—San Francisco's powerhouse will defend its All-America Conference leadership against the red hot New York Yankees Sunday in the pro football game of the week.

This could be the starkest test of the season for the 49ers. The third-place Yankees have won their last three games, including last Sunday's 24-21 verdict over Baltimore.

San Francisco, which two Sundays ago mopped up second-place Cleveland, 66-28, continued on its rampage in the only other AAC game played. The Packers crushed their only conquerors this year—the Buffalo Bills—avenging their lone setback in seven starts by a 51-7 score.

The Yankees have won four of their five starts while Cleveland has a 5-1 record.

Only one team—the Los Angeles Rams—remained unbeaten in either the National League or the AAC. The Rams, leaders of the NFL's western division, made their season record 4-0-0 by trimming the Detroit Lions, 21-10, before 31,430 spectators at the City of Domes. Detroit has yet to win its four starts. This was its second setback by the league leaders.

The champion Philadelphia Eagles suffered their first setback

Newest Crop Of Gridiron Hopefuls Are Air Minded

NEW YORK, Oct. 20—(AP)—College football's growing air-mindedness is reflected in the new sophomore crop, which features the debut collection of passing arms to come along in years.

From coast-to-coast, fledgling varsity stars are cutting fancy dices with their dead-eye heaving. Passers head the list of newcomers making a noticeable mark on the grid this fall.

The calover of sophomore sling-shot specialists includes Harry Agganis, the left-handed sniper from Boston University; Bob Zank of Navy; Vito Pasilli of Kentucky; Don Logue of Arkansas and John Costa of Wisconsin.

Perhaps the most celebrated of the sophomore is Agganis, the rubber-armed 190-pound T-pilot at Boston U.

A needle-threading thrower and tricky climax runner—Agganis has figured in ten of his team's touchdowns in three one-sided victories. He passed for eight and scored two on the ground.

Farrell is sparkling of a Kentucky team that has won five games in a row impressively. The Rochester, Pa., youngster has connected with 41 of 66 heaves for 525 yards and five touchdowns.

Other outstanding sophomores include Jim French, Florida; end; Jerome Hellin, Tulane; tackle; Guards John Ignariski of Kentucky, and Ted Daffer of Tennessee; and these backs—Lee Hodges of Louisiana State; Mike Vachio of Miami (Fla.); William Sizemore of Wake Forest; Bernie Sizemore of Tennessee; John Hoyle of South Carolina and Skeets Hester of North Carolina.

Gus Eriksen, Syracuse's new crew coach, never has tutored a losing shell. His Washington freshmen were unbeaten for two years.

When Yale and Harvard meet in the Yale Bowl on Nov. 19, it will be the 66th game between the rivals.

Worst defeat ever suffered by a University of Texas football team was a 41-0 beating received in 1904 from Chicago.

University Will Dedicate New Gym At Homecoming

GAINESVILLE, Oct. 19—The magnificent new auditorium-gymnasium at the University of Florida will be dedicated Friday afternoon as a part of the gala homecoming festivities which center around the Florida-Georgia Tech football game.

The new gymnasium, designed by U. S. Vice-President Allen W. Barkley, Florida Gymnasium was completed over a two year period and became the new home of the College of Physical Education, Health and Athletics last June. In addition to its intercollegiate facilities, the gymnasium building houses all activities of the Physical Education Department, including a recreation area, physical education, and intramural activities.

As an athletic unit it provides the 7,000-seat intercollegiate basketball court, four intramural courts, dressing and locker rooms for all teams, training quarters, and office space for the intercollegiate coaching staff and business office.

In the academic field the building provides a special auditorium for nearly 5,000 seats for special University convocations, provides six classrooms, a projection room of 300 seats for visual education purposes, a reading room, a recreation area, and offices for the administration and instructional personnel of the College of Physical Education, Health and Athletics.

Its architectural architectural lines blend appropriately with other buildings of the campus, and its attractively decorated interior is modernly done in a variety of pleasing colors.

Roll-away bleachers along the sidelines of the regular basketball court can be folded back against the walls to provide maximum floor space beneath the awesome span of the gymnasium area. The total floor of the gymnasium section is 100 feet wide and 270 feet long, all under one huge span.

Florida gymnasium serves many needs of the University other than those of intercollegiate athletics. It already more than 43,000 people have attended special events in the building. The average traffic through the building is estimated at approximately 5,000 people.

The total University of Florida athletic plant—physical assets—is valued at approximately \$2,500,000. Florida Gymnasium itself is valued at approximately \$1,600,000.

The gymnasium will be used as an intercollegiate basketball court for the first time when Mississippi State's basketball team comes to Gainesville to open the season on December 3rd.

Georgia, Miami Football Game To Draw 45,000 Fans

MIAMI, Oct. 20—(AP)—A crowd of more than 45,000 is expected to see the University of Georgia in action against the Miami Hurricanes in the Orange Bowl tomorrow night, athletic officials reported today.

However, the crowd is expected to fall short of the record 48,522 at the Miami-Purdue game last week.

The Georgians are due to arrive by rail this afternoon, with 50 in the party. They will stay at the Shelbourne Hotel on Miami Beach. The Bulldogs will return to Athens by plane Saturday morning.

Only a light signal drill is on the program for the home team today after a three-hour workout yesterday.

Coach Andy Gustafson kept his charges on the defensive through most of the afternoon in a long scrimmage session against the Yearlings. It was the longest and hardest workout of the week.

Gustafson plans to start little Jack Hackett at quarterback in place of Jack Del Bello and has moved Sam David up to the first offensive team at tackle. David will play opposite Bob Carroll, with both expected to play most of the game on both offensive and defense.

Indiana Colleges Produce Best Pro Football Players

PHILADELPHIA, Oct. 20—(AP)—If there were any doubts that the professional football players, the National Football League spiked them today.

League statistician Joseph Laram thumbed through the files of the 10 clubs in the circuit and found that 121 colleges are represented in the oldest professional football circuit.

Leading the list of colleges, as might be expected, is Notre Dame. The Irish, currently the top-rated college in the country, supplied 14 of the NFL's currently active players.

And second is Notre Dame's neighbor, Indiana University, which has placed nine men in the league.

Professional football seems to be dominated by players from the Middle West and South. Of the 19 colleges with five or more graduates playing in the NFL, six are from the Middle West and seven from the South.

The East has three representatives, the Far West, Southwest and Rockies one each.

Here is a list of the top 10 producing football colleges.

14—Notre Dame.
9—Indiana.
8—Alabama, Louisiana State.
7—Georgia, Ohio State, Penn State, Tulsa, Wisconsin.
6—Duke, Iowa, Michigan, UCLA, Temple.
5—Boston College, Kentucky, Tennessee, Utah, Wake Forest.

Players in the league date back to the collegiate graduating class of 1937. Sammy Baugh of the Washington Redskins, now in his 13th season, was a Texas Christian graduate in 1937.

Second to him is Alex Wojciechowski, Philadelphia Eagles center in his 12th campaign. Wojta was graduated from Fordham University in 1938.

Be Zaharias And Patty Berg Lead Golf Tourney

SMITH, Ark., Oct. 20—Sharp competitors lined up for the eight quarterfinals of the 1949 Harderacres women's open golf crown.

At the pack were the title holders Zaharias and Patty Berg of Minnesota.

Zaharias, a former champion, led the pack over the 18-hole Harderacres country course by defeating Mrs. Earl Smith of Oklahoma City 7 and 1.

Miss Berg won her second title in a match over the 18-hole Harderacres country course by defeating Mrs. Earl Smith of Oklahoma City 7 and 1.

The champion Betty Mackenzie advanced to the quarterfinals by defeating Mrs. Earl Smith of Oklahoma City 7 and 1.

The year South Carolina entered the state's No. 1 sports event without a victory after three years.

The kickoff was set for 3 P. M.

Clemson To Meet S. C. Before Record Crowd

COLUMBIA, S. C., Oct. 20—(AP)—A record crowd for a South Carolina athletic event—34,000—was expected as the Clemson and South Carolina football teams met today for the 47th time.

Season records favored Clemson winner of two of four starts, with one tie. But the upset-minded looked back to last year when South Carolina cashed in a fumble and a blocked punt in the second half.

The year South Carolina entered the state's No. 1 sports event without a victory after three years.

The kickoff was set for 3 P. M.

By **CECILY BROWNSTONE**

FRIDAY LUNCH
Baked rice and cheese, Tomato Sauce, Mixed Salad, Bread and Butter, Fresh Peas, Beverage.
(Recipe for Starred Dish Follows)
BAKED RICE AND CHEESE
Ingredients: 2 eggs, 1 tablespoon butter or margarine (melted), 1 1/2 cups milk, 1 teaspoon salt, 2 cups cooked rice, 1 cup grated American cheese.
Method: Put the eggs in a mixing bowl and beat slightly with a rotary beater—enough to combine yolks and whites. Add the melted butter or margarine, milk, salt, and 1/2 cup of the grated cheese. Mix well and turn into a buttered baking dish; sprinkle with the remaining 1/2 cup of cheese over the top. Place in a pan of hot water and bake in moderate (350F.) oven for about 50 minutes. 6 servings.

FRIDAY FARE
Salmon, Leafy Potato Puff, Buttered Spinach, Sweet Gherkins, Bread and Butter, Fresh Fruit Bowl, Beverage.
(Recipe for Starred Dish Follows)
SALMON LOAF
Ingredients: 1 one-pound can salmon, 2 eggs (slightly beaten), 1 cup milk, 1/4 teaspoon salt, 2 tablespoons finely grated onion (juice and pulp), 1 1/2 teaspoons lemon juice, parsley.
Method: Remove the skin from the salmon; crush bones and flake salmon. Mix the salmon flakes, crushed bones, and liquid from the can with the bread crumbs, eggs, milk, salt, onion, and lemon juice. Turn into a casserole and place in a pan of water; bake in a moderate (375 F.) oven for about an hour or until firm. Garnish with parsley.

GUESTS FOR SATURDAY NIGHT SUPPER
Cream of Asparagus Soup, Chip Crackers, Cold Baked Ham, Special Potato Salad, Lettuce and Tomato Salad, Hot Rolls, Apple Pie, Beverage.
(Recipe for Starred Dish Follows)
SPECIAL POTATO SALAD
Ingredients: 2 pounds potatoes (6 medium), 1 cup finely diced celery, 2 tablespoons finely diced green pepper, 3 tablespoons finely grated onion pulp and juice, 1 cup mayonnaise-type salad dressing, 1 tablespoon cider vinegar, 1 teaspoon prepared mustard, salt and pepper to taste, 3 hard-cooked eggs, 1/2 medium-size cucumber, paprika.
Method: Cook the potatoes in their skins, peel and cube into a large mixing bowl. (Potato cubes should be about 1/2-inch squares.) Turn the celery, green pepper, onion, mayonnaise-type salad dressing, vinegar and mustard over the potatoes, and sprinkle with salt and freshly ground pepper. Mix well. Chop 2 of the hard-cooked eggs and mix in lightly but well, adding more salt and pepper if necessary this time. Wash and dry cucumber but do not peel; some lengthwise with the sharp times of a fork and slice thin. Garnish salad with remaining hard-cooked egg, cucumber and paprika. Makes 8 servings.

SUNDAY NIGHT SUPPER
Salmon Bisque, Chip Crackers, California Salad Bowl, Coffee Ice Cream, Beverage.
(Recipe for Starred Dish Follows)
SALMON BISQUE
Ingredients: 1 eight ounce can salmon, 2 tablespoons butter or margarine, 2 tablespoons finely chopped celery, 2 tablespoons grated carrot, 1 tablespoon flour, 3 cups milk, 2 slices onion, 1 bay leaf, salt and pepper, 1 teaspoon finely chopped parsley.
Method: Drain salmon and remove skin and bones; flake. Melt butter or margarine in a saucepan over low heat. Add celery and carrots and cook about 3 minutes; then add flour and blend. Add milk slowly, and cook, stirring constantly, until smooth and slightly thickened. Add salmon, onion and bay leaf. Simmer over very low heat for 15 minutes. Remove onion and pepper to taste. Sprinkle with sliced and bay leaf. Add salt and chopped parsley. Makes 6 servings.

THE BOSS COMES TO DINNER
Jellied Consommé, Fried Chicken with Mushroom Gravy, Brown Rice, Green Peas, Avocado and Cucumber Salad, Quick Cream Biscuits, Fresh Pineapple Cake, Beverage.
(Recipe for Starred Dish Follows)
QUICK CREAM BISCUITS
Ingredients: 2 cups sifted cake flour, 1 teaspoon baking powder, 1/2 teaspoon salt, 1 tablespoon sugar, 1 cup less 2 tablespoons heavy cream.
Method: Mix and sift the cake flour, baking powder, and salt. Pour in the cream and mix vigorously with a wooden spoon until dough forms. Flatten out somewhat, gently, in bowl and mark off with a spatula in 12 portions; put half of each portion in a separate mound on a greased baking sheet with a tablespoon. Bake in a hot (450F.) oven for 12 to 15 minutes, until lightly browned. Serve hot. Makes 12 drop biscuits.

THE BRIDE COOKS DINNER
Lamb Chops, Mashed Potatoes, Beet Salad, Bread and Butter, Blackberry Cobbler, Beverage.
BEEF SALAD
Ingredients: 2 cups diced cold beef, 4 cups finely sliced celery, 2 tablespoons finely sliced white onion, 1 hard-cooked egg, salad greens, well-seasoned French dressing.
Method: Put the beef, celery, and onion in a mixing bowl. Cut the hard-cooked egg in half and place in the mixing bowl in long the slices. Mix well and place on salad green on individual salad plates. Put the reserved hard-cooked egg yolk in a small strainer and press through with a spoon onto tops of salads. Serve French dressing along with salads. Makes 4 servings.

In adult life, the system usually is attached to some hard object. This may be a shell, either live or empty, or it may be attached to the piling under a pier.
Inhabitants of the sub-surface ocean are busy. During the war, the navy had to "screen out" noises of ocean creatures so that instruments for detecting submarine sounds could work effectively.

Railroad Pledges Seats To Negroes On Trips South

NEW YORK, Oct. 20.—(AP)—The Pennsylvania Railroad has pledged first-come, first-serve seats to negro passengers bound south from New York on its through trains.

But at least two other connecting railroad serving the deep South say state restrictions prohibit them from following suit.

Effective immediately, the Pennsylvania last night agreed to meet complaints raised by the New York Mayor's Committee on Unity. These were filed with the New York State Commission against discrimination.

The Pennsylvania said it would reserve coach seats on through trains for all passengers alike in any part of the train.

In the past, the road said, negro passengers got reserved seats in any part of the train which they asked for them.

When they didn't ask, the railroad said, it tried to place negroes in separate cars from whites. The Pennsylvania said it did this to meet and inconvenience south of save negroes possible embarrassment.

In Washington, F. L. Jenkins, director of passenger traffic for the Southern Railroad, said state laws require segregation in parts of the South. His railroad observes these laws, he added.

However, Jenkins said, the Southern, in recent years, has not elected from their seats any negroes whose trips began north of Washington.

In Norfolk, Va., the Seaboard also said it practices segregation which its trains pass.

The railroad said it does not plan to follow the action of the Pennsylvania.

Segregation, the Seaboard said, insures harmony in the South. Negro passengers get accommodations equal to whites, the railway added.

from tuberculosis, the disease kills more young people between the ages of 15 and 34 than any other disease—kills 11 Americans at the rate of one every 11 minutes, almost a thousand every week, close to 60,000 every year. Moreover, it is estimated that there are approximately 5,000,000 cases of the disease in the United States at this moment.

"One way all of us can participate in the fight against tuberculosis is by buying and using Christmas Seals. For funds from the sale of Seals contribute the sole support of the Tuberculosis Association which is waging a relentless battle against the disease for us right in our own community.

"For a number of years, Mr. Senark pointed out, the Tuberculosis Association has been carrying on a progressive program of tuberculosis prevention and control through such services as community residents as: Mobile X-Ray, milk distribution, patient service and hospitalization.

GOP Blast

(Continued from Page One)

ed coverage and increased benefits approved by House, but no action in Senate.

NATIONAL HEALTH INSURANCE—No action in either chamber. Both houses approved extension of federal aid in hospital construction program.

EDUCATION—Plan for federal aid to states passed by Senate, but bottled up in House Labor Committee.

RENT CONTROL—Rejected request for two-year extension but approved a one-year continuation on a "states' right" basis whereby curbs can be removed by local action.

FARM PROGRAM—Shelved the Brannan plan, and approved a compromise price support program which generally provides for a continuation of wartime price supports for major crops.

DEFENSE—Proposal for universal military training ignored. Request for peacetime appropriation for armed services approved.

CIVIL RIGHTS—Repeal of poll tax approved by House, but no action in Senate; anti-lynching legislation approved by Senate committee, and Fair Employment Practices Commission approved by House committee.

PAY RAISES—Nearly every general employe from a buck private up to the commander-in-chief himself and including postal workers, civil service employes and top executives were voted salary raises.

Foreign Affairs—**ECONOMIC**—Second year's installment on Marshall Plan aid to Europe approved; reciprocal Trade Agreements program renewed without restrictions voted by last Congress; international wheat agreement ratified by Senate; export controls extended for two years; plan to aid development of backward areas of world with government-backed private investment not acted on by either chamber.

REPLACED PERSONS—Bill to aid more homeless Europeans in U. S. passed by House. Senate deferred action until next January.

LOCAL DEFENSE—The 20th Air Force, based at Scott Air Force Base, Ill., is to be moved to the new base at Randolph Air Force Base, Texas, by the end of the year.

Convict Taken

(Continued from Page One)

ed arrest, rushing at the men with an open knife. Another knife was found in his clothing on the spot.

The chase lasted three days. During that time four airplanes, at least three pairs of bloodhounds and more than 600 officers and citizens took part.

Donaldson made his escape from Lakeland in a stolen car. It was found on the outskirts of the city, with a shotgun inside.

The fugitive was seen several times during the 72 hour hunt. So far as could be learned tonight he visited only two homes. He took pants and shirt from one place and a dilapidated pair of shoes from another.

Frasier was one of the officers who brought to an end the flight of John Russell, escaped Florida county killer, in Hillsborough county a few weeks ago. Russell was killed with a .38-caliber revolver while trying to escape officers.

Sheriff Williams of Bartow said there "was some activity around town" when Donaldson was brought here for hospitalization, but that nothing untoward had occurred.

The sheriff said about a dozen cars followed the one which brought the former convict here from Lakeland. Most of the cars, however, were occupied by policemen but "some outsiders" rode in the others, he related.

Early today a few persons described by officers as "sightseers" were observed in Bartow, but no demonstrations were made.

Deputy Sheriff Carl Purvis reported about 400 persons gathered around the jail at Lakeland after the negro's capture, but most of the crowd came to get a glimpse of Donaldson.

He said there was no disorder there.

Minimum Wages

(Continued from Page One)

department.

He supplied it in a statement congratulating Congress on passage of the legislation and expressing hope that benefits of the law will be extended eventually to other "low paid work."

About 22,500,000 workers in interstate commerce are now covered by the wage and hour law.

Mr. Truman, in submitting his "fair deal" program to Congress last January, requested the increase in the minimum wage level. He also asked for extension of wage-hour benefits to more workers.

But Congress narrowed the coverage instead.

Sponsors of the measure say it may take years to find out how many workers most covered would be excluded. They say it depends on court interpretation of the new provisions.

At present, the statute applies to workers, among others, who are "necessary to" the production of goods which move in interstate commerce.

The new legislation would substitute "directly essential to" for the phrase "necessary to" in the original House bill the phrase was "indispensable to," and sponsors of the measure estimated that change would exclude about 1,000,000 workers from coverage.

Congress members agree "directly essential to" would whittle that figure some, but they say they can't guess to what extent.

The United States will begin negotiations early next week with Atlantic Pact countries for separate agreements to limit quick shipments of \$1,000,000,000 in American arms.

Government officials who reported this today said the eight countries will be asked for a pledge to integrate their defense forces and pool their arms manufacturing facilities.

The fast action follows passage of the appropriation for the \$1,314,010,000 foreign arms program in the closing hours of Congress yesterday.

The agreements will spell out conditions under which the reporting nations can obtain American military assistance. One of the provisions officials said, will be a clause designed to prevent transfer of American supplies to any third government.

The countries involved are Britain, France, Italy, Belgium, the Netherlands, Luxembourg, Norway and Denmark. All have requested military aid from the United States as part of the 12-nation Atlantic Alliance.

Canada, Portugal and Iceland are also members of this regional defense pact but have not requested military help.

The eight governments are expected to agree quickly, perhaps within two weeks, thus making it possible for the first American armed shipments to leave the United States some time in November.

Sugar Company Heads Sued For \$8,000,000

WILMINGTON, Del., Oct. 20.—(AP)—An \$8,000,000 damage suit has been filed in superior court against six directors of the U. S. Sugar Corporation, Clewiston, Fla.

The suit was brought by Clarence R. Hitting, William T. Hitting and Hitting, Inc. It named as defendants, Charles Stewart Mott, his son, C. S. Harling Mott, Roy E. Brownell, Charles E. Wetherald, John G. Getz, Jr., and Forrest P. Tralles.

The plaintiffs, who managed U. S. sugar affairs from 1931 to May 21, 1949, charge the defendants with a "conspiracy" causing the Hittings to be held up to "ridicule, scorn and contempt."

The suit claims a loss of assets and a loss of earnings of \$1,000,000 in the case of the corporate plaintiff and \$500,000 each in the case of the individual plaintiffs.

The complaint says U. S. Sugar Corp. was organized in April, 1931, for the reorganization of the Southern Sugar Co., which the suit says, "had unsuccessfully carried on sugar operations from about 1925 upon extensive properties in Florida."

The plaintiffs said their management of the corporation showed "vast improvement in operations and earnings." They claim, however, they "frustrated the personal aims of Charles Stewart Mott who developed a deep abiding and malicious hatred of Clarence R. and William T. Hitting."

Eisenhower

(Continued from Page One)

estimony given in the hearings by his old military friends.

He said they are "all distinguished Americans" and there should be no "name calling."

He said he wasn't going either into the kind and type of the Russian military machine or what we should have to meet it, but "I just believe from this moment on we can make unification work."

Eisenhower said the President must tell the soldiers there is a dollar waiting on them.

"So the fight starts over dividing that dollar," he went on. "Everyone wants to get his share of it."

"You realize that since we are dealing in deficits someone is going to get hurt. The question is, how will the least damage be done?"

Our defense policies, he said, are intended to protect the American way of life from dangers from the outside. But he said the new draft policy is "destroying our way of life by demanding uncollectible funds for defense spending."

To committee questions, Collins said the "necessity to" working well in Japan under General Douglas MacArthur and that there is a "unanimity of opinion" among the three services.

Mr. Collins (R-Ia.) commented: "So our trouble is largely in Washington, and not in the far away Pacific."

"In 1947 and that is true not only now, but all during the war," Collins replied.

President Truman

(Continued from Page One)

to meet the deficit.

He said the deficit was brought about through no fault of the President.

Mr. Truman gave reporters permission to quote the following answer to the question as to whether he might request legislation:

"Certainly, we've got to find money to run the government and that's all there is to it."

He said he would like to find the money some other way, and he wished somebody would tell him some other way.

President Truman suggested that labor and management get together and settle the coal and steel strikes in the interest of themselves and the country.

The President told a news conference he had no present plans for solution of either industries would be still longer that mediation will be successful.

"The sooner employes and employes come to a conclusion and we get back to work, the better it will be for the country and themselves."

President Truman said he will ask Congress next year for money to push the Atomic Energy Commission's expansion program but denied that the plan stems from evidence of an atomic explosion in Russia.

He said the Commission has \$50,000,000 to start the work at Oak Ridge, Tenn. and Hanford, Wash.

He added that he will not know how much the program will cost until he has an opportunity to talk it over with the Commission and the Budget Bureau, but that he has seen a figure of \$500,000,000 mentioned in the papers.

Red Cross Spends \$561 For Disaster Relief In County

More than \$561 was expended on disaster relief in Seminole County at the time of the August hurricane by the National American Red Cross, Malcolm MacNeill, disaster relief chairman, announced today.

Sixteen families were aided in rehabilitation needs, and approximately 187 families in mass shelters, he said. The outlay did not come from funds of the local chapter, but from the National Disaster budget, he stated.

"Disaster relief is always extended on the basis of needs beyond the resources of the family," he said, "never on the basis of loss. The greater portion of the money expended here was for building and repair materials, and in a few instances where extreme age or physical handicaps made it necessary, labor was provided to make the help effective."

The expenditures were low in this county, in comparison with those in some of the other areas where the storm struck with its full violence, and Seminole County can consider itself fortunate in this respect, he said.

Mr. MacNeill also explained that there were many more homes damaged as represented by the number applying for disaster relief, but that in general people were able to meet the cost of the repairs without help. The local chapter was assisted by a trained disaster relief worker from the National Relief, Mrs. Elaine Starr.

Nation's Privately-Owned Electric Companies Are Prepared For Winter

NEW YORK, Oct. 20—(AP)—For the first time in three years the nation's privately-owned electric companies are ready for winter with prospects of a comfortable supply of power, the Associated Press learned today.

Power engineers say the industry finally has reached the point where new generating equipment is going in faster than loads are growing.

They feel they have comfortable margins of reserve in all excepting one section of the country.

The lone exception is the Pacific northwest, a traditional trouble spot sometimes plagued by too much or too little water and demands of the aluminum industry.

The reserve margin is the thing that gives power engineers the jitters. It is the margin between total generating capacity and peak load demand, and during the past two winters it has been very small.

Last year the reserve was about five per cent. This year the power industry's \$9,000,000,000 expansion program has about doubled that margin.

Engineers consider 10 per cent a satisfactory and comfortable reserve figure. Preliminary estimates last spring set the per cent this year at 9.7. But private power men say actually they will go into this winter with a substantially larger margin.

Most of them feel it won't be up to the 15 per cent mark but they are confident they will reach around the 12 per cent figure of 1947.

At any rate it will be enough to allow them to sit back comfort-

ably for the first time since the post-war boom started. And for 1950-51 they see a distinct probability of the full 15 per cent figure.

The expansion program, which hasn't missed a beat, is the thing that turned the trick.

As of October 1st, the general capacity of all plants was 43,000,000 kilowatts. And as an indication of the speed with which the industry estimates that by the year-end the total will be 63,500,000 kilowatts.

The power industry is a solid guide to the nation's economy. It is the first to feel a softening of a boom in other industries.

Just this week production figures fell below totals of the previous year for the first time since August, 1948.

Power engineers said the steel strike threw off power output. Less electricity was used in the mid-Atlantic and central industrial areas.

But the appearance of comfortable margins and the temporary slow-down in the use of electricity in some sections isn't interfering with the progress of the expansion program.

For the power industry is unique in many respects. It must build for the possible future loads. It cannot store its product during the busy weeks. It has no warehouse full of cloth.

The electricity it turns out must be used as it is produced.

\$5 Million Show Is Planned Next Year In Haiti

PORT AU PRINCE, Haiti, Oct. 20—(AP)—President Dumarsais Estime is planning to give Haiti the biggest show it ever saw—a \$5,000,000 international exposition.

The exposition opens Dec. 8 in brand new buildings on 60 acres formerly a slum area. Estime turned the district, once an eyesore just east of the city, into a garden spot of dazzling beauty. It has magnificent buildings, gardens and avenues overlooking the Bay de Gonaive.

As minister of education a few years ago, Estime made himself famous by putting Haiti's disorganized school system in order and equipping teachers to get to work on time. He introduced directed play and sports activities.

As president, Estime says he is trying to put backward little Haiti on its way to progress. The exposition is part of that program.

All construction work for the exposition has not been finished, but Haitians say everything will be ready in time. The show celebrates the 200th birthday of Port Au Prince, the capital city.

Haiti hopes the exposition will bring thousands of visitors, make the country better known throughout the world, and create new markets for Haiti's handicraft, industrial and agricultural products.

After the exposition ends it may run as long as six months—the buildings will be converted to house government offices.

Exposition officials say hotel facilities are adequate. Speeches will be organized to take visitors to such sights as the Citadel, a mountain top fortress built by Henri Christophe, once king of the negro nation. The Citadel is considered one of the world's wonders.

The United States, Cuba, Venezuela, Italy, France, Mexico, Chile, Ecuador, Guatemala, Uruguay, Argentina, Holland, Belgium and Puerto Rico are among the score of more nations and territories which have announced exhibits and participation in the show.

Frustrated Dogs Develop Ulcers In Medical Tests

By HOWARD W. SZAKENLEE, Associated Press Science Editor

CHICAGO, Oct. 20—(AP)—Frustration is causing stomach ulcers in dogs at the University of Illinois College of Medicine.

If this can happen to a dog, maybe it can happen to a man. This is one of the ideas behind some new ulcer experiments.

The frustrated dogs are conditioned to expect food every time a bell rings. The bell rings every two hours. Now and then the ring brings food, but mostly only expectation, disappointment, and finally ulcers of their beginnings.

These ulcer signs can be seen through peepholes, which are peep holes into the dogs' stomachs.

Another dog experiment explains how the frustration works. Surgery fixes them so that food they eat drops out of their gullets before reaching their stomachs.

This is called sham feeding and it stimulates acid secretion in their stomachs. The excess acids cause the ulcers. These are verified by the peep holes.

The Illinois researchers believe the dog tests show that emotional things influence ulcers. They do not believe emotions are the primary cause.

This view of a primary cause is supported by finding substances in the body's tissues that tend to prevent ulcers. One comes from the linings of intestines, the other from saliva.

The intestinal material is Enterotoxine and the studies on it are conducted by doctors A. C. Ivy, Vice President of the University, and A. L. Latham and M. I. Grossman, of the Department of Clinical Science.

This extract definitely helps human ulcers. It relieves the intervals of time between attacks of ulcers. But the effects have been irregular and there have been no cures. The Illinois workers believe the reason is failure to obtain a completely pure of the extract.

The other substance, Anthelone, was found by Dr. David J. Sandweiss, Harper Hospital, Detroit. It, too, helps, but fails to cure. Women have more of it than men, and pregnant women most of all. The least amounts are found in people with ulcers.

Anything that reduces acid in a stomach may furnish a good ulcer treatment. Two surgical operations also help. One removes some of the acid-making parts of a stomach, the other interrupts the vagus nerve which controls production of stomach acid.

With emotions, nerves, acids and natural extracts identified, medical science has peeped ulcers behind its curtain, still missing cause, and its cure, still missing.

The expenditures were low in this county, in comparison with those in some of the other areas where the storm struck with its full violence, and Seminole County can consider itself fortunate in this respect, he said.

Mr. MacNeill also explained that there were many more homes damaged as represented by the number applying for disaster relief, but that in general people were able to meet the cost of the repairs without help. The local chapter was assisted by a trained disaster relief worker from the National Relief, Mrs. Elaine Starr.

Promising Results Are Developed In Polio Research

WASHINGTON, Oct. 20—(AP)—Scientists in the past few weeks have developed promising results in their search for a polio vaccine, an official of the National Foundation for Infantile Paralysis says.

Dr. H. M. Weaver, research director for the foundation, said a new way has been found for producing two of the three strains of polio in the laboratory. He spoke last night at a public meeting sponsored by the District of Columbia Medical Society.

Later he told reporters the next step is to try and transmit the virus to chicken egg embryos. If this can be done successfully Dr. Weaver said it may be possible to produce a polio virus so weak it would not produce crippling infantile paralysis in a person. But the vaccine may still be strong enough to immunize people against the disease.

Dr. Weaver said a method was found several months ago to keep polio virus alive in the laboratory

before what they claimed was a vision of the Virgin Mary. The girls say they have seen the vision nightly since Oct. 9.

The seven—all from 10 to 12 years old—say the Virgin appears to them "in the sky above the trees," dressed all in white and carrying a black rosary.

A 14-year-old boy said he saw the vision once. A three-man church commission is investigating their story.

Some of the children also have recently seen the Hollywood movie "Song of Bernadette." That dramatizes the story of the young girl who claimed the Virgin appeared before her at Lourdes, in 1858.

Last night the thousands of Germans watched monks as the little girls, attended by three priests, prayed on top of an open truck.

First two, then all the girls knelt, their sign that they saw the vision. Led by the priests, the crowd began to pray aloud. For an hour the girls knelt, hardly moving, surrounded by the chant

7 Little German Girls See Vision Of Virgin Mary

THURN, Germany, Oct. 20—(AP)—Seven little German girls who say they see visions of the Virgin Mary are bringing thousands of worshippers to a hillside near this little Bavarian village.

Twenty thousand Roman Catholics chanted for an hour last night around the seven girls kneeling in the tissue of human embryos—unborn children.

Then recently it was discovered the virus also could be kept alive in detached mature human tissue. This means that a human medium for producing the virus in quantities sufficient for enlarged research work is now available, Dr. Weaver said. This work heretofore has been limited by the insufficient supply of embryonic tissue, he added.

MONOTONY GETS HITONS DOWN

LONDON, Oct. 20—(AP)—A University of Edinburgh expert on nutrition suggested today that on nutrition suggested today that ten years of bitter austerity may be getting the British people down.

"The fatigue and lassitude so often complained of in this country," Dr. A. P. Mellikolm wrote in "The Practitioner" a medical journal, "are much more probably the result of the continued monotony and frustration of post-war life than of underfeeding."

Then they stood up, their signal that the vision had gone. The crowd quietly slipped away.

MONOTONY GETS HITONS DOWN

TODAY'S BIBLE VERSE

The Christ spirit was present in the earliest steps of creation. Jesus was the express image and character of the Creator and he proved that it is possible to be God-like. Without him was not any thing made that was made.—Jn. 1:18.

Princess Elizabeth's strong stand against divorce in Britain has stirred up quite a controversy over there. England has come a long way since Henry VIII.

Citrus growers in Florida are considerably alarmed lest the steel strike cause a shortage of cans for citrus concentrates. You never can tell how far the injury from a strike is going to reach.

Congress spent ten months arguing over the farm bill and is still unable to decide whether a broker is a chicken. But isn't it funny that we have got to have a law to tell us?

We see where the State of Florida is going to establish 16 branch offices throughout the state to assist in collecting the sales tax money. We hope they will save enough out of this new tax to pay for the cost of collecting it.

The district revenue collector in the state of New York reveals that five of his men have been suspended for shaking down at least 12 firms to cover up income tax frauds. One of them is under indictment for accepting a \$5,000 bribe from a model who negotiated to report a \$50,000 killing in the stock market.

Winston Churchill, wartime Prime Minister of Great Britain, pays high tribute to the role of the United States in now playing in world affairs. "Of all the countries that have risen to world eminence and world power," he said the other day, "none has shown itself more devoid of selfish ambition or animated by a more wholehearted resolve to serve the great forces of mankind than the United States."

President Truman says he is very unhappy about the government's growing deficit, but seems to think there is nothing he can do about it as long as Congress refuses to levy additional taxes. He might consider reducing expenditures. Or at least he might consider refraining from recommending new measures which only increase expenditures. The way intelligent people do when they can't increase their income to cover expenses, they cut their expenses.

Paul Hoffman says Europe is to need at least a couple of billion dollars a year from the United States even after the Marshall Plan ends in 1952. Senator Brundage says six to eight billion a year would be nearer the mark. And he says further that it is just about the amount of money the American people are ultimately to give to Europe in order to see that she has become accustomed to tax themselves another billion a year in order to keep Europe in the style to which she has become accustomed.

They have heard so much from personal politicians and political racketeers about how much the government is spending and how that helps boost sales and profits, some workers employed, that some are something of a welcome to see the Tampa Tribune say that while it is true Florida receives \$41,700,000 a year from the federal government, it also pays \$100,000,000 a year to the federal government.

The Right Clothes

Who has not observed a small girl unhappily comparing her dress with that of her playmates, or a boy rebelliously faring forth in the splendor of a party suit? The psychological effects of clothing on children up to the age of 12 are the subject of a new work, "Clothing for Children," by Henrietta M. Thompson of the University of Alabama and Lucille E. Rea of Iowa State College.

They declare that a child's clothing, from the very beginning, influences his mental health and the development of his character. Colors affect his mood, clothing modeled like adult garments may make him take on the manners and attitudes of older people, and play costumes representing rowdy characters may have "an unexpected effect on the child's mood or behavior." These are not new observations, but perhaps it will be helpful to have them advanced with the detailed study and documentation which have gone into this book.

Certainly it is true that garments which are easily handled are helpful in the early training of a child, while those which are complicated and confusing discourage the child's early efforts to dress himself. It is equally true that the clothing a child wears can go far toward giving — or taking away — the self-confidence he needs to have. It is important in choosing clothing, as well as in many other things, to remember that a child is not a miniature adult, but a person in his own right.

Economic Adviser

The resignation of Dr. Edwin G. Nourse as chairman of the President's Council of Economic Advisers has been seen as a protest against use of that body as a source of political material rather than as a non-partisan advisory group, as it was intended to be. A public address by Dr. Nourse, after announcement of his resignation, indicates further that the fundamental advice of the President's chief economic adviser has not been followed in planning government policy.

Dr. Nourse made clear his opposition to deficit financing "as a way of life" for the government, and his belief that the government should be "putting its fiscal house in order." If this has been his basic advice to the President, it may have been reflected in the President's persistent opposition to tax cuts which reduce government revenue. But except for that position the administration has deliberately turned away from budget balancing and toward deficit financing.

Nevertheless the President has dissuaded Dr. Nourse on previous occasions from the intent to resign. Apparently he found the Nourse counsel valuable. There may be good grounds for the fear that, with Nourse gone, the Council of Economic Advisers may never serve the specific purpose for which it was created.

What Makes Them Work

The results of a survey conducted at Washington State College by the registrar, Harry Chambers, put forth three points: Women do better scholastically than men, married students make better records than do single ones, and spring weather, whether or not it induces lassitude and love sickness, is conducive to better grades.

The first point surprises no one. The fact that girls mature faster than boys and treat study more seriously has always given them an edge over their brothers in grades.

The coming of married veterans to college campuses brought out the fact that their academic work was better than that of the single men. But the Washington survey showed the women students who were married also did better work than those who had only themselves to consider. Doubtless maturity of viewpoint is the explanation. The married students have grown up and settled down. Their social life is fairly static and presumably has fewer of the emotional crises which continually beset the young.

As for the third point, perhaps the conservation of vitality which accompanies the onset of spring leaves energy to spare for scholastic endeavor. The traditional "thoughts of love" apparently leave room for more serious speculation. Exams and grades for the year are coming up. They weigh in the balance.

U of F Homecoming

(Continued From Page One)

...of several members of your committee and the president of the Senate, who sat with you, to the commission is of long standing.

The opposition developed over a period of time as the commission declined to make purely political appointments of wholly unqualified persons; refused to permit the selling and sale of game fish, caught in violation of the game laws and, in other respects, insisted that the commission's business be conducted in the public interest and not for the personal or political benefit of individuals.

Morris said if the senators wanted to "browbeat the commission into submission in political and personal demands or failing that, to fabricate a report upon which our removal by the Governor may be repeated, you will decline to conduct a fair hearing and deny us the opportunity to disprove the scurrilous insinuations uttered against us at your last hearings."

During the committee hearings, witnesses testified Morris had authorized shooting of deer out of season. They said the meat was intended for distribution to commission members. Morris has flatly denied the accusation.

Commissioner Cecil Wabb of Tampa was said to have held drinking parties aboard a commission boat. He replied he had taken groups out on the boat in the interests of conservation and there was "some drinking." He declared he had "no apology" to make.

Commissioner J. W. Corbett of Fort Pierce was charged with using a State-owned jeep for personal hunting trips. He also said he had "violated any law in some way or other."

The game warden who has signed an affidavit that Morris authorized the deer shooting was not identified. Commission members declined to reveal his name, saying they feared he might lose his job.

The Senate committee has until now given the commission an opportunity to answer the charges against it.

U. S. Is Accused Of Using Business As Whipping Boy

(Continued From Page One)

DAYTONA BEACH, Oct. 21—(AP)—Florida camera men were told that government was using business "as a whipping boy" as they were urged to guard against regimentation.

The speaker was John F. McGovern, of Le Sueur, Minn., president of the National Camera Association before the Florida Camera Association.

"Instead of encouragement and support from the government in recognition of its importance as an instrument of state policy, business is being used as a whipping boy," he said.

He said, too, that "unless we do something we will find ourselves so far engulfed in a regimented economy that our country will eventually join the long list of Socialist states, which ultimately leads to a Communist state."

Air Force Murder

(Continued From Page One)

The driver home by a friend, "As he entered the house he was shot through the heart," the announcement said.

Mrs. Madson summoned the Rhine Main base provost marshal, Capt. W. G. Hinman, who lives directly across the wooded lane.

She told Hinman her husband was lying injured on the living room floor of the home, the Air Force said.

When Hinman arrived, he found Madson dead.

Mrs. Madson joined her husband in Germany at Christmas, 1947. The Air Force said her two children, four-year-old son named Dana and six-year-old daughter, Nancy, 11 months old, were in the temporary care of other Air Force officers.

Mrs. Madson was taken this afternoon from the hospital, where she has been under treatment for poisoning, in the U. S. civilian care at Frankfurt.

Mrs. Madson's mother, Mrs. Dorothy Madson, lives in Oakland, Calif., and would decide what evidence was available.

Rent Decontrol In 157 Communities Has Been Effectuated

MIAMI BEACH, Oct. 21—(AP)—Prompt passage of liberalized Displaced Persons legislation to do away with current "discrimination against Jews and Catholics" was urged today by Harry N. Rosenfield, a member of the three-man Displaced Persons Commission. He told a luncheon meeting of the Jewish War Veterans, in 54th annual encampment here, that "the United States has not done its share in resettling displaced persons rendered homeless by the war and its aftermath."

Eleven Top Commies

(Continued From Page One)

Winters and Hall whispered to each other.

The sentencing followed the recommendation of U. S. attorney John F. X. McGohney that each defendant be sentenced to 10 years imprisonment. He made no recommendation for a fine although the law provides it.

This suggestion to Federal Judge Harold Medina came one week after the top leaders of the American Communist Party were convicted of conspiracy to teach the forcible overthrow of the United States government.

"I don't say they could probably overthrow the government but they will attempt to do it," said McGohney.

He said the 11 men and William Z. Foster, chairman of the party who was also indicted but obtained a severance because of illness, ruled the party.

"Therefore recommend a sentence of 10 years for each defendant," he said.

McGohney's recommendation followed old provisions of the Smith Act under which the defendants were indicted. Last year the act was revised making maximum punishment five years and keeping the fine at \$10,000.

McGohney argued the defendants committed their acts while the original provisions of the law were in force.

Medina said he agreed with McGohney "in the strict matter of the law."

But Congress' intention must be kept in mind, he continued.

Sentence of the 11 was delayed at the opening of court when Judge Medina gave each defendant and his lawyer an opportunity to make a statement.

Sympathizers in growing numbers formed a chanting picket line around the federal court house.

A 100-man police detail, alert for possible disturbances, cleared all doors except the main entrance, and carefully scrutinized every person entering the building.

Marching in orderly fashion and carrying no placards, the pickets chanted: "We shall not be moved."

One man walked up and down in front of the courthouse singing: "Free the Communist leaders. Fight for peace."

Most of the men about to be sentenced were grim and unsmiling as they piled out of the closed van that brought them from the federal house of detention, where they have been confined since their conviction a week ago.

Ten of them were handcuffed in pairs and the seventh, Carl Winter, was manacled to another federal prisoner.

Officer's Attacker In Critical State

BARTON, Oct. 21—(AP)—A negro in critical condition at county hospital has been formally charged with a plot to murder a Lakeland policeman, Polk County Sheriff Frank Williams said last night.

The negro, identified as Jesse Donaldson, served a long prison term once for assault, the Sheriff said.

Donaldson was critically wounded when a posse of 600 persons found him in an Oak thicket near Auburndale.

Lakeland Policeman J. L. Brannen was shot in the face with a shotgun charge while investigating a disturbance in the negro section there Sunday. He lost an eye but is recovering.

Jax City Chairman Rapped By Chairman

JACKSONVILLE, Oct. 21—(AP)—Jacksonville's city commission was described as a "do nothing commission" by its own chairman yesterday.

Chairman Richard D. Sutton charged three other commissioners are meeting secretly a day in advance of regular meetings and deciding policy. Ernest S. Haselden and Ralph N. Walter immediately denied the charge. Guy L. Simmons was out of the city and J. Dillon Kennedy is convalescing from an illness in North Carolina.

Sutton and Mayor Hayden Burns, who have tiffed over who should give orders to the police department, also had a slight brush at yesterday's meeting over a credit bill.

Sutton last week gave up specific duties as police commissioner. The mayor charged he didn't do it voluntarily.

Rep. Hall

(Continued From Page One)

Britain we call them Socialists.

"But they are all peddling the same bill of goods. They ask you to turn your affairs over to government and let government manage your personal life. The price is loss of freedom. Nobody has ever been able to discover what you gain."

Hall said "socialized medicine is a typical package being offered by the advocates of Socialism." He added that during a recent visit to Europe he investigated the "political pill mill" which Britain has put into operation and found it a "bureaucratic whirlwind."

"On the plus side to America I could not help thinking—and the American people possibly will think the same—

"I cannot for the life of me believe that they do."

Coal Strike

(Continued From Page One)

and George Love, their spokesman, handed reporters the typewritten statement.

The union's position is that the U. M. W. Vice President Thomas E. Murray is the absence of Love, charged outside that the speaker was not authorized to speak.

Collier's Exposes Missouri Grab Of Political Power

KANSAS CITY, Oct. 21—(AP)—Collier's magazine says that in Missouri "the underworld may show the country something even bolder than corruption: the seizure of political power."

An article in this week's issue by Leslie Velle traces the career of Charles Binaggio, described as the new leader of a political machine headed by the late Tom Pendergast.

Velle quoted Binaggio as saying: "This is the first return to organization politics here since Pendergast days. That's correct."

"We have a good block of votes in the state legislature. About 200 or 300 votes in the lower house. We can get through any legislation."

Binaggio could not be reached for comment on the article. He is among more than 100 persons summoned to appear before a federal grand jury investigating gambling activities in Kansas City.

"So powerful has Binaggio become that already, within a year of his rise, democratic aspirants have little chance to win an election without his approval," the article states. "x x x His influence is so great that the Kansas City police department identifies at least he may do."

Missouri Governor Forrest Smith, who appoints the police board, which control the Kansas City, St. Louis and St. Joseph departments, said he had not read and carrying no placards, the pickets chanted: "We shall not be moved."

One man walked up and down in front of the courthouse singing: "Free the Communist leaders. Fight for peace."

Most of the men about to be sentenced were grim and unsmiling as they piled out of the closed van that brought them from the federal house of detention, where they have been confined since their conviction a week ago.

Ten of them were handcuffed in pairs and the seventh, Carl Winter, was manacled to another federal prisoner.

Johnson Testifies

(Continued From Page One)

seemle at all the picture painted by some admirals.

Furthermore, Johnson said, the Congress members might be surprised to learn, in view of all the hullabaloo, that the plan was approved unanimously by the Joint Chiefs of Staff representing all the services.

Johnson was the climactic witness in the wind up of the House group's airing of the latter part of the two weeks of hearings. He also heard former President Herbert Hoover and General George C. Marshall, wartime Army Chief of Staff and former Secretary of State.

Hoover called for "peace within the armed services." Marshall said money was "at the root" of all the squabbling. The difficulty, Marshall said, is that none of the services can have all the money they think they need.

Hoover was the last witness. After hearing him, the committee adjourned until Nov. 3. Chairman Vinson (R-Ga.) said that testimony and the members would study the testimony and, beginning in January, would discuss "the course to follow."

Hoover said that after the "public washing of linen" that has gone on, peace is needed "for morale and for the good of our national defense."

In a fatherly vein, the former President said the revised anti-strike law has been operating less than four months and:

"It requires a year for newly wedded couples to get used to each other."

Hoover urged rigid economy for the Armed Services. Already, he said, the nation's productive economy is "so heavily taxed as to slow up progress in its improvement of methods and its necessary expansion to meet the demands of our increasing population. We can not continue such burdens for long."

There was even a brush-over of Vinson's earlier charges that Johnson is making a "grand stand play" as an economist.

"I don't take offense at that," Johnson told Vinson.

Johnson said the Defense Department is now effecting economies at the rate of \$608,000,000 a year.

He said an \$800,000,000 cut in order, about which there has been much rumor and some testimony, was only a "target" figure for the services to work toward.

Vinson told Johnson he hopes the Air Force will go ahead and build up a 58-group Air Force. Congress voted funds for an Air Force of this size although President Truman asked money only for a 48-group force.

Johnson said he would talk with Mr. Truman about it.

On other matters, there were some of the high spots of Johnson's testimony:

The Navy's proposed super aircraft carrier; nothing has happened since he canceled work on it last spring to cause him to believe his decision was a mistake.

The B-36; the value of this big, high-flying bomber and questions as to what it can do are matters in the main for the Joint Chiefs of Staff. Of Navy testimony that it is "vulnerable," Johnson said "Of course it is and so is every other bomber in existence."

The Marine Corps; "I believe in a Marine Corps, trained and equipped for amphibious operations, and I categorically assure you—despite rumors to the contrary—that I do not advocate transferring the Marine Corps out of the Navy."

Dr. Henry McLaulin Ophthalmist

113 Magnolia Ave. Phone 512

It's all yours for less than you think

THIS BUICK SPECIAL 3-PASSENGER COUPE (Model 46) does double duty as a business car and a spacious carrier for the small family.

TEN-STRIKE! Only Buick SPECIAL has all these features!

Traction-Handy Steer • More room for the money • Dynaflow Drive optional at extra cost • Jet-Line Styling • New-Locking Bumper Guard Grilles • High-Pressure Fireball Straight-Eight Engine • Coil Springs all around • Low-Pressure Tires on Safety-Ride Rims • Greater Visibility here and aft • Self-Locking Luggage Lids • Steady-Riding Torque-Tube Drive • Three Smart Models with Body by Fisher.

Run your eyes over this fresh new beauty. Take in its style-setting non-locking bumper-guard grille, the graceful down-sweep of its fender lines, so unmistakably Buick, and we think you'll agree—

It looks like a lot of money—but the fact is, it's a lot for your money.

Take in those bigger interiors, the sofa-soft seats, the easy control and the high visibility you get from the more-than-generous glass area all around—and you'll beam at the news that this one's priced for really modest budgets, right down near the "lowest-priced three."

Beyond that—but this gorgeous new Buick SPECIAL through its paces.

Sample its valve-in-head straight-eight power—the lively, ever-brilliant kick that comes from a high-compression, high-pressure Fireball engine.

You'll find a ride that's pillow-soft smooth, level and steady. You get ample wheelbase—in shorter bumper-to-bumper length for easy parking, garaging, maneuvering.

You'll find a car that handles light as lace—made even more of a breeze by Dynaflow Drive, available at

your option at moderate extra cost.

So why not do a thorough matching-up of price tags, and what they'll buy around town?

In particular, put this straight-eight beauty up against the class, feature for feature, dollar for dollar—and you'll see for yourself there's nothing to touch this Buick as a buy.

Yes, go see your Buick dealer, take in the SPECIAL from every angle—and learn how quickly you can have one for your own.

SPECIALLY NOW

Buick's the Best!

NICHOLSON BUICK CO.

Social And Personal Activities

Carla Palmer Ray—Society Editor

Social Calender

SATURDAY
The Sanford Tourist Club will meet at 7:30 P. M. at the Tourist Center for an evening of games and amusement. James Stewart will be in charge of refreshments and entertainment will be under the direction of Mrs. Josie Bryant. The public is welcome to attend.

MONDAY
The Beardsall Avenue Circle will meet at the chapel at 2:00 P. M.

TUESDAY
The Woman's Society of Christ-ian Services of the First Methodist Church will have a Home Day of Prayer and Self Denial at 2:00 P. M.

WEDNESDAY
The Woman's Society of Christ-ian Services of the First Methodist Church will meet at 7:30 P. M. for special project work of prayer.

Niblack Home Scene Of Garden Club Meet

The Oviedo Garden Club met Tuesday afternoon at the home of Mrs. Charles Niblack with Mrs. W. R. Meek presiding. The roll call was answered by each member naming her favorite potted plant. Mrs. A. K. Rossetter of Sanford spoke on potted plants.

Mrs. Talbot, exchange chairman, reported that 402 plants had been distributed to each member to grow plants to be exchanged among the members. The Junior Garden Club chairman, Mrs. Walter Teague, reported on the work of the Junior group. Mrs. George Means was appointed flower show chairman for the spring flower show.

At the conclusion of the meeting refreshments were served to the following members: Mrs. Murphy Arle, Mrs. Odgen Burnett, Mrs. C. B. Cloutier, Jr., Mrs. C. H. Cloutier, Sr., Mrs. T. H. Daniell,

Miss Esther Watkins Given Bridal Shower

The Melroe Department of the Florida Fashions entertained with a bridal shower honoring Miss Esther Watkins on Thursday night at the home of Miss Jewell Betts. Gladioli, chrysanthemums and roses in shades of rose and white were used in decorating.

Contests and games were enjoyed with Mrs. J. C. Watkins, Miss Watkins and Miss Marjorie Anderson winning prizes. The dining table from which refreshments consisting of punch, ribbon sandwiches and cakes, were served was overlaid with lace cloth. In the center was a low arrangement of the pink and white flowers flanked on either side with burning tapers in crystal holders. A small bride and groom were also arranged on the table.

During the evening the honor guest was asked to demonstrate the way she would do certain household tasks and was given her shower gifts as prizes for her accomplishments.

Those invited to be with the guest of honor were Mrs. W. E. Betts, Mrs. C. A. Anderson, Jr., Mrs. Louise Ventura, Mrs. Watkins, Mrs. Allie Hutchfield, Mrs. Evelyn Lonsday, Mrs. Ellen Stuck, Mrs. Alpha Browning, Mrs. Maxine Van Skives, Mrs. Clara Huels, and Mrs. Eloise Lomley. Also the Misses Dorothy Powell, Doris Jones, Marie Nettles, Bobby Rosier, Lois Rosier, Pat Lazor, Betty Cullum, Estelle Gracey and Marjorie Anderson.

Salads should be tossed lightly and the ingredients will be broken up and the green bruised.

Mrs. T. B. Clouts, Mrs. Augustus Covington, Mrs. J. C. Enrielloth, Mrs. John Duda, Mrs. T. L. Lingo, Mrs. Max Lehnardt, Mrs. George Means, Mrs. W. R. Meek, Mrs. B. G. Smith, Mrs. S. E. Parker, Mrs. F. W. Talbot, Mrs. Merritt Staley, Mrs. Walter Teague and Mrs. Charles Niblack.

Personals

Friends of James Moughton will regret to learn that he is critically ill at the Riverside Hospital in Jacksonville.

Mr. and Mrs. J. C. Ellsworth have had as their recent guests, Mr. and Mrs. J. P. Evans of Angola, Ind.

Arnold Harrington, nephew of Mr. and Mrs. W. A. Patrick of this city, has been pledged to the Alpha Tau Omega Fraternity at the Georgia School of Technology in Atlanta.

Mrs. Julius Dingfelder was a guest at the luncheon sponsored by the State Democratic Committee at the George Washington Hotel in Jacksonville on Wednesday. The luncheon honored Mrs. Spessard Holland, Mrs. Claude Pepper and Mrs. Fuller Warren.

Mr. and Mrs. R. B. Wight II left on Tuesday afternoon for Philadelphia, Pa. to visit Mr. Wight's sister and mother, Dr. Susan Wight and Mrs. Alice Wight. They also went to Harrison, N. Y. to visit Mrs. Wight's sister and her mother, Mr. and Mrs. James E. Daugherty.

Mrs. Wilson, Tharpe And Tison Entertain

Mrs. R. T. Wilson entertained members of the First Christian Church at her home on West Twentieth Street. Serving as hostesses with Mrs. Wilson were Mrs. Lester Tharpe and Mrs. W. C. Tison. The meeting was conducted by Mrs. R. W. Casubee, vice president, in the absence of Mrs. O. D. Landress.

The devotional was led by Mrs. J. H. Curtis and Mrs. W. H. Young conducted the mission study. Following a short business meeting refreshments, carrying out a Halloween theme, were served to Mrs. W. W. Morgan, Mrs. R. G. Fox, Mrs. W. C. Clause, Mrs. O. T. Pearson, Mrs. J. R. Richards, Mrs. W. D. Thornton, Mrs. W. P. Vesely, Mrs. W. H. Young, Mrs. W. H. Hughes, Mrs. J. L. Horton, Mrs. B. H. Williams, Mrs. Beatrice Anderson, Mrs. J. N. Darden, Mrs. W. C. Tison, Mrs. Lester Tharpe, Mrs. Earl Evans, Mrs. J. R. Curtis, Mrs. E. C. Dolson, Mrs. R. W. Cassube, Miss Sue Williams and a visitor Mrs. Harold Clause.

Past Matrons Meet With Mrs. Courier

Mrs. John Courier entertained recently at her home on Palm-ett Avenue for members of the Past Matrons Club, Order of Eastern Stars, with Mrs. Frank Crosby as co-hostess. Routine business was conducted by Mrs. C. L. Howson after which games were enjoyed with prizes being won by Mrs. R. W. Turner and Mrs. D. Bailey.

Refreshments were served to Mrs. Howson, Mrs. Turner, Mrs. R. C. Moore, Mrs. Bertha Jenkins, Mrs. L. M. Tyre, Mrs. Jack Burney, Mrs. Harry Kent, Mrs. Hasky Wight, Mrs. Bailey, Mrs. Stuart Dutton, Mrs. R. F. Crenshaw and the hostesses, Mrs. Crosby and Mrs. Courier.

Mrs. Dickerson Talks To Ixora Circle

Mrs. S. C. Dickerson spoke to members of the Ixora Circle of the Sanford Garden Club using as her subject "Garden Clinic". She told of the various plant diseases giving their remedies, and explained insect control.

The circle met recently with Mrs. Dale Scott, Jr. at 1119 Magnolia Avenue at 2:30 P. M. Mrs. Lauren Johnson, chairman, presided over the meeting and reported to the group on the board meeting. She also stated that the Ixora Circle had entertained with a party for third and fourth grade Junior Garden Club members at the South Side Primary School.

At the conclusion of the meeting refreshments were served to Mrs. Dickerson, Mrs. C. R. Kirby, Mrs. Frank L. Woodruff, III, Mrs. James Terwilliger, Mrs. Johnson, Mrs. Karlyle Housholder, Mrs. Charles Vodopich, Mrs. P. M. Gingles, Mrs. W. A. Leffler, Mr. Mrs. Roy Greene, Mrs. T. W. Mero, Mrs. Edward Higgins, Jr., Mrs. Scott.

Farley Graner and the new star discovery, Joan Evans, in a romantic scene from "Lussanna McCoy," an HKO release, showing Sunday and Monday on the Ritz Theater screen.

Miss Pringle Will Wed B. W. Miller, Jr.

Mr. and Mrs. W. H. Pringle of this city announce the engagement of their daughter Sara Anita to B. W. Miller, Jr., son of Rev. and Mrs. B. W. Miller also of Sanford and formerly of Pennsylvania. The wedding will be an event of November.

Longwood

By MRS. J. H. MENICK

Many prominent Sanford members of World Federallists were noted at the Assembly in Longwood Hotel over the week-end.

The ACL has just installed Automatic Railroad Crossing Signals in Longwood which are greatly appreciated. This originated with Mayor C. E. Baker and Town Clerk C. B. Searcy in 1943. The matter in conjunction with State Road Department.

Lyman school P. T. A. met Thursday night in the auditorium with 200 in the audience. Mrs. J. D. Morrison, president, presided. Plans were made for Halloween. First chicken supper set for Saturday night, Oct. 29. Mrs. Milver's Glee Club sang two songs.

The Baptist W. M. C. met Monday at the home of Mrs. Lee Taylor. After the devotional plans were formulated for the Baptist Women's Association to meet here Thursday Oct. 27.

Twenty-four officers with their wives from the Orlando Air Base had a dinner and dance at Longwood Hotel Monday evening.

The new A. C. U. agent is James Loftin from Fort Myers. Mr. and Mrs. Loftin will make home in Blankenship new house, Mohr Avenue.

The Episcopal Church will have service at 1:00 o'clock Sunday afternoon Oct. 23.

Why I Love The Place In Which I Live

Mrs. Ina Willis, Osteen, Fla.

The village of Osteen was named after one of its oldest residents, a father of seven sons. It has a population of 250 voters. It was incorporated in the early '20's, but during the depression the residents thought it best for it to revert back to Volusia County.

It has an elevation sufficient to drain off surplus water after the heaviest rains.

We have two churches, two stores, each with filling station, a post office, a school with 2 teachers, principal and two teachers.

We have the best drinking water found in any place in which I have lived in Florida. My folks had it tested and report water back 99.5 pure. We have no rough element here. Sometimes I forget to look my screen door, I feel safe for no one molests me or bothers anybody. Our residents park their cars in their yards and nothing bothers them.

We have two freight trains each day on the A. C. L. railroad. We need no passenger train. Everyone owns a car. We jump in the car and go to the movies, or shopping or wherever we want to go. When we get tired, we come home and enjoy our front porch, green lawn, beautiful trees and our home unadorned. For two months in the spring the atmosphere is laden with the perfume of orange blossoms. All winter we enjoy the beautiful gold and green of the orange trees. Our village is almost surrounded by lakes with plenty of fish.

Now what I like best about this place is the nice laws for the children to play, at school a large playground with swings and ball grounds and pleasant teachers.

There are lots of good Christ-

ian people here, they are generous and understanding. I love to get into my car and go visit with my friends in the country. They load me down with fruit (Even HEN fruit). At Christmas they bring me canned fruit and vegetables and all sorts of presents. Last year one friend brought a chicken all ready to roast.

I don't know what better place a person would want to live in this side of Heaven. There are a number of people here over 80 years old. I am in my 85th year and the oldest resident of Osteen now. I know this is poorly written and written, but I would like you can do any better when you are 85 years old?

Palatka And Feds Clash Here Tonite

Sanford To See First Home Grid Contest Of The 1949 Season At Seminole Field

By OLAF ZKWADSKI

The Palatka Maroons face an eager Celery Fed eleven here tonight at 8:15 o'clock and both teams will be fighting for a second East Florida Conference win. The teams are as evenly matched as possible.

The Feds, in their only conference win so far, racked up a 27-6 victory over Eustis on Oct. 3, and Palatka trimmed Eustis the following week 26-0 for their only conference victory.

Palatka is rated fifth in the circuit having won 1, lost 1, and tied 1. The Celery-Men are number one in the conference having won 1 and lost 1.

The Maroons scored 44 points in three tilts against 28 points for the opposition, while the Feds have scored 47 points in two tries against 10 points for the opponents.

The Maroons will have a backfield combination similar to Sanford's. Right halfback Doug Miller will be doing most of the play, while fullback Charlie Anderson will do heavy duty for the Feds.

Palatka's left half, Cotton Cothron, is a fast scabbard and if given half a chance can cause a great deal of trouble to the Feds with his broken field running.

However, lightweight Frank Stenstrom, right half for Sanford, has shown that he can race for yardage with the best of them.

The Palatka line may either save or lose the game for the Maroons. Against non-conference Starke Palatka's line showed up pretty weak, as did Sanford's line against Deland. However, the Fed's have improved steadily since then and if their blocking is up to standard it will be hard to hold Anderson and Stenstrom down.

The Maroons' outstanding linemen are Donald Cobb at center, Herbert Fridy at left guard, Tommy Davis, left end and right end Richard Cole.

Consistent standouts in the Fed's forward wall have been "Peanut" Galloway, right tackle, Charles Lansing, right guard, and center George Swann.

Probable starting lineup:

Green	LT
Myers	LT
Swann	C
Routh	RT
Galloway	RT
E. Smith	RT
Lansing	RT
Stenstrom	RT
Butler	RT
Anderson	RT

The Sanford Celery Fed will meet Palatka in the game tonight. Rowing from left to right are: First Row: David Russi, Don Smith, Charles Lansing, Bobby Morris, Marion Butler, Mike Wheeler, Buddy Bass. Second Row: Peanut Galloway, E. B. Smith, Edillon Myers, George Swann, Charles Thomas, Ed Taylor, John Fox, Third Row: Jack Wilson, Spencer Hardy, Wise Harden, Walter Routh, Herman Swaggerty, Howard Crissy, Charlie Anderson, Charlie Lee. Fourth Row: Chester Harper, Phillip Skates, Kenneth Gano, Bob Graham, James Brodie, Stanley Oglesby, Wesley Spencer, Jack Schirard. Fifth Row: Ed Luckett, Terry Connell, Ed Watkins, Roy Davis. Sixth Row: Coaches Fred Gams, Carl Kettles and Otis Mooney.

Maryland Readies Aerial Offensive Kicking, Passing Expected As Canes Meet Georgia U.

COLLEGE PARK, Md., Oct. 21—(AP)—The coaches are preoccupied with football's current passing craze, but the old art of punting is likely to be just as important in tomorrow's game between North Carolina State and Maryland.

The rival Southern Conference coaches have spent the week strategizing passing. Coach Jim Tatum tried to sharpen up Maryland's aerial offense. Coach Beattie Fetters worked on State's pass defense.

Neither talked about his punting which is considerably above average. And which could furnish the breaks when two stout defensive teams such as Maryland and the Wolfpack match tight strategy.

Earl Both puts the foot back into the game for Maryland. Without much public attention, the 24-year-old senior from Wilmington, Del., has specialized in getting the old liners out of the holes and the opposition into them.

The 16 kicks with 295 pounds behind them have average 40.1 yards in three games this season. He was called on eight times against tough Michigan State and he averaged 40.4.

The twice-decorated Marine has become punting specialist and his ball-carrying is strictly limited. Running from fullback, Both has carried the ball only five times this year.

The North Carolina State punting, done mostly by halfback Ogle Smith, is even more impressive. In four games, the average is

Sports In Brief

GOLF—Mrs. Mildred (Baby) Zaharias, Marlene Bauer, Betty Berg and Marjorie Lindsay advanced to the semifinals of the Hagerstown Women's Open tournament.

JOHANNESBURG, South Africa—Bobby Locke, pro golfer who has spent much time in the United States, underwent an emergency appendectomy. Doctors afterward called his condition satisfactory but said they operated just in time.

RACING—LARRY, Md.—Lack and Key (\$21.00) won the Chevy Chase steeple-chase handicap in new track record time of 3:45.2 for two and a half miles, clipping two seconds from the old mark held by American Way.

NEW YORK—Our John W. (\$7.70) won the New Canada handicap feature of the Empire City-Jamaica card, by three lengths.

CAMDEN, N. J.—Garden State Park had a \$1,001.80 daily double produced by Speedy Jo (\$24.00) and Cafe Singer (\$32.00).

SACRAMENTO, Calif.—Del Baker resigned as manager of the Sacramento baseball club in the Pacific Coast league.

DETROIT—The Detroit Lions obtained Frank Tripucka, former

Doak Walker Out Of SMU Grid Lineup

LEXINGTON, Ky., Oct. 21—(AP)—Kentucky's football object one bit if Matty Bell becomes the country's best football prospect.

Bell, the eager Southern Methodist grid boss, gazed into his crystal ball a few days ago and promptly forecast his southwest champions would lose to Kentucky in Saturday's intersectional clash at Dallas.

That was before the flu germ landed SMU's All-America Doak Walker, through, and sent the classy quarterback to the hospital.

But Walker or no Walker, Kentucky has a lot of respect for the Mustangs. Coach Paul put it this way:

"SMU is the best team we've played since I came to Kentucky in 1946). Their record proves it."

"I don't know whether or not we have a chance to beat them."

Bell has returned the compliment to Kentucky, a team he labeled a "mighty fine" opponent.

"We didn't have much chance of beating them," he said before Walker became ill. Then he revised his appraisal downward.

Outcome could depend on which gets the psychological edge.

Hollin's Tars To Play Newberry College

Orlando, Oct. 21—(AP)—Hollin opens its home football season tonight against the Newberry Indians.

The Tarline is nearly at full strength as it goes after win number two and a .500 mark for the season. Only center Harold Jackson, with a knee injury, has not seen action.

Coach Joe Justice said Hollin's chances depend on the ability to stop Newberry's little All-America tailback, Hank Witt.

KICKING GATOR

GAINESVILLE—When Tex Lewis, Florida's place kicking specialist, sent the oval through the uprights for three points against Vanderbilt, it marked the first time in nine years that Florida has connected with a field goal.

Back in 1940, Gator specialist Paul Eiler set the SEC record for field goals in one season by sending three through the posts.

Lewis has now scored 12 points for the Gators with 19 extra points and one field goal.

Wally Butts has spent his entire ten years as head football coach as the grid mentor at Georgia.

'Bo Hagan Spurs S. C. Gamecocks To 27-13 Victory

COLUMBIA, S. C., Oct. 21—(AP)—An old South Carolina football hero was back in business at the old stand today.

Harold "Bo" Hagan, one of the slickest T-formation quarterbacks in the Southern Conference when he was right, really had it yesterday as he ran and passed his Gamecock mates to a rousing 27-13 upset victory over Clemson.

The Savannah, Ga., senior, kept in the shadows of comparative obscurity the past two years by a bad knee, staged one of his greatest exhibitions to give a record state fair crowd of 35,000 a thrill it will not forget in a hurry.

Clemson, living up to its program role of slight favorite in the 47th renewal of this bitter rivalry, had ground out a 13-0 lead early in the second period when Hagan wheeled into action.

The Georgian got his team back into the ball game in a hurry. He sneaked over from the three for the first score and directed his team to a 13-13 tie at halftime.

The follow-back led to a 27-13 total victory.

Gridiron Greats Of College Days Star In Pro Games

By FRANK ECK

AP Newsfeatures Sports Editor

NEW YORK—For death in the quarterbacks, the New York Bulldogs have taken a big bite. Ted Collins' team, formerly the Boston Yanks of the National Football League, have such follow-up pitching as Bobby Lavin, Johnny Rauch and Bob DeMoss.

Lavin, quarterbacked Texas up to 1947 while Rauch was the ace at Georgia. Johnny made The Associated Press All-American second team last year. DeMoss was one of Purdue's best passers in recent years.

A glance at the amazing yardage rolled up by these youngsters in their college play is enough to convince even Coach Charley Ewart that he is "loaded" at quarter.

For example, this trio had gained 11,000 yards in college football. Collectively, they completed more than half the passes they threw 579 in 1,240 attempts.

Lavin, the Texas hot shot of recent years who was with the Chicago Bears last season, boasts the trio of signal callers with a 530 completion average as a collegian. Rauch had a 502 average as a Georgia Bulldog while DeMoss is best remembered for his superb performance of last fall when he personally came close to getting Notre Dame with his passing. The Purdue Hollermeiers bowed to the Irish in the final minutes, 29-27.

The college passing tabulation on Lavin, Rauch and DeMoss follows:

Player	Passes	Yards	TDs	Ints.
Lavin	143	235	11	5
Rauch	185	282	10	5
DeMoss	127	214	12	6
Total	455	731	33	16

As soon as word is brought home from the market it should be taken out of its wrappings and kept lightly covered with waxed paper or aluminum foil in the refrigerator. Use liver and hamburger the same day as you buy it.

STETSON PLAYS TAMPA DELAND

DELAND, Oct. 21—(AP)—Stetson and Tampa football teams meet here tomorrow night in a game of figures even.

Although Tampa hasn't won in four starts, while Stetson has two victories, one loss and a tie, they both stacked up about the same against Michigan College.

Tampa lost by a point and Bob Tricolor Stetson coach, said his club really began to play football in the last half against Michigan when they rallied to get a tie. Coach Mike Guidici has guided his Tampa team to gradual improvement.

Stetson tackle, Tommy Shook, and Walter Beck are sidelined by injuries. Tampa took only a light workout yesterday to avoid injuries.

YELLOW JACKETS

GAINESVILLE—Florida's Gators will think they are playing a repeat performance when Georgia Tech's Yellow Jackets invade Florida Field to engage Coach Bear Wolf's squad Saturday afternoon.

In last Saturday's game with Vanderbilt, the Floridians came up against brilliant gold and white uniforms, and the Techsters will be wearing the same combination Saturday.

Between 1932 and 1944, Army never was able to defeat Notre Dame in their annual football series.

Southeast Conference football teams have played 43 games in seven different post-season bowls.

Notre Dame quarterback, on waivers from the Philadelphia Eagles of the National football league.

School Produces Sports Champions For Two Decades

By JIM HEARNS

AP Newsfeatures

SAN FRANCISCO—The big stick of New York Yankee third sacker Bobby Brown in the World Series brings to mind a high school athlete which has produced a good share of the nation's top athletes. Brown is one of the latest in a procession of Galileo High School greats.

He drove out six hits in 12 times at bat in the recent series. His six hits came in his last eight trips to the plate. In the Yankees' Series win over Brooklyn in 1947, he appeared three times as a pinch hitter and hit safely each time. Brown graduated from the North Beach School in 1941 and then went to Stanford.

But Galileo's top-notchers didn't start with Brown.

Here's the athletic "who's who" of the school in the past two decades:

1929—Lawson Little, national amateur golf champion in 1934 and '35, and national open titleholder in 1940. He also won the Pacific amateur in '34 and '35.

1934—Angelo (Hank) Lusk, Stanford basketball star from 1935 through 1947, who held national intercollegiate four-year scoring record and often has been enough to convince even Coach Charley Ewart that he is "loaded" at quarter.

1934—Dominic DeMaggio of the Boston Red Sox—star center fielder brother of Yankee Joe. DeMaggio graduated from the North Beach School in 1932.

1939—Grover Klemmer, who tied the world record of 46.4 for the 440-yard run while at the University of California in 1941.

1947—Patry Elcock, a member of the last Olympic women's diving team, and third place winner at London.

1948—Grant Butcher, 1948 winner of the National AAU light heavyweight boxing title.

It seems Galileo has a top claim to be the most consistent high school production of outstanding athletes.

home of wealth and culture, according to Rev. Whitley who went on to explain that Dr. Gartenhaus was educated in the strictest Jewish schools and the cherished hope of his parents being that he become a rabbi.

He came to America in his youth and received schooling at the Moody Bible Institute in Chicago and the Baptist Theological Seminary in Louisville. He has visited and spoken in 40 different states and a number of foreign countries. Rev. Whitley stated, and added that Dr. Gartenhaus has written several books including "The Rebirth of a Nation", "The Influence of the Jews upon Civilization", "The Jew and Jesus", "The Jewish Passover" and "The Ten Lost Tribes". He is the associate editor of the Spanish publication "Our Hope" and the English-Jewish publication "The Mediator".

Dr. Jacob Gartenhaus of Atlanta, Ga., who will be presented at the Central Baptist Church on Monday and Tuesday nights at 7:30 P. M. Rev. S. L. Whitley is pastor of the church.

If you have an ice cream scoop you've been using all summer don't put it away now that colder weather is here. It's an excellent tool to keep around the kitchen with which to serve mashed potatoes, tuna fish or salmon salad, or cottage cheese.

If you do a lot of baking it is wise to have a four-cup set containing 1/4, 1/3, 1/2, and 1-cup measures. Use these measures for fat and flour. In measuring fat pack it firmly into the measure and level off the top with a spatula.

THE FAMILY

The family is the basic unit of organized society. From it have grown the tribe, the nation, and the race. Its development marked man's first step from primitive to civilized life.

In the protection of his family and the pursuit of its comfort and happiness, man has developed all of his arts, sciences, industries, and institutions. The home is the greatest factor in human progress.

Nations grow strong and great as their family life improves, and they deteriorate and fall when the family breaks down.

Our hope as a nation lies in restoring and strengthening the home life of our people. Influences which tend to undermine the family have crept in, so that today the American home is in serious jeopardy.

The strength of the family is in its faith—faith in God, faith in the right, faith in each other. We must restore these. We must turn to the Church and the teachings of the Bible if our country is to survive.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Truman Appeals To United Nations To Outlaw Atom Bomb

President Speaks At Laying Of Cornerstone Of UN Building In Fourth Year

NEW YORK, Oct. 24—President Truman challenged all nations today to agree on a workable way to outlaw the atomic bomb, as the alternative to man's destruction.

Speaking against the background of Russia's refusal to come into an agreement that the United States and other powers have endorsed, Mr. Truman said:

"To assure that atomic energy will be devoted to man's welfare and not to his destruction is a continuing challenge to all nations and all people."

It was his first foreign policy declaration since his Sept. 23 announcement: "We have evidence that within recent weeks an atomic explosion occurred in the U. S. S. R." The President declared:

effective prohibition of atomic weapons was developed, a major objective of United States policy has been a system of international control of atomic energy that would assure effective prohibition of atomic weapons, and at the same time would promote the peaceful use of atomic energy by all nations."

Mr. Truman spoke at the laying of the cornerstone of the Secretariat Building of permanent United Nations headquarters on U. N. fourth anniversary.

The United States has offered to surrender its atomic bomb under the Russian-appealed, but General Assembly-approved "Baruch plan" providing rigid UN inspections and controls to assure against illegal bomb building.

The President did not mention Russia by name, but indirectly challenged the Soviet government to offer a "better and more effective plan."

He said the United States is now "and will remain, ready to do its full share" to meet the atomic weapon's threat to peace.

In another obvious dig at the Soviet orbit Mr. Truman also sharply criticized disregard of human rights which he said were "disrespectful to the progress of the world."

He said UN members know that "disrespect of human rights is the beginning of tyranny, and to offer the beginning of war."

He spoke for two days after the General Assembly voted a resolution with western charges that Russian satellites Bulgaria, Rumania and Hungary are supporting human rights and freedom.

The resolution first were signed after trials of Josef Cardinal Mindszenty in Budapest and other religious leaders in Bulgaria.

"Respect for human rights," (Continued on Page Six)

Motorcycle Cop Escapes Death In Speeding Accident

Patrolman Spence Injured During 75 Foot Skid On French

Sherwood Spence, recently appointed motorcycle patrolman, suffered severe bruises, skinned hands and knees when he lost control of his motorcycle while pursuing a speeding motorist, fell to the pavement and skidded at least 75 feet before he came to a stop on French Avenue at Twenty-fourth Street shortly after 9:00 o'clock yesterday morning.

Patrolman Frank Rocket riding on another motorcycle behind Patrolman Spence, witnessed the accident and reported this morning that the speedometer on the latter's motorcycle had registered 70 miles an hour during the pursuit, according to the injured man.

Samuel E. Parker, Oviedo driver of a 1919 Ford Club Coupe was backed on a charge of speeding and told police that at the time of the accident, he was listening to a radio program. Immediately after the accident, he stopped his car and offered assistance, police reported. He had been headed north on French Avenue.

During his long skid, Patrolman Spence seemed in great peril as he veered toward a pole at the curb, but his direction was changed about 22 feet from the stopping point. The stout leather belt he wore is credited by Police Chief Roy G. Williams in preventing the fatal injury. As it was, the belt end of his revolver was scuffed down considerably by the friction and a silver "fluffy" dollar in his pocket was dented. He reported that he had been "scuffed."

One Killed In Collision Of Bus And Loaded Trailer

PAOLI, Pa., Oct. 24—(AP)—A grayhound bus and a tractor-trailer loaded with 30,000 pounds of steel collided a mile and a half west of here today killing one person and injuring 31 others.

State police identified the dead man as Stephen J. Chapley, 42, 18-year-old sailor who was returning to the cruiser Romko from his home in Uniontown, Pa.

The trailer, laden with sheet steel, cut through the right front end of the bus, plowing several passengers in their seats.

The injured were taken to hospitals in this suburban area 300 miles west of Philadelphia.

Front windows of the Pittsburgh-Philadelphia bus were shattered by the impact and the entrance door at the right front corner was crumpled against the trailer. Passengers left two cars through the emergency door at the rear.

Chestnut County Coroner Cooper T. Blipho quoted one bus passenger, David Ledger, 49, 1415 Jackson St., Halls, 48-year-old Boston, Mass., man was elected national commander at the 54th annual convention here yesterday and Paul Ginsberg of Atlanta, Ga., was named national judge advocate. Both are lawyers.

Mr. Ann R. Abelow, Brooklyn attorney, was named president of the ladies auxiliary, succeeding Mrs. Mae M. Welner of Roselle, N. J.

Holls is the first exclusively World War II veteran to command the JWV. He defeated Robert B. Smith of New York and succeeded Myer Dorfman of St. Paul, Minn., also an attorney.

Several vice commanders were named as follows:
Miss Jeanne Portland, Me.; Miss Woodrow Darty, Ill.; Mrs. Unger, Pittsburgh, Pa.; Miss W. K. Kunt, Miami Beach; Miss W. W. Pringle, Louisville, Mo.; Mrs. W. J. Davis, Tampa; Miss M. Mitchell, Altoona, Pa.; Mrs. W. J. Davis, Tampa; Miss M. Mitchell, Altoona, Pa.; Mrs. W. J. Davis, Tampa; Miss M. Mitchell, Altoona, Pa.

Split In CIO Ranks Seen As Near Climax

Philip Murray Says Showdown Expected On Convention Floor Next Week

CLEVELAND, Oct. 24 (AP)—CIO President Philip Murray said today the squabble between left wing and right wing forces threatening to split the CIO would come to a showdown on the convention floor next week.

Murray, after a long meeting with all but one of his new vice presidents, told a news conference he was standing on the policy declaration of the executive board last May toward the rebellious left wing leaders.

The dissenting votes then were cast by the left wing branch of 11 unions.

The absent vice president at today's meeting was Albert J. Fitzgerald, head of the United Brotherhood of Carpenters, who is reported to be standing on the policy declaration of the executive board last May toward the rebellious left wing leaders.

Murray said that the CIO's main executive board, meeting tomorrow, will assign committees, including the important resolutions and credentials committees which will handle the one most likely to precipitate a vote.

One issue is the CIO's ultimatum to Murray that he fire 1100 votes of the U. S. or the union will stop paying dues to the CIO. The other is the advisability of discharging from certain small, left wing unions whose per capita tax to the CIO has been in arrears.

The CIO constitution allows only two months' delinquency.

Meanwhile in St. Louis, the men who when the locomotives for the Missouri Pacific Railroad began reporting back to work at 11 A. M., they had been on strike for 40 days—one of the longest work stoppages in a major line in the nation's history.

The back-to-work movement involved engineers, firemen, trainmen and conductors.

Non-unioning employees, porters, maintenance men and the like will get back to their jobs when the trains start to roll. This might be possible today, company officials said.

They did not know, however, where the first train would be made up. That depends, they explained, on rolling stock, equipment and what is now under way.

The strike was settled yesterday.

200 Reported Killed In Polish Train Crash

WARSAW, Poland, Oct. 24—(AP)—Unofficial but reliable reports said today more than 200 persons were killed in a train wreck Saturday near Nowy Dwor, northeast of Warsaw.

Informants said the accident occurred when the Danzig-Warsaw express left the rails on a curve. The locomotive and several passenger cars turned over.

As Curtain Falls On Red Trial

A TRIAL FOR HIM as well as the eleven Communist conspirators he had just sentenced, Judge Harold R. Miller sits at the head of the bench in the Federal Court today. The trial of the eleven Communist conspirators is expected to continue for several days.

National Guard Head Blasts Top Air Force Chiefs

Attempts To Abolish Guard Denounced At Alabama Convention

MONTGOMERY, Ala., Oct. 24—(AP)—Assistant Air Secretary Harold C. Stuart declared today the Air Force would seek control of the National Guard "if that is what is necessary for national defense."

Stuart's remark came in reply to a charge by Maj. General Eiland A. Walsh, President of the U. S. National Guard Association, that the Air Force is trying to wreck the National Guard.

Wash. said that the Air Force "doesn't want any National Guard, period."

"And if you want names, I'll name them," declared Walsh, deep-devised General Walsh. (Continued on Page Six)

Navy Plane Crashes On Mission At Sea

AHOARD USS EDORADO, Oct. 24—(AP)—A Grumman Hellcat night fighter from the carrier Valley Forge crashed into the sea last night in making an interception attack on an aggressor Martin torpedo bomber during war games off Hawaii.

The crash, enemy plane immediately reported the real life event and a searchlight search by planes and destroyers was organized. The pilot's name was withheld pending notification of the next of kin.

This is the second operational loss during the MBI maneuvers in which an amphibious task force is carrying the second infantry division to the liberation of Hawaii from a mythical enemy.

About five minutes before the crash, the aggressor torpedo bomber was advised to have sunk this liberation force. It was well with two solid bomb hits.

Prime Minister Decides Its Time To Cut Expenses

Attlee Plans State Economics Amounting To \$300,000,000

LONDON, Oct. 21 (AP)—Prime Minister Attlee slashed today his spending and defense budget, as well as cutting down on free medical services today, to ease Britain's economic crisis.

Attlee said Britain's purchases of goods from dollar areas would be limited to \$2,200,000,000 a year. He cut the new United Kingdom would come into operation at once and should cut Britain's dollar imports to \$400,000,000 in the first half of 1950.

Attlee told the House of Commons the \$2,200,000,000 does not include expenses in Britain's defense program.

The Prime Minister said there will be savings in the Labor government's socialized health program, education, public and private buildings, government administrative costs and in government public relations offices.

Prices of some foods will rise, Attlee told the House. The Prime Minister's program is tied in with Britain's recent (Continued on Page Eight)

Less Than Million Boxes Are Shipped

LAKELAND, Oct. 24—(AP)—Less than a million boxes of citrus fruit have been shipped out of Florida this season. It's one of the lowest starts in years.

Only 678,768 boxes have been shipped. An estimated 38,000,000 are slated for the fresh fruit market by the end of the season. By this time last year, 1,250,000 boxes or more had left Florida.

This year less than 250,000 boxes have been shipped. Total orange shipments are expected to be 25,000,000.

Smathers Calls All To Battle Of Democracy

Citrus Law Suit Resumed Before 3 U. S. Judges

Arguments Are Same As In The Previous Injunction Try

ORLANDO, Oct. 24 (AP)—Growers and shippers attacking the new citrus law argued today the act is resulting in a combination of their only citrus fruit and making them lose money.

The argument was made before three federal judges who are being asked to issue a temporary injunction against enforcement of sections of the law pertaining to fresh fruit.

Defendants in the suit brought by the 25 growers and shippers are the Florida Citrus Commission and Nathan Mayo, Commissioner of Agriculture.

Attorneys for Mayo and the Commission issued a broad denial to the charges that growers would suffer losses and that certain types of fruit are being discriminated against.

Defense attorneys contended that if growers of early varieties of fruit are to be discriminated against, they would be discriminated against in the new law.

The defense also claimed the law was drafted to prevent green fruit from being shipped to market. They argued that the law would prevent the market from being flooded with green fruit.

Others on the bench here with Judge Barker are Judge Curtis Waller of the U. S. Court of Appeals in New Orleans, and Judge Charles Devane of Tallahassee.

These findings the suit contend the law is aimed at keeping from the market that fruit which is grown on so-called rough lemon trees, but is left to rot in the ground.

They contend the law actually sets up high maturity tests which have the effect of applying to early season fruit a favor of later season fruit grown on such orange root stock as heavier, or hammock-type, soil.

The plaintiffs argue that some of their fruit never can pass the maturity tests, which they term "maturity standards," but those in (Continued on Page Eight)

Stoneham Arrives Tonight For Meet On Stadium Plans

Tentative Sketches Expected To Be Completed In 10 Days

Plans for the new baseball-foot ball stadium will be outlined tomorrow by members of the Stadium Committee headed by John Kuder.

The main stadium will seat 1,500. Provision has been made for 250 colored patrons in a grandstand and 250 in bleachers. The bleacher sections will be for both baseball and football games.

Tomorrow, W. N. Woodbury, assistant chief engineer of the Virginia Bridge Co. will arrive in Sanford to confer with Mr. Moughton on stadium construction plans.

Convicted Commie Raps Judge For Light Sentence

NEW YORK, Oct. 24 (AP)—New York State Court Judge Charles J. Thompson, who sentenced the convicted Communist Party leader, Judge Arthur J. Nathan, to a five-year term, was today being criticized by the party and its leaders.

Thompson was given three years in prison last Friday by Federal Judge Arthur J. Nathan, who sentenced the convicted Communist Party leader, Judge Arthur J. Nathan, to a five-year term.

The Communist national committee issued the statement for Thompson, who is at the federal house of detention with the other sentenced Red leaders.

Defense lawyers have announced they will ask the federal court of appeals on Wednesday to release the 11 men in bid pending appeals.

They were convicted of conspiracy to advocate forcible overthrow of the government.

James J. Galloway, commander of Campbell-Lawson Post 53, The American Legion, today urged that merchants and organizations who intend to offer floats in the Armistice Day parade contact him as soon as possible in order that suitable arrangements for the entries may be made.

Yesterday afternoon the Legion group met at the Hut to bring their plans up to date for the parade.

Congressman Avoids Mention Of Role In '50 Senatorial Race; Talks To Rotary

Declaring that "all of us who believe in the system of free enterprise must get into this battle of democracy or we may be forced to change our name," Congressman George Smathers of Miami told the Rotary Club today that "we must live democracy in everything we do, we must fight those who seek to stir up class against class, economic wrong against economic wrong. In the individuals believe that the only way to get into power is to divide and conquer."

Avoiding even the blindest mention of repeated reports that he plans to enter the senatorial campaign against Senator Claude Pepper, Mr. Smathers drew applause from a large audience of Rotarians and their wives at the Tourist Center when he said that Congress has passed effective laws for dealing with such crippling national emergencies as now confront the coal and steel industries and expressed the firm conviction that "it is high time the needs of our government began to get in motion this machinery for dealing with such strikes."

Mr. Smathers was introduced by Bill Kuntz, long-time friend who expressed the need of this nation for an able and energetic leader.

Mr. Smathers said he would like to see a new national center for the study of the history of the nation's development, and that such a center should be located in the new Melbourne Avenue field.

Present plans are for a stadium with total seating capacity of approximately 15,000. He revealed the main stadium will seat 1,500. Provision has been made for 250 colored patrons in a grandstand and 250 in bleachers. The bleacher sections will be for both baseball and football games.

Tomorrow, W. N. Woodbury, assistant chief engineer of the Virginia Bridge Co. will arrive in Sanford to confer with Mr. Moughton on stadium construction plans.
