

CURBSTONE GLEANINGS

BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

EVEN THE GATE POST NOT IN IT

A CHIEF IS AMONG YE TAKING NOTES AND FAITH. "HELL PRENT 'EM"---SO SAYS SAUNTERER.

I'm not one of the "I told you so" kind of old grannies but the sparrow question tickles me almost to death. Since the boy scouts have made the warfare on the sparrows the little pests have almost deserted Sanford and the first time I have heard a mocking bird in twelve months was last week. The songsters know that their natural enemies have gone from here and now the real birds will return and make our city the abiding place for the birds worth while. I labored long and sorrowfully with the people here to make an onslaught on the English sparrow but it seemed that the ladies were averse to killing birds of any kind and whenever the boys started to kill sparrows the policemen were called to arrest them. It was only in the past few months that the city officials became alive to the depredations of the sparrows and allowed them to be killed. The boy scouts were put on the job and they killed them off in large numbers causing the balance of them to go away. Now that they are started on the way the vigilance of the officers should not relax. Other cities have their policemen shoot sparrows every evening and this would be a good plan for Sanford to follow and keep them down.

What a pleasure it is to be rid of this pest.

Some one told me that C. H. Loeffler took a shot at me in last Friday's Herald regarding the post-office and according to his calculations there were only three bona fide men in the race. Mr. Loeffler may think this is all of them but he does not know that I have inside information from Washington that at least twenty more good men and true are wanting this position and while they have not "petitioned" the dear people yet they are nevertheless in the ring. No one should get overheated about the postoffice because it belongs to no one man and no one man is entitled to the job until he gets it. I could pick out fifty men or a hundred men here in Sanford who would make good postmasters and if it was left to the primary these hundred would probably climb right into the race. However the race will go to the swiftest and since the office is nothing to me I do not intend to get mixed up in it. As usual I will talk about the candidates and about the man who gets the office if it so pleases me to do so. The office really belongs to the patrons and every patron of the office can at least express his opinion about the next postmaster even if he gets no vote. And there will be more petitions circulated before the idea of February unless I am badly fooled by my friends in Washington. And in conclusion I just want to remark that other cities have kept good Democrats from being appointed just because some of them happened to be sore over a certain man's appointment. We want a Democrat in office here and we want him just as soon as we can get him, therefore it behooves us to stand behind the appointee. Congress may seem no matter who he may select for he can be depended upon to select the man who will satisfy the greatest number. Meantime the office is open to Democrats and is not tied up or sewed up and every man that wants to run can run.

Did you ever stop to think that this month is some queer and if some of the people act queer it is no more than could be expected since the moon and sun and all the other solar bodies are striking solar blows against the set order of things. For instance this week on the 22nd of 23rd it will be the full equinox which may or may not mean anything to you and yet it means much to the world in general. You can ask any one this question and he will tell you that equinox means equal nights and the question is answered as far as he is concerned. He is right but according to Webster and some of the lesser lights the equinox means the time when the sun's center in crossing the equator coincides with either of the equinoctial points about March 21 and September 22. At each equinox the day and night are everywhere of equal length. And another thing is that the moon rises only a few minutes later each night instead of about fifty minutes later as an ordinary occasions

as usual. The moon is full sure enough this month and regardless of state prohibition the old fellow cuts up some capers all by himself. Watch your step and see that you do not get moonstruck. All swains must get in early off the front stoop or papa will get you. This month will be full of daring escapades from the convict camps, straw hats will be smashed in Jacksonville, politics will froth and sizzle and see the heavy forecoats will be displayed in the windows with the thermometers standing at 90. The postmaster will be freely discussed as to whether his health will last to February or not. The aldermen will make excursions with Rube Allen at Sarasota. Celery growers will get moonstruck and plant a big acreage. The bond trustees will all be selected by their friends before the county commissioners are advised. Several substitutes for brick roads will be discovered. The man who voted against good roads will acknowledge the truth. The man who does not want something for nothing will die of starvation. The new hotel will be built without money. Every man in Sanford will belong to the Commercial Club and divers and sundry things will happen here and elsewhere.

Watch your step. The moon is full.

ELSIE JANIS
In "The Caprices of Kitty" at the Star Friday

Never stupid or pedantic is this comedy romantic. Of wilfully capricious, though delicious little Kitty.

Breaking rule and regulation, to the teacher's consternation. She started off quite gaily, for her daily little whiff.

Unchaperoned. But Fates decreed a blow out put an end to speed a passer-by. HE changed to say the motor and the girl.

Next day true love erratically swerves off and ends dramatically. A tramp steals Kitty's motor, as they loiter, he and she. By the wayside, half driving Kitty's mad and reckless driving. Sits the chaperone still waiting and debating angrily.

Now the principal undaunted by the fib the culprits flouted. "Engaged! Of course it's proper!" Did it stop her? Nothing could! In sooth she reprimanded, while the guardian demanded. Quite dramatically, emphatically. "We'll settle that for good!"

They met! Two minutes after scowls gave way to hearty laughter. Who should the culprit be, save his dearest friend. "But stay—Congratulations—until I read your Kitty's uncle's will. 'Her fiancée can't spy her six months prior to her wedding day.'"

Spite of fearful protestations, fortune hangs on separation; It will make them more consistent, more insistent than before. He diligent and zealous; she is now a prey to jealousy. Consider—'he's a painter!' (Not a saint—or not a bore!)

So Kit, this Wednesday following, her vague suspicions swallowing. In cleverest disguises, she surprises him at play! As a slavey in she toddles; then Carlotta, queen of models. Then a dapper little chap—er—with an Elsie Janis way!

But more wise than she surmises, he sees through her cute disguises. Reveals the fact politely, and quite rightly, but, oh! my! As their love they are declaring and excuses are preparing. Stands the guardian behind them, come to look them in the eye!

End to tell your pulses quicken when the plot begins to thicken. Fortune favors clever Kitty, to outwit the willful lines. And the climax, so surprising, will leave to your surmising. Far too clever to endeavor to deliver it in rhyme.

COUNTY HAPPENINGS

OVIDO OCCURENCES

Nine o'clock Thursday morning a wedding of unusual interest took place at the Baptist church when Miss Helen Lawton and Mr. Glover Bernreuter were united in marriage in the presence of many friends and relatives.

To the sweet strains from "Lo-hengrin" the young couple entered and proceeded up the center aisle where they were met by the pastor, Rev. Wm. Stones, who said the impressive service which made them man and wife. After the ceremony to the strains of Mendelssohn's Wedding March by Mrs. T. W. Lawton, who presided at the organ the couple passed out of the church, entered their automobile and accompanied by their brother and sister, Mr. and Mrs. J. W. Lawton left immediately for Orlando to take the train for Jacksonville. They have gone on a honeymoon trip but will return within a month to their home in Perry, Florida, where the groom is a prosperous business man. The bride is the only daughter of Mrs. R. W. Lawton and has endeared herself to a large circle of admiring friends. The past few weeks she has enjoyed many social functions given in honor of her approaching marriage and she has also been the recipient of numerous gifts both handsome and useful, and evidences of the high esteem in which she was held by the friends of her home town. The ushers were Messrs. Henry Bunn, McCall and E. C. Hickson. Out of town guests were Miss Martha Fox of Sanford and Mrs. George Simpson and children of Tampa. The bride was very handsome in her going away suit of a pretty shade of "putty" and a hat to match.

Mr. and Mrs. W. B. Williams, with their three handsome children of St. Petersburg are enjoying a visit with Mr. and Mrs. S. W. Savage at their hospitable home on Graham avenue.

Miss Martha Fox of Sanford and Mrs. George Simpson and children of Tampa are the guests of Mrs. R. W. Lawton at her residence on the Hill.

J. V. Grist of Sebring, Fla., who is inspecting the citrus groves in this vicinity is stopping at the Cushing House.

UPSALA AND GRAPEVILLE
An ice cream social is being planned to be held on the Presbyterian church grounds here on next Saturday night, the 25th, for the benefit of the new Sunday school.

The object being sought is a pleasant evening together and the money raised will be used to purchase more chairs, which are badly needed.

Ice cream, cake, coffee and lemonade will be sold and there will be a fish pond to try your hand at.

Everybody in the community and surrounding districts are invited to attend. Come out and get a dish of cream and in doing so swell the numbers and help along a good cause.

WOODLAND PARK NOTES
A large party came from Lockhart to spend the day at Woodland Park. They were Mr. and Mrs. N. Kinem and family, Mr. and Mrs. Haskins and family, Mr. and Mrs. Hinson and family, Mr. and Mrs. Jones and family and Miss Ruby Roberts. They were so delighted with the park and amusements that they intend to bring their friends soon. Among the other visitors were Mr. and Mrs. Tyler, Jr., Mrs. Hines and friends, Mrs. La-Roque and children, Mrs. W. W. Brady and daughter, Mrs. G. E. Bynum and child, Howard Griggs, Carl Eaton, Mason Owens, Carl Biggers, Com. Howard and R. Robson from Sanford; Mr. C. A. Fox, Miss Katie and Jack Fox from Sylvan Lake; Mr. and Mrs. Perritt and children, Miss Bessie Bright and party of friends from Rands; H. R. Locke and Mr. Lyons from Monroe; Curtis Muse and friend from West Side; Mr. and Mrs. R. C. Fernald; Mr. and Mrs. V. A. Bishop and children, Mr. and Mrs. W. F. Countryman and Mr. E. A. Tompleton from Enterprise Junction.

The river is falling fast, so that by next Sunday the dock may be used again and the roads are dry and hard once more. A dance is being agitated by some of the young people of the West Side, to come off soon.

Elsie Janis in "The Caprices of Kitty," at the Star Theatre Friday

Richmond Artist in Florida
The following is taken from a Richmond, Indiana paper.
"Would you like to own an island? Sounds like Robinson Crusoe or May Irwin doesn't it. But it's Mr. and Mrs. A. B. Commons. The island is in the St. Johns River, Florida, six hundred acres of it, and it all belongs to Mr. Commons and his artist wife, Olive, who went South from this city seven years ago.

A small but interesting display of their work in a Main Street jeweler's window is reminiscent of the work done by Mrs. Commons when living in Richmond and having a studio on South Twenty-first Street, and at one time in the Colonial.

Mrs. Commons is a water-color and ceramic artist and in her studio on her island home has, with the assistance of her husband who manages the business aspect, made herself a reputation throughout the South for her miniature paintings of Florida scenes on porcelain and formed into brooches, cuff-links, pins, pendants and other ornamental forms.

This work is on sale in seventy-five large cities of Florida and other Southern cities and Mr. and Mrs. Commons have just completed arrangements with a Northern jobber in houses to have exclusive sale of their products in the North.

All their porcelain is imported direct from Germany and one pendant medallion used by Mrs. Commons is the only one of its class ever brought to this country.

The Commons studio home on their six hundred acre island is visited by people from all over the United States. They have their own motor boat, which they use for trips to the mainland, Sanford being their post office.

"Florida is very cosmopolitan," said Mrs. Commons, "and we like it better than we ever expected to like any place. One meets people from every section of this country and many foreigners. We have made many delightful friends and our life is full of variety. The climate is charming, the air always invigorating. From the window I can sketch and paint every day in the year if I never left the house. I can see fifteen miles one way over the prairies on the mainland and have a diversified view of water and tropical forest from the other."

Mr. and Mrs. Commons will remain in Richmond for several weeks before returning South.

COUNTS NOSES OF SEMINOLE SHOWS GAINS

CENSUS ENUMERATOR PUTS IN HIS FIGURES ON POPULATION

The census of Seminole county has been compiled by Census Enumerator H. E. Tolar and the figures show a remarkable gain in the past year for the entire county.

The two precincts of Sanford total 6567 and the entire county figures a total of 9450. Two years ago when the population of Seminole was figured for county division purposes there were some 8000 souls in the area of the proposed new county and the census figures of today show an increase of 1450 people, demonstrating that the new county is attracting new people and that the older residents are increasing the family status.

Mr. Tolar deserves credit for the capable manner in which he compiled the county census. It was the first time he ever attempted to take a census and his figures will no doubt be found correct by the census board and passed favorably. He did not attempt to pad the returns or guess at the families but personally or by his assistants covered every bit of the county and the figures are underestimated somewhat as he confesses that in one or more instances he may have missed a member of the family but Mr. Tolar wanted the true statement of the number of people even though he was paid so much per name. It can be safely said that the census as taken by Mr. Tolar is about as near correct as it can be given and the figures are a surprise to the people of this city and of this county showing a much larger count than any one anticipated. Below is the official count by precincts.

Precinct No. 1 Sanford	2000
Precinct No. 2 Monroe	261
Precinct No. 3 Sanford	1557
Precinct No. 4 Paola	100
Precinct No. 5 Oviedo	542

Precinct No. 10 Lake Mary	149
Precinct No. 11 Altamonte	323
Total	9450

SEARS PLANS TO INCREASE MEN IN REGULAR SERVICE

He would allow Congressmen and Senators more Cadet Appointees

Plans for increased military efficiency are contemplated by Congressman W. J. Sears of Kissimmee who is considering introduction of a bill before congress permitting representatives and senators to appoint cadets to West Point and Annapolis annually instead of every four years or at such a time between that period whenever an appointee drops out or is expelled from the institutions.

"I believe the complaint that there are not enough trained officers available could be eliminated if such a plan were adopted," said Congressman Sears. "and I intend to take the matter up with the secretaries of war and navy just as soon as I get back to Washington with a view to introducing a bill in the lower house which will make these provisions."

"Heretofore and at present each congressman is allowed to appoint one young man to the military and naval schools every four years and they cannot make another appointment until he has completed his courses or dropped out. In the case of senators two appointments are allowed under the same conditions. The men graduate from the schools and retire to private life and in a

INTER-COASTAL WATERWAYS VIA ST. JOHNS RIVER

Another Floridian gives Reason For Selecting This River

Feeling that too much cannot be said upon the advantages of the St. Johns river for the Intra Coastal Waterway Route through Florida I wish to still further bring the matter to the attention of the public.

It appears ridiculous that the government should again contribute to the East Coast canal project having already made quite liberal donations and those having the matter in charge having failed utterly to satisfactorily complete the undertaking and render it of the greatest service they now claim it will afford the state. The physical difficulties they have encountered in their efforts to bring this canal to a successful issue have so far been too great for them to overcome and they now turn again to the government and pray for help which it rendered will necessarily be far greater than to abandon it entirely and to construct the one proposed instead via the St. Johns river to Lake Harney, thence across to Indian river at a point south of Titusville. Were there no other reasons than that the canal thus built would serve acceptably as great a number of the citizens of the state and accommodate as well the needs of the government and state this alone would be sufficient but the facts are that it would in a much greater degree meet the present and future needs of the government and serve threefold more people from its inception.

Are not the eyes of America turned upon South Florida at this moment and observing the tremendous strides that it has made in the last decade is it not reasonable to suppose that it will continue with ever increasing rapidity? Then why is it reasonable to expect our government to make an appropriation that

Continued on page 4

ORANGE COUNTY BRICK ROAD IS BEST IN STATE

VITRIFIED BRICK WITH CEMENT GROUTING SEEMS TO BE THE REAL THING

Orange county probably has the best system of brick roads in the state of Florida. They have tried two different methods down there in laying their system of brick roads. The road from the Seminole county line to Orlando via Maitland and Winter Park is grouted with cement and has the wooden curbing making a road that is much smoother than the ordinary brick road and seems impervious to wear and tear of cars and wagons.

The road now being constructed from Orlando to the Osceola county line will be filled with sand and have the concrete curbing and this road is also perfect in construction, only the best of brick being laid under the careful inspection of Engineer Ramsey, who has gained a reputation as being a regular customer in demanding the best brick from the manufacturers and making his demands stick.

These two methods of construction will be watched carefully by other counties considering brick roads and it is thought that the roads with the cement grouting will

prove to be the ultimate road for Florida, although at present it is in the experimental stage.

Orange county was fortunate in having a man like Engineer Ramsey, a man who is thoroughly competent in every respect and brings to them not only a knowledge of materials and engineering and road construction but a man who has seen paving material in different parts of the United States and has experimented with much of it.

Orange county is now completing the road south of the city to the Osceola line and also the roads to Winter Garden and Apopka and when finished will have more miles of good brick roads than any other county of Florida. Old Orange was the pioneer county in the making of good roads twenty years ago and as yet the poorest roads in the state, while not having as many miles as a few months ago, are equally as good a system of brick roads and the construction of roads in Orange can be followed with equally good results.

GEN. GILCHRIST MAKES REPLY ON WATERWAYS

SAYS HE WAS NOT AWARE OF IMPORTANCE OF ST. JOHNS RIVER

Punta Gorda, Sept 20
Editor, Sanford Herald—

In the Intra-Coastal route provided by law for the submarines of the Press in attacking or in torpedoing a candidate, the same size proposition as determined by the space in the paper, must be allowed a candidate. I will not ask for a column and a half as used by "Promover" in your issue of September 17th. Come over would have sounded more familiar to me.

At the meeting held in Jacksonville in the winter of 1913-14 by the National Waterways Association, the name being its formal name however it was shown that an Intra-Coastal Canal from Boston down to some point in North Carolina or South Carolina had almost been completed. Citizens of the East Coast put in their claim for the enlargement and acceptance by the Government, of the East Coast Canal. I was present at that meeting. That Association more or less approved of that proposition. So far as that great Convention was concerned, it was not mentioned "That the St. Johns is the nature-provided route for the Intra-Coastal Waterway through the State."

I regret very much to say that I never heard of this route until a friend of mine in Palatka, wrote me on relation to the same. He had seen in one of my circulars the following "The Government should own the East Coast Canal, paying a reasonable price therefor. I had already had printed 10,000 copies of the first page of my circular. The circular could not be torn up, as the cuts for the two hats were then in Jacksonville, being used in printing certain matter to be sent out with copies of the Laws of the State. I therefore had printed on the second page of these circulars, the following headed "Inland Waterways Location" "The United States Government is building an Inland Waterway from Boston to Key West. Two routes are proposed for Florida, one along East Coast Canal, the other using St. Johns River, thence to Indian River about Titusville, thence down the East Coast. The selection as to the better route should not depend upon politics or votes, but upon the best interests of the country, as determined by the Engineers. A few of the second page of this circular had been printed before this information was received. In a few

days I will get out a new circular, practically substituting this for the former reference to the East Coast Canal, making this one reference answer for the two. I explained this thoroughly to Mr. "Promover."

I have not the slightest idea what will be the determining factor in the selection of the Florida portion of the Intra-Coastal Canal. I should think then commerce, and the use of the canal for sub-marines or other war vessels in time of war, will enter into consideration.

I am familiar with the fact that lands were granted the East Coast Canal by the State of Florida. Never-the-less, in case the Government should decide upon that route the Government will pay the Canal people for it on the same principle that if the Government were to buy on of the state land grant railroads, the Government would be mighty likely to pay the railroad company for the same.

However, I would state that there are a great many things in Heaven and Earth of which I am ignorant, one of which was the proposed Canal on the St. Johns River. That has been thoroughly impressed upon me by Mr. "Promover. As to whether the Government will "Come over" to his ideas or not, will depend upon the lights, figures and facts shown. I presume, to the Engineer Corps of the United States. Whoever is elected Senator should "tote fair" with both propositions.

Mr. "Promover" mentioned that Sanford was spelled "Sandford," as though there was a sand ford leading through this Great Inland Waterway, through the beautiful Lake the banks of which is crowned by the growing, beautiful and prosperous City of Sanford. My stenographer spelled it "Sandford." On the envelopes it could have been observed that the "d" was partially erased or crossed out. This was done at my suggestion. I do not plead guilty to not knowing how to spell Sanford.

Very truly yours,
ALBERT W. GILCHRIST.

The many friends of Rev. Steinhilber will be delighted to know that he will be able to preach on Sunday. Rev. Steinhilber was injured at the time in the Hines building several weeks ago and since that time has been unable to leave his home.

CLYDE LINE RIVER TRIPS ARE CROWDED

SECOND SESSION SEMINOLE BAPTISTS HELD AT UMATILLA

Association meeting is well attended and Re- ports were good

The second session of the Seminole Baptist Association convened at Umatilla Sept. 20th and 21st. W. W. William of Tavares was elected moderator to succeed G. W. Holmes, who was compelled to retire on account of ill health. J. O. D. Jenkins of Sanford was re-elected as clerk and treasurer.

The Association was well attended, almost every church within its bounds being represented; the delegates were royally entertained by the good people of Umatilla in their characteristic manner.

Reports from the various churches showed excellent work having been done during the past year, notwithstanding the so-called hard times. Church buildings having been improved Sunday school rooms constructed and the cause of missions and benevolences liberally cared for. In point of membership a number of the churches showed remarkable growth during the past eleven months the net gain in membership is given for some of the churches as follows: Altoona 20, Daytona 19, DeLand 37, New Smyrna 33, Sorrento 26, Tavares 19 and Sanford 76.

Churches from other associations coming into the Seminole at this time were the churches at Christmas, Oak Hill, New Smyrna and Seville.

Rev. H. S. Rightmire of Daytona preached the annual sermon. Other devotional services were in charge of Rev. George Hyman of Sanford.

Dr. Lincoln Hulley of DeLand delivered a splendid address on the Psalms which made a deep impression on all who heard it.

Dr. S. B. Rogers, Sec'y State Board of Missions, addressed the Association making helpful suggestions and stating the needs of

IMPROVEMENTS ON THE WATER FRONT WILL MAKE SAN- FORD GROW

With the many hundreds of visitors coming to this city by every Clyde Line boat on the summer excursions from New York to Sanford, with the new Clyde Line dock and depot ready for occupancy and the new brick warehouses being built for wholesale houses near the Clyde Line dock this part of Sanford is presenting a busy appearance.

Last Sunday the new Clyde dock was used for the first time. The dredge boat has been busy for several days dredging out the channel between the old dock and the new one and it was ready for the big steamer Osceola when she started on her new berth and the excursionists disembarked for a stroll over the city. The cheap summer rates are proving so cutting that both the Osceola and the City of Jacksonville are kept busy on the St. Johns river and the boats are coming in week days and on Sunday.

The old warehouse and dock are now being torn down and the new structure will present quite a different appearance as the boat comes in from Enterprise and the new bulkhead and warehouse and depot are shown in all their new beauty.

The new Clyde Line improvements here are worthy of more than a passing notice as they bespeak the wonderful development not only of Sanford but of the river traffic that has grown so large as to call for new buildings twice in the past few years. With the government sanction for the St. Johns river to be made the upper end of the Inland waterways the traffic on the river will double and it will be no uncommon sight to see a dozen or more large river packets tied up at the municipal wharves every day.

The bulkhead and the river front will soon be coming into their own. The work throughout the state. He highly commended the spirit of progress and the many progressive movements which this Association has put on.

COMMERCIAL CLUB CALLED TOGETHER FOR FAIR QUESTION

Whether Seminole Shall Exhibit at Orlando or at Home

The Sanford Commercial Club will hold a meeting next Friday evening October 1st, for the purpose of deciding on the Sub-Tropical Mid-Winter Fair for the coming year at Orlando.

The following communication was received by the secretary from the clerk of the board of county commissioners.

Sept. 10th, 1915.
Mr. W. M. Haynes, Secy. Commercial Club, Sanford, Fla.
Dear Sir:

I have been instructed by the commissioners of Seminole county to write you as secretary of Commercial Club to get the views and cooperation of the Commercial Club of Sanford, in regards to participating in the Sub Tropical Fair at Orlando, the coming year, would like to hear from you by the next meeting of the Board.

Yours respectfully,
E. A. Douglass, Clerk.

By Jas. C. Roberts, D.C.
It is hoped that every merchant and citizen of Sanford will attend this meeting, as final action in regard to a fair for this year will be taken. Everyone should be interested in the matter of a fair and it

is the purpose of this meeting to determine just what is the best plan and whether we will cooperate with Orlando this year or have a fair of our own.

Paper for Winter Park

The Herald has issued posters announcing the fact that F. Ellison Adams will start a paper in Winter Park in October. Mr. Adams is well known in Sanford and also in Orange county, having passed the greater part of his childhood near Maitland, where his father now resides. Mr. Adams thinks the increased growth of Winter Park and the wonderful possibilities of that section are an inducement for the starting of another moulder of public opinion and he will forthwith set forth to battle with the problems of the day. We wish him success in his new undertaking and hope the people of Winter Park will give him the support which this enterprise warrants. There is nothing that tends to build up a town as rapidly as a good newspaper.

Among the prominent Orlando visitors to the city yesterday were Mr. and Mrs. Basile Brosiere and Harry Dickson. Mr. Brosiere is the business manager of the Orlando Reporter-Star.

Mrs. George B. Dickinson is home again after a pleasant summer spent in the mountains of North Georgia.

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS COVER TERRITORY FOR HERALD

WEST SIDE ITEMS

Mr. and Mrs. John Badger are the proud parents of an eleven-pound boy who arrived on the 14th inst.

Misses Avis and Ada Stenstrom Ora Billingsley and Neola Cates were pleasant callers at the home of Mrs. Frank Hutchins Monday afternoon.

Mr. Stenstrom left Thursday for Tampa where he will visit his daughter Mrs. N. R. Reynolds.

Mrs. Joseph Pierce of Arcadia was the charming guest of the Misses Stenstrom on Friday.

Mr. and Mrs. McBride have returned home after an extended summer trip made in the mountains of North Carolina and other resorts where they rested and recuperated.

Twenty-seven friends gathered at the home of Mr. and Mrs. Frank Hutchins Tuesday evening for the purpose of showering Rev. and Mrs. McGuire, with good things to eat and ended by a prayer meeting which was so thoroughly enjoyed by those present that they voted to have regular cottage prayer meetings every Tuesday evening at the different homes.

Mr. and Mrs. Drew Warin visited Mr. Warren's parents Mr. and Mrs. Henderson at Sylvan Lake Saturday and Sunday.

CASSIA CHATTER

CASSIA

Messrs. T. J. Wilson and R. W. Register made a business trip to Ocala Thursday and returned on Friday.

Mr. C. Munk met his wife and two children Janet and Counsel Jr. in Sanford Wednesday last. They are living at the Mack Cottage until they get their new home built.

Mr. Cyprus Cooper of Messina visited here last Sunday.

Mr. Babe Locke left here Sunday for Sorrento where he will accept a position with the Battle Lumber Company.

Mr. and Mrs. L. P. Hagan and children of Sanford visited his brother B. H. Hagan and family Sunday.

Mrs. Morris of St. Petersburg has come to spend the winter with her daughter Mrs. W. C. Finney of Zephyrhills.

Miss Ivy Royal left Saturday for Indianola where she will teach this winter.

Mrs. Mary Brown of Atlanta came several days ago to spend the winter with her sister Mrs. Mattie McLarty.

Mr. Thomas Munk is visiting friends in Fort Meade.

Mr. Van Cannon of Zephyrhills was here last week looking over real estate.

from Sanford to Kissimmee should not be called anything but the Highway To Prosperity.

Purchased Apopka News

The Apopka News was purchased outright today by Mr. E. C. Harrington, who has been editing the paper for several months past. The property was owned by a stock company, and has been operated by several different parties since that company was organized. The News has been of great value to Apopka and has done more than its share in bringing the advantages of that section to the attention of the public.

Mr. Harrington is a veteran in the newspaper business in Orange county. He began his career in 1880 with Mr. Mahlon Gore on the Orange County Reporter, which publication was later consolidated with the Star. Mr. Harrington knows every department of the business, and it is fortunate for Apopka and the News, no doubt, that the property has passed into such capable hands.—Orlando Star.

For Winter Pastures

Pasturage is the cheapest means of producing and maintaining animals. This is true because the feed is cheap, because the care of the animals is reduced to the minimum and because the forage is a natural food and approaches the natural conditions under which the animals originally lived. In many sections the profits of animal production depends upon the forage. It has been found that the amount of the profits depends upon the long pasturing season.

Florida is particularly adapted to pasturage crops. Northern farmers must feed their animals at least six months in the year and in some cases longer, because under the most favorable conditions very few crops will produce pasture that long. In Florida and other southern states farmers may pasture practically the entire year. By giving some extra ground in clover, alfalfa, or perhaps a little carbohydrate food such as molasses during the winter, the farmer need not feed on good pasture. The nutritious pastures the nitrogenous feeds may not be needed at all.

Among the winter pasture crops which can be sown in Florida are: red clover, crimson clover, vetch, oats, barley, rape and rye. The clovers and the vetch have not been successful in many parts of the state and the farmer should be sure that his land is adapted to them.

The University of Florida Experiment Station and Extension Division are urging the farmers of the state to grow more winter pasture and cover crops. The land not only needs these crops but it needs the live stock which is necessary to utilize them.

McDougal's Thanksgiving

Sanford, Fla., Sept. 19, 1915

Hon. R. J. Holly Esq., Editor Sanford Herald.

Dear Mr. Holly:—Since I got acquainted with you a good many years ago now, when you were just starting the Herald around on First street, I have many times marveled at Bob Holly's dogged determination and persistence. It looks to me that when you start anything in the Herald the people have to have that thing in order to get you to hush, viz. the sea wall and brick streets and brick roads, and others too numerous to mention. Now I see you are building a big fine hotel and I'll wager that hotel will be a reality; also the \$70,000 government building, unless you sell the Herald and go to celery growing in the near future.

All my picnic or farmers' hab and that picnic that I worked hard to get up that I was disappointed and almost ready to quit and give up, that it was who put new hope in me and that success not one year but for three years. Now Comrade, pardon me Capitalist Bob, as you are such an everlasting booster for Sanford, let me help you just a little bit.

As you know I was stricken with appendicitis on July 7th and they got me to the A. C. L. hospital on the 8th, as I am a railway machinist as well as a novice truck farmer. I had an awful close call as my case was an exceedingly severe one. I think one thing that helped me to make the fight was I had to leave Sanford and this good artesian water and the climate and all these good neighbors. The first night after the operation I was terribly fevered and I could see great drops of molten metal trickling down the walls of the room so, it wasn't gold metal, then all at once I would be bathing in my neighbor Brisson's swimming pool and I'd seem to be cooled by the imagination of bathing in that delightful cool water. That night Sanford and Celery Avenue never looked sweeter to me and I registered a

vow then and there that if I lived I'd enjoy Sanford, appreciate my friends more than I ever had before and from the way I've been greeted since I've been back from the hospital I'm just going to say every body in Sanford is my friends. Now a little boost. I came back here eleven years ago last month for the third time. You want to know what brought me back for the third time, well it was three causes. One was the climate and artesian water, the other was truck farming, and the last but primary cause was your honorable townsman, Mr. H. R. Stevens. These three causes still prevail and I'm still here, broken of a roaming disposition by a place in which as you advocate, Life is Worth Living. Last Sunday was my birthday (never mind my age). Here is my bill of fare and please notice what I had for my dinner was all raised at home and I have but ten acres of land, so it is no use saying we can't live at home.

Menu

- Chicken Baked, raised at home.
- Thickened Dressing, raised at home.
- Tomatoes Canned and raised at home.
- Lima Beans, Canned and raised at home.
- Tomatoes, Canned and raised at home.
- Sweet Corn, Canned and raised at home.
- Sweet Potatoes, raised at home.
- Corn Bread, raised at home.
- Corn Muffins, raised at home.
- Ice Cream, all raised at home except ice and flavoring.

Now is that good enough for poor people. So I've also registered another vow, and that is to live and die in Sanford, and if the worst came I'd no shon go on the county here as anywhere else. Now, here's a little boost. Bob, that you and I will live to be old, that you will be too hard to get to our way of living. I'll be glad to do it and slow revolution that I've worked so hard for and I'll be coming in here more school. We Socialists say first, educate, then educate, then educate.

Yours truly,
George C. McDougal,
Farmmechanic, Celery Ave.,
Sanford, Florida.

Department Store Asset

In an undertaking like a department store the satisfaction and pride of the women and girls in the place is recognized as one of its real assets. There have been frequent demonstrations of the injury that thoughtless and heartless treatment of women can do a business if this is noticed abroad—Lila M. Tarbell in the American Magazine.

Weather Man

There is no thoroughly reliable weather man. The government forecasts are fairly safe for a certain number of days, but as for the predictions that include the entire year or any considerable part of it, they are not worth the paper they are printed on. They may be all right, they may be all wrong. Nobody knows which.

Poorest and Loudest

The poorest men are those who are everlastingly and eternally shouting off their mouths. They hardly say, but anything Alexander Haas Tribune.

Perfection of Manners

To be always thinking about your manners is not the way to make them good; the very perfection of manners is not to think about yourself—Whately.

Kept Safe From Theft

In the sixteenth century dictionaries were chained in the schoolhouses as Bibles were in the churches, by reason of their costliness and rarity.

ON WATERWAY THE COMMITTEE MAKE DAY'S TRIP

People of Three Counties were awakened on Canal Project

The Sanford Commercial Club about one year ago appointed on the Inland Waterways Committee E. T. Woodruff, C. R. Walker and A. P. Connelly, and since that time this committee has been the busiest little committee that has ever worked for the club. They have delved into the subject of the Florida end of the Intra Coastal canal, found out that the East Coast Canal Co. after receiving large grants of land from the government for the construction and maintenance of the canal have found it to be too expensive and a white elephant and are now engaged in the pleasant pastime of trying to sell it back to the government. Our committee has facts and figures about the St. Johns river as the north end of the ship canal that are simply indisputable and that the St. Johns river will be the north end of the Intra Coastal canal is obvious even to the least observing. The average man and tax payer is usually asleep on the job when it comes to knowing anything about his state, county or city, and especially is his knowledge nil regarding the many manipulations that corporations are endeavoring to put over while said citizen is slumbering.

This matter of the government buying the East Coast Canal is one of the most vital questions of the day and yet there are few people in the state concerned about it—but the East Coast Canal people are busy and in order to open the eyes of the people of Florida to the danger of the government either buying the East Coast canal or attempting to spend any more money on this impractical route the Commercial Club of Sanford and its live committee are making a strong campaign.

In order to arouse the people of Seminole, Orange and Osceola county to the importance of the St. Johns river as the government canal a trip from Sanford to Kissimmee was taken on Wednesday by C. R. Walker, E. T. Woodruff and R. J. Holly and every city, village and hamlet from Sanford to Kissimmee was most thoroughly covered and the names of the citizens signed on a letter of explanation to be presented to the board of engineers of the War Department asking them to consider carefully the many claims of the St. Johns river as the upper end of the Intra Coastal or Inland Waterway through Florida.

The committee left here at seven in the morning, making the towns of Longwood, Altamonte Springs, Maitland, Winter Park, Taft and several other hamlets and signed a bunch of good citizens at every stop. No time was lost in going and at Orlando Hon. W. R. O'Neal was

consulted about a meeting of the board of Trade and with his characteristic energy replied that a meeting could be held at any time between noon and midnight. It was decided after seeing Joe Hugh Rose, the acting president of the board that five in the evening would be right and the committee again embarked in the Ford and hit the high places for Kissimmee. After a hasty lunch Ex-Senator Carson was called and had his nesting all planned of the Kissimmee Board of Trade and about twenty live representative members responded and met in the directors' room of the State Bank. Senator Carson presided and the matter was briefly stated by Messrs. Walker and Woodruff and the board decided to endorse the movement and assist it in every way. While in Kissimmee the committee also inspected the new Woodtex paving block and is described in another part of this issue. A call was made at the office of the Kissimmee Gazette and Messrs. Nauke and Harris did the honors and promised the support of the paper.

The committee was loathe to tear themselves away from the good people of Kissimmee but the meeting at Orlando was next and the return trip was interrupted only long enough to sign two people at Taft who were not there on the trip south.

Orlando was reached about four o'clock and some fifty representative types of the Orlando Board of Trade met with them at the San Julia Hotel. The meeting was presided over by Mr. J. H. Reese and when the matter had been placed before the members by Mr. Woodruff and Mr. Walker the members went on record with a housing endorsement and promised to work for the St. Johns river with the undivided support of the entire board of trade. As the committee did not have time to solicit signatures James Giles agreed to take the paper around the city and get it signed and send it on to Sanford.

The generous treatment accorded to the committee at every stop made them feel that the people of Seminole, Orange and Osceola were of the right sort and now that the question of the waterway has been placed before them in the proper light they will work as a unit in getting it before the next session of Congress and before the board of engineers.

The committee would have stayed over in Orlando several hours with those wide awake boosters but a storm was approaching and the little Ford was turned toward Sanford with the feeling that the day had been well spent and the highway

Making the Little Farm Pay
By C. C. BOWSFIELD

Owners of little farms who are developing a program of diversified crops can double their profits by canning fruits and vegetables.
Nearly every family has the ability and most of the apparatus required for an ordinary canning business. Not only do the prices of canned goods give a double profit on many products, but there is a large saving in perishable articles which otherwise would go to waste. This is a money making plan for any farm family and deserves careful consideration.
The canning season opens in June with strawberries, currants, gooseberries, rhubarb, etc. Following in quick succession we have red and black raspberries, loganberries and cherries. The latter half of July finds canners busy with beets and the first delivery of string beans. Bartlett pears and blackberries begin to come after the middle of August. September sees the last of the peas, string beans and plums. This is the month for early apples. During October we are canning apples, corn, tomatoes and pumpkins. An evaporator is used for berries, peaches and apples when the business becomes a little more extended. A fruit packing department is one of the most profitable lines of business.
Almost every family has a tin clothes boiler which can easily be converted into a sterilizing vat in which to boil the products which she desires to can. The only things necessary are a tight cover and a false bottom. The false bottom is made of wire netting and is needed to prevent the jars from coming in contact with the bottom of the boiler, which would crack them. To make these boilers take an ordinary No. 10 wire netting of half inch mesh, which is cut to fit the bottom of the boiler. If the netting is not available use thin pieces of wood. A patent open steam cooker is even more convenient than a clothes boiler. The water seal outfit is a combined hot water and steam chamber with a self sealed top which permits the prod-

uct to be boiled at a temperature 2 degrees higher than the homemade outfit will. This means that for many things the time of boiling is shortened. Corn takes only 150 minutes in a home made outfit. The other outfits may also be obtained from regular dealers. They depend entirely on steam instead of hot water for cooking fruit and vegetables. They are called steam pressure cookers. The cooker with five pounds of pressure does the work in much less time than the water seal outfit, and the cooker with a pressure of ten pounds will accomplish the work in about half the time needed for the five pound cooker.
Apples—Select red apples of a fine acid flavor and wipe but do not peel. Remove any defective spots and divide into quarters. Core and cut each piece into fourths. Add just enough cold water to make them juicy and heat and cook slowly, until tender. The skins add much to the flavor and coloring of this preserve. Lift carefully into cans while hot and seal.
Plums—Put five or six plums in a few three quart cans and one cupful of sugar for six quarts of fruit. Heat when nearly boiling in the sugar. Then add the sugar and cook gently for five or six minutes.
Peaches—Choose only the best but they should be firm to the touch. Peel and divide each into halves, removing the pits. Put into a preserving bottle and add one quart of cold water to every six quarts of the prepared peaches. Bring gradually to the boiling point, then can and seal at once.
In all canning operations carefully study the directions which come with the apparatus or which dealers will furnish in printed form. While the work is simple enough the methods require taste and care. For instance, select uniform tomatoes, and see that they are free from blemishes. Wash them before sealing to prevent any dirt from entering. After washing place them in a sugar sack or wire strainer and put into a boiler of scalding water for one minute. After taking the tomatoes from the water the skin will slip off easily. The cans should be washed just before putting in the tomatoes. Fill them moderately and then add a teaspoonful of salt and one of sugar for each quart of fruit. Put on the lid closely and place in the water to boil for twenty minutes. Be sure not to put cold cans in hot water.

Gown of Taffeta and Chiffon

If you are looking for an afternoon gown that will do service for almost any of the semi-dress occasions which enliven summer afternoons and evenings, and is really a triumph as a visiting toilette, combinations of silk with transparent fabrics deserve your attention. In the costume pictured here such a combination is shown, employing taffeta and chiffon with the happiest results. Voiles and laces nets and organdies when very sheer suggest any number of combinations and great diversity in style.
The skirt in the costume shown is made of dark blue chiffon decorated with bands of the same shade in taffeta. It is straight and round and cut to extend several inches above the waist line on to the bodice. It is shaped to the figure about the hips and waist and to the lower part of the bodice by means of cords run in narrow tucks. These are drawn up, filling the material and forming a shirred yoke at the top of the skirt, terminating in a frill above the waist line. This skirt is worn over a plain one of taffeta.
A dainty bodice of lace or net or any of the softly falling semitransparent fabrics, worn with this skirt, and a corsage ornament, makes a pretty dance or dinner frock of it.
The pretty, straight coat, with ample sleeves finished with chiffon frills,

is open at the throat and finished there with an organdie collar decorated with a little fine embroidery. The sleeves are elaborated with a band of taffeta above the elbow, fastened down with silk-covered buttons. But the touch of distinction which first catches the eye is the belt and hanging end of silk, decorated with an embroidered pattern of the smallest beads in very brilliant but harmonizing colors. They are put on with the intent of reminding one of the beadwork of the Indians, and are astonishingly effective. One may count upon a thrill of patriotism as a part of the satisfaction in wearing this gown, not simply because it is made of American fabrics, but because its decoration is an inspiration born in our own land. And notice how the idea is carried out in the long and splendid single feather for which the little hat is merely a support.
JULIA BOTTOMLEY.

Lingerie Hat of Cotton Embroidery

The lingerie hat is made of fine, sheer, cotton embroidery, lace or net, and forms a special kind of midsummer millinery which reappears each year. The same kinds of embroideries and laces that are used for making lingerie gowns or fine underwear are used in the construction of this very elegant millinery; hence the name by which it is designated.
The lingerie hat has been in greatest demand among those who require several hats for each season, and is one of those types made for the "exclusive trade"—that is, for those who can afford to indulge a taste for special millinery to suit special seasons. They are by no means inexpensive, but it is the work required to make them, rather than the materials used, that makes them bring very good prices.
Two lingerie hats shown in the picture given here are of the picturesque type. At the left a wide embroidery of sheer batiste is shirred over a frame smoothly covered with chiffon. The row of shirring (over a small cord) at the base of the crown forms a frill wider than the brim of the frame, which falls prettily beyond the brim edge and drops more at the back than elsewhere. Here, from under the brim, loops and long ends of narrow ribbon, in a light color, hang nearly to the waist line.
But the striking feature in this hat

Making the Little Farm Pay

By C. C. BOWSFIELD

It will be noticed anywhere in the country that if the owner of a farm encourages his family to take an interest in garden management the home premises will look well and become more profitable than they otherwise would.
Young people take a keen interest in novelty farming. They will delight in studying out plans for succession crops, and in this way they will make a garden pay well. A fact which should be kept in mind is that truck growing may be made highly profitable on any farm and therefore should not be treated as a sideline. For instance, if a farmer who is accustomed to a return of \$20 to \$40 an acre from his big field crops can see a revenue of \$200 an acre from vegetables, berries and flowers he should be willing to make this feature a little more prominent than

VEGETABLES AND BERRIES PAY WELL.
It usually is, especially when it serves to stimulate the interest of his sons and daughters.
When young people take up this matter of double cropping they should aim to make the season as long as possible and to get their commodities into market early enough so that they will reap the benefit of the highest prices. A little study will show them which are the hardy and profitable early products. Usually it pays to start vegetables in a hotbed, but whether this is done or not when the peas, lettuce, radishes and other early crops are out of the way the ground can be utilized for celery, tomatoes, sweet corn, peppers, cabbage, etc. This is not a complete program, but merely suggests what may

At home, more than anywhere else, you need to keep a bridle on your tongue, more especially if it is a tongue that is apt to say unkind things.
Here are two privileges the average man insists on: First, the right to do as he pleases, and, second, the right to abuse a neighbor who doesn't do as he wants him to.

Some one has invented another new dance, but as it is said to be huggles the chance that it is going to crowd any of the tangoes of the stage is probably pretty slim.
An indignant creditor in New York killed the man who owed him \$200 and would not pay. Did he think that a dead man would be more likely to settle than a living man?
Dr. Anna Shaw, speaking before the international council at Rome, declares that women are the best news features for the daily papers. Depending, speaking in a half tone, upon the features

A RESUME OF SANFORD HAPPENINGS UP TO DATE
Address all Communications for this Column to "Society Editor," or Phone Mr. R. A. Terhoun, Phone No. 200

Malden Tampa is some girl, believe us.

Mendenhall's attorneys claim he is too sick to stand trial. Probably has gasoline in his lungs.

Press reports state that the German army is short of beer and we now look for an early end to the war.

Newspaper boys all hope the Sanford postoffice will be decorated with Holly-Tampa Tribune.

Avery Powell of the Macclenny Standard wants to meet all the members of the Florida Press Gang, face to face. You're on, Avery.

Marksupski will take the place of Dr. Dumba as the Austrian consul in the capital in Washington. All right, mark him upski and let us get his Numba.

We would like to see Seminole County have a fair and then have the exhibits shipped to Orlando, Tampa and Jacksonville. This is the kind of advertising that will advertise.

After creating the new county of Okaloosa, Bill Maypoles will, move his printing office to the new county site of Crestview and endeavor to get the county printing. It will be Bill's luck to have some other geezer who never heard of the new county to drop in and get the lion's share while Bill isn't looking.

The Clyde Line continues to send the excursionists to Sanford and every boat coming down is crowded. The St. Johns river is the great artery of trade and travel through the center of the state and should be recognized by the government as the northern end of the Intra-Coastal Canal. Just follow the crowds.

John Trice of the Gainesville Sun has an editorial in that sprightly paper about the simple life and physical culture bringing on the robust condition and from John's personal appearance he has evidently been taking a dose of his own medicine. John is rather robust, or was the last time we saw him.

October Fifteenth is Newspaper Day in Florida and that is the day to send out extra copies of the Herald to your friends in the north. The last time this paper made special arrangements for the day, the public spirited people of Sanford sent out at least ten extra copies which spurs us on to greater efforts in the publicity line.

The editor and business manager of the Herald will attend the meeting of the Florida newspaper men and printers in Jacksonville on October 13th to 15th and being away for the three days from the dearly beloved paper expect to turn same over to the ladies of the Women's Club to do their worst. We rather opine that maybe the ladies can stir up a little excitement while the boys are away.

A SHINELESS CITY
Some time ago a billboard man who wished to disfigure the landscape in this city discovered that the city ordinances would not stop him from putting up billboards in the city and proceeded to place them at various places. Some of the billboards are better than the old sheds and places that they hide and when it was discovered that the city council could not stop him and could not frame an ordinance that would stop him he proceeded to build bill boards everywhere. We note this morning that billboards are being erected north of the Abernathy Furniture Co. thus shutting out the only decent view of the lake front afforded the visitors from First street.

When it comes to blotting out the landscape and beautiful scenes around our city we stop him. There is a law that will stop him and if the city council and city attorney cannot do it the citizens themselves can do it. We certainly have not turned the city over to the bill board firm.

Eastern Star
At the regular meeting of the Eastern Star on Tuesday night, Mrs. John Stemper was initiated into membership. The usual "goat" was discarded and a Texas steer brought into the arena. As the new member proved conclusively her ability to "stick on" she was enthusiastically received into the order and is now floating about with the other points in this popular galaxy of stars.

There were seventeen members of the local order present to enjoy the fun and the delicious refreshments served by the hostesses of the evening, Mrs. Sam Maxwell and Mrs. R. Jenkins.

The next afternoon social of the order will be held at the home of Mrs. Ray Butts.

Mystery Club
A pleasant meeting of the Mystery Club was held at the home of Mrs. Richard Terhoun, with Mrs. George Herring, as the guest of honor. Having recently become a resident of the West Side her new neighbors and a few others were invited to meet Mrs. Herring. The hours were spent informally with needlework in the pergola. Invited to meet Mrs. Herring were Mesdames J. W. Dickins, W. M. Haynes, Walter Hand, M. C. Savage, Miss Flora Walker, Miss Martha Fox, Miss Ruth Coates of Daytona and Mrs. Allen of Tampa.

Members of the club present were Mesdames Deane Turner, W. H. Peters, W. P. Carter, A. D. Smith, C. E. Walker, T. I. O'Connor, Harvey Redman, John Meisch and J. K. Johnson.

Birthday Party
Mrs. Packard was hostess at a birthday party given in honor of Miss Virginia May Packard's eleventh birthday Wednesday, Sept. 22. Games were enjoyed during the afternoon and just before refreshments were served a box of favors was placed on the table. Each favor was tied with a string. All the children then took a string and pulled receiving for their labor a prize.

Those present were Mesdames Lena Bell Hagan, Dorothy Fletcher, Mary and Louise Field, Emma and Lillie Ruth Spencer, Pearl Robson, Dorothy Ray, Blanche Wray, Doris Pope, Margaret Cowan, Velma Ship, Margaret Berner, Sarah Wight, Theodora Miller, Sarah Evelyn Williams, Frederick Williams, Evelyn Shell, Curry and Beulah Hardman, May and Mildred Holly, Gertrude Runge.

Birthday Party
A very delightful event in children's circles was the pretty party given by Mrs. R. A. Newman on Thursday afternoon in honor of the eighth birthday of her little daughter Olive. A jolly crowd of young people gathered upon the lawn to help along the celebration. Games were enjoyed, but the most fun of all was the peanut hunt, in which May Holly was the victorious holder of the greatest number of peanuts among the girls and Delwin Hurley carried off the boys' prize of a pocket knife. May was presented with a dainty little handkerchief.

After refreshments were served upon the lawn the children formed in line for a march to the dining room, where the big white birthday cake, with its eight, vari-colored candles was cut. Sarah Evelyn Williams cut the dime. Those invited were Elizabeth Whitner, Frank Chase, Thomas Wight, Albert Connelly, Margaret Neal, Maud Lake, Theodora Miller, Clifford Spinholler, Sarah Evelyn and Frederick Williams, May and Mildred Holly, Rebecca Stevens, Paul O'Connor, Dora Harrold, Rose LaVerne Hurt, LeClair Jones, Deane Turner, Katherine Symes, Kermit Hurley, Delwin Hurley, Algernon Spear, Martha Fitts, Joe Caldwell, Mary Elizabeth and Camilla Puleston, William Gillon, Georgia Mobley, Claude Herndon, Emily and R. E. Griffin, Ernest Macey, Brinson Hoolihan, Briggs Arlington. Mrs. Newman was assisted by Mrs. W. J. Hill and Miss Bertha Macey. The gracious little hostess received many lovely gifts.

Married in Arcadia
The following account of the marriage of Miss Moye will be interesting to her friends in Sanford where she often visited.
A beautiful wedding took place Wednesday afternoon at 3:30 o'clock in the pretty home of Mr. and Mrs. R. G. Moye in Arcadia, when Miss Lila Kathleen Moye became the bride of Mr. George Cobb Cravey, of Tallahassee. The Moye home was artistically decorated with a profusion of cut flowers, tropical

vine and ferns and pink and white ribbons.

When the many friends and relatives had assembled for the happy event, and preceding the ceremony a very pleasing musical program was given by Miss Kate Carlton on the piano, and Mr. Cecil G. McDermond, who sang "I Love You Truly," and "O Promise Me."

Promptly at the appointed time for the nuptials the bridal party entered the parlor from the reception hall, as Miss Carlton played the beautiful bridal chorus from Lohengrin, and marching to the improvised altar banked with ferns and flowers, where stood Rev. George F. Scott, they were joined in wedlock. Rev. Scott impressively read the beautiful ring ceremony of the Methodist Episcopal Church.

The bride, who was beautiful in a handsome gown of white crepe de chine, trimmed with chiffon and Georgette crepe, carried an immense arm bouquet of lilies of the valley and brides roses. The groom wore the conventional black and the happy couple formed an attractive picture of charming female grace and manliness.

Following the ceremony, a reception was held during which the couple received the congratulations and good wishes of their many friends in attendance. During the reception a wedding luncheon was served and the immense wedding cake was cut. The dining room was decorated in pink and white flowers and the plants in profusion adorned the dining table, being ferns and huge clusters of roses and asters. Miss Lena Durrance presided with charming grace at the punch bowl and the guests at the tables were served by Mrs. R. D. Whiteside of Tampa, a sister of the bride, and Miss Jennie Gann Houghton, an intimate friend of the bride.

The bride's assisting ladies were attractively attired in costumes of white organdie lace.

The guests passed through the hall to review the many pretty wedding gifts there displayed. The popular couple received many presents of cut glass, bric-a-brac, silverware and embroidered linen.

The bride donned a handsome traveling costume of brown cloth with gloves and shoes to match and bade her many well-wishers good-bye. Mr. and Mrs. Cravey went immediately to the Coast Line train and departed for Tallahassee, where they will live in the future.

The bride is the daughter of Mr. and Mrs. R. G. Moye, who are among Arcadia's most highly respected citizens. The groom is a very popular young man and is the secretary of the Florida State Tax Commission, with his residence in the Capital City. Mr. and Mrs. Cravey have many friends throughout Florida who wish them every happiness.

The guests attending the wedding and reception were Dr. and Mrs. Whitesides of Tampa; Dr. and Mrs. J. A. Simmons, Mr. and Mrs. H. E. Carlton, Miss Kate Carlton, Mr. Harry Cross, Mr. J. S. Floyd, Mr. Claude C. Jones, Mr. and Mrs. C. D. Boring, Miss Jennie Funn Houghton, Miss Lena Durrance, Mr. C. E. McRae, Mr. and Mrs. B. B. Smith, Mr. Pete McDermond, Mr. and Mrs. J. L. Dishong, and Mr. and Mrs. C. H. Kilpatrick.

Mrs. W. H. Peters is the guest of Mrs. D. G. Wagner at Kissimmee.

Mrs. J. H. Ferguson returned from a visit to Carrabelle Thursday, accompanied by her grandson, Webster Ordway.

Clifford Walker has returned from Jacksonville, to which point he accompanied his sister, Miss Clara Walker on her way to Tallahassee. Clifford is quite a traveler and insists that Florida is some state.

Joel Fields, formerly of Sanford is here on a visit from Augusta, Ga. meeting old friends and renewing former associations.

Mr. and Mrs. Sam Bradford have returned from their wedding trip and will soon take up their residence in their pretty bungalow on Magnolia avenue.

Mrs. A. W. Fitts, Jr. Billy and Martha have returned from a pleasant visit to New Smyrna.

Miss Florence Knight of Daytona is the charming guest of Mrs. Claude Herndon.

Mr. and Mrs. H. C. Geron have returned from Chicago, where they

attended the convention of the B. L. E.

Mrs. J. S. Wilson has returned to Sanford and is the guest of Mrs. R. J. Holly.

Mrs. Ernest Krupp is home again after several weeks spent in Tampa with Mr. Krupp.

A congenial party spending the day at Clay Springs today are the families of Mr. C. R. Walker, Mrs. Henry Wight and Mr. and Mrs. Buchanan of Paola.

Mrs. Deane Turner and Miss Martha Fox motored over to Daytona yesterday for a visit to Miss Ruth Coates, who accompanied them.

INTER-COSTAL WATERWAYS VIA ST. JOHNS RIVER

Continued from page 1

would serve only a limited number of the citizens of this great state by the expenditure of a smaller sum it could assist practically two-thirds the population thereof.

Considered alone from the standpoint of its own best interests which is quite likely the case, can it not be seen at a glance that it would afford far greater advantages to commerce, create vastly more commerce, make a far safer route for commerce and thus strengthen the sinews of the government?

When the requirements of the two sections are calmly reviewed it will be seen that the sections directly served by the St. Johns River Route comprise the very best portion of the state while that portion north of Titusville which is so vitally interested in this matter, having nothing to offer in substantial contribution thereto.

Certainly should this country ever be engaged in war this canal would play no inconsiderable part as a safeguard both to commerce and to men and munitions of war as well as vessels whereas the other would be useless.

To my mind the preponderance of value for the St. Johns route as against the East Coast canal route is overwhelming and I can but believe it this matter is properly brought to the attention of those who have the authority to act that they will coincide with this view.

H. C. Dubosey.

Mayor Temple of Winter Park

While engaged in convincing the dear people that the St. Johns river should be the upper end of the Inland Waterways instead of allowing the government to buy the east coast ditch, the editor of the Herald had the good fortune to spend a few minutes with his old friend, W. C. Temple, ex-ated magnate, ex-president of the Citrus Growers Exchange, ex-president of the Pittsburg Pirates, donor of the Temple Cup, Florida Cracker who went north and made them sit up and take notice, one of the biggest men that Florida ever produced and now mayor of Winter Park, his Home Town.

Mr. Temple recently disposed of his grove property, Alabama, his beautiful country estate that cost almost a million and is now rustling in a small brick bungalow in Winter Park, a small bungalow that probably cost another quarter million and is furnished like a palace.

We didn't have time to stay with Mr. Temple. Full of the southern hospitality he was offering a great many. Mr. Temple is never effusive as Florida in his style of entertaining. He makes one feel at home in the "Big House." He waves

Avoid Confusion

Executors, administrators, guardians, and others, may avoid endless confusion, from the mingling of private and trust funds, by opening separate accounts at this Bank. Drop in and let us talk further with you about this important matter.

PEOPLES BANK OF SANFORD WE WANT YOUR BUSINESS

H. R. STEVENS President C. M. HAND Vice-President SANFORD, FLORIDA O. L. TAYLOR Cashier R. R. DEAS Asst. Cashier F. L. WOODRUFF Vice-President

you to a chair in which you sink with a sort of restful feeling that seems to emanate from Temple more than from the soft upholstery of the furniture and when he gets strung out on any of the important topics of the day one is content to listen rather than lose a drop from the fountain of logic by interpolating a question or answer.

We did not ask Mr. Temple why he was mayor of Winter Park or what he intended to do about it, now that he had accepted the office, but we will make a bet that if Temple cares to engage in a quiet game of civic and municipal reform that Winter Park will be on the map in big letters and will soon give Orlando a merry chase for the position of the largest city in Orange County.

There are several cities in Florida that need a Temple.

Will Advertise Florida

Frank L. Miller, the efficient secretary of the Florida Embalmers and Undertakers Association will be a delegate for that body to the national meeting of the undertakers at San Francisco next month and goes west with the idea of pulling the undertakers association to Jacksonville next year. Mr. Miller will carry with him a mammoth map of Florida made out of felt which he will hang in a conspicuous place in the convention hall and will also be well supplied with literature concerning the state of Florida. The felt outline of Florida is now on exhibition in the window of the Miller store in this city and is a beauty. Mr. Miller will also take along some of his literature for he boasts Sanford where ever he goes. We just know that Frank will capture that convention for Florida.

UPSALA AND GRAPEVILLE

Mr. and Mrs. Jonas Larson of Modum have been visiting this last week at the home of Mr. John Lundquist on Sunday they with Mr. and Mrs. John Lundquist and son, Aron and Mr. and Mrs. Elmer Lundquist and baby Adrian were dinner guests at the home of Mr. and Mrs. Emil Magnusson.

Mrs. John Borrell and Mrs. Magnusson were callers at the homes of Mrs. Bellinger and at Mr. Thompson's on Tuesday afternoon.

Mrs. Bertelson visited Mrs. Geo. Clark Thursday.

Mrs. Clark and Mr. Bellinger called on Mrs. Sted and her daughter, Ebba, Friday.

Rev. Erickson expects to be with us and has kindly consented to lead the prayer meeting Thursday evening and whenever he can be with us.

without interfering with his other duties.

Mrs. J. A. Thompson had a very bad time with acute indigestion last week. Dr. Denton was called.

Don't let anybody forget about the ice cream social on Saturday night, the 25th, and all work together and with God's blessing make a success of it.

Mr. and Mrs. Magnusson and Mr. and Mrs. Larson and Aron Lundquist visited at Mr. H. E. Lundquist's Monday evening.

A small party was held at Mrs. Edna Thompson's Tuesday evening. Those present were Mrs. Thompson, Miss Edna and Andrew, Robert, Miss Olga Viblen, Miss Ebba Stedt, Wulfrid Pierson, Carl Pierson and Jesse Lee.

Mr. and Mrs. H. G. Lundquist and family spent Sunday at Monroe visiting at Mr. Pries and with Mr. Krummings.

Mr. Lundquist and Mr. Krummings have finished the house they erected for Mr. Tony Fuselo near First street on the West Side.

Mrs. Verne Collier of Sanford is visiting today at Mrs. H. G. Lundquist's.

SEARS PLANS TO INCREASE MEN IN REGULAR SERVICE

Continued from Page one

days ago that Speaker Champ Clark has come forward and advocated a similar plan. Just as soon as I get back to the capital I intend calling upon Secretaries Daniels and Garrison and discussing the advisability of such a plan. If they agree that it will be helpful I propose to introduce a bill before congress and I believe it will meet with the approval of a majority of the senators and congressmen. Jacksonville Times Leader.

SECOND SESSION OF SEMINOLE BAPTIST HELD AT UMATELLA

Continued from Page one

Mrs. H. C. Peelman, State Secretary of the Woman's Missionary Union, addressed the Association, and signified her great pleasure at the good work being done by the women of Seminole.

The member of the State Board of Missions from this Association was instructed to vote for and support a movement to put a Sunday School and B. Y. P. U. secretary in the field to do this work in the state of Florida.

The following were elected for the ensuing year.

Executive Committee, Wm. Steiner, chairman; Jno. D. Jinkins, Sanford, secretary; J. G. Parsons, Titusville, W. W. William, Tavares, H. T. McClellan, Daytona; C. Z. Osborn, Umatilla, H. B. Stevens, Deland.

Member State Board of Missions, George Hyman, Sanford.

Delegate to Southern Baptist Convention, W. W. William.

Delegates to Florida State Convention, J. G. Parsons, R. M. Anderson, H. S. Rightmire, B. F. Green and W. A. Getch.

Places selected for the next meeting of the Association, Daytona.

Those attending from Sanford were Rev. and Mrs. George Hyman, Mrs. M. M. Stewart, Mrs. Edgar Biggers and Jno. D. Jinkins.

Rev. Steinmeyer Will Preach There will be the usual Methodist services at the Star Theater next Sunday. Sunday school, 9.45. Preaching, 11.00, subject, "The One Thing Needful."

A gospel message at 7.30. The pastor, F. E. Steinmeyer is glad to announce that he has so far recovered that he expects to have charge of the services.

It will be a great pleasure to him to have a full attendance of the children as well as the members of the congregation and friends.

Death of J. D. Roberts The city was thrown into sorrow and mourning on Wednesday evening when the news was disseminated announcing the death of J. D. Roberts. While not entirely unexpected his legion of friends had been hoping for the best although his case was almost hopeless from the first. Mr. Roberts had been sick for fourteen weeks and only his wonderful vitality and strong desire to live kept him on this side of the brink. The best physicians of this city and of Orlando used their best efforts to prolong life, but the odds were too great and this promising young man breathed his last at five o'clock Wednesday afternoon.

James Daniel Roberts was born in Goldsboro, North Carolina on Sept. 17th, 1885 and was the eldest son of Dr. James B. Roberts and Ella Nicholson Roberts. He passed his early boyhood upon his native hills and when hardly grown to man's estate went to West Virginia and Pennsylvania where he had charge of the company stores of the coal companies operating in that section. Store keeping and especially the grocery line was his business and he made it the study of his life, holding some responsible positions with credit to himself and gaining the goodwill of his employers all ways. Deciding to come to Florida he located in Sanford about six years ago, engaging in business with N. O. Garner, under the firm name of Garner & Roberts. He afterward went in for himself and removed to the present location in the Peoples Bank building, where he had built up a large trade by his unflinching good humor and strict attention to business.

Mr. Roberts was undoubtedly one of the most affable and gentlemanly young men in the city. He was always an optimist, looking on the bright side of life and coupled with this sunny disposition was his untiring devotion to his mother and sisters and his friends. He was always ready and willing to grant a favor and his purse was always open to the needy and suffering humanity.

Cut down in the very flower of his youth and on the threshold of a successful career the death of James Roberts will leave a wound that will be slow in healing. Seldom does the death of a young man leave such an impress on the hearts of such a multitude of friends and the memory of "Jim" Roberts will be kept green for many years to come.

He leaves four sisters, Miss Street, Miss Margaret, Miss Ethnor and Miss Ruth and one brother, David B. Roberts of Gary, Indiana. He also leaves two uncles, J. T. Roberts of Dade City and J. B. Roberts of White Springs; all of whom are here today to attend the funeral.

The funeral services will occur from the late residence on Laurel avenue this afternoon at 3.30. Rev.

George Hyman of the Baptist church will officiate and the Elks will be in charge of the funeral, deceased being a member of both lodges in this city. Interment will be made in Lakeview cemetery.

The pallbearers will be George DeCottes, W. E. Watson, L. P. McCuller, Arthur E. Yowell, Sam Younts, D. G. Monroe.

Presbyterian Church Happy congregations are meeting each Sabbath in the new Presbyterian church. An earnest spirit of worship and prayer is pervading the services. A spirit of revival has preceded the meeting which is planned for the early part of October. There was a good crowd of earnest people at prayer meeting Wednesday night in spite of the rain.

The Sunday school is preparing for a rally, Oct. 3rd.

Sunday Dr. Brownlee will preach at 11 a. m. on "Christ's Method of Winning Men." 7.30 p. m. "Seeing Jesus as He is." Miss Bowler will sing at the evening hour.

A cordial welcome will be given you at these services and also at Sunday school at 9.45.

Rummage Sale The Civic Department of the Woman's Club will hold a Rummage Sale in the vacant room of the Bishop Block tomorrow afternoon.

Congregational Church Next Sunday morning will be our first annual Public School Day, a short service following the Sunday school. It is especially urged that the parents come early and have the children with them, so that families will be together.

At the night service, the last of the series, "Jesus' Life Principles" will be given; special subject "Jesus and Life's Purpose." Good music by the Young Ladies' Chorus under the leadership of Mrs. Takach. All will be cordially welcome.

In common with other schools of Florida we will observe "Florida-Goto-Sunday School Day" Sunday Oct. 3. Fuller particulars later.

The C. E. Society is growing and doing some fine work. All young people are cordially invited to fellowship with us in this great service. 9.30 p. m.

Miss Hoskins Jones writes her mother from Eagles Nest, North Carolina that the weather is cold up there, being down to forty at times and she is enjoying the mountain air and gaining in health every day.

New Millinery Store Mrs. Mehrtens will occupy the room next door to the drug store of L. R. Phillips & Co. instead of in the Inforest block as asserted in the Herald last week. The opening will occur next Tuesday if the repairs and improvements can be made by that time. Watch the window for the opening. Mrs. Mehrtens will also have a French dressmaker and a first class manicurist in connection with the millinery parlors and the French Hat Shop will prove most attractive to the ladies of Sanford. The dresses will range in price from \$1.50 up and the stylish hats will range from \$1.00, thus proving that although the best in style and manufacture will be used the prices will be exceedingly low. Wait for the big opening.

Carl Dann Here H. Carl Dann and family of Orlando were in the city today on a pleasure trip. Carl Dann is probably the greatest hustler in the real estate line in the state and has had wonderful success in developing subdivisions in Orlando and Orange county. He is a young man that deserves great credit for the success that has come to him through his hustling proclivities.

Wisdom Not a Man's Gift I can ennoble a thousand men in a single day; but I am not powerful enough in a thousand years to make a single wise man.—Kaiser Sigismund.

Not a Compliment to Auntie. Jessie—Please, auntie, the new lady next door says her compliments, and will you play very low, because her husband is extremely musical.—Dulletta (Sydney).

Wrong Treatment. The man that suffers from insomnia often makes the mistake of seeing a doctor when he needs a preacher.—Portia Journal.

In Hard Circumstances. "Folks dat can't learn 'ceptin' by experience," said Uncle Eben, "mostl'ly don't learn much even dat way."

Quinine Can Not Be Tolerated By some people, but nobody can take Quick's Chill Tonic. Quick's Chill Tonic, flavored with "Sweet Spices." Has superseded all other chill tonics where introduced. Get it at L. R. Phillips and Co. No cure, no pay. Price 25 cents.

FARMER'S DAY PROCLAMATION

Governor Trammell has issued the following proclamation designating Farmers' Day and requesting that the farmers of the state observe the day by picnics and other rural gatherings.

State of Florida, Executive Office.

Whereas The last legislature enacted a law designating the second Friday in October of each year as "Farmers' Day" and

Whereas The farmers and growers of Florida constitute a most staple and dependable factor in the material development and permanent prosperity of the state and

Whereas The farmers and growers well merit being honored by having one day in each year designated as a legal holiday in their honor, and

Whereas It is desirable that the citizens in all sections shall assist in making Farmers' Day one of pleasure as well as an occasion for furthering and encouraging our great agricultural interest, which is the generation of the abundant and healthy prosperity, and

Whereas It will be a pleasure to hold for all the people of Florida an assembly at picnics and other public

gatherings in the different sections of Florida, for a day of pleasant social intercourse and in furtherance of the interest of our farmers and growers

Therefore, I, Park Trammell, Governor of the State of Florida, do hereby proclaim Friday, October the eighth,

FARMER'S DAY and suggest that in every section of Florida, the people assemble and arrange for an appropriate celebration of said day.

In testimony whereof, I have hereunto set my hand and have caused the great seal of the state of Florida to be affixed at Tallahassee, the capital, this 20th day of September, A. D. 1915. Park Trammell, Governor.

Notice Notice is hereby given that the annual meeting of the stockholders of the Crystal Ice Company will be held at the office of the company at Sanford, Florida, on Monday, the 11th day of October, 1915, at 11.00 o'clock a. m., for the purpose of electing directors, and for the transaction of such other business as may be brought before the said meeting. F. G. WHITNEY, Secretary.

Drink Elder Spring Water ANALYSIS: 1 OZ. CONTAINS 1.00 GRAM OF SODIUM BICARBONATE. Phone 447-1

Rummage Sale The Civic Department of the Woman's Club will hold a Rummage Sale in the vacant room of the Bishop Block tomorrow afternoon.

LIV-ER-LAX

Liv-er-lax is now rapidly taking the place of calomel everywhere. It is just as effective, cleansing the system thoroughly of bile, toning up the liver; and making that sluggish feeling disappear like magic. Yet it is pleasant to take, has none of the disagreeable after effects that make us dread calomel so much. Feel fine all the time. Take Liv-er-lax regularly, and health becomes a habit. Guarantee. Every genuine bottle bears the likeness of L. K. Grigsby and if it does not give satisfaction your money will be returned. For sale in the big 50c and \$1.00 bottles at W. G. Aldridge.

THE NEW WOODTEX BRICK FOR PAVING

(By R. J. HOLLY)

In these days of bond issues and paving contracts and Dixie Highways and Hickey Byways no man knows when he goes to bed at night just what may happen in paving material ere he arises to put eau de cologne on his feet in the morning. There are sand, asphalt, and asphalt sand and sand oil roads and oiled sand roads, concrete fillers and red brick wrappers and Colorado maduro groutings and claro de brico curbs and all kinds of fancy and high sounding materials that are enough to give the boards of county commissioners the night mare.

Up to the present time the expensive brick that costs so many dollars at the factory and twice as much for freight seems to have the right of way but that there are other materials is patent to the close observers although just what these compounds may be is not at all clear at present.

Sand oil roads may be the very thing. They look good after they are laid but so did our ancient marl roads—they looked good until the automobile made them look like thirty cents. The sand oil may stand the traffic and they may not. Asphalt may be the thing or some kind of concrete mixture but all of them cost money and if in time they prove deficient the various counties that are trying them will be out the money for the experiment. Every county that tries a new kind of material or a new method of laying is doing just that much more for posterity but durned little for the present day taxpayer.

All of which brings us to the story of the Woodtex brick which may be the real thing or it may be a gold brick. Being one of a party at Kissimmee one day this week I took the time to examine the Woodtex brick and also saw a portion of the main street of Kissimmee that was laid three months ago to try the new brick. The sample piece is at the corner of one of those octagonal streets that are affected so much by the Kissimmee people. Those eight cornered streets down there were laid out by a cow puncher on horse back after he had visited the Red Eye saloon several times.

At the middle of one of the main streets leading off from Broadway these new blocks were placed in a square space about five feet across and here the bricks get the heaviest part of all the traffic that strikes the streets. Up to the present time the new bricks show no sign of wear and tear. The other day a car ran across the brick on the rims and cut a deep hole in the new brick but this same trench is almost healed over or annealed together and in a few more days this trench will not even be visible. The new brick is standing up as well as the regular vitrified brick on all sides of the space but of course this is only a three months test.

What are the Woodtex bricks? Well, they are made from cypress shavings and asphaltum and creosote, the materials of course being kept secret by the manufacturers. The bricks are placed under a tremendous pressure and come out of the machine as hard as any vitrified brick but much lighter. They are laid side by side without any sand or other material between them and seem to form a part of the whole paving, almost as well as an asphalt pavement would do. The blocks are resilient, almost noiseless for traffic, are fire proof, moisture and water proof and have many good qualities.

There is a sample of the new block in the Herald office and we shall see more of them in the near future as a large factory will soon be built in Kissimmee to manufacture them.

At present the cost of manufacture cannot be figured but they can be made much cheaper than brick and the freight can be saved, making a much cheaper paving.

As I remarked before, however they are another experiment at present.

GOVERNOR TRAMMELL

Among the policies that will be advocated by Governor Park Trammell in his candidacy for the United States senate is that of urging the United States Government to grant to the State of Florida, the equivalent of the 32 sections of public lands within the state, for the state school fund. Governor Trammell states that in justice Florida is entitled to this consideration at the hands of the Federal government and that if he is elected to the senate he will endeavor to have passed by congress a measure carrying out this policy. Governor Trammell bases his position upon this matter on the fact that congress in making

land grants to the states has granted to many of them both the 16th and 32nd section in each township, while Florida has received only the 16th section. Governor Trammell says that if Florida can only get her just share of land from the federal government for school purposes, so this state may be on equal footing with many of the other states, that the state school fund will be enriched approximately one million acres of land or its equivalent in value. It will be remembered that Governor Trammell made a recommendation to the Legislature of 1913 on this subject and as a result a memorial to congress was passed asking that the United States congress grant to the state school fund the remaining United States lands in Florida.

Rummage Sale

The Civic Department of the Woman's Club will hold a Rummage Sale in the vacant room of the Bishop Block tomorrow afternoon.

Uncle Eben Reflects.

"Some men uses big words," said Uncle Eben, "de same as a turkey spreads his tail feathers. Dey makes an elegant impression, but dey don't reppresent no real meat."

LEGAL ADVERTISING

Notice of Application for Tax Deed under Section 575 of the General Statutes. Notice is hereby given that J. P. Laing, purchaser of Certificate No. 980 dated the 3rd day of June A. D. 1912 and certificates Nos. 529, 533, 576 and 584 dated the 2nd day of June A. D. 1912 has filed said certificates in my office and has made application for tax deed to issue in accordance with law. PUBLIC SCHOOLS HAVE OPENED IN THIS CITY

LARGE ATTEN- DANCE GREETED FACULTY AT HIGH SCHOOL AUDITORIUM

Sanford public schools opened yesterday with the usual large attendance and while the official figures cannot be obtained at this time there will probably be about 600 pupils enrolled in the next few weeks.

The opening exercises were formal, taking the part of a friendly gathering for a few words of encouragement to the pupils and teachers. The assemblage was at the high school auditorium about nine o'clock and was presided over by Prof. Ezell.

Dr. Brownlee, Rev. Hyman and Rev. Strong and F. P. Forster, D. L. Thrasher, H. R. Stevens and S. Runge all made strong appeals for the cooperation of patrons and parents for the upholding of the teachers' hands during the coming term. The exercises were very interesting and the scholars gathered in the auditorium were greatly impressed by the words of the gentlemen on the stage.

The task of assigning the pupils to their various grades in all the schools proceeded yesterday morning with great precision and as the rooms had already been given together with the teachers the scholars knew just where to go and the school opened with clock-like precision.

The two new rooms recently constructed at the high school for the grammar school pupils were inspected yesterday and pronounced to be all that could be desired. In fact, the public schools start in this year under most favorable circumstances and with a fine faculty and the patrons of the school are looking forward to a well rounded out scholastic session.

Funeral of J. D. Roberts

The funeral of J. D. Roberts occurred from the late residence on Laurel avenue last Friday afternoon at 3.30 o'clock. The Elks and Eagles marched to the home from their respective lodge rooms and there were over one hundred members in line. The beautiful funeral ceremony of the Elks was used at the home, supplemented by the rendering of the "Vacant Chair" by a male quartette. Rev. George Hyman of the Baptist church officiated and the members of the Baptist choir also rendered several selections.

At the grave the Elks had charge of the burial and after a prayer by Rev. Hyman all that was mortal of this fine young citizen was laid to rest amid the tears of the family, friends and relatives.

The floral tributes were perhaps the most beautiful and largest collection ever seen at a funeral in Sanford, testifying to the love and esteem in which Mr. Roberts was held by his many friends in and out of the city. Handsome mounted designs in rare and exquisite flowers were sent by the Elks, the Masons, the Woodmen's Circle and "The Boys," the latter sent by the close personal friends of the deceased. From the Eastern Star there was a beautiful bouquet, while from Wilmington, N. C., came an anchor and wreath. The room in which the casket rested was just a mass of floral offerings. The mantel and beneath it was banked with designs and flowers from friends of the family in North Carolina and Virginia. The tributes from Espaloro were equally lovely and in such quantities. The grave was an exquisite mass of bloom when the flowers had been placed.

County Takes Oil Business

H. B. Coney will take charge of the Sanford branch of the Gulf Refining business on the first, the present manager, Mr. Ellerbe leaving for his old home in Orlando to engage in the same line of business. Mr. Coney has worked up a fine business here and in Orlando on the celebrated Elder Springs water and is loathe to give up this business, but Capt. Elder will continue the

business of supplying the thirsty while Mr. Coney furnishes the oil—sort of pouring oil on the water—and the patrons of Gulf oil and Elder water will receive their supply as formerly.

MENDENHALL FOUND GUILTY

WITH RECOMENDA- TION TO MERCY

Clearwater 3 p. m.—Verdict murder in first degree. Recommend mercy of court.

Notice
All members of the Brotherhood Class of the Baptist church are urged to be present at a special business meeting on Friday evening, 7.30 at the Temple.

GEN'L GILCHRIST REITERATES HIS IGNORANCE PLEA

BUT HERE'S OUR GLAD HAND GEN'L FOR ITS PLAIN YOU'RE LEARNING

"I would state that there are a great many things in heaven and earth of which I am ignorant, one of which was the proposed canal on the St. Johns river. That has been thoroughly impressed upon me by Mr. Promover," says Gen'l Gilchrist.

All right, General, here's our congratulations. That's what peev'd us, to think you didn't know a thing about it, and went and committed yourself to what you hadn't oughter. The rest of what you have to say is simply a reiteration of what we told the dear people through our excellent medium, The Sanford Herald, in our previous article, wherein we quoted from your letter to sundry Sanford friends. You've got the idea, precisely what we wanted. That was the sole and undivided object of the "attacking or torpedoing a candidate," Governor, dear, Promover.

Longwood B. Y. P. U.
Group No. 3 rendered a very interesting and instructive program Sunday, Sept. 19th. We want to let the people know that we are feeling very much enthused over our union. The president is also more encouraged over the good attendance of the members and visitors who are present every Sunday afternoon.

The program last Sunday was taken from Proverbs 4th chapter. Subject, "Solomon Exhorteth to the Study of Wisdom."

The president took charge at 3.30 and the program was rendered as follows.

Song No. 271, Praise Him, Praise Him.

Prayer by Mr. J. M. Waits.

Song No. 579, Wonderful Words of Life.

Captain, Miss Lillian Waits in charge.

Scripture Reading by members of Group 3 from Proverbs.

Song No. 419, Narrow and Straight.

Remarks on Scripture Reading.

Secretary's report.

Song No. 564, Follow On.

Dismissed with Lord's Prayer.

Reporter.

"Go-to-Sunday" School Day

Next Sunday morning at the Congregational church we have set our aim for an increase in our S. S. attendance next Sunday, at 40 per cent. It is especially desired that each class will do its share to meet this increase. Let every member of our school get busy.

PRESBYTERIANS TO CELEBRATE NEW CHURCH

WILL START WITH SERIES OF REVIVAL MEETINGS NEXT SUNDAY

At the Presbyterian church, last Sabbath, H. C. DuBose, chairman of the finance committee read a report of the progress made on the new church building, showing that up to date \$5,250 had actually been raised and spent on the building. His report was an eye opener even to the Presbyterians for few of them realized that the church officials had been putting in such good work. The Sunday school rooms are almost finished and the temporary structure for the church proper will be adequate for the services all winter. The windows have been shipped and will soon be placed in position and all the work of finishing the Sunday school will be rushed. The church building will not be touched until sufficient funds have been raised to complete it. The various organizations of the church are working and have money for the extension work. The Presbyterians feel greatly encouraged at being in their own building and already the attendance has increased one third more, as the members and visitors feel more at home in the building than they did in the theatre building.

In honor of the great event of moving into their own building the Presbyterians will hold revival meetings for several weeks commencing next Sunday. The revivals will be in charge of Rev. J. C. Venable of Jacksonville. Riverside Presbyterian church. A large choir of forty voices will render the music and much good will result from this series of meetings.

The Presbyterian congregation is to be congratulated upon their good work in building during the strenuous times of the past twelve months and their progress is marvelous considering the many difficulties encountered.

The public is cordially invited to attend the meetings and especially the revival meeting commencing next Sunday. Dr. Venable is a forceful speaker and will be a power for good in this community.

Compost Pile Saves Fertilizer

Commercial fertilizers do not build up the land. They act merely as stimulants. The best means of increasing the fertility of the soil is by the addition of organic matter. The compost pile is one means of supplying good organic material for the farm. The materials which can be used are ordinarily wasted, and the expense of making the pile is slight when compared with its fertilizing value.

C. K. McQuarrie, state agent for the University of Florida Extension Division, gives the following directions for building a compost heap. Make a water tight foundation by puddling clay. Spread the clay about 10 to 12 inches thick, moisten and stamp. A frame of 4 or 5 lumber should be started around the pile and gradually built up as material is added. The size of the pile must be determined by the amount of manure produced in a week. This of course will be determined by the number of animals. The pile should accommodate the accumulation of a week, spread 3 or 6 inches deep.

A layer of leaves, pine needles, straw, grass or weeds even, 15 to 18 inches deep should be placed on the clay. It is probable that the heat generated would kill any weed seeds. Then place a layer of manure 5 to 6 inches deep over the trash. If raw phosphate is available sprinkle 50 to 80 pounds over the manure. Then add another layer of trash, followed by a layer of manure. The pile should be kept moist. Sprinkle if rains do not occur often enough. Keep it well tramped.

It takes about a year for the pile to rot sufficiently for use. It should be spread on the land during late fall. Another pile should be started as soon as one gets too large or as soon as the year is up. The compost pile will add materially to the fertility of the land and will furnish better fertilizer than the commercial product.

COMMERCIAL CLUB MEETS FRIDAY FAIR DECISIONS

EVERY MEMBER SHOULD BE PRESENT TO DECIDE ON COUNTY FAIR

The Commercial Club will meet next Friday night at the city hall for the purpose of deciding whether Seminole county will hold a fair or not. There has been no consideration of the matter of the county fair as yet and the commissioners at their meeting last month being approached by the committee from the Orlando County Association regarding Seminole showing at Orlando decided to do nothing until the expression of the people had first been heard. The matter has been put up to the Commercial Club of this city and the boards of Trade of Geneva and Oviedo to learn just what the people want in the matter of a fair exhibition.

It behooves the business men of this city to attend the meeting next Friday night and discuss this matter from every angle. If it is the desire of the people to have the fair here it is high time that something was being done to get ready for it. If we do not want a fair here Seminole county should have a fair exhibition at Orlando and Tampa and Jacksonville if possible. In other words the fair idea is a good one and our county should exhibit the resources of this section either at our own fair or at some other fair or fairs.

We have too great a country to hide our light under a bushel and the exhibition of our resources should be made every year. The Seminole Fair Association of last year was a strong one and some of our greatest hustlers were enrolled under the committee. The fair was a grand success in every way and only two days of inclement weather placed the association in arrears. It was conceded that the first two days of the Seminole county fair were the greatest in the history of Sanford and the attendance was a record breaker. If possible we should repeat the fair this year and with the experience gained last year it should be a success in every particular.

Congregational Church News

Our Christian Endeavor Society, had a splendid meeting last Sunday evening under the leadership of Mrs. J. D. Davison, assisted by Miss Margaret Strong.

The topic for the evening's discussion was "Shields against Temptation," in which almost every one present took some part.

One of Billy Sunday's most popular hymns, "Brighten the corner where you are" was effectively sung as a trio by the Misses Margaret Strong, Edna Chittenden and Clarice Hand, accompanied by Mr. Fraser Armstrong.

Next Sunday the meeting will be under the leadership of Miss Albine Frank, assisted by Mr. Percy Packard.

Appointment of Postmasters

Postmaster General Burleson has made it plain that postmasters in the Presidential grades will be held to strict accountability in the matter of the time they devote to their respective offices and the character of service they actually perform. From information received by him it is apparent that some postmasters after receiving the appointment have imposed a considerable portion of the duties of the post office upon the subordinates in order to utilize the time for personal ends, and he proposes not merely to discourage this practice but to stamp it out. It is the policy of the administration to require, in all cases conscientious and efficient service from its officers and employees. Neglect of duty and inefficient service on the part of postmasters will not be tolerated.

Clerks and carriers attached to postoffices are required by law to render service for eight hours daily and the Postmaster General sees no reason why the postmaster who is directing and whose compensation greatly exceeds that of any of the employees under him should not give at least an equivalent in time and effort. The postmaster is selected for the position which he holds because of his presumed su-

ST. JOHNS RIVER ADOPTED BY ORLANDO BOOSTERS

BOARD OF TRADE ENDORSES ST. JOHNS RIVER FOR CANAL ROUTE

Following the visit of the Sanford delegation to Orlando last week asking for an endorsement of the St. Johns river route in the event the government takes over the East Coast Canal, the committee named by the Board of Trade with authority to act, drafted and forwarded the following resolutions to Mr. E. T. Woodruff, chairman of the Sanford committee.

It is important that the integrity of the postal service be preserved since the general welfare of the people depends so much upon it. The personnel to whom the people must look for good service should therefore be of a high class.

In making new appointments to offices of the Presidential grades the Department will require hereafter in addition to the usual qualifications with respect to ability, character and business experience, an assurance from the appointee that his whole business time will be devoted to the duties of the office to which he is appointed.

LATE WAR NEWS SHOWS GAINS FOR THE ALLIES

FRENCH AND ENGLISH CAPTURE TRENCHES AND 20,000 PRISONERS

The tremendous struggle on the battle front in the west begun Saturday with the new offensive movement by the allies has resulted in more success for their arms.

Paris reported today that additional German positions have been occupied in the Champagne district, where in their initial drives, the French penetrated the German lines along a front of fifteen miles to a depth reaching in places as much as two and a half miles.

All the gains made in the Artois section, where Souchez was captured, and other advances scored, have been maintained, the French war office declares.

On the eastern front the Russians seem to be holding their own at most points, and doing even better in some sections. Their resistance around Dvinsk is apparently stronger while they are desperately battling with the Germans near Vitebsk and Smorgon. Petrograd reports new successes east of Novo Grodek and to the north of Vitebsk, with the taking of several hundred prisoners and some machine guns.

Little activity of a pronounced sort is reported from the Dardanelles. The Turks announce the success of a counter mining operation and the continuation of artillery exchanges.

Shell fire from German submarines sank the British steamer Natal transport, of 2,655 tons, south of Crete in the Mediterranean. Her crew was landed.

Twenty merchant vessels have been requisitioned by the Greek government for the transport of troops, of whom 400,000 are officially announced to have been called to the colors.

Rumania, in a note couched in friendly terms has asked the Soviet government for an explanation of Bulgaria's military preparations, according to information reaching Italy.

New York, Sept. 28.—The cable companies said that their lines are uninterrupted, but no war news has come from London. Apparently a strict censorship over all war news is being enforced today.

Washington, Sept. 28.—Austria has informally notified Ambassador Fenfield that the government will recall Dr. Dumba, the Austrian Ambassador to the United States, as requested by President Wilson.

BOARD OF TRADE ENDORSES ST. JOHNS RIVER FOR CANAL ROUTE

Whereas, It appears that citizens and public bodies, representing territory adjacent and tributary to proposed inland waterways in the eastern section of the state of Florida are suggesting to the Congressional board of engineers two routes looking toward government ownership of the better.

Whereas, The Orlando Board of Trade, representing a large territory, of which Orlando is the natural center, believing after due study and consideration of the two routes proposed, that for the reasons set forth in the general resolutions accompanying, which have brought to the notice of this board, and because it is apparent that the entire territory now being developed and populated in excess of all other similar area in the eastern southern and middle sections of the state, is that lying next to the St. Johns river, hereby presents a resolution, duly adopted in open meeting, as follows.

Resolved, That in the judgment of the Orlando Board of Trade, the proposed St. Johns river route, to a connecting point with the Indian river, both being natural waterways already established, is the route calculated to be of the greatest benefit to the largest area and of the greatest industrial value to by far the largest number of inhabitants.

Signed,
J. H. Reese, Chairman.
E. G. Hauselt, Sec pro tem.
Orlando, Fla., Sept. 23, 1915.

The committee was composed of Messrs. W. R. O'Neal, Jas. L. Giles, C. E. Howard and J. H. Reese. Mr. Giles secured many signatures to the petition which was addressed to the board of government engineers, and which was endorsed as an independent document aside from the resolution reproduced above.

Clarence Woods Here

Hon. Clarence Woods, editor of the Eustis Lake Region and the silver tongued orator of the Press Gang was in the city yesterday and was accompanied by one of the contractors who are putting down the sand asphalt roads in Lake county. They came over to discuss this evening with Seminole county people, but since our bonds call for brick roads, we have no alternative but take brick. Clarence Woods was made welcome nevertheless, for he has a host of friends in Sanford.

Commercial Club Friday Night

The Sanford Commercial Club will meet at the city hall next Friday night to consider the Seminole County Fair. All members and all who have the county interests at heart should be present. The county people especially are urged to attend the meeting in order that an expression of their ideas can be obtained.

Entertainment

The ladies of the Methodist church will give an entertainment next Friday evening, Oct. 1st, at the home of Mr. and Mrs. L. R. Phillips on Park avenue.

All who have mite boxes will please bring them, as the opening of the boxes will be one of the features of entertainment.

All members and friends of the church are cordially invited to attend. Those who may wish to make an offering to the mite box collections will have an opportunity to do so at this time.
Mrs. C. H. Smith, Secy.
