

REDS CONTINUE WINNING WAYS TO BEAT PHILS

Cincinnati Takes Six Out Of Last Seven Contests To Threaten The Leaders

NEW YORK, July 9.—(INS)—With six wins in their last seven starts the Cincinnati Reds are battling their way back into the thick of the National League pennant race.

After a slump in which they dropped four out of six games the Cardinals trounced Boston twice, 7 to 4 and 12 to 8, and are now 3-1-2 games ahead of the Giants, Alexander and Sherdel were the winning pitchers.

Brooklyn scorched the Cubs, 6 to 2, and squared the series. Jess Petty outpitched three Braves twirlers and Herman and Hartnett hit homers.

Miller Huggins, manager of the Yankees, is worried because his younger pitchers haven't been going any too well lately. Johnson, Campbell and Shealy took a merry pasting from the St. Louis Browns yesterday.

The Browns, who had dropped seven of their last eight games, scored two victories, 10 to 4 and 5 to 3. Crowder and Blueholder limited the New York sluggers to 12 hits between them the former chalking up his ninth straight victory.

Babe Ruth went hitless until his last time at bat, when he came through with homer No. 32. Four other home runs were made in the nightcap.

The White Sox, who are on a batting spree and have won six of their last nine games, slugged out 20 hits in swamping Washington, 13 to 7. The Sox tied the Nats for fifth place.

STANDING

SOUTHEASTERN LEAGUE: Jacksonville 3; Pensacola 4. Tampa 1; Montgomery 2. Only games played.

SOUTHERN ASSOCIATION: Mobile 14; Nashville 11. New Orleans 9-4; Chattanooga 7-5.

INTERNATIONAL LEAGUE: Montreal 7-6; Jersey City 8-5 (second game 7 innings). Rochester 3; Reading 8.

AMERICAN ASSOCIATION: Minneapolis 6-7; Columbus 0-1 (second game 7 innings). St. Paul 1-11; Toledo 0-1 (second game 7 innings).

VERSATILE BALL PLAYER: BLUEFIELD, W. Va., July 7.—(INS)—Bluefield has a schoolboy rival of Babe Ruth, Walter Johnson, Darry Vance and Ty Cobb combined.

Why was the question of Paddock's status re-opened after he had qualified on the case but, surely, this didn't arrive on Saturday night just as the selection committee was sitting down to its deliberations. Rubien said the American

Professionalism Charge Is Standing In Paddock's Way To Competition In Olympics

By Davis J. Walsh International News Service Sports Editor

NEW YORK, July 9.—(INS)—Charles W. Paddock, may be no longer the greatest sprinter in the world but certainly the most notable. He was due in New York today to face the necessity of proving himself innocent of a charge of which he previously had been held not guilty.

It will not be necessary for the registration committee to prove him guilty, according to Frederick W. Rubien, mouthpiece of the organization. All they ask of Paddock is that he prove himself innocent and, if you want the judgment of the average layman, the so-called "fastest human" simply lacked the necessary speed to keep up with the fast one the A. A. U. and the American Olympic committee put over on him.

This was the majority idea of the case, anyhow. The writer will content himself merely with the observation that legal presumption ever was that a man is innocent until proved guilty and that, in the case of murder, no man can be tried the second time on the same charge, only a few months ago, Paddock's future tour and moving picture activities, the cause of the present action, was passed along to the Southern Pacific Association of the A. A. U. for judgment, with the understanding that its decision would be final.

Why was the question of Paddock's status re-opened after he had qualified on the case but, surely, this didn't arrive on Saturday night just as the selection committee was sitting down to its deliberations. Rubien said the American

objections were entered when Paddock's name was brought before the committee. Where were those conscientious souls while Paddock was helping to draw 50,000 admissions at the Los Angeles trials and about 40,000 at Cambridge on Friday and Saturday. I'm afraid there can be little sympathy with a charge that is withheld until the show is over and the piper paid. If these objectors felt he was a professional, they must have reached a sudden decision. Otherwise, why did they let him play with the lilies, with the great chance of contaminating them, in the event that the officials' doubts were sustained.

Paddock was named in the team selections for the 200-metre event yesterday with the proviso that, if he hadn't proved his innocence by Wednesday, the sailing date, Ronald Locke would be taken along as alternate and the matter decided enroute. From what Rubien said, it was judged that if Paddock hadn't proved his innocence by July 19, Locke would start in his place; also if nothing of any sort developed in the meantime, Locke would get the nod. Heads they win, tails be losses.

His case will be passed upon by the national registration committee, 24 in number, with Daniel J. Ferris as its head. Ferris will interview Paddock today, ask him questions it is presumed, he already has answered and pass along the result by wire for the consideration of the committee in the 24 districts. A majority vote of 13 will decide the matter, either way.

Gene To Spar With Carolina Collegian

SPECULATOR, N. Y., July 9.—(INS)—Gene Tunney will spar today with Ad Warren, a graduate of the University of North Carolina and a former amateur champion, who looks so much like Tunney that he was mistaken for the heavyweight champion by several thousand fans who visited camp here yesterday.

With his battle with Tom Heeney, little more than two weeks distant, Tunney is speeding up his training. The program consisted only of road work yesterday.

Dempsey To Visit Heeney Camp Soon As Newspaper Man

One of the things Tex Rickard could use in his ballyhoo for the next battle of the century is an ace.

To date he hasn't been able to develop a real live one. Nobody is being paid, there are no mysterious strangers lurking about the training camps of Gene Tunney and Tom Heeney, the boys aren't mud at each other and there has been no effort made at goat getting.

Tex Rickard is expected here tomorrow to take a peek at Heeney. He will find the New Zealander in good shape physically and looking better in his boxing than he ever did for his Madison Square Garden fights.

It is rumored down here that Dempsey will drop in on Heeney in about 10 days in his capacity as a newspaper expert and that he may put on the gloves with Tom to get some first hand information about the New Zealander's boxing and punching. Rickard will hardly overlook that publicity splash. It isn't hard to foresee that Dempsey will proclaim that Tom is just the boy to relieve Gene of the title. That would provoke much argument and possibly carry much weight and if it was flattering to Heeney it might draw fire from the Tunney camp.

Night Boxing Will Be Tried By Heeney

FAIR HAVEN, N. J., July 9.—(INS)—After melting off nearly eight pounds for the edification of the largest crowd of cash customers yet to assemble here for a boxing matinee, Tom Heeney is convinced that the cool of the evening is the time for all good sparring partners to come to the aid of the challenger of Gene Tunney.

Accordingly, Charles Harvey has arranged to install a battery of 500-watt lamps under the canopy of Tom's outdoor ring, and night boxing will be inaugurated next Thursday. It will continue as long as the hot weather lasts.

JACKSONVILLE — Southern Packing Corporation to erect packing plant at intersection of King and Eastside Streets.

Gets Million—Buys Buick

When Mrs. Dorothy Smith of Peoria, Ill., inherited \$1,000,000 recently, the first purchase she made was this Buick brougham. "That's the car I've always wanted," she said. Mrs. Smith's husband is at left and C. S. Bunting, Buick dealer at Peoria, at right.

Sulton Of Swat Gets His 32nd Home Run

NEW YORK, July 9.—(INS)—Babe Ruth's 32nd homer of the season made against the St. Louis Browns yesterday, was a mighty swat. It went into the bleachers in front of the scoreboard in center field.

The wallop put the Bamino 19 games, 18 days and five home runs ahead of his record pace of last year. To break the record he needs 29 more in New York's remaining 78 games.

249 Athletes Will Represent America

NEW YORK, July 9.—(INS)—One hundred and thirty five athletes were added to the list of those who will sail for Amsterdam on Wednesday as members of the American Olympic team as the result of the final Olympic tryouts in track and field, rowing and wrestling over the past week end, according to officials of the American Olympic committee.

Counting only four major sporting events of the Olympic games, i. e., track and field, rowing, swimming and wrestling, this brings the total of American Athletes who will bear the shield of the United States in the ninth Olympiad to 249.

PUBLIC NOTICE: Any one buying or in any way acting to cloud title to Lots 1, 2, 6 and 7, Block 7, Tier 4 will be held liable by the owners, Anna and Richie Woodbridge.

Steve O'Neil Badly Injured In Accident

NEW YORK, July 9.—(INS)—Steve O'Neil, veteran catcher of the St. Louis Browns and formerly with the Indians, Red Sox and Yankees, is in a critical condition at a local hospital as a result of an automobile accident Friday night when the coupe in which O'Neil was riding collided with a truck.

O'Neil was hurled through the windshield of the car and was badly cut about the face and head. Twenty seven stitches were taken to close the wound.

Cleveland To Stage Trotting Meet Soon

CLEVELAND, July 9.—(INS)—Trotters from nearly every part of the United States are entered for the Rainy Day Sweepstakes at North Randall race track near here August 16, general manager A. C. Penneck announced.

Such well known owners as H. K. Devereaux, Cleveland; Calumet farms, James Snell and Ben F. White, Lexington, Ky.; Fox stock farms and Len McDonald, Indianapolis; Hanover Shoe Farm, Hanover, Pa.; Walter T. Casler, Atlanta, Ga.; David M. Look, New York City and Goodtime Stable, Goshen, N. Y., are represented in the entries.

The Goodtime Stable, trained by the veteran Walter R. Cox, leads the entries. UMATILLA—15 car watermelons recently shipped from Atlanta, Pittman and this place.

Alabama Man For Assumed Name Of Daughter

JASPER, Ala., July 9.—After being ejected from a hotel at Carbon Hill, Ala., where he alleged to have attempted to register under the name of "West," Ruby McCarty, 19-year-old girl went to Kansas, where she was allowed to register at a hotel under the name of West.

As a result of this registration under another girl's name, McCarty is recuperating in a hospital administered by West's father, Velma H. West, Cedron, Ala., and J. G. West, also of Cedron. West is a superintendent. West, according to reports, police officers here following arrest, became engaged to a man named McCarty, who had attempted to register at a hotel using his daughter's name. Together with Terrence went to Kansas, where he and Ruth McCarty had gone there, the girl claimed, she was threatened her with a gun while the other beat her.

TALLAHASSEE—Third lion dollars worth of hotel, restaurant buildings were destroyed in Florida during May.

ORLANDO—\$40,000 worth of Christian Church destroyed at southeast corner of wood Avenue and Catharine.

PENSACOLA—Frisco trains running over newly completed railway into this city.

NOTICE OF APPLICANTS: STATE OF FLORIDA, DEPARTMENT OF REVENUE, TAX DEED UNDER THE PROVISIONS OF THE GENERAL STATUTES OF THE STATE OF FLORIDA. Notice is hereby given that the State of Florida, Department of Revenue, Tax Certificate No. 111, issued on the day of June A. D. 1928, and said certificate in my name has made application for the same in accordance with the provisions of the said certificate and is now pending in the office of the State Auditor, Tallahassee, Florida. The said land being described as follows: Section 34, Township 31 North, Range 12 West, 1st Meridian, 1st 1/2 Sec. 34, T. 31 N., R. 12 W., 1st Meridian, 1st 1/2 Sec. 34, T. 31 N., R. 12 W., 1st Meridian. The date of the issuance of the certificate in the name of the applicant is the 25th day of August, A. D. 1928. WITNESS my official hand and seal this 25th day of August, A. D. 1928. J. H. HARRIS, STATE AUDITOR.

ANNOUNCING THE NEW LOCATION OF THE HILL HARDWARE COMPANY

We wish to announce to our friends and patrons the purchase of the building formerly occupied by the Ball Hardware Company on First Street. This building will give us considerably more floor space and will enable us to render a higher degree of service.

Interior remodeling is being pushed as fast as possible and we expect to move in our new building within a very short time. If possible, we will carry a more complete stock and if the volume of business is what we anticipate, prices will be lower.

We wish to thank those whose support and patronage has made the growth of this concern an outstanding achievement and to assure the public that in our new location we will endeavor to give even greater service than in the past.

HILL HARDWARE CO

The Sanford Herald
Published every afternoon except
Sundays and holidays
111 Broadway Avenue
Sanford, Florida

THE BEGINNING OF TOMORROW
The fear of the Lord is the
beginning of wisdom; and the
knowledge of the Holy One is
understanding. Prov. 9:10.

Old news still remarkable
As we have remarked before,
the trouble about buying the
harlot is that it is apt to be
found in one's head.

The City Commission has prom-
ised a reduction for next year,
and rightly have cut operating
expenses to the bone.

Almost anyone will admit that a
good newspaper is an asset to the
community, and they are likely to
contend quite as strongly that a
bad newspaper is worse than an
epidemic.

Frank Harris, for more than
sixty years editor of the Ocala
Banner, has retired, surrendering
his pen to his younger and more
vigilant successor.

Looking north on Magnolia
Avenue recently we saw the lake
from that vantage point for the
first time. Workmen for the J.
C. Paine Store, had knocked a
hole in the building, and the scene
spread out on the other side was
almost beautiful.

Shortly after the bank failure
last year we suggested to the
City Commissioners that the City
Attorney be removed, but we
did not expect them to set up
their own. Since then the
indebtedness of the City of San-
ford has been increased from
\$140,000 to \$621,000 without a
single vote of the people. We
are consequently more convinced
than ever that the best interests
of Sanford will never be served
so long as George DeLoach re-
mains at the head.

We wish Edward DeLoach of The
Sanford Herald would get out in
his backyard and shoot the gas-
trich which occasionally puts a
print on the Herald's first editorial
column, which is one of the joys
of our life to read. We wish the
blinks build up the tympanum
sheet or change ends on a roller.

Listen, Uncle Ben, I wouldn't
do a bit of good to turn them
rubber stamps over. Father and
I've showed off at both ends. We
ought to get some new ones
but they've been the family
so long, we just hate to make
a change. Like old books, old
papers and old wives' tales,
old folks, even when they fall
to rest for us.

Mussolini Goes Up
Widespread concern has been manifested lately
throughout Italy over Premier Mussolini's newest defiance
of danger. Consistent with his usual disregard for his
personal safety, Il Duce has taken up flying and has again
demonstrated that he is willing to set the example of
Fascist doctrine of "dangerous living." Some years ago
the dictator of Italy thrilled his people with his courage
at lion training and by unusual feats in horse-
manship. All the world has marvelled on occasions when
he has outdone his assassins' bullets.

Preventing Fires
We do not have many fires in Sanford. Possibly it's
because we have so many vacant stores and houses that
little burning ones, then would not be worth the trouble
of putting out. It is because Sanford simply won't warm
up over anything short of a political campaign. Any-
way, for the sake of those who travel, we will reproduce
rules for fire prevention prepared by Fire Chief Scott
of Los Angeles.

1. Remove all dry grass and weeds from around barns,
garages, fences, etc. Never build lean-to on windy days,
2. Burn all oily rags. Do not leave them lying around,
as there is danger of spontaneous combustion fire.
3. Remove and dispose of all rubbish and other waste
material from the premises.
4. Provide yourself with an approved type of incinerator.
That is the only safe way to burn rubbish and other
waste materials.

5. Chimneys should be cleaned and examined once each
year, especially in using coal or briquettes. Many fires
each year are caused by defective chimneys and
sparks flying on shingle roofs.
6. Do not use gasoline to clean garments or gloves in
the house. Do that kind of work in the open air away
from the fire.

7. Keep an approved fire extinguisher in the house
for emergency use. It is better to be safe than sorry.
8. Do not use flexible gas hose to connect gas heaters
or stoves. Use solid pipe connections.
9. Cooperate with the fire department by making
your building safe against fire; by removing the cause of
the fire.

10. Keep in mind the location of the nearest fire-
alarm box and memorize the telephone number of the fire
department.

We don't put much stock in this bank about Sir Her-
bert Hoover, or in the frequently heard assertions that
he will put niggers in charge of Southern post offices, but
we do believe in Democratic principles, and that Florida
will receive more recognition from the national government
with Al Smith in the White House than with any Republi-
can there.

One Florida newspaper, the Palmetto News, has an-
nounced it will support the ticket headed by Herbert
Hoover. Another one, the Winter Haven Chief, seems to be
leaning that way but has not gone the full distance yet—
Ocala Star. The Apopka Chief seems to have made up its
mind not to accept Smith.

AN UNFALTERING DEMOCRAT
TAMPA TRIBUNE
We wish and hope that each and
every Democratic newspaper edi-
tor in Florida may take the
patriotic and loyal position which
has been taken by John Temple
Gibson, Editor of the Jacksonville Jour-
nal, with respect to the nominees
of an overwhelming majority of the
Houston convention as the
standard bearers of the Democra-
tic party.

Mr. Graves was opposed to Al-
fred R. Smith and voted that ap-
position in an uncertain tone. He
supported the candidate for dele-
gate who were opposed to Smith.
With the nomination made, he con-
tinues a staunch and uncompro-
mising Democrat. In his readable
columns in the Journal, after com-
plimenting the Florida delegates
for voting as they were instructed
to vote, for trying to bring about
a view of bringing this state into
the Republican column.

RECORD CELERY CROP
HEADQUARTERS
Mango, celery, etc., ship-
ment set a record during the past
season of 1,071 carloads against
1,044 shipped in 1934, totaling
approximately \$1,750,000 to the
growers, based on an average of
\$1,600 per car on an 11.5 ton basis.
That is news worth broad-
casting to the four corners of the
country. It is big news to the north-
ern market, as well as the north-
western farmer because one who
progress the wonderful Manatee
celery means a larger production
while the other is impressed
with the wonderful fertility of
the soil and an opportunity of
making not only a living but a
chance to put away funds for
the future.

Work On 1929-30 Budget Gets Under Way With Aim Of Avoiding Any Deficits

WASHINGTON, July 10.—(INS)—Fixing an objective of "no deficit" for the fiscal years of 1929 and 1930, the annual job of preparation of the government's new budget, which goes to congress in December, was started today.

Preliminary estimates of the various departments rest in the hands of budget director H. M. Lord by July 15, and the final estimates, sometime in September. Hearings on the items of expenditure will be started when the final estimates are submitted.

Present estimates of \$2,801,000,000 expenditures and \$3,707,000,000 receipts for 1929 indicate the possibility of a deficit on the basis of the budget for the current year which was adopted by congress last December. However, treasury department and budget bureau officials are hopeful that there will be an increase in receipts as the result of better business conditions and that extreme economy may cut governmental costs.

The estimated receipts are \$335,000,000 less than in the year which ended June 30. For the 1928 fiscal year the 1928 revenue act will cut receipts probably \$180,000,000, and for 1930 slightly over \$200,000,000, certain reductions not being effective for the entire current year. In addition to this reduction—repayments from the railroads probably will drop over \$100,000,000, there will be some reduction in back taxes and a heavy drop in the sale of surplus war materials.

For 1929 the estimated government cost is \$34,000,000 greater than in 1928. These costs in-

clude the postal deficit. Tax refunds, and \$450,000,000 for extraordinary permanent improvements. Cost of maintaining the veterans of the world was estimated at \$750,000,000.

In beginning the survey of the 1929 situation, the government is confining with another slight drop in revenue as the result of the expense effectiveness of the 1928 revenue act. This may be offset by increased receipts owing to better business conditions, but that hopes will not be counted on in preparing the budget. The bank tax collection will also show a further decrease.

For these reasons, and recognizing that national growth will require a greater government overhead, the budget bureau has warned the government department chiefs of the unusual necessity of strict economy to keep the budget balanced.

General Lord set an objective of a \$15,000,000 public debt in three years, which with the debt \$17,604,000,000 June 30, means an annual reduction of \$868,000,000 up to 1931. The debt cut in the year ending June 30 was over \$900,000,000 into which went a \$398,328,000 surplus. At the best the surplus will be small during the next two years, and it appears doubtful that the contemplated debt cut can be accomplished.

Chances for a tax reduction at the December congress appears remote. There may be some revision of administrative features of the law, but farther than that little hope is held out by the budget bureau or the treasury for a cut in rates.

Clearing House Plan Is Adopted By Citrus Group

(Continued from page 1.)

board of directors, the shippers' joint objection to the clearing house plan has been removed, and consequently they are expected to join the association.

The formal announcement by the board of directors follows: "At a meeting of the board of directors in Winter Haven, Florida, on the ninth day of July, 1928, and within 10 days following July 1, 1928, the entire board being present except C. O. Anderson, careful consideration was given to the volume of citrus fruit covered by agreements with the Florida Citrus Growers Clearing House Association by reference to the 1927-28 Florida citrus crop. It is provided in the contracts of growers and shippers with the Florida Citrus Growers Clearing House Association; and after careful consideration of reports thereon, provide for the association in charge of the work of keeping records of the volume of citrus fruit covered by the Florida Citrus Growers Clearing House Association, on the date aforesaid, did find that by reference to the 1927-28 Florida citrus crop, more than 90 percent of the volume of Florida citrus fruit is covered by agreements with the association as is provided in growers and shippers contracts with the Florida Citrus Growers Clearing House Association; and that said contracts therefore are all valid and binding.

The board ordered the above finding spread upon the records of the association and instructed the president and secretary to cause such finding to be announced in newspapers circulating in the citrus fruit belt of Florida. Signed, Allen E. Walker, president, and F. M. O'Byrne, secretary, of the Florida Citrus Growers Clearing House Association.

DeCottes Attacks Herald And Asserts Editor Leaving City

(Continued from page one)

to specify the interest rate in multiples of one fourth per cent, and not to exceed 6 per cent, and also may enter split rate bids. The city reserves the right to sell only \$345,000 of the bonds, but in such case the successful bidder will be permitted to name the maturities, provided they range from Jan. 1, 1931 to Jan. 1, 1937.

The editorial comment about which Mr. DeCottes was questioning was the only one in Saturday's paper which referred to either the City Commission or the bond sale.

Mr. DeCottes opened the meeting for the Commissioners by reading the single bid on the \$425,000 worth of refunding bonds which was submitted by Farnon, Son and Company, of New York. The other Commissioners received it without comment.

Then Mr. DeCottes did some figuring, and F. S. Lanson, City Clerk, made some computations. For a few minutes the Commissioners discussed the possibility of changing the interest rate from six per cent to five and one half per cent.

There was also some talk about selling part of the issue at the 90 bid. The Commission considered selling \$225,000.

"If you let the whole thing go," suggested Mr. DeCottes, "that's that much solved."

Frank P. Forster, president of

the First National Bank, asked if the City obligations held by him were included in the issue to be sold.

"No," Mr. DeCottes told him, "they are in the \$182,000 (the \$182,000 rate not yet sold).

With little discussion, the Commission adopted Mr. DeCottes' suggestion and the bonds were awarded to Farnon, Son and Company for \$408,000. The sale increased the City's bonded indebtedness to \$6,818,000 as compared to \$5,560,000 less than one year ago. The Commissioners reserved the right, in accepting the bid, to withhold \$200,000 worth of bonds if they chose to "meet" certain individual obligations "in bonds" instead of in cash. Mr. DeCottes advised it was perfectly legal to withhold that amount of the issue.

Mr. DeCottes further advised the Commission to accept the offer of the First National Bank and Sanford Atlantic National Bank to pay three per cent interest on time deposits instead of the four per cent specified by the City charter. The City Attorney told them that would be "all right."

Mr. DeCottes formally requested the Commission to have an automatic stop light placed at the corner of Park Avenue and Twentieth Streets where the City Attorneys' home is located and where an accident occurred yesterday morning. He said cars went by there 40 miles an hour, without exaggeration.

The Commission, acting on Mr. DeCottes' suggestion, ordered Chief of Police Roy G. Williams to get prices on stop lights from other towns "in worse shape than

Sanford."

Mr. DeCottes then dictated a letter to the Board of County Commissioners asking them to make immediate payment of one-half of the road and bridge fund collected inside the city limits. Mr. DeCottes said if the County refuses to pay, mandamus proceedings under the state law can be instituted against it.

A letter from F. A. Safay, state board of health officer advising the Commission to cover the city water reservoir was read. City Manager George H. Cairns suggested that he go to St. Augustine and inspect the reservoir cover which has just been installed there and find the cost of installation.

Mr. DeCottes advised the Commission it would be legal to comply with a request for use of the city dock at the foot of Oak Street made by F. S. Allen, representative of a new Sanford-Jacksonville boat line. Mr. Allen's letter requested permission to use and improve the dock for a period of two years.

The Commission authorized the purchase of \$15,000 worth of City bonds for the sinking fund. The 15 bonds included 12 six per cent refunding bonds and three five and one half per cent utility bonds. The refunding bonds were purchased at par and the utility bonds at 95 1/2.

campaigns.

"An organized effort is in progress in several southern states to defeat the national Democratic ticket, and while the force and volume of this movement is not yet known, I am of the opinion that sound policy should prompt our party managers to meet this opposition decisively and promptly."

The Arkansas Senator did not specify "the organized effort" that is prompting the defeatist movement, but it was apparent that he had reference to the radical dry and anti-Catholic rebellion against Smith. The first leaders of this movement at present are Bishop James Cannon, Jr., of the Methodist Church, and A. J. Barton of Georgia, one of the leaders of the Anti-Saloon League.

The attitude of the vice presidential nominee is that this may be only a blaze now, but that if unchecked and ignored by the new ruling powers of the party, which are distinctly northern and damp, it may develop into a prairie fire before November.

TILSON IS NAMED

Hurt In Renewal Of Gang War

NEW YORK, July 10.—Brooklyn's gang warfare again last night, the toll, dead and two wounded.

Police expressed the opinion that, however, that far were Porto Rican gangsters and had no known connection and gang.

The murderers, five were shot from a fast moving car and mowed down the street with deadly accuracy. Shots were fired and one man was killed.

Police believe the five were involved in a feud of the recent assassination of Frankie Yale, former Brooklyn's underworld boss, who has been imported here in a green sedan.

The dead were Tallan, 22, and Florentino Sandoz, wounded at Roubie La in a serious condition and in the left jaw, and 18, who was shot in the der.

Compass Is Only Guide For Italians Through Hours Of Flying In Total Darkness

RIO DE JANEIRO, BRAZIL, July 6.—(INS)—Capt Arturo Ferrarin and Major Carlo del Prete, record breaking Italian airman, flew for hours through pitch darkness with only their compass to guide them on their flight from Rome to Brazil, according to Ferrarin's first interview, telegraphed here from Tours.

It was at Tours the Italians landed after being off near natal last night.

"The flight went splendidly during the first half," said Ferrarin. "After darkness fell it was pitch dark and for hours we flew with only our compass to guide us over the Atlantic. Shortly after daybreak yesterday we ran into bad weather. As we approached the Brazilian coast we flew for hours through a storm at low altitude. We encountered stiff headwinds but fought our way through them. We heard radio stations calling but could not reply.

Ferrarin revealed that the wheels of the plane's landing gear were broken in landing. He con-

tinued: "After riding for a long time through the storm, we sighted land. Then we knew that we had fulfilled our mission—that we had reached the American continent. After reaching the beach at natal we turned northward in search of a better landing place. We flew out over the water at a low altitude until we saw the beach at Tours. There we decided to come down. But owing to the heavy weight of the machine, the wheels were broken by the sharp contact with the ground.

"I am afraid we cannot continue to Rio in our plane because it may be impossible to obtain spare parts here of the same kind we would need to repair the machine."

A dispatch from Natal said that the Italian airman had been taken on board the Brazilian seaplane "Lactoneo" at Tours to fly to Natal. This telegram added that the aviators might decide to fly from Natal to this city in another plane.

It is further ordered that this notice be published once a week for four consecutive weeks in the Sanford Herald a newspaper published at Sanford, Seminole County, Florida.

INFORMATION ON WEATHER GIVEN PACIFIC AIR LINE

Guggenheim Plans Weather Service For Coast Planes In Cooperation With Other Companies After Long Study

NEW YORK, July 9.—(INS)—Installation on the Los Angeles-San Francisco airway of a complete aeronautical weather-reporting service was announced today by Harry F. Guggenheim, President of The Daniel Guggenheim Fund for the Promotion of Aeronautics. The undertaking is sponsored by the Fund for the year ending June 30, 1929 in cooperation with the Department of Commerce, the Weather Bureau and the Pacific Telephone and Telegraph Company.

Cost of the weather reporting system, installation and operation during the period will be borne chiefly by the Guggenheim Fund. The route between Los Angeles and San Francisco was selected for this demonstration chiefly due to the fact that regular passenger service is maintained over it by three air transport companies, as well as an air mail service, and both the Army and Navy will carry on extensive air operations at various places along or near the route. The service is not confined to this regular operation, however, but is available to every aviator flying over the area between the two cities.

Twenty-two observation stations are to report to the two terminals at Los Angeles and San Francisco, constituting a network of observation points stretching from the Pacific to the Sierras along the entire route.

After Long Study For several months intensive studies have been carried on as to the possibility of such service, and recently plans were fully considered at a meeting held in Washington by the Air Coordination Committee, consisting of F. Truhee Davison, Assistant Secretary of War, Edward P. Warner, Assistant Secretary of the Navy for Aeronautics and Wm. P. MacCubbin, Jr., Assistant Secretary of Commerce for Aeronautics, with William M. Jardine, Secretary of Agriculture, Harry F. Guggenheim, President of the Daniel Guggenheim Fund and Dr. J. C. Hunsaker, representing the Pacific Telephone and Telegraph Co. The Air Coordination Committee is unanimous in endorsing the recommendation that this experimental service be undertaken, as it was felt it would be not only of the utmost importance to commercial aeronautics, but also to the Army and Navy aircraft operations.

One Third Of Gate For Tunney Battle Is Already On Hand

NEW YORK, July 3.—Practically one third of the "gate" that Tex Rickard must draw with the Tunney-Heeny fight to cover expenses is covered either by cash on hand or orders that await approval and billing.

This advance, estimated at close to \$300,000, deals mostly in ringside seats at \$40 each, including the state and federal taxes amount to 30 per cent. There was a brisk demand for medium priced locations when the public sale opened yesterday at the Garden. Rickard says he has received many block orders from railroads which will sell directly to passengers as was done in the middle west last fall for the Tunney-Dempsey spectacle. He declares the receipts will reach well over \$1,000,000.

In admitting that it would cost him approximately \$700,000 to promote the fight Rickard would not say that Tunney and Heeny were receiving flat guarantees but he made no comment when interviewers put down \$500,000 for the champion and \$100,000 for Heeny.

Other expenses brought the total up to \$705,000 but from this Tex subtracted \$22,000, as income from the moving pictures. To draw \$700,000 net, Rickard must do a gross of more than \$900,000.

(Legal Notices)

Notice is hereby given that the annual stockholders meeting of the Sanford-Citrus Truck Co., Inc. will be held at the Court House on Thursday evening, August 2nd, 1928 at 8 o'clock. Dues are to be paid and a full attendance of all officers and other business will be transacted. A full attendance is desired.

T. F. ADAMS, President.

Attest: R. A. CORB, Secretary.

City Commission Refunds State Road Debt Twice

DO NOT MAKE THE Mistake Of Buying A Farm Before First Seeing ALCONA FARMS

W. M. Young's 1860 acre development on the St. Johns River, 25 minute drive from Sanford Post Office.

Two big drainage canals run through this tract giving perfect drainage.

The railroad crosses it with station only one mile away and a siding is promised on land itself.

Two good public roads run through it.

It is in the flowing well district with fine wells now on the 100 acres already in cultivation.

The soil is a rich, dark, sandy loam, with clay subsoil. Produced this year, 65 barrels of potatoes in the acre, a bumper crop of cucumbers, said to be the finest that went out of Florida this season and selling up to 35 per hamper and it has now growing on a part of it, what everyone who has seen it says is the best field of corn anywhere around Sanford.

It will grow anything that can be raised in the Sanford district including celery, and being virgin land, will likely be free for years from the insect pests and diseases that give so much trouble on old land.

It is mostly prairie, ready for the plow and I can offer farms, large or small, on easy terms and at prices that are but a fraction of what it costs only to clear up other lands now selling around Sanford.
