Dedication ceremonies for Lyman High School's new quarter-of-a-million dollar Bistline Gymnasium took place Tuesday night at the Longwood school honoring recently-retired Seminole County School Board member J. A. Bistline.

Lyman High School Principal Ralph Diggs presented Bistline with an engraved plaque from the students and faculty of the school in appreciation of his 19 years with the school board. The event took place between the Lyman-Oviedo basketball games in the new gymnasium. Chairman Roy F. Mann of the School Board read a resolution naming the new gymnasium and commending Bistline for his long service to the county, both as a School Board member and outstanding resident of Longwood.

In his acceptance speech Bistline thanked the school board, Supt. of Schools R. T. Milwee, and the students and faculty in his appreciation of the honor. He apologized for

the length of time taken in the gym's construction and thanked the residents of the community for their patience. Present for the ceremony were School Board Vice Chairman W. A. Patrick; School Board members John Brumley, I. E. Jordan, and Jim Birkenmeyer. Also present were members of the Board of Trustees Ray Slaton, Chairman; Don Bales; and Fred Bistline.

#### Longwood Asks Light Survey

The Longwood City Council, meeting last Thursday night, authorized a request to the Florida Power Co. for a light survey to be made in the town. Numerous street lights have been reported out of order, some for months, the council reported.

A report from the Civil Defense auditor on Hurricane Donna Funds commended Longwood and advised that the city's records were among the best in the county. After a public hearing on tax assessments for Orange Ave. paving, Town Clerk Mrs. Onnie R. Rockett was requested to send out the bills as soon as possible. Cash payment may be made within 30 days from date of the bill or payment can be made in 10 annual installments.

The city agreed to open a portion of Lakewood Ave. to give Orville Waltham access to a future home and voted to get price estimates from several dealers before buying a new filing cabinet for the City Hall. One thousand feet of two-inch galvanized water pipe was purchased from Southern Pipe and Supply Co. of Orlando at a cost of 43 cents per foot and the price of \$137.50 was accepted from the Food Machinery and Chemical Corp., John Bean Division, of Orlando for two 75 feet lengths of 800 pound test hose complete with fittings for the fire department.

# Death Certificate Law Planned

## Would Spell Out Authority For Doctors

State Rep. Mack Cleveland Jr., said Thursday night that "lack of cooperation" was the blame for reported disharmony between doctors and law enforcement officers. He called for "better communications" between the two groups at a two-hour session set up to discuss proposed legislation governing the signing of death certificates in the county.

Cleveland said he would give serious consideration to introducing a special act patterned after Orange County that only doctors can sign death certificates but until "we get this act and the County Commission studies all the ramifications, some simple ground rules could be worked out between the medical examiners and peace justices to avoid any hassle," Cleveland urged.

The meeting was called by the County Commission after the Board of medical examiners threatened to resign because "their job was useless," according to Dr. Edward Stoner.

Attending the meeting were various peace justices, County Prosecutor Karlisle Houma-holler, County Judge Vernon Mize, Sheriff J. L. Hobby, Chief Deputy Jim Singletary, Sen. Bernard Parrish, doctors Vincent Roberts, Leonard Munson, Stoner, the commission, and State's Attorney Arthur Stead.

Dr. Munson briefly discussed the reason for the "discontent" of the examiners and touched on a case of a Negro who died recently and a doctor who refused to sign the death certificate because he had been "puzzled" as to the cause of death.

The woman was buried with a temporary death certificate signed by a peace justice. Stead answered the doctors regarding any foul play in the case with these words: "No one suggested any criminal act and until this office feels an autopsy is necessary, we would be violating our oath if we ordered one."

County Judge Vernon Mize, backed up the doctors saying that a special act is needed giving the doctors authority. He said that on some occasions when he was called out to act as coroner, he "felt foolish putting my name on a death certificate."

Cleveland emphasized that a change of laws would not necessarily solve anything unless there was better cooperation between the different agencies.

Doctors felt that they should have charge of bodies and have the authority to call for an autopsy if one were needed.

The doctors, led by Roberts, contended that the examiners had never charged a fee for their services and would not call an autopsy "every time, but only when we felt it was a necessity."

"All you have to do is show me the basis for any autopsy and we'll order it," Stead fired back.

"Give me a basis if there is suspicion of foul play and you can be sure we'll call for one," he said.

Roberts said "we are not trying to push this down anyone's throat but we want to be treated with respect, and we have our word taken." Roberts said the major criticism was not directed at any law enforcement officer but at the system. "There is no conflict of interests between us and law enforcement officers, we just want to be called before the body is moved."

County Commission Chairman J. C. Hutchison after two hours said he felt something had been accomplished to "clear the air" and hoped the examining board would set up some "ground rules" which could be discussed again. Hutchison also said he would ask Orange County officials for their special act so "we and the legislative delegation can study it."

# Citizens' Shots Nip Bank Holdup

ACCOCHEEK, Md. (UPI)—Two grim men rode in to rob the bank at Accokeek Thursday. They wound up face down in the dust under the guns of the irate citizenry.

The only considerable departure from the usual script was that the men charged with the robbery were, by profession, used car salesmen, and rode in cars instead of on horses.

They walked into the bank while two telephone repairmen, Richard L. Knowles, 24, and Howard McClanahan, 22, were cashing their paychecks. As the two repairmen walked out, they saw one of the strangers slip a gun out of his pocket.

Knowles dashed next door to Robert Perrygo's hardware store and McClanahan leaped into their truck to block the robber's exit with it.

Perrygo slammed a brace of shells into a double-barreled shotgun and tossed it to Knowles. Knowles sprinted out the back door in time to spot the two men riding off in a car.

He let fly with both barrels. The charge ripped away two windows of the car and wounded the driver. The car crashed into the truck that McClanahan had driven into its path.

Both holdup men leaped out of the car, and one of them heaved a pillow case full of money into a trash can as he raced off.

But then Perrygo dashed up with another shotgun and a pistol and the two subjects flopped to the ground without a word.

Police identified them as Carroll Hall, 23, and William Dodson, 23, both of Warrenton, Va. They said the pillow case held \$10,500 in cash. Carlton Dodson, a first cousin of William, was arrested later, police said. Hall suffered a minor shoulder wound.

JIM CHAPMAN

# Offices Opened In Sanford By Architect

James Graham Chapman announces the opening of his office at 101 First W. Street, for the practice of architecture and allied arts.

Chapman was formerly a partner in the firm of Burton and Chapman, Architects and before coming to Sanford, he was located in Winter Park.

While in the firm of Burton and Chapman, he designed Hear Lake Elementary School, the new Junior High School at Casselberry, Alex of Sanford, the Bank of Melbourne and supervised, to a large extent, the drawings for the new Sanford Memorial Hospital addition and the new Hopper Academy.

Chapman also designed the exterior of the Sanford Herald Building and was the architect for the renovations of the old Florida State Bank Building, now known as the First Street West 101 Building.

A graduate of Georgia Institute of Technology, he received bachelor of science and bachelor of architecture degrees. He is a member of the Junior Chamber of Commerce, and belongs to Rolling Hills Country Club at Sandhills Springs.

Current projects include the residence of Mr. and Mrs. George C. Hardin; a model for a residence in Thibodaux, La.; renderings of the Penacola Junior College Liberal Arts Bldg.; a small residence in Riviera Beach; an office building in Suffolk, Va., and a bank in Hixton, Ala.

State Department officials expressed cautious gratification over the return to power of the ruling council of state. The council had been ousted Tuesday night by a predominantly military junta headed by Gen. Pedro Rodriguez Echavarría.

The State Department Wednesday strongly condemned the Rodriguez coup and hinted it would withhold recognition, cancel planned economic aid and possibly revoke the recent lifting of sanctions against the Dominican Republic.

U. S. officials hesitated, in such a turbulent nation, to label the counter coup a final victory.

# Former Welk Violinist Killed

BESEDA, Calif. (UPI)—Concert violinist Richard Lowell (Dick) Kesner, 49, was killed Thursday when his car careened out of control into a group of workmen before crashing into a water and power truck.

Kesner, former first violinist for the Lawrence Welk orchestra, left the Welk organization to go on a concert tour. He also played with the San Francisco Symphony.

Officers said Kesner may have suffered a heart attack. James H. Kennedy, 56, one of the workmen also died in the accident. Two other workmen were injured.

# Industrial Park Gets Zone Okay

The City Zoning and Planning Board Thursday night gave the green light for construction of a 19 acre industrial park south of W. First St. west of Persimmon Ave.

Developer of the proposed park, J. P. Bartlett of Sunstrand Company said that work on the area would start as soon as the four-laning of W. First St. was completed.

The park would include 21 lots and already has been platted.

The board agreed to rezoning the area from R-2 to M-1. In other business the board approved rezoning French Ave. from 24th St. north to 22nd St. from the proposed R-1A zoning to C-1.

The board also approved final revisions to the zoning ordinance scheduled for a public hearing before the City Commission Monday night.

Two members of the firm of Reynolds, Smith and Hill testified as the defense opened its case Thursday, and more were expected to be called today. Circuit Judge P. B. Revels turned down a defense motion for a directed verdict of acquittal.

Firm partners Ivan H. Smith and Walter Schultz both said they felt the company provided adequate "general supervision" on construction of three Volusia junior-senior high schools designed by the company. This is what the contract called for, they testified.

The men are accused of receiving \$24,150 from the county for inspection and supervision on the projects, but failing to provide adequate services.

Earl Higginbotham emphasized again Thursday that the city will override the zoning and planning board's decision to rezone French Ave. and First St. "It will be commercial all the way."

Let's not blame the zoning board. . . It was just following George Simons' plan for the city.

County Attorney Harold Johnson finally received his name plate. One wonders what old attorneys do with theirs?

Joe Baker says he'll present plans for an industrial park on the lakefront next month. It will start off on a small scale.

The Jaycee drive for new members is really picking up steam. Seven more this week brings the total to 17. Last year during a three-week period only 21 new members could be recruited.

We noted two state engineers literally climbing the walls of the courthouse, checking the facility for a federal fallout shelter.

The Chamber could not have picked a better man than Doug Stenstrom to head up this long-range planning committee. Now if he can only get some help from John G. Public. . . we're with you Doug!

Bids on the new Alix of Sanford Building will be opened Feb. 9.

Work has started on the Del-Mar Cabinet Company building on County Club Rd. It should be completed in 90 days.

The Clerk's office has started moving some of the older record files downstairs in the courthouse to utilize more space for the more up-to-date records, Arthur Beckwith says.

We hear that North Orlando has just about exhausted all its usable land for development.

The directors of the Sanford Seminole Development Company appointed Roy Mann as treasurer to fill the unexpired term of Bob Bauman. W. A. Patrick will fill the unexpired term as director.

The city is looking for clay pit sites. Acute shortage, says City Manager Knowles.

The new 43-bed wing at Seminole Memorial Hospital will be ready for occupancy in July.

That master drainage plan for Seminole County isn't as dead as some people like to believe. Thanks to Jim Avery it is a much revived corpse.

How can we talk about new industry, or even Nova, without a drainage plan for the county?

Let's hope the County Commission will vote next Tuesday to participate with five other counties in obtaining a survey in conjunction with the Nova moon project. . . It's worth \$4,000.

After listening to our local Perry Masons and Doctor Killdare for almost two hours touch lightly on autopsies and deaths Thursday night it sure was a pleasure to go home and watch "The Untouchables."

Attorneys are among the best news sources to reporters but I sure wish they would get some up-to-date magazines in their offices. Lashed through one this morning that had blaring headlines such as: "Will Truman Run Again?" and "How Long Has Batista Got In Cuba?"

# School Heads Get Some 'Home Work'

BATON ROUGE, La. (UPI)—President Felton G. Clark closed all-Negro Southern University Thursday because he said student demonstrations against segregation disrupted studies and campus life.

State School Supt. Thomas D. Bailey gave county school superintendents meeting here some important ideas to mull over Thursday in their considerations of the future of Florida's financially-pinched education system.

Bailey made the opening address to the two-day conference of county school superintendents. He said something has to be done soon, and he made these major suggestions.

—Broadening the tax base for financing schools in one of three ways: Removal of the \$5,000 homestead exemption for school purposes only; allowing taxation of only the first \$1,000 of a homestead for school purposes; and realistic revaluation of property to put more of it on tax rolls.

—A constitutional amendment to allow any county to decide by referendum to appoint rather than elect its school superintendent. Three counties already have this power and 15 others will vote on special amendments providing for it in the fall election.

Bailey said that, with school enrollment booming, the state will have to choose soon between increasing local school revenue through broadening the tax base, increasing state taxation, or seeking federal help with school financing.

The 1961 Legislature turned down the 25 per cent freeze on county contributions to the minimum foundation program. The program is based on a complex formula under which county contributions to schools costs have fluctuated in recent years from 18.51 per cent to 27.37 per cent in the current school year.

But the Legislature asked the Governor's Committee on Quality Education to study the whole matter of school financing and make a recommendation in 1963.

This is the opinion of Martin M. Nelson, an attorney representing one of the country's big pinball makers, the Hally Manufacturing Co. of Chicago.

# Red Version Of Brooklyn Bridge Sale

BUDAPEST, Hungary (UPI)—The sharpies in New York try to sell yokels the Brooklyn bridge. In Naples, the favorite gimmick of the shills is a Swiss-made watch that falls apart when you wind it up. On the Navajo trail, redskins peddle genuine

Indian blankets made in Japan. But Ballist Zimanyi could hold his head high with the rest of the tricksters in this turbulent world of ours. He managed to earn a living for 13 years by selling the Communist counterfeit propaganda.

The official party newspaper Nepszabadas said Thursday that Zimanyi counterfeited propaganda and then sold it to factories throughout Hungary.

The newspaper said Zimanyi told police when he was arrested that he designed his own posters and wall pla-

cards with Communist slogans and mailed them to various state enterprises a cash-on-delivery packages. He would bill the recipients between 50 cents and \$1.10 for each item.

"Nine out of ten of them accepted my packages without question and paid up," Zimanyi was quoted as saying.

The newspaper said Zimanyi's creations often did not follow current party propaganda campaigns "but were full of very official language and socialist phrasing."

# Nominations Open To Public

Nominations are still open for the names of young men between the ages 21 to 35 years old who qualify for the Distinguished Service Award to be presented by the Jaycees at their annual banquet January 27th, Jaycee President Garnett White announced today.

Nomination forms are available at Jaycee headquarters in the Information Building at 4th and French.

His exceptional achievements and contributions to his chosen field or to an organization of the community, state or nation should be listed and described.

Honors and awards which the nominee has received must be listed. The reasons this man should be selected to receive the award also must be listed.

Last year the award was presented to City Commissioner Tom MacDonald for his contributions to civic and community life.

WEST PALM BEACH, Fla. (UPI)—Investigators ordered here by the governor dug into Palm Beach County's vice of gambling charges and violence today in search of the assassins of a deputy sheriff apparently marked for murder before he testified at a racketeering probe.

Former County Sheriff John Kirk Sr. was free, meanwhile, of charges he conspired to permit gambling and accept bribes while in office in 1954. He was acquitted Thursday by a six-man jury.

Gov. Farris Bryant ordered his investigators into the county following the wounding before dawn Thursday of Deputy Sheriff Ed Barnett, 36. Barnett was hit in the right arm by one of three shots fired at him as he drove up to keep an appointment in an isolated spot west of the city.

Barnett, married and the father of two children, was due to go home from the hospital today.

Man of man, whenever I doubt of life I think of Thee. So wrote George Matheson in his blindness. Whenever you and I doubt either God or man, we would do well to think of Jesus. His cross is a symbol of what God is and what we may become. The proud Roman at the foot of the cross said, "This man was the son of God." Jesus was supremely a man of faith. He had great faith in both God and man. We have faith in God largely because we must have Him. We are not sufficient unto ourselves. Do you have faith? Life becomes a radiant thing for people of faith, since they see so much deeper into the secrets of life. The universe opens its heart to eyes of faith; closed doors swing ajar when faithful steps approach; loving spirits smile their welcome to trustworthy souls; latent powers blossom in the presence of fidelity; young children and wise old age give themselves with abandon to those who offer confidence. God waits to share His blessings on men who can be trusted. Of the Pilgrims of yesterday, guided by the Divine, it was said, "They were men of faith and very sure of God." Are you sure of God?

# Every Life Plays Role

One of the most amazing things about our lives is the degree of influence that each of us has. I read recently of a man who had instructed his wife to tell telephone callers, who called at inconvenient times, that he was not at home. The father was brought to a new realization of his influence when he overheard a telephone conversation of his little son who was talking to another boy. It was not difficult to understand what his son was trying to do when he heard him say, "No, you can't come over to play with me because I am not at home."

The key responsibility faces us when we realize that we must make a choice as to how we are going to bring our influence to our fellowman. One must recognize that he cannot be a nonentity. He will influence people for good or evil. Which shall it be for you and for me?

One of the most destructive philosophies is that we do not count for much as individuals and therefore we won't try. It is true that few can sit in the seats of the mighty and wield great power with the utterance of a few words. There are a limited number of places at "the top," but the important thing to realize is that the greatest amount of influence is not brought to bear from the one placed at the top but lies in the hands of the millions upon millions who must be content with a lesser but extremely important place.

The one place that most of us find an important opportunity for good influence is the home. It is a conceded fact that the home is an unparalleled force for good or evil. By far the majority of people receive their deepest convictions at home. We should ask ourselves, "What kind of a home is mine?" Is it one that can be presented to Christ of which we will not be ashamed? Is it one in which the spiritual is placed first? Do we reflect our love for God by our lives as well as our words?

Let us not forget that there are other realms of human activity within which we find ourselves entwined, and therefore wield an influence one way or the other.

In our daily work are we striving to do that which is good or bad? In spite of all that you do the way you make a living will have one of these two effects. Can people look at your work and find it compatible with a Christian confession on Sunday. The Christian faith can in nowise be interpreted, from the Bible, as being good for only one day a week. If our faith cannot extend into our work, then it can't be the Christian faith. The Christian is to do all that he does to the glory of God and that includes work. Occasionally someone will confess the difficulty that he finds in retaining his honesty in face of pressures that are dishonest or deceitful. There are times when the cross can become heavy, however, not so much that the loyal man of God will not be able to bear it.

In ones social life, what kind of influence is there? We have reason to believe that Jesus enjoyed the company of good friends. He visited in the homes of people He loved and they seemed to be very comfortable with Him. There are many times when we can envision

Him smiling about some incident or a generally good and happy situation of life, yet we know that His was always an influence for good. Of course ours will not always be for good anymore than we will be able to reach the perfection of Christ in other areas of life, yet He is our example and we are to strive valiantly to follow in His steps as much as possible.

The scrutinizing non-believer is watching us Christians! Finally we are faced with the question, "What kind of a sermon is my life preaching?"

## Lake Mary Catholics Plan Lecture Series

The Lake Mary Catholic Church of Nativity has invited all interested persons to attend a weekly lecture series which it will sponsor for an hour between 7:30 p. m. and 8:30 p. m. beginning on Jan. 30 at the Lake Mary Chamber of Commerce Hall.

William Trainor.

"The challenge of the church today is that of atheistic socialism which denies any concept of God or a supreme being. The net results of such discussions as we plan would be that more is learned about the church and members would be in a better position to share this knowledge with others," he pointed out.

# Pity The Postmen

The U. S. Post Office Department has selected a prosaic solution to a touchy problem. The problem is that dogs bite letter carriers—frequently and painfully. After 1957, a year in which more than 6,000 carriers were assaulted by canines, the department began warning the dogs' owners to keep the mutts shut up. But this didn't work out too well. The warnings were sent by mail, which meant the postman had to run the gauntlet a second time before he could expect any action.

So it was decided to change the department's policy on dogs. And the American public, hearing of this, decided to suggest a few solutions. One man, who said he didn't hate dogs, suggested that the mailmen be given baseball bat-shaped walking canes, along with "permission to remove the offending dog's head right out from between his ears..." An-

other thinking citizen produced dog-bite-proof pants made of aluminum. A third suggested that each letter carrier carry a cat, and "when the dog attacks, turn the cat loose and while the dog is chasing the cat, the mailman can get his work done."

The department chose none of these suggestions. Under its new policy, which became effective on Jan. 13, if your dog bites a postman you will be informed (by telephone) that if you want your mail you'll have to come to the post office and pick it up.

This is, we reckon, the wisest solution. But in a way, we're a mite disappointed. We were beginning to look forward to seeing the monthly bills delivered by a knight in aluminum armor, a baseball bat in one hand, a cat under one arm and a ladder strapped to his back to be used in getting the cat back from the nearest tree.

## Dr. Crane's

### Worry Clinic

Alma wonders what the lower figure indicates in her blood pressure reading. Millions of you readers are also puzzled so scrapbook this vital case. And be sure to send for the booklet below, since it may save your own life some day. What you do in the first five minutes after a heart attack can often tip the scales!

CASE L-47: Alma D., aged 42, is worried.

"Dr. Crane," she began, "I

have high blood pressure. My doctor tells me it is 164/90. "Although I am a college graduate, I must confess complete ignorance about what those figures mean. "So could you enlighten me and probably millions of your other newspaper readers, too?"

164/90

The top figure in your blood pressure reading reveals what is called the systolic pressure. That indicates the force with which your heart expels

blood at the very moment of contraction.

And that 164 refers to 164 millimeters of mercury pressure.

The lower figure of 90 in Alma's case is the diastolic pressure.

This is the force required to keep the blood flowing BETWEEN heart beats.

In other words, when the heart is not contracting, your blood still flows! Do you know why?

"Dr. Crane," a lot of scientists have asked me, "how can the blood continue to flow when the pump (heart) is idle?"

Well, the artery walls are somewhat elastic so they enlarge like a rubber balloon when the heart contracts.

Then, while the heart is idle, the contraction of that stretched rubber-like artery wall maintains a steady pressure that keeps the blood flowing.

#### HOW REST YOUR HEART

The top figure in your blood pressure is subject to emotional change, so we medicate often discount it.

When a patient comes in for the first time to have his blood pressure taken, she is apprehensive and jittery, like a novice who is to make his first speech in public.

This stage fright raises the blood pressure. Sometimes it really zooms.

An Army Colonel thus consulted me because his blood pressure was 135 when taken by a civilian doctor. But when ever a medic in military garb took it, the pressure reading was 220, due purely to nervous tension!

As a result, we medicate often rely more on the diastolic or lower figure, since it is a truer index of the hardening of your blood vessels and possible damage in the kidneys.

Blood pressure tends to drop when you sit down. And it falls even more when you lie down.

**HEART VACATIONS**  
Be sure you have a footstool or hassock in front of your easy chair, for that is a boon to your heart.

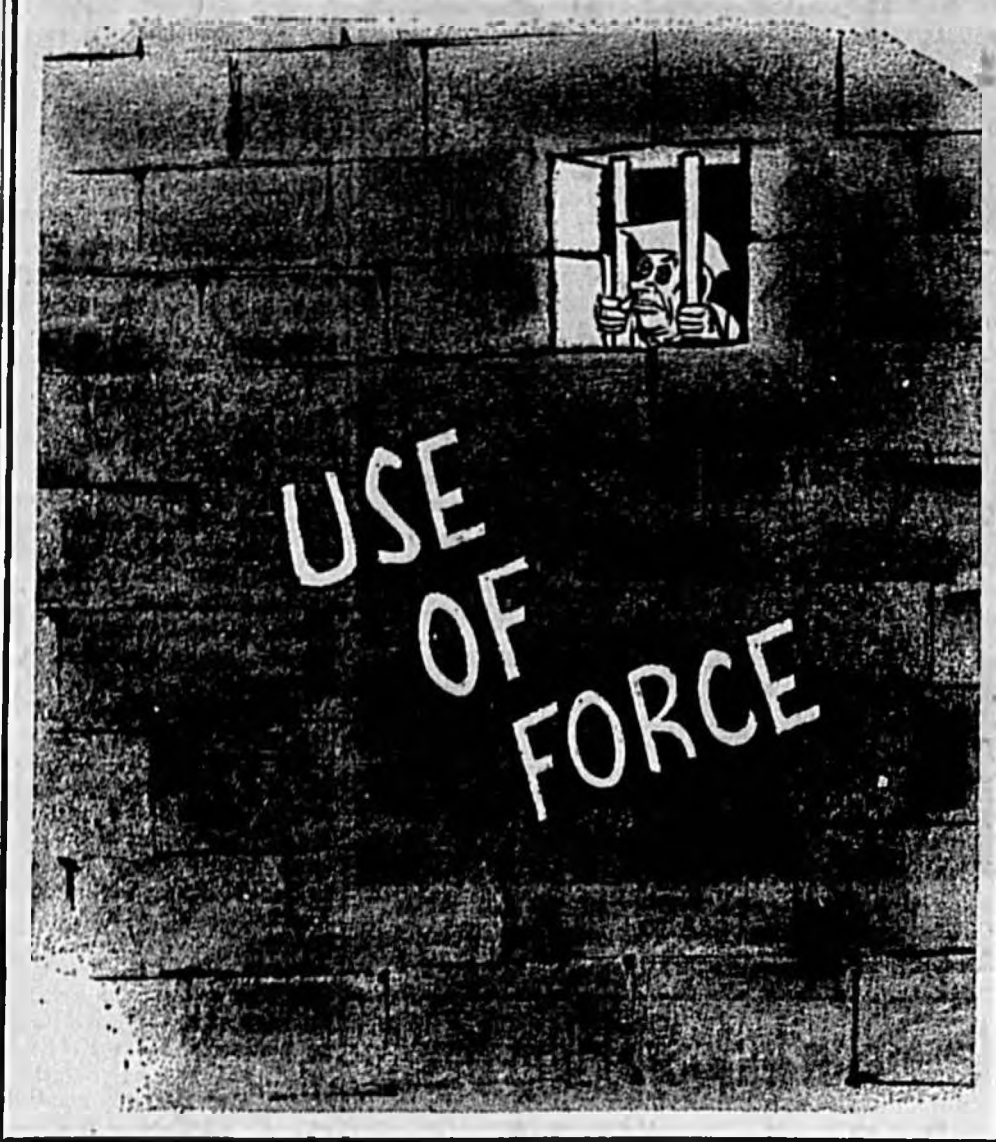

For example, if you sit down, with feet on the floor, your total height is about four feet.

But when you place your feet on a hassock, that cuts down your vertical height to about three feet. Thus the heart gets a rest for it doesn't have to pump your blood as far, up and down.

Your heart is the motor of your entire human machine, so give it a break!  
Avoid obesity, tobacco and liquor, all of which overwork your heart and thus wear it out sooner.

Send for my Booklet "How to Save your Life if all Alone During a Heart Attack," enclosing a stamped return envelope, plus 30 cents. (Always write to Dr. Crane in care of this newspaper, enclosing a long four cent stamped, addressed envelope and 30 cents to cover typing and printing costs when you send for one of his booklets.)

## The Man Who Broke Into Jail

### Dick West Says:

## Let's Charge 'Em All

WASHINGTON (UPI) — Credit for the best federal money-raising idea of the new congressional session goes to Rep. Hugh L. Carey, a Democrat of Brooklyn.

Actually, Carey didn't think up the idea. I did. But it was Carey who planted the seed of inspiration, so I will give him the credit.

Carey announced Wednesday that he would introduce legislation to abolish the fees presently being charged for riding the elevators to the tops of the Statue of Liberty and the Washington Monument.

He said the 10-cent fee levied at the monument and

the nickel fee imposed at the statue "detracts from the dignity of these structures and in a miserly way penalizes those taxpayers who demonstrate their patriotism and interest in our nation's history by visiting these sites."

Citing his qualifications to speak on this subject, Carey noted that he is "one of that select number of representatives in Congress who have actually climbed the 888 steps in the Washington Monument."

"In my opinion, that is a hard way to save a dime. But it demonstrates how a person can be patriotic and frugal at the same time."

"If mere use of an elevator is sufficient reason for exacting a fee at the Washington Monument and the Statue of Liberty," Carey continued, "I fear that agency personnel, government executives and legislators, including myself, will be in a perilous situation based upon the number of government elevator rides we take every year in public buildings."

Without meaning to, Carey has pointed to a way that the government can balance the budget and cut taxes all at one swoop.

I mean, what could be more fair and equitable than to reverse the bill and broaden it to require that a fee be paid for riding all government elevators?

For that matter, the measure also could be amended to include the Senate's subway cars, which now give free rides.

This would put an end to the system under which the general taxpayer subsidizes the ascent and descent of that select number who enjoy this service gratis.

I feel certain the administration would endorse such legislation because it fits in so well with President Kennedy's physical fitness program.

Those who did not choose to pay could, as in the case of Carey at the monument, take the stairs.

In offering this plan to the government, I ask only one thing in return. Just let me have the bunion pad concession.

## To The Editor

Citizens of the Town of Casselberry:

As mayor of the second largest town in Seminole County, I wish to clarify the confusion which no doubt exists in the minds of many of you, and many other residents living in Seminole County; confusion resulting from a request for a variance in our zoning ordinance, the request for a variance having been made at the January 8th meeting of our Board of Aldermen.

Our Zoning ordinance clearly sets forth the necessary approach which one must pursue when seeking a variance. However, it does not always follow that, a request, even when properly presented to the Zoning Board results in favorable action. The records will show however, that on several occasions the Zoning Board has granted a petitioner the redress sought when, in the majority opinion the request was deemed to be in the best interests of the town, the area concerned and the rights of all individuals.

I have reference to a specific variance requested to apply to a property on Hwy. 17-92, the request being for a tax stand, used car lot and maintenance repair garage in an area heretofore and originally zoned for home-connected light industries, offices, and other types of business coming within the definitions declared in Ordinance No. 42.

Several such businesses, occupations and professions are established in the area concerned, some of them having been in existence prior to the adoption of our zoning ordinance.

In regard to a decision rendered by the Zoning Board, a petitioner is not bound to accept this decision as final. Any petitioner has the right then, under our ordinance to seek redress from the board of adjustment, which also is our Board of Aldermen. In the case in point the petitioner first made his request of the Board of Aldermen, despite two warnings from the town attorney that he may be prejudicing his case and advised him to first go to the Zoning Board.

Later contact with members of the Zoning Board resulted in an unfavorable decision by unanimous vote. Like any other rapidly growing community decisions have to be

made which in many instances will not be acceptable to a minority.

We welcome helpful suggestions and constructive criticism and even tolerate unfavorable and unkind words. We are not inflexible. Our elective and appointed town officials have proven their opinions and decisions by the continued progress our town has made. It is my hope and desire that under my administration a similar progress is forthcoming.

To all of the residents of our town I again say that each of you will be heard whenever you have something to convey that may be helpful to our community, and to any person desiring to locate in our town, to promote a new business enterprise if that be his desire, let's begin our relationship at the proper place. By following the simple rules of procedure we will not only build friendship and lay the foundation for better human relations and continued growth for our Town and our County.

Very truly yours,  
Town of Casselberry  
Carl C. Stoddard,  
Mayor.

### Political Notebook

WASHINGTON —(NEA) — What's left of the old China Lobby and its successor organizations like the John Birch Society and the rump American Committee to Aid Katanga Freedom Fighters may have themselves another ball-or-baw-over Kennedy policy on Laos, which is a continuation of Eisenhower policy.

The administration is now committed to establishment of a neutralist government in Laos. This means a coalition in which pro-Western elements under Premier Prince Boun Oum, pro-Communist under Prince Souvanna Phouma and the self-styled neutralist-conservative followers of Prince Souvanna Phouma will all be represented.

There has already been considerable Washington rumbling over the idea. Republican leaders such as Sen. Everett M. Dirksen of Illinois have been protesting ever since last June against negotiations with Russia, Red China and other powers at Geneva to establish a neutral Laos.

Criticism has centered on two main points:

First, that any agreement with Russia or any other Communist state or faction will not be kept and is worthless. The argument is advanced that every coalition government including Communists has eventually ended in a take-over, as in Poland, Czechoslovakia or where you will.

Second, that Prince Souvanna Phouma is not a neutralist, but a Communist sympathizer and collaborator with closer ties to Moscow and Peking than to the West.

The present State Department position is exactly opposite, denying and contradicting both of those charges. It is now maintained that Souvanna Phouma is a sincere neutralist who speaks for a large element of his peace-loving people in wanting only an independent Laos, completely isolated from cold as well as hot wars.

As for agreements with Communists being worthless, the point is now made that the Russians themselves definitely want a neutralist government in Laos.

This has been the official Red line ever since the 16-power party on Laos opened in Geneva last May. Both Foreign Minister Andrei Gromyko and Russia's chief delegate to Geneva, Georgi Puschkin, have emphasized this in conference, though it has not been lived up to by Russian actions in Laos.

Anyway, what the Russians have said on Laos is given full credence by the U.S. chief delegate to Geneva, Ambassador Averell Harriman, now assistant secretary of state.

Why the Russians have taken this position is not known. One reason speculated on is that Russia wants to block Chinese Communist expansion into Southeast Asia. Kennedy administration critics and the anti-Communist crusaders in particular main-

tain that the Russian position is just another dirty Red trick. If the United States falls for it disaster is predicted, with Laos going down the Communist drain to follow North Viet Nam.

Here is another situation made to order for extremists who have made such an issue of supporting Katanga President Moise Tshombe against the United Nations.

On the Laos issue, their support is given to Premier Boun Oum and his pro-Western minister of defense, Gen. Phoumi Nosavan, bucking coalition every step of the way.

Assistant Secretary Harriman's position in this situation is unique. No one in the United States has a longer record of straight-thinking opposition to communism and Russia. Yet today he is advocating an agreement with Russia on establishment of a neutral, independent Laos.

This is in accord with President Kennedy's instructions to him to find a peaceful solution for Southeast Asia. About opposition from the John Birchers, he isn't after their votes.

The theory behind the present proposed solution is that the United States has already poured \$375 million in aid to

An average of 108 pounds of dirt makes its way into a typical six-room house in the course of a year, a study by pipe cleaners has found. The dirt is blown in or tracked in for the most part, and a good 80 per cent of it eventually settles on floors and rugs.

One-third of U. S. gas and oil reserves come from the 1,000-odd oil fields of the Gulf Coast.

Laos without producing the desired results.

So it's time to try something new.

The alternative to what is proposed is said to be all-out war against the Communists in Southeast Asia and Red China, with the United States doing most if not all of the fighting, at no telling what costs in money and American lives.

# Seminoles Clash With Lakeview On Home Court

## Game Set For Tonight

Bud Laver's Seminole will be heading for their seventh win today at 8 p.m. as the Sanford cagers play hosts to Charles Miller's Lakeview Red Devils in a game that could give the Seminole their second Orange Belt Conference win of the season.

The Seminole are back in action with most of the players on the road to recovery from flu attacks. Butch Riser and Mike Woodruff both will be on the court tonight. Bubba Davis will miss the game because of a sprained ankle.

The Sanford players are heading for their tenth cage action of the season tonight with a (8-3) overall record and a (3-1) record in the Orange Belt Conference.

Barry Brown and Ken Gustavson are the only two players on the Sanford squad who have played in each of the last nine games. Illness has plagued the team for the past few weeks and has cut down on performance, but at the same time has given players other than the first string a chance to hold leading roles in the games.

Here is a statistical roundup on the Sanford cagers as a result of a nine game record:

### Youth Paces Golf Tourneys

SAN DIEGO, Calif. (UPI)—In the game of golf, youth must be served—at least on the 1961 winter tour.

Tommy Jacobs, 26, defeated Johnny Pott, 26, Sunday for the championship of the \$25,000 San Diego Open.

Jacobs dropped in an 11-foot birdie putt on the first playoff hole to beat Pott after the two had tied after 72 holes with seven-under-par 277s. Jacobs fired a 65 in Sunday's final round—six under par—and Pott carded a 69.

Last Monday, 23-year-old Phil Rodgers won the rich Los Angeles Open. In both events the young fellows trounced such established stars as Arnold Palmer, Gary Player, Cary Middlecoff, Doug Ford and others, including many members of the British and U. S. Ryder Cup teams.

The victory here for Jacobs went to a young man who needed the money, Jacobs officially won only \$7,000 on the tour last year. He picked up \$3,500 for this event—which made him also eligible for a minimum prize of \$1,000 in the tournament of Champions in May.

### Unitas 'Tough' In The Clutch

LOS ANGELES (UPI)—Quarterback Johnny Unitas of the Baltimore Colts is a tough man to beat—he proved it again Sunday when he tossed a touchdown pass in the last few seconds to give the West a 31-30 victory over the East in the 12th annual Pro Bowl.

Unitas went into an adagio dance to escape the clutches of the East's Andy Robustelli of the New York Giants. He tossed a low pass cross-field to Jon Arnett of the Los Angeles Rams who was all alone in the end zone. The 12-yard touchdown pass played tied the score at 30-30 and Detroit's Jim Martin supplied the winning point with a conversion kick.

The scoreboard clock showed 14:08 gone in the fourth quarter—two seconds to play. Up to the line Unitas threw his cliff-hanger pass that looked like Cleveland fullback Jim Brown was going to be a hero for the East. But he turned out to be a goat of sorts.

Brown galloped 70 yards to a touchdown in the fourth quarter—before Unitas' caper—and the East went ahead, 30-24, on Philadelphia Bobby Walsaton's conversion kick.

A few minutes later Brown fumbled and the West's Bill George of the Chicago Bears recovered the ball on the East 41-yard line to set up the last-minute heroics by Unitas.

As it turned out, the East would have been assured of at least a tie if the West's Henry Jordan of Green Bay and Dirk (Night Train) Lane of Detroit had not blocked Walsaton's conversion attempt in the third quarter.

This was the eighth victory for the West in the Pro Bowl against four for the East and the third in a row for the Western Conference of the National Football League.

### Pain Gets Pay Raise

MILWAUKEE (UPI)—Warren Spahn, 40 years old and the greatest left-handed pitcher in baseball, got a raise when he signed his 1962 contract with the Milwaukee Braves, but very few of his teammates can look for the same treatment.

President John McHale of the Braves, whose club finished fourth in the National League last season for its worst showing since moving here from Boston, in 1953, confirmed today his Milwaukee players will be paid "only what they have earned."

### Roberts Takes Salary Cut

NEW YORK (UPI)—Robin Roberts accepted his second straight salary cut rather philosophically today and said he has given "no thought at all" to what he will do if he fails to make the grade with the New York Yankees.

The 35-year-old Roberts, who slipped all the way back to a 1-10 record with the Philadelphia Phillies last season after having been one of the National League's outstanding pitchers,

## Benefit Game

Faculty basketball teams from Sanford's Senior High and Junior High will meet Saturday night at 7:30 p.m. in a March of Dimes benefit basketball game in Bill Fleming Gymnasium for what is predicted to be one of the biggest spectator-drawing cage attractions of the year.

Cheerleaders for the game will also be faculty members from both schools. In addition the Seminole High Majorettes are planning a halftime show.

Coch for the Seminole High Faculty Fred R. Ganas has worked his cagers out in several practice sessions for the big event. From all present indications, the High School cagers will see as their scoring ace, Carlton (Hot Rod)

## Pirates Sign Two Pitchers

PITTSBURGH (UPI)—The Pittsburgh Pirates today announced the signing of two young right-handed pitchers and named a former Buc catcher as playing manager of their class C farm club at Kingston, N. C., in the Carolina League.

The pitchers signed were Tom Parsons, 22, of Lakeville, Conn., and Tom Sisk, 19, of Long Beach, Calif.

Parsons was booted with a sore pitching arm in 1961 and posted a 4-3 record with Columbus of the International League.

Sisk divided his season with Asheville, N. C., in the class A Sally League, where his record was 12-5, and Columbus, where he won two of three decisions.

Named at Kingston was Harding Peterson, 22, whose big league career was cut short by a serious arm injury while he was with Pittsburgh in 1955.

Peterson, of Forda, N. J., became a player manager at Wilcox, N. C., in 1959, and played and managed at Burlington, Iowa, in 1960 and 1961.

## Jofre Promises To Defend Title

SAO PAULO, Brazil (UPI)—Brazil's undefeated Eder Jofre, new undisputed world bantamweight champion, assured the angry manager of Ireland's beaten Johnny Caldwell today he would gladly defend against Caldwell within 90 days at London.

Jofre, weighing 117½ pounds to Caldwell's 118, floored Johnny twice Thursday night and won a technical knockout at 2:10 of the 10th round, when manager Sammy Docherty threw in the towel to save the bleeding and half-blinded Belfast gamster from punishment.

Each boxer owned a portion of the crown when he went into the ring.

Docherty today charged that the record-breaking South American boxing crowd of more than 20,000 at the indoor Ibirapuera Stadium had been "outrageous" in its treatment of Caldwell.

"The crowd's tremendous booing and whistling at Johnny contributed greatly to his defeat," declared the late Jofre. "I'm not saying that Jofre wasn't the better man last night—but he wasn't that much better, and it'll be a different story at London."

Jofre, 25, scored his 38th victory in 41 bouts that included three draws. He also registered his 12th straight knockout and the 82nd k.o. of his career.

Caldwell, 28, suffered his first defeat after 23 straight wins as a professional.

Their contract calls for a return bout at London within 90 days.

Jofre went into the ring as a 2-1 favorite to defend the North and South American version of the 118-pound world title. Caldwell was recognized as world champion by the European Boxing Union.

Turkeys were rolled by Lou Gellner, Donna Jasper, Fran Mackey, and Lil Ogden.

## Rodgers, Congdon Pace Am-Golf Play

PEBBLE BEACH, Calif. (UPI)—The second crack at the gold that Bing Crosby dispenses gets underway today when 163 professionals and their very-amateur partners tee off in the second round of the \$50,000 national pro-amateur golf tournament.

The leaders in the pro division are Phil Rodgers, 23; Joe Campbell, 26; and a youngster named Chuck Congdon, who is older than the other two put together—32.

They posted individual pro scores of 67s Thursday.

The leader in the pro-amateur division is a team composed of young Bob McCallister, Yorba Linda, Calif., and not-so young Albie Pearson, the diminutive outfielder of the Los Angeles Angels. They had a best-ball of 69-13 under par. And little Albie helped his partner 14 strokes to get this.

Crosby annually puts up the cash for this event, with \$25,000 cut up among the individual pros; and another \$15,000 for the pros who can get the most help from their amateur partners.

Some of the help doesn't amount to much. Or else the comedians distract the pros so much that very little gets accomplished. Arnold Palmer and Gary Player, rated the two best golfers in the world, were dubs Thursday. Palmer, paired with comedian Phil Harris, had a 78 and Phil helped him to a best-ball of 69. Player, tied up with Tennessee Ernie Ford, had a whopping 79, and they had a best-ball of 78. But they did have a lot of laughs.

This foursome went the round at Cypress Point and they attracted about half of the record-breaking first-day gallery of 18,000 in crisp, sunny weather.

Tied at 68, one stroke off the pace, came former National Open champion Billy Casper, Apple Valley, Calif.; Jacky Cupit, Longview, Tex.; Mason Rudolph, Clarksville, Tenn., and unknown Harry Umbinetti, a club pro from North Bend, Wash.

## Jets Fold Up In Cage Loop

LOS ANGELES (UPI)—Losses at the gate—possibly \$200,000—and illness were blamed today for the death of the Los Angeles basketball Jets.

Disclosure that the Jets were withdrawing from the fledgling American Basketball League came Thursday after three days of meetings between ABL officials and team representatives. The departure of the Jets left the ABL with seven teams.

The competition from a variety of sports, including the currently red-hot Los Angeles Lakers of the National Basketball Association, was admitted a factor in the Jets' failure.

## Aging Gussie Lee In Main Event

Beloved but aging Gussie Lee, Carl Tracy's veteran trophy collector, has climbed back to main event competition after wins in Grades C and B, and a fast break tonight might set her to the wire ahead of the pack in the featured tenth race of an 11-event program.

Gussie, who will be five years old in April, has had seven starts here and won two of them. She took a Grade C race with ten lengths to spare, leading from box to wire. In Grade B she started slower but won with a length and a half to spare.

Two youngsters appear to be formidable opponents for Gussie tonight. They are Tom Sweeney's Mrs. Mops and Paul Boone's Jeff Mac.

Mrs. Mops, who leaves her box like a bullet, started the season by taking three straight in Grades C, B and A. Then she trailed the pack after a very rough trip.

Jeff Mac only won his maiden race Dec. 10, but three other victories have boosted him to main event competition.

Any one of the five other starters are capable of pulling a surprise. They are Rock Tray, Sky Ruby, Stormy Rocket, Sunshine Lil, and Carefree Way.

Betty Drummond rolled a 218 for high game of the week. Other high games were rolled by Doris Cooke with a 200; Nancy Tremper with a 180; Mary Jane Gorton with a 178; Dot Holbrook with a 176; Martha Kinnard with a 171 and Katherine Dyson with a 170.

Kinnard rolled the high series with a 480.

## CVF Gives Mission Program

The Christian Women's Fellowship of the First Christian Church met in the Church Sanctuary for the January business and program meeting.

Guest speaker for the evening was Mrs. Rhodes Thompson Jr., whose husband is pastor of the First Christian Church of Daytona Beach. Mrs. Thompson chose as her subject, "Missions and Stewardship."

She presented many interesting views on mission giving. Since coming to Daytona Beach their church has adopted the policy of giving an equal amount to missions and for local use.

The worship service was led by Miss Flo Bishop, assisted by Mrs. W. H. Young. Circle one reported that a mission project and Circle two is selling paring knives to add to their scholarship fund.

Mrs. Mildred Rolf of DeBary won the recent CVF newsletter name contest with the entry "Church Belles." She will receive a prize one year's subscription to World Call magazine.

Hostesses Mrs. J. L. Horton Sr., and Mrs. Marvin Rohlf, served refreshments to those attending. Others present were Mrs. V. H. Grantham, W. P. Yesley, J. N. Barnett, Blanche Kuhn, Frances Jobs, Rev. and Mrs. Thompson and Rev. J. N. Barnett.

J. W. Knight, O. D. Landress, Bart Henson Jr., H. K. Ring, J. L. Horton Jr., Bea Murray, Blanche Kuhn, Frances Jobs, Rev. and Mrs. Thompson and Rev. J. N. Barnett.

## Garden Circles

**CAMELLIA CIRCLE**  
The Camellia Circle met at the Home Demonstration Center on 25th Street for the January meeting. A workshop was conducted by Mrs. J. D. Callahan on making artificial grapes.

Co-hostesses were Mrs. James L. Anderson, Mrs. David Thrasher and Mrs. Charles Lansing. During the business session, it was announced that Mrs. Fred Ganas will conduct an artificial design workshop at the February meeting. Members were reminded to make their reservations for the general luncheon, Feb. 12, at the Mayfair Hotel.

Members taking part in the grape workshop brought household wax, wire, crayons, green floral tape, cutting pliers, medicated powder, a tin can (larger than a tuna can) and artificial geranium leaves.

The wax was heated to 250 degrees and divided among the members, who rolled it into the shape of grapes. Next a piece of wire covered with the floral tape, was inserted in each grape. After they were dried on clothes hangers they were dipped in one of the cans for coloring. In these cans the coloring had been prepared by melting one half cake of wax with two crayons of the color desired. They were dried this time by inserting the wires in styrofoam.

Finally the individual grapes were made into clusters with two geranium leaves and two curls, made from covered wire wrapped around a pencil, and dusted with the powder.

The finished product was very authentic looking and the group was very enthusiastic about the project. They were also very grateful for the work of Mrs. Callahan in helping them learn the useful art.

At the close of the meeting the hostesses served refreshments of cup cakes, nuts and coffee to those present.

**MIMOSA CIRCLE**  
Mimosa Circle members met at the home of Mrs. Walter Schwarz in DeBary for the January session. Upon arrival coffee and cookies were served to the group by hostesses, Mrs. Schwarz, Mrs. Frank Cortis and Mrs. C. Hittell.

Vice president, Miss Kay Henninger, presided and requested reports from the committee: Mrs. B. F. McWhorter told how well the circle was doing with assistance to a needy family.

A vote of thanks was given to Mrs. C. L. Wallis for her write up of the Garden Gate for January. Several pairs of gloves were purchased from Mrs. Don Smith for one of the fund raising projects. Mrs. Schwarz entertained the group by showing color slides made while she was on

a European tour. Others present were Mrs. R. L. Cluennol, Mrs. C. B. Cleveland, Mrs. Gerald Behrens, Mrs. Herbert Behrens, Mrs. H. Lederhaus, Mrs. Roy Partin, Mrs. Walter Price, Mrs. Howard Rice, Mrs. Alice Robbio, Mrs. Mary Swankhouse, Mrs. W. S. Willis, Mrs. John Shoppiough and Marie Askew.

**JACARANDA CIRCLE**  
The January meeting of the Jacaranda Circle was held at the home of Mrs. R. E. Peurifoy on Elm Ave. Circle president, Mrs. Irving Pryor, conducted the business session and committee chairmen made their reports. Mrs. Pryor also conducted a workshop on Valentine and St. Patrick's Day corsage making.

Following the program, members were served punch, cake, nuts and mints. Co-hostesses were Mrs. W. B. Brinson, Mrs. T. R. Butts and Mrs. L. B. Steele.

**NOT B-A-A-A-D**  
Those new shaggy shearing lambskin slippers are catching on. They're warm and they come in lovely colors. Practical mothers are dressing their littlest children in corduroy this winter. It is one of the easiest fabrics to wash. The Christmas rose is not a rose at all, but belongs to the buttercup family - nevertheless it will flower on warmer days in the middle of winter.

## Couple Enjoys Vacation In The Bahamas

Mrs. Art Rhodes of North Orlando has returned from a very special birthday celebration.

She and her husband made a sightseeing trip to the Grand Bahama Islands. The trip was a birthday present from her husband.

They made the rounds of the islands in a small foreign car and visited the place where Shepard was taken after his flight into space. They also saw several movie stars and enjoyed the calypso music which is very popular in that area.

No visit would be complete for a woman unless she went shopping, especially in a famous resort, so they visited the local shops. They both enjoyed the food and Mr. Rhodes described it as "out of this world."

They brought back many souvenirs, including shells, snapshots and movies of the various attractions. Since this was the first time they had taken a vacation without their children, several gifts were also purchased for them.

# Dear Abby: By Abigail Van Buren

DEAR ABBY: How does a 17-year-old high school boy get his parents to realize he is not 2 years old? Last Saturday night I came home later than I said I would. It wasn't my fault. The kid who owned the car wanted to go for a ride and I couldn't get home without him. When I got home, my folks had all but called the cops looking for me. I was only an hour and ten minutes late.

It's all over school and I feel like a baby. My parents have grounded me for a whole month. I gave them my word if they let me off this time it would never happen again. They refused. Don't you think the punishment is unfair or too stiff?

**DEAR GROUNDED:** If you told the truth, the discipline is excessive. If you lied, you are getting off easy. Personally, I believe your story.

**DEAR ABBY:** My sister and I would like to know why some men never get married. We know several bachelors who are from 35 to 60. They are very nice men, but if they go with a girl for a while and she gets serious, they quit dating her. These bachelors say they never expect to get married. It's not that they can't afford it either. Most of them have good jobs and drive nice cars and have money in the bank. Is there some way to change the mind of a man in this category?

**TWO OLD MAIDS**  
**DEAR TWO:** Bachelors who have

been lured, hornsogged or roped into marriage make the worst husbands. It's better to be an old maid than to wish you were one.

**DEAR ABBY:** I think I've spoiled my husband. I would never go out in public with my hair in pin curls, but what's wrong with being that way in the morning? I have been married eight months. At first I would slip out of bed after my husband fell asleep and put my hair up in pin curls. Then I'd get up half an hour before he did and take my hair down and comb it. Lately I have been too sleepy to get up early and take the pin curls out, and boy, have I been catching it! He says I am ugly. Don't you think a woman has a right to appear before her husband in the morning with pin curls?

**YOUNG WIFE**  
**DEAR WIFE:** It's your breakfast "image" that your husband carries to work with him, to last until he gets home in the evening. Make it good and it won't fade.

**CONFIDENTIAL TO M. L.:** Take comfort in the knowledge that he who continually accuses others is probably guilty of the deeds himself.

How is the world treating you? Unload your problems on Abby, care of this paper.

PAUL NEWMAN and Eva Marie Saint in a scene from "Exodus" now playing at the Movieland Drive-In.

## 'Exodus' Now At Drive-In

Otto Preminger's production of "Exodus," film version of the international best-seller, will start its local engagement tonight at the Movieland Drive-In Theater, through United Artists release.

"Exodus" stars Paul Newman, Eva Marie Saint, Ralph Richardson, Peter Lawford, Lee J. Cobb, Sal Mineo, John Derek, Hugh Griffith, Gregory Ratoff, Felix Aylmer, David Opatoshu and Jill Haworth. It was filmed on location in Israel and Cyprus in Technicolor and Super-Panavision. Otto Preminger produced and directed the film from a screenplay by Dalton Trumbo, based on the Leon Uris novel.

The novel "Exodus," which was a hard-cover best-seller for more than a year and half, also has sold more than 6,000,000 copies in paperback. The motion picture is set in the turbulent times when the Israeli underground was battling the British and the Arabs in the struggle for independence.

The other feature on the program is "24-hour Alert" starring the men of the U.S. Air Force. Both films will play through Tuesday.

On Wednesday and Thursday, "Man Of A Thousand Faces" and "Day of Fury" will play.

On Friday and Saturday, "Hey, Let's Twist," "Cool and Crazy" and "The Big Beat" will play.

The novel "Exodus," which

AUDREY HEPBURN, Martin Balsam and George Peppard in a scene from "Breakfast At Tiffany's" coming to the Ritz Theatre Sunday.

## Comedy Is Ritz Bound

Academy Award - winner Audrey Hepburn returns to get smart, sophisticated comedy in Jurrow-Shepherd's "Breakfast at Tiffany's," the new Technicolor film opening Sunday at the Ritz Theatre.

Abandoning her string of princesses and refined young ladies, Miss Hepburn pulls out all the stops in her portrayal of gay New York playgirl Holly Golightly in the Paramount release, which also stars George Peppard and co-stars Patricia Neal, Buddy Ebsen, Martin Balsam and Mickey Rooney. Adapted by George "Seven Year Itch" Axelrod from Truman Capote's best-selling novel, the attraction tells "all" about Holly and the many men in her life.

A creature of odd habits and odder friends, Holly affects the lives of all who meet her, especially Peppard, her upstairs neighbor, a young writer being "supported" by a rich society matron. Other men in her past, present and future include a Texas horse doctor, a Hollywood agent, a Brazilian millionaire and a Japanese photographer whose peace of mind is continually hampered by Holly's madcap existence.

Filmed in part on location in New York City, "Breakfast at Tiffany's" features many of the city's famous landmarks, including the celebrated jewelry store that inspired the title of the picture and Capote's original novel. Marked by Holly's downing a light breakfast of coffee and Danish in front of Holly's window following a wild night out on the town, this unusual meal symbolizes the need for meaning and solidarity in her life. Blake Edwards directed.

## Highlights

### TV Time Previews

7:30-8:30 p. m. (CRS) Rawhide. "The Peddler." A bit more physical action wouldn't have hurt this episode, in which trail boss Gil Favor (Eric Fleming) is faced with payroll demands from his impatient drovers. Comedian Newman guest-stars in the strange role of an itinerant peddler, who offers Favor a solution to his money problems. His role is not a particularly demanding one, although he carries it with satisfactory conviction.

8:30-9:30 p. m. (CBS) Route 66. "A Long Piece of Mischief." Shades of Pagliacci, this one has a rodeo setting with a plot involving an unattractive rodeo clown who is pathetically in love with an out-of-reach rodeo queen, Tod and Bud (Martin Milner and George Maharis) step in when the clown is made the target for vicious pranks by two cowboys (Slim Pickens and Ben Johnson). Albert Salmi plays the tragic clown role to perfection, and very good is Audrey Totter as the regal rodeo queen. Adding interest is the authentic Texas location where this film was made.

9:30-10:30 p. m. (ABC) 77 Sunset Strip. "Penthouse on Skid Row." A boardinghouse on Skid Row is hardly the likely spot for a series of robberies unless there is more than half-filled wine bottles and laced-drifted clothing in the place. So deduces Jeff (Roger Smith), when an owner of such an establishment calls on him to investigate this unusual circumstance. Jeff concludes that it's the value of the property and not its inhabitants or their possessions that provides the motive for the crime spree.

9:30-10:30 p. m. (NBC) Bell Telephone Hour—"A Measure of Music." If you are a rock-'n'-roll fan, forget this program. But if you like any other kind of music, tune in. This well-rounded telecast offers something for almost all tastes as is exemplified in its cast: Jane Powell, Sally Ann Howes, guitarist Andres Segovia, Ballet stars Maria Tallchief and Rudolph Nureyev, and the folk-singing Chad Mitchell Trio. The latter sings "Do Not Forsake Me," "Ballad of Davy Crockett" and "Big John." Tallchief and Nureyev dance the Pas De Deux from the ballet "Flower Festival." Sally Ann Howes and Earl Wrightson sing operetta and musical numbers including "Falling in Love With Love" and "Close As Fingers in a Book." Guitarist Segovia plays "Sevilla" by Albeniz, "Minuet" by Rameau and selections from "Concerto in D" by Castelnuovo-Tedesco. Stage and screen songs by Jane Powell include: "Accentuate the Positive," "Clap Your Hands," "Love Is Here to Stay" and "There'll Be Some Changes Made." Donald Voorhes conducts the orchestra and chorus.

When completed, the trans-Canada highway will stretch 5,000 miles from St. John's, Newfoundland, to Vancouver, British Columbia.

## Jacoby On Bridge By Oswald Jacoby

South wisely gave up the idea of a club finesse at trick one and won the trick with the king. East signaled with the ten.

South led the jack of spades and finessed. West allowed it to hold the trick, but proceeded to take the next trump lead and play another club. South played low from dummy, ruffed in his own hand and, for want of anything better, to do, led out his last two trumps and discarded a small heart from dummy.

At this point things did not look too good. The trump finesse had lost and obviously the queen of clubs was securely guarded in the East hand.

Some people would have given up at this point. But South saw one ray of hope. East held the queen of clubs. If he also held four hearts he would be squeezed in those two suits and West could do nothing about it.

Therefore, South ran off three diamond tricks and sure enough the pressure had taken care of East. He had to let go of two hearts in order to keep the queen of clubs protected.

South led a heart to dummy's king. Cashed the king of clubs just in case the squeeze had not operated and wrapped up the contract.

## We The Women: By Ruth Millet

Bushels of books and articles have been written for the man who faces retirement. Some of them even offer advice to his wife.

But there has been little help for the woman—unmarried, divorced or widowed—who has supported herself for years and faces retirement alone.

A career woman retired five years, who has found retirement good, has a few helpful hints for the working woman who still has a few years to prepare for the time when she no longer has a job to fill her days:

"How alone you are after you retire depends to a great extent on how much of yourself you have invested in friendship.

"You will never know until your job is gone just how much you really depend on your friends.

"But you can't expect your friends to keep you constantly entertained. To fill all of the time you once spent on earning your living you are going to need some interests and hobbies that you can pursue by yourself.

"You will be lucky if you find them before retirement. For then you will welcome the chance to have more time for the things you enjoy, instead of feeling that you must get interested in something but you don't quite know what.

"You are fortunate, too, if you have made the kind of home for yourself—be it house or apartment—that is home-like and comfortable, and if you really enjoy 'keeping house.'

"A woman who enjoys making a home—even if it can't spend many happy hours on the more creative aspects of homemaking.

"But above all, it is important to look for ways in which you can be useful and helpful to others. Nothing will give you so much satisfaction, or do more to keep your life from seeming empty as to use some of your new-found leisure to lend a helping hand wherever it is needed."

Insight into young folk's problems is in Ruth Millet's booklet, "Tips on Teen-Agers." Mail 25 cents to Ruth Millet Reader Service, c/o The Sanford Herald, P. O. Box 189, Dept. A, Radio City Station, New York 19, N. Y.

## Circus Slated For Jacksonville

The "Greatest Show On Earth" will make one of its rare appearances in this section of the nation at Jacksonville Jan. 31 through Feb. 4.

Ringling Brothers and Barnum & Bailey Circus, only survivor of the big circuses of a generation ago, now shows only in enclosed areas. The Big Top, or huge canvas tent, is no longer used. Jacksonville is the only city within hundreds of miles with facilities large enough.

Since the circus winters in Florida, fans in this area will get a decided break. They may see the complete show while costumes are new and prior to the grand opening later in New York City.

There will be eight performances in the 10,000 seat Jacksonville Coliseum. Evening shows are scheduled Wednesday, Thursday and Friday (Jan. 31, Feb. 1-2) at 8 p. m. The Saturday evening performance will begin at 8:15. Matinees are scheduled Saturday and Sunday (Feb. 3-4) at 1:30 and 5:30 p. m.

## Appeal Made For Lost Dog

An appeal has been made by a kind neighbor in behalf of a lady in Paola whose little Chihuahua dog was stolen just before Christmas.

The neighbor says that the pet was "just like one of the family" and the lady has grieved so over the loss of her little dog that it has greatly moved all who know her.

It was reported that another neighbor saw a car stop at the driveway and pick up the dog, as it sat waiting for its mistress to come home from her Christmas shopping. It is said that no questions will be asked if the dog is returned. The neighbor said that if the dog were put out close to home, it would find its way without exposing the dog-napper.

There is evidence that handball, often considered one of the national games of Ireland, originated there about 1,000 years ago.

## Bank Takes Active Part In Development

President T. E. "Gene" Tucker, Florida State Bank head, told an annual meeting of over 300 stockholders Wednesday that the bank, in conjunction with the efforts of the Seminole County Chamber of Commerce, has been directly responsible in assisting six industrial firms employing well over 1,000 people to locate in the Sanford-Seminole County area.

"A great deal of progress has been made in this area recently," Tucker said, "and this bank expects to play an even more important role as other plans are in process and will work to conclusion during 1962."

The loan demand in this area continues to be heavy because, according to Tucker, we are in a growth area and period. It was pointed out that for the Florida State Bank to do an effective job to fill this loan demand, it would require the stockholders and community to support the bank, mainly by acquiring new deposits.

## Two Bank Men Are Promoted

T. E. Tucker, president of the Florida State Bank at Sanford, announced Wednesday the promotion of two of the staff of the bank to positions of greater responsibility.

William T. Wade has been promoted to Assistant Cashier from the position of purchasing agent and building manager as well as customer service. A lifelong resident of Sanford, Wade began work at the bank in Nov. 1959. Later he coordinated plans and supervised the banks move into its new quarters.

Wade resides at 2008 Grandview Ave. with his wife Helen.

Harold M. Brooks, a retired Navy Chief, has been promoted to the position of Assistant Cashier from his work as Head Teller.

Brooks who resides with his wife Stella at 808 Camilla Court, chose to remain in Sanford after his retirement in July 1959 because he liked the community and enjoyed the friendliness of the people. He began work with the bank in February of 1960.

## Knowles Blames 'Pressure Groups'

The city's policy of subsidizing Seminole High School's athletic program including the use of the Municipal Stadium and the Ft. Mellon Park Swimming Pool may come to an abrupt halt tonight because of "undue pressure," City Manager W. E. Knowles warned today.

Knowles said that he will present the commission with a lease turning the entire school program over to the school board.

Knowles said the \$1 a year lease was brought about through the efforts of "pressure groups" to try to get the city to use "taxpayers" money to underwrite still further the Seminole High School's athletic program.

The city manager said that if the city approves the lease the school board will then have to assume all the costs at the stadium such as operation, maintenance, insurance and utilities.

Members of the swimming team had requested use of the swimming pool some 135 days prior to the pool's actual opening. This would cost the city approximately \$2,240.

Operational use of the football stadium runs around \$5,000 per year.

A number of members of the Seminole High Swimming team have told the Herald that they would "come in force" to today's meeting, scheduled to start at 8 p. m. to ask for the use of the pool.

The city had turned thumbs down on allowing the team to use the pool because of the operation cost.

The swimmers want to use the pool without any additional charge.

## 2 In South Seminole May Be Candidates

A meeting of "interested persons" in South Seminole County at the Howell Park Community Center Friday night produced two prospective candidates, Al Lormann, mayor of Longwood, for the Legislature, and W. Pitt Varne, for the County Commission.

The meeting was moderated by Mrs. Hope Bennett, Casselberry Council woman, and attended by 25 persons. It was called primarily to explore the possibilities of getting candidates to run for the County Commission from District four.

Mrs. Bennett called on any one who was interested in making the race for commission to speak. First to respond was W. Pitt Varne, who was a candidate for clerk of court some years ago. Lormann followed Varne.

Lormann said that he could not make any definite statement now, but that he would like to give his views on the race for the Legislature.

He said that the county must do away with "this feeling of sectionalism" and that he believed that the county should have one representative from South Seminole and one from Sanford. He further said that he believed that one representative should be a lawyer and one a business man to give more balance to the county's representation in the Legislature.

"If elected I would do my utmost to work with other elected officials and our county officials," Lormann said.

He further said that he believed in home rule and would do his utmost to preserve it. Later on in a question and answer period he was asked to explain his idea of home rule. "Home rule to me means that we must keep control of our affairs in the hands of the people."

Varne said that he would be willing to run for the commission post if he could get the proper support. "I can't win by myself. Any time a man goes in office, it is the work of the people that got him elected," he said.

In discussing support Varne said that if he didn't have enough friends in his own area he certainly could not expect to get support in other sections of the county. He said he wanted to determine how much initial support he could count on before deciding to run.

### Firm Acquitted In DeLand Court

A six-man Circuit Court jury found two of the firm's seven partners innocent of the charges Saturday. Judge P. R. Revels had dismissed the charges against the other five partners Friday.

The jury deliberated one hour and 28 minutes before acquitting Norman Bryan of DeLand and Walter Schultz of Jacksonville. The general contractor on the three schools, J. Hilbert Bapp of Orlando, was also indicted for grand larceny and is scheduled for trial Feb. 26.
