## FLORIDA FLOURISHING AT ALARMING RATE IN FARMING INDUSTRY

### Yet Some Are Averse To Fencing Lands MAKE MODEL FARMS

#### AND OTHERWISE DEVELOPS THE STATE AS IT SHOULD BE DONE

Florida is flourishing at almost an alarming rate. Every day we read of large tracts of land being purchased by live stock men, old-time farmers, capitalists and big farm men, and all announce that they are going to fence these lands, at once and develop them into great pastures and ranches.

In the face of this there are still many of the old range cattle men of the State who persist in saying that they undoubtedly do not believe in their hearts, that the State will never amount to anything except for scrub free range cattle and some of them are going so far as to obstruct, to the extent of their ability, the efforts of the developers to improve these lands and fence them up.

One of the commissioners of Putnam county is a cow man and he has bitterly opposed the efforts of others to have a road built through a small portion of the county to connect up with a road from Flagler county which is being built to the county line to assist in the development of a 30,000 acre tract which has already had \$200,000 expended on it by the owners and on which there are now twenty well-developed farms with over 5,000 acres under cultivation, with experienced farmers living on each of them in comfortable, attractive homes built by the developing company for the new settlers, and there are now \$60,000 worth of crops growing. In this section that two years ago was practically a wilderness, and still this county commissioner, elected by the people to represent them and their interests, persists in saying that this splendid settlement will never amount to anything and that it doesn't need a road to connect it up with Palatka yet he has a shell road built as far as his place in San Mateo and also a road built off on one side to his brother's place. Of course he is opposed because the free range enjoyed by his cattle for so long is narrowing down and he will have to do as others are doing, buy some land and fence it for his pasture or get out of the cattle business.

For the benefit of this cow man—county commissioner and other of his ilk, we will cite a few of the big fencing developments in the State in the past two or three years. In Friday's Times-Union two items told of a banker in DeSoto county fencing up 12,000 acres and a new company that has just purchased 60,000 acres in the same county which it will have fenced all once for a ranch. In this same county the Kissimmee Island Cattle Company has fenced 340,000 acres, and over in Osceola county the same company has a ranch of 225,000 acres fenced. In Polk county two big ranches have been fenced to the tune of about 25,000 acres and a number of smaller ones. Over in Okeechobee county the Southern Ranch, Inc., bought 250,000 acres and is fencing it as rapidly as possible, having 25,000 acres already enclosed. In Palm Beach county three big developments are going forward with great speed, one by W. J. Conners, one by Fred Kelsey and one by the Southern States Land and Timber Company, and the land to be fenced by them will aggregate 150,000 acres. Down in Dade county the Pennsylvania Sugar Company is developing a 70,000 acre sugar central, which is being fenced as rapidly as possible. The Curtis-Bright ranch in fencing another 12,000 acres, and there are a dozen other developments that will aggregate 50,000 acres more, all being fenced.

In Marion, Alachua, Lake, Orange, Hillsborough, Pasco, Hernando, Sumner, St. Lucie, Brevard, Volusia, St.

Johns, Flagler, Putnam, Clay, Lee and in many of the North Florida counties large farms and ranches are being fenced, so it is easily seen that with what has been done in the past three years and what will be done in the next two years, fully two million acres will be placed under fence. Does this not look like business? Does all this amount to nothing? The range cattle men are seeing the handwriting on the wall and the wise ones are falling in line and securing large tracts before they become too high in price, as all of this development is bound to eliminate cheap land in Florida very soon.—Florida Times-Union.

### No Poll Tax—Can't Serve as Mayor

An election set for Flagler county was called off a year or more ago because there were found to be but four registered voters in the county. Now, in the same county, they elected a mayor of the town of Hastings, and he can't take his seat because he has no poll tax receipt! Will those potato-planters never grow up?—Tampa Tribune.

## RAILROADS PASS INTO OLD HANDS

### TWO HUNDRED AND THIRTY LINES GO BACK INTO PRIVATE OWNERSHIP TODAY

Washington, Mar. 1 (By Associated Press) The Railroad Administration today passed out of existence and two hundred and thirty lines that were merged into one gigantic system again, came under private incident. The transfer was without protest and nothing to indicate to the travelling public that there had been any change. The Director General Hines remains to clear up thousands of claims and contracts. General Hines remains. We clear thousands of claims and contracts and grievances but without authority over the operation of the roads.

## PITTSBURG PEOPLE OWN HOMES

### MORE THAN SIXTY THOUSAND WERE FORCED TO BECOME PROPERTY OWNERS

Pittsburg, Feb. 28 (By Associated Press) More than 60,000 Pittsburg families bought their homes during the past year, not because they were particularly anxious to own their own homes, but, according to real estate men, they had to buy or move. This is continuing at the same rate thus far this year.

The home buying movement began two years ago when war activities in the mills brought scores of families into a community where housing accommodations had been increasing scarce for a number of years. Cost of construction increased and this curtailed building operations.

Rents have increased in proportion, small houses and apartments showing the highest percentage. Fifty percent raises for the coming year are said to be common, while in some instances 100 percent has been asked and paid, where the occupant could afford it. "The demand is here and the living places are not" is the way one real estate man explained the situation.

Similar conditions prevail throughout the Pittsburg district. In some manufacturing towns industrial corporations are building, and buying houses for their men, while in Sharon, Pa., the Chamber of Commerce has undertaken to finance the construction of 600 residences.

## FRENCH RAILWAY STRIKE

### SAID TO BE FAILURE AND MEN ARE REFUSING TO QUIT

Paris, Mar. 1 (By Associated Press) So far the general strike of the railroads is said to be a failure the union men in large numbers refusing to quit and the outlook is distinctly more hopeful. The freight service everywhere has been abandoned except in the devastated regions of northern France.

## CHANGES PERSONEL OF GROWERS

### TRUCK GROWERS ASSOCIATION MAKES CHANGES IN SEVERAL OFFICIALS

The Sanford Truck Growers, Inc., have been making several changes in the past few weeks. J. D. Jacobs as general manager resigning about two weeks ago and his place being filled by W. B. Ahearn. D. C. Marlowe who has been secretary and treasurer since the organization started resigned his position Saturday and for the remainder of the season Mr. Michales will take care of this part of the association. Rex Packard has also resigned as president and his position will be filled at the next regular meeting.

These changes were brought about for many reasons and it is thought they will all be good for the association and the good work that was begun under these old officers will be continued under the new and the Truck Growers Association should be stronger and better, as the years go by and it withstands the many changes of time.

W. B. Ahearn the new general manager is no stranger to Sanford as he has been coming here for many years in his capacity as the representative of the W. B. Ahearn Brokerage Co., of Chicago. Prior to that time he was with the H. Woods Co. of Chicago and the G. M. H. Wagner Co., and has been in the buying and selling game for twenty five years and brings to the association brings to the association his knowledge gained after many years in the buying and selling and shipping of fruits and vegetables in all parts of the country. As an instance of what his experience means to the association that has been making consignments he had 63 cars dumped on him last week to sell and by Saturday night he had sold them all with a wide distribution all over the United States.

Mr. Marlowe has not disclosed his plans for the future but it is safe to assert that he will stay here and engage in the shipping business, for he knows all about this part of the business and is one of the best posted transportation men in the business.

## LEYLAND LINER ON THE ROCKS

### TUGS HAVE GONE TO RESCUE ONE HUNDRED AND EIGHTY PASSENGERS

Halifax, Mar. 1 (By Associated Press) The Leyland liner Bosphorus bound for Liverpool from Boston struck the rocks forty miles east of Sambro today according to a radio. She had one hundred and eighty four passengers who are said to have been rescued by tugs.

### WEEK'S WEATHER

Forecast For The Period March 1 To 6, Inclusive.

South Atlantic and East Gulf States: Rain first of week and again about Thursday and Saturday; temperature above normal first of week; frequent oscillations thereafter.

## ITALY TO ACCEPT THE COMPROMISE

### PREMIER NITTI SAID TO BE WILLING TO LISTEN TO NEW PROPOSAL

Rome, Mar. 1 (By Associated Press) Premier Nitti is disposed to accept a compromise on the Adriatic question under which Italy will not claim territorial continuity between Istria and Elums on condition Fiume be placed under Italian sovereignty. According to the message the League of Nations will be placed in charge of the port.

## INCOME RETURNS ARE SLOW

### LESS THAN FIFTEEN PERCENT OF THE RETURNS ARE FILED TO DATE

Jacksonville, March 1.—Special— "With less than fifteen percent of the 35,000 income-tax returns filed to date, and only 14 more days in which to receive same, I want to urge upon those who have not filed their returns, to do so without waiting a day," said Collector of Internal Revenue James M. Cathcart today, in speaking of the returns received. "I realize that the business man who has to make out a corporation return with perhaps a large payment to accompany same, has waited until the last month, so as to have the use of the money as long as possible; also, the salaried man, who has to pay income tax, was waiting for his February salary from which to pay his tax; then others have been waiting for various reasons, to file their returns."

"I want to suggest to the foregoing classes, that you submit your return at the earliest possible date, for the return may contain an easily detected error which the deputy may catch upon examination, which would cause you to rewrite same, thus taking time, and before you are ready again the time limit has expired and you are penalized for delinquency. I do not want to see any one penalized for delinquency, and as it will be a physical impossibility for any kind of an examination by the receiving deputies for each of the unfilled 30,000 returns, yet to be received, those who do not submit same without delay may possibly be saved money and time, and that is why I am giving you this information."

"I fully appreciate the fact that the field work has not yet been completed and will not be until the last week, but as information bureau have been opened during the entire time at four widely divergent and larger cities of the State, and a majority of the countries have already been visited by deputy collectors, I want to acquaint the income-tax payer with the facts so that if he delinquent it will be entirely his fault."

"I show below the itinerary of the deputies and revenue agents complete, for the remainder of the drive through March 15; giving name of county, name of county seat, where deputy will be located, dates and name of deputy collector and revenue agent."

The deputy collector will be in Sanford from March 8th to 15th at the court house.

## Weather Report

For Florida fair continued cold tonight. Temperature below freezing north portion. Close to freezing to the 26th parallel and probably heavy frost to the southern limit of the mainland. Tuesday fair, not quite so cold; northwest portion moderate northwest to north winds.

## PARCEL POST SERVICE BRINGS POSSIBILITIES FARMER TO CITY MAN

### RATHSKELLER AT HOME

#### Cecil B. DeMille Shows One In "Why Change Your Wife."

The latest Cecil B. DeMille production, "Why Change Your Wife?" coming to the Princess Wednesday is thoroughly up-to-date. Even prohibition has not been forgotten by the famous producer in filming this striking story of married life. The husband, played by Thomas Meighan not only has a full supply of private stock in his cellar; he has even constructed a rathskeller down there. This is one of the points about which he clashes with Gloria Swanson, in the role of the wife. While she does not object to wine in the house, she maintains that a private rathskeller is carrying matters a bit too far. Their clashes grow more and more frequent until finally the husband seeks succor in the charms of a siren, and troubles start.

Cecil B. DeMille has produced this picture with all the lavishness of detail and rare beauty that characterized "Male and Female." William DeMille furnished the story, which was adapted to the screen by Olga Printzlau and Sada Cowan. One more reel also given.

## PLUMAGE CAUSED THE ARREST

### OF PROMINENT KISSIMMEE MERCHANTS BY FEDERAL AGENTS

Following trails which led from fashionable Fifth avenue shops in New York city to the wildest recesses of the Everglades, federal game wardens today experienced all of a successful hunter's gratification in capturing the quarry, when Judge Shepard in United States court penalized Wm. B. Makinson, of Kissimmee, for having in his possession aigrettes and plumage valued at more than \$12,000. Makinson was arrested yesterday in his hardware store in Kissimmee in a trap cleverly set by Capt. B. J. Pacetti, P. S. Farham, of Oswego, N. Y. and W. L. Birch, of Washington, D. C.

Could women shoppers have seen the magnificent array of plumage spread before the court as evidence it probably would have taken a squad of deputies to have prevented a grand rush for the aigrettes and plumes. Aigrettes of the sort that add \$200 to the price of a single hat in any Fifth ave. shop were as plentiful as last year's straws at a rummage sale. The same feminine contingent who can't understand male proclivities for taking fatal chances to smuggle booze probably would have possessed a similar desire to bootleg a handful of such plumage as the federal wardens submitted as proof of Makinson's guilt.

Some time ago 10 government agents came to Florida with the express purpose of ending the illicit traffic in aigrettes and plumage of migratory birds. Willy Nilly, famous among east coast tourists as the Beau Brummel of the Seminoles, is under federal indictment and will be tried at the May term in Miami for his allowed part in aigrette operations extending over a period of years. Yesterday Capt. Pacetti, warden in charge of the Florida district posed as a wealthy tourist and after some dickering arranged with the Kissimmee man to buy some aigrettes. When the actual sale was made Wardens, Farnham and Birch were on hand to arrest both Pacetti and Makinson. It was not until after Makinson's cache of plumage was seized that he discovered that Pacetti was a government agent also.

The seizure is regarded in federal circles as the most important in years in connection with the government's efforts to stamp out the illicit killing

## Connecticut Tries Hampers For Carriers TELEPHONE ORDERS

### AND FARMER CAN SEND PRODUCE DIRECT TO CONSUMER

New Haven, Conn., Feb. 28. (By Associated Press) An experiment in use of the hamper for carrying products of the farm from the farmer to the city householder, is being tried out in Connecticut. The Department of Agriculture has approved the idea which is patterned on that of the parcel post rural service. The street railway express is the medium of transportation, not the mail.

A farmer may take orders by telephone or mail, fill up a hamper and deliver it to the street railway company which maintains an auxiliary express service along its lines with automobile delivery in the cities. Eggs, poultry, potatoes, apples and other farm products, ordered over the wire, may be delivered in a few hours with as much care as a marketman in town gives to his city customer.

The New Haven County farm bureau, which for a year has studied local marketing, by a survey found the possibilities of the trolley express were such as to develop a "farm-to-table" delivery by means of a "home hamper." Connecticut is gridironed with trolley lines. Tens of thousands of farmers can see cross country trolley lines pass. Express cars pick up way-side freight or express matter at any stopping place. Hampers made up in Milford were delivered in New Haven and Bridgeport within two hours, or in as short an interval as a city merchant makes his local deliveries.

The plan contemplates use of a uniform hamper of varying sizes, easily handled as express, recognized by car crews and automobile drivers as containing foodstuffs with the possibility of perishable articles, like dressed poultry, eggs.

Experimental hampers hold enough food to last a family several days. Success of the plan depends largely upon the initiative of farmers in securing customers who are willing to have delivery made in this way.

### ORANGES FT. \$3.80 BOX

#### Volusia County Grower Gets High Average For Crop

DeLand, Feb. 28.—Florida Citrus Exchange on Wednesday sold in Boston, a car of oranges belonging to and packed by Theodore Strawn of DeLand, for \$3,379.20 or an average of \$3.80 per box for 384 boxes. This beats all records in Boston this year or elsewhere, as far as known for round oranges.

It was Mr. Strawn's well-known "Bob White" brand. The orange market is booming now, the cheap grade early shipped is out of the way.

Berno, Mar. 1. Usurers, blackmailers and profiteers being placarded and marched in chains through streets of Bulgarian cities. Public exposure producing good results, advices say.

Copenhagen, Mar. 1. Poland demanding thirty one billion five hundred million marks gold indemnity from Soviet Russia in peace negotiation says Nat. Tidende.

of migratory birds and the traffic in their plumage. "What makes the taking of aigrettes so deplorable," explained Capt. Pacetti, "is the fact that the mother egret wears this beautiful adornment only during the nesting period and when it and the skin are torn from her quivering body four little orphan birds are certain to die in the nest."

which are entirely probable, provided underwriters can be found to guarantee the games. This has not yet been done, but hope has not been given up by Professor Beck, committee head of the faculty athletic board at the University. It is intended that the Tech games shall be staged April 26 and 27 in Jacksonville and the Auburn games at Tallahassee April 7 and 8.

It is also possible that the Alabama dates may be subject to change, in the schedule which will follow, since the University of Illinois is touring Alabama in April and may necessarily form engagements for the Florida dates.

Coach Arthur Phelan, former second sacker for the Chicago Cubs, has charge of the 'Gator baseball material this year, and it is believed he will work wonders with the squad he is now building up. Phelan is better known to Florida fans as manager of the Bartow team during the last weeks of 1919 State League season. Another valuable asset to Florida this year will be the assistance of Lance, Richburg, who played last year with the New York Giants and the Oakland club.

The main drawback as far as Florida's baseball for this year is concerned, is that of raising funds to bring games to Gainesville. Neither Gainesville fans nor University men have raised any money to bring other college teams to this city, and the Athletic association is in no condition financially at present to put up the money. There is now talk on the campus of trying to arrange the Georgia Tech game for Fleming field, and it is believed any attempts in this direction will receive the enthusiastic backing of the student body.—Gainesville Sun.

## GOOD BASE BALL

Is Promised By College Teams of Florida

With fifteen games already scheduled with Stetson, Rollins, University of Alabama, Palmer College, Howard, and Birmingham-Southern and strong possibilities of closing for engagements with Auburn and Georgia Tech, Florida's 1920 'Gators bid fair to find plenty of opposition with which to test the best line-up it has ever produced.

Four "F" outfielders, Leo Wilson Hart Getzen, Bill Madison, and Ray Ogilvie; and three "F" twitters, C. C. Cox, Manager George Hartman, J. W. Liddon, as well as Boswell and Gray, men of high calibre, and Catcher C. J. Hardee, who is captain of the aggregation for 1920, form an invincible foundation upon which to base the team, while the unusual amount of new material beginning to show up in these first practices makes the 1920 outlook an entirely satisfactory one.

Florida men are especially enthusiastic over the possibilities for games with the South's two leaders in athletics, Auburn and Georgia Tech.

MEMBER OF THE ASSOCIATED PRESS

March came in "roaring" like a lion.

Hope he goes out peacefully like the lamb.

Let's see—was it sixty days they gave them? Well, Sunday was probably well within the sixty days.

We had another pleasant Sunday in Sanford. No water and no lights all day and part of the night. Happy days.

The celery movement will soon reach the peak and there will be hundreds of cars leaving Sanford for the northern markets. Some money.

The cold snap coming at a time when the orange trees are beginning to bloom makes the growers feel squeamish but the weather man is hopeful and then with February out we can feel safe.

The first of the month is here and we suppose the Southern Utilities Co. will present their bills reading twice as much for the poor service that they have been rendering. If they do they will hear something drop real hard.

In a few months we will be having the good old summer time and the ball team will be practicing at Holden Park and the fans will be busy licking the winners and all will be peace on the St. Johns river. And during the summer time we will be getting our plans all ready for the municipal plant that will

guarantee us service ere another winter brings the hundreds of visitors to our city again.

**MUNICIPAL OWNED ELECTRIC AND WATER PLANTS**

We used to be prejudiced against cities and towns owning and operating water works and electric plants. We had the idea that it would be a disturbing element in municipal politics and that it would corrupt city officials.

When we read of the troubles some towns are having with corporation owned public utilities, we are glad our own city, operating and owning its electric light and water plants, is having no such troubles. Gainesville is the best lighted city in Florida and the water we drink is pure. The prices charged are reasonable and those officials who have these things in charge are always courteous. Our opinions have all changed about municipal ownership. The Sanford Herald tells us of the poor service that city gets from a corporation owned lighting plant. May we take the liberty of suggesting to our friends down there that they try our plan.—Gainesville Sun.

Yes, Col. Bob, you can take all the liberties you want. We have been trampled upon so much by this company that we are hardly able to resent anything but when you talk about municipal ownership you are not taking any liberties with us. Why, man, you are doing us the biggest kind of a favor. And we will go farther and ask you about the cost of operation and what it costs the consumer for we are forming a league here that will get municipal ownership or get somebody's goat. We happen to know something about good old Gainesville service and their own plants for we lived there about ten years and we also know that Gainesville is only one of the many Florida cities owning their plants and getting excellent service at cheaper rates than we are paying all of which makes us feel like a lot of sumps because we ever let a foreign company in here to take our money and give us nothing in return. However, we know when we have enough and we have had enough right now and we will soon have our own plants.

**CATTS VS FLETCHER**

The Jacksonville and Tallahassee correspondent of The Baltimore (Md) Sun gives the following figures as specific causes for which the present Governor Catts will have to answer for when the voters approach the polls on election day, at which time Governor Catts hopes to be able to swing the votes of Florida his way to enable him to be seated in the Senatorial chair in Washington. J. F. Essary is the name of the correspondent for the Northern paper, and he seems to be dividing his time between Jacksonville and Tallahassee while writing for the series of articles, which evidently are written for the purpose of throwing additional light upon the oncoming election.

Mr. Essary seems to be giving both sides of the question fair play, which is the only right thing to do, and from time to time we may reprint some of his sayings and wish to submit them to you only for your approval. In politics, we are true Democrats, and in cases where more than one Democratic candidate is running we cannot support either one or the other through our editorial columns, as long as each of the candidates in question bears a good moral and business reputation. But, if we hear about something that we think the public should know about in its true light—something pertaining to the reputation of some candidate seeking office we will openly tell you all we learn about the case. The News takes this stand because it believes in fair play and believes that all candidates should be dealt with in the same manner:

- Daughter—Private secretary; salary, 2,00 a year.
- Daughter—Secretary State Board of Institutions and Board of Pardon's salary, \$1,000 a year.
- Son—Adjutant General of the State; salary, \$3,000 a year.
- Son—Naval stores inspector of West Florida; fees about \$4,000 a year.
- Son—Harbor master at Key West fees in excess of \$1,000 a year.
- Son-in-Law—Tax collector of Duval county, in which Jacksonville is located, an office which in 1918 paid \$14,000.
- The Governor's salary is \$6,000 a year, with \$1,200 contingent fund. But the aggregate amount of money paid by the tax payers of Florida to the members of the Catts family is not less than \$32,000 a year, a rather neat sum.—Gainesville News

Darkness Makes Goldfish Blind. Ognoff kept goldfishes for three years in absolute darkness, taking care to give them plenty of room and plenty of food. The result was total blindness; even the rods and cones of the retina disappeared.—New York Herald.

**ADVANCEMENT**

The humble beginning of Savings Account has started more enterprises, more business, more fortunes than anything else in this world!

It may seem like "toddling" to open an account with a deposit of one dollar—but it's a start. Furthermore, it's an important step.

"Walking" is then easy and you'll soon find yourself in the "running".

**One Chandler, Sport Model**

(This is the Blue Car that has created so much favorable comment)

Out of a shipment of Chandlers unloaded this week we have only the above car left.

This particular model, which is so much desired by many, is extremely hard to get. We would suggest that you get in touch with us as soon as possible as this model will not remain on our floor very long.

For those not thoroughly familiar with the Chandler these few points are well worth considering when purchasing a car—

Chandler is not marketing a new, untried design, built to stimulate sales. A Chandler car does not sell because of "talking points," but on honest reliable performance.

There are no novelties about the Chandler Motor. It has not been changed ever so often. The company has never done anything eccentric with its motor just for the sake of advertising. Chandler motors are now about the same as they always were, with a few minor improvements.

The above few points are mainly responsible for the enthusiastic endorsement Chandler cars have received in motoring circles, and caused them to be generally accepted as the great value on the American market.

Summary of the  
Floating Small  
Talks Succinctly  
Arranged for  
Herald Readers

F. W. Walsman has resigned from the Armour Car Lines and will have charge of the loading of refrigerator cars for the farmers of this section. The Armour Lines will soon be dissolved by order of the government and Mr. Walsman had a good chance to go into business for himself and his many friends are congratulating him on his new venture. He probably knows as much or more about the loading and shipping of Sanford products than any man here and this work under his personal supervision will receive the careful attention that it requires.

### CHULUOTA INN

CHULUOTA, FLORIDA

Open December 7th for the Season.

MRS. CHAS. D. BRUMLEY, Mgr.

Walter Hand, left unexpectedly for their home in Scotch Plains, N. J. Sunday night, called by the sudden illness of Mr. Hand's father.

Miss Mollie Abernathy left yesterday to return to the Woman's College at Tallahassee to resume her studies.

Glenn Irwin, who has been spending the winter in Sanford, left on the steamer, Saturday for Jacksonville, en route to his home in Fort Wayne, Ind.

#### In Honor Of Bride and Groom

Mr. and Mrs. Edward Day were again hosts at a very delightful river party aboard their beautiful yacht the Francis S. the occasion being in honor of Mr. and Mrs. Frank Hand, a recent bride and groom of Scotch Plains, N. J. Other guests were Mr. and Mrs. Walter Hand. The party left the city Friday afternoon, returning Sunday morning. Mr. and Mrs. Day are gracious hosts and the commodious and comfortable yacht an ideal home for entertainment.

#### Card of Thanks

We wish to express our sincere appreciation for the kindness and loving sympathy extended us by our friends in our recent bereavement.

W. A. Tubbs and family.

#### Ex-Governor Jennings Dead

Following a sickness of several weeks W. S. Jennings, former governor of Florida, died Saturday afternoon at the Hotel de Ponce Leon, St. Augustine. The funeral will be held tomorrow from the Jennings home at Jacksonville. A widow and son Bryan survive the former governor who was first cousin of William Jennings Bryan. He was 57.

As a politician and business man William Sherman Jennings was one of the most widely known men of Florida. He was born in Marion county, his father Judge Joseph W. Jennings, being of an old colonial family. After leaving the public schools he studied law in Chicago and in the law office of his brother, Charles E. Jennings, at Salem, Ill., who for a time was a partner of the father of William Jennings Bryan.

In 1886 Mr. Jennings removed from from Illinois to Brooksville, where he was admitted to the bar. In 1887 he was appointed court commissioner and a year became judge for Hernando county bench. In 1882 he was elected to the lower house of the legislature from Hernando county. On his re-election in 1895 was made speaker and in 1896 had the pleasure as presidential elector of casting a ballot for his cousin at the Chicago convention in which the silver tongued orator from Nebraska sprang it into fame.

Mr. Jennings in 1900 was nominated for Florida's governorship and his election was won by a majority attesting his personal popularity. He was a Baptist and was married twice his first wife having been Miss Corine Jordan of Brooksville, and the second having been Miss May Mann daughter of Sen. A. S. Mann. In Brooksville Mr. Jennings performed many public duties such as school board trustee and member of city council. He acquired large holdings in the Everglades and was wealthy.

#### LATE WIRES

News From Every Part Of The World Gathered For Busy Readers Mexico City, Mar. 1. (By Associated Press). Capture Cirilo Arenas and Marcelo Cerav, rebel leaders announced and newspapers report rapid complete pacification country declaring only Villa, with small force Manuel Banaez, and Felix

Diaz, both virtually powerless in gulf region remain of many rebels operating there years ago.

Boston, Mar. 1. Many passenger trains cancelled in New England today to expedite food and fuel deliveries held up by recent blizzard. Four thousand freight cars stalled in New Haven yards.

London, Mar. 1. Former premier Asquith returned to Parliament today as the result of a recent election from Paisley. Times says he returns under conditions usually attendant upon visits of royalty to Parliament.

Washington, Mar. 1. President Wilson has begun to work on his answer to the British and French premiers Adriatic situation, but the nature of the communication is not made public at present. Apparently planning reply promptly to suggestions updates to join British, French governments in seeking solution of problem through negotiations between Italy and Jugo-Slavia. Noted here Rome dispatches indicated premier Nitti already opened conversations with Jugo Slovaks to this end.

London, Mar. 1. Unsuccessful attempt has been made to assassinate Lord Acton, British premierminister of Finland at Helsingfors. Shots fired at minister while driving with out effect. Motive undetermined.

Geneva, Mar. 1. Ten hundred and thirty two deaths, mostly children and eight births at Vienna, February eighth to fourteenth according to a telegram received here.

#### JUVENILE COURT MEETING

Crawford Jackson is Here To Inject New Life Into The Association The Juvenile Protective Association organized here several years ago by Crawford Jackson the general secretary and that did such good work here for some time will be re-organized Tuesday afternoon at four o'clock in the parlors of the Carnes Hotel.

All of those interested in this great work of saving the boys when they are in trouble and should be placed under the care of the Juvenile Court officer ought to be at this meeting as this work is the greatest work that is being done for the boys and girls both white and colored in the county today.

14,260 children were handled on probation plan or satisfactorily placed during the year just closed and from there a general average of 83 per cent made good.

Seminole County made a better average than this while the court was acting and it is the purpose of the meeting tomorrow afternoon to revive the interest in the court and get the people of the county to take up this great work again with the juvenile delinquent of the county.

#### A Merchant Prince

There was an old goezer and he had a lot of sense; He started up a business on a dollar eighty cents, The dollar for stock and the eighty for an ad, Brought him three lovely dollars in a day, by gad; Well, he bought more goods and a little more space And he played that system with a smile on his face. The customers flocked to his two-by-four

And he soon had to hustle for a regular store. Up on the square where the people pass, He gobbled up a corner that was all plate glass. He fixed up the windows with the best that he had And he told 'em all about it in a half page ad. He soon had 'em coming, and he never quit, And he wouldn't cut down on his ads one bit. Well, he's kept things humming in town ever since, And everybody calls him the Merchant Prince. Some say it's luck but that's all bunk—

Why, he was doing business when the times were punk. People have to purchase and the old goezer was wise— For he knew the way to get 'em was to advertise.

THE DEVIL

## H. R. STEVENS G. W. Spencer - J. D. Davison

The Mayor, two ex-Mayors, and all three of them Sanford Boosters. They all know Sanford's pep and they are all old Base Ball men. From what they say of Sanford's prospects this year we are sure that Sanford will romp home with the bacon.
