

Stanford Theater News for the Coming Week

ONE OF the funniest pictures ever produced based on the "repent the marriage secret" idea, "Repent at Leisure" with Wendy Barrie and Kent Taylor in the leading roles, will be shown at the Ritz next Tuesday.

USING HIGH comedy to solve their light-hearted problems, Burgess Meredith, Marie Oberon, and Melvyn Douglas scramble love and romance in Ernst Lubitsch's "That Uncertain Feeling" which will come to the Ritz Wednesday and Thursday.

PROGRAM FOR WEEK OF MAY, 25th

Sunday, Monday—"MEN OF BOYS TOWN" with Spencer Tracy, Mickey Rooney, Henry O'Neill and Mary Nash. Also—Cartoon and Metro News.

Tuesday, Bargain Day, Double Feature—"REPENT AT LEISURE" with Kent Taylor, Wendy Barrie and George Barbier. Also—"WHERE DID YOU GET THAT GIRL?" with Leon Errol, Helen Parrish and Eddie Quillan.

Wednesday, Thursday—"THAT UNCERTAIN FEELING" with Marie Oberon, Melvyn Douglas and Burgess Meredith. Also—"INTERNATIONAL FORUM" and Universal News.

Friday, Saturday—"IN OLD COLORADO" with William Boyd, Russell Hayden, Andy Clyde and Margaret Hayes. Also—"MR. DYNAMITE" with Lloyd Nolan, Irene Hervey, J. Carrol Nash and Robert Armstrong.

THE PRINCIPALS of "Men of Boys Town" showing at the Ritz Theater tomorrow and Monday are Bobo Watson, Spencer Tracy, Mickey Rooney and "Bohunk," the dog. The picture is said to surpass in every way its predecessor, "Boys Town," which was shown about two years ago.

MARGARET HAYES, William Boyd, Andy Clyde, and Russell Hayden are shown above as they appear in "Hopalong Cassidy's" latest film adventure, "In Old Colorado," coming to the Ritz Theater next Friday and Saturday.

IRENE HERVEY and Lloyd Nolan are co-starred in the tense, action-packed thriller, "Mr. Dynamite," an under-cover story behind sabotage plots directed against munitions plants in this country. The film will be screened next Friday and Saturday at the Ritz.

THIS WEEK'S CASTS

MEN OF BOYS TOWN		THAT UNCERTAIN FEELING	
Father Flanagan	Spencer Tracy	Jill Baker	Marie Oberon
Whitely Marsh	Mickey Rooney	Larry Baker	Melvyn Douglas
Boo Wee	Bobo Watson	Reuben	Burgess Meredith

Frankie	Joe Brown, Jr.	George Davidson	Stanley Andrews
Shrimp	Leonard Buss	Hank Merritt	James Scry
Jack	Kenneth Landy	Jack Collins	Morgan Wallace
Pete	Joe Cobb	Blackie Reed	Weldon Heyburn
Stuyvesant	Billy Jack Elliott	Jim Stark	Eddy Waller
Capolly	Peter Sullivan		
	Thurston Hall		
	Wade Boteler		

Colleges Assist Sale of Defense Bonds and Stamps

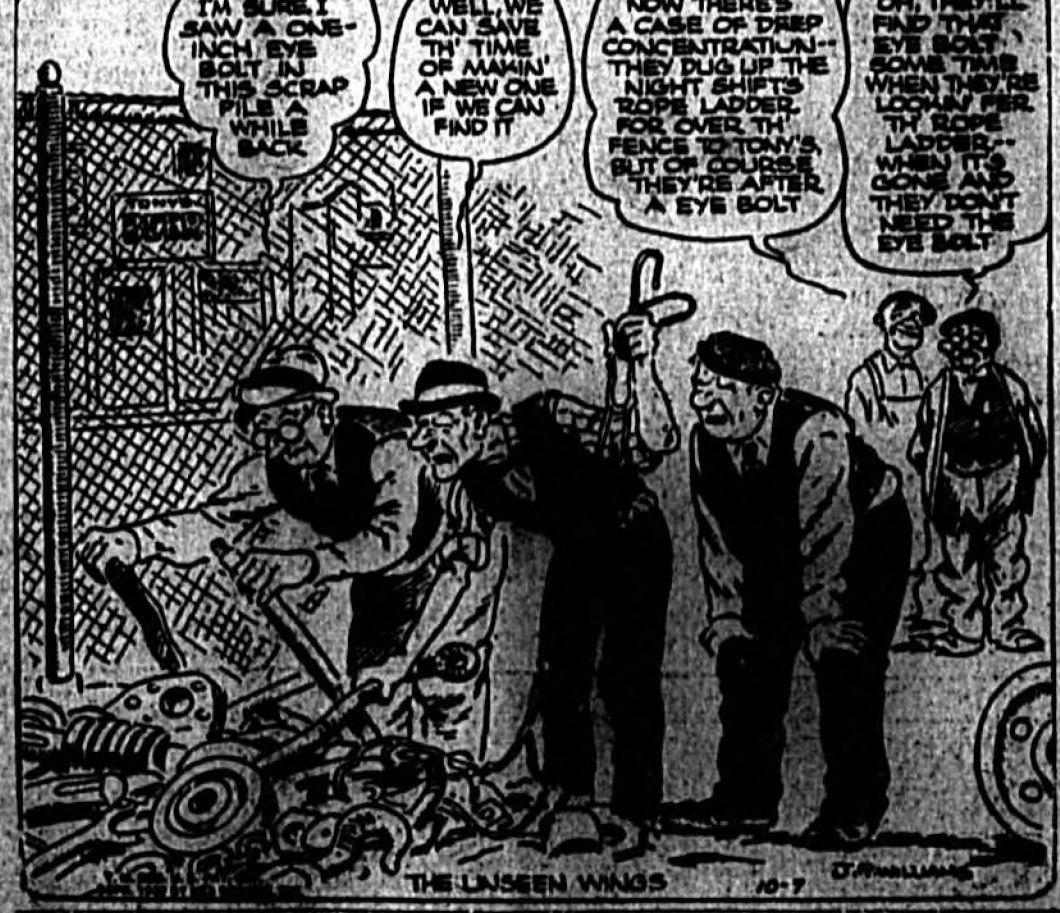

WINTER PARK, May 24.—(Special)—Colleges and universities are shown above as they appear in "Hopalong Cassidy's" latest film adventure, "In Old Colorado," coming to the Ritz Theater next Friday and Saturday.

Colleges assist in the sale of defense bonds and stamps, according to an announcement here today by Dean Winslow B. Anderson of Rollins College, campus headquarters, where plans for stamps and bonds are being made by students and faculty, have been established by all colleges, both with the college year nearing its close, campus committees are making a concerted effort to encourage the sale of defense bonds and stamps by calling student meetings, rallies and faculty meetings, and by the distribution of information regarding defense stamps. On some campuses, Anderson reported, personal campaigns have been conducted.

College officials recognize the sale of these bonds and stamps as a means of promoting "defense saving," he stated, and the state committee is receiving excellent support from the colleges. Early reports of the sale have been most encouraging, and although the financial resources of students and faculty are not great, the results are being commensurate with the effort.

Colleges have been urged to continue their efforts to sell defense bonds and stamps, and to report the results of their efforts to the state committee.

OUT OUR WAY

By J. R. WILLIAMS

I'M SURE I SAW A ONE-INCH EYE BOLT IN THIS SCRAP PILE WHILE BACK.

WELL, WE CAN SAVE 'EM TIME OF MAKIN' A NEW ONE IF WE CAN FIND IT.

NOW THERE'S A CASE OF DREP CONCENTRATION! THEY DUG UP THE SCRAP LADDER FOR OVER THE FENCE TO TONY'S, BUT OF COURSE THEY'RE AFTER A EYE BOLT.

OH, THEY'LL FIND THAT EYE BOLT SOME TIME WHEN THEY'RE LOOKIN' FOR 'EM IN THE SCRAP LADDER WHEN IT'S GONE AND THEY'D NEED THE EYE BOLT.

THE UNSEEN WINGS

IN THE COUNTY COURT ROOM, JUDGE CHARLES LINWOOD CHASE, presiding, heard the case of CHARLES LINWOOD CHASE, Defendant, vs. CHARLES LINWOOD CHASE, Plaintiff.

CHARLES LINWOOD CHASE, Plaintiff, was represented by his attorney, JAMES SCRY, Esq.

CHARLES LINWOOD CHASE, Defendant, was represented by his attorney, JAMES SCRY, Esq.

The court heard the testimony of the parties and the witnesses, and then rendered its verdict.

The court found in favor of the Plaintiff, CHARLES LINWOOD CHASE, and awarded him the sum of \$100.00 in damages.

The court also ordered the Defendant, CHARLES LINWOOD CHASE, to pay the costs of the suit.

The court then adjourned until the next day.

THIS JEWEL IS NOT FOR SALE!

Good name in man or woman, Mr. Shakespeare's Iago said, is the immediate jewel of their souls

Back of every business success, back of the smallest product that contributes to that success, is an enduring good name. This is a jewel that is never for sale.

Advertising cannot make a bad name good. Nor should it try! But advertising can carry a good name to a rich and just reward. In fact, advertising is the voice of the good name. Through advertising, the good name is able to make the promise that men live by.

This newspaper is proud of the good names in its advertising columns. You will find nothing but good names here.

No Spices To Eat

Gourmets who are particularly fond of highly seasoned foods, and whose dinners are a failure if plenty of spices are not among the ingredients will be disappointed to hear that they will soon have to do without their sage, thyme, paprika, saffron, and to a lesser extent cinnamon, cloves, mace, and nutmeg.

The cause, of course, is the war, which has shut off many of the sources of supply. For instance, sage used to be picked by goatherders in Greece and Yugoslavia, and with the war spreading to those two countries, trade prices for sage have risen from seven cents to \$1.35 a pound, which is quite a jump.

Thyme came from France and the product is not yet grown commercially in this country. The best brand of paprika was imported from Hungary, and a little gets through now from Portugal and Spain, and that may be stopped before long. A 350-acre paprika experiment is under way in Louisiana but production is not yet possible.

The price of Spanish saffron, used to color and flavor fancy rolls and buns, rose from \$18 to \$45 a pound, and is still impossible to obtain. Present stocks of East Indian pepper are expected to last two or three years, and cinnamon, cloves, mace, and nutmeg may continue to reach us but only in dribbles.

Thus it may be seen that if anyone wants to do any fancy eating he will have to spice his food with some reserve stocks or he must be prepared to pay a king's ransom for it. However, it isn't as bad as it sounds, for it would probably do us all good to have simpler tastes in this matter of our eating.

Key West Booms Again

The tide of fortune has again changed for Key West, and the southern-most city in the United States, which in years gone by was the richest in Florida, later to become the "forgotten city," is now in the midst of an economic boom which many believe will be a permanent condition.

Back in 1912 when Flager first put his railroad into the island city over the fabulous over-seas route, Key West was a thriving industrial town with cigar factories, sponge fishing, and other kinds of fishing, combining with a sizeable naval establishment, to make a flourishing population.

By some crook of misfortune, the cigar factories moved to Tampa, the sponge fishermen to the West Coast, and the Navy closed its base. Key West was in for many dark days which reached a climax in 1935 when a devastating hurricane so damaged the overseas railroad that the city was cut off from all contacts with the mainland except by boat.

It was soon after this that the federal government stepped into the picture with a plan to help Key West get back on its feet. Many public works projects were started, the old overseas railroad was converted into a motor highway, which is a scenic wonder, streets and parks were built and improved, and every effort was made to put people back to work.

But it was with the coming of re-armament that Key West really began to enter the prosperous stage, what with the re-opening of the naval station, deepening of the submarine base, building of a marine railroad capable of carrying the Navy's largest destroyers into drydock for repairs, construction of a large Army airfield, building of barracks, mess halls, bungalows, apartments, and a \$750,000 low cost housing project.

Soon an aqueduct with a three and a half million gallon capacity will be completed and, then, this last bar to Key West's advancement will have been vaulted.

WEEKLY NEWS COLUMN

By JOE HENDRICKS

CITRUS, SUNTER, MARION, ORANGE AND OSCEOLA
 Some years ago the Congress of the United States passed a bill authorizing the United States Housing Authority for the purpose of clearing slums in the cities. This Authority has done a good job. The only snag in my section of the country is that the slum-clearance projects have been Negro projects. I am glad that we could give the Negroes better quarters to live in because they are the white people and should live in better quarters instead of the shanties which they have been living in, but in discussing this matter with the United States Housing Authority I informed them I would not vote for more funds for this project unless the white people were given some projects. Recently Congress has authorized an appropriation of \$10,000,000 as an experiment for building some units of projects for rural sections. This Authority, under the direction of former Congressman Claude Parsons has just held a conference with the Florida Members and has allocated \$1,000,000 for the State of Florida. The project committee throughout the State are to receive aid. These committees were decided upon by the Authority after a survey of the population of the various sections of the State and these were: Holmes, Citrus, Marion, Orange, and Osceola Counties. These counties were selected because about \$25,000,000 worth of aid is to be expended in a variety of other ways. At a total of about \$1,000,000 will be a very small figure. The counties involved of course will only have a small part of this money. I trust that the project will be a success.

Sparks Denies Retirement In Theater Field

E. J. Sparks, president of Florida State Theatres, Inc., the company which operates approximately 150 motion picture theatres in Florida, yesterday authorized the printing of the following statement:

"In response to the numerous inquiries which have been made of me by representatives of the press and, particularly of the motion picture trade papers, regarding a possible sale by me or members of my family of certain stock which we own in corporations operating theatres in Florida, let me say that no such sale has been contemplated. I am withdrawing partially from the arduous duties which I have attended to personally since I entered the theatre business in Florida 25 years ago but which will also have me in a position to devote as much of my time as is necessary to assisting the members of my present organization in their management of the theatres.

"Realizing that man's stay upon this earth is not eternal and recognizing the obligation I owe to my family, the 2500 members of my organization, and to the good people of Florida who have, by their kindness, made our success in our business possible, I have also authorized my attorney to try and work out a deal with Paramount Pictures, Inc. which will provide for the ultimate disposition of all stock which I own in the theatre company in Florida in such a manner as to furnish my heirs the greatest possible protection."

"I will leave the operation and management of our theatres with the organization of Florida men and women which I have built up over the long period of years in which I have been in business in this state."

"I will guarantee to the people of Florida that our company will continue the policies which I have established and maintained of re-investing the money

1500 Homeless After Flood in New Mexico

CARLSBAD, N. M. May 25.—More than 1500 persons were homeless in Southern New Mexico last night as result of a Pecos River flood resulting from excessive rainfall.

Five persons were known to have been drowned in this vicinity.

The body of Mrs. W. L. Smith, miles south of Carlsbad, was found in the brush on a small island near Six Mile dam, six miles south of Carlsbad. She was swept to her death by flash floods carried away her home.

CHIMNEY ROCK CAMP FOR BOYS
 In the Land of the Sky
 Near Asheville, North Carolina
 24th SEASON JULY 1st to AUGUST 25th
 After a winter in school your boy should be given the opportunity to get away from the artificiality of man-made surroundings. Camp today offers a safe and wholesome freedom from the smoke and grime, brick and mortar of the city. It solves the problem of the parent whose son faces a long, tedious and aimless vacation and the mischief that idleness provokes.

In camp the boy learns how to get along with other people and to make friends by being a friend. This is a value that cannot be over estimated in later years of life.

Parents choose Chimney Rock because of the definite and direct results in character development that has been produced in the lives of the boys whose privilege it has been to attend. The distinct aim is to prepare youth for a richer living. Ideals of self-control, unselfishness, loyalty, self-reliance, and social adjustment are stressed.

The spirit of achievement is an inner force in every boy. Chimney Rock seeks to promote this force. Campers are taught how to achieve by doing things with their own hands, thus awakening new sources of joy by actual accomplishment.

At Chimney Rock your boy will find plenty of adventure without danger, romance without artificiality and thrills with freedom from restraint of ordinary living.

Thoughtful parents will consider the cost of their boys' summer at camp as an investment in his future and not an expense.

Sanford Wins Twin Bill 4-1 And 4-1 Against Leesburg

Williams Hits Homer With Two Aboard To Score 3 Winning Runs In 7th

Seminoles Play G-Men Tonight

LaValley Drives In 2nd Game Winners With Double In 3rd

Sanford won both ends of a twin bill yesterday beating Leesburg in the nightcap. In the first game, Sanford won the game with two aboard when Ray Ashton had kept the catcher from getting but one out in the opener Leesburg scored in the sixth frame when Williams hit a single and scored on a double by White. Sanford came back in the same inning to went to third on a single by McRaney and came home on the throwing of a fly ball.

In the second game Leesburg again took an early lead by scoring in the second frame through two errors. At the beginning of Sanford's bat in the third inning Girk, Kettles and Hardman got a single with Girk scoring on the last single to tie up the score. Ernie LaValley walked up to wing a double to center field and score Kettles and Hardman for the winning runs. LaValley scored himself on a double by McRaney.

Catcher Miller for Leesburg was chased from the second game in the third inning as he disputed a play at home plate and struck Umpire Lee. As Hardman was rounding third on LaValley's double the ball came in to Miller from center field and Miller reached to touch Hardman. As the two came together a cloud of dust arose and the umpire called the runner safe. Miller jumped up infuriated and justified into the umpire, pushing him around for a second and was ordered off the field.

Bean Ball Aids Jurges' Batting

NTW YORK, May 26.—(Special)—Outstanding sensation of the spring batting statistics of the National League is Big Jurgens, GGIant's shortstop. Big question mark in Giantland during training season was whether Jurgens would be a good ball-player at all this year and if so whether his head injury of 1934 would make him plate shy. So what happens. After 10 seasons in the league in which his top batting average was his 1934 in 1937, Jurgens was hitting a .375 clip when Terry's New Yorkers embarked on their first western trip. He had played in every game, and was tie for the league lead in hitting two baggers, as well as second only to Eno Slaughter in the batting averages.

Maybe that wallop on the thick sock last June turned Bill's clothing clock to 1933, when he hit .364 in the world series, even though his club, the Chicago Cubs, finished second to the Yankees in the series itself.

Sporting Events Accompanying Sugar Bowl Classic Announced

NEW ORLEANS, May 26.—(Special)—Headlined by the eighth annual sugar bowl football classic on New Years day, the 1941-42 calendar of sports sponsored by the New Orleans Mid-Winter Sports Association will begin on Saturday, Dec. 27 with a paughting and rowing regatta.

President A. N. Goldenberg made this announcement today in listing the events on the program and the dates approved by the Executive Committee.

Bradenton Shipments Of Tomatoes Are 1100

BRADENTON, May 26.—(Special)—Approximately 275 cars of tomatoes were shipped from this section last week to bring the total shipments for the season to 1100 carloads. Tomatoes sold at auction at the farmers' market in Palm Beach brought as high as \$3 a lug, prices continuing unusually high for this late in the season. Buyers and shippers have estimated the value of the crop to the growers at more than \$1,000,000.

President Goldberg said. "That football fans have requested tickets, at this early date is evident that the Sugar Bowl classic has grown in attractiveness in an amazing way in the seven years of its existence. "We like to feel that this is an expression of the confidence of the football fans of the nation in our efforts to provide the best game possible. "We are able to select our teams without any regard as to their locality and to choose our to choose our teams on a basis of performance and record and, therefore, have been fortunate in securing what the sport experts have called the National Championship game for the last two years.

Our first game in 1933, between Temple and Tulane drew 20,026 fans. Our game last New Year's Day 1941, between Boston College and Tennessee, taxed our capacity of 75,000. So, in the intervening five years, we more than tripled our attendance, a growth without parallel in the history of post season football classics.

Braden Drought In Southeast Continues

By Associated Press Southeastern states parched under clear skies again Sunday as one of the worst droughts in recent years dried up streams and sent government officials in action to avert a threatened shortage of electric power. Shallow streams reduced the output of power plant generators to the lowest point known in some sections and defense agencies appealed to southeastern consumers to curtail use of electricity.

Nazis Lose 18,000 In Their Attempt To Capture Crete

Total Includes 5,000 Believed Lost In Invasion Try By Boats, Greeks Say

Germans Launch Another Attack

British Planes Shoot Down Five Enemy Craft With Troops

CAIRO, Egypt, May 27.—(AP)—Greek sources said today the Nazis thus far have lost at least 18,000 lives in their attempt to take Crete. This figure includes 5,000 thought to have been lost at sea while trying to invade the island by boats.

German troops launched a new attack west of Cana and cleared their penetration into the British defenses, forcing the defenders to fall back to positions in the rear, the British announced.

British fighter planes were reported to have shot down five troop-laden German planes at the Malemi airbase near Cana yesterday and destroyed several other Nazi planes.

The Germans, said by unofficial British sources, have been unable to take Crete from the air. Bombers broke through the island's defenses west of Cana, but the British, it is believed, have taken heavy casualties.

It appeared to have been an attempt to take the island by sea. The British, it is believed, have been unable to take Crete from the air. Bombers broke through the island's defenses west of Cana, but the British, it is believed, have taken heavy casualties.

The latest word, with the outcome of the German thrust still in the balance, was that fierce, hand-to-hand fighting was continuing in the area about the Nasib-held Malemi airbase.

Police To Patrol Houses In Summer

Residents of Sanford who plan to be out of town all or part of the summer were asked today to leave their homes in blood-red crosses at the Police Station for a closer watch of their homes in their absence.

This is an annual service of the Police Department. Chief Ray Williams said to reduce the number of summer robberies.

If these going on vacations give the keys to any one piece of a yard man or Sanit. Chief Williams asked that the Police Department be advised as it will know who is authorized to enter the premises.

Poultry Exhibition Is Planned Friday

Poultry raisers in Seminole County are invited to attend a county-wide exhibition and sale on Friday afternoon at 2:00 o'clock at the Seminole High School farm, Alex Johnson, who will give the demonstration, said today.

Exhibitors who have birds they wish exhibited may bring them to the demonstration, Mr. Johnson said, but he asked that they not be taken with the price.

Henry Nickle, related that that seasonal weather has boosted crop prices this year, but this factor could not be counted upon next year. Mr. Nickle said it would be a good policy to give several different crops.

Dismissing the question of crop prices in the event of a drought, Mr. J. S. Jones, said it would be a good policy to give several different crops.

Roosevelt Asks Three Billion For Airplanes

U. S. Policy Will Be Definitely Known After President's Talk, Press Told

WASHINGTON, May 27.—(AP)—In the midst of preparing a momentous pronouncement on governmental policy, President Roosevelt asked Congress today for \$3,319,000,000 in appropriations for more airplanes.

Of the total, \$2,790,000,000 would be for the Army and \$529,000,000 for the Navy. Stephen Early, presidential secretary, meanwhile told reporters that the Chief Executive would extend his "fireside chat" tonight an extra 15 minutes and added:

"I think you can say that Wednesday morning there can no longer be any doubt as to what the national policy of this government is."

The German grand admiral's warnings to the United States accused bitter defiance in Washington yesterday and highly placed authorities expressed belief that President Roosevelt would demand more active aid for Britain in a major "fireside chat" he is to deliver tonight.

The White House itself permitted the impression to grow that the speech the President is to deliver to the nation and the world by radio at 9:30 P. M. EST, would be one of the most important he has ever delivered.

"Rapidly changing conditions abroad" have prompted Roosevelt to revise the address completely. It was disclosed at the White House.

Presumably those conditions included the sternly worded admonition to the United States from Grand Admiral Erich Raeder, commander of the German navy, that American convoying would constitute an open act of war and that the American naval vessels were "aggressive."

Secretary Hull said the Roosevelt pronouncement appeared to be some sort of a threat to induce this country and probably other American nations to refrain from real efforts at self-defense until Hitler gets control of the other four continents.

He added it was a favorite Nazi method, either by threats or persuasion to induce European countries to refrain from self-defense until Hitler was ready to seize them. It is an integral part of the Hitler program of world conquest by force.

French Reassure U. S. They Won't Surrender Fleet

WASHINGTON, May 27.—(AP)—The French government gave renewed assurance in writing today to the United States that the French fleet and colonies would not be surrendered to Germany or to any other power.

Claude Henry-Haye, French ambassador, said the note was intended to remove misgivings here on the scope of the French-German collaboration.

Of possible significance was the fact that the note was delivered only a few hours before President Roosevelt's "fireside chat" tonight.

In Tokyo, in a statement on the eve of President Roosevelt's broadcast tonight, Captain Hideo Hiroide, navy ministry spokesman, asserted "the imperial navy is always prepared to meet any eventuality."

He asserted "The United States is now preparing to send warships to convey merchant ships, or, naturally, the risks of entering the war with action by Japan should this occur is clearly defined in the tripartite (Berlin-Rome-Tokyo) pact."

British Cadets To Train At Lakeland

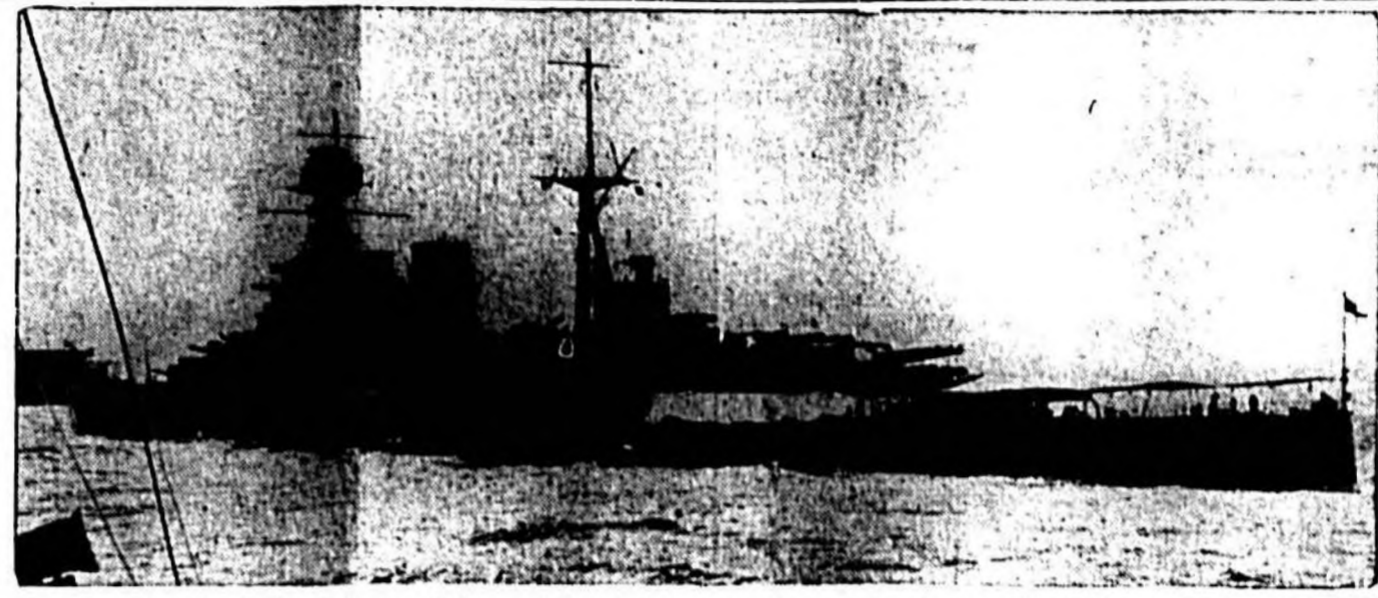

LAKELAND, May 27.—(Special)—Nearly 100 British flying cadets will arrive in Lakeland about June 5 to begin a 16-week training course in preparation for service in the Royal Air Force.

The cadets will be enrolled at the Lakeland School of Aeronautics which since September has been given military training to U. S. Army Air Corps cadets. The British cadets, who will be accompanied by British officers, will receive the same course.

Only one military instructor is offered at the Lakeland school and it is assumed that on completion of the course the cadets will be transferred to other fields for training.

Bismarck Sunk By British

ENGLAND'S H. M. S. HOOD DESTROYED BY GERMANS

In revenge for the sinking Saturday of the giant British battleship, H. M. S. Hood, above, the royal navy has sunk the new 35,000-ton Nazi battleship Bismarck in a fight near the Arctic Circle, it was learned today. The Bismarck was credited with destruction of the Hood. In the battle Saturday another British battleship was so badly damaged, the Germans claim, it was forced out of the naval battle—greatest of the war. The Hood, fully loaded, displaced 46,300 tons and was 860-foot long. She was armed with eight 15-inch guns.

Four Marksmen Go To Meet In St. Petersburg

Sanford Men Receive Medals Won Last Month In Matches

Four members of the Seminole Gun Club—Roy Williams, Charles Shaffer and Byrd Goode of Sanford and Jasper Wolfe of Howey—have returned from St. Petersburg where they took in the regular monthly shoot of the Florida West Coast Pistol League, held at the St. Petersburg pistol range Sunday.

Mr. Goode, president of the Seminole Gun Club and a director of the league, presented medals won by Sanford men at the shoot held last month in Ocala. Awards were to Roy Williams, expert, gold medal; James W. Williams, sharpshooter, silver medal; Al Lee, sharpshooter, silver medal; and J. A. Howard, marksman, bronze medal.

The June match of the league will be held at Jacksonville on June 15, Mr. Goode reported, and added it is the earnest desire of the Sanford club to have a large turnout for the occasion. League officers, he said, have promised that it will be possible for all the matches to be held in five hours or less, leaving plenty of time for contestants and their families and friends to return home before dark if they wish.

Scores at the meet in St. Petersburg were: Match I, Class AA, 50 yards: R. L. Standley, 181x200; C. A. Brown, 177x200; C. V. Klintworth, 170x200; Match II, Class A: Thomas Peres, 171x200; C. R. Lee, 173x200, and D. Sinclair, 169x200.

Class B, 25 yards, slow fire: F. R. Smith, 188x200; C. G. Robinson, 185x200; Jasper Wolfe, 183x200; Class C: Bill Park, 181x200; Doug Eubanks, 173x200; and O. Gay, 174x200.

Match I, Class D, 25 yards slow fire: Roy Williams, 185x200; Cliff Praxier, 183x200; E. Goodrich, 180x200, and C. H. Shaffer, 174x200.

Match II, Class D, timed fire: L. E. Goodrich, 191x200; R. L. Hutcherson, 187x200; Roy Williams, 179x200, and C. H. Shaffer, 168x200.

Match III, Class D, rapid fire: L. E. Goodrich, 191x200; R. L. Hutcherson, 187x200; Roy Williams, 179x200, and C. H. Shaffer, 168x200.

Match IV, Class D, full police course, 30 shots of slow, timed and rapid: Bobby Newbury, 282; R. L. Hutcherson, 278; C. H. Shaffer, 268; Roy Williams, 256. Aggregate scores were: Roy Williams, 598, and C. H. Shaffer, 788.

Health, Housing Committee Named

Members of the Health and Housing Committee of the Seminole County Deacons Council have been appointed to serve with Chairman Charles L. Park, James G. Sharon, Jr., secretary of the council, reported last night.

Those appointed to the committee are as follows: Miss Lucille Fournier, hospital administrator; F. E. Roussell, Ph. D., dentist and supplier; R. W. Bush, D. O., veterinarian; and J. H. Colquhoun, business manager of the council.

Dr. Park is chairman and has charge of medical affairs, Mr. Sharon is secretary and has charge of housing affairs.

Kire Last Night Partly Destroys Colored Dwelling

Fire last night partly destroyed a negro dwelling at Seventh Street and Hickory Avenue and nearly caused the destruction of two adjoining houses, as the flames licked into the air, R. T. Thomas, assistant fire chief, said this morning.

The loss was estimated at about half the value of the house and furnishings, but the owner, Charles Kanner, was in Orlando this morning and could not be reached to give a valuation on the property. It was determined that the building was not covered by insurance.

The call to the fire department came in at 1:09 A. M. and when the department reached the scene the rear of the house was a fire and two two-story houses adjoining were beginning to catch on fire. Quick action saved the two nearby houses but the center house was too far gone.

Cause of the fire was determined as the wood stove in the kitchen. Apparently hot coals dropped out of the stove to the floor and lit something for some time before the fire started, Mr. Thomas said.

Library Receives Two New Sets Of Reference Books

Two outstanding sets of reference books, the Dictionary of American Biography and the Dictionary of American History, have been obtained by the Sanford Public Library, Mrs. J. J. Moughton, librarian, announced today.

The set of biographies contains 20 volumes of figures in American history including all of those who have lived since the territory of the United States was begun. The co-authors of the work only omitted the British officers in this country who figured in early American history. The set of American history, the Dictionary of the History of the United States, is another of James Tuglow Adams' monumental works and published in six volumes, including an index volume. Mrs. Moughton said it is a complete collection of outstanding events of the history of the United States.

Both of the sets of books are excellent for reference work and it is unusual for a small library to be able to have them. Mrs. Moughton declared such works are usually found in a large research library or a college library.

City News Briefs

A regional meeting of the Baptist Training Union will be held tonight at 7:30 o'clock at the First Baptist Church to select the winner of the better speakers contest. The public is invited.

Willard Connolly, who was expected to speak over the "We the People" radio program tonight, will not be on the show until July 4, according to a telegram received here today.

The Lions Club will meet at 7:00 o'clock Wednesday night at the Valdes Hotel for the election of officers. James Burgess, district governor of Orlando, will speak.

Judge R. W. Ware will have charge of the variety program at the Kiwanis luncheon tomorrow and a quiz will be featured, with Charles Morrison leading the group in song.

R. A. Williams was issued a Continued On Page Two

Little Damage Is Believed Done By Period Of Drought

Lack Of Moisture Is Retarding Growth Of Some Produce

Crops in this section have not been seriously damaged by the drought, though growth has been held back because of the dry weather, H. J. Lehman, manager of the Sanford State Farmers Market, said today. He added that if rain falls in a week or so, vegetables will be all right.

Some celery fields have suffered, the market manager stated, but other acreages have not been hurt.

Most of the damage that has been reported has been to corn in high ground areas, Mr. Lehman said, while those on the low ground fields are withstanding the dry spell. The lowlands and Georgia have suffered more because they have gone longer without rainfall than this section.

Conditions in the southeast are steadily growing worse as the drought enters its second month, according to reports of the Associated Press.

Not since Apr. 25 has there been a general, moderately heavy rain in the southeast and the clear skies which prevailed yesterday through the night in Alabama and Texas to the Atlantic coast are expected to continue.

Unless rain comes quickly and abundantly to Georgia, State Entomologist Girardeau said, the peach crop in the southern section of the state would be of poor quality. Fifty percent of the crop is endangered, he said.

In Alabama, county agents in the north and conditions already were as serious as in 1930.

Considerable damage has been done to pastures, gardens and field crops throughout the region and field crops are beginning to feel the effects of the prolonged dry period.

Some rain fell in Alabama but E. D. Engh, meteorologist, said the amount was too light to have much beneficial effect.

British Oust French Consuls In Palestine

BERN, May 27.—(AP)—The British government has asked French consular officers in Jerusalem, Jaffa and Haifa, to leave Palestine within four days, the French news agency, Havas, reported last night in a dispatch from Beirut, Lebanon.

The French personnel will go to Syria.

1941 Salmagundi Is Distributed To Seminole High School Pupils

With a dedication to Miss Phyllis Smith, the 1941 Salmagundi, Seminole High School yearbook, was issued last week to eager students, who found in it a complete record of what they regard as their best year in school, the senior year.

Most interesting and designed principally to appeal to its student readers, the yearbook is a credit to its staff, headed by John Dunn as editor and Mary Lou, business manager.

The Hall of Fame contains these students who "because of their own outstanding characteristics, have been elected by a majority of the student body to represent the class of '41. Planned in it are the following: Ideal couple, Jessie Durdan and John Dunn; most attractive, Erma Doudney and Giles Chapman; most popular, Mary Martha Emrick and Dickie Brown; most friendly, Betty West and Bob Hickson; most athletic, Dot Kader and Joe Davis; most scholarly, Olive Crapman and Harold Madden.

The theme of the Salmagundi is "High school and American patriotism," which is carried out in the color scheme and incidental decorations. All phases of school life, including clubs, social activities, sports and classes are discussed and pictured in the annual.

Again this year, the yearbook will be entered for judging by the National Scholastic Press Association, which in 1939 awarded the Salmagundi second place in its division.

New German Battleship Is Torpedoed In Furious Fight Near Arctic Circle

Sinking Of Hood Quickly Revenged

Nazi Boat Probably Had 1300 To 1500 Officers And Men

WASHINGTON, May 27.—(AP)—The Coast Guard announced today the cutter General Green had picked up 39 survivors of a torpedoed ship somewhere in the Atlantic early today.

Caught after a three-day hunt, Germany's new 35,000-ton battleship Bismarck was sunk today by British naval forces in a thunderous sea fight near the Arctic Circle.

This swift revenge came to the British for the sinking of the 42,000-ton battleship Hood, which was blown to pieces by a single 15-inch shell fired by the Bismarck on May 24 with the British battleship HMS Prince of Wales.

Presumably, the Bismarck had a complement of 1,300 to 1,500 officers and men aboard, about the same number carried by the Hood.

At London, A. V. Alexander, first lord of the Admiralty, announced the Bismarck had been sunk by three British planes from the carrier HMS Ark Royal at 11:00 a.m. (1:00 A. M. EST).

London's "Evening Standard" announced the Bismarck had sunk the British battleship HMS Prince of Wales, which had been escorting the Bismarck.

The Bismarck, it is believed, had sunk the British battleship HMS Prince of Wales, which had been escorting the Bismarck.

Governor Signs Bill To Provide New Citrus Body

ALABAMA, May 27.—(AP)—Gov. Eugene B. Eicher today signed a bill to provide for the reorganization of the Citrus Industry Board.

The new board will consist of 14 members, including the Florida Citrus Commission and the Citrus Industry Board, and will be organized by July 1, 1942.

After first voting to raise the Governor's salary and declining to raise other cabinet officers from \$6,000 to \$7,500 each, the House adopted a provision in the general appropriations bill that will scale down the Governor from \$9,000 to \$7,500 and the cabinet officers from \$6,000 to \$5,000.

The Legislature passed a special salary bill containing increased figures.

This action was followed by indefinite postponement of the Senate appropriations bill pending on the House calendar. Thus the Senate must consider the House bill, or renege its own and send it back to the House.

The cabinet salary situation was muddled when Representative Harrell of Hamilton offered an amendment prohibiting increase of salaries by working of the appropriation bill. He called upon the House to pass a special and separate salary bill setting the figures.

Salaries of cabinet officers were increased from \$5,000 to \$6,000 annually by a Supreme Court interpretation of the 1939 general appropriations bill, although the general law fixed the salaries at \$5,000.
