

**...CESS VISIT HOSPITAL**—Princess Margaret of Great Britain visits to J. A. MacKinnon during visit to the veterans' hospital at Victoria, British Columbia. At bottom, a youngster took no chances on missing the Princess, shown leaving the hospital. He brought his lunch along and was prepared to stay all day for a glimpse of Meg, who walks with the hospital's director.

### Oviedo News

**By Marion Jones**

**OVIEDO**—Three of the members of the M.P.F. of the First Methodist Church, accompanied by Mrs. Madeline Lattrell and Lucille Brookshire, enjoyed a beach party at New Smyrna Beach Saturday. Mr. and Mrs. Joe Faircloth are home after a nice vacation trip to Mississippi and other points of interest.

Mrs. Geneva Abell and son, Willie, took advantage of being off Monday by taking off for Gainesville, where they visited Mr. and Mrs. Edwin Abell and son, Scott; continuing on from there they went to Polkton, Ga. to visit with Mrs. Abell's brother, Woodrow Buchanan.

Short Oliff's smile will greet you now at Roy Albert's Red and White. He is working in place of Albert Myers, who is off first enjoying a trip to New Smyrna Beach, where his parents, Mr. and Mrs. A. A. Myers, have been vacationing, then on to Camp Palmetto via Camp La-no-che Sunday.

Ann Reynolds is back on the job in the Oviedo Drug Store, but Miss Fleming is off for this week. It did not look right to see Elsie "on the outside looking in" (sitting down to be waited on) this morning.

Mr. and Mrs. A. M. Jones enjoyed the company of their uncle and aunt, Mr. and Mrs. Bill Mitchell this past week.

Oh, by the way, Ladies' Aid on to your beauty treatments good. Lola, our beautician, is on vacation—a well deserved one. She tells us that their plans have been changed to include a complete

### Daredevil Pilot Corrigan Is Now Citrus Rancher

**By JACK DUBROW**  
**United Press International**  
**SANTA ANA, Calif. (UPI)**—Twenty years ago, a grinning, red-haired young Irishman climbed aboard a dilapidated old monoplane at Floyd Bennett Field in Brooklyn and announced his destination as California.

Twenty-eight hours and 18 minutes later, the same Irishman, wearing the same grin, landed his antiquated craft at Maldonnell in Dublin, Ireland, and inquired of astounded officials:

"Is this Los Angeles?"

That was born the legend of Douglas Wrong Way Corrigan—a legend whose most tantalizing aspect has never been explained to complete satisfaction, namely:

Which way did Corrigan mean to go?

The daredevil pilot, now 61 and a citrus rancher here, has maintained for two decades that he really aimed for Los Angeles. But he adds with his impish grin:

"That's my story. I've been telling it so long I'm beginning to believe it."

**Red Compass Wrong**

To historians, this statement is something of a major concession, because at the time of his achievement, Corrigan said:

"I set that compass wrong or I would have got to California. Honest, I meant to go there. It was just dumb luck that I got to Dublin."

Life to Corrigan is a good deal quieter now than in the tumultu-

THIS CAR WAS A TOTAL loss following the three car collision Tuesday afternoon. Witnesses reported drag racing caused the accident shortly before 4:30 p.m. two miles west of Sanford on SR 46. Charges of reckless driving willful and wanton were placed against drivers of the two racing cars. (Photo by Bergstrom)

August Proclaimed Boy's Ranch Month

The month of August has been proclaimed "Florida Sheriff's Boys Ranch Month" said Sheriff J. L. Hobby yesterday. Sheriff Hobby pointed out that Gov. LeRoy Collins set aside the month to focus the entire state's attention on the ground breaking ceremonies on Aug. 1 at the Florida Sheriff's Boys Ranch near Live Oak and the month-long "Build The Ranch" campaign which is to be launched by the Florida Sheriff's Association. The association, said Sheriff Hobby, will attempt to raise funds for completion of a \$250,000 building program. The Governor has urged all citizens to support the sheriffs in their efforts to help needy and neglected boys, said Hobby. "Up until this time," said Sheriff Hobby, "I have received assistance from just one local citizen in certificates for our Boys Ranch."

FASRON 51 Wins Traffic Safety Award For June

Capt. J. D. Ramage, USN, Commander Heavy Attack Wing One, presented the "John H. Bear Memorial Plaque" for the month of June to Fleet Aircraft Service Squadron Fifty One on Tuesday, July 22. This safety award is presented monthly to a Squadron based at NAS, Sanford, which presents the best traffic safety record. The John H. Bear Memorial Plaque is named in memory of CDR John H. Bear. The plaque is retained by the squadron having the best monthly record until it is received by another squadron presenting a better traffic safety record for the succeeding monthly period. CDR H. A. Pahl, USN, Commanding Officer of FASRON-51 received the award in behalf of the squadron.

ICEBREAKER PLANNED

WASHINGTON (UPI)—The Senate Commerce Committee approved a bill Wednesday to authorize construction of a nuclear-powered icebreaker to patrol the Arctic. The bill would authorize construction of a nuclear-powered icebreaker to patrol the Arctic. The bill would authorize construction of a nuclear-powered icebreaker to patrol the Arctic.

Contributions in cash can be forwarded to the Florida Sheriff's Boys Ranch either through myself or by mail," he said. "Or anyone desiring to contribute construction material can do so by coming by to look at the building specifications," said Hobby. He pointed out that every sheriff in Florida has a copy of the specifications for exactly this purpose. Roads and paving have been completed by the Suwannee County Commission, the first crops were planted last spring, cattle, ponies and horses are grazing on the Ranch, and an area along the river front has been cleared as a building site. Ground breaking ceremonies will be held at 8 p.m. on Aug. 1 at the building site so that construction of the first building can get underway.

Swim Meet Tonight At Municipal Pool

All boys and girls interested in entering the City Swim Meet must sign an entry form before the pool closes at six p. m. tonight. All ages will be given an opportunity to swim with others of their age group. Entry forms may be secured at the Municipal Pool.

Confidential Plans For Bolita Racket Crackdown Studied

Representatives of Gov. LeRoy Collins yesterday told some 35 sheriffs and law enforcement officers, including Sheriff J. L. Hobby, Deputy Sheriff James Singleary and Sanford Police Lieutenant Jack Hickson, confidential plans for cracking down on Florida's giant bolita racket. The meeting, held in Orlando, was the second of a statewide series of information swapping conferences on the gambling problem.

Capt. S. D. Brown At SNAS Recently For Conference

Captain Samuel D. Brown, Assistant Chief of Staff for Readiness, on the staff of Vice Admiral W. L. Rees, Commander Naval Air Force, U. S. Atlantic Fleet, arrived from Fleet Headquarters at Norfolk, Va. for a conference at the Sanford Naval Air Station. The purpose of his visit was a conference with Captain James Ramage, Commander of Heavy Attack Wing One at Sanford. Navy authorities termed Captain Brown's arrival as a routine visit. Immediately after the conference Captain Brown departed for the Naval Air Station at Key West.

Leslie T. Bryan Appointed FHA Committeeman

Leslie T. Bryan, of Altamonte Springs, has been appointed as a member of the Seminole County Farmers Home Administration committee. Curtis J. Green, the agency's supervisor, announced this week. The other two members serving with Bryan are William P. Chapman and William G. Kilber. Bryan succeeds Henry Schumacher Jr. whose 3-year term expired this year. Each agricultural county in Florida has a 3-member committee to work with the county supervisor to make the best possible local use of the agency's farm credit service program. The committee determines the eligibility of applicants for all types of Farmers Home Administration loans, and determines the suitability and fair and reasonable values of farms to be taken as security for real estate loans. It also reviews borrowers' progress as they pay off their FHA loans by means of improved farming and turn to banks and other lenders for the credit they need. Bryan is a long time resident of South Seminole County and has been active in both citrus and cattle. He has served on many agricultural and county committees and is considered to be a valuable addition to the FHA Committee. The Farmers Home Administration is an agency in the U. S. Department of Agriculture that supplies long-term credit to farmers to buy or improve their farms, establish suitable soil and water conservation measures, and build or repair farm houses or other essential farm buildings. It has intermediate- or short-term credit for farm operations or to meet emergency needs. The agency does not compete with other lenders in the farm credit field. As a part of its credit service, it supplies farm and home management aids and advice. Information and instructions on how to apply for these loans may be obtained at Room 417, Sanford Atlantic National Bank Building, Sanford.

Longwood Jaycee Directors Visit Sanford Meeting

LONGWOOD—The directors of the Longwood Jaycees visited the Sanford Jaycees directors meeting Tuesday night, when the Sanford Jaycees met in the president's office. Several suggestions have been made for projects to be worked on in the ensuing year. The Ways and Means Committee, under the chairman, Tyrus Hicks, will examine these suggested projects for possible use. The Longwood Jaycee Directors meet in the Longwood Park the first and third Tuesday evenings. The regular membership meeting is held the second Tuesday night, also in the Park, weather permitting. There are 40 members of the Jaycees, but it is expected that this number will be more than doubled at the close of the membership drive now underway. Dick Zartman is chairman of the membership committee, ably assisted by Carlton Troner, Co-Chairman. Studying county-wide methods of conducting business, and ways of putting over selected projects were: Fred Eriavon, president; Kirby Sutton, 1st. vice pres.; Tyrus Hicks, 2nd vice pres.; Eugene Grant, secretary; Bill LaBree, treasurer; Dick Zartman and Carlton Troner, publicity and membership chairman.

Like, Dulles At Work On Reply To Khrushchev's Summit Meet

WASHINGTON (UPI)—The United States today began drafting for submission to its allies a proposed note to Nikita Khrushchev on an East-West summit conference. White House Press Secretary James C. Hagerty said President Eisenhower and Secretary of State John Foster Dulles were at work on a reply to the Soviet Premier's conditional agreement to meet with the West at the United Nations in New York. Hagerty would give no hint as to the draft's contents. He said he did not expect "any immediate answer" to Khrushchev because this country intends to consult its allies, principally Britain and France, before dispatching a message to the Kremlin. The general belief here was that a summit meeting will be held but that issues of participation, timing, and subject matter remain to be settled. It appeared that Khrushchev's proposal that the meeting start Monday was out. Both in London and Washington the belief was that all the necessary arrangements could not be made by then. Developments elsewhere: London—Britain welcomed Khrushchev's acceptance, but said Monday is too soon. A government statement said, "We are prepared to meet as soon as a special meeting of the Security Council can conveniently be arranged." Paris—Premier Charles de Gaulle, who had objected to a summit meeting in New York, was expected to announce his final decision later today. New York—Khrushchev in answers to questions submitted by Kingsbury Smith, United Press Nationalist China probably will approve any summit conference formula accepted by the United States. Nationalist China is a permanent member of the Security Council. Diplomatic authorities in Washington said the summit meeting might get underway in two weeks. First, however, the Allied governments must reply to Khrushchev's demand that India and the Arab states participate.

Speaking, Handshaking Tops Campaign Trail Today

By VERNON FREWELL BARTOW (UPI)—The hometown voters turned out en masse today to hear Sen. Spessard L. Holland in Bartow while his opponent, Claude Pepper, marched on Orange County in another quick handshaking tour. Today was "Holland Appreciation Day" in Bartow, and large crowds were expected to hear Florida's white-haired senior senator give his second major address in two days. Wednesday night, Holland underwent a scabbing attack on Pepper's 14-year Senate record. Speaking from Tampa over a television-radio hookup of nine major cities, Holland accused his Democratic primary opponent of "straying far from the thinking of the people of Florida and the nation." He added he had "seen nothing which causes me to believe he (Pepper) has changed his attitude." Pepper hit back quickly. He replied that Holland's address "lulled the voters to sleep" with his half hour "television version of his 'Legend of Sleep Holland.'" And Pepper added: "He (Holland) didn't say whether he is a Florida Democrat or a Washington Republican." "My opponent has said he will represent the people of Florida as he has in the past," Pepper said. "They now have his admission that he will give no tax relief or help the small businessman or the low income groups, no program to bring new industry or payroll into Florida, and no advance in social security programs to aid our thousands of senior citizens. While Holland was making his annual report of Washington activities to the home folks today, Pepper was off on another campaign swing, this time hitting Winter Park, Winter Garden and Orlando. A reception was planned this afternoon (4-7 p. m.) in Orlando. Holland was due to hold a press conference here with his speech at Peace River Park at 5 p. m. He planned to visit Orlando Friday, and Sanford, Oviedo and Deland Saturday. Pepper will visit Palm Beach County Friday, then go to Polk County Saturday. He is scheduled to address a Young Democrats dinner in Miami Saturday night. In his Wednesday radio-TV address, Holland charged that Pepper's judgment of Russian actions after World War II was "woefully wrong." He said Pepper was "about the last person in Congress to understand that Russia strictly follows the Communists line and seeks constantly to destroy us as a leading democratic nation." Holland also repeated his criticism of Pepper for voting against Marshall Plan aid to Greece and Turkey and for backing the Dixie-appeal Fair Employment Practices Commission (FEPC) proposal. Departing from his prepared speech, Holland elaborated on his role in the fight for a Tideland bill which gives the states control over submerged off-shore lands. He said it was "the most important piece of legislation in decades toward restoring the rights of states," and was especially important in Florida because of the state's long coast line. Pepper, who confined his campaigning to Pinellas County, concentrated on presenting his program of increased social security benefits. He called for abolishing the \$1200 maximum on earnings of those eligible for social security to "let our elder citizens with experience and ability keep working without restrictions on their income." Of Holland's speech, Pepper said he was "surprised he (Holland) did not take credit for the Republican recession and the foreign policy mess since he voted three out of four Republican proposals." "I am amused that he took 'coalition credit' for the many federal and military projects around the state, most of which I initiated even before he came to the Senate. I also was struck with the few he mentioned that were started after he came to the Senate in 1964."

CAPTAIN SAMUEL D. BROWN (left) leaves the office of Captain James D. Ramage (right) Commander Heavy Attack Wing One. Captain Brown arrived from Fleet Headquarters at Norfolk, Va., for a conference with Captain Ramage. (Official USN Photo)

### Wilson-Maier Wins Games From Hughes Texaco

Wilson-Maier Furniture Company came out on top in a double-header last night in Sanford Recreation Department's softball league.

The furnituremen defeated Hughes Texaco Service 4-1 in the opener behind the pitching of Don Merritt. Wilson-Maier collected 13 hits on which they tallied the 14 runs.

Batteries for Wilson-Maier were Don Merritt (p) and S. Galloway (c).

In the nightcap, Wilson-Maier again defeated Hughes Texaco Service by a score of 10-4. The furnituremen had 8 hits to the 8 hits collected by Hughes Texaco.

Batteries for Hughes Texaco in the second game were Jap Sasser (p) and Jim Linton (c); for Wilson-Maier were M. Baggett (p) and S. Galloway (c).

Tonight Burpee Seed Company will meet Phillips 66 for a double header under the lights at Fort Mellon Park.

### Local Swim Club Enters District Eliminations

The newly chartered Seminole Swim Association, a member of the Florida A.A.U. and sponsored by the Sanford Recreation Department, will enter the 2nd District Junior Olympic Swim Eliminations Friday and Saturday, July 23-24.

The Swim Club, composed of boys and girls from 8 to 18 years of age has been holding daily practices at the Municipal Pool. In their first practice meet with the Eustis Swim Club in Eustis last week, the team took several first places, competing with a team that has been organized five years. Ronald Perry, Recreation Director who has been coaching the swimmers, was well pleased with the results of their first competitive meet.

The Eustis meet will determine the six fastest swimmers in each of 68 events and relays to be entered in the State Junior Olympic Championship Meet on Aug. 9, 10, & 11 at Lake Worth.

Besides the host team of Eustis, Orlando, Leesburg, Delea, Daytona Beach, Mt. Dora and Sanford will be entering teams in the meet. This meet is a Sanctioned Meet of the Florida A.A.U. and all times registered are official A.A.U. times. The meet will be the first of two meets the Seminole Swim Club is entered in this month. An invitational meet at Mt. Dora will be entered by the team Wednesday, July 20.

### Mrs. Hazel West Appointed Teacher At Oviedo School

OVIDEO—Mrs. William B. West (Hazel), who has been named by the Seminole County School board to be teacher of the sixth grade in the Oviedo Grammar School for the forthcoming year, is also an old-timer to the citizens of Oviedo.

Hazel, as Hazel Williams, came to Oviedo from Alabama and Macon, Georgia to live with her sister and brother-in-law, Mr. and Mrs. Fred Bush. Hazel graduated from the Oviedo High School in June 1917.

That same year she couldn't resist the persistence of Billy West, so succumbed and took the life-time pledge in the fall of that year. He helped Marie, her sister, with the reception and were also at the altar for Hazel. The wedding took place in the First Baptist Church here.

Hazel and Billy, who by the way is the son of Mrs. C. L. (Pauline) West of this city, then attended the University of Florida together, both graduating in January of 1923. Hazel received a Bachelor of Art degree.

She immediately assumed teaching duties at Newberry, where she taught the third grade for one semester.

Then Hazel and Billy moved to Sanford, where both taught. Billy teaches Vocational Agriculture there yet. Hazel taught the second grade at Southside for three years. Last year she taught the fourth grade at Longwood for one half year.

They bought the Hunt home on Lake Charm and moved back to Oviedo with their little two and one-half year old Timmy. Timmy now has a two month old sister, Pamela.

After the birth of little Timmy, Hazel attended Stetson University and obtained her Masters Degree from that institution in 1926—Master of Arts and Education with a Major in Administration and Supervision.

### Veterans Should Contact VA For Release On GI Loan

A veteran selling his home and GI mortgage should first contact the Veterans Administration if he wishes to be released from liability to the Government on his GI loan.

Such a release protects the veteran in the event the new purchaser defaults in payments, Benjamin S. Beach, Officer in Charge of the Central Florida VA Office, said today.

Beach explained that a 1936 law allows veterans to be released from liability to the Government, provided the new purchaser meets credit requirements and assumes the veteran's obligations to the Government on the GI loan.

The new purchaser need not be a veteran, Beach pointed out, and the Government's guaranty of the loan is not affected by releasing the veteran from his liability.

In most states the only cost of obtaining the release is a small fee, usually not more than \$5, for a credit report on the proposed buyer, he said.

Release of the veteran from liability to the Government does not automatically release him from liability to the lender. However, Beach emphasized, the VA will furnish the prospective buyer's credit report to the lender, and otherwise assist any veteran who wishes to seek his lender's release. VA makes no charge for this service, Beach said, although the lender may require the payment of a nominal fee for the processing of his release.

### Teenage Calypso Dance Scheduled

OVIDEO—The teenagers of the Oviedo Recreation Program will have a Calypso Dance tomorrow night at 8 p. m. in the Oviedo City Hall.

A capacity crowd is expected to turn out for the event.

### SAFE IN PLANE CRASH

HEIRUP, Lebanon (UPI)—Irving Gen. Sydney Wade, commander of U. S. Marine forces in Beirut, had a close scrape Tuesday when his helicopter crashed into a tree, it was disclosed today. Neither Wade nor his pilot was hurt.

### J. Merriweather New Music Teacher At Oviedo School

OVIDEO—James Merriweather (Jimmy), who has been named by the Seminole County School Board as music teacher in the Oviedo School for the ensuing year, will be no stranger to many of the Oviedoans.

Jimmy, a graduate of Stetson University this past year and who holds from Nashville, Tenn., has been choir director of the First Baptist Church of Oviedo for the past year.

Therefore, all of the Baptists and many of the Methodists will know the new teacher. By the way, Jimmy is getting married Sunday. We understand his bride-to-be has not graduated from Stetson as yet and will continue her studies there after their marriage. I believe she will be a singer.

### 1938 Payments Up \$12 Million

The Prudential Insurance Co. announced today, according to its local agent, Floyd Palmer, that its payments to Florida policyholders and beneficiaries during the first six months of 1938 amounted to \$12,319,000.

This compares with \$10,992,000 paid during the corresponding period in 1937 and includes all types of claim payments, dividends, annuities and other insurance benefits.

Total Prudential payments in the United States and Canada reached an all-time first half record of \$67,503,000 and exceeded the first six-month payments of 1937 by \$56,862,000.

### Chuckles In The News

**Chuckles In The News**  
By United Press International  
WACO, Tex. — No one is swimming in the Bosque River these days. Despite an intensive two-day search of the river by parties in boats, on foot, on horseback and in helicopters, Albert the alligator, who escaped from Central Texas Zoo at Waco Sunday, was still at large today.

MEXICO CITY — You have a legitimate reason to feel insulted if your host serves you the right leg of a chicken. Pablo Sanjania, chef at Mexico City's Hotel Plaza Vista Hermon, says a chicken's left leg is more tender than the right. He backs up this contention by pointing out that the chicken sleeps on his right leg and develops greater muscles on that side.

MAUD, Tex. — Justice of the Peace Paul Jones didn't succeed on his first attempt, so he searched the waters of Lake Texarkana every day for a month and a half. Monday, he proved the time-honored theory that persistence pays off by finding a wallet he had dropped in the lake six weeks ago.

### LAFF-A-DAY

**HOT STEEL "MIRACLES"**  
TOKYO (UPI)—Now it's flying steel "miracles." Workers at the Nittetsu Warehouse Co. had a bad case of jitters today as the result of mysterious "flights" of hot steel fragments into the company's yard. One four and a half pound fragment tore a 10-inch hole in an iron fence, just missing seven workers. Another smashed into a pile of lumber. Police admitted they were unable to solve the mystery.

TODAY'S THOUGHT  
When is the moment when you have no more enemies, as I have found now?

## The Problem Of Education Is With Us Crisis After Crisis

Crisis succeeds crisis in world affairs. That seems to be the nature of the troubled, swiftly changing period in which it is our common destiny to live. If the present crisis in the Middle East is solved, at least to the extent that war is averted, no one need suppose that this will mark the end of tension. There will be other crises, doubtless in rapid succession, as long as we are alive.

Our society must not merely go from one crisis to the next. A case in point is the problem of forging an American system of public education adequate to fulfill the great demands made upon it. Not a system which responds erratically to this emergency or that, but one to educate a people that will measure up to the dream of this nation's founders.

When the first Sputniks were orbited last fall, there arose a great public clamor for more, better education to meet the scientific challenge thus posed by the Soviet Union.

When the United States was able to put its own satellites into orbit, this clamor died down somewhat. By now, relatively little is heard of it.

But some of the satellites are still aloft. While rebellion flared in Iraq, American Marines waded ashore on the beaches of Lebanon, while the United Nations Security Council debated events and sought to alter them, while we all have slept and wakened and pursued the varied courses of our lives, those bits of metal have silently continued their whirling orbits about the globe.

We may forget the satellites for days, weeks, on end—but they are there. We may forget the fundamental problems of education, but they are there. They must not be forgotten. They must be dealt with, seriously and imaginatively. The new term will begin all too soon. How do the schools measure up to the need?

## Monstrous Gun Point Comparison

Some voices in the United States and many more abroad have already been raised to compare the landing of American Marines in Lebanon with the action of the Red army in putting down the 1956 Hungarian revolution. According to this monstrous view, except for the shooting and killing done by the Red army, the actions are the same. Those who make this stupid comparison are not giving heed to the entirely different content of the two actions.

The Hungarian people rose in revolution to free themselves and to rid their country of the foreign totalitarian power which guaranteed the rule of terror by which Hungary had been brutally subjected. The Lebanese rebellion and civil war was aided by an outside power, the United Arab Republic, which in turn has had the support of the Soviet Union.

In addition to Nasser, the Soviet Union

is involved in the Middle East crisis which prompted late-hour action by the United States. The Soviet Union has been encouraging a form of aggression, called Arab nationalism and thereby more or less sanctified, which keeps the Middle East in turmoil. This is calculated to give Nasser access to Arabian oil, and to make the Soviet Union the sole outside influence in the Arab subcontinent. This constitutes a strategic attack on the West, as well as an oil grab and a policy of annexation by Egypt.

The Chamoun government is the legal government of Lebanon. The Hungarian government which called in the Russians in 1956 was acting at the point of Russian guns. Those who make the monstrous comparison between the actions in Hungary and Lebanon are ignoring the Communist conspiracy against the human race.

## Danger: Slow Driver Is Ahead

Whenever excessive speed is cited as a major cause of highway accidents, someone is always sure to contend that the driver who goes too slow is just as much to blame as the speeder. There is some truth in this notion, though it should be flatly stated that speeding, not dawdling, is by far the greater cause of trouble.

The higher the speed, the faster everything happens. No matter how skilled a driver

is, no matter how quick his reflexes are, he is bound by human reaction limits. The split second he requires may be precisely a split second too long.

Now, what about the driver who rumbles along at 40 on a busy highway with a posted speed limit of 65? He has everything under control: should an emergency loom, his chances of acting in time to avert serious trouble are good. He is likely to regard himself as the safest driver on the road, and may feel a bit smug about it.

The burr under the saddle is that most drivers tend to crowd the posted speed limit. Even in normal traffic, cars pile up behind a slow driver. If traffic is heavy, the small disaster is in the air. One by one, the following cars chance it and get around the fellow doing his safe and sane 40 per.

Then comes a driver who can't abide this one by one stuff. He darts out and runs past the line of cars at 75 or 80. If luck holds, he gets clear or is able to jog back into line. Luck doesn't always hold.

And when luck doesn't hold, in such a case, the man driving so much slower than the general traffic flow cannot escape a share of the responsibility.

## Science Today

SCIENCE TODAY  
By DELON SMITH  
UPI Science Editor  
NEW YORK (UPI) — Entomologists—insect scientists—are finding this an exceptionally fine year for cockroaches (from the cockroach viewpoint), to distress further the meticulous housewife. One entomologist has discovered they have a built-in chemical defense which often preserves them from harm.

Dr. T. Eisner of Cornell University, Ithaca, N.Y., found out why—cockroaches have a pair of glands alongside their throats which manufacture a chemical compound that is related to coffee, quinine, and many other substances common in nature. Science has long wondered why.

And as they retreated, their bodies were in contortions from partial paralysis. They recoiled quickly. But they had had enough. The spiders also were repelled, but only by mature cockroaches.

This may explain why this is a fine year for cockroaches. They've learned—many trills of them—to deal successfully with their body chemistry with the insecticides which are used to devastate their populations. Science is working on new insecticides to give them their compensation.

**THE BIBLE**

Let us not love in word, neither in tongue; but in deed and in truth.—(1 St. John 3, 18.)

Words of love are the most welcome words in any language. But words alone are not enough. They must be uttered "in truth" from the heart of the speaker, and proved by deeds. Only thus can we show our love to others, as God has shown His love to us through the life of Jesus Christ.

## Herlong Reports

We think it is time that Congress name a committee for some type of supervision over our Central Intelligence Agency, which at the same time would respect the secretary's obligations of its work.

At present, the CIA is the most secretive of all our agencies. No one has any idea what is going on inside this gigantic organization other than those in immediate charge. The CIA actually is our eyes in other parts of the world. Its job is to keep us informed as to what is going on behind the scenes. For this Congress appropriates millions each year.

Recent events have caused us to doubt the effectiveness of this agency. It may be the best in the world and doing a grand job, but we don't know it. In an operation of this size incompetence and inefficiency could remain hidden for a long time.

This country apparently was unaware of the trouble that was brewing in Venezuela when Vice President Nixon's life was endangered there. And more recently, we obviously were in the dark as to what was going on in the Middle East.

It may be impossible to establish any standards for evaluating the CIA's performance, but when we spend the money that we are, the Congress should have some knowledge of what is taking place. We do have groups doing secret work about which Congress knows. For instance, there is continuing evidence that the Federal Bureau of Investigation is doing a top-notch job. And there is the Joint Committee on Atomic Energy. No one has ever said that this latter committee has given away any secrets of the Atomic Energy Commission.

This brings up the situation in the Middle East. Washington was

## Foreign News Commentary

Foreign News Commentary  
By CHARLES M. MCCANN  
UPI Foreign News Analyst

The Middle East is studded with hot spots that could inflame the present crisis.

But there are sensitive situations in such seldom-mentioned places as Kuwait, Yemen, Libya and the Sudan.

In addition, there is great tension along the frontier between Turkey on one side and Syria and Iraq on the other.

Great Britain has been alarmed by the disclosure that Sheikh Abdullah As-Salim As-Sabah, ruler of its little protectorate of Kuwait, has conferred twice with President Gamal Abdel Nasser of the United Arab Republic.

Yemen also has given its notification to the high command of the United Arab Republic, with which it is now affiliated.

Yemen has been attacking Britain's protectorate of Aden sporadically for several years and openly hopes to take it over.

**Try and Stop Me**  
By BENNETT CERR

A FEW NOTABLE REMARKS collected by Hal Stebbins:

A Sidney Tremayne: "Letters that should never have been written and ought to be immediately destroyed are the only ones worth keeping."

George Bernard Shaw: "England and America are two countries separated by the same language."

Oscar Wilde: "The difference between literature and journalism is that journalism is unreadable and literature is unread."

On his own, Stebbins adds: "A chip on the shoulder indicates there is wood higher up" and "A good listener is usually thinking about something else."

An upstart draft board still is wondering what to do with this letter: "We beg you to exempt our employe Joe Inaglio. He is the only man left in our plant, and at the moment is carrying on with 34 experienced girls."

Constance Almy of Russell Sage College, Troy, New York, (left) and Jean Alfonso, University of Oregon, previewed fall millinery for college girls in New York City. Both were visiting New York as two of Glamour Magazine's Ten Best Dressed College Girls. Constance chose a hood-hugging black velvet helmet to show off her blood brown and Jean, a youthful bright red felt off-the-face roller to balance her loose fitting two-piece suit.

**Is Chivalry Dead Or Am I Wrong?**

By GAY PAULEY  
 UPI Women's Editor  
**NEW YORK (UPI)** — Well, all I said was that New York men had misplaced their manners. And then came the deluge! Letters on the subject of men and chivalry poured in from both sexes and all parts of the nation, commenting on my recent gripe that men raced me for cabs, subway seats, elevators and telephone booths; that, in short, men were NOT behaving like gentlemen. Or, like the girl born a little farther south than Manhattan had grown up expecting them to.

Whimsical letters, some of them in rhyme, came across the desk. So did letters agreeing the "100 per cent American boys" no longer had the virtue of good manners, but saying, we women could take some of the blame because we competed with men for jobs and we'd lost some of our own femininity. And most of all, letters from irate males castigating me for carping. Some samples:

"Go Home"  
 From a "fan" in San Diego who signed himself "a New Yorker."  
 "I would like to compliment you on being the biggest blowhard in New York City — quite a feat in a city so large. . . .  
 "Having worked in New York for the last decade, leaving your wonderful chivalrous South to do so, it must have become etched in your feeble little mind that you weren't the only one to leave the hills in search of civilization.  
 "Please lady go home and take your playmates with you."  
 A reader named Steve Bennett, 20, who signed his letter "an American, an Oklahoman, and a gentleman" agreed manners were gone but said it was because women "have become too independent. They are trying to place themselves on the same level as men socially, economically and every other way. . . . When women start acting like ladies, then men will start acting like gentlemen."  
 Hith At Fault  
 "I agree that there is a dearth of good manners," wrote Theodore H. Friedenberg, in "Letters to the editor" in the Philadelphia Bulletin. "But she (this columnist) should have been more accurate to address her remarks to both men and women rather than only men."  
 "On countless occasions, while sitting on a bus or subway, I have been banged by some woman's pocketbook without so much as a 'Sorry' or 'Excuse me'."  
 Another Philadelphia devotee devoted three pages to tell me that "chivalry is indeed dead. . . where we part company however, is who killed it. . . .  
 "Just try protecting one of those 'weak' females," he wrote. "If you don't end up on your back in a gutter, you'll at least need a couple of Philadelphia lawyers

to get you out of the pokie. Generally the male is too busy protecting himself from some female to have time being chivalrous. . . .  
 Had Everywhere  
 "Let me tell you — New York doesn't have a corner on bad manners by any means," Ted Kree wrote in his weekly column in the Long Beach, Calif., Independent — Press — Telegram.  
 " . . . Bourishness is running rampant in the good old U. S. A."  
 In 20 lines of poetry on today's not so fair maiden, W. C. Clement Jr., of Abernathy, Tex., complained:  
 "No gallant deed her knight will try. . . On chivalrous road he'll press her by. . . And hold within that wistful sigh. . . Until she mounts her pedestal high."  
 Shortest list of all came from L. L. Peterson of St. Paul, Minn. Said he, via postcard: "When you got the right to vote and the right to hold a man's job, you also got the right to stand up in a bus.  
 "Stay home and scrub the kitchen floor."

**Church Calendar**

**THURSDAY**  
 The Royal Ambassador's of the First Baptist Church will meet at 7 p. m.  
 The Chancel Choir of the First Methodist Church will meet to practice at 7:30 p. m.  
 The Concord Choir of the Baptist Church will meet to rehearse at 7 p. m. after which the Adult Choir will meet for rehearsal at 8 p. m.  
**FRIDAY**  
 The Seminole Association of the W.M.U. of the First Baptist Church will meet in Chuluota at 10:00 a. m. There will be a covered dish luncheon and the program will be presented by the young people. Y.W.A.'s and G.A.'s are especially invited to attend. The church will take these members transportation and will leave.

**New Containers Make Food Easier To Cook, Store**  
 By JEANNE LEBEN  
 United Press International  
**NEW YORK (UPI)** — Food packages these days often are fancier than the products they contain.

They're also easier to store and open, judging from new containers shown at the 27th National Packaging Exposition here.

Every homemaker who's had a metal tear strip unwind or jump the track will welcome a new tear strip that is self-tracking and guaranteed not to spiral off the edge.

Do you hate to struggle with canned hams or luncheon meats because they usually stick in the can? These new metal containers for these products have a no-stick enamel lining.

**New Soap Cap**  
 If washing dishes is your pet peeve, you can look forward to more foods packaged in their own cooking containers. One exhibit at the American Management Association shows featured hams wrapped in aluminum foil which serves as a heating or baking pan.

**Calendar**

**THURSDAY**  
 The Sanford Duplicate Bridge Club will hold its regular meeting at the Civic Center at 8 p. m. All members are urged to attend.

Sanford Boat and Ski Club is to meet at 8 p. m. in the Agriculture Building behind the local school. After the short business meeting, three informative films will be shown.

**TUESDAY**  
 The Henry Shelton Sanford Memorial Library and Museum cordially welcomes visitors from 9 a. m. until noon. C. R. Dawson is summer librarian.

**Supper Enjoyed By Oviedo W.S.C.S.**

The W. S. C. S. of the First Methodist Church of Oviedo met Monday evening at the church.

The Bethany Circle, with Mrs. Tommy Moon, chairman, was in charge of the covered-dish supper. The members of the circle were responsible for all kitchen duties as well as serving.

Following the supper, the program under the direction of Mrs. Clara Mather was presented. Mrs. J. H. Stanley and Mrs. Madeline Luttrell participated on the program entitled "Women's Federation of Methodist Women."

A routine business meeting, with Mrs. Charles G. Shaffer presiding, followed the program. 27 members were present.

This fall you'll be able to drink your champagne and wear it too, though unseen. The Corset and Brassiere Council says that shades of the beige family, and primarily those with a champagne cast, are popular for foundation garments. All champagne, or champagne trim on white—both are featured.

**After 16 Years Reveals Retirement**

**OVIEDO** — Mrs. Blanche Partin has resigned as lunchroom supervisor of the Oviedo School lunchroom after 16 years of service. Mrs. Partin, better known as Blanche, is well known in Seminole County.

An interview with Blanche reveals she went into the lunchroom business in the fall of 1942, under the supervision of Miss Sarah McGowan. After the retirement of Miss McGowan, Blanche was assisted by Mrs. A. T. (Frankie) Cartledge.

Blanche has served under four principals, R. F. Cooper, Walter A. Teague, Stewart Gatchel and W. H. DeShazo, the present principal.

She has seen the lunchroom grow. She says that they fed less than 75 students when she first went to work. Before her retirement this year the lunchroom was feeding between 175 and 200 and it has fed as high as 250 in the past.

Active in the American Legion Auxiliary, the local P.T.A., and the First Methodist Church, Blanche also found time to lend a helping hand to the Masonic Order of Oviedo to which her husband and sons belonged.

According to W. H. DeShazo, her successor has not yet been named.

**July 20 McCoy-Largent Wedding Announced By Parents**

The marriage of Miss Sharon McCoy, Union Park, to Airman Second Class Robert Largent is announced today by the bride's parents.

The ceremony, performed Sunday, July 20, in the Rev. Peoples' home in Kingland, Ga. united in marriage the son of Mr. and Mrs. W. S. Largent, of Longwood, and the daughter of Mr. and Mrs. Henry McCoy of Union Park.

The bride was lovely in her white voile gown with which she chose to wear pink and white accessories.

Accompanying the bride and groom to Kingland to attend the wedding were the bride and the groom's mothers, the bride's sister, Miss Sandy McCoy; and Mrs. Mildred Smith.

After a short wedding trip, the bride will be at home with her parents in Union Park. The groom has orders for overseas duty with the U. S. Air Force and will be stationed in French Morocco.

**Latin Designers Favor Waistlines**

**PARIS (UPI)** — American women will look sexy and elegant next season if the two newcomers to the Paris fashion scene have their way.

Both Michel Goma and Serge Mats, who will show their first collections as part of the Paris fashion openings next week, are Latin.

And in typical Latin fashions, they made no bones about the fact that a woman's curves should be admired and not disguised by necks or tents.

"I am going to give my models waists but I can't tell you where," said dark-eyed 25-year-old Goma, who is half Spanish, half French. He was surrounded by seamstresses, mannequins, fitters and bolts of cloth as he talked intensely about the collection that is not yet finished but that must go before the world's fashion press next Thursday.

"I'm very frightened about this first showing," he said, surveying the confusion of his elegant salon.

"When I started designing five years ago I showed my work to Dior and he turned it down because I was terribly Spanish and had too much individualism for him. But that is the way this collection is going to be."

His Chilean-born colleague, Mats, who is ten years his senior at 33, appeared almost stoical in the face of the forthcoming "battle" with clients, buyers and press.

"This business is like a bull-fight," he said as he perched precariously on a stool in his salon near the Champs Elysees.

"What am I going to do with my collection? I am going to give back to the women her natural shape."

**Radio, TV Jobs For Gals Increase**

United Press International  
 Job opportunities for women in radio and television are increasing.

So says Edythe Fern Melrose, veteran Detroit broadcaster and president of the "American Women in Radio and Television."

"This is an emotional type business," says Miss Melrose, and women's emotions make them better able to interpret public needs. Besides, women are practical in their approach to advertising—and there's a top advertising sales job for a woman at nearly every station."

The Detroit broadcaster, an executive of stations WXYZ and WXYZ-TV, thinks there soon may be more programs on home design, decorating and family living.

"One woman on the staff of every station who concentrates on this field can perform a real service," she says. She suggests that radio stations could use women commentators on public affairs.

Girls who'd like to wind up as secretaries, she advises. And she believes girls aiming for radio and TV careers should have college backgrounds.

**\* FASHION: U.S.A. \***

**MIDSUMMER NIGHT'S DREAMING** of the pleasant work is assured for the weaver of this summer's new dress. For these torrid nights the emphasis is on brevity and sheer fabric and the design inspiration comes from the cute low-waisted, pleated skirt, "Charlotte" of the '20s. A typical good-night scene is shown here. Mother and daughter wear chemise bloomers—night sets of no-man cotton batiste.

**Boat, Ski Club To Show Movies**

A regular meeting of the Sanford Boat and Ski Club will be held tonight at 8 p. m. in the Agricultural Building behind Seminole High School.

As part of the scheduled program the following films will be shown: "Boats, Motors, and People," a film emphasizing the rules of the road and common courtesy; "You're Being Bored," a movie on what happens when a boat is boarded by the Coast Guard; the third film is entitled "Common Sense Afloat."

Since more courtesy and greater safety is needed on the waterways of this area, the public is invited to attend the meeting to view these films.

The club feels that these films will be beneficial and urges all its members to attend.

**Grace Methodist WCS To Sponsor Supper Friday**

The W. S. C. S. of the Grace Methodist Church is sponsoring a complete ham dinner, Friday, July 25, at the Pinecrest School.

Mrs. Charles Clemmers, assistant to Mrs. Roy Wall, revealed that the menu will include ham, potato salad, baked beans, coffee or tea for the adults, food cold drinks for the children, and homemade cake will be served for dessert.

Adult and children priced tickets will be on sale at the door or may be purchased from any W. S. C. S. members. The public is invited.

Proceeds from this fund-raising dinner will go toward the church Building Fund.

## Minor League - Orange Little League All Stars Defeat Winter Park

**Today's Sports Parade**

**Player Of The Day**

Bob Turley, with 15 victories to his credit, is bidding to become the first Yankee pitcher to win more than 31 games since Lefty Gomez notched 35 in 1934.

Turley breezed his 15th triumph Tuesday night when he defeated the Detroit Tigers, 15-3, with a seven-hit effort. He struck out five batters to lead his team to a 10-0 victory.

"Whether or not I lead the league in strikeouts means nothing to me," Turley said. "I am just interested in winning at least 30 games."

Originally, Turley was tabbed as the heir apparent to Bob Feller of the Cleveland Indians. But he made himself over as a pitcher and concentrated more on control.

"I used to be just a thrower," he says. "Now I think I'm really learning how to be a pitcher."

No matter what he calls himself, he looks like a clutch to break the 30-game bracket for the first time in his major league career.

**AMERICAN RIDER WINS**

LONDON (UPI)—Hugh Wiley, 36, won the King George V Gold Cup, premier event of London's International Horse Show, Wednesday night on Master William, a gray jumper he borrowed from a Connecticut friend before crossing the Allan tie three years that a U. S. rider captured the cup.

# Eddie Sawyer Says "Elated To Be Back In Baseball Again"

PHILADELPHIA (UPI)—Eddie Sawyer, recalled by the Phillies as one of their greatest managers, said today he was "elated to be back in baseball once again" as he started on his new job.

Sawyer, who pitched the Phillies to their first pennant in 35 years, returned to his first job, the completion of a game resumed of last June 28 with the Phillies trailing the San Francisco Giants, 4-0, in the sixth inning.

General Manager Roy Rosen announced the switch in managers with starting Wednesday. Sawyer was named to succeed Rosen, who had been named to succeed Rosen, who had been named to succeed Rosen.

**Turnover Of Turf Champions Rapid Today**

The test of a true champion is the ability to go on, duplicating or bettering the feat which made him a champion. In highly competitive sports, this is sometimes difficult since there are always others coming up to challenge the right of champions to maintain their standing.

The turnover of champions in horse racing is rapid because the career expectancy of a horse is relatively short. In comparison with human athletes, seldom does a horse win a year period. Consequently, if a horse maintains a top position for two consecutive years it is a rarity rather than the usual thing.

# USSR Economic Boasting May Be Joke On Ivan's Daily Life

(After various in Russia's economic growth in the "United States" in the following "boasting" a former Communist writer, a former Communist writer, or else up the chances for fulfillment of the Kremlin's boast that it will overtake this country in industrial production—and what this would mean to the average Russian.)

By ROBERT G. SHORRYAL  
United Press International  
NEW YORK (UPI)—Russia is making an all-out bid to replace the United States as the world's most powerful industrial nation.

But Ivan, the counterpart of Joe Smith, won't have too much to cheer about even if the Russians make good their boast.

Russia is concentrating on heavy industry and military production at the expense of consumer goods. Ivan receives less than one-half of Russia's total output of goods and services compared with two-thirds for Joe Smith.

The Russian consumer's standard of living is well below that of his American counterpart.

The National Industrial Conference Board pointed out that Ivan must work 1.2 hours to buy his wife a pair of nylon stockings, compared with 20 minutes for Joe Smith. Ivan has to labor 347 days to buy himself a suit, compared with 3.3 days in the U.S.

To buy a pound of butter Ivan must work 196 minutes, while Joe Smith earns enough money to buy the same commodity in 21.9 minutes.

## Florida Industry Will Be Proud Of Ads Says Graves

LAKELAND—The Chairman of the Citrus Commission today saw the big Commission advertising program for next year as something "the whole industry will be very proud of," and predicted "it will form the basis for another good marketing year for all our fruit."

J. R. (Nip) Graves of Vero Beach said the new program will be presented to the industry at the Commission's meeting on September 18. He, along with five other Commissioners and three top staff members, has just returned from New York where they took an advance look at the \$3,700,000 advertising plans for next season.

Commissioners, in addition to Graves, meeting with Benton & Bowles, Inc., the Commissioner's consumer advertising agency, were J. Dan Wright Jr., of Sanford, chairman of the advertising and merchandising committee; Tom B. Swann of Winter Haven vice-chairman of the Commission; Kay Scales Jr., of Weirsdale; A. V. Saurman of Clearwater and Albert Carlton of Wauchula. Also present were General Manager Homer E. Hooks; Director of Advertising and Merchandising, Frank D. Arns; and Advertising Manager Harold S. Gardner.

Graves described it as a productive and worthwhile trip. "Commission members made many practical suggestions in copy text and appeals which will be incorporated in the plans," he said. "We freely reviewed several possible themes for the new program and media combinations for taking it to the greatest number of consumers."

Graves said it was certain that the \$5 million advertising-merchandising plan for 1954-55 will be a continuation of the "hard-hitting" themes which have done so much in the past to establish citrus as a staple in the American diet, as evidenced this year by heavy sales despite substantially higher prices brought about by the freeze losses.

The Commission Chairman said more attention would be given to the Vitamin C content of grapefruit, in all forms, and in what he described as "the powerful health and nutritional values of orange juice in addition to the good taste." He said these points would be made in new and appealing ways.

"We discussed and considered carefully the tremendous complexities of television advertising," Graves said. "No specific shows were recommended to us by the agency. We likewise discuss the effectiveness of magazine advertising in reaching the masses of consumers with our Florida citrus story."

He explained that prior to the Commission's September 16 meeting, the Advertising and Merchandising Committee would meet with national brand advertisers in the citrus industry and with advisory committees. "In order to obtain their suggestions and advice" for developing the most effective program.

"I am firmly convinced that the whole industry will be very proud of the 1954-55 Commission advertising plan, and that it will form the basis for another good marketing year for all our fruit," he added. "The Commission in June adopted a consumer advertising budget amounting to \$3,700,000 of which \$700,000 is to be held in reserve against increasing media and production costs. Also adopted was a \$3,000,000 budget for merchandising."

However, economists are not passing off lightly Russia's tremendous economic growth of recent years, nor its boast to overtake the U.S.

Dr. Raymond Kwell, vice chancellor for research at Buffalo University, said recently the Russians already lead the U.S. in the production of coal, aluminum, tin and wool. He said it may surpass this country in petroleum, iron, copper, lead and zinc in 25 years.

The best estimates available indicate that as much as 25 to 40 per cent of USSR's gross national product now goes directly into capital investment for plant and equipment, compared with 15 to 18 per cent annually in the U.S.

Russian industry is growing at a pace roughly twice that of the U.S. If this rate of growth is maintained, Russia could equal or surpass the U.S. in heavy in-

dustry output by 1955. Some estimates note that if Russia should out-back its massive armament expenditure and funnel this money into industrial capacity, it could reach industrial equality or superiority before 1952.

It is against this backdrop the American industry is pleading to lay for a climate that would permit it to increase and modernize the nation's productive machine.

A key point in this campaign is obtaining more realistic depreciation allowances—the amount of money industry can set aside tax free each year to pay for the wear and tear on existing equipment.

The trouble with present depreciation laws, businessmen says, is that they permit companies to recover only the original cost of

the equipment. However, 20 or 30 years later, when the equipment must be replaced, the price may be two or three times higher. In that case the rest of the money must come from retained earnings or from borrowings.

Since companies cannot continually go into debt to obtain needed funds, these businessmen argue, the tax laws must be revised to enable industry to accumulate the funds needed to expand and modernize.

The alternative, they warn, is to lose the production race to Russia.

Four generations of a Swedish family may often use one jar for years. The jar is passed on as an heirloom.

And which of you by being anxious can add one cubic centimeter to the measure of his life?—(St. Matthew 6, 24)

Long before psychiatrists linked physical ill to mental anxiety and tension, St. Matthew knew the futility of worry. His remedy—perfect trust in God's loving mercy and providence—is still the best prescription for adding to the fullness of human life.

### Soviet Emigres' Library In Munich Is Renamed In Admiral Leslie C. Stevens' Memory

NEW YORK—The Russian Library in Munich—a cultural haven for former Soviet citizens living in Germany—has been dedicated to the memory of the late Vice Admiral Leslie C. Stevens. The world-famous literary center henceforth will be known as the L. C. Stevens Memorial Library.

According to the American Committee for Liberation, which since 1932 has supported the library's various activities, dedication ceremonies took place in Munich on Thursday, July 24.

Admiral Stevens, who died in Sanford, Fla., on November 30, 1956, had been president of the American Committee, a private organization created to aid activities of former Soviet citizens in the free world who seek to bring about the institution of a democratic order in their homeland.

Mrs. Leslie C. Stevens, widow of the Admiral, was present at the dedication ceremonies which took place on the library's premises in Munich. Mrs. Stevens, now residing in Annapolis, Md., unveiled a plaque in her husband's honor in the main reading room and presented an artist's portrait of the Admiral to the library.

Speakers included a number of emigre leaders who expressed their appreciation for the efforts Admiral Stevens made for the cause of freedom for their people. A message from Howland H. Sargent, present president of the American Committee, paying tribute to the Admiral's activities in behalf of the emigration, was also read.

Admiral Stevens, who was born in Kearney, Nebraska, in 1893, served as U. S. naval attaché in Moscow from 1947 to 1950. This experience, plus his fluency in the Russian language and an extensive knowledge of Russian history and culture, enabled him to write a book, "Russian Assignment," which was on the list of best-selling books in 1953. Critics hailed it as one of the most perceptive works ever written about the Soviet Union.

### No Pay TV Permits To Be Issued Now

WASHINGTON (UPI)—The Federal Communications Commission announced today it is putting off for about a year the granting of any permits for pay TV.

Responding to congressional pressure, FCC Chairman John C. Doerfer said the commission has decided not to grant any subscription television permits until the end of the first session of the next Congress. This would be around the end of July or early August 1959.

### Recall Of Troops May Come "Quite Soon"

#### Six Wives Of VAH-7 Navy Pilots Reside In Sanford Area

WITH U. S. SIXTH FLEET IN MEDITERRANEAN—Six wives of U. S. Navy pilots from heavy attack squadron "Sunday Punchers," flying A1J Savage jets, are residing in the Sanford area while their husbands are taking part in air support of U. S. Marine landing forces in Lebanon.

The six are wives of Lcdr. Ernest S. Fritz, 412 Osceola Dr.; Lcdr. Gerald M. Roberts, 11 W. Woodland St.; Lcdr. Howard L. Weidie, 1811 E. L. Harry F. Bryant Jr., 208 French Ave.; Lt. Leonard L. Lallebe, 2017 Elizabeth Court; and Lt. Charles J. Youngblade, 102 E. Woodland Dr., all of Sanford.

Now flying from the deck of the carrier USS Essex, first of the U. S. Sixth Fleet carriers to get into action in the Middle East crisis, they lent air support to the U. S. Marines at Beirut, July 15.

Alerted after midnight on Tuesday, July 15, the huge carrier, named "The Fighting Ship in the Fleet" from World War II days, was underway before dawn from Athens, Greece, on a speed run and by mid-afternoon its planes were flying air support of the landings, some 800 miles from Athens.

Essex is commanded by Captain Thomas A. Christopher, U. S. Navy, the warship has been in the Mediterranean since leaving the Navy. The warship has been in Mayport, Fla., in February.

Doerfer said, however, that the FCC plans to accept and process any toll TV applications received during the next 12 months.

Doerfer relayed the decision in a letter to Chairman Owen Harris of the House Interstate and Foreign Commerce Committee. On July 3, Harris requested the commission to "continue to maintain the status quo" on the question until his committee had a chance to resume consideration of the subject.

Doerfer said, however, that the FCC plans to accept and process any toll TV applications received during the next 12 months. Doerfer relayed the decision in a letter to Chairman Owen Harris of the House Interstate and Foreign Commerce Committee. On July 3, Harris requested the commission to "continue to maintain the status quo" on the question until his committee had a chance to resume consideration of the subject.

WASHINGTON (UPI)—James J. Wadsworth, deputy U. S. representative to the United Nations, predicted today that the United States troops in Lebanon may be withdrawn "quite soon."

Moreover, Wadsworth said, he believes that when the troops depart "the after taste will be better than the present taste because we will have proved that we are people of our word."

Wadsworth made the observations during a House Foreign Affairs Subcommittee hearing on a resolution expressing the sense of Congress that a permanent U. N. police force should be established. Asked by members for his views on what might happen when U. S. forces are withdrawn from Lebanon, Wadsworth said he thinks the feeling will be "one of great relief."

The United States now has more than 8,000 Marines and Army paratroopers in Lebanon, ordered there by President Eisenhower after the revolt in neighboring Iraq. Meanwhile in Washington, President Eisenhower dispatched a note to Nikita Khrushchev today which a senator said informed the Soviet Premier any summit conference in New York must be held by United Nations rules for Security Council meetings.

The White House withheld publication of the text of the President's letter to Khrushchev until the afternoon.

Sen. J. William Fulbright (D-Ark.), one of 15 senators briefed on its contents, said the note insists that Security Council ground rules be followed if the summit meeting is held.

Fulbright also said the President took the position that the summit conference "should be a Security Council meeting and not just a meeting near or in the environs of the U. N."

Interested Parties The insistence that Security Council rules be followed would leave it up to that body to say what non-member countries should be invited as "interested parties."

Khrushchev has demanded that neutralist India and the Arab states be among the participants. India is not a Security Council member and only Iraq of the Arab nations is a member.

### Jaycees To Launch Project For Fund Raising On Aug. 1

The Sanford-Seminole County Junior Chamber of Commerce will launch their summer fund-raising project on Saturday, Aug. 2, according to plans set at the luncheon meeting yesterday at the Sanford Civic Center.

Plans reveal that there will be radio broadcasts from the site of the new Jaycee Tourist and Information Building on French Avenue where construction is underway.

According to plans suggested yesterday, there will be a number of popular Jaycees affecting their services as "litters," "dishwashers" and "shy shavers" to higher bidders. Details of this event will be released later, it was said.

Funds raised during the 9 a. m. to 5 p. m. continuous broadcast will go toward furnishing materials with which to complete the Jaycee Information and Tourist Building.

M. L. Bahora Jr., chairman of the "School Bond Issue Committee," told Jaycees at yesterday's business meeting that those attending the "public meeting" Tuesday night at the Sanford Civic Center "will get the answer direct from those who know."

Bahora said that citizens attending the open meeting will write questions on paper furnished by the Jaycees and they will in turn be directed to the proper person to answer.

Jaycee president Tom McDonald urged all members to take an active part in the summer projects and called attention to the Fishing Rods committee which is getting its work underway.

McDonald said that members of the Jaycee Vixen Club are working on three of the projects "where a hand is needed."

The Jaycee "Get-Out-The-Vote Committee" is also active and its work underway, McDonald told members yesterday.

### Fire Damages Fabry Home In Slavia Late Yesterday

The Paul Fabry home in Slavia was damaged by fire late yesterday afternoon when lightning struck the brick structure.

Fire broke out in the top floor of the home and was contained in the two-bedroom area. Dysterler estimated that damage would be in the neighborhood of \$2,000.

The Oviedo Voluntary Fire Department answered the alarm. Members of the department worked diligently to keep the fire within a small area.

Greater part of the damage, said witnesses, would be from water in the lower floor of the residence. It was reported that the lightning, which struck shortly before six o'clock, hit the television wires.

### Committee Members Make Separate Report

Three members of the committee, appointed in February of this year by the Board of Seminole County Commissioners, to study the problems of the county, discussed and refused to sign a letter of recommendation forwarded to the Board of Commissioners last Tuesday.

F. D. Scott, A. W. Lee and Vernon W. Dunn, yesterday, forwarded a two-page recommendation to the Board of Commissioners through Chairman John Krieger.

The three members cited vast injustices made of inequities in the Seminole County Tax roll. It was pointed out that property appearing on the tax rolls is assessed at 1940 values while others are assessed at current value or cost of construction.

The letter stated specifically that "land values are especially out of proportion in relation to sale price."

In every instance where inequality existed, examples taken from the Seminole County tax rolls were given.

"Efforts are presently being made to correct the existing inequities and to increase the valuation of some of the properties," the recommendation stated. And it went on "that with the unlimited finances and personnel available to the Tax Assessor, this program is inadequate and too time consuming to be practical. Also subject to much disagreement and dissatisfaction of a great number of people until all inequities can finally be eliminated."

In view of the foregoing and of the need for immediate corrective action, the following recommendations are submitted: "The three members of the committee wrote:

"First, recommendations were made by the group in which was included 'that a reappraisal of all real estate be made by a tax appraisal firm, placing all property on an equitable basis with valuations comparable to that in adjacent counties, in the shortest practicable time.'"

It also included "that an assessment and millage rate, limited by legislation of a local bill, then be established that will provide for a planned, progressive program as related to school, other public buildings, roads, personnel, salaries, equipment and maintenance."

The third recommendation would require that "a more detailed budget according to account numbers and titles be submitted by heads of each department, giving specific justification as may be necessary for each item of expenditure thereby limiting the total budget to proven needs and that budgetary accounting of all receipts and expenditures should be under one account or county finance officer."

It was pointed out in the fourth recommendation that "the public be fully informed of the necessity of and the desirability for the

action taken also that the budget be published."

The group of three members of the committee, in the signed statement, is believed that these recommendations, if effectuated, will result in additional income to needed and desirable industries who are only looking for a labor supply, raw materials, a market, and a fair and equitable tax structure. It should also result in a better planned, progressive—without excessive growth and prosperity of Seminole County, with the cost more equitably distributed and laid up placed on one."

### Rev. H. W. Goerss To Be Installed At Pastor Sunday

Rev. Herbert W. Goerss will become the full-time pastor of the Lutheran Church of the Redeemer, Sanford, following installation services to be held Sunday afternoon at 3:30 p. m.

Rev. Fred W. Lohberg, president of the Florida Georgia District Lutheran Church, Missouri Synod, from Jacksonville, will be in Sanford for the ceremony.

Rev. A. H. D. Besalski, pastor of Holy Trinity Lutheran Church in Orlando, will deliver the installation service sermon. Rev. Besalski assisted in the organizing of the Lutheran Church of the Redeemer more than five years ago.

Rev. Philip Schlessman, who has served as pastor of the local church for more than five years, will take the charge at the afternoon service.

Rev. Schlessman, following the local installation service, will go to Ruston to become the full-time pastor of Faith Lutheran Church there. Rev. Schlessman came to Sanford five years ago and during that time served both the Sanford and Ruston congregations.

Rev. Goerss came to Sanford from Springfield, Mass., to accept the responsibilities of heading the local Lutheran congregation as its pastor.

The Lutheran Church of the Redeemer is located at 193 West 25th Place.

MONUMENT BILL, WASHINGTON (UPI)—The House passed by voice vote and sent to the Senate Monday a bill to authorize spending of \$1,500,000 to build a monument to World War II dead in the Pacific. Sponsors said the monument would be built at Corregidor in the Philippines.

Additional Local News On Page 3

Five crew members of a B-47 headed for McCoy Air Force Base parachuted to safety as their plane went down to crash. One of the five members is reported to have been injured, the other four were air lifted to McCoy Air Force Base by a helicopter flying out of the Sanford Naval Air Station.

Colonel Robert W. Strong, Commanding Officer, McCoy Air Force Base, personally supervised getting the crew members out of the area one mile north of Chuluota. The plane, apparently headed straight down, crashed in a sparsely wooded area near Chuluota and the holes, some of them six feet deep in the ground.

A very little of the plane was left intact, apparently exploding and going up into a cloud of smoke. At 10:30 this morning, flames were still coming from the wreckage.

The huge wings of the B-47 could be seen in ashes with parts of the engines lying about in the twisted wreckage.

The wreckage was contained in a comparatively small area, however, parts were found imbedded in the ground as far as 200 yards away from the point of impact.

Mrs. Julia Ward, whose home is within a mile of the crash area, said "The plane sounded peculiar. I rushed out of the house and watched the huge plane as it glided sideways. The first thing I knew it crashed and huge billows of smoke began to come up."

Mrs. Ward is reported to have been the first to see the disabled plane and reported the incident to McCoy Air Force Base.

Another witness to the crash was Mrs. Marcell M. Harrell who lives on Route 30 near Blithin.

On hand to control traffic and to block access highways to the scene of the crash were Sheriff J. L. Hobby, Deputy Sheriff James Singletary, and Constables J. Q. Galloway and George Kelsey.

TOWER COLLAPSES, CLIFFSIDE PARK, N. J. (UPI)—A 110-foot steel tower used by a high diver crashed on a Palisades amusement park stage Wednesday night, narrowly missing 27 beauty contestants and a stage orchestra.
