

Television Will Be Age's Leading Accomplishment

Scope Of Pictures Through Air Would Dwarf Hollywood

By JACK STINNETT

NEW YORK—Television, to reverse Fanny Brice's old song, hasn't much past—but oh, what a future!

For a preview of that future, I've been talking with the television researchers of the National Broadcasting Co.—men to whom talking pictures in the air are no longer a miracle—men who are working daily with television in all its phases.

From experience and carefully worked-out plans, they paint as exciting a picture as one would expect from novelists like H. G. Wells or Edgar Rice Burroughs. Perhaps, some of them hint, television will bring the one great step forward by which historians will measure present times.

Tune in on C. W. Farrier, NBC coordinator:

"Television will radiate more educational and cultural programs than Hollywood ever has been able to provide. Among our numerous prospects are programs showing the motions of heavenly bodies, experiments in science, lessons in agriculture and safety, methods of safeguarding public health, pictures of microscopic life, candid television, slow motion television and traveltogs."

Programs soon to be tried include a three-act play, opera, musical comedy and piano and tango dance lessons.

Even Dwarfs, Hollywood. However, Farrier and other officials say television will be no glorified movie on the air.

"Even if we could use films, which we can't," says Thomas H. Hutchinson, NBC television production chief, "television would absorb Hollywood's entire annual production in a few weeks. Therefore, we must have a gigantic reservoir of talent, music and literary material."

And it is on this point of "reservoir of talent" that NBC President Lenox R. Lohr sounds his most optimistic note:

"A matter affecting the public welfare is the effect television will have on the general employment situation. People commonly dread the implications of startling new inventions, but in this instance they may rejoice, for television will afford more employment than either the radio or the movies. It will doubtless become the world's leading reservoir of artistic talent."

But it is Lohr who points out that many think television's most striking effect may be in the political field.

"When you see and hear simultaneously," he explains, "you have a good basis for appraising a man's intelligence, ability and sincerity. Many people anticipate that television will promote the cause of democracy by clarifying issues in political struggles, and by making each voter familiar with the faces and personalities of candidates."

It is just because of such possibilities, says Lohr, that the public introduction of television has been delayed. "We have charted its future with the objectivity of the 'plain man,'" he says, "because we are humbled by its extraordinary power to simulate reality. As our chief aim we have settled upon, first, dependability, and second, social-cultural advancement."

A New Pace For Humanity
A television engineer thinks that developments in his field may change not only our lives, but us, too. NBC's O. B. Hanson puts it this way:

"Television is the quintessence of concentration, and in order to avail ourselves of its benefits, we must discipline and adapt ourselves to a new set of conditions. Human beings are not yet geared to the mental clarity required of them in television, which incidentally makes the stage and movies seem rather sluggish. But there is no doubt that modern men and women can meet the challenge."

As a matter of fact, despite all the problems and some of the fantastic possibilities, there's not much doubt about anything connected with television except who's going to pay the bill. That probably is the biggest reason television isn't available to everybody today.

One of Farrier's chief jobs is to analyze plans for making television pay its own way. "Several ideas are under consideration," he says, "but no practical way of making television self-supporting has yet been found."

When such an answer is found, the program problem probably will be solved quickly enough. Until that problem is answered,

Pictured as they appeared in court at Danfield, Ill., where they are on trial for the "hitch-hike" murder of a 56-year-old farmer, are Mrs. Beulah Honeycutt, top, and Mrs. Jean Brooks, lower. The Tennessee women are charged with shooting to death Felix Shannon of Mt. Erie, near Fairfield, after he picked them up in his auto.

THE CHILDREN'S HOME SOCIETY Sponsoring Committee, headed by Randall Chase, of this city, will be glad to give any information to those who are willing to give money, food or clothing to the society in Jacksonville. Information will also be given more of the homeless children to anyone who can take one or into their homes.

14 Guilty Pleas Are Heard By Judge Ware

Fourteen guilty pleas have been heard by County Judge H. W. Ware during the past two weeks, according to records at the Court House.

The sentences are as follows: Sherman Gilson, charged with petit larceny, \$25 and costs or four months in jail; J. M. Blake, intoxication, \$5 and costs or 90 days in jail; Minnie Hall, illegal possession of liquor, \$35 and costs or four months in jail; Jones McGriff, \$5 and costs or 90 days in jail.

Alfred Lee Williams, taking and using the property of another without his consent, \$5 and costs or 90 days in jail; J. D. Guyton entered a plea of guilty to the same charge and was given a like sentence, Sam Burk, charged with intoxication, \$5 and costs or 90 days in jail.

W. W. Moss, intoxication, \$5 and costs or 90 days; Mrs. J. P. Moss, intoxication, \$5 and costs or 90 days; John L. Martin, \$5 and costs or 90 days; Otis Lindsey, intoxication, \$5 and costs or 90 days; Clint Murphy unlawful use of property of another, \$15 and costs or 90 days; Joe Watson, charged with petit larceny, \$15 and costs or four months in jail.

No one can say exactly what sort of programs will be offered—nor exactly how expensive television receivers will be. People aren't likely to buy receivers until first-rate programs are available a good part of the day; such programs aren't going to be available regularly until somebody—presumably an advertiser—pays for them; an advertiser isn't going to pay for them unless he knows that a lot of people have bought receivers.

THE YOWELL CO.

Heads the parade of progressiveness in Sanford

Yowell's new air-conditioned and completely remodeled store is the last word in modernization.

The attractive new store front and the streamlined interior, and the refreshing air-conditioned atmosphere help to make Yowell's the meeting place of Sanford and Seminole County shoppers . . . and the style and value parade is still headed by Yowell's.

Quintuplets Make Their 3rd Movie "Five Of A Kind"

Dionnes Make First Bows As Actresses With Leeds' Help

HOLLYWOOD, Oct. 27. In their third motion picture, "Five of a Kind" the Dionne quintuplets will make their first bows as real actresses.

It's not quite the sort of acting other child stars consciously do, explained Director Leeds, because the quintts portray themselves and thus behave naturally.

"But they behaved according to orders," he said, "and handled their roles exactly as we hoped they could."

"Never having seen a movie, except some animated cartoons, they didn't understand the real reason they were acting. I'd work out little pieces of business and tell them what I wanted done and sometimes rehearse them in action. They took direction for such reasons because they're such obliging kids, without a bit of contrariness in them, and because they thought it was a game."

Jean Hersholt and other veterans of 20th Fox's two previous expeditions to Callender. Out-give credit to the 28-year-old director for the fact that about four times as much useful film was obtained for this picture, and in record time despite bad weather.

"Leeds speaks French," said Hersholt, who is "Doctor Luke," and he found the little girls had a French vocabulary of about 200 words. They know some English and they even sing a song in English in "Five of a Kind" for they think in French.

"Leeds made everything a game for the quintts. When they had to do something he would say, 'I won't play the game with you unless we have to go home. And then they'd do whatever he wanted them to do.'"

"Leeds would not do anything to hurt their confidence in us. I remember what a time there was about the puppies. Five little cocker spaniels were sent up from Toronto for the babies to play with in the picture, and the nurses had told the babies about them. But the dogs could be photographed only outdoors, and after days it was raining and we had to work inside."

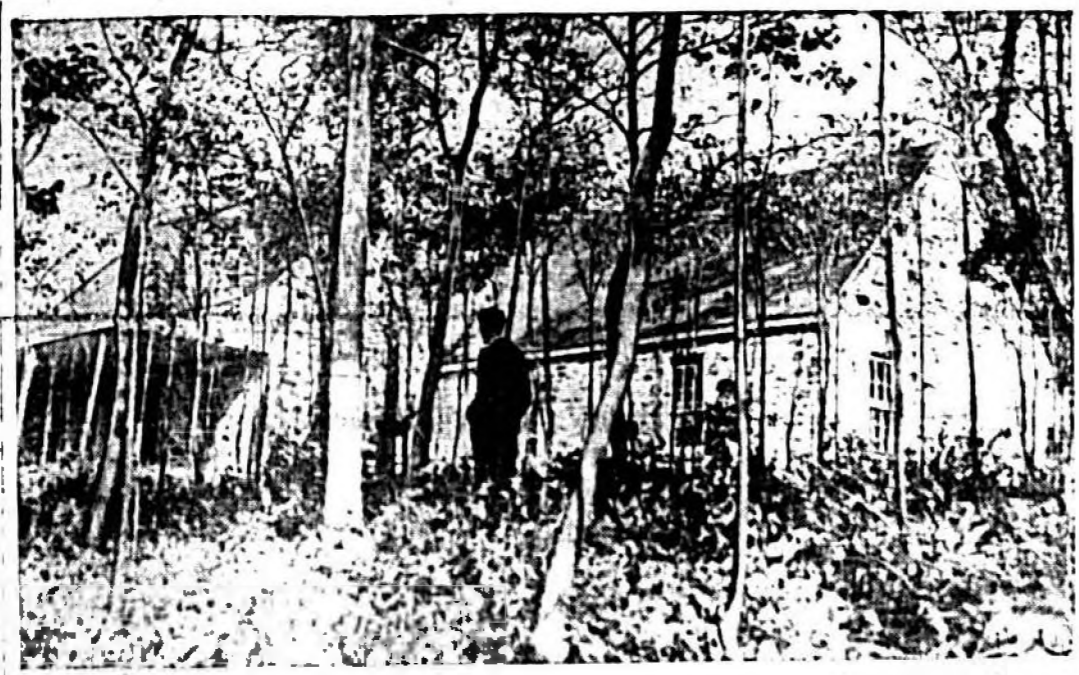

"We were making the sequences where the quintuplets undress their dolls and put them to bed. All of a sudden they went on strike and just wouldn't play with their dolls. Yvonne said, 'Mlle. Corrivane promised the puppets! We want the puppets!'"

"Leeds pleaded with them, and Marie asked if they could play with the puppies the next day. But Leeds wouldn't promise because he knew the next day might be cloudy too, and he wouldn't risk having to double-cross them."

"So Yvonne still refused to kiss her doll and put it to bed, and we didn't do any more work that day."

When the pups finally were brought to the play yard, and carried in by Hersholt, the camera was turned to record the quintts' first reactions to pets they previously had seen only in picture-books. However, most of the sequences for "Five of a Kind" were rehearsed in advance; or at least there was some discussion about them.

Leeds told about the time the four-year-old stars were supposed to bring "Doctor Luke" his breakfast, mostly coffee. One would

Conceived by the President of himself as his "dream" of a home, the hand some Dutch style house begins to take concrete form in Sanford. It is being constructed on a 70-acre forest tract near the Boxer estate, Hyde Park N. Y. home and will be known as "Dutchess Hill Cottage." Most important convenience from the present viewpoint is that it will lack a telephone. Plans show how far construction has already progressed on the "dream" home to be built in the woods.

General manager P. T. Straub of the Florida Land, who returned to Tampa last week from Birmingham where he raised another \$100,000 for the Florida Land, look up the task of setting the stage for the great Pan American International Exposition which is scheduled to open in Tampa January 31 and continue through February 18, Standard.

"They have a well equipped home, and they're not only people who are interested in the progress which is being made in a metropolitan area, but they are on the spot if they want to be assured of the best of the city. That doesn't take much to achieve because they'll take anything apart if you give them a chance. Emma is the most intelligent and she did most of the work, and then the others helped. We all have a good time with the camera. The girls and kids were so delighted that they really worked that picture and gobbled up their pieces. I guess it's the way the enthusiastic seem in the whole picture."

A new record enrollment for the University of Florida has been set during the present semester. The student body number, for the first time, surpassing 3,000, a final check-up by the registrar's office reveals. There are 3,011 students registered, including 12 co-eds.

Boxer Freed After Death-Dealing Blow

Boxer, who was freed after a death-dealing blow, was found in a state of unconsciousness. The incident occurred during a fight in the ring. The boxer was taken to the hospital and later died. The fight was a significant event in the local boxing community.

Four Amendments To Be Decided By Voters On Nov. 8

State's Constitution Has Undergone 80 Changes Since 1885

TALLAHASSEE, Oct. 27.—(AP)—Florida's constitution, already amended 80 times since it was adopted in 1885, will have four more changes if voters approve them in the November general election.

Briefly, the proposed amendments are:

1. Establishing public school appropriations on equality with appropriations for other governmental functions.
2. Broadening homestead tax exemption include widows, minors and others, not heads of families, who own and occupy their homes.
3. Requiring 30 days public notice before introducing local bills, including bills applying to municipalities, in the state legislature.
4. Prohibiting appointment or removal of Florida national guard officers except upon proficiency basis established by United States army regulations.

Supporters of the amendments already have started campaigns throughout the state to acquaint voters with the questions involved.

Public school appropriations now are based upon \$800 annually for each teacher unit, which is one teacher and 30 pupils. Some revenues, such as automobile license fees and gross receipt taxes, are allocated directly to schools and cannot be used for other purposes. If these are not sufficient to pay the full school appropriation, the remainder must come from the state's general revenue fund.

The proposed constitutional amendments cutting school appropriations on equality with others would require that if there is not enough money in the general fund, the amount allocated to school revenue fund to pay all its schools would be reduced only in the same proportion as others are reduced. The supreme court has held that expenses of the constitutional state departments must be paid first and that schools can get only the remainder when money is insufficient to meet all expenses.

Homesteads owned by heads of families now are exempt from governmental operating taxes on an assessed valuation up to \$5,000. They are subject to taxes for bonds issued before the original exemption amendment was adopted in 1931, and they are subject to taxes for bonds issued for special benefit.

Widows and minors, not heads of families, were not included in the original amendments, and the 1938 proposal is that the exemption be broadened to cover such ownership if the owner lives in the house and makes it his home.

In past sessions of the legislature, local bills applying to municipalities could be introduced and passed without advance public notice. The same was true if bills applying to counties were worded in general form and made applicable to counties with specified populations.

If the new amendment is ratified by voters, all such bills must be advertised for 30 days before introduction in the legislature. Sponsors said the amendment was intended to eliminate the so-called "local bill evil," against which another amendment was directed in 1931 unsuccessfully because the legislature never established a uniform system of county and municipal governments as the 1934 amendment provided.

National guard officers now may be appointed or suspended by the governor for cause. The constitutional amendment before the voters this year would limit appointments or suspensions to the qualifications prescribed by the United States army for regular army officers. The ranking would make the national guard officers eligible for appointment into the regular army as officers in time of war.

The Florida State Junior Chamber of Commerce endorsed the plan of Burton H. Schoepf for citrus juice at 5c per glass, and will work through its local groups throughout the state to get all merchants to co-operate.

Southern Coeds Learn To Get And Keep Their Man

By MARGARET CHENEY
LAKELAND, Oct. 27.—Coeds in the department of home economics at Florida Southern College, who are learning how to get a man, keep him and keep him well fed, rate a pleasant personality and a sense of humor as the No. 1 qualification for their future husbands.

Mr. Ideal, next, must be affectionate and loyal. He need not be demonstrative with his sentiment but it must be sincere. And said man must be loyal to that love and to the woman who married him down the aisle to the strains of Labington to meet him.

He should have a desirable background and pleasing manners, they all agree, and he should be his wife's intellectual equal to assure compatibility and happiness. And he must be ambitious, desirous of succeeding to be the ladies' choice.

Open-mindedness and adaptability rank as the fifth desired trait. Health and a good earning capacity follow as the sixth and seventh qualifications.

The girls' Prince Charming would never throw books, plates or shoes in a mad fury of temper and would always have self-control. Another reason why Mr. Husband would not endanger the bay window or the wedding gift of rare china is that he must be compatible and take an interest in his home.

He should be interested in both little things and big things about the home in improvements, in the house, new furniture, planning next month's budget, planting a garden, mending a book or chair or planning the future.

And he must be well grounded in the girls' and the fourth requirement.

In other words, those who want a man, and what man is there such a man?

EARN 12 CENTS

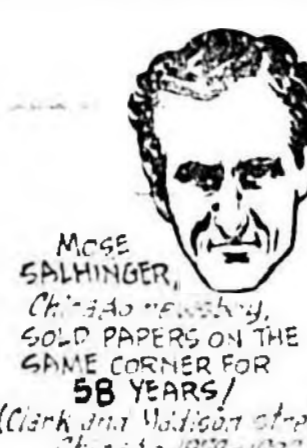

MEMPHIS, Tenn.—(AP)—Thomas Craven, author and publisher, was paid 12 cents yesterday for a "hard day's work" in a cotton field. Seeking real Southern color for his next book, Craven went to the field with cotton pickers and decided to work alongside them.

MARTIN WON'T TALK

DETROIT—(AP)—Homer Martin, president of the United Automobile Workers who was to have testified Thursday before the Dies committee, yesterday reported that he excused from appearing because "industrial peace" would be imperiled if he "reopened old wounds."

Feds Practice Aerial Attack For Ocala Tilt

Williams, Echols Return To Lineup; Riser Ineligible

Herald Sports Editor
By JULIAN STENSTROM
The Seminole High School Century Feds went through a short scrimmage session yesterday afternoon on the practice field in the rear of the high school with the Seminole air attack the main feature of the meet.

So far this season the Century Feds have been gaining much ground with their aerial which have been going from the arm of triple-threat Darrell Ferguson to either Art Williams or Fred Ganas.

Williams and Echols, who had previously turned in their uniforms and left Sanford, returned yesterday morning and resumed their studies at the high school. Both were out for practice and Williams replaced Pete Tillis in the right half back position for the scrimmage session.

The passing drill was very successful against the second stringers who were composed of Bobby Newman and I. M. Telford at ends, Warren Stannard at guards, Charles Cameron at center, Hugh Leisher and Roy Dunn at the half positions, Danny Altman at quarterback and Pete Echols at fullback.

The regulars were Sam Waits and Babe Wilkinson at ends, Jimmy Renaud and Robert Howie at tackles, Sonny Powell and Raymond Hasty at guards, Duke Epps at center, Bucky Ferguson at quarterback, Darrell Ferguson at left half back, Art Williams and Pete Tillis alternate at right half back and Ganas held down the full back position.

The entire squad will undergo a slight tapering-off drill this afternoon with a dummy scrimmage of the plays that will probably be used tomorrow night in Ocala. Word from Ocala indicates that the Wildcats are preparing for a tough game and the tilt will be played on the new athletic field which was constructed last summer. The game will start at 8:00 o'clock.

Chemists Discoveries Start Rush For Gems

HONOLULU, T. H., Oct. 27.—Amateur prospectors are hurrying to the rugged Waianai mountains near here to search for semi-precious stones, following discoveries there by two chemists. These chemists—Alexander Cornelison and Howard Cooper—picked up yellow topaz, red jasper, blood-stones, olivine, and opals which have been valued at \$1,500.

The chemists made their finds while searching for bauxite, a mineral used in clarifying sugar syrup.

TRUST LAW SETTLEMENT

PORT WAYNE, Ind.—(AP)—An informed government source disclosed yesterday that the Ford Motor Company and the Chrysler Corporation have signed consent decrees to end prosecution on Federal grand jury indictments returned last May charging conspiracy to violate the Sherman Anti-Trust Law.

Mark Byron of Miami, son-in-law of Governor Fred P. Cone, was appointed advertising and publicity director for the Overseas Road and Toll Bridge District this week.

Fighting men of Hitler's Nazi legions laid down their guns momentarily after the Munich agreement allowed peaceful invasion of Czechoslovakia and helped Sudeten peasants bring in the harvest. Many crops were left ungathered by Czech farmers who fled before the advancing German armies. This picture shows hunky German troopers in the fields aiding a farm woman.

Hurricanes And Tars Meet For Fencing Match

WINTER PARK, Oct. 27.—An all-around fencing match between the Tar and Hurricane teams will be staged Saturday morning with the southern champion Tars picked as decided favorites.

The match will be the opening engagement for both fencing teams and will feature a variety of styles. Both organizations favored to continue their southern reign as undefeated champions. Led by Capt. Dante Cetrulo, expert at foil and sabre, a team of eight men and coach W. L. Roney will arrive in Miami Friday afternoon.

Rollins Team Prepares For Miami Contest

Tar Linesmen Counted On To Stop Hurricane's Powerhouse

WINTER PARK, Oct. 27.—With their state title tilt with Miami just around the corner, Rollins supporters were reconciled with one hope today, that if their Tars are to beat Miami Friday night, it will be on to the team to quiet the far-famed single wingback powerhouse attack of the Hurricanes.

With the fact fully recognized by Tar coaches and players alike another day of stiff conditioning drills and dummy scrimmaging as planned today for the final best workout prior to the Miami game.

That the Tar backs have proved their worth in the three games thus far this year is acknowledged by the fact that the linesmen have received most of the coaches attention during the last ten days of preparatory drills. Daily sessions with Alex Waiter's heavy sled has resulted in marked improvement in the change of these linesmen, besides strengthening the drive in their leg contact work among each other, the two-one variety, has provided the necessary toughening exercises.

Even with the realization that their team is facing probably the strongest squad they have met in two years, Tar backers have more than hope to back their confidence of victory. They point to Dick Turk, 205-pound center, and the other linemen as a veteran and experienced frontier with plenty of determination and power. Two year veterans most of them, all have awaited the return engagement with Miami after the Hurricane trimming two years ago.

BLACKS HELD IN SLAYING JACKSON

MIAMI.—(AP)—Sixteen negroes were arrested yesterday in connection with the slaying of Police Chief Charles T. Thurston Tuesday night. Five of the negroes were taken to Atlanta and officers said three of them had confessed participating in a series of burglaries but blamed the actual slaying on a fourth.

SOCIETY DIVORCE

MIAMI.—(AP)—Barbara Guggenheim Waiter was a divorcee from her husband, Fred, Mrs. Waiter, a member of the Guggenheim capitalist family, charged him with drunkenness and an ungovernable temper.

"I passed in Lambeth Walking, but I finked the Shag!" That may be Chicago scholastic conversation since Benn High School and 11 others instituted classes in modern dances on Friday evenings, expenses divided between the school board and a 10-cent tax per pupil. Mrs. Estelle Flanders Green, above at right, instructs a class in the fine points of the Lambeth Walk.

Polish Jews Are Rounded Up By Nazis

Semites Returned To Poland Before They Lose Citizenship Under New Statute

New Problems Plague French

German Press Flays U. S. Meddling In Europeans Affairs

Anti-semitism flared on a new front in Germany today as thousands of Polish Jews were rounded up and dumped into Poland to forestall application of a new Polish law that might deprive them of their citizenship.

According to the Polish law coming into effect Oct. 28 all Poles living outside country by that date must have their passports revalidated by Polish consulates or they can never again enter Poland.

The German foreign office mouthpiece, Deutsche Diplomatisch Politische Korrespondenz, accused the United States today of being "an encumbrance to European conciliatory efforts" since the peace of Munich.

In a bitter attack on "American meddling in European affairs" the publication said England (Continued on Page Seven)

SPEAKS HERE MONDAY NIGHT

Senator Claude Pepper, Democratic nominee for reelection to the United States Senate has accepted an invitation of the Seminole County Democratic Executive Committee to speak here Monday night at 8 o'clock. Senator Pepper will be introduced by Mayor Edward Higgins.

Simpson Tenders Resignation As C Of C President

Oil Company Transfers Civic Leadership To New York

T. E. Simpson who was recently elected president of the Seminole County Chamber of Commerce for a third term has tendered his resignation to the board of directors to become effective next Tuesday.

Mr. Simpson's resignation came as a result of his transfer by the Texas Company to a terminal of the company for which he has worked for 31 years, in Newburgh, N. Y., where New York City on the Hudson River.

Mr. Simpson has been a resident of Sanford for five years, coming here from Jacksonville as the local agent for the Texas Company. He will leave Sanford for his new home on Wednesday, accompanied by his daughter, Beatrice.

The Seminole County Chamber of Commerce in conjunction with the regular luncheon of the Junior Chamber are planning a farewell dinner party at the Mayfair Hotel next Tuesday night. Reservations for attending this dinner should be made not later than 5:00 o'clock Monday evening at the Chamber of Commerce building.

Mr. Simpson, during his stay here, has been active in civic affairs. He is a past president of (Continued on Page Seven)

Diamond Ball Field Approved By Commission

To Sponsor Construction As Part Of Recreational Program

At a joint meeting of the City Commission and the Recreation Committee of the Seminole County Chamber of Commerce, headed by Chairman W. P. McCracken, the Commission agreed to proceed with the construction of a diamond ball field on the vacant lot between Hood and Palmtoe Avenues on the lake shore as quickly as possible.

NYA labor will be used to construct the field, according to H. A. Goodspeed, in charge of the local NYA office, who stated that a project was submitted to the Jacksonville office today to the effect that he will have approximately 40 boys to put to work on the project by next week.

The City Commissioners again voted their approval of a diamond ball league as a part of the City's recreational program. The league, it was pointed out, will be self-supporting through charging a small admission to games after the season gets under way and the cost of construction can be gradually liquidated.

H. H. Coleman, local manager of the Florida Power and Light Company has agreed to install the lighting fixtures for the field at no cost to the City and other local firms have signified a willingness to co-operate in securing the field.

Although construction of the diamond will begin as soon as possible, Gerald L. Ash, recently appointed recreational director, stated today that it will probably be after the first of the year before a league can be organized and a schedule arranged.

It is expected that this matter will be further discussed at a meeting of the Seminole County Recreational Committee in the Chamber of Commerce building Saturday afternoon at 2:00 o'clock.

At the regular meeting of the Commission Monday night, Mr. McCracken submitted tentative figures showing that it will cost approximately \$875 for materials to construct the proposed field. This will include a fence around the field, benches which will seat approximately 400 persons, and adequate lighting equipment for night games.

Charter For Sanford Bank Is Approved

New Institution Is State Bank Having Deposit Insurance; Will Open Jan. 1

Final approval was granted today for a new bank in Sanford, the Sanford State Bank, which is being organized and has been organized. The new bank will be organized under the Florida State Bank Act and will be a member of the Federal Deposit Insurance Corporation.

The granting of a charter for the Florida State Bank of Sanford and its acceptance by the Federal Deposit Insurance Corporation for insurance of its deposits, virtually complete the preliminaries to the opening of the new bank in Sanford.

Only the installation of necessary equipment and completion of furnishings of the home for the bank remain and it was reliably reported here this afternoon that it is expected the bank will be ready for business by the first of the year.

According to an announcement released here last summer, M. C. McVane, a former federal bank receiver, will be the president of the new institution. The bank will be located in the building at southwest corner of Park Avenue and First Street.

This building is one originally occupied by the old First National Bank and was the former home of the Lyman Ross, the first institution of its kind in Sanford.

The executive committee of the bank, as formerly announced, will consist of W. E. Kitchhoff, Jr., Walter L. Cooper, R. A. Smith, Sam Fleischer, L. A. Bromley, Charles Dunn, J. H. Van Hoy, L. F. Boyle, and H. G. Geiger.

Mayfair Hotel Is Acquired By New Jersey Industrialist

ENTER FLORIDA RESORT FIELD

Fine Golf Course Is Big Inducement To Tourist Crop

The advantages of a fine golf course in Sanford are many and that is the least of them. The Sanford State Bank, which is being organized and has been organized, will be a member of the Federal Deposit Insurance Corporation. The granting of a charter for the Florida State Bank of Sanford and its acceptance by the Federal Deposit Insurance Corporation for insurance of its deposits, virtually complete the preliminaries to the opening of the new bank in Sanford.

Henry A. Dahlen Is Now Owner Of Sanford's Leading Hotel For Tourists

Henry A. Dahlen, New Jersey industrialist, has today announced the purchase of the Mayfair Hotel which he intends to improve extensively and make it one of the best hotels in Florida catering to tourists.

T. R. Archibald Named Manager

Formal Opening Under New Ownership Slated For Dec. 10

The Mayfair Hotel, Sanford's leading tourist hotel, has been purchased by Henry A. Dahlen, a New Jersey industrialist, who has announced today that he intends to improve extensively and make it one of the best hotels in Florida catering to tourists.

T. R. Archibald has been named manager of the hotel under the new ownership. The formal opening of the hotel under the new ownership is slated for Dec. 10.

Utilities Join Government In Defense Program

WASHINGTON, Oct. 28.—(AP)—A dozen big utilities companies, joining hands with the federal government in its national defense program, disclosed today they would spend \$2,000,000,000 in the next two years to expand their output of electric power.

This amount, said Floyd C. Canfield of the Consolidated Edison Company of New York, would virtually double such expenditures at present.

As a first step, utilities announced "definite commitments for enough factory orders to supply generating equipment capable of producing 1,000,000 kilowatts.

The commitments were given as a part of the Administration's efforts to strengthen power facilities of the nation's strategic war material manufacturing centers.

Canfield said "substantial" government financing was involved. Areas affected by the project of construction are those in which production of munitions and other war materials would be in great demand in event of mobilization, a War Department announcement said, that in event of war or other emergency the government "shall have first call upon the industry."

U. S. Army Makes Bid For Speed Supremacy In Air

WASHINGTON, Oct. 28.—(AP)—A six-mile-a-minute warplane is the Army's immediate answer to European rivalry for speed supremacy in the air.

It was disclosed today that Lieut. Benjamin S. Kelsey made a 360-mile flight from Dayton, Ohio, to Buffalo, N. Y., in 61 minutes in a pursuit ship about which the Army has had little to say.

The plane, a Curtiss P-37, already has passed the experimental stage and an initial squadron of 12 soon will be delivered, officials said.

The Army intends in few days to announce another and presumably faster plane, P-40, an experimental job.

Both Germany and Great Britain have combat planes for which they boast greater speed than P-37 but the Army points out that the U. S. ship had full military equipment while the German plane was stripped for racing and the British plane's 400-mile speed was attained with the aid of a 75-mile tailwind.

Community Improvement Projects Of NYA Are Outlined By Goodspeed

One of the greatest accomplishments of the NYA in its community improvement program has been the remodeling of the old East Side Primary School for a WPA nursery, H. A. Goodspeed in charge of the local office, said today.

Under experienced supervision the boys repainted and repaired the building for use as a nursery. The school board permitted use of the building for this purpose after the primary classes had been consolidated with the South Side Primary School.

A number of the boys on the NYA rolls are now assisting Superintendent of Parks James L. Moughlin in the extensive beautification program for the Municipal Pier. Mr. Goodspeed said, adding that others are making concrete work benches which will be placed on the pier and at other desirable locations in the city.

During the summer months, the boys were engaged in many other worthwhile projects including the construction of a hen house at the school farm in the rear of the high school.

The National Youth Administration operates work projects on which out of school youths are employed on a part time basis, Mr. Goodspeed pointed out, adding that these are designed to be useful and of benefit to the public, either through improvement of cultural opportunities or through the creation of permanent public works.

Special emphasis, he said, is placed on youth training in the work which includes all types of construction and repair, as well as all types of clerical and service activities.

Pointing out that several persons may be added to the local rolls, Mr. Goodspeed stated that the monthly earnings are limited and varied according to skill and region. Youth employees work each month the number of hours necessary to earn at the established hourly rate of pay the monthly wage applicable to the type of work performed. The hourly rates of pay, he added, are established in accordance with the rates of pay prevailing for youth work of a similar nature in the same locality.

In order to be eligible to work in the NYA program, youths must have reached their 18th birthday and must not have passed their 25th birthday.

New Director Of Local Merchants Recreation Plans Co-operate With Extensive Program

Excellent Response To Membership Campaign Is Reported

Planting out that a good many of the program's activities, those that are planned for the children of an office program for which Gerald L. Ash, recently appointed City recreation director, today said tentative plans for a recreational program in Sanford which will appeal to every resident of every age group made today.

Mr. Ash pointed out on his arrival here from Jacksonville earlier in the week. He pointed out that tourists may pass through here without knowing that there is a single fish in any of Sanford County's 91 lakes or in the rivers and streams. He declared that signs should be erected to tell tourists who pass through 99 percent of whom are hunting and fishing enthusiasts of the possibilities offered here.

The new director is being provided through the co-operation of the City with the Works Progress Administration. He will have charge of the City's various facilities and will arrange activities for the entertainment of visitors, as well as local residents. His headquarters will be in the Chamber of Commerce building.

Mr. Ash came to Sanford with the highest recommendations and his appointment was made from a group of applicants trained and experienced in recreational work after careful consideration by the Recreational Committee of the Seminole County Chamber of Commerce.

A native of Lansing, Mich., Mr. Ash attended Springfield College at Springfield, Mass., and Battle Creek College at Battle Creek, Mich. (Continued on Page Seven)
