# Lunar Visitors Splash Down OK

ABOARD USS YORKTOWN (AP) — Climaxing a magnificent space odyssey, the Apollo 8 moon explorers came home from the heavens today, steering their spaceship to a pinpoint landing less than three miles from the main recovery ship in a darkened Pacific Ocean.

America's newest heroes ended man's greatest space adventure with a splash.

(LA. CH. HARRY Smith, of R. R. 2, Bayport, former PFO and legal officer at RNAS in 1958-62 and now assigned to Patrick AFB, is currently on duty with the Apollo 8 recovery team at Houston (Tex.) Space Center.)

They landed just before dawn and waited patiently for their bobbing spaceship for 45 minutes until the first rays of light began to illuminate the Pacific and the swimmers could safely drop into the sea to secure the Apollo 8 crew.

America's newest heroes ended man's greatest space adventure with a splash.

(LA. CH. HARRY Smith, of R. R. 2, Bayport, former PFO and legal officer at RNAS in 1958-62 and now assigned to Patrick AFB, is currently on duty with the Apollo 8 recovery team at Houston (Tex.) Space Center.)

# Seminole Hospital Near Filled

**Hong Kong Flu Not Responsible**

By JUDY WELLS

Patients suffering from virus and related upper respiratory infections are filling up Seminole Memorial Hospital, Dr. Luis Perez, president of the Seminole Medical Association, told The Herald today.

"We're running out of beds in the hospital and are admitting only the cases that absolutely have to be admitted. As yet, we've had no cases of Hong Kong flu but there is a tremendous amount of bad colds and regular influenza that comes every year at this time. Pneumonia has increased and there are a number of ear infections, especially with the kids," Perez said.

In a check with the County Health Department, Dr. Frank Leone, director, stated definitely that influenza cases have not reached epidemic proportions. "There are no more cases of this year than at this time any other year and reported absenteeism in industries would have to reach between 10 and 20 per cent before one could say that influenza is in epidemic stages," he said.

In his opinion, increases in the respiratory ailments, which can develop into pneumonia and/or later ear infections, have resulted from a combination of reasons. Sharp changes in temperatures, such as have occurred in the past two weeks coupled with the rapid pace of the holidays, over-exhaustion and weakened resistance leave people subject to contact any germ floating around, he cautioned.

Again, the health director advised those who think they might be coming down with influenza to "go to bed, call your doctor, and avoid fatigue and stress." He also advised those with records of previous respiratory ailments, and older persons, to get shots for Hong Kong flu now that winter is available in the county.

However, Dr. David J. Seno, the center's director, cautioned that the figures from the 122 cities are "purely a sampling." He said they should not be interpreted too strictly.

# City Studies \$3.7 Million Drainage

By BILL SCOTT

City of Sanford has been presented with a city-wide drainage plan by Clark Dietz and Associates, Inc., consulting engineers, which calls for expenditures of \$3,740,785.

Now being studied by city commissioners, the report does not recommend all master plan construction at this time, and provides two alternate plans with cost estimates of \$3,458,615 and \$2,999,755.

Five recommendations in the report were listed as immediate needs and these included: Downtown outlet and lateral drainage; Extend Locust Avenue Interceptor from Ninth Street south and west into Sanford Avenue and Plumas Drive sector;

On Mill Creek, install a new crossing at Eighth Street and enlarge and deepen the channel from Eighth Street north using an earth-embankment with modified grade;

Extend the interceptor facilities on Eighth Street through Goldboro to 18th Street;

On Cloud Branch, enlarge and deepen the earthen channel on Eighth Street, utilizing a modified grade as indicated by velocity limitations, install a permanent crossing at Third Street and enlarge the earthen channel south of Third Street to Tenth Street, including a temporary enlargement of the road crossing at Eighth Street;

Construct the Mallowville, Rosella, Handolph and Sumner area facilities and improve outlet.

The first three steps in the program will require getting right-of-way, and this equipped with type of existing structure and high water level in construction.

Understanding the program as an overall renewal or catch-up enforcement plan is emphasized by city.

Commission authorized the drainage report approximately six months ago and are expected to take some form of action on the engineers' proposals at next full meeting, Jan. 13.

# Alternative Plans Cited

Longwood Mayor Ken Brown informed that U.S. Rep. William Chappell will be in his city on Jan. 11 to dedicate the new postoffice there.

State Senator Ken Plante will meet with Sanford City Commission Monday at 7:30 p.m. to discuss legislation for urban-renewal participation by city, which requires action from legislative delegation.

Warren E. Knowles, city manager, said the meeting between Plante and commission was necessary to acquaint the legislator with what city wants in way of legislation.

City is experimenting with the old fish pond and waterfall at the foot of Park Avenue. Turning it into a big flower pot. If that turns out well... well and good. If not, a new plan will be installed.

# Five Injured In Collision

An accident occurring at 3:50 p.m. Thursday at the intersection of Avenue G and Fourth Street in Chuluota sent five persons to the hospital, Trooper L. D. Harrell of the Florida Highway Patrol reports.

Injured were a honeymoon couple, Jesse J. Redmon, 23, and Sharon Redmon, 19, of Eagleville, Tenn., occupants of one vehicle, and Erick G. Blomgren, 66, his wife, Elsa, 61, of 571 Fourth Street, Chuluota, and Carl W. Boone, 22, of 222 E. Amelia Street, Orlando, occupants of the other car.

Damages were reported at \$1,600 to each automobile.

No charges have been placed due to question of right-of-way at the intersection, Harrell said.

In another mishap at 7:55 p.m. in the Tangwood area, Becky C. Shuster, 263 Madison Avenue, Winter Park, ran into a parked vehicle in front of 1815 Willow Avenue, home of Henry S. Clark, owner of the car, and was charged with failure to have her vehicle under control. She was treated for mouth injuries.

# Hong Kong Flu Hits 33 States

ATLANTA, Ga. (AP) — Hong Kong flu has caused widespread regional illnesses in 33 states and deaths attributed to pneumonia-influenza more than doubled during the third week of December, the National Communicable Disease Center reports.

Officials are standing by their earlier predictions that the epidemic would not hit its peak until early or mid-January.

During the week ending Dec. 21, the center's figures show approximately 50 more deaths from pneumonia-influenza in 12 selected cities throughout the nation than might normally be expected.

However, Dr. David J. Seno, the center's director, cautioned that the figures from the 122 cities are "purely a sampling." He said they should not be interpreted too strictly.

# Senators Differ On Constitution

By DONNA ESTES

Two members of the Seminole-Orange legislative delegation took entirely opposite positions in answer to a query from The Sanford Herald today.

The two senators-elect were questioned concerning the section of the new State Constitution to go into effect Jan. 7 which prohibits holding of more than one office in state, county or municipal government at one time.

"Nobody can hold more than one office at one time. The law appears to be clear," Senator John Ducker opined. At the same time, Sen. Bill Gunter said the intent of the law is that no person can hold two elective offices at the same time.

Gunter, meanwhile, stressed that city attorneys, for an example, would not fall within the province of the law since they are employees and further that persons serving without pay would also be excluded.

# Pioneer Stripped, Robbed Of Ring

"I was a little scared and I don't think I'll stay by myself any more," Mrs. Bobbie Jo Hunt, a pioneer of the City of Longwood, said today in an interview with The Herald describing the robbery at her home on East Lake Street last night.

Mrs. Hunt said two well-dressed young men — one tall and slender and the other a short little fellow — "burst in to her home a little after 7 last evening and held her at gun point while she opened a safe in one of the rooms.

"I tried to tell them I didn't have any money in the house. I've been keeping my money in the bank since a year and a half to two years ago.

"I don't know exactly how much they got. Maybe about \$68 out of my purse and the safe. But they pulled the ring from my finger that my husband gave me 60 years ago, two years before we were married."

Mrs. Hunt, whose husband died three months ago, said the ring was a cluster of diamonds and valued at about \$250. It was not insured.

"They made me take off all my clothes and sit on the bed naked — I guess I wouldn't go outdoors but they didn't harm me in anyway. They just took my ring and my watch and my feet and my legs but I could still walk around.

"When they left, I went to a neighbor for help."

## Scrambled Eggs In Holiday Style

By CECILY BROWNSTONE

Associated Press Food Editor

Between Christmas and New Year's Day you may find the scrambled eggs, cooked in extra-special style may fill the bill.

They'll come in handy for a festive brunch or lunch. They're also fine for late evening suppers—those cozy times when a hot dish in an order and a 1/4 teaspoon white pepper 1/4 cup half-and-half or light cream

To make the eggs special, make interesting additions. One combination tried recently in our kitchen follows. The additions include cream cheese and ripe olives and they produce a great blend of flavors.

**SPECIAL SCRAMBLED EGGS**

8 large eggs  
1/4 teaspoon salt  
1/4 teaspoon white pepper  
1/4 cup half-and-half or light cream

1 package (3 ounces) cream cheese, cut in small chunks  
1 tablespoon butter  
3/4 cup pitted ripe olives, cut into large pieces

In a medium mixing bowl beat eggs just enough to combine yolks and whites. Add salt, pepper and half-and-half; beat again just enough to blend. Add cream cheese.

In a 16-inch skillet over low heat melt the butter; add the egg mixture. As eggs set, draw a large spoon across bottom of skillet to free them; do not stir constantly or eggs will not be in large flakes. Just before eggs have set as much as you like, fold in olives.

Makes four to six servings.

Note: If you like, you may add two teaspoons dry sherry to the eggs when you add the half-and-half.

## Legal Notice

**NOTICE**

Notice is hereby given that the annual meeting of the shareholders of South Seminole Bank, Palm Bay, Florida, will be held at its banking house in Palm Bay, Seminole County, Florida, on Tuesday, January 14, 1969 at 10:00 a.m. for the purpose of hearing reports, the election of Directors for the ensuing year and for the transaction of such business which may or might properly come before the said meeting, or any adjournment or adjournments thereof.

Notice is hereby given that on January 1, 1969, has been filed with the Seminole County Board of Supervisors for the purpose of amending the charter of the County of Seminole, Florida, to read as follows:

**SECTION 1.** The Charter of the County of Seminole, Florida, as amended by Ordinance No. 1, Series 1968, is hereby amended to read as follows:

**ARTICLE I.** The name of the County shall be and it is hereby declared to be the County of Seminole, Florida.

**ARTICLE II.** The seat of the County shall be and it is hereby declared to be the City of Sanford, Florida.

# Christmas And Peace

Christmas is the season of joy, charity, peace and goodwill. It is a time when we turn to the world, looking for the peace of God's love for men, peace in truth and good will, peace between all men with God through the child who is born.

All Christmas activities center around the birth of Jesus Christ. The birth of Jesus Christ is the central theme of the Christmas season. The birth of Jesus Christ is the central theme of the Christmas season. The birth of Jesus Christ is the central theme of the Christmas season.

# Student Sunday Scheduled

Student Sunday will be observed at First Congregational Christian Church of Sanford this week at 11 a.m., when college and university students assemble for the morning service.

John Herford of Bonaventure College will preach, with Sharon Best, also of Bonaventure, leading in the religious exercises. Howard Sheward of Florida State will sing a solo, and a quart will be sung by Geri Green and Paul Meredith. Leslie Green of Western Carolina College will give the sermon and benediction.

# Methodist Set Day Convocation

A MOVING and poignant portrayal of "A Child Is Born" was presented by Choirs of Deltona United Methodist Church. Mrs. Pauline Rose directed the singing. Mrs. Katherine Sellers was organist, and L. Musselman was narrator. Mrs. Joan Maslarczyk and infant son, John, played the part of Mary and Baby Jesus. Boy Deary was Joseph, Angela was Lisa Robinson and Laurie Hawkins, Kings were Jim Griener, Elmer Winkler, and Ricky Geason, and Shepherds were Eddie Hawkins, Raymond Goforth and Wyn Gopdill. (Photo by Mildred Haney)

# Methodist Set Day Convocation

What do a hillbilly comedian, a gospel singer, a preacher and a bishop have in common?

All will be program principals at three regional one-day convocations for the laity that the United Methodist Church will hold Jan. 17-19 at Miami Beach, Lakeland and Jacksonville, in that order.

Called the "Bishop's Convocations" in honor of Bishop James W. Henley of Lakeland, head of the denomination's Florida episcopal area, the meetings are sponsored by the Board of the Laity.

"Our purpose is to discover what Christian living is all about and cement a greater loyalty and personal dedication to the Lord," Bishop Henley said in his call for "a day of spiritual enrichment" at each convocation.

# Welcome Wagon Names Officers

By MILDRED HANEY

New officers of the Deltona Welcome Wagon Club were installed at the club's annual Christmas party and meeting at the Community Center.

Mrs. Edna Richmond, Deltona, was elected president, served as installing officer, with Mrs. Kay Hibbard, Deltona, as secretary. Mrs. Theresa Coulette, organist, and Mrs. Frances Sheehan, pianist, were also present.

# Circles Have Annual Holiday Tea

By JANE CASSELLBERRY

The Naomi and Crusader Circles of Casselberry Community United Methodist Church held their third annual Christmas tea for widows of the congregation Sunday afternoon at the church.

The fourth grade girls have been taking some lessons in the subject of the Christmas story, boys and girls of the first grade, under the direction of Mrs. Marvella Hilt, teacher, presented their Christmas program.

# Students Present Programs

By MILDRED HANEY

Two programs highlighted the holiday season at Enterprise Elementary School.

The fourth graders presented a Christmas program in the school auditorium and the following day, boys and girls of the first grade, under the direction of Mrs. Marvella Hilt, teacher, presented their Christmas program.

# Installation Set For New Minister

By MILDRED HANEY

Services of the United Church of Deltona will observe the installation of Rev. Roger R. Carter, a graduate of an exclusive girls school, who was the communion steward at the church in Nashville, Tenn., where Bishop Henley was pastor for 15 years.

# Synod Of Bishops

ROME, Italy (AP) — Pope Paul VI announced today that the second meeting of his synod of bishops will open at the Vatican next Oct. 11.

What's in a Name? Young women don't like to be called "housewives." They like either "working mothers" or "housewives." Over 40, the women like "housewife," a term they grew up with.

# Rev. Hall To Be Guest At Covenant

Guest preacher at Presbyterian Church of the Covenant, Sanford, at 9 a.m. Sunday will be Rev. C. William Hall of Lomberton, N. C., who recently was appointed a missionary to Japan by the Presbyterian Board of World Missions.

# Deltona FHA Is Organized

By MILDRED HANEY

A chapter of Future Homemakers of America, a widespread organization with representation in every state of the U.S., has been formed at the new Deltona Junior High School.

# Worship Knows No Calendar

Worship knows no calendar. It is a constant presence in the lives of the faithful. It is a constant presence in the lives of the faithful. It is a constant presence in the lives of the faithful.

# Christmas Tea Held For Widows

A CHRISTMAS tea was held for the widows of the Casselberry Community United Methodist Church Sunday afternoon, sponsored by the Crusader and Naomi Circles. Shown are (left to right) Jane Casselberry, speaker; Mrs. G. F. Mossick, chairman of the event; Mrs. Minnie Zimmerman and Mrs. Genevieve Brown, guests and Rev. E. P. Richards, who doubled as Santa. (Photo by Jane Casselberry)

# Nixon Back At Miami

KEY BISCAYNE, Fla. (AP) — President-elect Nixon, back at his Key Biscayne hideaway after a flying visit to a private island in the Bahamas, planned another day of rest today before a Saturday conference with foreign policy advisers.

Nixon, his wife, and newlyweds David and Julie Eisenhower flew by helicopter Thursday to Grand Cay at the tip of the Bahamas chain. They spent the day there, swimming and walking the beaches. G.D. Robson, Nixon's friend and next-door neighbor, accompanied the family.

The party returned by Coast Guard helicopter at dusk. There was no announced schedule today.

In making white bread with yeast, enough flour should be worked in so that the dough comes away from the bowl.

# Bus 6727 . . . Where Are You?

LANTANA, Fla. (AP)—Greyhound bus 6727, intended as a special charter for a tour of the Kennedy spaceport complex, just disappeared.

"It's just missing. We don't know what happened to it," said John Runer, a maintenance supervisor at the company's Titusville terminal. "It was here Wednesday night. Then it was gone."

But as Greyhound looked hither and thither for 6727, Kennedy Space Center officials said the missing bus hadn't hurt attendance at the spaceport. A spokesman said 6,027 persons showed up Thursday—a full-time record.

# Carol Sue Torres, W. E. Vihlen Jr. Married

Miss Carol Sue Torres became the bride of William E. Vihlen Jr. in a splendid double ring ceremony conducted by the Rev. Lawrence Ward, on Saturday, Dec. 21 at 4 p.m. at the First United Methodist Church of Geneva.

The bride is the daughter of Mr. and Mrs. Walton M. Torres of Lake Proctor in Geneva. Mr. Vihlen is the son of Mr. and Mrs. W. E. Vihlen of Sanford.

The altar of the church was decorated with vases holding masses of white lilies of the valley and soft green ferns, highlighted by white tapers.

Each window of the sanctuary was lighted with a single royal blue taper entwined with ivy at the base. Family pews were marked with white stars.

Organist Miss Susan Powell of Vienna, Ga., played a recital of Bach's "Chaconne" and Mendelssohn's "Wedding March"; "The Bridal Chorus" by Lohengrin; and "Largo" by Brahms.

Miss Powell provided the accompaniment for soloists Miss Ginny MacCall of Lake Wales, who sang "The Twenty-Third Psalm"; and Merritt Staley of Oviedo, who sang "The Lord's Prayer."

The bride was given in marriage by her father. She wore a formal gown of bridal satin designed upon princess lines. Her high neckline was embellished with silk Venise lace which was accented on the bodice and the long sleeves.

Her queen's court train, also highlighted with lace trim, flowed into a chapel sweep. The bride's three-tiered veil of silk fillet was held by a baby cap of lace accented with pearls.

The bride carried a white prayer book, a gift from the bridegroom, and held a single long-stemmed white rose.

Mrs. Sandra B. Torres of Augusta, Ga., was matron of honor for her sister-in-law. Mrs. Torres wore a royal blue gown of Chitra crepe cut over Empire lines with a cat velvet bodice and a long-train skirt.

A best person of satin falling from a Dior bow and a nosegay veil of illusion attached to a large satin Dior bow completed her ensemble.

The maid of honor, Miss Miriam Wheeler of Oviedo, and attendants Kristen Kane of Winter Park; Sharon Walker of Albany, Ga.; and Duane Vihlen, sister of the bridegroom, Mrs. Elizabeth Dunn of Hampton, Va., is visiting her brother and sister-in-law, Mr. and Mrs. Harvey L. Dunn.

Ernest Watson and Dennis Brown are both home from the service on Christmas leaves.

Mrs. Birdie Snodgrass, Mrs. Fred Harris, Miss Helen Snodgrass and Alfred Corlette recently visited Mrs. Jack Hughes who is a patient in Seminole Memorial Hospital.

Mr. and Mrs. John Henry Harrison served punch from a table set with crystal appointments.

Miss Janice Daniels kept the bride's book at a small table centered with a single white long-stemmed rose in a sterling silver bud vase.

Miss Rita Leone and Miss Julie Upp assisted the hostesses.

Mr. and Mrs. John Henry Harrison served punch from a table set with crystal appointments.

Miss Janice Daniels kept the bride's book at a small table centered with a single white long-stemmed rose in a sterling silver bud vase.

Miss Rita Leone and Miss Julie Upp assisted the hostesses.

## Long View

The word "sale" sends many otherwise rational women off on a shopping spree with the zeal of a treasure-hunter. Often the items they buy are not needed, but look like bargains.

Yet when clothing is on sale at reduced prices, there has to be a reason. There are several ways to determine "good buys" for the items you need:

— If the store is really "going out of business," some quality garments may be reduced in price to move them quickly.

— "Irregulars" may have imperfections in size, weave, knit or color, which may or may not affect the wearing quality of the garment. "Seconds," however, have flaws, such as a mend, tear, or run which usually do show and affect the life of the garment.

— "Irregulars" are therefore better bets than "seconds." Mill outlet stores specialize in "irregulars" and "seconds." They may also carry some first-quality garments, but which were used for display purposes or to determine appropriateness of style. These quality garments are usually in small sizes. If they suit you, they may be good buys.

— Many women wisely shop for a month or two in outlet stores. There you'll find damaged or shopworn goods, or "seconds," or items which are not first quality for some other reason. Many of such items may serve your needs at big savings.

— Uniforms may be reduced on hard-to-sell sizes such as very small or very large. Sample garments or shoes may be offered. If you can wear some of these less common sizes, you're fortunate.

— Often the color or style of a garment doesn't sell. If such an item is becoming to you, it may be an excellent purchase.

— "Special purchase" merchandise was bought especially for the "sale" and is not regular merchandise at reduced prices. Standards may not always be as high on these items as on regular merchandise offered, but if the items meet your needs, they are satisfactory to you.

— Some garments may be low quality in construction. Perhaps parts of the garment are cut off-grain, or seams are ripping or raveling. Home sewers may quickly correct these faults with very little effort.

— Some sales may be regular merchandise marked down because it was overproduced. This excess may be reduced in price to avoid carry-over for the next season.

— A style may be an "advance" style, or it may be going out. Therefore, if you know fashion trends, you may be able to decide whether or not to invest in such "bargains." If you can wear the garment immediately, it may be a good buy.

## Water Dormant Lawns

A dormant lawn may die of thirst without warning! Although winter has turned brown by cool weather shows no evidence of needing water, it does require a regular supply of moisture to maintain life — about 1 inch per week.

If you forget this fact, you won't recognize your mistake until Spring, when your lawn remains brown, while the neighbors' yards are turning green.

The most important thing we can do for our lawns during fall and winter is to make sure they are properly watered. Half an inch per week for dormant lawns and up to one inch per week for lawns that are properly watered.

Remember — lawns need a regular supply of moisture throughout the year — even during the coldest months of winter.

For more lawn facts, check with your County Agricultural Agent.

## Yardner Corner

By CECIL A. TUCKER II  
County Agricultural Agent

What may well be a very popular home-heating system is being developed now by the U.S. Department of Agricultural Research.

It's called a peripheral circulation system which distributes and circulates only the desired amount of heat needed to keep a home comfortable. Preliminary testing indicates the system is economical to install and more effective to operate than most conventional home systems.

Tests show that under normal conditions, a peripheral system can be put in a one-story home during construction for \$100 to \$200. It can also go into an existing central-heating system. The system works very well for houses with crawl spaces.

Many problems in conventional forced-air and radiant systems stem from insufficient air movement and unequal air distribution. The peripheral circulation system forces all air in the house to move in a definite pattern that eliminates hot and cold spots.

Air is first forced across a heat-producing source — a conventional oil, gas or electric furnace, even a pot-bellied stove or a radiant heater — and then throughout the entire house in a well-defined flow pattern.

Here's how the system works: A blower pulls both warm and cool air from all parts of the house into a central duct near the ceiling. Here, the air is mixed to one temperature and forced through a duct into a low-pressure plenum, or crawl space. Air escapes from the plenum along the baseboards, enters the room, then slowly moves vertically up the walls and horizontally back toward the blower. Highest velocity air movement occurs near the ceiling, preventing a build-up of stagnant air pockets.

Since the air is distributed at a low velocity, drafts and dust deposits are kept to a minimum.

Preliminary testing with experimental 1-story houses show that the system can maintain temperatures with 5 F. degrees throughout the house and with 2 F. degrees in individual rooms. Variations as large as 20 degrees between the floor and ceiling of a single room have been observed with some of the more expensive central heating systems.

The system can be recommended for low-cost homes, particularly for low-cost homes, particularly for low-cost homes, particularly for low-cost homes.

More research is needed to refine components and to determine the system's applicability for 2-story homes and homes with basements.

It's called a peripheral circulation system which distributes and circulates only the desired amount of heat needed to keep a home comfortable. Preliminary testing indicates the system is economical to install and more effective to operate than most conventional home systems.

Tests show that under normal conditions, a peripheral system can be put in a one-story home during construction for \$100 to \$200. It can also go into an existing central-heating system. The system works very well for houses with crawl spaces.

Many problems in conventional forced-air and radiant systems stem from insufficient air movement and unequal air distribution. The peripheral circulation system forces all air in the house to move in a definite pattern that eliminates hot and cold spots.

Air is first forced across a heat-producing source — a conventional oil, gas or electric furnace, even a pot-bellied stove or a radiant heater — and then throughout the entire house in a well-defined flow pattern.

Here's how the system works: A blower pulls both warm and cool air from all parts of the house into a central duct near the ceiling. Here, the air is mixed to one temperature and forced through a duct into a low-pressure plenum, or crawl space. Air escapes from the plenum along the baseboards, enters the room, then slowly moves vertically up the walls and horizontally back toward the blower. Highest velocity air movement occurs near the ceiling, preventing a build-up of stagnant air pockets.

Since the air is distributed at a low velocity, drafts and dust deposits are kept to a minimum.

Preliminary testing with experimental 1-story houses show that the system can maintain temperatures with 5 F. degrees throughout the house and with 2 F. degrees in individual rooms. Variations as large as 20 degrees between the floor and ceiling of a single room have been observed with some of the more expensive central heating systems.

The system can be recommended for low-cost homes, particularly for low-cost homes, particularly for low-cost homes.

More research is needed to refine components and to determine the system's applicability for 2-story homes and homes with basements.

## Heating System Tested

## 'Longies' Sub For Bikinis

LOS ANGELES (AP) — In the year of the minidress and bikini, California sportswear designers have launched a counterattack of long pants, long tunics, and long beach pajamas.

The pants, which opened the spring showings of the California fashion creators are flared and feminine, flopping around the ankles.

But the vests, another borrowed bonanza from men's wear, are as tailored as can be.

In a daylong show of sportswear, many a skirt was seen, Alex Colman was the only designer to touch the basic shift at all. His were bright bold floral prints native to California.

The fabrics this year are active, washable acrylics and polyester. The colors are the American combo of red white and blue, and splashing prints in brown, black and white. Pants are still a perennial favorite.

Whitetail has added to its classic line the new fashion concept of wide legs and tunic tops. Tunics often zip closed and have belts. And vests make a plain pair of pants into a suit.

Though pants are total, the fitted skin peeks out in the returning midriff blouse. Whitetail shows it in knit and Charm of Hollywood puts it over sheer voile bell-bottom pants called "See Legs" which are almost transparent.

Golf dresses, tennis dresses, wrapped front pants, disguised as skirts all point to the fact that California sportswear is more casual than ever.

## Nurses Shortage Critical

NEW YORK (AP) — A serious shortage of nurses has been plaguing U.S. hospitals for years, and yet the role of the licensed practical nurse has literally gone unnoticed by thousands of women who contribute to the health care of the nation, says Mrs. Rita B. Schmidt, executive director of the National Federation of Licensed Practical Nurses.

Part of the problem may be that when the time comes to make a decision on future career ambitions, many girls sidestep nursing because they can't or don't want to go through three or four years of training, or it is a financial impossibility.

This, however, is no longer the case, she points out. An exciting and rewarding career awaits any woman who wants to do something in the health services field. It's a whole new career — it's the career of the licensed practical nurse.

In the past few years LPNs have taken on a "new role" — one that has played a vital part in alleviating the shortage of registered nurses. According to Mrs. Schmidt, practical nurses have assumed new and increased responsibilities as members of the nation's health care team.

As bedside nurses, they have taken important steps to raise the degree and level of their professional standards, as well as their preparation.

The LPN in 1968 is an entirely new breed. Mrs. Schmidt explains she has moved from the category of housekeeper or domestic to that of a trained practitioner in the health care field. No longer just a dropout from RN training or an older woman who has to look around for "something to do," the LPN has become a specialist who in addition to administering hospital treatment under supervision, often serves as a charge nurse or teaches and supervises the nurses aides.

LPNs today must be graduates of a fully accredited program (most of them 12 months in duration) and must pass state examinations (both written and oral) to qualify for their licenses.

## Pre-InVENTORY SALE

DECEMBER 27th-28th-30th-31st

10 A.M. to 8 P.M.

HURRY! WHILE SUPPLY LASTS

EVERYTHING MUST GO! MAKE ROOM FOR NEW MERCHANDISE. THIS SALE IS STOREWIDE. EVERYTHING IS DRASTICALLY REDUCED.

LIVING ROOM SUITES FROM \$89.50 PLUS MANY OTHER SPECIALS

ACCESSORIES 20% OFF ON ALL LAMPS, PICTURES AND DESKS

BEDDING SPECIAL BOX SPRING AND MATTRESS REG. \$79.50 NOW \$49.50 PLUS MANY MORE BARGAINS TO CHOOSE FROM IN FOAM OR INNER SPRING.

# Dear Abby: By Abigail Van Buren

DEAR ABBY: I am 32 years of age. I am not "married." I am with a man who says that he is not married, but he is with a woman who is married. She's right. I like the idea and the idea is not.

My problem is that I am not married. I am with a man who says that he is not married, but he is with a woman who is married. She's right. I like the idea and the idea is not.

# Horoscope Forecast

**SATURDAY, DEC. 20, 1968**  
GENERAL TENDENCIES: The early part of this day can be quite tedious as you get on the many little things you have to do in order to make your day run smoothly.

**SUNDAY, DEC. 21, 1968**  
GENERAL TENDENCIES: A good day to look deeply at your goals and ambitions. Think of a great plan as you can live the coming year more in a spirit of abundance rather than feeling the lack that has been yours.

# IDE GLANCES By Galsbraut

"How tall me the one about the beautiful girl who married the rich man and had two telephones in every room?"

# Jacoby On Bridge

We managed to design the **Clubby Report** for several months but he never came again. This time his complaint was about an International Bridge game.

When I don't seem to be a complaint about the hand he showed us. We did comment on the fact that the four-card game was not as good as we would like it to be, but it certainly was not the sort of game you would want to stay out of.

# These Students Prefer Education To Rioting

IN the students in directed at things outside the campus. An example last year was when several Reed students chained themselves to the Selective Service building.

Students who enter Reed already know of its intellectual demands and the degree of personal freedom outside the classroom. They are not afraid of the campus social structure.

# We The Women: By Betty Canary

I kept my appointment with the dermatologist with some trepidation. "Tell me, doctor," I said. "Don't open me." He examined my arms and hands carefully.

"Is this the heartburn of psoriasis?" I asked. "It's surprising how many of my patients ask about psoriasis," he said. "You're being watched too much television."

"Is this the heartburn of psoriasis?" I asked. "It's surprising how many of my patients ask about psoriasis," he said. "You're being watched too much television."

# Polly's Pointers

DEAR POLLY - The following Pointer was a great hit with my grandsons last Christmas. I wrapped their gifts in solid red paper and wrote their names on the tags in gold.

When I have finished using the mixer, they are easily wiped off the plastic cover. -MRS. P. E. D.

# CARNIVAL By Dick Tarrow

"You'd think that after teaching 10 years Perkins would know better than to ask a small boy to empty his pockets, wouldn't you?"

# TIZZY by Kate Osann

"I get my room rent as a pin and what happens—my mother is out for the day!"

"YOU HAVE ONE LAST CHANCE TO PREVIEW THIS GORGEOUS LADY."

"YOU HEARD HIM, BOO?"

"I WONDER WHERE YOU GO TO COMPLAIN ABOUT THE COMPLAINT DEPARTMENT?"

"I WONDER WHO IT IS?"

"WHOEVER IT IS, I WISHED HE'D STOP."

"I GOT MY ROOM RENT AS A PIN AND WHAT HAPPENS—MY MOTHER IS OUT FOR THE DAY!"

"I SEE IT EVERY DAY! GOGGING HAS BECOME VERY POPULAR, YOU KNOW."

"WE CAN GO FASTER THAN HE! YEAH!"

"GLYE THAT HAWK! SHERIFF'S FOLLOWING US!"

"I THINK I'LL WAITER TO THE HOTEL TO GET A MESSAGE!"

"WHAT'S YOUR OFFICIAL CAPACITY? I'M A MEMBER VERY PRECISE, I HAVE THE TODAY FOR MEASUREMENTS!"

"I'M NOT GOING TO SIT THERE AND LISTEN TO ANY MORE CRIPPLING COMPLAINTS!"

"I WONDER WHERE YOU GO TO COMPLAIN ABOUT THE COMPLAINT DEPARTMENT?"

"I WONDER WHO IT IS?"

"WHOEVER IT IS, I WISHED HE'D STOP."

"I GOT MY ROOM RENT AS A PIN AND WHAT HAPPENS—MY MOTHER IS OUT FOR THE DAY!"

"I SEE IT EVERY DAY! GOGGING HAS BECOME VERY POPULAR, YOU KNOW."

"WE CAN GO FASTER THAN HE! YEAH!"

"GLYE THAT HAWK! SHERIFF'S FOLLOWING US!"

# Attend Church This Sunday

7:00 on the radio and on the TV by who believe in us, even if it is...  
and when they do believe in us, shall ever do.

Table with columns for various church denominations: Baptist, Methodist, Christian Science, Church of God, Lutheran, Episcopal, Presbyterian, Pentecostal, Nazarene, Moravian, Bible Community, and others. Each entry lists the church name, address, and service times.

The old year wanes. The last week trills down the harp...  
The sum of its days shapes the year.

Table with columns for various church denominations: Bible Community, Methodist, Christian Science, Church of God, Lutheran, Episcopal, Presbyterian, Pentecostal, Nazarene, Moravian, Bible Community, and others. Each entry lists the church name, address, and service times.

# Hospital Chief Slaps State Attorney

## Medical-Legal Autopsies OK'd

Seminole Memorial Hospital will resume conducting medical-legal autopsies, it was reported today by Andrew Carraway, chairman of the board of trustees.

Wk. 61, No. 99 - AP Leased Wire - Established 1908 - MONDAY, DECEMBER 30, 1966 - SANFORD, FLORIDA - Price 10 Cents

# Post Mortem Reveals Jail Suicide Was Drugged

Large quantity, some seven times as much as the average daily dosage, of Enduron, a diuretic usually taken by older persons with high blood pressure and faulty kidneys, was found in the bloodstream of 14-year-old Robert Wayne Hollenback, according to autopsy report received by Peace Justice W. Thomas Lovett.

# Enduron In Blood

The autopsy was ordered following the hanging suicide of the youth while confined to the Seminole County Jail on the evening of Nov. 15.

# Teenager Held In Robbery

Kenneth Bryan Riser, 18, Route 1, Box 200, Sanford, is being held under \$10,000 bond by Seminole County authorities on an armed robbery charge after being arrested by Vern Brewer, Longwood police chief, after he allegedly assaulted and robbed charges against a 77-year-old Longwood woman.

# Cops Led Merry Chase

A 19-year-old Apopka youth is lodged in Seminole County jail on multiple charges, including assault with a deadly weapon and resisting arrest.

# Burglars Score At School, Cafe

Burglars were active during the weekend and at least two Sanford businesses entered. An entry at the Ranch House Restaurant on 17-92 was obtained when thieves broke out a side window and took \$117.50 from cash registers.

# Deseret Land Sold

TALLAHASSEE, Fla. (AP) - GAC Corp. of Tallahassee, Fla., announced today that it has agreed to purchase 200,000 acres in Florida for almost \$100 million from Zion Securities Corp. of Salt Lake City, Utah.

# Students Tour Area

Some 30 foreign students representing colleges and universities from 15 countries are touring the area.

# 1969 Resolutions, Anyone?

Every one usually makes New Year's resolutions annually. Here are a few which some of Seminole's prominent leaders might make for 1969.

A large directory table for the Seminole County Area Church Directory. It lists various churches across the county, including Baptist, Methodist, Christian Science, Church of God, Lutheran, Episcopal, Presbyterian, Pentecostal, Nazarene, Moravian, Bible Community, and others. Each entry includes the church name, address, and contact information.

Advertisement for Hemphill Buick-Pontiac. It features a graphic of a car and the text: 'As we enter a New Year, may peace and the very best of everything be with each of you. from everyone at Hemphill Buick-Pontiac'.
