

League Pennant Hangs In Balance Depending Upon Outcome Of Thursday Tilt

What actually is to be the game which will decide for all time whether the Feds won the first half Central Florida Baseball League pennant is scheduled to be played here tomorrow between the Feds and the Orlando Tigris.

Today the Feds are three full games ahead of the Cocoa Indians. If the Feds drop three games and the Indians win three the two clubs will be tied for first place in standings and a game will have to be played to decide the winner.

At the present the Indians are going to be played to win the three games they need. The Feds too are going to be played to win the three games they need. The Feds too are going to be played to win the three games they need.

Therefore, if the Feds beat Orlando tomorrow, the pennant will have been won without further argument. In other words, believe it or not, it will be a "crucial" game which the Feds must win.

In view of the fact that they've already whipped Orlando three times, it is reasonable to believe that they will do it again. However, the Tigris have in Dan Copps and Jack Reed, two of the league's leading hitters. Copps in fact is tied for first place in batting averages today, with Reed in fourth place.

Each of these players will be out to improve their standings, as will Shorty Malby, hitting .300 for the first time this year. Manager Neill Williamson, and all the rest of the Tigris.

Manager Barnes is undecided whether to start Otis Curry or Cal Dennis in the tilt tomorrow. Curry has not worked for two games, and should be kept in shape. Dennis has been going good enough to turn in a victory any day he chooses. Either should be able to hold the Tigris at bay.

The Orlando line-up will be changed in that Cotton Powers has been released while Pepper Martin has gone back to Sebring after making quite a name for himself at first base for the Tigris. Pitcher Eddie Alsbrook will have Powers' place in the outfield while Zolite Maynard, the be-

spectacled college star, will be at first base.

Tomorrow's tilt has several added attractions that have to do with batting records. With Asa Wall and Dan Copps tied for the league lead with marks of .380 and Manager Barnes in third place with a .368 mark, there is a possibility that if Copps and Wall go hitless and Barnes gets two hits or more, that Barnes may lead the league tomorrow night.

Today he is the holder of the 1933 season record of having secured a hit in each of the past 11 games. The league record for consecutive game hitting is held by Eddie Moore who last year went 16 games before he failed to turn in a hit.

Paul Bonner is right back of Barnes as a consecutive game hitter. Paul has hit safely in the past nine games. Manager Williamson of Orlando has produced one hit in the last eight games, while Jack Reed has hit safely in the last seven games. So, tomorrow's tilt has plenty of extra added attraction. Cocoa will play at Leesburg and New Smyrna at Daytona.

Officials of the club, either President D. D. Welborn or League Director Joe Ludwig will go to Orlando tonight to attend a meeting of league directors. Adoption of the second half schedule is the main item to be considered. The meeting will be open to the public to a certain point after which the directors will go into a discussion behind closed doors.

Here are the official batting marks for the season to date:

Club	W	L	AB	R	H	AVG.
Sanford	17	5	114	175	297	.260
Daytona	14	8	107	172	284	.265
Orlando	17	6	108	188	249	.226
Leesburg	15	21	64	114	216	.334
New Smyrna	16	5	39	59	137	.351

Bargain Excursions Are Offered By Road

Bargain excursions between all points in the southeast and many points beyond will be in effect on the Atlantic Coast Line Railroad on July 1, 2, and 3. It was announced here today by C. E. Adams, local agent for the railroad.

DAYTONA BEACH, June 21.—In what virtually amounted to the burial of all of Daytona's hopes to nab the first half Central Florida Baseball League pennant for 1933 the Cocoa Indians scored a sensational 18 to 4 victory here yesterday afternoon when they drove Lefty Lane, star southpaw from the mound, continued their attack on Bill O'Brien, and finally Bud Haas.

The Indians, with McCully, Hopkins, and Headley leading the parade, pounded out a total of 18 hits, including two home runs and three doubles. Twenty-eight men went to the bat for the Indians in the first three innings to produce 13 hits and 13 runs. It was the most powerful concentration of Cocoa batting strength shown this season.

Asa Wall, league's leading batter, hurled good baseball, scattering 12 hits throughout the tilt, and weakening just long enough to permit a few runs in the final innings. He was able to connect for but one hit, however, so his batting average tumbled to that of a tie with Dan Copps of Orlando.

between Sanford and Tampa, to a round-trip rate of \$26.45 from Sanford to New York, a wide variety of prices is to be offered the traveling public during the week-end. Similar rates will be in effect on Aug. 4 and 5; Sept. 1, 2, and 3; Oct. 6 and 7, and Nov. 28 and 29.

Future Farmers Of Florida Have Meet

When members of Seminole Chapter, Future Farmers of Florida met at the Sanford High School last night they discussed plans of their proposed trip to the State F. F. A. convention in Gainesville next week. It was indicated that fully 75 percent of the boys will attend.

They also discussed their newly organized string band, and the judging team which will be sent to Gainesville to compete in the state livestock judging contest. Approximately 20 boys were present, and John Senkark presided.

Drive For Ball Team Fund Is Satisfactory

A drive for funds with which to help wipe out a debt incurred by officials of the Sanford Baseball Club in producing a winning baseball team here this year has ended satisfactorily, according to club officials today.

In addition to the persons already announced as donors of varied sums, the following also were donors: R. J. Keel, Miss Mabel Bowler, John Lyles, F. W. Pope, L. H. Smith, H. E. Weekly, H. Boteler, S. M. Lloyd, R. N. Windham, P. J. Angel, Hill Lumber Co., F. H. Bailey, Turner Lodge, Seminole County Laundry, Crown Paper Co., Sanford Machine Co., L. B. Hodgins, J. D. Woodruff, J. P. Walms, Seminole Tire Shop, Caldwell Cash Grocery, L. E. Baumann, A. H. Baumann, A. H. Moses, Frank Meisch, Frank Evans, Celery City Printing Co., Laney Dry Cleaning Co., W. D. Hoffman, H. B. Pope, R. A. Williams, O. J. Miller, V. A. Spear, and J. R. Forrest.

Another Free Day To Be Staged At Club

All of the facilities of the Sanford Country Club will again be thrown open to the public without charge tomorrow, according to Andrew Carraway, manager of the Club who announced the fifth free or "Guest Day."

Local and visiting golfers and sportsmen are urged to visit the club some time during the day. Golf will be enjoyed during the afternoon. Groups of men playing either on the Farmers or Business Men's teams will stage a tournament. Women will enjoy bridge games during the afternoon, while

Prompt Relief From Itching Eczema

It's wonderful the way soothing cooling Eczema brings prompt relief to itching, burning skin, even in severe cases. Itching stops the moment Eczema touches the tender and inflamed skin because of its rare ingredients. To clear away itching, pimples, eczema, ringworm and restore the skin to normal, always use Eczema. It's worth the price, because it brings relief. 25c, 50c and \$1. All drug stores.

BIBLE VERSE FOR TODAY

THE ONLY CREATOR: In the beginning was the Word, and the Word was with God, and the Word was God.

GOD WILL PROVIDE: Take no thought saying, What shall we eat? or, What shall we drink? or, Wherewithal shall we be clothed?

Journalism in the making: the other day the Times-Union put a local story on the front page.

As one conservative put it, the industrial control bill plans to take business out of the red and turn it over to the reds.

Governor Shultz continues to insist there will be no special session of the Legislature. The only purpose of such a session would be to increase taxes or to levy new kinds of taxes.

General Johnson says he wants industry to raise wages, reduce hours of labor, increase employment, and to leave prices as they are.

Deferral of stabilization plans is giving Wall Street speculators, hungry for profits after three barren years, the opportunity of a lifetime.

As another indication of what credit is worth to a country, the Soviet government—which, incidentally, doesn't believe in money, or anything else pertaining to the capitalist system—is planning to float a \$5 million gold ruble (\$12,875,000) loan in foreign countries.

It's funny how completely satisfied everyone is to make President Roosevelt the most powerful dictator in the world but if anyone suggests broadening the powers of the governor, whether it be in Florida, or Georgia, that's tyranny.

Instead of passing the Glass-Steagall bill, if Congress had just passed a law changing the name of banks to something else, just anything, call 'em banks, or racks, for instance, it would have done ten times as much good.

Who Saved Cock-Robin?

As the story was first told in the newspapers, Giuseppe Zangara wormed his way through the crowd until he got as close to the President-elect's car as he could, and then, because the people around him were taller than he was, he climbed on to a chair before he began shooting.

But O. O. McIntyre recently produced the evidence, for the sake of historical accuracy, indicating that this heroine stuff is largely bunk. The woman did not grab Zangara's arm, did not raise it up in the air and did not save the President-elect's life.

"The day before his execution," Mr. McIntyre says the "newspaperman of standing" says, "Commissioner Nathan Mayo, who heads the prison commission in Florida, talked with him (Zangara) and he stated no person had struck his arm.

"The woman sharing the small chair with him," Mr. McIntyre says the "newspaperman of standing" continued quoting Mr. Mayo as to what Zangara said, "became frightened at the shots and lost her balance on the chair.

Now as we unravel this mystery, it seems that somebody told somebody that somebody else said that somebody said, and the original story started with a certain Mr. Zangara, who himself died in the chair as a convicted murderer.

So history is saved! Would that such nicety of detail had existed in bygone ages! Would that columnists and "newspapermen of standing" had lived in the Elizabethan era and could have preserved for posterity the exact authorship of the Merchant of Venice.

Sharkey And Carnera

Unpleasant as such a choice is, we cannot help but pick Jack Sharkey to take the count of Primo Carnera on June 29 in New York City.

Recalling the time when we saw him engage in a love fest with Young Stribling in the muchly romanticized "battle under the palms" in Miami, and remembering his habitual tendency to foul his opponent, and his fight last year when he took the title from Schmeling in a decision that is still smelling, we still have to admit that he is a hard hitter and a crafty fighter who is apt to wreak no little damage on the towering hulk of the "Ambling Alp".

It is difficult when appraising a boxer with a personality as obnoxious as Sharkey's to be fair to him. But despite his garrulity, his braggadocio, his vicious glances, his childlike displays of emotionalism in the ring, and his all-around eussedness, he has a rapier-like left that packs the kick of a mule.

As for Primo Carnera he is remarkably good for being as large as he is, but unfortunately with the difficulty of having to move a veritable mountain every time he starts a punch he is under a terrific handicap.

In any event the winner of the fight will face his Waterloo, we think, when the final match of the present elimination tournament is reached. It will be remembered that one Mr. Max Baer will be in the ring in the finals and the man who opposes him will be in for an exciting evening.

SANFORD, TWENTY YEARS AGO

Mrs. M. E. Jones and Miss Nellie Evans chaperoned a jolly party of young people on a delightful moonlight ride and watermelon party to the hospitable home of Mr. and Mrs. H. H. Chappell a few days ago.

Lake County and Seminole County are now joined with something more than mere friendship. The new bridge recently built by aid of the two counties and principally through the efforts of the Zachary Bros., across the Wekiva, is now finished and ready for the trans-county travel that will flow that way now that the

WILL THEY PAY?

BY DORSEY RICHARDSON

EDITOR'S NOTE: This is the inevitable installment of a simple explanation of the problem which many believe is a permanent factor preventing recovery from the depression.

We have rapidly reviewed the financial and political motives actuating our debtors. Let us turn to those that affect the United States, and attempt to discover where the best interests of the United States lie.

First, international payments would be required only on account of business transactions. Germany, for instance, would have to pay only the interest on her commercial debt, which her export balance of goods and services might cover.

Abnormal shipments of gold, depressing the gold reserves behind the pound, the mark and the dollar would not have to be made because in ordinary trade relations countries do not build up such international deficits as require these gold shipments.

Unwise leading will always occur—as, for example, some of the loans to South American countries—and this may have to be written off or written down, but by and large, no nation gets into grave financial difficulties merely through ordinary trade transactions in normal times.

Further, when the war debts are out of the way, it will be possible to take the first steps to re-establish the gold standard in Great Britain and elsewhere. The pound will tend to seek its own proper level, and will not be artificially depressed by the fear that an abnormal demand for dollars will arise in Great Britain.

The above is probably a true estimate of some of the things that would happen, but it does not clearly indicate a course of action for the United States in so far as the return of trade activity to the world might affect our own interests.

We hear much discussion on this point, pro and con. Some of our public men and newspapers tell us that the United States is practically self-contained, and can get along very well without the rest of the world.

While only ten percent of the total volume of our domestic production is sent abroad, this total of production includes many items which cannot in any case be exported. Upon examination we find that a far greater percentage of

certain of our basic agricultural products and industrial goods is exported. On an average, nearly fifty percent of our cotton crop is in a normal year sold abroad.

Our domestic price level for wheat is directly influenced by the world price. If the world cannot pay a good price for our wheat, all the wheat sold domestically falls in price, unless again the government intervenes with the taxpayer's money.

Twenty percent of our automobiles are exported in an ordinary year. No one is going to subsidize the motor car manufacturer. Cut off the foreign market, or let the rest of the world remain unable to buy, and the effects of this come directly home to the American producer and workman.

Perhaps we could endure an entire readjustment and contraction of our productive system, to eliminate the necessity of foreign sales. However, the United States' history has been one of steady expansion industrially. To admit that we had reached the limit of expansion would not be in keeping with the American

character, and during the process of contraction we should very likely undergo a type of depression and disorganization that none of us has ever witnessed. And as the domestic population—just as long as our domestic staple crop prices depended on world prices—and they would as long as we produce and disorganize that none of us has ever witnessed. And as the domestic population—just as long as our domestic staple crop prices depended on world prices—and they would as long as we produce and disorganize that none of us has ever witnessed.

erful fuel, with actual, added anti-knock properties at no additional cost.

character, and during the process of contraction we should very likely undergo a type of depression and disorganization that none of us has ever witnessed. And as the domestic population—just as long as our domestic staple crop prices depended on world prices—and they would as long as we produce and disorganize that none of us has ever witnessed.

Advertisement for Lucky Strike cigarettes. Features a woman smoking a cigarette and a pack of Lucky Strike cigarettes. Text includes: 'Reach for a Lucky', 'for always Luckies Please!', 'Why shouldn't I say nice things about Luckies?', 'I must confess that I enjoy smoking more and more. Maybe it's because I started with a cigarette that suits me right. Luckies are so very mild. I like the fine taste of their tobaccos—and because I'm so sensitive to personal daintiness—for, after all, my cigarette touches my lips—I particularly welcome the added assurance of purity which "Toasting" affords. Whenever I hear comments about cigarettes—I always say, "But Luckies are different." And then I would say some nice things about "Toasting". To hear me you'd think that I discovered "Toasting"—but that's just my way. I like to root for things that please me. And certainly—"Luckies Please!" because "It's toasted"'

Social And Personal Activities

MARGARET PETERS, Society Editor

Personals

Mr. and Mrs. Howard Walker and Mrs. St. Clair White departed for Tampa Monday for the day.

Mrs. O. T. Pearson and son, Robert, left today for Fort Valley, Ga. to spend about two months.

The Misses Katherine Syme, Helen Verney, Miss Howard, Lenabelle Hogan are planning to leave tomorrow for Daytona Beach to spend a few weeks.

Mr. and Mrs. A. F. Collins announce the birth of a daughter, Betty Sue, yesterday afternoon at the Fernald-Lambton Memorial Hospital.

Mrs. Frank Collins, of West Palm Beach, has arrived to spend a month here with her son and daughter-in-law, Mr. and Mrs. J. H. Collins.

C. J. Meriwether and Mrs. J. H. Hand returned yesterday from Lakeland and Avon Park where they spent two days. While in Lakeland they were the guests of Mrs. Linda Getson.

Mrs. W. H. Britt, Miss Lois Britt, Miss Sheila Britt, and Neal Britt left yesterday for Mobile, Ala. where they will be the guests of Mrs. F. C. Walker, Jr. for an short time.

Mrs. E. B. Bassell, Jr. left today for Daytona Beach to spend the weekend. She was accompanied by Mrs. Anna Amick, M. Alfred Porter, and Mrs. Roy Harold and two children, Joe and Harold, of Orlando.

Robert Montgomery Playing At Milane

Comedy, pathos, and suspense drama are blended in "Made on Broadway," the sensational expose of Manhattan's underworld administration with Robert Montgomery and Sally Eilers in leading roles, which opened today at the Milane Theater.

Artenay Terrell, famous model, in newspaper man, has drawn on some of his most colorful experiences to serve as a basis for action of the story, with Montgomery in a characterization that tops all of his previous efforts at film sophistication. He plays the role of breath-taking

Miss Kanner To Wed New Yorker In Fall

The engagement of Miss Anne Helen Kanner, daughter of Mr. and Mrs. Charles Kanner, of 1014 1/2 St. Charles, son of Mr. and Mrs. Arnold Samuel, of New York City, was announced at a dinner party given Sunday, June 18, in their honor by the latter's parents in the silver grill of the Hotel Lexington. The wedding will take place in the early fall.

Miss Kanner was born in the city and was graduated from Sanford High School in 1925. She attended the University of Georgia at Athens, and is a graduate of the Sargent School of Physical Education, of Boston. Later she received a B.S. degree from Johns Hopkins University at Baltimore. For the past two years she has been teaching health education in the Junior High School in this city.

Church Co-Ed Class Has Meeting Tuesday

Election of officers took place at the regular business and social meeting of the Co-Ed Class of the First Methodist church, held Tuesday night at the home of Mrs. Aly Chormening, 504 E. Twenty-third street, with Mrs. Chormening and Mrs. Elizabeth Clark as hostesses.

Mrs. Katherine Ellis, presiding over the business session, which was followed by a social hour, presided over the evening party.

Laing Home Is Scene Of Circle Meeting

The home of Mrs. J. E. Laing, of Oak Avenue, was the scene of the regular meeting of the Circle of the First Baptist Church held on Monday afternoon with Mrs. H. C. Moore, president, and other ladies present.

FOR HEALTH

- FRESH AIR
- SUNLIGHT
- WARMTH
- HOT WATER

The first three are taken for granted - but how many of us forget that, next in importance for health, comes hot water?

The home without a dependable water heater, not a make-shift used to heat a couple of gallons now and then, is a home that wages a losing battle against dirt and grease.

Make your home immaculate and healthful with an electric hot water service. It isn't expensive with your Thrifty Three, 7-5-2¢ electric rate and the comforts and conveniences it will bring to you are many. No matches, no dirt. No flames to heat up the kitchen. The electric water heater does not make a sound as it goes about its job of keeping plenty of water hot at all times. A snap of the switch is its only care. Ask any electrician or your favorite electric dealer about this healthful way to heat water.

ELECTRICITY, YOUR CHEAPEST SERVANT

YOUR THRIFTY THREE 7¢, 5¢, 2¢ RATE MAKES COMPLETE ELECTRIC SERVICE ECONOMICAL

10 PERCENT CUT IN RAILROAD PAY IS SETTLED UPON

Agreement Reached Between Employers And Labor Leaders

WASHINGTON, June 22.—(AP)—An agreement was signed last night by representatives of railroad executives and railroad labor leaders settling upon a 10 percent wage reduction to be effective until June 30, 1934. The agreement was signed in the office of Joseph E. Eastman, federal railroad coordinator.

In return for the extension of the 10 percent cut now in effect the railroad management agreed to withdraw a demand for an additional 12 1/2 percent reduction in the basic rates of pay.

Announcing the agreement last night, Eastman said that "this agreement has been reached be-

By Sam Fish—Thinking, this is a good turn.

cause both the railroads and the employees wish to do nothing which would in any way embarrass or threaten the present policy of the administration."

The agreements came after two days of conferences between the coordinator and the conference committee of managers of the railroads and the railway labor executive association.

Eastman's announcement follows:

"The railroad managers and the railroad labor executives have entered into an agreement under which the arrangement by which 10 percent is being deducted from the pay checks of employees will be extended from Oct. 31, 1933, until June 30, 1934, and under which the date on which either party can submit a notice in accordance with the provisions of the railway labor act indicating a desire to change the basic rates of pay will be extended from June 15, 1933, to Feb. 15, 1934.

"Under this agreement the railroads will surrender for a period of eight months their right to seek a further reduction in employees' compensation and the employees will surrender for an equal period of time their opportunity to secure an elimination of the present 10 percent reduction.

"The notice given by the railroads on June 15 of an intention to seek a 22 1/2 percent reduction in the basic rates of pay will be cancelled.

"This agreement has been reached because both the railroads and the employees wish to do nothing which would in any way embarrass or threaten the present policy of the administration.

"They realize that the government has now embarked upon a wholly new policy designed to promote business and industrial activity and to further the general welfare.

"They appreciate that until the results of this policy can be more clearly determined it will be difficult to deal wisely with this wage controversy and that the active prosecution of such a controversy at the present time might have a most disturbing and unsettling effect.

"Neither side relinquishes in any way its views as to what the wages should be but they have agreed to a postponement of the controversy out of deference to what they believe to be the desire and policy of the administration and the general public interest.

"This agreement has been reached voluntarily in a spirit of cooperation and I desire to express my very wholehearted appreciation of the attitude of both

National Guard News

By E. H. CULLUM

All three units of the Sanford post had fine attendance at their respective drills Monday and Tuesday nights, attendance averaging about 95 percent.

Machine Gun stripping under the command of Lieut. Runge and Rookly Drill, under the command of Sergeant Weaver were put on by Company D Monday night. At the end of the drill period Captain Washburn gave an inspiring lecture on camp duties.

The following men of Company D have been promoted: from privates 1st class to corporals, V. Morgan, A. I. Whitaker and Elmo Lloyd; from privates to privates 1st class, Arthur Johnson, P. M. Vickery, Pat Johnson and George Mearns.

C. C. Payton, who has had several years experience as a soldier in the regular army, has enlisted in the Guard and is now a member of Company D. Bill Dann has also been reinstated in Company D.

Headquarters Company, under the command of Lieut. Hoffman, went through Special Training drill last Monday night.

In the rifle match held last week by Headquarters Company, the following scores were made: Sergeant Fields 92 out of a possible 100; Hoffman 89, Sergeant's Hoolahan, Martin and Corporal Yeager 83 each, Privates Henderson 81, Powell 74, McClelland 67, Wiscup 65 and George 36. A rifle match will be held parties. They have been reasonable and amicable and they merit the commendation of the country."

again this week and next week in getting the boys in readiness for the camp matches the first two weeks in July.

Tent shelter drill under the command of Sergeant Holtz was indulged in by the Medical Detachment Tuesday night. The other subject scheduled for that night was "First Aid—sprains, fractures and dislocations", by Captain Knox.

Robert C. Thrasher, who was at one time a member of the Regimental Band when it was located in Sanford, enlisted in the Medical Detachment Tuesday night.

Another new recruit for the Medical Detachment is Wesley Gies, who until recently belonged to Company K in Orlando.

Lewis Smith, formerly connected with the Field Artillery of the United States Army, also signed up with the Medical Detachment. It is now Corporal Lester F. Rivers, if you please.

Private Stuart Dutton, better

known to the boys as "Col. Turk" who has been absent from drills recently on account of business interferences, is now back in line, and, to use his own expression, things will "perk" up from now on.

Private Clifford Howell, has now returned from the University of Florida, and is again among those present with the Medical Detachment.

Only one more week and the boys will entertain for a two weeks' sojourn at Camp Foster, near Jacksonville. Each Company is now losing a full complement, totaling 11 commissioned officers and 123 enlisted men, and it is expected that every man will go to camp this year.

CHRISTIAN SCIENCE CHURCH

"IS THE UNIVERSE, INCLUDING MAN, EVOLVED BY ATOMIC FORCE?" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 18.

The Golden Text was from Isaiah 48:12, 13, "Hearken unto me, O Jacob and Israel, my called; I am he; I am the first, I also am the last. Mine hand also hath laid the foundation of the earth, and my right hand hath spanned the heavens; when I call unto them, they stand up together."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "In the beginning God created the heaven and the earth" (Gen. 1:1).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures", by Mary Baker Eddy: "The creative Principle—Life, Truth, and Love—is God. The universe reflects God. There is but one creator and one creation. This creation consists of the unfolding of spiritual ideas and their identities, which are embraced in the Mind and forever reflected." (pp. 502, 503).

ROLLERSKATING SLIPS

Young New Yorkers who have taken to roller skating and bicycling with such enthusiasm are wearing chardonize slips especially designed for these sports. They

have bifurcated skirts and plenty of room at the waist for stretching. The safe chardonize fabric has a two-way stretch which allows the slips to be moulded to the figure and yet give as well as a well knit sweater.

What Makes a Safe Tire? I KNOW!

ARE you willing to risk your life on advertising statements claiming blowout-proof and unblowable tires? One manufacturer gives as the reason for claiming blowout-proof tires—the use of one ply of another color—another, a patented "no breaker" construction—a mail order house, high stretch "elastic" cords, etc., etc. Actually the fundamental cause of a tire blowout is the flexing of the tire which causes friction of the fibers in the cord, resulting in heat and causing the rubber to soften and the cords to deteriorate.

There is a reason why Firestone Tires have won the 500-mile Indianapolis race for 14 consecutive years, the most gruelling tire test. The reason is the Firestone patented extra process of Gum-Dipping which saturates every fiber and insulates every cord with pure rubber—which gives strength to the cords and prevents friction and heat in the fibers. This year 42 drivers in this race equipped their cars with Firestone Gum-Dipped Tires and not a single driver had any tire trouble.

Race drivers know why Firestone Gum-Dipped Tires are safer and not subject to blowout and will not risk their lives on ordinary tires. Your life and the lives of your family are often in danger at the high road speeds of today and you should not take greater risks than the race drivers who make sure that they have the best and safest tires they can buy—Firestone.

See Firestone Gum-Dipped Tires made in the Firestone Factory and Exhibition Building at "A Century of Progress" Chicago.

HAMM RELATES HIS EXPERIENCE WITH KIDNAPERS

Wealthy Brewer Says He Was Given Kind Treatment Always

By WILLIAM HAMM ST. PAUL, June 22.—(AP)—From the time I was kidnaped by two men and another man who was driving their automobile shortly after noon last Thursday I was never abused. They treated me kindly all the time. I was surprised as two men came up to me about 12:45 P. M. last Thursday. One of them said "Hello, Mr. Hamm," and, after shaking hands one grabbed me on each side and they put me into a car. They were not rough with me but, well, they convinced me I ought to go. I had only a fleeting impression of the men's appearance although one of them resembled Verne Sankey. I couldn't be sure of course. I didn't take any particular note of the kind of car I was put in. I didn't see any guns but I felt one against me during the ride out of town. When I entered the car, they made me lie on the bottom of the automobile after putting a white hood over my eyes. I am not sure which way they headed out of town. I couldn't say how long a drive we took, but it seemed about eight hours. And the same time

CONSTITUTION OF STATE IS FACING LOT OF CHANGES

People Of Florida To Vote On Seven Proposed Amendments

TALLAHASSEE, June 22.—Probably not since the present constitution of Florida was adopted in 1885 have the people of Florida had the opportunity to vote on as many changes as will be submitted to them in November, 1933, as the result of adoption by the 1933 Legislature of seven joint resolutions, not including the missing one. The average number of proposed amendments is probably about three. The maximum since 1918 was four. But one amendment was proposed in 1920 and but two in 1932. The lost amendment is last proposed consolidation of the offices of tax assessor and tax collector in the counties and removal of a number of county jobs from the constitutionally required list, this permitting the Legislature to abolish them if it wishes. Seven proposed amendments

which have been completed and enrolled in the permanent records of the secretary of state are: H. J. R. No. 20—Exemption from all taxation, except assessments for benefits of homestead property up to the value of \$5,000. The exemption applies to a home assessed at more than that figure, for instance, on a home valued at \$7,000, tax would be paid on \$2,000. All homes will pay special assessments. H. J. R. No. 23—Substituting a local option prohibition article for the bone dry Article XIX. H. J. R. No. 152—Reducing the work of grand juries by enabling the state attorney to file information in lieu of indictments in all but capital cases. Incidentally the Legislature doubled the number of capital crimes by adding kidnapping and firing machine guns into public places. H. J. R. No. 141—Adding the moving picture industry to the list of businesses exempt from taxation for 15 years. S. J. R. No. 114—For the consolidation of the governments of Jacksonville and Duval county. The "grand fiscal local" amendment now in effect which provides for an extra circuit judge for Duval, paid by the county. CHARITABLE SHORTS Tom Boy shorts are the newest sports pants made in a sheer elasticized mesh. These shorts are made just like men's with a yoke at the waist which buttons down the front. They are especially popular for wear under tennis shorts and slacks. The mesh has a two way stretch, so that you can be as athletic as you like without splitting any seams. Thompson, who is a member of the International Fisheries Commission. California is much concerned with the reduction in its water level, the conference was told, and resolutions were introduced urging establishment of sanctuaries along the coast.

And bring the youngsters—there's a thoroughly equipped playground for them at the GORDON. ANGUS CRAFT... MANAGER

SUN VARIATIONS SEEN CAUSE OF WEATHER CYCLES

Dr. Denison Of Canadian Meteorological Service Gives Talk

VANCOUVER, B. C., June 22.—Solar variations are the chief cause of certain weather cycles, according to Dr. F. Nanier Denison of the Canadian Meteorological Service, who addressed the Pacific Congress recently. "During the years of the greatest number of sun spots the temperature of the air is below normal," said Dr. Denison, "and when few spots are observed the temperature is raised a few degrees up in the earth. There are, however, certain years when the temperature changes appear to be reversed, and these are usually periods of great volcanic eruptions when vast quantities of fine ash cause a screen or wall which prevents some of the solar heat from reaching the earth. Application of research methods

men were for I got only fleeting glimpses of them. Every time they came into the room I had to turn my face to the wall or face the side opposite from the kidnapers. I believe there were five or six men all together. They kept me informed as to the progress of the negotiations. Sunday afternoon about 3 o'clock they came up and told me they had some "good news." That was that the ransom money had been paid. I don't even know how much money was paid. I had good simple meals during my imprisonment, nothing elaborate.

That night, Sunday, we started out after dark. Two men, the driver, and myself. They put the goods back on the car and after another ride they left me out at Wyoming on the main highway. I had some money. They made an effort to take it from me while I was a prisoner. They didn't say anything after letting me go and it was kind of dark so I couldn't see what kind of a car was used. I landed in Wyoming early yesterday morning and there I called my home. It was about 5:30 in the morning then. Oh yes, the men did say something when they let me out. One said, "if there is anything we can do to help you, Mr. Hamm, let us know." After a little while the police came and took me home. I never saw a newspaper while I was held prisoner and I didn't have any conversations about any other kidnapings. I don't think I could find the place where I was held prisoner. I am happy to be at home again.
