Saturday Half-Holiday

As the summer approaches business men and workers of all kinds turn their thoughts occasionally to that respite they are accustomed to receive in the middle of the week, the Thursday half holiday. During the hot days of summer it proves a great relief to them and one to which they look forward to with great zeal.

No doubt custom long established will compel Sanford stores to observe the Thursday half-holiday this summer, Thursday to Saturday. There are points, of course, in favor apprehize with the President on his sad journey and hope that he most points in its favor.

"In fact, many of the larger cities of the country have a whole day for a holiday, on Saturday. Among these may be mentioned New York and Boston and other leading municipalities. The Saturday holiday is very common in California where, it is said, cities of the size of Miami, and larger, all take the whole of Saturday for a weekly holi

READ THESE TRUTHS ABOUT A "REAL FLORIDA"

believe will show more comparative progress in the next five years than any other city in the state.

Sanford Is No a Boom City

Wherefore the cost of living in Sanford is moderate.

Real Estate is stabilized. Prices are on a par with those of normal cities throughout the country. Building lots for homes or business and industrial enterprises are inexpensive. Construction is cheaper, by reason of water shipment of materials via St. Johns River and Lake Monroe at preferential freight rates. It follows that the wage scale in the building trades is lower in Sanford than in other Florida cities because of the moderate cost of living. Farm lands are fairly priced on the strength of location and potential revenue.

The cost of food, dairy products, clothing and staple articles varies little, if any, with the general market throughout the country.

Although the above is directed at the prospective permanent resident and investor, the following is Sanford's "good word," for the tourist. The new half-million-dollar Hotel Forrest Lake, one of the most delightful tourist headquarters in Florida, maintains a standardized year 'round American. Plan rate of \$10 a day.

By the same token, Sanford depends upon wholesome pleasure attractions for its enjoyment, eliminating so-called exclusive, high-priced forms of entertainment.

At Sanford are inexpensive homes and homesites, farms, acreage, business and industrial locations. Municipally owned utilities. Forty-seven miles of paved streets. Three banks. - Modern schools, and churches of all demoninations.

New Forrest Lake Tourist Hotel. Eigteen-hole golf course. Fishing, hunting, water sports. Other recreational facilities of the type that has brought renown to other resorts.

CANFORD is growing southward-stea ward. There are obvious reasons which expansion on the north, east and west tial requirements grow greater, there becor stantly increasing need for a restricted hor nity such as "Palm Terrace," which is today the market by the Fletcher-Bulger Re with offices in Sanford and Orlando.

Beautiful broad 90-foot boulevard will planted to stately palms, lend a tropical set type of architecture which people will want w All city conveniences are guaranteed by the who have long since established their finance bility in Sanford and Orlando. Sites inc water, gas and sidewalks. Positively no later for the lot owner to pay on sidewalks, now being put in.

Palm Terrace is a complete high-class home containing 233 residence locations. Due sight of the developers, 45 large lots in the corner have been laid aside for business means that "Palm Terrace" is planned to me of the modern housewife, in giving her a trict "just around the corner."

Study carefully the map on this page. No tunately "Palm Terrace" is situated so as the steady substantial growth of Sanford number of blocks from it to the business dis ford. Notice that Palm Terrace is only from Sanford High School, and only six blo grammar school.
