Lyman Names Teacher Of The Year

Vance Ambrose, Lyman High School Biology II instructor, was recently chosen by the faculty as the school's "Outstanding Young Teacher of the

In his third year at Lyman, Ambrose received his masters degree in 1964 from Kansas State Teacher's College. He received his Bachelor of Science degree in 1960 from Union College in Jackson, Tenn. A native of Mississippi, h graduated from high school in Humbolt, Tenn. An avid golfer, he also enjoys coin collecting, photography, and being with his wife, Robbie, and their five year old daughter.

Cast Named For Play

The cast has been selected for the play to be presented by the first period speech and drama class at Lyman High School, "Alas, Babylon." Performances are planned for Feb. 24 and 25. Pat Lawrence has been chosen as the student director and Mrs. Carolyn Durak is speech and drama

Included in the cast are Ann Shelton, as Lib; Jeanne Olsen, Helen; Karen Cass, Peyton; Ron Green, Ben; Paul Willett, Doc; and Kathy Brunnings as Mrs. Henry.

Counselor Resigns

Mrs. She Herman, Lyman High School guidance counselor, has resigned her position to return to the University of Florida to work on a PH.D. in counseling. This leaves two vacancies in

the guidance department at the Mrs. Herman said that although she has enjoyed her work with both staff and students, she feels a PH.D will better qualify her to help and guide her students.

DeBary Growth In revising the list of names for the 1967 edition of the De-Bary Directory, the Chamber of Commerce found that 114 new families had moved into the community since the 1966 directory was published. New residents have occupied a substantial number of the homes which were empty and most of the new homes constructed during the past year.

Having come through this experience, he was in a better mood to measure his blessings. "And he hath put a new song wonderful works which thou has done, and thy thoughts which are to us-ward: they cannot be reckoned up in order unto thee: if I would declare and speak of them, they are more

When he got his feet upon the rock and when he reviewed his blessings, he renewed his vows to serve God. "Sacrifice and offering thou didst not desire; mine ears hast thou opened: burnt offering and sin offering hast thou not required. Then said I. Lo. I come: in the volume of the book it is written of me, I delight to do thy will, O my God: yea, thy law is within my heart." This man discovered the genuine joy of doing the will of God. It does take more than meets the physical eve to find this joy.

After he had reached the rock from the horrible pit and the miry clay, reflected upon his blessings, and renewed his have not hid thy righteousness within my heart; I have declared thy faithfulness and thy salvation: I have not concealed thy lovingkindness and thy truth from the great conhad faith that his needs would be met. "But I am poor and needy: yet the Lord thinketh upon me. Thou art my help and my deliverer; make no tarrying, O my God."

Most of us are not out and out atheists. We are just practical atheists. Our visible supports seem to be more important than our invisible supports. Ours is a religion of faith and by faith we can realize far more than can be seen with the natural eye. The apostle Paul knew this when he said. "Now unto him that is able to do exceeding abundantly above all that we ask or think, according to the power that worketh in us, unto him be glory in the church by Christ Jesus throughout all ages, world without end. Add to your Life... IN FAITH THE METHODIST CHURCHES OF FLORIDA

REV. GIBBS

The Methodist churches of Florida will hold special services to help you gain the reassurance that the answers to the problems we face in today's world can be found through faith . . . Faith in the certainty that God loves all men . . . Faith in Christ that can show the way to greater depth of meaning to your life. Plan now to attend the services in your nearby Methodist Church.

Utopia Under Glass Part Of Complex Of Disney World

ORLANDO (AP) - The world's first glass enclosed city - where more than 20,000 people will be able to forget about umbrellas - is included in the \$600 million dream of the late Walt Disney for

It may take a quarter of a century; it will take ner icipation of private industry. But it is the core of Disney's plans for developing 43 square miles of scrub and swamp 16 miles southwest of Orlando. It could be worth almost \$7 billion.

Disney Productions, the multimillion-dollar entertainment empire forged by the creator of Mickey Mouse and Donald Duck, announced yesterday that a city of the future under a glass dome - will be the centerpiece of Disney World, the transformation of 27,400 Florida acres into a world showpiece. The final film produced by the famous showman

before his death Dec. 15 brought the message to a blue-ribbon audience of investors, newsmen and legislators in a 25-minute movie that left them open-

Disney said it himself. He would build a dome over 50 to 75 acres of a city called Epcot - experimental prototype community of tomorrow - to show the people of the future urban living at its best. In conjunction with this, a "theme park" would be constructed as an extension of California Disneyland with the most advanced family entertainment in the world. It would be called Disney World. Gov. Claude Kirk, who inherited Disney's plan rom former Gov. Haydon Burns, said the investment

would snowball into a \$6.6 billion economic boost for with resultant improvement in Florida in the first decade. Roy Disney, who took control of the huge firm with the death of his brother, said Disney Productions would ask the Legislature for laws smoothing gressman Edward Gurney, at | the way for the development.

But he said not a penny of tax money would be required except for the construction of roads. Disney said the entertainment complex, which was not described in detail, could be completed within three years at a cost of \$100 million - provided the

The city was envisioned as four spheres of acivity - the central area with a 30-story hotel and convention center, an outer sphere of high-rise apartplished by greater registrations ments and two "green belt" areas of private dwelling

> Cars and trucks would funnel into the city under-Over circular expressways without red lights, the "people-movers," cars on a perpetual conveyor, would make it unnecessary for people to drive to

"It is the blueprint of a new city," said Disney. "People will live like they could not live anywhere The overall plan, he said, was "simply a startng point. Everything will change from time to time.'

Disney said the futuristic city would contain: -The first monorail transportation system in the western hemisphere. -Seven acres of recreation for its inhabitants. all within walking distance.

-A controlled environment. -No traffic lights. -No air pollution (electric powered vehicles). What's more, Disney said a 1,000-acre industrial park would ring the city, featuring companies involved in "research and computer work." He added more than 70 U.S. firms had been contacted about

One condition was set: the Florida Legislature would have to be agreeable to certain new laws which would smooth the Disney investment in the state. Among the proposals: -A law giving Disney and others trade mark

-A law creating the cities of Bay Lake and Reedy Creek, areas where workers would live. -A law setting up a huge Reedy Creek improveparty system would improve ment district which, through a five-member board of gusty winds were expected to supervisors, would give the firm full control over day. zoning, police and fire protection and the like.

-An omnibus licensing act giving the state control over new entertainment complexes. Governor Kirk said Florida was offering its inches of snow.
