Profer Of Drainage Admitted By Expert In Cross-Examination By The Defense

Leases Not Equivalent, He Says

Conflicts With Reports Read At Monday Session

WASHINGTON, Oct. 25.—The defense took a prosecu-
tiveness today in the Fall-
air oil conspiracy trial,
materially strengthened
of its chief contentions
through an adroit cross-
examination.

W. Ambrose, former
petroleum technologists,
Interior Department, who
yesterday had told the court
that former secretary of
Interior Albert B. Fall was the
figure in leasing Teapot
navel oil reserve to Harry
Sinclair, was turned over to
P. Hoover, Sinclair attorney
for examination.

Ambrose drew the
testimony that he was an expert,
advised Fall there was grave
of drainage in Teapot
as a result of the operation
on 6,400 acres of adjoin-
ing in the Salt Creek field,
defense contends Fall leased
to Sinclair because of
of drainage fear, and not because
quarter million dollar bribe,
argued by the government.

Ambrose said further he had once
tally told Fall that "strip"
would not be adequate to
drainage. A strip lease is
of a narrow strip of land
in two fields.

Roberts, chief prosecutor,
read a written report
of the lease, to the effect
was in the "saddle" of
and made two months.

There was danger of
oil, but that if there was only
the water would keep the oil
running into adjoining fields.
Ambrose led him through a
of questions and added
information that Ambrose per-
suaively thought there was oil in
"saddle" and had so informed

Roberts to the Sinclair lease
Ambrose and Fall jointly
admitted, Hoover elicited from
the statement that Fall re-
sisted the suggestion of the Sinclair
ers that the Wyoming field
insisted the exchange of oil
be the basis of the contract,
used on either the Wyoming
mid-continent price—which
higher. Thus, Ambrose said,
government got more fuel oil in
exchange for its crude oil.

Northern winter visitors,
specially from the Eastern
States, are coming to Florida
than have come for several
years, according to G. W. Ray, lo-
cal agent of the Atlantic Coast Line
at Washington, Atlantic
States, New York and Montreal.

Ray talked with ticket
agents from all parts of the coun-
try at the American Association of
Road Ticket Agents convention
in Washington. He said all of them
predicted good business in Florida
this year.

Will Detroit Vote Wet or Dry

The candidacies of these two women for mayorality has given
Detroit a wet-dry issue this fall Mayor John W. Smith (left),
seeking re-election, declares that an attempt to enforce the
prohibition law in New York, Chicago, Detroit or any other
large city only "makes hypocrites, grafters and window
peepers out of the community." John C. Lodge (right), who op-
poses him, is an uncle of Mrs. Evangeline Lindbergh, mother
of Colonel Lindbergh. Lodge's candidacy is generally consid-
ered that of a "dry," though he is making a silent campaign.

OFFICIALS SILENT ON RESIGNATION OF CITY MANAGER

W. B. Williams Declines To Dis- close Reasons For Action And Mayor Housholder Will Make No Comment Either

Mystery today closed around the
story of the resignation yesterday
afternoon of City Manager W. B.
Williams when the City Manager
and Mayor E. F. Housholder both
refused to shed any light on the
situation.

Mr. Williams, who declined to
disclose the reason for his resig-
nation after it was accepted by the
Commission yesterday, continued
today. He said he had no
statement to make about his future,
and politely refused to enter into
any discussion of the affair.

Mayor Housholder, who was
quizzed by a reporter at some
length said that "Mr. Williams is
the man who resigned and there
was nothing for us to do but accept
it. He is the only one to comment
upon his action."

When he asked if he did not
think the public was due some ex-
planation, he refused to commit
himself, and said he thought it un-
wise to issue a statement at this
time.

He would not even admit it was
unusual for the commission to ac-
cept the resignation without the
least discussion, or that it was ex-
traordinary for a man to be re-
leased without the slightest at-
tempt to retain him.

"The manner in which he pre-
sented his resignation left us with
no other course to follow," was his
only comment.

The Mayor said the Commission
was not yet in a position to ap-
point Mr. Williams' successor, and
that he had no individual in mind
for the job at the present time.

FARRELL TO BE SELECTED FOR GARY'S OFFICE

Forbes Magazine Says Presi- dent Of U. S. Steel Corpora- tion Will Become Chair- Man Of Mighty Enterprise

Morgan May Become Finance Chairman

Rumor Linking George Baker With Appointment Spiked By Publisher Of Magazine

NEW YORK, Oct. 25.—(INS)—
James A. Farrell, 64, president
and operating head of the United
States Steel Corporation for 17
years will succeed the late Judge
Gary as chairman of this mighty
world-wide enterprise, according
to the November issue of Forbes
magazine.

J. F. Morgan, long a power in
world finance may accept the pos-
sible chairman of the corporation's
finance committee—a position
also filled by Gary—according to
H. C. Forbes, financial editor. If
Morgan declines some other pro-
minent banker will be appointed.

The banker chosen will be ex-
pected to devote his entire time to
the colossal task of financing in-
dustrial doing a two billion dollar
annual business, it was said.

Rumor that George H. Baker,
Sr., or his son, George Jr., would
be tendered the appointment was
spiked by Forbes, who declared
the elder Baker is lightening
rather than increasing his burdens,
and that the younger financier has
far too many problems, present
and future, to tackle the steel
post.

Farrell gained his power in the
corporation nearly 20 years ago
by his extraordinary successful
record in developing foreign busi-
ness. He was told of his elevation
to the presidency by J. V. Morgan
had been deeply impressed by
Farrell's activities in United
States as head of the United
States steel products company, a
subsidiary.

At the office of the steel cor-
poration, the statement that no
"official announcement" as to
Gary's successor has been made,
was reiterated this morning. A
quarterly meeting of the organiza-
tion is scheduled for this after-
noon.

Farrell authorized the following
statement: "It is my understand-
ing that no action as to the selec-
tion of a successor to Judge Gary
will be taken until the November
meeting of the board of directors."

Local Rotarians Hear Anderson On First Club History

The story of how the original
Rotary Club evolved out of the
rough and tumble days of business
in Chicago 15 years ago was out-
lined to the members of the San-
ford Rotary Club this noon by
Frank Kay Anderson, former Ro-
tarian and resident of Altamonte
Springs.

Mr. Anderson told of many of
the more or less unethical business
deals common in Chicago in 1912
and compared them to the business
ethics aspired to by Rotary clubs
over the entire world.

John Turner, of Tampa, past
district governor, spoke of the
Rotary student loan fund which
has helped 257 boys through the
University of Florida. Florida
boys are loaned \$200 a year during
the time they are in school and
then given an opportunity to re-
pay the debt from their earnings
after they graduate.

The fund, which is now \$50,000,
will be increased to \$100,000 with-
in a short time, said Mr. Turner,
enabling the clubs to assist more
boys in obtaining an education.

Chicago Jail Fire Perils Prisoners

CHICAGO, Oct. 25.—(INS)—
Twenty-five hundred prisoners in
the Bridewell were imperiled
early today by a fire which swept
tracing building. The flames caused
damage of \$400,000.

A panic among the prisoners was
narrowly averted, guards went
from cell to cell reassuring the in-
mates while firemen battled the
flames, nearly 200 of the prisoners
are women.

All available policemen were cal-
led to the scene and stood guard
until the blaze was brought under
control. The fire started in the
laundry room, but its origin is un-
known.

DRY HEAD FIRED AFTER ARREST ON SERIOUS CHARGE

WASHINGTON, Oct. 25.—(INS)—
William B. Robinson, chief in-
vestigator of the federal prohibition
service, was discharged today by Dr.
J. M. D. prohibition commis-
sioner.

Immediately upon being advised
that Robinson was held under
\$5,000 bond of committing statu-
tory offenses against a 9-year old
girl, Bureau demanded Robinson's
resignation. Robinson promptly
submitted it to the department.
Robinson will be given a prelimi-
nary hearing Monday in Rockville,
Maryland.

Robinson, who worked in the
Columbus, Ohio, post office be-
fore coming to Washington, is 50
years old, the father of two grown

West Point. The father of the

against him are alleged to have
committed during the last four
months.

Aged Man Struck By Train But Escapes With Minor Injuries

Struck by a switch engine at the
Atlantic Coast Line Third Street
crossing and carried for a block
before train stopped, Carl Stauffer,
80 years old this morning escaped
possible bruises with only slight
bruises about the body and the
probability of a few days' stay in
the hospital because of his age.

The accident occurred about 9
o'clock. Stauffer was crossing the
tracks and apparently failed to see
the engine approaching. He said
when he was struck, he grabbed
something on the front of the en-
gine and hung on with all his
strength until the train stopped.

J. H. Harding, the engineer
jumped from the cab and lifted the
man to the ground. He rushed to a
telephone and called Dr. J. N. Tolar
who carried Stauffer to the hospi-
tal and administered first aid.
Dr. Tolar said Stauffer would have
even escaped a trip to the hospital
if he had been a younger man.

Nungesser Appeal Hoax Cast Ashore

WASHINGTON, Oct. 25.—(INS)—
Viewed as a gruesome hoax a
reputed appeal for assistance, sig-
ned "Nungesser and Cole," has been
picked up in a bottle washed ashore
at the Bodie Island, N. C., coast
guard station.

The appeal was printed on a
piece of white cloth about nine
inches square and, according to ex-
perts of French make. It read:
"We are lost at sea off Halifax,
N. F., please send aid immediately.
Airplane destroyed. Finder please
notify Nungesser and Cole."

Officials here said today un-
doubtedly the message is false,
pointing to the incorrect spelling of
Nungesser, to the fact that it
was written in English and in typi-
cally American printing.

BORAH STARTS MOVE AGAINST FRANK LOWDEN

Senators From Grain-Growing States Confer At Capital For Purpose Of Killing Off Ex-Governor's Candidacy

Senator Norris Will Get Strong Backing

Borah Declares He Will Take Stump For Senator Norris In The State Of Nebraska

WASHINGTON, Oct. 25.—The
very business of killing off—
attending to kill off—presidential
candidates has begun in earnest.
The first to feel the axe is that
of ex-Governor Frank O. Lowden
of Illinois, who at this state of
the game is one of the apparent
principal candidates for the
Republican nomination next June.
He has been attacked as "The
farmer's candidate" because of
his unflinching work in the co-
operative marketing field for the
past six years.

A little group of grain-belt
senators, not without influence in
their respective states, have just
concluded a series of conferences
here and the verdict has been
thumped down on Lowden. Sitting
in these conferences were Borah
of Idaho, Brookhart of Iowa,
Frazier of North Dakota, Norris
of Nebraska, Nye of North Dakota
and McMaster of South Dakota.

No public announcement was
made of the Lowden decision
reached but the significant an-
nouncement was made that Sen-
ator Norris would be backed for
the nomination by progressive
elements throughout the grain
belt. It has been to this same
grain belt that Lowden's sup-
porters have been looking for the
major part of his strength.

Nebraska, for instance, already
is on record as stating that Ne-
braska will send a Lowden dele-
gation to the Republican conven-
tion. Yesterday, the Nebraska
governor was challenged by Sen-
ator Borah to state whether he
would oppose the sending of a
Norris-instructed delegation from
Nebraska. The inquiry is calcu-
lated to place Governor McMullen
in an embarrassing position be-
fore the voters of his state.

It has virtually been decided that
Senator Norris will be entered by
the progressive westerners in all
the primaries of the grain belt
states, including probably Illinois.

"I will go to Nebraska and
speak for Senator Norris if nec-
essary," said Borah. "I will go in-
to all states wherein he is candi-
date in the primaries and as often
as I can find time."

Other grain belt senators also
have pledged their support, and
it is expected that when the full
grain-belt strength is mustered
here with the convening of con-
gress early in December, the Nor-
ris-for-president movement will
get into full swing.

The westerners are not privately
harboring any grandiose illusions
about nominating senator Norris,
but they are determined to have
a progressive rallying post which
will serve them until the Republi-
can presidential situation becomes
more clarified.

exhibitions have been made by
the Legion with Mike Goatsale,
Orlando matmaker who is put-
ting on the bouts at Tinker Field.
More than 3,000 men and women
have been regularly attending the
Orlando matches and the local
legion post hopes for a large at-
tendance at the exhibition here.

Members of the Drum and Bugle
Corps are putting the athletic
field in shape. No admission will
be charged women and only a
small charge for men will be
made.

Two Women Jailed For Ballot Fraud

CHICAGO, Oct. 25.—(INS)—
The full significance of "equal
rights," dawned on two unhappy
young mothers today as they "put
their house in order," preparatory
to serving a year's sentence in the
Cook County jail.

The women, Mrs. Tina Wortman
and Mrs. Leona Coine, were found
guilty of fraudulent voting in the
last November elections. Mrs. Coine
Judge Edmund Jarecki imposed a
year's sentence on each defendant.

"I don't believe these women
were actual perpetrators of the
fraud, but they lent themselves to
it. I must assign the same punish-
ment to them as I could give be-
man."

S. Davies Warfield, Seaboard Air Line President, Is Dead

Heart Attack Is Fatal To Railroad Exe- cutive After Oper- ation In Baltimore

Prominent In Rail Circles 25 Years

Executive Had Rapid Rise After Entering The Railroad Field

BALTIMORE, Oct. 25 (INS)—
S. Davies Warfield, presi-
dent of the Seaboard Air Line,
widely known as a railroad
financier, was dead today fol-
lowing a minor operation
which was not regarded as
serious. He expired suddenly
last night from a heart attack
while conversing with Leigh
R. Powell, vice president of
the Seaboard.

Warfield had been operated on
10 days ago by Dr. J. M. T. Finney
of John Hopkins and was recuperat-
ing nicely.

For more than a quarter of a
century, Warfield has been a pro-
minent figure in the railroad indus-
try of the country. He came from
an old Maryland family. He was 63
years old and a bachelor.

There was considerable speculation
today as to Warfield's successor
as president of the Seaboard.

It was recently reported that
Warfield had contemplated retir-
ing at the end of this year, to be
succeeded by Mills B. Lane, a
Savannah banker. The report was
denied at the time.

Mr. Warfield also was president
of the National Association of
Owners of Railroad Securities.

He was born September 4, 1867,
a member of a family prominent in
Maryland since colonial days.

He first attracted public atten-
tion as a reform politician in
unsuccessful attempts to bring
the defeat of his father, the late
Henry M. Warfield, in a mayoralty
campaign. He then became presi-
dent of the Continental Trust
Company of this city, postmaster
of Baltimore, co-receiver and finally
president of the Seaboard.

Mr. Warfield organized the
Continental Trust Company in 1898
and it was as its president that he
became interested in the affairs
of the Seaboard Airline railway.
He acted as intermediary between
John Skelton Williams and the
Ryan-Blair interests, and was ap-
pointed as co-receiver of the road
in 1908.

He was known as an indefatigable
worker before congress in the
interest of the association of rail-
way securities, and in recent years
had been most in the public eye as
a worker in the interest of econ-
omies in railroad transportation and
the protection of the roads.

The London paper had quoted the former crown prince further as forecasting that his father "would return soon and ride through Unter den Linden to the Potsdam Palace." Also the Chronicle would be satisfied to take a place beside the restored throne.

BIBLE VERSE FOR TODAY

THE SOURCE OF JOY.—Rejoice in the Lord, O ye servants of the Lord: for the Lord is good, his mercy endureth forever. Psalm 135:3.

THE THINKER

Back of the beating hammer

By which the steel is wrought,

Back of the workshop clamor,

The worker may find the thought,

That thought that is ever master

Of iron and steam and steel,

That rises above disaster,

And tramples it under heel.

The bridge may fret and tinker

Or labor with lusty blows,

But back of him stand the Thinker,

The clear-eyed man who knows;

For into each plow or sabbre,

Each piece and part and whole,

Must go the brains of labor,

Which gives the work a soul.

Back of the motor's humming,

Back of the bells that ring,

Back of the hammer's drumming,

Back of the crane that swings,

There is the eye which scans them

Watching through stress and strain,

There is the mind which plans them

Back of the trowel, the Brain.

Might of the roaring boiler,

Force of the engine's thrust,

Strength of the sweating toiler,

Greatly in these we trust,

But back of them stands the Thinker,

The Thinker who drives the through,

Back of the job—the Dreamer,

Who's making the dream come true.

—Berton Braley..

Our idea of a small honor would be the mayorship of Herrin.

It seems that Mrs. Grayson and her companions are getting nowhere with great rapidity.

The Value of Co-operative Efforts

"Does it pay farmers to organize and advertise?" asks Arthur Brisbane, Mr. Hearst's high salaried editor-in-chief. It certainly does when such organization is made an integral part of the farmers' life and is minus the dissension that tends to break down any constructive efforts.

Mr. Brisbane answers his own question by citing the case of the peach growers. With little or no organization to help them in the marketing and distribution of their products, the peach farmers during the past season were compelled to sell their crop for ten dollars a ton.

As compared to the peach growers, the writer calls attention to the co-operative organizations that handle the products of California growers. Orange, walnut, raisin, prune and peach farmers of that state have already demonstrated the success of joining forces to advertise and sell their fruits.

Farmers have little or no protection when they attempt to deal singly with the distribution of their wares. They are generally underpaid when their labors demand that they receive the major portion of the profits to be derived from the sale of their products.

Co-operative efforts have been the natural reaction to the muzzle which has been placed on the farmers in the past and gradually they are ascertaining the need for joint efforts in handling all their affairs.

Mr. Brisbane forcefully illustrates the point as follows: "It was a wise old man that, dying, showed his son how easy it is to break little sticks separately, how different to break them tied together."

Senator Fess Is Reprimanded

President Coolidge's recent rebuke of Senator Fess of Ohio has become a disturbing element within the Republican ranks. It has put a stop to the activities of the Ohio lawmaker who has been going around the country declaring that Mr. Coolidge meant nothing by his "I do not choose" declaration and that the president would be available for next year.

Although Senator Fess will probably not make any more speeches on the subject, his verbal spanking has not served to make him change his views and he still believes Mr. Coolidge will be the party standard bearer.

As viewed by many, Mr. Coolidge was sincere in his declaration not to run next year, but it is also known that the president is very jealous of the party's interest and for that reason could be persuaded to step in and prevent the breach that seems almost inevitable if he refuses absolutely to accept the nomination.

Of course, to some people Mr. Coolidge may appear to have been somewhat presumptuous in calling Senator Fess on the carpet. At the same time the chief executive was not questioning the Ohioan's right to express his own opinion, but was insisting that the senator not go on a speaking tour and use that particular topic as his subject for every address.

AMUSING ALLIANCE

TALLAHASSEE NEWS

The present gubernatorial campaign has developed one of the most amusing alliances in the annals of Florida politics.

Apparently this combination is favoring under the delusion that it cannot elect Carlston, governor of Florida by knocking the State Road Department.

Carlwell formerly was a member of the legal department of the Florida East Coast Railway. Later he was with the sales organization of the Coral Gables company, and more recently has been following a forlorn hope of discovering an oil gusher at Cedar Keys.

Stafford originally came from Jasper. Personally he has a gubernatorial complex, but evidently has graciously given up his ambitions for the time being and has joined Carlston's sophomore forces in its peevish attacks upon the most efficient department of the State Government.

While we have no way of knowing we are willing to wager our old straw hat that Caldwell is responsible for the editorial appearing in the Jasper News attacking the validity of the State Road Department's contemplated \$2,000,000 loan to carry on its highway work.

In this connection, we might add that Caldwell also has a journalistic complex and likes to write "pieces for the paper."

While a member of the legal department of the Flagler System he occasionally contributed editorial matter to the Times-Union dealing with the railroads' side of public questions.

During the last session of the Legislature, Caldwell, who had for a number of years been an integral part of the Tallahassee railroad lobby, was recalled from his Cedar Keys oil activities to help the carriers in their long and short

haul freight and passenger fight. Therefore, it is our conviction that the Jasper News' attack is a political gesture written by Caldwell in the interest of Carlston's halting candidacy.

However, notwithstanding the unholy alliance the State Road Department will float its loan and will continue to build highways with the least possible delay and with the least expense to the taxpayers.

The latest attack will prove a boomerang just like those which have gone before, and it is our prediction that by the first of the year Carlston will completely be run down. No candidates for any office can make headway by methods being pursued by the Tampa City Attorney.

As Brisbane Sees It

Safe To Kill, The Rocky Dry Road, Ten Miles a Minute, Child and Animal.

By Arthur Brisbane Copyright 1927 by Hearst Inc.

JUDGE KAVANAGH, OF Illinois, calls this "the most law ridden and lawless of nations."

"Lawyers," says he, "are organized to get around the law and save criminals through technicalities."

Lawyers evidently earn their money, and our glorious democracy seems to be the murderer's paradise.

KILL A MAN, and odds are six to one you will be caught. If caught, odds are twelve to one you will not be convicted.

Seventy-two to one in favor of the murderer must encourage crimes, Judge Kavanagh, who is a lawyer, says we send too many lawyers to congress.

Rough and rocky is prohibition's road. Police Chief Hughes, of Chicago, says: "My men will catch crooks, won't waste time snooping for pocket flasks. There is no more chance of drying up Chicago than there is of my flying without wings."

He points a finger at each man interrogating him, asking: "Do you" obey the Volstead act? Do you? They say the act was made for somebody else, not for them.

IN DETROIT, MAYOR Smith, turning for reelection, asks only that men of Detroit "vote as they think."

He is against prohibition, promises to make Detroit wetter, not dryer. And his friends point with pride to the fact that nobody in Detroit has been killed by poison booze for months because Mayor Smith lets them get "the real stuff" from Canada. Nevertheless, prohibition will be here when Mayor Smith and Chief Hughes are gone.

LAST WEEK AN Italian, Mier, Mario de Bernardi, broke all records for speed in a Maccihi sea-plane. He averaged more than 200 miles an hour on four successive flights, breaking the world's record by 19 and a half miles.

Some will say: "Oh, but such speed is terribly dangerous. No boy will ever fly safely at five miles a minute."

WHEN THE LOCOMOTIVE appeared, solemn people said: "A continuous speed of 25 miles an hour would be fatal to human life."

"And also," "The terrible wind created by the rushing trains would kill people along the tracks."

MEN, WOMEN, CHILDREN and nice old ladies will travel through the upper air at five miles a minute, more safely and smoothly than they now travel one mile a minute in automobiles and railroad trains.

ALBERT EDWARD DAVIES, 28, was told by doctors that his 3-year old daughter must die of acute pneumonia. The child was in dreadful agony. The father drowned her in the bath tub to end her suffering. "I could not bear to see her suffer any longer," he said when he gave himself up.

THE JUDGE SAID he was bound to tell the jury: "Had this poor child been an animal, instead of a human being, the man would have been actually liable to punishment if he had not put it out of its misery. That is the law." The jury acquitted the man.

Birth controls ladies will be interested in his case. His wife was tubercular, had four children in four years, died in the fourth child birth. The law would have punished anybody for showing her how to avoid that.

DR. MASON, HEAD of the University of Chicago, where this is written, says college study should be a pleasure, not a bore. "We have been cramming out students in America, stuffing them with facts, dates and thoughts in which they are not interested."

WHAT APPLIES TO education applies especially to industry, more than a hundred years ago, Charles Fourier declared that to settle humanity's troubles, "industry must be made attractive."

When men work because they like to work, as boys play football or as scientists study, civilization will have begun.

Men work now because they must starve if they don't and that is not much better than old slavery, under which men worked, because they were lashed if they didn't work.

JUDGE LINDSEY OF Colorado investigates the troubles, temptations and morals of youth, and the possibility of finding a semi-matrimonial substitute for outright immorality. An Oregon clergyman calls Lindsey "morally unfit to teach the youth of our state."

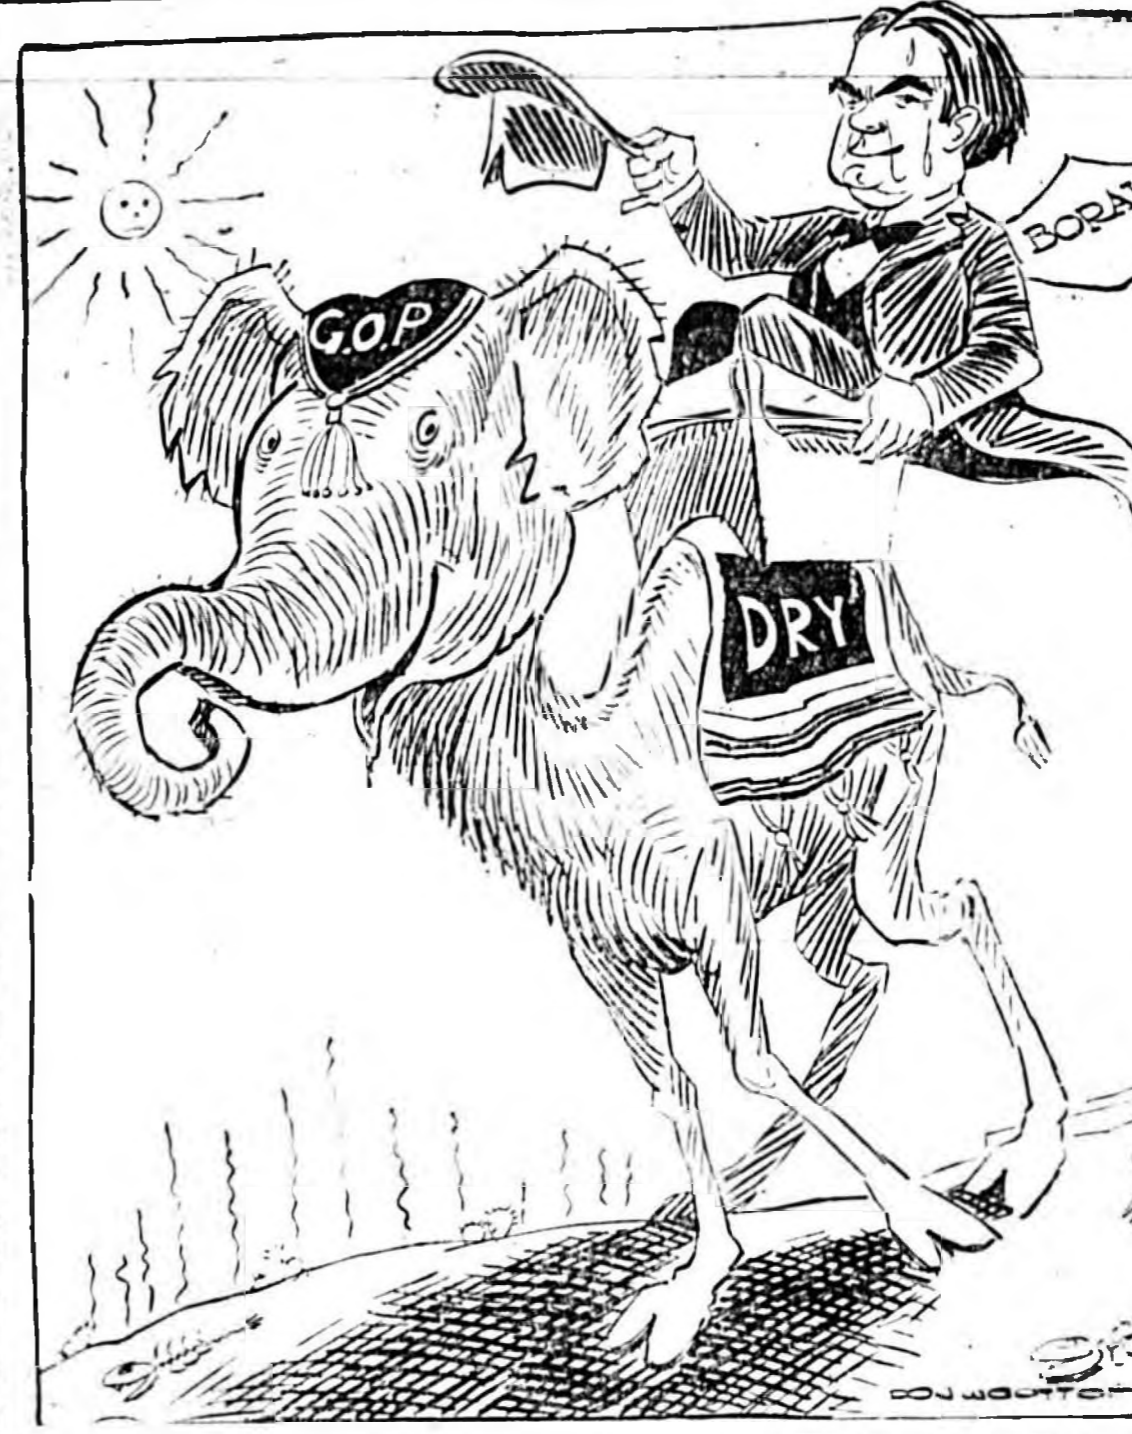

The same was said of the founder of Christianity nineteen hundred years ago, and of Socrates, still earlier.

Lindsey is fortunate they can call him "unfit" but cannot crucify him, or make him drink hemlock.

Times are better, for reformers.

NO SUBSTITUTE WILL be found for marriage, which is man's best training school. But, "prove all things, hold fast that which is good."

ST. AGNES GUILD HOLDS ENJOYABLE MEETING ON MONDAY AFTERNOON

The regular social meeting of the St. Agnes Guild of Holy Cross Episcopal Church, was held Monday afternoon in the Guild rooms at the Parish House with Mrs. M. Minarik and Mrs. Chris Matthews as hostesses.

Although this was the social meeting several business matters were discussed. A report was given from the visit to the county farm last Monday, and it was decided to make regular visit there and have a shower of sweets of other luxuries for the inmates about once a month.

Mrs. Benjamin Whitner Jr., was appointed as chairman of the Christmas cards and all those who wish to place an order for Christmas are asked to communicate with her.

Mrs. Clyde Derby, who attended the educational study course at Orlando last week, gave a most interesting account of the courses and also told of plans for furthering this work.

The hostesses for the next meeting, which will be held the second Monday in November, will be Mrs. George McRory and Mrs. R. W. Pearman Jr.

It was deeply regretted that Mrs. Raymond Key tendered her resignation as president, and this vacancy will be filled at the next business meeting. At the conclusion of business, the hostesses served sandwiches and hot tea.

JAPANESE PUT AN END TO QUESTION OF IMMIGRATION

Federal Council Of Churches Is Halted In Attempts To Open Up Japanese Question Of Aliens Coming Into U.S.

WASHINGTON, Oct. 24. (INS)—Efforts of the Federal Council of Churches of Christ in America to open up the Japanese immigration question have been halted through intervention of the Japanese government, International News Service learned today.

Through the Japanese consul general in New York and the Japanese ambassador in Washington word has reached the church federation officers that the Japanese government does not look with favor upon any agitation seeking to create sentiment in this country for a modification of the American restrictions against immigration from Japan.

The Japanese take the position that such a campaign would be untimely and ill advised and ultimately would react adversely to Japanese interests in the United States and its insular possessions by inspiring more rigid restrictions that at present prevail.

Officials of the Council of Churches recently conceived the idea of launching a campaign of publicity and propaganda for legislation at the next session of congress to amend the present immigration laws in their application to the Orient. The plan was to devise a plan of restricted immigration under a quota basis, that similar to that now applying to European countries.

Word of the contemplated campaign reached the ears of Japanese officials in this country, they promptly let the sponsors know that while appreciative of the motive prompting the action it would be regarded as most unfortunate to have this issue raised at this time.

The Japanese government is on record, though the former ambassador, Hanhara, as not satisfied with the present American laws as they apply to Japan, but is not disposed to make it a subject of diplomatic exchanges. It prefers to maintain a status quo until some future time when conditions may be more opportune for a loosening of the present restrictions.

Bank Robbers Sought By Arkansas Posses

ST. JOE, Ark., Oct. 25.—(INS)—Posses of citizens and officers, aided by an airplane, today were searching the mountainous section east of St. Joe for bank robbers who yesterday robbed the St. Joe Bank & Trust Company of \$300 and shot down three citizens in their get-away.

Lee Sitto and Troy Love, escaped convicts from the Little Rock penitentiary, were recognized by citizens as two of the bandit quartet. Sitto was accused of killing two men near here a few months ago after his escape and has hid in the hills since that time.

Davis Studies River Transportation Issue

MEMPHIS, Tenn., Oct. 25 (INS)—Secretary of War Dwight L. Davis today was studying facilities for inland waters transportation north of St. Louis. After speaking before the Mississippi river flood control association here last night, he and his party continued their inspection trip. In his address Davis declared that the question of politics must not enter into consideration of flood control and that legislation dealing with the subject must be confined solely to flood control.

Wreck In Tennessee Laid To Dead Engineer

WASHINGTON, Oct. 25.—(INS)—The rear end collision between a Nashville, Chattanooga & St. Louis passenger train and a Gulf Mobile to the failure of engineer Wood to put his train on a switch to meet a superior train, while a contributing cause was the failure of brakeman Keeton properly to protect his train, according to findings made public today by the interstate commerce commission. Wood was killed in the wreck and 91 others were injured.

Getting Ready for the Flight to Australia

In the Southern Cross, the giant tri-motored Fokker plane pictured above, Kingford Smith and three companions will attempt a 9500-mile hop from San Francisco to Australia by way of Honolulu. Smith, Australian ace, pictured in the inset, is in charge of the hop. The three Australians pictured below, his companions, are (left to right) William V. Todd, navigator, Capt. George Hubert Wilkins, Australian explorer and Keith Anderson, co-pilot.

Dodges Aren't Trying to Dodge One Another

How to be divorced though friendly, the above pictures might be called. To the left are Horace Dodge, Jr., of the Detroit Dodges, and the former Mrs. Dodge, who is now Mrs. Benjamin F. Manning. They're still good friends. To the right is Lieutenant Manning with the two Dodge children, Horace III and Delphine, and they seem to think their new step-father is O. K. After the pictures were taken at Honolulu, Mr. Dodge and the two children sailed for Vancouver, B. C., while Mrs. and Mrs. Manning embarked for the orient.

Collins Girls May Be Sent Back

Sylvia (left) and Martha Collins, said to be relatives of the late Michael Collins, prominent Irish politician, are held in Detroit charged with illegally entering the country.

BAN CLOSES DESK AND DOOR FOREVER

Ban B. Johnson has closed his desk and shut his door forever—that is, the desk he has used and the door he has entered through so many, many times as service at the helm of that organization, Johnson resigned on Monday, October 17. The "stormy petrel" of the American League is shown closing his desk and door for the last time. He leaves his office with thousands of friends. He now plans to take a long and much needed rest.

Tames Geese

A hunter feels lucky if he gets within gunshot of a wild goose, but Jack Miner (above) tames them. The famous Canadian sportsman and conservationist maintains a bird refuge in western Ontario visited annually by countless thousands of wild fowl. Miner had wild geese three years before they became tame enough to be tagged.

RUSSO-PERSIAN TREATY SIGNED TO HINDER WAR

New Asian Entente Reaches From Mediterranean Sea To India And Adds Link To Soviet Buffer Chain

MOSCOW, Oct. 25.—(INS)—Announcements with which the Soviet government is attempting to surround itself as a buffer against attacks has been closed with the signing of the Russo-Persian treaty.

On the South the Soviets now have iron-clad non aggression pacts with Turkey, Persia and Afghanistan. The middle Asian entente stretches from the Mediterranean to India. Turkey and Persia are bound by the treaty of lasting peace signed April 23, 1926. Persia and Afghanistan are about to sign a similar treaty. On the friendly terms with India China and Japan. Only three gaps remain on the west—Rumania, Poland and Finland. Rumania, because of the annexation of Bessarabia, will remain a potential enemy. But a non-aggression neutrality pact will soon be signed with Poland. And official quarters regard a change in Finland's unalterable Russo-Latvian peace pact as signed.

A Baltic-Polish alliance against the Soviets is further from reality than ever. Poland has even abandoned the plan of forming a Baltic block which as an entente could negotiate a peace pact with the Soviets. The signing of a pact between Latvia and Russia in the near future will split the Baltic States so that Estonia and Finland may have no other recourse than to follow Latvia.

Closer analysis of the Russo-Persian treaty of October 1, reveals to how great an extent British influence in Persia has been broken. In addition to the usual pledges of settling all disputes by diplomacy and preservation of neutrality and territorial integrity in case either is attacked by a third party, the treaty in Article 4 provides that neither government will tolerate organization or groups whatever they may call themselves, which have as their real object the forcible overthrow of the other signatory power or the declaration of strikes and creation of a reign of terror by assassinations and bombings and arson.

Two Divorces Are Granted One Pair

DENVER, Colo., Oct. 25. (INS)—Ivonne Myrtle Ellen Ferguson and James F. Ferguson, man and wife, obtained final decrees of divorce one from the other simultaneously last week in Denver in the county court. William H. Scofield, attorney, who acted as agent for the two, said with a chuckle "they certainly ought to be well divorced now."

The starting of the divorce actions dated back to February, 1927. At that time Mrs. Ferguson obtained a preliminary decree from her husband.

Two years later the husband applied for and obtained a preliminary decree from Mrs. Ferguson.

Last week Mr. Scofield, representing both Mr. and Mrs. Ferguson went into court and obtained final decrees for each of them.

Keep Kidneys Active!

You Can't Feel Well When Kidneys Act Sluggishly.

To feel always tired, lame and achy is too often a sign of improper kidney action. When the kidneys act sluggishly, waste poisons remain in the blood, and are apt to make one languid, stiff and achy, with dull headaches, dizziness and often nagging backache. A common warning that the kidneys are not acting right is scanty or burning secretions. Assist the kidneys with Doan's Pills. Doan's, a stimulant diuretic, increase kidney activity. TROTZKY SHORN OF HIS POWERS BY SOVIET RULE

Former Commissar Of War Is Ousted With Former Head Of Leningrad Government; Two Retain Memberships

MOSCOW, Oct. 25. (INS)—Leon Trotsky, former commissar of war in the soviet government and one of the leaders of the Bolshevik revolution, and Gregory Zinoviev, former head of the local Soviet at Leningrad, were shorn today of all their former power. Accused of attempting to wreck the communist international and introduce the party system in Russia, both men were expelled from the central executive committee of the Russian communist party by a joint plenary session of the central executive and central control committees. Membership in the communist party, all Trotsky and Zinoviev retain of their former positions and authority. Trotsky had attacked a recent manifesto of the communist leaders as "Bunbury" and against it. This manifesto had declared for the future introduction of the seven hour work day and limited the application of the death penalty. The opponents of Trotsky and Zinoviev were actually precipitated by the expulsion. It is believed that Trotsky and Zinoviev were expelled from the communist party at the December convention.

QUAKES FAIL TO DO ANY DAMAGE IN ALASKAN AREA

DeLand Elks Will Give Charity Ball Halloween Night

SAN FRANCISCO, Oct. 25. (INS)—Fears that a major catastrophe might have resulted as the aftermath of a violent earthquake which was recorded on seismographs yesterday, were partly dispelled today when reports received from Alaska indicated that the tremor centered in the North Pacific. Experts at the University of California also were of the opinion that the tremor centered in North Pacific waters about 200 miles south of the island of Kodiak. Although the quake was felt in various sections of Alaska, no serious damage was due at any of these points.

Putnam County Will Soon Dedicate Million Dollar Bridge Over St. Johns

PALATKA, Fla., Oct. 25.—Putnam county's \$1,250,000 memorial bridge, which will be dedicated here on November 11-12 when a two day celebration embracing a full program of entertaining features will be staged is generally credited with being the most expensive mile of roadway in the state. Measuring exactly one mile from across the St. Johns River some idea of the type of structure may be gained by following statistics compiled by C. W. Beutow, chief construction engineer. There were 5562 pieces of piling used in the structure with 100,300 feet of foundation piling, which if laid end for end would extend a distance of 19 miles. If the false work piling were laid end to end it would extend a distance of eighty miles it was estimated. Allowing 40 miles to the car 101 cars of foundation piles and 52 cars of false work piles were used in the building. Sixteen carloads of reinforced steel went into the structure, measuring some 900,000 feet. The 3-4 inch bars if placed end for end would extend 115 miles. Three hundred and seventy seven cars of slag, 269 cars of sand and 115 cars of cement together with 1,200,000 board feet of lumber were used. The total weight of the concrete bridge is 42,000 tons. Twelve carloads of sheet piling in the caissons weigh 600 tons. Each canal pier weighs 4670 tons resting on 318 piles and carries 2335 cubic yards of cement. Forty cars of sand, 20 of sand, 12 cement and eight of piling went into their making.

"Road To Romance" At Milane Theater Is Great Picture

Ramon Navarro in the role of an adventurous Spanish don comes to the Milane Theatre today in "The Road to Romance," his latest starring vehicle for Metro-Goldwyn-Mayer. The film is an elaborate picturization of Joseph Conrad's famous sea story, "The Road to Romance," and provides Navarro, in its swash-buckling hero, one of the most colorful, fiery roles of his career. As the courageous youth of an aristocratic family, he sails from Madrid for Cuba to rescue his cousin, Serafina, who is about to fall into the hands of Don Balthasar, a political rogue. It is in the days when piracy flourished upon the Caribbean and the West Indies were a hotbed of intrigue. He is captured by pirates, imprisoned escapes through the power of his quick wits and eventually finds the girl. The two immediately fall in love and danger and thrills follow each other in breath-taking suspense. The picture is dramatic in the extreme and is a live story of unusual appeal. A remarkable cast supports Navarro, headed by Mercie Blue Davis in the charming Serafina. Roy D'Arcy plays the part of Balthasar. Other well known players are: Marc McDermott, Bobby Meek, Jules Cowles, Otto Mateson and George Gravina. John S. Robertson directed.
