Court Rule Backs Joint Marketing

WASHINGTON, Feb. 20.—(INS)—A decision of far reach-
ing importance to co-operative
marketing associations was
rendered by the Supreme Court
today when it declared the
Bingham Act of Kentucky
constitutional. The law, which
prohibits private companies
from persuading farmers to
break sales pool contracts with
co-operatives, has been copied
by 41 other states. Attorneys
for the Burley tobacco growers
declared that the life of the co-
operative movement hinged upon
the law being sustained. Jus-
tice McKeynolds' read the
opinion.

Ace Hudkins Beats Sammy Baker In Ten Round Bout In Welterweight Division

By Davis J. Walsh
International News Service Sports Editor

NEW YORK, Feb. 18.—(INS)—Nothing stood between Ace Hudkins and the world's welterweight championship today except the closing of a title bout, which seems to be a formality, and the determined visage of Joe Dundee, who seems to be nothing of the kind. The story of the day before yesterday was that the stand-between elements included the title chance, Joe Dundee and Sergeant Sammy Baker, named in the order of their importance. The story last night was that Hudkins gave the Sergeant the beating of his young life for ten rounds.

The story this morning is that Dundee must show cause why Hudkins is not to be the champion of his division.

They will probably meet over the championship distance of ten rounds at the Yankee Stadium before all the June brides are married.

Baker was the only serious contender to Hudkins' progress toward the title chance and the Sergeant, deposited twice upon the floor for counts of nine and cut up about the face like a tenderloin, no longer can claim that distinction. The writer could allow him only two of the ten rounds and only in the fifth, when he twice belabored the Ace with hard right hand crosses, could he be said to have scored effectively. The seven rounds he carried five rounds clearly and the other three were even.

It was the third of the slaughterhouse series between the pair and this time it was Baker whose gore was spilled all over the promises. The first meeting saw Hudkins bleed so profusely that a tenderhearted referee stopped the show. The next time out, both spilled a lot of carnage over the scene with Hudkins winning. Happily and for the sake of fastidious butchers in the crowd, last night's activities just about closed the ledger.

Baker may want more but it hardly seems necessary to see that he gets it. Hudkins doesn't have to make a hit with a good left hand now to get a seven-day victory.

Samuel clearly indicated the approach of an intermission to the sixth round when he went down, claiming foul from a left to the pit of the stomach. He got up at nine, however, when the referee paid him no heed and it goes with out saying that a fabled fighter usually gets up the next day and then only in the evening.

In his head round, the other hand down Hudkins score came in the record as a result of a right hand right hand to the jaw, coming out of a which caused both a faint count that time.

This was the turning point of the fight, because as they had fulfilled through the first round a half on minor loss, even then, Baker never recovered from the effects of the knockdown and it was only in the fifth, when the Ace neatly headed a couple of right crosses with his frontage and was rocked to his shoestrings. It was Baker's first round of the fight and almost his last.

Celery Markets

Bureau of Agricultural Economics cooperating with the Florida State Bureau of Markets. — R. E. Corbin, Local Representative.

Celery shipments from Florida were heavy yesterday, 85 car going out from Sanford Section and 14 from Manatee making the total for Florida 99 cars. Twenty were shipped from California which brought the total for the United States up to 119. Two cars not previously reported were shipped from California on the 16th.

The Sanford crop is showing a good distribution on original billings at present. Yesterday's 85 cars were billed as follows: Waveruss 22, Potomac Yards 11, Chicago 12, Detroit 4, Florence 4, Philadelphia 4, Jersey City 3, New Orleans 2, Baltimore 2 and 1 each, Atlanta, Boston, Columbus, Erie, Indianapolis, Jacksonville, Memphis, Miami, Montreal, Mobile, Norfolk, Petersburg, Pittsburgh, Rochester, Savannah, Tulsa, Okla., West Albany, and Zanesville.

The Sanford 6, 6 h. market held firm yesterday at \$2.00 for stock, of good quality. The usual discounts and premiums prevailed.

Telegraphic report from New York today indicates that the demand was moderate and the market slightly stronger. Florida 10-inch crates, 3 to 6 dozen were selling \$2.75-3.25, with some ordinary stock as low as \$2.00. Eight dozens were \$2.25-2.75, and 10's \$1.75-2.50.

Manager Desires To Match Delaney And 'Manassa Mauler'

NEW YORK, Feb. 18.—(INS)—Eilly McCarmey, associated with Joe Jacobs in the management of Jack Delaney, hopes to match the Bridgeport, Conn., Heavyweight with Jack Dempsey, former champion. McCarmey leaves today for Los Angeles, where he will propose the bout to Jack Doyle, millionaire promoter of that city. If Delaney leads Dempsey, he is willing to get out of Tex Richard's elimination tournament.

Meanwhile Leo Flynn, who is waiting to condition Dempsey if the latter returns to the ring wars, says the Manassa Mauler is considering a \$500,000 offer for a vaudeville engagement of one year at the Pantheon Circuit. Flynn does not believe Dempsey will accept the offer.

Disputed Basketball Game May Be Replayed

NEW YORK, Feb. 18.—(INS)—Officials of the Eastern Inter-collegiate basketball league will meet here either Monday or Wednesday to consider Pennsylvania's proposal that the Penn-Dartmouth game of last Thursday night be replayed.

Dartmouth won the game, 30 to 29, but a dozen newspapermen and radio men, claiming that the student scores failed to count a foul loss by a Penn player, Monday afternoon, to associate Penn, withdrawn from the league unless the game is ordered replayed.

ORVILLE WRIGHT DID NOT ADVANCE FRENCH AVIATION

Frenchman Who Made First Flight In France Is Angry Because American Received All Credit From Countries

PARIS, Feb. 14.—(INS)—Taking advantage of the celebration of the twentieth anniversary of the first official airplane flight over a prescribed course of one closed kilometer, French aviation enthusiasts are bringing forward data to show that French airplane constructive genius owes nothing to Orville and Wilbur Wright.

On January 13, 1908, at Issy les Moulineaux, Henry Farman, pilot of a plane constructed by Charles and Gabriel Voisin, first piloted a lighter than air machine over a distance of one kilometer, taking off at a prescribed point, flying 500 meters, turning and returning to his place of departure. The flight was completed in one minute and twenty-eight seconds. The pilot won a prize of 25,000 gold francs for this officially controlled exploit.

Charles Voisin has been dead fifteen years, killed in an automobile accident in 1912. Since the famous flight of 1908 Gabriel Voisin has been living in almost complete obscurity. But he came in for his share of praise during the celebration of Farman's feat.

Voisin is bitter because of the lack of recognition of his contribution to French aviation. Gabriel Voisin is bitter, he claims, because he did not receive the credit that he felt he deserved.

On December 7, 1925 I made a tour of the first French Aviation Salon," he said. "French aviation was symbolized in three images, the first representing a glider, the second a Wright airplane and the third the Voisin airplane in which Henry Farman flew the first closed kilometer in 1908.

"To my surprise, on reading the program under the third image, only the name of the pilot, M. Farman, an Englishman, was mentioned. Furthermore, the name Voisin had not been mentioned on the program. This was a great disappointment and I took occasion to write a public note in the form of an Aviation and in English.

"As you can see, it is a result of the lack of the plan to the A.C.F.A. which I believe will be a great help to you.

"No Help From Dayton

"Wilson Wright undoubtedly was in it in America in the same way that we were carrying out our own experiments here. But French aviation was born in France, not in America, and the credit should go to the French people.

"When Wright came to France he was not a pilot. He was a mechanic and he was not a pilot. He was not a pilot. He was not a pilot. He was not a pilot.

AFRICAN CONCERT IN PARIS

Musicians of Paris took great interest in the recent concert of ancient and modern music given by the African musicians. The artists were warmly received and the audience warmly applauded. Miss Somerville has spent her time in Africa. Halle lived in England for a number of years.

SEEK MUSIC TEACHER TEST

To drive out the musical "quacks" and make the city one of the musical centers of the world, a movement has been started in Sydney, N. S. W., to compel examination of all teachers as to their proficiency. The drive is especially directed at teachers who train amateurs only sufficiently to perform Mendelssohn's "Songs With Words" at church concerts while giving them ideas regarding technique and interpretation that eventually are ruinous. Vocal teachers are also hit, the supporters of the movement saying that there are only two really capable teachers in the city.

FAIR CLAIMS PRIESTHOOD

Descendant of a handress to one of the Kings of Chali, Charles de Masset, a Frenchman aged 70, is a claimant to the priesthood of the famous Hamman (Monkey) Temple at Jabou, Simba. De Masset renounced Christianity for Hamman at the age of 47, and served his novitiate in a lonely temple, with monkeys as his sole companions. In recent years he has been a familiar figure in Simba, where he became known as "Leopold and Fakir" because of these skins he wears, but lately he lived in retirement and shunned the companionship of Europeans until he appeared to make his claim.

MIX SUFFERS INJURIES

HOLLYWOOD, Calif., Feb. 16.—(INS)—With three fractured ribs, and a score of bruises, Tom Mix, motion picture cowboy star, is confined to his home here today and will probably be unable to return to the studios for several weeks. Mix was injured when he fell through a floor during the filming of a fight sequence.

DEAN TRADED

CHICAGO, Feb. 15.—(INS)—Wayland Dean, pitcher, has been traded to Louisville of the American Association in exchange for Ed Hickey, star hurler. President William Vesey of the Chicago Cubs announced today Dean was traded to the Philo Hahn Nationals last season, but left the club for reasons unknown. He was later released by Commissioner Ebbets.

BIBLE VERSE FOR TODAY: LOVE FULFILLS THE LAW.

Owe no man anything, but to love one another: for he that loveth another hath fulfilled the law.

Love worketh no ill to his neighbor: therefore love is the fulfilling of the law.—Romans 13:8, 10.

SEVENTH DAY: The Spirit dwells in us constantly, and then we shall love Thee with all our heart and soul and strength and mind, and our neighbor as ourselves.

LATE AUTUMN: By A. M. Sullivan.

In the New York Herald Tribune.

The ghost of beauty lingers in the forest.

Wearing the flame of autumn for a cape,

But Boreas chills her robe of fire and tears it into shreds,

And whirls the fragments through the sky.

Tonight his eerie lute shall play upon the black ribs of the forest.

While Beauty sleeps beneath the gossamer of Frost.

If it's news, you'll see it in The Herald.

What this city needs is better and cheaper gas and less hot air.

An editorial writer speaks of "Clean Politics". Now that is news.

Wire tappers are at work in Florida. Have you been tapped yet?

Admiral Plunkett has retired. Too bad he wasn't born a few months earlier.

Many a sport has made a match who has to borrow one from us whenever he lights up.

The telephone is not the only place where we find the line busy. Some girls we know have a pretty busy line themselves.

Commander Byrd has his plane ready to fly to the South Pole. Some day someone will fly around the earth from north to south.

Some of the anti-Hawthay crowd should now contend, in order to be consistent, that Hoover should resign as secretary of commerce before running for president.

Deland, so says the News, is to have two new dailies. Three daily newspapers in a city the size of Deland would be about as profitable as the Sanford Times was. Don't worry, Clayton, they can't last long.

Hillsborough county is beginning a war on both bright lights and "one eyed" cars. One is as bad as another and equally dangerous to other motorists. Every county should follow Hillsborough's example.

The Bradenton Herald quotes a famous naturalist, speaking in Jacksonville, as saying that Florida birds are worth \$300,000,000. We were acquainted with several birds a couple of years ago who thought they were, but we didn't know they still existed.

Newspaper man can tell that policies are getting under way by increased size of their mail, if in no other way. Many requests for free publicity pour in from every date in the field, but very seldom do we find one of these letters addressed to the advertising department.

It strikes us that the farmers of this district could realize from two to three times as much from their crops annually if they would organize some kind of iron bound marketing association. But this will probably never be done until two or three poor seasons in a row have shown the necessity for it.

What John Did

The life of the "Prince of Wales" is generally admitted to be one of intense activity not likely to excite envy on the part of any of his American cousins.

His afternoons are more leisurely spent. At two he appears for a few minutes at Ascot to officially inaugurate the racing season, and goes from there to his hunt club where he breaks in some green hunters.

At six he is allowed to pay his respects to his mother, the Queen, and at six-thirty he changes into his uniform as a naval admiral of the line, and sees the battle fleet properly tucked away for the night.

So it goes. But apparently no less oppressive is the life of our own John Coolidge, son of the President of the United States.

Coolidge was worried over the talk that started, and John realized that he had spoken hastily.

Varied Interests

The Manufacturers Record, one of Florida's most enthusiastic boosters and exploiters of its manifold possibilities, has turned its attention for the time being from the state's position as a rich agricultural empire to the opportunities which it has to offer as a manufacturing center.

In this state, the Record points out, the workman needs fewer heavy clothes, less fuel and cheaper houses than in the case in colder climates.

One of the best arguments, which the Manufacturers Record advances in behalf of the Sunshine State, is its statement that Florida is located much nearer the source of supply of raw material than New England and this should make this state exceptionally well adapted to the manufacture of cotton goods and cotton clothing.

The Baltimore publication's statements only serve to reiterate what The Herald has said from time to time that Florida today holds a brighter future than any other state in the South.

THE CAUGH AND THE THEATER

By GEORGE A. LEESS

Does anyone ever stop to think of the influence, mental, physical and financial, of the cough in the theatre? Millions of dollars are spent every year on the production of plays in New York alone.

The Cough as a Recreation. I excuse it because it is generally due to the fact that the play on the stage is poor or ineffective.

The Cough Veritable. The Cough as a Recreation. The Nervous Cough. The Cough Discreet.

The Cough Veritable. The Cough as a Recreation. The Nervous Cough. The Cough Discreet. The Cough Chronic. The Long and Hollow Cough. The Brief but Crisping Cough. The Cough of Independence. The Cough Prophetic. The Vacuum-Cleansing Cough.

Everyone of these coughs is destructive and only two out of the list are in any way excusable; these are the Cough Veritable and the Cough as a Recreation.

ough when I am acting, by listening for the long intake of breath which always precedes it. This cough I class amongst the inexcusable because although it has become chronic, it could be easily controlled by the person who has smuggled it into the theatre.

The Long and Hollow Cough, although emanating from a perfectly healthy body, is sustained and depressing. The cough which abouts of its source is difficult to determine. It is peculiarly undesirable in a place of entertainment, because it is apt to start in the minds of the audience a train of thought leading up to the realization of the uncertainty of human life—of how we are here today and gone tomorrow, and to read to their minds those peculiar real-estate advertisements that so strongly advise the immediate purchase of a choice lot in the cemetery.

The Brief but Crisping Cough. This cough is sudden and terrifying. It comes without warning and extends itself in one terrific moment. Every part of the internal and only is called into simultaneous action to bring about one choking, shattering crisis, such as Wagner would have given his soul to be able to reproduce.

The Vacuum-Cleansing Cough. This cough is not a cough at all, but it is of the cough family. It denotes everything in the air within a radius of one thousand yards and leaves behind it, throughout the house, a momentary black obscurity.

Paul Whiteman Likes the Toasted Flavor of Luckies—His Favorite Brand. "It was but recently, when I started to act as master of ceremonies with my band at the Paramount Theatre, that I realized how vital perfect voice condition was to a performer. I have always been a consistent smoker and fortunately, Lucky Strikes were my favorite brand. I like their toasted flavor and, best of all, I can smoke as often as I like, without fear of irritating my voice, which is becoming a great asset in my work." Cigarettes: LUCKY STRIKE "IT'S TOASTED" CIGARETTES. Prominent Tobacco Buyer says: "The Cream of the Tobacco Crop" goes into Lucky Strikes. "Discriminating smokers know the excellence of Lucky Strike Cigarettes by their distinctive taste, flavor and lack of bad after-effects. We buyers know why Lucky Strikes possess these superlative qualities; because we buy the 'Cream of the Crop' for their manufacture." H. C. Bettles

Health HINTS Internal Medicated Baths I realize that someone over in New York is advertising internal baths as a cure for constipation. I find it well worth it, but we must be a little more discriminating in our choice of these internal baths. We find that this is not a matter of every town and every city in this country. We find that this is not a matter of every town and every city in this country. We find that this is not a matter of every town and every city in this country.

Costumes in Film At Milane Copied From Oil Pictures

Every costume an oil painting! This extravagant claim is somewhat bold in a screen or stage spectacle—but in "The Student Prince," Metro-Goldwyn-Mayer's massive filmization of the celebrated old drama, it is literal truth.

The new picture, which comes today to the Milane Theatre, with Roman Novaro and Norma Shearer at the head of a huge cast, is one of the most lavish spectacles in screen history, while the story of one of the world's best-loved romances... The costumes are a complete oil painting for every one.

Friends you can trust

Advertised products are your friends wherever you find them. You know them. And you can buy them with confidence—sure of honest value for your money. For they have stood the test of public scrutiny, they have been advertised and found worthy.

For advertising, after all, is a test—a trial by fire of public approval. Today no manufacturer would start advertising his products unless he knew they were sound and good. And if errors did creep in, he would be quick to correct them, for to hold business he must uphold the confidence advertising has created among millions of people for his wares.

Advertising brings protection to the consumer. It guarantees honest value. It sends quality up. The manufacturer who advertises builds up such a volume of sales that he gives far more in both quality and quantity than the non-advertiser can possibly do.

Seek out your friends—the advertised products. Favor the dealer who handles them. Look for them on the shelves. Watch for them in the show windows. They are the hall marks of a good business house. They are negotiable guarantees of value. They are friends you can trust.
