He had declined earlier in response to a question to add or subtract from his statement yesterday that Congress should meet all the requirements of European recovery plan or else not undertake the job at all.

Marshall said that he had appeared before the Senate Foreign Relations Committee yesterday in an advisory capacity and did

what he had said.

Then he went on to say that he had noticed implications in some accounts of his testimony that he would return to his home at Leesburg. Va., if Congress either cut or turned down his recommendations for the four-year

effort to rebuild western Europe.
That, Marshall said, is wholly incorrect. He added that he thought it would be inconsistent.

"If Hig had known it was a tie", says our informant, "he would have been out there lying on the ball himself." . And North Carolina state folks indignantly deny that basketball Coach Ev Case had the hot-and cold water faucets removed from his house because the letters, H. C., reminded him of Holy Cross and that Sugar Bowl game.
