

# County Board Actions

By DONNA ESTES

Citizens observing any fish in the lakes of Seminole County which appear to be acting in an unusual or strange manner have been requested by Pollution Control Officer Langley Adair to contract his office immediately.

Adair said agency notification in his office will assist in determining the pollution sources in lakes and streams. He reported to the county commission that 528 largemouth bass from 3 to 27 inches long, 1,433 bluegill from 6 to 10 inches long, 416 redear sunfish from 4 to 14 inches long, 20 black crappie from 10 to 16 inches long and an estimated 10,700 threadfin shad were killed in Pearl Lake last weekend, according to the Freshwater Fish Commission, from some pollutant.

The monetary value of the fish kill is estimated at between \$8,000 and \$9,000, he said. "Had this fish kill been reported to my office immediately, it may have been possible to locate the source of the causative agent," Adair said.

He said by the time his office received notification early Tuesday morning and he tested the waters the same morning the pollution had scattered and could not be identified. The fish probably died from lack of oxygen, he said.

### Delegation Talks

The board voted unanimously toward the end of its meeting Tuesday night to authorize Assistant County Atty. Howard Marsee and members of the commission to attend hearings of the Seminole Legislative delegation on the county's proposed hospital legislation.

Commissioner John Kimbrough said the board of trustees of Seminole Memorial Hospital plans to go to Tallahassee about the bill and either they are "confused or have poor communications with their lawyer."

Kimbrough said a trustee of the hospital has interpreted the legislation as a way for the county to build another hospital. The commissioner said he wanted Marsee on hand in the state capital to "identify any misrepresentation."

In other legislation, the board instructed Marsee to prepare by-laws and begin action to incorporate a non-profit organization, required by federal law which went into effect in January and state law to go into effect in July, as a health planning council.

Calling the state law a "bureaucracy 101," Marsee said the bureaucracy in Tallahassee has declared the county must fund the councils created both in Seminole and in a seven-county region.

It also was agreed to contact the regional mental health organization to evaluate Seminole's program and check into the allegations made by Dr. Michael Gutman concerning the local unit's operation. Gutman has charged that the program of Seminole County Mental Health, Inc. does not give psychiatric assistance a prominent enough position.

### Repair Bad

Spending some \$20,000 to repair the county agricultural building "would be throwing good money after bad," County Maintenance Supt. Henderson Ferguson told the board Tuesday, leaving it one alternative, in his view, of building a new facility, estimated to cost \$140,000. In a bond election that year, the voters of Seminole turned down a proposal to spend that sum to build a new facility.

County Agricultural Agent Frank Jasa said there has been no major repair work at the building since he joined the department in 1965 and 1969 it was decided the building was not worth repairing. "The only repairs have been painting and patching."

Ferguson said the floor must be completely replaced, the facility termited, supports underneath, rotten wood by termites, replaced. "The roof doesn't leak except over the porch," Jasa said, "but some parts of the floor make one seasick to walk across."

Jasa said some 20,000 personal contacts were made by the department last year, in addition to a large number of questions answered by telephone, publication of a newsletter, a radio program and newspaper articles.

"The only way to fund a new building would be from millage or revenue sharing funds," County Commission Chairman Sidney L. Vilhen said. Ferguson suggested a metal building be considered. No action was taken on the work session item.

### No Obligation

There is no legal obligation upon Seminole County to install any traffic signal within a city, County Engineer William Bush remarked Tuesday as he noted his unhappiness with news accounts reporting statements from last week's CALNO Council of Local Governments meeting that the county is "badgering" the cities.

Bush said the county is not required to install traffic signals or railroad signals on state roads within cities. The policy whereby the county assuming responsibility and funding for traffic signals at the intersections of two state roads was formulated on recommendation of former chairman John Alexander six years ago when the cities could not or would not handle the problem, Bush said.

Bush continued that the City of Sanford has installed many traffic signals with no assistance from the county including SR 415 and U.S. 17-92, SR 46 and Park Avenue, SR 46 at Sanford Avenue, SR 415 at Celery and SR 415 at Melroseville.

The engineer pointed to the fact the cities are receiving the entire rebate from the eighth cent gasoline tax and the funds are to be spent for projects relating to transportation. Commissioner Greg Drummond said the legislation returning the eighth cent to the cities is "too permissive" and "hopefully the funds will not be used in 'gray areas' such as street lighting and crime prevention."

Drummond said the cities should look toward commercial entities to pay for signals from which they will directly benefit and for which they have created the need. He suggested when zoning is given to a commercial tract payment be committed by the commercial entity at that time for the signals. It was agreed to discuss the matter with the cities.

### Port Work

Assistance with financing of the Seminole County Port Authority to permit work to begin on installation of utility lines within the port property was approved in the amount of \$17,500 by the commission Tuesday.

At the same time Port Administrator James Ryan assured the board the sum of \$2,500 per acre will be given to the county as the port property develops and every effort will be made to have the utility lines within the port dedicated to the county.

The money is to be transferred to the port on Sept. 30. In other action, the board instructed Supt. J. C. Lavender to have the cities place money with the county before participation road projects are begun. Lavender said he "geared" and completed the projects in Sanford and Casselberry without first requiring the deposits.

# 'Tank Punishment' Complaint Hits Sheriff

By DONNA ESTES

The State Division of Youth Services (DYS) Tuesday in a hurriedly arranged hearing before the county commission charged the sheriff's department with "cruel and unusual" punishment of juveniles at the county jail.

State Atty. Abbott Herring declined comment today on whether his office has received any complaints or has an investigation underway.

The cruel and unusual punishment was defined as the department's practice of stripping unruly juveniles and placing them in the creche tank (a padded cell) as a disciplinary measure.

Michael Ullford, regional field representative of the division of youth services, urged the board to make arrangements with Brevard County to have the youths kept in that county's "excellent" juvenile facility.

Sheriff John Polk said the problem stemmed from a complaint made to a DYS counselor by a 12-year-old girl who had been placed in the tank.

State Atty. Herring said that if a girl is in attendance when girls are stripped.

"If I cannot discipline the juveniles and they wake up the adults, a jail riot could begin," the sheriff said. Polk added there is no problem with runaways acting up.

The sheriff said last year the county held 353 juveniles in the jail with the largest percentage released from custody. In the most recent instances of creche cell discipline for juveniles — three boys and two girls — Polk said, all had been ordered held by a circuit judge, none were runaways and all had been found guilty of a crime.

As far as placing juveniles in the creche cells is concerned, Polk said the punishment may be unusual. Polk said he is currently understaffed, that two of his deputies are in the hospital and he has had problems with hiring three additional ones authorized.

"The DYS has a job to do. They are trained in juvenile work and my jailers aren't. My people are expected to be as good as the trained counselors. But I would guess the difference

Polk, who has consistently stated his opposition to the continued housing of juveniles at the county jail over the past four years, said the situation "is a terrible one." He also made known his dislike for the creche cells and said he has recommended this sort of tank be done away with in the new county jail.

He said discipline of juveniles at the county facility is a serious problem and the young girl sent to the creche tank had been eating soap and pulling out her hair. He also explained the persons placed in the cell are stripped of clothing to keep them from harming themselves.

"I'm not saying the creche cell is the best, but I can't take the chance on the juveniles hurting themselves" Polk went on to relate an episode recently where three boys made so much noise one night (thumbed their noses at the deputy who asked them to be quiet) that the entire population of the jail was awakened.

County Commissioner Greg Drummond agreed the creche cell is something that should be disposed of. But, he added, if the sheriff is not allowed to discipline the juveniles the DYS counselors should be available around the clock to respond immediately to communicate with the unruly child when called. "I have found a permissive attitude on the theoretical level," Drummond said, "among the youth services and related offices."

Polk and Commissioner Mike Hattaway are to research with Wolford figures, per diem etc. of housing of the Seminole juveniles in Brevard for consideration of the commission.

SHERIFF JOHN POLK ... Terrible situation ... Get rid of it

## Deltona Clean-Up Gets Off To A Roaring Start

By FANNETTE EDWARDS

DELTONA—Residents of Deltona, from the youngest to the oldest, the smallest to the biggest, took part in one day clean-up campaign to keep Deltona beautiful recently.

Originally, the plan was set for two days, but the chairman said that so many turned out to help it will not be necessary to have another day.

Boy scouts, girl scouts, brownies, cub scouts and cadets, Garden Club of Deltona, The Woman's Club, Kiwanis and Lions Clubs and dozens of other clubs and organizations took their places in the fields, the streets, and anywhere litter could be seen.

Even the Red Cross, under the capable leadership of Jack Levinson, chairman of the Disaster Committee, was on hand to give First Aid.

Volusia County Public Works Department supplied four trucks to pick up the bags of litter which the Deltona Volunteer Citizens had collected. Headed by Dixon Allen, engineering inspector, they did a commendable job.

## Farmers Set Public For Milk Price Hike

MIAMI (AP)—South Florida dairy farmers have launched an advertising campaign apparently aimed at preparing the public for a milk price increase.

In a half-page, \$2,000 ad appearing in the Miami Herald Tuesday, a dairymen's organization said rising costs have

made a milk price hike necessary. Titled "It Costs a Lot to Run a Cow," the ad contended that the cost of stock and labor has risen by 15 per cent and the price of feed grain by 30 per cent in the last year while the price of milk has increased only five per cent.

"Unless there's some relief, like a modest price increase, farmers will have to sell more of their herds," the ad said. "The Florida milk supply won't equal the demand. And a lot of milk will have to be imported from other states."

The result, the ad said, would be "a really big increase in milk prices."

The ad did not say what dairy farmers would consider a modest increase.

Dairy farmers currently receive about 70 cents for a gallon of milk that sells for about \$1.25 in the supermarket, industry sources say.

Advertising executive David Hume, who is handling the dairymen's campaign, said the ad was placed by the South Florida Dairy Farmers, a trade group which represents Independent Dairy Farmers Association.

Next meeting will be April 16 at 6 p.m. with Mrs. W. Shereriz, Mrs. James Hutchinson and Mrs. J. Arroyo, hostesses.

Hume said the advertisement was intended to "communicate to the public the plight of the farmer."

Eureka Tells Story

Doctor Shortage Stymies Nevada Town

Editor's Note: This is the second of two articles discussing the nation's doctor shortage, its extent, the reasons for it and the prospects for the 1970s.

By FRANK MACOMBER  
Copley News Service

What happened recently in Eureka, Nev., pretty well tells one side of the story of America's doctor shortage and its impact on communities across the land.

Eureka is a small mining town which has seen better times. Until Jean-Paul Sinistre came to Eureka there was no doctor. Sinistre patched up the townfolk for six months, didn't charge too much, and even treated those who couldn't pay. So the county authorities named him county doctor at \$8,000 a year.

Then somebody checked up and found Sinistre had no license to practice medicine. He left town one day before being charged with practicing without a license and obtaining money under false pretenses.

Now Eureka's 350 residents must drive 75 miles to Ely, Nev., for medical care, including emergencies. No one condones law violations, but many Eureka people say the town was better off before Sinistre left.

"He helped them all, all that went to him," says County Commission Chairman Charles Vaccaro.

"He helped me," adds Justice of the Peace Al Hammond, who held the warrants for his former doctor's arrest. "He knew what he was doing."

Eureka's is an unusual case. Yet it serves to point up national statistics of health figures which show that today there is only one doctor for every 2,000 Americans, compared to three for every 2,000 in the 1920s.

The imbalance of doctors to population especially is noticeable in rural areas—like Eureka—a place where many physicians have moved from the country to the city. They are professionals and they can earn a better living in high-income suburbs or in the high-ten districts of cities.

The ghetto doctor is a vanishing breed. In Chicago, for example, there is one physician for every 900 residents. Yet since the 1960s the doctors have fled from the slums and ghettos to the mansions and suburban shopping centers.

Supreme Court Hears Death Penalty Plea

TALLAHASSEE, Fla. (AP)—Atty. Gen. Robert Shubin told the Supreme Court that overturning Florida's death penalty law would be "a terrible indictment of the American system of trial by jury and the citizens that are called upon to serve as jurors."

Shubin said the state law met the constitutional test of the U.S. Supreme Court's decision in 1957 that the death penalty was unconstitutional as then imposed.

The case before the state court is a consolidation of challenges to murder judgments returned against seven men and the citizens that are called upon to serve as jurors.

Shubin said the state law met the constitutional test of the U.S. Supreme Court's decision in 1957 that the death penalty was unconstitutional as then imposed.

The judge in the case, Judge Paul Baker March 9 that the law is unconstitutional.

Overturning the law "can only be predicated on a presumption that jurors will not determine the validity of the first state death penalty law passed after last June's U.S. Supreme Court decision."

Shubin said.

He filed a brief asking the court to reverse a decision by Judge Paul Baker March 9 that the law is unconstitutional.

This will be the first Florida Supreme Court test of the state law and undoubtedly will go to the U.S. Supreme Court to determine the validity of the first state death penalty law passed after last June's U.S. Supreme Court decision.

centers. In the same period, articles in the medical journals discussing the nation's doctor shortage, its extent, the reasons for it and the prospects for the 1970s.

\$1 Million Old Debts  
Hospital May Charge Bill Interest

By BOB LLOYD  
Seminole Memorial Hospital at Sanford may start charging eight per cent annual interest on \$1 million in delinquent accounts owed by former patients.

The hospital board of trustees ordered administrators to "explore the possibility of charging interest on past due accounts" and will get a report May 14 on how much bookkeeping work will be involved.

Trustee Andrew Carraway said the public hospital is carrying delinquent accounts on the books at a cost of \$50,000 to the taxpayers. Presently no interest is charged on past due accounts.

Attorney Gordon Frederick suggested under recent judicial revision phasing out small claims courts the procedure for collecting by filing for summary claims against debtors is easier. "But the hospital doesn't now have a functional system to handle past due accounts," he said.

Carraway, reading from a computer readout page, said the hospital has \$465,853 in currently delinquent accounts receivable, \$246,478 in 30-day old accounts and \$141,055 in accounts 60 days old. Accounts over 60 days old amount to \$217,874.

Administrator Robert Besserer told trustees, even though the hospital operation is in the black, the first six months of 1973 over \$328,000 was absorbed on medicare patients as

Accepted low bids of Arics Carpet Enterprises of Orlando on \$5,500 in replacement carpeting.

Discussed the shortage of registered nurses and were told by Besserer a new personnel policy to be presented to the board next month may help in obtaining nurses.

Approved the application of Dr. Frank J. Grady, an ophthalmologist now with the University of Texas medical school at Houston, to join the hospital medical staff.

Grady, in a letter to the trustees, inquired about possibilities of the pathology department purchasing a \$32,000 argon laser for treatment of detached retinas. Besserer said such equipment wasn't a requirement for the specialist to join the local hospital staff. Trustees referred the equipment question to the hospital staff equipment committee.

Approved purchase of a \$4,200 blood gas analyzer machine for the pathology department. Chief of Staff Brooks Smith reported the present 12-year old machine is antiquated and results of tests run on it are "unreliable."

Besserer will investigate possible advantages of leasing the piece of equipment instead of outright purchase.

Planning Hiring Deferred

By MARION BETHA  
WINTER SPRINGS—Hiring of a city planner was deferred by city council pending a discussion with Altamonte Springs planner Buddy Genehardt, whose services Mayor Granville Brown said he would be able to procure upon a part-time basis.

Brown said he had long felt the need for a planner and that Altamonte Springs Mayor Lawrence Sewford had agreed to Genehardt's "moonlighting."

Brown went on to explain Genehardt would attend all city zoning board meetings and "some" council meetings at a salary of \$5 hourly.

City Atty. Tom Freeman concurred the city needs a planner as well as a master land use plan for anticipated growth.

Councilman Troy Pland said that if Genehardt had done the planning for Altamonte, he was not sure this was the type of planning he wanted for Winter Springs. He explained this statement saying he had driven along SR 436 in Altamonte, which he said, disclosed apartments and shopping centers with "little regard for future congestion."

He questioned how according to Mayor Granville Brown the city "in another couple of months" will experience an innovation with coded ordinances.

Brown said he had received a letter from County Commissioner Greg Drummond cited optimism the program can be "fruitful."

The first meeting with the city is planned for September. Brown also reported to council he had received a federal revenue sharing check for the

Stone Action Starts

ALTAMONTE SPRINGS—City council Tuesday, initiated action governing the Stone property annexation located on a 43-acre tract at Lake Uley, which, it is anticipated will result in dismissal of civil litigation filed against the city by State Atty. Gen. Robert Shubin.

Shubin had contended in his suit that the tract located south of Orlando Road is not contiguous to the city boundaries and further that the city was remiss in not holding a public hearing on the annexation.

City Atty. S.J. Davis Jr. told council he had been in contact with Shubin's office and that technically there is nothing wrong with the annexation other than the above mentioned points.

Shubin, he said, recommended the city annex all of Orlando Road between the existing city limits and the Stone property.

Council subsequently authorized Davis to amend the annexation ordinance to include Orlando Road, that portion of which is adjacent to and abuts the Stone property and between the Stone property and the existing city limits.

Council also set a date for a public hearing on the annexation for May 8 at 4:30 p.m. Davis was also authorized to prepare a resolution establishing procedures for future annexations and setting new fees for zoning and annexation of \$200 each.

Moderate temperatures were expected to help the Iowa site, and the action will mean that in the future the city will handle zoning in one action, and annexation in another, where the 1970 census which is presently the basis for the allocation.

Councilman Cliff Jordan injected at a recent conference of cities which he attended, a national representative said there would be no re-evaluation of population for an increase in the revenue sharing funding.

Brown, who concurred with the statement that he had "been down that road" in attempting to receive funding upon a more recent population figure, also noted that a CALNO chart disclosed Winter Springs surpassed Oviedo and Longwood in growth population trend and "was close to Casselberry."

Taxi Owner Decries Amended Ordinance

By BOB LLOYD  
The owner of Sanford's largest taxi company said Tuesday he'll meet the city's newly amended tax ordinance "head-on" but he has no plans at this time to challenge it in the courts.

Harry Miller of Palm Beach, who owns Sanford Transit Co. Inc. which does business in Sanford as Yellow Cab Co., said the amendments are aimed at forcing 24 hour a day taxi service in the city. "Because we're the largest company we're it," he said.

When city commissioners adopted the ordinance Monday night Miller told them the legislation is "discriminatory and grossly unfair" to his firm.

The city has issued 23 taxi licenses. The tough new provisions in the ordinance adopted after complaints of taxi service from citizens, makes revocation of a license automatic if the vehicle isn't used for three months.

City Manager Warren Knowles said a police survey shows seven of the licenses are "ineffective" and one is used only on weekends.

Lansky Trial July 9

MIAMI (AP)—The federal income tax evasion trial of racketeer Meyer Lansky, who is recuperating from open heart surgery, has been scheduled for July 9.

Lansky's trial had originally been scheduled for March but was postponed when the reputed financial brain of the underworld entered a Miami beach hospital for the operation.

Lansky, 71, is also awaiting the outcome of a motion to overturn his conviction last month for criminal contempt of court.

MIAMI (AP)—The federal income tax evasion trial of racketeer Meyer Lansky, who is recuperating from open heart surgery, has been scheduled for July 9.

Lansky's trial had originally been scheduled for March but was postponed when the reputed financial brain of the underworld entered a Miami beach hospital for the operation.

VALUABLE MERCHANDISE

Overmanaging? Dick Williams?

By MURRAY OLDERMAN
OAKLAND, Calif.—(NEA)—Richard Hershey Williams has been a manager of big league baseball teams a total of only five years. His teams have three times finished regular season in first place and twice appeared in World Series. Most recently, of course, his Oakland Athletics became the champions of the world.

Nip Orioles, 11-10 Twins snarl tiedo major oop

Orioles' Little Major League has a three-run race for first half honors after Tuesday's action which found the Twins edging the former leader, the Orioles, 11-10.

And It's Not Funny Prime Examples Of 'Futility'

By HERSCHEL NISSENSON
Associated Press Sports Writer
The Orioles' funny about losing.—Gene Mauch, April 10, 1973.

Perhaps not, but Mauch's Baltimore Expos, the San Diego Padres, the Los Angeles Dodgers and the Texas Rangers were sights to behold Tuesday night.

In classic displays of baseball futility, the Expos lost to the Philadelphia Phillies 7-5, the Padres were crushed by the San Francisco Giants 13-5, the Dodgers losing to the Houston Astros 4-3 in 12 innings and the Rangers were nailed by the Kansas City Royals 12-1. In a

So other games were postponed by a combination of snow and cold weather—Oakland at Chicago, Baltimore at Detroit and Boston at Milwaukee in the American League and Chicago at Pittsburgh, Cincinnati at

seasons, playing seven different positions, overruling but catch and pitch, and the experience convinced him that the ultimate strategy in modern baseball was juggling personnel—also called platooning.

"Of course," he said, "Casey Stengel went in for that platooning, but he was wrong. The New York writers call overmanaging, he might lose two dozen."

A contradiction? Not to Williams, who can rationalize every move he ever made, and does, with the profound conviction that comes from winning.

One of the perquisites of the manager away from home is a two-room suite with the color console TV set and the kitchen bar so that Dick Williams can have his

He is in these circumstances, a subdued and amiable man. Not at all the truculent and snapping authoritarian he can be when he puts on the knickerbocker outfit of kelly and puffed trousers by Charles F. Etnier, the owner of the Athletics. Dick is going into the middle age

"Who's my overmanager?" I wasn't doing it. We won. Spunky must have been."

A high smile lurked underneath Dick Williams' bush of a mustache as he confronted the accusation which gave him the opportunity to lash out against a favorite target—the "eastern" writers.

"The eastern writers," he said, "don't know anything about the Oakland club but to begin with, we're going to win and they don't like that. If I do anything against the so-called 'book' then I'd like to meet the man who wrote the book. I don't think there's such a thing as the book."

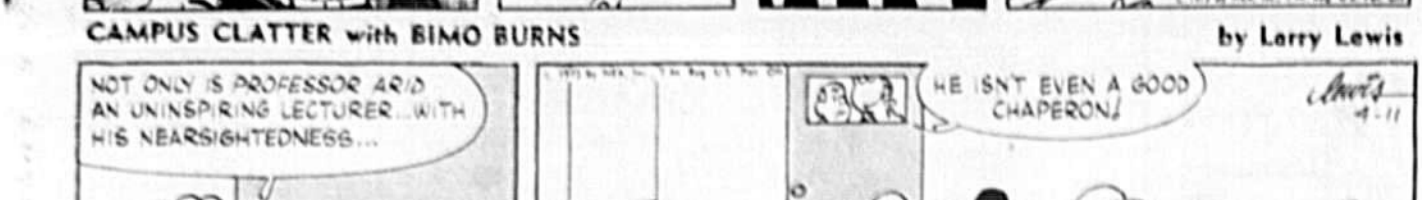

"I think if you're managing a ball club, you're running the game. The game belongs to me—definitely. I'd

## Les Bon Amies To Hold Service

USHER BOARD OF CLEARWATER CHURCH Anniversary observed

By MARVA HAWKINS

Les Bon Amies Club will hold its annual Palm Sunday Candlelight Service at Trinity Methodist Church, 6th Street and Sanford Avenue.

"Citizen of the week" is Willie D. Powell, 1562 West 11th St. He is the father of nine children, who he has educated. His wife, Mrs. Mathe L. Powell, is deceased.

Powell is retired and has lived in Sanford and this community for over 50 years. He has served his church, Allen Chapel A.M.E., for many years as a steward and vice chairman of board one, secretary of the Allen Chapel Church, member of the Voters League, Negro Chamber of Commerce during its existence and first member of the chartered NAACP in Sanford.

Through his dedicated services the burial board to assist needy people was organized. He was president of the Welfare League, secretary of pall bearer society for 20 years, secretary of the Lilly White for 10 years, and a Mason for 30 years.

Having given his life to the advancement of the community and the concern for all people in all walks of life, this dedicated citizen has truly contributed to the growth of his community.

The Rev. R. Harris officiated at the double ring ceremony. A pink and white background of gladioli and mums were used. The arch was decorated with greenery and the center with a large pink bow.

Miss Jacquelyn Moore, pianist, presented several selections, accompanied by soloist Miss Dianne Lammart, who sang "The Lord's Prayer". The bride, given in marriage by her father, wore a formal-length gown of white lace with sheer sleeves fitted at the elbow and wrist. The A-line styled gown was trimmed in green at the bodice and around the sleeves.

Her shoulder length veil was made of silk illusion. She carried a bouquet of pink carnations with pink and green streamers.

Miss Ernestine Gathers, sister of the bride, served as maid of honor. She wore a formal-length gown of pink and carried a bouquet of pink carnations with green streamers.

Vandell Hilton was flower girl and Leroy Young served as ring bearer. Leonard Robinson served his cousin as best man.

Miss Sandra Eunice Gathers,

daughter of Mr. and Mrs. Ernest Gathers Jr., 1506 West 17th St. Sanford, and Larry Tyrone Jones, son of Mrs. Bertha Jones, Rt. 2, Sanford, were married March 24, at the bride's home.

The groom's mother, Mrs. Jones, chose a formal-length gown of burgundy and white, with matching accessories. Her corsage was of white carnations.

Mrs. Elizabeth Gathers, grandmother of the bride, wore a formal-length gown of black, white with matching accessories and carnations. Mrs. Voncie Jones grandmother of the groom, wore a tree-length dress of beige with matching accessories, and a white corsage of carnations.

After the ceremony a reception was held at the bride's home. The bride table was centered on a round table with a white lace cloth. The punch table was covered with a green lace cloth with a pink and green centerpiece. Two punch bowls were placed at each end. The cake was a three-tier creation.

The bride's table was attended by Mrs. Herman Rembert Sr. and Mrs. Harriett Holloway.

Serving punch and mints were Mrs. Wilma Mae Drummer and Miss Dorothy Mae Gibbs.

Out-of-town guests were from Tampa, Hallendale and Orange City.

### 'Springs Okays Plans

By MARION BETHSA

WINTER SPRINGS — Preparation of an ordinance amending a franchise agreement with North Orlando Water and Sewer Co. has been authorized by city council.

The modifications in the franchise agreement paves the way for an increase in tap-in fees for water and sewage.

Single family residences and two bath apartment units will now pay \$320 per connection, and one-bath apartment units will pay \$225 per unit.

Council was of the opinion the fees were not out of line with those charged by neighboring cities.

Noland Reed, representing the company, said the fee increase would be made prior to giving service to four new developments.

It was pointed out that to make service economically feasible, either the connection increase had to be made or higher monthly rates charged. Councilman Victor Miller favored, before granting any one with a city franchise a rate increase, that a CPA examine the firm's operating expenses, capital outlay, and profit and loss factors.

Carrey, Deltona, Robert L. Dankworth, Deltona, Anne L. Songer, Lake Mary, Gladys Van Nees, Longwood, Elaine J. Janssen, Longwood, Cheryl Jean Simpkins, Longwood, Betty Sue Smith, Longwood, Andrew A. Gardella, Orange City, Marcia Y. Faircloth, Sorrento

### FTU Now SUO

With due regard for William Shakespeare, a university by any other name is just the same. That sentiment applies today at Florida Technological University, which, by unanimous approval of the Florida Board of Regents, will be known as State University at Orlando.

The change will not be effective until official action is taken by the State Cabinet of Florida.

The name-change came after long consideration and deep study by University administrators and academic leaders, who agreed that the former name implied the wrong image. From the day it was tagged Florida Tech, they were plagued with the continuing problem of spelling out the mission of the university as more than a technically-oriented institution.

With six colleges plus a General Studies program, the University has come a long way since 1966, when classes began on the 1227-acre campus east of Orlando. In those early days, officials ran head-on into the recurring problem of the name, when rumor had it that school was a sales-type type that stressed engineering and technology.

### Seminole Calendar

April 11 Lake Brantley High School Parents Night orientation for ninth grade curriculum for 73-74 school year, concerning incoming ninth graders presently enrolled at Teague and Milwee Middle Schools, 7:30 p.m.

April 12 SISTER, Inc. noon luncheon, Bram Towers.

Sanford Garden Club "All in the Family" Flower Show, Garden Club building, 2:45-3:30 p.m.

Seminole Democratic Executive Committee, First Federal S & L, SR 434, Longwood, 4 p.m. Practical Politics course, who agreed that the former name implied the wrong image.

Maitland-South Seminole Chamber of Commerce, noon, Florida Hospital North, Altamonte Springs.

April 13 Sanford Garden Club "All in the Family" Flower Show, Garden Club building, 10 a.m. to 5:30 p.m.

The DeBarry Woman's Club will meet at 2:00 p.m. at the Community Center. The program will be in the form of a Musical with Mrs. H. Wilson as leader.

Installation of officers, Anna Miller Circle, Elks Lodge 1241, 8 p.m.

THOU DOST SHOW ME THE PATH OF LIFE, IN THY PRESENCE THERE IS FULLNESS OF JOY, IN THY RIGHT HAND ARE PLEASURES FOR EVERMORE. PSALM 16

The beautiful, inspirational words of the Bible can be a great source of consolation to those who have lost someone dear. These words are the very heart of our memorial service, recalling one's faith.

### City Approves Paving, Draining

By MARION BETHSA

WINTER SPRINGS — Following council's attention last week, the final paving and drainage plans for Section 6, Unit 1 of the Terraces.

The plans were brought to council's attention last week, but action was deferred pending appraisal of the area relative to recommended improvements cited by the city engineer.

Councilman Cliff Jordan said his only question was a drainage ditch, which, he said, was deeper than anticipated, and would erode. Jordan said he did not feel the ditch should be the responsibility of the developer, Florida Land Company, since it was an existing ditch, and that the company should not be expected to repair the erosion at the termination of its one year surety bond.

Florida Land representative Noland Reed said his company would agree to seed or spray much the ditch, but City Atty. Tom Freeman opined this would impede the flow of water, defeating the purpose.

In other matters concerning development of the city, council approved, as recommended by the zoning board, a decrease in density of the Sheeah development.

COOKING IS FUN

**A&P WEEO**  
WHERE ECONOMY ORIGINATES

**IMPORTANT TO YOU!**

**A&P POLICY:** Always do what is honest and fair for every customer.

**RAIN CHECK:** If an advertised special is ever sold out ask the Manager for a Raincheck. It entitles you to the same item at the same special price the following week. Or if you wish we'll give you a comparable item at the same special price.

**GUARANTEE:** A&P offers an unconditional money-back guarantee. No matter what it is, no matter who makes it, if A&P sells it, A&P guarantees it.

**FAMILY DINNER**  
Meat Loaf Potatoes  
Squash Pickled Green Beans  
Peas with Custard Sauce  
PICKLED GREEN BEANS  
A reader request  
1 pound snap beans  
1 cup boiling water  
1 1/2 teaspoons salt  
1/4 cup sugar  
2/3 cup cider vinegar  
1/4 teaspoon mustard seed  
1/2 teaspoon celery seed  
1/16 teaspoon turmeric  
1 small onion, sliced and separated into rings  
Wash and tip beans, cook in boiling water with 1 teaspoon salt just until tender-crisp — about 10 minutes, drain. In a medium saucepan bring the remaining 1/2 teaspoon salt, sugar, vinegar, mustard seed, celery seed and turmeric to a boil, simmer 15 minutes, add beans and onion, simmer 5 minutes longer. Cool and chill, allow to stand at least over night to develop flavors before serving. Makes 1 1/2 pint.

**AFTERNOON SNACK**  
Apple Wedges Milk  
Hefegrotter Gingersbread  
REFRIGERATOR GINGERBREAD  
The kids should like this!  
2 cups sifted flour  
1/2 teaspoon baking soda  
1 1/4 teaspoons ginger  
1/2 teaspoon cinnamon  
1/2 teaspoon allspice  
1/4 teaspoon salt  
1/2 cup butter or margarine  
1 cup sugar  
2 eggs  
1/2 cup light molasses  
1/2 cup buttermilk  
Sift together the flour, baking soda, ginger, cinnamon, allspice and salt. Cream butter and sugar, beat in eggs one at a time. Add molasses and beat well. Add dry ingredients alternately with buttermilk, beating until blended. To store, cover bowl tightly first with a damp towel, then with wax paper tied securely with cord and store in the refrigerator 2 to 3 hours. Turn into a greased loaf pan (8 by 3 by 3 inches) and bake in a preheated 350-degree oven about 1 hour. Cool on wire rack about 10 minutes. Turn out of pan and cool completely.

**COME FOR DESSERT!**  
Angel Lime Pie Beverage  
ANGEL LIME PIE  
A tangy filling with a sweet meringue  
3 eggs, separated  
1/4 teaspoon cream of tartar  
1 1/2 cups sugar  
1/8 teaspoon salt  
1 teaspoon grated lime rind  
1/2 cup fresh lime juice  
1 container (8 ounces) heavy cream  
Beat egg whites until frothy, add cream of tartar; gradually add 1 cup of the sugar, beating constantly. Continue beating until meringue holds very stiff peaks. Spread evenly over bottom and sides of greased 8-inch pie plate. Bake in a preheated 275-degree oven for 1 hour. Cool thoroughly. Beat egg yolks slightly, beat in the remaining 1/2 cup sugar, salt, lime rind and lime juice. Cook over moderate heat, stirring constantly, until thickened, do not boil. Cool thoroughly. Beat cream until stiff. Fold into lime custard. Pour into meringue shell and chill until firm — 8 hours or overnight.

# Rice, Yams Support The Star Of Almost Every Meal

By SUSAN DELIGHT  
Copley News Service

The entree, of course, is the star of any meal. But, even the star must be supported for a well-rounded repast.

Among dishes which add interest, as well as nutrition, to a menu are such accompaniments as rice and potatoes. The potatoes can be either white or sweet. If it is sweet, they particularly complement ham and pork. But they go well with almost any meat or poultry. Rice is a popular accompaniment to meat, fish and poultry.

Orange Pecan Stuffed Yams is an excellent meat accompaniment, particularly for ham, and a good buffet item, too. In this recipe the yams are mashed with orange peel, butter and other ingredients, then returned to the yam shells and topped with orange sections and pecan halves.

Fruited brown rice is a flavorful side dish, featuring brown rice, fresh apples and dried apricots.

## Exciting Italian Fritters

By CECILY BROWNSTONE  
Associated Press Food Editor

When it's springtime in Italy cooks are likely to make yeast fritters that hail from Milan. For grownups the fritters may be served with coffee or muscadel; for youngsters the fritters may be offered with milk or hot chocolate. Sprinkled with powdered sugar and served warm, these fritters have a breadlike texture that's chewy. They remind us of a Georgia specialty called, of all things, Tough Bread.

**MILANESE FRITTERS**  
4 cups unsifted flour  
1/2 cup sugar  
2 packages active dry yeast  
1 tablespoon grated lemon rind  
1 cup milk  
1/2 cup water  
2 eggs, at room temperature  
1 teaspoon rum extract  
Peanut oil  
Confectioner's sugar

In a large mixing bowl thoroughly stir together 1 1/2 cups flour, sugar, undissolved yeast and grated lemon rind.

In a small saucepan over low heat, beat the milk and water until warm. Gradually add to flour mixture and at medium speed of electric mixer, scraping bowl occasionally, beat for 2 minutes. Add eggs, rum extract and 1/2 cup flour or enough flour to make a stiff batter. Cover and let stand at room temperature for 15 minutes.

Meanwhile in a large heavy pot, heat peanut oil enough for deep-fat frying to 375 degrees.

Stir batter before using. Drop by heaping tablespoons into hot oil and fry until golden-brown on both sides — about 3 minutes. Drain on absorbent paper.

Sprinkle with confectioner's sugar and serve warm.

Makes 3 dozen.

400 recipes are given in the illustrated "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order made payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, Box G4, Teaneck, N.J. 07666.

When you are preparing bacon for a crowd, it's usually convenient to bake it. Place the room-temperature separated bacon slices on a rack in a shallow pan and bake in a 400-degree oven until brown and crisp, 10 to 15 minutes. The bacon will not need to be drained.

New taste sensation: very finely pulverized coffee beans sprinkled over chocolate ice

and honey. Makes five to six servings.

**ORANGE PECAN STUFFED YAMS**

(Makes 4 servings)  
4 medium Louisiana Yams  
3 tablespoons butter or margarine

1 tablespoon grated orange peel  
1/4 teaspoon salt  
1/2 teaspoon nutmeg

1/4 cup toasted chopped pecans  
4 orange sections  
4 pecan halves

Bake Yams in 400 degree oven 15 minutes; reduce temperature to 375 degrees and continue baking 40 minutes

more or until tender. Scoop out yams, reserving liquid shells. Mash yams with butter, orange peel, salt and nutmeg.

Fold in pecans. Fill yam shells. Top each with orange section and pecan half. Bake 10 to 15 minutes longer.

# Fish Is Delicious If Fresh And Cooked Properly

Copley News Service  
Fish is polysaturated — the only fish food that is. And fish can be delicious if it is

fresh and cooked properly. Fresh fish never has a "fishy" odor. Always keep the fish in the

coldest part of the refrigerator and do not hold fish more than two days without freezing. If you live in a seaport, buy

fresh fish at the wharves, but happily frozen fish is available all over the country, so you may always serve fresh-

tasting fish. Fish is easy to cook. One of its many advantages is that fish cooks quickly because

fish is always a tender flesh. It may be broiled, sautéed, baked, or poached. It is done when it flakes easily if tested

with a fork. Do not overcook. **BAKED WHOLE FISH WITH CELERY STUFFING**

1 (3 to 5 pound) whole fish, dressed  
One-third cup polysaturated oil  
One-third cup finely chopped onion  
3 cups (1/4 inch) stale bread cubes (about 5 slices bread)  
1 cup chopped celery  
1/4 cup chopped parsley  
1 tablespoon lemon juice  
2 tablespoons hot water  
1/4 teaspoon salt  
1/4 teaspoon pepper

WITH BACKS GIZZARD LIVERS NECKS

**SPANISH FISH STICKS**  
4 fish steaks, cut 1-inch thick (about 3 pounds)  
1/4 cup polysaturated oil  
1 cup chopped onion  
1/4 cup chopped green pepper  
1 small clove garlic, minced  
1 (1 pound) can whole tomatoes, drained and halved  
1 teaspoon salt  
1/4 teaspoon pepper  
1/4 teaspoon thyme leaves  
1/4 teaspoon basil leaves  
1/4 teaspoon cayenne (optional)

Thoroughly dry fish steaks with paper towels. Heat oil in large deep skillet over medium high heat. Add fish steaks and brown lightly, browning once, 2 to 3 minutes. Arrange fish steaks in a casserole. Sauté onion, green pepper and garlic in the skillet over medium heat until tender. Stir in tomatoes, salt, pepper, thyme, basil and cayenne and cook about 1 minute. Pour tomato mixture over fish steaks. Bake in 400 degree (hot) oven about 15 minutes or until fish flakes easily with fork. Makes 8 to 10 servings.

Stir together 1/4 cup flour and yeast. Heat milk, water, 1/4 cup butter, sugar and salt over low heat until warm (120 to 130 degrees). Add liquid ingredients, eggs and lemon peel to flour-yeast mixture and beat until smooth, about 3 minutes on high speed of electric mixer. Stir in candied fruit, almonds and raisins. Gradually stir in more flour to make a soft dough. (Dough will be sticky. Turn out onto lightly floured surface and knead until smooth and satiny, about 5 to 10 minutes. Divide dough in thirds. Roll each third to 3 x 15-inch rectangle. Spread 1 tablespoon of the softened butter on each rectangle and sprinkle with 1 tablespoon of the sugar. Starting at the 15-inch side, roll up jelly-roll fashion. Cut slices 1 inch thick. Place on greased baking sheet and brush with oil. Cover and let rise in warm place (80 to 85 degrees) until doubled, about 40 to 60 minutes. Bake in preheated 375 degree oven 12 to 15 minutes until golden brown. Remove immediately from pans and cool on wire racks. Blend confectioner's sugar and milk until smooth and drizzle icing on top of rolls.

Note: Spoon flour into dry measuring cup, level. Do not scoop.

Note: If self-rising flour is used, omit salt.

# 'All-American' Variation Of The Popular Banana Split

By AILEEN CLAIRE  
NEA Food Editor

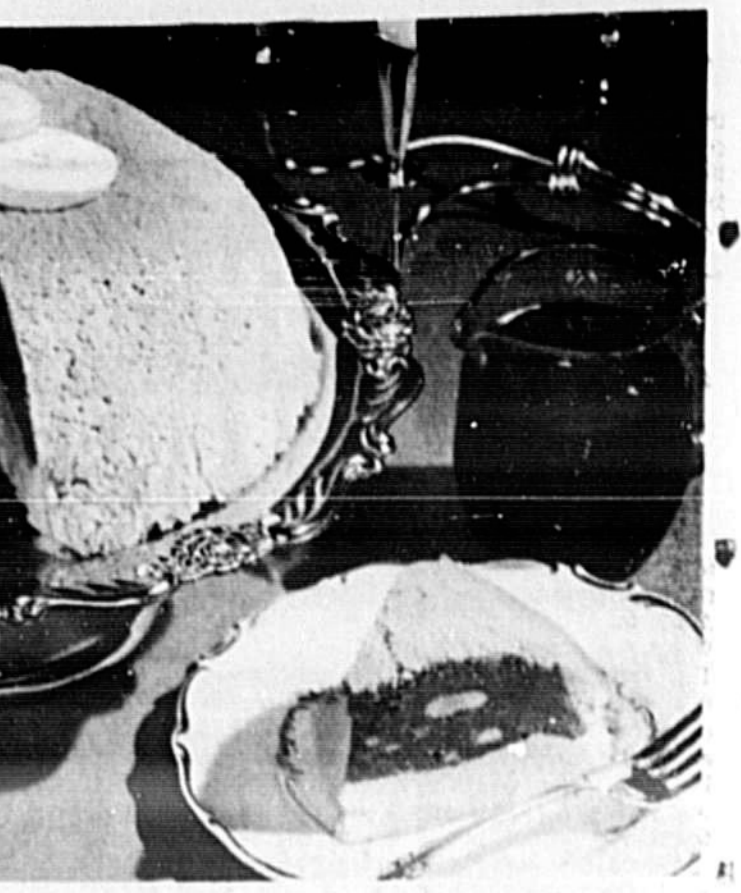

a banana split? A "bombe" stems from the early French creations resembling the actual bombs of the day. For best results and flavor do not store in the freezer longer than overnight.

This can be done in advance, allowing for eight hours for thorough freezing. For best results and flavor do not store in the freezer longer than overnight.

**ICE CREAM BOMBE**  
A LA U.S.A.  
1/4 cup butter or margarine  
1/4 cup firmly packed brown sugar  
1 1/2 cups crushed crunchy

sweet peanut butter cereal  
2 medium-sized bananas  
1 pint chocolate ice cream  
2 pints vanilla ice cream  
Chocolate syrup

Line a 2 1/2 quart mixing bowl with aluminum foil. Beat butter to soften. Add sugar; beat to blend well. Add 1 cup of the crushed cereal. Pat over bottom and about halfway up the sides of the prepared bowl. Freeze until firm. Beat bananas in small bowl of mixer until mashed. Add chocolate ice cream. Beat just until softened and creamy. Pour into crumb shell. Return to freezer. Beat vanilla ice cream until softened and creamy. Spread over chocolate ice cream in crumb shell, being careful not to go over top of shell. Sprinkle with remaining 1/2 cup crushed cereal. Cover; freeze until firm. To serve, loosen foil and unmold onto chilled plate. Gently remove foil. Cut in wedges and serve with chocolate syrup. Makes 8 servings.

Bombe U.S.A. is a variation on the familiar banana split.

# Easter Ham With Cherries

By CECILY BROWNSTONE  
Associated Press Food Editor

**CHERRY GLAZED HAM**  
1 jar (8 ounces) red maraschino cherries  
1/4 cup firmly packed brown sugar  
Dry mustard  
Fully cooked ham, butt end (about 5 pounds) with rind removed  
1/4 cup cider vinegar  
3 canned pineapple rings, cut in half  
Dash of ground cloves  
1/4 teaspoon cinnamon  
1 tablespoon cornstarch

spoons of the cherry syrup to make a glaze; reserve remaining cherry syrup for later use. Score ham and brush glaze over top; reserve about 2 tablespoons glaze for later use. Set ham in baking pan, add vinegar and 3/4 cup water. Bake in a preheated 325-degree oven for 1 hour. Remove ham from oven, garnish with about half the cherries and all the pineapple; use toothpicks to secure; brush fruit with reserved glaze and bake another 30 minutes.

Transfer ham to serving platter and keep warm. Pour drippings from baking pan into a small bowl and skim off fat. Chop remaining cherries in a small saucepan mix the chop-

ped cherries, 1/4 teaspoon mustard, cloves, cinnamon, remaining cherry syrup and 1/4 cup of the pan juices from which the fat was skimmed. Gradually stir 1/4 cup cold water into cornstarch, keeping smooth; add to saucepan. Bring to a boil, stirring constantly, and cook until clear and thickened. Serve hot with ham.

400 recipes are given in "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order made payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, P.O. Box 64, Teaneck, N.J. 07666.

# Morning Glory Pies

By AILEEN CLAIRE  
NEA Food Editor

Breakfast no-shows will change their minds and tumble out of bed for an Easter morning treat of a Morning Glory Pie. The pie has an orange-sparkled filling of cottage cheese and eggs and it is high in protein. Added is the nutritiousness of the crunchy crust which contains quick or old-fashioned oats. Make pie the day before and chill it thoroughly. Breakfast is ready in no time. Just top with orange segments, banana slices or strawberries and serve with a glass of milk to round out a nutritious breakfast for all.

**MORNING GLORY PIE**  
Crust:  
1/2 cup sifted all-purpose flour  
1/2 cup butter or margarine  
1/2 cup quick or old-fashioned oats, uncooked  
3 tablespoons cold milk

Filling:  
2 cups creamed cottage cheese  
3 eggs  
1/2 cup sugar  
2 tablespoons all-purpose flour  
1 teaspoon orange peel  
1 teaspoon orange juice

Heat oven to 450 degrees. For pastry, sift together flour and salt. Cut in butter until mixture resembles coarse crumbs. Stir in oats. Sprinkle milk by tablespoons over mixture, stirring lightly with a fork until just dampened. Form into a ball. Roll dough out on a lightly floured board or canvas to form a 13-inch circle. Fit loosely into a 9-inch pie plate. Trim; fold edges under and flute. Prick bottom and sides of crust. Bake in preheated 450-degree oven 10 to 12 minutes. Cool. Reduce oven to 350 degrees. For filling, beat cottage cheese on high speed of electric mixer or with rotary beater until fairly smooth. Some tiny lumps will remain. Add remaining ingredients; beat until well blended. Pour into baked crust. Bake in preheated 350-degree oven 45 to 50 minutes or until a knife inserted halfway into the center of the pie comes out clean. Chill. Garnish with fresh orange slices and fresh whole strawberries. Makes 6 servings.

# It's Fun To Make Delicious Ladyfingers From Scratch

By CECILY BROWNSTONE  
Associated Press Food Editor

Ladyfingers are so popular that food markets all over the country carry them. But if you like to cook from scratch, make your own according to the following recipe.

After the ladyfingers are baked you may serve them "as is" or put two together with a favorite frosting. Or you may want to use them as a base for an "icebox" dessert or strawberry shortcake.

**LADYFINGERS**  
1/2 cup sifted cake flour  
3 tablespoons cornstarch  
1/8 teaspoon salt  
3 eggs  
1/2 cup plus 2 tablespoons sugar  
1/2 teaspoon vanilla  
Grease and lightly flour 2 ladyfinger pans (each pan holding 12 shapes and each shape about 4 inches long and 1 1/4 inches wide at narrow middle section)

On wax paper sift together the flour, cornstarch and salt. In small bowl of electric mixer, at medium speed, beat together the eggs, 1/2 cup of the sugar and the vanilla until thick and ivory color. Gradually fold in sifted flour mixture making sure that all dry particles are blended.

Fill each ladyfinger shape in one of the pans with about 2 tablespoons batter — batter will come up to top of shape. Sprinkle 1 tablespoon of the remaining sugar over batter. Keep remaining batter refrigerated while baking first pan; then fill and bake second pan the same way.

Take in a preheated 350-degree oven until a cake tester inserted in center comes out clean — 12 to 15 minutes. Cool slightly, then loosening edges with a small spatula, remove from pan to wire rack to cool completely.

Make about 2 dozen. Note: Recipe may be doubled, in this case use 1/2 cup cornstarch. Makes 4 dozen.

Four hundred recipes are given in the illustrated "Cecily Brownstone's Associated Press Cookbook" available by sending \$4.95 (check or money order made payable to "The Associated Press") to this newspaper in care of AP COOKBOOK, Box 64, Teaneck, N.J. 07666.

# Zinfandel Gains Popularity

By MARY LESTER  
Copley News Service

A dinner seminar with wine featuring all Zinfandel was recently given by the Les Amis du Vin (Friends of Wine), Los Angeles chapter. The Zinfandel tasting met with such success that other chapters of the 72 nationwide are going to emulate. The L.A. branch has even promised its members a repeat in the near future.

Zinfandel is an intriguing wine. Like a human, it can be coarse or cultured, rough or smooth and — keep you guessing. Just as it is definite that the vines originally came from Europe, so it is definite that nobody knows from which part we are certain, however, that Zinfandel grapes were grown and the wine made in Northern California by the 1860s. It was the most popular drink of the old Italian in San Francisco and vicinity.

Twelve years ago I had my first taste of Zinfandel and immediately made it a favorite of the easily available varieties. At that time, Zinfandel was considered by most wine drinkers, buyers and sellers as merely a rather high-class "win ordinaire." Some people, though, thought more highly of Zinfandel. They weren't all Italian wine makers, either. The Mirasol family (French) was producing limited amounts of Zinfandel that were acclaimed and purchased as soon as released.

And, along about then, no less a wine authority and man-of-refined-palate than Frank Schoonmaker, mistakenly purchased for a winery 10,000 gallons of Zinfandel as a Cabernet Sauvignon. In those days, "Zimny" was given very little aging, often had a wild berry flavor, was ruby red and drunk young. Even Frank was not expecting a six-year-old, very dry wine with a slightly brown tinge.

Only in the past year or two has Zinfandel started to "catch on" with the discerning wine public.

# Beef, Chicken Dishes

By SUSAN DELIGHT  
Copley News Service

A little spicing can do wonders for a dish. It can turn it from an unappetizing, ordinary dish into a taste-tempting attention-claiming creation.

Chicken and ground beef featured in recipes which follow demonstrate the point. The distinguishing spices are rosemary, parsley flakes and minced garlic. They are gained by wine, minced onion, tomato paste and tomato.

Oriental Meat Balls gain flavor dividends from garlic, Worcestershire sauce and onion. Other out-of-the-ordinary ingredients are frozen Chinese pea pods, sliced celery and beef broth.

**CHICKEN GENOISE STYLE**  
2 tablespoons olive oil  
6 chicken legs and thighs, disjointed  
1/4 cup dry red wine  
1/4 cups water or chicken broth  
1/4 cup instant minced onion  
1/4 cup tomato paste  
1 1/2 tablespoons parsley flakes  
1/2 teaspoon rosemary leaves, crumbled  
1/4 teaspoon salt  
1/4 teaspoon instant minced garlic  
1-1/8 teaspoon ground black pepper  
1 tomato, sliced

In a large skillet heat oil. Add chicken and saute until golden, about 10 minutes. Drain excess fat from skillet. Pour wine over chicken; cook uncovered, over low heat until wine has evaporated, about 15 minutes. Add remaining ingredients. Continue cooking uncovered, over low heat 20 minutes or until chicken is tender. Add additional water or broth if needed (sauce should be very thick). Yield: four to six portions.

**ORIENTAL MEAT BALLS**  
1 1/2 pounds ground lean beef  
1 cup fine dry bread crumbs  
1 Chinese pea pods  
2 tablespoons cold water  
Lightly combine beef, bread crumbs, garlic, eggs, two tablespoons of the Worcestershire sauce and salt. Shape into 36 balls. In a large skillet heat oil. Add meatballs, a few at a time, and brown on all sides. Stir in remaining onion, tablespoon Worcestershire sauce, beef broth, celery and onion. Bring to boiling point; reduce heat; cover and simmer for 10 minutes. Add pea pods. Cover and simmer 3 minutes longer or until vegetables are crisp-tender. Blend cornstarch with cold water. Stir into liquid in skillet. Cook and stir for one minute or until thickened. Yield: six portions.

# Layer Fires Principals Students March For Redding

By JEAN PATTESON

Defying the Seminole County School Board Wednesday night before more than 300 agitated onlookers, School Supt. Bud Layer repented his intentions to fire two school principals—Jack Redding and Robert Clinkert—and stuck to his guns today as more than 400 students demonstrated in support of Redding outside Layer's office.

On a motion by Stuart Culpepper, and supported by the other four members of the

board gets involved in a lengthy court battle, is powerless to stop him.

The board cannot reverse Layer's decision and name its own principal until prolonged, costly court fights are over. Redding showed up briefly at the start of the demonstration, said that Chief of Police Ben Butler had contacted him as he was leaving town on vacation to seek a new job, and had informed him of the intended demonstration.

Redding said he came to remind the students to behave in the manner in which he expected. "They are ladies and gentlemen," said Redding. "They know how to behave. If they are asked to leave I know they will do it promptly and quietly. I have confidence in every one of them, just as they have confidence in me."

Layer learned that under state law, he has the power to dismiss principals, and unless the

board gets involved in a lengthy court battle, is powerless to stop him.

## Deputies, Officers Stand By

By GARY TAYLOR

More than 50 law enforcement officers, many off-duty, went to the Seminole County Board of Public Instruction office this morning.

Although the demonstration was peaceful, officers from the Sanford Police Department, Seminole County Sheriff's Department and Florida Highway Patrol were ready for any trouble which might have developed.

Sanford Police Chief Ben Butler ordered every off-duty officer from his department to report, while Sheriff John Polk said off-duty deputies who lived nearby were called.

Dozens of plainclothes officers, mostly detectives, patrolled the area around the Commercial Street office, and identifications officers from both departments used camera and video tape equipment to take pictures of the demonstrators.

In addition to the city and county forces, state troopers from the Florida Highway Patrol were on hand, including Lt. N. B. Tharbill, commanding officer of the DeLand District, which includes Seminole County.

Polk, working closely with Butler, handled the operation, and stood outside the school board office with school Supt. Bud Layer.

Polk met with student leaders, both before and after the 45-minute demonstration, and commended them for their peaceful tactics.

## House Grants Majority

TALLAHASSEE, Fla. (AP) — A House committee today approved a bill to give anyone over the age of 18 all the rights of adulthood, including the right to drink liquor and enter into contracts.

The Judiciary Committee voted 4-2 to recommend adoption of the bill which passed the Senate earlier this week.

"We already have given to 18-year-olds the highest rights and privilege of a society — the right to vote," said Rep. Don Tucker, D-Tallahassee, the bill's sponsor. "We also require of them service in the military where they risk their most valuable possession — their life."

"It's important they now have the full privileges and rights of adulthood."

Tucker predicted the bill would sail through the House easily and then into law — or allowed to become law — by Gov. Reubin Askew.

Tucker said he doubted that Askew's testifying views would pose any roadblock. "I don't think the governor is going to impose his religious beliefs on the state of Florida," said Tucker, who also is a non-drinker.

## Weather

Yesterday's high 74 low this morning 39. Generally fair through Friday. High today in the low to mid 70s. Cool again tonight with lows mostly in the mid to upper 60s.

Unusually cold weather frosted much of the East and parts of the South again today while growers assessed damage to fruit and vegetable crops hit by record-low April temperatures Wednesday.

Below freezing temperatures dipped south as far as North Carolina and frost nipped northern Florida.

## Turner Settlement Blasted By SEC

PITTSBURGH, Pa. (AP) — The Securities and Exchange Commission says the proposed settlement of a class action lawsuit against Florida millionaire Glenn Turner and his maze of corporate holdings "suggests imminent violations of securities laws."

Richard Nathan, the SEC's assistant general counsel, made the statement at a hearing before U.S. District Judge Gerald Weber on Weber's proposed settlement, which involves liquidation of Turner's holdings and a stock offer. "So what does the commission plan to do about it?" Weber challenged Nathan.

The SEC attorney said he wanted only to inform the judge that the commission viewed a notice of the proposed settlement as an offer of securities that should be registered and to warn him that some of the language in the notice "invites litigation."

The proposal is scheduled to go out on May 1 to some 75,000 persons who purchased distributorships or invested money in any of Turner's holdings.

Weber asked if he should interpret Nathan's action as a request for an injunction to stop the notices from going out. The SEC attorney replied he was not authorized to make that request.

Specifically, the settlement would provide that all of Turner's holdings be liquidated and the assets, said to be about \$4.7 million, transferred to Candida Holdings.

In return for Turner's assets, Candida would issue 1.8 million shares of stock to be divided proportionally among individuals with claims against Turner.

By John A. Spolski

What really happened last night at the school board meeting? Was it "an exercise in futility?"

I don't think so. As a matter of fact, a number of significant issues evolved.

First of all, I commend all five of the school board members for acting on behalf of their constituents.

Unfortunately, it also provided us with an "eye-opener" to the powers of the superintendent of schools and also the limitations of the school board itself.

Secondly, a great big thank you to all who attended the meeting and "became involved."

Unfortunately, there was a definite fire hazard with the "wall-to-wall" people coverage — sitting, standing and even lying on the floor in the interests of trying to find out what's going on. More disheartening than "not finding out" was the large crowd who attempted to gain entrance to the conference room but were denied the privilege due to lack of adequate space.

Thirdly, it becomes increasingly evident that politics (which should not be a part of the educational system) is at the core of the problem.

Last night's foray forced to the surface what had been suspected — a candidate for the job of superintendent. There is little doubt, notwithstanding the fact that it's three years away, that Jack Redding will be a candidate!

Which brings us back to the roots of the question... exactly (Cont'd On Pg. 2A Col. 1)

## NEWS DIGEST

**HOUSE DEMOCRATIC LEADERS** facing almost certain defeat in their drive for a tough price rollback bill, huddle today in search of a compromise or a temporary extension of existing law.

**FEDERAL TAX PAYING TIME** is at hand but income tax reform is still in the issue stage.

**THE AGRICULTURE DEPARTMENT** says that although the family may prefer a sizzling porterhouse steak, it can obtain the same amount of protein from a handful of dried beans at one-tenth the cost.

**AN ENVIRONMENTAL PROTECTION AGENCY** official says EPA's little-noticed desertion of 1970 nitrogen oxide limits in automobile exhaust is far more significant than its delay in enforcing abatement of two other pollutants.

**DANIEL ELLSBERG** vividly describes his journey to disillusionment in Vietnam. He is expected to tell jurors today how he risked his government career to copy the Pentagon Papers.

**HARRY ROBBINS HALDEMAN** and John Daniel Erickman are no strangers to controversy. With Henry A. Kissinger, they share the distinction of being President Nixon's most powerful assistants.

To hear Layer tell board of dismissals

## Marching Students Want Layer's Reasons

By DONNA ESTES

"Why won't the School board tell us why they are firing Mr. Redding?" one of the more than 400 students from Seminole High School peacefully demonstrating around the school administration office asked this morning as his companions chanted "We want Jack back."

"He treats us equally. It makes no difference to him whether we are black or white. He is color blind, he sees us all as students. He is our friend," a member of the junior class declared.

"He has accomplished something at the school. We have no racial problems now. Mr. Redding held a black awareness day" so we could understand each other better. This is America and a man has the right to know who is accusing him and what he is being accused of. Why won't they tell us what they think he has done wrong so we can explain his reasons?" another asked.

"The young people in a very orderly manner carrying their placards marching through the parking lot behind the school office and around it talked among themselves. "He talks to us — you know what I mean — he communicates. He understands us and our problems are important to him. He respects us and we respect him."

"Is there anything wrong with us liking our principal? Must we have one that we don't like?"

Reforms made under Redding's administration of the school were mentioned over and over again. "He gets us
