WEATHER: Fair and cold with high in the mid-50's today. Fair, not quite so cold tonight. Low tonight 35-42.

VOL. XLIX United Press Leased Wire Established 1908 MONDAY, NOVEMBER 30, 1959 SANFORD, FLORIDA NO. 574

Commission To Discuss New Jail Tomorrow

The possibility of getting a new jail in the county will be discussed at a public hearing tomorrow at 10 a. m. at the county commission's meeting.

The board will consider entering a contract with an architect to draw up plans for the facility and, if necessary, set a tax levy to secure funds for the jail. Estimated cost would be \$700,000.

The commission also will hear views on the plan to include a new courthouse and housing of the

jail in the upper floors.

However, Chairman John Krider indicated that cost of a courthouse will be too great at the present time.

The need for new jail facilities has been stressed time and time again by many officials, including County Judge Wilson Alexander who has gone on record on the need for better jail facilities because of the overcrowded conditions.

At times, especially on weekends, there have been more than 45 persons in the jail and juveniles have

had to be mixed in with hardened criminals.

The report disclosed that \$2,002,500 for the complete plan. However, the county's uncertain financial status brought on by the still overdue taxroll clouded the prospects for a new jail.

Just about every organization and civic group in the county has recommended new jail facilities," Krider said. "Now, we may be able to do something about it."

ing from \$700,000 for a jail to \$2,002,500 for the complete plan. However, the county's uncertain financial status brought on by the still overdue taxroll clouded the prospects for a new jail.

Just about every organization and civic group in the county has recommended new jail facilities," Krider said. "Now, we may be able to do something about it."

Tax Equalization Hearings Opened

About 250 county property owners jammed the county commission chambers at the courthouse for the start of the tax equalization hearings today.

The small room was so overcrowded that Chairman John Krider moved the hearings to the large courtroom.

At the opening of the meeting, Krider told property owners that "everyone will get a chance to speak his piece."

"We will hear all of you. If not today then when we reconvene on Wednesday."

Krider told the large gathering that all complaints must be made in writing and the commission will review all cases after the board has its final meeting.

"If necessary, we will survey all properties in question before making our report," Krider added.

Each of the property owners was given a "complaint" form to fill out. On the form, the owner must give a description of his property, assessed value and full cash value as appraised by the complainant.

All property owners will be notified of the board's findings by mail before the tax bills are mailed out around Dec. 15.

Visitors Acclaim First Art Show Amazing Success

Visitors acclaimed the first art show of the Sanford Art Association as "amazing" and those who voted for their favorite among the workers judged "The Heron," a painting by Marguerite Pope, as outstanding.

An estimated 400 people toured the exhibits at the Civic Center and groups from all over Central Florida attended. They voted a tie for a second place favorite between Georgia Ball's "Communism" and Chester Scott's "Sunset." Polly Brubaker's "The Branding" raised next with the audience.

The Art Association, which only recently completed its organization, was praised by visitors from Orlando, Kissimmee, Daytona Beach and DeBary for the scope and excellence of its first show.

Charter membership in the art association was closed out two weeks ago after the group got its start with individuals working through the city Sanford recreation Dept.

Mrs. Helen Dewit, president, was told by some that the show was "outstanding in the state." Mrs. J. O. Gregory, chairman, and others who planned the show were praised by Mrs. Dewit for their efforts.

"We are really pleased with it for a first effort and hope to do even better," Mrs. Dewit said.

THE FARMERS IMPORTANCE to the national economy was shown in agricultural exhibits at the Florida State and Sanford Atlantic National banks last week. Florida State Bank cashier Roland Wesson, left, and Agricultural Agent Cecil Tucker view Tucker's handiwork. (Staff Photo)

Ike To Discuss 11-Nation Tour

WASHINGTON (UPI) — President Eisenhower will speak to the nation Thursday night just before leaving on his 11-nation tour, the White House announced today. He will discuss both his journey and the steel dispute.

The announcement was made several hours after the President gave congressional leaders of both parties a preview of his good-will tour and received their unanimous "god luck and good speed" for his mission.

Eisenhower will speak from 7:15 to 7:30 p. m. from his office Thursday, then leave immediately on a flight to Rome, the first leg of his 22,370-mile trip. His talk will be carried by all radio and TV networks.

Continuing his preparations for the long journey, Eisenhower met for an hour early this morning with Democratic and Republican leaders of the House and Senate. He told them he would try to further the American aim for a more peaceful world but would undertake no negotiations.

U.S. Slandered Hungary In UN, Leader Charges

VIENNA, Austria (UPI) — Hungarian Communist Party Leader Janos Kadar accused the United States today of inciting a slanderous campaign against Hungary in the United Nations.

Kadar addressed the opening of the seventh Hungarian Communist congress in Budapest before an audience of Red leaders that included Soviet Premier Nikita Khrushchev.

"There was widespread speculation that Khrushchev might use the party meeting to announce the withdrawal of Russian troops who crushed an anti-Communist uprising there in 1956," Kadar said, however, that the Russian troops will remain in Hungary as long as the international situation demands their presence," he said. "Regular threats against the Socialist countries can be heard, therefore we must be prepared."

"The United States has incited a slanderous campaign against Hungary," he said. "We strongly protest against the holding of a debate on the so-called Hungarian question in the United Nations."

The party first stressed that his country's foreign policy is "based on friendship with the Soviet Union."

"Our relations with the United States are most unsatisfactory," Kadar said. "The American diplomats accredited to Budapest

County Approves Art Center Site

The county zoning board has given its approval to a 27-acre tract to be used as a proposed art center and dealer school.

Zoning Director Robert Brown reported.

Brown said the area is located west of Altamonte Springs.

Construction of the facility is expected to start sometime early next year.

The proposed art center south of Hwy. 436 near Spring Lake Rd. will provide outlets for art talents of hundreds of persons, especially those of retirement age, facility developer Harold Walsh has told the board. The center would display samples of local art work, Walsh said.

Fund Drive Hits Over \$27,000 Mark

Seminole County United Fund gifts now total over \$27,000, U.P. Treasurer C. Howard McNulty said this morning.

Small amounts of money are coming in every day and fund leaders hope to end the drive with more than \$30,000 collected, McNulty said.

Top contributors so far are Odham and Tudor, that gave \$3,412; the Sanford Naval Air Station, \$2,313.64; the Sanford Atlantic and Florida State Banks, and Chase and Co. each of which gave \$500.

Altamonte Springs is the only county or division which went over its goal.

Haiti Offers U. S. Navy Base

CHICAGO (UPI) — The United States was invited Sunday night by a Haitian official to set up a naval base in his country if it is forced by Cuba to give up its base at Guantanamo Bay.

Arthur Bonhomme, the Haitian Senate's majority leader and chairman of its foreign affairs committee, said he had made such a recommendation to President Franklin D. Roosevelt. Bonhomme spoke before a meeting of the Full Gospel Mens Fellowship Assn.

Pope Asks Cubans Keep Traditions

HAVANA (UPI) — More than a million Roman Catholics, including Premier Fidel Castro, turned out in the rain Sunday to hear a message from Pope John XXIII urging Cuba to cling to its religious traditions.

The mass meeting in Civic square hailed by Havana newspapers as the most impressive demonstration of faith in Cuban history, opened a church congress here.

Insurance Man To Run For Post

TALLAHASSEE (UPI) — Tallahassee insurance executive Howell C. Collins formally announced today he will run for secretary of state next year.

Collins became the second person to announce for the wide open race for the office which will be left vacant when veteran R. A. Gray retires. The other announced candidate is Edward G. Hornsby, Tallahassee auditor.

Collins never has made a statewide race, but Hornsby ran unsuccessfully against Gray last time.

He said in the near future he would announce his platform.

Final 1959 Space Probe By U.S. Set

CAPE CANAVERAL (UPI) — Scientists are preparing this nation's final space rocket for a mid-December shot described as one of the biggest yet undertaken by American research.

If all goes as planned, the shot into deep space will give President Eisenhower's European and Asian tour—which starts Thursday—the same kind of prestige that Soviet Premier Nikita Khrushchev got from the Russian moon shot before his trip to the United States.

America's last big chance for 1959 rests with a Thor-Able IV rocket, only one-fifth as powerful as the big Russian space rockets.

The Thor-Able will carry a small payload which scientists hope will escape earth's gravity and cross into the orbit of the planet Venus 25 million miles closer to the sun. The man-made planetoid will carry a radio "voice" to send back information from as far away as 50 million miles.

This is more than 100 times farther than America's one sun satellite, Pioneer IV, launched last March 3, was able to transmit. Russia also has one satellite in orbit around the sun, Lunik I launched Jan. 2, 1959.

The probe will study communications at interplanetary ranges in preparation for later shots to Venus and Mars. It also will relay information about conditions in space such as solar radiation.

Beyond, the deep space probe, America's research future is a bit clouded. Critics of this country's current progress in the space race are putting pressure on the administration for a speedup, and at least one official hinted during the weekend that the government is considering an early attempt to orbit the moon.

In a television program Sunday, associate director Richard Horn

Temperature Down To 35 In County, But Crops Appear To Escape Damage

The blistering cold wave that whipped across Seminole County yesterday and this morning was not severe enough to hurt citrus groves here, County Agent Cecil Tucker reported.

Tucker starting making an inspection tour on the citrus crops today but said temperatures would have to dip below 30 degrees for any harm to come to the county's citrus industry.

Tucker reported that it was still too early to tell what the cold did to the county's vegetable crops.

After a brief inspection tour, Tucker said in some places vegetables were tender but not too much damage was inflicted.

"We'll know more about the damage in a few days," he said.

The Central Florida Experiment Station reported that temperatures this morning dipped to 35 degrees but warmer weather is forecast for tonight and tomorrow.

Tucker said last night's high winds aided citrus crops. He urged all growers in the county to bank their young trees "immediately" to prevent any severe damage to the industry.

He also urged homeowners to cover all plants in yards in case the cold spell should continue the next few days.

"The way it looks now, there won't be any serious damage to this year's crop," Tucker said, adding, "especially if warmer weather should set in as forecast."

Freezing Cold Snap Whips Into State

LAKELAND (UPI) — The worst cold since the damaging winter of 1937-38 brought freezing temperatures to Florida as far south as Lake Okechobee today.

Tender vegetable crops were damaged but the big citrus industry escaped almost untouched.

Tallahassee recorded the lowest temperature of 24. Record lows for the date were 29 at Tampa and 32 at Miami.

Even at Key West, far south and surrounded by the tepid waters of the Gulf of Mexico, the mercury dropped to 49.

Warren Johnson, chief forecaster for the Federal State Frost Service, said almost all the unharvested vegetables in north Florida were ruined. But the major part of the crop in that section of the state already had been harvested.

Johnson said there was spot damage to vegetables in the Orlando district, including even the hardy crops in the mucklands.

Fern nurseries, a big crop in the Orlando district, were mostly heated to escape the freeze.

There was some heating of groves in the major citrus growing districts of central Florida but wind kept down the frost and first reports indicated very little damage.

Johnson said the worst damage might have occurred in the lush vegetable growing regions around Lake Okechobee. He said it would be some time before the damage to such crops as beans, which might have lost their blooms, can be assessed.

Damage to truck crops in the Immokalee area was heavy, Johnson said.

The blurt was suffered by tender vegetables such as tomatoes, squash and cucumbers, he reported. Johnson added that quite a bit of heating was done in the fields in this area.

The lower east coast area "apparently came through all right," he said.

There was spotted damage to strawberries around Plant City, he said even without frost, it was cold enough long enough to freeze some.

Minimum temperatures were in

the mid-20's across extreme north Florida with the lowest of 24 at Tallahassee.

Temperatures were in the upper 20's to lower 30's in central Florida and in the upper 30's and low 40's in the extreme south.

The Weather Bureau warned of frost in the interior of the north part of the state Monday night but a general warmup was expected. A low of 28 to 45 was predicted for the north tonight except 28 in the interior and lows in the 30's and 60's were forecast for the east coast and Keys.

Season's First Big Snow Hits Southeast

United Press International

The first big snow of the season in the Southeast sent skiers and sightseers flocking to the mountain areas, but a gradual warmup was promised for most of Dixie.

Snow and ice on highways in East Tennessee and western North Carolina made driving dangerous. But officials at Gatlinburg, Tenn., reported hundreds of motorists drove into the Great Smoky Mountains National Park Sunday to watch the snowfall.

The temperature failed to rise out of the 20s in some sections of Tennessee, southwest Virginia

Six Fires Keep Firemen Busy During Weekend

Cold weather brought six fires to Sanford during the weekend as heating equipment was fired up to meet the chill weather.

Two houses burned yesterday afternoon at 804 and 810 Ma's Ave. A defective oil stove caused the blaze, which made a total loss of the 810 address and heavily damaged the 804 home. Fire Chief Mack Cleveland Sr. said.

An apartment at 1300's Magnolia Ave. was damaged by flames at 9:10 p. m. yesterday, but firemen saved the main house from harm. A home at 1309 W. Seventh St. was slightly burned about 10:40 p. m. when a defective flu caused a fire. Train burned at 25th St. and Oak Ave. at 8:18 p. m. but there was no damage. A couch set ablaze by a cigarette resulted in the burning of a frame house at 11th St. and Mulberry Ave. just after midnight Saturday.

Chief Cleveland warned people to check their heating equipment, especially if they are using it for the first time this season. Heaters should be checked when leaving home for any length of time, the chief cautioned.

Senate Payrolls Open To Public

WASHINGTON (UPI) — The Senate listed its secrecy lid on its payrolls today, making the data open for public inspection for the first time since 1948.

A breakdown of the names of every employee, job titles and salaries paid was published by Senate Secretary Robert A. Brankworth.

A resolution adopted in the last session in the wake of "nepotism" disclosures on Capitol Hill required listing of individual salaries four times a year. Vance Trimble, Scripps-Howard Washington correspondent who broke the "nepotism" stories, was denied access to Senate payroll records.

The data throw open to inspection today covered the period from July 1 through Sept. 30.

The House has made such information public regularly in the past. It was this information that brought to light the fact a number of House members had relatives on their government-paid office payrolls.

County Set To Get School Funds Soon

County school superintendent R. T. Milwee said today that he expects the county to receive the first installment of \$25,551 in state matching funds within two weeks.

The first installment from the state will be used for the Lake Mary and Roosevelt Elementary School building projects. The money to be matched by the county with funds from last March's \$3 million bond issue will be used for county school building projects as it is given in state payments.

Milwee said he had to make some amendments in the application forms before sending them in.

Boosters Barbecue Date Is Changed

The Seminole High Boosters Club barbecue for Seminole football players will be held Wednesday instead of Tuesday. The original barbecue time of 7 p. m. tomorrow conflicted with a high school music recital so the feast will be at the same time Wednesday at the Elk's Club.

City Tax Discount Deadline Today

Today is the last day for Sanford residents to get a four per cent discount on their city taxes by paying them during November.

Tax collector Ellen Hoy said Friday that she expects a crowd to visit City Hall before 3 p. m. to take advantage of the discount.

Taxes collected through Wednesday on real and personal property totaled \$168,718.12 from 3,375 receipts. This compares favorably with the amount collected at the same time last year, Miss Hoy said. A three per cent discount will be given persons who pay their city taxes during December.

Health Official To Enter Hospital

Mrs. Lorraine Graham, executive secretary of the T.B. and health association will enter Orange Memorial Hospital for treatment tomorrow. The health association office will be open from 1 to 4:30 p. m. during the next few days.

Fire Chief Urges Fund Drive Aid

Sanford Fire Chief Mark Cleveland Sr. today urged county contributions to the Muscular Dystrophy drive now in progress.

More than 11,000 envelopes have been distributed throughout the county, Cleveland said. Donors may put their donations in the envelopes and give them to the mailman or may bring the gift to the Sanford firehouse where they will get a receipt, the chief said. No postage is necessary on the Muscular Dystrophy envelopes.

Naval Air Chief To Attend Derby

Vice Admiral Robert B. Pirie, deputy chief of naval operations (air), will attend the Bombing Derby at the Sanford Naval Air Station.

Admiral Pirie, who holds the top aviation job in the Navy, confirmed his attendance in a letter to Capt. James D. Ramage, commander of Heavy Attack Wing One. He is expected to arrive in time to witness the A1D vs. A1D loft bombing contest Dec. 11 and remain for the Carrier Airman Competition, Air Shows, Awards Ceremony and Sanford's Navy Appreciation Day festivities.

Troops Praised

PANAMA CITY (UPI) — U. S. authorities praised Panamanian troops today for the quick action which curbed Saturday night's anti-American rioting by unruly teenagers waving Fidel Castro placards.

Santa On A Jet

Santa Claus, the star of the annual Christmas Parade scheduled Friday afternoon in Sanford will arrive from the North Pole by A3D jet.

Jack Wilber, chairman of the parade, said the jet is expected to arrive at the Sanford Naval Air Station at 2:45 p. m.

Santa will be escorted into town by jaycees and Sanford police.

The parade is scheduled to start at 4 p. m.

VOL. XLIX United Press Leased Wire Established 1908 MONDAY, NOVEMBER 30, 1959 SANFORD, FLORIDA NO. 574

Commission To Discuss New Jail Tomorrow

The possibility of getting a new jail in the county will be discussed at a public hearing tomorrow at 10 a. m. at the county commission's meeting.

The board will consider entering a contract with an architect to draw up plans for the facility and, if necessary, set a tax levy to secure funds for the jail. Estimated cost would be \$700,000.

The commission also will hear say views on the plan to include a new courthouse and housing of the

jail in the upper floors.

However, Chairman John Krider indicated that cost of a courthouse will be too great at the present time.

The need for new jail facilities has been stressed time and time again by many officials, including County Judge Wilson Alexander who has gone on record on the need for better jail facilities because of the overcrowded conditions.

At times, especially on weekends, there have been more than 45 persons in the jail and juveniles have

had to be mixed in with hardened criminals.

During an October meeting of the county commissioners, R. P. McLondon, state prison inspector, cited obsolete and inadequate facilities at the jail.

The report disclosed that "serious deterioration" is in evidence throughout the building, plus poor security and sanitation.

Cost estimates for the new jail and courthouse were received by the commission Aug. 18 with alternative construction proposals ranging from \$700,000 for a jail to \$2,002,500 for the complete plan.

However, the county's uncertain financial status brought on by the still overdue taxroll clouded the prospects for a new jail.

"Just about every organization and civic group in the county has recommended new jail facilities," Krider said. "Now, we may be able to do something about it."

Tax Equalization Hearings Opened

About 250 county property owners jammed the county commission chambers at the courthouse for the start of the tax equalization hearings today.

The small room was so overcrowded that Chairman John Krider moved the hearings to the large courtroom.

At the opening of the meeting, Krider told property owners that "everyone will get a chance to speak his piece."

"We will hear all of you. If not today then when we reconvene on Wednesday."

Krider told the large gathering that all complaints must be made in writing and the commission will review all cases after the board has its final meeting.

"If necessary, we will survey all properties in question before making our report," Krider added.

Each of the property owners was given a "complaint" form to fill out. On the form, the owner must give a description of his property, assessed value and full cash value as appraised by the complainant.

All property owners will be notified of the board's findings by mail before the tax bills are mailed out around Dec. 15.

Ike To Discuss 11-Nation Tour

WASHINGTON (UPI) — President Eisenhower will speak to the nation Thursday night just before leaving on his 11-nation tour, the White House announced today. He will discuss both his journey and the steel dispute.

The announcement was made several hours after the President gave congressional leaders of both parties a preview of his good-will tour and received their unanimous "good luck and God-speed" for his mission.

Eisenhower will speak from 7:15 to 7:30 p. m. from his office Thursday, then leave immediately on a flight to Rome, the first leg of his 22,370-mile trip. His talk will be carried by all radio and TV networks.

Continuing his preparations for the long journey, Eisenhower met for an hour early this morning with Democratic and Republican leaders of the House and Senate. He told them he would try to further the American aim for a more peaceful world but would undertake no negotiations.

Fund Drive Hits Over \$27,000 Mark

Seminole County United Fund gifts now total over \$27,000, UP Treasurer C. Howard McNulty said this morning.

Small amounts of money are coming in every day and fund leaders hope to end the drive with more than \$30,000 collected, McNulty said.

Top contributors so far are Odham and Tudor, that gave \$3,412; the Sanford Naval Air Station, \$2,313.60; the Sanford Atlantic and Florida State Banks, and Chase and Co. each of which gave \$500.

Allamore Springs is the only community or division which went over its goal.

Insurance Man To Run For Post

TALLAHASSEE (UPI) — Tallahassee insurance executive Howell C. Collins formally announced today he will run for secretary of state next year.

Collins became the second person to announce for the wide-open race for the office which will be left vacant when veteran R. A. Gray retires. The other announced candidate is Edward G. Hornsby, Tallahassee auditor.

Collins never has made a statewide race, but Hornsby ran unsuccessfully against Gray last time.

He said in the near future he would announce his platform.

Visitors Acclaim First Art Show Amazing Success

Visitors acclaimed the first art show of the Sanford Art Association as "amazing" and those who voted for their favorite among the workers judged "The Heron," a painting by Marguerite Pope, as outstanding.

An estimated 400 people toured the exhibits at the Civic Center and groups from all over Central Florida attended. They voted a tie for a second place favorite between Georgia Ball's "Communism" and Chester Scott's "Sunset." Polly Brubaker's "The Branding" rated next with the audience.

The Art Association, which only recently completed its organization, was praised by visitors from Orlando, Kissimmee, Daytona Beach and Delray for the scope and excellence of its first show.

Charter membership in the art association was closed out two weeks ago after the group got its start with individuals working through the city Sanford recreation Dept.

Arthur Bonhomme, the Haitian Senate's majority leader and chairman of its foreign affairs committee, said he had made such a recommendation to President Franklin D. Roosevelt. Bonhomme spoke before a meeting of the Full Gospel Mens Fellowship Assn.

Final 1959 Space Probe By U.S. Set

CAPE CANAVERAL (UPI) — Scientists are preparing this nation's final 1959 space rocket for a mid-December shot described as one of the biggest yet undertaken by American research.

If all goes as planned, the shot into deep space will give President Eisenhower's European and Asian tour—which starts Thursday—the same kind of prestige that Soviet Premier Nikita Khrushchev got from the Russian moon-shot before his trip to the United States.

America's last big chance for 1959 rests with a Thor-Able IV rocket, only one-fifth as powerful as the big Russian space rockets.

The Thor-Able will carry a small payload which scientists hope will escape earth's gravity and cross into the orbit of the planet Venus, 25 million miles closer to the sun. The man-made planetoid will carry a radio "voice" to send back information

THE FARMER'S IMPORTANCE to the national economy was shown in agricultural exhibits at the Florida State and Sanford Atlantic National banks last week. Florida State Bank cashier Roland Wesson, left, and Agricultural Agent Cecil Tucker view Tucker's handiwork. (Staff Photo)

U.S. Slandered Hungary In UN, Leader Charges

VIENNA, Austria (UPI) — Hungarian Communist Party Leader Janos Kadar accused the United States today of inciting a slanderous campaign against Hungary in the United Nations.

Kadar addressed the opening of the seventh Hungarian Communist congress in Budapest before an audience of local leaders that included Soviet Premier Nikita Khrushchev.

There was widespread speculation outside Hungary that Khrushchev might use the party meeting to announce the withdrawal of Russian troops which crushed an anti-Communist uprising there in 1956.

Kadar said, however, that the Russian troops would stay.

"The Soviet troops will remain in Hungary as long as the international situation demands their presence," he said. "Regular threats against the Socialist countries can be heard, therefore we must be prepared."

"The United States has incited a slanderous campaign against Hungary," he said. "We strongly protest against the holding of a debate on the so-called Hungarian question in the United Nations."

The party first stressed that its country's foreign policy is "based on friendship with the Soviet Union."

"Our relations with the United States are most unsatisfactory," Kadar said. "The American diplomats accredited to Budapest

have neglected undertaking any measures to improve this situation during the past two years. This certainly is according to their government's orders."

Khrushchev makes a major address to the congress Tuesday and Western political observers said he may take advantage of the United Nations debate on Hungary to announce a troop withdrawal in line with his new "peace offensive."

Khrushchev flew into Budapest from Moscow with none of the fanfare which surrounded his trip to Washington and Communist China to attend the Hungarian Communist Party's first congress since the anti-Communist uprising in 1956.

The fireworks could come in what the Communists called his "very important" speech Tuesday.

Naval Air Chief To Attend Derby

Vice Admiral Robert R. Pirie, deputy chief of naval operations (air), will attend the Bombing Derby at the Sanford Naval Air Station.

Admiral Pirie, who holds the top aviation job in the Navy, confirmed his attendance in a letter to Capt. James D. Ramage, commander of Heavy Attack Wing One. He is expected to arrive in time to witness the A3D vs. A1J10ft bombing contest Dec. 11 and remain for the Carrier Airship Competition, Air Show, Awards Ceremony and Sanford's Navy Appreciation Day festivities.

More than 11,000 envelopes have been distributed throughout the county, Cleveland said. Donors may put their donations in the mailman or give them to the mailman or may bring the gift to the Sanford firehouse where they will get a receipt, the chief said. No postage is necessary on the Muscular Dystrophy envelopes.

Troops Praised

PANAMA CITY (UPI) — U. S. authorities praised Panamanian troops today for the quick action which curbed Saturday night's anti-American rioting by unruly teenagers waving Fidel Castro placards.

Temperature Down To 35 In County, But Crops Appear To Escape Damage

The blistering cold wave that whipped across Seminole County yesterday and this morning was not severe enough to hurt citrus groves here, County Agent Cecil Tucker reported.

Tucker starting making an inspection tour on the citrus crops today but said temperatures would have to dip below 30 degrees for any harm to come to the county's citrus industry.

Tucker reported that it was still too early to tell what the cold did to the county's vegetable crops.

After a brief inspection tour, Tucker said in some places vegetables were tender but not too much damage was inflicted. "We'll know more about the damage in a few days," he said.

The Central Florida Experiment Station reported that temperatures this morning dipped to 35 degrees but warmer weather is forecast for tonight and tomorrow.

Tucker said last night's high winds aided citrus crops. He urged all growers in the county to bank their young trees "immediately" to prevent any severe damage to the industry.

He also urged homeowners to cover all plants in yards in case the cold spell should continue the next few days.

"The way it looks now, there won't be any serious damage to this year's crop," Tucker said, adding, "especially if warmer weather should set in as forecast."

Freezing Cold Snap Whips Into State

LAKELAND (UPI) — The worst cold since the damaging winter of 1937-38 brought freezing temperatures to Florida as far south as Lake Okechobee today.

Tender vegetable crops were damaged but the big citrus industry escaped almost untouched.

Tallahassee recorded the lowest temperature of 24. Record lows for the date were 20 at Tampa and 40 at Miami.

Even at Key West, far south and surrounded by the tepid waters of the Gulf of Mexico, the mercury dropped to 40.

Warren Johnson, chief forecaster for the Federal State Frost Service, said almost all the unharvested vegetables in north Florida were ruined. But the major part of the crop in that section of the state already had been harvested.

Johnson said there was spot damage to vegetables in the Orlando district, including even the hardy crops in the mucklands.

Fern nurseries, a big crop in the Orlando district, were mostly heated to escape the freeze.

There was some heating of groves in the major citrus growing districts of central Florida but wind kept down the frost and first reports indicated very little damage.

Johnson said the worst damage might have occurred in the lush vegetable growing regions around Lake Okechobee. He said it would be some time before the damage in such crops is known, which might have lost their bloom, can be assessed.

Damage to truck crops in the Immokalee area was heavy, Johnson said.

The brunt was suffered by tender vegetables such as tomatoes, squash and cucumbers, he reported. Johnson added that quite a bit of heating was done in the fields in this area.

The lower east coast area "apparently came through all right," he said.

There was spotted damage to strawberries around Plant City. He said even without frost, it was cold enough long enough to freeze some berries.

Minimum temperatures were in:

Senate Payrolls Open To Public

WASHINGTON (UPI) — The Senate lifted the secrecy lid on its payrolls today, making the data open for public inspection for the first time since 1948.

A breakdown of the names of every employee, job titles and salaries paid was published by Senate Secretary Robert A. Brankworth.

A resolution adopted in the last session in the wake of "nepotism" disclosures on Capitol Hill required listing of individual salaries four times a year. Vance Trimble, Scripps-Howard Washington correspondent who broke the "nepotism" stories, was denied access to Senate payroll records.

The data throw open to inspection today covered the period from July 1 through Sept. 30.

The House has made such information public regularly in the past. It was this information that brought to light the fact a number of House members had relatives in the government - paid office payrolls.

Fire Chief Urges Fund Drive Aid

SANFORD FIRE CHIEF Mack Cleveland Sr. today urged county contributions to the Muscular Dystrophy drive now in progress.

the mid-20's across extreme north Florida with the lowest of 24 at Tallahassee.

Temperatures were in the upper 20's to lower 30's in central Florida and in the upper 30's and low 40's in the extreme south.

The Weather Bureau warned of frost in the interior of the north part of the state Monday night but a general warmup was expected. A low of 38 to 45 was predicted for the north tonight except 28 in the interior and lows in the 30's and 60's were forecast for the east coast and Keys.

Season's First Big Snow Hits Southeast

United Press International

The first big snow of the season in the Southeast sent skiers and sightseers flocking to the mountain areas, but a gradual warmup was promised for most of Dixie.

Snow and ice on highways in East Tennessee and western North Carolina made driving dangerous. But officials at Gatlinburg, Tenn., reported hundreds of motorists drove into the Great Smoky Mountains National Park Sunday to watch the snowfall.

The temperature failed to rise out of the 20s in some sections of Tennessee, southwest Virginia

and the Carolinas Sunday. It brought death to K.

Three Negro children burned to death at Southern Pines, N. C. when flames destroyed their frame home.

Snow drifts as deep as 25 inches were reported in the Smoky Mountains where a low reading of five degrees was reported at Newfound Gap, Tenn. About 300 cars slipped off ice roads in the park, but no injuries were reported.

It was an cold at Magee, Miss., Saturday night that when Billy Joe Layton, 19, of Mendenhall took Kay Deik to a drive-in movie he left the motor of his car running so the heater would operate. After the movie was over and other cars had left, Wierdala noted Layton's car stayed on the lot. They found Layton dead from carbon monoxide poisoning, and Miss Deik unconscious.

Fair and cold weather with slowly rising temperatures was promised for most of the South, but some snow flurries were expected in the mountains along Dixie's northern border.

Six Fires Keep Firemen Busy During Weekend

Cold weather brought six fires to Sanford during the weekend as heating equipment was fired up to meet the chill weather.

Two houses burned yesterday afternoon at 800 and 810 Ma' Ave. A defective oil stove caused the blaze. It made a total loss of the 810 address and heavily damaged the 800 home. Fire Chief Mack Cleveland Sr. said.

An apartment at 1200's Magnolia Ave. was damaged by flames at 9:40 p. m. yesterday, but firemen saved the main house from harm. A home at 1307 W. Seventh St. was slightly burned about 10:40 p. m. when a defective flu caused a fire. Trash burned at 25th St. and Oak Ave. at 8:10 p. m. but there was no damage. A couch set ablaze by a cigarette resulted in the burning of a frame house at 11th St. and Mulberry Ave. just after midnight Saturday.

Chief Cleveland warned people to check their heating equipment, especially if they are using it for the first time this season. Heaters should be checked when leaving home for any length of time, the chief cautioned.

City Tax Discount Deadline Today

Today is the last day for Sanford residents to get a four per cent discount on their city taxes by paying them during November.

Tax collector Ellen Hoy said Friday that she expects a crowd to visit City Hall before 5 p. m. to take advantage of the discount.

Taxes collected through Wednesday on real and personal property totaled \$198,712 from 2,375 receipts. This compares favorably with the amount collected at the same time last year, Miss Hoy said. A three per cent discount will be given persons who pay their city taxes during December.

County Set To Get School Funds Soon

County school superintendent R. T. Milwee said today that he expects the county to receive the first installment of \$235,581 in state matching funds within two weeks.

The first installment from the state will be used for the Lake Mary and Rosenwald Elementary School building projects. The money to be matched by the county with funds from last March's \$3 million bond issue will be used for county school building projects as it is given in state payments.

Milwee said he had to make some amendments in the application forms before sending them in.

Boosters Barbecue Date Is Changed

The Seminole High Boosters Club barbecue for Seminole football players will be held Wednesday instead of Tuesday. The original barbecue time of 7 p. m. tomorrow conflicted with a feast school music recital so the feast will be at the same time Wednesday at the Elk's Club.

Health Official To Enter Hospital

Mrs. Lorraine Graham, executive secretary of the T. B. and health association will enter Orange Memorial Hospital for treatment tomorrow. The health association office will be open from 1 to 4:30 p. m. during the next few days.

Santa On A Jet

Santa Claus, the star of the annual Christmas Parade scheduled Friday afternoon in Sanford will arrive from the North Pole by A3D jet.

Jack Wilber, chairman of the parade, said the jet is expected to arrive at the Sanford Naval Air Station at 3:45 p. m.

Santa will be escorted into town by Jaycees and Sanford police.

The parade is scheduled to start at 4 p. m.

Yule Contest Entries Got Added Incentive

Entries in this year's Christmas lighting display contest will also be eligible to enter General Electric's giant national contest.

Dave Laude, Jaycee chairman of the contest reported today that winners in the local contest may be entered in a \$500 first place contest sponsored by General Electric.

On the local level, some \$140 in prizes will be awarded in four categories in the contest slated to begin the eve of Dec. 22.

The four categories are religious, traditional, artistic and overall decoration.

JAYCEE CHRISTMAS LIGHTING CONTEST BLANK

Mail to: Contest Chairman
Jaycee Information Building
Sanford, Florida, Box 33

GENERAL RULES:

1. Entries must be located in the Sanford Area (contact Information Building for limits).
2. Contestants may enter Residential or Commercial classification or both. Separate entry blanks are required for each entry.
3. Only one division may be entered under the Residential classification. All Residential entries will be eligible for Division No. 4.
4. Entries must be mailed or brought to the Jaycee Bldg., on French Ave., by noon Dec. 22, 1959.
5. Contestants are requested to keep displays lighted nightly between 7:30 and 9:30 p. m. until winners are announced to allow judges ample time to check all entries. (Check classification and division)

RESIDENTIAL:

Division Prizes: 1st place - \$25 U. S. Savings Bond
2nd place - 10 Silver Dollars

Division No. 1: Religious Setting
(Nativity, etc.)

Division No. 2: Traditional Setting
(Santa Claus, etc.)

Division No. 3: Artistic Setting (Lights, trees, windows, doorways, etc.)

Division No. 4: Best over-all decorations automatic

COMMERCIAL:

Includes Doorways, Show Windows, Bldgs., or all

Prizes: Possession of the Florida Power & Light Traveling Trophy for one year.

Red China Indian Ambassador Claims U. S. Kidnaped Official

NEW DELHI, India (UPI) — Prime Minister Jawahar Nehru said today the Chinese Communist ambassador in New Delhi had complained officially that the U. S. consulate in Bombay had kidnaped a Chinese National.

However, in a speech to Parliament Nehru refused to comment on the Bombay incident except to say that both the American and Chinese Communist versions of the incident were contradictory and "appear to be some kind of fiction."

He said he had informed both embassies not to let the persons involved to leave the country.

Red China's official protest today followed Peiping radio charges that American consular officials in Bombay had kidnaped a Chinese official. Both were direct contradictions of American protests the Reds held an American Marine sergeant prisoner for six hours Thursday.

A statement by the Chinese Communist foreign office broadcast by Peiping radio said American accounts of the incident "reversed right and wrong." It said the Americans had "killed" and assumed the United States of previous kidnap incidents.

The incident occurred last Thursday when Marine Sgt. Robert Armstrong, 30, of Los Angeles,

Calif., was seized by the Communists, dragged into the consulate and held for six hours. The United States issued a strong protest and asked the Indian government to act in the case.

Today's Chinese statement did not mention a second incident alleged to have happened in Bombay on Saturday when the Reds attacked an American messenger and tried to steal coded diplomatic telegrams. This second incident was under investigation and a statement was expected soon from the U. S. government.

Senate Group To Open Hearing Of Age Problems

MIAMI (UPI) — A Senate Subcommittee will open a two-day hearing here Tuesday on problems of the aged and aging.

Prior to the meeting, the Dade County Welfare Planning Council set today aside to hear from various citizens groups on living conditions of elderly persons here.

The Senate group, headed by Sen. Pat McNamara (D-Mich.) will look into such areas as employment, income, housing and health of senior citizens.

New Boat Building Construction Starts

A new building for manufacturing boat trailers will be finished on Laurel Ave. in two weeks, Sanford trailer manufacturer Robert E. Mitchell said today.

The \$4,200, concrete block, 20 x 80 foot building was started Monday, 11. 1. Andrews is building the 33 Laurel Ave. structure. Mitchell has been in the boat trailer manufacturing business for a year. He and his son Robert M. Mitchell started to produce the trailers last January as a hobby.

CHURCHILL, on his 85th birthday today still is lively and active in British politics as he frequently sits in on sessions of parliament. If Sir Winston lives until 1964, he will pass the longevity record for England's prime ministers held by William Gladstone, who died at the age of 89. His secretary reported "he's in the best of spirits" on his birthday.

1960 Issues May Be Decided On Ike, Khrushchev Talks And Steel Strike

MIAMI (UPI) — Sen. Stuart Symington of Missouri, a leading Democratic possibility for president, says the election will be decided by the results of the Eisenhower-Khrushchev talks and the steel strike.

Symington said in an interview Saturday the results will probably favor his party.

He said cold war tensions increased rather than decreased after the Geneva talks. And he said the nation's pocketbook has been hurt by the long steel strike.

"If as a result of the Eisenhower-Khrushchev talks and the summit conference, world tensions are eased appreciably then I believe the political issues of the campaign would shift and domestic issues would become dominant," Symington said.

Symington put much of the blame for Russia's lead in the space race on the President.

"We not only are falling behind but we are falling farther behind," he said.

Symington said he would propose to Congress that a special supervisor be named to handle outer space activities.

Navy Balloonist Hurt In Landing

BLAINE Kan. (UPI) — A veteran Navy balloonist was injured slightly Sunday in the rough landing of a balloon that had carried two men 13 miles high for a closer look at Venus, but he was expected to be on his feet again today.

Commander Malcolm Ross suffered shock when the gondola ripped loose from the big plastic balloon, struck a fence on a country road and toppled over. His companion, D. Charles B. Moore, was unhurt, but both men were hospitalized overnight for fatigue.

Ross and the Cambridge, Mass., scientist had spent 27 hours aloft in a gondola packed with scientific and photographic equipment in an effort to determine whether the planet Venus has water vapor in its atmosphere. If it does, then the possibility arises that the planet has vegetable and perhaps some sort of "animal" life.

The redwood trees of California secrete poisonous substances which are deadly to the insects upon which birds normally feed. Hence, there are no birds.

Newcomer Shares Top Record Honors With 'Old Pro'

BEVERLY HILLS, Calif. (UPI) — Newcomer Bobby Darin, sharing honors with the old pro Frank Sinatra in the annual Grammy awards, said today "I hope to pass Frank in everything he's done."

Darin, 23, the cocky and confident current singing idol among the teen-age set, won two Grammys Sunday night—the same number won by Sinatra, 41, the season king of the 1950s in the second annual National Academy of Recording Arts and Sciences awards program.

"I hope to have an Oscar and an Emmy some day to go along with these Grammy awards," said Darin. "I'm anxious to prove this isn't a one-shot success."

The handsome singer won as the best new artist of the year and as singer of the hit tune "Mack the Knife." The song was named best record of the year.

Sinatra was awarded a Grammy for giving the best male vocal performance of the year with his version of "Come Dance With Me." The album "Come Dance With Me" was voted the best of the year and brought Sinatra his other award.

Crime Up In U. S., Hoover Reports

WASHINGTON (UPI) — FBI Director J. Edgar Hoover reported today that vicious crimes such as murder, rape, stabblings and violent assault are on the increase throughout the nation.

Hoover declared that these terrorist crimes have risen seven per cent in the first nine months of this year even though the overall crime statistics dipped one per cent for the same period of 1958.

Using figures reported by cities of more than 25,000 population the FBI chief stressed that murder showed an increase of four per cent through September; forcible rape, five per cent, and aggravated assault, seven per cent.

Only a decrease in "crimes against property such as larcenies, burglaries and auto thefts offset the increase in 'crimes against persons,'" Hoover said. He termed the over-all one per cent general decrease "almost insignificant."

Of non-violent crimes, Hoover said reports for the first nine months of the year showed a seven per cent decrease in robberies, two per cent in burglaries, one per cent in auto theft, and one per cent in larcenies over 500.

But Hoover said: "Violent assaults against the person continue their upward climb."

A breakdown of crime statistics for 134 cities of more than 100,000 population showed New York and Chicago led the list of murder cities.

New York reported 308 cases of murder, Chicago, 297; Philadelphia, 91; Los Angeles and Houston, 80 each; Detroit, 84.

Los Angeles had the highest number of rape cases—743. New York reported 581; Philadelphia, 483; Chicago, 441, and Detroit 198.

For aggravated assault, Hoover listed these statistics: New York, 6,958; Los Angeles, 4,950; Detroit, 3,560; Philadelphia, 3,343; Chicago, 3,243.

Postmaster Urges 'Start Christmas Mailing Now'

"It's time to start those Christmas mailings!"—Postmaster Joel S. Field said today. "On the calendar Christmas is a month away, but here in the post office it's Christmas every day from now on."

"Actually, to get all of the Christmas gifts and cards delivered on time is largely a matter of advance planning and preparation that should be done this week," the Postmaster pointed out.

"Don't take chances on mailing poorly wrapped packages," he said. "Use sturdy corrugated mailing cartons, plenty of heavy brown wrapping paper, and be sure that every package is tied with strong cord. Cartons contain several gift packages should be well stuffed with tissue or old newspapers to cushion the contents."

He said further, "If you have articles of unusual size or bulk, better check with the post office before attempting to mail them—the limits of size and weight of packages vary, depending on where you mail your packages from."

As an extra precaution against loss, Postmaster Field advised placing both your return address and the recipient's address on an extra label inside the carton or package before it is wrapped.

If you use Christmas stickers or seals, put them on the back of your Christmas card envelopes so that they will not conflict with the address on the front.

Before you mail your gift packages be sure that proper postage is firmly affixed to each.

It's always a good idea to place a piece of transparent cellophane tape over the address portion of the label to prevent defacing it in transit. Most important of all, be sure to include the recipient's full name, street address, city, zone and state on your labels.

Here's some other helpful suggestions from Postmaster Field: Always send your Christmas cards by First Class mail. They will be delivered quicker and they'll be forwarded or returned, if it comes necessary. Christmas cards sent by First Class four cent or seven cent Air Mail may carry written messages; whereas, cards sent by Third Class three cent postage may only have a written signature and will not be forwarded or returned.

It is always advisable to include your return name and address on each Christmas card envelope because this helps your friends to keep their mailing lists up-to-date and insures correction of your own list if the card is returned as undeliverable.

The Postmaster reminds us that the entire Christmas mailing period is primarily a battle against time. If you delay now in getting your Christmas cards and gift packages to the Post Office, dreaded pile-ups are bound to occur, causing unavoidable slowdowns in

deliveries as the holiday approaches.

All mail going long distances should be sent well before December 10. Christmas packages for local deliveries should be mailed by December 15, and be sure to mail Christmas cards for nearby destinations at least a week before Christmas.

Rockefeller Favors Birth Control Aid To Foreign Lands

NEW YORK (UPI)—Gov. Nelson A. Rockefeller said today he would not oppose this nation's giving birth control assistance to a foreign nation provided the other nation requested it.

"This is a very sensitive subject to various individuals, and, of course, to certain religious groups," Rockefeller said.

"Naturally, a program involving such activities as birth control would not be undertaken if it was offensive to the people of that country," he added.

Rockefeller, considered a possible contender for the Republican presidential nomination in 1960, spoke to newsmen after returning here from a six-day rest at his Venezuelan ranch. He and his wife flew on to Albany after a brief stopover at Idlewild Airport.

His remarks on birth control were the latest in a series of statements over the week end by declared or undeclared aspirants for presidential nomination. Birth control has been proposed in many quarters as one possible answer to the problem of population expanding faster than food production—too many people and too little food.

Sen. John F. Kennedy (D-Mass.) a Roman Catholic, said he believed it would be unwise for this nation to advocate birth control to other countries. This would be interfering in a totally domestic problem of those nations, he said.

Sen. Stuart Symington (D-Mo.) said he would approve of furnishing planned parenthood information to other countries "where the government believes it is to the interest of our country."

He noted that poverty and disease are "two of the foremost allies of Communism."

Sen. Hubert Humphrey (D-Minn.) said the United States should not try to influence the policies of other nations on birth control but should not deny birth control information to nations that desire it.

The International Cooperation Administration called the issue academic. It said no foreign aid funds have been sent to spread birth control information and there are no plans for any such spending.

SHE'S 100 YEARS OLD but she still keeps in good condition by exercising, says Mrs. John Coureux of Austin, Tex. The live-wire centenarian is shown displaying one of her favorite exercises, touching the floor without a bend of her 100-year-old knees.

Fiddler Named President Of New West Volusia Nursing Association

The West Volusia Home Nursing Association was formed recently with Dr. William S. Fiddler as president.

Other officers are E. C. Lloyd of DeLand, vice president; Mrs. Raymond Keith, DeLeon Springs, secretary and R. Hood of Lake Helen, treasurer.

The purpose of the organization is to bring into West Volusia homes the services of a trained nurse to aid the sick and to help members of the family care for the bed-ridden.

All communities in West Volusia will be represented on the board of trustees of the newly formed organization.

The organization is planning a drive for funds with \$1 as the cost for joining the association.

Anyone interested is asked to contact board member Mrs. Clarence Snyder of Osteen.

Quotable Quotes

United Press International
NEW YORK — British Field Marshal Viscount Montgomery, calling Moscow the greatest command of all time for leading the children of Israel to the land of Canaan.

"He said, 'I can't do it,' and he kept on wandering about in the desert for 10 years, and they weren't just at all, but I think he was a great guy, boss."

LONDON — Christopher Florio, who presided over baking Sir Winston Churchill's 60-pound 85th birthday cake, revealing how he got the ingredients.

"I wrote 15 ambassadors and heads of state of almost every country in the world asking them for an ounce of ingredients from each country. I received almost three hundred ounces of ingredients."

BLAINE, Kan. — Navy Cmdr. Malcolm Ross, who made a 13-mile balloon ascent with a Cambridge, Mass., scientist, stating that the temperature dropped as low as 40 degrees below zero.

"It was cool as hell."

Long Way Home
CHICAGO (UPI)—When Early Wynn, 1959 Cy Young Award winner as top pitcher in the major leagues first reported to the Washington Senators as a 17-year-old rookie, he didn't even get rooming with the club at its hotel headquarters. Wynn was sent off to a boarding house on the other side of the tracks.

Improved Conditions
ST. PETERSBURG, Fla. (UPI)—International League officials said today they are "completely satisfied" with the Havana situation. They expressed their satisfaction after former Sugar King Maudslayi of the sugar kings assured them that political conditions in Cuba were as good today as they were last September during this Little World Series.

Some Honeymoon

DOWNEY, Calif. (UPI)—A 19-year-old youth and the teen-age bride he married Nov. 16 start today their first full week of married life above ground.

They spent the first two weeks of marriage in an 8 by 8-foot underground atomic fallout shelter.

Irene and Ranae Parker emerged from the shelter Saturday, blinking in the bright sunlight and a little paler, but apparently none the worse for their experience.

City Saving Money On Parking Meters

Sanford has saved \$1,751.62 by using pre-conditioned parking meters on the two city parking lots at Second St. and Oak Ave. and at Third St. and Magnolia Ave., according to City Manager Warren Knowles. The city got the same thing a machine and also received new meter warranties.

Knowles said the cost of 70 meters would have been \$1,150 compared with the \$2,328 paid.

Navy Graduate

Sanford's Cleveland T. Brown Jr. of 126 County Club Circle graduated Tuesday from the Aviation Electronics Technician School at the Navy Air Technical Training Center, Memphis, Tenn.

The Navy aviation electronics technician was taught electronics fundamentals, communications systems, transmitter and anti-submarine equipment in the 24 week Navy course.

Christmas Events Are Coming Up

Thanksgiving is past and that means that Christmas is making a fast approach. In a spirit of fun and enthusiasm to accompany the season's greater meaning are two Jaycee projects in which everyone who can should take part.

The first one is the big Christmas Dreams parade Friday. The Jaycees and merchants who are helping stage the annual event have indicated that it will be a good one, with 50 floats and marching units and 14 bands. The Jaycees will accept late entries, so there's still time to indulge in a little public Christmas Dreaming.

Another interesting and entertaining project is the Christmas lighting contest. Lighted decorations will be judged by a Jaycee committee on Christmas Eve night and \$25 bonds will be given as first prizes in four categories and \$10 for second place winners.

There'll be prizes for parade float entries, too, so the Yuletide season's entertainment here shouldn't be lacking in color.

...And More Important

And while on the subject of the Jaycees—they will continue one of our favorite projects next Saturday.

That's the date for the second of a series of polo shots which the Jaycees are sponsoring for Sanford and Seminole County residents and families. Shots are given for only \$1.

This is one of the most worthwhile projects ever attempted in the public interest. And the public ought to respond with equal interest when a campaign is aimed at an enemy such as polo. We hope the Jaycees can get 100 per cent county participation—that's their stated goal.

Thief Melts Down Coins, Finds All That Glitters Is Not Gold

DAMASCUS (UPI) — Syria's candidate for the mezzanet thief of the year: The 16-year-old student who was so gold-hungry that he swiped a priceless national treasure from the Damascus Museum.

And he could well be the dumbest thief of the year, too. He melted the treasure down and it thereby became virtually worthless.

The student, whose identity was not revealed, confessed that he took \$46 gold coins from the museum.

The coins, freshly minted in the 19th Century, had been found in a bag in 1865 by a laborer digging in the Damascus quarter of Damascus.

It was believed that the coins represented the life savings of a poor Arab living 13 centuries ago. They were pure gold and bore the imprint of one of the Omayyad Caliphs. They were known as the "Omayyad Gold Treasure."

"We have lost a unique historical treasure because a foolhardy boy wanted to become a thief," museum General Director Dr. Salim Adel Abdulhak.

The student thief, who appar-

ently ignored his history lessons or never learned them at all, was caught when he tried to sell some of the melted gold to a suspicious goldsmith.

The goldsmith called police, who went to his home and uncovered the now-worthless treasure cached in a wall. The boy then confessed.

Letters To The Editor

The members of the Seminole Band Assn. would like to thank you for the publicity given the barbecue held recently by our organization. The editorial in the paper also was greatly appreciated.

Seminole High has a fine, hard working band. The support given the band and all of its projects by the merchants, organizations and residents helps make it just such an organization.

Yours truly,
Mrs. C. E. Carlton, secretary
Seminole Band Assn.

Assignment Washington

BY ED KOTERRA

WASHINGTON — Quietly, Douglas R. Stringfellow, former United States Congressman, talked about how his life had changed in the five years since he pulled a hoax on the national public.

He was talking over the long-distance telephone from Salt Lake City. Stringfellow is now a radio newscaster — under the name of Don Douglas.

The year 1954 was to him what the year 1959 was to another young man caught in the web of a big hoax. I got to thinking about the former Congressman after the TV quiz scandal hearings, and there

emerged a strange parallel between Douglas Stringfellow and Charles Van Doren.

Doug Stringfellow was just a few months from Van Doren's age of 33 when the world crumbled around him after he confessed that he was not, after all, the OSS war hero he had made out to be, and that he never did accomplish such World War II feats as parachuting behind enemy lines to capture a high-ranking Nazi.

Like Van Doren, Doug Stringfellow was endowed with great personality, native intelligence and a fine family background. Like in Van Doren's case, String-

fellow's hoax started with just a little lie.

The little white lie went over well with a few friends and the Congressman embellished on it. The lie grew and grew. Wire services played the story big. He was hailed on "This is Your Life," and he played his part well.

Soon there was no turning back — until the thing became a nightmare, much like in Charles Van Doren's case. And his confession came in a gush, dramatically, just like Charles Van Doren's. He appeared on a hastily-called TV program and, as humbly as Van Doren was to do it five years later, he begged for forgiveness.

Amid tears, he said he would not seek re-election unless his party asked him to. They didn't ask him.

In the background was his devoted wife, just as Charles Van Doren's wife sat quietly behind him in the caucus room.

Well, what had happened to Douglas R. Stringfellow after five years? Did the public forgive?

"The public never forgets," he said. He was not bitter. "I still have my friends, and I will have my enemies." Words piled out as if they'd been stopped up by emotion for five years.

After the bottom fell out, there were a lot of times, he said, when he didn't know where his next meal was coming from. He lectured some, and he painted, and then he went back to his old routine of broadcasting.

That personal explosion in 1954, he said, made him a better man within himself. "It took that," he said, "to make me a human being." He is putting his whole story into a book which is ready for the publishers. "Chaff Before the Wind."

I had one final question: Would the public forgive Charles Van Doren? There was a pause on the other end of the line.

Then, fervently, former Congressman Douglas Stringfellow said: "I hope so."

Iranians Feel President's Visit To Country 'Short'

TERHAN, Iran (UPI) — Iran thinks President Eisenhower's scheduled visit is too short. But a 21-gun salute will pay him tribute and a band will play the Star Spangled Banner before Iranians get down to the brass tacks of asking for faster jets and more modern arms.

The President is expected to arrive here at 8:45 a. m. on December 16 from New Delhi and to remain five hours and 45 minutes. The 45 minutes were squeezed in because Iranians were disappointed at the shortness of the President's stay. But whatever the time limits, he is assured of a warm and friendly welcome.

"We are very happy to have the President in this country," Prime Minister Manouchehr Eghbal told United Press International.

"We consider the trip very good," he said. "We feel sympathy toward those countries which respect the independence of others and Eisenhower has shown that in his policy. We regret he cannot stay longer."

Shah Reza Pahlavi will welcome the President at the airport where a 21-gun salute has been ordered despite the fact this is not a state visit.

The President then will be driving five miles to the Shah's "Mar-

ble palace" for a two-hour discussion with the Shah and his advisers. The schedule calls for Eisenhower's regular rest period with lunch afterward. He is scheduled to leave for Athens at 2:30 p. m.

U. S. Ambassador Edward Wreia is credited with persuading Washington to stretch the President's visit slightly at both ends. The Iranians were told the tightness of his schedule was due partly to the fact that he will not fly after dark as an added safety factor.

Observers here believe the Shah would discuss with the President the possibility of full-fledged U. S. membership in Ceto Central Treaty Organization which inherited the mantle of the Baghdad Pact, and then would urge upgrading of the Iranian air force. Other, more modern, armaments also would be included in the package.

Economics will be another subject. A cut in oil prices has reduced Iran's income proportionately and Iran would like heavier U. S. purchases.

Americans point out that Iran received 110 million dollars in loans, grants and technical assistance from the United States in the last year.

Happiness Through Health

(By DR. F. LEO KERWIN)

Geriatrics

In old age really a disease? A state of mind? Or just a natural condition? Old age should be the best part of life. Family responsibilities have ceased and many old people have acquired a competence and are free from financial worries. Still many are unhappy and time hangs heavily on their hands.

Helping those in need, taking more interest in children are of great assistance in warding off senility. Following the latest discoveries of science, becoming interested in people, civic, religion, politics, are also helpful.

Perhaps the most prominent symptom of old age is a settling of the spinal column, it actually decreases in length from one to several inches due to the thinning of the cartilaginous cushions between the spinal bones. This condition greatly interferes with the flow of energy supplied by the spinal nerve to the various organs, greatly decreasing their efficiency. Spinal manipulations and adjustments are of great assistance to avoid disease peculiar to the aged.

Plain, easily digested foods, small meals and more of them to avoid taxing the digestive organs, induce well being and promote restful sleep. Keep planning and looking into the future. That is the way to postpone old age. Are you a Chiropractic case?

One of a series of articles published in the public interest to explain and illustrate the practice of scientific Chiropractic, written by Dr. F. Leo Kerwin whose office is located at 201 S. French Ave. and his telephone number is FAirfax 2-7442.

Inez Robb Says

By INEZ ROBB

How many Americans, I wonder, realized until recently that diplomatic immunity extended to murder? That it literally permitted diplomats, their clerks and their cousins and their aunts, to get away with murder?

We ordinary squares who live in New York are well aware that diplomatic immunity allows anyone with a diplomatic license tag to triple park, park in front of a fire plug, park in "No Parking" areas, speed and, in general, ignore all the rules and courtesies of the road. (These are facts of which the ordinary citizens of Washington, D. C. have been aware for decades.)

But it must have come as a shock to millions, as it did to me, that the grown son of an ambassador—a man with a police record for hawking and disorderly conduct—can kill a woman in the streets of Washington and walk away.

If the comparable son of an American ambassador drove an automobile in such a manner that it killed a middle-aged woman in the streets of Paris, Rome, Cairo

New Delhi, Tokyo or Manila, God help Uncle Sam! It doesn't require much imagination to picture what would happen.

If the killer took refuge in diplomatic immunity, there would be anti-American riots in the streets and, in all probability, mobs stoning the American Embassy.

Communist propagandists would make a Roman holiday of such imperialist behavior on the part of the flower of capitalist society.

News media around the world would scream the house down with denunciations of the American way and our "indisciplined behavior. Our careless disregard of the lives of 'native' people would make stirring editorial fodder.

There would be loud and persistent demands that the American ambassador be declared persona non grata.

If Uncle Sam, under the circumstances, did not recall the ambassador before the host government made such a request, it seems incredible that the ambassador himself would not be sufficiently sensitive to resign. Or, lacking that grace, would not feel

impelled at the very least to send his son packing back to his homeland.

By the time this news print, would hope that the United States Government and the State Department have discovered their respective backbones and hinted to Ireland, if that country has failed to set, that the Irish Ambassador, John J. Hearne, and his delinquent son, David, 21, are no longer welcome in the United States.

If the sins of the father are visited upon his children even until the third and fourth generation, the rule works in reverse, too. Ambassador Hearne may be the finest diplomat in the nation's capital. But he, as both ambassador and father, is responsible for his son's behavior. And that behavior, for the past 30 months, is a matter of police record. Only 48 hours before the son's car struck and killed Mrs. Jessie Hamlin, 54, the State Department sent to the ambassador a lengthy police report on his son's hawking.

I have waited in vain to hear the killer express so much as one word of regret over the death of his victim. Apparently young Hearne believes that in ordering his insurance adjusters to confer with the dead woman's attorney, he has done all that is necessary. He had neither the courage nor the remorse to stand up at the woman's funeral and say, "I'm sorry."

It is incredible that he has the brass to remain in this country and more incredible still that Uncle Sam permits it.

Here's Some Women That Keep Those Navy Blimps In Stitches

PHOENIX, Ariz. (UPI) — The land of Wyatt Earp today is the home of the world's largest sewing bee.

In suburban Litchfield Park, about 300 women cut and stitch huge helium balloons, called enclosing envelopes, which become part of Navy blimps.

The blimps carry radar, function as part of the North American Air Defense Command (NORAD), and patrol the Atlantic offshore approaches day and night.

The women work in a sprawling building at the Goodyear Aircraft plant. To the seamstresses, a blimp is "just 1,204 great big patterns, which we cut and eventually sew together," said Tabma-born Jean Glover, a veteran worker in the sewing shed.

"Each pattern we are working on now has a number—D-630. 'The 'D' stands for dirigible, and the '630' means this is the 630th blimp which has been produced by Goodyear so far."

Specifications for hiring the women sound like requirements for airlines' stewardesses. The rigors of the work demand that no woman start on the payroll if she is older than 28, more than 5 feet 5 inches tall, or weighs more than 120 pounds.

"It's like being a prize fighter," said Geraldine Avis Sullinger, 28, who came to Phoenix from Joplin, Mo. "If you lay off for awhile, you have to watch yourself or

your weight will zoom up. One girl was off for two and a half months, and her weight went up 60 pounds. She had to come back and work it off."

Miss Sullinger stands all day, knees locked, leaning from the waist to caulk seams. She admitted she is a bit disdainful when neighbors tell her they can touch toes 10 times without bending a knee.

Anna Miller Circle Initiates New Members

Mrs. Thomas Sprouse and Mrs. Robert Tomlinson were welcomed into the Anna Miller Circle at the November meeting. The group met at the Elk's Club for the initiation ceremony and regular business meeting.

Mrs. Martin Dyer, chairman of the annual Christmas dinner, gave her report concerning this big event of the year. It will be held at the Elk's Club Dec. 15. Dinner will be served at 7:30 p. m. All circle members and

their husbands are invited. Gifts will be exchanged and an orchestra will provide music for dancing during the evening. Members voted to have a float in the Christmas parade and to send a check to the tuberculosis drive.

Mrs. Harry Adair, president, requested a special initiation for the next meeting, scheduled for Dec. 8. All members are urged to attend this, the last meeting of the year.

Others attending were: Mrs. Marcelle Faillie, Mrs. Clayton Smith, Mrs. Ralph Wight II, Mrs. Irene Kent, Mrs. Wade Snyder, Mrs. Morris Mascoe, Mrs. H. F. Hild, Mrs. J. M. Cameron.

Mrs. G. Walter, Mrs. Ruby Gindar, Mrs. Ray Orler, Mrs. E. J. Noughton Jr., Mrs. W. I. Clarke, Mrs. Ed Miller, Mrs. J. B. Phillips, Mrs. Buford Brown, Mrs. Wesley Barber and Mrs. C. H. Stafford.

Personals

Mrs. Lorraine Graham, executive secretary of the T. B. and health association, will enter Orange Memorial Hospital in Orlando, tomorrow for treatment. The office will be closed for a few days.

Mr. and Mrs. L. D. Hastings and as their house guests at their home on Reservoir Lake during the Thanksgiving weekend, Mrs. Hastings' mother, Mrs. J. J. Lawrence and sister, Mrs. L. O. Daniel both of Griffin, Ga. and another sister, Mrs. E. D. Pearce of Miami.

Mr. and Mrs. Dwight Holmes and Mr. and Mrs. Jim Watkins, of Atlanta, Ga., spent the weekend with Mrs. Holmes' parents, Mr. and Mrs. G. A. Speer, Jr.

Elizabeth Woodruff visited friends in Atlanta, over the weekend.

Mr. and Mrs. Larry Burney spent the Thanksgiving weekend with their parents, Mr. and Mrs. R. W. Williams and Mr. and Mrs. Jack Burney, Charles Wilke, accompanied them to Sanford for a visit with his parents, Mr. and Mrs. Charles G. Wilke.

Mr. and Mrs. Ernie Morris are spending the holiday vacation with their parents, Mr. and Mrs. L. F. Richards and Mr. and Mrs. H. E. Morris at the M. G. Ranch.

Miss Jane Williams spent Thanksgiving with her parents, Mr. and Mrs. Ted Williams.

MISS DORIE BACH, daughter of Mr. and Mrs. David Bach, Holly Ave., a member of Brownie Troop 105, is holding one of the holiday turkeys, made from an apple, gum drops and paper, head and wings. The troop made these as a Thanksgiving project at the home of their leader, Mrs. Olan Boutwell, this week. (Staff Photo)

Play It Safe Check Hazards

By MYRTIE WILSON
Home Demonstration Agent
"Believe it or not, the home kitchen can be a mighty dangerous place especially when the home maker is busy preparing meals for a hungry family," says Miss Frances Cannon, Assistant Health Education Specialist.

A play pen or a play area near the kitchen is a good practice since kitchens present real hazards to little ones at these busy times. Falls, according to the National Safety Council, are one of the major kitchen hazards for adults. You can protect yourself and others by immediately cleaning up slippery substances—spilled water, grease or food. A safe step stool will eliminate another kitchen danger—that of climbing chairs, boxes and other makeshifts when reaching for higher shelves.

Storing sharp knives separately will protect both the user and the knives. Wash them individually, and never leave them in the dishwasher. Put them away immediately after using. Remember, too, that sharp knives are actually safer than dull ones when properly used.

Burns are still another cause of serious injuries. Keep petcoilers handy near the range, and use them when needed. Tongs are both handy and safe for handling hot foods. Warn your children of the dangers of a hot stove, and explain to them why they must not touch hot things.

Hurry produces a host of kitchen accidents, too. Hurry can lead to carelessness, and carelessness to mishap. Play it safe—think through your kitchen. Make it a happy place—a safe place.

W.S.C.S. Board Meets Tomorrow

The executive board of the W.S.C.S. of First Methodist Church will meet Tuesday at 9 a. m. in McKinley Hall. The business and program meeting will start at 9:45.

Mrs. Ashby Jones will be in charge of the program, entitled "Christian Customs in Many Foreign Lands."

Wives Club Dinner Dance, Big Success

All who participated in the first dinner dance sponsored by the wives club were very enthusiastic about it. Many comments of praise were heard and some asked, "When are you going to do this again?"

The serving table was centered with a huge bouquet of chrysanthemums and candle with horns of plenty, filled with fruit and vegetables and spilling out on each end of the table. Individual tables held candles and fall leaves. The food, cooked and served by the women was varied and delicious. There is some discussion of making this an annual affair. The club sends thanks to their husbands, who assisted with the heavy work and served as baby sitters while their wives made the arrangements for the party.

Canned fruit drinks convert to dessert toppings when thickened slightly with cornstarch. Add chopped fresh fruit to taste.

THE ENTERPRISE SCHOOL has recently completed a new cafeteria. It is a combined cafeteria and auditorium. Tables can be moved into their storage space

and soon convert the room into an auditorium. Pictured are a group of children lined up for serving in the new cafeteria.

Scout Pack 345 Present Awards

Cub Scout Pack 345 met last week at the First Presbyterian Church with Jim Buckler presiding. Den One opened the meeting with the flag salute and the song "America the Beautiful."

Awards were presented, as follows: Terry King, lion badge; Billy Dodson, wolf badge and gold arrow point; Robert Repp, gold and silver arrow points; Don Ethell, silver arrow point; David Richard, silver arrow point; Robert Goldstein, gold arrow point and Bill Higginbotham, assistant lion stripe.

Bill Higginbotham entertained the Pack by playing "Red River Valley" on his guitar. Den One and Five assisted in reproducing a scene of the old country store. It was typical of the times, including pot belly stoves and old fashion wall phones.

Den Three, under the direction of Mrs. Libby White, presented an amusing skit held in the country store. Den Five closed the meeting with the song "America," accompanied by Robert Goldstein on the accordion.

Immediately following the meeting, Den One held a sale of cider and doughnuts for a penny each.

Alliance Women Plan Missionary Program

Mrs. David Carnelia was hostess to the November business meeting of the Missionary Society of the Alliance Church, at her home on Elm Ave.

Mrs. Adele Moore, presented the devotional service. Plans were discussed concerning the mission work of the society. The group

has been asked to send a pair of bed sheets to The Rev. and Mrs. Howard Beardsley, who are returning to their work in the mission field in Africa, after spending a furlough in the United States.

The Churches in the southeast district have been asked to contribute items for the Beardsley's missionary outfit. They will go to the interior of Africa for a four year term and will have to take all necessary items with them.

They are translating the Bible into the tribal language of the people of the locality where they are working.

Other projects the local society has contributed to recently are a baby shower for Mrs. Paul Carlson, a missionary in Lima, Peru, and assisted the Alliance Sunday School in preparing a Christmas box to be sent to a mission field.

Members attending the business meeting were: Mrs. Marjorie Moore, Mrs. George Wells, Mrs. L. A. Watson, Mrs. Fay Lee, Mrs. Adele Moore and Mrs. Carnelia.

Sorority Works On Yearbook

Mrs. John Higgins was hostess last week at her home in Wynne-wood when the Gain a Omega Chapter of Epilon Sigma Alpha held its November social meeting.

The evening was spent chatting and working on the chapter's yearbook.

Miss Ginger Jones was the group's guest for the evening. Mrs. Higgins served soft drinks and cookies to Mrs. Jack Schirard, Mrs. F. W. Fite Jr., Mrs. David Van Ness, Mrs. Robert Harvey, Mrs. T. V. Metts Jr., Mrs. James DeBrine.

Mrs. Jimmy Butler, Mrs. Jerry Lumberson, Miss Barbara Flynn, Miss Sylvia Price, Miss Dottie Metts, Miss Jeannette Kinlaw, Miss Patty Walker and Miss Jones.

Cook fennel with parsley and beet greens or serve it raw in green salad.

League Plans Turkey Dinner

The Women's Friendship League of the Congregational Christian Church will hold a turkey dinner at noon, Sunday, Dec. 13, in the fellowship hall of the Church.

Husbands and children of the members are invited and an old-fashioned family affair is planned. Following the dinner, Christmas devotions will include a candlelight service.

Christmas carols will be sung, accompanied at the organ by Mrs. L. Spencer, Mrs. L. Robinson will lead the singing. The business session will be very brief, so everyone can enter into the spirit of Christmas.

Origin Of Digitalis

Muncy doesn't grow on trees, but medications do. A statistician could compile a formidable list of lifesaving medical aids extracted originally from trees, bushes and blooms, later as the chemist's science developed, synthesized and manufactured bulk.

One of the most powerful of all heart stimulants, digitalis, which is still a mainstay, of any medical kit, came from a midwife's brew of herbs in England centuries ago. Whether another much like it can be isolated from the bark of an African tree is being studied in a Heart Fund project by Dr. Walter J. Gessler, professor of chemistry at Boston University.

He is directing an analysis of the chemical organization of the bark of Erythrophloeum guineense, alkaloids from which are reported to act upon the heart as does digitalis—the discovery of which originated in Mother Hutton's herb tea in the England of yesterday.

The bark has been investigated previously by pharmacologists. Drawbacks in the form of toxic reactions have been found to rule out its use as a heart drug. Projects of this nature illustrate our debt to both the atomic age chemist and to the midwife—possibly even the witch-doctor—of other generations. Much of mod-

ern-day medicine has its origins at the hearthside in days when medicine was a matter of native lore, passed from mother to daughter.

In 1785, William Withering published the results of work for which the old British midwife was responsible.

He dismissed the value of Mother Hutton's incantations and spells, and concentrated upon the heart conduction. He found it contained a common plant, the purple foxglove. Further, he found, it stimulated heart action. He worked out the proper doses.

In later generations, more advanced scientists isolated the significant material—digitalis—from foxglove.

Osteon Personals

Mrs. Betty Snyder and son John, Mr. and Mrs. Nick Pfeiffer and daughter, Linda, and C. J. Mettler all of Sanford were Thanksgiving dinner guests of Mr. and Mrs. Clarence Snyder.

Mrs. John Conn of Eau Gallie spent the weekend with Mrs. Harry Osteon.

Rebekahs Nominate Officers

Seminola Rebekah Lodge met Thursday evening at the I. O. O. F. lodge hall, with Mrs. Emily Jameson, noble grand, presiding.

A slate of officers was nominated for the coming year. An election will be held at the next meeting.

Mrs. Jameson honored the past noble grands, with a courtesy and presented each with a gift. Those honored were, Mrs. Mary Jameson, Mrs. Virginia Anderson, Mrs. Mildred Squires, Mrs. Nell Furell and Mrs. Mabel Brown.

Covington Covers Sports

By JERRY COVINGTON
The football fans in Sanford are doing things a little differently than in some cities this year. Usually when a coach's team doesn't win better than half its games in a season, they immediately condemn him and begin hanging him in effigy.

Wednesday night the Seminole Boosters Club is sponsoring a gigantic supper at the Elks Club in honor of the Seminole coaching staff. Although the Seminoles had a respectable 500 season, the Boosters want to assure Coaches Pigott and Laude that they were not a bit disappointed in the turnout. This was Coach Pigott's poorest season since coming to SHS three years ago and he won five and lost five.

At their meeting last week, the Boosters had nothing but praise for Pigott and Laude and they plan several surprises for them.

The Boosters will have as their guests the varsity and junior varsity footballers and their dates. Also all members of the Club are urged to attend. President Gordon Bradley has asked that anyone who plans to attend should call him at FA 2-5928 or Buddy Lake at FA 2-6484

and make reservations. The players and their dates will be admitted as guests of the club and all members will be charged \$1.50 a plate.

Believe me, members, I attended last year and they really put on the feed bag! If you haven't done so, call tonight and make your reservations.

All baseball hopefuls around Sanford can begin their spring training a little early this year. Another recreation facility has been installed on French Ave. near the Putt-Putt golf course. It is called the Matt-Batt. It has three batting cages and three major league pitching machines and the best in baseball bats. Although it is a recreation facility, it really can be very helpful to anyone interested in improving his hitting. Plan now to drop by and take a few swings. It's a good place to blow off a little steam when the wife runs you out of the house.

While on the subject of recreation areas, another spot that soon will be open is the new 20-lane bowling alley on Onora Rd. right off the Orlando highway. All 20 lanes will be completely automatic and it will be one of the finest in the area.

THE BIGGEST DEER brought out of Farmington's hunting area on the first day of the hunting season recently was this six point buck taken by Seminole High football players, from left, Billy Bowles, Jerry Dillard and Bobby Barbour. Sixteen-year old Dillard shot the 120 pound buck with a 30-30 rifle in the hunting area near Osteen.

Conerly Paces Giants To NFL Win

United Press International
The other 35 New York Giants soon may join Charley Conerly in riding around in new automobiles. The \$25,000 bevy of gifts Conerly received Sunday at Yankee Stadium included two brand new autos. The 38-year-old quarterback immediately went into high gear against one of his favorite targets, the Washington Redskins.

Conerly has a little Choctaw Indian blood in him. Maybe it helps make him particularly effective against the Redskins. Anyway, he threw two touchdown passes to Bob Schnelker, one to Kyle Rote and set up a scoring run by Alex Webster and a Pat Summerall field goal.

Conerly, who has thrown 33 of his 154 National Football League touchdown passes against the Redskins, enjoyed his spree in the first 29 minutes. Then he sat down to rest for a dance in his honor while the Giants whizzed to a 45-14 triumph that clinched at least a tie for the Eastern Division title.

The Giants now are two games in front with two to play. It's a virtual certainty each of them can count on at least a \$3,500 slice of championship game money and a new car if they want to match Conerly on the highway.

New York got sterling help from the San Francisco Forty-Niners, also giving their Western title hopes a huge boost, scored three times in less than seven minutes to edge the Browns at Cleveland, 21-20. The Steelers, with Bobby Layne throwing four touchdowns passes, whipped the Philadelphia Eagles at Pittsburgh, 31-0.

The Browns and Eagles started the day only a game behind the Giants but virtually lost all hope by losing. Coach Paul Brown, whose Browns invaded New York next Sunday, told what the Forty-Niners had done to his team's Eastern chances in two words: "That's it."

The Baltimore Colts remained tied with San Francisco for the

Western lead by downing the Los Angeles Rams, 35-21, at home behind the passing of John Unitas. The Chicago Bears kept their Western hopes alive, remaining a game behind the two leaders by thumping the Chicago Cardinals, 21-7, in Sunday's other game. Each of the 12 clubs has two more regular season games.

New York is in a powerful position. It entertains the Browns before ending its regular campaign against the crippled Redskins at Washington. The Eagles play at Washington next Sunday and then entertain the Browns.

Baltimore, the 1-gue titleholder, must perform like a champion and snap a jinx to retain the Western title. The Colts play next Saturday at San Francisco and the following Saturday at Los Angeles. Baltimore has won only one of 14 games in those cities.

The Forty-Niners end their season at home against the Green Bay Packers, 24-17, victors over the Detroit Lions in the Thursday game that opened the past weekend's action. The Bears finish at home against the Steelers and Lions.

Eastern Division			
	W.	L.	Pct.
New York	8	2	0.800

Future Of Gator Coach May Be Decided Soon

JACKSONVILLE (UPI)—The State Board of Control probably will determine the fate of Florida football coach Bob Woodruff at its next monthly meeting.

Several sports writers have predicted the veteran coach is in his last year at Florida despite his winning record over the past five years.

Woodruff's team ended the current season Saturday by defeating Miami 24-14 for a 5-4-1 record, knocking Miami out of a possible Orange Bowl bid.

J. J. Daniel, chairman of the Board of Control, confirmed Saturday his group was "ready to review the football coaching situation at the University of Florida" at its Dec. 11 meeting.

He said the board, which oversees state universities, had asked University President J. Wayne Reitz to submit a recommendation on the matter to the board prior to the meeting.

Daniel declined to give any clue as to how the board feels about Woodruff, but Reitz has been a strong backer of the coach.

Woodruff has been at Florida 10 years but is hired on the same yearly basis as any department head at the university. He makes \$17,500 a year.

Under his guidance, the Florida Gators have become one of the Southeastern Conference's strongest teams. His 1958 team had a 6-3 record and played in the Gator Bowl.

Sebo Reported Out As Quaker Coach

PHILADELPHIA (UPI)—Rutgers head coach John Stegman will replace Steve Sebo as football coach at the University of Pennsylvania, the United Press International learned Sunday on excellent authority.

Sebo's team defeated Cornell on Thanksgiving Day to win the Ivy League title but reports of more than a year ago predicted that he would not be rehired and would be replaced by Stegman, one-time aide to the late Charley Caldwell at Princeton.

Sebo was hired in 1954 to succeed George Munzer and his second three-year contract expired at the end of the Cornell game as Penn finished with its best record since 1947 and its first of the Ivy title.

Palmer leased Pete Cooper and Jay Brewer in a four-hole playoff after all three finished with 20s. Palmer two-putted from 15 feet out for a par four on the decisive hole and both Cooper and Brewer went over par.

Yogi In Europe
NEW YORK (UPI)—New York Yankee catcher Yogi Berra left for Europe Saturday to help distribute baseball equipment donated by the Yankees to the developing diamond program in Italy.

Four Bouts Set

NEW YORK (UPI)—Lightweights Chico Velez and Eddie Armstrong meet in the feature 10-round bout tonight at New York's Academy of Music. Meanwhile, heavyweights Harold Carter and Johnny Jenkins meet in a 10-round bout at Elizabeth, N. J., middleweights Rory Calhoun and Tony Masciarelli fight at Montreal, and middleweights Joey Giambra and Orlando Di Pietro meet at Long Beach, Calif.

The first engine to be run by a piston in a cylinder was built in France in 1678 as a means of pumping water for basins in Versailles. The power was supplied by exploding gunpowder.

Gets Preference

CLEMSON, S.C. (UPI)—Gene Willmon, Clemson College business manager, said today tickets for the Bluebonnet Bowl football game to be played Dec. 19 at Houston, Tex., between Clemson and Texas Christian will be offered first to members of the Clemson Booster Club.

Wins Grand Prix

MILAN, Italy (UPI)—Tornese, a seven-year-old Italian champion, won the Grand Prix of Nations trotting race Sunday, defeating Jamini, Europe's "wonder horse" who clinched the 1959 European Gold Cup with a total of 28 points by finishing second.

Navy May Accept Bowl Bid

United Press International
The completion of the holiday bowl pairings waited today on a decision by Navy brass whether to call it a "perfect season" after the 43-12 rout of Army or to try "to glide me lily" by playing Penn State in the Liberty Bowl.

The decision may be made today after the executive committee of the athletic department passes on its recommendation to Rear Admiral Charles L. Nelson, USN, superintendent of the academy. Sources close to the academy stressed Navy's traditional lukewarm attitude toward bowl games even though the Middies did play in the Sugar Bowl, Jan. 1, 1953, and in the Cotton Bowl, Jan. 1, 1958.

The Mississippi-LSU game is a replay of a regular season game won by LSU, 7-3, and Sugar Bowl officials already are touting it as the best of the bowl games. Cotton Bowl officials, of course, insist the Syracuse-Texas match No. 1 but nobody can deny the Sugar Bowl officials have a talking point.

Player Draft Set By NFL Officials

PHILADELPHIA (UPI)—The National Football League will begin a "bargaining battle" with the new American Football League today when it holds its annual draft of college stars.

The following bowl lineups emerged from the smoke and fire of the last big Saturday of the campaign—one appropriately filled with upsets:

Rose Bowl: Wisconsin (7-2) vs Washington (9-1).
Sugar Bowl: Louisiana State (9-1) vs Mississippi (9-1).
Cotton Bowl: Syracuse (9-0) vs Texas (9-1).
Orange Bowl: Missouri (6-4) vs Georgia (9-1).
Gator Bowl: Arkansas (8-2) vs Georgia Tech (6-4).
Bluebonnet Bowl: Texas Christian (8-2) vs Clemson (8-2).
Sun Bowl: North Texas State (9-1) vs New Mexico State (7-4).
Tangerine Bowl: Middle Tennessee (8-1) vs Presbyterian (9-1).
Mississippi: Georgia, Georgia Tech, and Clemson accepted their invitations Saturday after the windup games of their regular seasons. Mississippi crushed Mississippi State, 42-0, Georgia downed Georgia Tech, 21-14, and Clemson walloped Furman, 56-3.

Annual Grab-Bag Of Minor Loop Talent Is Scheduled To Open

ST. PETERSBURG, Fla. (UPI)—Don Lee, 25-year-old pitcher who failed in three trials with the Detroit Tigers, was expected to be the Washington Senators' first draft pick today in the annual grab-bag of minor league talent.

The draft session was the first matter on the agenda of baseball men gathered here for the start of the minor league meetings. The major league's annual winter conclave will be held next week at Miami Beach.

The Senators, whose roster is three men short of the 40-man limit, and the San Francisco Giants, with four vacancies, were expected to be the most active teams in the draft.

Among the minor leaguers available for the \$25,000 draft price were: Catcher Joe Lonnett and pitcher Warren Hacker of Buffalo; first baseman Norm Zauchin and infielder Foster Castleman of Miami; catcher Darrell Johnson of Richmond; and pitcher Hank Aguirre of Charleston, Jack Spring of Dallas, Bob Kee-

24 Down In Plane Accident

WILLIAMSPORT, Pa. (UPI) — An Allegheny Airlines plane reported carrying 25 persons crashed into a mountain near here today in a driving snowstorm. First reports said one survivor had been picked up by helicopter.

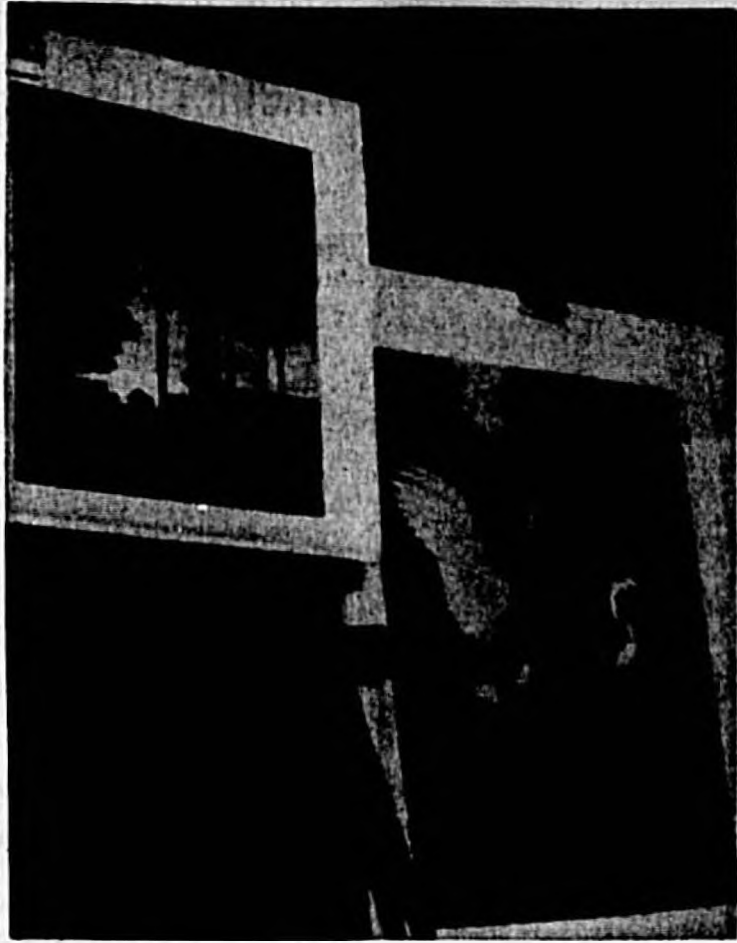

The plane was carrying 22 passengers and a crew of three when it crashed while circling the Williamsport-Montourville airfield after being waved off by the control tower on its first approach.

The mountain is part of the Bald Eagle Range and is directly across the Susquehanna River from the airport.

The control tower at the airport reported the plane first made a head approach and was ordered to "go around again" and make another approach. The plane circled out of visibility in the storm and failed to re-enter the approach pattern.

David L. Miller, vice president of the airline in Washington, said the twin-engine plane was bound from Philadelphia to Cleveland. The search for the wreckage was delayed by a snowstorm.

Equalization Board Hears 75 Complaints

Seventy-five county property owners formally protested the county assessment rolls at the opening of the tax equalization meeting yesterday.

The board of equalization called off the hearings today to meet as the board of county commissioners and will meet with property owners again tomorrow.

Chairman John Krider said the people in the county deserve to be complimented for the orderly fashion in which they conducted themselves at the hearings yesterday.

"We don't anticipate any problems to come out of these hearings," Krider added.

The rest of the board agreed with Krider on the way the property owners conducted themselves and said that people seem to be willing to pay their just taxes, just as long as they are on an equal basis.

Commissioner Vernon Dunn said "as a matter of fact, there were only three angry persons here yesterday."

Four Enter Races At Casselberry

Newly announced candidates for the Casselberry elections next Monday are Joseph Bryant for mayor, George Howard and Lester E. Britton for aldermen and Clint Whitehurst for town marshal.

Bryant, 321 Piney Ridge Rd., will oppose incumbent Mayor William M. Benson, who was appointed Oct. 31 when former Mayor Donald Willson became acting postmaster.

Howard, a contractor, is a lake shore Dr. resident.

Britton lives on Quotuplet Dr. He is a salesman.

Clint Whitehurst, 9 Lake Kathryn Circle, will run against Marshal Gus Sawyer.

Councilman Ray McCord will run for reelection, along with Town Clerk Lillian Bessel, who is unopposed. Lyle E. Swope of 330 S. Triplett Dr. will be another candidate for the town council.

The polls in the town hall will be open from 7 a. m. until 7 p. m., Mrs. Bessel announced today. All Casselberry residents who have registered to vote are eligible to cast a ballot, she said.

November Taxes Total \$196,067

Sanford property taxes collected during November total \$196,067.12, City Tax Collector Miss Ellen Hoy said today. Monday and last Friday \$26,319 in taxes came to City Hall.

Sanford property owners whose bills have a November postmark will get the November four percent discount, even though the bills reach City Hall during December. Miss Hoy announced the 3,892 receipts collected during the past month compares favorably with the \$344 receipts that came in during November 1958, the tax collector said.

The Bureau Has Its Own Weather

TALLAHASSEE (UPI) — The Tallahassee Weather Bureau did without heat for eight hours Sunday when a stove inside the office exploded.

The misfortune occurred during the severe cold spell. No one was injured, but the fire department was summoned to extinguish the blaze caused by the stove.

A few weeks ago, the Weather Bureau roof sprung a leak when heavy rains hit the city.

The Sanford Herald

Commission Votes To Build New County Jail Facilities

Florida Sun Due Back To Chase Cold Wave

MIAMI (UPI) — Shivering tourists and natives alike looked for a return to 70-degree weather today to take the frost out of the normally mild Florida climate.

The Weather Bureau expected temperatures to climb above 70 to dispel a cold wave that has gripped Florida and other southern states for the past several days.

U. S., Russia Join Nations Signing Antarctic Treaty

WASHINGTON (UPI) — The United States, Russia and 10 other nations today signed an historic treaty to keep the vast frozen Antarctic continent free of military bases and open to peaceful scientific exploration.

The 12-article treaty, drafted in four different languages, was the product of seven weeks of negotiations. It represented the first time Russia has joined in such a pact with Western countries since the outbreak of the cold war.

The document bans all weapons testing and nuclear explosions on the South Pole except an area of five million square miles which is equal to the size of the United States and Europe combined.

The treaty automatically makes all member countries of the United Nations eligible to join. Non-members of the U. S. such as Communist China, could join only by unanimous consent of the 12 original signatory countries.

In addition to the United States and Russia, the treaty nations include Argentina, Australia, Belgium, Chile, France, Japan, New Zealand, Norway, South Africa and the United Kingdom.

The treaty provides for a unique inspection system under which any member nation may send observers to "all areas of Antarctica" at any time in the event of "discharging or embarking of cargo or personnel" of any other member country.

Board Says Courthouse Not Needed At This Time

The County Commission today unanimously adopted a resolution to build a new jail and agreed that there was no need for a new courthouse at the present time.

The board heard state and county officials cite the need for new jail facilities, calling the present jail "horrible and inadequate."

The resolution as adopted by the board states that the construction of a new jail is necessary to replace the obsolete and antique existing facilities and that appropriate action be started as soon as possible to obtain cost estimates and other essential information in order that the board can establish the amount of millage to be levied for a new jail.

In another resolution, the board said additions and repairs for the present courthouse are necessary because of the increased business, but said there was no need for new facilities.

At the public hearing this morning, proponents of a new jail included H. B. Gramling, deputy state director for inmate treatment; Sheriff J. L. Hobby, County Judge Wilson Alexander, County Prosecutor Karlisle Housholder and parole officer James Lee.

In citing the need for a new jail, Gramling said there is no room to house juveniles, women prisoners, sex offenders and drunks.

He said that the plumbing in the jail is in "horrible" condition and there are no adequate toilet facilities.

He told the board that the state department of corrections has a consulting architectural service which would be glad to cooperate with the board on how to design the jail.

Sheriff Hobby offered figures which showed that the bullpen capacity for white prisoners is only 18 but at times some 30 persons have been housed there.

He added that conditions in the Negro bullpen, with the same capacity, sometimes has to hold 40 prisoners.

He cited the poor plumbing conditions and said what it has cost the county in plumbing repairs over the last five years could have gone a long way in constructing a new jail.

Housholder described the jail as belonging to the "dark ages" and said that a new jail is a "must" for Seminole County.

Lee stressed the need for improved juvenile facilities, as sometimes juveniles are herded together with hardened criminals.

Judge Alexander, long a proponent of a new jail, said the problem is getting worse and worse every month.

He cited cases of incompetent persons being housed in the bullpen, but also stressed that the sheriff's office was not to be blamed for the poor facilities and said officers have done a wonderful job with what is available.

"We all can't bury our heads in the sand. This should be on the conscience of every citizen in the county," Judge Alexander said, adding, "we need a jail quick and must cut all the red tape."

After hearing all the testimony, the board unanimously agreed to adopt the resolution paving the way for the new jail.

Chairman John Krider indicated after the meeting that preliminary plans by James Gamble Rogers, Winter Park architect, may be used. The architect's firm was hired last fall at a cost of \$2,000 to survey the possibility of a new jail and courthouse and come up with preliminary plans.

News Briefs

Civil Rights 'Must'
WASHINGTON (UPI) — House Republican Leader Charles A. Halleck put a "must" label today on passage of new civil rights legislation next year. "We've got to do something about a civil rights bill," the Indiana Republican told news men.

Law Includes Stands
LAKELAND (UPI) — All sales of citrus fruit by road stand operators in South Florida must now be regulated by the Florida Citrus Commission, Circuit Judge William K. Love ruled Monday. Love, ruling on an injunction obtained by Lake County Citrus Sales Inc., said it was discriminatory for the road stand operators to be exempt under a new citrus commission regulation.

Alabama To Play
PHILADELPHIA (UPI) — Alabama will play Penn State in the Liberty Bowl game at Philadelphia Stadium on Dec. 19, bowl officials announced today. Paul (Bear) Bryant, athletic director and head football coach of the Crimson Tide, announced Alabama's acceptance of the Liberty Bowl bid in Tuscaloosa after a vote by members of the team.

Liner Aground
GIBRALTAR (UPI) — Gale-whipped seas drove the 17,209-ton British cruise liner Braemar Castle aground near here today, but shifting sands made it appear it could safely be refloated in a matter of hours. Reports from the ship made it appear that the liner's 571 passengers and crew were in no danger. Three tugs were watching their chance to aid the stricken vessel.

Turnpike Is Topic
TALLAHASSEE (UPI) — Financial discussions involving proposed extension of the Florida Turnpike to Orlando and a proposed new state university at Boca Raton are on the governor's agenda during a four-day stay in New York this week and next, his office disclosed today.

Producer An Issue
WASHINGTON (UPI) — The Federal Communications Commission has questioned the "character qualifications" of TV producer Daniel Knight to hold half interest in a Florida radio station in view of his part in the TV quack scandals. The agency, which polices the radio-TV industry, raised the issue Monday in ordering station WGMA of Hollywood to submit a statement within 20 days as to whether Knight and co-owner Jack Barry are "qualified to own and operate a broadcast facility."

McElroy Resigns As Defense Chief, Gates Gets Post

WASHINGTON (UPI) — President Eisenhower today announced the resignation of Defense Secretary Neil H. McElroy and named Undersecretary Thomas S. Gates Jr. to succeed him.

The announcement came after a National Security Council meeting this morning at which the president presented the Medal of Freedom to McElroy "in recognition of his outstanding service to his country and his dedication to his task."

McElroy's resignation was effective today.

In an exchange of letters between McElroy and Eisenhower made public by the White House, McElroy said that "personal reasons of an urgent nature" necessitated his resignation after two years in the top defense job. He said he would leave the department with "feelings of deep respect."

McElroy, 44, plans to return to Procter & Gamble, the soap manufacturing firm he headed before joining the Eisenhower cabinet in 1957.

Word of his resignation came had come earlier today from informed sources here. McElroy had said previously that he hoped to resign by the end of the year.

The president said that he was thankful that McElroy left for his successor "a department that will continue to reflect the very beneficial changes effected under your energetic leadership."

Gates, 57, a former Philadelphia investment banker, was undersecretary of the Navy from 1953 to 1957 and secretary of the Navy from 1957 until earlier this year when he was named to succeed the late Donald A. Quarles as No. 2 defense man.

Mrs. McCarron Grid Final Champ

Final winners in The Herald's football contest are Mrs. Owen McCarron, 2614 S. Laurel Ave.; Bill Smith, P. O. Box 243, Delray, and Charles Lundquist of Country Club Rd.

Mrs. McCarron received \$15 for predicting the most winners in Thursday's and Saturday's football games. Second place winner Smith received \$10 and Lundquist got \$5.

The Herald's first annual football contest ended with last week's games after nearly 1,200 fans joined in the 11 week football forecast. Twenty Sanford and Seminole County merchants joined in advertising the contest each week while The Herald gave \$120 to the winners.

Woman Injured In Auto Mishap

Struck in the rear by a southbound auto shortly after noon today, a car driven by Abraham Rosenfield of New York City went out of control, careened across French Ave. and ran into a pile of wire hales at the corner of First St., according to Sanford police.

Firemen put out a fire in Rosenfield's car engine while the woman driver of the other auto was taken to the Seminole Memorial Hospital emergency room. Both cars were southbound. Rosenfield had stopped for a red light when the blow caused him to step on the gas and lose control of his car, police said.

Runaway Car

MIAMI (UPI) — A runaway automobile plowed into the crowded ranks of Christmas shoppers in downtown Miami Monday, killing two pedestrians and critically injuring three persons.

Balloon Data Hints Life On Venus

WASHINGTON (UPI) — New evidence of water vapor in the atmosphere of Venus has raised the possibility that some form of life may exist on that planet.

Scientists reported Monday the evidence was uncovered by instruments carried 15 miles into the atmosphere last weekend by Navy balloonist Malcolm Ross and meteorologist Charles B. Moore of Cambridge, Mass.

Dr. John Strong of Johns Hopkins University, who designed the instruments, told newsmen "the experiment in our opinion indicates there is water vapor on Venus. How much there is will take some time to determine."

The discovery, a scientific first, could upset previous belief that Venus was a dead world.

Strong refused to give a personal estimate as to whether the findings indicated the possibility of life on Venus. But asked if he felt the possibility was ruled out, he said emphatically, "no."

Many scientists believe water must be present before living things can come into being. Dr. Harold C. Urey of the University of California, for example, has said water and not oxygen is the basic substance of life.

Board Slates Hearing On New County Budget

The County Commission has set Dec. 18 for a public hearing and adoption of the 1959-60 supplemental budget.

The board hopes to approve the budget in time for the county tax bills to be mailed out Dec. 21.

The supplemental budget was set at \$1,782,000, with the millage levy at 11 mills.

Funds for general operating was set at \$304,500 with a 1.88 mill levy; fine and forfeiture, \$113,000 with a levy of .70; road and bridge, \$224,000 with a 2 mill levy; Hospital, \$105,300 with a levy of .65; School levy at 3 mills with \$310,000; health, \$19,440 and levy of .12 and capital outlay, \$105,300 with a .65 levy.

A comparison of the present 11 mill levy with last year shows quite a reduction, as the 1958-59 millage was 41.5.

The general operating levy last year was 18.5; hospital, 3 mills; schools, 20; and no levies for health, school and capital outlay.

Clerk David Gatchel presented the new budget for the board which set the Dec. 18 hearing for 10 a. m.

Cousins To Speak
Lake Mary Chamber of Commerce members will hear Cdr. Jack Cousins speak on heavy attack squadron strength at its meeting Thursday at 8 p. m. Cousins is director of training for VAH-3 at the Sanford Naval Air Station.

Altamonte Men To Run Unopposed
Altamonte Springs Mayor Lawrence Swafford and Councilmen Bill York and Homer Sewell were nominated and unopposed for reelection at a town nominating caucus last week. Newcomers to Altamonte Springs must register by Wednesday in order to vote in next Tuesday's election, according to Town Clerk Henry Hanson.

Khrushchev Fails To Pull Surprise

VIENNA (UPI) — Soviet Premier Nikita Khrushchev gave Russia's full moral backing today to the puppet Communist regime in Hungary and renewed his protests against continued Allied occupation of West Germany.

Khrushchev, addressing a wildly cheering Communist Party congress in Budapest, alternated between assurances that Russia wanted an early summit conference "at any time and place" and new accusations of West German interference in Berlin.

Though calling for peace he said, "The Soviet Union has stockpiled such a quantity of rockets and atomic and hydrogen warheads that if attacked we shall be able to raze to the ground all our potential enemies."

Khrushchev also showed that hard bargaining lay ahead at any summit conference when he emphasized "we shall never forego our ideological principles. We are waging and shall wage an implacable struggle for the Marxist-Leninist ideology, for the triumph of the ideals of communism."

He blamed the 1958 Hungarian anti-Communist revolt on mistakes in the party leadership brought on by its own denunciation of the Stalinist "cult of personality" but said "it had to be done—it was necessary to get cleaned and to throw off all the accumulated extraneous matter."

Most Hungarian sources in Vienna had predicted Khrushchev would pull a major surprise during his Budapest visit and they thought that would be the removal of Soviet troops from Hungary.

Pacific Searched For Jet Bomber

HONOLULU (UPI) — Twenty-four planes and eight ships patrolled a 91,000 square mile area today in a search for four crewmen of a jet attack bomber missing since Thanksgiving Day.

The Navy and Air Force intensified the search after a report that a dye marker and what might have been a life raft were spotted in the ocean southwest of Wake Island.

The A3D jet plane has been missing since Thursday, when the pilot, Cmdr. Francis J. Sularz, Amarillo, Texas, advised that he was lost and out of fuel. He said the crew planned to bail out.

Also on the flight were Lt. (jg) Donald Schilling, Hayfield, Minn.; Aviator Machinist Mate 1st R. C. Taylor, Nampa, Idaho; and Aviation Metalsmith 1st J. D. Dulany, Fenton, Mo.

Oviedo Candidates Listed By Clerk

Oviedo City Clerk T. L. Lingo has announced the names of candidates for the Oviedo election Dec. 8.

Mayor M. L. Gary will be opposed by Homer D. Daniels. City councilmen running unopposed are W. R. Clovis, J. Y. Harris, Ben H. Jones, Ben F. Ward Jr. and W. H. Martin. The three incumbents are Lewis, Harris and Martin.
