**Sanford man  
 gets 12 years for  
 attempted rape**

A Sanford man was sentenced Wednesday to 12 years in prison for pulling a 13-year-old Deltona girl off her bicycle, dragging her into the woods and attempting to rape her.

Robert R. Kelly, 36, was convicted earlier this year of kidnapping, attempted sexual battery and lewd and lascivious assault on a child. Kelly was sentenced Wednesday at the Volusia County Courthouse in DeLand.

Volusia County Sheriff's investigators said Kelly attacked the girl on Fountainhead Drive while she was bicycling to Deltona Middle School, where she is an honor roll student.

Less than a mile from her school, he dragged her by her feet into the woods. She was able to escape and ran out of the woods screaming.

A 76-year-old man walking on the street told deputies that Kelly came running out of the woods seconds later and yelled to him, "She's crazy!" before speeding away in his car.

The girl screamed "Help me! Help me!" as she pounded on nearby doors shortly after 8 a.m., before deputies arrived.

## Soup's on, lawsuit dropped

By Dan Ping  
 Editor

**SANFORD** — After months of contentious debate, residents of Sanford's Historic District and the director of Seminole Volunteer Enterprises agreed to a compromise that will allow SVE to operate a soup kitchen within the district.

The agreement came after a 6-hour mediation conference ordered by judge Debra S. Nelson. It allows SVE to serve 50 meals on Monday, Tuesday and Friday between 4:30 and 6:30 p.m. in

return for limiting the hours and meals served, the residents agreed to drop their lawsuit, *DeSantis vs. the City of Sanford*.

"It's a win-win situation for both parties," said Howard Marks, the attorney for SVE and its director Jean Metts.

The residents filed suit against the city claiming the City Commission violated

its Land Development Regulations by allowing the SVE Soup Kitchen to open on 407 W. 4th Street and despite the fact that the facility had no parking.

"I think the homeowners were concerned that hundreds of people would be served nightly," Marks said. "This agreement limits Seminole Volunteer

Enterprise to 50 meals nightly." According to the settlement, the agreement will be enforced by the city's Code Enforcement Board. Sanford Mayor Larry Dale said the city would not station an enforcement officer at the site, but instead would rely on spot checks and complaints by residents.

"If we get a complaint, we'll go over there and check it out," Dale said. "If there is a problem they can be fined. If there are repeat offenses, the fine can be up to \$500 per day."

## Award-winning writers to visit Hamilton Elementary School

By Bill Kerna  
 Staff Writer

**SANFORD** — When Patricia McKissack was growing up in the public housing complexes of Nashville, Tenn., never would she have suspected that she would later address students in Sanford as a nationally renowned author.

After her parents divorced, the 10-year-old Patricia McKissack moved with her mother from St. Louis to the public-housing area of Nashville. While in Nashville, she was inspired by her grand-

parents, who were also authors.

Patricia and Fredrick McKissack, an award-winning African-American, husband and wife writing team, will visit Hamilton Elementary School in Sanford for two days next week to give presentations.

They will be giving presentations, demonstrating storytelling techniques, and teaching research and writing skills. Every Hamilton student will participate in a variety of activities designed to help them become better readers, writers and listeners.

During Hamilton's first annual

Author's Night, from 6:30 p.m. to 8 p.m. Thursday, April 6, students and their families are invited to meet the McKissacks in the Multipurpose Room and hear them talk about their work as authors.

The couple will be on campus working with students throughout next Thursday and Friday.

"We are hoping this will motivate and inspire students to read more and write more," said Jean McGighan, Hamilton Elementary's Media Specialist. "Possibly, some might choose to

By Russ White

**SANFORD** — Jennifer Weldon is a Lake Mary High School senior who plans to become an attorney. Jody LeAnn Schonscheck is a University of Central Florida student seeking a degree in a Radio and TV. Summer Lynn Posey, a resident of Heathrow, is studying journalism at Valencia Community College.

All three women are vying for the title at the Miss Seminole County Scholarship Pageant Sunday.

Pageant director Martha

Yancey — supported by Sanford/Seminole County Chamber of Commerce Director Ron Rose — expects a nice gathering at the event that begins at 3:30 p.m. at the Marina Hotel on Lake Monroe. Admission is \$8 per person.

Yancey said that 16 contestants seek not only a \$2,500 scholarship to Seminole Community College but entry into the Miss Florida contest.

"Wouldn't it be something if our winner went on to become Miss Florida and Miss America?" Yancey said.

In addition to Weldon and Schonscheck, the contestants are:

Shannon Kelley, Natasha Moodie, Anne Marie Cook, Kate Manning, Allyson Leary, Jamie Vaughn, Jennifer Lanie, Kimberly Jones, Alison Bartholomew, Tobin Finwall, Julie Anne Ruhl, Kelly Whitehead, Marsha Lyle and Melissa Williams.

Yancey said that the women will be judged for their interview skills, talent, swimsuit and evening wear presentation.

Each of the women has a platform that she will share with the judges at the pageant. Posey's is safety in the sun.

### If Tampa wins bid for the 2012 Summer Olympics, Sanford facilities could be used as practice sites

By Bill Kerna  
 Staff Writer

**SANFORD** — Sanford is hoping to host swimming and soccer practices for the Summer Olympics in 2012.

Tampa is competing with eight other cities to win the U.S. bid for hosting the Summer Olympics in 2012. The U.S. bid would then compete against international bids.

A number of events would be held in Orlando, should Tampa's bid succeed. For example, some Olympic soccer matches were held in Orlando when Atlanta hosted the summer games in 1996.

Seminole County would also provide a number of practice facilities, although no venues have been set, said a spokes-

woman for Florida 2012, the committee organizing Tampa's Olympic bid.

If the bid is a success, the new Sanford Seminole Aquatic Facility at Seminole High School may host Olympic swimming practices, said Sanford Mayor Larry Dale.

"It's a first-class Olympic-sized pool, one of the few in the area," Dale said. "What better place for Olympic swimmers to practice?"

In addition, the Lake Sylvan Soccer Club in Sanford is also a potential host site for soccer practices. In 1996, Olympic soccer practices were held at the facility.

"This would bring in people with money to spend," Dale said. "It would have a big impact on our economy. There would be a lot of activity. It would fill up the hotel rooms, restaurants, retail malls, and create jobs."

Allamonte Springs, Lake Mary and other communities also have sports and training facilities that may also serve as practice sites in 2012.

In addition to Tampa, other

### Crews plant underwater vegetation in Lake Jesup

From Staff Reports

As part of its work to restore Lake Jesup in Seminole County, the St. Johns River Water Management District (SJR-WMD) and a team of volunteers will plant underwater vegetation in the lake today.

More than 3,600 plants will be planted in four areas along the lake's eastern shore within fenced enclosures that will offer protection while the plants become established. Within the fenced enclosures, the plants' roots will be inserted into mesh nets placed on the lake's bottom. The mesh net will help keep the plants in place until their roots take hold.

"This is an innovative, new approach to re-establishing submerged vegetation," said Regina Lovings, the district's project manager for the Lake Jesup restoration project. "This is a pilot project that we expect to aid in re-establishing the vegetation that is so critical to restoring the lake."

Lake Jesup is considered one of Florida's most polluted lakes as a result of decades of wastewater discharge before discharges were ceased in 1983. During the past six years, the district, and Friends of Lake Jesup, an advisory group, have worked together to identify methods of improving Lake Jesup's water quality and overall health. Past projects have included removing earthen berms that separated the lake from its natural marshes, acquiring one-third of the land around the lake for preservation and analyzing sediments and water circulation patterns.

# Hi neighbors, want to play Monopoly!

What a wretch am I to have chastised Historic Downtown Sanford's nobility. As I get to know so many of you through kind correspondence, the more I truly appreciate the pains that were taken to preserve the sanctity of your exquisite neighborhood.

Sanford's board should come from Stenstrom Brothers.

As in the original board game, there will be a Boardwalk and Park Place or Avenue. There will be no hotels. Fort Mellon Park will not be for sale. Neither will City Hall or the Post Office. Players will have the opportunity to purchase the Helen Stairs Theatre, The Bistro and Higgins House. Land on the wrong square, you will go directly to John E. Polk Jail.

Russ White

The amicable settlement to the social service center mediation on Thursday was as sunny as a bowl of lobster bisque. Five squares to everyone. There's really no way to alone for my desk job but to offer a plan to market an Historic Downtown Sanford Monopoly game. Proceeds from the sale of the game will be used to fund future litigation concerning parking variances the city might grant to some bleeding heart cause down the road.

The chance cards for Historic Downtown Sanford Monopoly will include winning a trip on the Rivership Romance, breakfast at the Colonial Room Restaurant, a hair cut at Dave's Barber Shop. However, you may need to pay \$150 for jaywalking or vagrancy. The six game pieces will be collector items in themselves — a bust from Knight's Shoe Store, a brick from the Student

Museum, a badge from the Sanford Police Department, a bust of Commissioner Brady Lessard, a Tim Laines baseball bat and a blind mosquito.

Historic Downtown Sanford Monopoly will allow players to demonstrate their abilities not only to buy properties and fix them up but to fend off pimps, prostitutes and drug peddlers. Any player falling into a pocket of poverty will lose his or her game piece. Whatever monopoly property that player held would be divided up by the others.

I'm so excited about marketing Historic Downtown Sanford Monopoly, that I'm trying to convince my bride to move into the neighborhood. We may buy an older place and turn it into a bed & breakfast. We will call it The White House.

Hope to see you good neighbors real soon. Love to get together for a cookout. By the way, we have a cuddly thasa apsa. I know — we'll use a scooper.

Russ White's column appears daily in the Seminole Herald.

## Parking lots aren't safe for kids in carts

DEAR ABBY: Yesterday at the grocery store, I observed a woman with two young children in the parking lot. While she loaded her groceries and her toddler from the cart into her van, she left the younger child (under a year old) sitting in the cart behind her vehicle.

Dear Abby

The scene brought back an incident when my own child was just a year old. I parked the grocery cart at the rear of my small pickup truck and hesitated only a moment before deciding to load my child into the pickup before my purchases. I had taken only three steps when a car pulling out of the parking space directly behind me slammed into my grocery cart hard enough that the cart dent-

ed the tailgate of my truck. Customers all over the parking lot heard the impact. Even if my child had not died from the impact, he would have been seriously — and possibly permanently — injured.

During the time that this woman took to load her toddler and groceries, the cart and the baby were out of her line of sight. Someone could have pulled up and taken her child, could have hit the cart, or the cart could have rolled into the path of a car.

Abby, please remind your readers that the most important thing in a grocery cart is your

child. Always put the child (or children) in the car first.

DIANE IN SCAPPOOSE, ORE.

DEAR DIANE: When I read your letter, the hairs on my arms stood straight up! In case other parents need this reminder: If a child is a passenger in the grocery cart, the cart should be placed beside the parent's vehicle where it's protected from traffic. And, of course, the child (or children) should be placed first in the vehicle.

## Field of dreams but no field of prayer?

On the same morning the country's Supreme Court judges talked about prayer at high school football games, they also talked about nude dancers. Six of nine judges quickly decided that a city or county has the right to cover up nude dancers.

The prayer issue has gone overtime — sudden death, perhaps.

It may take until June for the Court to bless or renounce invocations at high school football games. The debate hinges on a Sante Fe, Texas, school district ruling.

Apparently, Chief Justice William H. Rehnquist and

Justice Antonin Scalia are clearly sympathetic to students' free speech rights.

But Justices Ruth Bader Ginsburg and David Souter are opposed, saying such a policy breaches the constitutional requirement of separation of church and state.

The Rev. Paul Hoyer of Holy Cross Lutheran Church in Lake Mary has kept a close eye on what's happening in the Supreme Court regarding prayer.

When Hoyer offered an invocation at the opening of the Sanford swimming pool, he half expected someone might protest. "No one did — a number of officials

thanked me for being there," Hoyer said.

"The problem with leaving God out of our lives is that we allow room for the devil to step in," Hoyer said. "The day at the pool, I prayed that God would look over those who would use the facility and that there would be no injuries or lives lost."

"By asking God's help we cease being selfish about our lives," Hoyer said. "All we're doing is asking for protection from harm or injury. This is most appropriate for sporting events — and for that matter, government meetings and at our schools."

Recently, a mayor in Central Florida thought it would be best if the city council stopped having an invocation before it met. The council and many residents protested. Seminole

County Commissioner Grant Maloy said he will fight to keep prayer as part of the Commission agenda.

ABC TV took a news poll that indicated two-thirds of Americans think students should be permitted to offer prayers before high school football games — the same percentage of Americans said Elian Gonzalez should go back to Cuba. More people seem to be praying that Elian will stay than getting worked up about the issue of school prayer.

Hoyer mentioned how frequently he sees bumper stickers that proclaim that there will be prayer in school as long as there are public schools. "Our children are praying on their own," he said. "And we should be praying for them and for ourselves."

## 'Born again' once again making national headlines

Jesus first said it 2,000 years ago, but it wasn't until Jimmy Carter announced in 1976 that he had been "born again" that people started asking, "Born again? What's that?"

The expression began appearing in news stories about Carter after the Democratic presidential candidate mentioned casually while campaigning in South Carolina that he had once had "a deeply profound religious experience" that changed his life. He was speaking of a born-again experience.

Now, nearly a quarter of a century later, with another presidential election coming up, "born again" is making headlines again. The two leading presidential nominees — George W. Bush and Al Gore — claim to be born-again Christians. Polls show that one-third of all Americans of voting age identify themselves as "born again"; will this block of voters play a determining role in the November election?

What is it that makes a born-again Christian different from an ordinary Christian? What distinguishes the born-again Christian is that he can put his finger on the time and place he committed himself to Jesus Christ and acknowledged Jesus as his Lord and savior.

Charles Colson, President Nixon's infamous hatchet man, conversion came after he served a prison term for his part in the Watergate scandal. A friend of his — himself born again — said Colson needed a personal relationship with Christ. He suggested Colson read "Mere

Christianity" by C.S. Lewis.

A few months later, while sitting alone on the porch at his home in Maine, Colson recalls saying, "Lord Jesus, I believe you. I accept you. Please come into my life."

The experience manifests in different ways for different people. It is not always a dramatic moment. Some make the commitment while alone with their thoughts, others at a church service when the invitation is extended and confess their belief in Christ.

What are the changes that occur within the born-again Christian?

Colson says, "There came to me a new serenity, a wonderful new assurance about life. I felt old fears, tensions and animosities draining away."

Born-again Christians base their hope for salvation on their religious experience. But what happens to the two out of three Christians who haven't been born again?

Most born-again Christians stop short of saying that they are the only ones who will go to heaven. But they return to the dialogue between Jesus and Nicodemus in which Jesus tells the Jewish ruler, "Except a man be born again, he cannot see the kingdom of God."

Other Christians say baptism confers this new birth, pointing to another Bible verse that says, "He that believeth and is baptized shall be saved."

## Most Americans supplied with 'hard' water

Although the origin of the term "hard water" is somewhat ambiguous, many water experts believe that it was coined by early generations who recognized it as difficult to clean with. The cause of this difficulty is its high mineral content, specifically calcium and magnesium.

The degree of hardness or softness of water is measured in grains per gallon, or gpg. Soft water contains up to 1 grain of calcium and magnesium per gallon. Very hard water, which contains more than 10.5 grains per gallon, creates significant cleaning problems. Even moderately hard water (3.6 to 7.0 grains per gallon) can complicate cleaning. When hardness min-

erals combine with some soils, insoluble salts can form, compounding the problem and creating further impediments to good cleaning.

Soap scum buildup, bath tub rings, cloudy or spotty dishes, and faucet fixtures that appear dull and discolored are some of the signs of a hard water cleaning problem. The cleaning difficulties that hard water creates can have a significant effect on the household workload and budget because general cleaning tasks can take up to 50 percent longer and require more cleaning product.

Laundry done in hard water suffers, too. Besides the cleanliness factor, fabric more easily

are also affected, and the consequences can be costly. Minerals dissolved in hard water tend to collect in plumbing equipment and water-using appliances and systems. One study found that washing machines using hard water can wear out up to 30 percent faster, flush toilets wear out 70 percent faster, and water faucets, up to 40 percent faster.

According to the U.S. Geological Survey, more than 85 percent of the United States water supply is hard water. Municipal soft water programs are a costly solution because the systems would soften all the water, regardless of use.

For the American consumer, softening water in the home continues to be the most viable solution.

The easiest, but most expensive, home water softening method is a mechanical water softener. When water passes

through this type of system, the calcium and magnesium ions are exchanged for sodium ions. This reduces the concentration of "hard" minerals to insignificant levels.

For a free publication from our office on Water Testing and Treatment Considerations (Fact Sheet 3160) you can call our office and we'll send you this information.

Less expensive options include using warm rather than cold water, where feasible, and a slightly larger amount of detergent or cleaning product than recommended. Also avoid overloading the washer or dishwasher.

At laundry time, items should be sorted carefully; stains should be pretreated. Thoroughly dissolve the detergent (especially powdered detergents) in the wash water, and then add the soiled items, to soften the water and allow the detergent more effectively.

a water softener or detergent booster, such as borax or washing soda, can be added along with the regular detergent.

To discourage spotting on dishes and glassware, use a rinse agent. It will help water sheet off dishes faster, so surfaces dry quicker and remain spot and film free.

To remove heavy, cloudy hard water film from dishes, use a film and spot remover, according to the package directions, or follow the dishwasher manufacturer's instructions precisely.

The latter may use agents such as ascorbic acid or citric acid. Because these can cause rust, be sure to remove flatware and other metal items from the dishwasher. To get rid of hard water deposits inside the dishwasher, use a lime scale remover.

When cleaning hard surfaces, including porcelain,

chrome and glass, prevention is the best solution.

Wipe these surfaces dry with a sponge or soft cloth.

Otherwise, when the water evaporates, it will leave the hard water minerals behind. These minerals build up to form the hard water crust that often occurs on kitchen and bathroom fixtures. Use a cleaning product specially formulated to remove lime, calcium and rust stains. Specialty lime cleaners can also remove rust stains from toilet bowls and hard water deposits that clog a showerhead's water holes.

### 'Florida City' now shooting

From staff reports

POLK CITY — Feature film movie-making is once again under way in Central Florida.

One currently being filmed at Fantasy of Flight in Polk City is set to be called "Florida City".

The story surrounds a small town Florida police chief who is investigating a string of murders in early December 1941. Through a series of unrelated clues, his investigation leads him to a local Air Force base where he comes across information that proves the U.S. Government knew well in advance of the attack on Pearl Harbor.

Recently released government classified documents have indicated that President Franklin D. Roosevelt and many military leaders were aware of the attack, but felt something drastic was needed to sway American public opinion away from its isolationist movement before it was too late to stop the advance of the German and Japanese war machines.

The movie features Zen Gesner, who starred in the Adventures of Sinbad, and Jeannette Arnette, recently in the Oscar nominated film "Boys Don't Cry." Also playing a lead role in the film is former University of Florida football star James Bates.

In addition to the professional film making organization, students in the Valencia Community College film department will be allowed to work alongside the film makers in the major theatrical release production.

There is no immediate indication regarding when filming will be completed or when the movie may be released.

U.S. cities competing to host the summer games in 2012 include Cincinnati, Los Angeles, San Francisco, Dallas, Houston, New York, and Washington, D.C.  
State legislation creating a contingency Olympic Games guarantee account fund was unanimously approved in the Florida House, Business, Development and International Trade Committee and the Senate Fiscal Policy Committee on Wednesday.  
The legislation creates a special contingency fund between of up to \$175 million. The United States Olympic Committee (USOC) requires a government financial guarantee in the event of a deficit.  
"This legislation sends a very strong message to the USOC on how serious Florida is about hosting the 2012 Olympic Games," said Representative Randy Johnson (R-Orlando), House sponsor of the bill.  
Johnson said that the fund would not likely be used. The legislation would only require funding of the contingent guarantee fund in the event that Florida 2012 is designated as the U.S. Candidate City for the 2012 Olympic Games. This guarantee would be required only after the organizing committee assumed the first \$25 million of potential liability. Eligible funding sources include incremental revenues generated by the Olympic Games, a transfer from the state working capital fund, direct appropriations or a combination of each. The state would only be obligated to create the fund after certification is completed and filed with the USOC.  
If Tampa is not selected the Host City, or after the conclusion of the Olympic Games, all funds in the guarantee account would be returned to the general revenue fund.

## Playoff spots on line tonight

By Dean Smith  
SPORTS EDITOR

LAKE MARY - It all comes down to one game.

Nice 'N Easy pulled off the upset of the season, while Blue Haven Pools and Mace Aluminum kept alive their playoff hopes as the City of Lake Mary Department of Parks and Recreation Men's Friday Night Polar Bear Slow Pitch Softball League played its second to the last week of the regular season last week at the Lake Mary Sports Complex.

Nice 'N Easy clinched the No. 2 seed for the playoffs and ended Fairway Jeep's undefeated season in smashing fashion, using a seven-run top of the first inning to kick start its offense on the way to a crushing 21-2 victory.

Mace Aluminum gave itself a chance to make the playoffs and kept Hill's Gang from clinching a berth by holding on for a 15-11 upset victory.

Blue Haven Pools also kept its hopes alive and ended M.T. Muggs' chances by doubling the score, 22-11.

Fairway Jeep fell to 9-1 with the loss but still secured the top seed for the playoffs, while Nice 'N Easy improved to 7-2 and locked up the No. 2 seed.

## Stenstrom wins slugfest, title

### Acree, Hardy combine for 11 RBI as Stenstrom Realty tops Wolfys, 29-22

By Dean Smith  
SPORTS EDITOR

SANFORD - Two of the top slow pitch softball teams in all of Central Florida hooked up in a good old fashioned slugfest at Pinehurst Park Thursday night and when the final out was recorded Stenstrom Realty Incorporated stood on top of the mountain with a 29-22 victory over Wolfys.

Stenstrom Realty Incorporated had seen its slugfest-winning streak come to an end last week and in the process missed clinching the Championship of the City of Sanford Recreation and Parks Department Men's Thursday Night Polar Bear Slow Pitch Softball League, forcing a winner-take-all contest last night.

And what a game it was as the two teams combined for 51 runs on 52 hits that also included eight home runs, one a grand slam, four triples and five doubles.

Wolfys actually only led once, 3-0 after the top of the first inning, but it never let Stenstrom Realty have much breathing room.

With the game tied at 9-9 entering the bottom of the second inning, Stenstrom Realty Incorporated took the lead for good on one solo home run by Keith Acree and then added two more runs to the lead.

Wolfys cut the margin to 12-11 in the top of the third inning, but then Stenstrom Realty Incorporated exploded, sending 18 batters to the plate, collecting 13 hits, including three home runs, and scored 13 runs to grab a 25-11 lead.

Wolfys answered with six runs in the fourth inning and five runs in the fifth inning to close to within 25-22, but Stenstrom Realty Incorporated,

which went scoreless in the fourth inning, scored the game's final four runs, while Wolfys went cold, seeing six of its final seven batters retired, to finish off the victory.

The final standings in the league were: Stenstrom Realty Incorporated (20-2), Wolfys (18-3), Play It Again Sports (7-3), Brian's Lawn Maintenance (5-5) and Smith Equipment and the R.S.C. Regulators (both 1-8).

Providing the offense were:

Stenstrom Realty Incorporated: six hits - Keith Acree (6 for 6, including a home run and 2 RBI), five runs, five RBI; four hits - Raymond Mack (home run, two triples, double, five runs, three RBI), Greg Hardy (home run, triple, three runs, six RBI), Orlando Burnside (home run, double, two runs, three RBI), three hits - Dale Peters (home run, double, four runs, three RBI), Nakhia Roberts (three runs, two RBI), two hits - Roger Jefferies (run, three RBI), Myrel Reed (run, RBI), Tony Smith (two runs), one hit - James Garner (two runs, RBI), one run scored - Arthur Barnes, Steve Dennis also played.

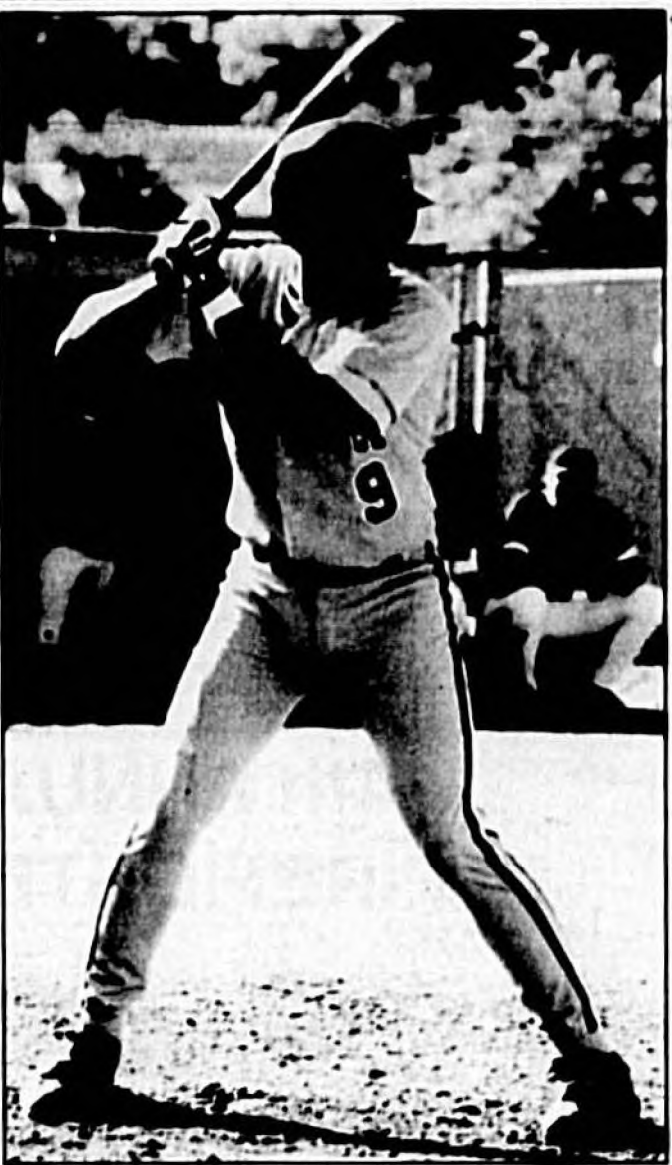

Wolfys: four hits - Keith Denton (home run, three runs, RBI), Jerry Beyone (five runs, RBI), Richie Cobb (four runs, two RBI), two hits - Tony Cornell (grand slam, triple, run, four RBI), Jerry Goetzale (home run, two runs, six RBI), Cory Reome (double, two runs, five RBI), one hit - Ken Perkins (three runs, RBI) and Mark Hoffman and Dave Freisner (one run scored each). Clancy Wallace also played.

Wolfys	29	2	22	21
Stenstrom Realty Incorporated	22	5	29	21

Keith Acree had the biggest night on a night of outstanding performances, going 6-for-6, with a home run and a double, scored five runs and drove in five to lead Stenstrom Realty to the Thursday title.

## BACK HOME AGAIN....

Former Sanford Recreation Department baseball league and Seminole High School star Alex Acosta got to play again at Historic Sanford Memorial Stadium on Monday and Tuesday as he

and his No. 4 nationally-ranked Embry-Riddle Aeronautical University teammates played a pair of games with No. 14-ranked Birmingham-Southern College on Flinker-Stenstrom Field.

By Dean Smith  
SPORTS EDITOR

SANFORD - While he may not have been humming the tune "Back home again in Indiana", you could forgive Alex Acosta if he changed the words to "Back home again in Sanford."

The former Sanford Recreation Baseball League and Seminole High School star got to relive some old memories when the senior

infielder and his mates from Embry-Riddle Aeronautical University in Daytona Beach played a pair of games with No. 14 Nationally Ranked Birmingham-Southern College on Flinker-Stenstrom Field at Historic Sanford Memorial Stadium on Monday and Tuesday.

Acosta, a 6-foot-1, 180-pound middle infielder, transferred to Embry-Riddle last year after a stellar two-year career at Pulk Community College in Winter Haven.

Last year Acosta and the Eagles advanced all the way to the NAIA National Tournament and this year the squad is 28-10 and ranked No. 4 in the nation.

If you happen to be around Historic Sanford Memorial Stadium during the day you could have the opportunity to see some college baseball played as several programs from up north are playing daily under the warm Florida sun in Sanford.

## Melillo, Patriots defeat DeLand

By Dean Smith  
SPORTS EDITOR

DELAND - Kevin Melillo went 3-for-4 with a home run and a double and drove in three runs as the Lake Brantley Patriots outscored the DeLand Bulldogs, 8-6, in district baseball action on Wednesday at Conrad Park.

Bryan Smith chipped in with a perfect 3-for-3 evening that included two doubles and two RBI, as the Patriots improved to 9-11 heading into an important Seminole Athletic Conference and district matchup with Lake Mary at Lake Mary High School tonight at 7 p.m.

Also chipping in for Lake Brantley were Rickie Weeks (double, RBI) and Driggers (2-for-4).

Greg Moreira came on in relief of starter Scott Myers in the fourth inning and picked up the pitching victory, raising his personal record to 3-4.

In another district game, Chris Maher hurled a two-hit shutout as Winter Springs blanked Lake Howell, 5-0, on Wednesday.

Maher saw his record go to 3-2 as Andrew Huff drove in a run with a double, while Cook was 2-for-3 and Brad Stephenson, Erik Schultz and Evan Starcher each drove in a run.

The Bears are now 11-8 on the season, while the Silver Hawks, who got a double from Scott Napierata, fell to 11-9.

Things did not go as well for Seminole Athletic Conference softball teams on Wednesday as both Lake Brantley and Lake Howell fell on the road.

The Patriots (5-11) were edged by DeLand (7-8), 7-5, despite a 2-for-4 performance from Lacy Harrelson and a triple from Laurin Wroten.

The Silver Hawks (7-9) was the

## Lake City rallies past SCC in baseball

By Dean Smith  
SPORTS EDITOR

SANFORD - The Seminole Community College baseball was well on the way to an important Mid-Florida Conference victory

at Raider Field on Thursday. Then an error opened the floodgates for Lake City Community College and it took advantage for a 5-2 victory.

The Raiders took a 2-1 lead in the bottom of the fourth inning on back-to-back

home runs by Ben Johanning and Adam Shorts.

The Timberwolves, who scored a run in the top of the first inning, tied the game in the top of the fifth inning on an RBI single by Nestor Rivera.

The score was still tied at 2-2 entering the top of the eighth inning and Eugene Ribley looked to be in good shape as he struck out Lake City's lead-off batter in the frame. But that runner reached when See SCC, Page 28

# Burkhalter rebounds to win Super Late Model feature at Speedworld

By Dave Westerman  
Special to the Herald

**BITTLE** - It was a rags to riches night for Chuck Burkhalter at Orlando Speedworld Friday. Burkhalter was leading the second modified heat when his engine expired. Undaunted, the

Mt. Plymouth driver came back to lead flag to flag in the Super Late Model feature, his first ever in the class at Speedworld.

Burkhalter's Don Pain and Body/Ken Golby Construction Chevy was pressed hard the entire distance by Orlando's Ronnie Roach who tried every move in the book to make the pass, coming

up short at the line. Burkhalter had much praise for Roach in his victory lane interview saying Roach drove a good clean race while making him work hard for his win. Travis Kittleson drove the Bob Steele Chevrolet Monte Carlo to third place ahead of Boaty Boatwright and Bob Delmastra.

The Super Late Model heat was the scene of a scary wreck when Justin Drawly and Jeff Emery tangled with Drawly's car smashing full throttle into the wall on the driver's side. Drawly was shaken but able to walk away from his demolished car while Emery was also done for the evening.

The Central Florida Septic Late Model of Mike Murphy was in the winner's circle for the second week in a row except that Scott Bramlett was behind the wheel this week. Bramlett passed Ricky Wood's Ford T-bird early in the going and he never looked back. Wood held on for second in front of Larry Osteen, Tim Laurent and Kenny Crites.

Popular Chad Petce made his debut in the class driving a steady race in his new machine which is sponsored by Discutto & Gravy of New Smyrna. Auto Parts of Tall, and Lee Patterson Supply.

Modified action saw Jason Boyd in victory lane. Boyd was pressed early by Brooksville's Philip Kessler but Kessler spun his Florida Auto Auction of Orlando car while trying to lap a slower car. Boyd ran to a relatively easy win over 180 Hunt

Champ Gary English, Frank Doby, Jim "Head" Flynn and Randy Lewis.

Kelly Jarrett and his Toyota again dominated the Mini-Stock class leading most of the event for his third straight win. Jarrett, who will retire his Corolla and move into the Sportman Division in 2-3 weeks, outdistanced Tim Clark, Jamie Dixon, Peanut Green and Mike Mitrain.

Doug Samton also won his third consecutive Sportman feature with an amazing last lap charge. Samton was racing for the lead with Bobby Gonzalez and Tommy Johnson when the three tangled with two laps to go sending all three to the rear of the field. Russ Shaw took over the top spot and looked to be headed to the win until second running Richard Light spun out of second spot as the white flag came out. Caution flew again setting up a one lap dash to the checker. Samton got a great jump from his spot in the pack and passed three cars just nipping Shaw at the line for the win. Shaw claimed the runner-up slot ahead of Tommy Johnson, David Myer and Kenny Wilson.

Mike Peppler held off a determined Duane Freed to take the Super Stock win, his first of the new season. Finishing third through fifth were Fred Peters, Bill Loomis and Bob Wines. Betty Jo Hall topped Don Moore in the new Strickly Stock class feature.

the SCC firstbaseman dropped the throw from the catcher and the Timberwolves runner went to second.

Ribley looked like he might get out of the inning undamaged when he struck out the next two batters, but Jon Chappell advanced to third on a wild pitch and scored the go-ahead run on a single by Javier Mersloza.

Ricardo Rondon then followed with a single and both runners advanced on a wild pitch before scoring on a single by Scott Ward.

Doing the damage for Lake City, which improved to 24-9 overall and 8-8 in the conference, were Nestor Rivera (3-for-5, RBI), Javier Mersloza (2-for-4, run, RBI), Jon Chappell (1-for-4, run, RBI), Victor Rosario (1-for-3, two runs), Scott Ward (1-for-3, two RBI), Ricardo Rondon (1-for-4, run) and Jaime Germaine and Seth Miller (both 1-for-5).

Jay Zierach was the winning pitcher, scattering five hits and striking out seven to raise his record to 10-2.

Providing the offense for the Raiders were Adam Shorts (3-for-4, home run, double, run, RBI), Ben Johanning (1-for-4, home run, run, RBI), Todd Babj (1-for-4).

Ribley suffered the tough defeat, giving up only two earned runs on 11 hits and seven strike outs to see his record fall to 0-8.
