HOROSCOPE By BERNICE BEDE OSOL For Tuesday, October 25, 1977

YOUR BIRTHDAY Oct. 25, 1977 Creative and artistic ventures are favored for you this coming year.

ARIES (March 21-April 19) A good sense of humor and a philosophical outlook are your attributes today.

TAURUS (April 20-May 20) There's something you're doing today. It's escape the trap, call the desired results, get off it now.

GEMINI (May 21-June 20) Follow your better judgment and your instincts today.

One Reading Not Enough DEAR DR. LAMB - I am 56 years old and feel just great. However, I was in a department store last week and had my blood pressure taken for a dollar. The attendant said it was just a little high. I live on a pension and cannot afford to go to a doctor all the time to have this problem checked.

DEAR DR. LAMB - I have a low cholesterol level from 225 to 228, but I have been told that I have bad circulation in my legs and they ache every morning. Is there anything I can do to reduce the hardening in my arteries?

DEAR READER - Your description of your legs aching in the morning bothers me. Leg pains from poor circulation are more apt to occur with exertion, although it is true that in some disorders of circulation muscle cramps can occur without exertion.

School Officials Paving Way For Midway Integration Move

By MARVYN SHEEDAN Herald Staff Writer At the start of the 1978-79 school year 137 white students from Goldboro and Pinecrest Elementary Schools will begin attending Midway Elementary, a school now made up almost entirely of black students.

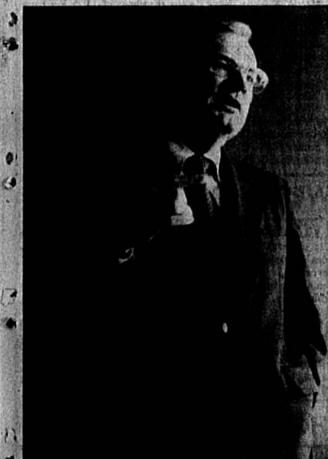

yet," Roberts said. "I would suggest parents go to the school, examine the plant, look around." Roberts said he is concerned about children having to ride buses to school. "We had no buses when I walked past several schools to get to Grooms," remembered Roberts.

William Layer, principal at Midway, said he is pleased with Judge Young's decision that Midway may be integrated at the start of next school year.

Police Reach Accord The Casselberry City Council at a special 7:30 p.m. meeting Wednesday will consider a Florida Fraternal Order of Police (FOP) recommendation for personnel of its police department.

During a workshop portion of the meeting, the council is to discuss a contract with Reliable Garage Service, the franchise service serving the city.

Gubernatorial Candidate Addresses Sanford Group Williams Blasts Shevin, Campaign Heats

LT. GOV. JIM WILLIAMS

'The Lord has not told me to run. I haven't heard a word from Him and I talk to Him frequently.'

Will the successful packing by Democratic gubernatorial candidate, Attorney-General Robert Shevin, of the delegates to the Democrats' min-convention in Orlando in November help or hurt his campaign for his party's nomination?

Sets Public Hearing Sanford Seeks Smelting Plant Solution

The Sanford City Commission Monday night set a public hearing for 7 p.m., Nov. 21 to "try to find a meeting of the minds" between spokesmen for Keller Industries Inc. and Silver Lake residents, opponents of Keller's plan to locate an aluminum smelting plant in their neighborhood.

A slide presentation by City Engineer Mack LaZebny, who had visited the Millford, Va., site of another Keller plant, appeared to little to change the opponents' mind about the cleanliness of a similar smelting operation.

William Butler, another resident, said the estimate that 20-25 persons would be employed at the plant is inflated.

Protesters Seize Statue Of Liberty

NEW YORK (UPI) - Two Puerto Rican nationalists today took over the Statue of Liberty in New York Harbor in demand for Puerto Rican political prisoners, the U.S. Coast Guard said.

NATION IN BRIEF

All Employes Under SS? That's Crux Of Hassle

WASHINGTON (UPI) — State and local governments are fighting a proposal that all their employes be brought under compulsory Social Security coverage, but representatives of the employes are fighting just as hard for the proposal.

Energy Tax Bill Fight Looms

WASHINGTON (UPI) — Legislation granting \$40 billion in energy-related tax breaks over the next eight years headed for the Senate floor today, with liberals preparing a battle to kill most of its tax credits and incentives.

The Senate bill, far from the energy tax bill first proposed by President Carter, would rely on tax credits and other incentives to encourage conversion to fuels other than oil and gas or to become more energy efficient. It contains no tax increases at all.

'Take Shots Or Stay Home'

DETROIT (UPI) — Health officials promised to bar up to 12,000 elementary school students from class today because they did not get the state-mandated inoculations against childhood diseases.

Crosby Leaves \$150,000

BING'S LEGACY: The will of Bing Crosby, who died Oct. 14 at the age of 74 following a round of golf in Spain, has been filed for probate in Redwood City, Calif. It leaves his widow, Kathryn, a cash gift of \$150,000 — and other gifts totaling \$250,000 to various friends and relatives, his church and Gonzaga High School and Gonzaga University where Crosby attended school in Spokane, Wash. His will leaves no money to his children, putting the bulk of the estate in a private trust fund for their benefit. The testament disinherits anyone who tries to contest it.

WORLD IN BRIEF

Young: Let's Sanction South Africa Regime

UNITED NATIONS (UPI) — U.N. Ambassador Andrew Young says he favors imposing some form of sanction against the white government of South Africa to force it to yield to international pressure for racial reform.

Young made the remark Monday after African U.N. delegates, angered by a South African crackdown on black dissent, demanded a comprehensive arms and economic embargo against Pretoria.

Young said he, too, favors sanctions against the minority regime, but he said this was his personal view, with a final decision up to Secretary of State Cyrus Vance and President Carter.

Bird Shot Routs Protesters

JOHANNESBURG, South Africa (UPI) — Police fired tear gas and bird shot and charged with batons Monday to break up protesters triggered by a tough government crackdown on dissent.

One black youth was wounded, 66 were jailed and 14 official vehicles were set on fire.

Arab Buying Fun Ship

PARIS (UPI) — The good ship France, the world's largest, luxury liner, will be turned into a floating hotel or a seagoing amusement park by its new owner, Saudi financier Akram Al-Khouri.

Al-Khouri, chairman of the Compagnie Generale Maritime, the state-owned shipping line, said Monday Ojib's bid was \$200 million for the 6,240-ton ship which was built and set in service in 1974. The ship was built for the French government.

Al-Khouri said he would like to see the ship used as a floating hotel or a seagoing amusement park by its new owner, Saudi financier Akram Al-Khouri.

Arab Foreign Minister Slain-By Mistake

BEIRUT, Lebanon (UPI) — A gunman today shot and killed the foreign minister of the United Arab Emirates during an attempt on the life of Syrian Foreign Minister Abdel Halim Khaddam in the Doha, Arab news agencies reported.

Before surrendering to authorities, the unidentified assassin swapped gunfire with police, seized seven hostages and sought refuge in a parked

car. The Qatari agency said the gunman was arrested at 1 p.m. local time (8 a.m. EDT) and the three suspects were taken into custody.

Abu Dhabi authorities closed the airport to traffic and barred journalists from the area.

The Qatari Agency first reported that an unknown number of assailants fled to the

Czech cargo jet "to protect themselves," but later said "one person attempted to kill Khaddam. He was arrested, and the persons held aboard the Czech plane freed."

On Dec. 1, would-be assassins on a motor scooter riddled Khaddam's car with bullets in Damascus, but only wounded him in the arm.

Khaddam's current mission was to deliver messages to the various rulers from Syrian

Cheryl Wiets, community counselor at the Sanford office of 4C (Community Coordinated Child Care), talks with Mrs. Bridgette Bradley and family. The 4C of Central Florida Inc., one of 17 agencies served by the United Way, helps low-income mothers pay child-care bills.

Altamonte Boy, 16, Nabbed In Market Burglary Try

By BOB LLOYD Herald Staff Writer

Sheriff's deputies, aided by a citizen and Altamonte Springs police, early today apprehended a juvenile burglar suspect after a plate glass window was smashed at a store in southeast Seminole.

Deputies said area residents witnessed the burglary attempt and notified authorities at the Beverly Way Food Store, 834 and Sand Lake Road. One citizen used his car to follow an auto that was leaving the store about 1 a.m.

Deputy Ron Gilbert said officers intercepted the suspect's car at Lake Brantley High School and arrested a 16-year-old Altamonte Springs boy for attempted burglary.

The juvenile suspect was taken to the Seminole Juvenile

Detection Center at Sanford. Deputies said the youth told them he used a pair of barbed-wire defense weapons, wooden sticks with a connecting thin, called non-chunks to break one window. The non-chunks were confiscated by deputies, according to sheriff's reports.

The juvenile also was cited for driving without a license. NEW TRUCKS

Deputies said today that an auto burglar in south Seminole may have a few new tricks today. Mickey Lee Bernard, 28, of Sorrento Apartments, Howell Branch Road, told officers that

'40 Years Of Work; My Whole Life Is Gone'

SEATTLE (UPI) — San Francisco gun dealer Victor Nash had \$1 million worth of unexpired Jewish titles from him at gunpoint in broad daylight on a busy downtown Seattle street and in front of dozens of witnesses.

Nash said the robber had jumped into his car, pointed a gun at him and ordered him to drive away. But Nash leaped from the car at a stoplight while he was still in the city's downtown section.

"I realize that this and my grandpa's coat and I parted away from him and fell on the ground," he said. Nash, president of International Gun Shows of San Francisco, "And I started screaming."

County jail records indicated Nash was arrested by Patrolman Mike Tindel, in connection with the slaying of Ralph Serrano at D & O

Dr. and Mrs. James McGrath of 111 Main St. The Land Planning Agency and the Florida Historical Preservation Society will be asked to appoint representatives to the commission.

Council approved the signing of a lease contract between the city and Florida Residential Development, directors of the city's housing program.

Jury Hung In Case Of KKK Rammer

AMERICUS, Ga. (UPI) — A Sumter County jury of six whites and six blacks reported itself deadlocked today in the trial of Buddy Cochran, charged with ramming his sports car into a Ku Klux Klan rally in Plains, and returned to the jury room for further deliberations.

"I feel like we have to the best of our ability searched in all areas and cannot reach a verdict," jury foreman Theima Beachamp told Judge William F. Blanks of the Southwest Georgia Judicial Circuit.

Blanks ordered the jury to continue deliberating on eight charges of aggravated assault against Cochran. Having failed to reach a verdict in more than six hours of deliberations Monday, the jurors returned to the jury room at 9:35 a.m.

In the case's closing arguments, defense attorney Robert Bryan urged the jury to send the 26-year-old Americus mechanic to a state mental hospital rather than jail "to find out what makes him tick."

But District Attorney Claude Morris argued that Cochran attacked the rally while legally intoxicated.

"Mr. Cochran went there looking for trouble and when he couldn't find any, he created it himself," Morris said.

About 30 persons were injured in the president's hometown of Plains July 2 when Cochran's sports car rammed the speaker's platform and spectators at 8 p.m.

The defense contended "something snapped in Buddy Cochran's mind as he was leaving the rally in his sports car."

But Morris produced a statement he said the defendant signed five hours after his arrest which said he told a bystander before he crashed into the crowd, "Watch what I'm going to do."

The lawyers differed on how Cochran's experience as a Vietnam veteran affected him at the rally.

"At that rally, he created a fire in Buddy's mind and he blew out the windows. You can tell the judge with your verdict — put him in that state hospital and let's find out what makes him tick. Your verdict can't undo what has been done, but we can find out why."

Morris, however, noted "many thousands of American boys went to Vietnam and returned and did not commit acts like this."

Bryan also compared the atmosphere in Plains to the atmosphere that led to the murder of Dr. Martin Luther King Jr.

"The same sickness that pulled that trigger in Memphis was there in Plains that night," Bryan said.

The slaying of Buddy told he was surrounded by the Ku Klux Klan. "You can tell the judge with your verdict — put him in that state hospital and let's find out what makes him tick. Your verdict can't undo what has been done, but we can find out why."

Chester, England (UPI) — A grateful village Monday served from prison a young policeman who stole \$225 from police funds in order to feed his family.

Villagers at Waverley, near Chester, praised the excellent work David Roberts, 24, had done while he was their local policeman and a court gave him a six-month suspended jail sentence.

Roberts admitted taking the money from the Chester Constabulary's fund of license fees and fines. He resigned from the police force.

His lawyer told the court Roberts, gross pay after eight years as a policeman was only \$98 a week which, after taxes and bills, left him less than \$70 a month to feed himself, his wife and child.

FLORIDA IN BRIEF

Court Blocks Senate Action Against 5 Officials

TALLHASSEE (UPI) — Senate consideration of what, if anything, to do about the refusal of five senators to obey the Sunshine amendment has been put off indefinitely.

The Ethics Commission was enjoined by the 1st District Appeal Court Monday from forwarding to Senate President Lew Brantley a finding of probable cause to believe the lawmakers breached "the public trust" by refusing to file net worth statements.

Going To School Has Rewards

MIAMI (UPI) — Going back to school will have its rewards for truant students at Brownsville Junior High and Douglas Elementary — T-shirts, yo-yos, hamburgers and frisbees.

The gifts to boost attendance are part of a novel experiment developed by Robert Davie, a school-community liaison officer for Dade County. Teachers with the best attendance records in the two schools also will receive prizes — free gasoline, record albums and dinners. The gifts, donated by local merchants, will be handed out next month.

No End Seen In Strike

BAL HARBOUR (UPI) — Hopes for a quick end to the 25-day-old dockworkers strike, which has shut off containerized cargo shipments from Maine to Texas, have collapsed.

Wayne L. Horvitz, director of the Federal Mediation and Conciliation Service, Monday afternoon called an indefinite recess to negotiating efforts to obtain a new contract for members of the International Longshoremen's Association from East and Gulf Coast shippers.

Garbage To Electricity Tried

MIAMI (UPI) — Dade County will seek state authorization Nov. 2 to finance a \$100 million project to turn 3,000 tons of garbage per day into electricity.

"We hope to have approval to sell the bonds and obtain the permits for the plant in about four months," said Dennis Carter, a special assistant to the county manager.

Slaying Similarities Seen

DADE CITY (UPI) — Police sources say the slaying earlier this month of a Fort Lauderdale woman is similar to at least three other unsolved slayings in the Tampa Bay area, as a special team of investigators sifts through evidence in a dozen murders.

Mrs. Emily Ellen Grieve, 38, was reported missing Oct. 10 by her sister in Tampa. She last was seen at a bus stop in Tampa, headed for a north Tampa motel where she was reported to have gotten a job as a maid.

PEOPLE

Newspaper Fires Simon; 'Political' Aims Cited

United Press International SIMON FIRED: William E. Simon served as secretary and energy czar under Presidents Nixon and Ford, but his journalism career never really got off the ground. Simon has been fired — "asked to resign" is the way publisher Leonard Saffir puts it — as chairman of the board of The Trib, New York's newest newspaper. Saffir says Simon was hired in the first place only because he was "a financial man," but that he's been out campaigning for Republican candidates and trying "to gain editorial and financial control of The Trib for political purposes." A spokesman for Simon calls that charge "ludicrous."

Can't Kiss, Gets \$15,700

COST OF A KISSER: A British High Court has assessed the price of a kiss at \$15,700. That's the damage award granted Mrs. Virginia Spiegel, who says she can't enjoy them anymore — not since an automobile accident scarred her face, and left her with no sensation in her lower lip.

Polanski: Head Checked

SANTA MONICA, Calif. (UPI) — Filmmaker Roman Polanski, awaiting sentencing for having sex with a 13-year-old girl, escaped an immediate trip to jail, but must enter prison for psychiatric tests in eight weeks.

Polanski was ordered Monday to explain what he was doing in a Munich beer hall when he was supposed to be in Tahiti filming his latest movie.

In Winter Springs Council Race

Candidates: What Are They Really Like?

Daucher: 27 Penney Years

After 27 years as an executive with the J.C. Penney Co., Bill and Frances Daucher chose Winter Springs as their home during their retirement years.

While inspecting Penney warehouses in Orlando, Jacksonville and Miami, Daucher flew the length of the state by private plane and noted the particular beauty of Central Florida with its many lakes.

During his years with the Penney Co. he had traveled all over the United States, opening stores, and overseeing construction of shopping centers. He also gained experience with the nationwide firm in purchasing a full-time administrator, merchandising, market analysis, traffic studies, architectural design and zoning as related to planning and development of Penney stores.

A New York state native, he and Mrs. Daucher have been residents of Winter Springs for the past three years. They have two daughters, Patricia and Kathleen, and eight grandchildren. The children and grandchildren live in Mt. Dora so "we can see the grandchildren as frequently as we wish," Daucher said.

In addition to his grandchildren, Daucher considers golf and all kinds of sports his hobbies, but also enjoys hunting and fishing. He has his past work with junior achievement.

He is charter president of the Winter Springs Sertoma Club, which sponsors programs dedicated to the youth of the community.

The Sertoma Club, he said is going to support financially junior police by providing uniforms and shoulder patches and is forming a "Sertoma Club" for boys and girls 13 through 18 years old. The new club, patterned after the Sertoma's "Service to Mankind" theme, will choose its own projects and method of financing them, he said.

Daucher, a member of the city's board of adjustments, said he is not in a position to know whether the city needs a full-time administrator. "Only the incumbents know the intricacies" of that issue, he said.

It will take study before a decision can be made on whether the city should purchase the privately owned and operated water and sewer utility serving the community, he said, adding his interest is in the people's water and sewer needs be provided as economically as possible.

Daucher's view is controlled growth, a happy mixture of business enterprises, located in the right spots and continuation of the city as a bedroom community. "There is also a need for recreation facilities for youth, adults and the older segment of the community where each has something to do, he said.

Dodge announced the name change at a news conference attended by a half dozen reporters at a downtown hotel. He said the party's legal name is going to be a different name in some states, such as Alabama and Kansas, it would still be listed under the label "Prohibition Party."

Party officials and members were asked to pick from three names — the National Statesman Party, the Good Government Party and the Family Protection Party.

"This move is really an experiment," he said. "If we see that a different name combined with the same principles greatly increases our vote, we will probably make a permanent and national change at our 1978 convention in Birmingham, Ala."

Dodge said the party has a broad platform and has sponsored such areas as women's suffrage, direct election of U.S. senators, child labor laws and a peacetime volunteer army.

"We do advocate prohibition," he said, "but only when a substantial majority of Americans support that view."

Girl Scouts Never Faltered

IRVING, Tex. (UPI) — Their hands grew tired and awey, but the 16 Girl Scouts never faltered.

Members of Girl Scout Troop 1644 joined hands at sunrise Saturday and did not let go until 37 hours later. They said they were expressing symbolically that the world needed unity and understanding on the eve of United Nations Day.

Jean Smith of Irving, massaging one of the girl's shoulders during the two-day ordeal, said the troop hoped for a byproduct: a hand-holding mark in the Guinness Book of World Records.

The scouts joined hands at a ceremony at the University of Dallas in Irving. They went by van to the World Trade Center, where they were met by the Irving City Council members and then to a sidewalk at North Lake College.

Judges tied their hands together Saturday night at the South MacArthur Church of Christ where the scouts slept.

DAUCHER

Logan: Busy With Disney

Employed as a foreman for E.C. Goldman Inc., a roof and sheet metal contractor, Burt Logan's labors for the past several years have been centered at Disney World.

Last year he received an award for his craftsmanship at the Disney World Shopping Village and a letter of commendation from the Disney firm for architectural sheet metal work he did at Space Mountain there.

Logan sees as the city's most important need "five independent councilmen." He said until the situation "drastically changes," until the city has some commerce and industry and the population increases, the city cannot afford to hire a full time administrator.

Of the possible purchase of the privately owned and operated water and sewer utility serving the community, he said it must be looked into much further than it has been before any intelligent decision can be made and see no advantage to the city in purchasing it at this time.

Logan said he is running a low-budget campaign, trying to meet as many people as he can, knocking on a lot of doors.

The family enjoys weekend fishing trips around the state to the east and west coast. They have been residents of the community for five years. He is a high school graduate, a veteran of three years in the U.S. Army, is past president of the Hacienda Village Home Owners Association, past master of the Masonic Lodge and a member of the Royal Order of Moose and the Federation of Middle Home Owners of Florida.

2 Candidates Vie For Seat 2

By DONNA ESTES Herald Staff Writer

Two candidates, Bill Daucher, 62, of Morree Loop; and Burt Logan, 39, of Hacienda Village, remain on the Winter Springs City election ballot, Nov. 8, for the Seat Two post on city council.

Profiles of the other candidates were presented in The Sunday Herald. Incumbent Ernest Hendrix has announced his withdrawal from the race to devote more time to his family.

Neither Daucher nor Logan has ever run for public office.

Also on the ballot in the election are candidates for the office of mayor and Seat Four on the City Council. A charter amendment changing the time new officials assume office from January to the "first Monday after the first of December," this year being Dec. 5, also is on the ballot.

This year's city election is the first to be held in November, in line with a charter change approved by the voters in last year's city election.

Rolling places for the election are the Moss Road fire hall and the Tuskwilla fire station. Absentee ballots, which may be returned up until Election Day, are now available at city hall, said City Clerk Mary Norton. Eligible voters total 2,004.

Human Rights And Detente

A year or two ago, Western diplomats were wondering whether their policy of detente could help improve the individual rights of people behind the Iron Curtain. Since then, the question has been turned around. Can the West try to advance the cause of human rights in Communist countries without harming detente?

The reason, of course, is that President Carter's strong stand on human rights — especially his gestures of implied support of dissident groups in the Soviet Union early in his presidency — upset the Russians to the point that strategic arms negotiations and other aspects of detente seemed to be threatened.

The atmosphere at the Belgrade Conference on European Security and Cooperation suggests that the answer to the new question is yes. The Helsinki agreements of 1975, which are being reviewed, may remain goals difficult to attain, but East and West seem to have found the basis for a dialogue on human rights issues. At the same time, arms negotiations and other contacts between Moscow and the West are taking their own separate course.

True, Mr. Carter has been more general than specific in his public statements on human rights since the sharp rejoinders from Moscow early this year. But at the same time he has picked up allies among Western European diplomats to defend the principle that expressions of concern about human rights in another country should not be considered "intervention" in its domestic affairs, as the Russians had complained.

Even France, which had been especially worried that Mr. Carter was rocking the boat of detente, appears to have swung around. The French delegate at Belgrade joined speakers from Sweden and The Netherlands in strong statements urging that "the principle of non-intervention must be clearly not serve as a pretext for avoiding carrying out the commitments" in the Helsinki agreements.

The Belgrade agenda is ambitious. We can expect wrangling from the Communists over the interpretation of the Helsinki commitment to more open borders, free exchange of information and other relaxation of Iron Curtain atmosphere. But the tone of the rhetoric so far has indicated that the delegates from the East are sensitive to the now-united voices from the West demanding more than lip-service to the Helsinki principles.

A good index of that sensitivity came from Moscow, where President Leonid Brezhnev struck an uncommonly defensive note in his speech to the Supreme Soviet before ratification of the new Soviet constitution. That document is hardly the Bill of Rights which the Kremlin makes it out to be, since its enumeration of the "rights and liberties" of citizens is followed pointedly by the statement that they are all subject to being overruled by the interests of the state.

But the fact Mr. Brezhnev devoted so much of his speech to countering the West's criticism of how the Soviet Union treats its people is ample evidence that some tender nerves have been struck.

Detente has a long way to go, whether viewed in terms of controlling the arms race or introducing some fresh air into closed Communist societies. It is an accomplishment, however, that the contrast between human rights in the West's liberal democracies and in the so-called "socialist republics" of the East is being discussed at high levels of diplomacy.

Around

The Clock By MARVYN SHELDON

Seminole Community College is once again encouraging just about anyone interested in just about anything to come to the school and learn.

The new Leisure Time Program has opened for registration, with 20 different classes starting between Nov. 1 and Nov. 17.

Classes are open to anyone 16 years old who wants to get a bit of time and a little bit of money into learning something new.

People wishing to see exactly what is available may call the college (323-1450, ext. 302) and ask to be placed on the mailing list for Leisure Time Classes.

Until you receive your list, consider the following possibilities of "things you always wanted to learn but never got around to":

Christmas arrangement and wreath workshop; emphasis is on making and coordinating Christmas arrangements: wreaths, mantle pieces, trees, etc. for the home and for gifts. Students will learn how to make bows, proper mechanics such as "diamond dust," glitter and lights.

Or if making wreaths is not your forte, how about ESP—Applied Awareness. According to the Leisure Time Program bulletin, "this course is designed to help the student use special techniques and exercises to solve problems that have their roots at the subjective levels of experience." Discussions in class will touch upon the existence of extra sensory perception, clairvoyance (seeing things that happen some where else in the world); precognition (knowing ahead of time that certain things are

going to happen); and other "paranormal" activities.

Then there are classes in yoga—beginner's in structure, Kundalini yoga, a technique to develop and maintain physical and mental health through exercise and meditation.

Then there are classes in printmaking, hand-writing analysis, and five different classes in tennis. And if none of those appeal to you, how about checking out the latest Community Services Program courses: six programs beginning between Nov. 8 and Nov. 8 with "Multi Media First Aid" costing only \$6 and all the rest costing only \$10.

Community Service Courses include Women in Management; Creative Aggression Workshop for couples; Assertive Training for Women; Speed Reading; Women Interested in Further Education. Registration for all courses is being accepted now, and students are encouraged to register as soon as possible.

ANGLE-WALTERS Georgia Banking Revisited

WASHINGTON — Perhaps Bert Lance was right. Maybe we Yankees just don't understand how bankers do business in Georgia.

That tentative confession is inspired by the recent disclosure of a highly disturbing set of circumstances involving three Georgia banks, including the second biggest in the state.

Lance's legacy is to be a tightening of those states, there is no more suitable place for the legislators to begin looking than the First National Bank of Atlanta and its parent company, the First National Holding Corp.

The Bank Holding Company Act, a federal statute, has long required that a holding company which seeks to acquire control of additional banks must first secure the approval of the Board of Governors of the Federal Reserve System.

Back in 1968-70, the Atlanta bank found a way to circumvent that law as well as a Georgia statute which flatly prohibited any holding company in the state from controlling more than one bank.

In March, 1968, a \$2.7 million interest-free loan from the Atlanta bank enabled one man to purchase virtually all of the common stock of the First Bank of Savannah, 250 miles southwest in Savannah, Ga.

In April, 1970, slightly more than a year later, both the Savannah bank shares and the loan were transferred to Ben S. Gilmer, who happened to be the former chairman of the executive committee of the Atlanta bank's board of directors.

The unusual loan was structured so Gilmer assumed no personal liability for the debt. In addition, Gilmer's interest payments were exactly equal to the dividends paid by the Savannah bank stock.

Involved in a virtually identical case was the First National Bank of Dalton, 60 miles northwest in Dalton, Ga., a community not far from Lance's home town of Calhoun, Ga.

In January, 1969, four present and former directors of the Atlanta bank signed an agreement to buy shares in the Dalton bank from a trust established by major stockholders of the smaller bank.

The exceptionally favorable financial arrangements were similar to those in Savannah. The Atlanta directors received large loans from their bank, enabling them to purchase 30 per cent of the outstanding Dalton bank stock between 1969 and 1970.

Officers of the Atlanta bank have served on the board of the Dalton bank and the Dalton bank and his immediate predecessor both came to that job from officerships at the Atlanta bank.

The Atlanta bank also orchestrated similar arrangements for the purchase of large blocks of stock in four other small banks, all in DeKalb County, part of the Atlanta metropolitan area.

He chopped and chopped but it grew higher and higher

VIEWPOINT Treaty Loss Could Mean A War

By BOYD LEWIS

The Panama Canal could be the "last ditch" of the Republican Party and a tragic trap for the United States.

Conservative leaders who have taken the lead to deny Senate ratification of the proposed treaty with Panama have shouldered responsibility if the treaty goes down to defeat. What are those consequences? They are so terrible that some observers should think that rational leaders would consider risking them.

The principal risk would be another no-win for a nation not yet healed from the one in Asia. Turn down the canal treaty with Panama and we have no alternative but to hang on by military force.

Only a military fanatic could argue that we could defend the 80-mile wide Canal Zone which snakes across the isthmus. It would be naked to attack by every weapon from internal sabotage and small arms fire to artillery and rockets.

Obviously, our troops could not dig in among the canal installations and civilian dwellings, schools and hospitals. Military necessity would demand that they widen the area of defense by invading Panama itself on both sides of the Zone.

The Canal, with its delicate system of locks, would of course be closed by the first shot. Any ship in its waters would be a sitting duck.

Can anyone imagine that such an invasion would be tolerated by the other nations of Latin America? Our aim support in the United Nations would dissolve. Our national conscience would be outraged and another great anti-war movement would rise the country.

With the canal closed and contested, civilian employees would have to be evacuated. We would really "lose" the Canal, not just restore operational responsibility and control over many years and with many casualties to the rightful owners of the real estate through which it was dug.

Those who cry out to repudiate the treaties, negotiated across four administrations, cite "pride." They say that retention of the Canal has somehow become entangled with America's patriotism. Of course we are, individually and as a nation, proud of the way we built the Canal after the French failed and how we have run it efficiently for ships of all nations ever since.

True we are a bit reticent about the manner by which Teddy Roosevelt grabbed the land. He set up a puppet Panama Republic when Colombia, which originally owned the territory, refused to deal. In the words of that master seafarer, Senator S. I. Hayakawa of California, "We stole it, fat and square."

But pride must not blind national leaders to the consequences of a failure to ratify the treaties, consequences which those who respond to the polls are not qualified to measure.

What is it that pride goes before...? In the words of the Old Testament (XVI, 18): "Pride goeth before destruction, and a haughty spirit before a fall."

AP ANALYSIS Israel's United Front

JERUSALEM (AP) — With a new look of political stability, Prime Minister Menachem Begin's expanded coalition in parliament presents a more united front in Israel's dealings with the Arabs.

Though few changes are foreseen in basic Israeli policy, political analyst say Begin is likely to take a more determined stance as President Carter presses U.S. efforts to resume the Geneva peace conference on the Middle East.

Begin's coalition — his own Likud group, two religious parties and two independents — held a shaky 63-seat majority in the 120-member Knesset until Thursday, when the centrist Democratic Movement for Change (DMC) decided to end five-months' holdout and add its 15 seats to the ruling alliance.

The move gives Begin the elbow room on domestic and foreign affairs that he sorely lacked since winning the May national elections.

"We are now facing the toughest test we've faced since 1948" when Israel became a state, said DMC leader Yigal Yadin. "Therefore we must help the government... or else we won't survive."

After Begin's right-wing Likud defeated the entrenched Labor party in May, Israel's looked to the DMC to join the government as a moderating influence on Begin's tough approach to peace and his resistance to retroactively captured Arab territory.

The Likud-DMC coalition talks broke down, but suddenly on Thursday the DMC, with Yadin

clinging an "approaching crisis" with the Carter administration, accepted a union.

The DMC move was an astonishing victory for Begin, a newcomer to power, and virtually ensures a long life for his government.

"Begin now has what gamblers call a split," said a source close to the prime minister. "He can manipulate the odds so he can't lose. If any party drops out he still has a majority."

Political and international circumstances have changed since May, and Yadin will have less influence on foreign policy than he might have had if the DMC had entered the government at the start.

Begin and Foreign Minister Moshe Dayan have formed a strong team that dominates foreign policy, and it is unlikely Yadin can break into this two-man circle.

Letters to the editor are welcomed for publication. All letters must be signed, with a mailing address and, if possible, a telephone number so the identity of the writer may be verified. The Evening Herald will respect the wishes of writers who do not want their names in print. The Evening Herald also reserves the right to edit letters to eliminate libel or to conform to space requirements.

The House investigations subcommittee may set the institute to a special report describing what action needs to be taken against cancer-causing substances. The institute, however, is expected to refuse. The subcommittee plans to hold hearings soon on the institute's activities.

BOYCOTT BARRIERS: The Commerce Department appears to be seeking a way to possibly a violation of U.S. law.

Last year, congress barred business from competing with the Arab boycott of Israel and asked Commerce officials to draft regulations to put the law into effect. But congressmen complain that the regulations contain loopholes large enough to drive an oil tanker through.

The sources say the language of at least half a dozen provisions would either completely or partially exempt Israel from the law.

Legislation, however, that would bar the Commerce Department from investigating the institute's activities is expected to pass.

The report, labeled "restricted," blasts the EDA for overlooking the issue to Kentucky Georgia Metal Co. for an aluminum recycling plant. EDA's foreign ownership was disclosed on the last occasion, but agency officials did not act on the report because the overseas owner could not be reached for report charges.

The report, by Sen. John Moore, D-Ore., says the EDA has a long history of overlooking the institute's activities. The report also says that the institute's activities are being used to justify the law in the first place.

'Foliage' Holds To Wholesale Prices

Dolly Pate, owner of Lake Brantley Foliage, insists on keeping the prices of her plants at "wholesale prices to the public."

Lake Brantley Foliage was started last August in the Mini-Warehouses in Unit 536-1 on SR 434 north of SR 408, Altamonte Springs (Forest City). The business was started last August.

All varieties of plants and some trees are stocked for purchase. Dolly says, "If I don't have a plant a customer wants, I'll get it!" Several evergreens are stocked including the Norfolk Island pine, Silver oak trees are in stock now and Lake Brantley Foliage has had palms in the past few weeks. And there is a variety of hanging baskets in addition to the many sizes, and variety of plants. One just has to see what's there to appreciate all and at reasonable prices!

Lake Brantley Foliage will repeat plants if the customer bases his or her own pot. They will also deliver yet do not plant.

Working with Dolly are her daughter, Madelyn Folsang and friends, Madelyn and Alline McLeod, partners.

Lake Brantley Foliage is open Mon.-Sat. 9-7 and Sundays, 1-5; convenient hours for those wanting to buy plants, evergreens and trees. Do stop by to see all. Remember this is the time of year when it is right to give a plant for Christmas. Dolly, Madelyn, Alline or George will be more than happy to help you make the selection for that special person or for your home or yard. Plenty of parking, too, off the main highway. — ADV.

Have Dave's Do Your Upholstering

Folks, somehow, want their homes spruced-up for the holiday season and part of that is upholstery and re-upholstering. The place to have the work done is Dave's Upholstery, in the Mini Warehouse, Unit 536-1, SR 434 north of SR 408, Altamonte Springs (Forest City).

Dave Fulsang has been in the upholstery business for the last eight years on a part-time basis while he was stationed at Parris Island, S.C. in the U.S. Marine. Last summer he switched to fulltime upholstery and part-time Marine (Reserves).

He opened his shop Sept. 2, which is housed in the same building as Lake Brantley Foliage, returning to Central Florida where his and his wife, Madelyn's, family reside. Dave and Madelyn are graduates of Lyman High School, Class of '68. Dave was a football star in those days and Madelyn, a majorette.

Dave Fulsang, owner of Dave's Upholstery, with chair he's re-upholstering.

In the upholstery business now, Dave and Madelyn will welcome their classmates and their families and friends to the holidays. Dave's Upholstery today 862-1600 for quality upholstery. — ADV.

Patek: Life Goes On

NEW YORK (UPI) — When last seen by more than 20 million TV viewers, little Freddie Patek looked like the most forlorn figure in the world.

The camera showed him sitting there all by himself in Kansas City's cold, empty dugout, his head bent almost to his knees, his customarily unflinching spirit utterly crushed and his long overworked body of every playing in a World Series lying in pieces at his feet.

He has expressed every last ounce of energy and vitality out of his compact 4-foot-4, 160-pound frame, done everything humanly possible to carry the Royals on his back into the World Series with a superb overall offensive and defensive performance.

He hammered out seven hits, including four doubles and a triple, in the five playoff games with the Yankees, driving in five runs and hitting .200, and now it was all over for him and his ball club.

Freddie Patek, who has never been in a World Series, was so close to one, he could taste it.

Leading by one run in the ninth, the Royals needed only three more outs. But the Yankee came back with three in the top of the ninth, an inning in which Patek suffered a deep laceration to his left leg when Reggie Jackson barreled into him at second base.

Freddie Patek, who has never been in a World Series, was so close to one, he could taste it.

At the time, it was the worst thing that ever happened to me," he says. "It will hurt, but life goes on. You can't let it eat you up. You have to forget about it."

Patek says he went back and sat in the dugout after the game as over because he wanted to compose himself, pull himself together.

"The frustration I felt had nothing to do with the double play I hit into," he says. "A lot of different things run through my mind. I thought of how I worked all year for something and now suddenly it was gone. I kept thinking this was the second time we had been there and the second time we had lost in the ninth inning. Playing in a World Series is something I dreamed about since I was a boy. The money doesn't mean anything to me. I was playing for the ring. I would've liked to see it with a world champion ball club one time. When you get that close and it slips away, you don't know whether it's your last chance or not. I felt I'd never get another chance. I hope I'm wrong."

Now Patek finally returned to his teammates after sitting by himself in the dugout. Dr. Phil Sawyer, the Royals' team physician, had to put six stitches in his leg where he had been splined by Jackson in the top of the ninth. Some feeling excited between the Yankees and Royals stemming back to the second game in which Bill McTear bowled over Willie Randolph at second base, an incident which may have precipitated the three-way, quick-kicking incident.

In each of the last two Howell games, O'Leary has boomed off good quick kicks.

Each traveled a good distance — 40 and 41 yards — and did it quickly as possible.

When he goes, Freddie Patek usually carries a bible with him. He reads it continually during and after the baseball season. He doesn't drink or smoke, and when that final game with the Yankees was over, he went out with some friends of his and they stayed up until four in the morning, just making small talk and having breakfast together.

When the World Series came along, Patek watched it on TV. "I was glad to see the Yankees win," he says. "I think the Dodgers pitching staff did a job of pitching to Reggie. If you pitch him inside with men on base, he's going to go to the opposite field. They made a lot of mistakes on Lou Piniella. You've gotta stay in pretty good form. The way the Dodgers pitched him, one pitch had no purpose in setting up the next one. The same thing that hurt us with Mickey Vernon hurt them. With two strikes on him, you don't have to throw him a good pitch. He'll swing at a bad one, but with two strikes, they always laid throwing him good pitches."

With two strikes on him, you don't have to throw him a good pitch. He'll swing at a bad one, but with two strikes, they always laid throwing him good pitches."

When the World Series came along, Patek watched it on TV. "I was glad to see the Yankees win," he says. "I think the Dodgers pitching staff did a job of pitching to Reggie. If you pitch him inside with men on base, he's going to go to the opposite field. They made a lot of mistakes on Lou Piniella. You've gotta stay in pretty good form. The way the Dodgers pitched him, one pitch had no purpose in setting up the next one. The same thing that hurt us with Mickey Vernon hurt them. With two strikes on him, you don't have to throw him a good pitch. He'll swing at a bad one, but with two strikes, they always laid throwing him good pitches."

SEMINOLE COACH ROGER BEATHARD ENLIGHTENS SPECIALTY TEAM MEMBERS

They're Putting The Word 'Foot' Back Into Football

By DAN HUTLEDGE Herald Correspondent

It seems like Seminole County football teams are getting an extra kick out of playing this year.

In other words, local high school teams seem to be following a trend that has been showing more and more in the past few years — more stress on the importance of the "foot" in the word football.

It's not just the word, but the action. In times past, kicking was not overly stressed by high school coaches — and with the advent of the two-point conversion rule (for running or passing), it became strategically sound not to rely solely on a place kicker.

But it worked out better against Daytona Mainland (last final playoff game with the Yankees).

At the time, it was the worst thing that ever happened to me," he says. "It will hurt, but life goes on. You can't let it eat you up. You have to forget about it."

Patek says he went back and sat in the dugout after the game as over because he wanted to compose himself, pull himself together.

The frustration I felt had nothing to do with the double play I hit into," he says. "A lot of different things run through my mind. I thought of how I worked all year for something and now suddenly it was gone. I kept thinking this was the second time we had been there and the second time we had lost in the ninth inning. Playing in a World Series is something I dreamed about since I was a boy. The money doesn't mean anything to me. I was playing for the ring. I would've liked to see it with a world champion ball club one time. When you get that close and it slips away, you don't know whether it's your last chance or not. I felt I'd never get another chance. I hope I'm wrong."

Now Patek finally returned to his teammates after sitting by himself in the dugout. Dr. Phil Sawyer, the Royals' team physician, had to put six stitches in his leg where he had been splined by Jackson in the top of the ninth. Some feeling excited between the Yankees and Royals stemming back to the second game in which Bill McTear bowled over Willie Randolph at second base, an incident which may have precipitated the three-way, quick-kicking incident.

In each of the last two Howell games, O'Leary has boomed off good quick kicks.

Each traveled a good distance — 40 and 41 yards — and did it quickly as possible.

When he goes, Freddie Patek usually carries a bible with him. He reads it continually during and after the baseball season. He doesn't drink or smoke, and when that final game with the Yankees was over, he went out with some friends of his and they stayed up until four in the morning, just making small talk and having breakfast together.

When the World Series came along, Patek watched it on TV. "I was glad to see the Yankees win," he says. "I think the Dodgers pitching staff did a job of pitching to Reggie. If you pitch him inside with men on base, he's going to go to the opposite field. They made a lot of mistakes on Lou Piniella. You've gotta stay in pretty good form. Grimsley's Sports World

By WILL GRIMSLEY

Only The Fans Get Violent

The Wonderful World of Sports: It was a basketball game between the Los Angeles Lakers and the Milwaukee Bucks. As is sometimes the case, physical contact intensified between the rival centers.

At least with the Los Angeles Rams, and, at that probably means the rest of Namath's career.

In his second start of the season, Haden was simply sensational Monday night — throwing two touchdown passes and scrambling for a third in the opening half — in a 35-3 blitz over the proud Minnesota Vikings.

At that point of the season, the Rams had a wobbly 9-2 record after a 1-6 pre-season and, suddenly, there were all kinds of questions about the perennial NFC West powerhouse.

Haden directed the Rams to a 16-7 win over New Orleans in his first start, hardly an impressive team performance against a non-contender.

But against a team that has been in the Super Bowl four times under Bud Grant and a club that has beaten Los Angeles twice this past three years in NFC title games, the Rams were sensational.

Haden gave the Rams a 21-0 halftime lead with a 7-yard touchdown scamper with just 4:22 gone in the game and scoring strikes of 2 yards to tight end Charles Young and 9 yards to a diving Harold Jackson in the second quarter.

At least, I hope so. "At least, I hope so." Colonial successfully used a quick kick against the Seminoles Friday.

In the third quarter, after the missed field goal that could have turned the game into a penalty major distance pass. Another coach sought to steal his minions by biting off the heads of live frogs.

As the late Vince Lombardi once said, "Winning isn't the only thing — it's everything."

Baseball carries on, almost unchanged. Only the fans get violent.

During the World Series last week, this conversation was overheard between two ladies queuing up at a cash register in a big department store.

"Bucky Dues! The name of the Yankee shortstop," the companion replied.

"Is he a good man?" "Sure, he must be 27 or 28 years old."

"This was the best I understood about the World Series," the confused woman said. "All these silly little boys named 'Bucky' Willie ... Reggie ... Catfish. Why don't they have grown-up names?"

"I don't know," the other lady said. "Even the managers. One is called Billy and the other Tommy."

"I still think it is the coming contact sport, and may be when it gets going a little stronger I might get back in it. But right now I am interested in concentration on my boxing."

The last time Perez had a comeback it was highly successful. In 1971 he quit the ring for three months. Thirteen months, after his return, he was the Southern junior middleweight champion and was ranked No. 10 in the country by Ring Magazine.

Two days after his fight for six months, before he was manager of the band of AT&T, play it in short pants and football-looking cap. The game field seems to reduce them to their childhood.

They have and fight, the kids on the corner. They harbor petty jealousies. They collide on the base paths and come up swinging. They do things they couldn't think of doing in the locker room.

Unlike football and hockey, where competitors are covered with armor like ancient knights, baseball players have their emotions laid bare before the live crowd and TV cameras.

You can see Sparky Lyle shift his chair of tobacco before a vital kick. Reggie Jackson tense his muscles before a home run try, Bill Martin how his stick to an umpire.

The joy, the disappointment, the sweat — it's all there out in the open to see.

Miller misses Bus, fined

DENVER (UPI) — There was only one person missing from the Denver Broncos' victory over the Cincinnati Bengals Sunday at the Denver Coliseum.

The missing person was Bronco head coach Dan Miller. He was so happy with Denver's 24-13 victory over the Bengals, he said he doesn't even mind paying the fine.

Miller said he missed the buses after the game because he was busy signing autographs for fans outside Cincinnati's stadium. The team buses left the stadium with only a few minutes to go.

The Broncos' victory ended the Seminoles' overall mark for the year, now 9-4. It raised their conference record to 7-4.

The Seminoles will play a three-way match at St. Leo, Fla., Wednesday.

The third team will be Manatee.

SCC returns home Friday, hosting a four-team affair.

HOROSCOPE

By BERNICE BEEBE O'GIL.

For Wednesday, October 26, 1977

YOUR BIRTHDAY Oct. 24, 1977. There's a possibility that you'll form some interesting and productive partnerships this coming year. Where you have previously been a loner, you may benefit greatly from tandem associations.

SCORPIO (Oct. 24-Nov. 22). One-to-one relationships are a critical area for you today. You may find you have trouble even with those you usually get along with. Find out more about yourself by sending for your copy of Astro-Graph Letter.

TAURUS (April 20-May 20). Independence is a noble virtue, but today you have to strike a balance in one-to-one relationships, to assure others you care about them, too.

GEMINI (May 21-June 20). The possibilities for personal gain are good today, but make sure the price is worth the return. Don't swap integrity for silver.

CANCER (June 21-July 22). Social complications may arise for you today if one in the group tries to run the show. You won't sit back and take it.

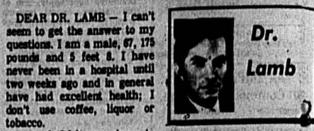

LEO (July 23-Aug. 23). Should you have a run-in with a person in authority today, you'd be wise to back off a bit, even though you may be right.

LIBRA (Sept. 23-Oct. 23). You must feel the input is equal in any joint ventures involving money today, otherwise you'll feel you're being taken advantage of.

SPIDER-MAN by Stan Lee and John Romita. THE COUSIN OF SPIDER-MAN! AFTER HIS FIRST SUCCESSFUL LAUNCH, THE FOLLOWS THIS BEHIND IN AN AMBITIOUS SCHEDULE.

DOORBURY by Gerry Trudeau. AND YOU WILL BE HUNGRY FOR THE CHANGES THAT WILL COME FROM A COUPLE MORE COMING TO THE TABLE.

Heart Attacks: The Silent Killer

DEAR DR. LAMB -- I can't seem to get the answer to my questions. I am a male, 67, 175 pounds and 5 feet 8. I have never been in a hospital until two weeks ago when I generally have had excellent health. I don't use coffee, liquor or tobacco.

Recently I felt a numbness in my arm, so I had a complete physical, brain wave tracing, electrocardiogram and the works. I was told I was in excellent health and nothing was amiss. One day after receiving this report I suffered a heart attack and am waiting to learn if I will need a bypass operation. Wouldn't some phase of this complete physical examination indicate some warning of a clot formation?

What warning sign might be looked for in case of a future attack? Apparently numbness is not sufficient. DEAR READER -- "I think I've heard that song before. Many people don't seem to realize that heart disease is a 'silent killer.' You may not have a single symptom, even numbness, before the heart attack strikes. A healthy appearing man in his middle 40s may suddenly crumple over with chest pain and be dead in minutes. That is why people simply must have a preventive program. When the first sign or symptom is an attack causing death, it is too late to do anything about it.

Also it doesn't make any difference what or who is at the hospital if you are dead on arrival. The best doctors and facilities in the world will not help them.

The frequency of this problem is why I recommend that all adults should learn how to aid a victim of heart attack. You simply do not know when it is going to happen, even after a good medical examination.

Victim's Son Shot, Held In Slaying Man Beaten To Death, 2 Cops Shot

Seminole sheriff's deputies John Hawkins, left, and Rudolph Kramer, right, were shot by a murderer suspect early today at Sanford, Fla. William H. Hogan, below, returned the suspect's gunfire.

By BOB LLOYD Herald Staff Writer

A 30-year-old Sanford man has been charged with murder in the beating death of his father and attempted murder in the shooting of two sheriff's deputies early today. The suspect, Ernest Payne, was wounded by deputies in a brief gunbattle at the Payne residence at 1111 Second Drive, Roseland Park subdivision east of Sanford.

Dead is Thomas Payne, 68, of 1111 Second Drive, Roseland Park subdivision east of Sanford of injuries sustained in a severe beating, according to sheriff's deputies. Ernest Payne, 30, who lived with his parents at the Second Drive address, listed in fairly good condition in the intensive care unit at Seminole Memorial Hospital from gunshot wounds, he was shot at least three times in the arm, leg and stomach, deputies reported.

Sheriff's deputy John Hawkins, 27, listed in fair condition at the hospital, wounded in the neck and then shot at pointblank range while lying on the ground beside his patrol car, according to authorities. Sheriff's deputy Rudolph Kramer, 36, in fair condition at the hospital, a former Orlov detective who joined the sheriff's

Family Tried To Get Murder Suspect Committed, Page 5A

department only three weeks ago, suffering from an impact wound in the abdomen. He was wearing a bulletproof vest that was credited with saving his life.

Mrs. Ross Payne, 67, wife of the slain Thomas Payne and Ernest's mother, in fairly good condition, suffering from a possible heart attack, according to sheriff's deputies. The incident occurred at 1 a.m. today during a "domestic-type disturbance," according to a sheriff's spokesman.

Sheriff's investigators said Payne's father died at the hospital after being severely beaten at his home. Sheriff's spokesman John Spolaki said deputies went to the Payne residence at Roseland Park, east of Summerlin Avenue, Sanford, after Sanford police relayed a call from a 13-year-old boy that the elder Payne had been injured in a family fight.

Chief Deputy Duane Harrell said deputy Hawkins, a former state probation and parole officer who has been with the sheriff's department as a deputy for 13 months, was the first officer to arrive at the Payne residence. Hawkins was trying to send a fight between Ernest Payne and his father, deputies said, and had gone outside the house to the street when Ernest Payne grabbed Hawkins' 387 magazine service revolver from his holster and shot Hawkins, Spolaki said.

Hawkins was wounded in the neck and then shot in the back at pointblank range while he was on the ground beside his patrol car, according to deputies. His protective vest stopped the second bullet.

Kramer arrived as back-up officer and tried to aid Hawkins, firing at Payne and reloading for help. Lt. William H. Hogan said he arrived to see Kramer standing over Hawkins and a man on the opposite side of the patrol car firing a pistol.

Hogan said Kramer was felled by a shot and Hogan also exchanged shots with the gunman. Hogan wasn't injured and chased the suspect to the rear of the residence where he fell to the ground and was handcuffed.

Deputies said Ernest Payne was shot "at least three times" and wounded in the right arm, left leg and stomach. Spolaki quoted Dr. Thomas Lergen, saying that there is no

...there is no question that the bulletproof vests worn by Kramer and Hawkins saved their lives.

UF Waiting For Funding Mosquito Control Study Ready For Implementation

By DONNA ESTES Herald Staff Writer

The University of Florida Entomology Department will initiate and conduct a research program for the control of blind mosquitoes in Sanford, if funds are forthcoming, Dr. John Darby told a special "task force" committee of the Greater Sanford Chamber of

Commerce Tuesday. Dr. Darby, director of the university's Institute of Food and Agricultural Sciences, Agricultural Research and Education Center at Sanford, and a member of the task force committee for the eradication of the midges, said details of the long term research proposal should be available in a couple weeks.

He said Dr. Fowden Maxwell, chairman of the university's entomology department, and he will be working with the task force committee to develop funding to support the research project. Dr. Darby said both state and federal funding is available.

Darby said Dr. Maxwell has had one planning session with Dr. Donald Hall, assistant medical entomologist at the university and Dr. Richard Patterson, associate medical entomologist currently stationed in Gainesville. Dr. Patterson was formerly the head of the Department of Health's blind mosquito laboratory in Winter Haven. He and his group conducted research for three or four years in the Winter Haven area when the blind mosquito was severe around the chain of lakes located in that area.

Edith Harrison (fourth wheelchair from the left) was winner this morning in kick-off 'wheelchair' race promoting the Golden Age Olympics, Nov. 7-12. Mrs. Harrison was overall champion in last year's Olympic. ("Sanford Herald," New Film For Industry, Page 2-A).
