

OVER THE TOP TODAY, MEN! SEMINOLE COUNTY TO CELEBRATE LIBERTY DAY

BLOCKED SUBMARINE CHANNELS

English Bottle Up Subs in a Hobson

London, Eng., April 25.—The British naval forces today raided the German submarine bases of Ostend and Zeebrugge, the admiralty announces. Five old cruisers, which had been filled with concrete for use in blocking the channels were run aground, blown up and abandoned by their crews.

The statement follows: "Early this morning a naval raid was made on Ostend and Zeebrugge, which are being used by the enemy as destroyer and submarine bases. Our forces are returning and the scanty information so far received is to the effect that the raid met with a reasonable measure of success.

"With the exception of covering ships, the force employed consisted of auxiliary vessels and six obsolete cruisers. Five of these cruisers, filled with concrete were used as block ships and after being run aground were in accordance with orders blown up and abandoned by the crews. A further communique will be issued when reports have been received from the ships, which are now returning to their bases."

In all probability the entrance to the Bruges canal has been blocked effectively in consequence of the naval raid. Sir Eric Geddes, first lord of the admiralty announced today in the house of commons. The result of the whole operation, Sir Eric said, was regarded as very successful.

The casualty to British craft, Sir Eric said, were one destroyer and two coastal motorboats sunk and two launches missing.

While the operation was in progress British parties were landed to distract the enemy. The officer who developed the scheme of attack was killed.

Storming parties were landed on the mole from the cruiser Vindictive. The casualties to the personnel, said Sir Eric were heavy in comparison to the number engaged. An enemy destroyer was torpedoed at Zeebrugge.

Two of the blockading boats were sunk at the entrance to the Bruges canal. The piling beside the mole at Zeebrugge was blown up by an obsolete submarine, filled with explosives.

Mothers of Soldiers

It would have repaid anyone to have braved the elements on Monday evening in order to hear Mrs. Marie Mecca Varney, one of Chautauqua's noted speakers.

Dignified, cultured, devoted to the highest ideals, she showed herself worthy of the commendation bestowed by the public press.

In regard to the temperance feature the lecture was replete with statements verified by profound scientific research.

As the mother of an aviator in the American army it was easy for her to speak to "Mothers of Soldiers," and her appeals were eloquent, inspiring and impressive. Would that the womanhood of our broad land would follow this noble leader to the lofty height of her grand ideals!

Holland May Break

The British foreign office, according to the London Daily News has learned that the relations between Holland and Germany are very strained. The dispute about the supply of gravel from Holland to Germany was said to have been the cause. Official and diplomatic circles in London were said to look upon the situation with uneasiness. Rumors were that something in the nature of an ultimatum had been

delivered to Holland by Germany. The Handelsblatt says recently it was believed Germany would use communication facilities through Holland, even at the risk of war if she believed victory could be thus obtained on the western front. It said that Germany looked with disfavour upon the seizure by America and Great Britain of Dutch shipping in their ports.

The Völkerrund says an agreement has been reached on the point which caused friction between Holland and Germany, but that the old dispute containing the transport of sand and gravel to Germany continues to be a stumbling block. Germany desires to resume the practice of shipping gravel through Holland but the Dutch government offers objections on the grounds that new circumstances have arisen.

Etta C. Graves
Etta C. Graves was born July 17th, 1864 at Big Cane, Louisiana and died April 10th, 1918 at Sanford, Florida. She was buried at Osteen, Florida, beside her husband, P. Z. Graves.

The funeral services occurred from the home on Palmietto avenue at 10 o'clock, Rev. Hilburn of the Methodist church officiating, deceased being a life long member of the Methodist church.

The pall bearers were J. K. Mettlinger, J. H. Mussen, J. E. Spurling, C. O. Bradbury, A. J. Connelly and A. B. Champell. Mrs. J. K. Mettlinger and Mrs. Claude Herndon rendered Beautiful Isle of Somewhere, and Solo in the Arms of Jesus at the funeral and the floral offerings attested to the esteem in which the good lady was held in this community.

Seven children survive their mother, four boys and three girls, and mother instead of being their saint on earth will be their saint in heaven.

CURB MARKET WILL START IN SANFORD

Demand By Producer and the Consumer

The idea of the curb market is again taking root in the minds of the people here and that the curb market will resume business at the same old stand will be good news to producer and consumer alike. Mrs. Berry is taking a most active interest in the curb market and has the following very interesting article on this subject:

Our curb market will re-open on Tuesday, April 30th, at 7:30 a. m. in the same place occupied by the market wagons last year, and it is expected to prove as popular and successful as during the season of 1917.

It will be open two mornings of each week—Tuesdays and Saturdays.

In addition to Mrs. Osteen, Mrs. Berry and other who furnished fine vegetables at the market last season Sanford will this year have the distinction of the personal interest of her county food administrator and the honor of buying vegetables from his farm if it wishes as Mr. Huff expects to send in peppers and other products raised on his place. Mr. Huff, however hopes as a public spirited citizen to have many curb market competitors, and all, either white or colored, who have farm products to retail are urged to enter the lists.

And Sanford housekeepers are urged to this season follow even more closely the example set years ago by the women of high officialdom in Washington, who made it fashionable to personally "go-a-marketing" and secure the fresh, "early grub." Riley M. Fletcher Berry, Emergency Home Dem. Agt.

Parades, Music, Speeches, Martial Array Sends Thrills of Patriotism Through the Hearts of Loyal Citizens of the Entire County

This is the day we celebrate—Liberty Day—Liberty that means more to us today than in any time in our history since it was bought so dearly by the blood of the men in '76.

And all over the great American nation today the men and women and children are marching, marching, marching. And all over this broad land of ours the men and women and children are praying and speaking and cheering.

And it is the call for cash to make good our promise that freedom and liberty shall not perish from the earth, and while they live that America will keep her word.

Therefore let every man, woman and child in Seminole county observe the day as it should be observed. Let all of them join in the big parade here this morning and listen to the addresses later in the day and go home with the feeling that they have learned to honor their country, to make the sublime sacrifice if called upon and to assist in every way to win this war and especially

SHOULD ALL THE PEOPLE BUY BONDS OF THE THIRD LIBERTY LOAN

Stand behind the government that stands between you and the enemy to democracy.

And Seminole county will be here to demonstrate that every part of the county is doing her share. The Seminole County Guards by their presence will show that they are doing their part in this great crisis. The Red Cross ladies, the Y. M. C. A. and other workers will be in evidence. All the trade and civic bodies and unions and the school children by their presence will show that they are all with America and all are Americans.

COME OUT TODAY AND SHOW THE WORLD WHERE YOU STAND.

PROCLAMATION

Whereas, during these times of dire stress, it is necessary to adopt such measures as may be required to conserve the wheat products of this country, so that a sufficient supply of wheat can immediately be available for our armies in Europe, and

Whereas, in conserving the wheat supply of this country it is necessary to adopt as far as possible substitutes in the place of wheat, and

Whereas, Hon. Braxton Beacham, Federal Food Administrator of the state of Florida has set aside the week of April 29th to May 6th, inclusive, as potato week in the state of Florida, and

Whereas, the Food Administrator of Florida has requested the co-operation of all cities and towns in making this movement effective, and making said week a potato week in the truest sense of the word and

Whereas, it is the patriotic duty of every American citizen to assist our country in this time of need, and to refrain from the use of wheat

Brave South Carolinian

Washington, April 24.—The American soldier in France has the endurance of the English and the pop that belongs to them alone, according to Daniel C. Roper, Jr., a lieutenant and son of the internal revenue commissioner. In a letter made public here today young Roper tells of the activities of a South Carolina officer named Davis, who, overpowered by numbers of Germans, accounted for seven of them before he was killed.

"You will be proud to learn of the case of a South Carolinian, a son of Dr. Davis of near Clio." He was surrounded by the Boche but he had a pile of human flesh in front of him when he died. He fought like a tiger—accounted for seven Boches with his pistol and then was fighting with an empty rifle when struck from behind. My friend was a citadel man and fine officer." An excerpt from the letter was sent to the man's

sufficient over the southwestern portion of the peninsula. The following were reported: MacClenny, 1.4; Madison 1.8; Jacksonville 2.0; Miami, 1.4; Federal Point, 2.0; Archer 2.0; Gainesville, 1.8; Orlando 3.5; Titusville 2.3; and Marianna 1.8, inches.

Condition of Crops. All crops improved slowly from the effects of the abnormally low temperature of the previous week. Cotton, however, is a poor stand; some is being plowed up and replanted to corn and peanuts. Rains were too frequent, and heavy in some low lands for corn and other crops. Irish potatoes especially suffered, and rot is reported from some fields; digging was delayed. Rains were timely in much of the citrus belt, although more is needed in some central and southern counties. Cane and melons are fair; oats fair to good; peanuts are doing well. Some "roasting ears" in market in the south and central counties. Large shipments of tomatoes and Irish potatoes, and moderate shipments of citrus fruits were made. A. J. Mitchell.

Elks War Fund Dance
The Elks will give a War Fund Ball at their home next Thursday night, May 2, to which the public is cordially invited. The tickets will be sold at the various stores and by the Elks and the funds will go to the Elks War Fund with which to build convalescent hospitals and sanitariums for the crippled and wounded soldiers. Everybody buy a ticket to the ball.

Pope's New Peace
London, Eng., April 24.—Pope Benedict will make another peace move as soon as the western offensive has assumed a new phase, says the Neueste Nachrichten of Munich Bavaria. The correspondent at Amsterdam of the Exchange Telegraph Co. telegraphs that the Bavarian newspaper says the move will take the form of a "word of warning addressed to the universal conscience."

CATES CLOSED BY FOOD ADMINISTRATOR

Violated U. S. Food Regulations Many Counts

J. J. Cates and Clara G. Cates of Sanford, Fla., doing business under the firm name of Sanford Flour & Feed Company have been guilty of grossly violating the U. S. Government Food Regulations by selling as much as a barrel of flour to an individual and without substitutes. This is such a despicable act I have been forced to request Mr. and Mrs. Cates to discontinue their business and have given them thirty days from April 23rd, 1918, in which to close out their stock.

T. S. Huff, Food Administrator for Seminole County.

I wish to announce to the public that I have the names of a number of people in Seminole county who have purchased more than their legal allotment of flour, that is 24 lbs. per month for a family in the city and 48 lbs. for one in the country. Unless this flour is immediately delivered to me I shall take steps to publish these names as undesirable citizens.

I wish to notify the public that such a purchase of flour is a criminal act and punishable by two years in the penitentiary and \$5,000.00 fine.

The merchants of Seminole county will please take notice that I have seized 10 barrels of sugar owned by J. J. Cates and it is my purpose to sell this sugar to the merchants at the price paid for it by said Cates, that is 8 cents per pound. Anyone wishing to secure any of it may do so by communicating with Cates or me, with the understanding that no sale or delivery of the sugar is to be made without my approval.

SECRETARIES FOR Y. M. C. A ARE NEEDED

Three Thousand Men Must Be Recruited For Overseas

The American Army needs three Y. M. C. A. secretaries and in order to obtain the right kind a campaign is being made all over the state investigating the men who might or might not want to wear the Red Triangle in the front line trenches in France.

A luncheon was held at the Carver Hotel Tuesday at noon by a number of prominent Sanford citizens, having as their guest Marcus Fagg of Jacksonville, superintendent of the Children's Home and one of the most active workers in the state. It is thought that Seminole county will furnish several of these secretaries, Prof. Hatch, principal of the Ovidio schools having already been accepted.

According to the campaign plans 3,000 men must be recruited for overseas service with the Y. M. C. A. within ninety days. In addition to that number several hundred more will be needed at home for work in the training camps and the home naval points.

Besides the steadily increasing demands which are being made by the continual mobilization of American soldiers, hundreds of secretaries each month are requested by the French, Italian, British and Portuguese military authorities. Military leaders feel that men must be provided and that their enlistment is a necessary part in fulfilling our obligations in the war for democracy.

During the next few weeks every city and village and countryside in the south as well as all parts of the country will be searched for men not of military capabilities, but who are able to serve their country and its fighters in the Red Triangle service to our capacity. Ministers, business men, lawyers, farmers and teachers; in fact men from all walks of life are being urged to volunteer for this service.

Just how important it is can be seen by the assertion of one writer in France, who said that the "leadership of a Y" but in France has bigger possibilities of national service than most of the bank and college presidencies and big city pulpits in America."

The government is watching the recruiting drive with interest. That should be one incentive for volunteering. President Wilson has said: "The thing that you are doing is providing the moral armor for all of these soldier men of ours."

Dr. Bass Dies
Word has been received of the death of Dr. S. A. Bass at his home in Wichita, Kansas.

Dr. Bass is the owner of a farm near Cameron City and has spent several winters in Sanford and vicinity. He has many friends here who will regret to learn of his death.

The public will please take notice that they are expected to observe the week of April 29 to May 5 inclusive as "Potato Week" and forego the use of wheat flour during that time, using in lieu thereof any of the numerous substitutes and particularly the new Irish potatoes, which the merchants will be able to supply. The merchants will please take notice that they are expected to make only a reasonable profit on potatoes sold during this week of sacrifice.

The bakers are notified that they will not be permitted to purchase any more than their normal supply of flour during potato week and consequently can not increase their output of bread. I must ask a strict observance of this.

T. S. Huff, Food Administrator for

- SATURDAY—"Vengeance and the Woman" also Ethel Barrymore in "The Eternal Mother."

Evening Performance at 7:15

PRUNE CITRUS FOR MELANOSE

That is the Best Way to Attack This Destructive Disease.

Melanose, a disease of citrus leaves, young stems and fruits can be more nearly controlled by pruning than by any other method known at present. The disease is caused by a fungus; the same one that causes stem-end rot. The fungus is found chiefly in the dead twigs and branches of the citrus trees, and this dead wood is the principal source from which the disease spreads.

There are two seasons of the year when pruning for melanose can be made to advantage. The best time is in the winter when the trees are in the most nearly dormant state. If the dead wood can be removed in December or January the new foliage and fruit will not be exposed to injury during the early period of its development. The University of Florida experiment station has learned that trees pruned in February, March and April are more or less weakened. Where it is not possible to prune during the winter season the work may be done in the summer, preferably in June or July.

Melanose in all its phases, and control measures for the disease are discussed in Station Bulletin 145, by H. E. Stevens. He says: "Melanose is responsible for perhaps a larger percentage of permanent injury to citrus fruits than any other single agency in the state, and the annual loss from this disease is increasing from year to year. Few groves are found in which melanose does not occur, except perhaps those of more recent planting, and in many localities it is becoming more abundant each season. In certain groves from 75 to 100 per cent of the crop is injured each year.

"The control of melanose will depend largely on keeping the citrus trees free from dead wood. This will require careful and systematic pruning and attention to all other agencies that are likely to cause dead or weakened wood in the trees. Pruning is expensive in many cases and often is slow and tedious work; however, this seems at present to offer the most effective method of reducing melanose injury. The disease sense may not be entirely eliminated from the grove even by the most careful pruning, but with pruning such as is done by the ordinary laborer the percentage of bright fruit can be doubled or trebled in many groves."

The bulletin may be had free by addressing a request to the Agricultural Experiment Station, Gainesville.

The Intolerable Rooster.
The hen is not at all proud-spirited. She differs in that respect from her rooster spouse. Whether her marriage vows bind her to love and obey him and to drudge and lay for him, I am not ready to state, but it would seem very much that way by the haughty all'chanticler assumes toward her ladyship. Married roosters are far more selfish than husbands of the human tribe. A man, even though he detests housework, will sometimes condescend to carry a scuttle of coal or turn the wringer washday. But you'll never find a rooster willing to interfere with a hen's domestic affairs. — *Zim in Cartoons Magazine.*

Fond of Chicken Hearts.
Lucy is fond of the hearts of all fowls. When dining out with friends she was asked what her choice of the chicken was. Forgetting the name for the moment, she said: "I forget the name. It's de part what makes his live."

of the East in 807, and passed sentence of excommunication on the bishop of Rome. The church became reunited towards the end of the ninth century, and remained so until the middle of the eleventh century, when in 1054 Michael Cerularius, patriarch of the East, renewed the condemnation of the Latin church, and was in turn excommunicated by Pope Leo IX. Efforts toward reunion were made from time to time, and at Ferrara (1429) the Greek prelates signed a decree of union, but were forced by the people and clergy to repudiate it. Since then the two communions have remained separate.

Yale's crews cost the athletic association during the year ending 1914 the sum of \$23,974.75. In the fiscal year 1915-16 the cost was \$29,531.00.

After a year's absence as advisory coach at Yale university, Michael F. Sweeney of Hill school, Potsttown, has again resumed the coaching of the track candidates at the important Pennsylvania prep school.

POLITICAL ANNOUNCEMENTS

For Member Legislature
I hereby announce my candidacy for representative in the next Florida legislature from Seminole county, subject to the democratic primary to be held June 4th of this year, and invite your consideration of my qualifications.

Respectfully,
J. W. DICKINSON.

For Member Legislature
I hereby announce my candidacy for representative in the next Florida legislature from Seminole county, subject to the democratic primary to be held June 4th of this year, and invite your consideration of my qualifications.

Respectfully,
FRANK L. WOODRUFF.

For County Commissioner
I hereby announce myself a candidate for County Commissioner for the 5th District of Seminole County, subject to action of the democratic primary to be held June 4th of this year, and invite your consideration of my qualifications. My platform is a square deal to all.

Respectfully,
E. H. KILBEE

COUNTY HAPPENINGS

A BUNCH OF INTERESTING ITEMS FROM CORRESPONDENTS—EVENTS OF SEMINOLE COUNTY—EFFICIENT REPORTERS FOR THE HERALD

SATURDAY

EAST SANFORD
Dr. Hilburn will preach at the Moore's Station church Sunday afternoon at 3 o'clock, April 28th. Everyone welcome.

Mrs. Edgar E. Brown will give a talk on the Second Coming of Christ on Wednesday evening, May 1st at Moore's Station church, regular prayer meeting evening.

Dr. and Mrs. Sherman of Willoughby, Ohio and Cassadagna and Dr. and Mrs. Haskins of Williston, North Dakota and Cassadagna were visitors at the Ellsworth home on Beardall avenue Saturday.

Mrs. Bert Herndon and children of Howell, Ga., are guests of her parents, Mr. and Mrs. F. N. Estridge of Cameron avenue.

C. Boyce Bell is spending some time on his farm near Charlotte, N. C., Superintending spring farm work.

Miss Annie Cameron has been a week end visitor from Stetson College for the past two weeks.

Mrs. F. F. Dutton and Junior were in Jacksonville a portion of last week.

Mrs. Mary Phelps enjoyed a visit from her nephew, R. E. Larramore of Jacksonville several days last week.

Philip R. Andrews of Celery avenue has returned from a two weeks' stay at Asheville and other points in North Carolina.

Mrs. Libbie Weeks, Mrs. Carolina McDougal and Miss Annie Weeks returned Wednesday from a visit with Okie Weeks at Camp Wheeler, Macop, Ga. G. C. McDougal joined the party at Waycross and accompanied them to Camp Wheeler.

WAR STAMPS SALES

Going Good in Many Counties of Our State

War Saving Stamps through the postoffices show the largest increase of any period since the campaign opened between the dates of April 10th and 20th, the total sales being \$118,775.50, bringing the total sales through postoffices up to April 20th to \$742,865.87.

While this report is official from the Central Depository at Jacksonville it does not represent, according to State Director Griggs the total sales up to date, as a number of postoffices have not reported for that week, and those that did report did not cover the period up to the 20th.

Both Jacksonville and Tampa show a remarkable increase for this period, Tampa again being slightly in the lead with sales to \$19,500, while Jacksonville was but a few hundred behind with \$19,167.92.

State Director Griggs believes that from now on there will be a rapid increase in the sale of stamps, and thinks Florida will surely go "over the top." During the last thirty days the state has dropped back a little in its relative standing with the other states of the Southern District, now being th forty-seventy.

The only other southern states below Florida being Tennessee, Alabama, Georgia and South Carolina.

SAVE WHEAT POTATO WEEK IS REQUEST

Many Good Recipes For Using Potatoes Next Week

PROVE your patriotism, husbands, fathers, sons or brothers of Seminole housewives, by being not only willing but eager to substitute other foods for wheat products. Unless you do YOUR part in the Wheatless Week program it will fail, no matter how hard the women of your families work to do theirs.

Among the many valuable help sent out by our government are the following potato recipes. Some of them include a little flour, for wheat flour in some instances, cornstarch or rice flour may be substituted; in others rye or barley, or oatmeal or potato flour.

(If there is yet anyone in Seminole county who has not the government bulletins on the substitutes used for wheat in bread I shall be glad to send them upon application by postal.)

Riley M. Fletcher Berry, Emergency Home Dem. Agt. Recipes From Circular No. 106 Contributions from the States Relations Service. A. C. True, director.

Yeast Bread
If potato is used for bread making, allowance must be made for the large amount of water in it and less additional liquid used for this reason.

Potato Bread
1 cup mashed potato
1 teaspoon salt
2 1/2 cups flour (more if necessary)
4 tablespoons water
2 to 4 tablespoons liquid yeast, or 1/2 cake dry yeast, or 1-6 to 1/2 cake compressed yeast.

Short process: Mix the salt with the mashed potatoes, which are free from lumps and cooled until lukewarm. Add 1-6 to 1/2 cake compressed yeast softened in 4 tablespoons warm water, or 2 to 4 tablespoons liquid yeast, or 1/2 cake dry yeast. When liquid yeast is used, no additional water must be added. Blend with this potato and yeast mixture one cup flour. Stir until smooth, cover and set to rise. When this sponge is light and soft, knead in enough flour to make a rather stiff but elastic dough. Be sure that it is stiffer than ordinary dough. Cover and let rise again until very light. Knead down, mold and place in lightly greased pan. Let rise in pan until as high as ordinary white bread, then bake at least one hour in a moderately hot oven. Bake very thoroughly.

If desired an amount of grated raw potato equal to the amount of mashed potato called for may be used, but the resulting bread is darker and has a more marked potato flavor than when cooked potatoes are used.

Quick Breads
Try this recipe for tea biscuit. Notice that the liquid is less than is the case when all flour is used, because of the water the mashed potato contains.

Potato Biscuit
2 cups sifted flour
1 teaspoon salt
3 teaspoons baking powder
3 tablespoons shortening
1 cup mashed potato
Liquid sufficient to mix.
Sift together twice the flour, salt and baking powder. Cut or rub into this the cold shortening. In the same way rub into this flour mixture the mashed potato. Finally add just enough cold liquid to make the mass cling together. Do not knead. Place on floured board, roll until 1/2 inch thick and cut into rounds. Place these in lightly floured biscuit tins and bake 15 to 20 minutes in a moderately hot oven. Bake all potato breads more slowly than those made with flour alone.

Potato Cornmeal Muffins
1 cup mashed potato
1 cup corn meal
1/2 cup sifted flour
1 teaspoon salt
3 teaspoons baking powder
1 or 2 tablespoons sirup
2 tablespoons shortening
1 or 2 eggs
Liquid to mix to a medium batter about 1/2 cup.
Add the cornmeal, salt, sirup and 1/2 cup liquid to the hot mashed potato, place in double boiler and steam 10 to 30 minutes. Add the shortening and allow to cool thoroughly. When cold add the well beaten eggs and the flour which has

been sifted with the baking powder. Add just enough more liquid, if necessary to make a somewhat stiff batter. Beat thoroughly, place in gem pans until half filled, and bake 25 to 30 minutes in a moderately hot oven.

Often when no dry bread crumbs are on hand, fresh bread is used for stuffing purposes. This use of bread can be avoided by making the potato stuffing given below.

Potato Stuffing
2 cups mashed potatoes
1 egg (beaten)
1 small onion finely minced
1 tablespoon fat
1 stalk celery finely minced or 1/2 teaspoon celery salt
1 teaspoon salt
Pepper
Mix the ingredients and use in place of ordinary bread stuffing.

A cake with one half of the flour one would ordinarily use replaced by potato is made as follows:

Chocolate Potato Cake
1/2 cup butter or other fat
1/2 cup sugar
3/4 cup dry riced potato
1 egg
1/4 cup milk
1/4 teaspoon salt
1 square chocolate
3 teaspoons baking powder
3/4 cup white flour.

Cream the butter, add the sugar gradually, then the well beaten egg and warm potatoes. Beat well. Sift the flour, salt and baking powder, then add to the first mixture with sufficient milk to make a cake dough. Bake about 35 minutes in a moderate oven.

Potato Cookies
2 cups sifted flour
1 teaspoon salt
2 teaspoons baking powder
1/2 cup brown sugar
tablespoons shortening
1 egg well beaten
1 cup mashed potatoes

Cream together the butter and sugar. To this add the well beaten egg and the mashed potato (free from lumps). Beat until smooth, then add the twice sifted flour, salt and baking powder. It will usually be necessary to add any liquid. When a dough is formed stiff enough to roll. Place on floured board, roll about 1-8 inch thick, cut into rounds, and place on greased baking sheet. Bake 15 minutes in a moderately hot oven or until a delicate brown. Bake more slowly than ordinary wheat-flour cookies.

Beef Pie With Potato Crust
2 cups flour
1/2 teaspoon salt
2 teaspoons baking powder
1/4 cup flour used to roll out
1-3 cup milk
1/2 cup shortening
1 cup mashed potatoes

Line a dish around the side with mashed potatoes prepared as for the table, then fill with minced lamb, veal or any other left over meat, well seasoned, and cover the top with mashed potatoes and criss-cross with a knife. Put in oven and brown.

The meat and potatoes can be used from left overs. Creamed codfish, or creamed smoked fish, or, for a change, ship-ped dried beef, with potatoes are old and favorite combinations, as is also a mixture of fish and potatoes in the form of fish balls.

Gravy goes well with potato, and such a use helps to save fat for other purposes, so do not lose any of the good meat flavor when you roast meat, or cook it in a frying pan, which you could save in the form of gravy; and do not forget that salt or smoked fish can be used in a very palatable way to flavor milk gravy, and this is a fine way to save skim milk.

Local Y. M. C. A. Board
At a meeting in this city on Tuesday a local personnel board was formed for the purpose of recommending men for Y. M. C. A. work both in the cantonments in this country and in France.

The need of men is very urgent just at this time as Florida's quota of men is not filled. Then too the qualifications required are such that the field is limited. Men of draft age are not accepted for foreign work, but can be used in the cantonments in this country.

The purpose of this committee is to search out men for this work in Seminole county and application may be made to any of the following committee: Schelle, Maines, Chm., Rev. E. D. Brownlee, E. F. Housholder, D. C. Marlowe and W. M. Haynes.

High Cattle Prices Accompany High Beef Prices

If consumers are to pay less for beef, live-stock raisers naturally will receive less for cattle.

If farmers are paid more for live stock, consumers will necessarily pay more for meat.

Swift & Company pays for cattle approximately 90 per cent of the price received for beef and by-products. The remaining 10 per cent pays for dressing, freight to market, operation of distributing houses, and in most cases, delivery to the retailer. Net profits also have to come out of this 10 per cent.

This margin cannot be squeezed arbitrarily without danger of crippling the only effective means of performing the complex service of converting cattle into meat and distributing this meat to the fighting forces and to consumers.

Swift & Company's net profit on beef during 1917 was only 1/4 of a cent per pound. On all products, it was a little less than four cents on each dollar of sales. Complete elimination of these profits would not affect appreciably retail prices of meat, or farm prices of live stock.

Swift & Company will be glad to co-operate in devising methods that will improve conditions in the meat and live stock industry.

1918 Year Book of interesting and instructive facts sent on request. Address Swift & Company, Union Stock Yards, Chicago, Illinois

Will You HELP Bring Back The Boys of This Community?

Our boys, the boys from this town and this county and this state, are fighting the Huns. They are in the trenches in France, they are sailing the U-boat-infested seas, they are going "over the top" in the face of German cannon and machine gun fire.

Many, many more of our boys are now training and will soon be in France, and more are yet to be called.

And, remember, these are our boys; those who are near and dear to us. They are doing their ALL. They are giving their ALL. They are prepared to make the extreme sacrifice that our homes, our town, our nation, may escape the ravages of the Hun.

We want them—one and all—to come back to us—

Will You Help to Bring Them Back?

Will you help to provide them with the things they need, with clothes and food and munitions, that they may complete as quickly as possible the terrible task assigned to them?

Will you support our boys while they are fighting for us, fighting the German autocracy that seeks to destroy our ideals of liberty and justice?

Compared to their heroic sacrifice our part is but small—that of providing the funds to keep them equipped; to build and man the ships that will transport their food, their clothes, their guns and their ammunition, and to pay for these things.

Yes, we, the people of this community, will support our boys.

We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this. That will be our support for Our Boys.

GOOD SCHOOLS NEED GOOD TEACHERS

There are few states that have better school equipment or a better school system than Florida, especially if proportion of population is considered.

The people of Florida have been most generous in providing the best school buildings that money could procure and this is true in the smaller cities and rural communities, as well as in the larger cities.

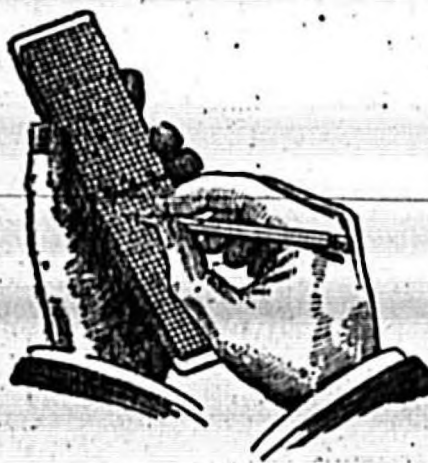

At an example of this one young county with less than 10,000 population, erected four handsome brick school buildings within two years. One of them cost \$100,000, one \$50,000, one \$40,000 and one \$10,000; or a total of \$200,000. In some counties there are ten to twenty brick school buildings and in many of them are found commodious auditoriums, supplied with stage, scenery and opera chairs, while in a number of instances open air class rooms have been provided, as well as every other modern feature known to educational institutions.

There has been but one drawback to the advancement of education in this state and that is the uniformly low salaries that have been paid to the instructors. As the result of a comment on the part of leading newspapers of the state, this condition has been somewhat remedied recently, but there is still room for improvement in this direction.

Education is considered one of the most essential features in the preparation of the young people of our country, for handling the affairs of the nation, hence the men and women who discontinue the all important instruction should be of the first class and such people naturally command salaries of the first class.

Over the country public school directors have been paid too little for their services. Look at the monthly reports of the various school boards and you will see

DON'T Write it on Your Cuff! Jot it Down in the HERALD MEMO BOOK

The ideal way to make memoranda and carry information that you need frequently. Covers last for years. Sheets can be obtained anytime, ruled in six styles. Bound in Handsome Durable Black Morocco, with Red Leather Index that enables you to find what you want instantly.

HERALD PRINTING CO. Phone 148 Sanford, Florida

teachers' salaries listed at from \$40 to \$75 a month and principals from \$100 to \$200 a month. This year carpenters, plumbers, plasterers and masons are making \$150 to \$250 a month and many of them never spent a dollar in equipping themselves for these jobs.

Florida has the schools and it must have the teachers that will measure up to them. The people who were willing to vote for bonds to build fine schools will also be perfectly willing to pay good salaries to good teachers for their children.—Times-Union.

FARMERS GET TOGETHER!

Trouble makes us cling closer to each other. War has brought all true Americans closer together and they will stand together from this time forward. Florida farmers especially the vegetable growers are in trouble—trouble on account of the war, the movement of trains, buying supplies, marketing products, etc., and this is the time for the farmers to get together and to stand together. The failure of the Sanford growers to stand together many years ago should have no bearing on another organization along new and better lines. Our mistakes should never discourage us but should be milestones along the road to success to point the dangers and missteps that tripped us on the former journey and should only spur us on to greater and more earnest efforts to stand together.

Call the fruit and vegetable growers have their organizations and they have made the growers money, and saved them money. Our own state has a fruit growers association but the vegetable growers have no large organization, although in many parts of the state at the present time local organizations are springing up. The growers of this section, raise perishable products, celery and lettuce. The Manatee section raises the same products. If Sanford and Manatee are to continue to raise these perishables they should organize. If they do not intend to raise these crops on a large scale they should organize for in no other way can they cut the crop. If they expect to market their products they should have a standard pack and advertise it to the world, all of which are only a few vital reasons why they should organize this summer.

The editor of The Herald ten years ago urged organization. WE URGE IT NOW. FARMERS GET TOGETHER!

LIBERTY DAY TODAY

President Wilson has by proclamation set aside Friday, April 26, as Liberty Day and requests the people in every city, town, and hamlet in the land to hold patriotic demonstrations and pledge anew their financial support to the nation's cause. The local Liberty Loan committees organized by the federal reserve board, will have immediate charge of the demonstrations, under the general supervision of Secretary of the Treasury McAdoo. The President asks that the nation's response to the Third Liberty Loan shall express in unmistakable terms the determination of America to fight for peace, the permanent peace of justice.

The fact that the Liberty Day, thus set aside, coincides with the Confederate Memorial day, when the people of the south are everywhere honoring their dead heroes, gives it an additional meaning and solemnity. A re-united country, with the men of the north fighting shoulder to shoulder and elbow to elbow with the men of the south on the fields of France, calls for a united support from the men, who from good cause are unable to get into the battle line. As you honor your dear heroes, swear a solemn oath that the living heroes "over there" shall want for nothing your money can gain for them, even if it takes your utmost farthing.

They are fighting for freedom and democracy against the mightiest and most ruthless power that the world has ever seen gathered together under one head. They are fighting for your homes, for your wives and little ones, that they may not share the awful fate of so many of the wives and little ones of the old, mad world. You can give nothing, but your dollars, while they are offering their blood and their lives, but the spirit and liberality with which you give your dollars will be taken as a measure of your love of country. Make the coming Liberty Day a memorable one in the nation's history. Tampa Times.

THE SCHOOLS IN DANGER

American schools are in danger of grave depreciation unless the American people face the school problem squarely, as they have faced every other problem that has confronted them. The schools are suffering from the two all-absorbing problems of the day—the war and high cost of living. Wages and salaries in almost every other vocation have risen pretty

much in keeping with the cost of living. Still the teachers grind on at practically the same old starvation wages.

If the harm done were only in forcing a number of people to live on inadequate wages, the matter would not be very serious. But the harm does not stop here. The impossibility of obtaining living salaries is inevitably forcing the ambitious man or woman out of the profession and into some other calling that is more generous.

The natural result must be the filling of the schools with a lot of second rate teachers, boys and girls who regard the schoolroom as merely a stop-gap between their own school days and a profession—nice boys and nice girls, we grant you, but lacking much of being competent instructors. The only possible result of this condition must be the grievous neglect of the youth of the land.

And just at this crisis this country cannot afford to neglect her children. America has had too hard a struggle to reach her present intellectual plane to afford to yield one fraction of the progress she has made—we have made too many sacrifices in the name of education and culture and intellectual and moral uplift to be willing to take one backward step. We MUST go on, in justice to future generations, in justice to the ideals that have inspired us.

Already the complaint comes from many sections of the country that numbers of the more competent teachers, disgusted with the meagre salaries are leaving the schoolroom for more lucrative callings. Once out, and this talent is forever lost to the schools, because the channels of business will quickly and eagerly absorb them.

There is but one remedy, and that is for the people to look the situation squarely in the face, and be willing to levy taxes for school purposes that shall put the teaching profession up and abreast the other professions. More perhaps than on any other class is the future of this country dependent upon the faithful work of her pedagogues. We must suit the reard to the magnitude of the work.

WHAT THE BEAST F OBERLIN PLANNED TO DO

If there is any American citizen who is still in doubt as to Germany's intent from the very beginning to loot America as indemnity for the cost of the war, we commend to his prayerful attention the following testimony from German sources, regarding the plans of the robber nation. Said a high up German officer, a close friend of the Kaiser, in talking to an American friend twenty years ago:

"About 15 years from now my country will start her great war. Everything will move like clockwork. We will be prepared and others will not be prepared. Some months after we finish our work in Europe, we will take New York and probably Washington and probably hold them for some time. We will put your country in its place with reference to Germany. We do not propose to take any of your territory, but we do intend to take a billion or more dollars."

The above was said in 1898. Sixteen years later Germany launched the great war, and sent out her legions of carefully trained soldiers to carry out the long prepared program. Little Belgium put the first spoke in the wheel but sacrificed her national life, and endured indescribable horrors and indignities in doing so. France and England came to the rescue, and for four years have been pouring out their best blood on the fields of Europe and Asia in their efforts to check the German juggernaut.

For more than two years the German Kaiser heaped indignities and insults upon the United States in the effort to provoke this nation to hostilities and thus prepare the way for the exaction of big indemnities when the proper time came. He knew that we were absolutely unprepared, and in his stupid blindness did not believe that we could offer any serious obstacle to the carrying out of his plans. He wanted a plausible excuse for the looting he had long contemplated, and he saw it in the entrance of the United States into the war. He believed he could end the war in Europe before we could get ready, and he looked with a greedy eye upon our rich and defenceless cities, believing that he could indemnify himself for the cost of war by their pillage. Do you want the evidence? Listen to this Teutonic dream:

"Operations against the United States must be entirely different. Our main factor is our fleet. If the German invading force were equipped and ready for transporting the moment the battle fleet is dispatched under average conditions these corps can begin operations on American soil within at least four weeks. I should be so managed that a line of

land operations would be in close juncture with the fleet, through which we would be in a position to seize in a short time many of the important and rich Atlantic seaports, to interrupt their means of supply, disorganize all governmental affairs, confiscate all war and transport supplies and lastly TO IMPOSE HEAVY INDEMNITIES."

Do you want to pay these heavy indemnities? Do you want to see them collected by the brutal soldiery of the still more brutal Kaiser? Are you ready to offer up your wives and daughters and sisters to this German Minotaur; to have your homes destroyed; your innocent children maimed and starved? Read the awful stories of German atrocities in Belgium, in northern France, in Serbia and in every country where the German foot has been planted blistering and burning out, not merely civilization but humanity itself. Then go to your peaceful home and in the presence of your wife and family swear a "mighty" oath that never, so long as time shall last, while you have an arm to fight, or a dollar to give, shall such horrible stories be told of America.

Remember, the Liberty loan is the first line of defense. Give to it liberally, gladly, generously. What would your dollars be worth with a German army on American soil? Don't wait for that to come to pass. That will be everlastingly too late. This is the crucial period. Buy a Liberty-Bond today, and help to avert the awful menace that hangs over the whole civilized world.—Tampa Times.

NEITHER PENCIL NOR PEN

Writing Implement, Made of Mixture of Wax and Ground Pumice Stone, Recent Invention.

A writing implement composed of a mixture of wax and finely ground pumice stone containing particles of ink has been invented by William C. Geer of Akron, O., to take the place of ordinary and fountain pens, pencils, crayons and all other writing implements, say the Popular Science Monthly. As the body of the new writing device is composed of a mixture of wax and pumice stone, which is easily worn away when rubbed against a paper surface, the inventor claims that the cells of ink intermixed with the wax and pumice stone will also be liberated, giving a uniform supply of ink. The device is made by mixing the wax, pumice stone and ink together. When it is heated to the proper temperature it is suddenly immersed in cold water. This chills and solidifies the wax mixture, producing a body having a cellular structure, each cell being filled with ink.

Cactus Candy.

Louisiana sugar cane planters have evolved a plan for manufacturing candy from the spineless cactus. In the process the peel of the plant is removed, dipped into hot molasses and coated with granulated or powdered sugar. The result is a confection of rich and delicious flavor. So successful have been the experiments with the new sweet that cane planters are now growing cactus which formerly was utilized, when used at all, for cattle fodder. Planters can in this way furnish plenty of raw material for the new product. Another important result in the making of what some enterprising advertiser may call "kaktus-kandy," says an exchange, is that sugar mills which have heretofore been idle for nine months in the year can now use part of their equipment in the candy manufacturing industry.

Boa Constrictor May Be Trained.

There are several varieties of boa constrictors, the best known being the Ghibola or land boa constrictor. This is the smaller, and least vicious of the tribe. It is harmless and will not attack unless attacked, writes a correspondent. In fact, if caught young it may be tamed, and the natives of the Amazon valley frequently keep them around their houses instead of house cats, as they keep the place clear of rats, mice and other vermin, and even of larger marauding animals. You can buy these snakes in the markets of Para, Manaus and other North Brazilian ports, where they are offered for sale in boxes, like chickens or rabbits and the owner will haul them out and demonstrate them to you. The water boa constrictor is the largest known snake in existence, growing to the length of thirty to forty feet and the thickness of a man's upper leg.

Seeing Ahead. There is always room for a man of force, and he makes room for many. A feeble man can see the farms that are fenced and tilled, the houses that are built. The strong man sees the possible houses and farms. His eye makes estates as fast as the sun breeds clouds.—Emerson.

FOODS TASTE BETTER COOKED —TOBACCO TASTES BETTER TOASTED

Since the day of the cave man, who liked his meat raw, civilization has learned a lot about the scientific treatment of the things we eat.

Naturally none of us would now prefer to have our meat raw, our potatoes as they come from the ground, our coffee unroasted.

And naturally follows the great discovery recently made by The American Tobacco Co.—that tobacco tastes better TOASTED!

This wonderful new idea—simple like all great inventions—was first used in producing the famous LUCKY STRIKE Cigarette—made of toasted Burley tobacco.

Burley has a mellow flavor, entirely different from the tobacco usually used for cigarettes. It is a pipe tobacco and LUCKY STRIKE Cigarettes taste like a pipe.

ATTENTION PATRIOTS

When the Whistle Blows Friday Afternoon Stand Uncovered

Mayor Davison wishes to announce that on Friday afternoon at 6 o'clock the whistles will blow and every patriotic American citizen will uncover his head and stand for one minute in reverence to the flag and Liberty Day and those brave boys of ours who are fighting on the battle front today to preserve our homes and firesides.

Remember the time 6 o'clock Friday afternoon (TODAY).
Take off your hats, Americans.

Mrs. L. A. Shimmons

Shimmons.—Lorina A. Marston was born at Hadley, Lapeer Co., Mich., June 13, 1858 and departed this life April 14, 1918.

She was united in marriage to Chas. P. Shimmons Feb. 26, 1876. In the spring of 1880 they moved to Orange Co., Mich. For many years Mrs. Shimmons had suffered with diabetes and for the last two winters came to Sanford where she ended her life.

She leaves to mourn her loss a husband, seven children, Robert and Mrs. Florence of Sanford, Thomas of Sebring, Mich., Mrs. David Osborne of St. Louis, Mich., Mrs. Osborne, Mrs. Fred Scott and Miss Ruth of Prescott, Michigan; six brothers, sixteen grandchildren and a host of relatives and friends.

Mrs. Shimmons was very conscientious and open-hearted. Giving her heart to her Saviour in her youth she always believed in the true Christian way.

We know our loss is her gain for she expressed her faith in her Lord

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy

All the blood in the body passes through the kidneys every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right the danger is overcome. Doan's Kidney Pills have proven an effective kidney medicine.

Frank Lewis, retired police lieutenant, 390 French Ave., Sanford says: "Whenever I have been troubled with attacks of kidney complaint, which was usually brought on by a cold, I always used Doan's Kidney Pills and they always relieved me. Often I could hardly rise up because of the sharp pains catching me in the small of my back. My kidneys acted irregularly, and caused me a great deal of annoyance. I always used Doan's Kidney Pills and gladly recommend them." Get at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

New Electric Furnaces.

The success of electric heat in Japan and various other work has led to considerable investigation along the line of what might be termed low temperature heating; that is, heating with temperatures up to 600 degrees Fahrenheit. The results of these investigations have brought out numerous other applications, among which are electric core baking ovens, electric bread baking ovens, for making cereals, drying woolen articles and equipment for sterilizing.

Singing Requires Strength.

Students should remember that singing right requires great physical strength, observes a vocal teacher. The late Madame Nordica remarked that it required the training of a prize fighter. The human race is not physically as strong as it was a hundred years ago. The abdominal muscles seem to have suffered the greatest relapse, hence the scarcity of really great singers. In singing more than anything else it is the "survival of the fittest."

A Good Wife.

Once upon a time there was a farmer whose wife daily pumped the household supply of water up to a tank on the roof, says The Little Journal. After 20 years he installed an electric motor to do this for her. Careful calculation brought out the fact that the wife had been working that pump handle 8,050 hours at a value of half a cent per hour. She had saved him \$18.75 in 20 years. What was it the preacher said about her worth being above rubles?

Minister a Linguist.

Four languages were used last year in the preaching of Rev. Paul Burgess, Presbyterian missionary in the Quetzaltenango field of Guatemala, according to the Guatemala News. He spoke in Spanish, English, German and Cakchiquel.

FARMERS CONTEMPLATE ASSOCIATION

Meet With Manatee Growers For That Purpose

Sanford farmers made a long step towards a Growers Organization last night at a meeting at the Carnos Hotel where some twenty-five or thirty of the principal growers of the Manatee section, Messrs. Hutchess, Potter, Rude and Hughes, present and anxious to join in with our growers in a Sanford and Manatee association. The Manatee growers are ready to organize but have awaited the decision of Sanford relative to making it a state wide proposition which is really the key note in organization that will get results.

Many of the growers present talked over the matter and Mess Hutchess and Rude and Potter gave their ideas of the situation. The question of packing and marketing and uniform packages were discussed to the mutual advantage of the growers present. No organization was perfected at the meeting as it seemed to be a consensus of opinion among those present that more time should be given the growers to outline the plans.

C. M. Berry, the county agent present stated that he could not take part in the discussion of organization and while it was his duty to help organization as much as possible he could not favor any certain proposition and later in the evening he reversed himself by coming out for the Citrus Exchange that has a branch here for the marketing of vegetables. The farmers present were not there for the purpose of discussing the merits of any exchange or organization and many of them felt that Mr. Berry was not within his office when he attempted to support the Exchange to the detriment of any other organization they that might want to be formed.

The meeting closed with the growers present signing a pledge to assist in forming a strong vegetable growers association at a meeting to be called in the near future.

The Capital's Fifth Avenue.

Pennsylvania avenue in Washington is usually listed among the world's famous streets, but to the Washingtonian this avenue has not half the importance and attractiveness of F street, the recognized parade ground of the fashionable on sunny afternoons. F street in Washington is an institution like the monument, the government clerk and band concerts in the parks. It dates back far enough to tax the memory of Washington's few oldest inhabitants, but no records of its origin are filed in the city hall.

Birds' Nest Soup.

The birds' nests from which the famous Chinese soup is made are built by a species of swallow that abounds on the coasts of Java, Ceylon and Borneo, and consists of a gelatinous substance obtained from marine plants. The nests are boiled either in chicken broth or in milk of almonds, and the result very much resembles vermicelli soup, except that it is far more costly.

Ball vs. Roller Bearings.

Ball bearings are a German invention, and it is only a few years ago that they made their appearance on the market. Roller bearings, both cylindrical and conical, are an American invention. The advantages claimed for the rollers over the balls are that they can sustain both the radial and the axial strain and they are more easily replaced when they become worn.

Responsibility on Heredity.

The oldest nations invariably have the most philosophers and learned seers. This has been thought to be due, observes a writer, to their greater accumulation of knowledge, but this new theory places the responsibility in large part upon heredity—the fact that men of civilized nation give their sons the mental equipment of civilization.

Size of a City Lot.

The question is often asked what part of an acre an ordinary city lot is. One 96x105 feet contains just a quarter-acre and contains 10,800 square feet. Ten acres, if square, would measure 300 feet along each side and a strip of that length and one-tenth the length, or 60 feet, would make an acre, and if but one-fourth as long or 105 feet would make a quarter acre. This is a good-sized city lot.

No Office Cat.

A tradition of the office cat around a newspaper survives from earlier times, but it is only a tradition, for there is no such animal, notes an exchange. Probably he, or she, was once endured because of his supposed efficiency as a hunter of rats and mice, but no modern office is infested with rodents, and therefore it is not necessary that it should tolerate a cat.

Farewell Party

Miss Essie Whittle was hostess at a farewell party on Tuesday evening in honor of Miss Edith Stewart who leaves next week for Philadelphia. Miss Stewart is being pleasantly entertained by her friends prior to her departure.

The color scheme of the party was white and red, and every detail of the affair was carried out in these colors. Easter lilies and sweet peas were the predominant flowers, and the graceful sprays were artistically arranged. Other garden flowers were also used throughout the pleasant rooms and hall.

Interesting games and contests were enjoyed, at the close of which Mr. Volie Williams was the lucky one, winning a lovely bouquet of sweet peas with spengeria and the booby falling to Miss Louise Lambert.

Following the awarding of the prizes refreshments were served. The ice course was in white and red, with delicious cake. Mrs. Arthur Johnson assisted in serving. White and red sweet peas were given as favors to each guest.

There were about twenty intimate friends of the honoree present, and these were joined by others for refreshments. The affair was one of the most pleasantly arranged for Miss Stewart.

The members of the Social Department of the Woman's Club were most charmingly entertained on Tuesday afternoon at the club house by Mrs. C. K. Lucas who was hostess for the day. The club rooms were attractively decorated with bouquets of beautiful flowers.

After a series of interesting games of bridge scores were added and Mrs. Bennett having high was presented with a lovely cut glass bud vase. Dainty war time refreshments were served.

Assisting Mrs. Lucas were Mrs. Deane Turner and Mrs. Venetti. Among the guests were Mrs. G. H. Fernald, Mrs. Meisch, Mrs. Ernest Housholder, Mrs. Schullz, Mrs. Bennett, Mrs. Ernest Tolar, Mrs. DuMas, Mrs. Roy Symes, Mrs. B. A. Howard, Mrs. G. E. Smith, Mrs. J. M. Wallace, Mrs. Parramore, Miss Annie Parramore, Mrs. Voren, Mrs. Deane Turner, Mrs. Ernest Galloway and Mrs. W. J. Thigpen.

Mr. and Mrs. Fred Walseman charmingly entertained a few friends Monday evening at their attractive home on Magnolia avenue.

Dancing was enjoyed until a late hour when a delicious cold course was served, punch being served throughout the evening. The affair was thoroughly informal and among the guests were Mr. and Mrs. R. J. Holly, Mr. and Mrs. Robert Newman, Mr. and Mrs. D. L. Thrasher, Mr. and Mrs. G. E. Henry, Mr. and Mrs. J. S. Wilson, Mr. and Mrs. John Smith, Mr. and Mrs. Herbert Lyman, Mr. and Mrs. Howard Lyman, Mr. and Mrs. G. D. Bishop, Dr. and Mrs. Samuel Puleston, Miss Katherine Wilkie, Miss Margaret Clark, Mr. and Mrs. Eugene Roumillat, Judge and Mrs. E. F. Housholder, Miss Renie Murrell, Mr. and Mrs. Archie Betts, Mr. A. E. Yowell, Mr. G. A. DeCottes, Mr. and Mrs. L. P. McCuller, Mr. D. W. Herndon, Mr. and Mrs. A. D. Parrish, Mr. F. A. W. Brown, Dr. J. E. Brouse, Mrs. W. M. McKinnon and Mr. E. E. Brady.

Mrs. J. F. Fleming and daughter of Laetolar, N. C., have returned home after a delightful visit of several weeks in Sanford, the guests of Mr. and Mrs. W. J. Thigpen at their home on Park avenue.

Mr. and Mrs. J. C. Larrimore arrived yesterday from Glenville, Ga., and expect to make Sanford their future home. Mr. Larrimore is a brother of Mr. C. C. Larrimore of this city.

Mr. and Mrs. E. W. Dusan arrived Wednesday from Waterbury, Conn., and will remain for several weeks. While here they will be guests at the Hotel Carnes.

Mrs. R. R. Eldridge of Paola is the guest of Mrs. J. D. Roberts for a few days this week at her home on Laurel avenue.

Mrs. Epping of Tampa arrived yesterday and will be the guest of

Mr. and Mrs. A. Duncan at their home on Magnolia avenue for several days.

Mr. and Mrs. J. M. Natcher arrived Wednesday from Louisville, Ky., and will be guests at Hotel Carnes for several weeks.

R. B. McKennie who has been a guest at the Hotel Carnes for several weeks left yesterday for his home in Evansville, Ind.

Miss Hazel McDonald who has been spending the past few months in Sanford returned to her home in Orlando today.

Mr. and Mrs. G. J. Brannon arrived yesterday from Loraine, Ohio and will be the guests of friends for several weeks.

Lieut. B. W. Anderson of Camp Wheeler is home on a ten days furlough, much to the delight of his many friends.

Miss Annie Anderson will arrive tomorrow from Longwood and will be the guest of Mrs. Dickinson for several days.

Mrs. Turner left today for Macon, Ga., where she will be the guest of relatives and friends for several weeks.

J. T. Knight, the popular representative of the Jacksonville Dental Supply Co. is in the city today.

Ion Ferris of Jacksonville is in the city for a few days this week combining business and pleasure.

Frank Cummings arrived Wednesday from Tongston, Conn., and will remain a week or ten days.

C. M. Shine of Cleveland, Ohio arrived in the city yesterday and will remain for several weeks.

Mr. and Mrs. C. C. Larrimore have returned from a delightful motor trip to Lakeland.

F. W. Cook, representing Armour & Company of Jacksonville was in the city yesterday.

Wm. McMowin of Tampa is spending a few days in Sanford this week on business.

W. A. Stringfellow of DeLand spent a few days in the city this week on business.

B. M. Ravier of Marianna is in Sanford for a few days this week on business.

J. S. Brate of Atlanta is spending a few days in Sanford this week on business.

H. M. Sunch of Jacksonville is in the city for a few days this week on business.

F. E. Ciber of Jacksonville is in the city for a few days on business.

F. P. Henderson of Jacksonville is registered at the Hotel Carnes.

J. H. Bruce of DeLand spent a few hours in the city on business.

E. W. Frazier of Lake City was a Sanford visitor yesterday.

E. W. Henck of Longwood was a Sanford visitor today.

Wm. Wolf of Ocala was a Sanford visitor yesterday.

Center of Jute Industry.

Dundee practically owes its existence to its textile industry. It was the pioneer in the adoption of jute as a fiber for making cloth of a cheap quality, and its hold upon the trade has been so firmly maintained and developed that Dundee is recognized as the principal center of the jute industry in Great Britain.

Written in Fifteenth Century.

Written in the fifteenth century, a manuscript containing letters and minor works of St. Cyprian, bishop of Carthage, father of the Latin church, who suffered martyrdom in 258, was one of the most interesting objects when the dispersal of the libraries of Charles J. Groves of Boston, Mass., and others was begun.

Favors Early Parenthood.

Early parenthood is productive of warriors, but not of good brain workers, for, says Doctor Redfield, "when we look over those intellectually superior men who have done so much for the world's advancement we find them to have been predominantly the sons of elderly parents and only rarely the sons of men less than twenty-five."

Tibet History Lost.

The history of Tibet is lost in the obscurity of the long ago, for its customs date back to the morning of the world. Its people come from the ancient ages, and it is only known that they belong to the Tibeto-Indo-Chinese branch of Keene's Homo Mongolicus.

Department of the Interior.

U. S. Land Office at Gainesville, Fla. April 20th, 1918.

LEGAL ADVERTISING

In Circuit Court, Seventh Judicial Circuit, in and for Seminole County, Florida. In

Complainant: Mabel E. Fernald. Defendant: Etta Packard and J. O. Packard, her husband.

Under and by virtue of a decree of foreclosure and sale rendered in the Circuit Court, Seventh Judicial Circuit of Florida, in and for Seminole County, in Chancery, in a cause therein pending wherein Mabel E. Fernald is complainant, and Etta Packard and J. O. Packard, her husband are defendants, it will sell at public outcry to the highest and best bidder for cash at the western door of the court house in Sanford, in said county and state, during the legal hours of sale on Monday, the 6th day of May, A. D. 1918, the following described real estate in said county of Seminole, state of Florida, to-wit:

Lot Twenty-five (25), Twenty-six (26), One Hundred Forty-six (146), One Hundred Forty-seven (147), One Hundred Ninety-five (195), One Hundred Ninety-six (196), One Hundred Ninety-seven (197), One Hundred Ninety-eight (198), Two Hundred Eighty-one (281), Two Hundred Eighty-two (282), Two Hundred Ninety-seven and Two Hundred Ninety-eight (297-298) of 31 ways, according to W. A. Ginn's plat thereof, being a subdivision of the southeast quarter (1/4) of the southeast quarter (1/4) of Section Thirty-two (32) of Township Nineteen (19) south, Range 31 east, as recorded in Plat Book 19, page 111, of the records of Orange county, Florida.

J. J. DICKINSON, Special Master in Chancery. Landis, Fish & Hull, Solicitors for Complainant. 65-Fri-5tc

In Circuit Court at the Seventh Judicial Circuit, of Florida, Seminole County, in Chancery. Citation: Hazel Monroe. Bill of Complaint: Divorce. Allen Monroe. To Allen Monroe, Springfield, Mass., United States.

You are hereby ordered and directed to be and appear to the bill of complaint filed herein against you, at the Court House in Sanford, Seminole County, Florida, on the first Monday in May, 1918, the same being a rule day of this court, and the 6th day of said month according to law, failure to do so will cause decree pro confesso to be taken against you, upon which a final decree will be taken.

It is further ordered that this notice be published in the Sanford Herald, a newspaper published in Seminole County, Florida, once each week for four consecutive weeks.

Given under my hand and seal of said court this 6th day of April, 1918. (seal) E. A. DOUGLASS, Clerk of the Circuit Court, Seventh Judicial Circuit, Seminole Co., Fla. 65-Fri-5tc

NOTICE OF APPLICATION FOR LETTERS PATENT

Notice is hereby given that the undersigned will apply on the 16th day of May 1918, to His Excellency, Sidney J. Catts, Governor of the State of Florida, at Tallahassee, Florida, for letters patent, incorporating the undersigned and their associates into a corporation to be known as Draw Development Company, under and in accordance with the following proposed charter:

Proposed Charter of Draw Development Company. The undersigned hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, and adopt the following Articles of Incorporation as and for their proposed charter:

The name of this corporation shall be Draw Development Company, and the principal place of business shall be Sanford, Florida, with the privilege of establishing branch offices in other places in the State of Florida wherever convenient.

The general nature of the business to be transacted by said corporation shall be to buy, own, sell, mortgage, lease, exchange and develop lands; to conduct a general real estate business and to buy and sell lands for its own account and on a commission; to build upon, improve and develop lands owned by this corporation or leased by it; to receive payment for all or any portion of its capital stock subscribed for in money, property, labor or services, as provided by law.

The amount of the capital stock of said corporation shall be TWENTY FIVE THOUSAND DOLLARS to be divided into two hundred and fifty shares of the value of ONE HUNDRED DOLLARS EACH. Any portion of the capital stock of said corporation may be payable in, or issued, or used for the purchase of property, labor or services, in such amount and at such just valuation thereof, as may be fixed by the Board of Directors at a meeting called for that purpose.

This corporation shall be perpetual, unless dissolved by the parties or by law.

The business of this corporation shall be conducted by a President, Vice-President, Secretary, a Treasurer, and Board of not less than three Directors, or more than five officers may be held by the same person. The directors shall be elected by the stockholders at each annual meeting. All other officers of this corporation shall be elected annually by the Board of Directors. The annual meeting of the Directors shall be held on the third Monday in January of each year at the office of the Company, unless otherwise provided by the By-Laws. Meetings of the stockholders shall be held as provided by the By-Laws. The business of this corporation shall be conducted by the following officers: Benjamin Drew, President

BAYONET SAVES AMERICAN LIVES

Escape German Shell When One of Party Stops to Dig Up Relic.

SEE SCENES OF DESOLATION

Once Richly Cultivated Valleys Speckled With Happy Villages, Now But a Sudden Panorama of Churned-Up Soil.

With the French Armes in the Field, One of the party hadn't stopped to dig up a Boche bayonet from the roadside, this piece wouldn't have been written.

The French officer-chaperone and his charges had tarried on the way back to Verdun from one of the outlying forts to chat with a bunch of Red Cross men, and incidentally to watch the antics of a flock of German airplanes as they dodged in and out among the feathery puffs of shrapnel.

EAT CORN SAVE WHEAT

President and Treasurer, M. O. Overstreet, Vice-President, H. M. Voorhis, Secretary, and Benjamin Drew, M. O. Overstreet and H. M. Voorhis, as a Board of Directors.

The highest amount of indebtedness to which this corporation may at any time subject itself shall be FIFTY THOUSAND DOLLARS.

The names and residences of the subscribing incorporators of said corporation, together with the amount of stock subscribed for by each of them is as follows, as evidenced by their signatures: Ben. Drew, Orlando, Florida, 248 shares; H. M. Voorhis, Orlando, Florida, 1 share; M. O. Overstreet, Orlando, Florida, 1 share.

On this day, personally appeared before me Benjamin Drew, M. O. Overstreet and H. M. Voorhis, each in me well known and personally known as the incorporators described in and who signed the foregoing Articles of Incorporation, and each duly acknowledged under oath that they executed the same for the purposes therein expressed in good faith.

Witness my hand and official seal at Orlando, in the County of Orange and State of Florida the 8th day of April, 1918. ETHEL HARTLOW, Notary Public, State of Florida.

My Commission expires Feb. 17, 1920. Dickinson & Dickinson, Orlando, Florida, Attorneys for Incorporators. 65-Fri-5tc

In Circuit Court, Seventh Judicial Circuit Seminole County, Florida in Chancery Grace E. Williams, Complainant Bill of Complaint: Addition L. Williams, Defendant.

You are hereby ordered to be and appear to the bill of complaint filed herein against you at the court house in Sanford, Florida, on the first Monday in May, 1918 being the 6th day of said month, according to law, failure to do so will cause decree pro confesso to be taken against you followed by final decree.

It is further ordered that this notice be published in the Sanford Herald, a newspaper published in Seminole county, Florida, once each week for four consecutive weeks.

Notice of Application for Tax Deed Under Section 5 of Chapter 4888, Laws of Florida.

Notice is hereby given that R. H. Mulhead, purchaser of Tax Certificate No. 324, dated the 6th day of July, A. D. 1915, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida to-wit: NW 1/4 of SW 1/4 of SE 1/4 Sec. 32, Tp. 19 S., R. 31 E., 10 acres. The said land being assessed at the date of the issuance of such certificate in the name of H. A. Lovejoy. Unless said certificate shall be redeemed according to law tax deed will issue thereon on the 20th day of May A. D. 1918.

Witness my official signature and seal this 18th day of April, 1918. (seal) E. A. DOUGLASS, Clerk Circuit Court Seminole Co., Fla. By V. E. Douglas, D. C. 65-Fri-5tc

The usual daily artillery strafe had been on for some hours. Hundreds of tons of metal had been bowling above cur' heads from both sides, far up and down the line. At times there was a shot for every second. But so far the Boche targets had been located a comfortable distance away.

Our officer had given the word to resume the journey, and the chauffeurs were cranking up, when the opportunity of gathering in another battlefield souvenir intervened. It is still there.

Careful figuring, conducted very shortly thereafter in one of the Red Cross dugouts nearby, convinced the whole party that if it hadn't been for the bayonet episode our cars would have collided with the big Boche shell just at the moment of its explosion about a block down the road.

The experience had merely supplied a vivid final touch to impressions already acquired—of what the soldiers of Verdun have been undergoing in the last eighteen months. In this region Nature has been given no opportunity, as she has, for example, on the battlefield of the Somme, to repair as best she can the ravages of war. From the top of one of the battered forts that now forms an unbreakable ring about Verdun—recaptured from the Germans with a valor and at a sacrifice of life that will make its name immortal in history—stretches out, as far as ten-ply, made-in-Germany binoculars can reach, a vista of utter desolation.

Once thickly forested hills and richly cultivated valleys speckled with happy villages; now a sudden, grayish, monotonous panorama of churned-up soil, criss-crossed here and there with trenches, and only an occasional stump or pile of crumpled stones to evidence its former beauty. It's like Notre Dame de Lorette, Vimy, Wytchete, Messines and Passchendaele Ridge all scrambled together.

All the forces of nature—fire, flood, hurricane and earthquake—could not have wrought such havoc. Only man could do it. Even looking backward, the only discernible color is the green of the distant hills, the shattered red-tiled roofs of the fortress city, and the clusters of purple-wreathed graves where sleep the men who made the motto of Verdun—"On ne passe pas" (No trespassers allowed!)—a reality.

The Germans now occupy much the same line as that from which the crown prince launched his costly but futile attack upon this stronghold. Previously we had traversed the valley of the Marne whose landscape bears ample testimony to the characteristic French traits of dash, mobility and resourcefulness; just as Verdun's pitifully narrowed hillside will always be a monument to the hitherto less familiarly known French qualities of tireless energy and dogged stubbornness. Land Grimly Held by French.

Then on through the forest of the Vosges down to where France in the early days of the war plucked, and still tightly clutches, a bit of what used to be hers. It's only a few square miles—just about equal to the plot of ground that Belgium now holds of her own ravished country—but entirely sufficient to exemplify and justify another fine French trait, intense pride of accomplishment.

"Allez Reconquiere!" proudly reads the sign over a little shop fronting the badly scarred old church in the public square of Thann. Nearly all the old signs have been changed from German, but some have been retained just for souvenirs. In this corner of the "lost provinces" there is no doubt how the people stand.

Are the people of France war-weary? Yes; so are those of all Europe. But they are not weary to the point of even thinking of giving up the struggle, despite, or rather because of, the fact that of all the allies France's burdens and her sacrifices in blood and desolated homes has been the greatest.

In a tour of the year zone and of the provincial towns behind the lines, from the channel to Switzerland, one may find everywhere abundant evidence of a relentless determination, among both soldiers and housefolks, to see the thing through.

But the predominant sentiment in France today is one of intense gratitude that America has come in to help. Any feeling doubts as to the outcome were dispelled with the arrival of the Saumettes.

HAPPIEST PERIOD OF LIFE

Generation That Really Knows What Happiness is Has Not Been Born, Asserts Church Paper.

Some sage has arisen to remark that human life up to about fifty years ago was not worth living—that only the inventions and institutions of the last half century have made life bearable.

Unfortunately, there is no way accurately to gauge the degree of happiness of any period or even to define exactly what happiness is, says the Christian Herald.

All we can know for certain is that the happiness of our own times is the best that is attainable to us, and lucky is he who gets his share of it.

Happiness, like health, is known to us chiefly through its opposite. Health is known through disease and pain, and happiness through disappointment and misery.

The masses of mankind, until this century almost dumb, now make heard their sufferings and dissatisfaction. The woes of centuries are finding utterance in the free speech of our day. The wall may cause the unthinking to suppose that the sun of human happiness is suddenly obscured. But, to the contrary, the remedies following the better understanding of wrong conditions steadily improve the conditions under which happiness may

Become more general. The more we hear of wrongs, the fewer wrongs we have.

Philosophers may wrangle about it until doomsday, and no doubt they will; but the age which knows the least earthly misery and woe is the one that has been longest dead, and the generation that really knows what happiness is and can realize its full possession is a long time yet unborn.

Georgetown university football eleven has secured Carlisle Indians as a Thanksgiving day attraction for Washington, D. C.

Chick Gandil, Sox first sacker, is safe from the draft for some time. Chick being married and having a bum knee, was placed in class G.

FOOD WILL WIN THE WAR

Scalds Galls Scratches, Sores, Hurts Screw Worms

To make the best cure for such troubles buy a pint of linseed oil, if you prefer a healing oil, or a pound of hog lard or vaseline if you want a salve and add a 50c bottle of Farris Healing Remedy. It simply can't be beat by any salve or liniment made, and see what you get—a full pint for not over 60 cents. Farris Healing Remedy is sold by us on the Money Back Plan. L. Allen Seed Co., Sanford. 65-Fri-4tc

Carelessness Results in Failure

That is why we say "Feed B. A. Thomas' Hog Powder according to directions." DO NOT FEED IT SLOPPY, but mix it with ground feed and moisten with just enough water to make a crumbly mass. Then each hog gets a beneficial dose. See full directions on package. Your money back if you are not satisfied. L. Allen Seed Co., Sanford. 65-Fri-4tc
