NUMBER 14

Peace Treaty Rejected Senate Then Adjourns Again Up To President

Country Back Where It Was Year Ago REFUSED TO RATIFY

AND COUNTRY NO NEARER
PEACE THAN IT WAS LAST
YEAR

Washington, Nov. 20. (By Associated Press) The fate of the Peace Treaty with Germany and the League of Nations as far as the United States is concerned is today again in the hands of the President and the situation is exactly where it was six months ago when the Peace Treaty was submitted to the Senate. The Senate has no nearer than it was on Armistice Day one year ago. The Senate last night voted down the attempts to ratify the treaty with the Foreign Relations Committee's reservations attached. Later it rejected the treaty without reservations of any kind. After the vote the Senate adjourned sine die.

FRENCH FEAR TREATY BLOCK

ARE AFRAID AMERICA AND
ENGLAND MAY FAIL
FRANCE.

Paris, Nov. 20. (By Associated Press) While the failure of the American Senate to ratify the German treaty apparently has alarmed the French it is seemingly not agitating the average Frenchman so much as the fear that the United States may not ratify the joint agreement with England for the defense of France.

STEAMER ROMAN IN DISTRESS

U. S. SHIPPING BOARD STEAMER
HAVING TROUBLE AT
SEA

New York, Nov. 20. (By Associated Press) Distress calls were received here by the Coast Guard today from the shipping board steamer Roman, which left New York Monday for Marseilles. The position is given as about three hundred and fifty miles east of Sandy Hook.

SUPREME COUNCIL IS SURPRISED AT PEACE ACTION

BUT FAIL TO MAKE ANY
COMMENTS ON IT

Paris, Nov. 20. (By Associated Press) Adjournment of the United States Senate without ratification of the Peace Treaty caused much surprise in peace circles here as despatches from Washington had suggested some compromise probable. Members of the Supreme Council today withheld any comment.

GRUBER IS DEAD

Chairman Center Party in Germany
Berlin, Nov. 20. (By Associated Press) Adolph Gruber chairman of the Center Party died of paralysis here yesterday.

FLORIDA ORANGE AND GRAPE- FRUIT MOVEMENT

Shipments Light Last Week and
Orange Movement Considerably
Less Than Last Year to Same
Date

Jacksonville, Fla., Nov. 18.—The grapefruit shipments from Florida for the season up to and including Nov. 8, were 1,641 cars, compared with 1,677 cars to the same time last year. The orange movement this year to the same date was only 617 cars compared with 1,124 cars to the corresponding date last season. The movement of both fruits was especially light last week, only 209 cars of oranges and 334 cars of grapefruit moving. Last year during the corresponding week the movement was 577 cars of oranges and 407 cars of grapefruit.

The following sets forth the carload movement of both fruits to date and gives the movements to the corresponding dates in 1918:

Grapefruit	
Shipments up to last Saturday	1,641
Same period in 1918	334
Same period in 1918	1,677
For week ending Nov. 8	334
For same week last year	407
First three days this week	090
Oranges	
Shipments up to last Saturday	617
Same period in 1918	1,124
For week ending Nov. 8	209
For same week last year	577
First three days this week	105

—N. Y. Packer.

State Federation Meets
St. Petersburg, Nov. 18.—With about 300 delegates in attendance, the silver jubilee meeting of the Florida State Federation of Women's Clubs begins here tonight in the First Avenue Methodist Church. The evening was given over to welcoming addresses and responses and afterward the hostesses clubs in the city gave a big reception at the St. Petersburg Yacht Club for the visiting ladies. The real work of the convention begins tomorrow and it is expected that one of the most interesting sessions of the federation that has ever been held will be enjoyed here. Mayor Laing delivered the address of welcome at the meeting tonight after the convention had been called to order by the president, Mrs. Edgar Lewis, and after the Rev. Dr. R. A. Carnie had offered prayer. Mayor Laing was proud, he said, to have the representative women of the state here for a convention. He praised the women for the work they had done and spoke of the fact that St. Petersburg has given the ballot to the women.

Miss Elizabeth Skinner of Dunedin delivered the address of welcome on behalf of the hostess clubs of Pinellas county and St. Petersburg. Mrs. J. A. Hendley, vice-president at large, responded to the addresses, on behalf of the visiting club women. Mrs. William Steele chairman of the music committee of the general federation was introduced by Miss Susan Dyer, of the music committee of the Florida federation. Mrs. Steele gave an interesting talk on the part that music plays in the lives of all persons and especially in club work.

Woolens Fashionable

London, Nov. 20. (By The Associated Press)—Dame Fashion set her stamp of approval on woolens for this winter, for no other reason apparently than the very high cost of such materials. The most woolly of jumpers, jackets, hats, stockings, scarfs, gloves and nearly every other article of women's and men's apparel which may be made of wool, are in great demand at increased prices. Where actual wool is used, it must be heavy looking of the extremely fuzzy variety. Where it is not used other materials must be made to appear as woolly as possible. Except by those with whom costs are necessarily a consideration, the forthcoming season of woolens is cordially welcomed. It is regarded as a becoming fashion and rather a change from hardness of line and materials which can only be worn well by the very young.

Religious Tolerance

Vienna, Nov. 20.—Methodists and Baptists hereafter are permitted to worship openly and in their own edifices, by a government order just issued. Heretofore they have been obliged to conduct religious services in secret.

INDUSTRIAL DELEGATES APPOINTED

PRESIDENT EXPECTS TO
SIFT INDUSTRIAL TROUBLES
OF COUNTRY

Washington, Nov. 20. (By Associated Press) The President today appointed a new industrial conference and called into session here December first to be composed of seventeen men, including government representatives, former members of the cabinet, and former governors of the states. They will carry on the work undertaken by the National Industrial Conference which collapsed over the disagreement of collective bargaining.

MARKETS FLUCTUATE BADLY

FAILURE TO SIGN PEACE TREATY
CAUSES FLURRY IN
STOCKS

New York, Nov. 20. (By Associated Press) Further liquidation at the opening of the stock market today was attributed in some quarters to the senate rejection of the peace treaty. General motors dropped six points. Declines from one to two points in oils, steels, equipments and shippings.

New Orleans, Nov. 20. (By Associated Press) The failure of the senate to ratify the peace treaty is responsible for heavy selling in cotton at the opening of the market today. In the first half hour of the trading here the prices dropped seventy two to ninety points.

DELEGATES PEACE CAN- NOT ACT

GERMAN DELEGATES AND
ALLIED POWERS DEADLOCKED

Paris, Nov. 20. (By Associated Press) No formal meeting yet between the German delegates who arrived yesterday morning and representatives of the Allied powers concerning the proposed protocol to the German peace treaty. It now seems unlikely that the protocol will be signed before the end of November.

LETTISH TROOPS OCCUPY CITIES IN COURLAND

SECURE CONSIDERABLE BOOTY
FROM BERMONDT'S ARMY

London, Nov. 20. (By Associated Press) Lettish troops after heavy fighting have occupied Bausk in Courland, southeast of Mitau. Enormous booty left by the German-Russian forces of Colonel Bermond was captured.

Forsaking Drug Habit

Honolulu, Nov. 20.—That they are forsaking the drug habit to fit themselves to fight the Japanese is the declaration of hundreds of Koreans who have sought entrance to the Oahu asylum for treatment during the past six months. This is the statement of Judge J. B. Lightfoot, to whom the applications have been made.

California Launches Today an Electrically Driven Dreadnaught

RIOTS CAUSE MANY DEATHS

BRITISH TROOPS FINALLY
RESTORE ORDER

Carlo, Nov. 20. (By Associated Press) Sunday ten persons were killed one hundred and twenty were injured, ninety of whom suffered gun shot wounds in the riotous demonstrations which continued here all day. British troops finally restored order.

NEWSPAPERS THREATENED WITH RUIN

SCARCITY OF PAPER AND
HIGH PRICE WILL CAUSE
SUSPENSION OF MANY

New York, Nov. 19.—Thirteen cents a pound f. o. b. mill, was asked for print paper here during this week. The price was for car load lots, and was made to one of the largest purchasers of sheet print paper in the country. The mill refused to make a price of anything less than 13 cents.

Chicago, Nov. 18.—It is reliably reported here that one of the large daily papers of the city has made an offer of 10 cents a pound for 1,000 tons of roll print, and has not found a mill that will take the order. The Chicago papers are being forced to omit a large amount of advertising from every issue because of the shortage of print paper.

Washington, Nov. 18.—Complaint of inability to secure print paper are pouring into government offices here. Newspapers are reporting prices of 8, 9 and as high 12 cents being asked for print paper, and when orders are placed at these prices it is possible to secure only very small quantities, not nearly enough to meet their needs.

Omaha, Nov. 19.—One of the largest wholesale paper dealers of the country reports print paper prices going upward every day, with a raise in one week of more than \$1 a hundred. Many mills are refusing to accept orders at any price, and a forced suspension of many papers is looked for, as there is no prospect of any relief in the immediate future.

Washington, Nov. 18.—Small and weekly newspapers are threatened with destruction because of inability to obtain print paper, the house was told by Representative Reavis, republican, Nebraska. He charged that news print manufacturers were refusing to sell small publishers, in order to fill the wants of the metropolitan dailies.

Paper consumption by the big city dailies and magazines has greatly increased, Mr. Reavis said, by an "extensive national advertising campaign conducted to defeat the government in collecting taxes." He urged that the internal revenue bureau investigate the returns of concerns conducting the campaign to disclose to what extent their excess profits tax was reduced by the costs of the advertising.

A Poor Offer

A gentleman from Georgia says the labor situation in the South reminds him of this story:

A negro applied to a cotton plantation manager for work. "All right," said the manager. "Come in the morning and I'll put you to work and pay you what you are worth."
"No, sah, I can't do that," replied the negro. "I've gettin' more dan dat now."—Pittsburg Chronicle-Telegraph.

LETTER FROM DOC GOSSMAN

Gets Copy of Daily Herald and
Likes It
November 16, 1919.

Dear Mr. Holly:-
Glad to know that you are back again in harness ready to do your share in boosting for the prosperity that is bound to come as soon as we deport about 60,000 bullsheviks and hang a few hundred of them.

Our good friends Mr. and Mrs. Geo. N. Townsend living in the Western suburbs of your city sent me several copies of the Daily Herald. I read them thru, and all from "kiver to kiver" and I must say, for a daily in a small city, the Herald is going strong.

So I extend herewith my congratulations to you. It is a dream come true, and any dream that becomes a reality, whether it is in the intellectual or in the industrial sphere of effort, makes the world just that much better. Long live the Daily Herald. May it constantly remind its citizens that they live in a community that has more advantages and fewer disadvantages than possibly any other place in the world.

Enclosed you will find a picture of children skating on the edge of Lake Michigan in a lagoon. This was taken yesterday morning Nov. 15, on the warmest of our three days of winter. Thursday morning after seven, old more said only ten degrees above zero, here in the street where we walk and ride. Of course up on top of the weather observatory it was six degrees warmer, but it might as well have been zero judging from the chill it gave Chicago. Within another week we may have a temperature way up near eighty. You see we have a great variety of weather up here and can't promise any thing definite.

But what gives us some comfort is the fact that we have over two hundred dollars worth of coal in the cellar! That will have to keep fourteen people warm until May or June when it probably will be warm enough again to go without overcoats.

With best wishes for yourself and staff, I remain
Most Respectfully,
Doc.

English Labor Reforms

London, Nov. 20.—(By The Associated Press) The Labor Party intends to make educational reforms one of the problems to which its legislators will direct attention during the forthcoming session of Parliament. Some provisions of the Education Act of 1908 have roused opposition from labor representatives in the house of Commons. Chief among these is authority given local officials to recognize "works schools" organized by private firms and conducted on the firms' premises which are approved in the act as offering "suitable and efficient part-time instruction". These schools are designed for boys and girls between fourteen and sixteen years of age.

Labor Party representatives object to the "works schools" on the ground that they may mean that instruction there "will be biased by the commercial interests of the firm conducting them". A demand is also made that instruction, as far as possible, shall be in the morning hours, it being contended that "it is useless to compel boys and girls to attend school when they are tired out by a day's work." Labor Party candidates are making their party's stand on this subject prominent among their campaign arguments.

Russian Money

Nome, Alaska, Nov. 20.—Russian paper money of half a dozen or more brands was left in Nome last week by sailors given shore leave from Admiral Kolchak's gunboat, the Yakut, when it spent several days here taking on supplies.

Bills brought by the sailors carry stamps of the old Russian imperial government, the Kernsky government, the Kolchek administration, the Bolshevik officials and several Russian provincial governments. As the money was of doubtful value none of it passed as face value.

Launched At Mare Island Yard

SHIP RANKS HIGH

GREAT SHIP FROM GREAT
STATE TAKES WATER TO-
DAY

Vallejo, Cal., Nov. 20.—The third electrically-driven superdreadnaught was added to the United States navy afloat today when the California was launched at the Mare Island navy yard here. In the use of electricity as a means of propulsion, the new fighting ship follows the example set in the battleship USS Tennessee and Tennessee. The California is expected to cost more than \$15,000,000 and will carry twelve 14-inch guns. Besides being electrically driven, the new warship will be electrically operated from her guns to her potato peeling machine.

As the great craft slid into the water she was cheered by Governor William D. Stephens, of California, his daughter, Mrs. Randolph T. Zane, who sponsored the war vessel and thousands of spectators. While her berth was still warm the keel of a great companion superdreadnaught, the Montana, was laid within it. Designed by master minds sharpened by the urge of war, the California represents the ultimate in fighting fitness. Bulked alongside the fretwork of the ways where she had been pulled by tugs after the launching, the great vessel showed herself to be the embattled floating city that she is. All that has been learned in the war in regard to the fitting up of dreadnaughts has been put in this latest addition to the American navy.

The California's keel was laid October 16, 1916, but during the war the men who fabricated her turned their tools to the knocking together of other and smaller warcraft designed to fight the submarine. For two years not a rivet was driven but upon the signing of the armistice the great hull again swarmed, clanked and rang with life and it was heated, beaten and turned into the mighty craft that was launched today. In commission, the California will have a crew of 1,022 men and 58 officers, full complement. She has a length over all of 624 feet, a breadth of 96 feet and a depth of 47.2 feet. Her displacement at her mean draught of 30.5 feet would be 30,000 tons. She has an estimated speed of 21 knots an hour and a normal fuel capacity of 1,900 tons.

It is estimated that she is fully thirty percent better protected than any other vessel in the United States navy, not excluding the New Mexico. Her great turbines of 8,000 horsepower are the principal unit of the California's electric system. The guns will be fired by electricity. Her ventilation, steering, supplying of power to the drive shaft, laundering, printing, ice-cream freezing, cake-making and dish-washing all will be electrically operated. Although this has brought her total cost to something in excess of \$15,000,000, a saving in fuel is expected quickly to offset this cost. Her hull alone cost \$7,800,000.

In armament the California will rank high. Besides her twelve 14-inch guns, she will carry four submerged torpedo tubes, 25 two-inch rapid fire guns, four six-ponders, two one-pounders, four three-inch anti-aircraft guns, one three-inch landing gun, and two 30-caliber machine guns. She will be a fitting example of the "last word" in battleship designing and fitting, and, will be the first ship of her class to be turned out in a Pacific Coast shipyard. The award for the California was made at the same time the Tennessee was contracted for. The Tennessee, built in an eastern shipyard, was to be a sister ship to the California, but she was launched before many of the improvements going into the California were reduced to the efficiency that they hold today.

Butter Reaches Highest Prices

Chicago, Nov. 09.—Highest prices ever known for butter were reached in Chicago yesterday, 70 cents being asked for creameries wholesale. This same grade never went over 67½ cents during the war. Receipts of butter here of late have been much less than a month ago.

LIVE ON ILLITERACY

Bolshevism Flourishes where People Are Ignorant

Omsk, Sept. 15, Via Vladivostok, Nav. 10. (By Associated Press) Illiteracy is the horror of Russia

and it is on this soil that Bolshevism flourishes, says Professor A. A. Ossendoffsky, the Polish chief of the Intelligence Department of the All Russian government.

He defines the Bolshevik order as "There is no more law, Go forth,

burn, pillage, kill and you will be rich and happy." The illiterate and credulous believe this and after two years the world sees the ruin of Russia.

According to the professor, they have no axes, scythes, shovels or nails in Soviet Russia. The Council of National Commissaries is ordering that all valuable English textile machines in Russia be converted into such utensils as there is no cotton in Soviet Russia and all textile works are idle.

Of the chemical industry there is not a trace. All manufactured goods have been exhausted. Machines are idle.

The professor estimates that all the debt of Russia could be paid up by exporting its vast supply of timber and that its great stores of hard and soft coal would suffice the world for 150 years. Russia's surplus of iron, copper, zinc, naphtha, gold and the wealth in fish of the Pacific and Northern Oceans and Siberian rivers and its fur industries could be utilized as a firm foundation for any economical and financial policy that might be adopted by any Russian government.

"But to accomplish this, it is necessary to have normal living conditions, continuity of work and assurance of the integrity of person and property," says Professor Ossendoffsky. Toward attainment of these conditions, he believes the All-Russian government at Omsk is making progress.

"Having freed from Bolshevism one-third of Asia," he says, "the Omsk government has preserved untouched the whole of the gold reserve belonging to the former Russian empire, preserved it for the whole of the Russian people. Immense sums have been assigned for the purchase of agricultural machines and fertilizers. The government has sworn to convene a constituent assembly which shall decide the age-long question of distribution of land among the peasants."

"The Bolsheviks having promised and actually given land to the peasants, began to introduce the communal principle into its agrarian policy and its method of distributing supplies with the consequence that all Soviet Russia has been shaken by peasant uprisings."

Golden Rod Wedding

Among the group of beautiful church weddings which have taken place this fall, the marriage of Miss Muriel Harrold to Emmett Monroe Hunt, at the First Presbyterian Church, yesterday afternoon at two o'clock, was one of the loveliest of the season.

A golden-rod wedding, typical of autumn, and interwoven with a bit of pretty sentiment, the church was never more attractively decorated than on this happy occasion. The deft hands of admiring friends had transformed it into a bower of gold and green, a profusion of golden-rod massed against the chancel-rail, relieved by the pretty arrangement of beautiful ferns which surrounded the platform in graduated form to the lower steps.

Tall graceful bamboo arched overhead and above the organ, the same attractive scheme being used throughout the auditorium against the walls with an effective group of palms, bamboo and golden-rod screening the doors of the Sunday School room. Pillars entwined with Southern smilax completed the adornment of green and gold which was very lovely.

A delightful program of music was rendered by Mrs. Fannie Stenbridge Munson, Mrs. Vance Douglass and Mrs. Julius Takach which included the organ number "Traunl," a vocal selection, "Beloved It Is Morn" (Hickey-Aulwaed) by Mrs. Douglass and "O Promise Me" given by Mrs. Takach.

The bridal party entered to the strains of the Bridal Chorus from Lohengrin.

Precede by the ushers Messrs. Robert Deane, Hume Rumph, Randall Chase and Frank Woodruff, the matron of honor, Mrs. Sheldon Morris, an aunt of the bride, entered alone. The little flower girl, Helen Douglass, walked before the bride and groom who entered together and were met at the altar by Rev. E. D. Brownlee who performed the ceremony that united them in marriage.

Mendelssohn's Wedding March was played for the recessional, the little flower-girl, scattering pink rose leaves before the bride as the party left the church.

The bride was very lovely in her traveling suit of brown imported chiffon broadcloth, trimmed with Hudson seal and wearing a stylish brown velvet hat banded with gold braid. Shoes, gloves and hose, were in brown and carried an arm bouquet of bride-roses.

The matron of honor wore a handsome gown of black satin, combined with Russian embroidered net over electric blue chiffon, with hat and accessories to match. Her flowers were golden-rod.

The dainty little flower-girl was sweet and winsome in a pretty frock of white organdie and wearing pink ribbons. She carried a basket of pink rose-leaves.

Mrs. Harrold, mother of the bride, wore a gown of orchid tulle and gold lace, a black velvet hat completed the charming toilet.

Miss Dora Harrold, sister of the bride wore a pretty white lingerie frock with blue ribbons.

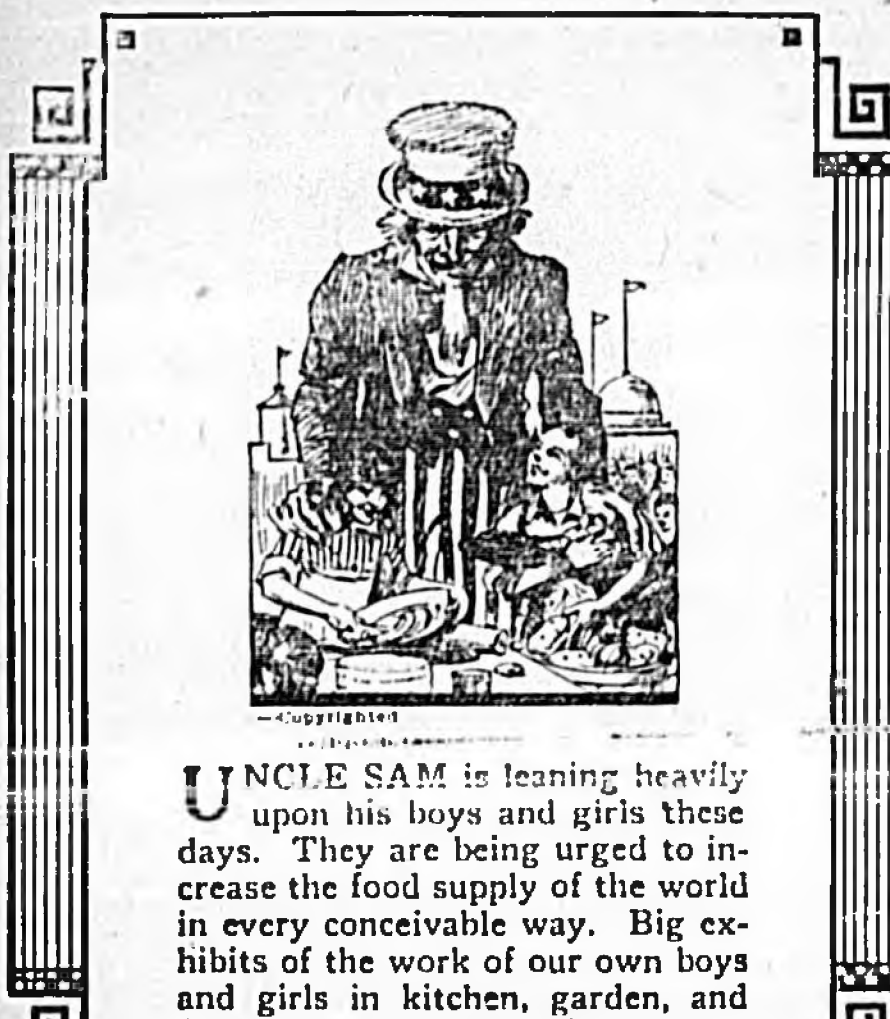

The bride is the lovable young daughter of Mr. and Mrs. Joe Alexander Harrold, a graduate of the Sanford High School, a talented reader and musician and a charming member of the younger society set.

The groom is connected with Morris and Co., of Charleston, S. C. and is well known in Sanford, having resided here for several years, previous to his enlistment in the marine corps during the late war. He is the son of Mrs. F. P. Hunt of Forsythe, Ga.

Mr. and Mrs. Hunt left immediately after the ceremony for Jacksonville from which place they will go to Forsythe, to visit the groom's mother. The wedding trip also includes Washington and Baltimore. They will be home at Fourteen Orange Street, Charleston S. C. after November twenty-fifth.

The popularity of the young couple brought them many beautiful and useful wedding presents in cut glass silver, china and liners.

Out of town guests were Mrs. Sheldon A. Morris, of Jacksonville Mrs. Jack Dempsey, Miss Margaret Dempsey and Miss Elizabeth Fisher of Tampa and Miss Naomi Harrold of Del and.

UNCLE SAM is leaning heavily upon his boys and girls these days. They are being urged to increase the food supply of the world in every conceivable way. Big exhibits of the work of our own boys and girls in kitchen, garden, and field, will be an outstanding feature.

NEW STATION JACKSONVILLE MAGNIFICENT

THE NEW STATION ONE OF FINEST IN THE COUNTRY

The following from the Jacksonville Times Union about the new union station will be interesting to the many people of this state.

The new union station, which has cost at various times from three million dollars down to three-quarters of a million, is now in use. If it cost three million we would say the money was well expended. If it cost only three-quarters of a million we would advise every man in Jacksonville, who can scrape together the money, to build now, for we do not believe there ever was a time since the discovery of America or before when such a magnificent structure could have been built for less. The station is at once the colossus and the gem among Jacksonville's buildings. If it is not the colossus it is next to it. One other building in the city may be larger but no other compares with it in beauty.

It is fashionable to compare with other things of their class in the South. This habit was probably started when the South, reduced to the depths of poverty by a war that was more sweeping in its destruction of the vanquished nation than any other in modern times, could not be expected to rival the sections of the country in utility or display. The habit continued longer than the poverty of the South and so we hear that this station is the finest south of Washington. While we have not traveled all over the world or even the United States we are confident that this station would rank as one of the ten finest in the United States or one of the twenty finest in the world.

We have, however, seen some of the stations in the villages of the eastern part of the United States. That in Washington is much larger but not so beautiful and impressive looking. Of course, the two in New York are larger but not so impressive looking among their surroundings as this is standing alone in its symmetry and beauty.

Hundreds of thousands of men who come to Florida every winter see nothing of Jacksonville except the union station. What they have seen has not given them as good a conception as Jacksonville deserved. The station they enter now will give them a much higher conception than could be maintained if they looked over the city further. The only thing we know against this new union station is the necessity it brings with it for the expenditure of more money. The people of Jacksonville must get a move on them and manage somehow to get up one hundred million dollars to improve the city until it becomes worthy of the impression the union station will make.

It is difficult to estimate the advantage this magnificent station will be to Jacksonville merely as an advertisement. First impressions are of the utmost importance and if first impressions are bad they are often also last impressions. When the traveling public realizes that this city with only one hundred thousand population has a railroad station that is superior to any to be found in most cities with a population of a million they will get the correct impression—that Jacksonville is the biggest city of its size on the planet—and will understand that the size will grow up to the spirit of the city. And though this station, of which we are so proud, was not built by Jacksonville capital it was built by corporations that are in the habit of giving to each city they touch accommodations in proportion to its importance to them.

ATTEMPT ASSASSINATE KOLCHACK

HEAD OF ALL RUSSIAN GOVERNMENT HAVING HARD TIME WITH BOIS

London, Nov. 19. (By Associated Press) An attempt to assassinate Admiral Kolchack head of the All Russian government is reported in a wireless from Moscow. Hand grenades were thrown at him and six of his soldiers were killed and twelve wounded. In the capture of Tobolsk, Ishim, Zerkalinsk, Petropavlovsk, Kaktzhetoff and Omsk the despatch asserts that the Bolsheviks took twenty eight thousand prisoners including one thousand officers.

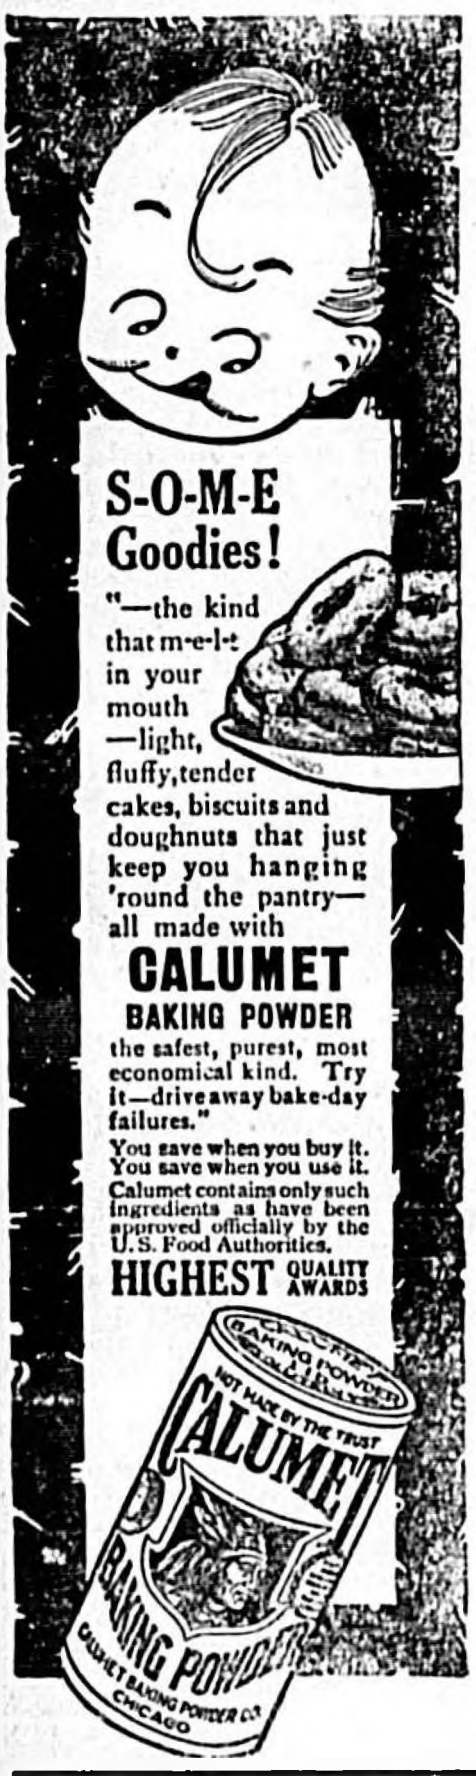

Dry America

Liverpool, Nov. 20.—"A curious commentary upon 'dry' America," says the Liverpool Post, "is contained in the following cable which has been received from the states by a well-known British whiskey firm: 'Could dispose of 20,000 to 25,000 cases if they arrive by November'."

"Each case referred to in the cable contains a dozen bottles of whiskey, and therefore indicates a capacity on the part of America to dispose of whiskey in spite of her prohibition laws."

English Merchants Ships

London, Nov. 20.—Merchant ships building in the United Kingdom, Sept. 30 totaled 2,816,773, tons an increase of 293,000 tons as compared with last June and 1,070,000 greater than a year ago. These figures have just been announced by the government. The output during the quarter, however, shows a falling off of 112,000 tons compared with the previous three months. The total building abroad, 5,231,000 tons, a decrease of 262,000 from June figures, is accounted for here by a falling off in the United States.

"THE REAL TIRE"

Reasons!

Why should you use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from thousands of women, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

Take **CARDUI**

The Woman's Tonic
Mrs. Mary J. Irvin, of Cullen, Va., writes: "About 11 years ago, I suffered untold misery with female trouble, bearing-down pains, headache, numbness . . . I would go for three weeks almost bent double . . . My husband went to Dr. — for Cardui . . . After taking about two bottles I began going around and when I took three bottles I could do all my work." E-80

WILL DEPORT BERKMAN

And Emma Goldman For Being Anarchists

Washington, Nov. 17.—Replying to the senate inquiry as to what had been done toward deporting Emma Goldman and Alexander Berkman, Attorney-General Palmer deferred to-night that the woman's claim to American citizenship was "fallacious" and that Berkman, by his own admission, was an anarchist.

The Goldman case is under consideration by immigration authorities at New York and the attorney-general's statement was taken to mean that the government soon would attempt to send her back to Russia, where she was born.

Discussing Goldman's claim to citizenship, Mr. Palmer said she was 24 years old when her father was naturalized, and that her age barred her from inheriting naturalization rights from him. The fact that her husband obtained his citizenship through fraud, Mr. Palmer added, cancelled any claim she might have established through that source.

The ramifications to which the plots and plans of a group of anarchists headed by Emma Goldman, have extended, were reviewed by the attorney-general. Declaring that both Mathew Schmidt and David Kaplan, who are serving prison sentences for complicity in the destruction of the Los Angeles Times building, were members of the Goldman clan, he showed also that she advocated violence and had incited riots early in 1893, when she was sentenced to serve one year on Blackwell's Island, after indictment on these charges. Mr. Palmer included in the statement a transcript of the confession of Czolgosz, who shot President McKinley, in which he told of the influence Emma Goldman's teachings had exercised on his life.

Further investigation by government agents proved that he had not only heard her speak, but frequently had consulted with her as to methods

to be employed in effecting the destruction of the government.

The connection of both Berkman and Emma Goldman with the bolshevik movement also was emphasized by Mr. Palmer. The activities of the union of Russian workers, said to be one of the most dangerous organizations in America, and against which the government has directed a vigorous campaign, has been traced directly to the Goldman-Berkman propaganda.

Prohi Act Encred
Washington, Nov. 16.—Complia by the people with provisions of the prohibition enforcement act, during the first two weeks of its life was reported today by Commissioner Roper of the bureau of internal revenue.

"My confidence in the desire of the American people to observe the law, is being fully justified," Commissioner Roper said.

The recent appeal to all moral agencies to support the government and aid in the law's enforcement, the commissioner declared, had real assistance from every quarter.

Mr. Roper made public a report from the collector of one of the important districts which illustrated conditions he said. This showed little violation of the law and set forth that the liquor dealers associations, had pledged hearty support to the law, and the press had been helpful factors.

Death of W. J. Carnes

W. J. Carnes died at the Sanford House Saturday morning about ten o'clock after an illness of several months. Mr. Carnes was the manager of the Hotel Olive in Tampa for his son, S. J. Carnes of this city who is also the proprietor of the Hotel Carnes. He also leaves a son James Carnes and daughter Mrs. M. P. Christian of Tampa and has sisters and brothers living in Louisiana and Mississippi all of his relatives having been summoned to his bedside were here when he died.

The funeral services were held from the First Methodist Church at Tampa at nine o'clock yesterday morning, interment being made in Woodlawn cemetery.

The sympathy of the many friends of the Carnes family is extended to them in the home of bereavement.

Christian Science services will be held at the Woman's Club, Oak avenue, between Third and Fourth streets, on Sunday, morning at 10:45 o'clock. Subject: "Soul and Body." 48-tf

Maude Littlefield Ballard the well known writer who has done so much for Florida in the big eastern dailies each winter was in the city this morning. Her idea will be to get Sanford interested and advertise this city in the big dailies for the winter tourists.

A Poor Offer
A gentleman from Georgia says the labor situation in the South reminds him of this story:

A negro applied to a cotton plantation manager for work. "All right," said the manager. "Come in the morning and I'll put you to work and pay you what you are worth."
"No, sub, I can't do that," replied the negro. "I've gettin' more dan dat now."—Pittsburg Chronicle-Telegraph.

J. E. SPURLING

W. F. Bartlett, Oakfield, Ga., May 10, 1917. Old Kentucky Mfg. Co., Paducah, Ky.

Please allow me to state that I have used your hog cholera remedy for one season and have ordered more for this season. Last year I lost 12 or 15 men who raised hogs. I told each of them to take the remedy, feed it to their hogs and if they lost a single hog from any kind not to pay me a cent for the remedy, but when they began to sell cotton every man came in and paid me for the medicine and every one of them told me that it was the best hog medicine ever used. One man paid me for the small package and bought the big worth more and said it was the best that he had ever tried.

Yours very truly, W. F. Bartlett. Merchants Grocery Co., Sanford, Fla.

Uselessness Results in Failure. That is why we say "Feed B. A. Fernal's Hog Powder according to directions. DO NOT FEED IT SLOPPY, but mix it with ground feed and moisture with just enough water to make a crumbly mass. Feed each hog gets a beneficial dose. See full directions on package. Your money back if you are not satisfied." Merchants Grocery Co., Sanford, Fla. 7-5c

of Andrew Aulin, and to all parties claiming an interest in said property, situate in Seminole County, Florida, to-wit: ...

You and each of you are hereby ordered to appear to the complainant's bill of complaint herein filed, on Monday, the 5th day of January, A. D. 1920, at the same being a full day of this Court.

AN ORDINANCE

An Ordinance entitled an Ordinance requiring the grading and paving of French Avenue from south Street 3420 feet to Hughey Street and for grading and paving Goldboro Street from French Avenue west 425 feet to public road running to Uppala.

be assessed, one-third on each side, against the lands upon which said paving shall be done and the City of Sanford shall have a lien therefor against the said lands enforceable as provided by the laws and ordinances of said City.

Section 4. That upon failure of any property owner to do the grading and paving herein provided for, the same shall be done by the City of Sanford to the lowest and best bidder, in accordance with the specifications and specifications submitted by the city engineer, and two-thirds of the cost thereof, one-third to abutting owners on each side, from and upon the completion of the work, shall be assessed, and shall be a lien, superior to all other liens, except only liens for taxes and upon the lots and property fronting and abutting upon said avenue and street hereinafter described and so graded and paved, and the remaining one-third of such cost shall be paid by the City of Sanford.

Section 5. That the estimated cost of grading and paving per square yard for the paving of said avenue and street is \$2.40, the estimated total cost to be paid by the city of Sanford is \$15,570.00, and the estimated cost to lot owners per front foot is \$0.99.

Section 6. That any person owning any lot or lots fronting or abutting upon said avenue or street shall have the right within thirty days after the filing of said estimate to present to the city clerk a sworn petition to be presented to the city council, setting forth that in the opinion of the petitioner the estimated amount of such cost for such paving is incorrect, showing wherein it is incorrect and why it will exceed the special benefits accruing from such paving done and to be done in front of said lot or parcel of land.

Section 7. That the city council shall, after proper notice and within the time prescribed by ordinance, sit as a board of equalization to hear and determine all petitions and complaints which may be filed in reference to the estimated costs of the paving herein provided for, and such board shall have proper inquiry into the same, and if it shall appear to the satisfaction of the city council, sitting as a board of equalization, that the estimated amount of said lien is correctly estimated, the amount so fixed shall stand as the amount of such lien to be claimed by the city of Sanford for the paving of said avenue or street in front of said property, and after the city council has heard all petitions and complaints and has made all corrections which in their judgment is just, and have equitably assessed and equalized said stand as a lien against said property to the extent of the amount of said work in the manner provided by the laws and ordinances of said city.

and for Seminole County, Florida, did on the 20th day of September, A. D. 1919, file their report to said Commissioners, wherein it appears that they have viewed the lands in said District to be benefited by the ditches, drains or canals therein, and have in said report assessed each parcel of land in said District according and in proportion as it shall be benefited by said ditches, drains or canals, for the expenses of the Committee and Engineer, as estimated by the Board of County Commissioners of Seminole County, Florida, which report is now on file in the office of the Clerk of the said Board at his office in the Court House in Sanford, Florida.

Now therefore, take notice that on Tuesday, Dec. 2nd 1919, at ten o'clock A. M., the same being the next regular meeting of the said Board of County Commissioners, which meeting will be held in the Court House in Sanford, Florida, the said Board will hear complaints from the owners or agents of all lands affected against the assessments so made.

By Order of the Board of County Commissioners of Seminole County, Florida, this 6th day of October, A. D. 1919. (Seal) E. A. DOUGLASS, Clerk.

First Strawberries

The first ripe strawberry from plants set this fall was exhibited at The Courier office Wednesday. It was brought in by C. R. Beauchamp but was given by E. J. Harvill, who is cultivating Mr. Beauchamp's place on the eastern boundary of the city, this season. He has about two acres set to berries, and they are very promising in appearance. The plant from which the ripe berries were taken this week was set about the middle of September, and Mr. Harvill will, it is believed, have plenty of strawberries for Thanksgiving.

It has been three years since the berry season opened as early as Thanksgiving. In 1916 a light freezer was shipped in time to reach Philadelphia for Turkey Day. Plant City Courier.

MINERS ARE LOAFING

And Coal Shortage Will Be the Result. Indianapolis, Nov. 17.—While operators and union leaders had predicted a large increase in bituminous coal production in parts of the country where the miners have been on strike for 16 days, only in West Virginia were both sides confident that all the men would be back at work during the day. The other large producing fields reported a disposition of the men to await further results of the conference at Washington between operators and union miners over a wage agreement in the Central Competitive field.

Meanwhile a shortage of coal in the middle west has caused the region coal committees to consider means of conserving fuel. In Indianapolis, the coal committee has tonight as a means of preserving coal supplies.

C. M. Hand For Sheriff

Having been urged by a large number of the voters of Seminole County to become a candidate for the office of Sheriff, I hereby announce my candidacy subject to the decision of the Democratic primary.

If elected Sheriff of Seminole County, I pledge my very best efforts to see that all laws are strictly enforced as far as it is in my power to do so. Having served as Sheriff of Seminole County for three years and five months I believe I am fully qualified to fill the position to the satisfaction of the law abiding element of the County.

If elected, I pledge a relentless war on illicit distilling and sale of all intoxicating liquors regardless of whether guilty parties are friends or foes and I want it clearly understood that I consider that the office belongs to the people and their rights shall at all times be considered paramount to everything else, and I repeat that to give to Seminole County the best that is in me and keep it in the front ranks of the Counties of the State in all things and especially in regards to the violation of the prohibition and gambling laws of what ever nature shall be my first aim. And right here I wish to state emphatically that my deputies shall in all cases be chosen not on the ground of personal friendship but for their efficiency alone and should at any time they or any of them become obnoxious to the public and it is brought to my attention I promise to make thorough investigation and if facts warrant his or their discharge to act on the same, as through me would be the only way of handling such matters.

I make the above statement because I believe it to be the duty of every citizen to state his position in advance on all questions of public interest.

Very respectfully yours, C. W. Hand.

Miss May Holly was the guest of Mr. and Mrs. Wheelis on Tuesday going to the circus.

Meanwhile a shortage of coal in the middle west has caused the region coal committees to consider means of conserving fuel. In Indianapolis, the coal committee has tonight as a means of preserving coal supplies.

The railroad administration today took off a dozen local passenger trains on the Chicago, Milwaukee & St. Paul railroad here and at Milwaukee and it was said that further curtailment of railroad service both in the passenger and freight departments would result if coal supplies ported by members of the fuel commission that unless fuel production is resumed on a larger scale within a short time it will be necessary to withhold coal from all but essential industries.

There were two reasons why the editor of the Herald did not take in the circus yesterday. The first was because no one asked us and the second was because we could not go any-how.

This prohibition thing is all right until the time comes for colds and the "Gripp" and other things and then we recall how the physicians used to recommend rock and eye.

Well, that cold spell that we have been longing for is here and the circus at Orlando seems to have brought it down to us. Now for that big winter season with all the attendant big things booked for this section.

The Republicans are getting active and looking ahead to the time when they too can get up to the pie counter. Seminole county Republicans held a meeting here Monday night to talk over old times and see where the

postoffice jobs and other good things will go.

The final vote on the peace treaty will be made tomorrow and it looks like the treaty will be ratified in spite of all the reservations and other arguments against it. It is certain that when the peace treaty is finally settled the country will be able to get down to business on other and equally important matters for own welfare.

William Allen White, newspaper man and sage, told a Kansas City audience the other day why the President is ill. In his view the presidency is now too great a burden for even a superman to carry; and, as a result of Woodrow Wilson's passionate consecration to the big tasks urging themselves upon mankind in this new day, he is "halted by broken nerves and a pain-wracked body. Describing the President's unprecedented achievements at Paris, Mr. White says: "He had to go alone amidst the play of great forces." Of the big issue of the hour the Kansas writer offers his classic analysis: "The League of Nations covenant is only 70 per cent perfect; sometimes I think it much less than that, but it is the big thing of the peace conference, the most significant thing west of the Gangs since the crucifixion, and it is all Wilson's work. If it were only 10 per cent, perfect it would still be a step in the right direction." And that is the view of all broad-visioned Americans.—Editor and Publisher.

WHITE COLLARS vs. OVERALLS.

Once upon a time white collars were cheap and anyone could afford to wear them, but today they are a luxury that weighs heavily upon many who persist in wearing them. In a recent issue of the Saturday Evening Post Forest Crissey, one of the foremost writers of the day, contributes an article on "White Collars vs. Men." In the article he points out the high price so many office men are paying for the privilege of wearing white collars. He contrasts their positions with the wage earner, greatly to the advantage of the latter.

Bank clerks, college professors, general office men, and in fact the great majority of salaried men who affect the white collar, are working for salaries utterly inadequate to meet the high cost of living, while the wage earner as a class is reveling in luxury. As a result of the handicap the salaried men are working under, many of them are drifting away from offices to factories and other over all jobs.

For the past two years salaried men have witnessed the rapid raise of the wage scale in all branches of trade while their own salaries have advanced imperceptibly or not at all. Jobs that require neither education nor skill, and not even much physical strength, are drawing much greater remuneration than the average office position. Common sense is supplanting pride in the hearts and heads of thousands of men and they are turning to the employment that will bring the largest compensation. Education is no barrier to the overall jobs and the demand for men to fill overall seems to be unlimited, while applicants for office jobs have been correspondingly great.

While the office man can easily qualify for an overall job the average overall man cannot qualify for an office job, lacking the education and training that are to be secured only by years of application. Of course jobs calling for skilled labor are different, as a man

cannot learn a trade over night, but he can learn to drive a bread truck or milk truck in a very short time, and men who are filling these positions in the big cities are earning from 4,500 to \$6,000 a year. A few months' training fits many office men for semi-skilled labor jobs which pay handsomely. In time the drafts on office staffs by factories, mines, farms, mills and other industrial pursuits will balance conditions and the white collar men will again come into his own, but the call of the overall is much stronger at the present time.

German Sea League
Berlin, Nov. 09.—The German Navy League is to be rechristened the "German Sea League" and is to work "for the development of the German mercantile marine and the resumption of German maritime trade and shipping."

NO CHANGE GIVEN

Mexico Finds Small Silver Coin Are Very Valuable

Mexico City, Nov. 19 (By Associated Press). The most persistent phrase encountered by the buying public in Mexico at present is "No hay cambio," "there is no change." The silver in the Mexican peso, fifty-cent piece and the smaller coins, is worth more than the face value of the coin as this money has been hoarded by many persons and sold for their silver content.

The result is that "cambio" or change has disappeared and persons who buy or sell are forced to pay from four to seven percent for silver pieces from brokers. Most merchants refuse to make small sales if they are forced to give change, asserting they would lose money in the transaction.

The "azteca" or Mexican twenty-peso piece is practically useless as money in stores or cafes when the purchase is for a small amount.

"I might as well be broke as have an azteca," complained an American and did not find a cafe to change his gold. Later he hit upon a unique scheme. He deposited the "azteca" with the cafe proprietor and proceeded to eat at intervals until he had no more credit, which with prevailing prices was not a long time.

Weather Report

For Florida, rain tonight except fair extreme south portion Wednesday, probably fair fresh north-west winds except probably strong this afternoon and tonight near east coast.

Low Rates to Jacksonville

Jacksonville, Nov. 18.—Every railroad ticket agent in the state has received instructions from the line he represents regarding special low round trip fares to Jacksonville for the Florida State Fair and Exposition, November 22-29 and a large travel to Jacksonville from state points is anticipated.

Hotel, boarding house and rooming house proprietors have given the fair association that there will be no "gouging" of fair visitors and all will cooperate in making the fair an entire success.

Rates from each city and town in the state have been established and information regarding the fares may be received from all ticket agents.

What Pershing Says

"It is my opinion that if we had been prepared adequately we could never have been called upon to defend our rights."—General John J. Pershing, before the senate committee on military affairs.

For two years the manufacturers Record unceasingly urged preparedness to save the danger of our soldiers being cold-bloodedly murdered by their country's unpreparedness. We warned the nation that upon the head of the pacifists and the advocates of unpreparedness would rest the blood of many a soldier killed because of our unpreparedness.

General Pershing, whose judgment should be good, states the case clearly. Germany believed we would not fight, and had good cause to believe it, for did not millions of Americans vote merely to the tune, "He kept us out of war?" Every man who made that the reason for his vote is responsible for much of the sorrow and suffering of millions of our soldiers. This is a bitter pill to swallow, but it should purge the Nation of the poison which very nearly killed its soul and its body alike.—Manufacturers Record.

President Is Out

Washington, Nov. 18.—President Wilson was taken down stairs in a wheel chair today and rolled out on the White House lawn near the portico where he basked in the sunshine for a short time. This was the first time he left the White House since his return from the Western tour during which he was taken ill.

Those who saw the president said he seemed bright and cheerful and

apparently was "full of fight" as the result of the senate's action on the peace treaty.

JENKINS IN HAD

Consular Agent Seems To Have Pulled Something

Washington, Nov. 08.—Wm. O. Jenkins, American consular agent at Pueblo was detained at the penitentiary for two hours after his arrest on a charge of collusion with the bandits who recently kidnaped him, according to advice to the state department today from Mexico City. He then was released without bail and is now restricted to his own home.

For further information regarding the charges against Mr. Jenkins has been asked for by the state department and pending its receipts officials would not indicate what action the government would take.

First unofficial news of the arrest? was received by the state department yesterday from the American embassy which said the arrest appeared to be based on declarations of a number of persons who, under threats made statements purporting to establish collusion. The department telegraphed urgent instructions to the embassy to take the matter up with the Mexican foreign office, with a view to securing the release of Jenkins.

The embassies later report that Jenkins had been released, but was restricted to his home, was based on a report to the consular agent. The embassy also reported that in a signed statement published in the Mexico City press the prosecuting attorney of Pueblo charged that Jenkins was guilty of criminal responsibility and of giving false evidence and that he had been transferred to his home to avoid recurrence of his illness which followed his capture by the bandits.

W. J. Carnes Fought For Cleaner Politics

W. J. Carnes, proprietor of the Hotel Olive, and for 10 years a citizen of Tampa died at Sanford Saturday afternoon about three o'clock, and the remains were laid to rest at Wodlawn cemetery yesterday morning. Funeral services were held at the First Methodist church yesterday morning at 9 o'clock, conducted by Rev. W. A. Cooper, pastor of the First church, of which Mr. Carnes was a faithful member since he first came to Tampa. Mr. Carnes has been an outstanding

figure in the Hillsborough county prohibition fights during the past 10 years, and especially in the campaign against illegal voting. While working quietly he was always on the job and was fearless in his efforts to drive whiskey out of the state.

Several weeks ago he became the victim of a stroke of paralysis, and although he regained speech and a partial use of himself his general health condition has grown worse steadily. He was over from Tampa to Sanford, where his son S. J. Carnes is operating a hotel soon after the paralysis stroke and remained there until death overtook him.

The deceased leaves one daughter, Mrs. T. M. Christian, of this city, and four sons, J. W. Carnes, Douglas, Ga.; C. E. Carnes, Lafayette, La.; W. P. Carnes, Baton Rouge, La.; and S. J. Carnes, Sanford. Besides these he leaves three brothers, Dr. Will Carnes, Memphis, Tenn.; Dr. C. S. Carnes, Sanford, Dr. C. S. Carnes and wife, and Mrs. Mary E. Winstead attended the funeral.

His daughter, Mrs. Christian, and two of his sons, J. W. Carnes and S. J. Carnes were also present at the funeral.

PENNSYLVANIA IS FILLED

First Time In History That College Has Passed Mark

Philadelphia, Pa. Nov. 18.—For the first time in its history the registration of the University of Pennsylvania has passed the 10,000 mark. Figures made public by the college authorities show an enrollment of 3,210. This is an increase of 1,210 over the largest previous registration. The university is re-educational in only a few departments yet 1,916 women are registered.

It was necessary to refuse admission to at least 1,500 students. The great increase in all departments has compelled the University to make immediate plans for the erection of several new buildings. The first to be constructed will be a dormitory for women students.

The Most Fairly Priced Fine Car Built

THE Chandler Six leads the whole medium priced field of motor cars so distinctly in popularity, because it gives such extraordinary value at such a moderate price.

We firmly believe, and so do great hosts of people all over America, that the Chandler Six is the most fairly priced fine car built. It is quite as distinct in the excellence of its design and construction as it is in the fairness of its price.

And that is why the Chandler has come into its position of undeniable leadership.

The Chandler Six is distinguished for its marvelous motor—the exclusive Chandler motor now in its seventh year of constant refinement—and for the sturdy strength and simplicity of its entire chassis, and for the beauty and comfort of its several types of body.

ELDER SPRINGS WATER

THOMAS D. BAKER, Ph. D.
Analytical and Consulting Chemist - Professional of Natural Science Emeritus, Rollins College, Florida
Private Laboratory of Rollins College Winter Park, Fla., Nov. 5th, 1918
Mr. T. O. Charles Sanford, Fla.
Dear Sir:
I have completed careful chemical analysis of the sample of water that you brought me early last week, and have obtained the following results:
Color.....Clear Chlorine.....1.75 parts per million
Reaction.....Neutral Total solids.....4.00 parts per million
Free Acids.....00 parts per million Hardness.....23.02 parts per million
Albuminoid Ammonia.....Trace Nitrate.....Trace

The absence practically of free and albuminoid ammonia in this water and its very small amount of chlorine indicates its excellent quality for household purposes. In addition to the good quality characteristics of superior household water, it possesses special features of much value, especially those of excellent natural aeration and LOW degree of hardness.

The bacteriological analysis, resulting in an average total count, in four samples of the water, of 2 bacteria per cent, and in finding no color, or other harmful bacteria, fully confirm its good quality indicated by the CHEMICAL analysis.

Of the many waters of this and other regions that I have analyzed, I have found none superior in all good qualities to that of the "Elder Springs Water."
Yours very respectfully,
(Signed) THOS. D. BAKER

AMERICA must raise more live stock. The number of horses, cattle, sheep, and swine in the world has fallen so low that the greatest live stock shortage in history is upon us. That's why our officials have decided to offer such generous premiums for the best farm stock shown.

FLORIDA STATE FAIR
Jacksonville, Fla.
NOVEMBER 22-29

NEWSPAPERS THREATENED WITH RUIN

SCARCITY OF PAPER AND HIGH PRICE WILL CAUSE SUSPENSION OF MANY

New York, Nov. 19.—Thirteen cents a pound f. o. b. mill, was asked for print paper here during this week. The price was for car load lots, and was made to one of the largest purchasers of sheet print paper in the country. The mill refused to make a price of anything less than 13 cents.

Chicago, Nov. 18.—It is reliably

reported here that one of the large daily papers of the city has made an offer of 10 cents a pound for 1,000 tons of roll print, and has not found a mill that will take the order. The Chicago papers are being forced to omit a large amount of advertising from every issue because of the shortage of print paper.

Washington, Nov. 18.—Complaint of inability to secure print paper are pouring into government offices here. Newspapers are reporting prices of 8, 9 and as high 12 cents being asked for print paper, and when orders are placed at these prices it is possible to secure only very small quantities, not nearly enough to meet their needs.

Omaha, Nov. 19.—One of the largest wholesale paper dealers of the country reports print paper prices going upward every day, with a raise in one week of more than \$1 a hundred. Many mills are refusing to accept orders at any price, and a

forced suspension of many papers is looked for, as there is no prospect of any relief in the immediate future.

Washington, Nov. 18.—Small and weekly newspapers are threatened with destruction because of inability to obtain print paper, the house was told by Representative Reavis, republican, Nebraska. He charged that news print manufacturers were refusing to sell small publishers, in order to fill the wants of the metropolitan dailies.

Paper consumption by the big city dailies and magazines has greatly increased, Mr. Reavis said, by an "extensive national advertising campaign conducted to defeat the government in collecting taxes." He urged that the internal revenue bureau investigate the returns of concerns conducting the campaign to disclose to what extent their excess profits tax was reduced by the costs of the advertising.

New Irish Bill

Dublin, Nov. 18.—Many Irishmen believe the government's new Irish bill will give an option to northeast Ulster of coming into or staying out of a Home Rule parliament. Part of the inducement for Ulster to come in may be provided by adoption by the plan first suggested by Premier Lloyd George under which an Irish parliament would meet alternately in Belfast and Dublin. It is said here that Sir Edward Carson would vigorously oppose the plan of allowing Ulster to exercise its option by voting by counties. Sir Edward is said to stand out for a clean cut of the six northeastern counties.

The problem is to give self government to a country one-fifth of which at least would rather have civil war than to abandon its present status. The other four-fifths of the country has elected a parliament whose meetings in Ireland are prohibited as illegal.

Honoring American Soldiers

Dartford, England, Nov. 18.—Plans are under way for the building of a chapel as an annex to Christ Church here to serve as a memorial to those fighting men of the United States who died in the American Hospital at Dartford. The vicar, Rev. Rowland Wormell, in announcing the project stated that "the name of every American who died in Dartford would be inscribed upon the walls of the chapel, so that all who enter may be reminded of the gallant sacrifices made in the cause of civilization."

Mr. Lake's Address

The Okechohee News has the following about the address delivered at Okechohee on Armistice Day by Hon. Forrest Lake of this city:

"Hon. Forrest Lake, whose home is at Sanford, but who is known to the remotest sections of the state accepted an invitation to deliver a patriotic address, and was introduced to the vast audience by Mr. John M. Murrell. Mr. Lake did not speak longer than ten minutes, but it has been many a day since such words of wisdom, patriotic words, words that none could deny, have fallen from the lips of a man in this section of Florida. During the delivery of the address, a stillness prevailed that meant much, for it demonstrated that his hearers were in complete accord—a compliment more pleasing to a speaker than if the applause had been long, loud and vociferous."

May Give Railway Workers An Increase of \$3,000,000.

Washington, Nov. 07.—Director-General Hines today submitted to representatives of the four railway brotherhoods an increase wage scale amounting approximately to \$3,000,000 a month.

The proposal, laid before representatives of the brotherhoods at the closing of the wage conference, was taken under advisement. It was not what the men asked for, but their answer will be presented to the director-general within the next ten days, and it was considered likely they would accept.

The increase would affect trainmen, firemen, engineers and conductors, but more particularly those employed in the slow freight train service. There are many other questions affecting working conditions of trainmen which have not been decided and to which no reference has been made by Mr. Hines in public statements.

Need More Census Takers

Census takers are wanted for employment during the month of January in the Paola-Lake Mary, the Ovidio-Chuluota, and the Gabriella-Longwood districts of Seminole County.

This government service is estimated to pay \$5 per day and upward for the average enumerator. Information about it may be obtained from the Postmaster at Sanford, or by writing at once to Jas. J. Emery, Census Supervisor, Federal Building, Jacksonville.

Those who apply must do so now, as the list of enumerators must be forwarded to Washington at once. Get the blank from postmaster and forward your application, filled

First Meeting of Sanford White Way Association

The first meeting of the Sanford White Way Association will be held at the Hotel Carnes Wednesday Nov. 19, at three P. M. for the purpose of electing the officers of the Association.

This is a very important meeting and would like for every citizen of Sanford to be present at this meeting.

Sanford will have the White Way and if nothing happens we will have it ready for the tourists when they arrive, this season.

Presbyterian Church

We Presbyterians had a good day Sunday in spite of the weather.

Sunday night: Seven people joined the church, four of them men.

The C. E. had an enthusiastic meeting Sunday night.

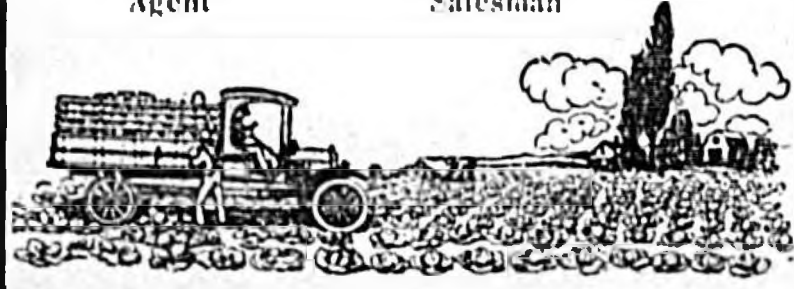

Ford

THE UNIVERSAL CAR

The Ford Model T One Ton Truck with its manganese bronze worm-drive is really a necessity for the farmer because it solves his problem of economic transportation from the farm to the city. And in farm work alone, it will be found a great money saver as well as a big labor saver. Has all the merits of the Ford car multiplied by greater capacity with greater strength. No extra cost in operation. We'd like to talk it over with every farmer. Bring your Ford car to us for necessary repairs and thus get the genuine Ford parts and reliable Ford workmanship.

Edward Higgins, Salesman

THE BAPTIST MESSAGE TO THE WORLD TODAY

Here are a few of the fundamental things for which Baptists have always stood and for which they stand today:

Absolute religious liberty for all, Jew and Gentile alike. Church membership composed only of converted and baptized persons.

Self-determination in all religious matters without any overlordship or overhead management of any kind.

The supreme sovereignty of Jesus in all matters of the soul.

The Bible the law of Christ's reign.

It is for the promotion of the salvation of lost souls everywhere and the fuller propagation of these principles that the

sizes 16 to 48

\$9, \$12.45, \$17, \$22

H. B. CROWDER

117 E. First St.

Sanford, Florida

"Henry's" and "Harry's."

While I know one Harry who was so christened with disregard for the more dignified Henry and there may be other instances of the kind, there seems to be little doubt that the latter is the parent of the former name. England has always called its King Henrys "Harry." During the reign of Henry VI, who succeeded to the throne in 1422, there was a piece of money coined called the Harry noble, and in the time of Henry VIII there was a tiny coin named the Harry groat. "In Jerusalem shall Harry die," said Henry IV.—Chicago Daily News.

Fair Play Imperative.

"Business is business" is a motto all workers should keep before them. They should demand their rights, but should remember that those in authority have rights also, and are entitled to fair, honest treatment from the people they employ. Therefore, one must learn to be punctual, non-talkative and kindly to their associates. The employee who swerves from this code is not playing fair with employer and certainly should keep silent on the question of equal rights.—Exchange.

Glory of a Nation.

The true glory of a nation is an intelligent, honest, industrious people.

The civilization of a people depends on their individual character, and a constitution which is not an outgrowth of this character is not worth the parchment on which it is written. You look in vain in the past for a single instance where the people have preserved their liberties after their individual character was lost.—E. P. Whipple.

About the Tourmalines.

Tourmalines were discovered to us as gems in the eighteenth century, when some Dutch children, playing with bright colored stones on a warm summer day, noticed that they attracted and held straws and ashes. For some time after this the stones were called "ash drawers," and later it was discovered that they have electric power, greatest between the degrees of 100 and 200 Fahrenheit.

Of Course Paul Wasn't Mad.

Paul and Billy live in the country. There are two girls in the family also. Their aunts in town are fond of sending them things. One package contained nothing for Paul or Billy. Paul wrote to his grandmother: "What's the matter with my aunts? They sent a package out here and there wasn't a thing for Billy or me in it, and Billy's pretty mad about it."

Tattoo Removal.

Various methods for removing tattooing are employed, the best of which consists in going over the tattoo marks with a strong solution of tannin, using the tattooing needle, then rubbing with silver nitrate crayon. Nitric acid, salicylic acid and glycerine, chloroform and a mixture of pepsin, glycerine, hydrochloric acid and water are other substances used for this purpose.

Thriving Table Leg.

Among the furnishings of a South Carolina home, says Popular Mechanics magazine, is a small willow table that is the talk of the neighborhood. Although it has been kept indoors and far from any moisture ever since it was built and properly painted, several months ago, one leg is now the proud parent of four leafy sprouts, which thrive in their strange surroundings.

Combines Three Signals.

A newly designed triple-tone electric bell yields a clear ring from one push button, a buzz from the second, and a combined ring and buzz from the third. The buttons may be placed on three different doors of a house, or in office or shop the signals may be used for calling three different persons.

Pleasures Coming Fast.

Merle was fond of bananas. When his father took him into his mother's room to see the new brother that had arrived the night before the child was given a banana as he left the door. "Gee," he cried delightedly; "a new brother and a banana, both the same day!"

First Advertisement.

Although the first periodical paper which contained news in England appeared in May, 1622, the first newspaper advertisement published does not seem to have been until nearly twenty-five years afterward. The advertisement related to the sale of a book "applauded by the Clergy of England."

Tired of Life Early.

Tired of life at ten was the excuse made by a boy at the Kingston (London) children's court when charged with attempting to commit suicide. Another boy saw him with his head on the railway track and they had a tussle before he could be got away.

For Hardwood Floor.

If an unpolished or unpressed hardwood floor becomes gray apply a solution of two ounces of oxalic acid dissolved in just enough water to wet it well all over. Let stand 15 or 20 minutes; then rinse in cold water and proceed to wash without suds as usual.

Optimistic Thought.

Time is a better comforter than reflection.

VAIN REGRET.

"I'll bet when Jim got his decoration for bold exploits from the French general he wished he hadn't had so much cheek."
"Why should he?"
"Because the general kissed him on it."

PHILIP B. KENNEDY

Philip B. Kennedy of New York, formerly commercial attaché at London, has been appointed director of the bureau of foreign and domestic commerce, department of commerce, succeeding Burwell S. Cutler.

PRINCE AND PUPPY

By CHRISTINE HAYES.

"O—oh Auntie Victoria! We've got a puppy!"

This greeting was shouted in sing-song and reached Victoria Reed a full five seconds before the twins did.

"He has the cunningest little nose!" As always with Zaldee when excited, the last word came in a clear and astonishing high "g."

"But his skin's too loose," confided Dorothy, sadly.

"Oh, that's all right," laughed Auntie Vic, adding, as Dorothy's dark eyes still doubted, "I'll grow to fit it; you wait and see."

When Victoria had kissed the twins and petted the puppy and rescued the skirt of her new tweed suit from his indiscriminating teeth, she inquired: "Where's your mother?"

"Gone to a party. She left a note for you. It's on the hall table."

"Go get it, Zaldee," Dorothy suggested. Victoria opened the note carelessly, which read:

"Sorry I can't be here, dear. Make yourself at home. Ollie will give you some lunch. See you soon. M. C.'s in town."

Victoria gave a little breathless, involuntary, "Oh!" and her face grew as white as a healthy coat of tan would let it.

"What's the matter?" chorused the twins.

"Not a thing, sugar angels," replied their appallingly untruthful aunt, "except I'm as hungry as a couple of bears."

"If she was so awful hungry," Zaldee wanted to know, when the adored young aunt had gone to change her dress, "if she was so awful hungry, Dots, why didn't she eat anything?"

But that, so far as Dots was concerned, seemed destined to remain a mystery.

Meanwhile, Victoria, donning a ruffled blue voile, hummed a popular song. That didn't seem to go so very well, but she caught herself singing something she had not meant to sing and stopped abruptly. It seemed she couldn't get away from Mark Crane if she tried; even his silly song possessed her.

Oh, well, she shrugged, his being in the same town needn't make any difference to her. She hoped, of course, that she wouldn't meet him, but if she did—well, what of that? She wouldn't admit she was sorry until Mark gave in, and she knew Mark well enough to know that he never, never would give in till she showed that she was sorry. So there it was—a vicious circle. She didn't care, anyway. Not a bit. She cried a little then and there just to prove it.

"She does weigh more than two squirrels!" Shriek alteration from below interrupted the current of her thoughts. Left to themselves in the heat of debate, the twins were apt to scratch and pull each other's hair with a fury calculated to set the neighbors speculating on the Darwinian theory. Victoria hurried down.

"Don't you weigh more than two squirrels, Auntie Vic?" demanded Zaldee, passionately.

"Well," reasoned Dorothy, "we asked mother how much she weighed and she said as much as a horse and two squirrels and a monkey, and you can see for yourself that if mother weighs—"

Victoria laughed helplessly at her plump sister's subterfuge to keep the entire neighborhood from knowing her exact weight.

"Where's the puppy?" she asked. This diversion proved more than successful for the puppy was in fact, missing.

"And only yesterday," Zaldee mourned, "he chewed up my little live duck." Her aunt stared aghast. "Well, anyway," she qualified, "I pretended it was alive."

After a futile search, it developed that Gus, the grocer's boy, had seen a small yellow dog—"Yes'm, down the street a little ways." So Auntie Vic, with a doleful twin clinging to each hand, set out in the direction indicated.

They came upon the puppy sitting in front of a dry goods store "looking sorry" as Dorothy put it. "Oh, look!" she shrieked, delightedly, "he's waving his ear at us!"

He gave them an unquestionably enthusiastic reception, and as Victoria stooped to pat him, his awkward, eager paw caught in the slender gold chain about her neck. The chain broke and the locket it had suspended spun into the gutter.

"Permit me," it was Mark Crane who stood, stilly courteous, holding out her locket to her. A bit of paper escaped from it and fluttered to the sidewalk. As Mark stooped to recover that also, he read on it in Victoria's handwriting: "Prince of Dreams." In picking it up he shamelessly flipped it over with his nail—the photographed face was his own!

"Th—thank you," said Victoria, in a voice not much louder than the one with which conscience is credited.

Their eyes met, and Mark grinned—a little-boy grin, taunting, complacent, but very, very happy. It was as if he had said a number of things—things like "Ya-a-h! you had to give in!" and "I knew you couldn't get along without me, Smarty!" Which, had Victoria loved him less, would have been sufficient killing for a supplementary quarrel.

But, loving him, she knew the grin held much of wistfulness, and that there was significance in the proprietary air with which he said carelessly, "Come on, pup!"

Be Cautious

With caution, a worth-while purpose and strong determination progress is steady, smooth and sure. Difficulties fade away and your task is easy when you have been cautious and careful of your money.

PEOPLES BANK OF SANFORD

MISS CORA E. VAN NORDEN

Miss Cora E. Van Norden of the Salvation Army was with the First division when General Pershing led it in parade in New York. She established the first canteen at the front for the Eighteenth Infantry, August 20, 1918. She wears the Croix de Guerre, Saloniki Cross, a Serbian and Greek decoration and a Victory ribbon studded with four bronze stars and two silver ones.

To Save Charred Documents.

Documents that have been charred by fire are rendered readable if collodion is poured over the charred paper. In a few minutes this dries and a tough, transparent coating is produced through which the printing can be seen. Bank notes and other papers thus charred have been treated in this way with success.

Alcohol From Moss. A Swedish syndicate is planning to distill alcohol spirit from white moss there being enormous quantities available.

THEY ARE LEDGER TRANSFERS

But they're so practical and durable that you can keep nearly all your records in them.

There's a type to meet every purpose, and the ledger forms that fit them are so carefully designed that you are able to use many of the without the slightest change. Found in Red Cowhide Binding, Corners, Corduroy Binding, Hinges, Top Locking. As we demonstrate how you can save time, labor and money by using the ledger.

TRUE GREATNESS

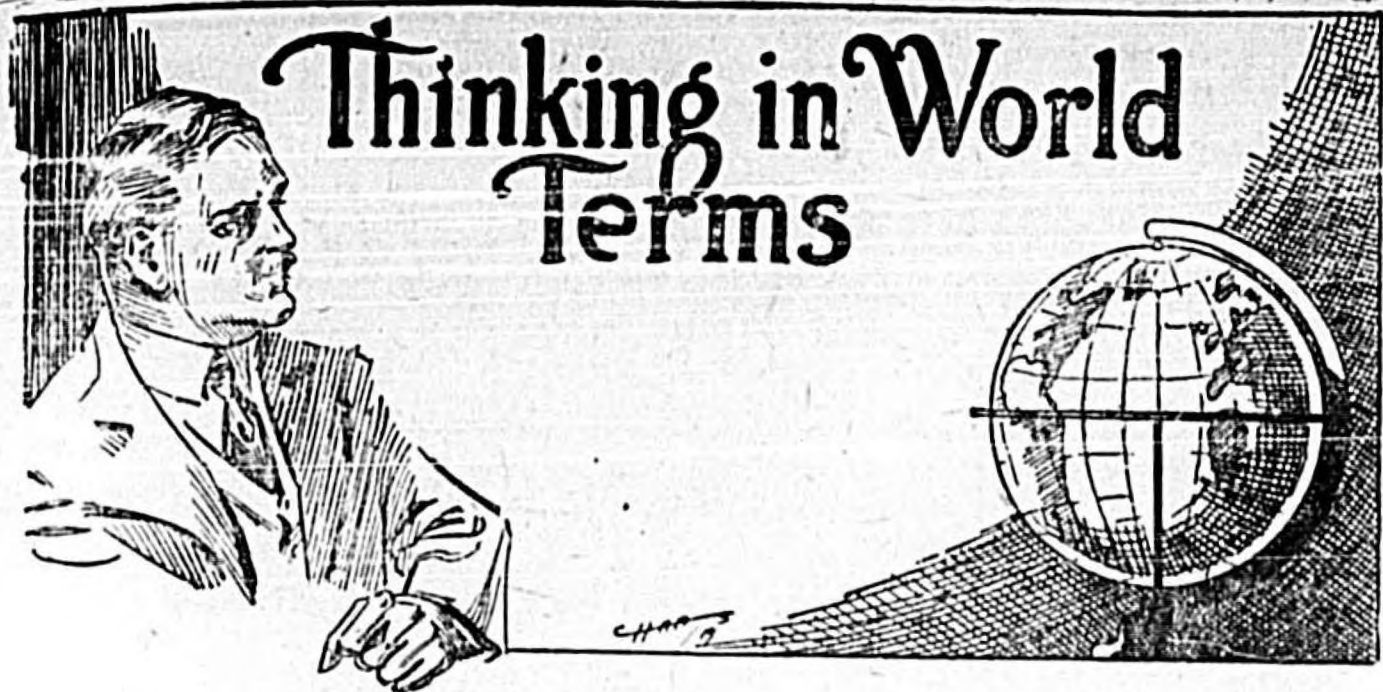

Is the result of steady, consistent effort.

Determination and perseverance are essential to success.

A growing Savings Account is a powerful aid to progress.

It develops efficiency, encourages thrift and promotes self-reliance. Set yourself on the right road by opening an account here today. One dollar will do it.

First National Bank
SANFORD, FLORIDA

Is necessary today if we meet our full responsibility to the world.

Every section of the globe is calling for the gospel of Jesus Christ.

The day is past when we can hope to satisfy our consciences by confining our religious service to our own community. The

Baptist 75 Million Campaign

Proposes to invest a vast sum in extending the Gospel to other lands in response to the command of the Master and in the hope of saving the peoples of the earth when all other means have failed. The actual drive for funds will be made during

Victory Week, November 30—December 7

But you should catch the vision now and line up with the Baptist church in your community immediately for

"MILLIONS FOR THE MASTER"

COUNTY HAPPENINGS

GENEVA

We are wondering what became of our news items of the week before last, they were sent in but not printed. Must have found the waste basket.

Mesdames Curlett, Dooley, Whitcomb and Adams spent last Monday in Orlando.

Mrs. Pattishall and Mrs. Adams

were guests of Mrs. Ernest Tolar last Tuesday.

Mrs. R. H. Morris, Miss Morris, and a lady friend, whose name we've failed to get, from Ovid, N. Y. arrived last Monday to spend the winter in Geneva.

Mrs. H. H. Pattishall has organized a junior choir, which meets Wednesday afternoons at the Methodist church to practice. We are expecting great things of the little folks.

The friends of Mrs. L. P. Chambliss will be sorry to know that she was taken suddenly worse last Sunday and it was thought best to take her to Sanford where she could have the medical aid as needed. She is at the home of her brother David Speer.

The Geneva Methodist Sunday School attended in a body, the Oviedo Sunday School last Sunday morning to get the benefit of the address by Dr. Therrell, our S. S. field secretary, and were not disappointed. Dr. Therrell is talented in the S. S. work and gave us much food for thought as well as action.

Mr. and Mrs. H. B. Levy and Miss Rose Levy are expected next week, from Long Island Y. Y. to visit Mrs. Levy's father Mr. T. D. Peter s.

GRAPEVILLE AND UPSALA

Rev. Swanbon of Pierson was expected Monday evening at the Swedish Lutheran church.

Mr. and Mrs. Frank Miller of

Sanford motored out to their orange grove for a short while Sunday. We were glad to hear of the imp in his mother's health and hope she will soon be up again.

We understand that Barney Beck has been making quite a few extensive improvements on his house this summer, south of town. Just now it is being treated to a coat of paint.

Mrs. George Benton has also been entertained at the home of her niece Mrs. Barnwell Beck is at present visiting friends in Lakeland for a few days.

Elmer Tyner returned Monday from a short visit with relatives in Tampa.

Mr. and Mrs. Lee of the West Side were visiting at the home of their son Jesse and wife in Upsala Sunday.

Mr. and Mrs. E. W. Lundquist and little son Raymond and Mr. and Mrs. E. F. Lundquist and their three children visited with friends on 1st street last Sunday.

The organ at the Presbyterian church which has been in such a bad shape for sometime has been worked on last week and we hope to have better music from now on. Wish now some one would volunteer who is a player. We are told to praise the Lord skillfully with music but it is rather hard when the keys give forth such uncertain sounds.

Mr. Ballinger is trying to raise the funds to meet this expense, and if any are willing heart to give, don't wait to be asked but chip in your bit and it will be thankfully received and acknowledged. We are only a small out station and it is hard to keep things going.

Last Sunday it tried raining so Mr. Ericson kindly brought us home also carrying in Rev Brower after the service.

Rev. Sessions is expected out to conduct the service, next Sunday. Hope he will have better luck than last time when he put his bicycle out of commission. Any way he will be pleased to see empty seats fill up. Come out and help.

WEST GENEVA AVENUE

The cool wave is fine since the rain it makes everything feel much better. Maybe people can have some gardens now the insects can't destroy everything that we plant as they could destroy them.

People around in our settlement has begun fixing to grind cane for syrup. It will be a big raving with those that have cane to make syrup.

MAIL ORDER DYE HOUSE

Send garments by parcel post to us for expert dyeing. Write to us for price list and color explanation card. Reference Peoples Bank.

SOUTHERN DYE WORKS

1424 Clark St., Jacksonville, Fla.

We want an agent in each town to represent us.

Joe Neros' place is the only one round here that has a mill.

What we dread now is the "flu" It always follows the cold wave we truly hope it dont come this winter.

Mr. Elmer Tyner has been spending a few days in Tampa with his people and returned home Monday.

Why is it there is plenty of sugar in Tampa andd we can't get any in Sanford? We will all be glad when we can get a plenty here. I guess the price will be high but people can use a little sometimes.

Mrs. Culp and Mrs. Tompson spent Monday evening with Mr. Vaughn.

Mr. Nicola is on the mend again after suffering so long with rheumatism.

Well, Santa Claus is already reading the school reports. We wonder if Santa Claus is going to strike too. We guess he will. Everything else else has struck.

New Korean Schools

Seoul, Korea., Nov. 20.—The government has declared its intention to establish a hundred new schools annually during the next four years for Korean children.

Why The Price.

Washington, Nov. 18.—Attorney-General Palmer is asked to report to congress the authority for the fixing of sugar prices for Louisiana cane growers by a measure introduced today by Representative Tinkham, Republican, Mass. Methods of the Louisiana sugar growers and other crop growers is also inquired into.

No Free Silver Now

New York, Nov. 18.—Silver now a worth nearly five cents an ounce more as metal than it is as coin. Silver for San Francisco delivery was quoted today at \$1.34 an ounce, as at \$1.38 1-2 an ounce. Buy ing for Chinese account is believed to be responsible for the advance.

A party of city officials from Montreal, Canada, will visit Jacksonville the 24th of this month, for the purpose of inspecting harbor facilities. The Jacksonville commission will entertain the visitors with a trip about the harbor and a luncheon at one of the hotels. The party will proceed to Miami and thence on to Galveston, Texas.

KIDNEYS WEAKENING?

LOOK OUT!

Kidney troubles don't disappear of themselves. They grow slowly but steadily, undermining health with deadly certainty, until you fall a victim to incurable disease. Stop your troubles with there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering, begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you are entirely free from pain. This well-known preparation has been one of the national remedies of Holland for centuries. In 1896 the government of the Netherlands granted a special charter authorizing its preparation and sale.

The housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. They restore strength and are responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with GOLD MEDAL Haarlem Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

If you want to know what rare and unusual enjoyment Camels provide smoke them in comparison with any cigarette in the world at any price!

CAMELS are a cigarette revelation any way you consider them! Take quality, or refreshing flavor and fragrance; or, that wonderful mellow-mild-smoothness you never before got in a cigarette smoke! Yet Camels are so full-bodied and so full-of-satisfaction you marvel that so much delight could be put into a cigarette!

Camels expert blend of choice Turkish and choice Domestic tobaccos makes them so irresistibly appetizing! And, the blend explains why it is possible for you to smoke Camels liberally without tiring your taste! You will prefer Camels to either kind of tobacco smoked straight!

You'll realize pretty quick, too, that among the many reasons you smoke Camels is their freedom from any unpleasant cigarette aftertaste or unpleasant cigarette odor!

Once you know Camels you won't take much stock in premiums, coupons or gifts! You'll prefer Camel quality!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Smokers realize that the value is in the cigarettes and do not expect premiums or coupons!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes, or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.
